The Troop has been busy preparing for the upcoming Bosnia tour in June. A mixture of the usual ITDs and exercises has been done as well as the normal first and second line inspections. We had a surprisingly good RSIT considering the state of the kit after Kosovo but it proved that there as a lot of hard work put in after the tour. Everyone was glad to get away for leave in February and it was a welcome relief from all the hassles of work. On return we had adventure training either skiing, Lanyard Trophy training, or hill walking in Wales. I went along with 12 others to Wales and did the 'fan dance' around Brecon, lead by **Lt Paul McTurk** who was determined to tell us everything about his homeland - them Welsh hills and valleys. Back to work on 3 April and now we are straight into pre Bosnia training including a lot of cross training in preparation for all the different kit that some operators will have to use. At least we have got some new people to help out in the form of new arrivals **Sig Steve Potts** and **Sig Nicki Earl** and also **LCpl Daz Kirkby**. Unfortunately it will soon be time to say goodbye to **Sig Nicky Dodgson** and **Sig** 'Melter' **Roberts**. Good luck to them in 3 Div and 1 Div respectively. We look forward to the augmentees arriving from 7 Sig Regt, we might even have a full Troop by the time we deploy!

EXERCISE RAT DIAMOND - *by Sig Brierley*

Exercise Rat Diamond
(L-R): Sigs King, Found, Cole and Brierly

It may seem strange for a BFG unit to go hill walking in Wales but when you consider that the aim of the week was to be a cheap and cheerful adventurous 'holiday', it actually proved to be a good option. The plan was to be self sufficient, staying at a different campsite each night and to build up to walking at least a third of the famous 'Fan Dance'. Transport was a huge difficulty but we eventually secured a grant to hire vehicles and drive all the way. Accommodation was tents and food was from Safeway. Easy, simple and safe! Of course there was a bit more to it than just walking. The Exercise OC knew the area well enough to enable us to explore waterfalls, caves, tunnels, cliffs and a few dodgey pubs! We found a campsite at the Castle Inn Pengenffordd near Talgarth and at Pencelli near Talybont to be particularly good with all the facilities including a pub nearby. The first day's walking was over the Black mountains. From there we progressed westwards towards the Brecon Beacons finishing the week with the Fan Dance over Pen-y-Fan, Cribyn, Corn Ddu and others. Of course it was not the 'Full Monty' but a good challenging walk none the less. The week was a success, simple and cheap and we recommend it to any unit short of time, money and instructors as a quick break as long as you avoid any pub near Merthyr Tydfil!

BA(G) MINOR UNITS RUGBY FINAL 11 FEBRUARY 2000
by Sgt Stu Leadbeater

4 Armd Bde HQ & Sig Sqn (204) and 2 Armd Field Ambulance turned out on a wonderful winters afternoon for the Minor Unit Final. The game started with 2 AFA exerting pressure on 4 Armd for the first ten mins, 4 Armd were camped in their own 22 metre line, then an opportunist try (**Cpl Marcus Pollitt**) broke the deadlock by hacking the ball on to score in the corner. 4 Armd Bde then settled into their game with the forwards starting to dominate in the scrum and loose play led by **Maj Steve Burton** allowing the three quarters to show their talents, running in try after try. At half time the score was 31-0 to 4 Armd Bde. The second half started out with 2 AFA putting up a sound defence but the seeds had been sewn and 4 Armd played some great flowing rugby with both forwards and backs linking together entertaining the crowd and pleasing the coach (**Sgt Stu Leadbeater**). The whole team stuck to the task at hand giving 100% commitment in both halves and enjoying the third half. A special mention should go to **Sig Gaz Reason** playing his first senior rugby match.

Try Scorers:

Maj	**Steve Burton**	x 2
Maj	**Will Bramble**	x 1
WO2	**Dean Briers**	x 1
Cpl	**Marcus Pollitt**	x 2
Cpl	**Rob Sirignano**	x 1
Sig	**Frazer Anderson**	x 1

Conversions:

Cpl	**Marcus Pollitt**	x 5

4 Armd Bde HQ & Sig Sqn (204)

19 MECHANISED BRIGADE HEADQUARTERS AND SIGNAL SQUADRON (209)

Sqn Comd **Maj P. Peel**
RSM **WO1 (RSM) S. Mitchell**

After a long six months, the Squadron has at last returned from Kosovo with only a few minor hiccups. With all the kit now returned to Catterick, we have a short time to turn around the vehicles before departing on more expensive leave. Almost immediately after returning from the fantastic Kosovan weather, our minds turned from operations to drill as we prepared for the Medals presentations. **Brig Cook** came up from the heights of 11 Sig Bde to present (almost) all members of the Squadron with their well-earned Campaign Medal. The seniors later retired to the Sergeant's Mess for the presentation of LS & GCs to **Sgt** 'Mac' **McGibbon** and **Cpl Ian Kirkland**, and the Accumulated Campaign Service Medal to **Sgt Aidy Lines**. Well done to you all! The day was finished off by an even more well-earned post-tour/Christmas/Millennium celebration at Darlington Rugby Club. Despite **Capt** 'Misinformation' **Griffiths's** attempts to keep the OC away from the party, he did eventually turn up (via the football club), and the Squadron had a good night, (though absentees were noted)!

ALPHA TROOP
Tp Comd **Capt John Griffiths**
Tp SSgt **SSgt Jase Smithurst**

As the Millennium tour of Kosovo started to draw to a close, the arrival of 7 Armd Bde from Hohne was welcomed by all. The outbreak of red rats around the HQ was a sure sign that we would be going home soon and prompted a new high of morale as well as a couple of celebratory two can nights in the bar. The vast majority of the Squadron had the rough end of the stick, having to drive all the vehicles to Thessaloniki and load them on to the ship. Meanwhile, the Brigade staff, Ops team and most of the SNCOs got to fly home direct from Pristina a day early, or that was the plan. The move down to Greece went fairly smoothly up until the point where the plane arrived without any baggage bins and we had to load the entire luggage into the main compartment. However, despite this hiccup, everyone remained relatively calm, safe in the knowledge that the flight from Pristina had been moved to Skopje and delayed by 36 hours and we would be getting home before the staff and SNCOs. He who laughs last……. It was then straight on leave for a week before coming back to the joys of recovering vehicles from the ship. It was with a puzzled surprise that we found we had gained an extra 436 during the voyage, that changed to entertainment when it materialised that 38 Engr had not discovered that they were missing one. The next four weeks were then spent spending all the money that had been saved in the previous six months as the troop departed to various locations around the world. Most had a good time and returned to work refreshed. Unlucky Tommo.

BRAVO TROOP
Tp Comd **2Lt Simon Bristow**
Tp SSgt **SSgt Mick O'Brien**

19 Mech. Bde HQ and Sig Sqn were finally leaving Kosovo. With the arrival of 7 Bde smiles were starting to return to the faces of the Squadron.

By the time it came to the drive through to Greece the smiles had turned to huge beaming grins. It was a long drive through the night but the need to gets home kept everyone keen and awake. The smiles were torn from our faces when we were faced with the awful task of loading our own plane with all of our wpns and kit. All of this had to be done in the pouring rain and I am sure that everyone had some choice words to say to Cosair for delaying our flight and making it a miserable one. The Squadron all enjoyed their post tour leave but it was soon time to be back at work. The fun wasn't over yet as the Squadron had organised a millennium party, which was held at a local rugby club. The party went on late into the night, too late for some people. **Sig Ross** 'Full Monty' **Hunter** was found asleep in the toilets but thanks to the rugby club staff managed to make work the next day all be it a little worse for wear!

Although the Squadron is busy turning around the dets from Op Agricola II we still have time to say goodbye to **Sig Shepherd**, **LCpl Gray** and **Capt** 'Where's the Christmas tree?' **Toze** (much to the REME's relief) and all the others who have left the Squadron within the last six months. You will all be missed especially **Cpl Vickers** by his best mate the Yeoman! Good luck to you all. We would also like to welcome the newcomers. Do you know what you are letting yourselves in for?!

SUPPORT TROOP
Tp Comd **Capt (QM) Graham Reith**
Tp SSgt **SSgt Steve Legg**

Early April, Year 2000 and Support Tp are back to work after a winter tour of Kosovo with loads of stories to tell. **Sigs Ian Garbutt** and **Phil Reid**, led what we thought was a competition to have as many crashes as possible in the brigade MT section. **Sig Richie Calladine** was a close third. After a month's leave it was back to work in sunny Catterick with a lot of new faces and appointments. **SSgt Steve Legg** is the new Troop Staff Sergeant taking over from **SSgt Bob Low**. **Sgt Mark Brundle** takes over the Tech workshops from **Sgt Daz** ' I'm not a control freak ' **Bailey**. Massive welcomes to the Troop's newcomers, **Sig's Feltham**, **Grant**, **Hill**, **Sutcliffe**, and **Watt** to the MT, **Cpl Wood**, **L/Cpl's Bassett**, **Scarcliff**, **Tomkow**, **Sig's Leather**, **Marsh** and **Wibberley** to the Tech workshops. Sad farewells to the escapees, **Cpl Andy Porter**, **Sgt Jim Burnham** and **Sgt Daz Bailey.**

16 AIR ASSAULT BRIGADE HEADQUARTERS AND SIGNAL SQUADRON (216)

LPHA TROOP - *by Sig Paul 'Flash' Gordon*
Tp Comd **Capt J. Lambeth** R SIGNALS
Tp SSgt **SSgt C. McKenna**

Alpha Tp has been its customary hive of bustling activity since we returned for the new school year in January. A week after leave had finished the Troop found itself deploying very early one Monday morning down to Salisbury Plain for the Squadrons' annual shakeout exercise, Partheon Shot. Thanks to support from 3 Div, we could deploy our Ptarmigan assets for the first time in ages. Consequently the Relay and Systems operators amongst us actually had something other than guarding the camp to do whilst the rest of us went off to win the war. There have been numerous changes to the Troop Orbat since the New Year. Not only have a number of vehicle crews moved for a change of scenery, but there have been some notable departures and arrivals. **Cpl Jo Ruth** and **Sigs Kris** 'Afkal' **Letton**, **Stu Downard** and **Neil** 'Jacko' **Jacklin** have all departed for new lives in Civvy Street. We wish them well and look forward to seeing them sometime soon. We welcome in **Cpl Jeff Farnes**, recently arrived from Ireland, and **Sig Dan** 'Sonic' **Seager** who comes fresh from Blandford and keen to do any course that will get him a badge (Don't forget to get the beers in lads!). In between exercise turnaround, first line inspections and pre-deployment preparation we managed to squeeze in a trip to the Imperial War Museum. An excellent day was had by all, particularly **Sig** 'Tel' **Bacon** who enjoyed the museum so much that he's vowed to go back again in his own time for another look round. An anorak and bobble hat has been indented for on his behalf in light of this announcement.

BRAVO TROOP - *by LCpl 'Simmo' Simpson*
Tp Comd **Lt R. A. Hamilton** R SIGNALS
Tp Sgt **Sgt D. Owen**

B Tp ended the year by having not one but two Christmas bashes. The first was in a local pub where the Troop strutted it's stuff to mixes created by DJ, **Sig Fletcher**. The second was also held in a local pub where **LCpl** 'Robot Mary' **Murray** arranged a game of pass the parcel containing all sorts of interesting surprises. He got his parcel a few weeks later when his second tape cam through – well done! Other congratulations go out to **LCpl Russell** and his wife **Claire** on the birth of their baby daughter, **Kea** and **Sig** 'Breath of fresh air' **Frost** who is now happily engaged to **Cheryl**. Our Troop **SSgt Tony May** left us to go to 7 Sig Regt and **Sig** 'OJ' **Olejnik** departed to Civ Div to live with her new husband in Wiltshire. **Sig** 'Dougie' **Donnelly** arrived just after Christmas leave from Blandford and was promptly sent on Pre Para, a nice welcome surprise to the Troop. Our Troop **Sgt Dave** 'Gravy' **Owen** returned to work with the New Year's resolution of getting away from the garages as much as possible. The troops were given different tasks of organising trips out, the first of which was a visit to London's National War Museum organised by **Sig** 'Romford' **Chacksfield**. The Troop met at Waterloo train station and walked the short distance to the museum. An hour later we left the museum shell-shocked from the Trench Warfare and London Blitz experience to go sightseeing around the city. The London Eye wasn't working and as much as **Cpl** 'Health and Safety' **Barringer** wanted to visit the Dungeons in the Tower of London to see all the sharp cutting implements. The Boss, **Lt Hamilton**, decided that it would be safer to crack on to Covent Garden. **LCpl** 'I'm' **Good** and **Sig** 'All' **White** impressed no one with their juggling skills when they thought they were better than the street entertainer. The day came to an end with **LCpl** 'Septic' **Childs** and **LCpl** 'No Crypto' **Simpson** driving back to Colchester, in time to get the Troop back to prepare for Ex Eagles Flight.

B Troop at the Imperial War Museum,
thereby proving that they went where they said they were going
before going on to re-enact scenes from the blitz

CHARLIE TROOP
Tp Comd **Lt A. Courage** R SIGNALS
Tp SSgt **SSgt P. Hatton**

The first Squadron exercise of the new Millennium saw the Troop deploy onto Salisbury Plain for Exercise Partheon Shot. The Troop's main effort was to carry out four-man patrols across the plain and to set up Op's overlooking the Squadrons' other comms assets and to report the findings to a base station in York manned by **LCpl Chris Cant.** All patrols went well apart from c/s 33D comprising of **Cpl** 'Bob' **Hoskins, LCpl** 'Scotty' **Finn** and **Sigs Spence Blackmore** and **Steve Jones.** They were compromised in their OP and after using a cover story that they were from the Duke of Wellington's Recce Platoon were forced to run away! 48hrs later, the patrols recovered to a RV to get a good night's sleep prior to carrying out a parachute the following day. The weather was favourable so twenty jumpers travelled down to RAF Lyneham and boarded three aircraft. After the usual roller coaster ride, the green light came on and the Troop dropped onto Everleigh. A big hello goes out to **Sig Newell** who has arrived straight from Blandford. Congratulations go to **LCpl Barnes** and his wife **Olivia** on the birth of **Callum** and also to **SSgt** 'Kebabs' **Read** on his promotion to WO2.

MT TROOP - *by Sig 'Jim' Metcalfe*
Tp Comd **Capt M. Schofield** R SIGNALS
Tp SSgt **SSgt D. Goldsworthy**

MT have a number of obligatory announcements which no *Wire* article would be complete without. Congratulations to **Cpl** 'Rab' **Burns** and to his wife who have recently had a baby boy. In addition **Sgt Mark Makings** and his wife have had a child – we wish both couples a good

night's sleep! MT has had a new arrival in the form of **Sig Hoggett** who has been posted from 7 Sig Regt, thereby giving **Cpl** 'Kit' **Knight** another problem child to deal with. The LAD would like to welcome **Cfn Paul Austin**. 'Cheerios' go to **LCpl** 'Phil Collins' **Humphries** who has decided to fly the nest for Civ Div. **LCpl Fogarty** has eventually completed his Para training having waited two years for his jumps course! **Sig Burgoyne** and **Sig** 'Crazy' **Craven** have recently completed their motorbike courses and are looking forward to forming their own 'Black Widows' club and terrorising the local OAP's. OC Sqn orders here they come!

(L-R): Sig Paul 'Stan' Bowes, Cpl John 'Yes I am quite mad' Wilson Sig Neil 'Thumbs up lads, I'll be a civvy by the end of the week' Jacklin, LCpl Lee Chamberlain, Sig Gaz Lawson and LCpl Ange Wright recreate a scene from the Blitz in a London pub following their trip to the Imperial War Museum

MT Tp has continued to lead where others fear to tread and have been busy getting as many people on their bike course as possible. The MT biker gang has grown to disproportionate levels and is now at the stage where unless you can hang in with conversations which run along the lines of, 'Have you seen the new..?' or 'That's a schoolboy's bike…' then you are treated as an outcast. **Sig** 'Hoggy' **Hogget** has successfully managed to break MT's 100% pass rate and has consequently been relegated to start his own push-bike club. **Cpl** 'Mick' **Fernie** has upheld the professionalism expected of MT Tp. Despite training hard for the Lanyard team, 'Mick' has unfortunately carried out more inspections of the back of the Jack Wagon than anyone else and can report that it is in good order. **Sig** 'B' **Burgoyne** is due to depart to Kosovo soon for a war ravishing tour of eight weeks. Best of luck to you, war hero!

SUPPORT TROOP
Tp Comd **Capt S. Clarke** R SIGNALS
Tp SSgt **SSgt P. Latimer**

Support Tp hit the ground running this year and found itself deployed in February on Ex Eagles Flight closely followed by NITEX, the RAF's annual live firing exercise. For this the Tp deployed to RAF Leuchars in Scotland, where, other than watching **Capt Clarke** departing for another round of golf or off to steal more boulders for his rockery, the Exercise was very low key and presented us few problems. On a more interesting note was the Troop's day out to the nation's capital. After what seemed an eternity on the road, we eventually got to Chelsea Barracks where we posed for numerous photos before **Cpl Stuart** and **Cpl** 'Baby face' **Angel** stole the prize for best piccie by happening to find **Richard Attenborough** sitting in his Rolls Royce. After an extensive sight-seeing programme, the Troop headed off to Romford for the dog racing. The aim had been to arrive before the racing started but after **Cpl Stu** 'I passed P-Coy and now I'll go on the sick' **Sharman** had got us suitably lost, the racing was well under way by the time we got there. Welcome to **Cpl** 'I'm Scottish but my name's a Romanian orphan's' **Stojanovic** and **LCpl Browning**. Farewell to **Cpl** 'Cheeky Northern monkey' **Bird**, **Cpl Angel** and **Cpl** 'Tudor' **Williams**. Finally a big hello to **FofS Sturman**, not because he's done anything but because he hasn't got a crate in for ages!

228 SIGNAL SQUADRON REAR PARTY

OC Rear Party **Capt A. C. Cox**

Whilst the bulk of the Squadron is deployed to Bosnia it goes without saying that there remains the solid few back in Aldershot. The Squadron changes in role has ensured that everyone back in Aldershot remains busy in particular the QMs and MT Departments. **Cpl** 'Dis' **Disley** has been sorting out the new equipment table where lesser men have failed and it will all be in place for when the Squadron returns. **Sgt Sheard** has also had his work cut out arranging transport seemingly for the whole world on their returns from theatre. Between these two Departments they have managed to take on more vehicles for **Sgt Gray** in the LAD to work on in preparation for what promises to be a busy return of the troops. **Sig** 'I am not a secretary' **Yates** who has been working in SHQ wishes to say farewell to the Squadron as he leaves for Blandford to re-trade as a technician. The Squadron wishes to say hello and welcome to **Capt** 'Joe' **Cox**, the new Admin Officer and **Sigs Burke**, **Hedgecock** and **Fairbrother**. **Sigs Hedgecock** and **Fairbrother** have already made their mark in the Squadron by frightening to death anybody daring to travel with them. **Sig Hedgecock** has also been used extensively by the AO to sort out any IT problems he may have had. Well done to both **Cpl** 'Al' **Wilson** and **Cpl Griffiths** for passing their track instructors courses and boy are you going to be busy soon. There has also recently been another successful families lunch held in the WO's & Sgt's Mess, where many a tale was told. Also a big thank you goes to our local Woolworth who donated six boxes of Easter Eggs for the troops in Bosnia. A final note must go to the FofS, **WO2** 'Lance' **Marshall** who can't wait to get back to Theatre after his gruelling time technically rebuilding the Squadron with help from the recruits from Blandford.

238 (LONDON) SIGNAL SQUADRON

SQUADRON HEADQUARTERS
OC **Maj (TFC) Dave Gilchrist**
SSM **WO2 (SSM) Ewan Hall**

The Squadron is now in a state of transition and we have said goodbye to the previous OC, **Maj Steve Hunt**, at short notice. OC Oscar Tp, **Maj (TFC) Dave Gilcrist** has taken on the responsibility until the new OC designate, **Maj Ian Seraph** arrives, but a date has yet to be confirmed. The Squadron has had several visitors during this period. The new Comd 2 Sig Bde, **Brig N. C. Jackson MBE** paid a flying visit for an initial brief on the role of the Squadron within the Army Communications and Information Systems Group (ACISG), Squadron State and Ceremonial commitments and the present situation within Chelsea barracks have kept us busy. The new Lond Dist Comd Comms, **Maj Tim Bushnell** with the OC designate, **Maj Ian Seraph**, visited for a longer briefing session.

This is a quiet time for the Squadron as a whole as we prepare for the coming silly season. The Squadron is busy planning Troop, Squadron and Brigade adventure training for late in the summer and slotting people into courses as much as possible. We have also just completed our first one week ITD package for the new training year, getting them out of the way early.

Congratulations go out to the Training Wing, **SSgt Si Hadley** and wife, **Kirsty** on the birth of their first child, **Chelsie Victoria**, and to the Chief Clerk, **Mr Terry** 'Worm' **Marsh,** on the birth of his third child, **Samuel** 'Sheringham' **Marsh**! He's got to increase the attendance down at Millwall somehow! SHQ also saw the transfer of it's very own Jennifer Aniston lookalike, **Mrs Laura Allen**, from the bustling world of the Civilian Admin Office to the relatively quiet Orderly room! This was achieved despite a huge tug of war between the staff in the two offices. The Chief Clerk may have won the battle but he isn't too confident about winning the war, **Maj** Steve **Hunt** may have been posted to HQ 11 Sig Bde, but his e-mail legacy lives on! The CAO, **Mrs Helen** 'Hadrians Wall' **Stevenson** was obviously upset by this move and can now be found wandering the corridors of SHQ not knowing which door to knock on for advice! The Squadrons' pin up girl, **Mrs Maureen** 'Mum' **Dishot**, obviously thought that the best way of getting out of typing the confidential reports was to lay on a beach in Spain for two weeks! This ploy didn't work as they were still waiting for her when she got back! Don't worry **Maureen**, a cup of tea will make it all better!

MIKE TROOP
Tp Comd **Capt (TOT) Bob Nicol**
Tp SSgt **SSgt Andy Cannadine**

This latest reporting period has seen one arrival and one farewell to Mike Tp. A big friendly Hello is offered to **LCpl Paul** 'JP' **Thomas** and his wife **Tracy** on their arrival from Blandford after 'JP' successfully completed his T3. We hope they enjoy their time here in London. Farewell to **Cpl Paul** 'Boney' **Bone** who has been posted to 8 Inf Brigade over in Northern Ireland. The Troop wishes him well not only on his posting but with his forth coming T1 crammer and entrance exam. Congratulations go to **Cpl Dean Spiers** and his wife **Tracy** on there own arrival, namely **Nathan.** The last few months have been relatively quiet. Radio Section were recently involved with the State Visit of **Queen Beatrice of Denmark**. The Section of one, **Sgt** 'Twiz' **Twizell** is now preparing for the summer 'silly' season which will include involvement with the Queen's Birthday Parade, RMT 2000, the Queen Mother's 100th Birthday Celebrations and the Scottish Opening of Parliament. The ACISG Section continues in its primary role of golfing and skiing. Indeed the Section welcomes back **Sgt Chris Jacobs**, **LCpl Paul** 'Smudge' **Smith**, **Sigs Ben** 'Mongo' **McFaul** and **Chris McGuire** from the arduous skiing exercise that is Winter Warrior. The PA Section continues doing its 'PA thing' assisting the LUOTC with their Annual Dinner, the TA with the Courage Trophy at Longmoor. The Section also looks forward to a busy summer!

OSCAR TROOP
Tp Comd **Maj (TFC) Dave Gilchrist**
Tp SSgt **SSgt Karen Ripley**

A fairly quiet time in the main from the workaholics within the Squadron. The Tp Comd, **Maj Dave Gilchrist,** has departed the shores of Oscar Tp for the time being, he now resides in the higher echelons of society called Squadron Headquarters. Talk about perks of the job, **Maj Dave Gilchrist** was only in office a week and he's off to Nepal for three weeks leave. **SSgt Karen Ripley** has allegedly put in for POHR as she is now in the chair for the Troop, but the likelihood of **Karen** dipping her hand into her pocket to buy the troops a drink is slim.

The Troop would like to bid a final farewell to one of the great London stalwarts, **Sgt Debbie Gosnell** who leaves us on retirement from the army after 23 years of service. (Approximately fourteen of which were spent in Chelsea. It is not often that any individual can say that they were in London when the blitz was on, then finished their career in the same location! The OC Sqn, **Maj Steve Hunt** was at a loss of things to say about our **Debbie**, so after a few phone calls around the globe and to records in Glasgow, he was told to go and speak to the pensioner's in the Royal Hospital, as **Debbie** had resided in Chelsea longer than most of the occupants there. Needless to say the story's were unprintable for a publication like this, but the dining out was excellent. The Troop and the Squadron will miss you **Deb's** and we wish **Charlie** and yourself all the very best for the future.

Another London old girl has left these shores for pastures new, **Miss Faye Doncaster** has left us after serving four years in the Corps as a signaller and then two years as a CO4. We hope you have a fab time travelling the world **Faye,** just remember we expect a postcard from every destination. Replacing **Sgt Gosnell** in the ADA is **Sgt Lindy Lawrence,** who leaves London Central COMMCEN after the shortest tour on record, we hope you have a pleasant stay and a wonderful time in your new employment **Lindy.** The Troop would again like to welcome back **Sgt Fergie Anderson**, after yet another detachment to Nepal, we hope you had a good time **Fergie** and kept your nose clean. The sporting member's of Oscar/SHQ have again got off to a flier in the inter troop competition, having only just today won the squash, this goes to prove that the badminton win was no fluke either, oh the sweet smell of success!

RADIO TROOP
Tp Comd **Lt Andy Wilson**
Tp Sgt **Sgt Si Schofield**

The Troop ranks have swelled by two since the last publication, hello **LCpl Carr**, arriving from NI, and **Sig Howland**, returning to 'Blighty' from 1 ADSR. Both have arrived during 'down time' for the Troop and both have made an impression! Being a 'specialist ' unit, it is understandably easy to arrange convincing pranks for new arrivals. **LCpl Andy Carr** was informed on his arrival that as part of ceremonial tradition Radio Tp still uses semaphore as a means of communication and that as a new member of the Troop he would be required to take a test, which would be assessed by his new boss and Troop Sergeant! He was issued the required flags and instruction booklet and told to practice, which he did at home, with his wife assessing! Later he was paraded on the main square of Chelsea barracks and put through his semaphore paces with a growing crowd forming, to his credit he did very well! Obviously the practice paid off - well done Andy! All blame for that one lies at the feet of **Cpl** 'Bart' **Storey**. Luckily we hadn't arranged a prank for **Sig** 'I'm not sure what LTA means' **Howland** on his first day, because he never showed up! He was found sat at home with his feet up, explaining that he thought the LTA was his last day of leave and as long as he paraded 'sometime' during the day everything would be all right! - nice try, better luck next time!

Our one ceremonial commitment for the period was the State visit of the **Queen of Denmark**. A fairly low key affair, **HRH Queen Elizabeth II** greeted **HRH Queen Beatrice of Denmark** on a cold winters afternoon in Windsor. As ever everything went well, communications wise, for the Troop

Our main role does not involve 'normal green' activities, so given the opportunity and time, as now, we always have plenty of volunteers to taste the 'real' world. During this period we have supplied willing bodies to 3 DSR, to gain experience using standard radio equipment and living in the field. All returned feeling they had learnt new skills and improved old ones (especially tent construction!). **Cpl** 'Bart' **Storey** and **LCpl Andy Carr** (yes, those of the semaphore!) deployed to Blandford to help the ODDETTE trials, proving they can use modern equipment as well. Finally the Troop, as normal, has formed the Squadron shooting team for the forthcoming Corps SAAM. Our team was picked from a cast of fifteen and will compete against Squadrons with a pool of well over a hundred! Congratulations to **LCpl Bull** of Mike Tp, he joins the shooting team for the subsequent Lond Dist RAM, to make it a truly Squadron event! We will see how we perform in the next issue.

241 SIGNAL SQUADRON

THE VISIT OF COMD 2 (NC) SIGNAL BRIGADE BRIG N. C. JACKSON MBE

On the 30 March 2000, 241 Sig Sqn were very proud to welcome Comd 2 (NC) Sig Bde -**Brig N. C. Jackson MBE** to the Squadron lines. Touring the SHQ the Commander met various Squadron personalities and teams, receiving briefs regarding the forthcoming ACISG reorganisation and the part to played by the Squadron. Finally, the visit was finished off by the Commandder presenting **Sgt John Blyth** his much deserved LS&GC and the NATO medal to **Mr Stuart Duncan. Mr Stuart Duncan** is a civil servant Technical Grade 1 (TGI) who volunteered and recently completed an eight month tour in Banja Luka, Bosnia. (Of course your wife, **Sharon** needn't know about the extra money you got!)Your secret's safe with us and the rest of the Corps .....

Brig NC Jackson MBE presenting Sgt John Blyth his LS&GC and Mr Stuart Duncan his NATO medal

243 SIGNAL SQUADRON

CORPS INTER UNIT CROSS COUNTRY CHAMPIONSHIPS
by WO2 (SSM) 'Paddy' Morrow

It was another of the OC's fine ideas that we enter the Inter Corps Cross Country Championships which were held at Bulford on Wednesday 9 February 2000. Once again **WO2 (SSM)** 'Paddy' **Morrow** had another miracle to perform in trying to find a number of abled bodied members of the Squadron who could rise to the challenge. This he did with remarkable ease having run down the Squadron nominal roll and earmarked those who had managed a pass on the BPFA. As usual it was left to the individual to train in his or her own time as trying to get everyone together for formal training as usual proved to be a nightmare.

The day of the event arrived and we donned our new cross country strip and tactics were discussed. The ladies' race preceeded the men's and our girls put up a spirited effort coming fourth overall. The men's race as for the ladies was started by **Brig Shaw** (HQ LAND). Everyone set off at a pace, notable **Sig Ronnie Warwick**, the SSM who adopted his normal slow start theory thinking he would soon catch up with **Sig Warwick** but too his amazement **Sig Warwick** kept on going coming a creditable 34th overall. With all the team home safely it dawned on us that we had actually done quite well. It wasn't until the scores started to appear on the score board that we realised that we had in actual fact won the Minor Units. The OC was overwhelmed at our surprise win and is now more determined than ever that we enter into anything and everything. One oversight though Sir, where are the beers?!!

Well done to all who took part with a special mention to **WO2 Bernie Smith** who won the Ladies Veterans race.

THE TEAM
(L-R): Capt Turnbull (Event Organiser) Sig Ronnie Warwick, Brig Shaw, Cpl Gregory, LCpl Joyce, LCpl Welsh, WO2 (SSM) Morrow and SSgt Lawrence

249 SIGNAL SQUADRON (AIR MOBILE FORCES (LAND))

fEXERCISE ADVENTURE EXPRESS 2000 - *by Lt Preston*

This year's northern deployment was quite an epic: live EW, man-pack RRBs, FFR skidoos, on board with Dutch Marines, Very High RRB Sites, working with Czech Helicopters and searching for the perfect meal amongst multi-national rations. We also hosted our fair share of visitors including D C in C (Land).

The deputy Commander in Chief discusses Pay 2000 with Sigs Gould, Whitelaw and Patterson

During the Field Training Exercise we played the role of a hostile force attacking NATO over a dispute about the Senja Oil Fields in the North. The scenery in the entire area is harsh. Mountains loom out of the fjords as triangular peaks that would look more at home in the Himalayas. The mainland has huge streaks of water cutting through it, making movement from one side to the other a time consuming task. On one occasion Rebro Bravo, under **Cpl Walsh**, was resupplied by boat. To make matters worse for communicators the deep valleys used up rebros very quickly indeed and in order to bring in the furthest location, the Log Base, **Cpl Kenny** was dropped off on a feature the height of Ben Nevis. Throughout vile conditions he managed to keep his trailer rebro on the ground until the tent broke and the antennas began blowing away. To make matters worse for communicators the EW teams were out in full force. The American direction finding and Canadian intercept teams provided great assistance and then coordinated a particularly effective false 'Endex' call which resulted in ninety per cent of the enemy going home early. On the Jamming side the Norwegians gave the Headquarters a difficult day which spooked the younger members of the team but the combination of the second in command's brief and the experience from former EW operators prevailed to ensure the command net was never dropped.

The final mention should go to the Foreman who had an interesting exercise attempting to establish Satcom links above the 69th parallel: an impossible task. Having requested extra help from the far end and been turned down, he eventually travelled one hundred kilometres to the south and proved the equipment. As soon as he returned even the best location wouldn't work. Never mind. However, a notable victory as they manfully struggled until testing data over VHF worked perfectly. Is this the future for AMF Comms?

TRAILER REBROADCAST 82H - *by Sig Gould*

On 9 March 2000, **Cpl Kenny** and **Sigs Gould, Hasset, Ward, Cook** and **Lawson** deployed onto a mountain top at 1089metres to provide comms for exercise Adventure Express. We were dropped in by helicopter at about midday to dig the position in and bridge the distance to Log Base, the most remote station. On arrival we quickly started digging and soon found that the position had a thin covering of snow on top of solid rock. As we couldn't dig down any further we began building snow walls. After a quiet first night without any snowfall, we noticed that the wind strength was beginning to build and that the extra help brought to establish the Rebro could not be flown off due to poor flying conditions. Over the next two hours the weather deteriorated further, with high winds and heavy snow. The Pilot now decided it was too dangerous to fly. During the night we all crammed into a four man tent and a trailer 'nine by nine' tent and got little sleep whilst the site was gradually destroyed by the wind and snow. The following morning the site was rebuilt despite the poor weather and the repairs we made were strong enough to survive the next night. Fortunately we managed to regain some rest as the evening calm set in. However, the lads were beginning to speak their minds. **Sig Cook** provided the classic quote, 'This is worse than Survival night,' referring to the long night during the basic ski and survival course.

Our situation began to improve when after an hour of waiting, the extra men were flown off back down to Echelon and we settled into some kind of routine. Now down to just three people, everything started to run smoothly with each of us knowing our job. This continued until day five when power started to become a problem.

On the fifth day the first generator broke down. Initially we thought this to be just a minor problem as we had two spares. Unfortunately the others had also suffered in the weather and we couldn't start either of them. After twelve hours of hand cranking generators and a few blisters, we had still failed to start any of them and the weather deteriorated once more. Now the wind was blowing so hard that we had to hold onto the tent to prevent it blowing away. The nine by nine had turned into a huge kite despite the fact we had dug it in. Going outside had now become too dangerous in the wind that made standing up very difficult. Once outside in the blizzard we got disorientated in seconds and found it impossible to find the antennas. Further orders told us to break the Rebro and send a sitrep every hour on the hour, and get as comfortable as possible. This is easier said than done in a nine by nine with three generators, three blokes and all their kit. **Cpl Kenny** was starting to look extremely concerned by now and was even less happy when we were told to stay put until we ran out of rations.

After a mentally tough night the wind once again died and we could inspect the damage done. The EVHF whip sections had snapped off during the night and we had greater difficulty with tents. The four-man tent had suffered three snapped poles and the angles on the nine by nine had broken. We continued to call in reports and hoped the helicopter would come sooner than later. Fortunately before we knew it the Czech pilot had braved the conditions to come and rescue us. No sooner had the helicopter arrived than we threw on our bergans and we flew off with orders to abandon the radio kit for collection at a later date. On arrival back at Echelon we were relieved to be alive and in the warm. The comments started flying, 'Oh well, if you lost the tent, you could always build a 'snow-hole.'

THE NORWEGIAN JEIGER COMPANY - *by LCpl Bury*

I deployed to Norway on 30 January initially to the South. Once the Squadron had completed the arctic warfare training we moved up to Storsteines in the north to take part in Exercise Adventure Express. This is where the fun began. The moment we got off the plane it was blowing a gale and the temperature was hideously low. I was less than impressed as I was expecting palm trees and white beaches. After sitting around at Storsteines for about four days a job came along. I could see the Yeoman, Foreman and **SSgt Allan** looking my way and smirking. I could read their lips, 'Buzz will do it.' Unfortunately I was the only bloke there and I was going on an unusual task. The Yeoman asked if I wanted to deploy with the Norwegian Special Forces on Skidoos (Snow-bikes). I immediately said no, but off I went anyway. I was to provide secure HF Comms back to AMF(L) Headquarters from the back of a Skidoo, not quite in my job description. Fitting out an FFR Snowbike, nice one YofS.

After a short while it was time to deploy and I was to rendezvous at a bridge at 0900hrs. I turned up at 0850hrs and saw a bunch of lunatics flying about on snow bikes and was horrified at the thought of being a passenger. Soon enough I found out I was to be attached to the Jeiger Company and was introduced to the Company Commander, the Second-in-Command and the Reece Officer. They were all extremely friendly and spoke excellent English. The plan was to load sixty-seven snow-bikes and move them into enemy territory. As we carried the scheme out it started to look a little cowboy-ish. However, when we got onto the area I could see why these people were a little more than the average infantry company. Their fire power, observation and riding skills told me they were something special. Riding on the back was quite a different experience. If you don't put your body weight in the right place at the right time you are off the back and in the snow. Getting back on with a PRC320, spare batteries, webbing and weapon on you is not easy in deep snow. The speed we were to travel at was faster than fast. I'd never seen anything like it and thought I was going to die on several occasions. At 70 miles per hour through trees and at night is slightly mad but normal for these blokes. The temperature was –25 standing still as the 'Huey' Helicopters flew over us. Luckily they didn't spot the company and we were soon doing 80mph across a frozen lake. The cold was unbearable at that speed but I realised that I was wrapped up in kit better than that of my hosts. During the next couple of days we attacked ten targets causing mass mayhem amongst the enemy. The experience I had with the Jeiger was excellent and we worked so well together that we will be doing cross training in the future.

MANPACK REBRO - *by Sig Galtress*

In Northern Norway in a moment of infinite wisdom, 249 Sig Sqn decided that it would be a good idea to deploy a man pack rebro, just to see if it could be done. What an excellent idea. I was woken up at 2300hrs and told I was deploying at 0600hrs with the RRB. I got up and started to pack my Bergen, then I unpacked my Bergen and proceeded to refill up my Bergen with radio kit. By the time I'd finished it weighed about the same as I do. I finally got to bed at 0200hrs, then back up at 0500hrs ready to deploy, as planned, at 0600hrs.

In total four of us deployed **Lt** 'The Boss' **Preston, LCpl** 'Fruity' **Fielding, Sig** 'Shminka' **Johnstone, Sig** 'Az' **Galtress**. The journey to our drop-off point was via another detachment to collect some kit. Then it was off on our skis up the mountain. The ski up the mountain itself was not actually that hard apart from the weight. **Lt Preston** was pulling a pulk as well as carrying kit in his Bergen and 'Fruity' was doing the usual thing required of an airborne soldier, carrying a ridiculous amount of weight. Once we arrived there we had the task of digging in the tent and setting up. We set about this straight away, but during the non-tactical phase there was no great rush. A couple of hours later we had dug a pit big enough for a house and we could get the kit working. Once we were in and set up we established communications and had to wait until we were told to make the rebro, so obviously we had to find some thing to occupy ourselves. That something was food.

As if by perfect timing the moment we had finished our food we were told to make' the RRB. The task was made more difficult by a weak HF Sigs Eng Net link and a broken trailer Rebro not far away. However, we proved that a man-pack rebro can be operated in North Norway. Once 'made' the RRB operated until we run out of battery power, which was about 24 hours and nine batteries later. Having finished, it was time to arrange our pick up at the bottom of the mountain. We had plenty of time so we had yet more food then proceeded to pack up. **Sig** 'Tent Rhino' **Johnston** with his amazing tent admin packed up first, before being kind enough to let the rest of us do so. Once we had packed it was time to ski down, which I have to say was a lot more leisurely than skiing up. When we were finally picked up it was back to HQ Admin Area and then I was off again on my det after two hours. In summary the man pack RRB was a success and it was proved it could be done. I think everybody on the RRB enjoyed it and gained valuable experience from it.

259 SIGNAL SQUADRON

Sqn Comd **Maj J. H. Fraser**
SSM **WO2 D. Ewing**

SQUADRON HEADQUARTERS

After a hectic start to the New Year the Squadron was pleased to welcome the new OC, **Maj Jon Fraser** and his family from 39 Sig Regt. With only a month's notice he did well to arrive with family, two cars and the loss of only two MFO boxes. The Epicentre's recent Karaoke night ended in disaster when **Sgt Jon** 'Tone Deaf' **Driver** and his similarly talented wife **Janet** decided to celebrate his promotion to Staff Sergeant by singing selected hits from Chumba Wamba. A truly eye-watering experience. Also selected for promotion is **SSgt Jim** 'Beastmaster' **Duncan** who will gain promotion to WO2 when posted to 7 Armd Bde and Sig Sqn (207). The Squadron will miss **SSgt Duncan** and his wife **Linda**, who have done much to arrange social functions for the Squadron including an Austin Powers and a Cowboy night in the Jimmy Club. With one event left in the Hodgson Shield competition Epi Tp already have the

cup in the bag. Dhekelia Tp come in next followed closely by SHQ. Airfield Troop finish last although they continue to make match fixing allegations.

The Troodos Mountains have had an impressive snowfall this year which has enabled skiing trips to be organised. Twelve members of the Squadron attended the NEFSKI Championships with mixed fortunes but although it's not quite the Alps it is good to be able to ski and then return to warmer climes at sea level at the end of the day. With the temperature now starting to creep back towards the twenties and summer just around the corner it's easy to laugh as we reminisce on Battlecamp over a few cold beers but for some, at the time, it was no laughing matter. The annual two-week exercise is a chance for some to revise rusty skills and for others to show off newly learnt skills. A good idea in theory but what was the reality?

EXERCISE BRAVE STANCE - *by Sig Atkinson (War Correspondent)*

Once again it was time for 259 Signal Squadron to answer its call to arms. Weapons were drawn, orders were given and the war paint started to make an appearance. After collecting even more kit to fill our bulging Bergens the Squadron finally deployed out onto the Melanda Training Area to begin the first phase of the exercise. The purpose of this phase was to revise basic infantry skills and those ever-elusive infantry tactics, which of course the Royal Signals are world leaders in.

After a quick 'who can lose the most kit during the bug out' competition we moved quickly into the main part of the exercise consisting of a Peacekeeping type Operation. The mission was to protect the peace loving Greenlanders from the evil tyranny of the dreaded Redlanders, lead by their illustrious leader **Capt** 'My smock is like a shield of steel' **Handibode**. Using their exceptional battlefield skills the glorious 259th of Foot managed to secure Paramali village which served as a patrol base for further operations, which included the prevention of refugees returning to their trap-filled village. The situation was resolved after some tense discussions, **SSgt Jim** 'Whisper mode' **Duncan's** smooth approach of 'move out or be beaten into unconsciousness', and some shameless boiled sweet bribery. After a few successful engagements which left one enemy with a nasty graze to his arm to the slight expense of three friendly sections, the 259th pressed on with its mandate under the military genius of **Capt** 'Anyone got a cab' **Morris**. The two platoons rose to the challenge with gusto. Under the valiant and cunning leadership of **Lt** 'Golden Doss Bag' **Kemp**, OC 1 Pl, and **2Lt** 'Can I have a slice of bread?' **Covey-Crump**, OC 2 Pl, the stranglehold of the villainous Redlanders was smashed.

The Company moved out of the village to prepare for one final assault that would remove the enemy forces for good. All the troops minds were focused on the assault with the exception of **Sig** 'Buster Gonad' **Baldwin** who had picked up a slight groin strain in the earlier operations. Having swept through the enemy like a wind of death there was little else to do except pick up the dead, and the bass of course, and make it back for tea and medals.

NEFSKI CHAMPIONSHIPS 2000 - *by Lt Kemp*

For the first time in nearly ten years there has been enough snow on the Troodos mountains for a full skiing competition. The Squadron entered three teams into the competition and had high hopes of coming away with several major injuries. Day One saw the Giant Slalom competition. The early morning course inspection seemed to unsettle some people especially those who couldn't even side-slip the course without falling over. Some overcautious skiing put some of the better skiers further down the order than they would have liked although **Lt Kemp** put in a creditable performance to finish twelfth. Day Two was the time to throw caution to the wind and go for Death or Glory. Excellent skiing by **Sgt Wildish** placed him eighth which acted as a demonstration for how it should have been done to **Lt Kemp, Sgt Waring, Sgt Nicholson** and **Sig Hulland** all of whom failed to make it to the finish. Congratulations to **Sgt Wildish** who was placed twelfth in the combined results. In all the competition was a great event to attend and the skiing proved to be excellent. Let's hope we won't have to wait another ten years for the next competition.

EPISKOPI TROOP

Tp Comd **Lt Sarah Covey-Crump**
Tp SSgt **SSgt Jim Duncan**

With all the courses and detachments its hard to keep track of everyone. Some people however are going not to return… At long last **Sgt Dave** 'Cornelius' **Wildish** managed to escape with only his fourth excuse! He has left the Squadron for 35 Sig Regt to be with wife **Sharon** and any day now, child number two. Best wishes to **Dave** and the family. **LCpl Lee** 'Huggy' **Bearfield** was the longest serving Troop member and has moved to 30 Sig Regt under the premise that he will be able to spend more time with his girlfriend. **Lee**, we didn't realise you had a girlfriend in Bosnia! Get writing those blueys mate and brush up on your Serbo-Croat. **Sig** (now LCpl) **Daz** 'Wookie' **Baldwin** departed for the province and a life of rigging. We should have known something was wrong when he constantly refused to sleep on the top bunk, no surprise then to learn that he had a very brief stay and now has his feet firmly on the ground at 21 (AS) Sig Regt. **Sig Idris Davies** is now at 8 Inf Bde attempting to play every sport that the Army has to offer. **Sig** (now LCpl) **Gav** 'Colonel' **Darke** was successful on his RCB and will soon be savouring the delights of RMAS. **Gav**, we were only joking about the plums you put in your mouth so it might be a good idea to take them out now. **Sig Sue** 'Olive' **Taylor** is posted to 101 Log Bde and Sig Sqn on promotion. **Sig Marv** 'Nugget' **Nugent** has got a posting to JCUNI. We hope that things turn out well for you. Finally a big hello to **Sig Kenny Campbell**, straight from the factory. Welcome to the Troop.

AIRFIELD TROOP

Tp Comd **Lt Gareth Kemp**
Tp SSgt **SSgt Bob Stenhouse**

With so many of the Troop either in, just come back or about to go to Kosovo it seems that everyone has got a medal except **Lt Kemp**. With so many of the Troop away, the work load has picked up considerably, luckily just when it seemed that we were fighting a losing battle reinforcements arrived in the shape of **LCpl Hansen**, with his wife **Sarah**, and **LCpl Morris**. Welcome to the Troop, we hope you will be happy here. However, it's not all work and no play, several of the more gullible members of the Troop were persuaded by **Cpl Danny Rudd** to take part in the Akrotiri 10km road race. Although no medals were won at least the search party was able to find **SSgt (FofS) MacGregor** and return him to his wife **Lorraine** who was accusing **Cpl Rudd** of trying to murder her husband. Congratulations go to **LCpl** 'Barney' **Barnett** and **Sig Danny McGurk** for representing the Army (Cyprus) at rugby and football respectively, against the RAF. With all this sporting talent, the Troop's next aim is to complete the Akrotiri 100km Rowing competition. So far we have ten willing volunteers so that's about 10km each… Can't be that hard can it?

JOINT SERVICE SIGNALS UNIT RAF DIGBY

1 SQUADRON

Sqn Comd **Maj Calum Clark**
Sqn Coord **WO2 (Supvr R) Phil Sandford**

It's all change again with elements of 1 Sqn playing musical chairs in time for the spring. Farewell to **SSgt Richie Maddock**, vacating the Squadron Co-Ord chair for pastures new and welcome to **WO2 (Supvr R) Phil** 'Don't call me SSM the RAF don't like if' **Sandford,** who has moved all of ten metres across the corridor. Au-Revoir to **F1t Lt Darren Thorley** who's gone off to the Balkans for six months and as a result, hello to **F1t Lt Rob Keir**, who has also moved across the corridor to take up the post of Sqn 2IC. Another farewell is to **WO2 (Supvr R) Dave** 'Stomin Norman' **Fuller** who has vacated the Ops WO chair to let **WO2 (Supvr R) Phil** 'Hockey or Squash today Sir!' **Barclay** sit down.

A FLIGHT

OC **WO2 (Supvr R) Pete Stockell**

It's that time again to detail the lively 'C Watch' scene here at JSSU Digby. It's a mixed bag of comings and goings with the odd skiing skives thrown in for good measure. We've got **Cpl Steve Roche** back from a gruelling NI Det, **JT Dave Mowbray** back from the edge (or was it 4 Sqn) and **JT Jon Peters** joining us from some day-job or other. **JTs Steve Horrel** and **Wazeeha Laher** have settled in nicely having left the lap of luxury that is Chicksands. We've got our fair share of departures too. **CT Dave Smith** has left for Civ Div and we've lost **JT Ingrid Poulton** to a cushy little number on days, along with **JT Lindsey Tolin** who is expecting her first baby in May. On the more temporary side of things, our only RN presence, **POCT Iain** 'Tug' **Wilson** is off on a promotion course, so good luck to him. **LCpl Jim Patton** and **JT Jim Rothwell** are down in Chicksands on respective upgrading courses and **Cpl Ade Moseley** and **JT Ben Crossley** have vanished on long courses. **JT Leah Middlewick,** having just recovered from her killing schedule of ski and biathlon training/races and a 23km military patrol in the Army Divisional Championships, also vanishes on a long course. **Cpls Nicky Collins** and **Chris Gunn** are currently away on detachment and also missing in action is **Cpl John Duke,** detached to 4 Sqn trying his hand at Army things for four months. Finally, spare a thought for **Sgt Steve** 'Up the Pilgrims' **Lyne**, travelling the length and breadth of this fine land waiting for Plymouth Argyle to slot in a goal or two, or maybe just pushing home a slightly threatening attack.

B FLIGHT

OC **WO2 (Supvr R) Eddie** 'Anyone for Tennis!' **Fisher**

Over the last few months, the Watch has seen numerous changes, mainly due to postings and detachments (as usual). The seemingly never-ending problem of manning is handled by **SSgt (Supvr R) Chris** 'I can't walk but I can run' **Cullington.** Manning the Watch is a bit like trying to fill a bath with the plug out. A 'GEMS' suggestion to take cuttings of Operators and dip them in 'Bob Snoddin's Hormone Rooting Powder' and grow some new Ops for Spring has been given serious consideration. Regardless of these problems, morale has remained stable and on odd occasions, reached near unheard of high levels. This has been due to the admirable efforts of various junior members of the Watch, in organising Watch social gatherings, including leaving dos and Ten-pin Bowling outings (all involving a few drinks of course). Still to come is Greyhound racing down at the track at Peterborough. Thanks to **Cpl Julie McNelis, JT Rachel Lynch** and **LCpl Marie Porter**. We await what delights the summer will bring us.

We welcome into the Watch **Cpl Julie McNelis,** moved from within the JSSU itself, as is her husband **Cpl** 'Mac' **McNelis**, recently returned from his T1 upgrading course. We say hellos to **LCpls** 'Bongo' **Baker** and 'Ginge' **Ware** freshly in from Chicksands. A welcome back to **Cpl Lyndsay Bebington** on return from the delights of a Bosnian winter, along with **Cpl** 'Mac' **McKechnie** returning from a more southern detachment. Farewells to a number of personnel, including belated goodbyes to **Cpls Sam** and **Dave** 'Beef' **Kirton** on being returned to Civ Div. The 'Beef' **Kirtons** will be sorely missed. Goodbye also to **Sgt Mike** 'Exciting to be with' **Surtees**, now happily instructing at Chicksands, **Sgt** 'Jaffa' **Martin** is now off on his Supervisors Radio Course and is 'coping', it has been reported. On finishing this he will be off to the other side of the island to 14 Sig Regt (EW) again. Lastly, not to forget a great Watch character lost, and now in the process of joining Manchester Police is **LCpl Stacey Webster** - so all you drug-dealers and joy riders beware!

Congratulations to **Cpls Mac** and **Julie McNelis** on tying the knot. This was done in Skegness at Fantasy Island and all attending had a great time. Well done also to **Cpl** 'Mac (Who says you can't get drunk on your wedding day? I'm steaming!)' **McKechnie.** Also congratulations to **SSgt (Supvr R) Chris Cullington** on getting spliced, bravely on April Fool's Day!

3 SQUADRON TRAINING FLIGHT - *by Cpl Dusty Miller*

Sqn **WO1 (Supvr R) Paul Skeith**

This WIRE Notes lark is becoming a bit of a habit now, but it makes a pleasant change from doing the office Admin! It must be said that of the 13 people in the office, only four are actually bona fide Royal Signals soldiers. (The rest have been *promoted* to Honorary Royal Signals, even the Intelligence Corps people!)

To kick off, congratulations on **CT Clive Stephens, Cpl Pete Best** and **Cpl** 'Dusty' **Miller** for taking part in the annual BT Swimathon. All three completed 40 lengths of the pool and raised somewhere in the region of £200 for charity. It must be said though that **Cpl.** 'Dusty' **Miller** was suffering during the swim from drinking too much free Guinness the night before. (St Patrick's day you see!) **WO1 (Supvr R) Paul Skeith** continues to improve his IT skills with a week spent down at the local Interactive Learning Centre, (or so he tells us ...). **SSgt (Supvr R) Frank Dalton** continues his quest for excellence in management (At Digby!) and is forever giving out his 'One Minute Well Done' stuff He is due to take his final exam soon, so good luck mate. **Sgt Sue Wright** has taken delivery of a new BMW Z3 sports car. It's a black convertible and the local authorities have been notified of the registration nurnber! A few changes have taken place since the last edition of the wire. **SSgt** 'Dags' **Dagnell** joined the Flight and has hit the ground running having taken over from **FS Tomlinson. Sgt** 'Chads' **Chadwick** should be back from his holiday in the Falklands and will be welcomed back with open arms. (After all, with the current Notes author on his way out someone will have to step in!) **Sgt** 'Sim' **Morley** has been posted and will be on top of Troodos Mountain by the time this edition is out, also going soon is her husband, **Sgt Mark Morley**, however, he is leaving the forces to follow the flag (or skirt?) and will be seen on the beach sipping cocktails. **Cpl** 'Dusty' **Miller** is due out on PVR to work as an instructor for Erricson's. We wish him and his wife **Sarah** all the best, but remind him that he is not allowed to threaten students with physical violence if they don't listen to him!

NEWS FROM THE CADETS & UOTC

MERSEYSIDE CADET FORCE

Col Paul Acda, Regimental Colonel Headquarters Royal Signals, made a specially invited visit to Merseyside Cadet Force Headquarters at Altcar Training Camp. He was welcomed by the Commandant, **Col Ian Thomson**, they being no strangers to each other as they had served together both at 38 Sig Regt (V) and 2 Sig Bde. The purpose of his visit was to present certificates and badges to five cadets, who had successfully passed their Signals course. However, he also spent part of the day watching a cadet company, of a hundred cadets, on their Training Weekend. Merseyside ACF has forty detachments, three of them are affiliated to the Royal Signals. A number of cadets have joined as Regulars with the Royal Signals over the past years. At the presentation ceremony the Colonel also met **WO1 Joe Brougham**, in command of Signals training and **SSgt John Waters**, both ex-59 Sig Sqn (V). The Deputy Commandant of Merseyside ACF is **Lt Col Joe Moreland**, also an ex-regular of the Royal Signals.

Merseyside ACF would like to take this opportunity to thank the Commanding Officer and all ranks of 33 Sig Regt (V) for all their support.

Colonel ACDA with the five successful Merseyside ACF Signals Badged Cadets who successfully passed their Signals Course. Sgt Robert Potter, Cpls Stephen Feeney, Craig Roberts, Daniel Hussey and Cadet Chris Cuisek, plus Commandant Col Ian Thomson (third from right) and WO1 Joe Brougham and SSgt John Waters (L and R) both ex-59 Sig Sqn (V)

HF RADIO COMPETITION BETWEEN ROYAL SCHOOL OF SIGNALS AND ACF & CCF SIGNALS UNITS

EXERCISE WINTER WOOLLY 2000

The Exercise which took place on 20 January 2000 was a first joint HF radio exercise and short competition for the Royal School of Signals and the ACF & CCF signals units. The Royal Signals participation was by Yeoman of Signals course members at Blandford, competing against cadets and adults of the cadet organisations. The aim was to see who could make the most contacts over a winter evening period on 13 different frequencies. The RSS teams were organised by **Capt Myles Cook** and **CSgt** 'Mo' **McPhail,** both Royal Marines, who have been great supporters of the cadet signalling organisation during their tenures of office in Blandford. Needless to say the competition was fierce and suffice to say some of the rather elderly ACF and CCF adults displayed a keen competitive edge. The main spearhead of their initial operations was led by **Lt Col Tim Elford** of Ardingly College CCF, who quickly moved into an unassailable lead by amassing an amazing total of some 34 contacts in the first two hours. However, **Col Tim's** greater interest in the culinary delights of life forced him to retire after two hours and one can only assume his gourmet supper forced him to an early bout of slumber, since he failed to resurface afterwards. In the meantime, in the cold at Blandford the Yeomen including **Sgt Van Dinteren** of the Royal Netherlands Army quickly learned that both the cadets and their adults were spoiling for a fight and that age and treachery will always outwit youth and enthusiasm. Nevertheless the course quickly picked up the tricks of the trade and two of their four teams had reached over 30 contacts by the time that the elements forced them to retire. From the warmth of their various HQ at Bridlington, Dollar, Rugby and Winchester our intrepid band of ACF & CCF teams continued to battle it out on the lower night frequencies. After over four hours of operating **Lt John Wresdell,** Bridlington School CCF and **Maj Mike Vokes,** assisted by **SI Ian Dummer,** Hampshire ACF were left fighting out who should be champion. During the evening other stations were able to join in at various times and these included Herts ACF (two stations), Warwickshire ACF, Birkenhead School CCF, Glamorgan ACF (Penarth), Hants & IOW ACF (Totland Platoon), Dollar Academy CCF, Prior Park College CCF (Bath) and Exeter School CCF. Everybody seemed to enjoy themselves and agreed it was a very useful exercise. It is hoped that the ACF & CCF Signals units will be able to be of assistance at a future date to courses at the Royal School. of Signals.

UNIVERSITY OF LONDON OFFICER TRAINING CORPS

Tp Comd **Capt Joel Curry** 94 BY Sig Sqn (V)
PSI **WO2 (SSM) Harry Kemp**

INTRODUCTION – *by WOCdt Liz Rossiter*

In October, after a summer of adventure training and sun-seeking holidays, 12 (R. SIGNALS) Tp ULOTC formed up for another year of arduous, testing but fun training. New additions to the Troop included 17 OCdts from A Coy and more importantly **WO2 (SSM) Harry Kemp** as our new PSI. However, this welcome is short lived as he is due to move in April on promotion to fill the post of RSM in Blandford. As much as we congratulate him on his promotion we are sorry to see him leave us. Good luck Sir, or should we be saying good luck to the soldiers in Blandford!

Well what of the OTC and what have we done to date?

BLANDFORD 29-31 0CTOBER 1999 – *by WOCdt Beth Richardson*

The first 12 Tp weekend for the year saw us down in Blandford for a liaison visit to the home of the Corps, whilst most other troops stay in transit accommodation during their weekend training we were fortunate enough to get our first taste of the Corps Officers' Mess and were privileged to stay there for the weekend. Revising but in most cases re-teaching Voice Procedure was first on the programme, for some reason our standard certainly kept the PSI amused. Antenna building and a small competition followed and then with the military training completed, it was time to sample some of Blandford Camp's entertainment facilities, namely the bowling alley. After dinner back at the Mess it was then off to Blandford town for the evening. An experience that won't be soon forgotten.

If we had ever wondered why the PSI and the Troop Commander left early the night before we were soon to find out with a trip over the confidence course. With the previous evening's indulgence sweated out it was back to the Mess for a tidy up before a very entertaining presentation from the SORLS team. Many thanks to **Capts Sophie Davies** and **Andy Greenfield** for giving up their Sunday morning to speak to us and to the staff of the Officers' Mess for looking after us so well.

EXERCISE COASTAL INVASION 19-21 NOVEMBER 1999
by JUO Matt Revell

The JUO posing as usual

On the evening of Friday, 19 November we were split into 4x2-man detachments and told to make our way to a map grid reference, just to the south of Winchester, for an exercise which simulated the detachments being a Brigade HQ and three Battle-groups. However, we didn't all make it as **OCdts Pete Street** and **Alex Siddell** when told to go to junction 4 of the M3 broke down at junction 3 of the M3! Not one to bother the RMP for recovery **Ocdt Street** just phoned the AA and promptly got towed to the exercise area.

The Troop Commander set the scene with some well thought out scenarios. They started with an invasion of the South coast of Englan and we were tested not just on our Voice Procedure but also on keeping our maps up to date and properly marked as well as the basics of detachment routine and discipline. The locations of the detachments were conveniently situated on the Troop Commander's parents' farm, so after the work, as ever with 12 Troop it was time to play and the last night was spent in the swimming pool and sauna followed by a debrief with a BBQ and a few beers. Sunday morning was spent practising our marksmanship principles by means of a clay pigeon shooting competition. Once again another good weekend and many thanks to **Capt Curry** for setting it all up.

The end of Battle PT and we all survived

LIAISON VISIT TO 1 MECH BDE HQ AND SIG SQN (215)
by OCdt Osa Emohare

12 Tp's liaison visit to Tidworth was advertised as a calm social walkabout and a nice time driving and learning about their armoured vehicles. What somebody (namely our PSI) forgot to mention, was the four mile tab, log race and the upper body session with the Squadron PTI's.

Arriving on the Friday night we were met by **Lt Brunton**, Troop Commander of Sabre Troop. He led us into the bar warning us that the 'natives' had just come off exercise so they were concentrating more on the assortment of beverages behind the bar than they were on their radios and other comms equipment. However, this changed the following morning when the strangely bright eyed and bushy tailed soldiers keenly explained their roles and tasks within the Squadron. Their enthusiasm and professionalism was surpassed only by their ability to consume alcoholic beverages. We came away well informed and very impressed. The talks by the Squadron Commander and the Troop Commander of Sabre Tp, outlined the tasks undertaken by the Squadron and also charted their careers to date. The many and varied postings highlighted the fact that a career in the Royal Signals is much more varied and rewarding than the civilian equivalent.

Saturday evening in the bar started off with a curry dinner, the quality of which was beyond what the students were used to. The rest of the evening was taken up by a very enjoyable games night. Although we lost to the Squadron overall, they were not impressed when we took the points in the boat race – Yes students can drink too! Sunday was the tab and log run which sorted us all out for the drive back to London. Our thanks to all at 1Mech Bde for hosting us, this was without doubt the best weekend to date.

THE SPORTING SCENE

BADMINTON

The Inter Corps Badminton Tournament took place at Beaconsfield over the period 26/27 November 1999. Six Corps were represented at the 1999 Tournament. They were drawn into two leagues of three.

The draw, unfortunately, put three very strong teams, R SIGNALS, REME and RE, in the same league, with last year's winners, the AGC, drawn in the other league with the RLC and Infantry. The competition consisted of a 'round robin' of matches within the respective leagues, the top two in each league progressing to the semi-finals.

The Corps squad was only a couple of key players short for the competition, but with depth in the squad, we were able to produce a very strong team. The week started at Blandford with a couple of days training in order to select the best pairs for the competition, although we never practised all permutations due to a couple of players not being available for all the training sessions. Having shaken off all the cobwebs, the team were ready to go to Beaconsfield and were quite confident that this was our year. The Royal Signals have not won this competition since 1972.

The following pairs were selected to play against the RE and REME on the first day:

Pr1 **Lt Mike Morton** (1(UK) Div) and **Sig Ady Abbott** (21 Sig Regt (AS))
Pr2 **Sgt Steve Pengelly** (RSS, Blandford) and **Sig Ben Ford** (1(UK) Div)
Pr3 **Capt Guy Bowdler** (11 Sig Regt) and **Cpl Paul Merchant** (RSS, Blandford)

The team played magnificently as the other Corps teams could only watch in awe at the power of the smashes of our No.1 pair, **Lt Mike** 'Take that' **Morton/Sig Ady** 'And that' **Abbott**, who never lost a game throughout the whole tournament. Not to be out-done our No.2 pair, **Sgt Steve** 'I want to be Captain' **Pengelly/Sig Ben** 'I need a fag' **Ford** won all their games in this match. Pair No.3, **Cpl Paul** ' I've got a new racket' **Merchant** and **Capt Guy** 'I'm the new Army Badminton Secretary' **Bowdler** also played very well winning their crucial games against the RE and REME third pairs.

On the second day, having reached the semi-finals, we were lucky enough to have been drawn against a weak Infantry team. **Capt Guy** 'My shoulder hurts' **Bowdler** was substituted for **Sig Paul** 'Do I have to' **Cadogan** (RSS, Blandford). This was **Sig Cadogan's** first taste of badminton at this level but he rose to the occasion and played exceptionally well, partnering **Cpl Merchant**, winning their first game. Unfortunately, this was to be **Sig Cadogan's** last game as **Sgt Andy** 'I had other things to do' **Ball** arrived to strengthen the team for the final. **Sgt Ball** needed a warm-up game before the final as the Irish were about to give us the match at 6-0 up, **Sig Paul** ' I'm happy about that' **Cadogan** stood down again. The match was won easily, 9-0, although it gave the team a chance to warm-up before the final.

The REME also had a late arrival which strengthened their team, thus enabling them to win their semi-final against a confident AGC. Having already beaten the REME in the league, the Corps team were quite confident about the final outcome although the score could be a little closer this time. Towards the end of the first round matches, the team were trying to give their manager, **Capt Terry** 'I'll buy the beers if you win' **Inman** an ulcer. **Lt Mike Morton/Sig Adt Abbott** slipped up and their first game went to 'set' points. **Sgt Steve Pengelly/Sig Ford** lost their first match and **Sgt Ball/Cpl Merchant** took their match to three games. After a quiet word from the 'manager' and the threat of 'no beers', the team turned the match round and demolished the opposition with another 7-2 victory.

Congratulations to the team on a splendid performance. We now have the trophy in our hands for only the third time since the competition started . Let's hope we get to keep it for a few years. Should there be any closet players in the Corps who wish to play for the Corps team, contact **Capt Terry Inman** on Blandford Mil Ext: 5404.

SKIING

ROYAL SIGNALS ALPINE SKIING SEASON 1999-2000

Another successful season for the Alpine Skiers of the Royal Corps! The season started with the Royal Signals Corps Camp and Championships run over four weeks on the Kitzsteinhorn Glacier in Kaprun, Austria over 19 November - 19 December 1999. The camp began with three weeks training for all levels of skiers, with individuals split up according to ability, not unit. All units were accommodated centrally in a 5-star youth hostel in two and four-man rooms with en-suite facilities. The hostel also has a bowling alley, pizzeria, two squash courts, sauna, gym hall and table-tennis room. Night life in Kaprun and Zell-am-See leaves little to be desired, although obviously no 'school day drinking' was allowed to interfere with training! Weekends were spent on 'cultural' trips to Salzburg to enjoy the Christmas markets and glühwein stands, or to the PX in Garmisch for Christmas shopping.

Race week was put together by a very experienced team headed up by **SSgt Andy Brown,** now in his 18th and last season racing with the Corps. He was supported by **Maj John Dakin, WO1 Kev Algar, Sgt Dean MacKenzie,** and **Cpl Andy Dawson.** Representation from the Germany units was high, with only 7 Sig Regt failing to enter a team. 14 Sig Regt (EW) was the only UK unit to be represented this year, a downward turn from last year. The Units represented were 1 (UK) ADSP, 4 Armd Bde & Sig Sqn, 7 Armd Bde & Sig Sqn, 7 Sig Regt, 14 Sig Regt (EW), 16 Sig Regt and 20 Armd Bde & Sig Sqn & RAF Digby. 16 Sig Regt, Captained by **Lt John** 'Admin in China' **Lyons**, and encouraged by **Cpl Tony Orange,** who also won the prestigious prize for first in the Men's Individual Combination.

Sig Marcus Taylor, from 14 Sig Regt (EW)
racing at the Divisional Championships at Serre Chevalier, France

The season continued with various teams moving to Serre Chevalier and Les Contan-fines for the respective Divisional Championships on Ex Spartan Hike 2000. Approximately 140 raced on each of three mountains, each team trying to secure a place amongst the 110 who are selected for the Army Championships, also run in Serre Chevalier. Congratulations to 16 Sig Regt who were the only Royal Signals unit to qualify as a team with **Cpl Tony Orange, Cpl Findlay, Cpl Richie Turnbull** and **LCpl Graeme Rennie. Cpl Stu Foster** (30 Sig Regt) and **Cpl Chris Sweeney** (RAF Digby) qualified as individuals, and in the female squad were **Lt Kate Simmonds** (ATR Bassingbourn), **Lt Fi Stewart** (14 Sig Regt (EW)), and **Cpl Gina Atkinson** (30 Sig Regt).

Cpl Gina Atkinson relishes the joys of the Downhill
at St Morritz, Switzerland

The Army Teams, traditionally selected at the end of the Army Championships made a swift getaway this year after two days racing, due to a dates clash with the Inter-Services. **SSgt Andy Brown** came out of retirement to race for the Men's Army Team, and all three R Signals females in the squad made the Women's Team and headed to the dizzy heights of St Moritz. **Lt Kate Simmonds** achieved third in the International Ladies Combination, and picked up a handful of other silverware and medals.

All in all a fantastic season was enjoyed by all. Sadly this year we say thank you and goodbye to **SSgt Andy Brown,** who not satisfied with spending five months a year skiing has left the Army to spend 12 months a year skiing, setting up business in Zell-am-See. His immeasurable contribution to Corps and Army skiing cannot be quantified, but has been appreciated over the last 18 years by all skiers great and small. Best of luck **Andy**, we'll be out to visit! Also this year we say farewell to **Maj Paul Ford,** who has spent many years racing, and who has also been Manager of the British Ladies Army Ski Team since its inception. He leaves the Corps to become Secretary of the Army Winter Sports Association, where he is sure to keep his eye out for the Royal Signals skiers of the future.

IF YOU ARE INTERESTED in competing in the 2000/2001 ski season with the Corps as a team or individual but do not how to organise it please contact **Lt Fi Stewart** at 14 Sig Regt: (EW) on 94359 5858, or **Sgt Dean MacKenzie** at 16 Sig Regt.

ROYAL SIGNALS WINDSURFING CLUB

After a period of absence from the pages of *The WIRE*, the Royal Signals Windsurfing Club is back in print. However, before we get into the news, a quick explanation of who we are. The primary aim of the club is to encourage long board racing in the various leagues throughout the Army. This includes the Inter-Corps league, in which there are five race meetings per year, the Army Championships and the Inter-service Championships, not forgetting, of course, the Royal Signals Championships. To support the racing, the Corps has a fleet of race boards and rigs which are rented annually to the top sailors to enable them to compete. On the short board front, the club co-ordinates a team entry in the annual Forces Fun-Board Championships which takes place in Holland in September. In addition to its racing activities, the club also provides a forum for all keen windsurfers and maintains a database of instructors who are potentially available to support unit courses. Anyone interested in finding out more about Royal Signals Windsurfing should contact the club Secretary, **Capt Andrew Mould**, on 94344 5111.

Results from the 1999 Season: The Club had a very good season in 1999. On the individual front, some notable achievements were recorded -

Maj Peter Bowles	Army Lightweight Champion
SSgt Norman Finnegan	BFG Race-Board Champion
Cpl Pete Hoggart	Joint Services Novice Champion
Cpl 'Gaz' **Pope**	Army Novice Champion
Cpl 'Reg' **Varney**	Joint Services Runner-up, Super-Heavyweight
Maj Dave Gilchrist	Forces Fun-Board Champion, 4 Div Overall Champion, Captain of a victorious Inter-Services Army Team, London Region Overall Champion, National Inland Veteran Champion,

These successes were reflected in a large number of individual trophies at the Royal Signals Yacht Club AGM. These were presented as follows:

The Meiktila Cup	awarded to **Maj Dave Gilchrist** as the person with the racing record last season.
The Bolitho Prize	awarded to **WO1 John Fradley** as the person in the 'V Club who has done most to encourage sailing.
The Commodore's Cup	awarded to **Cpl Pete Hoggart** as the most promising newcomer to the sport.
The Admiral's Bowl	awarded to **LCpl Gaz Pope** as the most promising young sailor.

The Corps Windsurfing Championships was held at Weymouth, with the following results:

Champion Major Unit	30 Sig Regt
Champion Minor Unit	238 Sig Sqn
Overall Champion	**SSgt Norman Finnegan**
Lightweight Champion	**Maj Peter Bowles**
Heavyweight Champion	**SSgt Barry Raine**
Novice Champion	**Cpl Pete Hoggart.**

RESULTS FROM THE 2000 SEASON

The Corps has made an excellent start to the current season. At the first event of the Inter-Corps series, we achieved first place. At the second event, held at the start of April, we achieved a convincing second place, some way behind the very strong REME team, but comfortably in front of the rest of the opposition. Providing we manage to field a full strength team for each event, we stand an excellent chance of winning the competition.

Look Forward. There are plenty of opportunities for windsurfing during the coming season in the Inter-Corps League. However, the best chance to get involved is at the Corps Championships which will be held from 27 - 29 September. Entries are sought from individuals and unit teams. Watch this space!-

Members of the Windsurfing Club
Standing (L-R): Lt Col White, Cpl White, Maj Bowles, Cpl Hoggart, Maj Gilchrist, Brig Burton (Admiral RSYC), Cpl Pope, Sgt Bennett
Kneeling, Capt Mould, Cpl Varney

All contributions for *The Wire* should be addressed to the Editor and any queries referred to him on extensions 2079 or 2085. Internet: www.royalsignals.army.org.uk/museum/rsa.htm

The Association communicates with its branches and individual members through the pages of The Wire, *which contains accounts of Branch affairs as well as a forecast of Association events.*

Branch Secretaries are asked to check that their Branch members receive sufficient copies of The Wire. *Association HQ can arrange for copies to be delivered in bulk to Branch Secretaries for further distribution if this is convenient: it helps us save on postage.*

Dates of Branch events can always be published in The Wire *and should be submitted to the Editor. We also welcome letters, requests to contact old comrades and announcements of births, marriages and deaths. We hope that each Branch will contribute a short account of its activities, preferably with photographs, at least once a year.*

NEWS FROM THE AO'S DESK

Branch News: Mr Leslie Perrier, Hon Secretary of the Jersey Branch has a new address; 14 1/2 Elizabeth Lane, St Helier, Jersey JE2 3PH. **Howard Loates** has been elected as the new Hon Secretary of the West London Branch. **Howard's** address is; 34 Mill Way, Feltham, Middx TW14 0JX. Tel: 0208-348 0950. The Shropshire Branch has a new Secretary; **Chris Talbot**, whose contact details are; 34 Gains Ave, Bicton Heath, Shrewsbury SY3 5DQ. Tel; 01743-353233. Thank you **Howard** and **Chris** for offering your services. Our thanks also go to **Brian Gibbs** for all his hard work and co-operation as he hands over to **Steve Nobbs** as Hon Secretary of the Norfolk Branch. **Steve** can be contacted at; 12 Lacey Rd, Taverham, Norwich NR8 6ND. Tel: 01603-869364. **Ian Lorimer**, Hon Secretary of the Preston & Blackburn Branch has moved address to; 55 Notredame Gdns, Blackburn BB1 5EF. Tel No is unchanged. **Trevor Holyoake** informs me that the Bedford Branch now meets on the last Thursday of each month in the Royal Signals Bar at the Drill Hall, Bedford Road, Kempston, Bedford, starting at 2000 hours. **Pat Maloney** is trying to set up a new Branch in Germany and would be pleased to hear from any former members of the Corps who live in or around Osnabruck. Contact **Pat** at; Lorser Strasse 7, 49596 Gehrde. **Brian Overland** has taken over from **Bob Rowland** as Secretary of the Peterborough Branch. **Brian** can be contact at; 5 Ambury Gdns, Crowland, Peterborough PE6 0LT. Tel: 01733-210624. **Bob** has served on the Branch Committee since its inaugural meeting in 1976 and it is good to report that will continue as Branch Chairman. The Torbay Branch now has a 'splinter group' based in Exmouth. It is known as the 'Exmouth Group' and anyone intested in joining should contact **Tom May** at; 46 Rose Way, Exmouth, S. Devon EX8 2RP. **Ron Toft** has handed over the post of Hon Secretary of the Nottingham Branch to **Eric Harris**. **Eric** can be contacted at; 4-12 Selston Rd, Jacksdale, Notts NG16 5LE. **Lesley Banyard**, Hon Secretary of the Loughborough Branch has moved to; 27 Brook Street, Shepshed, Leics LE12 9RE. Tel: 01509-503 585. Branches need your support - if you don't already belong to your nearest Branch, why not join? It's not a 24 x 7 x 52 commitment. Contact this office for details of your nearest Branch.

Calling all former despatch riders: Mr A. E. 'Bert' **Thurling** is trying to set up a Reunion Club for former DRs. If you are interested, please contact him at; 44 Portland Rd, Hayes, Middx UB4 8LG.

Association Rule Book: The RSA Rule Book has been reprinted as at April 2000. Those Branch Secretaries who did not collect at the AGM/Branch Reps Meeting in April should bid to this office for their requirements. Bids should indicate whether the Rule books should be sent by post or collected at the Reunion (which is preferable). All previous issues of the RSA Rule book are now superceded.

Annual Reunion: Your last reminder that the Annual RSA Reunion will take place at Blandford over the weekend 24/25 June 2000. All Association members and their guests are welcome to attend. Those who plan attending have until 16 June to return their application forms to Assn HQ. All members are advised that if they have not pre-booked their meals, they will have to make their own feeding arrangements. Meals in Messes will be provided only for living in members.

Corps Carol Service: Circumstances have forced the change of date for the Corps Carol Service from Tuesday 12 December to Thursday 21 December 2000. All current and former members of the Corps are invited to attend this event, held at St Stephens with St Johns Church, Rochester Row, Westminster, starting at 1800 hours.

Freedom of Richmond: Being held over the weekend 16/17 September 2000, for more details contact your branch secretary or Association HQ. All members of the Association are most welcome to attend, to take part in the March Past and to enjoy the curry supper in the Sgts Mess in the evening. There is the traditional Church Service and March Past on the Sunday morning. Branches who plan to send a contingent, are asked to let this office know the details, in order that the organisors can have an idea of how many are coming.

RSA Annual General Meeting: This year's AGM was again combined with the Branch Representatives Meeting, and held in Chelsea Barracks on Saturday 8 April, with the kind permission of OC 238 Sig Sqn. 120 members attended, representing 57 of the Association's 86 Branches. It was good to see our old friends **Doug Woolford** and **Bill Harmsworth** from the Royal Hospital, Chelsea. **Bill** had been very unwell last year, but is now thankfully much better. **Doug** looked as fighting fit as ever. Many members traveled a fair distance to attend and their efforts were much appreciated - including; **WO1(RSM) Mark Rouse** from SHAPE, **Maj (Retd) Pat Maloney** from Osnabruck, plus **Norman Strachan** and **Doug Bartlett** who put a thousand miles on the clock by coming down from Aberdeen. The meeting enjoyed a report by **Col Andrew Carter** on financial matters for the past year and by **Lt Col Ian Hamilton** on Welfare. The Regimental Colonel gave an interesting briefing on the latest happenings within the Corps. Everyone I spoke to afterwards said how much they had enjoyed the meeting. The Master of Signals closed the meeting by announcing that **Maj Gen Alan Yeoman** was standing down as Chairman of the Association at the end of this year and handing over to **Maj Gen A. H. Boyle CB**. My personal thanks go to **Maj (Retd) Bob Bates** of 238 Sig Sqn for setting up all the arrangements at the meeting.

Association Appointments: Brig N. F. Wood has succeeded **Brig C. T. Garton** as Vice Chairman Area 1. **Lt Col (Retd) C. N. Lightfoot** has been appointed Vice Chairman Northern Ireland.

The Royal Tournament: Tony Langham is organising a national campaign to save the Royal Tournament. He says he has over 17,000 signatures, but needs more. If you would like to help, please contact **Tony** on 01722-504539.

New Life Members: Those recently enrolled Life Members of The Association are shown below. Our good wishes go to those embarking on a second career - we hope that they stay in touch with Association HQ.

ALDERSHOT BRANCH

In March we enjoyed a Musical Evening presented by **Robert Webb**, a woodwind musician, classical and jazz. who teaches, and indeed is music tutor at the Gordon School. He came with an army of instruments ranging from piccolo to one of astronomic proportions and afforded us a most entertaining evening. We were joined by members of the Aldershot Branch of the WRAC Association, several of whom had played in their Corps Band so the audience was not without its experts.

In April our AGM (yes, we already had one in October) was the occasion of our Spring Luncheon. This function, held at the Garrison Sergeants Mess was well attended by Members and guests and ably organised by **Joe Fairbairn** a serving Member of our Branch and Committee. The justice done to the food says much for Bpritish beef, and for the great job **Joe** and his Staff do on these occasions, which make no little contribution to the success of the Branch. We always are pleased to have **Joe** and **Jane Fairbairn** with us. We were happy to have the company of our President, **Maj Gen Henry Hild MBE** and **Janet**. We missed them at our previous event as they were away in the New World. Welcome home.

BRISTOL BRANCH

SSgt Jayne Burn, who apart from being a committed serving TA soldier, is also a very active member of the Bristol Branch of the Royal Signals Association and was, for a time, our Branch Secretary. We were all delighted when she announced her engagement to **Mr Rod Tuck** , and several members of the Branch were present at her wedding and the reception on 19 February, which was also both **Jayne** and **Rod's** birthdays1 so a double (or should I say 'triple') celebration. Both the wedding and the reception were held at The Beeches Hotel, Bristol. Her bridesmaids were **Sgt Filomena Zamparelli** (another Branch member), and **Cpl Kerri Hall** – both members of 39 Sig Regt (V). A Quarter guard consisted of **WO2 Phil Packer, WO2 Phil Martin, WO2 Lou Carr** and **SSgt Dave Williams** – also from 39 Sig Regt (V).

The bride leaving the ceremony flanked by her Guard of Honour

CARDIFF BRANCH

The closing months of the old year saw our usual Annual Prize Draw closely followed by the Christmas 'Sing-a-Long' in which latter we were ably augmented by the Cardiff Flute Ensemble with their accompanist, our Treasurer, **Daphne Powell**. Then, within a month the Branch held its Millennium Dinner & Dance. The occasion, held at the BBC Wales Social club, was a sell-out and we were honoured by the presence of our Area Vice-Chairman, **Lt Col (Retd) John Billingham**, and his lady, **Dr Joan French**. The doctor and our Entertainment Officer, **Carol Richards**, gave us invaluable service when one of our veterans , **Ken Bladen**, was taken ill and had to be taken to hospital. Happily **Ken** was soon on the mend and returned to us at our next meeting.

Our AGM in January saw the return of Officers unchanged from last year – surely a tribute to their satisfactory performance! On 19 January a large turn out of members attended the funeral of one of our most steadfast comrades, **Mr Bill Morgan.** Arrangements made by our Secretary, **Bill Davies**, as always, ensured an impressively dignified ceremony with a 'Corps' of Standard Bearers under the command of our own Standard Bearer, **Mel Collier**, dipping standards whilst a trumpeter in full dress, from the Royal Regiment of Wales, played the 'Last Post'. Branch Chairman, **Eric Powell**, gave the oration. **Bill's** family were most fulsome in expressing their appreciation of the Branch's involvement.

Representatives from the Branch attended the Wales National Millennium Service at Llandaff Cathedral, which was attended by the Lord Lieutenant, the Archbishop of Wales and other civic dignitaries. The next major social event in our calendar is the Summer Buffet and Dance to be held at the BBC Wales Social Club in June. Tickets are already reaching the 'sold out' stage.

EAST KENT BRANCH

Towards the end of last year the Glasgow Branch wrote to East Kent and a number of other Branches, asking whether they would be prepared to raise funds for new sets of Bagpipes for their Pipe Band. **Jo Barrett** and **Marion de Rose** recommended Car Boot Sales and off they went to Ramsgate with goods donated by the Branch members. Later **Trevor Allison** and **John Ballantyne** had their turn and all together collected £100 which was sent off to Glasgow. With a copy of the cartoon.

Sunday 13 February was the Branch annual Ten Pin Bowling competition, nearly 40 competed ably supported by a growing number of less agile distaff who cheered on their Husbands/Wives/ children and grandchildren. The winner once again was one of the **Andrews'** family, best Lady was **Marion Ballantyne** and just to balance the books the wooden spoon went to **Roy Andrews'** grandson **Stephen** age 9, who we are sure will follow in his Uncle's footsteps next year.

Sunday 13 March 59 members met at the Dog & Bear, Lenham to listen to a fascinating talk by **Trevor Allison** on his experiences of working with the Corps Y Service in Berlin from 1964 to 69. Members gave him a well deserved round of applause.

NEW MEMBERS

We are delighted to welcome **Mr Peter Witt,** Chislehurst. **Peter** served as a Territorial in 144(HC) Sig Regt, 329 Sig Sqn and 39 (City of London) Sig Regt. Also welcome to **Mr Richard Gibson** and his wife **Pat** of Sittingbourne. **Richard** served as a Driver from 1952-55 and was in Japan, Korea and BAOR interspersed with periods in UK. Also **Mr Gordon Waylett** of Aveley, Essex. **Gordon** served as National Serviceman from 1949 in ITR Catterick and War Office Sig Regt before joining the TA in 44 Div Sig Regt as a SSgt (FofS) before leaving in 1966. He had come as a guest of **Frank Castle** for the bowling and so enjoyed the company that, despite living in Essex has joined and we welcomed him formally at the lunch, last Sunday.

AU REVOIR

Sadly **Maj Ron** and **Marjorie Acott** have resigned as they are about to move house to Littlehampton to be near their family. they have been regular supporters of Branch events and we shall miss them.

VALE

We are saddened to report the death of **Capt Arthur Hayles** on 14 January 2000. Who served from 1939 to 1946 in North Africa, Italy, Lebanon and Cyprus. Our condolences go to **Jose** who herself was a Colonel in the QARANC.

NORTHERN IRELAND BRANCH

Having survived the Branch AGM in February when the election of Officers for the year 2000 did not exactly please everyone, our March meeting look the form of a social evening our Guests being the Members of the Royal Engineers Association. The skills of Members of both Associations were shown on the shooting range and later when they took part in an interesting quiz. Food provided by **Ian** and **Debbie Wolfe** and **Kim Greer** rounded up a pleasant evening. **Ian** and **Debbie** are at the moment embroiled in finalising arrangements for our annual formal dinner to be held on Good Friday 21 April, 2000. The food has been ordered, the band has been booked so all we have to do now is to look forward to it.

This year we will not have our serving TAVR Members at the Blandford Re-union, due to a clash of dates with Annual Camp but Organiser, **Edgar McCall** has arrangements well in hand for a good representative number who will attend the Re-union.

In a few weeks time **Harry Stanley**, (Foundation Member and 50 Year Badge holder) will become 87 years young and we hope to celebrate this with him at our April meeting. We still meet an the third Wednesday of the month at Clonaver TAVR Centre, Belfast. Do join us.

SWINDON BRANCH

On Sunday 6 February 2000, members and wives attended a Dedication Service at St. Marks Church, Swindon. The object of the dedication service was for a new 'kneeler' woven in the Regimental Colours with the 'Jimmy' painstakingly embossed in the centre as depicted on our Standard. The Service was conducted by the **Rev John Lees**, with the church choir in attendance. The cost of the 'kneeler' was paid for by Branch members. Also present were representatives from the Royal Engineers, Royal Artillery, Korean Veterans and Royal Navy Associations. After the Service, members retired to the TA Centre to 'wet the baby's head'.

(L-R): Tom Davies, Peter Howells, Rod Mansfield, Ted Little and Derek Ferris

SOUTHPORT AND DISTRICT

The Branch held our Millennium Dinner Dance at the famous Scarisbrick Hotel at Southport. The hotel did us proud providing us with a huge millennium cake. The cake was big enough to give most of the guests a slice to go with the champagne. Over ninety guests turned out for the event including a full table of Royal Engineer Association members. Our Guests of Honour, **Brig (Retd) Bill Backhouse** and his wife **Keri** were warmly welcomed by all members. The Brigadier told some very funny stories about his time down the road at Liverpool. Everyone agreed that the dance was excellent.

On a sad note the Branch has lost two members, our President **Murdoe MacLeod** and **Bill Whalley.** Both men will be sorely missed by the Branch. Many Branch members attended both funerals.

Graham Krinks has agreed to become our new President. **Graham** has assured the Branch that he will turn up on time for the meetings. **Charlie Christian** an old member has returned to the fold after a long absence. Welcome back **Charlie.** Anybody interested in joining us would be welcome to do so. We meet on the third Thursday of the month at eight o'clock at the Conservative club, Bath Street, Southport.

Front Row (L-R): Eddie Armor, Dave Carrier, John Reaney, Graham Krinks, Bruce Gillingham, Brig (Retd) Bill Backhouse Peter Dooley, Bernard Moorcroft
Back Row (L-R): Dick Taylor, Frazer Gordon, Danny Monks, Andy Tait, John Roberts, Tommy Thompson, Jimmy Johnson

WEST WALES BRANCH

First on behalf of my wife **Linda** and myself I would like to thank all who helped us in our efforts to form a Branch of the Association in West Wales. Also to the retired Corps members who came to our meeting to discuss this possibility, which enabled us to form the Branch on 21 May 1999

West Wales Branch at the RSA Lunch 27/01/00
Back Row (L-R): Jim Jarman, Hugh John, Capt Ivor Anderson, Peter Mathews, Chris Braid, Gordon Jenkins, Col Billingham
Front Row (L-R): Gwyn Edwards, Gwyn Phillips, Elgan Davies, Linda Davies, Maj Derek Roberts

It has been a slow but steady progress in our first year. We have held three functions so far, A curry supper in December when **Col Andrew Carter** was our guest. He gave a very good talk on the progress of the Corps and the Association. Many of our members have been away from the Corps. for quite a number of years and appreciated the talk by **Col Andrew** very much. Our next function was a belated Christmas Millennium lunch, our main guests were **Col John Billingham** and **Capt Ivor Anderson BEM** who is the President of the Llanelli Branch of the Royal British Legion. On this occasion we were joined by our wives, partners and friends and a very good time was had by all. Our next function was a Quiz Night held in March against the Star Hotel, Swansea Road, Llanelli. This to was a successful evening with one of our teams winning on the night. Our next adventure will be a trip to Blandford which is in the organising stages at the moment. We hope to make the trip in mid April.

I would like to take this opportunity to thank our members for supporting our meetings and functions, especially those who travel from Milford Haven, Whitland, Carmarthen, Ceredigion, Port Talbot, Swansea and the Swansea Valleys with out their support the Branch may well not have been formed.

THANK YOU ALL VERY MUCH IN DEED.

If there are any more retired or serving members in the West Wales area who would like to know more about the Branch please contact **Linda** or **Elgan** on 01554 776493.

WEST LONDON BRANCH

In March our AGM was held in Hounslow Barracks, courtesy of the Devon & Dorsets who have taken over from the Duke of Wellington's Regt, the 'Wellies' having moved off to Germany. This Meeting is special as it also is the occasion of our Great Fish & Chip Night when Members come from far and wide to partake of their national dish, ferried from a local chippie courtesy of the Branch and organised and chauffeured by **Sheila Ruff.**

We combined with the Hounslow Branch of the Burma Star Association for their Annual Dinner at the Civic Centre, after which the floor is cleared for dancing and the interval features a traditional rendering of 'The Road to Mandelay' lustily delivered by old salts of the Burma Campaign and the Indian Ocean. We were happy to have with us our President, **Maj John Daw BEM** and **Margaret,** who cannot always be with us as they now are resident on the Hampshire coast.

254 OBA - SOUTHERN CHAPTER

28 March - A dozen ex-boys and their wives converged on the Upland Park Hotel, Droxford, for their annual dinner under the attentive eye of mine host, **Ex-RSM Brian Lay. Jim** and **Rita Braid** from Clacton, **Bill** and **Sheila Leech** from Exeter and others from nearer home, began arriving in the early afternoon and soon the ante-room was resounding to the conversation of old friends meeting once again. At dinner a place was set for those unable to be with us and we stood for a moment to remember **Danny Daniels** and **Doreen Wood. Ken Wood** felt able to join us and was warmly greeted. **Ken**, it was, who found this hotel and who initiated these dinners. Until recently **Doreen**, in her wheelchair, accompanied him and we had all admired the cheerfulness, courage and fortitude of this charming lady and **Ken's** love and devotion in caring for her. After a fine meal with ample choice for everyone, **Brian Lay** provided a decanter of fine port which only just managed to complete the circuit! Unusually the meal passed without incident although **Maureen Soward**, with characteristic panache, managed to set fire to her menu card.

After breakfast a delegation departed for Modbury for **Danny Daniels**, funeral and on 3 April another gathering of twelve or more ex-boys and their wives, including the **Rev Jim Ireland** who had travelled from York, joined family and friends to say farewell to **Doreen Wood**. The service included a solo rendition of Amazing Grace sung with great sensitivity and crystal clarity.

Jess Weir has invited the Southern Chapter to meet next at the Royal Signals Museum on 4 May with the option to take lunch at Humph Bahadur's Gurkha Restaurant.

BEVERLEY EX-BOYS ASSOCIATION

A Committee Meeting was held on Sunday, 26 March at our Chairman, **John Edison's** house at Clanfield, near Waterlooville, Hampshire and we would like to thank his wife, **Sue**, for the extremely good lunch and their hospitality. Our Vice-Chairman, **Mick Teague**, travelled all the way from Blyth in Northumberland and our President, **John Beasley**, from London, whilst the rest of the Committee came from Bournemouth and Southampton. A proposal had been put forward by **Bill Gray** and **Mick Teague** that **Maj Jimmy Fyfe** should be made Honorary Life President, which was agreed, and a certificate will be presented to him in due course.

Last year at the RSA AGM a proposal was put forward that a building at Blandford be named 'Beverley' in memory of the 6 (Boys) Training Regiment. **Lt Col (Retd) I. J. Hamilton** has informed us that this has been put forward to the Garrison 'Naming Committee'. The Membership has grown to 134 members and **Mike O'Donoghue** is very kindly launching a website to advertise our Association and also for recruiting. We have been advised by **Cliffe Webb** that he could be the longest serving ex-boy as he served from May 1952 to October 1993 making a total of over 41 years. Can anybody beat this?

Plans were finalised for the 50th Anniversary Reunion Weekend to be held on 7-8 October at the Museum of Army Transport, Beverley and further details can be obtained from the Branch Secretary. **Tony Hull**: 01202-770261.

REUNIONS

The 60s 16ers
(1960s 16 Signal Regiment
incl HQ BAOR Signal TroopReunion Club)

Our fifth annual reunion will take place on 1-4 September 2000.
Do you qualify for membership of this thriving reunion club?
Have you registered? 222 former friends/colleagues have.
Contact **Chris Bartlett**, 45 Whitehouse Road, Leigh on Sea, ESSEX SS9 5SR, Tel:01702 524620 or E-mail: chris60s16er@tesco.net

3rd DIVISIONAL SIGNALS REUNION CLUB

At the invitation of the RSM, **WO1 Gany Stoker**, and with the blessing of the CO, **Lt Col N. Couch** Royal Signals, we held our 4th AGM and Reunion Luncheon in the WOs' and Sgts' Mess at Picton Barracks in Bulford on Saturday 25 March 2000. Our Guests of Honour on this occasion were **Maj Gen John D. Stokoe CB CBE**, Representative Colonel Commandant and his wife, **Jennifer**. Other guests from the Regiment were **Lt Col Neil Couch, Capt Terry Crane** with his wife **Mary** and standing in for the RSM (away on duty! In New York) the PMC, **WO (SSM) Jim McNaught**, with **Alison**, his wife. A special guest this year was **Peter Cuckow**, from RHQ, with his wife, **Sheila.** We started to assemble in the Ante Room at 1100hrs because that was when the bar opened and spent the time waiting for the AGM to start at 1200hrs by refreshing ourselves and chatting. The AGM was an extremely long one this year lasting for 15 minutes after which we went back to the drinking, sorry refreshing, and chatting to await the arrival of our guests. The guests duly arrived, were greeted and then escorted into the Ante Room where, after doing a few introductions, the escorts melted away leaving the guests free to meet old friends and, we hope, to make new ones.

The Mess Manager announced Luncheon at 1300hrs and we went into the Mess to find the tables set with Regimental Silver and looking quite magnificent and were served a meal which more than matched the setting. Our President, **Brig Ronnie Stoneham** started the after lunch proceedings with a few apposite remarks and after Toasts to HM The Queen and the Colonel in Chief introduced **Maj Gen Stokoe**. The General gave us a short resume of his antecedents and told of how he had just missed out on the chance of a posting to 3 Sig Regt. He carried on to give us an interesting and amusing speech on the changes in the Corps's *raison d'etre* and how the young men, and women, of the serving Corps had risen to the challenge and made Royal Signals a byword for excellence. The President then proposed the Toast to The Regiment after which he invited the CO, **Lt Col Neil Couch**, to give his traditional Report to the Shareholders. **Col Neil** in his response told us that the Regiment was nearly all back in Bulford from the Balkans and that apart from a fairly large detachment to the Joint Service Communication Unit in the Falklands all ranks were now back in the UK and busily employed in training in their primary task of providing services and communications for the Divisional HQ. He went on to say that they had still managed to do quite well in sporting matters and that various adventurous training opportunities had been well supported. He was proud of the Regiment and said that we had every reason to be proud that our successors were carrying on the great traditions of the Iron Div.

It then fell to **Maj Derek Roberts**, our Chairman, to introduce our 'first footers' who were **Col Bell**, with his wife, on a visit from Australia and taking the chance to attend a Reunion, **Maj Steve Bresloff** and **Mr Elgan Davies** with his wife **Linda**. After thanking the Committee for their help during the year, particularly during last summer, he went on to propose the Toast to The Ladies. The Secretary then read out apologies for absence from some members and explained the circumstances involved in some of the cases especially that of 'Pedlar' **Palmer**, who had dropped something heavy on *his* foot. (He is alright now and able to go for *his* pre-prandial glass of sherbet). He then proposed the Toast to Absent Friends.

Normally, apart from the raffle, that would have completed the Luncheon but the Secretary, in great secrecy, had arranged a little surprise with the help of the General. He gave to the General a salver on which were two Honour Members Badges and Certificates. The General then asked **Derek Roberts** to stand up and accept his Honour Badge. **Derek,** after picking his jaw up, managed a few words of thanks before whispering to the Secretary, 'You devious swine,' or words to that effect.

Gen John then explained that the second Honour badge was for **Maj Ken Smartt**, our Vice President and erstwhile long serving Chaiman who was unable to attend due to illness (You will all be pleased to know that **Ken** is getting better and hopes to join us at Bulford in the summer). He

Maj Derek Roberts
being presented with his Honour Membership Badge by
Maj Gen John Stokoe

asked **Derek** to present **Ken** with his Badge, with the General's congratulations, when he visits him in May. We are all very proud at this recognition of the hard work put in over many years by those two members. The raffle, which was organised as usual by our Treasurer, **Ernest**, assisted by **Kathleen Percival, Janice Pickard, Les Wright, Bill Barnard** and **Colin** and **Joan Spencer**, raised £98-00 towards Club funds thanks to the many donations from kind members, so many in fact that we had to double up on the prizes or we would have been all afternoon calling them out. (**Bob Piper** did not fail us and provided a handsome carved bellows showing a Jimmy and the 3d Div sign). We are most grateful to the CO, the RSM and all in the Regiment for their hospitality and kindness to us during the weekend.

SERVED IN KOREA?

A REUNION IS BEING ORGANISED FOR ALL RANKS WHO SERVED IN KOREA.

THE DATE SUGGESTED IS THE REGIMENTAL DAY IN JUNE.

PLEASE MAKE EVERY EFFORT TO ATTEND THIS MOSTIMPORTANT REUNION. INTERESTED?

Please Contact: **Roy W. Painter** on: 0181 440 0104
55 Parkgate Crescent, Hadley Wood, Herts, EN4 0NW
or: **Ron Larby** on: 0181450 6885
178 Braemar Avenue, Neasden, London NW10 0DS

EX-PERSONNEL OF 1 WIRELESS REGIMENT 13 & 14 SIGNAL REGIMENTS AND 225 SIGNAL SQUADRON

All those who served at Langeleben, near Königslutter, Germany, between 1951/92, please note that there is a Reunion Association and that all are welcome. For details please contact:

John Gant
37 Headland Avenue, Seaford,
E. SUSSEX, BN25 4PZ
Tel/Fax: 01323 893937

This year's Reunion is to be held over the weekend 8-9 September at Loughborough LEICESTSHIRE. Any old Langelebian that is interested should contact;

Ernie Callaghan (Secretary)
12 Carisbrooke Avenue,
Bexley, KENT, DA5 3HS
Tel/Fax: 020 8300 7577

DO YOU REMEMBER RED LEADER?

IF YOU DO THEN YOU MUST HAVE SERVED IN 2 SQUADRON,7 SIGNAL REGIMENT IN 1972 – 1974.

John 'Boysie' **Oakes** is trying to arrange a reunion in Aldershot over the w/e 1-2 July 2000 for all those past members of the Squadron who served under **Maj Paul Webb** and who have an aversion to Dubonnet! Interested? Then please contact **John** at:
1 Blenheim Park, Aldershot, Hants, GU11 2HS
Tel: 01252 323340. E-mail: john-oakes@bigfoot.com.

LOST COMMS

Maj James Massy Hewson - 27 April 2000 marks the 30 anniversary of the death of **Maj** 'Jim' **Hewson,** who left a widow **Jane** (nee Sanders, now Stockill) and two sons **John** (then seven years old) and myself, **Aubrey** (then five years old). At the time of his death he was Officer Commanding 1 Sqn, 16 Sig Regt in Krefeld, where he had a full military funeral. He served previous to this at 11 Sig Regt, Helles Barracks in Catterick from 1965 to 1967 in the Military training wing. Prior to that at 19 Sig Regt in Changie, Singapore from 1962 to 1965.

I know that he joined up and reached the rank of Corporal and then attended Sandhurst in Mons Coy in 1952 and Gaza Coy in 1953/4 and he received his Commission on 12 February 1954. I have been told story's that he was OC, Kohima Tp, at the Junior Leaders Regiment in Denbrey from 1959 to 1962, and that there was an incident of a fire in one of the accommodation blocks there. He met my mother in Rheindahlen in 1958 while he was serving with 19 Army Group Sig Regt (?). Apart from the above details his military history is sketchy to me.

If anyone who knew him or could fill in any further details of time and places he served I would appreciate hearing from you. I would like to know what he was like to work with or for, how he affected your life and what part he played in it. Any correspondence, please E-mail me at bookmark start: AJMH161@ hotmail.com or write to:

Norman Hands of 23 Weston Way, Woking, SURREY, GU22 8RW, is looking for **Ex-Sig Robert Smith** who was a Telegraph Operator between 1958-1960 and was last heard of in Wolverhampton. Anybody who has any information can contact **Norman** at the above address or telephone him on: 01932 401140.

CLOSURE OF 39 INFANTRY BRIGADE WARRANT OFFICERS AND SERGEANTS' MESS

The 39 Inf Bde WOs and Sgts Mess will close on 31 July 2000 and all members will then join the Lisburn Garrison Mess. Anyone who has made a presentation to that Mess and would like that gift returned is to contact WO2 (RQMS) J. B. Kay on Lisburn Mil 42943 or 028 92 609943. All unclaimed presentations will be handed over to Lisburn Garrison Mess for display.

Does anyone know what happened to **Sgt Don Camsell**, 'Cammy'? He joined London District Signals from Canterbury in the 1940's, dressed in cavalry gear. He came, I believe from the south of England, and we were Sergeants together in LDS. He volunteered for Airborne Troops, after the unit were taken to see a recruiting film in a cinema in St John's Wood, London, where we were based at that time. I left the unit having volunteered to train in Combined Operations, and lost touch. If anybody has any information please contact: **Jim Prentice,** 7 Hilton Court, Hilton Road, BISHOPBRIGGS, G64 3EA.

E-mail: crystalize.musicstudio@sympatico.ca

Dear Sir,

I am searching for friends who we lost touch with once the family was posted. **Maj** (then Captain) **Paul Boscher** is with the Royal Signals and we met at the Canadian Forces Base Kingston (Ontario, Canada). This was – 1994/97.

Paul was an exchange officer serving with the Canadian Signals in Kingston. When they left Canada, **Paul** was promoted to Major and transferred to one of the Royal Signals groups in Germany. We received a letter from them with their return address soon after they left, but the letter had been mangled by the various post services and the address was illegible.

I would appreciate it greatly if anyone who has information could contact me at the above address, telephone or E-mail
With Thanks……..

Gwyn Phillips has sent us two photographs from his National Service days. **Gwyn** would very much like to make contact with the guys in the photos. Should anyone recognise anybody **Gwyn** can be contacted through **Elgan** or **Linda Davies** on Tel: 01554 776493, or at 17 Bradford Street, Llanelli, Carms, SA15 1ET.

Tony Evans is sat at the back
in front (L-R): 'Taff' Phillips, Pete Clark, Harry Mayghan, Eddy Bray

Back Row (L-R): Pete Clark Tony Ennis, Harry Maughan, Derek Watson
Middle Row (L-R): Eddy Bray, 'Blanco', Don Okill
Front Row (L-R): Mick Barker, Bill Jefrey, 'Taff' Phillips

Paul Quinn is looking for any 'anecdotes from your 'Service' days about the antics of 'the old and bold'. He says, 'Just because you don't attend reunions and/or get-togethers it is no reason to cut yourself off from your old comrades. Put pen to paper, and let me make sense out of it so that all may laugh.'

He also says that with enough 'input' he hopes to make a reasonably sized booklet which could be sold through the museum. This is your chance not only to help the Association raise funds but also your own chance to carve yourself a small niche in history. You will not get any financial reward for your tale , but your name will go down in print so that it can be read in a hundred years.

All you 'old and bold' put pen to paper and contact **Paul Quinn**, 12th 15th & 18th AFS Regiment's Association South East Area Rep, 32 Windsor Way, Polgate, EAST SUSSEX, BN26 6QD or telephone: 01323 482471.

AUSTRALIA 6155
E-mail: pjcunno@iinet.net.au
Tel: 08945 70351

Dear Sir,

Greetings and Salutations, I am writing with a request Next April 2001 my old Australian Regular Army unit is having a reunion. In fact I am organising it and one of my mates in the unit back in the 1970s left Australia and joined the British Army. We were both in 103 Signal Squadron Royal Australian Corps of Signals, based in Townsville N. Queensland. I would like to catch up with him and also advise him of the upcoming event. The idea being that he may decide to have a holiday over here!!!

His name is **Brian Richard Cross**. He sent me a picture of himself on completion of recruit training at the Signal School at Catterick (I think). If my memory serves me correctly he hoped to go into the operator trades. Another mate who was fortunate enough to go on an exchange programme mentioned that he saw him in the army in Germany, that was also in the late 70s.

Is it possible that some can help? Should you have any information please contact me at the above address.
Many thanks……..

CORRESPONDENCE

UP THE POLE

A few weeks ago a striking picture caught my eye. I can't remember where it was, but it showed a soldier up a telegraph pole; busy connecting up some cables seemingly oblivious to the desolation of war scattered all around him.

I'd seen that chap, in that position before! It was in Germany in 1945, near Buckeburg, some time before the war finished. He was up a pole immediately beside a main road, or MSR as the Americans called it. The road was very busy - moving tanks, troops and supplies forward whilst lorry loads of German POWs were being shipped westwards. Everywhere was covered in dust and dirt. It caked and cracked on the sweating faces. The chap up the pole wasn't wearing khaki - his uniform, like his face, was a dirty grey!

I got to know that chap, and others in his unit, they were the Air Formation Signals. They worked with us from Normandy to Bad Eilsen. I had the transmitter site for 2nd Tactical Air Force HQ and handled much of the Ops traffic to various Wings and Squadrons. Usually, my site was several miles from the HQ and therefore the AFS had the critical job of finding a 'copper' connection. Very often this was by means of several 54 pair cables over some pretty grotty territory. Sometimes they were lucky, as when I was sited on Brussels race course and they could make use of some local telephone circuits.

I haven't heard anyone singing the praises of the AFS, (NOT the Auxiliary Fire Service), during or since the war. I would like to go on record to point out that the Tactical Air Force would have had some major problems had the AFS not 'got through' with their 54 pair cables, (and maintained the circuits)!

I SALUTE THEM

Jack Marshall MBE
Squadron Leader RAF (Retd)

TQ4 7DX

Dear Sir,

With reference to the February 2000 issue and the reorganisation of 21 Sig Regt and 81 Sqn in particular. I see no mention that 81 Sig Regt was a component of the Army Emergency Reserve until disbandment in 1967.

As an ex-member of the AER (Lon Dist, 87 & 80 Regts) I am aware that the AER was unfortunately never in the limelight, which is probably why we were disbanded, not having the 'clout' of the TA at the time.

You mention that 50 Sig Regt came into being in 1950. I seem to remember that when the Supplementary Reserve was reorganised into the AER in 1952/53 due to the influx of the National Servicemen it was rapidly expanded, many new units being formed in 1953. My own Regiment, London District Sig Regt, AER, went to a camp in Chester (Blacon) and in September of that year, we did not have an RSM, only an RQMS and eight Sergeants. We were told that this was not unusual as an Air Formation Signal Regiment in camp, prior to ourselves (50th?) started out with two Corporals who 'tossed-up' for the RSM and RQMS slots.

Does anyone have any memories of that time?

When we were disbanded in 1967 we were told that our numbers were to be perpetuated as Squadron Numbers, my own (80th) went to a Sqn of 33 Sig Regt. I believe that 81 Sqn was originally attached to 40 (Ulster) Sig Regt.

With regard to the old AER Numbers, last summer I was talking to a R. SIGNALS Staff Sergeant in Gibraltar who was a member of such a squadron and he stated that he did not understand why his Squadron was numbered as it was. I feel that this is somewhat sad as the Army is based on tradition and most Regiments teach Regimental History. Of course the Corps History takes preceded but I would have thought that Squadron members would have the knowledge of their forebears.

Yours Faithfully.....

Macleod – Lt Murdo MacLeod who died on 5 February 2000 after suffering a severe heart attack was President of the Southport Branch of the Royal Signals Association since 1989. **Murdo** was born on the Isle of Lewis, in the Hebrides, some 81 years ago. The only son out of six children, he had the strength of character that such a tough environment builds. He retained a great love of the place of his birth visiting it and his family as often as he could.

With the outbreak of the Second World War, in 1939, **Murdo** joined the Queen's Own Cameron Highlanders. In 1942, having transferred to REME, he was posted to the Far East and from July 1942 to November 1943 he was in the REME workshops at Agra. In November 1943 he was sent to OTS Mhow until 4 March 1944 when he transferred to the Royal Signals OTS Mhow until July 1944. A broken arm then curtailed his activities until November that year. December 1944 saw **Murdo** with Beach Assault Signals Arakan until June 1945, then in July , of that year, he joined Beach Assault Signals 26 Division, Bombay. He spent some time at GHQ Delhi and also Bangalore before returning home in December 1945.

After being de-mobbed in 1946 he was taken seriously ill yet on recovery went to university in Galashields to study Textiles Technology. After a short period in the Islands he returned to the mainland working for the Shirley Institute, finally ending up in a senior position with Courtaulds. It was his work with them that brought him to Lancashire and in particular to Manchester. A keen musician, it was whilst he was playing the cello with a friend, who was a violinist, that he met **Vera** and began a friendship which was to lead to over forty three years of marriage, setting up home in Manchester and later in Southport.

Murdo was a keen sportsman, playing tennis in his youth and also badminton and latterly golf. He became, amongst other things Secretary, President and Vice-President of the Southport Tennis Club, Hillside Golf Club and at the time of his death was associate with some thirty five different organisations. He was also a former Secretary of the Textile Institute, a friend of Southport Library and a member of the Lyric Singers in Southport.

Murdo was an active member of the Southport Branch of the Royal Signals Association and was our President from 1989; he was also a member of the Indian Signals Association. We are indebted to **Maj Joe Croker** for providing details of **Murdo's** service in India. At the time of his death **Murdo** was also Chairman of the Burma Star Association, Southport.

Murdo's funeral service took place at St. George's United Reformed Church Southport on 14 February and a Guard of Honour was provided by the Royal Signals and Burma Star Associations, both Standards were paraded. **Rev K. Summers BD**, the minister, gave a moving appreciation of **Murdo**, who had been an Elder of the Church. He was, said **Rev summers**, a staunch Presbyterian whose faith had dominated all that he did and had been. We shall miss him greatly. We send our sincere condolences to **Murdo's** widow **Vera**, daughter **Judith** and son-in law **Geoff,** their son **Steven** and all the wider family.

Bell – WO1 Henry 'Harry' **Bell.** 'Harry' was evacuated from Dunkirk on 1940 with the British Expeditionary Force and went on to serve with the 1st Army in North Africa, Italy and Germany. After the war he served at HQ Fountainblau from 1945 to 1951 then with 30th Signal Regiment including spells at Rheindahlen, Laarbruch and Maastricht. He finished his service as Recruiting Officer at Reading. He was a life-long supporter of the Association serving as Secretary of the Jersey Branch from 1975 to 1998 when due to failing health he had to retire.

Some 12 members attended his funeral on 16 February accompanied by several of the wives. The Branch standard was on display and his medals and insignia of rank were displayed on the Union Flag which adorned his coffin. In the words of his son, 'He was not only an ardent supporter of the Corps, but he was also a well loved and respected family man.' He will be sadly missed.

Peplow – Michael J. Peplow joined the Corps as an Apprentice in 1960. He saw service in Germany, Lybia and with the Trucial Oman Scouts. He left as a Sergeant in 1975 to become a technician with the Saudi Air Force. **Michael** was a Life Member of the RSA and lived in Harrogate. He died on 13 March 2000, following a short illness.

Whalley – Dvr George William Whalley died on 15 February 2000 from a heart attack after being taken into hospital in the early hours of the morning; he was seventy six. When called up early in the war **Bill** joined the King's Liverpool Regiment and then in 1942 transferred to the Royal Signals as a Driver. He landed in Normandy shortly after 'D' Day and saw action in France, Belgium and Holland. **Bill** served with the Guards Armoured Division Signals, 79th Armoured Division Signals, 11/2 Corps Signals.

After leaving the army **Bill** worked in the fruit and vegetable trade in Liverpool and was very well known and respected in this sphere of his life. Whilst living in West Derby, he was for many years in the Liverpool Branch of the Normandy Veterans Association and was the Branch Secretary, he was also a member of the Liverpool Branch of the Royal Signals Association.

Eleven and a half years ago the family moved to Ainsdale, near Southport, where **Bill** was again very much part of the local scene and had many friends in many organisations including the Church, the Lodge, the Bowling club and Ex- Service Associations. He joined the Southport Branches of the Royal Signals and the Normandy Veterans Associations. He was the RSA Standard Bearer for four years until he needed an operation on his knee in September 1995. **Bill** was also Vice-Chairman of the Normandy Veterans Association until his death.

A full congregation gathered at Ainsdale Methodist Church on 23 February for a Service of Thanksgiving for **Bill's** life. He was essentially a cheerful, warm hearted, outward going family orientated man who will be , like so many before him, sadly missed by all of us in the Southport Branch of the RSA. Our condolences go out to his widow **Muriel**, daughter **Ann,** grand-children **Sarah** and **Thomas** and to his sister **Dorothy.**

Campbell – Sgt Alexander 'Alec' **Campbell** died suddenly on 15 January 2000. 'Alec' served from 1971-1993 and was stationed in the United Kingdom, Northern Ireland and Germany. He completed his service at 21 Signal Regiment and returned from RAF Wildenrath to Colerne with them. 'Alec' and his wife **Isabelle**, who was a clerk in Regimental Headquarters, both in BAOR and UK before her death in September 1999, had many friends throughout the Corps. Both were known for their friendliness and willingness to help others. 'Alec' will be greatly missed by all who knew him and our sympathy is extended to his family in Barhead, Glasgow.

Serebriakoff - Victor V1adimirovitch Serebriakoff died at home aged 87 on 1 January 2000. He was most famously associated with MENSA. From 1954 onwards he built up the membership from a dwindling four groups to a world wide membership of 100,000 and was Honorary President of International MENSA till his death. But there was another side to his rewarding career, less well known, which concerns his service in Catterick Camp from 1945 to 1947 as a Lance Corporal Morse and E&M instructor in Royal Signals, and as a Sergeant in the RAEC. He was born on 17 October 1912. His father, a Russian émigré, changed his name to Serry, but on call-up in 1945 the Army insisted on Vic going by his birth certificate name which caused problems at roll call: when it reached er.. er.. Serer.. he just shouted -Sah!

Whilst in a reserved occupation at Calendars Cable Co, Erith for the majority of the war he suffered his baptism of fire during the blitz. He made light of it and would have one think his experiences all took place in The Black Prince pub in old Bexley. He organised assorted entertainment with his pals both in the factory at lunch times and in the pub in the evenings to make life more bearable. He said, 'The war, the noise of bombers, the whine of the falling bombs and rattle of shrapnel did not exist for us. It was bad form to be aware of it.' He organised a group to entertain the recruits at the Artillery Theatre, Woolwich. He eventually became so keen on theatricals (and fed up with his foreman at work) that he wanted to entertain service people world wide. He got himself an audition with ENSA in Drury Lane and was accepted and enrolled. 'I came back full of joy and told my foreman that I wanted to be released from my war work. To my surprise my application for release was granted and I prepared for my new career in ENSA - but no! A few days later I got my call up papers! I was a devout coward about armed combat; I tried every angle and got ENSA to appeal against my call up but it was quite rightly turned down. I was given orders to travel to Ireland for infantry training.'

He found, 'There is no way that it was possible to kill Germans, which was our objective, without being able to lay your kit on the bed in an exact and highly regulated form. Now and again we were shown how to use a rifle and once or twice told how to charge sandbags, scream, shout and stab them with a bayonet. The really important things were that your kit was correctly arranged, your boots were polished to blinding perfection, inspected by an enormously fierce sergeant, viciously criticised, then coated with a thin layer of dubbin so that they would not glitter and reveal your position to a hypothetical Hun. The dubbin had to be scraped off next day! The bullying by Sergeants and Corporals-was all a great big act. We soon began to like them and found that though we came from every possible class, division, occupation and district some part of our hominid nature turned us into a close male-tribe attachment despite our constant friendly scuffling and quarrelling. I was utterly astonished to find I liked it, was good at it, and at the age of 32 seemed able to run faster and further and do the drill better than most of my eighteen year old colleagues. I soon put on a stone of muscle and have been strong for my size ever since.'

Vic had an intelligence test, which he believed caused a kerfuffle. 'The psychologist sent for me and accused me of having cheated. He said accusingly, 'You knew all the answers before you came'. I said I must have done if I got them all right. He accused me of familiarity with the test and I had to do another one. I did it and then was asked what I was doing working as a wood machinist. I said I was earning a living in a reserved occupation. He shouted, 'In that sort of job?' I got the maximum score and soon after made unpaid Lance Corporal.' This was his first indication that he had a high IQ and he believed, 'Being made a Lance Corporal in Royal Signals changed my life. For the first time I was considered to have promise and given the opportunity to manage and control men.' He certainly used his latent recruit revelation and ability to good effect when he joined MENSA. He was posted to Royal Signals in Chester. 'Germany and its allies had rendered the unconditional surrender called for by Churchill and Roosevelt and someone had to march through the streets of Chester to celebrate. Soon I found myself marching past crowded pavements with a band in front. The people were shouting and weeping with gratitude at the heroes that had saved the Empire. I felt very proud and marched like a hero but managed to summon up the modesty to think that two weeks basic training and a few weeks learning Morse did not quite justify such deeply emotional gratitude.' He was then posted to Catterick Camp where he was transferred to the RAEC and promoted Sergeant. He continued his interests in entertainment by organising shows in his mess and in the NAAFI. His prowess led to his coming to the attention of **Brig R. T. O. Cary** who was, at the time, Commander of the Signals Training Centre. The Brigadier had for many years been interested in the welfare of troops and keen to keep those under his command entertained. In 1945 he saw his big chance in theatre. With the war ended there were many soldiers of all ranks keen on theatricals kicking their heels in a drab and miserable Catterick Camp waiting for demob.

Vic said, 'I was sent for by the Brigadier because of my reputation for impromptu entertainment and ordered to transform a disused gym in Loos Lines into a theatre,' (in fact the building was in use for dances, band concerts and the like). 'I went down to the building and found two Privates who were there to keep it going. One was **Harry Champion**, nephew of the **Harry Champion** a popular music hall comedian of the day. I started in a business like way by asking these two to tell me what their duties were and report on their daily routine. I was given a look to size me up - then one of them said, 'Well Sarge we usually have too many beers in the Naffy the night before and don't get up till ten. We then go to the Naffy to get something to eat as it's too late for breakfast, and read the papers. Then we come back here to look for the winners. We might sweep up a bit till dinner time - well we would do but the broom's broken. By the time we mend it it's dinner time so we nip off to get a bite.' I was trying to suppress my smiles without too much success and with a grin said they were about to notice a slight change to routine, such as getting off our lazy arses and working like troopers -the building was to be a theatre by the end of the week! I did not remain in charge for long as the Brigadier sent an Officer and the team grew with visits from the Brigadier every day. Within a week the building looked as entirely different as it could be. Due to the enthusiasm that went into the project the productivity was at a rate about double that which was normal for Catterick at the time.' Thus was the Signals Theatre building created. (The name was changed to The Cary theatre on 30 June 1949).

Vic appeared in the first Theatre Club production as one of two Broker's Men in 'Cinderella' which ran from 31 December 1945 to 11 January 1946. He continued to be a stalwart member of the Signals Theatre Club as did many other serving members of the RAEC and all Arms and civilians in the Catterick area. 'The Club had a bar with a no rank rule so one could drink and swap jokes with anyone from the Brigadier downward.' **Vic** was talented and could play pantomime, drama and comedy. He appeared in many parts and frequently played in productions along side the Brigadier himself. **R. T. O. Cary** particularly liked the lead in 'The Man Who Came to Dinner' with **Vic** cast as either Professor Metz or Dr Bradley.

Vic designed and cast a fine pair of masks, depicting Comedy and Drama, which were placed over the proscenium arch when the theatre interior was further improved in July 1946. His finest part was his last role in the Theatre Club. He was cast as Gribaud in 'The Duke in Darkness' by Patrick Hamilton. It performed to full houses from 14-23 April 1947. The words spoken by 'The Duke' **(Ronald Allen)** at the end of the play when Gribeau, his faithful servant who had gone mad during their captivity and had finally died, appear a fitting end to this Last Post. The lighting faded into a glorious sunset, music from the last movement of the Overture Romeo and Juliet by Tchaikovsky rose to a crescendo, the audience in tears: 'Gribeau, Gribeau, Gribeau, the rain on your face, the wind in the night outside and the stars in the wind; ride with me dear friend for we are free to ride.....'

Victor Serebriakoff as 'Gribaud' on the right, going mad: Ronald Allen 'The Duke' standing left

Daniels - WO2 Dennis Richard Daniels was born in Plymouth on 15 December 1927. His father was a Master at Arms serving in the Royal Navy. Danny, as he was popularly known in the Corps, followed in his father's footsteps and joined the Naval Training School at Plymouth. However, after more than a year he was discharged on medical grounds, with flat feet. He subsequently joined Boys Training Company, Royal Signals in October 1943 at the age of 15 years 10 months. During his time in Boys Company he successfully qualified as a Lineman and also passed the First Class and Special Certificates of Education. On leaving Boys Service in 1945 he initially served in York but was then posted to 4 Training Regiment in Catterick where he was employed as a Weapon Training Instructor on Drill and Duties courses. During this period he quickly reached the rank of Sergeant. He was an accomplished Boxer and represented the Regiment and Northern Command. In February 1949 he was posted to Egypt and also spent a short spell in Iraq, where he was employed as a Line Sergeant. On return to Catterick in 1952 he was posted to 2 Training Regiment where he was again employed in Weapon Training and attended the course at Hythe. During this time he regularly represented his Regiment and the Corps in Small Bore Shooting. In 1956 when he was a Staff Sergeant, he took his discharge from the Army and returned to Devon. Things didn't go well employment wise, therefore, in December 1959 he re-enlisted in the Corps in the rank of Signalman. **Danny** re-qualified as a Lineman Class 1 and was soon promoted to Sergeant and was instructing weapons on promotion courses including the Staff Sergeants course. He finished his normal service in the Corps as a Staff Sergeant after service in Singapore, BAOR and Aldershot. He applied and was accepted for the Long Service List. He subsequently served in Aldershot and latterly in BAOR, where he was awarded the Meritorious Service Medal and Bar to the Long Service and Good Conduct Medal. He was finally discharged in 1982 and returned to Devon. Tragically in 1984, his wife **Glenys** died suddenly from an angina attack and **Danny** was left bringing up two young sons. His elder son was serving in the Corps. **Danny** was a Life Member of the Royal Signals Association and regularly attended the Re-unions at Catterick and Blandford. He was also a popular member of the 254 Old Boys Association. **Danny** died in hospital on 21 March. He leaves a step-mother and three sons, to whom we extend our sincere condolences.

Petheram - Lt Col M. A. Petheram. A close friend of **Lt Col Michael Petheram** has sent further news of his (**Michael's**) career, additional to that already published in the February edition of *The WIRE*.

In our conversations, **Michael** often spoke of three places in particular where he had served. His career, on being commissioned at the Indian School of Signals at Mhow, started with an historic appointment on the North West Frontier of India (Pakistan today), as Signal Officer to an Indian Field Regiment RIA at Nowshera. His men were Madrassis:so, in 1947 he had the task of escorting them into India, confronted on the journey from Nowshera by the horrors of slaughter and destruction which were engendered by the Partition.

In the 1960s, in Lubbecke BAOR, he had a two hatted job, one being SO2 Sigs HQ 2 Div, the other being a member of 2 Div Sig Regt - thus having two masters he was challenged as to how he would survive such an ordeal! Events proved thar he was more than up to it. This was to prove one of his happiest postings. His final soldiering job was at HQ AFCENT; there he was to remain for five interesting NATO years.

On retiring, he took an Retired Officer appointment at the Headquarters at Shrewsbury (now HQ 5 Div). His ever-present sense of humour was typified by his comment that his most important task involved converting the multitude of sceptics to the art of computing! That appointment led to the family settling in a 16th Century house near Wem. **Michael** had a strong Christian faith and took on duties as a Church Warden: and his love of music continued with his membership of the church choir and local choral society. His sense of humour, courteous manners and conscientiousness endeared him to all.

LATE NEWS.....LATE NEWS.....LATE NEWS

RSA - POOLE BRANCH

On 9 April we held a Spring Lunch at the Elstead Hotel in Bournemouth. Some 30 members and friends attended and the main event, before lunch, was the presentation of the 50 Year Badge to our President, **Brig** 'Paddy' **Evans CBE. Maj Gen Alan Yeoman CB**, Chairman of the Association, was our principal guest and despite failing to 'open the box' duly gave 'Paddy' his well earned award. **Gen Alan**, who lives locally, was accompanied by **Barbara** and everyone agreed that it was an excellent afternoon.

Brig 'Paddy' is very much a working President, never failing to attend our monthly meetings and other events. He marches with our contingent every Remembrance Sunday, lays our wreath at the local War Memorial and on our return from church as we approach the Broadstone Royal British Legion he drops out - not from exhaustion - but to take the salute. his charming wife **Pat** acts as the Branch's Honourary Treasurer and is always ready to help out at all our functions. We are lucky to have their services and all our members hope that they will continue to enjoy good health and that their infectious good humour will be with us for many more years.

Our official photographer, **John Hyde**, was present and caught the spirit of the happy occassion.

RSA - COTSWOLDS BRANCH

The Annual General Meeting was held at our monthly meeting in March when quite a good attendance gathered at the Victory Club Cheltenham. The Chairman, **Maj Arthur Cropp,** opened the meeting with a tribute to our late President - **Col Freddie Worth OBE**, who died on 28 February, 2000 at the age of 95 years. **Col Worth** was President from 1979 to his death and was a regular attendee. He will be sorely missed. His funeral in Tewkesbury Abbey on 3 March 2000, was attended by our Standard carried by **Mr Alan Wingate**, a Trumpeter **LCpl Bilby** from the Corps Band - who played the Last Post and Reveille, and several members of the Branch.

The Chairman, **Maj Arthur Cropp**, was re-elected and his wife **Marjorie** was elected Secretary and Treasurer. The Committee were re-elected en bloc. A discussion took place about the lack of new members joining the Branch and it was felt that the word 'Old' should be deleted from all reference to recruiting as the members felt that younger members to-be were not inclined to join an Association of 'old people'.

REUNION CANCELLATION

It is regretted that the tri-annual reunion for

JUNIOR LEADERS ROYAL SIGNALS DENBURY

will not now take place in the Newton Abbot area on

29 AND 30 SEPTEMBER

This is because of local difficulties regarding venues and we hope that we may revive it in 2001 when all will be notified.
Sam Ward regrets this decision and passes his regards on to all previous attendees

THE ROYAL SIGNALS MUSEUM IS PRESENTED WITH AN ARMY PIGEON SERVICE AWARD

by Col (Retd) Cliff Walters, Museum Director

Signalman William Streeter, who died in 1974, was one of a rare breed of the Corps who, during the Second World War, dedicated his service to the Army Pigeon Service (APS). So dedicated was he that, in December 1945, the Secretary Of State for War presented him with a Certificate of Appreciation.

Signaller William Streeter 711 Squad, I st Depot Battalion

William joined the Corps shortly after the start of the war and was selected for service with the Army Pigeon Service because of his expertise as a pigeon fancier. He trained as a member of No 711 Squad, 1 Depot Battalion but soon found, himself at Milborne St Andrew about six miles from Blandford.

His wife **Phyllis**, who was born in 1908, was also involved in pigeon breeding. She recalls, 'Whilst **William** was away I ran the family building business and bred pigeons for wartime service, in our pigeon loft at home in Stanmore. My boss, in this respect, was **Mr George Barratt** a Postmaster in London. When the pigeon chicks were ready to be deployed I received covert messages to take them to the Stationmaster at Mill Hill railway station. I do not know where they went from there but I know that the first lot went to the Royal Lofts at Sandringham. It was all very hush-hush.'

Most of **William's** service was spent at Milborne St Andrew where **Phyllis** would visit from time to time. The APS had taken over a number of the hen-houses at the Milborne Wood Farm of **Sir Ernest Debenham**. The whole operation was highly classified and very few local people knew of its existence. The current owner of the farm **Mr Richard Worrell** states, 'My father bought the farm in about 1950 and I recall stories that when the pigeons flew in from overseas there were Dispatch Riders ready to take them to London or to the railway station at Blandford. Unfortunately, the hen-house buildings were destroyed in 1997.'

Pigeons were used extensively during the war and **Phyllis** states, 'One of **William's** tasks was to train secret agents to handle pigeons so that they could get their important messages back to the Secret Services. Other pigeons were carried by RAF bomber crews and released if they were shot down. On one such occasion pigeon **White Vision** saved the crew of a crashed flying boat, off the Hebrides, by flying against a 25mph head wind in very heavy fog. As a result the search and rescue team was launched and the crew were saved. For his brave deeds the pigeon was awarded The Dicken Medal, the VC for animals. The Certificate of Appreciation was framed in wood by **Don Parsons** who worked with **William**. The frame is a beautiful carving of 'Jimmy' and a pigeon of the APS. It is now on display in the Museum.

Mrs Phyllis Streeter presenting the Certificate to Col (Retd) Cliff Walters

EXERCISE LOG FLAKE 2000

It was 0700hrs on 12 February when we set off all keen and happy for a week skiing in Wertach. The HQ staff gave us our minibus that was covered in hire stickers and took the plain one. They didn't want to be embarrassed, but when the key turned we were the ones laughing as our minibus had the only stereo that worked. Cheers Rodney's! By 0730hrs the beers were cracked open and the holiday was in full swing. The first morning the novices went to the Felhorn and the beginners, **Maj Dave Nelson** (RLC), **Cpl Jenny** 'One Glass' **Notley** (AGC), **LCpl Paul** 'Baby Tech' **Rhodes, Sig Ruth** 'Gwar' **Kennedy, Sig Sam** 'Curly Sue' **Yardley, Sig Neil** 'Gladys' **Marsh, Sig Jon** 'Chopper' **Harris, Sig Mick** 'Does anyone need a medic?' **Miles** and myself **Sig Lee** 'Mavis' **Mason** who skied at the REME Ski Lodge. After several bumps and bruises most of us were starting to look like skiers except for **Sig Mick Miles,** who couldn't stay up for more than 30 seconds. A big thank you to our ski instructors **Gaz** and **Chris** from the REME ski team who took the time to help us and send us in the right direction, down the slope! The rest of the week followed a

LATE NEWS.....LATE NEWS.....LATE NEWS

LATE NEWS.....LATE NEWS.....LATE NEWS

demanding pattern, everybody woke up hung over, skied all day and then went back out to drink more beer. A few incidents did arise; we thought that one of the restaurants was going to come down after **Sig Neil Marsh** crashed head first into it. No Neil, sticking out your head won't get you closer to the pies! At the end of the week we could have had a ski team put together, **Sig Jon Harris** would have done downhill as he could not turn, **Cpl** 'Taff' **Lean** and **LCpl** 'Dar' **Merry** would be in the display team as they showed off their new skis. **SSgt (YofS) Pat Smith** won the human snowball competition and **Lt Thirsk**, OC Tp, kept us on the straight and narrow with her wise words. In all it was a great week and worth every penny. A big thank you to **Maj Jim** 'mad chadders' **Chadwick (REME), WO2 Steve Cull (REME)** - 101 Log Bde, and all the REME crew in Bavaria who made us very welcome and went out of their way to help us. Bring on next year!

The Squadron skiers chill out!

ADVENTURE TRAINING - RUMBLE IN THE VALLEYS

Once upon a time **Cpl** 'Timmy' **Bishop** in his quest for his third banana decided to organise some adventure training. 'Timmy' decided that this adventure must be something special, something to test the dynamic and courageous nature of the officers and soldiers of the glorious 261st, but where on earth could 'Timmy' take this fearless breed of warrior. It needed to be a place so perilous that even the name of this land would strike terror in the heart of man, a country so sparse and savage that even God has forsaken it! His choice was made 'Timmy', was going to WALES! Now 'Timmy' needed some intrepid explorers with hearts of iron, bold, valiant, resolute and willing to cough up £23.50 for their troubles. How would he find men and women of this calibre? Slowly but surely a few crazy daredevils put their names forward: **Lt** 'Mum' **Thisk, LCpl Wayne** 'Granddad' **Stewart, LCpl Tony** 'Wincy' **Willis, LCpl Dave** 'Er maps are jolly interesting you know. Do you want to read my book on knots?' **Howie, LCpl Gavin** 'Fatty' **Holloway, Sig Dale** 'Ginger Freak' **Richardson, Sig Samantha** 'Slappa' **Yardley, Sig Emma** 'just move your right leg up a bit that's it you're doing well no you're not going to fall come on you can do it, don't look down' **Redfearn,** and myself **Sig Jon** 'Chopper' **Harris**.

Monday: 'Timmy' had arranged everything and on the first morning we set out from Aldershot on our expedition deep into the bad-lands of Wales. We arrived at the fortified encampment of Capel Curig our only sanctuary in this wanton land. It was here we first met our native mountain guide (Ross Ashe Cregan) who resembled a slimmed down version of Father Christmas. He told us great tales of what we would do in the next week, what sights we would see and the experiences we would have. That night we went to sleep that dreaming of what treats lay in store.

Tuesday: We woke that morning full of energy and like the dynamic machine that we are we set off in search of adventure. We spent the day climbing up rocks and walking backwards down them. 'Timmy' soon grew restless with this and found that running down forwards and not stopping was far more entertaining. 'Fatty' found that he had been carrying the iron around with him much to the glee of everyone else. 'Mum' found a dirty great rock in her rucksack and I showed everyone new methods of attaching a carrabena to part of my anatomy. After that interlude we shot off to climb an old route called the chimney, which we were told used to be climbed at night after a session in the pub. In some places the rock became very narrow and certain female participants became wedged in by their own behinds and had to be hoisted up; oh how we chuckled. What a day we had ascending and descending, by the end of it we were chin-strapped and went to bed.

Wednesday: We started the day with a spot of gorge walking. Legend has it that the water in the hills is magic: if you are to jump into some the pools of water you swim very quickly, loose the ability to speak and shiver a lot. So we all (except Grandpa who gets cold easily) jumped in to see if the legend was really true. It was, 'Brrrrrrrr f@*k me it's freezing!' Come the afternoon we were off sea-level traversing braving the savage sea, surviving the relentless crashing of waves and endure the endless waiting for **Sig Emma Redfearn** to climb round the cliff face. With another day of adventure tamed we set off to visit the historic town of Bangor in all its splendour and socialise with the native inhabitants, see the sights and partake in the local customs of consuming alcohol and eating greasy takeaways. We felt this was our duty as ambassadors of Aldershot a sort of winning of hearts and minds campaign (a soldiers work is never done)!

Thursday: We started with a spot of free abseiling and 'Mum' showed us all how to do this upside down. Straight after that we had a shufty around one of the abandoned slate mines. It was soon time to face the zenith of our adventure in sunny Wales. Santa's thin look alike had made us a 200ft death slide into a freezing cold quarry lake. Who did we get to test the rope out first? Granddad seeing as he had managed to avoid getting wet all week everyone had a go at whizzing down the slide to the ice cold impact of the waters below. How could I go one better, how could I champion my comrades? I only had one option left to me, I had to go down naked. At first it was not an unpleasant feeling but then the kick in the goolies arrived. I thought to myself, 'What a fantastic week we've had and ow my man bits hurt'.

Hi de Ho says Sig 'Chopper' Harris!

Sig 'Chopper' Harris on the left and Cpl 'Timmy' Bishop centre with the crew about to get seriously wet!

EXERCISE SPRING VIPER I

Ex Spring Viper I was a small squadron shake out exercise from 13–17 March 2000 in preparation for Ex Spring Viper II, which is …….. logical. The Squadron has recently formed and is trying to establish the SOPs of the three Headquarters should we be deployed on Operations. The Exercise also gave the Brigade Commander the chance to bring out his staff (literally) play with his Lego, and work out anyway of trimming the complex down so that the Squadron could run more efficiently. On the morning of 13 March the Squadron crawled out to the training area, one mile from camp, to set up 'Billy Smarts' and then crawled back into camp for a good night's sleep. The following morning the Squadron then collected weapons and went to war….. well deployed back to the training area, so that we could check the tentage in preparation for the staff arriving the next day. Not happy that the tents were in the right place, or the fact that WOTAN wasn't working, the OC moved the HQs one at a time to the other side of the training area, making sure they didn't go down the mined main road. Once in location each HQ had to set up and prove that WOTAN still wasn't working before coming back and setting up in the same area from which they first deployed, as the staff were only hours away. Wednesday morning the staff arrived, all fresh faced, without their weapons, webbing and helmets, had a spot of lunch, loads of briefings, camped out for the night and then finally tabbed back to Barracks. This triggered Endex; the war was over, so we packed up in slow time and crawled back to camp for tea and medals (especially for your scribe - **Cpl Bishop**).

FINALLY

The Squadron continues to welcome new arrivals including **Cpl Reynolds, Thomas and Towers**, plus **LCpls Douglas, Cole, Marchant, Sutherland** and **Twissel**. The Squadron Lanyard Trophy team has been training hard in the snow on Dartmoor fuelled on a special diet of all in stew. Meanwhile, **Sig** 'Dimbers' **Dimberline** continues to amaze everyone with his displays of driving amphibious DAFs into ditches in order to avoid perfectly dry tracks!

INTEGRATION AND TEST ENGINEERS

To develop test strategies and all aspects of field system installation, integration, verification and validation. Experience should include tetra-trunked radio systems, networks, routers, gateways etc.

This is an exciting opportunity to work on a totally unique project creating a dedicated mobile phone network for Britain's emergency services.

A major global player in the automotive, aerospace and information systems markets, TRW is currently engaged in a major project in partnership with BT and Motorola.

Called the Public Safety Radio Communications Project (PSRCP), it aims to provide the Police, Fire and Ambulance services with seamless voice and data communications across organisational and geographical boundaries.

TRW is responsible for providing system integration, verification, validation and test to large national voice/data networks to be installed throughout Great Britain. The task will involve assuring service users, starting with three Police Forces, that the required level of functionality has been provided and service level agreements have been met.

With Headquarters in Solihull there will be several Field teams travelling throughout the UK during the five-year roll out programme. A car will be provided for those who will be travelling or spending time away from home on a regular basis.

All positions offer highly competitive experience-related salary/benefits packages.

To be successful you are likely to be of degree calibre and have telecoms experience, a knowledge of telecoms networks and an understanding of telecoms wiring and diagrams, together with good interpersonal and communication skills.

For more information on the PSRCP visit:

YOUR ONE DAY'S PAY- WHAT HAPPENED TO IT IN 1999

By Col R. M. Crombie – Regimental Colonel

Your One Days' Pay is the main source of income for Corps Funds. It is very encouraging that 95% of the Corps make this generous annual contribution. In addition, officers pay 0.75 of One Day's Pay, each year, into the Officer's Fund: this is mandatory under QRs (a fact that not many Officers realise) and is in support of the HQ Officer's Mess and other officer functions such as entertainment, silver and paintings. Retired Officers volunteer to pay an annual subscription of £25 (or more) and this also entitles them to receive a copy of *The WIRE*. SNCOs and WOs may subscribe a further 0.25 Day's Pay for their own specific fund.

PURPOSE OF CORPS FUNDS

A Trust Deed is registered with the Charity Commission to govern the use of Corps Funds. The main advantage of this is to avoid paying tax on subscriptions and investments. The main purpose of the Corps Funds are:

〈 The relief of poverty for all members of the Corps, serving or retired, their families and dependants. This is the main area of expenditure.

〈 To maintain and improve the physical efficiency and morale of the Corps at large eg: Funds for Sport and Adventure Training.

〈 The payment of donations to charitable organisations concerned with the welfare of Signallers and their dependants.

HOW IS THE ROYAL SIGNALS BENEVOLENT FUND STRUCTURED?

There are three main Funds:

〈 The Corps Fund.

〈 The Royal Signals Association Fund.

〈 The Officers Fund.

The chart shows the combined income and expenditure of all Funds for the Financial Year 1999.

INCOME

The total income for the year was £820k. The main sources of income were from the subscriptions of officers and soldiers (£494k). Additionally nearly all subscribers covenant their subscription by signing an appropriate document. This enables the Corps to claim the tax on their subscription 'At No Cost To The Individual (£117k)'. Income from our well invested savings amounted to £176k and donations accounted for the final £33k. All legacies and donations are allocated to the Association Fund, for reinvestment in order to meet the cost of future Benevolence.

EXPENDITURE

The main single source of expenditure was the RSA Benevolent Fund which granted £56k to the Army Benevolent Fund who give tremendous help to Signallers, and distributed £265k elsewhere. The main activities of the RSA Benevolent Fund are:

〈 It provides financial support for cases of need. About every three weeks a formal committee gathers at RHQ to consider benevolence requests. These are normally submitted by SSAFA, The Royal British Legion, Cos, Association Branches or the Army Benevolent Fund. It should be noted that cases from serving personnel are also considered.

〈 It supports the Annual Reunion of the RSA that is held each year at Blandford in Corps Week, which is the last week in June.

The Corps employs a number of personnel, such as the Corps Accountant, and incurs running costs all of which amount to £109k. The Royal Signals Institution costs were £24k which is all taken from The Officers' Fund. The expenditure includes Lectures, Corps Prizes and the Insurance and Maintenance of both Corps Silver and Corps Paintings. The Royal Signals Corps Band was subsidised by £12k. This was mainly to support the band in a professional way with sheet music, instruments, instrument repairs and uniforms. The Band of 34 Sig Regt (V) was subsidised by £11k.

Corps Sport was allocated £60k and that was distributed by The Games Club. *The WIRE* was subsidised by £39k.

Capital grants received £26k and this included the purchase of Corps paintings and silver by the Corps Heritage Committee. A grant of £30k was also made towards the cost of new motorcycles for The White Helmets.

The Funds allocated £33k to Corps entertainment for such occasions as Royal visits to units and also made provisions of £88k for the serving Corps including £26k for Adventure Training. Finally, £64k was invested to boost our income in future years.

SUMMARY

The One Day's Pay scheme is extremely well supported by the Corps. Undoubtedly, the main area of support is in benevolence and that amounted to £324k in 1999 which is a commendable effort for which the Corps as a whole are to be congratulated.

I hope that this explanation of expenditure is excellent news for subscribers and an encouragement to the few who, for whatever reason, do not subscribe.

THE MAN FROM MANNING AND CAREER MANAGEMENT DIVISION

(Maj S G Hutchinson MBE R SIGNALS)

With the majority of personnel changes now complete within the Division, the emphasis has moved towards forthcoming Promotion Boards together with Officers' and Soldiers' Road-shows. It is our intention to try and visit units once every 12 to 16 months and, whilst this is not always practical, we try to encourage officers and soldiers to attend briefings at other units whenever possible. We have also discovered that very few in the Corps know what Kentigern House actually looks like so to dispel any misconceived opinion we have attached a photograph to prove that we are in touch with the real world.

FOCUS ON COURSES WING

Courses Wing co-ordinate and load all career courses and exams ranging from the T1 Entrance Exam to the Sergeants' Course. They receive bids direct from units, process them and then consult with the School of Signals with respect to loading. Whilst their work is less glamorous than the cut and thrust of the postings desks their work is no less important as they are the vital interface between units and the School.

Kentigern House

COURSES WING PERSONALITIES

IC Courses Wing: Maj (Retd) Roy Adamson: whilst not only being the OIC of the wing is the resident expert and advisor on Soldiers' Terms of Service; what he does not know about Queens' Regulations is not worth knowing. A steely eyed Retired Officer, little gets passed **Roy** and his legendary eye for detail has left many an Adjutant having the unenvied task of re-showing an AF B6848.

AO1: Joseph Kearney - Joseph is the AO responsible for all Military courses such as the Det Commanders and Sergeants. Yet on the darker side **Joseph** is the co-ordinator of MCP (Manning Control Point) action, so if a brown envelope arrives at your door (of which there are very few these days) you know where it came from. **Joseph** is also the Divisions' fitness fanatic so when he's not at his desk he is probably putting yours truly through his paces in the gym.

AO2: Cathy Hendry – Cathy concentrates on loading all the Technical Courses. Unfortunately **Cathy** has been away for part of the year, however, it is good to have her back.

AO3: Marion Ferguson – Marion is another one of the resident Celtic supporters and when she's not on the terraces of Parkhead she is responsible for all the Operator Courses. A passionate motor racing fan **Marion** has a number of photographs on her partition of a certain racing driver, so if you are German and your surname is Schumacher then you'll probably get the MT course at Leconfield that you have been asking for.

HOW DO WE POST SOLDIERS?

With the series on Promotion Boards over we will now start to look at another vital aspect of our work, and one which is close to the hearts of many, postings.

Exactly where we can post soldiers is determined by a unit's Establishment (AFC 7005), together with HQ LAND and HQ R SIGNALS who set the manning priorities across the Corps. Once an establishment and subsequent Manning Line have been endorsed we will post soldiers to fill that liability. All the posts across the Corps feature on our main manning database, aptly named GOST, which identifies vacancies and Line Serial Numbers (LSNs). In order to fill vacant posts we first of all have to take into account the needs of the Service, closely followed by the needs of the individual. It is therefore imperative that soldiers submit Posting Preferences early or when called for.

Once the chain effect of moving the individual have been confirmed and the needs of the both the Service and the individual taken into account, then the relevant desk will issue a Posting Order. It is our intent to try and give soldiers at least four months notification of an impending posting, and where possible six months notice. Unfortunately this might not always be feasible or indeed practical but it is a target that we are expected to meet. Inevitably, postings involve a lengthy chain and a small break in that chain can sometimes impact on others both up and down the chain. Our next issue will incorporate an insight into Officers' Wing together with a few basic tips on Confidential Report.

MY ATTACHMENT TO THE ETHNIC MINORITIES RECRUITING TEAM
EASY LIFE NOT A CHANCE!!!!

By Sig Muhammad

This is a report on my attachment to the Ethnic Minorities Recruiting Team (EMRT). During the past six months the road to ethnic awareness and recruiting has been an undulating and at times frustrating one. Most days have been spent all over the country attending events, but there've also been the days in the office when we have to evaluate each job we attend and write a report summarising them so as you can imagine it's been quite hectic at times. The events we attend vary from religious festivals to Job Fairs, Career Evenings at school, work experience weeks to name but a few. On joining the team I was aware of the unsociable hours I'd be working but you don't realise how tiring it can be. If you can imagine early mornings, late nights and working weekends you may be put off but it's such a valuable learning experience like no other. You learn about other people's religious beliefs and culture, you also meet prestigious people which no other job in the Army can provide. My self confidence has improved dramatically, this is mainly because I've had to give talks to as many as 500 people which is obviously quite daunting at first. Also part of the job is informing senior ranks about ethnic minority issues such as food, dress and ways in which they can address their religion in the Army. The EMRT is very much in the public eye and constantly under scrutiny both by the media and general public. The public is ignorant of the Army as an organisation and the career opportunities available, and the team has worked extensively alongside a number of celebrities in raising the profile of the Army amongst the ethnic minority population. It's not just about attending events, I've also had photo shoots with **Prince Naseem**. and **Tamzin Outhwaite** (Melanie from Eastenders) and for various publications both civilian and military this has included on several occasions an interview. So 'Posh Spice' may be the most photographed person in the UK but I'm the most photographed woman in the Army! Without boring you and going into details about what I've done each month I'll just highlight some good and bad points about some of the events I've attended and the job overall.

When I first joined the team we were quite busy and PT wasn't an issue and it was all done in your own time which sometimes was hard. If you had an event in the North you'd probably end up leaving about 5.50am! You'd wouldn't get back until 5.30pm and 6.00pm and by this time you're exhausted due to such a demanding day and the last thing you want to do is go for a run. It was therefore very much making the most of your time and using it to do PT or sport when you can. These days it's different. We try to do PT as often as we can even if this means doing it first thing in the morning or in the afternoon so we can maintain a good level of fitness.

Sometimes you meet people who have strong beliefs about the Army and aren't shy in airing their views. On several occasions I've been the

Centre of a confrontation for example I attended a mosque with another Muslim who was male. We had religious fundamentalists telling us that we sacrificed our religion to join the Army and would we fight against other Muslims if it came to a war situation. We educated them on various topics regarding religion within the Army but they weren't going to give up easily and I felt uncomfortable being there which is wrong. Two people became three which within five minutes became a group of about 20 so I made a decision to leave. We attended an event to celebrate International Women's day and as soon as we arrived and had set up our stand we'd created hostility from other organisations so in the end it was advised that we move our stand. Whoever said being in the Army is easy!!!!!

It's always so rewarding when speaking to ethnic minorities and changing their negative opinions about the Army. I attended a Bangladeshi event held in Birmingham with people from the local community. I spoke to a number of people that day but one will always stick in my mind. It was a 21 year old woman who had always had a keen interest in the Army but like so many young people she didn't know what it had to offer career wise and after speaking to me wished she could join. Unfortunately she was in an arranged marriage and said her husband's family wouldn't let her so although she couldn't join herself I felt like I had made a difference and I'd like to think she'd encourage people she knows within her community of a career within the Army. It's also satisfying going into schools and working with 14 -16 year olds, as I can remember when I was at school I never had an opportunity to speak to anyone about the Army and at this age they are very impressionable and are keen to find out about the Army. Of course you have to be prepared for questions such as 'Have you shot anyone?' 'Do you get paid?' oh and this one's a favourite especially at boy's schools, 'Can you have a girlfriend if you're in the Army?' They obviously think we are all single with no social life!!!!

30 SIGNAL REGIMENT
EXERCISE ARGON MERCURY/OP PALLISER
SIERRA LEONE

CO **Lt Col Mike Lithgow MBE**
RSM **WO1 (RSM) Al Higgins**

Exercise Argon Mercury was intended to be a three week exercise in Ghana, the first time that Charlie Troop, 256 Sig Sqn, had deployed the JTFHQ facility overseas. However, the Exercise did not go exactly according to plan as you will find out when you continue reading.

It was 26 April, the Troop were ready to deploy to Ghana with the JTFHQ staff for the three week exercise. We advanced to the barracks of the Ghanaian Staff College, which, by our normal standards, is not as good as it sounds. Building the JTFHQ was a long, laborious task made worse by the hot Ghanaian sun beating down onto our white bodies. After a couple of days of preparation for the arrival of the staff officers, we received a tip-off that Sierra Leone was becoming increasingly unstable and that our assistance may be called upon. Given that we now found ourselves marking time in the heat, the Troop took it upon themselves to indulge in a little R&R. Spending time at the infamous Frankie's Bar was proving to be difficult however as the tear down of the HQ had already begun.

The Inmarsat Team was the first to leave, and we said our farewells knowing that they were heading towards their usual cushy lifestyle in four star hotels. This is always demoralising, as we instinctively know that a life under holed canvas normally awaits the rest of us. However, before we knew it we were standing on the pan at Lungi airfield awaiting further instructions and the arrival of the BFT (Big ? Tent). After a few days of blood, sweat and tears in the unbearable humidity of Sierra Leone, the HQ was ready for the arrival of the staff and the luxurious accommodation was erected. The excellent life support facilities that form part of the HQ meant that showers could finally be taken and plenty of toilet rolls were close at hand. Thanks from the Troop go out to all involved in setting up the life support; it was hard work but well appreciated by everyone. So, our 'jolly' to Ghana quickly became yet another Operation with thanks to the cursed JTFHQ (Every JTFHQ Exercise in the last twelve months has been redeployed elsewhere to support an Operation). One lesson to take away from this is never assume that an Exercise is an Exercise-unless you are not serving with the JTFHQ Sig Sqn! All that remains to be said is that **Cpl Allen** of Bravo Tp, enjoy the next four months with the BFT and all its trimmings-its all yours'!! By the way, does anyone know what happened to the welfare TV and Video?

Another Wait, Another Airport!
(L-R): Sig Burrell with LCpls Dodgson, Wilson and Vanden

OPERATION PALLISER - SPEARHEAD DEPLOYMENT

by Flt Lt Paul Pearce

Op Palliser began as an National Evacuation Operation, with the aim of extracting all willing British and other Entitled Personnel, from the troubled country of Sierra Leone. The Operation involved both the Spearhead Land Element (SLE) and the JTFHQ element of 256 Sig Sqn. For the Squadron, the Operation began on 5 May with the rapid deployment of **Sig Bill** 'I only got back from Kuwait six days ago' **Harris** to the British High Commission, Freetown. Events were heating up quickly, as was **Flt Lt Paul** 'I only got back from Florida four days ago' **Pearce's** family BBQ, when the whistle finally blew for the SLE on the evening of 6 May. A gruelling night at South Cerney followed, in which we had witnessed the sudden disappearance of **Sig Tom** 'Steely-eyed killer' **Beerling** with CO 1 Para, and noticed a remarkable spring in the step of **Sgt Gaz** 'Chairborne Warrior' **Shuck** as he strutted around with his airborne buddies from years gone by. After bidding farewell to the CNR crew, the last of the SLE team arrived in Dakar, Senegal, in the silent hours of 8 May. Once there we offered our support to the JTFHQ staff as they awaited the arrival of the full JTFHQ Signal Support currently re-deploying from Ex Argon Mercury in Ghana to Dakar. Once they had arrived and established the required IER, it freed up the SLE team to deploy forward to Lungi on 9 May, initially under the JTFHQ (Fwd) flag.

The climate in Sierra Leone, even during the night, is hot and wet. The humidity levels were up to 85% as the country approached the monsoon season. So, after a briefing by the 1 Para RSWO who seemed eager for his first kill, the naked 501 crew got to work under the watchful eye of Det Cmdr **Cpl Bri** 'Last of the Mohicans' **Wilson**. Comms were in by first light and it wasn't long before the first customers began to arrive. Our customers included a Captain from the Zambian Battalion who wanted to borrow some of our hardware because his had all been captured, a Field Surgical Team who wanted to do digital surgery over JOCS, and dozens of small children trying to sell us Biscuits Brown, Meat Paste and Boiled Sweets. **Lt John** 'Chairborne Medal Poacher' **Dagless** arrived in Lungi from an Exercise in Ascension Island on 11 May and reassumed command of the SLE. **Flt Lt Paul** 'Rapidly becoming the 'War-iest Man' in the RAF (According to 1 Para)' **Pearce** returned to Dakar to assume command of the rear party as the majority of the JTFHQ Signal Support Group pushed into Lungi with the staff officers. Once the BFT was erected on the airfield with 501 Lime ticking over smoothly, 501 Sienna (SLE team) moved to co-locate with 1 Para, the rest of the staff left Dakar and 501 Indigo was finally deactivated.

The crew of Indigo, now homeless and jobless, were considering a career selling copies of the Senegal Big Issue magazine when the RAF Troop Commander put his training into practice and sniffed out the nearest 5 Star Hotel. Luckily, **Sgt Dean** 'Where's the Beach' **Leach** had deployed fully equipped with all the kit essential for these situations; Armani 3-piece suit, Samsonite suitcase full of beachwear, straw donkey and Sombrero. On arrival at the Dakar Meridian it soon became apparent that we would have to adopt the 0545hrs Stand-to procedure being exercised in Lungi in order to beat the RAF aircrew, UKMAMs and Hercules groundcrew to the sun-loungers around the pool. The crew of Indigo, under the control of Det Cmdr **Cpl Stu Foster**, enjoyed four days R&R at the Dakar Meridian before deploying forward to the British High Commission, Freetown on 24 May in a UN Hind helicopter with no glass in the windows. **LCpl Phil** 'I Can't Believe This Hotel' **Dransfield** had to stop off at the Field Surgical Unit en-route to Freetown to have the smile removed from his face.

The end state, following the withdrawal of 1 Para BG and the arrival of 42 Cdo RM, is 501 Lime supporting the JTFHQ (Rear) at Lungi, 501 Sienna (SLE) supporting 42 Cdo on the beach near Lungi and 501 Indigo supporting JTFHQ (Main) at BHC Freetown. The Squadron is also providing an Inmarsat crew in Dakar. As this goes to press, the Squadron have almost completely withdrawn back to Barracks and 258 Sqn are in the process of deploying to support the Royal Anglians in theatre. Memories for me include walking in on **Cpl Bri Wilson** crouched on all fours in the SLE Crypto tent having his head shaved, coming face to face with **Sig** 'GI Jane' **Hampton** having just had her head shaved and offering assistance to a couple of young evacuees on board a Hercules as the ground engineer stuffed home a roast dinner. By the way, **Lt Lucy** 'I only arrived at the Regiment two weeks ago' **Pimm**, you still owe a crate for that lovely photo on page 2 of the May Bank Holiday's Sun newspaper.

OPERATION PALLISER
DEPLOYMENT OF THE JFHQ SIGNAL SQUADRON

On 26 April 2000, 256 Sig Sqn, under the command of **Maj Joe Cooper**, deployed to Ghana in support of the JTFHQ staff on Ex Argon Mercury. Charlie Tp had only built the medium scale JTFHQ once before, this was at Blandford on Ex First Run, and now it was being given the opportunity to deploy overseas. In the early stages of the Exercise, it became apparent that a redeployement to Sierra Leonne was inevitable as the troubled country had escalated further into instability.

The initial location for the redeployment was to the FMB in Dakar, Senegal, and personnel with equipment began to move on 8 May 2000. The Spearhead Land Element (SLE) of 256 Sig Sqn were already in position in Dakar providing secure voice and data services, and by the early hours of 9 May 2000 the JTFHQ Sig Sqn support was in place and fully established. VSC 501 Indigo provided the SATCOM trunk over which the essential comms services were maintained. Concurrent to the move to Dakar, the Inmarsat team of the JTFHQ had established itself at the British High Commission (BHC), Freetown, supporting the JTFC. With VSC501 Indigo established, the SLE team were free to push forward into Lungi Airfield under the JTFHQ (Fwd) flag. By first light on 10 May 2000, the SLE crew had established comms over VSC501 Sienna and were ready for their first customers. Initially the crew supported elements of the JFACC and 1 Para BG but were also providing close support to CO and 2IC 1 Para over Inmarsat. In the meantime the rest of the Squadron were already planning the next move from Dakar to Lungi.

VSC501 Lime was deployed to Lungi on 14 May 00. By this time the tented HQ and its associated life support had also been erected, as had the perimeter fence and the relevant defensive positions. The JTFHQ staff and Squadron personnel began deploying into theatre soon after the HQ at Lungi was completed, allowing VSC501 Indigo to slowly drawdown and finally deactivate on 19 May 2000. From that point the BHC became known as JTFHQ (Main) and Lungi airfield as JTFHQ (Rear).

With VSC501 Lime firmly in place, the SLE crew moved location within the airfield to offer full support to the 1 Para BG. With the steady state now achieved consolidation was on the cards and VSC501 Indigo was brought forward from Dakar to support JFHQ (Main) on 24 May 2000. The next key event to impact upon the Squadron's effort was the withdrawal of 1 Para BG as they were replaced in theatre by 42 Cdo Bde. Continuing their support of the Land Component Commander, the SLE crew moved VSC501 Sienna to the more comfortable surroundings of the Mahara Beach Hotel, a stone's throw from Lungi, in order to support the Royal Marine Commandos HQ. As this article goes to press the Squadron will have completed the drawdown of all manpower from Op Palliser, however, the Regiment will still have a Section plus deployed in support of Op Basilica from 258 Sig Sqn, continuing the provision of the ever crucial comms support required in theatre. All the best to you boys. Readers watch this space for the next instalment….

CORPS CAROL SERVICE

This year's Corps Carol Service will be held on Thursday, 21 December, at St Stephen with St John, Rochester Row, Westminster, starting at 1800hrs. All serving and former members of the Corps, plus their families are cordially invited to attend and to join us for sherry and mince pies in the church hall after the service.

COs/OCs of units in and around London are asked to encourage their personnel to attend.

THE ARMY TAUGHT YOU NEVER TO GIVE UP, SO DON'T

So there you are in civvy street doing the same old thing day in, day out. But...why?...If it's the Army you're missing, then how about joining the TA? It's a vital part of the British Army.

There are two options open to you. First, you can join one of the Territorial Army Independent Units based in the TAVRA region in which you have decided to settle. An ideal route for those who wish to serve locally. Which Unit you join will depend on those available in the area you live in. Second, if you are leaving a Corps, you could retain your cap badge and become a member of either an Independent Unit as above, or a TA Specialist Unit. In either, you can maintain and develop the special skills that you have learned.

The minimum commitment as a member of the Independent TA is 6 weekends, a two-week Summer Camp and some weekday evenings. As a Specialist we ask only 2 weekends and a 15 day annual camp. In return, you will earn Army rates of pay and an annual tax-free bonus of up to £1050.

For an information brochure call **0845 603 32 32** quoting ref **WI012**, or send the coupon to: Freepost, The TA, CV37 9BR.

BE THE BEST

OC RSMDT **Lt Col Jack Amberton**
Team Captain **Capt Gordon Newell** (outgoing)
Team SNCO **SSgt Paul Boughey**

TEAM OVERVIEW – *by Capt G. P. Newell*

The Team's Millennium season is well underway, shows have been completed in Northern Ireland for the first time in at least two decades, as well as more typical venues in Scotland and Kent. The new motorcycles – 30 classic Triumph Tiger 750s built earlier this year by a Team sponsor, **L. F. Harris**, and four Team members – have been a valuable addition to the Team's performance, looking the part and proving reliable since they were unveiled at the first official engagement of the year, the SOinC(A)'s Opening Show on 14 April 2000. The show went very well – it didn't rain for the first time in three years – but more about that later in this article.

We look forward to the selection and training of new Team members in the coming months. Once again, two induction courses will take place, one in November 2000 and one in February 2001. The format of the course aims to be the same with a first period being cross-country motorcycling based followed by a period on the Triumphs. Last time both these courses were well attended by soldiers from across the Corps, all trades and all ages, and twelve new riders joined the Team – we hope to repeat that trend. Members of the Corps wishing to express any form of interest in the Team, who may wish to visit or attend a course should approach either their Unit Admin Office or contact the Team Clerk in Blandford on extension 2365.

Again there is a goodbye to a Team member in this issue of *The Wire* - the Team Captain (me!) moves on to pastures new outside the Army and will begin training as an actor at drama school in September 2000. I have spent the best part of two years with the Team and found it a tremendous challenge. The Team is effectively 'operational' all the time and needs to fulfil its recruiting and KAPE roles for both financial and Corp-sanctioned survival. This it does, and to the highest standard too; a standard which the rest of the Corps can be proud of. In my time I have seen young soldiers arrive in the Team, grow in confidence and character, and then return to successful Regimental careers. I have seen Team members promoted in the same way as any other unit, but I have also been privy to the negative ignorance about the Team that permeates many working units. Hopefully, with the hard work put in over the past few years this may well continue to change and Corps members will grow to realise that the White Helmets, the world's oldest motorcycle display team, is an organisation that they can be proud to be part of. For it not only represents them and the rest of our Corps, but the Army as a whole to over 2 million people annually – and that figure does not include TV, newspaper and radio coverage! No small task.

The reins are now firmly in the grasp of **SSgt Paul Boughey** as the nomination for the new Team Captain has not been finalised at the time of press. Rest assured, whoever takes over will continue to find new challenges uncommon to regular Regimental life, and I wish them all the luck in the world!

MY EXPERIENCES AS A TA SOLDIER WITH THE RSMDT
by LCpl 'Muz' Sutcliffe

I am **LCpl Sutcliffe** and am a TA soldier now on Full Time Regular Service (FTRS). I was previously serving at 2 Sig Sqn in Dundee. I applied to join the Team last winter and have served with them since February 2000, and although only having been in the Team for a short time I've learnt a lot. That's what I'm going to write about.

For those without a clue as to what the Team does other than performing at shows this may give a little insight into the four months leading up to the show season. This four month period is a critical time during which much has to be achieved. The Team Captain and other instructors have their work cut out for them – as two new intakes of first years (from the November and February courses) must be trained to be able to perform the tricks to a show standard by the Opening Show. This is when they will be presented with their coveted 'White Helmets'. Not only do the first years have to be trained but all the second year riders must move up a bracket and learn the tricks and rides that have been left by leaving Team members from the previous year. The show must also be put together in such a way as to ensure that all the tricks and rides run smoothly from start to finish giving the riders enough time in between to get ready for the next sequence. The training area required must be sufficiently large to allow all the riders to practice concurrently with plenty of safety space to fall off without being run over! This is why the team moves to RAF Sealand to carry out the bulk of the training.

The Training Camp 2000 was a success with the Team deploying on the 27 February. On arrival at the accommodation block **Sgt** 'Don Juan' **Brebner** decided we should also go into Chester to ensure the pubs were still working…….. they were!

The next day we moved across the road to set up our garages and mech bays…..... when I say move across the road I mean that RAF Sealand Camp is split down the middle by a dual carriage way! With the accommodation being one side and the airfield on the other it means that every morning after PT a coach journey was needed to get to and from work. For the first week the first years (including myself) were introduced to the tricks and basically placed into the positions which suited our size, build and ability. Although bike and ground met fairly regularly no one was seriously injured! While this was going on the second and third years were concentrating on getting the remaining bikes for the new fleet run in. This proved to be an interesting exercise, as the weather was miserable and the surface at the end of the runway looked as if it had been recreated to imitate the surface of the moon! Not really the best thing to ride over especially when each bike needs to do 500 miles before it can be used in any way. As the first week drew to a close bruises started appearing on bruises and getting out of bed was starting to be a problem... not through tiredness but due to my muscles failing to respond to my brain's commands! This was remedied however every morning thanks to **LCpls** 'Scouse' **O'Leary** and **Rick Hartley** our resident AIPTs. During Weeks Two and Three the standard of the tricks and rides continued to rise, as did the quality of the training area, due to less bikes being ditched. The only thing which stayed the same was the weather unless of course (as is always the case) it was the weekend! One weekend involved a move to Dale Barracks in Chester as the accommodation which we were occupying had been booked prior to our arrival. This, however, didn't present a problem as the taxi fare back from town at night was considerably cheaper! The last training weekend was when the first year riders and the rest of the Team came together and put all of the tricks and rides in the arena to form the show. This was when it came home (especially to the first years) that it is one thing to perform the tricks in the arena but another to know who is out before you, what should be going out next, where you should be, what bike you're on etc. However, after several run-throughs the show was together and running smoothly. At the end of every annual training camp a show is performed for RAF Sealand Camp to show our appreciation for the use of the camp and its facilities. There was a fairly good turnout considering the weather conditions (wet and windy!) and the show went smoothly with no hitches.

THE SOINC(A) OPENING SHOW - FRIDAY 14 APRIL 2000
by LCpl 'Trigger' Jackson

Being a new member of the Royal Signals White Helmets Motorcycle Display Team meant that the Opening Show is the proud day when we are presented with the coveted 'White Helmet' and get to hand in the shabby red helmets we've been donning for the last three months!

The Opening Show this year was to be performed in front of the SOinC, **Brig C. J. Burton OBE**, sponsors, families and other guests likewise. When the show was only days away pre-show nerves were starting to show and not only in the first years. Training sessions were being cut short due to inclement weather conditions and there was also a couple of crashes in the rides the day before the dress rehearsal. An injury to **Cpl Bob** 'Funky Monk' **Sizeland** unluckily meant he'd be sitting out of this years Opening Show. Also sitting out (literally) was **Cpl Chris** 'Michael' **Hunt** who was wheelchair bound after jumping from the 'Six Bike Fan' earlier in the week.

The day of the Opening Show finally arrived to the relief of most of the Team. The pre-show nerves were settled with a nice glass of port served by the Team Staff Sergeant - **SSgt Paul Boughey** and the Team Captain – **Capt Gordon Newell**. The Team Captain then led us on a warm up lap on the bikes around the camp before they were then parked just out of sight of the awaiting guests. A whole brand new fleet of Triumph Tiger 750's waiting to be riden into the arena for the first time of the year 2000 season! An hour later, after the final show-board brief and in dry, sunny conditions (for the first time in years) the millenium team of the 'White Helmets', with the first years still in red helmets, lined up beside their bikes and waited for the signal from Team Sergeant - **Sgt Don Brebner** to fire the bikes up.

The roar of 30 Triumph Tigers was soon to be heard by all. With the arena being set out earlier in the morning the Opening Ride went straight in whilst the trick bikes pulled up in their places behind. The first trick waiting to enter the arena was the 'Double Jimmy' with **Sig Matty** 'Manc' **Scott** riding and **LCpl Rick Hartley** stood firmly to attention waiting to clamber up on top. Once the first trick had been successfully performed around the arena and the second, the 'Four Tees' was halfway round the show seemed to be running smoothly and it would soon be time for the first years to be presented with their 'White Helmets'. The 'Three Bike Fan' did an unusual one and a half laps before dismounting the riders in front of the main stand and more importantly **Brig C. J. Burton OBE** who was to present the new riders with their new helmets. **Capt Newell** assisted the SOinC(A) and after the helmets were presented the presentation of the 'Lucas Trophy' was awarded to **Cpl Chris** 'Ivor' **Hunt** for best individual effort over the training season. It was then time for **Sgt Don Brebner** to hand over the role of Team SNCO to newly arrived **SSgt Paul Boughey**. Probably with a tear in his eye, it was time for **Don** to watch the rest of the show from the unusual position as a spectator instead of being in the arena as he's used to!

With all this over it was time for the bikes to be restarted and the second half of the show to begin, with the twelve new 'White Helmets' riders. The crowd waited in anticipation for the 'Fire Jump' with four new

The SOinC(A) presents the Lucas trophy to his old driver
Cpl Chris Hunt

Sig Woolnough – Opening Show 'Fire Jump'

riders going through for the first time in White Helmets. First to go was **LCpl Rick Hartley** followed by **Sig Paul** 'Stan' **Bowes** and **Sig Michael** 'Wooly' **Woolnough**, who went through looking good but totally out of control. **LCpl Chris** 'Trigger' **Jackson** unluckily (or luckily) didn't jump due to the clutch lever falling off his bike just before the fire was lit. The show was coming to an end with the famous 'Six Bike Fan', 'Angel' and last but not least the 'Closing Ride'. It was then left to **Capt Gordon Newell** to take the final salute at his last Opening Show before the bikes and riders left the arena to form up and await the SOinC(A)'s address. After congratulating and thanking us for the show it was off to the Semaphore Arms for the reception and to meet our sponsors and our families.

THE LEICESTERSHIRE SHOW - 30 APRIL - 1 MAY
by LCpl 'Trigger' Jackson

The second show of the season for the Millenium Team was the Leicestershire County Show. After leaving Blandford on the Saturday morning we headed for 30 Sig Regt at Bramcote, our accommodation for the next two days. On arrival it had been decided to do a quick run through of the rides, for peace of mind before packing up and preparing for the next day's show. Half the team then decided to go and large it around Coventry in a chauffeur driven limo whilst the rest stayed local in Nuneaton. After arriving at the show-ground, to say it was boggy would be an understatement. The truck had to be pulled out of the mud by a helpful passing tractor before we could even unload. Riding the bikes to the arena would be a task in itself due to the conditions underfoot. We had two shows each day to perform, a morning and afternoon show. With the Bank Holiday and good weather combining quite a crowd was gathering to watch the first show. Due to the bad ground conditions and horse riders tearing up the arena just before we went on, the final word around the show-board was 'take it easy' from **SSgt Paul Boughey**. Within seconds of the 'Opening Ride' going out **LCpl Matty** 'Fatboy' **Adams** was on the deck after a collision between **Cpl John** 'Shoptalk' **Strachan** and himself. There was only one person to blame wasn't there **John**! Luckily the only injury was to **LCpl Adams** who had suffered a cracked knee cap. Apart from this the rest of the show went by without any more incidents to the crowds delight. Performing their first 'Car Jumps' in front of a public audience at this show were **LCpl Duncan** 'Saggy' **Marsh** and **LCpl Kevin** 'Eh oh' **O'Leary**. With the hot weather the ground conditions were getting gradually better standing us in good stead for an excellent show later on in the afternoon. The second day started with the drive from Bramcote to the show-ground early in the morning to give us time to prepare the bikes and move the props to the arena. Again a good crowd had turned out probably due to the excellent weather. Once again the team performed an amazing show to the great satisfaction of the crowd. The only error came when **LCpl Ed** 'Rooster' **Lewis** stalled his bike on the final salute after the Closing Ride. After the final show the team packed the kit away and hit the road in the hope they would make it back in time for the 'Georgian Fayre' in Blandford - if not it was off to The Royal Balmoral Show in Ulster a week later!

The twelve new Team Members
(L-R): Sig Woolnough – 16 Sig Regt, Sig Scott – 21 Sig Regt (AS), LCpl Lewis – 11 Sig Regt, LCpl Jackson – 1 (UK) ADSR, Sig Gaston – 3 (UK) ADSR, Sig Potter – 14 Sig Regt (EW), LCpl Sutcliffe – 2 (V) Sig Sqn, Sig Bowes – 16 Air Asslt, Sig Lewis – 16 Air Asslt, LCpl Fitzpatrick – 15 Sig Regt, LCpl Hartley – 11 Sig Regt and in the wheelchair Cpl Hunt HQ R. Signals

NORMANDY AIRDROP 5 JUNE 2000

Sgt Nige Brewin, Royal School of Signals

At 0400hrs on 5 June I was awoken by my alarm clock. I sleepily turned it off and sat up rubbing my eyes, this was going to be my own, personal *Longest Day*. I got ready and by 0430hrs was on my way from Blandford to Blackbushe airfield near Camberly where I was to join men from the recently disbanded 10 (V) Parachute Bn and our air dispatchers from 47 Air Despatch Squadron, Royal Logistic Corps. By 0615hrs we had all arrived, in front of us was a DC3 Dakota, Fifi Kate, in wartime markings with D-Day invasion stripes, this was to be our jump platform for the airdrop.

The airdrop was unique in that all involved were jumping in WW2 British Airborne uniform, Battledress trousers, WW2 Denison smocks and wartime para helmets. We got changed into our uniforms and eventually found ourselves speeding up the runway, the aircraft making a lot of swerves on the runway until the moment came and we were in the air. An uneventful flight at 2000ft over The Channel led to us flying over Pegasus Bridge and then we landed at Caen airport. At Caen we parked up next to two RAF C130s and the Battle of Britain Memorial Flight DC3. They did not know we were coming, we caused a lot of interest as we deplaned in WW2 uniform, the parachute Battalion men coming over to us to see what we were doing.

Sgt Brewin boarding 'Fifi Kate' for the air-drop

Sgt Brewin in front of DC3 'Fifi Kate' before the drop

Later on the rest of the jumpers who had sailed out a few days before arrived at the airfield and ground training and exit drills were practiced over and over again. We were going to be doing two airdrops, the first flight, which I was in, was going to be 26 men out the door in one pass. The Drop Zone was a field next to the Merville Battery, site of 9 Para Bn actions on 6 June 1944. The remaining veterans, their families, the locals and men of various units at 16 Air Asslt Bde were at the battery waiting for us, to say we felt honoured is an understatement!

One of the men jumping with us was a 76 year old Arnhem veteran who got captured and never made it to the bridge. He dressed up in his old uniform and, like us, was jumping a military round canopy, an amazing man, another honour. It was during a break in the ground training that I was approached by the load-master and informed that as I had raised the most sponsorship for the Dakota I was to he the first man out of the door. On events like this it is classed an extreme honour to be first out, I was overjoyed, a big smile on my face as we practised our exit drills, myself first.

Synchronising watches prior to jumping

At 1600hrs we were manifested onto the aircraft, by 1615hrs we were in the air, the jump door removed, passing over Pegasus Bridge and heading towards the DZ. At 1630hrs the load-master was happy everything was right and it began. 'Stand up,' we stood up. 'Hook up,' we hooked up. There I was, hooked up waiting at the side of the door, a camera crew on board filming me, the Normandy countryside passing below, then it came. 'First man, In the door!', I moved forward, my static line passed over to the dispatcher, left foot in the door, right arm over my reserve, left hand on the door frame. Red light on, green light on, 'Go!' and out I went, no hesitation, a blur of colour and noise, I surfed the slipstream as I shouted, '1000, 2000, 3000,' my canopy opened, I had a twist. I came out of the twist with no effort on my part and found I was lucky enough to be facing the aircraft, the sight of the Dakota banking to the left and still chucking out the last few paratroopers will stay in my memory for ever.

I had a bit of difficulty locating the smoke but eventually saw it, I was not going to land on the DZ, I knew that before I jumped, I steered into the wind to slow down, prepared for landing hoping I was not going to land in a hedgeline I had spotted. I looked down over my right shoulder, I was safe from the hedge but was landing close to a ditch, I landed on firm ground, did a backward Parachute Landing Fall and ended up in the ditch with my feet above my head in soft French mud. I was able to walk so it must have been a good landing! I started field packing my canopy as I watched the rest of the stick come down, the green round canopies slowly disappearing into the tall grass. A quick climb over a hedge and I was on the DZ. We reported into our RV, all men accounted for.

The Dakota did a quick circle and then departed back to the airfield to pick up the next stick, only thirteen men this time. Within 20 minutes it was back, it dropped five weapon containers in it's first pass, circled once and then dropped the last thirteen men, including the Arnhem veteran. One man landed on a nearby roof and broke his ankle. As the first man of the second stick landed a large group of WW2 re-enactors assaulted the Merville battery in front of the veterans. The Dakota circled again, this time trailing smoke and the dispatchers jumped out. Once all 41 of us were accounted for we cleared the RV where we were mobbed by the veterans, the regular parachute troops and the French public, wine was passed our way by the bottle and the transport to take us back to the airfield could not get to the Merville battery because there were so many

Serving the Services and their families Worldwide.

people there blocking the roads. We eventually got our transport, we passed Pegasus Bridge at ground level this time but did not have time to visit the new museum. By the time we got to the airfield the Dakota was running its engines, another five minutes and it would have to go, not being allowed to land at Blackbushe at night. We threw our kit and canopies onto the aircraft and took off, passing over the remains of one of the Mullberry harbours on the way.

I left a wreath with the jumpers who stayed in France. It is dedicated to the men of the 6th Airborne Division, and is marked up as follows:

FROM SKY TO EARTH FOR LIBERTY YOU FELL
YOU FOUGHT, DIED, WON YOUR WINGS,
AGAIN FAREWELL

I hope to be on the airdrop again next year, I will let someone else be first man out and will try to miss the ditch!

EXERCISE MOORISH IDOL

By Capt 'Mac' McCrindle - HQ British Forces Cyprus

The relief felt by the eleven divers, finally arriving in Johannesburg after the eleven hour flight from London, was somewhat diminished by the prospect of another flight to take us to our final destination. A few hours later, we touched down in Durban on South Africa's Indian Ocean coast, famous for having hosted more shark attacks than any other beach in the world. We were met by the four advance party members, who had managed to fit in some diving as well as essential administration, squeezed into two mini-buses and headed south for the two hour trip to Margate (really!).

Next day began with a shakedown dive on Aliwal Shoal, a reef about three miles offshore, rated as one of the world's top ten dive sites. Large rigid-hulled inflatable boats are used to carry 12 fully equipped divers and we all helped to launch into the River Mkhomazi, Zulu for Place of the Cow Whales, the estuary was once used as a nursery. The inland rain, which had recently caused so much chaos in Mozambique, had a less significant effect on the Kwa-Zulu Natal province. The river estuary stained the blue-grey Indian Ocean with it's muddy brown water, leaving a line between river and sea water so sharply defined, it could have been drawn with a pen. The coxswain waited patiently on the shore side of the breaking surf, looking for the gap, which would allow our exit to the ocean. A shout of 'Hold on!' and we surged forward, quickly picking up speed as we weaved between the breakers (we later rescued the crew of an overturned boat here). A few exhilarating minutes later, we were planing over the 2-metre ocean swell towards Aliwal Shoal.

On site, buddy checks completed, we quickly dropped to the bottom by a site known as the Cathedral. This is a large natural amphitheatre in the reef, entered through a large archway and exiting to the reef top. Between July and October, the shoal is home to large numbers of Ragged-tooth sharks that come here to mate. For a shakedown dive, no sharks was just fine. The underwater visibility was around ten metres and the water was a warm 24° degrees Celsius. A current of about 1-2 knots flowed northwards along the reef, a pleasant change from the Mediterranean and we sheltered from it in the lee of the rocks as we explored. The reef had less coral than I expected but there were numerous, colourful sponges and a plethora of fish life, many of which were enjoying being thrust vertically upwards in a water jet from a small cave. All too soon the dive was complete and we headed back to Umkomaas, accompanied by bottlenose dolphins racing in the bow-wave. The second dive of the day was on the wreck of the Nebo, a freighter which had sunk on her maiden voyage in 1884. The current was too strong to make it a relaxing dive but it was certainly enjoyable.

The next two days were spent diving on Protea Banks, a reef five miles offshore from Shelly Beach. It was Easter weekend and the launch through the surf was just as exhilarating as yesterday. 20 high speed minutes later we were on site. Due to the surface current, we had to hit the water and drop immediately to five metres to meet up with our buddies, an interesting exercise, especially for new divers. The reeftop was generally 33 metres and fish life here was prolific, it was easy to see why the fishermen on the surface were also so prolific. This was shark–sighting country. The depth meant only a short time on the bottom before drifting with a 2-3 knot current, making a gradual ascent. All of us saw sharks during the four dives we carried out here. They ranged from curious hammerheads through silkies, sand sharks, blacktips and tigers to the reputedly aggressive bull shark, known in South Africa as the Zambezi (it is one of the few sharks which can adapt to fresh water and has been found many miles up the Zambezi).

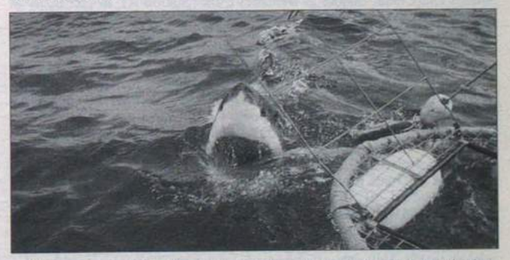
Back on Aliwal Shoal for a further two days, exploring the reef, seeing large ribbon-tailed rays, two metre Potato Bass, crayfish, morays and the wreck of the Produce, a 2,000 ton bulk tanker which sank in 1974 and at 30 metres it's rusted framework has formed an established reef. We were due to fly across to Capetown in the south-west, but took full advantage of our compulsory surface interval before flying, to visit the Natal Sharks Board, a body which studies and protect sharks. The interesting audio-visual presentation was followed by an open-air dissection of a shark, which had been caught in shark nets off Durban. The nets are checked daily, live sharks are tagged and released, dead ones are recovered for examination. Stomachs have been found to contain items ranging from a human skull to a car number-plate.

A 2-hour flight took us to a hypothermic Capetown. Clearly six days on the hot and humid East Coast had softened us and the shock of arriving in a place bearing remarkable similarity to north-west Scotland had a quietening effect on the group. The grey mist, rain and chilly temperature did not bode well, as we drove south over the mountain pass. We were heading to the highlight of the expedition, two days cage-diving with Great White sharks, now a protected species in South Africa.

Not only does South Africa have winter in July, the water off the Cape province gets as warm as 14-20° Celsius during winter due to the Aghulas current from the Indian Ocean. In summer it can be as cold as 8° Celsius due to the upwelling Benguela current from Antarctica, weird or what! Cape Aghulas is the southernmost point of Africa, the meeting place of the Indian and Atlantic Oceans. Next morning was brighter and we split into two groups of eight and sailed off for Dyer Island about five miles south of Gaansbaai. Dyer is home to thousand upon thousand of cormorants, terns, gannets, gulls and jackass penguins. Their waste led to the islands being worked for guano for many years before the island was made a bird sanctuary. Separated from it by a narrow strip of water is Geyser Island, home to thousands of not very fresh-smelling Cape Fur seals, and it is their young as well as the warmer water which attracts the Great Whites. The young seals are born around October, just after the Southern Right whales come to calf in False Bay by the Cape of Good Hope. Far more seal pups are drowned by becoming separated from their mothers in rough sea conditions than are taken by Great Whites (or so they say!).

The Great White is known as the Tommy shark locally, a reminder of the day in 1852 when HM Steamer *Birkenhead*, a British frigate turned troop carrier, hit a rock 3km off Danger Point. There were only four lifeboats and the embarked troops disobeyed the skippers order of 'Every man for himself" to let the women and children have the boats. It is from this wreck that the phrase 'Women and children first' originates. Of the 638 on board, 445 died, many falling prey to the Great White which feasted on the Tommies. The wreck lies in 30 metres and the gold payroll it carried has yet to be recovered.

Chum was ladled into the water, a mash of sardines and water, which lays a scent trail down-current to attract shark. Within an hour, something came close to the wooden decoy seal pup and fish lure, floating just off the boat. It circled the boat and the excitement mounted. It returned to cruise past just below the surface, rolling over to look at us with an expressionless black eye as it's dorsal fin and tail fin cut the surface – Jaws had arrived!



The cage was put in the water as we kitted up, some more eagerly than others. The cage holds two divers and is supported at surface level by four floats. Wetsuit, mask and two weightbelts and I was ready to go. Stepping over the side onto to top of the cage as four and a half metres of Great White circled concentrates the mind, I distinctly remember thinking I must not fall in the water at this point. The cage tilted as I put my weight onto it and my rational side was urgently asking me what I thought I was doing. I ignored it and jumped into the small gap that was the cage entrance.

The next diver followed and we were handed our demand valves, extended from an air cylinder on the boat. We dropped into the cage which has a large gap at face level to aid viewing. The water was a chilly 14° Celsius and visibility was about six metres. A huge shape emerged from the gloomy water and the cold was forgotten as the Great White cruised slowly past the cage. I saw the splash above as the roped bait was thrown onto the surface to lure him closer. The rope was pulled towards the boat and the shark followed it in a few times as the skipper teased it. Finally he pulled it right over the top of the cage. The shark followed it, rolling onto its side within a foot of us. It's eyelid closed from the bottom up as it took the bait, almost gently, in it's huge mouth. I ran my hand along it's belly as it passed by, just before being thrown off my feet as it's tail slammed the cage against the side of the boat. It was unintentional, but most things getting in the way of a creature of such size and power will come off worst. I'm glad the cage was well constructed.

Everyone had similar experiences, though no-one will dine on their story as much as **Clare**, the girl in our party who was slapped on the chest by a Great White tail-fin while leaning over the side of the boat. After two tremendous days we headed north to Capetown for a day sightseeing. The weather had cleared and warmed enough to ascend Table Mountain and enjoy a panoramic view of the town and surrounding area, including Robbens Island where Nelson Mandela had been imprisoned.

The aim of this adventurous expedition had been to have some close encounters – we did.

THE SPECIAL OPERATIONS EXECUTIVE – 1940 – 1946

by Colonel (Retd) C. J. Walters, Director Royal Signals Museum

Such recent activities as the making of a film by Americans claiming that they were the first to crack the ENIGMA codes, the TV series 'STATION X' and the loss of the Bletchley Park ENIGMA German cipher machine have all gone towards popularising clandestine wartime activities. This article deals solely with the Special Operations Executive. It does not relate any of the activities of its 5,000 or so agents many of whom were courageous beyond belief and many of whom have been written about and films made. Rather it gives the background to the establishing and organisation of the Executive which is not so widely known. Much of this was highly classified until the mid-1970s and little was known about any of the secret services. Since then, information has become increasingly available at least about their wartime activities.

The Special Operations Executive (SOE) was set up by **Winston Churchill** on 22 July 1940 as a tough, anti-Nazi, British fighting organisation. It was formed in deadly secrecy and placed controversially by **Churchill** under the Ministry of Economic Warfare which he regarded as his 'Ministry of ungentlemanly conduct.' The Minister was initially **Hugh Dalton** and later **Lord Selborne**. Its charter was drafted by **Neville Chamberlain**, shortly before his death, with the purpose, 'To co-ordinate all action by way of subversion and sabotage against the enemy overseas.' **Churchill** instructed **Dalton**, 'Now set Europe ablaze.'

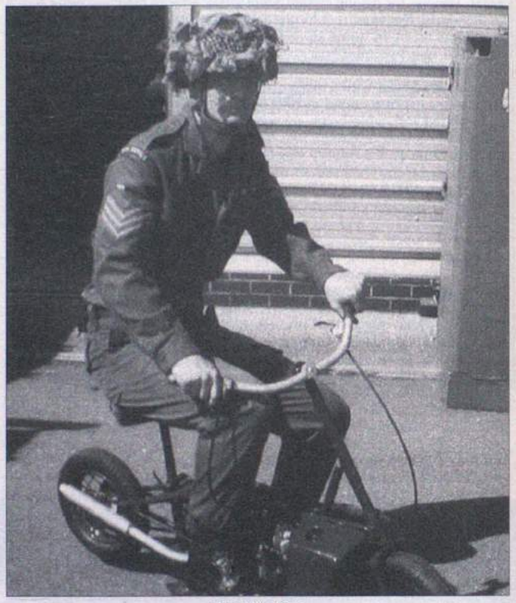
The SOE was formed by bringing together three War Office organisations that already existed; SECTION D – Undercover operations; SECTION MI R – Operations by troops in uniform; and SECTION EH – Propaganda. As such it was separate from all other clandestine departments such as the Secret Intelligence Service (SIS or later MI6), the Special Air Service, the Long Range Desert Group and The Government Codes and Cipher School at Bletchley Park (Station X). In fact many of these organisations found themselves 'in opposition' for scarce resources. Initially, SOE was set up at 2 Caxton Street, London but it soon outgrew these premises and moved to 64 Baker Street, Marylebone.

It was a secret service that did not answer to Parliament or to the Lords. Because of the deadly secrecy it had a number of cover descriptions; MO1 (SP) at the War Office; NID (Q) at the Admiralty; AI 10 at the Air Ministry; and the Inter-Services Research Bureau in general terms. The head of SOE was code-named 'CD'. Initially this was **Sir Frank Nelson** but in April 1942 he was superseded by his deputy **Sir Charles Hambro** – originally a merchant banker. The third and final head was **Brig Colin Gubbins DSO** late Royal Artillery – he was later knighted.

SOE started off as a small organisation which, by its heydays of Summer 1944, had grown to about 10,000 men and 3,200 women. Of these about 5,000 were agents in the field overseas. It was organised into a Council and several Branches each of which dealt with support or operational matters. The Council comprised 16 members of whom five were uniformed including a Signals representative. Support Branches included Signals, Intelligence and Security, and Finance. The Operations Branches included Sections for each of the relevant countries such as France (F Section), Germany (X Section) and Holland (N Section). Each of the country sections had its own specialist school many of which were in country mansions. For example, F Section was in Wanborough Manor near Guildford.

The method of operation of SOE was to work closely with the forces of resistance. To achieve this, agents (they were not spies or terrorists) were specially selected and trained. Training took place at one of many specialist schools for various disciplines such as fitness, weapon, training communications, explosives and so on. Locations included Thames Park (Oxford) for communications, Altrincham (Cheshire) for parachute training, Arisaig (Inverness) for survival training and Beaulieu Manor (New Forest) for culmination training. The Country Sections were the heart of SOE operations. Each was staffed by officers who knew the country and the language well. Their tasks included the briefing and operational control of all their agents. The Executive had the capability to research, invent and manufacture devices that would be of use to its agents; this it did for a very wide range of items. This included a miniature motor cycle that could be folded up and dropped by parachute – the Welbike.

SOE specialists are credited with inventing plastic explosives, the limpet mine and the clam 'adhesive' mine. Also, the agents were not happy with the range of military radios that were available to them so SOE specialists designed and manufactured a range of radios that could be disguised by fitting them into suit cases; hence they became known as Suit



The Welbike

Case Sets. There was no mass production.

The SOE operated on all Continents and at some stage in most countries. They were specially active in Abyssinia, Malaya, Burma, Siam and throughout mainland Europe. They were active in Germany and Japan but had little success because of their inability to encourage sufficient resistance fighters. The SOE's main purpose was to defeat Naziism at all costs and in so doing it often co-operated with communist organisations, such as in Burma, Malaya or Yugoslavia, because this was the most fruitful means of achieving its aims. Once America had joined the war there was close liaison with the Office of Strategic Services (OSS), the American counterpart, on the co-ordination of policy and operations. No one has ever been found to have infiltrated into any SOE Headquarters although inevitably many mistakes were made in the field. However, there were close encounters such as **Kim Philby** who was an instructor in one of the schools in 1941 – but he moved on. Likewise with **Guy Burgess** who was originally in D Section but was sacked by **Gubbins** on security grounds – he later joined the Foreign Office! The exploits of both of these became well known. On the other hand there were many members of SOE who would later achieve fame such as **Sir Fitzroy Maclean** and **Brig Orde Wingate**. Many SOE members became politicians.

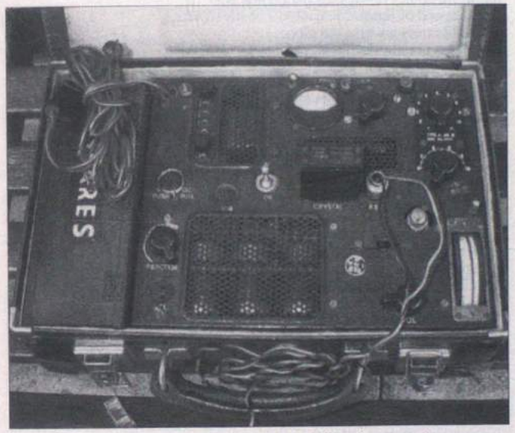
In its early days the communications for the SOE were provided by the Secret Intelligence Service (SIS) which later became MI6. However, it was not long before the SOE realised they were getting too low a priority for their requirement. The SOE Signals Directorate was initially headed by **Col G. D. Ozanne** and later by **Col F. W. Nicholls** of the Royal Corps of Signals. The latter was a veteran of the Great War who had been appointed MBE as far back as 1921 to do with his action with the Y Service; so he knew the needs of clandestine fighters. The Head of Signals concentrated on the provision of main-line communications. His Deputy, **Col George Pollock**, controlled the wireless stations, training schools and agents' communications in general. The Signals Directorate was set up in Norgeby House but on 1 January 1944 it moved to occupy the complete block of flats in Montagu Mansions just off Baker Street.

In May 1942 the SOE commenced to set up its own comprehensive communications network. Home radio stations were set up at Grendon

Underwood, and later at Pondon, on the Oxfordshire /Buckinghamshire border where they had a transmit capability up to 25kwatts. From there, world-wide communications were established to sub-stations which included New York, Cairo, Algiers, Bari, Meerut, Kandy, Brisbane, Kumming, Bicester and Dunbar. A comprehensive communications network was essential as agents in the field were not permitted to communicate with each other for security reasons. Females were employed on a wide range of SOE tasks including cipher operators, radio operators, telephonists and linguists. Specialist Operators, who were employed on high speed morse circuits, were trained at the Special Operators Training Battalion, Trowbridge, Wiltshire. Most of the women were enlisted as members of the Womens Transport Service (First Aid Nursing Yeomanry) or FANY.

Commencing in 1942 SOE specialists designed and manufactured a range of effective radios for agents in the field. Many of these were based on experience gained from Polish technicians who prior to the war were expert in this field. Even so early sets were heavy and too unreliable. For instance the A Mark II radio was in action by October 1942. It comprised three metal boxes each 264 x 96 x 67 mm. The boxes fitted neatly into a suit case with a total weight of about 10kgs. This gave an output of about 5 watts over the range 3-9 MHz but was not easy for a female agent to carry at speed over the long distances that were covered in the field. A subsequent design, the A Mark III, weighed only 4kgs including all accessories and in its suitcase was 216 x 191 x 82 mm. With its 5 watts output and 3.5 to 16 MHz frequency band it had a range of about 500 miles and was the smallest SOE set.

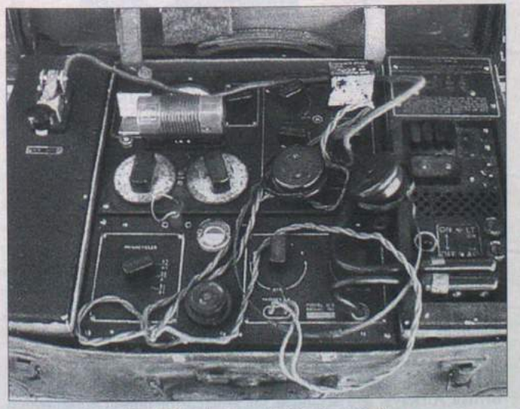
Many agents also needed to make contact with aircraft. For this purpose



The SOE designed the A Mark III suitcase set

SOE designed the S-Phone. This was a small four or five valve transceiver with a power output of 0.1 or 0.2 watts. It could be strapped to the agent's body and contact could be made with an aircraft at 10,000 feet at a range of 40 miles, or 500 feet at six miles. Its total weight including battery and ancillaries was 7kgs. This was ideal for clandestine purposes. A later, and more powerful suit-case set was the B-2. It was 30 watts output in the frequency range 3-16 MHz and weighed 14kg. It could work off mains or battery (at the throw of a switch). This was important as the Gestapo were apt at tracking radio stations by switching off power supply to blocks of buildings to see if radio transmissions ceased.

Marconi and Philco built many of these sets at their factory in



The SOE designed B-2 suitcase set

Stonebridge Park. About 7,000 were built at a rate of 400 per month in 1944. It was essential that the SOE could pass radio traffic in secrecy and for this purpose there was a special section dealing with codes headed by **Leo Marks** the son of a famous Charing Cross Road book seller. Codes were taught to agents at Beaulieu Manor (now the site of the Montagu Motor Museum). Many codes were used at various times and many mistakes were made. Initially, for example, the Playfair Code was used, which had been invented by **Sir Charles Wheatsone** of telegraph invention fame, and had been used in the First World War. This involved writing a known poem in the form of a 5 x 5 matrix (I and J were always the same), omitting letters already used and filling the remainder in alphabetically. Thus the line, 'Who killed Cock Robin' becomes:

W H O K I J
L E D C R
B N A F G
M P Q S T
U V X Y Z

The message to be sent is then divided into bigrams; say MA IN RO AD. Each of the bigrams is now encoded by taking opposite corners of the rectangle it forms in the matrix; thus MA becomes QB. If both letters of the bigram are in the same line, the next letter to the right of each is used. If both are in the same column the next letter below is used. OA becomes DQ. This simple message becomes QB HG DJ QA. To further confuse the enemy this could be encoded again (called double encryption). It was found that this code gave only very limited, short term, security and was not used after 1942. Variations of this system were tried but by far the most common code to be used was the One Time Pad (OTP) which was simple to operate and effective. This is a book filled with blocks of randomly generated numbers or letters from which the message can be encoded. Identical books are held by the agent and the home station and each page of the book is used only once and then destroyed. This system is totally secure.

The SOE were very innovative in assisting their agents. For example, it was essential that agents' transmission from occupied countries were as short as possible so that they could not be found by German Direction Finding (DF) equipment. To assist in this SOE produced a 'silk handkerchief' about 50 x 50cms which was printed with about 500 commonly used phrases eg. 'There will be an airdrop at…..' Each phrase had a four letter code that was then encoded.

No single organisation or action can be seen as paramount in determining the successful outcome of the war; it was as a result of a wide range of activities There is no doubt however that the efforts of the SOE were a significant element of this success. These actions remained completely highly classified until the mid-1970s since when information has become increasingly available. Many of the brave clandestine actions of men and women of many nationalities have become well known, far more have not. What happened to the secret services after the war was secret at the time. **Lord Selborne** pointed out to **Clement Attlee**, the new Prime Minister, that the SOE had built up a world-wide communications network that in the post-war world order would be an excellent intelligence asset. **Attlee** replied that he had no intention of presiding over such a British Cominterm and the SOE formally closed down on 15 January 1946. No doubt a few of the hands went to MI6.

Between Silk and Cyanide (Harper Collins) by Leo Marks

The Royal Signals Museum has a comprehensive display of equipment that was designed by SOE and used by agents in the field. There is also considerable archive and library material available for research purposes including the personal accounts of Royal Signals personnel who were directly involved. We would be delighted to hear from anyone who has personal experiences in this field or who has any documents or artefacts which they believe would enhance our collection.

ESSEX MAN JOINS THE SAFETY ELITE

Steven White, a Warrant Officer with Sp Sqn JSSU (AN), has received the prestigious British Safety Council Diploma in Safety Management at an awards ceremony at Gibson Hall, London. **Mr White** was among 12 safety professionals who were presented with their awards. They passed a 450 question exam in order to gain their Diploma.

In a message to delegates **Lord Whitty**, Minister with responsibility for health and safety at work said, 'I welcome the commitment that you have shown to improving health and safety management. Integrating these into the overall management agenda is undoubtedly the key to improving health and safety standards in the workplace. It also makes excellent business sense. I hope that others will follow your good example.' Many company directors and managers are unaware of how big the savings from good safety management can be. The Baker Group in Northamptonshire has seen its insurance premiums drop from £400,000 to £150,000 in just three years and Norwich City Council's City Works department is saving £60,000 a year because of their good safety records.

Sir Neville Purvis, Director General of the British Safety Council says, 'Good safety is good business and can save firms hundreds of thousands of pounds. In achieving the Diploma in Safety Management, **Mr White** has, shown a commitment to improving health and safety in the workplace. Proper training for people at all levels of a company is vital, as accidents and illnesses at work cost this country up to £18 billion every year.'

Diploma delegates study safety law, communications, advanced safety management, occupational health and hygiene and total loss control (risk management).

Sir Nevill Purvis (R), presents a diploma in Safety Management to Steven White

THE BLANDFORD TOWER RUN 7 OCTOBER 2000

On Sunday the 18 May 1986 the first Blandford Tower Run was held to mark the 20th anniversary of the construction of the School of Signals at Blandford Camp, including its now famous landmark the UHF radio tower. The original course started some 13 miles from Blandford Camp, and followed a cross country course back to the camp finishing below the tower. That year the race was won by a **Mr B. D. Heywood** in a time of 1hr 26mins, with **LCpl Nick Clay** finishing second overall and first Royal Signals runner. Over the years and as a result of the new building development within the camp the course has been changed a number of times. The present course now in its third year, starts and finishes at the Athletics Stadium in camp, and is run over the undulating countryside surrounding Blandford. The event is an accurately measured 13.1 miles (Half Marathon), and incorporates the Royal Signals team and individual Corps Half Marathon Championships.

This year's run, is to be held on Saturday the 7 October 2000. In addition to the main event there will be a Children's 1 mile Fun Run. An extensive number of prizes will be awarded in the following categories:

First Male and Female Team (3 to count) in the open event
First overall 3 Male and Female individuals in the open event.
First M40, M45, M50, F35, F40 and F45 in the open event.
First Male and Female Junior (under 20 on the day of the race) in the open event.
First Royal Signals Male (4 to count) and Female (3 to count)
Teams First overall 3 Royal Signals Male and Female individuals.
First Male and Female Royal Signals Juniors (under 20 on day of the race)
First overall 3 Male and Female Royal Signals individuals.

In addition there will be over £100 in spot prizes, and a free T Shirt to all runners that finish the race. The course records for Male and Female currently stand at 1:14:07 set by **WO2 Dave Rollins** in 1998 and 1:27:37 set by **Debbie Austin** also in 1998. There is a cash prize of £50 (Male) and £30 (Female) to anyone who can set a new course record.

Not only does this event provide an exciting and challenging run for athletes of all standards, it also raises money for civilian and military charities and is therefore aimed at everyone. This is an excellent opportunity to meet old friends within the Corps. Gladiators and fun runners alike can set their own challenges and goals. So put it in your diary now and I hope that we will see you on the day, here in Blandford achieving those aims. For further details or entry forms for the event please contact: **WO1 (YofS) Stewart Little**, BDMT, Blandford Camp, Dorset, DT11 8RH. Blandford Military Extension 5470.

MORSE CODE

At the click of a mouse
the world comes down your phone line.
At the speed of light
whole libraries traverse the globe.
But it was not always like that.

The earphones crackled,
electrical static, discordant voices,
distant foreign music.
Fading, distorting, swamping to earth,
like a wounded thing unable to prise itself onwards.
Listen intently with narrowing eyes,
and blacked out the mind
to catch the signal.

In the isolation of the wireless room,
crouched over message pad with toying pencil
the operator probes the frequencies
with illuminated dials and bakelite knobs.
He is confined in an audio world,
peopled by faceless signallers
speaking the language of Morse.

Searching for a sequence
of dahs and dits submerged
in an electrical cacophony.
Somewhere a pattern,
somewhere a skilled wrist
tapping out a message
about things of great moment
and urgency.
A pulsing insistence on a thin wave length
intercepted by a Morse tuned ear
from the morass of extraneous sound
on its way to deep space
and whoever else out there may be listening.

Peter Tomlinson (ex 15 Signals Regiment - Cyprus 1959-60)
Jubilee Cottage, Knowbury,

WORLD SOCIETY FOR THE PROTECTION OF ANIMALS

A British soldier has been reunited with 'Osker', a puppy that he rescued in war-torn Kosovo. **LCpl Steven Smith**, 23, from the Corps was reunited with 'Osker', a yellow labrador-cross type of puppy that he rescued whilst serving in Kosovo. Osker has spent the last six months in quarantine at Knightwood Quarantine Kennels in Wiltshire, since being rescued and brought to the UK from Kosovo by the World Society for the Protection of Animals (WSPA).

LCpl Smith took pity on the young stray when he found him wandering half starved in the ruined streets of Pristina. Nicknamed Osker, the pup soon became the unofficial mascot of the British soldiers based near Pristina airport. On his return to the UK last September, **LCpl Smith** contacted WSPA to see if the charity could help bring his new friend home as well. WSPA had been working in Kosovo helping to treat hundreds of dogs that had been injured and abandoned during the conflict.

WSPA Field Officer, **Brian Faulkner,** overcame bureaucratic obstacles to bring Osker back from Pristina, with the help of a free flight from British Airways, and arranged for a place for him at Knightwood Quarantine Kennels, with the help of readers of Dogs Today Magazine who donated enough money to pay the fees. **LCpl Smith** said, I am so grateful to all the efforts made by WSPA to bring Osker back. I just didn't think it could ever happen; I have been so looking forward to this moment! I just can't wait until I can put him on his lead and take him up to the fields and let him run free."

WSPA has been active helping animals in Kosovo since last year when it delivered £40,000 of emergency veterinary supplies to help treat animals suffering from bullet wounds and landmine explosions. Last August WSPA set up Kosovo's first ever dog shelter in Priziren. The shelter has since successfully rehomed more than 250 dogs.

THE DINING OUT OF BRIGADIER A. P. VEREY THE ARMY & NAVY CLUB FRIDAY 14 APRIL 2000

Six aspects of the life of **Tony Verey** may find brief expression in verse; note that the rhyming of beer with Brigadier, or Verey with beery has been eschewed as being too facile.

Education:
Than Ascot, there's little that's drearieur
And the cuisine at Eton's inferieur –
It's enough to impel
One toward Neuchatel
And l'Ecole de Commerce Superieur.

Inspiration:
What is it, we note about Verey?
(Pregnant pause, after posing that query).
It seems that he's blessed
With unnatural zest –
Just to look at him, makes me feel weary.

Battle of the Bulge:
To keep fighting fit is the goal
And to suffer, is good for the soul;
Take the masochist's way
Run for miles every day,
For one's tum must be kept in control.

Promotion:
Through the ranks he rose, older and bolder,
To be the Top Territorial Soldier –
He earned them, not half,
Those red tabs, saying 'Staff'
With the crown and three pips on his shoulder.

Recreation:
Down at Bisley, T. Verey's a nut,
But, ere shooting, there's grass to be cut;
No wonder he's tired
When the first shot is fired –
He's not slept, for maintaining the Hut.

Employment:
To work for the brewer, Brakespear,
Was a natural choice of career;
His job spec. is great –
Though it's called real Estate
He is really just there for the beer.

SONIC COMMUNICATIONS

SKILLED ELECTRONICS TECHNICIANS LEAVING THE FORCES – PLEASE COME AND TALK TO US!

We have immediate vacancies for hands-on bench technicians familiar with handportable and mobile radio accessories, video, microwave, telemetry, black boxes, prototype projects, and vehicle fits that can provide a high level of job satisfaction.

Please send brief letter with C.V. to:-

GENESIS CONSULTANCY
Providing Recruitment Solutions

TECHNICIANS, OPERATORS AND TELEMECHS REQUIRED

Genesis Consultancy specialise in placing ex-Corps members of all ranks and trades with the telecomms industry nationwide.

A wide variety of opportunities currently exist for Class 2 and Class 1 Techs, Operators and Telemechs as well as Foreman of Signals and Yeoman of Signals of all ranks who have decided to leave the Corps.

In addition to immediate requirements, we have medium and long-term requirements from our clients and can assist in all matters concerning these opportunities throughout the period running up to the date of discharge.

If you have decided to leave the Corps call us today or forward a detailed C.V.

WANTED!

The Royal School of Signals is mounting a pictorial history of

'Royal Signals Young Officer Training'

CAN YOU HELP?

Did you attend one of the following courses at the School of Signals (now the RSS) and do you have a decent photograph of your course with names? (If you can remember it!)

Communications Qualifying Course Numbers:
64 (circa 1967), 65,72 and 80
Communications Qualifying Course Numbers:
7 (circa 1976), 11 and 14
Royal Signals Troop Commanders Course Numbers:
11,12,13,14,15,16,17,18,22,23,24,25,26,27,28 & 33

If you can help, the RSS would be very grateful if you could send an original/copy for addition to the display.

Please send photographs to:
YO Course Photos, Command Training Wing,
RSS, Blandford Camp, DT11 8AG.

(Originals can be returned to you, once a colour copy has been made. Should you wish this to happen, please state it in a covering letter)

RETIRED OFFICER POST

A vacancy exists now in Glasgow for an RO2 to run C Wing within the R SIGNALS/INT CORPS MCM Div

The post holder will be responsible to the SO1 (Soldiers) for the detailed manning of all:
Radio Systems Operators
Technical Supply Specialists
Special Operators
Linguist Operators
Regimental Duty Posts

Duties will include: career management; postings; promotions and transfers; and manpower planning. Applicants must have a deep understanding of the career and management implications implicit in their actions.

Interested?

The above photograph taken at the Quartermasters' Convention Dinner in April 2000, shows **Lt Col (Retd) Peter McNaughton OBE** and **Maj Maurice Stanley** the TA Quartermaster of 40 (Ulster) Signal Regiment (V). **Peter McNaughton** was posted to Clonaver Park on returning from the Middle East in January 1951 and during his tour, of nearly four years, with the Squadron it's title changed from 35 (U) AA (M) Signal Squadron TA to 51 (U) AA (M) Signal Squadron TA then to 11 Signal Liaison Squadron TA..... all this in the days before 40 Signal Regiment was born. The last time that these two QMs met was in 1955 when **Peter McNaughton** was the Staff Sergeant PSI of 35 (U) AA (M) Signal Squadron and **Maurice Stanley** was the seven year old son of **Harry Stanley** the Squadron's MT Sergeant TA. The same **Harry Stanley** is now 87 years old and still attending the Old Comrades Weekend in Blandford and is an ardent member of the Belfast Branch of the Association.

On Sunday 25 June Fulwood Barracks held an 'Open Day', for the public, and over a thousand visitors flocked to see the Army on show, at the Preston based Army Headquarters.

Lancashire Army Cadet Force went along with their recruiting caravan and the above photograph shows a group of Royal Signals badged cadets, from the Blackburn Detachment, using radio equipment that had been put on show by 93 Signal Squadron Blackburn (Volunteers).

The Cadets are (L-R): **Cdt Chris Randall, Cdt Owen McBamee** and **Cdt Oliver Oldham**.

EDITORIAL COMMENTS

Reference my Notes on Articles for *The WIRE* published in the April 2000 Edition, we received 26% of the entries for the June issue LATE. This was an improvement on the 30% to 50% LATE that we have experienced over the last nine issues. Despite the improvement we lost 39 Bde Sqn's entry through a glitch in our system although we had promised to include the article. It appears, slightly dated, in this issue with our apologies.

The new DTP equipment is now with us and we must capitalise on it to achieve a cost saving. Late entries remain anathema to us! Despite that comment we do accept that there are occasions when accepting a late submission is beneficial to our readers – eg: Sierra Leone and similar operations- or appropriate-eg: when a significant function/activity worthy of inclusion is close to our cut-off date. In the former case we will cope, and in the latter-give us a ring and indicate what we should expect (eg: two pages of text with 12 point title and 8 point text and four photos). This will enable us to plan around the late entry. Those that do not fit the above parameters in our view will be returned to the sender to be recast for the following issue if appropriate.

Photos., we still prefer originals. Any Digitals must be at a minimum of 400dpi. They are unlikely to be any good if they fit on a floppy. We are considering increasing the font size by one point- it is not only the old and bold, including myself, that find it difficult to read, and hopefully improve the presentation of the pictures. Additionally we are examining the need to increase the cost of *The WIRE* to reflect increasing costs particularly in postage. Any recommendations will be subject to the agreement of the Corps Committee.

NEWS FROM HEADQUARTERS

SUPREME HEADQUARTERS ALLIED POWERS EUROPE

March saw a first for the Gurkha Signals with two pipers, **Sgt Mangalsing Tamang** and **Cpl Dhabahadur Sahi**, visiting to play at the Saint David's Day Guest Night – a local opportunity for the British staff to host international guests. Needless to say, it took **Col Terry Canham** (well known for his desire to set up Gurkha Restaurants wherever he goes) about a nano-second to volunteer to host the pair!

After a formal photo session with **Maj Gen Ashley Truluck** (another 'bhatoholic'), **Sgt Mangal** and **Cpl Dhal** were given a guided tour of Mons and the battlefield of Ypres. They were especially impressed by the Menin Gate, which, amongst thousands of others, lists the names of those Gurkha soldiers whose bodies were never recovered from the battlefields of the First World War.

Needless to say **Sgt Mangal** and **Cpl Dhal** played superbly at the dinner and did both the Corps and the Queen's Gurkha Signals proud.

Maj Gen Ashley Truluck and Lt Col Terry Canham greet Sgt Mangal and Cpl Dhal at the SHAPE main entrance

REGIMENTAL HEADQUARTERS ROYAL SIGNALS

SOLDIER AND OFFICER RECRUITING AND LIAISON STAFF BIRTWISTLE PENNANT OF MERIT FOR RECRUITING

The Birtwistle Pennant for Recruiting was presented to the Corps by **Maj Gen A. C. Birtwistle CB, CBE, DL,** on relinquishing his appointment as Signal Officer in Chief (Army) in 1983. The pennant is awarded annually to the Regular unit of the Corps that is deemed to have made the most outstanding contribution to Royal Signals recruiting. Commendations are also awarded to those units whose contribution is regarded worthy of recognition. Units are required to submit a report annually to the Regimental Colonel on their recruiting activities over the past year. The report, which is to cover the period up to 31 March each year, must be at RHQ R SIGNALS by no later than 15 April for adjudication. The SOinC(A) presents the Pennant and Commendations to the Commanding Officers of the winning units at his annual conference. The annual reports from units are the primary means of monitoring the Corps recruiting effort and, if done diligently, negate the need for other returns. It is for this reason that TA units are also required to provide reports. The unit submission proforma is at Appendix 21 to Annex A to SOinC(A) PD 203. At his conference on 18 May 2000, the SOinC(A) presented the Birtwistle Pennant for Recruiting to **Lt Col Cameron-Mowat**, the CO of 2 Sig Regt, for his Regiment's outstanding all round contribution to Corps recruiting for year 1999/00. The SOinC(A) also presented Commendations to the COs of 16 Sig Regt and 30 Sig Regt.

ROLE OF HONOUR 1993-99

1993/94 Winner - 216 (Para) Sig Sqn
1994/95 Winner - 2 Sig Regt
Commendations: AAC Harrogate and 1(UK) Div HQ & Sig Regt
1995/96 Winner - 249 Sig Sqn (AMF(L))
Commendations: AAC Harrogate and 7 Sig Regt
1996/97 Winner - 24 (Airmobile) Bde HQ & Sig Sqn
Commendations: 2 Sig Regt, 11 Sig Regt and 259 Sig Sqn
1997/98 Winner - 1 (Mech) Bde HQ & Sig Sqn (215)
Commendations: 11 Sig Regt, 16 Sig Regt, 39 Inf Bde HQ & Sig Sqn
1998/99 Winner - 5 (AB) Bde HQ & Sig Sqn (216 Para)
Commendations: 2 Sig Regt, 11 Sig Regt and 21 Sig Regt (AS)
1999/00 Winner - 2 Sig Regt
Commendations: 16 Sig Regt and 30 Sig Regt

HEADQUARTERS 1st SIGNAL BRIGADE

FAREWELL TO LT COL 'GUS' GURR

Lt Col (Retd) R H Gurr finally left the Corps on 2 June 2000. 'Lt Col Gus' has been a stalwart of the Corps reaching the rank of Lieutenant Colonel as a Traffic Officer and then retiring to work as the SO2 Org/Estb of initially Communication Branch BAOR prior to moving to his current job within 1st Signal Brigade. He intends to retire and live in the Vienne region of France.

It is always a chilling moment when the Brigadier passes you and says the immortal Words, *'Ben can you drop into the office When you have a moment?'* The task was set and the words spoken, *'Gus is leaving and after forty years service. I want a farewell party for him of the highest standards.'* Next came the difficult bit as 'Uncle Gus' or 'Grumpy' as he is fondly known, decided that he would be awkward. The first problem was that he wanted to fade away quietly. This was resolved by reminding him of duty and standards. With his imminent move to his new life in France, the collection of his new cars, and the furniture move, a date was difficult to set. Again a problem to solve, but with one phone call to his wife **Pat** and like all good men he did as he was told. Those that know 'Gus' will also know that he has that Blairite feel for total control. When asking where is the venue and is there a programme, he was told, 'Just put on a suit and transport will collect you at eight.' This sent him on an intelligence-gathering mission equal to the hunt for the ENIGMA crypto machine in the Second World War.

At this point the plot thickened. **Maj Garth Pickersgill** that well known English Rugby supporter felt that 'Uncle Gus' was a traitor for moving to France. It was then the French theme evolved, so that 'Gus' and **Pat** could be the star guests at their own Revolution Party. The Commander, **Brig McDowall** announced that he wanted to be Napoleon. The plot thickened when he declared that we had to find a guillotine to sort out the traitor. The Staff at this time were becoming worried about the change in tradition and having to dress up, even in these more modern liberal times. This was soon resolved when **Cpl Tracy Mills** announced that she might be going as a Can-Can dancer? The night arrived and give credit where credit is due the following is a list of the alter egos: **Brig** Napoleon **McDowell, Maj** Buy a postcard **Davis, Maj** Papillion **Pickersgill, Ben** the Chef **Britton, Maj** Parapluie **O Hara, Capt** Sun King **Townsend, Stuart** The Pimp **Boyne**. With true style young **Tracy** lied and along with the other girls arrived as the three Musketeers. **Linda** the Commander's PA looked like Piaf. **Cpl Rob Lavers** looked dashing in his Hussar uniform. Finally the Staff Assistant, **WO1 Martin Healy** wore a Prussian uniform (novel for him) just to be different and the Chief Clerk's, **Sgt Steve Bennett,** appearance as René complete with natural padding, was a good likeness.

Brig McDowell presenting Lt Col 'Gus' Gurr with a ship's decanter and glasses

Lt Col 'Gus' Gurr walking to the guillotine

The photographs show the assembled revolutionary mob. The farewell presentation by **Brig McDowall** of a ship's decanter engraved with Jimmy and the coup de grace as the blade falls. As a large number of the Corps past and present are friends of 'Gus' and **Pat**, may we wish them a fond farewell from all the Corps for their new life in France.

THE ALTERNATIVE DINNER NIGHT

Wine tasting with cheese and biscuits will never be viewed with quite the same excitement, after our evening with excellent food and a multitude of wines. DCOS, **Maj Jonathan** 'Lush' **Turner** organised the evening with the view that most of us drink wine whilst enjoying a good meal, hence the theme developed. The evening started with an apéritif of the delicate Piper Heidsieck Rosé Champagne and a cheap but very cheerful Charles Kohler Blanc de Noir. The smoked salmon complimented delightfully the 1998 Chablis Rodet and 1999 Fairview Chardonnay. The banter at this point was now in full flow and it was obvious that our taste buds showed an inclination to a particular type of grape or not, as may be the case. I could not tell you the type of grape but who cares the Chablis was great. For the buffs in our midst, Leo Van Voosen from a local Dutch Wine Merchant educated us on the background of each wine. The dinner continued sampling the red wine with our fillet steak but by this stage **Maj Mike** 'Chin Chin' **Dooley** was starting to get his green and red crosses mixed up, making it difficult to have a sensible discussion as to which was considered to be the best of them By this stage he had already broken the first rule, by giving his opinion. Oak caskets really do make a difference! **COS, Maj** 'Need a beer' **Davis** as far as I know did not do any minesweeping. A very fine Muscat de St Jean- de- Minervois accompanied the dessert, followed by a couple of Graham's ports. The evening was equally enjoyed by those of the Ops Wine Tasting Society and those of the 'give us a crate club'. Many thanks to DCOS for organising an evening that Grommit would have been proud off.

THE 1 SIGNAL BRIGADE OPEN GOLF

Having been away for most of May, I arrived back at work, to find myself amid a foray of discussions as to which team was going to win the forthcoming golf competition. civilian and military alike were caught up in the hullaboo of strategy, types of balls, sizes of clubs etc. The teams were chosen as fairly as possible with an experienced golfer, coupled with a beginner. Although, I had never fathomed the fascination for the sport, upon discovering that I was teamed with the Commander, I thought this might just be a good time to acquaint myself with the rules. The evening prior to the competition saw a row of novice golfers on the HLS at JHQ practising, all keen to win the next day. Balls were flying in every direction and I had to admit, it was fun. We boarded the minibuses, golf bags in arms, ready for action. We were first to the tee, at this point I wished I had had a quick practise on the driving range, too late now.

I discover that the Comd, **Brig McDowall** is a bit of a bandit and already we have achieved two under par on the first hole. The pundits tell me this is known as an eagle. As we moved to the next hole, **Capt Boggy Boyne** trying to impress **Cpl Mills** with his driving power narrowly missed the Commander. Could have been embarrassing! **Cpl Mills** seemed to be having a lot of problems in the long grass, managing to bounce the ball off a bag, tree, then **Capt Boyne** and still it remained in the rough. As my confidence grew, unfortunately my putting finesse deteriorated. Clearly, it was dependant on many factors such as the surface of the green, the type of putter, the control of the put, I just hoped that I could hold the game together. Why are Sandwiches used for getting out of bunkers?

Elsewhere, the talent was not a great deal better. **Maj** 'Mad Dog' **Dooley** achieved a Birdie but he was at hole 17, when the ball landed in hole 16! COS, **Maj Elton Davis** Mastered the art of achieving communications on the golf course, by putting one handed, with the other hand on the mobile telephone. We continued to hole 11 where we were to compete for the longest and shortest of drives, the pressure got to us and nothing was won. As the skies grew darker, the day came to a close for us, as we headed off to hole 19. Prizes and presentations followed: We said farewell to **WO2 FofS** 'Rupert the Bear' **Lewendon** who goes on promotion to 16 Sig Regt. **WO1 Martin** 'Ginja Ninja' **Healy** showed his pin point accuracy by winning nearest to the pin. The Shortest and Longest drives were won by **Sgt** 'Chiefy' **Bennett** and **FofS** 'Tez' **Brown** respectively. To my complete astonishment the Commander and myself (**Capt Gillian Smart**) won the overall competition and were presented with a splendid trophy, hand crafted by **Maj** 'Chippy' **Britton.**

GOOD NEWS TRAVELS FAST!
***Publish it in The Wire** – The Editor is always pleased to receive interesting articles*

HEADQUARTERS
2 (NATIONAL COMMUNICATIONS) SIGNAL BRIGADE

FUTURE BRIGADE CONCEPT

In concert with contributing to the Corps After Next (CAN) study, the Brigade is conducting its own internal study into how it might evolve further over the next 10-15 years. 'Future Brigade' will give consideration to the ways in which the Brigade might embrace technological advances and deal with the demands, which could be placed upon it around the spectrum of operations. This initiative has spawned many key actions, which will determine tangible changes in structures, equipment and how these are used. They will draw particularly on the Brigade's HF and IT expertise and capability. The synergy between the ACISG and TA units will inevitably be strengthened as a result of 'Future Brigade' and greater emphasis on specialist capability within the CVHQ R SIGNALS.

OPERATION PALLISER

On Thursday 11 May 2000, **WO2 (YofS) Jim James** was just settling down to a hard day at the office when the COS gave him the good news…a short notice task had just come up for a YofS to replace one Warrant Officer (RS) currently deployed on Op Palliser. MCM having checked their database for slightly plump Yeomen, who could do with losing a few pounds in the Sierra Leone jungles, **WO2 (YofS) Jim James** was declared the winner!

Normal work was dropped immediately and was followed by a mad rush to get the necessary injections and malaria tablets (Oh yes, **YofS James** got his!) In between all this, the Yeoman received a one hour tutorial on Frequency Software – RAPTOR. It would ordinarily have taken a bit longer, but hey, the Yeoman was about to go on Operations! Within 24 hours, **Jim James** was airborne and on his way to Senegal - courtesy of the RAF. He then spent a couple of days at JTFHQ Rear in Dakar, trying to come to terms with the 'purple-speak' now seemingly common currency amongst those fine chaps from Northwood. The HQ then moved lock, stock and two smoking barrels (another ND from the 501 Det perhaps?) to Lungi Airport, which had been secured by 1 Para a couple of days previously. The airport became a hive of activity receiving additional UN troops brought in to support the Sierra Leone Government. This was good news, because the quicker they came in, the earlier the British could return home.

After two weeks, **YofS James** managed to get a visit to the swimming pool at the British High Commission in Freetown. He was also present at the evening briefing, when the Force Commander, **Brig Richards**, thanked the outgoing CO 1 Para for his efforts and welcomed CO 42 CDO to his new role. This relief in place marked the beginning of the draw-down of the HQ at Lungi, which meant the Yeoman could finally return home to his loved ones; home, indeed, for tea and (hopefully) medals!

EXERCISE HORSESHOE FORGE 13-14 MAY 2000

Ex Horseshoe Forge was a MAPPEX held in preparation for the Brigade FTX due in September of this year. The Exercise was held at Corsham in the Services Cotswold Centre and involved all the Regimental Command Teams as well as the Brigade Staff. The whole Brigade is primed and ready to deploy on the Brigade FTX, Ex Horse Shoe 1 in the North of England and Scotland during September 2000.

The SO1 Comms (V), Lt Col Alan Whittle leads the Command Teams through the Recovery Phase of the Exercise

The Command Team of 39 Sig Regt (V) pose for the camera
Maj Butch Maycock demonstrates a trick shot close to his ECH

EXERCISE ROYAL HORSESHOE 25 MAY-6 JUNE 2000

Ex Royal Horseshoe was led by **Maj Paul Kelly** and formed part of the Brigade Millennium Project. It found four of the Brigade Staff in Canada on military training with the Canadian Forces. Prior to the exercise the team conducted a Staff Ride of the Gettysburg battlefield en-route to Canada. The Exercise was based in New Brunswick at the Combat Training Centre and kindly supported by the 2nd Bn Royal Canadian Regiment

The Exercise consisted of four days of navigation training in the Fundy Bay area during which **Maj Iain Brownlee** had to be surgically removed from his GPS. After many miles of trails and one very surprised racoon, the team returned to Gagetown with rather sensitive feet. The Signal Pl of 2 RCR then instructed the team on the Canadian equivalent to BOWMAN, the TICCCs system. This was followed by an introduction to the latest Canadian armoured vehicle, the Light Armoured Vehicle 3 which is currently being equipped with TICCCs. The Gagetown mosquitoes declined our invitation to a group photograph concentrating instead on biting **WO2 Alan Duncan**. Finally the team was given instruction on the C7 and C9 personal and Fire Team support weapons and let loose on the range. **SSgt** 'Dek' **Painter** displayed a certain satisfaction at firing a year's allocation for a TA Regiment in one afternoon. The Exercise ended with a 'Canadian Happy Hour' in the respective messes of 2 RCR. Ex Royal Horseshoe was a great success and our thanks once more to the Canadian Forces for their support.

BRIGADE HEADQUARTERS TEAMBUILDING IN THE FOREST OF DEAN

As a 'welcome' to the Brigade the new Comd **Brig N. C. Jackson MBE** led a Team Building exercise in the Forest of Dean. The day was perfect for a hard tab for all the military and civilian members of the HQ – but in brilliant sunshine! Good – no complaints so far. Transport took us down the motorway and across the old Severn Bridge (still sunshine, one complaint – 'It's a bit hot today!' there's no pleasing some).

The route had been recced by **WO2 (YofS) Jim James, WO2 (SQMS) Al Duncan** AGC and **SSgt** 'Dek' **Painter**. **Al** wore his slick 'desert boots' expecting a gentle walk, however, within five steps of getting out of the car we knew **Al** was going to be our entertainment for the day. It was decided to give the boys and girls an undulating and varied walk – bit of an understatement, what we meant was, nine and a half miles of walking through mud, streams, bogs, on disused rail tracks, over gates, through gardens and the obligatory up and down hills. Well we did say varied! We had warned everyone that the route was a little damp and a good pair of boots would be advisable it had not rained for two weeks and the route chosen was less damp. **WO2 (SQMS) Al Duncan** was determined to conquer the hazards, again with his 'Bambi on ice' slick deserts. He who put on chest high fishing boots will remain nameless suffice to say he had many requests to 'borrow' them for the night.

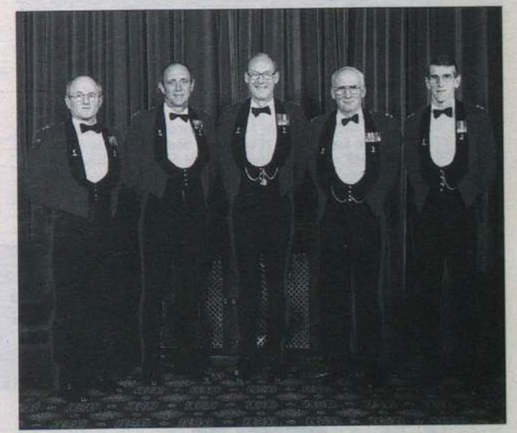
The sun still shone and complaint number two '…. not another hill!' Only seven miles to go and the sense of humour is kicking in. At exactly the half way point there was a place of liquid refreshment and delicious gastronomical delights on offer - especially for the registry team. After a light lunch the second half of the navigation task began with the Comd's driver, **Cpl Mark Collins** running off to do a spot of training for his Junior Comd Course. Despite all the war stories of 'parachute silk, a thumb nail compass, ten pieces of gold and a packet of extra strong mints' he decided to stick to the route and meet us at the end. The remainder of the walk remained uneventful with the exception that everyone enjoyed the company, the banter, the fresh air and still the sun was shining. It was another successful day out from the hustle and bustle of this very busy HQ and a chance for us all the see one another out of uniform – now there's a thought to finish on!

ARMY CIS GROUP UPDATE

The ACISG has now taken control of the ISIS network with the arrival of the ISIS team from G6 LAND. This has resulted in a re-organisation of HQ ACISG with four distinct branches responsible for day to day tasking and Operations through the Operations Office, Project Management, Installation and Support and Service Management all working directly for the Commanding Officer. The formal hand-over of the ISIS network and its associated Memorandum Of Understanding was signed by ACOS G6 Land and Commander 2 (NC) Signal Brigade on 5 May 2000 at Wilton. During this extremely turbulent time there have been a number of personnel changes. **Maj Bob Holt** and **Maj Tony McMahon** have both started their second careers in Civilian Street and **Capt Tim Bamber** leaves us for a 12-month holiday as a member of the MATT Sierra Leone. On the arrivals front **Maj Tim Langford** has taken the baton as the newly appointed Operations Officer with **Capt Andy Fletcher** replacing Capt Tim Bamber within the cauldron of the Operations Office. **Capt Phil Cutforth MBE** became the first Technical Adjutant of HQ ACISG on his arrival in June.

ANNUAL QUARTERMASTERS' CONVENTION

The Annual Quartermasters' Convention and Dinner was held on Friday 14 April 2000. There were over 80 Quartermasters Past and Present attending. The programme for the day included guest speakers from the All Arms Quartermasters' School Deepcut, HQ LAND and HQ ARRC. It also gave everyone the opportunity to watch the opening display by the White Helmets, which was both thrilling and impressive. The dinner in the evening was presided over by **Lt Col Mike Stevenson** and our guests included **The Master** and the **Signal Officer in Chief (Army)** who kindly agreed to give the after dinner speech. We said our fond farewells to **Majs Bob Yeomans** and **John Harby** who will be retiring within the next twelve months and delighted in wishing **Pat Lafferty** a 'Happy 77th Birthday'. Amongst other things, the event was an opportunity for the six serving Lieutenant Colonel Quartermasters to meet. On the day this was not possible due to **Lt Col John Walker's** absence on duty. The remainder - with a combined 176 years of service between them are shown below.



Lt Col P. W. J. Whitehead, Lt Col W. N. White MBE, Lt Col M. A. Stevenson MBE, Lt Col M. V. Ledwards, Lt Col D. J. Lumb

11 SIGNAL BRIGADE

EXERCISE ARCADE FALCON

I write these notes whilst sitting in the Hook of Holland following another masterful movement plan concocted by HQ LAND. Thanks LAND, for organising a move over the holiday season and carefully coordinating the deployment with EURO 2000! Fellow passengers on the ferry were very impressed that the Army had been deployed to contain the football violence. However, advance elements are in the concentration area in Moenchengladbach and eagerly awaiting our arrival. The deployment has had its moments, memorable, have been **Maj Peter** 'DIY' **Williams**, seen first works parading his vehicle. He noticed that the side lights were not working and looked masterful with both sidelights hanging from their sockets, spare bulbs in hundreds and fuses held in his teeth, when **Cpl Emmett** explained that in the WOLF the ignition has to be turned on for the lights to work! **SSgt** 'Mac' **McNeill** and **Cpl** 'Days to do' **Beacall** nearly did not make the ferry crossing as their tyre blew on the generator en – route, necessitating REME recovery. A full report on the exercise will follow in the next *WIRE* notes.

THOSE THAT ARE DOING A LOT

The commercialisation team continues to remain busy and are keeping the project on schedule despite the best efforts of 'dodgy' power in theatre. The Ops Team were also busy on deployment to Germany for yet another planning meeting. With our SO2 Log, **Maj** 'Rab' **Young,** as driver (how is that for being pressed for staff) they departed for the airport. Unfortunately the Safari LandRover was not up to the challenge and on the way to the airport, after catastrophic power failure and in a plume of white smoke, the Land Rover breathed its last breath and expired on the hard shoulder. This somewhat disappointing end was followed by the comment from **Capt Dick Gamble** 'I assume that you first works paraded this vehicle Rab' – SO2 Log not amused! The result being that the Ops Team had to be lifted to the airport in a police car, leaving SO2 Log Sp, to await recovery. For once calls to the AA were not answered with their normal alacrity as unfortunately, the number used was that of **WO1 (YofS) Graham Pardew's** mobile number – messages of where are you are not much use when you receive them in Germany. This possibly goes to show something that we all knew anyway – YofS are the fifth Emergency Service. The Headquarters travel agency flourishes under **Cpl Phil Beacall AGC** who can now tell you how to get from anywhere to anywhere at any time so long as you do not mind three changes, two stopovers and have an unlimited budget. There is no truth in the rumour that he has already arranged his own flight out of the Headquarters, Club class to his new unit, which of course is located on an airfield. Rumour has it he has volunteered to join us on Ex Able Condor (UK) 2001.

PROJECT CORMORANT

Life at the hub of the HQ, i.e the G2/G3 Branch continues as ever at a frantic pace. The Bde FofS, **WO2 (FofS) Pete Stowell** and the COS, **Maj Steve** 'Bore da Cariad' **Johns** appear to spend half their lives attending progress meetings on Project Cormorant which in layman terms is TWACN. The Brigade is the lead for the introduction of the system with 2 Sig Regt being responsible for its introduction into service, and both 2 and 30 Sig Regts being equipped with the first tranche of the system. This is the first SMART procurement project being run by the MoD, with the invitation to tender being released in August, and the first tranche operational by the end of 2001; pretty rapid procurement by anyone's standard. Currently, there are two contractors in the running for the contract, COGENT and RTM. From what we have seen of the proposed system thus far, whichever company eventually wins the contract, the Corps will be equipped with a state of the art area communications system that is rapidly deployable and able to support the JTFHQ and other formation HQs.

THOSE THAT ARE NOT DOING A LOT

The principle work-shy (clearly not a career soldier writing this article!) is the Comd, **Brig** 'Jonathan' **Cook** who has spent the Exercise planning phase on trek in Nepal. It is still unclear why the Gurkha Major, **Navindrabahadur Gurung** was so essential to the planning of the Exercise, particularly when he was not attending it. Suffice to say, that the Comd seemed to be more concerned with tribal carpets than trunk nodes. However, having made a number of generous donations to villages on his travels he has returned fresh and ready to tackle Germany, Bosnia and Kosovo, and all at the same time! Who said '.... and don't forget his sailing course in Kiel next month?'

While talking of people who can read crystal balls, be in two places at the same time and move at the speed of light our COS, **Maj Steve Johns** has at last completed his marathon running a respectable time in the Hereford Marathon. Also conspicuous by his absence has been **Capt Al Garrett** who has actually taken time off to get married. In my day you had to be at least 25 to get married and to be entitled to a married quarter and full pay packet (marriage allowance to you youngsters). We wish both **Holly** and **Alan** a happy and fruitful life.

COURT AND SOCIAL

It is with regret that we announce the resignation of **Maj Steve Bellerby** our SO2 Log(V). Steve has been on leave of absence for the last year following a number of years as a member of the permanent staff. His new business has taken off and expanded as we hoped it would, but has resulted in time becoming a premium. We wish him even more success for the future. Another temporary member of the permanent staff who has left us is **Maj Peter Williams** who after an 18 month period of doing most things, leaves to assume to assume The post of RO2, SO2 CIS 143 Bde. He remains on the strength of the Headquarters having reverted to being a 'proper TA officer'.

VISITORS

The Headquarter received only visitors at the working level in this reporting period. However, talking of visits, we are glad to say we have at last managed to get some of our civilian staff out to visit units. Our EO Fin **Davina** 'Where are we now?' **Carter** and AO Fin **Tina** 'How should I know' **Smith** visited 2 and 30 Sig Regt and got lost on both occasions! Well to be fair they were out of Shropshire and we all know that Shropshire is the centre of the known world.

NEWS OF TRAINING

11 SIGNAL REGIMENT

11 SIGNAL REGIMENT WIN THE DRAGON BOAT CHALLENGE - 2000

By Sgt Prembahadur Ale - The Royal School of Signals

The of May 2000 was a historic day for both QG Signals and Royal Signals. For the first time in history, a team of Signallers from the Blandford Camp participated in the prestigious Dragon Boat Challenge Race 2000 on the River Thames in Abingdon, Oxfordshire. This is an annual event in which teams from major boating and rowing clubs take part to raise much needed money for charities. 11 Sig Regt's team consisting of 21 Gurkha trainees, was one of the 40 teams that competed in the race this year. The team, without any prior training improved their skills with every race and qualified for the semi-final as one the four fastest teams. To everyone's surprise, they won their semi-final and lined up with five other teams for the final. Thousands of spectators lined the River Thames to watch the gruelling final race. After a thrilling 250 metres race, our team emerged as winners finishing the race in a time of 1 minute 18 seconds. The President of the International Rotary Club then presented the team with a fabulous trophy and a medal to each individual. The Team hopes to win a second trophy for raising the most money through sponsorships. They have raised in excess of £2100 to be shared between the Gurkha Welfare Trust, the Sobell and Helen House Hospices. Thanks go to **Capt** (QGO) **Krishna Gurung** whose idea was behind the fundraising events.

The winning team with Capt (QGO) Krishna, the CO and the MTO of 11 Signal Regiment posing for a photograph after the races

REGIMENTAL SHOOTING TEAM
EXERCISE FIRST SHOOT - CORPSAAM 2000

The Regimental Shooting Team achieved great success during pre-training and the Royal Corps of Signals Skill At Arms Meeting (CORPSAAM) throughout the following periods. Exercise First Shoot from 2-7 April 2000 and CORPSAAM 2000, held from 7-14 April 2000 at Ash/Pirbright Range complexes. All members were selected to represent the Regiment that consisted of the following composition: 2 x 5 man teams and x 2 individuals. Despite the atrocious weather (snow, hail, rain and strong winds) the teams did particularly well, achieving exceptional scores throughout the competition. This coupled with determination and personal marksmanship gave the team a great sense of personal achievement.

11 Signal Regiment Shooting Team
Back Row (L-R): Maj Brown, Sgt D. Copley, Sig C. Rollo, Sgt A. Kennedy, LCpl J. Brown, Sgt G. Padfield, Capt B. Bryan, Lt Col R. T. Hoole
Front Row (L-R): Capt Yam Rana, Sig D. Harris, Sig C. Clarke, Sig D. Dickson, Sig Steele

The two experienced shots, **Capt Yam Rana** and **Sgt** 'What's that all about?' **D. Copley**, did a creditable job at teaching those persons within the team who have little or no shooting experience for a successful CORPSAAM. The presentation consisted of prizes and medals being awarded equally between 30 Sig Regt and 11 Sig Regt by the Master of Signals. The 11 Sig Regt 'A' Team ended up achieving second place in the Rifle Team Matches and the Major Unit Championship. All scores were only a couple adrift from 30 Sig Regt. Also a very well done to **Sgt D. Copley** who achieved Royal Signals Champion at Arms, **Sig** 'It forces me to become a criminal' **D. R. Dixon** and **Sig** 'Where's my golf ball?' **C. Clark** who both required three medals to hold the bars that were awarded on personal merit.

Other achievements are as follows: Top Pistol shot - **Lt Col R. T. Hoole,** Champion Rifle shot - **Capt Yam Rana,** Best B Class shot runner up - **Sig D. R. Dickson,** Pistol Team Match Winners, FIBUA Team Match Winners, Association Team Match Winners, Runners up Combat Snap Team Match, Runners up Roberts Team Match, Runners up Whitehead Team Match,

The following two members of the Regiment **Capt Yam Rana** and **Sgt D. Copley,** were selected to represent the Corps in the Inter Corps Methuen Team Match held on Friday 14 April, both producing creditable results for the Corps. Also the following three members of the Regiment: **Sgt** 'Please give me a medal' **G. Padfield, Sig D. R. Dickson** and **Sig D. T. Harris** were awarded their Regimental Colours - Shooting, for 11 Sig Regt. If all team members can maintain the consistency and form shown throughout the above periods, then things are looking bright for the Royal Signals in the forthcoming Army Pistol Championship held on 3 June 2000, also the prestigious Queen's Medal Competition and other central Matches held at Bisley from 2-4 July 2000.

In conclusion, the CO, OIC - **Capt B. H. Bryan** and the 2IC - **Sgt D. Copley** congratulate all team members on their achievements and thank all OC Squadrons/Troops/Dept for their support in releasing individuals and assisting the Regimental Shooting Team when required. Praise is also given to all team members for their participation and the success of the Regimental Shooting Team. This benefited not only the members but also the Regimental Trophy Cabinet.

11 SIGNAL REGIMENTAL SHOOTING TEAM RESULTS
CORPSAAM 2000

Match 2 (Roupell Cup)	Individual Winner	**Capt Yam Rana** (Battleaxe Tp)
Match 17 (FIBUA)	Best Young Soldier	**Sig D. T. Harris** (Wspr Tp)
	Team Winners	11 Sig Regt 'A' Team
Match 3 (Henry Whitehead)	Team Runners Up	11 Sig Regt 'A' Team
Match 4 (Association)	Individual Winner	**Sgt D. Copley** (RTW)
	Team Winners	11 Sig Regt 'A' Team
Match 7 (Roberts)	Team Runners Up	11 Sig Regt 'A' Team
LSW Match	Individual Winner	**Sgt D. Copley** (RTW)
Best Young Soldier		**Sig D. T. Harris** (Wspr Tp)
	Team Runners Up	11 Sig Regt 'A' Team
Match 34 (Combat Snap)	Team Runners Up	11 Sig Regt 'A' Team
Pistol Championship	5th Place	**LCpl JA Brown** (Trials Spt Tp)
	Runner up	**Sgt D. Copley** (RTW)
	Individual Winner	**Lt Col RT Hoole** (HQ RSS)
Pistol Tiles	Team Winners	11 Sig Regt 'A' Team
Pistol Team		11 Sig Regt 'B' Team
	Team Runners Up	11 Sig Regt 'A' Team
Champion Rifle Shot	Winner	**Capt Yam Rana** (Battleaxe Tp)
Best British Firer	Winner	**Sgt D. Copley** (RTW)
Champion Team Rifle	Team Runners Up	11 Sig Regt 'A' Team

Major Unit Championship	Team Runners Up	11 Sig Regt 'A' Team
Inter Corps Rifle Team	Team Runners Up	**Capt Yarn Rana** (Battleaxe Tp) **Sgt D. Copley** (RTW)
Champion at Arms (Rifle, LSW and Pistol)	Winner	**Sgt D. Copley** (RTW)

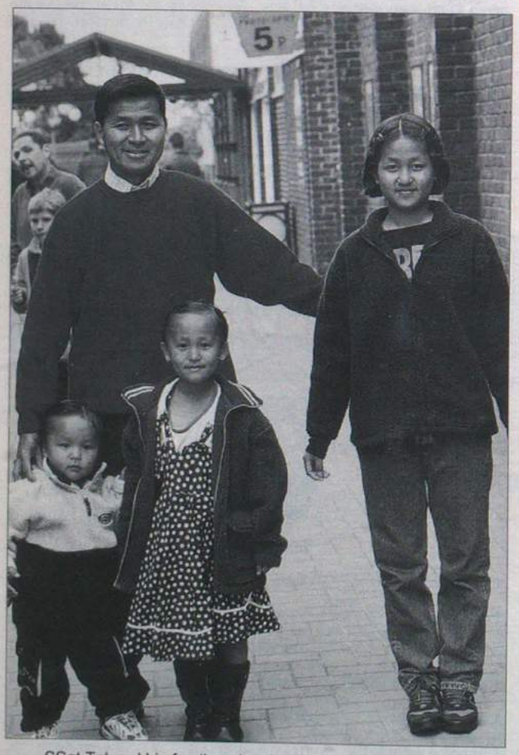
A total of 16 teams competed. 11 Sig Regt 'A' and 'B' Teams gaining overall placings of second and sixth respectively.

THE CORPS MILLENNIUM PARTY - 19 MAY 2000
'JIMMY'S' GRAND DAY OUT

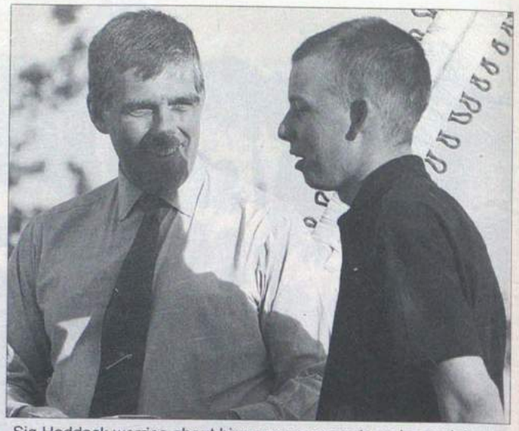
Someone, somewhere, sometime had an idea for a 'Grand Day Out'. Wouldn't it be a good idea for the Corps to celebrate the Millennium with a great big Morrision Cup followed by a great big all ranks party! Someone, somewhere, sometime agreed - 'Make it so', and so it was that 11 Signal Regiment were tasked with not only the Morrison Cup but also the Corps Millennium Party. It has to be said that for once plenty of lead-time was given for the event and so **Maj Tomkins** (Ms Co-ordinator) assembled her team of **Capt Dave Kenyon** (Mr Entertainments), **WO1 Mark Elliot** and **WO1 Keith Fisher** (Mr and Mrs Logistics) and the planning began. The budget from the Corps was £30,000 and **Maj Tomkins** immediately set about spending it in a manner that only the fairer sex could achieve. Suffice to say that when you are planning on an estimate of between 2000 - 4000 people 30K disappears frighteningly quickly. Approval for the plan, including a free funfair, open air rock concert, fireworks, huge Disco Marquee and street entertainers was given and with a 'green light for go', contracts were signed and bookings made.

Over the next few months, as the party approached, many wolves gathered around the sleigh including power requirements, extra toilets, First Aid cover, insurance, bunting, work parties, security (not a dirty word), to name but a few. None the less, **WO1s Fisher** and **Elliot** shot down each and every one of them. With seven days to go marquees started to go up and complaints started to roll in as first one and then another car park around the centre of camp was put out of bounds. Despite this, preparation went smoothly and the arrival of the Fairground rides really sparked interest around the camp and with those members of the Corps attending the Morrison Cup. As the final piece of bunting was stretched across the centre of camp the sun broke through the clouds, heralding a beautiful clear evening - at last a Corps event with good weather! The party opened for families at 1730hrs, to allow the younger members of the Corps' family to enjoy the funfair without having to compete with eager older, bigger party goers. It was packed!

The official opening was at 1930hrs when the CO, **Lt Col Roddy Nicholson** and RSM, **WO1 Harry Kemp** were launched on the Vertical Ejection Seat Bungee by **Sig Haddock** who won the Charity Draw and the opportunity to press the button, receive £100 and end his career early!



SSgt Tol and his family enjoy the Corps Millennium Party



Sig Haddock worries about his career prospects as he explains to the CO, Lt Col Roddy Nicholson, why he is about to 'launch him into space'

Not to be out done, the 11 Sig Regt pair were quickly followed by the COS R Signals, **Col John Ewbank** and the Corps RSM, **WO1 Geoff Hodgson**.

RSM, WO1Harry Kemp and the CO, Lt Col Roddy Nicholson, about to be launched on the vertical bungee by Sig Haddock 'Another fine mess you've got me into.....'

It has to be said that it will take a lot of money to get any of them to repeat the experience! The evening remained clear and the event progressed smoothly. The bands who were performing live on an open-air stage were Spectrum, Strictly Taboo and OASISN'T. All of them gave top class entertainment and with the Spectre Video Road-Show pumping out the dance tracks music, the festival was certain to be successful. All of the normal bars and entertainment venues in camp had joined in with the party atmosphere. Humph Bahada's had a Kareoke and Barbecue and the Semaphore Arms, as well as providing two outdoor marquee bars, laid on a 'soft play area' with a bucking bronco, bungee run and pole jousting. In addition they had provided funding for the street entertainers and a big thank you must go to **Donna** and her staff who helped make the evening such a success (as well as donating £365 from their profit to charity).

As the evening turned to night, everyone was treated to a spectacular firework and pyrotechnic display from the Mercury Falling Firework Company and the disco really turned up the volume to see the party to its conclusion. The next morning brought reality as those members of the Regiment nominated as the clearing up party paraded under **WO1s Fisher** and **Elliot** and got to grips with half-eaten burgers, empty cans and the rubbish generated when so many people have such a good time. By lunchtime, however, the tidy up was complete with only the large fairground rides still on site. It was estimated that between 3000 and 3500 people attended the party, which was held in a fantastic atmosphere and was completely free from trouble. In particular they all agreed that 'Jimmy' really had enjoyed a Grand Day Out!

HARROGATE CUP HOCKEY

13 April saw the finals of the Harrogate Cup Hockey competition that had been run over the previous three days, with each Squadron

nominating two teams each there was no shortage of enthusiasm and stick wielding from the participants. Beaufighter and Iron Tps made up the two teams from 2 (Catterick) Sqn and the Squadron Sergeant Major, **WO2 (SSM) Fisher** trained both teams the week before the competition. The SSM's unique training methods and his advice, which went along the lines of, 'Don't be rabbits chasing the ball,' and 'Play as a team,' could be heard from afar. It must, however, be said that this advice mainly fell on deaf ears as both teams showed their keenness and enthusiasm by chasing the ball 'like rabbits'. Among the rabbits, was the under 23's Combined Services goal keeper, **Sig 'Marsden' Marsden**, who was to become the most valuable asset to the Beaufighter Tp team when in the final against Lighting Tp, 3 Sqn. A draw at full time meant going to penalty flicks to decide the winners. **Sig Marsden** showed why he was selected for the Combined Services Team saving all but one of the flicks, giving Beaufighter Tp the Harrogate Hockey Cup.

Sig 'Marsden' Marsden receiving his winners medal from the CO

SPORTS FOR ALL

In addition to the routine of trade training, the Regiment has continued to reap the rewards in sporting achievements, some reports of which can be read below. In summary the Regiment won the Race the Sun event, won the Ladies event of the Lanyard Trophy, won both the Mens and Womens team event in the Morrison Cup. A team of Gurkhas won a Dragon Boat competition in Abingdon beating 60 other teams in the process. The Regimental Shooting Team won numerous categories at the Divisional meeting and a number of individuals qualified for Bisley. The modern triathlon team performed with distinction at the National Championships and the womens triathlon team won convincingly at the Divisional Championships. Both the mens and womens swimming squads have just conquered all at the Divisional Championships and now look for more honours at the UK and Army level championships. The Second XI soccer team have won their league and the mountain bike squad are making their presence felt in the Combined Services Mountainbike Series. To top it all the Mens and Womens Regimental Tug of War teams are out pulling the best the RA can muster. If that is not enough, two trekking expeditions have recently returned from Nepal and the French Pyrennes. In May the Commanding Officer, **Lt Col R. G. Nicholson**, accepted the award of the Birtwistle Pennant for Sport on behalf of the Regiment, during the SOinC's conference. This reflects the sporting achievements and the Unit's contribution to the fostering of sport over the previous year.

THE RE-OPENING OF THE JUNIOR RANKS CLUB – 'FINNIGAN'S BAR'

11 April 2000 saw the opening of 'Finnigans' Irish Bar. This was the refurbishment of the old Junior Ranks Club (the Semaphore Arms) at a cost in excess of £187K. The rebuild surprisingly only took five weeks and the new facilities were officially opened by the Commander Royal School of Signals, Col Hadfield and the Chief Executive of NAAFI, **Mr Jeffery Dart**. The ceremony was watched in awe, by over 100 Phase 2 students and 35 NAAFI managers from the Southern Area. The theme for 'Finnigans' is that of an old fashioned Irish style bar utilising vast amounts of heavy wood panelling and refurbished wooden doors, giving an up to date authentic feel to what has traditionally been simply the 'NAAFI bar'. Mixing the old world with the modern, the pool table and other bar games remain but are set next to a high-tech £20k Audio/Video system. To complement the new bar, 'Dakotas' American Diner was also unveiled; this provides a Fast Food outlet, serving a wide selection of cholesterol packed but tasty snacks. This facility, solely for the use of the Phase 2 soldiers, is now the most up to date of all the NAAFI complexes in the south of England. After the short opening ceremony the evening got underway with a buffet supper and, more importantly for some, a couple of free beers, courtesy of NAAFI. At 2000hrs the doors were opened to the rest of the trainees, and despite the presence of the RSM and four of his SSMs (well, there was free beer) the evening was an outstanding success, enjoyed by a capacity crowd of enthusiastic, well behaved young soldiers. (See note about presence of RSM/SSMs).

Col Hadfield and Mr Dart cutting the ribbon

LANYARD TROPHY - *by Sig Donna Chivers*

Training started in early January; initially we spent two evenings a week tabbing around camp getting ' boot friendly'. There were about 15 interested people in January but this soon dropped to a hard core of ten keen (or mentally deranged) people. The team trained hard for 4 months. By the end of it we all knew the Blandford country side like the back of our hands. It wasn't always all work and no play though; a few training sessions ended in a couple of quiet drinks in a local hostelry. On one occasion we had to make a swift exit as the CO was due at the pub! We also managed a few weekends in Dartmoor going over the route itself. The weather, however, was hardly ever on our side; if it wasn't raining and blowing a bitter wind, then it was snowing. Time flew by and before we knew it the team had been selected. The final team consisted of: **Capt Sophie Davies, SSgt Tina Edwards, Capt Teri Downes, 2 Lt Kate Milner, 2Lt Liz Williams, Sgt Donna Scaife, Sgt Yvonne Jones, LCpl Sarah Jordan, Sig Donna Chivers** and **Sig Amy Rhodes**. **Sgt Lisa Whitting** and **Sgt Dani Thwaite** were our ever smiley and enthusiastic Admin Team. Unfortunately two keen members of the squad were unable to make the team. **Sig Sally Hubble** was in Nepal on Exercise and **Sig Esther Woods** had injured her shoulder during training. After a restless and very short night, we got up at 0200hrs on the morning of the competition. After an hour and a half in the minibus we arrived at the Start Point ready for the 0500hrs mass start. True to form on Dartmoor, it was cold, wet, windy and misty. Did we really have to get out of the minibus?

With 28 teams starting the competition the first couple of hours were really quite sociable. However it soon became apparent that our main rivals would be 30 Sig Regt. It was very exciting up to Checkpoint (CP) 4 as one minute we were ahead and the next them. Unfortunately **Sgt Yvonne Jones** left us at CP4 after a mammoth effort. By then the mist had come down and we were relying on our compasses and our knowledge of the area. Fortunately we did not get lost (unlike some male teams) we started to gradually catch up with 30 Sig Regt. At the CPs they were ahead of us by 10, 7, 5 and then 3 minutes. Sadly **2Lt Kate Milner** left us at CP5 as she had been worrying us for an hour or so with a very bad chest infection. Down to our minimum of eight we knew we all had to finish and at CP 14 we decided to make our move and gambled on a swiftly cross country hill climb that put us just ahead of 30 Sig Regt who had taken the slightly longer road route. We then took the pace up, convinced that 30 Sig Regt would fight us every last minute of the route. At this stage we were exhausted – **Capt Davies** had been throwing up around the route. **LCpl Sarah Jordan's** knee was popping in and out and **Sig Amy Rhodes** was struggling heroically along with awful blisters. Despite all of this, we decided as a team that we wanted to win and found the energy to beast ourselves to the finish – we even managed a sprint to the finish line! We finished in a time of 14 hours and 9 min – 32 minutes ahead of 30 Sig Regt.

On top of the delight in winning the Female Competition and taking the Trophy home for the second year running, we had also beaten eight Regular men's teams and all the TA teams. All in all we did extremely well to just complete the route never mind come where we did. Some members of the team said it would be their last Lanyard while others said they would be back next year and, yes, I'm one of the latter group!!

MORRISON CUP 2000 - *by Capt (MAA) B. J. A. Dupree APTC*

The Millennium Morrison Cup took place, at its now accepted home of Blandford, over the period 18/19 May 2000. The weather gods decided to play their hand and brought the usual mixed weather, rain one minute followed by bright sunshine. Thankfully the final afternoon session warranted the smattering of Panama's and Ray bans, with glorious sunshine ensuring the meeting finished on a high. The team entries increased from last year, although operational commitments took their toll in the last week. This years' competition was the first joint UK and Germany, with 1 (UK) ADSR and 16 Sig Regt making the long journey from Germany. The Minor Units competition contained ATR Bassingbourn, newcomers to the competition, who would later make a big impact. The Blandford track has six lanes and with eight female team entries it meant that heats would be required. This was overcome by holding the events that take a long time to compete, such as 5000m, pole vault, hammer and the hurdle events, on the first day.

The standard was high from the first event and only one point separated the top teams at the end of day one. Day Two arrived with the customary dark clouds and many felt that the Morrison Cup weather curse would strike again. Fortunately the weather improved and the high standard of athletics within the Royal Signals was evident with some excellent performances from established athletes throughout the Corps, and promising youngsters competing from 11 Sig Regt. These talented young soldiers, arriving weekly from Bassingbourn and Arborfield, made up the bulk of the 11 Sig Regt teams.

The strength in depth began to make an impact on the competition and 11 Sig Regt began to pull away in the Major Units and Ladies event. ATR Bassingbourn were looking strong and making a concerted effort to win the Minor Units event on their first appearance. The competition was concluded with some very exciting relays which highlighted the very qualities that we strive to improve through sport, that of team work, selfless commitment, fitness, courage and determination. On completion of the relays the results were decided and 11 Sig Regt won the Major Units and ATR Bassingbourn won the Minor Units in their first appearance in the Morrison Cup. The ladies competition was won by 11 Sig Regt by a margin, but the fight for runners up spot was very close. Only 2.5 points separated the next four teams, emphasising the maxim that every point counts and that all team members, whether first or eighth are important. The second spot was eventually won by 15 Sig Regt, which made their trip across the water all the more worthwhile.

The Tug of War finals were held prior to the prize giving ceremony in front of the hundreds of spectators in the stadium. Proceedings were kicked off with a fierce ladies final between 11 Sig Regt and 14 Sig Regt (EW). The final was a best of three pulls, with the first eventually won by 14 Sig Regt (EW). The second end was a titanic struggle that saw the lead changing hands many times, 11 Sig Regt eventually won and drew level. The final and deciding end was just as exciting with 14 Sig Regt (EW) triumphant. The men's final was a contest between 1 (UK) Armd Div HQ and Sig Regt and 11 Sig Regt. The first two pulls went the way of the ladies final and the scene was set for a very exciting third and final deciding end. A very vocal crowd cheered on, and the experience and teamwork of 1(UK) Div HQ and Sig Regt saw them win a tense last end. The prizes were presented by the SOinC(A), **Brig C. J. Burton OBE**, who stated that he was delighted that, even in these busy times, we can still find time to have some fun with sport. He congratulated all present, whatever their result, on their excellent efforts over the past two days.

MORRISON CUP 2000 TEAM RESULTS

MAJOR UNITS

First	-	11 Sig Regt	196.5 points
Second	-	2 Sig Regt	152 points
Third	-	1 (UK) Div HQ and Sig Regt	146 points

MINOR UNITS

First	-	ATR Bassingbourn	65 points
Second	-	249 Sig Sqn	50 points
Third	-	16 Air Asslt Bde (216)	48 points

WOMENS UNITS

First	-	11 Sig Regt	110 points
Second	-	15 Sig Regt	73 points
Third	-	21 Sig Regt (AS)	72 points

The victorious athletics squads at the Morrison Cup

3 SQUADRON DRAGON BOAT RACE

On Sunday 14 May 2000 a team from Lightning Troop, 3 (Harrogate) Sqn competed in the Dragon boat race in aid of the Poole Heart Appeal. Thirteen teams took part in the race including members from the Royal Marines, Poole Police and the Dorset Fire and Rescue Service. After an enjoyable evening prior to the race, our illustrious leader, **LCpl** 'Chelsea' **Reynolds**, and 17 weary crew members turned up to a fog filled lake. To begin with, it was doubtful that the event was even going to take place, due to the fact that you could not see 10ft in front of you, but after two hours of waiting we managed to start the heats.

Initially when we got into the boat, we thought we were going to capsize, as we found it difficult to synchronise our rowing. **Sigs Rizza** and **McKenzie**, who tried in vain to drown our helmsman, didn't help the situation! We managed to make it through the heats and qualify for the semi-finals. Now we decided it was time to dig in and, amazingly, narrowly won the semi-final thereby qualifying for the final. Our adhock team now faced the Royal Marines, who had been training for months and had won the event last year; also in the finals was a strong, underdog team from the Alderney community centre. With a chance of winning upon us, we decided to go tactical and lighten the load so we reduced our team by four people. The Royal Marines had a great start with our team closely following behind, unfortunately our inexperience took its toll. We were tiring fast and started to lose our rhythm, falling back into third place, our finishing position. At the end of the day, however, we were all happy that we had accomplished so much. We had entered a team event and achieved what we thought would be impossible, by making it all the way to challenge the Royal Marines in the final. It was a great weekend and a rewarding experience. All that remained was for us to collect our trophy and to throw **LCpl Reynolds** into the lake for managing to stay dry all day! Overall a good day and we are already looking forward to next year, when we will be aiming to beat the Royal Marines.

RACE THE SUN 2000

Personnel from 11 Sig Regt and Royal School of Signals along with nine other teams entered this year's Race the Sun event, which was hosted by 2 Sig Regt and conducted in and around the York area. The idea behind Race the Sun is that competitors start the race as the sun rises and then aim to finish the course before it sets. This year's event consisted of 15 legs; teams were allowed a maximum of 25 competitors and five admin staff. The race started at 0500hrs in the morning and finished at about 1830hrs with the prize giving at 1900hrs. The race is a relay style event, which requires all competitors to complete their designated legs to ensure the team completes the race. The team who finished all the legs in the fastest time is judged to be the winning team. Work and trade training commitments prevented the team from meeting until the day we deployed to York. On 24 May from an original cast of 30 competitors, 18 team members turned up at the Regimental Training Wing. A hectic 30 minutes was then spent under the control of **Cpl** 'Digger' **Rigg** cramming bikes and canoes into our very own 'tardis' transit van. All was well until the late arrival of **Cpl Mark Whittaker** and his bike, another quick miracle was performed and in slipped the bike and then the team was 19. We then received a phone call from **Cpl Chris Brown** who agreed to compete for us providing that we picked him up from the Chunky Chicken services at Junction 28 on the M1, the team was now up to 20.

During the journey to York **WO2** 'Taff' **Thomas** and **WO1 Stu Little** used their knowledge and ability to write on the back of a fag packet and restructured the team, in order to try and give us a fighting chance. After some gentle persuasion and lots of bullying, along with free Chunky Chickens all round, everyone agreed with their newly assigned legs. Once the team was sorted, it departed for Imphal Barracks and the evening meal, whilst the OC, **Capt John Williams** attended the Team Captains' brief. As the brief took far too long for the rest of the team and it was way past their bedtime, the competitors under the care of the Admin Team's **Sgt** 'I can read a map' **Camm** and **Cpl** 'I've just come over from Oz' **Youl,** left for Strensall Barracks and got their heads down. Some time around 2230hrs the OC, **WO2** 'Spike' **Haynes** and **SSgt** 'Bill' **Butler** arrived at Admin HQ, kicked everyone out of bed and gave them the good news. As soon as the brief was over everyone changed rooms and the mountain bikers went back to sleep with their bikes (funny chaps). The Admin team then worked late through the evening to prepare vehicles, maps and ensuring all the equipment was checked and in the correct vehicles. An early start at 0300hrs ensured the first team members were in Imphal Barracks for breakfast at 0400hrs and the start of Race the Sun at 0500hrs.

Leg 1: Run and Canoe (0.5km run/6km paddle) this leg was completed by **Cpl Tony Brown** and **Sig** 'I'll do better next year' **Grounds**. It soon became apparent that not only did all the other teams have faster sleeker canoes than ours, but also **Cpl Brown's** canoe was dragging on the river bottom. By the end of the first event the team was placed ninth and firmly at the rear and some 20 minutes behind 30 Sig Regt who were looking for their third consecutive win.

Leg 2: River run (12km) was a cross-country run upstream alongside the River Ouse to Linton-on-Ouse. **Cpl Mark Whittaker** who had an inspired race and got the team back in the race in third position. This now left us 17mins behind 30 Sig Regt and 9mins behind 249 Sig Sqn with 2 Sig Regt just 30 seconds behind us.

Leg 3: Biathlon (25km cycle/5km run) a road cycle to the lay-by at Stockhill Green, followed by a run on well-defined tracks to Kilburn village. **Sig Fitz Fitton** and **SSgt Mick Openshaw** who cycled in pairs but without drafting, reduced the other competitors lead significantly. After completing this leg 30 Sig Regt where now 10min ahead, 249 Sig Sqn just 1min ahead, however a clear gap of some 9min had developed between us and 2 Sig Regt as they fell further behind.

Leg 4: Hill Run (4.5km) was a short sprint up Sutton Bank, which although very steep, was an easy task for that Welshman **WO2** 'Taff' **Thomas,** who proved that living in Wales chasing sheep up mountains does have its advantages. He raced passed the runner in second place and managed to close the gap on the lead competitor. Now leaving us just 7min 30sec behind 30 Sig Regt and just over 2min ahead of 249 Sig Sqn and 9min 30secs ahead of 2 Sig Regt.

Leg 5: Forced March (12.5km) was a military style march with a 35lb bergen on roads and well-defined tracks from South Bank to the edge of Rievaulx Moor. **Sgt** 'Steve the Steam Train' **Newman** put the bit between his teeth and set out to destroy the opposition, he raced passed 249 Sig Sqn and 30 Sig Regt and giving us a lead of over 4min, but more importantly he gave us a lead of over 20min on 2 Sig Regt. This was the first time the team had taken the lead. However, things were not well as the race officials declared his bergen to be half a pound under weight. A tense few minutes passed until the arrival of the next competitor, the race officials weighed the burgen and everyone breathed a sigh of relief, the scales were out.

Leg 6: Moor Run (9.5km) was a gentle run along tracks across Rievaulx Moor. The teams veteran **SSgt** 'Chippy' **Chapman** who showed there was still life in the old dog and **SSgt Mick Openshaw**, retained our first place with a lead of just over 2min ahead of 30 Sig Regt, 2 Sig Regt had managed to reduce their time to 15min.

Leg 7: Road Run (21km) Just in time for this event, the sky cleared which allowed the sun to beat down on the competitors, with raising temperatures the second phase of the competition commenced with a mass start. We knew our lead was in good hands as our second veteran **WO1 Stu Little** set off, having consumed more 'Science in Sport (SiS) Go Gel' than anyone else (even though it tasted like a cows bottom). After an extremely hard and competitive race, we slipped back down to second place almost 2min behind 30 Sig Regt and being closed upon by 34 Sig Regt (V) who were now only 2.5min behind us. Things were warming up.

Leg 8: Mountain Bike (18km) was taken on by **WO2 (John) Evans** and **LCpl** 'Sandy' **Segundo**. 2 Sig Regt somehow managed to arrange for the heavens to open just in time for this event. From all around the pit area came squeals of delight as mountain bikers expressed themselves with the thought of splashing in puddles and having mud thrown in their faces. To be fair this was an extremely hard leg over some very rough tracks, which finished through Cropton Forest with a very steep final, decent to the Inn at Levisham Moor. This leg had certainly taken its toll as 30 Sig Regt now moved into a commanding lead of over 11min, 2 Sig Regt were still nowhere to be seen as they had now slipped back to some 24min behind us.

Leg 9: Fell Run (9km) saw **Cpl Chris Brown** complete the run across Levisham Moor and pull back almost 4.5 min from **WO1 (RSM) Al Higgns** of 30 Sig Regt. Also moving back into the frame were 34 Sig Regt (V) just 5min behind and 2 Sig Regt who had managed to pull back a whole minute on this leg.

Leg 10: Orienteering (5km) had **Sgt Mark** 'Young Pup' **Ebanks** and **Capt John** 'Tea, Toast & Medals' **Williams** set out on the orienteering course. After a bit of crafty map reading and having the common sense not to leap small valleys or fight though woods, the OC exited the forest, with a big smile on his face. He handed over first place and a lead of over 16min ahead of 30 Sig Regt and 24min ahead of 2 Sig Regt, to some very shocked team members. A captain's innings some might say (wrong sport though).

Leg 11: Forest Run (9km) was taken on by **LCpl Jay Dine** and for his second outing **Sig Fitz Fitton** who stormed through the Dalby Forest and dropped down to Thornton-le-Dale. **Sig Fitton** not only managed to retain the lead he also gained another min over 30 Sig Regt.

Leg 12: Cycle Orientation (28-30km) was a simple ride around North Yorkshire. **Cpl Mark** 'The Explorer' **Whittaker** who was already warmed up from the river run had, the task of selecting a route which would take him via four of the six checkpoints, marked on his map. As we already had a comfortable lead and he likes the whirring noise you get when you fit a lolly-pop stick in your spokes, he decided to arrive in ninth place. Which although we still retained first place, our lead had been cut to 4min 25 sec just ahead of second place 30 Sig Regt and 7min 10sec ahead of third place 2 Sig Regt (who says that local knowledge doesn't count). It's not over till that obviously large (pc) lady sings. .

Leg 13: Swim (900m) Yet another mass start and a hail storm that only Moses had ever witnessed before, got the swimming leg underway. Fortunately for us we had **Cpl Lance Barr** who had eaten his fill of Aqua gum, promised the OC that he could swim and drink like a fish, although he skipped the part about having no sense of direction. The swim took them across the Great Lake in the grounds of Castle Howard. After proving that he could swim faster around the outside of the lake rather than the shorter more direct route he emerged with a lead of over 9min ahead of 2 Sig Regt and over 10min ahead of 30 Sig Regt.

Leg 14: Run/Bike/Run (9km-run/20km cycle/6km run) not content with his earlier leg **WO2** 'Taff' **Thomas** and **Cpl Chris Brown** set off on this new and extremely challenging leg. All competitors ran from Castle Howard to Sheriff Hutton then cycle along roads to Monks Cross before dismounting and completing the leg with a run back through York to Imphal Barracks. As the change over crew got ready to receive what everyone expected to be **Cpl Brown, WO2 Thomas** threw a spanner in the works and turned up first, after few moments of madness both riders where sent on their way. However, 2 Sig Regt produced their trump card **LCpl Benny Bennett** who managed to reduce the lead to just over 5min. This leg proved a daunting and challenging for 30 Sig Regt as the gap between us increased to just over 23min.

Leg 15: Stretcher Race (3m) The final massed start of the competition was completed by **SSgt** 'Chippy' **Chapman, Sgt Steve Newman, Sgt Crawford, Cpl Chris Brown, Cpl** 'Birdy' **Bird** and **Sig** 'Where's the custard?' **Crumble** who carried a 40lb weighted stretcher around Imphal barracks. Plenty of elbow and tactics ensure that we finished in second place just behind 30 Sig Regt but ahead of 2 Sig Regt.

After all the running times were added up and all the mass starts taken into consideration this year's Race the Sun was close competition. In the end the 11 Sig Regt and RSS team just manage to sneak in and win by a clear 6 minutes at the expense of a 30 Sig Regt treble. Although this was not a great margin, when you consider the total distance involved was approximately 193km and the team had never met until the day before the event, it was a sweet victory. Though the dedication and fitness of individual athletes ensured our final position, it would not have been possible without the superb efforts of the Admin Team and our thanks must go to them. Also our thanks must go to the other nine teams who gave us a good run for our money, and to 2 Sig Regt who organised the event (they must have fancied their chances this year). After the competition, it was time for beer, medals and then a sample of the hospitality that York nightlife had to offer.

HANDOVER OF RSM

The beginning of April saw the hand over of **WO1 (RSM) S. Stonier** to **WO1 (RSM) L. D. Kemp**. A busy week consisted of visiting the various departments and meeting some of the 2,000 plus soldiers stationed here. A far cry from the new RSM's previous job with 20 OCdts in the University of London Officers Training Corps. The week went very well and on the last day **WO1 (RSM) Stonier** was transported out of RHQ to the Officers Mess in a 'golf buggy'. However, she did have the last laugh explaining to the new RSM, as she departed 'Oh, by the way, at the Millennium Party you will be sat next to the CO as he is launched into space on the Reverse Bungee ride…….enjoy!' Good luck for the future to, now, **Capt Stonier**.

WO1 (RSM) Kemp accepts the Regimental Pace Stick
from the outgoing WO1 (RSM) Stonier

EXERCISE ANNAPURNA DRAGON 2000 - *by Sig Hubble*

Twelve soldiers from 11 Sig Regt, Blandford, spent 15 days on an adventurous training exercise in Nepal during April and May 2000. The trip was organised and led by **Capt Kyra McAnulty**, comprising of six men and six 'women with altitude.' We had all been carefully selected from a huge number of applicants. Selection was based on our performance in trade training, rigorous testing and a special quality that would add something to the group, the ability to pay!

After a few days acclimatisation and some haggling with the traders in Kathmandu, **Mike** 'You are weak, I am strong' **Holman**, our qualified JSMEL (W) instructor and **Sgt Steve 'Beckham' White** soon established a rapport with the locals with their friendly approach. It wasn't long before **Sgt White** was offered goods for free……..of course this had nothing to do with his Val Kilmer impression! **SSgt** 'Sven' **Crawford** was quick to notice the trekking kit that could be bought at very good

prices in the Kathmandu shops. He turned up with good deals on a doss bag, rucksack, and Gore-tex jacket; the herd of eager trekkers quickly followed him to the shops!

Stop off at Bamboo Tea House - Sgt Vicki Hawtree looking like Compo on the extreme left

The Hot Springs – Sig Andy Rathbone, Sally, Sgt 'Steve' White and Sig Coupe in the front. George the soluble soldier on the side

The team spent eight days trekking up to Annapurna base camp and back. The first couple of days were quite tough whilst our bodies adjusted to the different climate and diet, but we were quickly in awe of the scenes around us, in particular the Nepalese people and their way of life. **Sig Helen** 'Exorcist' **Coupe** battled on through an uncomfortable time, which had everyone worried. However, our local guide, **Gyan**, helped us with good advice and a watchful eye, which led to her quick recovery. Many western trekkers in Nepal pay porters to carry their kit, but being soldiers, **Capt** 'Mac' **McAnulty** saw it as a more appropriate challenge, and as part of the expedition aim, to carry our own. We ate and stayed overnight in the teahouses along the way, where they can produce tonnes of delicious food from the tiniest dimly lit kitchens. **Sgt Victoria Michelle Hawtree** was keen to muck in and help peel the spuds one evening, very domesticated of her! We became quite friendly with our guides and several evenings were spent sharing songs together. **Sig** 'Diva' headed the entertainment by learning the local songs and donning the local attire.

Back in Pokhara, after our trek, **Sigs Clay** and **Lohse** participated in

Annapurna Base Camp – Sally and Capt 'Mac' McAnulty (Women with Altitude), and the twins Sgt White and Mr Mike Holden.

some traditional Nepalese dancing with some local dancers. After their performance, they were joined on stage by, **Sig** 'Sherpa' **Hubble, Sgt Vicki Hawtree** and **Sgt Steve White**, who were only too keen to join in the cultural dance. The adventurous training continued with two days rafting and kayaking on the Trisuli River, during which we all went overboard, but nobody drowned! In Kathmandu, **Sig Andy Rathbone** couldn't resist the lure of modern communications. In a city of much poverty, there were plenty of Internet cafes where he was able to send e-mails to his friend's mobile phone back in the UK (sad, really).

The gang get ready to raft the Trisuli River

Everyone involved in the expedition enjoyed the experience. It was unfortunate that we all had the 'runs' at some time, and **Sig Jill Griffin** spent most of her journey home looking a worrying whiter shade of pale. Nepal and the trek were a totally worthwhile experience; we all took something from the trip and none of us will forget it in a hurry. For those who had travelled in the past, it was refreshing to find 11 other people with a similar passion, who shared the adventure and made it very special. Most of all it has inspired us to travel more and experience other cultures in the future.

ARMY TRAINING REGIMENT BASSINGBOURN

Sqn Comd **Maj J. Norris**
SSM **WO2 (SSM) Slaney**

1 Trg Sqn have had a hectic few months diligently trying to train all the young blood arriving to infiltrate the Corps and also endeavouring to take part in as many competitions and challenges as possible. We have managed to field some exceptional teams, even with the odds against us (a Squadron of only 40 permanent staff). Some events were as follows:

BASSINGBOURN WINS THE ARMY MINOR UNITS CHALLENGE CUP.

Huge congratulations go to ATR Bassingbourn who romped home in style 2-0, to become the new Minor Units Army Cup Football champions. The final was played in the Army stadium at Aldershot on Wednesday 19 April against 9 Sqn RE. A number of Royal Signals personnel were part of the winning squad, these were **Cpl Daz Kidd, Cpl Paul Smith, Cpl Pete Mason** and **Cpl Tez Blakeley** (who was posted before the final). The Regiment's route to the final had been far from smooth and included a nail biting 4-3 victory against JCUNI in the Quarter finals after extra time. In the Semi-finals the team completed a convincing 3-0 victory over the current holders 14 Topo RE who were this years BA(G) champions.

The game itself was a physical affair but eventually ATR Bassingbourn's skill told and 15 minutes before half time **Bdr Bluck** steered in a header from the far post; he added to his tally on the hour with a superb solo effort that put the cup safely in the hands of ATR Bassingbourn. The victory was the result of a considerable amount of effort from the Team Coach - **WO2 (CSM) Phil Moan** RE, the Team Manager - **Maj Rick Licence MBE** R SIGNALS, the players and the rest of the Regiment who supported the team throughout. The trophy was presented to a jubilant team by **Maj Gen S. W. St J Lytle**, Chairman of the Army Sports Board. The Team then went on to celebrate in style in Aldershot that evening.

REGIMENTAL RUGBY COMPETITION

The hottest day of the new millenium was the setting for annual Rugby 7s competition at ATR Bassingbourn. Six squadron teams in all were competing for the title of ATR Bassingbourn Rugby 7s Champions. Including in this line up was the Royal Signals very own 1 Trg Sqn. Fully Trained and fully fit(?) 1 Trg Sqn decided to field a team of brawn up front (**Capt** 'Lurch' **Clixby** and **Lt** 'Lt' **Jackson**) and speed in the backs (**Sgt** 'Still quick at 35' **Turner** and **Cpl** 'Football' **Kidd**), a strategy decided by our cunning sidelined coach **Capt Carl** 'Talk a good game' **Jeeves**. They took to the field full of confidence only to be pushed close by Wray Coy. The reason for this poor performance was blamed on the teams insistence on playing 15 style rugby; running directly at the opposition, then forming a six-man ruck with one man left to defend the line. After the initial wake up call 1 Sqn then went on to play champagne rugby beating Delta Coy 27 – 0 before being knocked off their mantle losing to a strong HQ Coy. They quickly bounced back with wins over C Coy (21 – 17) and a tired 28 Sqn (14 – 0) to place them second overall in the days events and pushing them into a respectable second place overall for the CO's Competition.

LANYARD TROPHY

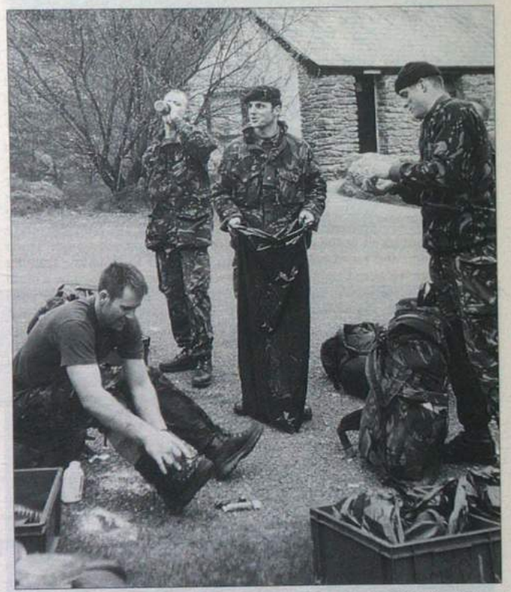
On Thursday 4 May 2000, The Year 2000 Lanyard Trophy took place on Dartmoor. ATR Bassingbourn entered a team hoping to improve on last year's performance where only three members of the team finished. Due to the hectic lifestyle of the Permanent Staff at Bassingbourn it was tricky to find time to train and Hertfordshire isn't exactly renowned for its massive hills on which to get into shape. Because of these factors the team wasn't as well prepared as they could hope to be, but spirits were very high as the team left Bassingbourn on 3 May!

ATR Bassingbourn Lanyard Trophy Team
Standing (L-R): Capt Alex Clixby, Capt Craig Thomson-Smith (IC), Cpl Lythe, Sgt Parke, Cpl Hanslow, Sgt Purdon
Kneeling (L-R): Cpl Wilson, Sgt Turner
Missing Cpl Baynham
(The photo was taken literally as they crossed the line, but Cpl Baynham had seen some sheep earlier and run off!!)

Once we arrived at Dartmoor we began to realise what the event was going to be like. The large hills and harsh weather conditions seemed a lot different to the sunny climes of Bassingbourn that we had left behind. We sorted out our accommodation and headed into the local village to get a carbohydrate intake at the local pub. Our plan was going well, until **WO2 (SSM) Tony** 'No you can't have a beer' **Slaney** announced he was coming with us. His claims that beer was a no-no before any sporting event was partially listened to, but a few of the team members were seen hiding in the corner supping some ale!

Breakfast was at 0230hrs on the day of the event so we tried to get some sleep that night. I don't think anyone slept well and there were a few tired faces when we arrived at the start line. The race soon got under way and the boys from Bassingbourn were content with staying in the middle of the field. The first five checkpoints were a killer, over some very harsh terrain with very poor visibility. The course got a bit easier from there on and the morale boosting manned checkpoints were enough to make anyone keep going. These were manned by our excellent support team of **Maj John** 'Have just one more banana' **Norris, SSM Tony Slaney and Sgt Paula** 'Don't get me wet, Sir' **Matheson**.

The team eventually finished in Tenth place, in a time of 14 hours and 25 minutes – a good time when you consider the lack of training, recce's and acclimatisation that most of the other teams had had. Only one member of the team failed to complete the course, due to a groin injury. The team were **Capt Craig** 'I am not lost!' **Thompson-Smith, Capt Alex** 'Crazy Legs' **Clixby, Sgt Roy** 'Where's the bar' **Turner, Sgt Sam Parke, Sgt Craig** 'Ginger Whinger' **Purdon, Cpl Gav** 'Let me tell you a story' **Wilson, Cpl Daz Lythe** and **Cpl** 'Taff' **Baynham**.



Whilst the Squadron enter the Lanyard Trophy the OC, Maj John Norris, thought it was a school sports day and turned up ready for the parents' sack race

BRAVO TROOP HELLOS AND GOODBYES

Tp Comd **Capt Karl Jeeves**
Tp Sgt **Sgt Paula Matheson**

Times they are a changing in Bravo Tp as a number of figures leave the Troop, notably our last lot of recruits who left in a blaze of glory on their pass out parade on 28 April. **Capt Karl Jeeves** is also moving on to Sqn 2IC after six enjoyable months with Bravo Tp and **Cpl Dave Percival** is returning to the world of infanteering, as he returns back to his battalion in Chepstow after a long stint with the Royal Signals. I haven't quite managed to recruit him into the Corps but I don't think we were too far off. **Cpl Dave Percival** will be sorely missed by the Squadron who have benefited from his infantry skills and highly professional attitude and the Troop lament the passing of 'Asbestos Mouth' who struck terror into the hearts of anyone who doesn't like hot food! Bravo Tp would like to welcome **Lt Gunny Gunson** who arrives to command the Troop and to **Cpl Ron Grandon** RE and **Cpl Steve Halpin** RE who are evidence of the Troops continuing commitment to a multi-cap badged training team.

ORGANISING A FUND RAISING EVENT?
WHY NOT PUBLICISE IT IN THE WIRE?
WRITE AND LET US KNOW WHAT HAPPENS

263 (HARROGATE) SIGNAL SQUADRON
ARMY APPRENTICES COLLEGE

Sqn Comd **Maj Steven France**
SSM **WO2 (SSM) Adam Yafai**

RAWSON TROOP
Tp Comd **Capt George Alexander**
Tp Sgt **Sgt Helen Jasper** REME

By this stage of training the Troop is in its senior term. Essentially they have completed the CMS(R) and have education and a couple of exercises left. More importantly they pass off in only ten weeks. A few of the ATs 'volunteered' to give the following accounts of their activities:

LEADERSHIP WEEK - *by AT Peter Moughton*

The College's eyes were all on Rawson Troop, as we were the first Troop of the new senior term to embark on leadership week. The beginning of the week consisted of a stretcher race combined with two command tasks on route. This was our first experience of this kind of PT and it was hard physically and mentally. It also helped form the teams that we would work with for the rest of the week. The next test of our teamwork and leadership came in the form of a very wet afternoon at Gibraltar Barracks. After some instruction in knots and lashings we were given six oil drums and four Bailey Chess's (they looked like planks but the engineers got very upset when we called them planks). Once the rafts were complete we raced to the opposite side of the lake, picked up our Troop Commander, and raced back. From here it was off to Bramley Training Area where we were taught simple improvised shelters followed by a night navigation exercise. Our next challenge was a full day of command tasks with everyone given the chance to lead a task. Fortunately **AT Worthington** had led his task before he fell off a pole and did his dead fly act. The final event was a timed run through camp involving the assault course, the tunnels, a stretcher and more command tasks. In all it was a hard week but we learnt a lot about ourselves.

2 Section, Rawson Troop
Looking to the Padre and God for divine inspiration

EXERCISE SARAH SANDS - *by AT Niel Radcliff*

Ex Sarah Sands was our first exercise of the senior term; it consisted of a day's refresher training followed by a short tab onto the exercise area. Once established in a harbour area we started to observe our target, each Section spent nine hours in the observation post. The only disturbance during this time was a patrol of Officer Cadets from RMAS. Once we told them where they were they moved quickly on. We then spent the next nine hours conducting recce patrols and rehearsals. During this stage we looked at different ways that we could attack the position. Once we had finished this we received orders to attack the enemy location. Our preparations were disturbed slightly when we came under chemical attack and were forced to move to a new location. However, uncomfortable as NBC suits are they are more effective at keeping insects at bay than the insect repellent is. The exercise was concluded with a section attack. **Cpl Bob** 'Psycho Bob' **Ayres** (2 Para) led the attack, which had the enemy completely confused. After a short tab off the area it was back to the college for tea and medals.

CHARITY

John Longshaw is a young spastic quadriplegic boy whose plight was brought to our attention by **Sgt Mark** 'Robbo' **Roberts**, our last Troop Sergeant. Within almost no time at all he organised a number of charity events with the aim of raising enough money to send **John** to a special rehabilitation school. For the event the Troop was split into teams of eight. Each individual had to row 5.2km then cycle 5.2km. To make supervision easier this was all completed in the gym. Once the team had completed their stint they would have done the equivalent of rowing across the Channel and cycling back. Although all the money-raising events are not finished we are on line to smash of target of £3500. Well-done everybody.

PENNY TROOP
Tp Comd **Lt Adam Shakespeare**
Tp Sgt **Sgt** 'Digger' **Gardner** RGBW

MY LIFE AT WEEK 5 - *by AT Blagg*

To begin with I was very apprehensive. The first day was very nerve racking, stepping off the train and seeing all the faces that were to become, in a way, a new family. As the first week unfolded it seemed to drag; a lot of the Troop were beginning to feel homesick and were a bit shocked at the new living style of eight-man rooms, 0600hrs reveille and specified lights out. As the weeks began to pass, we were bombarded with masses of information and attempting very different things, such as drill. The new lifestyle is very testing, while at the same time interesting and enjoyable. The first exercise is almost upon us, now we can put our new-found knowledge into practice. A lot of people have begun to settle in properly now, the other ATs seem to be bonding together and the team is slowly being formed. Personally I would not swap my new lifestyle for anything, my new family feel the same way.

MY LIFE AS A BACKTERMER - *by AT Maskell*

I was back-termed for my fitness following an injury. When I was told, it felt like a big kick in the teeth but I was determined not to give up. At first I found it hard to accept, I missed my friends in my old Troop and had to mix with strangers again. As the first few weeks went by I had a lot more confidence in myself, I knew most of the subjects being taught and improved. I have now made some good friends and enjoy my new Troop. I still feel that having to do the whole junior term again is a bit harsh, however, I am looking forward to passing off the square with my new Troop and I wouldn't miss it for the world.

BRADLEY TROOP, READING HALF MARATHON
by AT S. J. Ball and AT LCpl G. Collins

I felt nervous and exited at the prospect of my first half marathon. The journey to Reading was scary, all you could see were the cones marking out the 13 mile course and boy did it look long. We were determined to stay together during the marathon but as the crowd of thousands ran by it became hopeless, before I knew it I was running on my own. The marathon wasn't hard at first but the longer I ran the harder and longer the miles became. I just wanted to give up but the crowds of people kept me going. There were many water and vaseline stops, what the hell were the vaseline stops for? The 12 mile sign came and I was so glad, just a mile to go. This was the longest and hardest mile that I had ever done. I was relieved to see the finish line. Food was the only thing on my mind and the proud moment of wearing the Yellow Pages sponsored half marathon medal. All I wanted to do was have a hot shower and go to bed.

EXERCISE SPRING SPLASH (TIGER) 2000: 21 - 30 APRIL

This was a Sub-Aqua Diving Adventurous Training Expedition to Estartit, Spain. Estartit is a well-known diving resort on the Costa Brava featuring the 'Illes Medes', a group of unpopulated offshore islands designated as a marine reserve. Dive sites range from five metre plateau's to 30 metre plus drop offs and a wide variety of locations in between. Fishlife is plentiful and varied with several large species, visibility is 8-10 metres and water temperatures are reasonable. Following the new training programme for the BSAC Club Diver Course 13 senior term ATs and five members of staff were ready to go diving in the week following the end of term. The breakdown of the team was; 4 Royal Engineers, 4 Royal Signals, 9 REME and 1 Para! Easier said than done, just a minor thing of the Pass Off Parade to complete first. Somehow we all made it!

Thursday evening we assembled and loaded the minibuses for the long haul to Spain. We caught the midnight Dover-Calais ferry and then srayed off the toll roads for a slow journey south, we didn't need to be in Spain until Saturday morning! Whilst the non-drivers squirmed and burrowed their way into ever more contorted sleeping positions around the seats and luggage the drivers 'stagged on' for 2 - 3 hour stints of driving, navigating and sleeping in rotation. Saturday we at last reached Estartit, checked in with our dive charter company and the apartments. The afternoon was spent resting, admin and briefings. Also the novel experience for the majority of being issued with their CILOR money and going shopping for food to live on. No Mum, no Army Cookhouse not even a 24hr compo pack - Help what do we do? Does it really cost that much! How much do we need?!

The first outing of the week saw the majority with green faces, hanging over the side of the dive boat and 'Feeding the Fish' as they were getting

their 'Sea Legs'! Fortunately the weather improved during the week and all got used to being at sea. Underwater there were the initial problems of buoyancy to be corrected; some were practising their underwater leopard crawling skills! One day's diving is very much like the rest but with two outings a day we were all kept busy, as the week progressed the diving skills improved and more challenging dives undertaken. Confidence grew and so did the encounters with the fish-life and the tales, 'It was this big!!' Octopi and Sea Cucumbers for some reason seemed to be of most interest. The final days diving featured a cave swim through to the Dolphin Statue, rock arches and a relatively demanding 'open water' navigation dive. Good experience was gained by all and at last we were all getting used to the fish-life demanding food from us and not being so panicked when they were constantly in your face.

All that was left to do was get home following the last night party. All that 'Block Job' training paid off. All apartments cleaned, bags packed and pigs ready to fly by 1000hrs. Well nearly!! As usual the minibuses seemed even more cramped on the way home but everyone managed to squeeze into a space somewhere and settled into the long haul home. The aim of the trip was met in full with 12 out of the 13 ATs gaining their BSAC Sports Diver qualification.

EXERCISE MAPLE SNOW TIGER
25 FEBRUARY - 06 MARCH 2000

This expedition was like nothing I had done before, I had not had the money or confidence to try anything like this before now. I was not sure what to expect from the expedition. Would it be a purely military style exercise or like a holiday with some mates? It turned out to be a mixture of both, because we were up each morning by 0630hrs but then up later in the evening playing pool and watching TV with mates.

I was not sure what to expect with the plane journey to Canada. We arrived at Heathrow and after some shopping flew to Chicago then to Calgary. When we arrived in Calgary we were all a little excited even after the 21 hour journey. We walked out the doors and were amazed at the cold temperature and how everything looked so different.

The first day skiing was probably one of the best days. It was also one of the most exhausting and tiring days because everyone was looking forward to learning how to ski but everyone was still tired. Skiing can be very exhausting if you don't get the hang of it straight away. The next few days were a lot of fun, everyone made a fool of themselves and we impressed each other in different ways by showing new skills, new sides to personalities and demonstrated that the Signals and the Engineers actually can get on!

Once we had learned to ski we were allowed off in small groups. This meant that new skills such as our trust and judgement were really tested. The ski touring was another skill that we learned. At first it was very hard work using the different skis and going up hill but trying to ski down was even more of a challenge.

On the journey home everyone seemed really depressed as we all felt the same as our parents do after a holiday having to return to the same old routine. Luckily we all returned with some great memories, photos and stories to pass on to family and friends.

AT Berry was absent

NEWS FROM THE BALKANS

MULTINATIONAL DIVISION (SOUTH WEST)
AND
BRITISH FORCES SIGNAL SQUADRON (204)
OPERATION PALATINE

Sqn Comd **Maj A. H. Campbell-Black**
RSM **WO1 (RSM) D. W. Craig**

Our newly formed Britfor Sig Sqn comprises of individuals from a selection of units led by 4 Armd Bde Sig Sqn. We have now settled into the drive to reduce down to a Troop size by the end of the tour. This of course depending on the Commercialisation Implementation Team(CIT) staying on target (so far so good), with all hands to the pump. Our newly appointed 2IC **Capt Paul Buck** is sorting out his G1 skills after a year as Ops Offr, leaving **YofS Neil Ferris** and **FofS Dean Briers** to educate the new ops team consisting of **Sgt John Swanston** and **Sgt Steve Tressider** (The Ops Narks) in the ways of the ops cell. **Capt Buck** burnt his bridges early in the tour by closing down the RMP bar after discovering an illicit spot of after-hours drinking whilst on camp orderly officer. He claims to have been 'merely passing and heard loud music' – he didn't go looking for them at all. Meanwhile poor **Chief Tony Waite** soldiers on as a one man show in the orderly room, with his G5 head on. As for the Boss, even with a radio issued to him, he still manages to be elusive, (he also had the front to call OC Oscar 'The Scarlet Pimpernel') with the RSM constantly searching the metal factory for him. Which reminds us, nobody is to mention the ginger smudge that has appeared on the RSMs top lip. It's rumoured to be the start of a 'gringo' but we'll keep you updated.

OSCAR TROOP
Tp Comd **Lt Paul McTurk**
Tp SSgt **SSgt** 'Ollie' **Oliver**

Oscar Tp are now fully settled into their new tasks in Bosnia. The troop have taken over the hill top sites and RLDs. The crew at Gola P have reported sighting an old hermit in the bunker complex and upon further investigation they discovered it was only **LCpl Charlie Forsyth** , the detachment commander. **LCpl** 'Robbo' **Robertson** continues to put in some intense training to prepare himself for another crack at P company and regularly does high reps with the satellite remote control and running up his phone bill. Up on Vitorog **Cpl Paul Lomas** and crew are considering moving into the catering trade with their trademark menu being pie and chips. **LCpl 'Camouflage' Hislop** and his crew are enjoying the solitude, this they relieve by writing books entitled 'The weekly Sitrep'. **Sig** 'Dinger' **Bell** continues as the det entertainment rep with the responsibility of providing literature and movies. Rumour has it that 'Dinger' is a dab hand with the cooks' trailer and can even make scrambled eggs on the move. We'll see if that's true if they ever manage to get it back out of the minefield. **LCpl** 'Scott Rose' heads up the team on Radalici. He and his able crew seem to be making good inroads into opening the first Bosnian branch of the RSPCA.

Meanwhile at the Rear link detachments **LCpl** 'Arfur' **McKenna** is celebrating the forthcoming closure of Gornji Vakuf and his return to UK for his Class 1. **Sig Malcolm** is counting down the hours till his reunion with his other half back at BLMF. **Cpl Sam Huby** at Ljubia is having fun in the sun with the Czech BG. **Sig** 'Scotty' **Walker** is showing a keen interest in PT particularly runs where he lets **Cpl Huby** lead from the front. Sipovo RLD, commanded by **LCpl** 'Timothy' **Stanton**, are all ice cream and flip flops just don't tell the RSM! The Dutch RLD at Sipovo, commanded by **LCpl** 'Stevie' **King**, are keeping the hilltop sites amused with their own welfare videos of local flora and fauna supplied by our Dutch colleagues. Mrkonic Grad RLD – (NCO IC **LCpl McKay**) are integrating well with our friends from the infantry battle-group although the grunts have not yet mastered the power of conversation or politeness. **Cpl Morris** and **Sig** 'Whippy' **Trotter** at Corolici RLD are making the most of the free ice-cream before the det shuts down.

Back at BLMF **SSgt Oliver** is well into his task of memorizing the catalogue from all the CD shops. This he does by paying regular visits to look at the stock on view. **Sig** 'Mad Dog' **Murdoch** has found plenty of opportunity to continue his hobby of collecting tram chassis numbers during a recent visit to Sarajevo. **Sig Sheppard** has also been out and about and now knows the quickest route from Zagreb to Slovenia (Turn left onto the motorway instead of right). After an excellent start to the tour work is becoming routine and the weather is roaring into the nineties, if we can keep it up through the summer we can look forward to a peaceful winter in Germany.

PAPA TROOP - *by Sig Matt Ruddy*

Papa Tp is back! The Troop would first of all like to welcome the lads from 7 Sig Regt who have joined us for the duration of our Tour. The Troop deployed from Osnabruck to BLMF under the watchful eyes of **2Lt**

Mike Parke and **SSgt Paul** 'Old Grumpy' **Davis** and after three rather tiring weeks things are going well. Much of this is down to **Cpl** 'Mo' **Pay's** jovial attitude and **LCpl** 'Thomo' **Thomas** just about managing to keep his temper whilst sorting out the Troop stores. The Troop MT side of life is sad to be saying goodbye to **LCpl Dave Dowson** who will be leaving us shortly to go on his Class I but welcomes instead **Sig Lucy Corlett** who has just joined us in BLMF. Some members of the Troop namely **LCpls Samuel** and **Marlborough** and **Sigs Brittain**, **Ashmore**, **Yates** and **Tooke** have been lucky enough to escape the 'Mental' Factory for a few days to work on their suntans (and also carrying out a bit of work for the CIT Team). This has left the rest of us to come to terms with setting up the Troop's main responsibility, which is providing the Tac HQ for MND(SW). The rest of the Troop's time has been spent being on various NTMs (much to the dismay of **Sigs Hunter** and **Walker**) practicing day and night time call-outs and being woken up early for pre work jaunts with the Troop's resident PTI, **LCpl** 'Chalky' **White** of the REME.

ROMEO TROOP
Tp Comd **Lt** 'Ben' **Howarth**
Tp SSgt **SSgt** 'Jack' **Buckley**

At over seventy strong this conglomerate of departments supports both the headquarters at Banja Luka, as well as hilltop sites and rear link detachments down as far as Split. Not working together for a whole six months (since Kosovo) the joint forces of primarily 4 Armd Bde HQ & Sig Sqn(204) and 7 Sig Regt have blended together well. Apart from the usual raids from the fun police, life at the Metal Factory has settled into a relaxed but professional atmosphere. Basic entertainmentis to be found at the bar, the gym, a couple of coffee shops and visiting the girls at the CD shops (to buy CDs). The sales technique is awesome as your musical tastes are well catered for by deliberately skimpily clad females. All too soon we have to say goodbye to **Sgt** 'Where's the gym?' **Butler** and his two quieter amigos from 249. Additionally our 16 Sig Regt brethren are heading back to PTL.

Congratulations are due firstly to **LCpl** 'Work out' **Mallison** on his choice of present for his girlfriend's birthday, and to **Sig** '0898' **Schafer** for the feminine perspective. To Staff for finally completing a PT session without throwing up; to **Cpl 'bouffant-head' Allen** for convincing the General that signals really is black magic; to **Sgt 'mine's a Merc' Swanston** for finally buying a round and to our RAF team of **SAC** 'Adrian' **Moles** and **Sgt** 'I'm not his dad' **Mulgrew** for their contribution to volleyball. Thank you to **Cpl** 'Happy bloke' **Milliken** for keeping us smiling and for reminding us when the next meal starts to the nearest minute, and to **Sig** 'The Clown' **Brierley** for simply keeping us smiling. A special mention is necessary for **Sig** 'Prince William' **Hardy** and her bridge building, keep it up **Sarah**.

So a good, if bumpy start for Really Large Troop. There is all to play for in the looking really keen and earnest stakes with **LCpl Baynes** edging ahead. Even more keenly contested is the driving generators around Bosnia competition (sponsored by the CIT team) with **Cpl Teale** claiming a quite unbelievable distance equivalent to three laps of the globe. Comms are mostly working and we have much to do to keep the Squadron going. Better go as there is a 'gentle but powerful purring' at my window, it must be **LCpl** 'Hot milk at bedtime' **Lane** to take me out for a spin in his classic Jaguar. We can all dream **Laney**…

MULTINATIONAL BRIGADE (CENTRE) HEADQUARTERS AND SIGNAL SQUADRON (207)

Sqn Comd **Maj Mark Roberts**
RSM **WO1 (RSM) Mark Tivey**

A big change-around in the Squadron over the last month with farewells to the outgoing OC, **Lt Col Andy Bristow** on promotion and a move to MOD Main Building, to the outgoing Ops Officer, **Capt Jason Gray** who has left us for the delights of JCSC and to **WO1 (RSM) Colin Milne**, who is off to relax (even more?) with 38 Sig Regt - we sincerely wish you all the best of luck. Equal welcomes to **Maj Mark Roberts,** the incoming OC, **Capt Craig Thompson-Smith** who joins us as Ops Officer and to **WO1 (RSM) Mark Tivey**, taking over as RSM. A continued busy period for the Squadron, now just over half way through our tour in Kosovo, sights are set for the successful completion of the tour and our return to Hohne.

Sig Tranter and friends at Liria School, Milosevo

COMMUNICATIONS TROOP
Tp Comd **Lt Adam Corkery**
Tp SSgt **SSgt Dave Sloane**

With the Squadron now two-thirds of the way through Op Agricola 3 and the return to Hohne nearly in sight, Kosovo is now becoming a way of life for the Signal Squadron. New challenges happen daily, for example supplying communications for the Brigade reserve back to HQ MNB(C), backing up 2 RRF in house searches and the Scots DGs in patrolling. All in all the past two months have been quite a busy and hectic period for the Squadron. One of the main recent events was Dynamic Response 2000 or DR2K, which was an exercise to prove how quickly NATO could surge troops into Kosovo from outside the country. This started with the Brigade HQ deploying to a fully tactical field location, to command and control our part of the multinational exercise, and later an element of 1 (US) Marine Corps and 1 (NL) Marine Corps deploying into Kosovo and securing key areas. The Exercise ran smoothly, with the Squadron having many high profile visitors such as Commander KPOR all of whom were very impressed with how well the Brigade HQ and Signal Squadron performed.

In the following weeks after returning from the Exercise there was no rest for the Squadron as the much awaited move to the TFA was fast inbound. Moving a static Brigade HQ from one location to another is not an easy task and so a lot of groundwork had to be done. On the eve of the move the Armoured HQ was deployed to prepare for the staff so they could retain command of MNB(C). After two days the HQ had been moved from the university to the TFA at VJ Barracks and life was improved 100%. Life has continued after the move with 1st lines, PRE and another imminent outing for the armour. Finally a few welcomes and farewells. Firstly welcome to the Troop to **Sgt Allsop** and **Sig McQuillan,** joining us in theatre for six months but a sad farewell from all to **LCpl** 'Biff' **Bithell** leaving us for 2 Sig Regt - best of luck for the future.

ROVER TROOP
Tp Comd **Lt Andy Hill**
Tp SSgt **SSgt Andy Buckle**

Rover Tp is spread out in nine locations throughout MNB(C) AOR. The Troop is responsible for two hilltop sites, both housing Rebros and Centrals and seven Rear Link Detachments (RLD). Each RLD consists of three operators and they provide the multinational battle-groups with SCRA(T) and a secure VHF Brigade Command net.

GOLES HILLTOP SITE

There are eight of us at this site, four from 1 Div and we've been in the luxury Temporary Field Accommodation since February, although **LCpl Ben** 'Choggy tan' **Ford** didn't turn up until mid April due to a vast amount of badminton camps that he was wanted for. **LCp1 Dave** 'I've come back for more' **Harkness** is back to the same place he was at last summer with 4 Bde, strange man! Once we'd settled in **Sig Chris Brogan** decided to tell his girlfriend that we were on the front line, but was a little surprised when she wrote back with a, Dear John…. Now the weather's warmer, the number one activity when off shift is 'Sun Godding' with as few clothes as possible! Apart from **LCpl** 'Scouse' **Wright** of course, who's still trying in vain to make the Yorkshire Puddings rise!

SUVI BUNAR HILLTOP SITE

We are sorry to see **Sig Adam** 'Lurch' **Wilson** leave to go back to HQ, we gather they have some cows in dire need of scaring, so at least you'll be busy. Don't worry **Cpl Andy Allen,** you've now got BFBS so you won't miss the football. **Cpl Rob Luke** enjoyed donning his webbing when some locals reported a bomb left 500m from the camp. The site is shared with 19 Regt RA, but it's ours really and they know it!

CZECH RECCE

Life here has improved dramatically since we have moved to the Water Filtration Plant. We now have a swimming pool and random tortoises crawling around. **Sig Khrissy** 'Cat Napper' **Strain** is the new Dr Dolitle as she looks after the two cats. **LCpl Danny Pearson** has made the most of his time here, firing the Draganov sniper rifle and going on patrol near the Serbian border. The Czechs are starting to adapt to the western life style, they now have Kenny from South Park painted on their BMP guarding their camp!

NORWEGIAN BATTALION

New det commander **LCpl Greg Dick** has wasted no time at all getting to know the Norwegians. Within a few hours of arrival, he was out sunbathing with the Norwegian girls - good lad! A final well done to the Norwegian patrol that discovered a dead body a few days ago, shame it turned out to be a plastic skeleton!

SWEDISH BATTALION

Selected from a cast of thousands **LCpl Nat Roberts, Sigs Grace Howard** and **Eddie McSharry** were chosen to man the Swedish Rear Link detachment. Life started on February 12 and began well. Things changed when **Sig McSharry** left us for a while, five weeks in total, to work with the US Marine Corps on Ex Dynamic Response 2000. In the meantime, the Swedish battalion had changed over and it was like starting from the beginning again. When not on shift, the three of us have been actively involved with Swedish patrolling ranging from foot patrols in the local village of Ajvalija to experiencing life with the TAC-P. R&R has now come round and **LCpl Nat Roberts** has left us to be replaced by **LCpl** 'Mac' **MacPherson.**

FINNISH BATTALION

Based in Lipljan our three-man det consists of **LCpls Stuart Codack, Adam Rudge** and **Sig Kim Ashcroft**. We are in relative luxury here with full internet access, satellite TV and decent corimecs, shame about the food though- raw herring three times a day certainly takes some getting used to! With saunas as well, life is certainly a little different here. We also have a decent PX, so we're happy to put up with the unusual food for the extra home comforts.

CANADIAN REAR LINK DETACHMENTS

Life at the three Canadian RLDs has been short, sweet and very enjoyable. The nine people who have had the privilege of serving with the Canadians have learnt a lot about their different comms equipment and have enjoyed working alongside another professional army. Unfortunately, the three dets are closing down as the Canadians are pulling out so we'll miss the waffles and maple syrup and the endless ice hockey matches on TV.

14 SIGNAL TROOP (ELECTRONIC WARFARE)
Tp Comd **Lt Ian Rodger**
Tp SSgt **SSgt Si Donnelly**

After three long months we have finally decided to write some notes for *The WIRE* as we've been so busy working non-stop – honest! We have now finally moved from the Bread Factory into the TFA, and living in decent accommodation instead of living under ponchos. **Lt** 'Swampy' **Rodgers** had a little incident whilst having a jolly on a helicopter one fine Sunday morning, nothing more to be said on that subject. In May some of the Troop were nominated from the cast of thousands to participate in the Kosovo Half Marathon, **WO1 Mary Fry, LCpls** 'Biscuits' **Gray** and **John** 'The Bedhead' **Brookwell** - the search party is still out looking for them. A little incident happened one Saturday night recently involving **Q** 'Where's the pilot' **Angove**. He had G2 Ops in stitches when he burst into their Ops Rooms crying out that the pilot of the Phoenix Unmanned Airjet had ejected into Serbia; that little scheme was thought up by **Sig** 'Obvious' **Mathieson** and Q still hasn't got the beers in for his outburst. There have been many promotions and postings in and out of particular note. Congratulations to **Cpl Daz** 'Combat-tech' **Owen, Cpl Stu** 'Combat-tech' **Gray, LCpl Nicki Donnelly** and **LCpl Si Frost** on their recent promotions and also **JT Jules Field** on her selection to Corporal. Also a big well done to **LCpls Nicki, Simno,** and **Frosty** for passing their 2 to 1 Crammer -watch out Blandford! Goodbye to **Cpl** 'Brummy' **Brumfield** and **Cpl** 'Skippy' **Roach** and hello to **Cpl Luke** 'Lego Head' **Venni, LCpl Lee Allen** and **Sig Jodie Wilinot** - we all hope you enjoy your stay. That's all for now and we'll definitely try to send more notes next month.

P.S: To LC0 'Tyrone' Grixnes - did you enjoy your no.2's inspection - didn't see any medals!!

TECHNICAL MAINTENANCE
Tech SSgt **SSgt Dave Baddeley**

We are currently half way through Op Agricola 3 and these first three months have seen us engaged in a variety of activities out here in Kosovo. These have included normal technical support to the Brigade in main locations and in the field, installing Ptarmigan and Radio equipment into the new TFA and also second line support to other units.

To start with, we saw two newly promoted technicians being moved to hilltop sites. **Cpl** 'Demi' **Moore** being moved to Goles and **Cpl Steve Livesey** to Suvi Bunar. Both are providing an invaluable service with the duty technician call-outs being cut by almost 100%. We also saw the departure of two Brigade technicians, **Cpl John Ford** and **Cpl** 'Scott 'Teeth" **Marlow** to sunny Blandford for their upgrading course, which they will surely enjoy!! **Cpl John Fords** PT lessons will, we're sure, be missed and **Cpl Marlows** expertise at R&I and stores accounting will be irreplaceable.

At the moment, **LCpl Pete Hunsberger**, from 1 Div, is attempting to fill **Cpl Marlow's** shoes and finding life a challenge. On top of these responsibilites, **LCpl H** has been busy recently carrying out first line inspections, along with the help of **Cpl** 'Tommo' **Thomasson,** posted in from Rorneo Tp, 15 Sig Regt and LCpl **Daffyd Ellis**, another member of 1 Div Sig Regt.

As far as the other personalities go, **SSgt Dave** 'Magnum PI' **Baddeley** and **LCpl Rog Mortimer** have been reported as having set up camp at PTK, the telecoms building in Pristina. We reckon it's just an excuse for window shopping in Pristina, but at the end of the day they are keeping comms in for the troops on the ground, who I am sure appreciate it.

There is also **Sgt Pete Finnigan** and **Cpl Jon Lynn,** both from 1 Div, who are overcoming the lack of gloop and 'intense' heat (Jon) trying to ensure that the switches and controls in theatre are constantly, up and running. The two radio technicians in the workshops arrived in theatre later that the main party, only to find that the systems techs had been let loose on the Brigade's radio assets. **Sgt Lee Clark**, posted in from 30 Sig Regt, first arrived to save the day followed by **Cpl Adi Worsdall** after recovering from illness back in Hohne.

Apart from the technicians within the workshop, the five technicians have been kept busy. **Sig Gavin Stubbs** and **Sig Hughes** were employed at the TFA during the week prior to the move, installing phones and exchanges. **Sig Paul Wraight** and **Sig Norm** 'The Cat' **Wells** have been assisting the lineys **LCpl Gaz Davies** and **Sig Ian Holmes** with both installing and maintaining lines. They were also both involved in the clearing out of old cables in the University building which **LCpl Davies** was particularly happy with when they dumped it on his lap. Another telemech and late arrival is **Sig** 'Flash' **Hallon** with the little time he has had in theatre he has learned to rewire 436 sevenquad ports and also managed to cram two weeks R&R in there somewhere. What lies ahead for the rest of the tour and our recovery to Hohne, we can only guess.

NEWS FROM NORTHERN IRELAND

HEADQUARTERS NORTHERN IRELAND AND 15 SIGNAL REGIMENT

CO **Lt Col G. J. T. Rafferty**
RSM **WO1 (RSM) A Balsdon**

Despite the hectic pace of life in an operational Headquarters and Signal Regiment, the officers and soldiers of 15 Sig Regt continue to produce the goods on a variety of fronts. We have run Battle Camps, fielded numerous successful sporting teams, entered two teams into the Lanyard Trophy competition, hosted several high profile visits, organised a variety of exercises, and simultaneously achieved our ongoing Mission;

'to provide uninterrupted communications support in order to enable Security Forces Operations in Northern Ireland to be commanded and controlled effectively'.

REGIMENTAL EVENTS: HI TECH CHALLENGE

The Regiment entered two teams into this challenging event. Team 1 was **Capt Helen Murphy, Lt Jamie Balfour** and **Sgt Dave Kilgallon**. Team 2 was **Sgt Stu Murray, Sgt Martina Ashton** and **Sgt Wayne Ballard**. The event took place on Sunday 7 May. We were not told of the race order until the race brief the night before, when to our dismay we were told there would be an extra seven miles to the mountain biking session. The event started with a nine-mile biking stage following a 500m dash to the bikes. This was followed by 10 (optimistic) mins of blowing the kayaks up before starting the 2-mile paddle. As the temperatures soared, so did our frustration at trying to keep the so-called 'yellow blighters' going in a straight line. On the other side we were met with a further seven-mile biking before finishing off with a five mile run up some of the steepest mountains in the region.

Both teams did really well considering the amount of training we had completed (coming 42nd and 49th respectively out of the 118 teams that competed). On route there were a few hiccups, including **Sgt Dave Kilgallon's** bicycle chain giving way with 9 miles to cycle. He ran it just as quickly as **Capt Helen Murphy** could ride. **Sgt Martina Ashton** found that long shoe laces and pedals don't mix, and **Sgt Wayne Ballard** found himself riding a bike with a seat which had worked itself loose. Not fun he informed us. But overall both teams had an excellent, if arduous day and would recommend it to a anyone who is very fit and chasing a different kind of challenge.

Standing (L-R): Sgt Dave Kilgannon, Capt Helen Murphy, Lt Jamie Balfour

WOMANS REGIMENTAL FOOTBALL-6 APRIL 2000

by Sig Kerry Stewart

This competition was a great success and offered a good opportunity for all teams to play for the place in the finals in Aldershot. The games were played in great spirit and the whole organisation of the day was fantastic thanks to **Capt Liz Dallyn**. The best of luck was sent to 39 Brigade who qualified to go through to the finals, 17 April 2000.

EXERCISE CRYSTAL FINN 2000

On Sunday 11 March 15 personnel of 15 Sig Regt set out on an arduous adventure training exercise to Val Thorens in the French Alps. The aim of the Exercise was to consolidate the experienced skier's skills and to teach the beginners in the group the basics of the various disciplines of skiing. Instruction was gained at all levels through Army Ski Instructor and ex-Olympic Downhill Skier **Sgt John McClelland** and **Capt Robin Carpenter**. After a 12 hour minibus/plane/coach journey, it was time to relax before the impending beasting promised all by **Sgt McClelland**. 9a.m. the following morning saw 15 fashion victims on the slopes, ready for action. The Exercise was then split into two groups, one of experienced skiers and one for the novices. The VT Nutters - **Capts Robin Carpenter, Bill Brennan, SSgts John Fielder, Paul Dunn, Fi Fielder, Sgt Richie Gathercole, LCpl Billy Kirkwood** and **Sig Linda Shields**. The VT Nancies - **Sgt John McClelland, Cpl Jay Aldred, LCpl Gez Drummond, LCpl Mickey Smith, Sigs Tracey Walker, Martin Henson and Alan Neesam**.

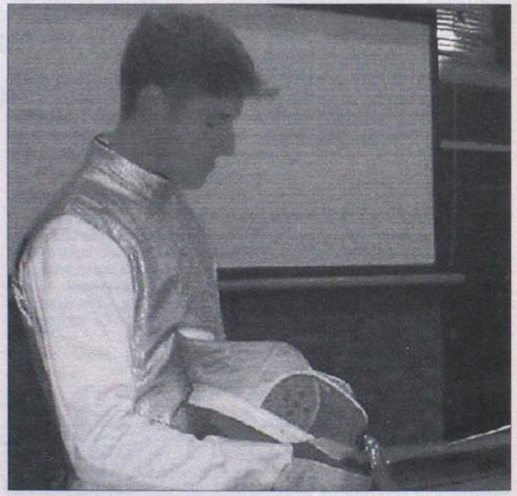
(L-R): Capt Robin Carpenter (Int Corps), SSgt Paul Dunn, Cpl Dawn Poole (Int Corps), LCpl Billy Kirkwood (Int Corps), Sgt Ritchie Gathercole

As the first day progressed the novices got to grips with the nursery slopes. Meanwhile, **Robin Carpenter** impressed all with a tumbling routine over the mogul fields! OUCH! By the beginning of the second week all were skiing confidently, the beginners progressing onto the blue slopes and achieving the army bronze skiing award and the advanced party zipping down reds, but still having difficulty with button lifts - namely **SSgt Fi Fielder** and **SSgt Paul Dunn. Cpl Jay Aldred** decided that his skiing had reached its pinnacle and on his day off decided snow boarding was the way forward! The following day, nursing sprained wrists and bruised limbs, **Cpl Aldred** was back on his skis!

By the middle of the second week, **SSgt John Fielder, Sgt John McClelland, SSgt** 'Richie' **Gathercole** and **Sig Tracey Walker** had all received word of promotion. Congratulatory drinks were in order in the light of four promotions within two days!

REGIMENTAL FENCING NEWS AND THE ARMY CHAMPIONSHIPS

This is the first year that 15 Sig Regt has put forward a team in the Army Fencing Championships. This year it was held at the Princess Royal Barracks at Deepcut and didn't we do well! The three people sent to represent the Regiment were **2Lt Elizabeth** 'I shouldn't have done Lanyard last week' **McLellan, Cpl** 'Richie - Can I take my sword on the plane?' **Hill** and **LCpl Stevie Hicklin.** Apart from having to teach **LCpl Hicklin** how to actually fence, and explain the fact that it wasn't the 'done' thing to follow up with a right hook, the Team exceeded alll expectations. **2Lt McLellan** came away with second place in the Individual Women's Epee. Although the Men's Competition was also very tough both **Cpl Hill** and **LCpl Hicklin** were seeded highly in all three disciplines. The Team did well in the 3-Man Inter-Unit Competition and gained third place, only losing two of their matches. All three members of the Team represented the Corps, helping towards another third place. Many thanks go to **Mr Terry Cullen**, (11 Sig Regt's Coach) for the loan of equipment, (**Cpl Hill** promises that he'll beat you next time). Next year we'll win that trophy!!



LCpl Steve Hicklin – Armed And Dangerous

LANYARD TROPHY 2000

As with most things when **Capt Helen Murphy** announced that she would be running the female Lanyard Team, we were inundated with volunteers. The team consisted of **Capt's Helen Murphy, Liz Dallyn, Bels Talylor, Kerry Venn, 2Lt Liz McLellan, Sgts Shameem Newman, Martina Ashton, LCpl Tracey Walker** and **Sig Pipa Henderson**. Our team should have gone in for a sub aqua contest. First **Capt Kerry Venn** slipped and got one leg in a river, then **LCpl Tracey Walker** sunk thigh deep in a bog. **Sgt Shameem Newman** frustrated at not having a war story to tell back at camp decided to go one better. While crossing one particularly rough and rapid river she hesitated mid river on a stepping rock The next rock to step on only had two inches poking above the water. **Sgt Shameem Newman** being very wary of heights stopped to ponder the vast jump for a few seconds. **Capt Helen Murphy** was very keen to move on because she could smell her Cornish pasties waiting for her. She shouted 'jump', **Sgt Shameem Newman** obliged and jumped. She missed the rock and fell into the river. Suddenly the current got hold of her and she had to cling onto the rock to avoid getting swept down river. Luckily she had on 'Combat 95 gloves type green contact' and was able to cling on to the rock. After analysing the situation for ten minutes **Capt Liz Dallyn** shouted 'drop your bergens' and they then came to the rescue. Falling into the water was just the tonic and the team powered through to the end and came a respectable third.

The 15 Sig Regt men's Lanyard Trophy team was verging on a veteran entry. **Capt Robin Carpenter, WO1(RSM) Al Balsdon** and **SSgt 'Q' Rose** kept the average age well above 30. The youngest member of the

team was co-opted at the last moment from the admin party. Fortunately **LCpl Nathan Hadley** was a veteran in his own way having competed twice before. **Cpl Phil McLeish** is congratulated for finishing despite sustaining an injury very early on in the competition. Every member of the team that started completed the course and thoroughly deserved the carbohydrate drink presented by the admin party at the end.

Standing (L-R): WO1 (RSM) Balsdon, SSgt Rose, LCpl Flay, Cpl Baldwin, Cpl McLeish, Sgt Murray, LCpl Hadley, Capt Carpenter, Capt Hargreaves
Kneeling (L-R): SSgt Jarvis, Cpl Winder, Sig Mugford

ROYAL SIGNALS CORPSAAM 2000 - *by Sgt 'Sven' Gronn*

With the arrival of **Capt Colin Kell** last year, it was inevitable that the Regiment would enter a team into the Royal Signals Corps Skill At Arms Meeting (CORPSAAM). This year's competition was held over the period 9-14 April 2000. Unfortunately, the Regiment with its operational commitments could only muster one team of five plus an individual. With a team line up of **Capt Colin Kell, Lt Jamie Balfour, Sgt Sven Gronn, LCpl Andy Burrows, Sig Adam Ryan** and **Cpl Lee Woodhouse.** Well as it turned out, after a week of shooting the team didn't win anything, but for a scratch team who had received very little training, we could hold our heads up with a creditable fifth major unit placing (out of 13 teams).

Capt Kell, as usual, had a good week, (at one stage he allegedly smiled!) Being an Army 100 shot, he showed the rest of the team how it was done by winning some silverware; coming seventh overall in the Rifle and fourth in the Champion At Arms competitions. In summary, the week was an excellent break from operational commitments and with any luck maybe some of the team will be Army 100 shots in the future.

NISAAM 2000 - *by LCpl Andy Burrows*

This year's Northern Ireland Skill at Arms Meeting was held at Ballykinler Ranges over 2-6 May 2000. The competition was compulsory for all units within The Province and was comprised of a number of shoots under 'operational' conditions. There were entries from four major unit Iron Sight teams including ourselves, 2 RMP, 25 Engr Regt and the newly formed NICSS Regt. The team comprised of **Lt Balfour, Sgt Gronn, Cpl John Connolly, Cpl Fred Deas, Cpl Woodhouse, LCpl Steve Boyd, LCpl Burrows, LCpl Bede Gladish, LCpl Nick Jenkins** and **Sig Ryan**. From the report above you will see that half of the team competed in the CORPSAAM so the initial hopes were high for a good result, and with an excellent weather forecast for the week we were guaranteed a sun tan at the very least.

Our first shoot was the Fire Team Match, which consisted of a 2 mile run followed by a Fire Team Assessment shoot. The whole match was done with 25lb of weight (including rifle) and body armour. Unfortunately, after half a mile we said goodbye to young **Sig** 'Pte' **Ryan** who collapsed with dehydration. Still the remaining seven members went on to have a good shoot but with the loss of one man we could not match the other team scores. The team then went on to complete the Sangar and Roupell Matches. **LCpl Boyd** took Bronze in the Sangar shoot. The FIBUA Match that afternoon saw **Lt Balfour** take silver, an excellent performance with a score of 149. The only shoots remaining were the Pistol Tiles and Falling Plate. In the Pistol Tiles the 'A' Team **(Kell, Balfour, Connolly, Woodhouse** and **Boyd)** achieved a respectable semi-final spot and were only beaten by the overall winning team (the RRF). Similar glory was almost achieved by the 'B' Team (**Gronn, Connolly, Deas, Gladish**) in the falling plate who again got through to the semi's but were beaten by the eventual winners, 25 Engr Regt. All in all it was a good week of shooting and for many a steep learning curve. The Team achieved a first place in the FIBUA Match, third place in the Rifle competition and fourth place in the overall Team Competition.

MERCURY AND THE CO'S CUP - ATHLETICS

by LCpl J. Lowe

On Wednesday 12 April 2000, TM Tp with a little help from its friends decided to represent the squadron for Athletics. Starting off with the 400m hurdles we had **LCpl Lee Khair**. He stormed over the hurdles, making everyone else look like they were carrying fridges. **LCpl Khair** also romped away with the 800m. As a last minute entry from India Troop, **LCpl** 'Chicken' **McLuckie** clucked his way to victory in the 110m hurdles. For the Shot Putt and the Discus, **Cpl Karl Hannah** threw his weapons of war so far we're still waiting for them to land. As far as the jumping events go, there was more of a mix bag of results. For the long and triple jump we had from Romeo Tp, **Cpl Thommason**. He came a respectable third in the Long Jump and a close second in the Triple Jump. He did all this whilst he was supposed to be clearing from the Squadron. (That's what I call dedication). In the 5000m we had **Cpl MacMillan**. For the 1500m we had **Cpl Lake** coming a respectable third. Doing the Javelin we had **SSgt Kev Tierney. LCpl A. B. J. Lowe** managed to run away with the 100m and 200m with extreme ease. **LCpl Lowe** also managed to win the High Jump.

The real hero's of the day were the ladies. They only had five participants doing all the events. In the Discus and Shot Putt we had **Sgt Younger**. She did exceptionally well considering she had excruciating back pain. For the 400m and 800m we had **Cpl Sunny** 'So who's coming second' **Lake** destroying the rest of the field in both disciplines. **LCpl Vanessa Brown** was very unlucky not to win both the 100m and 200m, but came a close second in each race. Lady Luck was shining on **LCpl Louise Parker**. As everyone else succumbed to falling over instead of leaping over the hurdles, she romped to victory leaving the rest nursing cuts and bruises on various parts of their bodies. She also came a close second in the High Jump. Last but not least we had **LCpl Leah** 'Tiny' **Mates** making the leap of faith by winning the Long Jump and the Triple Jump. She did remarkably well considering she was the smallest person on the field.

With things being pretty tight between ourselves and 225 Sig Sqn (the dark side of the force), it all came down to the relays. 225 won the 4x100m and the 4x400m and closed the gap on us ever so slightly. The last race of the day was one to cherish. The Chain of Command race. 233 Sig Sqn, might I add, were the only squadron to include their OC and SSM in this race. It was a very close but 233 came through in the end.

233 Squadron – Winning Team

HEADQUARTERS SQUADRON

Sqn Comd **Maj John Mullender.**
SSM **WO2 Steve Russell.**

MOTOR TRANSPORT TROOP - *by Cpl Ingham*

The MT has been as busy as ever over the past few months. As well as the ever hectic way of life in NI, there have been management changes resulting in the amalgamation of the Quartermaster's Department with the MT - now known as Support Tp. A warm welcome to the QM's. In no particular order let's begin with the farewells. Good luck to the following: **Cpl Andy Howe** and **LCpl Adam Huggett** who as I write are probably freezing their bits off in Norway with 249 Sig Sqn. Enjoy fellows! Also to **Sigs Ian Holmes** and **Keith Lovell** and family who I'm sure are now enjoying Gyros, with Pomme Frittes mitt Mayo at 7 Armd Bde and 7 Sig Regt respectively. Now for the new arrivals to the Troop, welcomes go to those fortunate enough to be posted here to 15 Sig Regt: **Cpl Martin Hunt, LCpl Shawn Watson** and **Sig Steve Worthington** and families in from various mainland units. Also to **LCpl Charlie Lister, Sigs Danny Richardson** and **Jock Fleming** who have come over from Germany. Congratulations to **Danny, Steve** and **Charlie** on their recent promotions.

COMMCEN TROOP

Tp Comd **Capt Howell-Walsmley**
Tp SSgt **SSgt Gratrick**

COMMCEN Tp is definitely the hub of all sporting events to date this year, Basketball, Netball, Hockey, Swimming, Athletics, Tug of War, Football and Lanyard Trophy. All events less Lanyard Trophy were conducted in between night shifts. On the day of the NI Football Competition we had enough females in the Regiment for two six a side teams. The males in the Regiment had obviously got wind of how good our football skills were and turned up in their droves to support us. (It had nothing to do with the vicious rumour spread that someone was going to do a streak if there was a goal scored.) When it came to the Army sixes it was a struggle to get six girls together. The Team went to Aldershot with no subs. The most memorable game was with 39 Inf Bde, we knew we had a good chance of winning, but let them beat us 13-0. The star of the

football for us was **Sig Pipa Henderson** who was selected for the Army squad again. Well done to **LCpl Sam Skyvington** for winning the javelin on the Morrison Cup, **Sig Henderson** for winning the high jump and **Sig Linda Shields** and **LCpl Tracey Walker** for without them the Team would not have been able to compete.

COMMCEN ANTRIM - *by LCpl Fox*

There seem to be more people coming and going than messages at the moment. Goodbye to **LCpl** 'Permanent Transmit' **Vickers** who has finally left to go to the Intelligence Corps, leaving a nice cushy slot for **LCpl Fox** to move to. **Sig Huish** has the pleasure of taking over from **Sig** 'Disco Queen' **Green**, then last but not least, **Sig Gorman** will step into **Sig Rodwell's** place as he accepts the challenge of 1 RBY Special Comms Selection Course.

COMMCEN PALACE - *by Sig Henson*

There have been recent changeovers in the COMMCEN. Let's start with the goodbyes. **Sig** 'Rodders' **Rodwell** has indeed been sent to COMMCEN Antrim soon to be joined by **LCpl Sam Skyvington** with the inspiring job of Stats, whilst **Cpl** 'Glo' **Fagan** is off to Civ Div. Also not forgetting **LCpl Webb** who recently won her tape and has re-traded to a Tech – well someone has to! So good luck and all the best. Hello to **Sig** 'Le Fox' **Shields, Sig Henson**, and not forgetting **Sig Gorman**.

COMMCEN LISBURN

Since we moved to HQ Sqn on 1December it's technically goodbye to 233 Sqn and **Cpls Lloyd, Phillips** and **MacDonald** in the CDA – although they're still nicking our food! Proper farewells to **LCpl Allen** and to **Claire Lydon** who've gone to civvy street. Congratulations **Claire** on your baby girl **Laura** (19 January) and to **Sgts Newman** and **Anderson** on their engagement – great news!! Also well done to **Sgt Anderson, LCpl Webb,** and **Sigs Walker** and **Green** on their recent promotions. Big hellos to **Sgt Newman, LCpl Joyce, Sigs Emmett, Green** and **Fleming.** Farewells to **Sig Simpson, Sig** 'Stapes' **Staples-Miles, Sig Jenny Read**, **Sig** 'Fanny' **Hannam** and **Sig Matt Green** – very best of luck to you all.

ATTACHMENT TO COMMCEN - *by 2Lt Astley*

On arrival at Lisburn I was delighted to see the COMMCEN in touch with its creative side, with almost nightly campaigns 'To congratulate **Sgts Anderson** and **Newman** on their engagement (courtesy of the Emmett and Green graphic design consultancy). Before having chance to add my name to the petition, I was whisked off to the legendary NIRTT course, and to 5 Regt AAC for a flight over the Province. Following this I received my tasking for the 6-week attachment, including teaching on ITDs, planning a navigation exercise in the Mourne Mountains, and being detached to 9 R IRISH, the RN and RM, 3 Inf Bde and 8 Inf Bde. I was also briefed on the various departments of the Regiment, and its role and mission, in order to understand how a unit operates. Between these were social events including a happy-clappy style theatre trip to 'The Blues Brothers' at the Grand Opera House Belfast, and the memorable Mess Burns' Night (apologies to those whose feet I stood on during reeling!) So far I've battled with the intricacies of Service writing, mostly late at night whilst chinchilla-sitting (think large squirrel/rabbit-type rodent) for absent officers… I've trotted around the perimeter fence numerous times (oh for a memory like a goldfish)… and failed to find the exit from Sqn HQ almost as frequently. I have been made to feel really welcome, if being dragged to circuits, swimming and basketball within ten seconds of arrival counts as such! On a serious note, thank you to everyone who's looked after me and so capably fielded my endless questions about absolutely everything! All the best to those serving in Northern Ireland over the next few months.

MOTOR TRANSPORT SECTION
EXERCISE DRIVE ALIVE PHASE ONE: 1-7 MAY 2000
by Cpl H Jones

Exercise Drive Alive Phase One was a Unit Driving Competition held at Magilligan Training Area, Longkesh and in Barracks, the aim of which was to improve the driving standards of our soldiers and to select a 3-man team to compete in province events later in the year. Day One was designed to test all drivers to the full. Despite feeling slightly sea sick **LCpl** 'Daz' **Pullen** impressed everybody with his hill descents. Day Two was the dreaded day of classroom work. This involved written tests including driving hours, fatigues, NI RTA and breakdown procedure, FMT3-2/3-3 documentation and theory test questions. Newly arrived in province **Sig 'Trev' Reilly** HQ Sqn seemed to fair the best at this phase. Day Three was spent at Longkesh on the manoeuvring area and this proved to be the most difficult day of all. A visit by **Maj Mullender** soon put all the competitors to shame, who along with his driver **LCpl** (now Cpl) **Trethewey** completed the manoeuvring phase with no penalties. The final day was a barrage of tests to sort out the final placings. The three winning competitors were:

a. HQ Sqn **Sig Reilly**.
b. HQ Sqn **Sig Worthington**.
c. 225 Sig Sqn **LCpl Pullen**.

SUPPORT TROOP

Tp Comd **WO2 (RQMS) Frost**
Tp SSgt **SSgt Dobbins**

Apart from work, SpTp still finds time to provide people for the numerous sporting events that take place within the Regiment and the Province. The Troop says farewell to **Sgt Chris Hood** who has moved to 11 Sig Regt on promotion, where he will be dishing out blankets, and no doubt spending plenty of time on the golf course; to **Sgt Al Bolton**, who made the massive move up the road to 225 Sig Sqn, where he will probably be taking it just as easy as he did in Support Tp. To **LCpl Nick Trethewey**, who is leaving us shortly on promotion, to play wacky races with the cabs in London, driving the CO of 71 Sig Regt (V), and finally to **Sara Thomas** the Squadron Clerk who leaves to move to Nuneaton. The Troop would like to send their congratulations to **Sig Steve Worthington** and his wife **Lisa** on the birth of their son **Kieran,** also we would like to extend our best wishes to **LCpl Nick Trethewey** and his fiancé **Kelly**, and to **Sig Crissy Marston** and her fiancée **Jim** on their pending marriages. The Troop would like to welcome **SSgt Mark Chivers, Sgt Sean Hyland, Cpl Martin Hunt** and **Sig's Taz Taylor**, 'Revs' **Revelly** and **Trev Rielly** to the Troop. Last but not least congratulations to **Sig Danny Richardson** on his recent promotion to Lance Corporal.

EXERCISE MALIN FINN

Ex Malin Finn was part of HQ Sqn's adventurous training calendar, which took place in the North Channel of the Irish Sea near the Mull of Kintyre. The Exercise took the form of a 12-day sailing expedition, which was broken down into three legs taking four people from the Squadron on each leg. **LCpl** 'Mac' **McFarlane** was skipper and **WO2 (SSM) Steve Russell** was the first-mate.

The first crew was **Sgt Sean** 'Galley Rat' **Hyland, LCpl Neath** 'Just lash me to the helm' **Hadley, Sig Andy** 'Ripp van Winkle' **Pennock,** and **Sig** 'Revs' **Revelly**. For that leg the weather couldn't have been much better, apart from when the wind decided to pick up from nowhere, which added a bit of excitement for a couple of minutes whilst we changed the sails down. During this leg the CO and the QM dropped onto on the boat quite literally, with the kind help of the RAF who high-lined the CO and the QM down onto the boat whilst in the middle of the Irish Sea.

Leg Two started a bit strangely with the majority of the crew feeling seasick after the first day, things picked up drastically with the crew of **Sgt** 'Merm' **Carter, Cpl** 'Rocky 'Just show me which way to point the boat' **Mountain, LCpl Tracey** 'Stop blocking the sun with those sails' **Walker** and **Sig Pippa** 'I was sick 24 times you know' **Henderson,** getting some leisurely sailing in and when the wind totally died on us for some serious sunbathing.

Leg Three saw a complete change in the weather with wind dramatically picking up to around 30knots at times, but the crew **(Sgt Chris Hood, Cpl Angie Richardson** and **Sigs** 'Stevo' **Stevenson** and 'Malley' **Mallinson)** coped with this extremely well. The weather picked up so much that on the way from Girvan to Portpatrick, the skipper decided that things were getting a bit too hairy, so the decision was made to hide away from the weather, which took two days to die down. All in all the expedition was enjoyed by all the crews who showed a great attitude to learning new skills, putting up with sometimes very rough conditions at sea and came out at the end smiling and with a sense of humour intact.

225 SIGNAL SQUADRON - SQUADRON HEADQUARTERS

Sqn Comd **Maj Jeremy Tod**
SSM **WO2(SSM) Downie**

As Spring has come and gone, 225 Sig Sqn have had plenty to keep them busy. We have found that as the peace process rumbles on, the result for the Squadron is an increased workload. However, 225 Sqn has had plenty of opportunity to 'Strut its Winning Stuff" during the recent series of CO's Cup Competitions. So far we have claimed the Swimming (at a tiebreak), Tug O' War, Potted Sports and Shooting, relinquishing only the Athletics Trophy to 233 Signal Squadron with the hardest of fights, congratulations to them. Welcomes are extended to **Capt Tam Malley** who takes over as Ops Officer from **Capt Bill Brennan**. We wish **Bill** and **Suzanne** all the best at UKSC(G). Goodbyes are many this season with the imminent departure of **Capts Chris Lamb** and **Robin Carpenter** who go to SHAPE and FIU respectively. **Capt Helen Murphy** also leaves to emigrate to New Zealand. She sends her best wishes to all those that have made her time in the British Army so memorable and extends a warm welcome to any that can make it to NZ for a visit.

ECHO TROOP

Tp Comd **Lt Balfour**
Tp SSgt **SSgt Fielder**

Firstly a couple of hello's to JT **Danny Bradley** arriving from JSSU Digby and **LCpl Chris Telling** from 14 Sig Regt. The Troop has enjoyed a relatively quiet month with the highlights being a BBQ organised by Delta Watch (cheers lads, excellent spread) and Charlie Watch's Paintballing Day at Ballykinler. Congratulations to **Cpl Al Sharpe** and wife **Jenny** on the birth of their son **William**, and to **Cpl Tommy Scanlan** and wife **Sarah** on the birth of their daughter **Stephanie**. A double celebration for **Cpl Sharpe** as he also passed his driving test this month along with **Cpl Dave Salter** passing it on his second attempt. Well done to **Lt Jamie Balfour** and **Cpl Babs Woodhouse** who represented the Troop in the Regiment shooting team at NISAAM. **Lt Jamie Balfour** managed to walk off with the silver in the FIBUA shoot (still needs some practice with the pistol though). A few members have also left us this month. Goodbye at short notice to the Troop Commander, **Lt Jamie Balfour**, who is off to complete a crammer course before becoming an undergraduate at Shrivenham this September. Also to **Cpl Andy Liddle** and Cpl **Kerry Thomas,** both off to join the ranks at JSSU Oakley. Finally goodbye to **Cpl Dave Hill** who is off to soak up the sun in JSSU Ay Nik.

GOLF TROOP

Tp Comd/Tech Adjt **Capt Ian Hargreaves**
Tp SSgt **SSgt Brian Wilkins**

Work continues to be hectic with many new operational challenges and life here in Northern Ireland continues at a pace. On the sporting front there were noteworthy performances in the Lanyard Trophy by **Capt Ian Hargreaves** and **Cpl Phil McLeish**. **Sgts Dave Kilgallon , Stu Murray** and **Wayne Ballard** all competed in the Hi Tech Challenge, which was an improvised Triathlon event consisting of Mountain Biking, Kayaking and Running. Well done to all. Farewell to **Sgt Chris Warren, Cpl Geordie Cranston** and **Cpl Alex Jelley** who all depart to start what we hope will be successful civilian careers. **Sgt Marie McChesney** has been posted to COMMCEN Brunei and **Cpl Dave Morgan** has left to study hard on his T1 at Blandford. Newly arrived are **Sgt** 'Sandie' **Samuels, Sgt Lyndon Box, Cpl Ryan Lang** and **Cpl** 'Robbo' **Roberts** who we welcome to the Troop. Congratulations go to **Sgt Richie Gathercole** on his selection for promotion to Staff Sergeant and a special mention to our two newly promoted **LCpls Gaz Stokoe** and **Lee Stafford**. Congratulations also go to **Sgt Ritchie Cleminson** on passing his FofS Selection. He will be starting his study this September. Finally, congratulations go to **Sgt Wayne Ballard** and **Tanya** on their recent marriage.

233 SIGNAL SQUADRON

Sqn Comd **Maj Richard Giles**
SSM **WO2 (SSM) Rob Dunseith**

The Squadron held a highly successful battle-camp in April, providing a rare opportunity to get troops together, away from shift systems and offices. Back in camp the management priorities include preparations for the upheaval of moving into purpose built real estate, implementing plans for the forthcoming Marching Season, and dealing with upgrades in some communications systems. Despite the operational challenges (which paradoxically increases the Province's communications assets as the Peace Process evolves) a high proportion of the troops have been able to get away for extra mural events.

INDIA TROOP

Tp Comd **Capt Gareth Oliver**
Tp SSgt **SSgt Craig Marlowe**

They say that spring is the season to clean your house from top to bottom, air the linen and generally have a good clear out of all those nooks and crannies. Well, not a Troop to be found at the back of the queue when there's work to be done, India threw open it's doors and sadly parted with a few items of furniture beyond price. The following have gone to new homes, mostly at better rates of pay; **WO2 Ray Neal, FofS Andy Paton, SSgt John Ramsdale, SSgt Simon Graham** and last but definitely by no means least, **Cpl Mark McDonald**. Gone, but unlikely to be forgotten by those who've worked along side them. A big welcome to our brand spanking new Foreman of Signals, **Gaz Williams** and his slightly worn but still extremely functional Tech Sergeant, **Mick Knowles**. Workwise, the Troop has had a busy few months upgrading the various IT systems in our care. Upgrading, and in quite a few cases patching the upgrades. Dragging members of the Troop away from their beloved systems is never an easy task, but when it's accomplished, strange things happen. **Sig McLuckie** volunteered, eventually, to make up the numbers for our team entry to the McKelvie Cup Athletics on the day of the tournament. Not content with just turning up, he then had the sheer audacity to win the 110m hurdles outright. Well done that man. India, normally the prop that supports the rest of the competition placings, pulled off yet another coup by knocking the other teams in the McKelvie Cup Cricket competition for six. All in all, a good few months with the potential for even better times ahead.

NETWORK CONTROL CENTRE - *by LCpl Leah Mates*

NCC Ops Offr **Capt Guy Benson**
Ops Sgt **Sgt Steve Johnson**

Firstly, we would like to welcome a whole new bunch of baby techs straight from the factory, these are **LCpl Mike Davis, LCpl** 'John-boy' **Walton**, and **LCpl Tony Wressel**. Also **LCpl Vanessa Brown** and **LCpl Shaun Barton** both arrived from TM Tp, and **LCpl Jo Ellison** who joined us after a long weekend as a part time receptionist on job placement with 'TESCO'. NCC would like to say a fond farewell to **Cpl Andy Brown** who leaves us for the multiple delights of 21 Sig Regt. The end of the month saw **Cpl Andy** 'Bop Bandit super G' **Brown's** leaving function. Starting with a meal before degenerating later on, as the lads donned their beach gear and headed for the bop. A good night was had by all who attended. The next planned functions are for **Capt Guy Benson,** on posting and **Cpl Steve Whipp,** off to Civ Div. We wish them all the very best for the future.

NCC MOVE TO THE NEW BUILDING

Readers may not be aware but the NCC is relocating to a brand new building within the HQNI compound. Having completed our new communications procedures the Ops Offr, **Capt Guy Benson** and **YofS Russ Darlington** are busy planning a sequential change of communications control to our new space aged, hardened bunker.

NCC ATHLETICS AND SWIMMING

A busy month for NCC Tp, what with athletics and swimming competitions. During the second phase of battle camp the Squadron participated and won both the Mercury Cup and Inter-Squadron Athletics competitions. Followed a week later by the Inter-Squadron Swimming Competition with the girls' team taking first place with the help of **LCpl Vanessa Brown, LCpl Leah Mates** and **LCpl Jo Ellison**. The men's team gave an outstanding performance winning a very respectable second place.

ROMEO TROOP

Tp Comd **Capt Colin Kell**
Tp SSgt **SSgt Steve Bartleet**

Since the last edition of *The WIRE* there have been a few changes within the Troop. We have had to say farewell to a few faces that have left for pastures new. **Cpl Richard** 'Thommo' **Thommasson** has swapped the rainy hills of Antrim for those of Kosovo, with 7 Armd Bde HQ & Sig Sqn. Also gone but not forgotten are **Sgts Trefor Davies** and **Steven** 'Hutch' **Hutchinson**, who have both departed to RSS Blandford on their Yeoman of Signals Course. Whilst at Blandford they are likely to meet another Romeo Tp refugee, **Cpl Phil Marchant**, who has departed to start his T1 Upgrading and conversion to the new Systems Engineer Technician. Hopefully **Phil** will learn that equipment will work - if it is switched it on! The final mention goes to **Sgt** 'Silver Sven' **Gronn**, who joined the Troop towards the end of a six month tour with HQ Squadron. 'Sven' literally arrived, looked around, went shooting and was then posted to 21 Sig Regt (AS) – you may now finally be able to unpack that MFO! Good luck to all of you who have left us and don't forget – 'One In All In'. We have had a few new faces posted in. **Cpl Nick Clift** (14 Sig Regt); **Cpl Gordon Dunderdale** (NCC, 15 Sig Regt), who is not staying for long as he is off to 11 Regt EOD; **LCpl Matt** 'Wee Thommo' **Thomas**, fresh from training; **Sgt Steve** 'Taff' **Hamblin** (Belfast Roulement Battalion); and the latest addition to the Romeo Tp family, **SSgt (FofS) John Collins** (Foreman of Signals Course). Hello and a warm welcome to you all.

TECHNICAL MAINTENANCE TROOP

Tp Comd **2Lt Elisabeth McLellan**
Tp SSgt **SSgt Bri Gillies**

Of course if you work hard you play hard and the turnaround in manning has led to quite a few parties. So we start off by welcoming into PC Repair **Sgt Gaz Watkins** and wife **Fiona** along with **LCpl Hayden Lawer**, and **LCpl Tanya Ballard** who has drawn the short straw and joined TE Workshops for a tour of trend bashing. Installations are not left out and also gain some fresh blood in the form of **Sgt Nick Goodwin** who is accompanied by his wife **Vivien**, and **LCpl Andy Widdup** who comes straight from the school. Welcome to you all and may your tour be a pleasant one. With so many arrivals, room has to be made, and so we say a sad farewell (in most cases) to those that are leaving us to move onto pastures new. First of all goodbye and good luck to **LCpl Kesha Bryan** who has now finally left for civy street. Congratulations to **Cpl Ian Nichols** who has passed selection and is now with **264 (SAS) Sig Sqn**. Off to another Troop go **LCpls Vanessa Brown** and **Sean Barton**, and off to the 'other side' goes the Fat Controller, **Sgt Bob Buckingham**, who has gained his crown and a baby on the way. Last but by no means least we bid a sad farewell to **Sgt Billy Fagan** and wife **Glo** who are off to join the **UNICOM** team, and of course we cannot forget their dog Baxter - the only one brave enough to have a go at **Capt (TOT) Plumb**. The dog has fully recovered! Good luck to you all and many thanks for all your efforts during your time with the best Troop in the Regiment.

The Troop, as ever, has been heavily involved in numerous projects, activities and social events. Well done to **Cpl's Al Walsh** and **Karl Hannah** for the high quality of work produced for the refurbishment of the GOC's office. Thanks to **SSgt Flo Jarvis** and the other DS for the organisation of an excellent battle-camp. A great time was had by all at the leaving party of **Sgt Billy Fagan** whose great sense of humour will be sadly missed by the Troop. Finally, congratulations to **Sig Kev Orr** on his recent marriage to **Becky.** The Troop wishes him all the best for the future.

233 SIG NAL SQUADRON - BATTLE CAMP

Battle camp was held over a two week period at Magilligan Training Area, where the wind blows in every direction including down. Half of the Squadron attended the first week and the other half the second week.

The classic DS pose
(L-R): Sgt Selkirk, SSgt Marlow and the Battle Camp organizer, SSgt Jarvis

Problem Management, (an interesting description for the WOs) which consists of the **WO1** (YofS) **Paul Rose**, **WO1** (FofS) **Chris Gill** and **WO1** (Supervisor IS) **Mick Brooks**, turned up for one day each week to run the command tasks, while the remainder of the Sqn DS managed to stay in the field for two weeks organising various military training stands and lots of field firing!

Time was spent getting sun burnt on the first week and drowned on the second week. Every one who attended covered all of the mandatory ITD's, including the new 233 patented two and a half mile BPFA run, command tasks, fire team assessment, MP5 training and pistol shooting. The command tasks had an amusing theme, all were achievable with the right perception. The tasks were made more interesting by the fact that everyone had a raw egg to carry on their person throughout, with a time penalty added for breakage. One of the more amusing command tasks was the military version of the farmer, the fox, the chicken and the grain, (answers on a postcard). The highlight of both of the weeks was the Friday night social with NCC Tp proving beyond a doubt that they are the Kings and Queens of karaoke.

39 INFANTRY BRIGADE HEADQUARTERS AND SIGNAL SQUADRON (213)

Sqn Comd **Maj N. J. Borrill** R SIGNALS
RSM **WO1 (RSM) S. M. Lockwood** R SIGNALS

HEADQUARTERS SQUADRON
ARRIVALS AND DEPARTURES

Situation no change in SHQ, a busy schedule of meetings, lunches and for the Ops Team and Chief Clerk lots of courses. Congratulations to **WO2 (YofS)** 'I'll say what I like' **Brudenall** and **WO2 (FofS)** 'Darth' **Sideras** on being selected for promotion to WO1. Goodbye to **Capt Gareth Marsh** who is off on JDSC and welcome to **Capt** 'Call me JC' **Smith**. Welcome to 'Johno' **Johnston** who has moved from Comms Tp to become the Assistant ADPLO. Welcome to **Cpl** 'Big Bloke' **Renforth** who is taking up post as the Assistant BTLO.

COMMUNICATIONS TROOP
Tp Comd **2Lt Richardson**
Ops Sect SSgt **SSgt Robinson**
TM SSgt **SSgt Renshaw**

ARRIVALS/DEPARTURES AND CONGRATULATIONS

New arrivals to the Troop are **2Lt Sally Richardson** who joins us from the Troop Commanders Course at Blandford, **Cpl** 'Judge Jules' **Dicks**, **Cpl** 'Rent a crowd' **Faizey**, **LCpl** 'I suppose I'll do it' **Jennings** and just in off the Blandford Technician production line **LCpl** 'Stretch' **Burgon**. A warm welcome to one and all. Farewells to the Sqn Comd, **Capt** 'Whip Lash' **Taylor** who has moved all the way to 15 Sig Regt. All the best and do not be to disheartened when we win the Mercury Cup again! **Sgt Billy Belshaw** has moved to 21 Sig Regt and **Cpl Si Dupree** has finally won a reprieve from his sentence and has been released on parole to Civ Div. **Cpl Bob Harper** and **Cpl** 'I think I'm Ronaldo' **Wedge** have both departed on their T 1's and last but not least **LCpl** 'What Horse?' **Fitzpatrick** is going to the White Helmets after successfully completing his entrance course. Congratulations to **LCpl Kev Board, Sigs Steve Ireson, Jenny Sarsfield** and 'Geordie' **Richardson** for being selected off recent promotion boards.

TM SECTION

Although we have been depleted of our experienced personnel we are still continuing to function at peak efficiency. The Section has had a busy New Year and it looks like there will be no let up in the foreseeable future. Still we have had time to fit in some adventure training in the form of hill walking and not to mention the odd course or two and some outstanding Troop functions. How does it go 'Work Hard, Play Hard'. On a good note our sporting conquests continue to mount up with the winning of the Inter Section Potted Sports Competition. We are starting to ask ourselves the inevitable question 'Can any Section in the Squadron compete with TM Section?' Congratulation to **Cpl Faizey** on his recent promotion to Sergeant and **LCpls Gallacher** and **Wade** on their promotion to Corporal. **Sig** 'Lewie' **Lewis** on successfully completing his PTI 3 Course and **Cpl Wade** on his engagement to **Wendy** (Does she know what she is letting herself in for?)

SUPPORT TROOP
Tp Comd **Maj Spence** RDG
WO1C **WO2 (RQMS) Belarn**

The OC Tp/AO/MTO/QM/Supervising Officer has finally put his cards on the table and is leaving the Army in June. He is moving to 40 Sig Regt as a PSAO, what the AO a hardened Cavalryman Joining the R SIGNALS? - never not in a million years!!!!!! Yes is the answer and very pleased we are to have him in our ranks, may your tradition be Swift and Sure.

REGIMENTAL QUARTERMASTER'S DEPARTMENT

Firstly the Department would like to say a sad farewell to **Sgt Sean Hyland** who after serving the Squadron for three years must now make a huge 800m move to 15 Sig Regt as the SQMS of HQNI. We would like to welcome **Sgt Al Keir** who has returned to the Squadron after a two year break with JSSU (FI). A big congratulations to **LCpl Rick Sherriff** on being selected for promotion to Corporal (the one who slipped through the net?). The Department has busy time ahead with both the main PRE and POIP periods coming up; as yet again we look forward to another challenging year.

UNIT RUGBY SEASON

After a late start the Unit's Rugby Team's season finally got under way with the NI Minor Units Competition. The team did outstandingly well winning all their games before thrashing 2 RMP in the Final, to guarantee us a place in the Army Minor Units Cup Competition. We were drawn to play 21 Sig Regt in the Quarter Finals which meant a four day trip to the mainland (purely for training purposes of course)! After two days solid training, (mainly round the public houses of Corsham!) we turned up to play 21 Sig Regt at Colerne. It was a hard fought game with the Brigade Team playing with several key players out of position. The game was starting to look like it was slipping away from us in the second half with 21 Sig Regt forging a sizeable margin until the heroics of **SSgt** 'Terry' **McIntyre** brought us back in to the game with a hat-trick of tries. In the end the home side proved to be too strong for us and won the Tie 38 - 27, but as they say in rugby 1TS NOT THE WINNING THAT COUNTS, IT'S THE DRINKING PART!' and needless to say we had a fantastic third half in the bar before moving onto Bath to sample the city's cultural side!

EXERCISE LIGHTNING STRIKE

It all started with yet another final brief from **SSgt** 'Robbo' **Robinson**. Everybody knew what their jobs were, bags were packed, the bus was full and the journey/drinking began! We boarded the ferry on time with all sense of pride and dignity intact, for the time being anyway. As every one started to find out where their rooms were, **LCpl Martin** 'Weird naked guy' **Kennie** (name will be explained later) completed his recce on the bar. As everybody made it down to the bar area, **LCpl Kennie** had already polished off his first drink and had well introduced himself to another. After a rather sociable evening, and because the bar had closed, everybody retired to their cabins. In the early hours one person from our group decided he needed to relieve himself due to carrying out a recce of the bar and not his cabin, he did not realise all cabins were en suite! He decided to search the boat and outer deck areas for a toilet that was much needed! The only problem was his chosen attire, a face cloth!! The first nickname of the weekend was justly awarded! We disembarked and started our journey south from Liverpool to Warminster, which was uneventful apart from when we met up with **Sig Dave** 'Manic Mechanic' **Kirton**, who was joining the group from leave. We found **Sig Kirton** in a service station the bonnet of his vehicle open and his head in it, but with a handful of Riggers, Techs, Stores and TG's we had him on the road in no time. On arrival at Warminster we where shown to where our stand was to take place and set out our plan for the following morning. We then made about a swift return to our accommodation at Knook Camp were we found our beds and more importantly the bar!

We were up the following morning (Saturday) at 0530hrs, to the deep joy of all. We had our breakfast, collected weapons, stores and radios and made our way out onto Salisbury Plain. It was a hectic start to a hectic day. The stand set up was complete and the casualties where all dressed for their big performance, it was now time for the first two groups to see how they would fair on our demanding stand. Finally our first two UOTC teams arrived, keeping up the punctuality expected of soon to be Regular Army officers. The IC teams was taken aside by **Lt** 'I used to be part of the Squadron' **Madgewick** and given a brief on the task their team would have to undertake. Meanwhile the rest of the team members were met by **Cpl** 'No Keys' **Ship** and **LCpl** ' WNG' **Kennie** (DS for the two teams), who kitted out the two teams. Finally the scene was set, two keen and green QRF teams all ready for action. Suddenly there were lights, camera and a few thunder flashes and the two teams sprang to life.

Each team was presented with the aftermath of a coffee jar bomb attack on a vehicle. They had just twelve minutes to assess the situation, treat and extract the casualties, cordon off the area and preserve the crime scene. During all this they were required to call in all appropriate agencies for assistants. The teams were assessed on their command and control, enthusiasm and first aid skills which was carefully scrutinised by the lovely **Sig Faye** 'Florence Nightingale' **Edwards**. The Oscar winning cast for the scenario were **LCpl Neil** 'Does this involve anything physical?' **Beedon** (Vehicle Commander 1), **Sig Steve** 'Magic fun bags' **Ireson** (Vehicle Commander 2), **Sig Jason** 'Did anyone say anything about bungie jumping?' **Ellam** (Terrorist 1) and last but no means least **Sig Dave** 'Manic Mechanic' **Kirton** (Terrorist 2). So our main event came to an end, all that was left to do was pack up and head home but not before we sampled the night life that Warminster had to offer, but that is a whole new set of *Wire* notes.

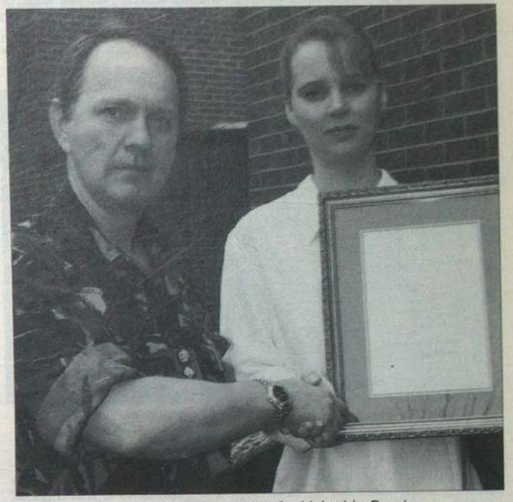
LONG SERVICE AND GOOD CONDUCT MEDAL PRESENTATIONS

SSgt Robinson and **Sgt McBride** were recently presented their Long Service and Good Conduct Medals with other recipients from 2 Regt RMP, who also share the Mess. Unfortunately **SSgt Robinson's** new wife **Sharon** could not make the trip across from the mainland due to work commitments but **Sgt McBride's** wife **Deirdre** and daughter **Shannon** were present to witness the event.

LS & GC Presentation

QUEENS COMMENDATION FOR VALUABLE SERVICE

The Officers and Soldiers of the HQ and Sig Sqn would like to congratulate **Cpl Mandy Duffy** on her well-deserved commendation from Her Majesty the Queen for valuable service. She was presented with her award by the Brigade Commander in early February and has since left the unit for pastures new. We all wish **Mandy** and her new family the very best in the future and hope that her next tour is as successful as this one has been.



Queen's Commendation for Valuable Service
Presentation to Cpl Duffy

8 INFANTRY BRIGADE HEADQUARTERS AND SIGNAL SQUADRON (218)

Sqn Comd **Maj Jake Thackray**
RSM **WO1 (RSM) Fleming**

SQUADRON HEADQUARTERS

Firstly congratulations to **SSgt Gary Bennett** on being selected for promotion to WO2. Things have calmed down with the SPS Inspection having been cancelled and **Maj Don Duncan** can finally come down from cloud nine as the six monthly audit is over. With time on our hands **Cpl Lee Goldsmith** (AGC) decided that with Richmond Challenge (ITD Camp) just round the corner, it was time for some remedial shooting in the SAT. After four hours of endless fun it was time to knuckle down to the real thing and depart to Magilligan Training Camp for three days with the RSM and his training staff. The ITD Camp was upon us, and yes, being in Ireland the old saying 'If it is not raining, its not training' was true to form.

TRADES PERSON OF THE YEAR

Congratulations to **Sig** 'Stevo' **Stephenson** (Tele Mech) on being selected as Trades Person of the Year.

OFFICERS AND SNCOs V OTHER RANKS FOOTBALL MATCH

The Seniors

For the first time in months the sun was shining on Londonderry and everyone reached for their cameras. The pre-match briefing from **Cpl** 'I have no idea how to referee' **Moore** was one of fair play, professionalism, but most of all good fun. The whistle blew and we were five minutes into the half and **Sgt** 'Scotty' **Pringle** launched a throw-in ball to the RSM who drove a left foot shot straight into the top left hand corner (Andy Cole eat your heart out), 1-0 to the Officers' and Sergeants' Messes. Tackles were flying but so were the boys 15 minutes in to the first half and we were 5-1 down. Time for our tactics to change. **Capt** 'Olly Solchar' **Lamb** swapped centre half for right wing and things took a turn for the worse as we went down 6-1 at half time. By now most of the Junior Ranks had their legs chopped from them and were limping. Time for **LCpl** 'Corps footballer' **Richards** to leave goal and start hunting for goals. After a period of 15 minutes of being marked by most of our side, he broke loose. Yes, it was 7-1 now and time for another tactics change, more chopping, hacking and fowling. It paid off with dancing **Sgt Carl Overton** notching up our second goal, two minutes later we had a third, things were on the up. Time for more tactics, the **WO2 (RQMS)** 'Kev the mountain' **Tunstall** went in goal. We were in our stride now. Then **LCpl**

Gaz Welch broke 8-3 but we fought on only to go 9-3 down with **Cpl** 'Scotty' **Pearson** missing a kick but luck was on their side. Ten minutes to go and **SSgt** 'No one will pass to me' **Coupland** has a rush of blood and a solo run up the wing through myself and 'Dancer' **Overton** only to miss. However, our luck changed when a clearance from **Sig** 'Watch my hair' **Nelson** ricocheted off **LCpl Kev Foster** into goal 9-4. We were on a come back, but it was short lived with **LCpl** 'PTI' **Gourlay** skinning all of us with his pace. Yes, they had reached the Golden 10. Things were all a little one sided, well when the Junior Ranks scored even the Referee congratulated them. Five minutes to go and another own goal by that man again **LCpl Kev Foster** left us at 10-5. Things would have been different, however, if we only had our star player **Maj** 'Harry Kewell' **Thackray** who had been intentionally held up in Brigade HQ.

The Players

SYSCON - *by LCpl Anderson*

For the past month SYSCON has under gone a complete reconstruction to bring us up to the 21st century. The office is now looking much better but for how long? The good news is that **Sig** 'Sid' **Sidorowiczis** is now working in the squadron bar. So, at least the new chairs (very comfy and with wheels) will remain intact. Morale in SYSCON at the moment is very high (we had to write this) and everyone is looking forward to the up and coming marching season.

We would like to take the chance to say hello to **LCpl Adelle Murray** who has just arrived from 1 Mech Bde. Also, goodbye to **LCpl Berty** 'Lundy' **Baxter.** He will be joining the civilian population in the next month. Good luck to him and his beloved **Michelle** for the future. Sadly life in SYSCON will not be the same without **WO2 (FofS) Tez Brown** but fortunately the new FofS, **WO2** 'Sideshow Bob' Vowles is fitting into his shoes nicely. On the 22 of May I had the pleasure of taking the rock climbing during the adventure training phase on the JNCO cadre course. Everyone seemed to enjoy the climbing package that I had prepared for them. I'd like to say there were a few budding spidermen and women - but there weren't! I mustn't forget to mention the disco legs, of course I never get them myself. Well done - a great performance from everyone.

COMMCEN - *by LCpl Applegarth*

The millenium has seen a few changes within the COMMCEN. Arrivals: **LCpl** 'Sammy D' **Applegarth** from 16 Sig Regt, **Sig** 'Stu (pid)' **Plant** from 4 Armd Bde and **Sig** 'I'm Stu Plants' long lost brother' **Fielding** straight from the Factory. Farewells must be said to **Cpl** 'Pete Tong' **Mayhead** as he goes off to re-trade, **Cpl Gaz Moore** and **Capt Jo Stewart** as they both go to Blandford. The Troop was also taken over by **Lt Ian** 'Blue eyes, no thanks, I don't drink' **Lowther**. We mustn't forget to mention **Sig** 'I can't wait to be a civvy' **McCulloch** as she leaves the Army on 24 July and gets married to **Cpl Nick Trethewy** on 19 August. Congratulations from the Squadron to **LCpl Craig Law** and **Jodie** on the birth of their baby boy, **Connor James Law**. April saw a trip to Lisburn for the Mercury Cup as the Squadron managed an overall second place in Hockey and Netball. Well done. The athletics brought two wins for us. One for **Capt** 'Speed of a thousand gazelles' **Lamb** (400m) and a win for **LCpl Applegarth** in the 100m.

TRAINING WING - *Cpl Stewart*

Things are just as busy now with the new ATD year upon us, but there is still time for good all-round training. First up was the JNCO's study day. They had a busy day ahead with battle PT at 0800hrs, twice round the camp fitness trail followed by a stretcher race. **RSM Fleming, Sgt Overton** and **SSgt Taylor** were on hand to lend support, however, we were one man short for the team and all three kindly stepped in (mugs). Then, under the watchful eye of **Capt** 'Granny' **Stewart** it was down to a good old estimate. After a lot of head scratching it was time to let their mouths do the work with three discussion groups. It didn't help matters, though, when the OC Squadron had briefed the whole Brigade HQ and Signal Squadron on the new homosexual policy. As you can imagine all talk was on this, well at least **Cpl Dunn** (AGC) managed to change the topic. With all that talk it was lunch time. In the afternoon it was time for all Corporals to carry out their presentations. These varied from patrolling, to how to press Cbt 95 to making and throwing a petrol bomb. A big WELL DONE to all who took part especially **Cpl Stewart** on his overall A Grading.

The effects of a petrol bomb on Base line shields

CO **Lt Col E. M. Flint**
RSM **WO1 (RSM) C. Hymas**

LANYARD TROPHY COMPETITION 2000
by 2lt David Spencer

It all started with a cold, wet and thoroughly miserable Tuesday morning way back in January (the first day back from Christmas leave). This was it, our training for the Lanyard Trophy had started. Only those who have done it know what kind of training is involved. Believe me, it is the last thing you want to be doing at 0700hrs in sub-zero temperatures. At first it all started well, the runs were all steady state. I don't know where **WO2s Flemming** and **Kearney** learned what steady state was, in fact I don't really care, all I know is that I wouldn't like to go for a fast run with them. The training was progressive and the improvement in individual's fitness was visible. This trend carried on until the end of February. Then we entered a Regimental exercise period, and people were no longer able to attend regular training sessions. The whole team did not all meet until we stepped on the transport to leave for training in the UK.

We arrived at Exeter UOTC, which is where we would be based for the next eight days. The idea of our stay there was to recce the route. The four days route recce proved invaluable as well as providing us with a few laughs. We took 14 people back, ten to be in the team and four as the admin team. The second day was our longest, a 20 miler. Now picture this, the team is out on the ground and they ring the admin team to let them know that they will be in early. Unbelievably they couldn't pick us up early as they were doing their own admin!

The actual route had three large rivers that are incredibly difficult to cross (Great Para route selection!). Anyway the first two days had passed and on each day we had not yet all managed to get across these rivers without getting our feet wet. Something had to be done, we needed a plan and fast. What this situation needed was some officer ingenuity, and it duly came in the form of **2Lt Spencer**.

2Lt Spencer: 'Why don't we get some black bin bags and put them over our boots just for the rivers'
SSgt Hook: 'Hmm! Seems like a good idea, well done Sir!'
Remainder of the group: (General nodding of agreement)

The next day.... Unfortunately due to a horrendous injury which would have seen most civvies in hospital (Sore feet), **2Lt Spencer** had to stop early on day three due to lack of moral fibre. This was unfortunate as he missed the river crossing. As the Team Captain was not available to test his new ideas his 2IC, **SSgt** 'It's the way I tell them' **Hook** stepped up. He bravely donned the plastic bags and stepped into the knee high raging torrent. It all seemed to be going well for at least the first two seconds, when it was then **SSgt Hook** realised the flaw in the plan. Black bin liners provide absolutely no grip whatsoever on slimy wet rocks. You could see the point at which he realised this, as his eyes turned from calm blue to white with sheer panic. From this point on to the amusement of the rest of the team it was only a matter of time before he went in. There was a quick jig to the left and then a wobble to the right, then a large amount of blasphemy about **2Lt Spencer** and a final crescendo of splosh!!! However, this was not all, not only had the bags caused him to slip but they had also now filled with water acting like two lead weights. We sat on the bank watching a fully dressed man sitting up to his neck in water, whilst clinging for dear life onto a rock with one hand and trying to remove black bin bags from his feet with his other hand. It was probably the funniest moment of all. It couldn't have happened to a nicer bloke.

Eventually the infamous day arrived. At 0500hrs we were lined up and ready to go, bang!!! We're off. 'Crikey, look how far up the hill they already are' said **Sig Akrill**. 'That doesn't matter, there is absolutely no need to worry because that is the wrong hill.' said **SSgt Lothian** as we decided 270 competitors were wrong. As we rose up the first hill the visibility became very bad and there was a certain amount of following going on. This was annoying, so we deliberately stopped and looked at the map; sure enough everyone around us also did. So when we marched off on a dog leg to disappear into the fog and our fellow competitors, admitting defeat, spun the bezel on their compasses and were never seen again. By the time we reached CP 5 we had established ourselves into a solid fourth position. Check point 11 and the 30-mile point, three-quarters of the way round yet still another ten miles to go. This was a real low point for us because by the time we reached checkpoint 12 we had dropped to fifth.

We battled on to checkpoint 14 where we met up with our admin team. As we came to a halt to get some more water **WO2 (SSM) Flemming** started shouting at us to get going as another team was fast approaching. Not wanting to drop another place we set off at an unbelievable pace with **Cpl Scarrot's** little legs going at ten to the dozen and **Sig Akrill** sounding as though he was going to give birth. We ran all the way to the next checkpoint only to find another team there. We couldn't believe it we had run all the way and had still been overtaken. Oh! Wait a minute that's 30 Sig Regt's the team in front. We flew past them and down the hill to the finish line to the sound of 30 Sig Regt's bagpipes. 'Sorry fellas 30 Sig Regt are just behind us'.(It was a nice tune though). When we crossed the line **WO2 (SSM) Flemming** informed us that the people he saw at Checkpoint 14 were in fact not a team but just people who were interested in seeing who we were, and that he had realised that as soon as he had shouted at us. Anyway was that extra pain really worth that one place. On a final note a big thank you to the admin team and the now **RSM Kearney** for helping us on our way. Cheers lads!

Lanyard Trophy – 'A job well done'

211 SIGNAL SQUADRON BATTLE CAMP EXERCISE FIGHTING AXE 22 – 26 MAY 2000 FROM RRB TP'S PERSPECTIVE – *by Sig Grimes*

As Battlecamps go it started off with a nice lie in until 0430am before we deployed! We were all smocked up and ready for war, looking forward to the first two days of 'non-tac' and getting our heads down. However, as we all know things do change and we then seemed to be awake all week. Well done to everyone who took part in the exercise especially **Sig** 'Shane Shakey' **Stevens** as it was his first exercise in the Troop. Also well done to **LCpl** 'Nuggit Boab' **Toner** who was the operator all week but may need a bit more training in taking down trip flares for obvious reasons! Well done also to **LCpl** 'Jen' **Teague** – the two day warrior, who despite the limited time spent out on the area still managed to shine. The prize for the best mosquito bite goes to **Sig** 'Jonny La Mule' **Carroll** whose head seemed to turn into the FA Cup by EndEx. At EndEx the Troops were assembled into teams ready for the 8km March and Shoot. Comd Tp came first – well done to them and commiseration's to RRB Tp who actually lost a great number of points owing to the appalling efforts on the range by the supposed Troop Marksmen: **Sigs Al Booker** and **Kibble.** We all now know of course that they couldn't hit an Elephants backside with a Banjo!

EXERCISE WEEKEND INITIATIVE 2 – 4 JUNE 2000
by LCpl Lutkin

Here in Germany there is an age-old concern about what single soldiers ought to be getting up to on their free weekends. Sadly there is a great tendency to drink immense amounts of alcohol and never venture further than the world of Playstation and in our case Herford town centre. To overcome this problem we at 211 Sig Sqn devised a plan that would follow the normal, accepted, and very popular regime adopted by our young 'singlies' but also make that first step towards venturing further out into the continent. The idea? Simple: Four teams, a select few but far flung destinations, some simple tasks, some supervision and oodles of scope for imaginative adventures. By all accounts some VERY imaginative adventures were had by all…outstanding. Here's one account that could actually be printed (and sorry but -Fotografieren Verboten):

A typically boring Friday loomed over us yet again with the possibility of working over the weekend, which was published on orders the week before. That was until the man with the stick decided differently! **SSM Kelly** called us all into the Squadron Conference room, (that is all the block orphans and a couple of wannabe block orphans). We all sat there in anticipation waiting for the weekly 'Don't let me down this weekend and Elvis is dead so take those lamb chops up for Monday' talk. However, this did not come but instead a formal set of orders were issued along the lines of:

1 x Minibus
14 x Block Orphans + 1 pad + 'Q' the DS.
3 x locations to choose from in Germany
and finally several tasks to complete in a set time.

Not a problem we all thought. Command Troop's three cities where Kiel, Dusseldorf and Heidelberg. The group decided to go for the latter as it was the furthest away from anything to do with British Squaddies and also the 32000 students that live there. (For some reason **Sig Heath** 'the Captain' **Greville** showed enormous enthusiasm for living like a student again). We departed on the five hour journey down south which incorporated several toilet stops which where approximately every 5oom on direction from **LCpl Jess Limbert.** After some frantic phone calls we finally found accommodation in a Best Western Hotel in Mannheim – a place considered posh by Blackpool standards. The hotel had a swimming pool and a sauna which was used immediately by everybody with or without swimming costumes. **Bdr** 'Subwoofer in de boot' **Bedford** said he could swim faster without shorts, who are we to argue! That night was spent infiltrating the local community in down town Mannheim which was very cosmopolitan. **Sig Leonna** 'pass me another' **Caulfield** found the only Irish bar and **Sig Ken Barlow** found every gutter. **LCpl** 'looters' **Lutkin** tried with immense diplomacy to gain entry into many clubs (let's just hope we now do actually win Euro 2000).

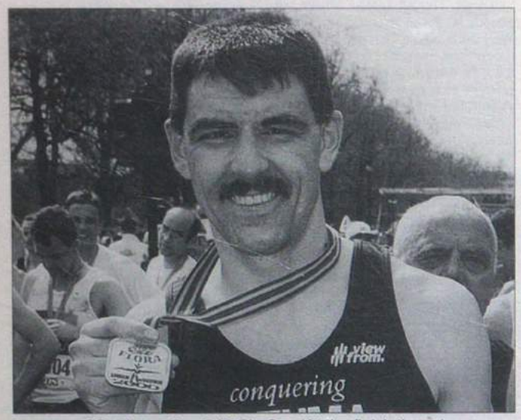
The next day saw us making the short journey to Heidleberg where we started the tasks in hand. Looters and Bedders went to find some accommodation whilst the rest shopped in the PX buying everything American. After sorting the accommodation, the next step was to find somewhere to watch the football and obviously more importantly plan the day's events. After two hours of deciding what to do, **Grevs** decided to shoulder the burden himself, being the hero that he is, and go to the castle and complete the tasks himself…good for him! Needless to say when day became night we continued to integrate with the local populous and had yet another cracking time. It also so happened to be one of the biggest nights of the year in the Heidleberg calendar with a fireworks display over the castle. We weren't that bothered about the fireworks of course but this did empty the bars somewhat again to our advantage. The beers flowed nicely and it was soon time to hit the clubs. This was where the **SQMS** 'John Travolta' **O' Brien** made his point that it really does not matter whether you are old or infirm he could still 'mix it up wid da best of dem, boyaka'…yeah right!

The final day was spent travelling back and trying to work out how much we had spent. Who cares! It was a spot on weekend which hopefully will be repeated soon.

26.2 MILES FOR THE NATIONAL ASTHMA CAMPAIGN
by SSgt Deano Cox

This event is the perfect vehicle to raise money for many charities that are often close to the heart to the runners involved and that was certainly the case for 211 Sig Sqn's, **SSgt Deano Cox. Dean** ran the London Marathon 2000 on Sunday 16 April, (which also happened to be his 34th birthday – what a present!) to raise money for his chosen charity, 'The National Asthma Campaign'. His son **Mitchell** (aged 2 and a half) was diagnosed with asthma a short while ago and therefore **Dean** could not resist the lure of the big run to contribute towards the efforts of this

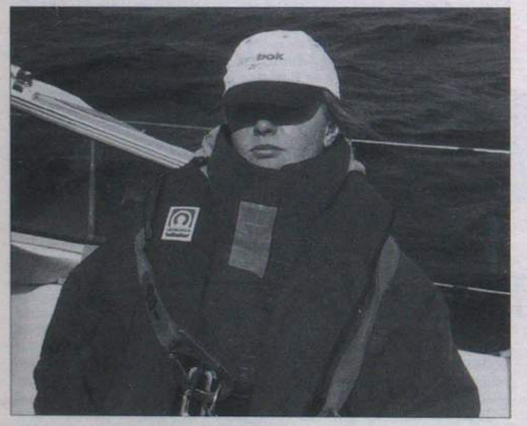
fantastic charity. He completed the run, his fourth London Marathon overall, achieving his personal best of 4 hours, 20 mins and 16 Secs. All told he managed raise over £1500 (DM 4656) for Asthma Research.



SSgt Dean Cox 211 Sig Sqn 'At the finish line...'

DIVISIONAL SAIL TRAINING WEEK
by 2Lt Kathy Burgoine

After two arduous weeks on exercise our team of sailors were ready for a relaxing and sunny cruise from Kiel on the north coast of Germany, around the Danish Isles and back again for tea and fish fingers! Little did they know what they were letting themselves in for! After a gentle break-in with a training afternoon the eight crews were to compete in several races including a night passage. The first race left us marooned and battered after encountering a squall whilst everyone else sailed on unaffected by our freak weather conditions! The gale force wind appeared from nowhere, bringing with it hale, sleet and fog. The mast was vibrating so hard that even the skipper showed fear in his face as we struggled to bring the sails down! This was not the end of our encounters with the fickle mother nature. Going from one extreme to the other we later found ourselves without wind and with **Lt** 'Shakey' **Shakespeare** standing on the fore-deck poling out the jib with the boat hook! Winning the races became more vital as the points added up, and the sailing became increasingly exciting and tactful. Yachts began to leave the main fleet to try their luck at navigating different routes, whilst tacking around the buoys became more heated and exciting as places were gained and lost in seconds. As the week progressed our sailing skills improved and nothing could beat the early morning visit to the bakery for a daily Danish Pastry!



Sailing
'Come on...smile...this is great. LCpl Opie feels another wave'

2Lt Burgoine proved her aptitude for attending university by not being able to solve a simple puzzle of placing two extra people into a scenario, but did however manage to place eight extra! How? We'd love to know how but it defies all logic! **SSgt Cox** ensured the good weather was enjoyed by all by keeping a steady flow of pork chops and Bratwurst arriving, which were then expertly cooked on the BBQ by **LCpl** 'Delia Smith' **Thompson**. Yet even with all this good living, no one had the chance to get fat as **Cpl Chris** ' What's down this hill?' **Vickers** kept us all in shape with his daily PT sessions!

212 SIG SQN BATTLE CAMP
EXERCISE METAL JACKET
by Sig 'Dale' Turner and LCpl 'Al' Taylor

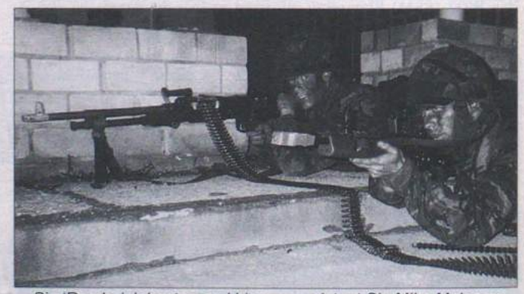
The annual 212 Squadron Battle Camp started at some ungodly hour on Monday 22 May where we moved to Haltern Training Area. Having deployed we were given a set of Troop defence orders by **2Lt** 'Chris' **Holland** and then moved off to our defensive location. Once firmly into routine, recce groups were sent out led admirably by **Cpl Ian Fowler**, **Cpl Chris** 'Kit Bag' **Simmonds** and **LCpl Al** 'Startled Rabbit' **Taylor**. All appeared to be going well until **Al Taylors** Section were ambushed much to the amusement of those listening in on the radio, the phrase 'squeal like a pig' came to mind **as Sig** 'Ginge' **Turner** tried to give a contact report. Having been on the receiving end of endless streams of tales of the bravery shown by the recce sections the Troop moved into night routine to prepare for a possible enemy attack.

In the wee small hours of the morning those asleep soundly in their trenches were woken to the noise of an attack on their positions. Despite returning as much fire as possible, though not enough to kill **Sgt Fraz** 'Invincible' **Reid** it was necessary to withdraw from the position. This went without its fair share of incident with 'Ginge' **Turner** getting captured for the first of many times during the exercise. Also Two 'Kit Bag' Section left the majority of their equipment behind. Having regrouped we decided that 'Ginge' **Turner** was indeed missing in action and, having all seen the Blair Witch Project we decided that it would be better to move off and await further adventures rather than go back into those woods again!

Tuesday saw the Troop practice fighting in woods and forests (FIWAF) which the Troop enjoyed due mainly to the protection given by **Sig** 'Rambo' **Johnston** and his gun assistant **Sig Mike Maloney** who had arrived at the unit only hours before deployment, lucky lad. The day ended in victory for the Troop as we regained the position lost the previous night not without a cost though, the valiant death of **Sgt Aidy Simms**. After moving to Bockheimburg and into a hasty harbour we were tasked to escort the Commanding Officer out of the TAOR. However, along the route another ambush was sprung with the Troop springing ninja like into action against the enemy but not quick enough to prevent the Commanding Officer's death. After routing the much-vaunted enemy, we once again took to the road...

In the pouring rain we moved onto the Sennelager Training Area where **Capt Jase Nichols** led a gruelling tab to the next bivvi location. Thursday consisted of close target recces in preparation for a dawn assault on the OBUA village. Again things didn't go according to plan with the majority of the patrols being captured; notably the troop Houdini, 'Ginge' **Turner**. The recce continued into the night and gave everyone the chance to rest and recover.

Another late night tab had the troops ready to assault the OBUA village at first light on Friday morning, which was to be the culmination of our training. Despite everyone claiming to have little or no ammunition left the initial assaults were supported by plenty of fire and once in the buildings the rooms were cleared and all enemy sand bagged and handed over to the pleasures of the **SSM Dave** 'Geneva Convention' **Rook**. Despite the quickness of the assault the enemy had devised a new weapon to slow the attackers down, flour, which was dropped from the top windows onto the Troop giving some of the sections a very ghostly look (Ex Asslt Pl Comd now **Sig** (Capt) **Jase Nichols** and Asslt Sect Comd **LCpl** 'Iain' **Cowley**.



Sig 'Rambo' Johnston and his gun assistant Sig Mike Maloney give fire support

To say that the exercise was a success would be an understatement as by the end of the final attack there were some big smiles and a real sense of achievement within the Squadron. This was only possible thanks to the great effort put in by **Sgt Lee** 'Barney' **Balmforth** and the other members of the Squadron who acted as enemy. Congratulations to **Cpl Blacklock** who was awarded the Stone Warrior award for the best soldier in the field – he takes with him a trophy and a significant limp!

REGIMENTAL TUG OF WAR TEAM – 'GANTRY DOGS'
by WO2 (SSM) D. Rook

The seasons' training began in February amongst the rain and gloom of a surprisingly mild German Winter. This was very much a new team with few experienced 'pullers' for the Team Coach to mould into men so strong that their arms and legs were to be like 'blue steel that a cat could not scratch'. A brand new Gantry was also built at the Werre Strasse sports pitch. It became a refreshing change instead of dragging a metal

cage filled with old tank tracks endlessly around the grass. Our first competition was an invitation to the Aldershot Show. After an initial nervous start we found that we were not far behind the major teams with some excellent wins against 2CS, 3 RSME, 2 RSMRE, 14 Regt RA. Both A and B teams proved that some hard training had not been wasted finishing fifth and fourth in both weights, respectively. After a long drive back to Germany to participate in Ex Premier Link 3 the Regiments TOW and Athletics Teams travelled back again to UK to train for the Morrison Cup Millennium Games.

Tug o' war

On Friday 19 May, we lined up against other units from around the Corps. We were determined to take the Morrison Cup trophy back to Herford. There were six teams in the male competition and three female teams entered their competition. The final for the male competition was after the female event that was gallantly won by the ladies of 14 Sig Regt. The crowd was driven to a frenzied state as our team won the first end and the crowd erupted. After changing ends the 11 Sig Regt 'A' team recovered and courageously clawed back to win the second end. After a nail biting toss of the coin, our team won the 'favoured' end and with the Coach shouting himself horse the 'A' Team collapsed after winning the third and final end, becoming Morrison Cup Champions of the Millennium Games. A special mention must go to the 'B' Team who placed a very creditable third position, plus the unit Female Team who managed third position against strong opposition.

The SOinC (A) presented individual trophies to the winning team and after some much admired foot drill in anticipation of receiving the Morrison Cup Shield, HQNI and 15 Sig Regt apologised for not returning it and we are assured it is in the post! The teams then returned to Herford, only to drive down to Rheindahlen to compete in the Rheindahlen 'Not Very' Summer Show! The training again paid off with wins against all the teams that had turned up from around Germany. A and B teams from the Regiment were entered again and won against all the opposition from the following units: 26 Regt RA 'A' and 'B' teams, 3 CS, 1 CS, 4 RSMRE. The final in the centre arena proved a disappointing event as the 26 Regt RA 'A' team, beat our 'A' team by two straight pulls to take a trophy we should have really won. There is always next year to look forward to!

201 SQUADRON ADVENTURE TRAINING
by Lt Michele Hanlon

May saw some of the Squadron down tools and head to Bavaria for a spot of level two adventure training. As part of a ten day package the soldiers were split into several groups to pursue a variety of activities including climbing, kayaking and hill walking with the aim of finishing the package with a qualification.

The Climbing group under the direction of **SSgt Ian Conlan** and **2Lt Cathy Stephens** were soon challenged on the first day when one of the group **LCpl** 'Disco leg' **Harvey** was found to have a fear of anything higher than his boots. However, as the week commenced he overcame this and became at one with the rock, and was soon named limpet mainly due to the fact that he was determined not to fall off. He was also the only member of the group to scale a Grade Five as everyone else fell, literally by the wayside! **Sig** 'Scouse' **Barwise** was also a natural and took to his new found sport like a walk in the park. Overall the week was a great success with a series of days both in and out of doors and culminating in all of the students receiving their Rock Climbing Proficiency Qualification.

The four walking groups began their long road to a Summer Mountaineering Proficiency qualification by easing into the training by a gentle climb (not) just to get the legs working. After the initial warm up we then began to bag some peaks and were soon up above 1800m learning ropetricks, weather forecasting, navigation and in the case of my group some very bad jokes. The week continued with a few more quality days in the sunshine and culminated with an expedition to a mountain hut where **Sig** 'I am a Jenga king' **Jenkinson** showed us all a few moves during extreme jenga and the epic millennium snail racing championships took place. So now after all their hard work all the walkers are more than ready for the dizzy heights of K2 and Everest so watch this space for their exploits.

The week culminated in white water rafting, water skiing and mountain biking where the emphasis was more on the mountain than the biking. Overall an excellent ten days, special thanks go to **SSgt** 'Gaz' **Davies** for all his hard work behind the scenes which made the adventure training run smoothly and to all of the instructors for their assistance.

1ST (UK) ARMD DIV V ASTLEY BRIDGE CC TAVERNERS IN CONJUNCTION WITH EXERCISE SILVER CHILD III
by Sgt 'Al' Finn

Cricket line up 'Exercise Silver Child III'

On Saturday 22 April 2000 Astley Bridge cricket club from Bolton Manchester arrived in Herford to play the Regiment. The weather was a little hit and miss prior to the arrival of the opposition and the Regiment's team selection was a little last minute, however, **SSgt Matless** the Regiment's Captain won the toss and selected the away team to bat first. They then proceeded to score a total of 75 all out showing an excellent combination of bowling and fielding from the home team. As the sun shone and the temperature rose the home team were led into bat by their Captain and **Cpl** 'Blackie' **Blacklock** who spent no time at all getting their eye in. The skipper retired on a great score of 27 which opened the way for **Daniel Hymas** to show his expertise with the bat as well as with the bowling. **Cpl Blacklock** also retired after a good innings and **Sgt** 'Al' **Finn** picked off the final runs. The day was rounded off with a charity families disco in the White Rhino club in Herford. Many thanks to all those who helped make the day a complete success especially **Cpl Blacklock**, **Mrs Vanessa Finn** and last but not least the contact for the game **Mr Gerry Matthews** (ex RRF) who still lives in Celle. The whole day raised a total of DM1076.52 as well as the contribution from Astley Bridge CC, who with only one week's notice, were able to raise two hundred and eighty pounds towards the Silver Child charity of which all proceeds go to Great Ormond Street Hospital. Astley Bridge are hoping to return to Herford in 2001 on their annual BAG cricket tour. Should any team wish to arrange a game for Easter next year please contact **Sgt Finn** on Herford Mil 3574.

HERFORD MARCHES - ***by LCpl McGinley***

On Saturday 27 May, the 23rd International Herford Marches took place. It was held at Wentworth Barracks, 1 (UK) ADSR. The event consists of approximately a 15km march and shoot (using a Browning 9mm pistol) with nine command tasks to be completed along the way. 1 (UK) ADSR entered two teams from the mighty 201 Sqn. The teams consisted of three people each: Team 'A' comprised of **Cpl** 'Smudge' **Smith**, **LCpl** 'Ged' **McGinley** and **Sig** 'Rab' **MacLean**. Team 'B' was **Sig** 'Head' **Wilson**, **Sig** 'Russ' **Hearty** and **Sig Thompson**. With teams entered from Germany, Holland and Denmark as well as many other countries, competition was always going to be tough. The event was run by the local German unit which proved to hinder 201 Sqn's chances at some of the command tasks, especially on the boat stand , where Team 'A' decided to row the wrong way along the river; also on the map reading stand where the test paper was written in German (knowing how to order a gyros and chips didn't help much here). The other events include stripping and assembling an Uzi, a river crossing, first aid, a stretcher race and an assault course. Both teams did reasonably well on the command tasks, despite **Sig** 'I want to be a Tech' **Hearty** doing his best to sink his team on the boat stand; and **Sig** 'I don't sweat' **MacLean** taking his team on a short cut (Honest!) through a field of stinging nettles. However, the faster speed over the march ensured that Team 'A' finished ahead of Team 'B', with the teams finishing seventh and eighth respectively. After the event there was a barbecue and drinks held in the Royal British Legion. If these activities had counted towards the final score then Team 'A' would have finished a lot higher than seventh place!

DIVISIONAL SKILL AT ARMS MEETING 2000
by Cpl Warnes

The Divisional Skill at Arms meeting was held at Sennelager ranges over the dates of 23-26 May. The Regimental Team consisted of four teams of four, all varying in competition experience so we were in with a good chance of a few medals, or so we thought. The competition started with a rifle APWT in which a few of the team did really well, **Cpl** 'Paul' **Lester**, **LCpl** 'John' **Doran** and **Sig** 'Zilfinquar' **Chowdry** all scoring highly and gained qualification into the next round. Unfortunately this was as far as they got. Pistol APWT was the next on the list and again a few high scores from the two shoots that we did, **Cpl** 'Wilf' **Warnes**, **Cpl** 'Paul' **Lester** and **Sig** 'Gav' **Wilson** qualifying for the next round yet again the shooting stopped at this point. The LSW was too painful to print, apart from the score of **Sgt** 'Gerry' **McGachy** who did well but yet again had a dismal second round, story of our life! Last but not least was

the Fire team assessment, which I nearly died on even though I am still adamant I timed it to perfection. It consisted of a two mile run with 25lbs, weapon, webbing, ammo and wearing your helmet, after all that you still had to fire 35 rounds at varying distances and in NBC kit. Both team scores were good but not good enough to win anything. When it was all over the Unit came a close second to 35 Eng Regt but to this day we are still baffled how this happened as we beat them on the Rifle and Pistol competitions and the Fire Team assessment, however, they did beat us on LSW. It was a close run thing but unfortunately no silver this time!

2 SIGNAL REGIMENT

CO **Lt Col I. Cameron-Mowat**
RSM **WO1 (RSM) S. C. Keilty**

The Regiment has been involved in a diverse programme of military training, sport and charity. As most of the Regiment drove out of the camp gates on deployment to America on Ex Roving Sands and to Germany on Ex Arrcade FusioN, 219 Sig Sqn arrived back from Bosnia where the Squadron has been serving on Op Palatine since December 1999. The Regiment has also recently been awarded the Birtwhistle Pennant of Merit for Recruiting, presented to CO, **Lt Col Cameron-Mowat** by the Master of Signals, **Maj Gen I. O. J. Sprackling OBE**.

The Master of Signals presents the Birtwhistle Pennant of Merit for Recruiting to the CO

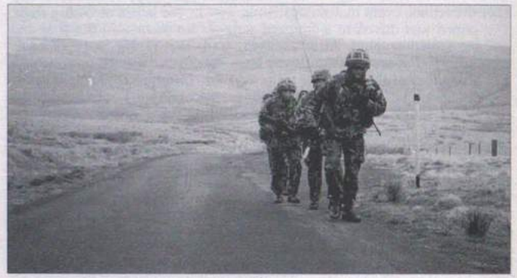
EXERCISE KOHIMA LEADER 03-14 APRIL 2000
LEADERSHIP COURSE

Since last year's Leadership Course had been cancelled due to deployment to Kosovo, it was with much relief that the coach pulled out of Imphal Bks on 3 April heading north to Otterburn. Something woke me from my slumber; there was the smell of DS in the air. After some short organisational shouting by the Training Warrant Officer, **WO2 (SSM)** 'Geordie' **Hancock** we were introduced to a gentle tab over the undulating terrain of Otterburn Training Area. After the 5-mile warm up we were fed, accommodated, kitted out and thoroughly briefed prior to receiving the first of many lessons that made up Part One of the Leadership Course. This training phase covered battle PT, combat estimates, skills lesson, discussion groups, range work, navigation by night and day, field-craft and tactics.

Saturday was the start of Ex Round Robin organised by the RSM and the Training Warrant Officer; a navigation exercise completed in five teams over some challenging terrain. Inter-section rivalry really kicked in and everyone gave their all to get round the course. The highlight for most was the 264 Sig Sqn stand where we were introduced to a range of foreign weapons, and then had to give a 5-minute presentation on their characteristics! A GPMG SF shoot followed this, which was a new experience for many of us. The other memorable event was on the 'Stalking Stand' where we were issued a single round and had to use cover to advance up a hill against an Observation Post. **Sig Amar** almost frightened **Lt** 'Jamie' **Noble** out of his skin by popping up literally a few feet in front of him, unnoticed.

Command Tasks 'What happens now?'

After the stands we were issued orders and the following morning moved out of the relative comfort of the camp to the baby's head infested wilderness that was to be our home for the next phase, test week. This busy week gave us all a chance to strut our stuff as Section Commanders or 2IC. Burdened only by the newly acquired skills of receiving and giving section orders, and the occasional prod from the section DS, we got used to administering ourselves in the field. For some it was a long and uncomfortable process but we all got there in the end. We practised occupation of harbours, recce patrols, standing patrols and fighting patrols throughout the Exercise. On the go for three days and unkind weather left us all tired as we approached Endex. **WO1 Terry** did raise spirits on the Night Patrol range as he followed a fire team along a trail of trip-flares and booby traps. The patrol failed to trigger a sandbag, which was supposed to knock a member of the patrol on a bridge. The fire team crossed safely until **Mr Terry**, in a scene reminiscent of a Roadrunner cartoon (**Mr Terry** cast as Wily E. Coyote), jumped on the bridge and was struck by the sandbag, which launched him into the water.



The long walk home

The final platoon attack at dawn gave us the opportunity of putting all the skills we had learned into practice. So that was Endex. Well, not quite. There was an added bonus of an inter-section March and Shoot competition to round things off. Dragging up our reserves of energy we got round, in particular **Sig Cowan** was witnessed at the heavy end of a jerrican-laden stretcher pushing two of his colleagues up the final hill. A formal dinner marked the end of the course for the students and DS. The CO, **Lt Col Cameron-Mowat**, presented the prizes and, for the first time in two weeks, managed to render **Sig** 'Taff' **Tutton** speechless when he was not only awarded the prize for top student but was also promoted on the spot.

Top Student – Sig 'Taff' Tutton

The course was thoroughly enjoyed by both students and DS. On our return to York we were given a personal de-brief and were presented with our certificates of achievement. Finally we posed for the course photograph which will be a memento of the hardest thing we have done ..... so far.

MORRISON CUP 2000

The Regiments sporting eyes were fixed on the performance of the Athletics team at the Corps Meet, 18–20 May 2000, competing for the Morrison Cup. Staged over two days for this special Millennium event, the team, complete with new team tracksuits arrived to discover their luxury accommodation was a tented camp at Weymouth. The driving wind and rain battering the side of their tents did not impress the team but after initial cries of mutiny everyone settled in for a good night's sleep.

Awaking to dark clouds and darker faces an English breakfast and a mug of tea set the team up for the day's events. The team had had minimal time to practise so did not know its true potential. Fortunately we had a few cross-country stars, **Sigs Grady**, **Tucker** and **Shepherd** who soon found themselves entered in the long distance events and some seasoned veterans including **Cpl Wood**, **LCpl Greenhill** and **Sig Dourley,** who could be relied upon as a nerve calming influence. Day One opened with a downpour, dampening the track and competitors' but soon **Sig Caplin** was storming home to finish second in the women's 5000m and later **Sig Tucker** finished second in the men's 5000m. By the final event of the day the men's team were in third place and the women's team in fourth place. Fortunately the team did not get blown away in the night and arrived at Blandford on Day Two to put in some outstanding individual efforts, notably **Sig Greenhaugh** in the women's 200m, **Sig Grady** in the men's 1500m and **Cpl Wood** in the men's 100m. Also **LCpls Greenhill**, **Warner** and **Sig Dourley** in the High, Triple and Long jumps respectively. By the 4 x 400m relay race the team was still in third place, just behind 1 (UK) Div & Sig Regt. We had a strong team and knew that victory was not beyond our grasp. After a brilliant second leg by **Sig Cowan** the team lay in second place, but as **LCpl Gittins** overtook a runner in the third leg the two athletes clashed and **LCpl Gittins** made a dramatic tumble. All seemed to be lost. Cheered by the crowds **LCpl Gittins** quickly jumped to his feet and with real determination retook two places before handing over to **Sig Grady,** who left the 1 (UK) Div challenger standing and cruised home into second place.

The team took home second place in the men's competition, the winning team being 11 Sig Regt. Sadly the Morrison Cup evaded us for another year but we returned to York with medals and are looking forward to the coming season.

RACE THE SUN 2000 - £4,000 RAISED FOR LOCAL CHARITY

Race The Sun is an annual charity competition, which takes the form of a 15-leg relay, over 182 miles in a 12 hour period. The event is organised by 2 Sig Regt and legs are varied and challenging ranging from canoeing to mountain biking, swimming to tabbing through scenic Yorkshire countryside. The competition is open to all units to enter and raises considerable funds for local charities.

The entry for Race the Sun 2000 was 11 teams who came from a wide

selection of units, including for the first time, a civilian police team. The race, held on 25 May 2000, started in traditional style as dawn broke, well a little later, at 0500hrs. Each leg has a twist but **Sgt** 'Dean' **Nichols** started the day in style by using a canoe without a spray deck and demonstrated the first submarine ever seen in York. There were outstanding performances from **Capt** 'Splitter' **Scott** who competed in three events and **WO1** 'Andy' **Terry** who completed two events back to back, which included winning the orienteering. All the events ran without a hitch thanks to the hard work and organisation of **WO2 (QMSI)** 'Dave' **Clark**. All 220 competitors entered into the sportsmanship spirit of the day, which resulted in 11 Sig Regt finishing as the well-deserved winners of the event. 30 Sig Regt won the trophy for raising the most money for charity and despite heavy operational commitments their team achieved third place. The Combined Mess's Team from 2 Sig Regt proved that the oldies have stamina, the team had an average age of 40 years and they achieved fourth place. The Leicester police team was awarded the shield for Best Effort, an outstanding achievement in completing the event and coping with all the Army jargon. The event raised over £4,000 for charity and a huge thank you to Nestle, the event sponsors.

DATE FOR THE DIARY
RACE THE SUN 2001
is planned for
10 May 2001

ASSISTING ITV's YEAR OF PROMISE
A GARDEN FOR THE SENSES

Early in May volunteers from 214 Sig Sqn, led by **Capt Richardson**, put their talents to work for 'ITV's Year of Promise'. They assisted the building of a special garden for blind and partially sighted children at Knaresborough. 'Henshaws Garden of Senses' will allow children who cannot enjoy the visual sight of a garden to experience the beauty of the outdoors through the sensations of touch and smell. **Cpl** 'Bob' **Green** and **LCpl** 'Nic' **Burnip** developed some good blisters as they levelled ground for turfing, **LCpl Anil** was IC Fire-Starter burning old foliage and **Sigs Bradley** and **Adkins** did some fine cement mixing and wheel-barrow work. The event was covered by Yorkshire Television's programme 'Tonight'.

Capt Richardson and the Gardening Team at 'Henshaws Garden of Senses'

MIKE TROOP

Following the post-RSIT lull life is hotting up again for Mike Tp with the preparations for Ex Roving Sands and Arrcade Fusion. The Troop is really looking forward to the return of the crew from Bosnia in June and there are other changes afoot. **Sgt** 'Bertie' **Hoyle** is off to 7 Sig Regt as a Troop Staff Sergeant, yes miracles do happen. Also leaving are **Cpls** 'Dave' **Randall** and 'Johnny Mac' **McKeown** on their T1 course. Congratulations to **SSgt** 'Daz' **Evans** and his wife, **Jo**, on the birth of baby **Hannah** and to **Cpl** 'Taff' **Livesey** on his well-earned promotion and move to 214 Sig Sqn. Finally welcome to the new **WO1 (FofS) Dodd** and to **LCpl Caplin** and **Sigs Hem, Ishwor** and **Pitamber** posted in from the factory.

Why not pay your subscription by Direct Debit? Ring 01258 482079 and we will send you a form

Mike Troop – The Full Team

214 SIGNAL SQUADRON
Sqn Comd **Capt Stuart Scott**
SSM **WO2 (SSM) Kev** 'The Pocket Rocket' **Smith**

A hearty goodbye and good luck to our recently departed OC, **Maj David Somerville**, who has up'd and left us for sunnier climes in PJHQ.

TN 021 ROMAN TROOP
Tp Comd **SSgt Chris Symonds**

Roman Tp has had a busy period, losing our Troop OC, **Lt (soon to be Capt) Stu** 'Johnny Bravo' **Whittley** up to SHQ as the acting 2IC 214 Sig Sqn, and just when **SSgt Chris** 'High and tight' **Symonds** had started to get him broken in! In true Roman tradition, members of the Troop took part in both the Super Siggy competition and the Regimental Cadre Course. The Troop gladiators were **Sigs Ashcroft, Davis, Dixon, Sexton** and **Smith**. Although not all completed the full course, **Sig** 'Ronald McDonald' **Ashcroft** came out as the fittest Roman (Shock!) and **Sig** 'Smoking fist' **Smith** demonstrated he is a closet military doctrine geek when he scored well in the field-craft and leadership phases of the Exercise. For once our good-byes are shorter than our hellos. After serving an illustrious 22 years **Cpl Eddy** 'The Guvnor' **Leek** will be dined out in June. Welcome to **Sig Dean**, recently arrived from training and to our newest Gurkha soldiers in the Troop, **LCpls Anil** and **Bom**. Watch out all you Skiers; **Cpl Tony** 'Corps Skier' **Orange** is arriving from BFG! The Troop is looking forward to a good exercise in Germany and stocking up for summer BBQ's, whilst contemplating how to take on the upcoming Project Cormorant in the very near future.

TN 023 VIKING TROOP
Tp Comd **Lt Jamie Noble**
Tp SSgt **SSgt Terry Shiels**

Preparation continues for our summer of fun in the good ol' US of A. To prepare us for this arduous task we went on a little day out…

All was set, even the sun was shining but unfortunately **Cpl** 'Gav' **Bevan** volunteered to drive. However we soon arrived in Keswick and found our peaceful family campsite and began assembling our tents. Despite his insistence **Cpl** 'I'm in charge ' **Parkhill** could not get three people into his crisp packet size tent. Having settled in we took on Mount Skiddaw and being a bunch of gladiators we opted for the hard route stopping for lunch at the top where **Sig** 'Ginger' **Mitchell** made friends with a goat and lost his food. We then slipped our way back to camp on some unforeseen snow and **Sig John** 'baby' **Rees** made good use of his backside. Then **Cpl** 'I'm still in charge' **Parkhill** decided we would climb the neighbouring mountain, much to the dismay of the older group members, not mentioning any names; **LCpl** 'Daz' **Culver**. Tired and wet we eventually got back to base camp, showered, changed and into the quiet Lake District town for a Babycham or two before waking the whole campsite on our return. Then the rain came and **Cpl Andy Plumb** found that his tent was not totally waterproof, much to the dismay of **LCpl Andy Williams** who had decided to sleep in it. The following morning, aching and wet we packed our tents away and headed off back to York for a well-needed rest and to tell stories of 'The Day We Conquered The Mountain'.

TN 024 CELTIC TROOP
Tp Comd **Lt Dhan Gurung**
Tp SSgt **Sgt Debendra**

Life for Celtic Tp has been geared towards the forthcoming Ex Roving Sands. In preparation Celtic, Viking along with personnel from 219 Sig Sqn deployed to Kirton Lindsey on Monday 8 May to support the 22 Air Defence Regiment. The purpose of this Lincolnshire outing, Ex Dragon's Heart was to test the compatibility of Ptarmigan with ADCIS. It was a resounding success. Since our return to camp we have been extremely busy preparing all the vehicles and driving them to the docks at Immingham. Fortunately it was realised that the 1624 generators had been left behind before the boats set sail…..

3(UNITED KINGDOM) DIVISONAL SIGNAL REGIMENT

CO **Lt Col Neil Couch**
RSM **WO1 (RSM) Stoker**

REGIMENTAL ROUND UP

Marital Bless - The wedding epidemic continues to sweep through Bulford as **Lt Ollie Gardiner** joins the Commanding Officer, **Lt Col Neil Couch,** on the long walk to the alter this June. Congratulations to both of them (No, not to each other), congratulations also to **Rachael** and **Emma.** Following closely in their footsteps are **Capt Richard Odling** and **Hannah,** due to be married in the Summer and waiting in the wings is Brigadier sorry **Lt Grice** who informs us that he is now betrothed to **Janina.** Such a keeness to follow their Commanding Officer is obviously admirable……keep watching the Blue List!!

Lanyard Trophy - In an attempt to produce a team from 3DSR that could actually finish the Lanyard the Regiment found a combination of naive youth, pressed men and pensioners with egos years younger than their bodies. The aim was to get all ten to around the 40 miles mark in one piece and apart from some Lion Sun foot problems we almost achieved it. We finished in seventh place despite the 2IC's inconsistent use of his map and compass and the Regiment thanks **WO2 (SSM) Archer** for preparing the team:

Maj '41 going on 18' **Bateson**
Lt 'Upside down wings' **Irwin**
WO2 'Last Lanyard?' **Archer**
SSgt 'Do I get sponsorship' **Howson**
Sgt 'I walk, not talk' **Brown**
Cpl 'Suffer in silence' **Lovick**
LCpl 'Where's he gone?' **Westerman**
LCpl 'Eight hours to warm up' **Ackers**
LCpl 'If it's good for Lt Irwin ….' **Richardson**
LCpl '39 miles too far' **Kemp**

One of the secrets of our success was the physical and moral support provided by our superb back up team led by the UWO, **Capt** 'Not as good as 249 Sig Sqn, Wyc, Aye' **Terry Crane.** Thanks to **LCpls Coates** and **Newcombe** and **Sig Whyllie.**

IRON FIST

On the only sunny day in March the Regiment was invited to challenge 14 Sig Regt (EW) to a sports competition at Brawdy. With over 150 soldiers we descended on Cawdor Barracks ready to do battle with the forgotten Regiment in Wales. Having the home advantage 14 Sig Regt were victorious in the Hockey, Cross-Country and the Volley-Ball with 3 (UK) Div winning the Football.

The successful Boxing Team
Back Row: Cpl Tharby, Sig Locke, Cpl Matthews, Capt Crane (Boxing Officer), Cpl Watts, Lt Irwin, Sig Conner, Sig Nash
Front Row: LCpl Richardson, LCpl Ball, LCpl Wheeler, Sig Needs

The best and most battered boxer on the night
Lt Irwin Light Heavyweight Winner

The day culminated with a spectacular Novice Boxing Competition. All boxers showed great courage and the contest was only decided by the winning Welter Weight after both Regiments chalked up three bouts each. The decision went to 3 (UK) Div HQ and Sig Regt who came away with the Iron Fist Shield. The Regiment would like to thank 14 Sig Regt for an excellent two days in Brawdy. The additional silverware in the trophy cabinet will be keenly defended the next time we meet.

HOCKEY

STOP PRESS – Even more success for **SSgt Bru Baker** and his Ladies Hockey Team. On Friday 9 June 2000 the 3DSR team represented the Army in the first Tri Service Cup Winners Cup at Portsmouth. As Army Champions they played RAF Innsworth and BRNC Dartmouth. Despite missing the 2IC's support, two magnificent performances meant they were Tri Service Champions running out 11-0 and 11-3 victors. Deserved success for talented players and an extremely well drilled team. Congratulations also to **Cpls Tracey Hoffman** and **Tracey Prowse** and **Sigs Salmon** and **Harris** on their Combined Service representation over the same Festival of Hockey weekend.

The loneliness of the long distance runners. Despite having second, third and fourth places in the cross country run a lack of depth on the day resulted in a 14 Sig Regt win.

202 SIGNAL SQUADRON
Sqn Comd **Maj R. J. Quinlan**
SSM **WO2 (SSM) McNaught**

OVERLOON TROOP
Tp Comd **Lt Irwin**
Tp SSgt **Sgt J. Rowe**

The Exercise season came and went in a flash, starting way back at the end of January and culminating in Ex Spring Foray in Mid May. Overloon Tp, as usual, performed well on all of the exercises providing all of the many systems to the Staff. On Ex Spring Foray the Troop managed to be 'Main' for a substantial period and dazzled the HQ Staff with their knowledge and high levels of performance. During the Exercise period the Squadron was augmented by manpower from 238 Sig Sqn and 249 Sig Sqn (AMF), who all proved to be of immense help during this taxing Exercise and we thank them for all the hard work they put in. In O Tp, a soldier gets 'crated' for a mention in '*The WIRE*' – so here goes for welcomes, farewells and congratulations. Welcome to **Lt Irwin** from 206 Sig Sqn, **Bdr Pogue, LCpl Nicky Dodgeson, LCpl Liam Parker, Sig** 'Randy' **Hussey** from W Tp, **Sig Nick Pallis** from MTCC Colchester and **Sig Royal** from the factory. Farewell to **LCpl Andy Higgins** off to Civvy Street, **LCpl** 'AK' **Akkulugadu** posted to NI, **SSgt Dave Oliver** posted to 30 Sig Regt on completion of Info Sys Op training, **Cpl Julian Towers** posted to Aldershot, **Sig Chris** 'Frankenstein' **Hartell** off to Civ Div, **Sig Martin Harper** to 2 Sig Regt, **Bdr Larry Loates** back to the Gunners, **Gnr** 'Smudge' **Smith** back to the big boys at 40 Regt RA, **Sig Kathy Simpson** to W Tp and **Capt Pat Pritchett** to 7 Sig Regt. Congratulations on promotion to **Sgt Joe Rowe, Cpl Trev Evans, LCpl Nicky Dodgeson** and **LCpl Parker**. Also a big well done to **Cpl Tracey Hoffman** in being a member of the Div Hockey Team champions , and to **Sig Sally Marsh** for her successful selection for Nursing Training in September.

BUSSACO TROOP
Tp Comd **2Lt S. Lumley**
Tp SSgt **SSgt** 'Mine's a Port' **Howson**

Welcome to **Sgt Jim Grey** who has joined the Troop from 243 Sig Sqn , **LCpl Robbie Turner** from 280 Sig Sqn, **LCpl G. Symons** who has come from JSSU , **Cpl Rob Hickley** and his wife **Toni**, who have joined us from HQ Sqn along with **LCpl** 'Bobbi' **Ball** and his wife **Mandy**, and **LCpl Martin** 'LA' **Treen.** Farewell to **SSgt Mick Brown** and wife **Kay** who have gone to 1 Mech Bde, we also say goodbye to **Sig Al Locke** and **Sig Lee Brakewell** who have both left the army – best of luck, and last but not least **Cpl Andy Gleadall** and his wife **Caroline** who have gone to Blandford. Over the last few week the Troop has been busy on exercise preparation and on exercise Red Tricorn two/Spring Foray. We are currently preparing for RSIT at the end of June. Preparations are also underway for the Regimental Open Day. **SSgt Pete Howson** and **Cpl Mark** 'Stonemeat' **Flintham** are trying every scam possible to raise funds, as they are helping CUOTC on Ex Deja Blue, an expedition to Capetown, South Africa. The aims of this expedition are to celebrate CUOTC battle honour whilst raising funds for East Anglia Children's Hospice (EACH). Any donations sent to 202 Sig Sqn will be gratefully received.

WATERLOO TROOP
Tp Comd **Lt P. Simpson**
Tp SSgt **SSgt Wringe**

Well it's another busy period since the new millennium, so much so that the years halfway through already. There's been plenty of comings and goings in that time. Firstly we'll start with those who have managed to escape the clutches of 3 Div. We start with the ever popular **Cpl** 'basics' **Giddens** to 19 Mech, **LCpl Gaz Wilmott** to civvy street, **Cpl** 'Barney' **Rumble, LCpl Nikki Wilkie** and **LCpl Glen Lyon** all to RSS Blandford. We will al miss your vast wealth of experience. We welcome **LCpl** 'Monbrow' **Wood** and **Sigs** 'Paddy' **Coakley**, **John Parry** and **Jamie** 'No 2' **Thompson**. We also welcome back **Cpl** 'Taff' **Morris** from his DMI course at Bovington. As usual we've had plenty to do during the Exercise Season. At present everyone's busy preparing for RSIT at the end of June, we've never seen 43's looking so clean although no doubt this won't last. It's not all work and no play though, and the Squadron has managed to fit in lots of PT everyday which has resulted in us winning the CO's monthly run.

206 SIGNAL SQUADRON
Sqn Comd **Capt R. J. Odling**
SSM **WO2 (SSM) S. T. Archer**

INKERMAN TROOP
Tp Comd **Lt G. Irwin**
Tp SSgt **SSgt M. Angove**

We would like to welcome to the Troop **Sig Alan Simpson, Sig** 'Dave' **Thompson, Sig Tony Scriven** and **Sig Sam Hall.** We would like to say farewell to **Lt Gary Irwin** who is going off to enjoy the pleasures of 202 Sig Sqn, 3 Div Main. Goodbye to **LCpl Lorna Moses** all the best for the future in N.I. Last but not least **Sig Tim Cooper** who is off to 20 Armd Bde HQ and Sig Sqn and will surely be missed by the female population of Bulford? Hello and goodbye to **2Lt Dean Atkinson** who is off to Blandford to attend his Troop Commanders course, ENJOY!!! Maybe that is a good thing as he uses our masts for target practice on exercise. **Sig Cooper** and **Sig Thompson** have promising careers ahead of them as they can juggle callsigns and configs to suit themselves. Maybe you boys should think about moving to Radcon! Congratulations to **Sean Thomas** on his promotion to Corporal, don't forget to get your crate in. Warning! Warning! To all females at 20 Armd Bde HQ and Sig Sqn, **Sig Cooper** enjoys chasing spiders in the girls block. You will soon find out. We would like to say a huge thank you to **Lt Irwin, 2Lt Atkinson** and **SSgt** 'Daddy' **Angove** for maintaining our morale during the exercise. It was much appreciated by all. **Sig Paul Kerridge** and **Sig Dave Harris** are both getting married in the near future (not to each other). **Sig Dave Durward** is leaving us to become an RP in the local guardroom, I think it has something to do with his fetish for handcuffs. **Sig Wayne Kennett** is returning to the Troop, typing up car passes has proven too much for him. A big congratulations to **LCpl Jim Kemp** and his new wife **Esta** on their recent wedding.

MONS TROOP
Tp Comd **Lt Gardner**
Tp SSgt **SSgt Fairfield**

Welcomes to the newest troop members **Sig Jeff Townsley** from 7 Sig Regt, **Sig** 'Taff' **Needs** and **Sig Tony Szejok** from the factory. Fond farewells to **LCpl Matt** 'Marvellous' **Parvin** posted to Blandford and **Sig Tammy Thompson** who left for Civvie street. Congratulations to **LCpl Steve Wood** (JCUFI), the grapevine informs us that you've finally got your Corporal tape up. Congratulations to **Sig Jimmy** and **Serena Somervile** on the birth of there son **Darren**. Congratulations to **Cpl Matt** and **Michelle Kutzner** and **LCpl Matt Parvin** on tying the Knot and finally to the boss **Lt Ollie** and **Emma Gardner** who will have tied the knot, by the time this goes to print. Good luck **Emma** from all the Troop!!!

EXERCISE LION SUN - *by Sig Stacey Blackman 206 Sqn*

Section One of Dhofor Troop 222 Sig Sqn, was mainly made up of us attached personnel, as well as some personnel of 222 Sig Sqn. At the start of the Exercise morale was high, everyone was on a buzz due to the

various forms of transport used to get us to the first location. First we set off on an LCU Boat, then a few miles from the shore each section got on to a Rigid Raider and prepared to land. Once on shore we were briefed and then taken to our first location via Wessex helicopter. For the next four days we proceeded to tab up and down mountains in sunny Cyprus, visiting different check points and stands. Needless to say by the end of the week, morale was beginning to drop slightly, even more so when we had to cut short the exercise phase by a day due to the worst torrential rain Cyprus has seen in ten years!!.....Then came R & R .....STOP PRESS .....Pictures and Reports from 222 Sqn. Next Issue (**Capt Selwood** promises the whole truth behind the Restaurant incident)!

7 SIGNAL REGIMENT

CO **Lt Col David Jones**
RSM **WO1 Steve Smoothy**

229 SIGNAL SQUADRON
CHARLIE TROOP – TRUNK NODE 011
EXERCISE WET FEET (24 – 2 APRIL 2000)

Ex Wet Feet was an Adventurous Training Exercise held over the period 24 – 28 April 2000, at the British Mohnesee Sailing Club. Participants were given the option to choose between Dinghy Sailing, Mountain Biking and Windsurfing. They all achieved RYA Level 2 Dinghy Sailing qualifications, which entitles them to take a boat out unaccompanied in light winds. The two windsurfing enthusiasts achieved Level 1, with similar entitlements.

We left camp on the Monday evening, and headed for the Mohnesee Dam near Soest for a week-long Sailing Course. We had a warm welcome from **Sgt Quinn-Williams** and his wife **Donna** on arrival, with a quick brief on the activities we'd be doing throughout the week. The last thing we were told that first night was that we'd have to do a swimming test in the morning. 9 o'clock Tuesday we all stood at the waters edge in our swimming gear. Everyone was convinced that at any minute they were going to give us wetsuits. They didn't, and **Lt Evans** and **Sig** 'Ming' **Leeming** were the first ones in with the fishes. After our swim test in a freezing cold lake we all got issued our kit – brand new wetsuits and buoyancy aids. Later that day after dry training we took out a one-man boat each (Toppers). Everyone started colliding with each other, apart from **Sig** 'Ming' **Leeming**, who spent most of the week capsizing. By the Friday 'Ming' had a new name: Uncle Albert – As every boat he got into, he had sunk.

During our breaks off the lake, **Sig** 'Taff' **Phillips, Sig** 'Acky' **Atkinson, Sig** 'Macca' **McAbe** and **Sig** 'Ming' **Leeming** had made a water display team. The 4-man team's job was to keep up morale and make sure every single person was thrown in every day. As **Foreman** 'Boycy' **Sutton** was thrown off the jetty daily, his words would be 'such tomfoolery', 'What a jolly wheeze' or 'Such japery'.

(L-R): Sig Phillips, Sig Atkinson, Sig Leeming, Sig McAbe

While most of us sailed, three brave members of the Squadron tried their hands at Windsurfing. **Sig Nicki Johns** and **Sig Claire Roberts**, fancying themselves as cool surfer chicks, chose Windsurfing for the week instead of sailing. Their instructor **Rob** foolishly thought he would be having an easy time with only two enthusiastic students to teach, but he was wrong ... He soon discovered this on Day Two, when he was forced to deploy the rescue boat to retrieve them both. After much time spent in the water, and a few teddies thrown in the corner, the pair soon became confident on the board, and could be seen showboating up and down the lake. Progressing well, towards the end of the week the girls decided they could handle a bigger sail. Well done to **Nicki Johns** who managed to look a bit pro, whereas **Claire Roberts** who had a few problems lifting the bigger sail stayed comfortable with the kiddies one. For all those in 229 (Berlin) Signal Squadron who want to experience some more soggy adventures, Ex Wet Feet II will be happening this September ..... watch this space!!

229 Sig Sqn Sailing Posse

EXERCISE ACTIVE IMPROVEMENT (15 – 25 May 2000)

TN 011 deployed on Ex Active Improvement, with hope of many jollies around Holland, which were shortened in time and distance to McDonald's and the Chinky, which wouldn't have happened without our new 'Egg Op' **LCpl Hastings**. However, she could have saved herself a lot of time and effort if she just used 20 litres of benz .... As the days were passing by, the lads found new ways to entertain themselves: Some by fishing – God knows why **Sig Evans** 'Steph' and **LCpl Vickers** 'Rob' would want to sit happy as gnomes in the pouring rain for hours, apparently catching the same fish.

231 SIGNAL SQUADRON - LANYARD TROPHY 2000
by Sig 'Red-eye' Reddy and LCpl 'Sharky' Lane

Under close 'supervision' of **Sgt Dean** 'Chicken Bones' **Wilson** (twice lanyard winner) a team from 7 Sig Regt travelled to the UK to do their bit as representatives of BFG. The ten-man team, largely from 231 Sig Sqn 'gelled' on the two-week isolation training in Dartmoor, with our fitness and stamina improving dramatically, and a strong teamwork element quickly evolved, on (and especially off) the training areas. The team consisted of the following characters: **Sgt Wilson** sometimes preferred the use of chicken bones rather than the map, which encouraged us into finding short-cuts (especially if we wanted to get home before dark!). **Sig** 'Bibbs' **Bibby** was immediately enrolled as IC moral, as nothing seemed to get him down. A sure Baron of the work hard and play hard theory! **Sig Andi Porter**- The 'legs' of our team- was an excellent pace setter when at the front, however, his path-finding abilities often landed him up to his neck in bogs! (a worrying fact when he is a foot taller than all of us). **Sig Ross** 'Pickles- Porrige-Wog' **Nicholls** was extremely upset to be missing out on a night in Barnstable, due to 'tiredness.' After a few beers we were all off to sleep, where he was kept awake by the musical radiators! **Sig Chris** 'Ted' **Heath** was the youngest and quietest of the crew, however his determination was an encouragement to us all- when he was awake! **Sig Lee** 'Tales' **Tailor** was undoubtedly an asset to the team. Not only as another pacesetter and map reader, but also (occasionally) swapping with myself as 'rear man' and keep the team together. However, get him on the dance floor and his re-enactment of Saturday Night Fever can take out the whole team! **LCpl** 'Merc' **Ainscough** sustained an injury, but as to not let the team down again showed great determination and helped the team to bond, however he did not like people eating in the mini-bus (allegedly). **Sig Andy** 'Red-eye' **Reddy** only achieved 2IC moral with the infamous 'diving off stepping stones into a river with a 20lb bergen' trick. **LCpl** 'Sharky' **Lane** was better known for his nights out and spotting the innocent single women. Always there to give a helping hand at the back of the team, and finding good pubs and kebab shops on the way. **Cpl** 'Taff' **Kinsey** was a late addition to the team, as **Sig Ted Heath** joined the admin crew, and last but not least (no pun intended) **Lt Mayne**- Lanyard OC.... and Boss? Keeping a watchful eye on the team from afar (namely Blandford).

The day of the event dawned damp and miserable, but the team set off at a cracking pace, and by check-point 3 we were in second place with 216 Sig Sqn 800m ahead. As the weather closed in, visibility was reduced to 50m we had difficulty in finding check-point 5. **Sig Porter** picked up an injury as his talent for finding the boggiest area held true- and we had to leave him at check-point 6. The OC struggled with the hill to CP7 and also had to be dropped from the team. Now an 8-man team we could not afford any other mishaps, and although we had passed no other teams, and had not been overtaken ourselves, we held tenth place. To make up time we ran to check-point 11 and overtook a few teams. We were now on the last strip to the adjoining tors to the finish, we obviously past teams in the fog as we were now fourth. By check-point 13, completing the course seemed more important than winning, but then we saw others in front of us- it was just the challenge we needed as we hit check-point 15 and the home run down hill to the finish. At a time of 12 hours dead, we were piped in, and a huge congratulations from everyone- not just 7 Sig Regt, but in honour of 'a great achievement' in coming from tenth to third to bring it home for BFG.

A final special thanks must go to our admin team, **SSgt Wakeling**, **Sgt** 'Capo' **Carpenter**, **Sig Cox** and **Sig Heath** without whose support this accomplishment could not have been achieved.

LIMA TROOP - *by LCpl Kev Cranney*
Tp Comd **Lt Jon Mayne**
Tp SSgt **SSgt** 'Mitch' **Mitchell**

The Troop would like to welcome in a few new faces and say goodbye to a couple of characters. **Sig** 'Ears' **Smith**, is posted to 4 Armd Bde, and he says he will miss everybody, especially **SSgt Phil Hay**. Also posted is **Sig** 'Scotty' **Newitt** to 8 Inf Bde, and he is already on the look out for a new attorney to look after him. We would like to give a quick mention to **Cpl** 'Pils' **Lamont**, **LCpl Bill Murray** and **Sig Jefferies** who are on the way to Bosnia. Also congratulations have to be given to **Sig Jefferies** for her recent engagement to **LCpl Manns**. New arrivals to the Troop are **LCpl Kemp, Sig Stainthorpe**, and **Sig Kennet**. We would also like to congratulate **Sig Scott** and **Sig Barclay** for their recent promotion from linemen to storemen. (Well done, we all know your going to be really happy in your new work!) Ending on a high note , and just gloat over SHQ briefly, Lima Troop recently won the Inter Troop Sports Competition, trouncing SHQ despite their best efforts to sway the referee.

OSCAR TROOP - *by LCpl Matt Childs and Sig Pete Corr*
Tp Comd **2Lt Harriet Hebblethwaite**
Tp Sgts **Sgt** 'Capo' **Carpenter**
Sgt 'Comedy' **Dave Burke**

Not a great deal to report from the mighty Oscar since the unqualified success of the Mozambique fundraiser and ITD week thanks to **SSM** 'Pyro' **Weaver** , which left **LCpl Matt Childs** the only honest alcoholic in the Squadron. A big fat Oscar welcome goes out to **2Lt Hattie Hebblethwaite**, the new OC. Welcome to the Troop Boss…Enjoy! Oscar would also like to welcome back **LCpl Ben Walker** and **Sig Pete Stevens** from Uniform Tp… welcome back fellas, the skiving stops here! Farewell for the moment to **SSgt** 'Robbo' **Robertson**, who has left the troop for a stint as an RQMS in Bosnia. Hurry back Staff, we're missing you already! Congratulations go out to **Cpl Steve Ritchie** on his marriage to **Tracey**, and to **LCpl Tim Mullett** on his marriage to **Kay.** Well done guys, may your cups runneth over and sobriety never rear it's ugly head! The biggest Hooray of the lot must go out to **Sig Andy Reddy** and **Sig Ted Heath.** As part of the Regimental Lanyard Trophy team they completed the gruelling event in style, finishing in a fantastic third place overall, behind two Airborne teams. Well done lads, a fantastic effort there!

QUEBEC TROOP - *by Cpl Charlie Hart*
Tp Comd **SSgt Andy Saunders**
Tp SSgt **Sgt Tony Black**

Quebec Tp, fresh from its reformation within the squadron, is now up and running well. The tech workshop, having been attached to the Troop, as well as the Sqn CIS element, comprising mostly of Telemechs, has boosted Troop numbers to approximately 40, an all time record for us. Having swelled the Troop's numbers, we now lose a number of TG's on attachment to Bosnia with 4 Armd Brigade, with the majority of remaining personnel going to the sunny Falkland Islands at the end of July.

We welcome eight new members to the Troop, **Sgt Paul Newell**, **Cpls Glen** and **Charlie Sunderland**, our happy husband and wife combo, **Cpl Dan Hine**, **LCpls Sharon Mcreede, Willy Todd, Neil Pope** and 'Trigger' **Routledge**. Goodbye to **SSgt Andy Saunders** who is leaving us shortly for HQ Sqn to go and work with the computer gimps in CIS Focus.

RADIO TROOP - *by Cpl 'Murf' Murphy*
Tp Comd **Lt** 'Kiwi' **McLeary**
Tp SSgt **SSgt Ian Thorburn**

Half the Troop is deploying to Bosnia with 4 Armd Bde and the other to the sunny Falkland Islands. The Troop would like to say welcome to all the new arrivals and someday when we are all back we might get to meet. It's with sadness that we must say goodbye to **Cpl** 'Si' **Riley** and **LCpl Andy Day** who are both off into the big world of civ div. Besides all the preparation for deployment the troop has been able to get the odd day away from the trials of the garage and the main craze at the moment is water skiing. We would also like to say welcome our new Troop Comd, **Lt** 'Kiwi' **McLeary** who is on exchange from New Zealand to see how the REAL Army do things. We would also like to welcome our new Staff Sergeant, **SSgt** 'Ian' **Thorburn** who joins us from 30 Sig Regt only to lose us all for the next six months, but hopefully one day there will be a Troop to look after.

232 SIGNAL SQUADRON
Sqn Comd **Maj Phil Baker**
SSM **WO2(SSM) Ian Carter**

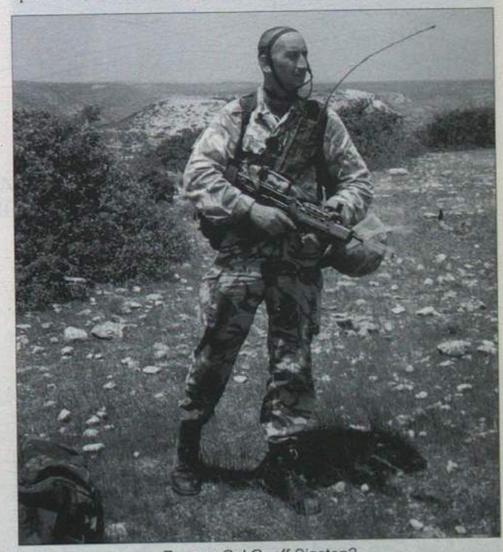
The focus of the last few months has been the Squadron's battle-camp in Cyprus from which we have just returned. Here are the Squadron's news and views.

DELTA TROOP
Tp Comd **Lt Jones**
Tp SSgt **Sgt Newton**

First of all we would like to say welcome to **Cpl** 'Randy' **Randerson, LCpl** 'Scotty' **O'Neil, LCpl Sandra Evans, Sig** 'Chico' **Ankers, Sig** 'Stainsy' **McColm** and **Sig** 'Cardinal Richlieu' **Dennistoun** who have joined the Troop just in time for our fun in the sun. The Exercise started on a Sunday morning, which set the tone for all that was to follow, with the Squadron eventually arriving in Cyprus two days after departing sunny Krefeld. We had a nice overnight stop in Brize Norton courtesy of the RAF where the entertainment was limited to say the least. On arrival in

Sgt Mapstone, Lt Tatyana Noakes, SSgt Sean Cooke, Sgt Richards and Sgt Wright McCartney

Cyprus we had the usual set of lectures on what to do and what not to do mostly the latter, then a nice few days at the ranges honing our shooting and military skills to perfection. Bayonet drills gave everyone a huge injection of adrenaline especially **LCpl Evans** who seemed to enjoy it a little too much. The SSM did an excellent job of motivating those using the bayonets but he over exerted his voice and spent a week being quieter than usual. The second week was spent down at Pyla Ranges in Dhekelia for the live firing phase of the exercise. The range package included some aspects that were completely new to the majority but everyone enjoyed their time converting live rounds to empty cases. Whilst at Pyla there was the usual abundance of background activities with the survival phase being most widely talked about. Killing and cooking a chicken seemed easy enough but a valuable lesson was learned, make sure the chicken is cooked fully! The chickens got their own back by sending **LCpl** 'Mat' **Burton** and **Sig** 'I luv Clare' **Harris** down with a very nasty case of the trots. They were so bad that they had to be accommodated in Akrotiri Hospital for a spot of rest, relaxation and stool observation. Nice!



Zeus or Cpl Geoff Sigston?

The next stage of the Exercise was the FTX or 'Further Operations' as we were told to call it. The first day was a day of special tasking including patrolling, crowd control, mine clearance, mountain goat hill climbing, dog handling and an incredible ambush in which we sat for five hours waiting for an enemy who couldn't find their way.

Cpl Randerson, treated for insanity
(RAF Arms Explosive Search Dog
latches on to parts not seen in the photo

The ambush was almost ruined by **Cpl Jeff** 'Ferengi' **Sigston** who decided he was really cold and wanted to walk around to try and keep warm. Because of this **SSgt Stef Newton** thought that he was an enemy and screamed a challenge. He wasn't too impressed to say the least to find a shivering Corporal grinning back. The rest of the exercise was much of the same, little sleep and compo rations climaxing with a dawn attack on Paramali Village.

R&R was a three-day excursion to Egypt by cruise ship. As usual nothing ever goes to plan and **LCpl** 'Robbo' **Robinson** forgot his passport and had to get a taxi thirty miles to retrieve it. Everything else ran smoothly just like the cocktails. Egypt itself consisted of three Pyramids, the Sphinx, a papyrus museum and for **LCpl** 'Mat' **Burton** a camel ride with a little bit of extortion involved. The consensus was that everyone enjoyed themselves and most would return at a later date.

WO2 SSM Carter followed by WO2 FofS Dave Jones

PAPA TROOP
Tp Comd **Lt Tania Noakes**
Tp Sgt **Sgt Andy Mapstone**

After extensive training/firing on Akrotiri and Pyla ranges, the Troop was very happy to be on the bus back to Radio Sonde, until they actually got to Radio Sonde and realised that the exercise phase was to start less than 24hours later. The smoker in the evening saw a definite amount of letting off steam with all the Troops having prepared skits and songs. Papa Tp stole the limelight here with a Jungle Book song with new and all-improved lyrics. The song was courtesy of **Cpl Duddles**, **LCpl Minto**, **Sig Cartmell** and **Sig Malcom**. The band was high-jacked that evening by **Sgt Atherton** and **Cpl Duddles** to play something a little more upbeat than the traditional Greek music that the Squadron had thoughtfully arranged. One of the attached Medics, **Cpl Karen Stewart** from 3 Royal Irish, waded in and provided some classic little Irish numbers just to make sure the evening just kept on flowing. Then come the FTX, cunningly relabelled as 'Operations' in order to help the new OC and SSM (who weren't with us in Kosovo last year) bond with the Squadron. The 'Operation' saw a new strategy called 'it pays to be a tabber'. Highlights included a Wessex lift for the Troop, the beach assault followed immediately by breakfast (It's the new tactic in Staff college don't you know), and the final attack on Paramali village which saw three attacks from three different directions and the biggest blue on blue you can imagine.

During the month all Troops were given a few nights out away from Radio Sonde Camp, limited to specified places in the Sovereign Base Areas. For Papa Tp these tended to end up in a Karaoke bar, even when there was no Karaoke machine! The fourth and final week brought in the R&R and Adventure Training phase. The 'Adventure Training' consisted largely of activities such as banana boat and jet ski rides, trips to Paphos and 'Wet and Wild' and dubious fishing trips out of Limassol. However, the most adventurous moments happened on the bus journeys because of the local driving.

The R&R for most members of the Troop consisted of a three-day cruise to Cairo and the Pyramids at Giza. The reactions varied from very positive to the cynics, who just thought it was a pile of rocks, went to Kentucky Fried Chicken at the Sphinx and then were seen at MacDonalds when we went to the Egyptian museum at Cairo.

SUPPORT TROOP
Tp SSgt **SSgt George McGuire**

First, We would like to say a big thank you to all the attached elements of Support Tp, without them the Exercise would not have been the big success that it was. Secondly, we would like to welcome **SSgt George McGuire** who joined Hotel Tp just prior to the Exercise. The Exercise began at a blistering pace in the gym at Krefeld on a hot Sunday morning, then off to RAF Brize Norton for an overnight stay in Hotel 'Gateway House'. We finally arrived at Hotel 'Radio Sonde' where **SSgt Adi Chapman** was on hand to greet every member of the Squadron with his normal kind hearted approach to life.

HEADQUARTERS SQUADRON
Sqn Comd **Maj W. J. Drain**
SSM **WO2 (SSM) S. Bovan**

A fairly busy period for the department what with all the forthcoming deployments. Much re-shuffling of documents and personnel is invariably necessary to ensure a pain free deployment, and this has been no exception. **LCpl** 'Chappie' **Chapman** now has more hair on his desk than on his head, and the SSM has been so badly effected, he has taken time from work to visit Lourdes for some spiritual guidance. Meanwhile, whilst the OC (The Grim Reaper) has been away on essential duty, the Dungeon dwellers of the SQMS's department have been busy assessing COSHH, Risks and just about anything that comes anywhere near them in preparation for the forthcoming EHT inspection. Unfortunately, we are having to say goodbye to our Squadron Clerk, **Mrs Jennie McKenzie**, who leaves us after two years due to her family's posting to Tewkesbury. We wish them all the very best of luck and would like to thank **Jennie** for her loyal service. We are now looking forward to exercise in June, Adventure Training in July, and in the meantime will continue to cope with anything else that crops up.

QUARTERMASTER'S (TECHNICAL) DEPARTMENT
QM **Capt R. Cory**
RQMS **WO2 (RQMS) Burge**

There has some movement within the department since the last *WIRE*: **Cpl** 'Des' **Lang** has deployed to Bosnia with the Commercialisation Implementation Team and **Sig** 'Geordie' **Ellis** has moved over the 231 Sig Sqn prior to deploying to Bosnia on Regimental commitment. **Sgt** 'Mick' **Neil** has moved to 21 Engineer Regiment and **Sgt** 'Jock' **Castle** is off to Bulford on promotion (congratulations) to join 3 Div and both depart with our best wishes for them and their families for the future. On the sporting front the Golf Clubs are out, and the QM and **SSgt** 'Scotty' **Scott** recently squared up to each other in the Officers' Mess vs Sergeants' Mess competition. 'Played before then sir'? Apparently, not very much. Well done to the Sergeants' Mess, 'We'll be back'. With members of the Department representing the Regiment at Football (**SSgt Scott**), and Rugby (RQMS 'Taff' **Burge**), so with the QM's golf obviously aside, we can be justifiably proud of our sporting achievements. Congratulations go to: **LCpl Clare Boswell** (nee McIntyre) who recently married **LCpl** 'Bossey' **Boswell** from 280 (UK) Sig Sqn, and to **Cpl Dom Cooke** on being awarded Commander KFOR's commendation for his outstanding work on Op Agricola.

Cpl Dom Cooke 'Another brew for the QM Dom?'

MOTOR TRANSPORT TROOP
MTO **Capt N. R. Coatsworth**
Tp SSgt **SSgt P. Hay**

In keeping with National Road Safety Week, 7 Sig Regt recently held its own campaign between 2-7 May 2000. The first day consisted mainly of lectures, including: BFG Documentation, Drink Driving and the regulation of Driver's hours and was finished off with an inter-active Highway Code test. The remaining three days were taken up with defensive driving techniques such as: Skid Car training, 55 Seater Coach manoeuvring, and the affectionately named 'Baby Bender' (Big Truck to you and me) training, all of which could be seen meticulously negotiating their way around camp, or in the case of the Skid Car around, and around and around the square. **SSgt** 'Phil' **Hay** of MT Tp, instructing on the skid car, earned himself cult status by stepping out of the vehicle apparently unaffected by over ten hours of 'Dukes of Hazard' style twists and turns (evidently he's always been that colour). Unfortunately the same can't be said for some of his passengers who looked a little worse for wear.

FOOTBALL
7 SIGNAL REGIMENT BEAT ARMY CHAMPIONS

As Champions of the Western Premier League, 7 Sig Regt's reward was to be drawn against the Army Champions, 28 Engineer Regiment in the Premier League play-offs. With temperatures reaching 28C, the two teams lined up for battle, in weather more usually associated with the Spanish Premier Liega. The hot weather was matched by a blistering start to the game, with the Signals almost taking an early lead via a shot from **Sig** 'Scotty' **Scott** which narrowly missed the post. As the tempo of the game settled, the Engineers began pressing for the first goal, but the back three for the Signallers held firm, and their keeper remained unbeaten. It was looking more and more likely that the first goal would come from a set piece, and sure enough, just before half time, the first goal was bundled over the line by **Sig** 'Scotty' **Scott** following a corner.

Early in the second half, the referee blew for another corner, and as the kick was taken, **Sig Harris** was adjudged to have been fouled and was awarded a penalty. **LCpl** 'Stevo' **Stephenson** stepped forward, sent the keeper the wrong way and derived great pleasure in changing the score to 2-0. The Engineers, now with it all to do, immediately raised the tempo and, with 40 minutes still to play, began attacking with a new-found desire. Time and again they broke through the Signaller's defence, only to be thwarted at the final hurdle. **Cpl Dave Harthill**, pulled off a magnificent save, and **Sig** 'Coxy' **Cox** cleared the ball off the line to keep Harthill's clean sheet intact.

The final whistle was blown with the score still at: 7 Signal Regiment 2, 28 Engineer Regiment 0, **LCpl** 'Stevo' **Stephenson** was named man-of-the-match and the Signallers look forward to meeting 3 Battalion REME in the final on 31 May in Münster.

LAS VEGAS BOXING TOUR - MAY 2000 – *by Sgt 'Rosey' Rosendale*

In May this year, Finchley & District Amateur Boxing Club from London, visited the boxing capital of the world, Las Vegas, USA. For the fourth successive year, the club competed against the State of Nevada Boxing Club, a boxing club owned by the legendary **'Sugar' Ray Leonard**, and managed by world championship referee **Richard Steele**. Having been associated with Finchley ABC for many years, I was fortunate enough to be invited on this year's tour, as a coach, and as a British judge for the competition itself. With a team of five Coaches and 18 young boxers, Finchley ABC were keen to avenge the narrow defeats of the past three years, and bring the 'Nevada Partners' trophy home to British soil.

On Day One, the boxers were given a complete day's rest, with many of the young fighters showing the effects of fatigue and tiredness from the long journey the day before. On Day Two, we started the first of many training sessions at the fabulous State of Nevada Boxing Club. The Nevada boxers heralded from USA, Mexico, Peurto Rico and Cuba, and they all had the same thing in common. Tough, aggressive and proud, but also talented and determined to win on home soil. The all action, come forward style would suit many of the London fighters, and after four days of acclimatisation and light training, the boxers were ready for their big night.

After the weigh-in, the boxers were treated to a slap up breakfast, and then rested in preparation for the bouts that evening. The big fight night was billed as 'London vs. Las Vegas' and with a 400 strong crowd, which included former world champions **Roger Mayweather, Cornelius Boza Edwards** and Ireland's own **Wayne McCullough**, the atmosphere was electric. London supported the boxers in the blue corner, and Las Vegas cheered on the boxers in red. Unfortunately, Nevada boxing politics ruled that no British judges would be allowed, but I was happy to take my place, as an assistant second, in the London corner. The first bout was a unanimous victory for Finchley ABC, however the next seven bouts would all be victories for the Nevada ABC, with a few disputed decisions along the way. After an interval, Finchley ABC bounced back with another unanimous victory, and this started a marvellous fight back for the Londoners, only to be robbed of overall victory by yet more controversial decisions in favour of Nevada ABC. The final result of 10 - 7 to the State of Nevada Boxing Club was still a fantastic achievement for Finchley and District ABC, with coaches and parents proud of the fantastic display they witnessed in the ring. Best boxer was awarded to 15 year old **Michael Ford** of Finchley ABC, who completely outclassed **Dominic Chavez**, nephew of the legendary **Julio Cesar Chavez** of Mexico. Best Finchley novice boxer went to **Tommy Holohan**, who was presented with a 7 Sig Regt Boxing Team sweatshirt.

Many thanks to 7 Sig Regt, and the Army Sports Control Board for supporting me in this experience of a lifetime. At present, four boxers from Finchley and District ABC are contemplating a career in the Armed Forces. In April this year, two Royal Signals boxers competed in the Army Novice Boxing Championships, held at the Army Boxing Centre, Aldershot. **Cpl Tony Booth** of 600 Sig Tp reached the Super Heavyweight Final, and **LCpl Nathan Dorrian** of 3(UK) ADSR reached the Light-Middleweight semi-final. For further information on Royal Signals boxing, contact **Sgt Rosendale** on Krefeld Mil x2380.

Sgt Rosendale with World Championship Referee,
Richard Steele

14th SIGNAL REGIMENT (ELECTRONIC WARFARE)

CO **Lt Col D. P. Meyer**
RSM **WO1 (RSM) D. L. Palmer**

226 SIGNAL SQUADRON (ELECTRONIC WARFARE)
Sqn Comd **Maj Rob Meinerzhagen**
Sqn SSM **WO2 (SSM) Dave Watson**

The Squadron has had an immensely busy time throughout May, notably beginning with the deployment of LEWT on Operation Palliser. The Teams headed up by **WO2 (Supvr Radio) Jim Speirs** and **SSgt Steve Brown,** deployed on 7 May at extremely short notice. **Sgt Mathews** recently arrived to the Squadron had to get five inoculations all at one time before he deployed. After a strip down of landrovers, some rapid packing and check zero of weapons, the teams were waved off by the CO. The teams are due back soon with some other names in the frame should the Operation continue.

Following that, the two-week Exercise Whale Spear III continued despite the cut in numbers. The Squadron looks forward now to Ex Eagles Strike which takes place in Scotland and will involve the entire Squadron. This will be Maj MZ's last exercise with the Squadron, so perhaps we will be able to get him a jump with 16 Air Asslt Bde as a goodbye present. Lastly, after a highly successful and challenging Squadron Battlecamp, congratulations go to **LCpl Hickenbotham** and **Sig Lloyd** for winning the prizes for best performance in those ranks.

Visit the Museum website
www.royalsignals.army.org.uk/museum/

14 Sig Regt (EW) Spearhead
minutes before deployment to Sierre Leone
Back (L-R): SSgt Wilson, WO2 Speirs, Cpl Nichols, SSgt Brown
Front (L-R): Cpl Wright, LCpl Neil, Sgt Burton, LCpl Dowel

SQUADRON HEADQUARTERS TROOP
Tp Comd **Lt Ath Mayo**
Tp SSgt **SSgt Neil Sorley**

Welcome into the SQMS Dept to **Cpl** 'SP' **Ferrer** posted into the Regiment from 3 Inf Bde HQ and Sig Sqn and to **Sig Becky Connor** on attachment from the QM(T) Dept. Well done to the SQMS **Sgt Titus Reene** for slipping off the board and picking up his Staff Sergeant. A very well deserved promotion for all his hard work, congratulations from the Troop. SHQ Tp has been very busy over the last couple of months. Firstly with the Squadron Battle Camp in sunny Sennybridge which lived up to its reputation, throwing all sorts of weather at us from bright sun shine to blizzards making conditions demanding. The Exercise went very well from a Troop perspective with a great deal of quality training achieved. Exercise Whale Herd 111 took place both in the Bramley and Dartmoor training areas. The first week consisted primarily of air portability training, which was a good experience for those who had not worked with helicopters before. The Dartmoor phase of the Exercise had its usual wet and dry days. The **SSM Dave Watson** sited the guard post in a ditch making the full use of cam and concealment only to discover later it was a river bed when the post was washed away along with the guard. A wet suit and snorkel has now been added to the guard box. Endex was called and the majority of us together with some keen volunteers, not from camp, paid a visit to RNAS Yeovilton so we could practise helicopter ditching drills. Apart from a few exceptions, notably **SSM Dave** 'Man From Atlantis' **Watson,** we had a very enjoyable time. **SSgt** 'Don't do water' **Sofley** was noted for his absence when he remembered that he had a pressing engagement with a Calor Gas Bottle and returned only to find the 'dunker tank' over. Never mind - maybe next time?

640 SIGNAL TROOP (ELECTRONIC WARFARE)
Tp Ops WO **WO2 (Supvr R) Nigel Watton**
Tp SSgt **SSgt Frank Flaherty**

640 Sig Tp would like to say, 'G'day mate,' to **Sgt** 'Coops' **Cooper** Royal Australian Signals, who has joined us for a summer tour of six months at 'SUNNY BRAWDY'. Hello to **Sig Pete Evans** fresh meat from Blandford. Welcome back to **LCpl** 'Gaz' **Roscoe** and **Sgt Dave Scanlan** returning from tour in Kosovo and end of tour leave. Also welcome back to **Cpl Andy Nichols** from Sierra Leone who had a lucky escape when **SSgt** 'Biscuit' **Brown** nearly shot him in the foot as he thought his boot was a Cobra. Welcome back to **Sig** 'Carpet' **Matzke** who has successfully passed his Royal Signals Leadership Course in Blandford. After the course he was that chuffed with himself that he decided to take his ONE WAY hire car via Manchester for the weekend just to avoid paying at the Severn Bridge to get into Wales (who wouldn't avoid paying to get into Wales?). Also a welcome back to **Cpl Paul Pettman** who is joining our Troop AGAIN after a slack five months in Romeo Tp. We would like to say goodbye to the following; **Capt** 'Mr Soft' **White** posted to 4 Armd Bde, **SSgt** 'JX' **Walker** to 16 AABde (the place will be a lot quieter without him), **Cpl** 'Simmo' **Simpson** to 19 Mech Bde, **LCpl** 'Mr John' **Doughty** and **LCpl** 'Mr Matt' **Gerrard** who have been posted to civvi street. After a very successful battle-camp in 'Sunnybridge err Sennybridge' and an Easter break the Troop got off to quite a good start (well some more than others). At the Regimental Athletics Day. **Sig** 'Dee' **Bradley** did extremely well coming first in the javelin, first in the 400 meters and second in the 400 meter hurdles, she then got picked to go to Blandford for the Morrison Cup and successfully came second in the 400 meters, second in the javelin and participated in winning the women's tug of war.

One of the main highlights of the month was Ex Whale Herd. After battle-camp and athletics we had just enough time to prepare our vehicles ready for the eleven-day Air Mobility and Comms Exercise. Just to make the Exercise that little bit more enjoyable the LEWT team and a chosen member of the Troop **(Cpl Andy Nichols)** deserted us for the sunnier climate of Sierra Leone along with various well maintained and prepared exercise equipment. Thanks lads.

During the first week of the Exercise **LCpls** 'Gaz' **Roscoe,** 'Ritchie' **Cranswick** and **Sig** 'Dee' **Bradley** were re-deployed to sunny Brawdy to establish a rear link with the Troop in Sierra Leone. (How else would they keep up with the climax to the football season?) The second week of the Exercise **SSgt Frank Flaherty** organised a Heli-dunking escapade to enable the troops to have the chance of becoming modern day Houdinis. The greatest escapologist emerged as **Cpl** 'Don't panic' **Byrne** who managed to start off fifth in line but finish off in second place by using the good old English spirit of every man for himself **Sig** 'I'm not so' **Keen** was the only member of the Troop who got all the kit on, got himself psyched up and decided that after seeing **Cpl Pete Byrne** and the SSM, who suddenly froze leaving the OC Sqn who was sitting next to him drowning, decided that he didn't really fancy getting wet. While we were all enjoying ourselves on Ex Whale Herd other certain members of the Troop **Sgt Dave Scanlan, Sgt** 'Coops' **Cooper, SSgt** 'AV' **Grundy, Lt** 'Wanna be 640 Troop' **Mayo, Sig** 'Woody' **Woodrow** and **Sig** 'But, But' **Taylor** were in the drinking dens of Amsterdam for two weeks liaising with their NATO colleagues.

ROMEO TROOP (ELECTRONIC WAREFARE)
Tp Comd **Lt H. J. Scott**
OPSWO **SSgt (Supvr R) D. White**

The Squadron has had a pretty hectic life recently with Spearhead deploying to Sierra Leone and deciding the manning for Kosovo to support 42 Cdo Bde, which needless to say has had devastating effect to the manning especially for Ex Whale Herd 03/00 (08-21 May). The Exercise started slowly due to the manning problems but soon livened up with the rigging up of land rovers and deployment drills in Chinooks. During the Exercise there was a little birthday celebration for the Sqn 2IC, **Capt Allan** who got caught hanging around by the LAD. Further to this the Squadron went to Yeovil to do the helidunking drills, which was even more fun for the SSM (when he was thrown in!).

A warm welcome back to **SSgt (Supvr R) John Winn,** wife **Pippa** and family from Chicksands as the new OPSWO and going this month are **Sig Dai Jones** promoted and posted to 280 Sig Sqn St Tropez and **Cpl** 'Chaz' **Caley** who is away seeing the world for three months with the Royal Navy. **Cpl Paul Pettman** who has ventured all the way to 640 Sig Tp (who share the same hangar). Welcome back and congratulations to **SSgt Paul Rowlands** who has just been promoted and passed his Supervisor Radio course at Chicksands, he will be a sad loss and we are sure an asset to 15 Sig Regt. Welcome back also to **LCpl** 'Eddie' **Edwards** who has just returned from sunbathing in Sierra Leone, also congratulations to **LCpl Chris John** on the birth of his baby Boyo (there's lovely)!! One last congratulation to **Sig Tony Crutchley** and **LCpl Nicky McLelland** on their match made in heaven. The Troop is now looking forward to the Waddington Air Show and exercising with 16 AABde on Ex Eagles Strike, that will be a nice drive from AMC to West Freugh in the Beady Eyes!!

245 SIGNAL SQUADRON (ELECTRONIC WARFARE)
Sqn Comd **Maj Hodges**
Sqn SSM **WO2 (SSM) Griffiths**

Hello to the new **SSgt (FofS)** 'Monty' **Farrow** and farewell to the old now **WO2 (FofS)** 'Ski' **Sharpe** who is off to Gibraltar for a break from the excessive Brawdy weather. Hello also to **SSgt (Supvr Radio) Timmiss** who joins the increasing senior strength of Whiskey Tp. The Squadron managed to squeeze Ex Mouflons' Crown Jewels in between the round of signing for the new equipment and PACEXes. The Exercise was a day of paint-ball at a local venue. 50 rounds of fluorescent paint didn't seem to go far with the tactics of.... shoot first and aim later. The laying down of withering weights of fire in the direction of the enemy ensured that nobody completed the day with clean coveralls. **Sgt** 'Spartan' **Barber** took a delightful head-shot full in the goggles as just repayment for abandoning the 2IC, **Capt** 'Ned Kelly' **Ingram** in a well-prepared defensive position. In another incident demonstrating that a day without doctrine is a day wasted, **Maj Justin Hodges** led the 'Preselli Charge.' His team tried to make a break for the cone only to fall fowl of a 'Hasty; one man; linear ambush' from **Cpl Venables.** Once again the 2IC, **Capt Frank Drebbin,** found himself in a vicious fire fight with his arch rival **SSgt Jez Clarke** at a distance of four feet. The two trees being used for cover were so close that in the event of a truce each party could have lent over and shook hands .... but this was a fight to the death. After some Bar-B-Que action it was a re-location to the Bell Vue near the patch to continue the motion.

237 SIGNAL SQUADRON (ELECTRONIC WARFARE)
Sqn Comd **Maj Drinkall**
SSM **WO2 (SSM) Richardson**
HEADQUARTERS TROOP
Tp Comd **Capt Hawes**
Tp SSgt **SSgt Hughes**

A warm welcome from the Troop goes to the new Squadron OC, **Maj David Drinkall.** fresh out of Blandford as part of the Command Group instruction team and immediate congratulations on the birth of a baby daughter. Yet more congratulation go to **SSgt** 'Shuggy' **Hughes** and his wife on the birth of their baby girl and to **LCpl Nikkie Crutchley** (nee **McLelland**) on promotion and marriage to **Sig Tony Crutchley** from 226 Sig Sqn. It has been another busy period for the Troop following the return from Kenya with the Odette system finally making an appearance some ten months late and the Squadron summer exercises in turmoil as the Squadron has been warned off for two Medicine Man deployments to BATUS. The MT as usual are complaining about lack of manpower. If they spent less time playing darts it probably wouldn't be a problem! It's farewell time for one of the Troop stalwarts, **Cpl** 'Where's my golf clubs?' **Stanley-Jones** with a hyphen. Goodbye and good luck on your posting to sunnier pastures up in York. Welcome to **Cpl Chris Coward** across from the QM's and into the Q Dept to bolster **SSgt Glen Kitchen's** depleted crew. The nomadic Tech workshops also say a fond farewell to **Cpl** 'Grev-fox' **Turner** and **Sig** 'Otis' **Reading** who are off back to TM Tp. It has now been five months since the Techs have had a workshop and they are asking if anyone out there knows of where they could get one.

VICTOR TROOP
Tp Comd **Lt Ashman** Royal Australian Signals
Tp SSgt **SSgt Newton-Roberts**

There have been a number of changes within the Troop with members leaving and others arriving. Those that have left recently to civvy street include **Sgt** 'Brads' **Bradbury, Cpl Zoe Wainwright** and **LCpl Rvan Perry**. We wish them well for life on the outside. We also welcome onto the Troop **Lt Hamish Ashman** who has joined us on Ex Long Look and **LCpls Dodd** and **Green**. Good luck to them all.

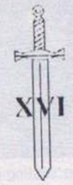
Since returning from Kenya the focus of work on the Troop has been based around the arrival of the Odette equipment. It took a while for it to be checked and accounted for but those lucky enough to be chosen, from a cast of not very many, have now signed for it and locked it away. The next obstacle the Troop has to overcome is to learn how to use it!! Over the next few weeks there are a number of courses and exercises that should put that right.....We hope!

The Troop has recently been committed to a number of different exercises. In particular Troop personnel have been deployed to Blandford, Salisbury Plain, Catterick, Poole and Germany. This trend is set to continue over the next couple of months with Canada looming in September and October. Some of the linguists have even had the pleasure of doing a language course in Scarborough being put up in a four star hotel for the duration.

TANGO TROOP
Tp Comd **Lt Waddell**
Tp SSgt **Sgt Mulligan**

Post Kenya has been a hectic but relatively uneventful time for the Troop. We're undertaking the introduction of the Odette System. this has taken (and seems that it will take) forever. A new system. means a new role and some reorganisation was necessary. To that end Victor Tp are finding their assets increasing and the ever hard working. pressurised and under paid Tango Tp (not that the author is biased at all) are finding them selves even busier. The Troop are now beginning to prepare for deployment to Suffield, Canada, on Ex Ironhawk. In the middle of all this we say, goodbye to **LCpl** 'Big' **Dave Terron** who's gone across the water and **Sig Haley Wythes** who leaves us for Germany. Welcome to **LCpl Steve Jones** and his family - from God's own country in Catterick. Also to **Sig** 'Head in the clouds' **Clarke** straight from the factory at Blandford, just remember the pair of you that 14 Sig Regt is here to be enjoyed! Just received from our friends at Truprint is proof that not all officers are lazy and idle - just most of them... **Lt** 'Tigger' **Coleman** and **Lt** 'Cuff-Man' **Waddell** discussing Adventure Training issues whilst in Kenya.

Lt 'Cuff-Man' Waddell
discussing important issues with Lt 'Tigger' Coleman



XVI 16 SIGNAL REGIMENT

REGIMENTAL SHOOTING – *by LCpl Counter*

For this year's Corps SAAM the Regimental Shooting Team spent two weeks training in UK prior to the competition. After a fortnight in the wind and rain we were finally ready for the competition. There were enough of us to form three teams and our hopes were pinned on the 'A' Team', led by **SSgt Andy Dixon.** Once at the competition things went well, and after seven or eight shoots we were feeling confident. Our hopes were fulfilled and our team came first as well as collecting several other prizes: **Cpl Davies** won best 'B Class Shot' and **Sig Williams** demonstrated her shooting prowess and was nominated as 'Best Female Shot'. **SSgt Dixon** and **Sig Moore** won the Roupel Cup and Pistol Team Shoot - if we mentioned the rest we would be showing off! Following our success at the Corps SAAM we went to the UKSC(G) SAAM with high hopes. Teams from 230 Sig Sqn and 255 Sig Sqn, led by **2Lts Sarah Pittaway** and **Jo Stokoe,** along with 252 Sig Sqn's team, led by **SSgt Dixon,** competed against 15 other teams for the top spot. Having attended a week-long training package on the Hythe and Lydd Ranges our shooting had improved enormously. **SSgt Dixon,** as one of the Army's Top 100 acted as coach and put us through hundreds of zeroing shoots, APWTs and Fire Team Assessment shoots. The final team selection took place and we entered three teams and several individuals. All three teams did well, but one or two had a bad week. **Sgt Tony Lynch** and **Cpl** 'Yos' **Durrant** won the LSW Team Competition and 255 Sig Sqn came away with several prizes as well as runners up in the Falling Plate.

BATTLEFIELD TOUR TO ARNHEM

A Battlefield Tour was held in April for the Officers and Warrant Officers of the Regiment to study Operation Market Garden. The operation in 1944 was an audacious plan devised by **Montgomery** to break German resistance by a series of airborne landings to clear a corridor for the advance of his Second Army through Holland. The site for the landings was in the vicinity of the Dutch town of Arnhem. The tour included a visit to the Museum near Arnhem, which gave us the opportunity to study the battle in detail before undertaking a guided tour of many of the battlefield sites. Following a visit to the famous bridge over which so many 1st Airborne Division soldiers fought and died, we paid a poignant visit to the nearby cemetery where the vast number of dead, many unidentified, were finally laid to rest. The day was finished off with the obligatory viewing of the all-star-film 'A Bridge Too Far' on the journey home.

EXERCISE FAST TRACK – JUNIOR COMMANDERS' COURSE
by Sgt Andy Haylor

After many weeks of preparation by the Regimental Training Wing 27 students deployed to ATA Haltern on Ex Fast Track – the Commanding Officer's Junior Commanders Course. The course was designed to develop and test leadership skills of soldiers and JNCOS in a tactical setting. Individual military skills were brushed up and section drills rehearsed prior to the final assessment phase and inevitable platoon attack. Thanks to the Training Wing Warrant Officer, **SSM Chris Ward,** and his insistence that everyone joined in early morning 'physical jerks' he somehow managed to reduce the course to 19 students! Rumour has it that his basic instructional technique could have been suspect! (QMSI to investigate). The weather was just what was needed with torrential rain and gale force winds – it couldn't have been better planned. It was lucky that **Sgt Bri Turner** had vacated his basher before a nearby tree decided to rearrange his bed space! All students did particularly well to finish the course, admitted that they had learnt a lot, and some even said they enjoyed it. A special mention goes to Top Student - **Sig Chloe Cowen,** 230 Sig Sqn and **Sig Edwards,** HQ Sqn, who won the 'Best Endeavour' Award – Well done! The 'end-of-course' Regimental Dinner, organised by **Sgt John Hoskins,** was a sound success. Mr Vice, **LCpl Hasse** spent the whole evening laughing at his own jokes but it was up to **Cpl John Morley** to improve the tone of the evening with his non-stop military funnies. All in all, the course was a success and the Regimental Training Wing are eagerly looking forward to welcoming more budding JNCOs on the next course which is on.....

SUPPORT TROOP - 230 SQUADRON
Tp Comd **Lt Knightly Brown**
Tp SSgt **SSgt McNeill**

The Troop has been busy over the past few weeks with Exercise Green Gambit and the CO's Cadre Course. Support Tp had the largest representation on the course, and congratulations must go to **Sig Cowen** who was presented the prize for Top Student. New arrivals to the troop include **Sig Smithson** and **Sig Taylor** and farewells go to **Sig Wynn** and **Cpl Curley. Cpl King** is off to ATR Bassingborn after his Skill at Arms course. The Troop participated in the Leicester Trophy athletics, a gloriously hot day in May as preparation for the Morrison Cup. The Mens' team did well, however the 230 Sig Sqn female team won their competition. We have also had **2Lt Pittaway** on attachment before her Troop Commanders Course at Blandford. Apparently she organised a very 'educational' cultural trip to Cologne – but

Support Troop – 230 Squadron and friend after Troop equitation lessons!

no one has seen the photos! Other activities included a Troop Riding afternoon at the JHQ Rheindahlen stables which involved basic introduction to horse riding with most riders trotting by the end of the afternoon.

TN 016
Tp Comd **Lt Ollie Dinnis**

A busy couple of months for TN016, with Ex Green Gambit, finishing second in the Leicester Trophy Athletics Tournament, followed by 1st then 2nd Line Inspections, and finally preparing for Ex Arrcade Spartan. The prospect of a weeks adventure training in July, followed by summer leave, gives us something to look forward to though. Leaving us for pastures new were **Cpl Brian Wilkinson**, **LCpl Steve Welsh, LCpl Danny Jones** and **Sig 'D' Knight**. New arrivals have appeared in the shape of **Sgt Dave Taylor** from RSS, closely followed by **Sigs Madine, Nowell**, and **Briscoe** all fresh from the factory and ready for re-programming.

SUPPORT TROOP - 255 SIGNAL SQUADRON
Tp Comd **Lt Emma Bruce**
Tp SSgt **SSgt G. Roberts**

The Troop would like to welcome its new Troop Commander **Lt Jo Stokoe** who is visiting on attachment before completing her Troop Commanders Course and returning (hopefully!) to take command of the Troop in November. The Troop is also pleased to welcome **Cpl Andy King** who has been posted from sunny Scotland - at least the weather will be better here! The Leicester Trophy Competitions have brought out all the natural sportsmen in the Troop - and most of the 'not-quite so natural ones' too! Congratulations go to **Cpl** 'Barney' **Reville** and **Sig Scott** on their individual events and going on to represent the Regiment at the Morrison Cup in Blandford. Special mention must be also given to **Sgt** 'Mus' **Musgrove** for his outstanding performance on the 100m hurdles - it is fair to say he left the other competitors standing! Continuing on the sporting theme, theSquadron's silver cabinet has been given a boost by **Sgt Brian Turner** and **Sgt Paul Taylor's** golfing successes. **Sgt Turner** won the Army Match Play Plate and was selected to play in the Inter Services Golf competition in June. **Sgt Taylor** won the Scratch Competition at the R SIGNALS Corps Spring Meeting, and together they won the Greensomes Championships 2000 - well done!

255 SIGNAL SQUADRON - EXERCISE RACCOON BACKSTOP
by 2Lt James Mason

Ex Raccoon Backstop was a two-week adventurous training exercise in the Harz Mountains organised by **2Lt James Mason**. It enabled two groups to take part in a weeks' activities consisting of mountain biking, trekking and a slightly different form of orienteering organised by **Sgt Paul** 'I don't want to give them blisters, really' **Taylor**. Torfhaus Lodge provided us with ideal self-catering accommodation from which to explore the local area. **SSgt Guy** 'Master Chef' **Roberts** cooked gourmet meals from around the world and **Sgt Dean** 'Mad Mac' **MacKenzie** took us on some hair raising down hill rides before getting us all to jump ten meters off a bridge into Lake Oker. The at times arduous mountain biking, coupled with a moment of map reading madness by **2Lt James Mason**, resulted in some very saddle sore soldiers, but at the same time a sense of achievement at what we had accomplished. **Cpl Tony** ' Have I got this map up the right way?' **Seville** took us on some interesting walks where the likes of **LCpl Alley** 'Let's run up that hill' **Richardson** made things a bit more challenging. **Cpl Mark** 'Where's the next petrol station?' **Blears** and **Cpl Kev** 'I don't know' **Smith** provided amusement by running out of fuel twohours drive from the Lodge. There were some long lunch breaks during which **LCpl** 'Nat' **Kemp** and **Sig Kerry Sims** managed to 'top up' their tans. In addition to the adventurous training there was also plenty of time for R&R, and the local pool with its slide, jacuzzis and sauna provided the perfect remedy to aching muscles! Despite being fairly quiet the local town of Braunlage provided us with our evening entertainment and we managed to find plenty to do. A good time was had by all.

255 Squadron 'resting in the Harz

QM's DEPARTMENT
QM(A) **Maj C. Greig**
QM(T) **Capt D. A. Wright**

As usual, it's been a very busy period for both the dept's, with the onset of Ops Turner and Palliser the landline has been 'Red Hot'. Welcome to **Maj** 'Chaz' **Greig**, newly arrived into the QM(A) hot seat via the OC Sp Sqn and QM(T) chairs. He has been ably joined by the dynamic duo of RQMS(A) **WO2** 'John' **Paterson** and his new sidekick **SSgt** 'Phil' **Green**, who has jumped ship from 258 Sig Sqn! On the Technical side it's a warm welcome to the new QM(T), **Capt Dougie** 'The Corps' Brilliant' **Wright**. To show he's not forgotten a big hello to **Sig** 'Gaz' **Green** out at the 30 Sigs det in Kosovo. Shame about 'Sheffield Wednesday'. Congratulations must go to the RQMS(T), **WO2** 'Andy' **Campbell** and **Sig** 'Gemma' **Worrall** on their participation and completion of the gruelling Lanyard Trophy. No mean 'feet'. On the shop floor, ongoing commitments to Op's Palatine, Agricola and Palliser keeps everybody busy and on their toes, even the two 'crod' seniors, **Sgts** 'Gaz' **Davey** and **Eddie** 'Calmess himself' **Gajny** who have to stand in when 90% of the Department are playing Regimental Football! Finally a big congratulations goes to **LCpl** 'Jenny' **Hine** on her recent marriage.

REGIMENTAL TRAINING WING
EXERCISE ARDUOUS CYGNET

Early on Sunday, 19 March, saw 24 eager students deploy to Sennybridge Training Camp for Ex Arduous Cygnet, the Commanding Officer's Cadre Course. The Exercise included **Pte Leare**, 1 Devon and Dorsets attending the course for assessment prior to transfer to the Army Physical Training Corps. Completed over two weeks the Exercise consisted of an in-camp training period, covering subjects such as tactics, orders, leadership skills, command tasks, physical training and navigation

Ex Arduous Cygnet
(Back row): Sigs Climpson, Parta, Cpl Coils, Sig Indra, Marsden
(Front row) Sigs Mooney, Khagendra,Danbar

culminating in a four day exercise on the Brecon Beacons, particularly bleak at this time of year. The Exercise was physically demanding although **Cpl Bri Wilson**, 2 Section DS, managed to get 13 hours uninterrupted sleep and was spotted being carried in his maggot by 2 Section on the 'bug out' phase. **Sig Andy Armitage** proved to be top student and was subsequently promoted to Lance Corporal by the CO, **Lt Col Mike Lithgow MBE,** who was so impressed with the students' enthusiasm that he decided to increase the subsequent courses to three weeks duration. The course was also the swan-song of **SSgt Ian Thorburn**, who is posted to 7 Sig Regt after three years as Regimental Military Training SNCO. Best of luck to him and his long-suffering wife **Vicky**!

Ex Arduous Cygnet
(Back row) Sigs Climpson, Mooney, Cpl Coils, Sigs Marsden, Parta, Khagendra, Danbar
(Middle row) Sigs Indra, Spinks, Kumar, Powell, Suresh, Black
(Front row) Sigs Gibney, Niven, Thwaites, Yoxall, Santosh, Surya, Krishna

EXERCISE SWAN PURSUIT

The Regimental field firing exercise, Ex Swan Pursuit took place between 4-12 May. A force of 12 permanent range team and 45 firers, (somewhat depleted due to operational commitments) were accommodated at St Martins Plain Camp, Shorncliffe Garrison. Two weeks of ranges, starting with Stage 1–3 APWT through to Stage 5 Live Section Attack followed at the excellent counter insurgency range complexes at Lydd and Hythe. The PRT were joined by **Sgt** 'Jake' **Jacobs**, Royal Australian Electrical and Mechanical Engineers on Ex Long Look who provided invaluable assistance when it came to weapons such as the Heckler and Koch G3 and the M16 Armalite rifles. Congratulations to **Sgt Surya** of 250 Gurkha Sig Sqn, the best shot overall and also to **Cfn Paul Buttery**, the best battle shot on the exercise. Special thanks are also due to **Capt Ian Cooper** REME, who despite being nominated OC Exercise, at short notice, executed his duties in his normal understated manner, often with less than five hours sleep a night.

MOTOR TRANSPORT SECTION
MTO **Capt G. Johnson**
MT SSgt **SSgt Nanda**

Another busy period for Regimental MT and a turn around in manpower that has seen us all scratching our heads and saying, 'Where's everybody gone?' Farewell then to our old boss **WO2 Al Keen**, who has gone to join 256 Sig Sqn as SSM. He thought that a handover/takeover during Ex Argon Mercury in Ghana would be a terrific introduction to his new job and off he went to get his kit and sun tan oil packed! Keep your head down and your body armour on **Al** and watch out for the RUF! Thanks for everything you've done for us all, particularly your moving leaving speech! Joining **Al**, is **LCpl Tony Comery**, who is going to sort out the generators of 256 Sqn. Once again **Tony**, thanks for all your hard work in the Regt MT, duty driver handover/takeovers just aren't going to be the same. A big hello goes to **Cpl** 'Big Vern' **Crichley**, hope you and your family settle in OK, and enjoy your tour at Bramcote. Who knows, you might get to far flung places like Lynham and Brize Norton during your tour. Also welcome to **LCpl** 'What's the frequency Kenneth' **McCall**, from NI and **LCpl Thomas Fife** from RAF Digby. Of course there is also a welcome to **Capt Gaz Johnson** and his family as he assumes the appointment of MTO/Sqn 2IC. We hope you all enjoy your time with the Regiment.

EXERCISE GRAND PRIX

LCpl 'Sicknote' **Aitchson** and **Sig Neil Grainger** recently deployed to Kenya in support of 1 Bn King's Battle Group. Attached for six weeks, they were to form part of their MT for deployment as drivers, and for routine administration tasks within the Battalion. During the deployment, they both managed to get away from their busy schedules in order to participate in some of the adventurous training in some pretty spectacular scenery. The opportunity to participate in white water rafting and canoeing was snapped up by them both until **LCpl Aitchison's** rear end became familiar with what is politely known as tropical diseases – the trots! He recovered in time to climb Mount Longernaught, a 9,997ft extinct volcano. Sadly **Sig Neil Grainger** was unable to walk around the top of the crater, as he was too busy sun-bathing. He has not managed to convince 'Aitch' that he didn't have the same tropical diseases as him though! Not content with extinct volcanoes and death-defying rafting, both took part in various water sports and joined a safari in the Kenyan National Park. Coming from Newcastle, **Sig Grainger** was familiar with wildlife and was not overly impressed. He was even less impressed to find on his return to Bramcote he was required for duty driver his first day back. The deployment was thoroughly worthwhile and gave an opportunity to some of the unsung heroes of Support Squadron, who would otherwise only get to hear about the overseas jaunts that the other Squadrons take for granted over a glass of beer in the NAAFI. The trip was only made possible by the sacrifice of the other members of the Troop who filled the gaps on the duty rosters and carried out their duties in the hope that it will be their turn next time. Let us have more of these please!

LIMA TROOP
Tp Comd **2LT B. W. M. Morris**
Tp SSgt **SSgt C. D. Wrath**

Lima Tp, formed up at Bramcote in September 1999, when 220 Sig Sqn, 21 Sig Regt moved back to Colerne and changed role. The Troop is presently made up of 28 Tele-Mechs with a primary role of supporting Joint Task Force Headquarters (JTFHQ) and in a secondary role to be available for deployment anywhere in the world that the troops services may be required. Since formation, Troop personnel have deployed to Bosnia, Kosovo, Egypt, Belize, Ghana and a small detachment is currently in Sierra Leone as part of Op Palliser. The Troop is now firmly established within Bramcote and has recently moved into new office accommodation much to the disgust of the Station LAD who no longer have a store for their tyres. Lima Tp seems to be something of a novelty within the Regiment at present, as few people have come across Tele-Mechs before and are under the impression that we are the 'Mr Fixits' of the Corp. In addition to our normal requests to carry out telephone moves and installations, we are now qualified as performing stage erectors, carpet layers and ostlers. Routine in the Troop is generally hectic with many personnel preparing for deployments. However **Sig** 'Jesse' **James** has found the going tough and has opted for a stint in the Regimental stables before his discharge, in order to get away from the mood swings caused by **SSgt Craig Wrath's** continued attempts to quit smoking. Welcome back to **Sig Johnny** 'The Whinger' **Miller** Casevac'd from Ghana. We know you really wanted to go to Sierra Leone! The Troop would like to welcome the following new arrivals, **2Lt Blaydon Morris, Sigs Powell, Dawson** and **Jones** all straight from the factory, **Cpl** 'Ski' **Grabowski** from 16 Sig Regt and **LCpl Lee Bearfield** from sunny Cyprus. Finally, congratulations go out to **Lt Morris** for his success at the Corps Skill at Arms meet for winning the best young officer (Rifle) shoot, not bad seeing as he was only pinged for the competition two days prior to the start date. Congratulations also go out to **SSgt Craig Wrath** who has started to smoke again.

256 SIGNAL SQUADRON
Sqn Comd **Maj J. W. Cooper**
SSM **WO2 (SSM) Tivey**

ALPHA TROOP
Troop Comd **Flt Lt Paul Pearce/2Lt M-L Lucas**
Troop SSgt **Sgt Gaz Shuck**

In the last few months A Tp has been busy. Members of the Troop enjoyed an enjoyable experience on Arduous Cygnet (Cadre Course) in February, which took place in, the occasionally sunny, Sennybridge (miracles do happen). Seven members of the Troop under the command of **Flt Lt Paul** 'Lobster' **Pearce**, travelled out to MacDill Air Force Base in Tampa, Florida to take part in the Joint Forces Ex Cobb Ring. Since then

we have been kept busy both participating in and supporting Op Palliser in Sierra Leone. We welcome **SSgt** 'Paul' **Storey** to the Troop from 1 Mech and say farewell to **LCpl** 'Spib' **Gibney** who leave for Northern Ireland.

BRAVO TROOP

Tp Comd **Lt John Dagless**
Tp SSgt **SSgt McNair**

Seven members of Bravo Tp deployed as part of the spearhead on Op Barwood in support of 33 Sqn RAF (Puma) under the command of **Lt John** 'Cirrus the Virus' **Dagless**. The role was to provide in theatre communications and comms back to the UK via INMARSAT data transfers. The crew consisted of **Cpl Mark** 'Yeoman' **Allen, L Cpl** 'Scott 'Am I entitled to more money?'' **Cooper, LCpl** 'Sick-bag' **Bishnu, Sig Derek** 'Fan Fingers' **Davis, Sig Tom** 'War Hero' **Beerling** and last but not least **Sig Dan** 'How's your car door?' **Shore**. We were also given support from 21 Sig Regt (AS) who sent one man forward to Mozambique and with the others helping out on shift between safaris at the rear link det in South Africa along with **LCpl** 'War Dodger' **Cooper**. The Operation was a great success lasting for three weeks and aided by RFA Fort George with Sea Kings. Currently the majority of B Tare deployed on Op Palliser in Sierra Leone again under the command of **Lt** 'Rash' **Dagless**. We welcome **LCpl** 'Sam' **Gontier** from 16 Sig Regt and say good-bye to **Sig Lyndon Clarke** who leaves the Corps for a prosperous career within McDonalds Fast Food outlets.

CHARLIE TROOP

During the last six weeks Charlie Tp has been very busy. Firstly congratulations to **SSgt** 'Phil' **Joyce** and **Lt Lucy** 'Page two' **Pim** on their promotions – the Troop are still awaiting their beers please. As JTFHQ Tp we have recently deployed with the staff from PJHQ to Ghana for Ex Argon Mercury. As we were due to start the Exercise, we were deployed through Senegal in Daker to Lungi and Freetown in Sierra Leone on Op Palliser. Before leaving Ghana we said farewell to **SSgt Des** 'Hertz and mega Hertz' **Holroyd** who was posted to 16 Sig Regt and **WO2 (SSM)** 'Golf handicap' **Tivey** who joins 1 Armd Bde as their RSM in Kosovo.

258 SIGNAL SQUADRON

Sqn Comd **Maj J. E. Swindells**
SSM **WO2 M. Webb**

SQUADRON HEADQUARTERS' NEWS

A couple of issues ago the 2IC, **Capt** 'Hoppie' **Hopcraft**, made the error of predicting a 'nice relaxing year'. Just as the pace in the Squadron rose he deserted the Squadron and HM Forces and ran off to Civilian Street. We all wish him all the best for the future. There have been further changes at the helm of the Squadron – we bade farewell and good luck to **WO2 (FofS) Sue Spencer** (off to Aldershot) and **SSgt (SQMS) Phil Green** (off to Regt QMs). With all losses, there are always gains - we warmly welcome **WO2 (FofS) Bill Young** (from 250 (GSS) Sig Sqn), **SSgt (SQMS) Mark Browitt** (from HQ Sqn) and the new Sqn 2IC who is being returned from Kosovo to dry out.

DELTA TROOP

Tp Comd **Lt Chris Smith**
Tp SSgt **Sgt Billy Kidd**

After preparing the Tp for Op Bell, our rapid deployment to Antigua should an evacuation be necessary, we were 'stood down' and Troop training, ITDs and Sqn Battlecamp became priorities. Unfortunately, Troop adventure training was put on immediate hold as, no sooner had we settled into a 'routine', the Troop found itself on Spearhead - at what is a very busy time for the Regiment. The Troop then worked around the clock in preparing VSC 501 Quince (which has never seen such a rapid turnaround) and it's myriad of evolving tails and equipment. As this goes to print a 12-man team from the Troop is preparing to go to Sierra Leone on Op Basilica. Indeed the Troop OC and four men are already out there, ably assisted by the Squadron Yeoman, **WO2** 'Who ate all the pies?' **Knight**. We would like to shout a huge 'Well done' to **LCpl Green** who represented the Troop at the Regimental Boxing and is now currently looking after Troop funds - no connection there! The Troop has also been involved in leading the Squadron to victory in the Inter-Squadron athletics and swimming. We would like to say a fond farewell to **Cpl Om** who has left us for 250 Sig Sqn. The rest of our farewells go to our highly trained civvies: **LCpls** 'Mr' **Hepworth,** 'Mr' **Wilkes** and **Sig** 'Mr' **Taylor** who we wish all the best for the future on the other side of the fence.

ECHO TROOP

Tp Comd **Capt Emma** 'Big Fish' **Rae**
Tp SSgt **SSgt** 'Doc 'Utilize" **Halliday**

RESERVE PARTY

Most of the rear party has now deployed from Bramcote to the Balkans leaving an eerie silence on camp. Only a few select people remain behind, these include **Cpl Pete** 'F Tp Cpl' **Watson**; **Sig Celia Black**; **Sig** 'Swamp Finder' **MacLean**, who nearly drowned on a river crossing on Lanyard Trophy training; and **Sig** 'Gavina' **Williams** has just returned from Ex Swan Pursuit.

MOST3 IBEX

Finally it arrived – the long awaited move of HQ MNB (C) in Pristina from the University to the TFA at VJ Bks. The 1 Ma, 2000, saw the beginning of the cut-over of circuits from MOST3 Ibex at the University site to MOST4 Kangaroo at VJ Barracks. The Ibex crew, **Cpl Linds** 'Troop photographer' **Howson**, **LCpl Lee** 'Picol' **Nicol** and **Sig** 'Simmo' **Simmons**, manned the University COMMCEN until the final circuit was cut across. With assistance from **Cpl Ian** 'Cush' **Cushing** and **Sig Steve** 'Lambie' **Lamb**, the crew carried out a very labour intensive task of packing up MOST3 Ibex, COMMCEN, and the 30 Sig Regt Empire. After one last cigarette, even the 'chest poking plynth' was demolished - a sad day for all. The crew then relocated all the kit (lock, stock and barrel!) to the TFA in order to turnaround the kit; this took a few days of fun in the sun and a few entertaining nights at the '501 Club (Fwd)'. We would have had a sign but the light-fingered crew of 21 Sig Regt based at the APOD, led by **SSgt Phil Render**, steal anything and everything with a Swan on – we put this down to jealousy. Unfortunately, all good things come to an end and MOST3 Ibex with crew returned to Bramcote – a sad day for some and joyful for others!

MOST4 KANGAROO

The remainder of the MOST IV Kangaroo crew deployed mid-April to HQ MNB (C) to join their glorious leader **Cpl Fred Hazard** and Det Tech, **Cpl Paddy Irwin**. The crew now includes: **LCpl Stu** 'Belly' **Engleby, Sig Martin** 'Whinger' **Hannam, Sigs** 'I've been mentioned under two Dets and will buy the beers' **Lamb, Paul Howells,** 'Skippy' **Sellers,** 'Rose' **West, Mark Howland** and **Gav Dowling.** Our mission was to install, test and commission MOST IV Kangaroo into the new TFA site and take over the running of the theatre's COMMCEN. As D-Day (ie: the day the Brigade staff decided to deploy into the new HQ) approached the crewmembers exchanged a few nervous glances. However, D-Day came and went in a rather uneventful manner - much to the relief of all. The crew has now settled down to its daily routine of stamping paper and wrecking havoc upon 7 Armd Bde's daily running of things! Anyway, we couldn't finish without giving a thumbs up to the outstanding behaviour of all Troop members over the last month.

501 RED

The 'Teeth Arms' Det would like to say 'thanks and goodbye' to some of the crew: firstly, **Sig Lee Simmons** who temporally replaced **Sig Andy** 'You've changed' **Doherty**; **Sig Lee** 'I want three free beers and another card' **Bruin**; and finally **LCpl** 'Bruce Lee' **Hem**, who was replaced by **Sig Rob** 'Olaf' **Hall**. Whilst at the University (old HQ MNB (C) site) the det exercised with the Armd Bde HQ on Conplan Critical Effort. To keep up with the armour we transformed one of the GS LRs into a Syscon wagon to reduce our NTM times. At the end of the Exercise, some of the det thought it would be fun to cam up the local populas. This gave us the perfect photo opportunity for the 'Considerate Soldier 2000', however, we are sure some of their motives were not so honest (come and look at my puppies comes into mind). The move to the new HQ MNB (C) (TFA – VJ Bks) went relatively smoothly and we deployed into the field to engineer our new IER. During this period we worked hard by day and enjoyed a few quiet card games by night. Some members of the Troop showed their true colors over this period, in particular: **Cpls Locky** 'The Gusher' **Whitelock**; **Paddy** 'The Dribbler' **Irwin** and **LCpl Aaron** 'The Sprayer' **Donnelly**. Unfortunately not all of the crew were present for the good times, **Cpl Dave** 'I don't believe in bull?' **Carter** was on R&R and **Sig Matt** 'you've changed too' **King** was working elsewhere.

MOST3 CAT

It's been just over three months since we took over MOST Cat in mid-February and Sarajevo is just coming to terms with our arrival. MOST Cat, along with the rest of HQ SFOR, are currently preparing to move camp from Ilidza to Butmir. Our move is being organized by the Det Comd, **Cpl Jeff** 'Special' **Ford** who is now getting some special loving whilst on R&R. **LCpl Rup** 'Daddy to be' **Gurung** has been busy sorting the technical details for the move. In his spare time he has been knocking up some Gurkha cuisine and BBQs for various leaving parties. He is also currently revising for his 2-1 Entrance Exam. **Sig Mark** 'Handy man' **Vinten** has been working hard preparing the new location at Butmir. He has also proved to be a bit of a carpenter, his latest 'works of art' includes four 8ft security light stands and a gate for the det compound. Then there is **LCpl Caz** 'Keep on running' **Burrows** who is on the local Britfor charity committee and has been utilizing her PTI skills to help organize the latest charity event - a football competition which raised 500DM for the local children's hospital. She has also just completed her 2-1 Entrance Exam in Banja Luka. Finally there is, **Sig Adam** 'I'm in love' **Toner** who has been making the most of the 30 degrees temperature here in Sarajevo by catching the rays whilst writing love letters to his girlfriend. In summary, the tour has gone very well so far, and in true 30 Sig Regt tradition, in between all the running around getting the det ready for the move, the crew have found time to keep up good social relations.

501 PURPLE

'The finest 501 det in the world has continued to be very busy during its tour in FRY.' writes the Det 2IC, **LCpl John** 'Kebab' **Lawrence**. There has been a number of manpower changes: we've bade 'farewell' **LCpls MJ** 'Muddyfunkstar' **Holt**, **Jamie** 'Sinner/Smallpox' **Slade** and **Sig Dion** 'Cherry' **Fotheringham**, and said 'hello' to **LCpl Hem** and **Sig Graham** 'Gwen' **Clutten**. Throughout all this, there has been no halt in our level of commitments – we have receed and exercised in Sarajevo, GV, MG, Drvar and Sisava to name but a few. This has included a near-death experience on Route Clog with **Sgt Al** 'Big Gay' **Barker** and **LCpl** 'Jonkebab' **Lawrence** and a distinct lack of brakes! In addition, the 501 Det itself has been the bain of the LAD being VOR'd more times than 'a big bag of VORy things'. There have been accusations that the problem is caused by the combined weight of **Cpl Tony Gallagher** and **LCpl John Lawrence** which is estimated at about 32 stone. The hand-over period from 12 Mech

EXERCISE GREEN GAMBIT
16 SIGNAL REGIMENT

EXERCISE GREEN GAMBIT

In May 120 soldiers from the Regiment were put through their paces in the German OBUA village of Hammelburg during their annual battle skills exercise – Green Gambit. This was the first time that British troops had exercised in the area for ten years. Following a training phase tactical communication sites were established and defended within an urban environment, fending off everything from a friendly and not so friendly civilian population to sustained attacks from enemy troops and chemical weapons. The training was enhanced by the use of the improved Small Arms Weapons Effects Simulators (SAWES) which were worn by every soldier. This had little effect for **LCpl Bickford** who spent a large part of his time in the extensive sewage system! **Lt Simon Gladwin's** claim to fame was being shot while emerging from a portaloo! Casualty cards were carried by all soldiers detailing the wound received and first aid to be carried out. Even 'dead' casualties had to be evacuated from the fighting. The final phase of the exercise started with a simulated chemical attack on the village. A tactical withdrawal, anti ambush drills and vehicle decontamination completed an excellent week's training. A final mention to **Cpl Shepherd** who demonstrated his own technique of house clearance – 'I take no prisoners'!

Continued from Page 360

Bde to 4 Bde is now approaching and the det is standing by for the usual series of 'new toy' exercises associated with this event. We will say a fond farewell to the lads and lasses from 2 Sig Regt and 228 Sqn whilst we continue to stag on until ...? On the sporting side of life, the det remains unchallenged as 'BLMF world volleyball champions' and is making a vital contribution to the rugby team. Unfortunately, the team will be without **Cpl Gav** 'Iceman' **Wallace** who has an ankle injury. We are also putting in a strong side for the 'BLMF sunbathing championship' but with **LCpl Jamie Slade** out of theatre, our chances are somewhat diminished. In summary, life is good.

FOXTROT TROOP

HAILS AND FAREWELLS

This month we are saying a lot of goodbyes. Best wishes for the future go to **Cpl** 'Ted' **Heath** who is moving with his wife to pastures new and very far away in New Zealand. **Cpl Scotty Johnson, Sig Sarah Thorn** and **Sig Mick Allen** who are being returned safe and sound to civvy street. **LCpl Faye Wood** who departed to spend the next year across the water at JCU, **LCpl Dickie Lane**, who has finally gone to 21 Sig Regt (AS) and finally, last but not least, **Sig** 'H' **Harrison** who is going to the tropical climate of N. Yorkshire at 19 Mech Bde.

EXERCISE SWAN PURSUIT – *by Sig Spinks*

On Tuesday, 2 May, members from all corners of the Regiment were flung together to attend the annual ranges battle-camp down in Shorncliffe. The first day started with typical range day weather, it was freezing! All attending completed their weapon handling test and zeroing then it was time for the fun to begin. The days were split into three sections on different ranges using a wide variety of weapons which included G3, LMG, SLR, GPMG, 9mm Browning, M16, LSW and, of course, the good old faithful SA80. Training was also undertaken on the AK47, SMG, UZI, SKS, Scorpion, Dragonoff sniper rifle and many more to name but a few. During the two weeks we fired on many ranges including IBSR, CQBR and culminating in a live firing section attack. A very good team of DS ensured that safety was never a worry (unless you were in **Sig Jim** 'SUSAT' **King's** Section!).

FINAL FAREWELL TO
GURKHA MAJOR QUEEN'S GURKHA SIGNALS
MAJ (QGO) GOVINDE GURUNG - *by LCpl Kumar Limbu*

On 20 March, 2000, the QG Signals paraded in Bramcote Barracks to tow out **Maj(QGO) Govinde Gurung** in the traditional way. The GM Sahib arrived at a pre-arranged spot outside the gymnasium at 1345hrs. There, tow rows of mixed ranks were waiting with garlands and a bouquet of flowers. One by one, GM Sahib took the garlands and flowers with friendly chats. Then he climbed up the back of the decorated vehicle and stood there. He was then towed away by SNCOs and Officers lead by Comd QG Signals, **Lt Col M. Lithgow MBE** and the GM des, **Capt(QGO) Nabindrabikram Gurung** and the Pipes and Drums. All available members of the Regiment were standing on either side of the road from the gymnasium to the guardroom.

In front of the guardroom, the GM Sahib inspected the Guard of Honour with the didis/bahinis, children and of course some interested British families looking on. After that **Capt(QGO) Navindrabikram Gurung** was officially commissioned as the new GM QG Signals. Cameras from all angles were seen flashing to catch the glimpse of a very sad day. **Mrs Sabitri Gurung**, wife of **Maj(QGO) Govinde Gurung**, displayed her talent with bravery to break the deep silence by dancing and singing with mixed emotions, a song called '..... pheri bheta hola ki nahola', encouraging other didis/bahinis to sing along for the last time. At 1425hrs GM Sahib's car rolled out of the camp towards Heathrow airport.

We wish GM Sahib and his pariwar all the best for the future.

'Gurkha Major, Maj (QGO) Govinde Gurung MVO is towed out by the Regimental personnel

A NEW TRADE FOR QG SIGNALS - *by Cpl Bharat Shrestha*

The Royal Signals has made changes in the trade structure to keep up with the modernisation in the communication system. Within this, Area System Operator is one of them. A second squadron, 246 Gurkha Signal Squadron is being formed in the QG Signals. It has its own role and different communication equipment to work with. To carry out the new job efficiently ten NCOs were sent to the Royal School of Signals at Blandford for a new course. The course ran from 13 September 1999 to 16 March 2000. We were the first ones to do this Area Systems Operators' Course in the Royal Signals and be awarded Class One on the subject. Everyone in the course is delighted and looking forward to working in our new squadron (246 Gurkha Signal Squadron) at York.

EXERCISE CYGNET REEF 1–19 APRIL - *by SSgt Lawrence*

Ex Cygnet Reef is part of a series of Cygnet exercises to test out of area operations at Troop level. Whiskey Tp was fortunate enough to be chosen from a cast of three to recce and complete the Exercise. It was a 522Z, 501 and 322Z communications exercise.

It started on Friday when we trundled off to South Cerny to start that horrible job of getting to RAF Lyneham, ie: not getting half your kit on! We departed to Belize via Iceland, Canada and Coco beach, Florida for some interesting stopovers. On arrival in a very hot sweaty Belize, we set up our equipment on the Rugby pitch, which immediately had everybody up in arms. The next three days were spent getting comms in for both 522Z, old and temperamental and the 501 dropped in straight away. After that we had afternoons off to wallow in the cultural side off Belize. Altun Ha was well received, but I believe that Belize zoo was not so good. The boys I hasten to add spent the evenings down at the famous Raul's Rose Garden. A salubrious house of ill repute that apparently you can't come to Belize and not go there. So when the OC, **Maj Wilson** arrived he was duly escorted there by **Capt Toze** and **SSgt Lawrence**!

With the Exercise well under way, the jungle phase started. Fourteen lucky soldiers were sent into the jungle to survive for three days. This was an entertaining three days and proved quite difficult for some of our Signallers. **Sig Harrison** felt that he was on a starvation diet and ate the kuna maggot for sustenance. One scrawny chicken between seven hungry people does not go far. **Sig Min** even threw every part of the chicken in to help YUK! Plenty of war stories are still circulating about the snakes and general flora and fauna spotted. Having survived this traumatic experience the Troop then went sea fishing, this was turned into a competition to see who could catch the biggest fish. **LCpl Pooley** won with a whopping 17filbs skip jack tuna. **Cpl Bhupendra**, our chef, barbecued all the fish caught. A final R&R day was spent sailing around the cayes on the sailfish boat which was excellent. Everybody went swimming with the sharks and manta rays. Here **SSgt Lawrence** was made to get in first, cheers boys..... Everybody enjoyed the break and getting very sun tanned. We finally packed up and had a good three days back via Charleston, Boston and Gander. We arrived back to be impounded by Customs, what a return back to UK!

The Section Commander demonstrating to his Section on how to cook in the jungle environment

SIDNEY TRAILWALKER 2000
by Lt(QGO) Buddhi Bahadur Gurung

Trailwalker first originated from Hong Kong in 1981 as a military training exercise for the Queen's Gurkha Signals Regiment under the command of **Maj** (now Brigadier) **S. M. A. Lee OBE**. Teams of four competed over the 100km Maclehose Trail covering the distance in less than 48 hours each year. Over the years millions of dollars have been raised for the Gurkha Welfare Trust through this greatest race 'Trailwalker'. Since the move of the Brigade from Hong Kong, Trailwalker has since been conducted in the UK for the past three years and raised thousands of pounds towards the Gurkha Welfare Trust. This year's Trailwalker was held in Sydney Australia during the period of 26-28 May 2000. On invitation from the Community Aid Abroad, Oxfam Australia, the organiser, a team of six soldiers from the Queen's Gurkha Signals were selected to participate in the event.

On 19 May 2000, the team, led by **Lt(QGO) Buddhi** headed off to Sydney to compete in the event. After the long tiring 22 hours flight, the team arrived in Sydney and was greeted by the staff from the British Consulate General. After the short brief on Sydney itself and programs ahead, we were driven to our accommodations blocks at Randwick Barracks. The next morning we were called for the photo call followed by

three days of route recce along the trail.

On 26 May, at around 0830hrs we arrived at the start point, where TV crews from Ch 7, Ch9, Ch10 and staffs from Sydney Radio were awaiting for our arrival to interview us. The TV crews followed our team right until the start of the race. The event attracted 147 teams and included a team from Hong Kong and two teams from ex-British Gurkhas working in Australia. All teams seemed eager to tackle the arduous 100kms Sydney trail and break the last year's course record of 15 hours and 5 minutes set by our team. The race started at 1000hrs prompt on 26 May 2000, the weather turned out to be sunny and clear throughout the event. Our team set a reasonable pace and led the race by five minutes up to Checkpoint 4, followed by a pack of teams close by. As the race progressed, our team started speeding up and gained a steady gap against the second team. **Sig Uttam** had an injury on his knee arriving at Checkpoint 7, however, due to his motivation, commitment and challenge he did not let the team down. The team crossed the finishing line at Brooklyn (Parsley Bay Car Park) just after mid-night as the winners of Sydney Trailwalker 2000, setting a new time of 14 hours 28 minutes and 44 seconds.

This excellent performance was followed by three days well deserved R&R to explore Sydney. We had a day trip to Sydney Olympic Park, which is almost ready to host the Olympic Games 2000. A day was set a side after a kind invitation from the ex-British Gurkhas for a BBQ. All the buros were very keen to learn about the changes and news of the Brigade. **Lt Buddhi** presented a Regimental plaque to the Gurkha Community Australia at the end of the BBQ. We visited the heart of the city, like the Harbour Bridge, Opera House, Darling Harbour etc. On 1 June it was time for us to say good bye to Sydney and we flew back to United Kingdom. We hope to do the same again next year.

Jai Queens' Gurkha Signals.

Sig Bharat leading the team towards Checkpoint 1

31st (CITY OF LONDON) SIGNAL REGIMENT (VOLUNTEERS)

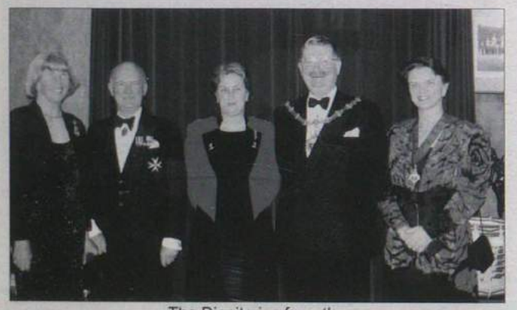
CO **Lt Col L. F. Harrison TD**
RSM **WO1 (RSM) Gibson**

REIMENTAL HEADQUARTERS

This was another hectic period for RHQ as it welcomed the new Adjt **Capt Colin Vaudin** fresh from JCSC. He was thrown immediately into the deep end when the TM and RSM departed to Canada on Adventurous training. Full details of the Adventurous Training in the next copy of *The WIRE*.

MAJOR MAKING DINNER

The traditional Regimental Dinner Night to mark the beginning of the Mayoral Year took place at Southfields on 25 May 2000. The Regiment invites all the newly elected Mayors from the Regimental Boroughs to an evening of fine wine, food and conversation. Not only does this put the Regiment firmly on the map it ensures that reciprocal dinners follow throughout the year. This year all five Mayors and their supporting Mayoresses attended. The Boroughs represented were Kensington and Chelsea, Wandsworth, Fulham and Hammersmith, Croydon and Eastbourne. The evening was also attended by several Deputy Lieutenants, the Master of the Worshipful Company of Innholders, and the MP for Eastbourne.



The Dignitaries from the
Royal Borough of Kensington and Chelsea
(L-R): Lady Elizabeth, MVO,
and Sir Michael Craig-Cooper MVO, CBE, TD, DL
and Lt Col L. F. Harrison TD, The Mayor and Mayoress

41 (PLK) SIGNAL SQUADRON

Sqn Comd **Maj Lankester**
SSM **WO2 Watson**

The Squadron took part in three warm up exercises for September's Annual Camp. Ex London Walk, Ex London Trot and Ex London Gallop were designed to ensure that all personnel were fully briefed and prepared for deployment on this year's camp. On the first of these Exercises the Squadron deployed to Pirbright and Bramley Training Areas to practise harbouring up, establishing comms and defence of a comms site. I'm not quite sure which heading getting the ERV bogged down in soggy ground came under, but we practised that as well! The best bit about this weekend was that all Squadrons got to put in a recce and an attack on the other Squadron, and **Lt Debbie Speakman**, **Sgt Brian Traynor**, **LCpl ?? Ellis**, and **Sig** 'Bomber' **Harris** particularly seemed to enjoy bumping 83 Sqn in the dead of night. Did we wake you up lads? For Ex London Trot the Squadron deployed to Colerne, where we established an example of the type of the comms site we will be using to provide comms for Bde HQ at camp. Our CO, **Lt Col Linda Harrison**, presented the equipment and means that we will be using to provide comms to Brigade main and Brigade set up, to the Brigade staff, and our Squadron OC, **Maj Toby Lankester** addressed all the CO's in the Brigade on our plans for camp.

The third in the series, ex London Gallop was a message handling

Lt Beth Pollard pretending to understand the working of the ULS

exercise, which took place at the TAC. Operators were tested on their skills handling a number of messages, and those involved certainly felt that the weekend proved very useful.

The Squadron attended the Annual Princess Louise of Kensington Association dinner at the Duke of York Barracks in May of this year. This was the first time the dinner had been held in the TAVRA HQ Mess, due to the fact that we are no longer able to use Mercury House, our previous venue, but this fact did not seem to affect the turnout. As always, this dinner is a good chance to meet up with old faces, and past members of the Squadron, and the old stories were soon being told again. The Regimental Second in Command, **Maj William Brown** gave a speech on the state of the Regiment with an emphasis on 41 Squadron. It was the first time our new Adjutant, **Capt Colin Vaudin**, had met anyone from the Squadron, so we hope we made a good impression! May was a busy month for the Squadron. As well as Ex London Trot, we spent a weekend involved in a 100% stores check, and a weekend of PRE prep. Our 'stores' weekend was our first opportunity to impress the new QM, **Capt Krishna Gurung**, and I hope he came away from it convinced that we had all that we should have had. It was also the first time our OC, **Maj Toby Lankester** had inspected our kit, and us so we hope that we also gave him some confidence in our abilities.

PRE prep weekends always need a bit of lightening up, and this year's evening entertainment certainly did that. **LCpl Julia May** organised a BBQ (not sure if this was held inside or outside the drill hall, there was so much smoke it was difficult to see), whilst **Sgt Nick Tuck** provided the entertainment on the drinks front. Chilli, olives, cherries *and* eggs in the same cocktail? After you, **Sgt Tuck**! We were briefly visited by **Sig Phil Davy**, back from Bosnia on R & R. He has been doing his bit to ensure that everyone based around Banja Luka has seen his PLK stable belt and the PLK colours. Anyone reading this in Banja Luka who has seen strange red and grey stickers appearing out of nowhere, they're down to **Sig Davy**! Keep up the good work **Phil**!

The CO, **Lt Col Linda Harrison** offered some of the Regiment the chance to invite their employers to the Colonel's Review of Trooping the Colour at the beginning of June. **Lt Beth Pollard** accepted this offer, and took her employer, **Mr Maurice Pagella** of Eurotel Telecom Ltd, and his wife, **Gillian** to Whitehall for this event. **Lt Pollard** is the first TA soldier to be employed by Eurotel, and this proved an excellent opportunity to develop closer links between her company and the TA. Members of the Squadron also participated in the annual TAVRA recruiting stand at Biggin Hill Air show in June. This is always a good weekend for us to get out and about in the area to promote the Squadron, so we took a LANWARD and an FFR to display.

Congratulations are due to **WO2 Robin Watson**, **Sgt Michelle Caspersz**, and **Sgt Brian Traynor** who were awarded their Territory Army Efficiency Medal on Saturday. **Sgt Nick Tuck** is also due to be awarded the medal, but was unfortunately unable to attend Saturday's parade, and so will have to wait a while longer for his! We welcome four new recruits into the squadron. **Cfn Lee Stockley** is currently training with our REME attachment, and we welcome **Sig Daniel Stevens**, **Sig Russell Banks**, and **Sig Guy Scott-Douglas** as new squadron members to the Royal Corps of Signals. All have successfully passed their initial recruit training, and will be heading off to Blandford soon. We wish them luck on their recruits courses.

56 SIGNAL SQUADRON

Sqn Comd **Maj Streete**
SSM **WO2 Godden**

FREEDOM OF EASTBOURNE

After what seems an age, 56 Sig Sqn was awarded the Freedom of the Borough, one of the highest accolades that can be presented to an organisation. The event was held at Eastbourne Town Hall, where the council laid on a fine meal. This was enjoyed by the whole Squadron who turned out for the occasion. The CO, RSM and various other military and non-military personnel who have connections with 56 also attended. Following the meal, the Mayoress made the presentation and speeches were given. The evening will be followed up by a 'Freedom Parade' through the town, although a final date is yet to be confirmed. All in all it was an enjoyable night which was continued back at the TAC. In addition, it was a fitting tribute to **Maj Brian Howe** whose posting as OC ended the following month.

CHANGE OF COMMAND

1 June 2000 saw **Maj Brian Howe** hand over command to **Maj Sarah Streete. Maj Howe** had been a member of the Squadron for seven years, and served as both 2IC and OC. He bought a wealth of experience to the Squadron and was a loyal member. He will certainly be remembered for 'spoons', a ritual that only he knows the true meaning, but one that ensures we never went on exercise without one! Upon addressing the Squadron **Maj Streete** laid out her objectives to ensure that the Squadron remained the best in the regiment. Her policies have been embraced by the Squadron members, who are already striving to improve upon the high standards already set, as Annual Camp draws ever nearer. The change of command also saw **Capt Tony Potter** take the reins as Squadron 2IC.

SQUADRON COMMANDER'S DINING OUT

Sussex by the Sea could be heard echoing along the sea front as the Officers and Seniors of 56 Sig Sqn, along with partners, said farewell to **Maj Howe.** This in addition to the high quality dinner provided by **WO2** 'Big Fred' **Bramble** and **Sgt Bob Shevels** ensured that **Maj Howe** got the appropriate send off. The evening was wound up with the presentation of parting gifts including an Action Man figure supplied by **Sgt Tim Odam**. Following this it was off to the bar where the frivolities continued until long after the sun came up, in true 56 style.

Departing OC, Maj Brian Howe
in full fighting order for his dining out

PERSONNEL

The Squadron has recently seen **Lt. Kieran** 'Wombat' **Francis** leave the confines of the Sussex coast and head out to the Balkans for a six-month tour (some people will do anything to get out of Camp). We all wish him well and are eagerly awaiting that letter he promised us. Closer to home **LCpl Jo Butler** has recently been promoted to a full Corporal after the completion of her Class 1 Trade course, well done **Jo. Cpl Andy Harding** also did the Class 1 Trade course and is now beginning to use his new skills.

EXECUTIVE STRETCH

Once again this event turned out to be as popular as ever with Regiments from all over the London District providing support teams. The first day in the field found **LCpl Paul Renaud** gaining an adoptive mother whilst other members of the executive team were looking for his fingers on the first aid stand. That was until they got bumped, by **WO2 (SSM) Kevin Godden** and **Sig King** who must have been really scary, as the team playing executives decided that the casualties were of insignificance as they ran away into the woods for cover. The second day was not quite so dramatic as the executive teams took part in competition stands. **OCdt Rob Wood** led the communications command task stand aided by **LCpl Eric Gardyne** who both took great delight in watching tired executive teams, come to terms with a mass of tangled don ten.

PHOTOPLOD 2000

40 miles over the South Downs with no training? No problem, especially for the two old boys **SSgt (SQMS) John Atherton** and **SSgt (PSI) Willie Loch** who started out in the support team and ended up walking all but one leg. The team - captained enthusiastically by **OCdt Wood** came in second for the second year running out of 23 teams. All members dug in hard as the hills took their toll upon bodies that were already tired such as **Cpl Andy Harding** who came straight off his Class 1 trade course exercise to compete, and **Sig Trish O'Sullivan** who had steroid injections to ease pain in her foot. Once again **LCpl Joe Reader** proved that she was every bit a PTI as she trooped over the terrain swearing that she will never do it again. As the day wore on from its midnight start, the team was in need of sustenance, which was aptly provided by **Maj Sarah Streete** at each checkpoint. In addition to this, the sunrise breakfast was provided for all walkers and supporters by **WO2 Bramble** and **Sgt Steve Howell.** This injection of food was welcome and took full effect as **OCdt Wood** and **SSgt Atherton** ran the last four miles over the Seven (very ugly and big) Sisters. The end of the day was met by a meal for all the teams at a local hotel, where **Capt Ian Murray** received an award for being the first man over the line, even if he did fall down a rabbit hole. Also attending was IC Coms, **SSgt Martin Cooper,** without him and his team from the Squadron and the Cadets, the event could not have happened.

83 (LONDON) SIGNAL SQUADRON

Sqn Comd **Maj Julian Carmichael**
SSM **WOII (SSM) Stevenson**

EXERCISE BELGIUM BLISTER 1-5 JUNE

On the evening of Wednesday 31 May the Ypres marching teams assembled at RHQ Southfields prior to a very early start to catch the ferry from Dover. The team was composed of the OC **Maj Julian Carmichael**, **Cpl Sid Ahluwalia, Sig Burgess, Sig Jardine, Sig Lowe** and **Sig Gomez** (all 83 Sqn) with **Sgt Crowhurst** and **Sgt Oliver** from HQ Sqn. The objective was to participate in the 100km march and to conduct our own battlefield tour. We made our way immediately to Vimy Ridge where Canadian tour guides explained the battlefield and showed us the tunnels. We left and arrived at our accommodation, which was tented, and in a Belgian Logistics Battalion location. The German Army had arrived early (as per usual) and had occupied the allotted accommodation. Our sleeping area was metres away from what was known as 'Shrapnels Corner' and our first evening was spent in Ypres quality controlling the local white beers.

Friday kicked off with a 30km tab which produced some blisters. **Sig Burgess** had spectacular blisters and was rewarded with lots of sympathy from the OC. There was a brief conversation which started, 'I don't think I'll be up tomorrow, Sir,' and ended with '.....off'. Apparently blisters only hurt for the first twenty minutes; **Sig Burgess** went through a time warp and suffered a brief sense of humour failure, but was cheered up by newly recruited and qualified **Sig Gomez** who was doing cartwheels and skipping along in the (also) blistering sunshine. Just as **Sig Burgess** was recovering from post blister stress syndrome, the OC was in service dress and leading the Squadron on the Menin Gate Parade. The streets in Ypres are cobbled, apparently blisters only hurt for the first twenty minutes! 31 Sig Regt laid wreaths at the German cemetery in Langemarck, the Belgium war memorial and the Menin Gate. It was very moving to hear four trumpeters play the last post in the evening sunshine as it echoed under the arches of the huge Menin Gate. The Burgermeister invited the team back to the cloth hall in Ypres where we were forced to drink free beer. Saturday was spent marching in the sunshine, **Sig Burgess** was reduced to flip flops and a pith helmet and **Sgt Oliver** had also forgotten his IA's on sense of humour failure.

The motley crew were then enthusiastically bounced around various battlefield sites including the command bunker at Hill 40 Croonaert Wood where Hitler was a runner. The bunker took a direct hit and Hitler should not have survived: quite thought provoking. The team was shown the chapel at Messines where Hitler was taken wounded and the evening was spent in Plugstreet at a restaurant which was situated opposite the Berkshire memorial. The food and wine was excellent and the patron, a

friend of the OC's known as **Claude** (allegedly a former lion tamer whose second name is Bottom) proved to be an excellent chief. Sunday was another beautiful day marching amongst the poppies and visiting Essex Farm Dressing Station where **John McCrae** wrote 'In Flanders Field' and visiting a preserved Belgian French systems known as the Trenches of Death. A wreath was laid at a PLK memorial near Ploegsteert. The evening finished at a Kangaroo farm which happened to have a bar (the OC does know some strange people) and OBUA building entry techniques were practised, much to the amazement of the customers and two heavily armed Belgian policemen. We all went to bed too late and got up too early and arrived safely back in RHQ by Monday morning.

OFFICIAL OPENING OF TAC WHITE CITY AND MEDAL PRESENTATIONS

Lt Col L. F. Harrison TD R Signals, CO, 31 Sig Regt (V) welcomed guests at the re-opening Ceremony and Medals Parade to mark the occasion of the move of 83 (L) Sig Sqn (V) to White City TAC. As the guests arrived they were served with refreshments and hosted by the Squadron OC, **Maj Julian Carmichael** with the aide of the Regimental Officers. In the Opening Ceremony **Cllr R. Browne MBE**, opened the new garages and said a few words of welcome. The medals were then presented by **Maj Gen J. D. Stokoe CB CBE. Sgt Traynor** was presented the Efficiency Medal (Territorial), **Maj D. Crawley RAChD, WO2 (RQMS(V)) Clarke, WO2 (SSM) Watson** and **Cpl E. Presley** were presented with a clasp to Efficiency Medal (Territorial), **Sgt Oliver** was presented with his 2nd Clasp to Efficiency Medal, and **Ssgt Smith, Ssgt Peart** and **Sgt Caspersz** were presented with Volunteer Reserve Service Medal

SQUADRON UPDATES

The Squadron would like to congratulate **LCpl Farquharson-Roberts** on his recent promotion. We wish him every success with his new roles and responsibilities. A warm welcome is extended to our newest members. **Lt Paul Ukpai** has moved across from HQ SQN (we hope he left his HQ issued slippers behind). **2Lt Lee McEvoy** has just passed his TACC and has landed himself in the capable hands of **SGT Matt Cahill** of 'C' Tp (you'll have to fight for desk space **Lee**). **SSgt Jackson** has also moved across to the Squadron and is lending a helping hand to the newly appointed OC of B Tp, **2Lt Mike Zazzi**. B Tp's senoir **Sgt Dave Alleyne** is currently serving in Kosovo. We hope he has a good tour and look forward to his return. Congratulations to **Sig Hunt** and **Sig Bullivant** who recently completed their RSRC returning with four out of the six awards. **Sig Hunt** was presented with 'Best Academics' and 'Top student' whereas **Sig Bullivant** was awarded 'Best field student' and 'Best shot'. Well Done Yet Again 83 Sqn. We're making a habit of this!

TERRITORIAL ARMY COMMISSIONING COURSE 002

Thoughts from 2Lt Lee McEvoy

What can I say?- I passed the course. Did I enjoy it? - I wasn't quite sure at first, but as I look back I realise that it was a once in a lifetime experience, that I miss the people, and to some extent, the lifestyle. Would I recommend TACC to prospective TA officers? - only if you want a commission enough - the directing staff will ensure that you ask yourself the question during the three weeks they 'look after you'..... The highlights of my time at Sandhurst all seem to be towards the end of the course - I will always remember the passing-out parade in front of Old College Sandhurst. The final exercise was a challenge, mainly to keep the troops awake after two hours sleep. The stretcher race was, in hindsight, highly enjoyable (perhaps that was the sweet taste of victory). The best memories of all relate to the people in my platoon - we were a mixed bag of Infantry and the Corps and, as you would expect, had differing skills, experiences and fitness levels. We worked together to help weak members through their difficulties, whether that was carrying kit, working on PracTac or map reading - we were officer cadets after all. After all the trials and tribulations, 33 of us passed out of Sandhurst on Saturday 3 June - I hope the Corps is ready for four new officers.

SSM	**WO2 (SSM) Anderson**

LIGHT AID DETACHMENT

The Regiment would like to congratulate **Pte Donna** 'Kebab' **Buntine** who recently completed her B3 Drivers course at 5 Trg Regt, Grantham, home of the RLC TA. While on the course she was part of the pilot scheme of course work to gain a City and Guilds in Commercial Driving, which involved extra work and exams. This extra work proved worthwhile and she passed all the exams required to gain the qualification. The City and Guilds certificate was presented to her by **Brig Evans** at the TA Open day at Grantham on 25 March 2000. During the presentation **Pte Buntine** was informed that she is unique as she is the only female in the armed forces to have received this qualification – well done!

Pte Buntine showing off her city & Guilds Certificate

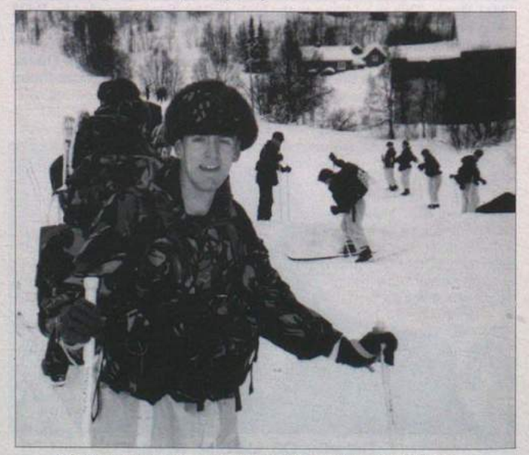
FROM -20 TO +20 - OPPORTUNITIES IN THE TA

by LCpl 'Cabbie' Henderson

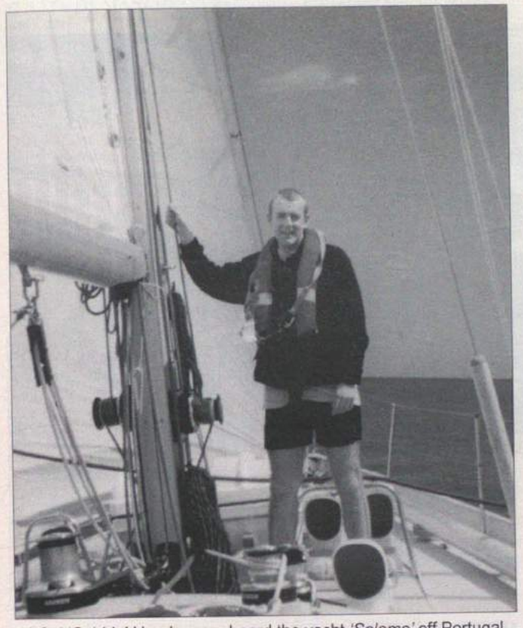
I was fortunate to secure an attachment to 249 Sig Sqn (AMFL) for Arctic Warfare Training and exercises in Norway. I was introduced into the system at Bulford, which consisted of pre Arctic training and lots of PT. After deploying to Norway, the pace was increased and we completed the novice ski and survival courses. Being recommended for Military Ski Instructor was the icing on the cake for me (a previous trip to Austria courtesy of the T.A. definitely came in useful). As the training intensified we found ourselves preparing for the final exercise – Ex Joint Winter where all the months of training came together. This proved to be an experience not to be missed, a truly 'purple' exercise, with elements from various NATO countries participating.



LCpl Henderson on exercise in Norway with 249 Sig Sqn

At 'endex' I returned to Scotland, said hello and goodbye to the Squadron, and was off again four days later, this time to slightly warmer climes – namely two weeks sail training during Ex Century Sail, aboard HMSTC *Sabre* – hey I know it's tough but someone has to do it.

Sailing out of Villamoura marina, Portugal, I had time to reflect on how many changes and experiences a person can squeeze into his life in such a short time, watching spectacular displays of the Northern Lights and less than a week later watching a school of dolphins playing chicken with the bow of the yacht, this was recruiting poster stuff and even the most cynical amongst us has to admit that a cabbie from Aberdeen got his fair share of adventure!



LCpl 'Cabbie' Henderson aboard the yacht *'Salome'* off Portugal

ARRIVALS AND DEPARTURES

We have loaned two of our stalwarts to Blandford – your gain is our loss as **Cpl Rory** 'BCGH' **Milne** and **Sgt Bob Tervit** are posted as instructors on a short service deal. Our photograph shows **Sgt Tervit**, **Sig** 'Mini-Me' **Johnston** and **LCpl Alison** 'lonely dons fan' **Mackay** asking 'Scotty' to beam them out of the Elgin Exercise Area. This exercise was preceded by the most torrential downpour of rain in living memory and it has to be said, it put certain members of the Squadron off, however, when the great day came we had glorious sunshine all weekend, so remember that next time, you big Jessie. Our thanks go to the Elgin Troop for their hard work and dedication to make a really good, fun, interesting weekend.

Sgt Tervit, Sig Johnston and LCpl Alison McKay

SOCIAL SCENE

51 Sqn still drives the social scene in Gordon Barracks and we are looking forward to **Sgt** 'Bud' **Burnetts** Western night with keen anticipation, if there is one thing we are not short of it's cowboys.

As the author of 51 Sig Sqn *WIRE* notes I would like to indulge myself (**Capt John** 'broken leg at Blandford' **Mackie**) and say goodbye to all my good friends as I leave the TA in July 2000. It has been a superb life and I cannot endorse it too strongly to anyone. The biggest change I have observed during my career has been the increase in opportunity for people to experience life outside their TA centre. I have included an article from one of our young Lance Corporals (see –20 to + 20) that typifies the prospects open to all.

52 SIGNAL SQUADRON (V)

Sqn Comd	**Maj Donald Gordon**
SSM	**WO2 (SSM) Swan**

THE KING IS DEAD, LONG LIVE THE KING

1 April, 2000, saw the dawning of a new, and some say long awaited, era in the history of 52 Sig Sqn. There have been some landmark moments in the history of 52 Sig Sqn, the Boer War, Battle of Ypres, crossing the Rhine and the move from the Jardine Street, home of the Squadron for over one hundred years, but these pale into insignificance with the inauguration of the new Sqn OC, **Maj Donald** 'Where's ya trousers?' **Gordon**. Some say it is significant that the OC was promoted and installed as Sqn OC on the first April Fool's Day of the new millennium, an event that has been welcomed like the birth of a messiah, but this is just the petty bickering of the jealous (have you guessed the author's identity yet?). **Maj Gordon** takes over from **Maj Roddy** 'Ginger Princess' **Sutherland** who has decided to relinquish the Saltire of Courage (52 (Lowland) Brigade Flash) and don the brown overcoat of shame, by taking command of HQ Sqn. We wish him well in his new post and pray that all that sleep he will get at Echelon will not prevent him from getting to the bar on time.

INAUGURAL 2 DIVSAAM

The inaugural 2 DIVSAAM took place at Barry Buddon Ranges over the weekend 5-7 May, 2000, with 32 Sig Regt (V) making a significant contribution with a total of five teams entered. This outstanding contribution was down to, in no small part, 52 Sig Sqn who provided the overall team captain, **Maj Donald Gordon**, his vice captain, **WO2 (SSM) Karen Swan**, two squadron teams and had personnel in two of the other Regimental Sqn teams. The competition was not without its glory as **Cpl Henry** 'Dodger' **Rodgers**, 52 Sig Sqn, won the Other Arms LSW shoot – well done **Cpl Rodgers**.

EXERCISE GORDON'S FIRST

Ex Gordon's First was a Squadron training weekend held over the weekend of 13-14 May 2000. The aim of the weekend was to train Escape & Evasion and survival techniques. The weekend began with the soldiers receiving a brief on the exercise scenario before being dragged away to be stripped of everything including their dignity. They were then interrogated by a team of SNCOs led by **WO2 (SSM) Karen** 'No Mercy' **Swan** who thought that the Spanish Inquisitions were a wishy-washy waste of time. The majority of the soldiers, although under extreme pressure, managed to resist the interrogation with only **Cpl Henry** 'It was McGovern! He's the boss!' **Rodgers** succumbing to the evil machinations of the Sergeants' Mess Crazy Gang. The soldiers 'escaped' and made their own way to Dechmont Ranges for the instructional phase of the exercise where they were educated in a variety of subjects including water gathering and purification, improvised ovens and shelter construction amongst others. One set-back was the lack of rabbits for the butchering lesson, as the range warden had failed to bag any the previous evening. The Sergeants' Mess Crazy Gang's normally hard, evil façade cracked with horror as the OC suggested that they '…take a tenner and pop down to the pet shop and get a couple of rabbits and a guinea pig.' They declined! The rest of the evening was taken up with command tasks and home improvements on our improvised shelters. That night saw a navigation exercise using hand drawn maps. Suggestions that the maps were not produced by the SNCOs as they were not drawn in crayon were met with growls of anger by the Crazy Gang. The night navigation was a success with Stand Two being the easiest to find as **Sgt Dougie** 'Ebenezer was a wastrel' **MacDonald** smoked endless cigarettes that had been confiscated that very morning from the soldiers during interrogation.

LCpl Anthea Purvis digs for gold (RMR Endurance Course)

Sunday morning saw the Squadron head off to Largs, the Scottish Riviera, to tackle the RMR Endurance course, which ensured that everyone was muddy and wet before returning to East Kilbride and freedom. The weekend was rounded off with a BBQ when those soldiers that had participated in the exercise were joined by a number of the ladies from the Squadron who had run in the Glasgow Women's 10km race. Congratulations go to **WO2 (SSM) Karen Swan**, ex-**SSgt Jean** 'What's a map?' **Thompson, Sig Elaine** 'I'm in the mood for dancing' **Woods** and **Sig Audrey** 'There's nothing wrong with my car' **Sheridan** for completing the race. The BBQ was a great success with **Maj Donald** 'One more bottle then I'm off' **Gordon** sweeping all before him in an impromptu basketball competition.

With the lessons of Ex Grey Garage still in mind the Squadron deployed to Barry Buddon as part of the Regimental Training Weekend. As the operators honed their skills in the sandy wastes of the training area great plans were afoot back in the camp. As part of the Regimental preparation for Annual Camp, a brainstorming session organised by the Commanding Officer saw the Squadrons 'flesh out' their various tasks at Annual Camp. 61 Sqn have arguably the most important task as we have responsibility for the RCP. During the brainstorming the OC, **Major Brian** 'Shankers' **Shankland** sucked thoughtfully on his pencil while the **SSM Terry** 'Health & Safety' **McGowan** longingly looked forward to tasking officers for guard and pan bashing.

52 Sqn Wet T-Shirt Contest (RMR Endurance Course)

ARRIVALS AND DEPARTURES

The Squadron say a sad farewell to **Sgt Lynden Box**, the tech PSI, who has been posted back to the regular army and the two and a half day week. We hope that there are enough jocks in 15 Sig Regt for you to enjoy the friendly banter that was every day life in the Squadron. We welcome in his place **Sgt Chris Kelly**, a jock, back to the chosen land and hope that he has an enjoyable and successful tour with us. We also say farewell to **SSgt Jean** 'I cannae see without my glasses' **Thompson** who has decided to retire from the TA due to work commitments after many years loyal service not only to the Squadron but also to the Pewter Pot pub. Finally we say good-bye to **Sgt Dougie McDonald, LCpl Adrian Augusto** and **LCpl Scott** 'Buzz Lightyear' **McGill** who have also relinquished the Saltire in favour of an easy life in HQ Sqn. We hope that the dental work required to remove your front teeth in order that you are ugly enough to join HQ Sqn is not too painful.

61 SIGNAL SQUADRON (V)

Sqn Comd **Maj Brain Shankland**
SSM **WO2 (SSM) McGowan**

DRIVER TRAINING

April was a mixture of driver training and ITDs, the former being a highly successful weekend organised by **Sgt Roy** 'First Parade' **Taylor** and **SSgt** 'Netty' **McGinley**. The action packed weekend saw **Sgt Taylor** do his best Jeremy Clarkson impersonation in a Landrover and then watch in varying degrees of awe and surprise, as the participants tried to match his driving efforts. On the return to barracks, **Sgt Andy** 'The Naked Chef' **Crawford** decided to throw in some ad-hoc recovery techniques by 'breaking down' in his Landrover.

The Squadron ITDs weekend was surprisingly well attended considering that Bounties had only just been paid the month before, proof indeed that Squadron members are imbued with a strong sense of fiscal prudence. All but Range activities were covered, with **SSgt Rowena Clarke**, **Sgt Stallard** and **Cpl Glen Davidson** providing the required expertise.

EXERCISE GREY GARAGE

The 'frenzy' of May training started with NCRS training in the now famous 'Ex Grey Garage' in Chesser Crescent. As ever **YofS Jeff** 'Nearly an Officer' **Jephcote** had overall responsibility for the weekend. Reports suggest that he has yet to rebut allegations that he plans to become an NCRS Consultant, with desires on selling his skills to the market.

EXERCISE WEST LOWLAND HIKE ('WLH')

As sure as night follows day, the Squadron provides support for WLH. This is an event with which the Squadron has been associated for the best part of 30 years. This year's event was, as usual, nothing but a success. True to tradition the 'Orange Avenger' made his appearance on the Saturday evening. This is an annual instructional period by **Sgt Taylor** for the youth of the Boys Brigade who are given an insight into what disguises may be obtained from a sleeping bag, rolled up newspaper and a black balaclava.

OTHER ACTIVITIES

Like the Squadron, its members have been far from inactive. Congratulations go out to **LCpls** 'Shoe' **Traynor** and **Borland** for passing MOI and RSDCC, respectively. Back in March, **Sgt Crawford** and **LCpls Woods** and **McDowall** provided assistance in the CORPSAAM, and more at the sharp end. **LCpls Borland**, **Florence** and **Costello** competed in the TA SAAM. Congratulations to **Netty McGinley** on her promotion to SSgt and also for the award of the Lord Lieutenant's certificate. Just reward for her longstanding commitment to the Squadron.

In the same month **LCpl** 'Betty' **Robertson** brought a Nordic theme to Squadron activities by participating both in Ex Snow Lion in Aviemore and Ex Snow Queen in Germany. She has now been nominated as the Squadron skiing expert with specialist skills in 'Apres Ski'. In the middle of May, **Lt** 'Sans Pantalons' **Donegan** found out just how good our NATO allies are at shooting as he participated in the NATO Officers Shoot at Barry Buddon. Rather unwisely, **Maj Brian** 'Mayhem' **Murray** was left in charge of the Grenade Throwing Stand. To date there have been no reported casualties.

ARRIVALS AND DEPARTURES

Congratulations and farewell go hand in hand for **Sgt Stallard**, who is promoted to Staff Sergeant on posting to 3 Div in July. **Sgt Stallard** has been a loyal servant to the Squadron for nearly three years, providing invaluable assistance both in communications and military training. Thanks for your four star help and we wish you all the best for the future.

A big hello to **2Lt Graham** 'I know VHF as well' **Gaw**, who joins us from EUOTC. **2Lt Gaw** brings a much-needed youthful zest to the Squadron Officers Mess and he is also a freelance Webmaster; his skills can be seen at our web site: www.tasignals.co.uk (link space available at very reasonable prices).

Reports of a large Stork flying over Chesser Crescent were confirmed when **Capt Stuart** 'Mad Dog' **Middleton** brought his beautiful baby girl into the Squadron in mid-May. Our best wishes go out to **Stuart**, wife and baby **Rebecca. Stuart** is looking forward to the next NCRS exercise so he can catch up on lost sleep during the night shift.

33 SIGNAL REGIMENT (VOLUNTEERS)

42 (CITY OF MANCHESTER) SIGNAL SQUADRON (V)

Sqn Comd **Maj M. O. Cummings TD**
SSM **WO2 G. Ward**

The highlight of this reporting period was an expedition to the Rocky Mountains organised by **Capt Dave Titheridge,** the Squadron 2IC. Nine members of the Squadron made up the party of fifteen from the Regiment who carried out Winter Adventurous Training during the period 22 March – 06 April 2000.

The Exercise took place in the area of Sunshine Village, which is a skiing area about 10kms from the resort of Banff in Alberta. The party flew from Manchester to Calgary on a nine hour flight and were based at Trails End Camp. Trails End Camp is an R&R centre traditionally frequented by Battle Groups staging through BATUS to the Medicine Hat training area. It is located an hours drive from Calgary on the West coast of Alberta. The camp is available for Winter and Summer expeditions and has fantastic facilities set in a stunning location. There are direct flights to Calgary from London as well as from Manchester and any unit requiring more information about the facility should contact **Capt Dave Titheridge** on 0161 257-3377 (Fax: 0161 248-8774)

Trails End Camp

'Do Ops really want a relay up here?'

EXERCISE TARTAN HUSKY 2000 - *by Sig Bill Staples*

Gucci kit and rolled oats packed, March 2000 saw a select few from 33 Sig Regt (V) depart these fair isles for two weeks of skitastic action in Alberta, Canada. The 15 members of 33 Sig Regt (V) made history by being the first TA Unit to utilise the Trails End Camp, BATUS in Alberta. Canada. Having recce'd the camp for future use, the Cavalry may well fear that yet another of their exclusive retreats has been invaded by undesirables.

As Tartan Husky was a serious exercise and not, repeat not, a holiday **Capt Dave Titheridge** executed a prompt tactical detour upon arrival in Canada. After all it is a barren featureless desert out there ('Other Side Sir'). Finally arriving at literally Trails End the scenery was outstanding. The camp, located at the foot of the stunning Canadian Rockies put Snowdon into context. However, we had more to do than just admire the views. The aim of the Exercise was to take those who had previously only built a snowman up to Basic Ski Proficiency and let the Milk Tray delivery types qualify at Ski Tour Proficiency level. Much of what was to be learnt was off piste and everyone was learning something new. The Regiment is now well on its way to having its own TA ski instructors. Split into two groups the experienced skiers piste-off to get used to the touring skis and enjoy the fantastic slopes of Sunshine Village whilst the beginners practised the joys of snow plough slopes and turns on the green slopes. **LCpl** 'Downhill Phil' **Jennings** demonstrated why military runways have nets, the unit is currently considering investing in second hand Jaguar parachutes for next year's novice skiers. By the third day the intermediate group were throwing themselves down black runs and the beginners even attacking blue runs although with a fair amount of trepidation. The evening involved a short trip into Banff to sample the local cuisine. Having demolished a small heard of local livestock, **SSgt Ian** 'Rooster' **Coburn** kept our NBC skills sharp for the remainder of the Exercise. With the basics of downhill skiing under our collective belts the instructors spurred us onward and upwards to ski touring. For the next five days our classroom was to be the vast ranges of the Rocky Mountains. After a few practice runs off the bitterly cold Lookout Mountain with the added weight packs, we practised some of the basic safety drills that are essential before we left the safety of the resort boundaries. This involved being able to search for people using avalanche beacons and snow probes. Much of this part of the training concentrated on recognising the considerable dangers of avalanches outside the ski resort boundaries and involved digging a number of snow pits to test the stability of the snow.

The weather was fantastic and the sky was a clean blue colour, rarely seen in the UK. The sun was blazing and caught it's first victims that day with **LCpl Andy Connell** and **OCdt Daniel Fenwick** learning that using anything less than factor 4,000 sunscreen was a schoolboy error. They would over the following days progress from beetroot heads to leprous fiends. In the next few days, though, the telltale racoon style sunburn pattern, from wearing goggles, began to show on everyone. A highlight of the trip was **SSgt Ian** 'Rooster' **Coburn** who introduced his teddy bear to the group, teddy was always found in the vicinity when 'Rooster, was digging himself out of a snowdrift having just descended into it in an ungainly manner. The final two days included a night out in the snow where we had to dig our own accommodation. Having found a huge snowdrift we set about digging (never know when you will need that entrenching tool) and after a few hours our new homes were ready. To dry us off after all that exertion the instructors took us to climb a summit close to Chez 33. The sun was setting and gave us a stunning view but we ended up more freeze dried than anything else. The scale of the snow holes varied from a snow cupboard to snow palaces but we had neglected to bring seal skins and Eskimo builders so they were somewhat lacking in the comfort department. **Jim Bland** and **Andy Connell** were unaware that they were expected to share their accommodation with 'Rooster's' now estranged teddy. Was it too much to expect a room made entirely of snow to be warm? Apparently so.

As dawn broke on our final day in the field the bears attacked…. (it could have happened OK!). After 'stand to' we demolished our homes and left no trace of our residence. Futile attempts were made to snap some flexibility into our clothes that had frozen solid in the night. With just one more peak to ascend and some avalanche safety tests to complete, R&R was getting closer so the pace noticeably increased. For the final few says, we relaxed in a hotel in Banff with its own heated outdoor pool located close to the centre of some kind of civilisation indicated by the presence of a Macodonald's and a Hard Rock Café. Those who had irrepressibly caught the skiing bug carried on skiing whilst **LCpl** 'H' **Griffiths, LCpl Jim Bland** and **Sgt** 'Spider' **Smith** went skidooing. Others explored Canadian cultural issues around Banff. It was an entertaining end to what had been a demanding and challenging Exercise for everyone and thanks to the staff at Trails End Camp, staying in the middle of nowhere was enjoyable. All of a sudden skiing in Aviemore will never be the same again. Next time we might nail ski's on the det's, hire some Husky's and bring the kit with us.

EXERCISE SUMMER EAGLE/PRONTO CALL 2

The main comms events over the last two months were Ex Summer Eagle (15/16 April 2000) and the Regimental PACEX (20/21 May 2000). Summer Eagle was a Comd 11 Sig Bde CPX designed to practise the Brigade's Ptarmigan management teams. The OC 42 Sqn was tasked to co-ordinate an Exercise for those Regimental personnel not involved directly with the CPX. This took place at the Altcar Training Area and involved setting up a normal comms complex but with the added task of running an RRR link from Altcar to Belfast. The relay chain was to start at Winter Hill near Bolton and end in the Stranraer Area. Our new SPSI, **SSgt Sam Faulds**, was despatched at a day's notice to find suitable comms locations on the West Coast. Undaunted, he spent a week completing the job only to have the link shelved in the end. But, as they

say, time spent on reconnaissance is seldom wasted, and the sites he found may come in handy one day. The Regimental PACEX took place in Swynnerton Training Camp and was the work up to ensure that equipment was ready for deployment on Ex Arrcade Falcon 2000. During this weekend the Squadron vehicles were thoroughly checked and all equipment tested. Also, MATRIX tests were carried out along with continental driver training in preparation for the Annual Camp in Germany.

EXERCISE ARRCADE FALCON 2000

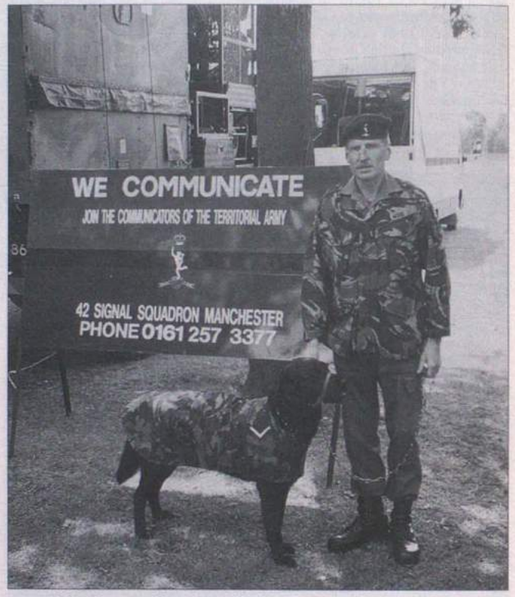
As we go to press, there are only a couple of days left before the Squadron rolls out of the gates of the TA Centre on its way to The Channel ports. This is a big moment for our 2IC, **Capt Dave Titheridge**, as he is in command of the Squadron due to the unavailability of the Squadron Commander, **Maj Mica Cummings**. Ex Arrcade Falcon is Chief G6 ARRC's annual comms FTX to be conducted during the period 10-24 June 2000. The Exercise takes place in Nordrhein – Westfalen in Germany and involves the deployment of 1 and 11 (UK) Sig Bdes. The movers have excelled themselves this year to make sure that The Channel crossing is as interesting as possible. A novel plan sees the Regiment loading its vehicles on to the North Sea Ferry at Hull and then jumping on coaches to travel via The Channel Tunnel to be reunited with the vehicles at Flushing. The coaches will break their journey at Napier Barracks in Folkestone to allow for some sightseeing in Kent, hosted by 1 Para! Hopefully, reunited with the correct vehicles, the Regiment will then proceed to the Brigade concentration area at Ayreshire Barracks in Moenchengladbach. Once PACEX and battle preparation procedures are carried out the Regiment will deploy to its field locations. Later in the Exercise there will be the opportunity to practice not only comms skills but military skills when the Regimental assets concentrate on the Sennelager and Paderborn areas to carry out total training.

BALKAN COMMERCIALISATION PROJECT

Two members of the Squadron travelled down to Christchurch to take part in trials being carried out by British Aerospace Electronic Systems concerned with commercialisation of CIS facilities in the Balkans. **Sgt Paul Duffin**, ably assisted by **Cpl Dave Cyrtis**, volunteered to participate in the project over a two week period at the beginning of May. The task was to see if 16/24 KVA generators were suitable to provide emergency power for the trials in the case of mains power failure. This involved interfacing power from one of the Squadron's generators with civilian communications equipment and dealing with any power related problems that occurred. Existing single phase power cables had to be modified and other problems overcome to make the trials a success. Despite setbacks, the job was completed, and both soldiers found the trip an interesting and welcome change from their usual role within the Squadron. They also had the added pleasure of chatting with Comd 11 Sig Bde, **Brig Jonathan Cook**, during his visit to inspect the project.

FAREWELL TO SSGT GEORGE WOOD

SSgt George Arthur Wood has recently retired after 24 years service with 42 Sig Sqn (V) during which he was awarded his TA Efficiency Medal with 1st and 2nd clasps. George will be sadly missed as he was one of the Squadron's real characters and was held in high regard by all members of this Squadron. A native of Wythenshawe in Manchester, **George** was a ferocious MT Sergeant for many years and ran his department with relentless efficiency. One of his proudest boasts was that he was summoned by a Squadron Commander, who is long gone, and congratulated on the state of the Squadron MT. The Squadron Commander told him, 'I know that you are doing a good job in the MT because I can't find anyone in the Squadron who admits to being a friend of yours.' **George** moved on from there on promotion to take over the Squadron Recruiting Team. He soon became a familiar sight in and around Manchester attending recruiting venues with his faithful dog Blackie by his side. Blackie was such a draw that he was promoted to Lance Corporal for his smart turnout and attention to duty. Born with the 'gift of the gab' **George** was a very successful recruiter and will be a difficult man to replace. One of his main claims to fame was that in 24 years he had never missed a camp and had always been awarded his CPO's efficiency certificate, which is a record to be proud of. **George** is now well past his sell by date and the Squadron has run out of excuses to put in his special overage enlistment proforma to sign him on for yet another year. However, he is a member of the Manchester Branch of the Royal Signals Association and we hope to see him again at Squadron socials and occasions such as Remembrance Sunday Parades. We should like to express our gratitude to **George** through the medium of *The WIRE*, and to thank him for all his sterling service with the Squadron and for all that he has done to secure the future of the Squadron for generations to come.



SSgt George Wood and his dog, honorary LCpl Blackie, manning the Squadron recruiting stand

34 (NORTHERN) SIGNAL REGIMENT (VOLUNTEERS)

CO	**Lt Col D. A. Hargreaves**
RSM	**WO1 (RSM) N. Yarwood**

NEWS FROM THE MANSION

As you are all aware, from the previous entries within this magazine, you will remember that the CO has been commanding another regiment somewhere in the FRY. Anyway the up shot is that we all have had a splendid time under the leadership of **Maj Allan Grindrod TD**. From all in the Regiment we would like to say a heart felt thanks to **Maj Grindrod** for guiding us through this last six months and to **Lt Col Hargreaves** glad to see you back in one piece. Only one departure from RHQ and that was the 'COMMISSIONING' of **WO2 (YofS) John Walesby** into the AGC(SPS). **YofS Walesby** asked to say a big thank you to the Corps for the helping hand in assisting his easy passage to the AGC. We would like to say a big welcome to the new YofS, however, we can't! The YofS was posted to Headley Court and we haven't seen him for 70+ days. As for the rest of the mansion:

George (Trg Maj) – Still cycling.
Les (QM) – Still on holiday.
Dave (Adjt) – Still not there.
Norman (RSM) – Still in Scotland.
Richie (RQMS) – Still winding CO's up asking them to release Corps football players.
Steve (FofS) – Still acting YofS, on promotion.
Stuart (Trg SPSI) – Still the blue ginger Jock.
The notable achievement by the mansion is that they remain unbeaten in the weekly football fixture against all comers.

Back Row (L-R): Richie Bell, John Walesby, George Whyman
Front Row (L-R): Bob Brehenny, Steve Young, Norman Yarwood, Dave Wilson, Mark Emmerson

BUTTERWICK CHILDRENS HOSPICE CHARITY ASSAULT COURSE

Enthusiasm and team spirit came to the fore as civilian teams put themselves through their paces to complete a charity assault course. Thirteen teams of ten entered the competition, which was held on the old 8 Sig Regt assault course in Catterick. The winning team was of people on probation, in a time of under five minutes. The event raised over £4000 and only proved to be a success due to the hard work of **SSgt Stu Mckinnon** and a staff of everyone! The Regiment has already been approached to organise next year's event which the newly appointed Regimental Press Officer, **Lt Ruth Middleton-Powell,** will look forward to promoting.

LANDYARD TROPHY – *by Sgt Judy Adcock*

The Team:-

2Lt Keith Williams	**SSgt (FofS) Steve Moore**
SSgt Gary Jowers	**Sgt Judy Adcock**
Sgt Patto Patterson	**Cpl Jerry Carr**
LCpl Terry Collict	**LCpl Becky Williamson**
LCpl Aran Wimpenny	**Sig Peter Sutcliffe**

It was hoped to enter two teams from the Regiment, one male and one female, however, due to very busy Regimental training programme, car crashes and pregnancy the above mixed team was entered. **2Lt Keith Williams** co-ordinated all the training that also included a weekend recce to Dartmoor. On the day there were 31 teams, we were told, of which four were female and four TA. We taped our feet up the night before and packed our Bergen's and marched up and down to make sure they were comfortable. Though some of the men in the team had done the event before none of the girls had done quite this distance and certainly not carrying any weight to speak of. Sleep was at a premium as we arose at 0145hrs, on the advice of the team leader, to beat the breakfast queues. We got off to an excellent start with **2Lt Keith Williams** deciding that he knew better than the TAC signs and promptly got the team lost on the way to the start line. At the start line last minute preparations saw a mad dash to the portaloos! The air horn sounded and we were off. 31 teams striding up the Tors all with something to prove. Checkpoints 1, 2 and 3 passed easily enough but after that, things changed. Our 'easy to find' Checkpoint 4 had vanished into the mist, and us, very nearly, with it. After a nervous half hour we finally realised we were actually about 20 metres from the checkpoint, thanks to some stunning map reading by **SSgt Gary Jowers** and **SSgt (FofS) Steve Moore**. At Checkpoint 5 we met our admin party of **Lt Ruth M-P** and **Cpl** 'Ollie' **Oliver.** Checkpoint 6 was the food stop! Good job we had our own. Nuff said! The route to Checkpoint 7 was short but had the biggest hill in NATO in between and then a quick hop to Checkpoint 8. Between Checkpoints 8 and 11 my body was in great pain so the only memory is that of **LCpl Becky Williamson** having the most evil blisters. Anyway after a few horse pills she was back to normal! At Checkpoint 11 we met up with the admin party again to be told the winners had finished. The legs between Checkpoints 12 and 13 we long but largely uneventful. However, due to some excellent route research between Checkpoints 14 and 15, we managed to push ahead of four other teams. After 16hrs23mins we had finished with a full team.

The award ceremony was a real shock. We were one of only five teams to finish with all who started and we had won the TA event. A big thank you to **2Lt Keith** 'Adonis' **Williams** for all his efforts in driving the team forward and the admin team for much needed words of encouragement when most needed.

HEADQUARTERS SQUADRON

Sqn Comd	**Capt Alan Watts**
SSM	**WO2 Kev Turrington**

The Squadron would like to say a fond farewell to **SSgt Steve** 'the marriage' **Goodyear** who leaves the army at the end of 22 years service. **Steve** take care and you are always welcome back. A war welcome to **SSgt Ralph** 'the bite' **Hutton** who joins us from 33 Sig Regt. Welcome to the Squadron and get your teeth stuck into the challenges that lie ahead.

EXERCISE FINAL EXIT – *SSgt (Now WO2) Si Land*

This was organised by **SSgt Steve Goodyear** and was a navigation/leadership exercise with a difference. Members of the Squadron were paired off and had to complete a number of 'tasks' throughout the North East. Teams returned at the end of the event with parts of steam engines and coal from the North York Moors railway in Pickering, sticks of rock from Whitley Bay and Whitby, a rare brew from Ripon Cathedral and all manner of unspeakable items. Notable mentions must go to **Cfn Fitzgerald** who got himself on to Darlington local radio, Alpha 103.2, and **SSgt (FofS) Si Land** and **LCpl Julie Morrison** who made the North East's Century Radio sports programme. The latter pair being the overall winners. A big thank you to **SSgt Steve Goodyear** for planning challenging enjoyable training throughout his time in the Squadron. Congratulations to **Sgt Lance Cairns** on his promotion to Staff Sergeant.

49 (WEST RIDING) SIGNAL SQUADRON

Sqn Cod	**Capt Richard Lenton**
SSM	**WO2 Al James**

The Squadron has been in good hands since **Maj David Sixsmith** departed for Bosnia. We wish him a safe speedy return and thank **Capt Richard Lenton** for his efforts at the helm. The Squadron heard one Saturday morning that one of its subalterns had killed a BMW. While driving home, **Lt Ruth** 'I know I'm always right' **Middleton-Powell** drove her beloved BMW compact into a ditch. Rolled it a couple of times before leaving it resting on its roof. The police said that the car was pronounced dead at the scene by the mechanics and that they would be taking **Miss M-P** into custody for the murder of said BMW Compact once she had recovered from her broken back. On a serious note, 'Don't get fast cars that you can not handle!' **Ruth** has made a full recovery, to the delight of all, and is now enjoying a period of less strenuous training to ensure a trouble free future.

Congratulations go to **SSgt Keith Holdstock** on his promotion to WO2 and being appointed SSM and **Sgt Dave Carr** on his promotion to Staff Sergeant. A special message must go to **SSgt (FofS) Steve Moore** who has watched all his Forenames' course get promotion before he. Not once did he phone the Adjt to cry in his beer about not been selected! However, the cunning plan was not to tell him of his promotion until eight weeks after the board sat. This is now done so a very belated congratulations to **Steve** on his well earned promotion to WO2 and we wish him and his family the best of fortune with 4 Armd Bde.

A sad farewell is said to **Sgt Barney Phillips** who is leaving the Corps after 22 glorious years. Good luck and drop in whenever you are in the area.

Sgt Frank Mason – Turning the clock back

TA PHASE 2 RECRUIT COURSE – *by Sig Sally Buck*

After weeks of preparation, apprehension and waiting, my TA Phase 2 recruit's course finally arrived. Rushing around trying to make sure that I had not forgotten anything was frustrating. I had heard many stories about the course held at Blandford and none of them were pleasant. The prospect of two weeks of being shouted at was also something I was not particularly looking forward to. Needless to say I was a little worried!

Week 1 - Being a student of Spanish and Media at Trinity and All Saints University in Leeds the transition from civilian life to two weeks of a military lifestyle was a bit of a culture shock at first. Travelling down with **Sig Ross Pemble** and **Sgt Gary Openshaw** I spent the journey wondering what on earth I was letting myself in for. **Sig Pemble** was in high spirits and looking forward to the course. Was he mad? I soon felt a little more relaxed though when we discovered that **Pemble** had forgotten his beret. Oops! The first group I met on the course was the gang from 40 Sig Regt in Northern Ireland. The first week was a funfair of room inspections followed by long days of lessons such as weapons training, NBC, hygiene in the field and map reading. We also went out on our first exercise of the course towards the end of the first week. For me, the exercises were the most enjoyable. Although we discovered that many of us need to control our imaginations as the amount of people who tried challenging imaginary ghost-like enemies was amazing. At this point I would like to thank my basha partner **Sig Ian Covey** for helping me keep my sanity when I came under pressure as section commander. Night patrol was fun but we needed to teach **Sig** 'skull' **Doherty** of 40 Sig Regt that when told to blend in with the trees he shouldn't take it so literally as he took on a nasty habit of adopting tree-like poses. One thing I did find amazing was how close strangers could become when they are thrown together for two weeks in those types of situations. By the end of the first week I felt as though I had known the other recruits for years.

Week 2 - seemed to fly by. By this time many people were ready to go home. A number of people injured themselves on the first PT lesson, therefore were unable to go on the second exercise so there were a few miserable faces as we prepared for our second night out in the field. Blood was pouring, sweat was dripping and my tears were plentiful that night as we braved the frosts out on Salisbury Plain. Patrols were fun and the firefight was something else. Rounds were fired, smoke was screening but what happened to the 30-metre safety distance for the thunder flashes?

Battle Field First Aid was also on the agenda in the second week. Some people failed their assessment as their actions would have actually killed their casualty! We also had the chance to shoot on the SAT range though I must remember to actually look through the weapon sights correctly. Well it had been a long tiring course. My favourite part of the course came in the second week, the Gas Chamber! It provides a perfect opportunity to rid yourself of any fluids you no longer require as they stream out through your eyes and nose. Your lungs also feel quite clear and refreshed as you cough up any unwanted phlegm!

Conclusion - On arrival back home after completing the course, I found it hard to switch off. I couldn't shake off this feeling that I should be bulling boots or ironing. My advice to any recruits going on their TA recruits course is to work hard but try and keep your and others' spirits high. It is hard but if you can laugh about the mistakes made and can work as a team then you are well on the way to being a winner!

745 SIGNAL TROOP – HULL

Congratulations go to **Sig Victoria Wedgwood-Jones** on completion of Ex Bright leader with Sheffield Officer Training Corps. The Exercise aims to teach young potential officers leadership and command skills with a view to them, eventually seeking a commission. **Sig W-J** was joint first on her course. **Sigs Pelly Pemble** and **Shirley Courtney** have recently completed their 2-week Phase 2 Recruits training at Blandford and have now rejoined the Troop. **Sig** 'Monkey Boy' **Coyle** and **Sig** 'Twinkie' **Twidle** have completed their Regimental Phase 1 Recruit Training. Congratulations to **LCpl Angus Wreathall** and **Sig John Stead** who completed their RMC course in style, both obtaining excellent reports.

50 (NORTHUMBRIAN) SIGNAL SQUADRON

Sqn Comd **Maj Graham Jennings**
SSM **WO2 Steve Tinkler**

EXERCISE FFARWELL HOFFUS (EX FOND FAREWELL)
BIRTWISTLE TROPHY COMPETITION– *by Sig Sonia Hall*

The Regimental annual military skills competition took place at Warcop Camp. With instruction that from now onwards we would be a family, the preparations began in earnest to prove that 50 Sqn would win something other than the RSIT trophy. We arrived at Warcop on the Friday evening expecting a decent night's sleep. Wrong! I was selected to take part in the Night Patrol before Saturday's events of march and shoot, section in defence, NBC, orienteering, command tasks, weapon handling, SAT and the assault course. How I wish that I'd volunteered for the overtime at work. Highlights of the weekend were **Sgt Mickey Jemmy's** ability to break a vital piece of equipment during the command task! My own infatuation in carrying bungees and **Sgt Ross Blairs'** ability to abseil with only one hand on the rope after a particular nasty burn to his palm.Other team members were **Sigs Iggy Patterson, Keith Elsdon, Jim Stevenson, Graham Black, LCpl Neil Watkin** and **Cpls Cliff Readshaw** and **John Whiteman**. Saturday's events were rounded off with a curry supper and Inter-Squadron Football.

The competition was very tight throughout with only one point separating the top three teams. I was convinced that the turn of the year had broken the spell of bad luck that 50 Sqn has encountered in previous competitions. Alas, once again 49 Sqn proved victor with a total of 47 points followed by HQ Sqn and ourselves with 46 points. Again the Regiment was fortunate as **Maj Gen Birtwistle** attended to present the prizes in person. An inspiring man who was warmly greeted by old and new friends alike. Looking back over the weekend I can honestly say that this was one of the most exhausting weekends that I had ever attended, however, due to the good sportsmanship and overall competitiveness it was undoubtedly one of the best. I would like to thank all personnel within 50 Squadron for your support, wit and humour in times of tiredness and desperation, as without it I truly would not have enjoyed the event nearly so much.

Birtwistle Competition

90 (NORTH RIDING) SIGNAL SQUADRON

Sqn Comd **Maj Ian Hall**
SSM **WO2 Ian Ward**

EXERCISE BELGIUM DEFENDER

The Exercise is an International Military Skills Competition run by the Reserve Forces Association and hosted in each of the different member countries. 90 Squadron sent two teams, one male (**WO2 Huntington, Sgt Mason, Cpl Carr** and **LCpl Belt**) and one female (**LCpl Wilkinson, LCpl Williamson, Sig Bibby** and **Sig Savin**). Both teams acquitted themselves to the highest of standards and were commended for their performance and efforts.

THREE PEAKS

A small squad of six recently completed the three peaks challenge. **WO2 Ian Ward, SSgt Mark Emmerson, Sgt Patto Patterson, LCpl Becky Williamson** and **Sig Machela Savin** began the climb up Snowden at 0600hrs an the Saturday and finished the descent of Ben Nevis at 1500 on the Sunday. The team was exceptionally lucky with the weather, which undoubtedly helped to this most excellent performance.

LONG DISTANCE RUNNERS

90 Squadron was well represented in the TA half marathon recently with **Sgt** 'Patto' **Paterson** and **LCpl Neville Kitching** bagging the first two places. The Squadron also entered 'Patto' and **Neville** along with **SSgt Gary Jowers** in the TA Cross-Country Championship. **Sgt Patterson** winning with **LCpl Kitchen** coming third.

FINALLY

The last snap shot with the RSM, **WO1 Norman Yarwood**.

Maj Gen Birtwistle chatting with troops with the then Acting CO, Maj Allan Grindrod, enjoying the RSMs 'Camp' stance!

XXXV

CO **Lt Col S. J. Potter TD**
RSM **WO1 (RSM) P. Marshall**

I GUESS THAT'S WHY THEY CALL IT 'THE RUNS'
by Hell Tum John

After an extraordinarily busy week leading up to the Regiment's first annual camp to Germany in three years I find myself in the unusual situation of having to compose *WIRE* Notes during the journey and I am conscious of the unpleasant fact that I am perilously close to the deadline set by the Editor. I find I have contracted salmonella after a routine eats and drinks stop, which has led to a sustained and merciless attack of diarrhoea. I have now resigned myself to the fact that I am going to have to throw myself at his mercy. I hope when he learns of my plight that he treats my desperate situation with compassion and understanding and even offers me a few words of comfort. As I write I can't even bear to look at any sign that says Ausfahrt. At this point I would like to dispel any suggestion that it had anything to do with the eggs at Goojerat Barracks. Through my discomfort, which by the way attracted few words of sympathy from both the Adjt and RSM - yes I concede raising the subject at lunch was not the most appropriate time, but what the heck these winged messengers must have experienced similar situations on dozens of occasions. As I was saying; through my discomfort I was acutely aware that a devious and cunning plan to deceive our potential adversaries was, in my humble presence, being executed and tested against a fictitious enemy. This cunning plan involved detaching troops (some of whom even went by completely different routes) from their vehicles by using a combination of freight and passenger ferries just to confuse the enemy. The Training Major, **Maj Tudor Hill** could be seen at the ticket-desk attempting to thwart this dastardly plan but alas the freight-boat was full and he couldn't afford the ticket cost anyway! I am sure this particular mobilisation plan will be subject to review. We also had the dubious pleasure of sharing our HSS Ferry with Euro 2000 Fans who managed to take up every available comfortable seat as well as creating a nuisance, which only added to our woes.

However, the Regiment behaved impeccably and, as expected, all members acted as true ambassadors for their country, a fact not lost on customs officials and the local population on disembarking. A small group from the Regiment did, however, use their initiative by purchasing a £6 ticket that allowed access to the panoramic deck complete with luxury seats including free coffee and tea. This clever little group included **Capts Mark Whittingham** and **John Middler, Lt** 'Skip' **Whalley.** They were joined by **SSgt Mark Rosenworth, SSgt Andy Wilkins** and **Sgt Steve College,** who mysteriously cannot produce the evidence of any ticket purchased, 'The door was open Guv,' springs to mind. We did, however, achieve our objective of reinforcing the GASTRIC (or was it GASTIC) frontier even if we were just a little late and tired, but more about this in the Annual Camp edition of *The WIRE*.

Before I go I have to bare my soul and admit to an error committed during my delicate plight, I found myself confiding in who I thought was a rather dignified and distinguished looking field officer outside Brigade Main HQ who looked very friendly and approachable. Amongst other things I found myself confessing to him that I was hoping to evade the Brigade Comd to avoid explaining why as Regimental PR Officer and unit photographer - throwing in just for good measure my responsibilities as visitors co-ord and DAMCON - why I was only wearing light clothing and a beret rather than full tactical combat kit. Then I just happened to glance down at his rank slide and found myself addressing the new Brigade Deputy Commander. Trying to diplomatically extract myself from this situation, a thought crossed my mind - I hadn't actually said which unit I was from or who I was. Momentarily a tactical withdrawal was on the cards but I thought better of it and believe that I actually introduced myself! Now I find myself placed at both the mercy of the Editor of *The WIRE* and the Brigade Deputy Commander- cest la vie.

HIGHS AND LOWS

The Regiment's challenge teams have experienced mixed fortunes during the last two months especially in their efforts to achieve success at various Orienteering competitions and Race the Sun. The Regiment in particular has a reputation to be envied on the orienteering front and continues to be well represented in all competitions and has recently claimed a fair degree of success in both the Divisional and LAND championships. In the 5 Div minor units competition held at Queen Elizabeth Park on 12 April the Regular team seized the runner up award having been narrowly beaten by 7 Regt AAC by five minutes. Meanwhile, the TA Male and Female team from 89 Sqn unfortunately lost their hold on the 5 Div Championship Trophy and could only secure runners up in the competition held in the Forest of Dean on 16 April. This disappointment was quickly turned into a celebration however, when **SSgt Dave Arnot,** in his physical prime at the grand age of 53, was declared the 5 Div TA Male Champion thus wiping out the much younger opposition.

The LAND championships was held at Sennybridge over the weekend 19/20 May. Shock and unexpected results were the order of the weekend with the underdogs of HQ Sqn by a magnificent, sustained and skilled team effort snatched the TA Ladies Cup from a tough opposition and deserve special congratulations despite the eviction of the opposing teams for missing markers. **2Lt Janet Lawrence** is also to be congratulated on achieving runner up to the TA Ladies Champion. Disastrously and adding to their misfortunes in the Div championships 89 Sqn found themselves disqualified because an inconsolable **Cpl Tony Griffiths,** who just happens to be the Regimental Champion, missed just one punch. At that stage 89 Sqn were leading the nearest opposition by 90 minutes and we extend our commiseration's. How the mighty have fallen, but we are confident they will return with a vengeance.

Despite our preparation and splendid organisation by **Sgt Mark Evans** our efforts towards achieving some form of success during Race the Sun failed to materialise. We had a strong and capable team but the competition which was held in the York area on 25 May was particularly fierce and competitive this year as well as gruelling. It has to be said that this team effort can only described as a glorious failure simply because of the sheer guts and determination displayed by all team members throughout the race against the toughest opposition seen for many years. Thankfully the entry fee of £300.00 will be wisely invested in many worthwhile charities.

NONE BUT THE BRAVE

It is a pleasure to see 95 Sqn taking prominent position in this edition of *The WIRE* and it is particularly pleasing to continue the report of the involvement of **SSgt Phil Weaver** and **Cpl Richard Jones** five years ago in a very brave rescue attempt in which they risked their lives. In November 1995 **Phil** and **Richard** pulled **Sig Jamie Walker** from a burning land-rover and saved his life and did not even consider their own personal safety. The accident happened when they were part of a Squadron Packet en route to Germany via the AI 4. Most will recall that the Land Rover they were travelling in burst into flames after a seven tonne goods vehicle hit it from behind. For this brave action they have already received two commendations and now they have received international recognition for their bravery. At a special and surprise ceremony held in the TA Centre on Tuesday 23 May they were presented with the European Award of Highway Comradeship by the CO, **Lt Col Stephen Potter.** This prestigious award is the highest of its kind in Europe and will hold a special significance to its recipients who continue to play down their very brave and dramatic role in rescuing **Jamie Walker. Sig Walker** now hopes to join the Royal Navy and we wish him every success and sincerely hope he achieves his ambition. This is clearly one heart warming story of human endeavour and fortitude that fortunately is not going to go away and will be remembered for many years.

One more bravery award to add to the collection!

SPOT ON TARGET

The Regimental Shooting Team under the expert guidance of **SSgt Richard Brown** has raised the Regimental military skills profile beyond all of our imagination. The fact that the team is mainly composed of members of 95 Sqn is not lost on the rest of the Regiment and it is accepted that they can claim and enjoy their successes for the benefit of all members of the Squadron, be justifiably proud of their efforts and celebrate it as a joint Regimental and Squadron victory. A celebration that no one would even attempt to deny. Excellent shooting skills were displayed at the Corps SAAM held over the period 7-9 April with the Regiment achieving an outstanding second place overall. There was no stopping the team at this event and individual members achieved unimaginable success - **SSgt Phil Weaver** after a magnificent shooting display secured the LSW Trophy and **LCpl Phil Williarns** beat off the opposition to take the Association Cup. This excellent team also came third in the Pistol Shoot. Still celebrating and recovering from their earlier success at the Corps SAAM the team then made a concentrated assault on the 143 Bde SAAM when the Regimental Team took fourth place, beaten only by 2 Coys of the West Midland Regiment and BUOTC (by a marginal one point). This again was a magnificent feat worthy of rejoicing over many weeks if only for placing the Regiment and 95 Sqn firmly on the shooting map and a worthy but feared adversary for the many teams throughout the West Midlands. During the course of the contest three members of 95 Sqn gained the honour and distinction of wearing the Army Marksman Badge for the next twelve months and they are pictured together with the CO. Very well done to all team members and their coach. It is to be hoped and expected that next year will see even more glory for 95 Sqn and the Regiment.

NEW BLOOD

Happily it always gives the Regiment a sense of fulfilment to be able to report on the successful completion of a Recruit Course in every edition of *The WIRE*. If we are able to do this then it is a good sign that we are maintaining our recruiting efforts and adding to both the strength and efficiency of the Regiment. Our concern and commitment to recruiting can be highlighted in the revelation that our last course pass off and induction was held over a Bank Holiday weekend on Saturday 27 May, which also saw many members of the Regiment preparing for Annual Camp, thereby giving new recruits a clear message regarding personal commitment and attendance. This course was well represented by every Squadron, all of whom gained some new blood. As usual the CO, **Lt Col Stephen Potter,** was the inspecting officer and he presented the award of Best Recruit to **Sig Heather Trimm** of 58 Sqn and a special announcement was also made by the CO to congratulate **Sig David Proffitt** of 89 Sqn for achieving the status of being the most improved recruit. **Sig Proffitt** is a welcome addition to the TA family as he joins his brother, recently promoted to Corporal, who is also serving with 89 Sqn. This adds to the numerous same family members serving throughout the Regiment.

The CO presenting the award of Best Recruit to Sig Heather Trimm

PERMANENT STAFF ROUND-UP

The turbulent posting system that affects the permanent staff is something that we are now well accustomed to. Nonetheless it still leaves a feeling of sadness when just as the permanent staff have fully integrated into their role within the Regiment it is time to move on but we have now become well adjusted to the continuous changes that take place every two or three years. Recently we have said farewell to **SSgt (FofS) Andy Gilpin** and family, and a particular sad farewell to **SSgts Carl Smales, Jim Stephen, Derek Adams** and **Oz Linden** all of whom leave the Regular Army on retirement after many years on devoted and exemplary service. We wish them all the best of look and good fortune in that vast organisation called 'civvie street' and hope that their extensive trade, management and leadership skills will soon be recognised by astute employers. Sadly many more permanent staff will follow them in the coming month but thankfully only on posting. We have however, welcomed many new faces in **SSgt Les Singleton,** who joins the Regiment as the new armourer, **SSgt Barney Balmforth,** the new SPSI of 58 Sqn, **SSgt (FofS) Steve Brown** to RHQ, **SSgt Roy Carter,** the new SPSI of 95 Sqn, **SSgt Dave Owen** to 48 Sqn and finally **Sgt Dave Wildish** to Mike Tp. We extend a warm welcome to all new arrivals and their families and wish them a happy and rewarding tour with the Regiment. The permanent staff news round concludes with the presentation of the LS&GC Medal to **SSgt Andy Gilpin** and **WO2 (YofS) Phil Tonks** for achieving 15 years exemplary service. On Tuesday 18 April Comd 11 Sig Bde, **Brig Jonathan Cook** presented the award to both recipients at a special ceremony held in the Sergeants' Mess at Canley. Following the award he enlightened a rather enraptured audience on the history of the LS&GC that was laced with a little sorrow that the gratuity that went with it ended many years ago. Following the presentation the Brigade Commander presented **SSgt Dave Arnot** his Corps Orienteering Colours - a richly deserved award to the Regiment's most prolific orienteerer.

36th (EASTERN) SIGNAL REGIMENT (VOLUNTEERS)

CO **Lt Col W. Brown TD**
RSM **WO1 (RSM) D. T. Eaglesham**

REGIMENTAL BACKGROUND

The Regiment can trace its history as far back as the reign of Queen Elizabeth 1 of England (around the same time that the current TM enlisted) who issued instructions for the muster of a regular City of London Militia in 1559. One of these bands, after many changes through the centuries, became an Engineer unit prior to becoming a Signals Regiment in 1920. Signal Regiments from East London and East Anglia served with distinction in World War II and 36th (Eastern) Signal Regiment (Volunteers) was formed in 1967 from three of these disbanded Regiments. The Regiment, in its present guise, is composed of the following elements. HQ Squadron and RHQ are based in Ilford, 44 (Cinque Ports) Signal Squadron is sited in Grays and Southend, 45 (Essex) Signal Squadron is situated in Colchester and Warley and last, though certainly not least, 54 (East Anglia) Signal Squadron which has Troops in Cambridge, Norwich and Bedford.

LORD LIEUTENANT'S CERTIFICATE OF MERITORIOUS SERVICE - WO1 (SVWO) MICK GRIMSHAW

WO1 Mick Grimshaw receives his certificate from the Lord Lieutenant, Field Marshall Sir John Chapple

At a recent ceremony held at the Duke of Yorks Barracks, Chelsea, **WO1 Mick Grimshaw** was presented with the 'Lord Lieutenant for Greater London's Certificate of Meritorious Service' by **Field Marshall Sir John Chapple**. Very few of these awards are presented each year, and they recognise the outstanding contribution made by the recipient, above and beyond that normally expected from someone of their rank and length of service. The citation for the award highlighted **WO1 Grimshaw's** quite exceptional enthusiasm, dedication and energy, and recognised the fact that since he joined the Regiment he has always led by example in a number of key posts. As well as holding the appointment of Senior Volunteer Warrant Officer, **WO1 Grimshaw** also commands the Regiment's Radio Troop based at Ilford and Southend. Older readers of *The WIRE* (and Chelsea Pensioners) may recognise **Mick** from his regular service, during which time he attained the rank of WO2. They may be assured to know that he has lost none of his ready wit, immaculate hair styling or the natural, indeed uncanny, instinct to disappear when it's his turn to buy the beer. Our sincere congratulations go out to **Mick**, and his wife **Sue**, for this richly deserved honour.

NATIONAL TA OPEN DAY - 25 MARCH 2000

The Regiment opened the doors of its TAC's to the public for the national TA open day on 25 March. A massive event, it was co-ordinated by the TAVRA (now RFCA) in order to publicise the role, and outline the benefits to individuals, of the Territorial Army. The total attendance at 350 centres across the country reached 57,383, which resulted in nearly 5,000 serious enquiries about a career in the Reserve Forces. All four Squadrons within the Regiment participated, and the following report from Colchester, in tandem with the notes from HQ Sqn, should serve to capture the flavour of events throughout UK.

45 (ESSEX) SIGNAL SQUADRON (COLCHESTER)

The open day proved to be very hectic for those members of 45 Sqn assigned to 'PR' duty. The PSAO, **Capt Rod Allen**, and **Sgt (PSI) Nigel Back** had worked extremely hard during the week leading up to the event, and all the TA personnel who attended on the day played their part to the full. All their effort has appeared to pay off, as 35 of the 300 members of the public who walked through the gates expressed a strong interest in joining 45 Sqn. Several VIP's supported the event, including the **Mayor of Colchester** and the two local Members of Parliament, the **Rt Hon B. Russell MP** and the **Rt Hon B. Jenkin MP**. Stands such as the indoor range and the Radio Tent proved to be particularly popular, with even the **Rt Hon B. Jenkin MP** willing to try his hand at a PRC 349, though the transducer headset didn't do much for his hairstyle!

Two competitions, one national and one local, ran in tandem on the day and were open to all members of the public (though not to the CO and RSM, much to their dismay). The local raffle, organised by 45 Sqn and awarded to five lucky winners, offered a sports bag, a certificate and a day out with the TA. The winner's day started gently enough with target practice on the indoor firing range, but **Sgt Nigel Back** soon had them transported to Friday Woods where they experienced different methods of survival training, made some improvised shelters and were taught a variety of trapping skills. The excitement mounted with some cross-country driver training, before a basic assault course rounded off a busy but fulfilling couple of hours.

STOP PRESS: As a result of this 'day out', 45 Sig Sqn has now increased its manpower by two new recruits!

Sgt Nigel Back shows competition winner Mr (now Signaller)Graeme Biggins the finer points of Army Life (photo is courtesy of the East Anglian Times, Evening Star & Associated Newspapers)

HEADQUARTERS SQUADRON - ILFORD
Sqn Comd **Maj P. J. Minshall**
SSM **WO2 A. C. Wells**

Episode 2: (Or the continuing saga of Ilford Folk). Headquarters Squadron has continued to make progress with its transition to a lean mean fighting machine, however most is by using mirrors and double bluff, some one has fixed the RMO's Scales. What have we been up to since Episode 1. Well, we had the TA National Open Day, where we threw our doors open to the local community, the idea being that they would come in and meet us and be impressed enough with what they saw to queue up and join. Realism soon set in, however, when the first people through the gates were a young mother with three young children coming to see the soldiers shooting people, closely followed by an elderly lady and her 'mother. This enabled the PSAO (who is no spring chicken himself) to actually welcome some one below and above the age limits and explain why the Army Equal Opportunities policy did not stretch far enough to accommodate them. The open day was supported by our local branch of SSAFA, and **Maj (Ret'd) Barry Greenwood** of the Royal Signal Association (East London) Branch attended in his alter-ego as a former REME soldier to help out the LAD - divided loyalties indeed!!

Maj (Retd) Barry Greenwood demonstrates that he still wields a mean spanner to LCpl Gill Baynes AGC (LAD Clerk)
(Photo courtesy of the Ilford Recorder)

The outcome of the event was 11 positive enquires taken, of which one has since joined and another three will join in the near future. This coupled with unit efforts has enhanced the Sqn strength in our drive to achieve full recruiting.

Maj Peter Minshall greets the former LCpl Peter Arkell who he had not met for some 25 years
(Photo courtesy of the Ilford Recorder)

Ricky (with baseball cap) down the arches surrounded by several menacing East Enders – and WO2 (SSM) Tony Wells!
(Photo courtesy of the Ilford Recorder)

Another interesting aspect of the open day was the 'surprise guest', a la Cilla Black, who arrived at the front gate. A gentleman came in and shook **Maj Peter Minshall** by the hand (and to the soles of his boots); the former Lance Corporal, now Mr, **Peter Arkell** had been the then **LCpl Minshalls** detachment commander some 25 years ago. This immediately brought out some interesting stories of 'camps past', most of which for some reason the OC wanted to be kept quiet. Unfortunately for him, **Peter** has been recruited for the Royal Signals Association and all will soon be revealed. The winner of the Ilford Open Day competition was **Mr Ricky Spencer** (Well, it was his mother actually, but lets not quibble) and his prize was a weekend out with the Squadron during Ex Starburst III, more of which later.

The routine of life, as in any busy R SIGNALS Regiment, continues with Brigade Exercises in March and April, PRE in May, followed by RSIT in June. We look forward to more of the same with Ex Mars Marathon and the Regimental Military Skills Tournament, The Mountvoy Trophy in July as the prelude to our first UK Camp in three years at Castle Martin in South Wales. Arrivals and departures have thankfully been few in this period. We wish a warm welcome to **Cpl Alan Roberts AGC** into the RAO and RRTT - as an Ex-Cavalryman (now AGC) he is reassured by the presence of people around who occasionally wear spurs (but only in the privacy of their own home). Another auspicious arrival to the Squadron and Regiment is **Maj John Jenkins** RAMC - after a 15 year gap, we suddenly have a Medical Officer which will be a shock to the system of AMS/RAMC personnel scattered around the Regiment. He is definitely unique - a fit (ex-para) RMO who, in his mid forties, is still running marathons very quickly; stretcher races will take on a whole new meaning. Another resurrection from the ranks of the retired is **Sgt Les Eldridge** - Ex-39 Sig Regt (V), he has rejoined the TA at quite an advanced age to become the new SQMS (V) for the Squadron, a key post which he has filled extremely well from the outset. Perhaps the QM will now be a little happier. Another change to the Regimental and Squadron Orbat is **Maj John Nixon**, the old RAO (V), who has been transformed to become the new NRPS RAO. Regimental Administration will never be the same, we are already polishing our soccer boots and laying out the pitches on the grassed recreation area to the rear of the TAC.

EXERCISE SUMMER EAGLE – 14-16 APRIL 2000

Ex Summer Eagle is Commander 11 Sig Bde's annual CPX, designed to provide key unit personnel with an environment in which to practise and refine their command and control skills. The aim of the exercise was to practice the planning and C2 of an integrated Ptarmigan/Euromux network in order to develop the procedural expertise of 11 Sig Bde units. Elements of the Regiment deployed to Donnington, Altcar and Colchester with pencils sharpened, senses of humour honed and teddy bear slingshots ready, just in case. The Exercise proved invaluable in testing the Regiments C2 under CPX conditions and, although the period was extremely busy for the Commander, he still found time during a lull in battle to visit the furthest outpost of the Brigade (i.e. us!) at Colchester, which was much appreciated by all concerned.

EXERCISE STARBURST III – 14-16 APRIL 2000

Run concurrently with Ex Summer Eagle, Ex Starburst III was a military training exercise held on Stanford Training Area aimed at all remaining Regimental personnel. The theme of this year's weekend revolved around defence of a comms site, cam and concealment and low level tactics, with some interesting background activities thrown in for good measure. The exercise was to prove particularly interesting for **Ricky Spencer**, the young man who had won the HQ Sqn TA Open Day prize; he will certainly not forget the experience for some time to come. Saturday's training, which involved TEWT's and BL's on the camouflage and defence of a comms site, was conducted during fairly inclement weather which made the attitude of virtually all the soldiers concerned, TA and Regular, even more admirable. Many valuable lessons were learned, not least of which was the importance of Mr Gortex's marvellous invention. Sunday dawned bright and fair and the Regiment started the mornings training, consisting of three round robin stands, in high spirits. **Sgt John Kelly's** 'admin in the field' lesson proved to be of benefit to all concerned, whilst **Sgt Nigel** 'Three times in one issue – you know the score' **Back's** 'survival' stand was lapped up by all the budding Regimental Rambos (though not by the vegetarians). The high point (no pun intended) of the weekend for the majority of the soldiers, though, was definitely the opportunity to go for a cabby in **WO1 Bill Morris's** Gazelle, all the way from 666 Sqn AAC (V) in Netheravon. The training element of the flight was to confirm, from the air, the cam and concealment lessons learned over the weekend by comparing pre-prepared good and bad examples. The methods that Bill used to achieve this aim, however, proved to be most 'invigorating' to all concerned and I'm sure that several soldiers dined out on the experience during the weeks that followed. Our thanks go to **WO1 Morris** for his extremely wilco attitude and supreme flying skills. One interesting coincidence that occurred over this period was when **SSgt (SPSI) Gaz Sullivan** spotted one of his relatives whilst airborne (and nearly upside down), though none of us could quite work out what his Mother was doing on STANTA and why he should shout so loudly to/for her!

LAD (V) REME - EXERCISE ENDURING HELP 13/14 MAY 2000
Scribe: SSgt Dale

TEAM	CREW
ASM Roy Duffin	**Sgt Lee Grey**
AQMS Drew Johnston	**Cfn Steve Nichol**
SSgt Tony Dale (Capt)	
Sig Vinney Wotton	

Exercise aims were to:

a. Improve cross-country riding skills in the Military.
b. Test the endurance of both the rider and the motorcycle over harsh terrain.
c. Raise money for Children's and Military causes.

This annual sponsored 24hr cross-country motor cycle exercise has become a part of 36 Sig Regt (V) LAD's calendar. The event, as the name suggests, is run over a 24-hr period covering an 8.5km cross-country circuit. The team consists of four riders (which is open to interpretation!!!) who take it in turns to ride the one issued Army motor cycle around the circuit. We had a very competent pit crew who were there to keep not only the bike going but also team riders, and our thanks go to them.

The exercise pledged over £23,500 for both Childline and worthy Military causes. As a team we managed to raise over £200, and we thank all those who kindly sponsored us. We managed to finish a credible 29th out of 89, which for a team that ride just once a year we were very pleased with. The Exercise was cut short this year due to the unfortunate and untimely death of one of the competitors. As I write the cause of death is still unknown, but suffice it to say that all our condolences go out to his family and friends.

We managed to achieve all the aims that we set ourselves, albeit at the expense of a few bumps and bruises. The Exercise is open to anyone, and we fully intend to field another team of riders who think that it's a push over for next year's event; undoubtedly, they will be proved wrong again!

SSgt (SPSI) Dale returning with a modified set of handle bars

37 SIGNAL REGIMENT (VOLUNTEERS)

CO **Lt Col P. J. Grogan**
RSM **WO1 (RSM) Fisher**

REGIMENTAL HEADQUARTERS

The CO, Lt Col 'My Ball, My Ball' **P. J. Grogan** has returned to work with a leg in plaster after a dangerous tackle while playing football with his sons. With Euro 2000 soon occurring his soccer skills will be severely missed by the country. The QM (V), **Capt John Byrne** has returned to the Regiment after surviving a tour in Kosovo. However, the suntan must be removed and a more suitable UK standard is to be worn in the future. The drive continues towards the Brigade Exercise. Detailed planning is underway of the Regimental Training Exercises in preparation for the annual camp. However, this is made more difficult as the Training Major is currently floating around the Solent in the Corps Regatta. More to follow. Congratulations go to **Capt Mel Cooper** and the Regimental shooting team who swept the board at the recent 5 Div Championship.

HEADQUARTERS SQUADRON
Sqn Comd **Maj J. Riley**
SSM **WO2 J. Krikorian**

The 5 Div Orienteering Championships were held in the Forest of Dean on Sunday 16 April 2000. The Regimental Team was out huffing and puffing through the trees, albeit small in numbers, led by **SSgt Fred Hughes** as usual. The competing teams were fewer this year, but the weather was fine and sunny, the ground was good to soft and the spirit competitive. The male team had some old stalwarts like **WO2 (SSM) Joe Krikorian** competing on the 'A' Course alongside newcomers like **Sgt Phil Hall**. **Joe** finished seventh individual overall, leaving **Phil** to continue looking for a couple of elusive markers. The female team, led by **Fred**, did exceptionally well. **SSgt Lucy Sewell** (67 Sqn) was placed third individual TA female champion, **Cpl Claire Brain** finished with a personal best time and **Sgt Sue Machin** made her debut appearance on the 'D' Course alongside **Sgts Roz Thwaites** and **Julie Brooks** (67 Sqn). The day was won by NI UOTC, with second place going to 89 Sig Sqn and 37 Sig Regt taking third position. Well done to all involved.

96 SIGNAL SQADRON
Sqn Comd **Maj R. Bowden**
SSM **WO2 C. Taylor**

It must be something in the air at the moment as 96 Sig Sqn (V) seems to have got the wedding bug! First it was the turn of **Capt Jonathan Farmer** who took the plunge on 1 April… Our congratulations go to both **Jonathan** and **Sue** whilst the latter almost certainly also deserves our sincere sympathy and understanding! Whilst I managed to attend the wedding in Wisbech I unfortunately found myself unable to attend the evening party; thereby missing the drunken entertainment that ensued with rather senior gentlemen being escorted to hotels by members of the Cambridgeshire constabulary… On behalf of the Squadron we wish both **Sue** and **Jonathan** all the best for the future.

By the time this goes to press it will be the turn of two other members of the Squadron to get married - this time to each other! **SSgt Julie Brookes** and **LCpl Steve Tuck** will finally take the plunge at Coventry on 3 June. **SSgt Brookes** is the Squadron Yeoman whilst **LCpl Tuck** is a member of the tea break fraternity (tech). Whilst this represents what we are certain will be the happiest day in both their lives, as the date coincides with a Regimental weekend we are hoping that the soon to be **Mrs Tuck** does not expect to be paid for this particular 'exercise'. Our best wishes for an excellent day go from all members of both the Squadron and Regiment and we look forward to seeing the photos. I can only hope that after **LCpl Tuck's** stag night adventures in Blackpool that he does not let his best man **LCpl Rob Mullins** near the parcel tape on the big day. I don't think I had better comment further upon those escapades except to say that we are waiting to see those photos as well as those of the wedding itself…

Further congratulations are due yet again for the prior mentioned future **Mrs Tuck** as she has now been promoted to Staff Sergeant. Well done **Julie**.

96 had good representation in the Regimental Team which performed so well in the recent Corps SAAM. **SSgt Convery, LCpl Wibberley, LCpl Mullins, Sig Wastell** and **Sig Clarkson** all performed extremely well to help the team towards an excellent result. Well-done people!

The now Capt and Mrs Farmer on their big day

38 (CITY OF SHEFFIELD) SIGNALS REGIMENT (VOLUNTEERS)

REGIMENTAL HEADQUARTERS
CO **Lt Col Nigel Harrison MBE**
RSM **WO1 (RSM) Steve Carr**

HEADQUARTERS SQUADRON
Sqn Comd **Maj Bill Evans TD**
SSM **WO2 (SSM) Clive Howland**

EXERCISE WORKUP 2000

HQ Sqn conducted the first Pre-Staff Sergeants' Training Course. The course comprises of three weekends and is designed to enhance the student's knowledge on all things military. The first weekend of the course consisted of all the academic subjects covered in the Royal Signals Staff Sergeants' Course. The second weekend predominately tests and tasks, such things as producing range letters and admin orders. This caused consternation and much scratching of heads. The final weekend involved tactics and navigation in the field. After a beautiful Friday the weather deteriorated rapidly on deployment and during the small hours of Saturday morning **Sgt Paul O'Mally** led the first patrol with **Sgt Helen Mountney** as his 2IC to meet a friendly agent. Unfortunately, they were unaware of a 'mass grave' en route, **Helen** shouting, 'Look at all them bodies,' **Sgt Graham Roberts** pointing out that it was a pile of mannequins in the valley of Risdale Beck (anyone from the Catterick days will know where that is!). During this patrol the enemy commander, **Cpl Harry Harrop**, after carefully briefing his soldiers, set his ambush and waited. Of course, the wily candidates managed to outwit them and returned to meet that friendly agent, who just happened to have the kettle on. The next phase of the Exercise was the wood clearance exercise and due to a lack of human resources the SSM, **WO2 Clive Howland**, was forced to participate as the enemy. After several bayonet charges he called time on that one and emerged battered and bruised from the woods. After lunch many sets of orders were given and listened to by both cadre and candidates alike. The night navigation exercise was a success with all candidates achieving good navigational skills, although with slightly wet feet. All round a good course which, hopefully, will stand the soldiers well on their course.

BECKINGHAM RANGE WEEKEND 25-27 FEBRUARY 2000

The Squadron deployed to Beckingham for the annual wash up of military training. As usual the weekend went well with ranges, NBC, first aid, and a CFT to round off the day. The range coaching was certainly successful with all of the Sqn managing to pass their APWT with the background activities being completed in good time. Unfortunately the NBC stand found **Sgt Barry Baldwin** besieged by an angry crowd of sheep baying for his blood (that'll teach him to gas them!). Later on during the CFT the old Q, **SSgt (SQMS) Andy** 'Thumper' **Thwaites**, was found puffing away for breath and **Capt Phil Simmons** puffing away on a fag, again all passed.

The evening of the Saturday was the yearly Squadron social event where we say farewell to members of the Squadron and this year was no different. We sadly said goodbye to **Maj Linda White** who has decided that she needs to spend more time with her children. We also dined out **Mr Ted Hurt** who has completed 40 camps with the Regiment both as a TA soldier and as a civilian employee. Last but not least we say farewell to **Sgt Frank Delaney**, the Regimental Provost Sergeant who struck fear into the hearts of many a soldier, not to mention some of the patrons of the Elm Tree public house. The dinner went well with special thanks to **WO2 Medley**, the Master Chef, for staying away – the food was great – and also to **WO2 (SSM) Clive Howland** for buying all the port (Good Lad!).

A TERRITORIAL SOLDIER'S PERSPECTIVE ON BOSNIA
by Cpl Tony Jakins (Chef)

On 26 July 1999 I was deployed as part of a national mobilisation of TA and Reservist personnel. After three weeks training at the Reserves Training and Mobilisation Centre (RTMC), Chilwell, near Nottingham, on Monday 17 August 1999 we flew out of RAF Brize Norton heading for Split. After a short delay all personnel were then deployed to their respective units in Bosnia. My post was at the Banja Luka Metal Factory, Multi-National Division (South West) (BLMF MND (SW)), Banja Luka. BLMF is the home of MND (SW) and Signal Regiment, which is primarily run by the British at this time. It is based in and around a large, disused, steel rolling mill, which on first impression seems very daunting. My first thought was that it was going to be like being back in the Regular forces; I was wrong! There was certainly an element of animosity towards TA and Reservists. Initially I had several 'run ins' with both junior and senior ranks on the question of reliability and training of TA/Reservists. I am confident that having put my opinion across in such a way, I managed to change some people's attitude towards members of the reserve forces. Once the initial problems were overcome, few hassles were incurred, and everyone settled down to get on with the job.

As a chef, once you get used to a new kitchen and the systems, the job is the same wherever you work, and Bosnia is no different. On arrival I was set the task of re-working the pastry/sweet menu in the Junior Ranks Mess as well as producing pastries/sweets for 500 very hungry soldiers and Locally Employed Civilians (LECs). After approximately five weeks, due to my field experience I was deployed with the Royal Engineers' Diving Team for a 1-week diving expedition. On return from the expedition I was relocated to the BLMF Combined Mess, which is responsible for feeding senior ranks, officers and dignitaries of many nationalities. A position had arisen due to a corporal having broken his wrist during 'Chefs' Sport'. Chefs played sport every Tuesday and Thursday morning before work and we didn't believe in 'non-contact' sports, so there were always a couple of injuries. The Combined Mess was very different from the Junior Ranks Mess in the fact that whatever happened in the kitchen could be seen by the diners as it was a very open kitchen. You also had more contact with the hierarchy of the camp as everyone came down the servery because there was no steward service as there is in a normal officers' mess. Although I worked long hours, I thoroughly enjoyed my time in the Combined Mess, especially from 1 December as I was the only Corporal, which meant that I was in charge of the kitchen on a day-to-day basis. I returned to the UK in mid-January at the end of my tour, when I was demobilised.

My overall opinion of Bosnia and the TA role as a back up to the Regular Army is somewhat mixed. Bosnia, on the whole, is starting to get a foothold on controlling its own destiny, but it will still need help for some time to come - although I don't think that there will ever be harmony in a region that has known conflict of many varying types for some 4000 years. As for the TA, I think that elements of the Regular Army needs to have its attitudes changed, to realise that we are there to support them. The TA needs to be brought more into line with the Regular Army, both in equipment and training. I also feel that the Regular Army and the TA should train together more to break down any barriers and to form a solid unity instead of the sometimes lingering hint of resentment and distrust.

MEDAL AND COMMENDATION PRESENTATION

A Medal and Commendation presentation took place at Manor Top TAC, Sheffield in March this year. **Maj Gen A. H. Boyle CB**, the Regimental Honorary Colonel kindly presented the Medals and Commendation to the following personnel:

Maj Rod Lingard	-	Territorial Decoration
WO2 (RQMS) Gary Cundy	-	Clasp to the TA Efficiency Medal
SSgt Phil Horton	-	Clasp to the TA Efficiency Medal
Sgt Trish Pinches	-	Territorial Efficiency Medal
Sgt Sally Burton	-	Territorial Efficiency Medal
Sgt Gill Parker	-	Clasp to the TA Efficiency Medal
Mr Duncan Ross	-	Meritorious Service Medal
Sgt Warren Quinn	-	GOC 2 Div Commendation

The families of all recipients were present and the presentation was followed by a buffet and drinks in the WO's & Sgt's Mess.**EXERCISE**

(L-R): Sgt Quinn, Sgt Parker, SSgt Horton, WO2 Cundy, Maj Gen Boyle, Sgt Pinches, Sgt Burton, Maj Lingard, Mr Duncan Ross

NORTHERN BLUEBELL

Exercise Northern Bluebell was the Comd ES 2 Div's competitive training exercise for REME in 2 Div, over the weekend 5–7 May 2000.The competitive exercise was open to all regular, Territorial Army (TA) and University Officer Training Corps (UOTC) REME soldiers.

At the beginning of the year the OC distinctly told me that the LAD was going to concentrate all their efforts into the shooting competitions for the Millennium. After all last year's Warcop Trophy was a total walk over for the LAD. That was until the reshuffle of the 2 Div and the enlargement of its geographical area! The OC told me there was to be a change of plan for the LAD's activities. He thought it would be good idea to test the metal of the LAD against any new possible competition. The monthly training programmes were rewritten; they would have to include more revision of our key corps skills if we were going to keep our reputation alive. **Sgt Ray Boulton** and **Cpl Frank Reid** would have to start scratching their already balding heads if the LAD were to crack the two engineering projects devised by **Maj Soper**. The Tricyclops and the Formula 1 style speed lift. These two thorns in our side took up over an incredible 300 man hours, about four pints of blood, at least two physical breakdowns and some interesting arguments as everyone introduced their own ideas, often all at once. 'You don't wanna do it like that, you wanna do it like this' became the favourite saying.

The venue for Exercise Northern Bluebell 2000 was Warcop Training Camp. The weather was very unusual; the sun was shining with a light wind, most unusual for this area. Saturday started early with reveille at 05:30hrs for breakfast. The competition started at 07:00hrs with 22 teams all heading off in pairs in their team Land Rovers to locations dotted around the training area. At each location the teams were met by the stand host and briefed on what they had to achieve. The stands were all completely different varying from the standard Army Training Directive (ATD) type, NBC, First Aid, AFV recognition. To the physically demanding, assault course, command task and trailer race, to the REME orientated trade stands, recovery, local manufacture and Battle Damage Repair (BDR). Saturday evening was devoted to the Tricyclops race around Warcop Camp. The field was a mixed bunch of machines ranging from the three-wheeled cycle to the wheely bin skip to the helicopter. Our Tricyclops wasn't the fastest vehicle but it was the best engineered according to the judges and won a bottle of whisky for our troubles. The racing was a knock out competition with the first two machines going into the final. It looked like it was a dead heat between 'The Millennium Falcon' and 'The Batmobile'. Unfortunately The Batmobile had an accident on the start/finish straight, causing Batman and Robin to make a valiant but unsuccessful run around the circuit. It was an outsider that eventually took the checked flag after 'The Millennium Falcon' got into a speed wobble and mounted a kerb, demolishing its front wheels.

The Sunday was another early start with the sun shining down on the assembled teams for penultimate stand. The 2.5- mile trailer race, after which came the 3-mile bergan carry to the range for the finale and the falling plate shoot. The jockey wheel that had been repaired the previous day on the BDR stand was to be used to replace the wheel on the fl ton trailer. Would **Sgt Johnson** and **Sgt Thorpe's** BDR stand up to the punishment that was about to be inflicted on it? We were summoned to the start line in pairs to race against each other, briefed on the route and given a brain teasing question paper we had to answer on route. I'd already briefed the team that it was going to a tough race. Somehow I think they knew that. We started out fast leaving our rivals behind within the first 400m. I knew the pace was fast and the lads would soon begin to struggle. I honestly thought **Capt Simmons** was going to collapse, being a heavy smoker didn't help. On reaching the turn around point we left the trailer and began the slog back. **Cpl Elliot** began shouting out the Mensa style questions, the answers to which took a while to shout a reply as most of the team needed all the air they could take in to keep them moving forward. The shoot comprised of a 60-metre advance down the range from the seated position to the prone position and engage the ten white plates in the fastest possible time using the least ammunition. The team managed to achieve this in an amazing 21 seconds to cheers from the admin/support team of **Sgts Boulton, Morrit, Cpls Allen** and **Hall** and **Cfn Wilde**. It was then that I thought back to the OC's initial comments that the shooting competitions hadn't been going very well! Who was he kidding? I think I was duped into another hard weekend. Just what I didn't need after successfully competing in the Regiments Lanyard Trophy Team. No worries - all in a weeks work when you're a Permanent Staff Instructor (PSI) at a TA unit.

The winning TA Team and their trophies

46 (CITY OF DERBY) SIGNAL SQUADRON (VOLUNTEERS)
Sqn Comd **Maj Bob Ward**
SSM **WO2 (SSM) Jim Batchelor**

The Squadron has been busy, starting early in the year with our officers and SNCO 'Think Tank' at the Totley Adventure Training Centre in Derbyshire. Syndicates looked at a variety of problems involving Squadron life and came up with some interesting solutions. It was an ideal opportunity for our new Squadron Commander, **Maj Bob Ward**, to stamp his authority on his management team. The inevitable function at the local pub on Saturday night was enjoyed by everyone. The next day found the syndicates presenting their findings to the new Squadron Commander and much of what was presented is now incorporated into Squadron training. In March the Squadron, along with the rest of the Territorial Army, opened the TAC doors for its annual open day. The general public flooded into the TAC to look at what we do. Visitors included **Cllr Sara Bolton**, the Mayor of Derby, who took time from her busy schedule to join us for lunch. First of all, she visited the stands followed by our Operations Room where she spoke over our 'Bosnia Link' to **Sgt Darren Snow**, currently in Banja Luka. Our successful link to Bosnia gave **Cpl Leanne Snow** a chance to talk to her husband. Other Squadron members spoke to **LCpl Rob Bromwich**, also serving in Bosnia on Full-Time Reserve Service. At lunch the Mayor presented the Anderson family with a cheque for £500 which the Squadron, suitably encouraged by **SSgt Freeman**, had collected over the year. The cheque will go towards equipment to help with **Sara's** treatment.

The Mayor talks to Sgt Darren Snow before handing over to Cpl Leanne Snow for a chat with her husband

Mrs Sue Anderson with children Ami and Sara receive the cheque from the Lord Mayor of Derby, flanked by the Officer Commanding, Major Bob Ward and Staff Sergeant 'TC' Freeman

exhaustion', the Squadron technicians reputedly got the most exercise they had ever had. After the second successful move of all detachments, one seemed to be surprisingly well camouflaged. In fact, the enemy could not locate them in the exercise area. This was until the enemy realised that EXCON in the form of an exhausted and overworked (and under-appreciated) **Lt** 'Baden' **M-P** sent two detachments to the same location, which wasn't the one the enemy was at. At least the detachments were company for each other in the long cold night!

Countless attacks by the Mythical Technicians later, the exercise was called to a halt and surprisingly, no matter how difficult communications had been for each detachment during the exercise, every detachment managed to communicate with EXCON long enough to get the ENDEX instruction. An enjoyable but demanding exercise then concluded with a well deserved rest and a drink in the JRC to congratulate **Sig** 'DJ Newsounds' **Newson** on his 32nd birthday (although he still maintains he is still 29!). After this most enjoyable exercise 64 Sqn will now turn its attentions to the planning and execution of the next ABF Golf Competition, and Exercise Executive Stretch.

87 (CITY OF NOTTINGHAM) SIGNAL SQUADRON (VOLUNTEERS)
Sqn Comd **Maj David Tomlinson**
SSM **WO2 (SSM) Vicky Hardy**

As the end of the Bounty Year rapidly approached everyone was

zooming around making every effort to qualify. The Squadron went to Swynnerton Training Area recently to undertake an ITD training weekend. This went very well and was well attended, with everyone achieving his or her required BQ subjects. It just goes to prove how a thousand tax free pounds can concentrate the mind. **Cpl Ibby** 'Beast Em' **Nevill** appeared to be thoroughly enjoying herself, in the end she conducted three CFTs over the weekend. Once is a duty, twice an imposition, three times verges on a fetish. **Cpl Dion** 'PPPick a Penquin' **Brittain** has just returned from a 6-month tour of South Georgia. Welcome back! The TA Centre looks like a building site at the moment, but we are grateful to TAVRA really! As the new roof will hopefully mean a warmer building. However, the duty rumour is that the PSAO, **Capt Ken Scott** is really just weighing in the scrap lead. Reports of sightings of new golf clubs only adds to suspicion.

OPEN DAY

The Squadron took part in the TA Day on 25 March. The weather was kind to us and we had a fair number of locals come in to see exactly we do! The Chairman of Nottinghamshire County Council, **Cllr Ken Stobbart**, came to see for himself. As an ex-member of the Corps he was impressed with both the personnel and our equipment. The day did result in a number of people who are definitely interested in joining, this made the day a success! Sadly we say farewell to **Sgt Colin Pullen**, our PSI (T) who has left the Squadron to go and work in Sheffield (allegedly some work is done at Sheffield, but the jury remains out). Hope he is enjoying himself (lots of PCs to play with). Congratulations to him also on being selected for promotion to Staff Sergeant, Well done! Whatever you're doing, we suggest you keep doing it. We welcome **SSgt Phil Newman** who joins us from SHAPE. Hope he settles in quickly, before he disappears to do a stint at the centre of the universe, 'Corsham'. During the recent refurbishment, we have thought about adding a revolving door to the tech workshop, marked for 'For PSI(T) use only'! Having served with the TA before, we are sure he will slot right in with our particular brand of madness. Its' not compulsory, but it does help.

EXERCISE BLUE DAWN

On a recent CPX, **OCdt Ady** 'Puzzled of Nottingham' **Matthews** had rather a steep learning curve. Quite innocent questions started with 'What's a CEI', and generally deteriorated from there. To clear up any confusion, **Capt (Tfc) Thelma Ward** is a Traffic Officer of the Royal Corps of Signals. NOT a policewomen in the traffic division. Of course it was an easily made mistake, and I am sure we did not all mean to laugh. We promise not to tell anyone, or put this in the *Wire Notes* or anything. Life for an Officer Cadet is unfairly cruel. But who said life was fair!

39th (SKINNERS) SIGNAL REGIMENT (VOLUNTEERS)

SSM **WO2 (SSM) Philips**

HELLOS AND GOODBYES

We welcome to the Squadron Potential Signallers **Ann Edwards**, **James Cox**, **Louise Harnett**, **Mathew Luker**, **Trevor Bennett**, **James Clarke**, **Tanja Kollner**, **Adrian Parsler** and **John Turner**. We also welcome back into the fold **Sgt** 'Robbie' **Hall** who was actually seen in uniform and congratulate him on passing his Foreman's Course. We also say goodbye to **LCpl Dean Smithson** and wish him well on his Marine Commando Course. Congratulations go to the 'Girly Swot' of a PSI OPS, **SSgt Mark Simcock** on gaining a Distinction on his Edjamication Course.

RECRUIT SELECTION

Following the National Recruiting Campaign culminated by the TA Centre Open Day on 25 March 2000 the Squadron took ten potential recruits to the 'Look at Life ' Selection at Bramley over the weekend 5-7 May 2000. This being the first rain free, wind free, frost free sunny weekend of the year the recruits enjoyed the early morning training and late evening socialising.

The Long and Short of it

57 (CITY AND COUNTY OF BRISTOL) SIGNAL SQUADRON (VOLUNTEERS)
Sqn Comd **Maj R. Tuhey TD**
SSM **WO2 P. Packer**

EXERCISE TEN TORS – DARTMOOR

The famous Ten Tors Challenge took place over the weekend 12–14 May 2000, involving 2400 participants. This annual event now in its 41st year started for Army Cadets in 1959 and opened up to teenagers at schools and colleges the following year. The minimum age is 14 for the shortened course of 35 miles, up to 55 miles for the senior age groups over the full course. The number of entries is limited for safety reasons and an event for less able children, called the Jubilee Challenge, was launched in 1977. This event is not a race but a challenge involving a two-day trek across Dartmoor, one of the foremost events in the parks calendar. The army, whose Okehampton Training Camp is the base for organisers and

the all important starting and finishing point, handles the administration.

Our own involvement this year headed up by 57 (City and County of Bristol) Signal Squadron (Volunteers) members (and myself **WO2 Dickie Lee** as the author, a paying guest from HQ Sqn) both from Bristol, required the provision of volunteers to not only man the COMMCEN, with radio, phone and data entries as in previous years, but also the manning of three TORS and provision of a Mould back-up to the new Radio system called Dolphin Tetra. This was being trialled for the first time on such a large deployment. Our numbers totalled some 50 officers and soldiers.

The weekend started promptly at 1930hrs on the Friday night with vehicles traveling from both Bristol and Gloucester. Meeting up at Okehampton Camp for comms and admin briefings. First concerns were expressed as a result of an early mobile phone call by **Sig Emma Wells**, that the weather had already closed in on the camp and helicopters had been grounded. This was only the Friday evening, the 2I/C Sqn, **Capt** 'Bill' **Ruthven** asking 'What exit of the M5 for Okehampton?' was a little worrying. **WO2 Jane Tuck**, newly promoted to SSM, also managed to leave behind **Lt Jason Fensome**, who eventually joined us having found a spare Land Rover with **Sgt Mike White**. The driving skills of **LCpl Sam Estcourt** have to be mentioned, as I believe her Land Rover only travels in the middle lanes of the motorway.

The Tor parties were **Cpl Dave Jones, Sig Emma Wells, LCpl Alex McMurray, LCpl Steve Allen, LCpl Roger Theyer** and **Sig Alexia Holloway** who were air lifted to their locations and although heard, were not to be seen again till Sunday afternoon. The MIV crews consisted of **Sgt Mike White, LCpl Martin Dyer, LCpl Alistair MacGilp, LCpl Tony Hedges** and **LCpl Paul Wylde. LCpl Martin Davies**, our duty tech, supported them. Reveille was early at 0600hrs for the competitors and earlier still for the Squadron, well at least half of them unless they watched the start at 0700hrs up on the moor, outside the camp perimeter. The weather was 'Beautiful', clear skies and for once no mist. A welcoming speech, two buglers from the Light Infantry and Devon and Dorset's, plus a salvage from 29 Commando heralded the mass start in three directions to the distant Tors. The challenge was on.

The shifts settled into their routine quickly, receiving Progreps by phone, radio and fax as the teams progressed along their respective routes. Other tasks where given to various members of the squadron with **Lt Rod Hook** sent to liaise with the 'Fly Boys' for our annual 'flight in a chopper', now becoming a popular add on with the troops. His success meant that four of the new recruits namely **Sig Joanne Christensen, Sig Darren Saunders, Sig Chris Walker** plus **Sig Robert Laing** and **Lt Jo Howard** went airborne in a Sea King. Not bad for the recruits who had only come off their Delta Weekend the week before. Other notable incidents outside of the communicating field saw **Sig Chris Howells** eating too many pies and ending up in the medical center, **Sig** 'Spanner' **Kane** surpassing himself by liking radio, data and phone, **LCpl Dave Smith** became very keen and worked both shifts, **Cpl Steve Holley** always with his head in a magazine eventually went deaf to the phones and of course our **Sgt Mena Zamparelli** was seen modelling the new Radio Kit outside on her own (with the photographer of course). We were told it was for PR purposes, only time will tell! Sunday saw the first team finishing at 0930hrs. All teams arrived safely back by the cut off time of 1700hrs and all in all it was yet again a very successful weekend for the Squadron.

A visit by the Commanding Officer to the Data Collection Cell

71 (YEOMANRY) SIGNAL REGIMENT BEXLEYHEATH

CO **Lt Col C. H. Turner**
RSM **WO1 (RSM) C. D. Tait**

Welcome back to **John Aspinall** who has just returned from four months as the Camp Commandant of the Metal Factory in Banja Luka and welcome to **Trevor Keates** who takes over as QM in June. In April **Maj Eric Heritage** married **Kathy** and we wish them all the very best of luck. The 'art' of Yeomanry Dress still confounds the CO and in an attempt to reconcile this years fashion he asked the Kent and County of London Yeomanry to confirm their Summer 2000 ready-to-wear range

In this Regiment uniform is a noun not an adjective
The KCLY officers show that they really cannot dress alike.
(L-R): WO2(SSM) Stuart McHenery, Maj Hugh Robertson, Maj Simon Malik, Capt Huw Jones, 2Lt Richie Woodhams, 2Lt Alex Downing

HQ (KENT AND COUNTY OF LONDON YEOMANRY) SQUADRON – BEXLEYHEATH
Sqn Comd **Maj Barrie Corfield**
SSM **WO2 (SSM) Andy Church**

So, what's HQ Squadron been up to lately? Well, in early March we took part in the KCLY centenary Freedom of Croydon parade. Up at 0500hrs, on the coach, drive half way round the M25 and then find that the SSM's best boots are still in his office at Bexleyheath! Go back to Bexley, but finally reach the Royal Yeomanry TAC in time for breakfast, a quick rehearsal (why do the regulars need weeks to prepare for these things when we do it in minutes) and then off round Croydon. A faultless eyes right to the Mayor and then back to Bexleyheath for lunch and the PRE preparation weekend. Next we provided the Admin support for London District's TA patrol competition, the Courage Trophy. This task is usually given to a Regiment. Nevertheless our admin cell reduced our old rivals (next year's administrators) the Royal Yeomanry to a mixture of admiration and worry as to how they could do as well when it's their turn. Meanwhile, the rest of the Squadron ran around trouble shooting, providing taxis, their PA system and of course the tent erection team. This happy band proved that not only could they move a '84x12' tent when the organisers changed their minds about the layout for the prize giving, but also that they could clear it away almost as soon as the prizes had been awarded.

HELLOS & FAREWELLS

We are sorry to be losing some old faces from the Squadron over the next few weeks – **Capts Huw Jones** and **Sarah Shelton** leave us for RARO and **Capt Dave Thomson** (RMO), **SSgt Kerry Jones** and **LCpl Dave Bell** have all retired. The Squadron wishes them all good luck in the future. On the other hand we welcome our first PSO, **Capt Mike Gleeson**, formerly of the RGJ via 35 Sig Regt (V). He's settling in and now marches at the right speed although we're still trying to explain that Signallers (and Yeomanry ones at that) come in squadrons and not companies. Finally we reach early May and Ex Norfolk Haze at the STANTA NBC centre. For two days the Squadron blotted, banged and rubbed as **Sgt Jeff Masters** and the resident instructors let rip with a variety of suspicious mists, smokes and splashes. Plenty of fullers earth, a stretcher race and all on a lovely summer's day too. Then back to the accommodation for tea and to

watch the cup final which **LCpl Mark** 'Gadget man' **Butler** had thoughtfully taped for us.

Capt Huw Jones
realises that this is the last time he'll have to wear IPE. Ever!

LIGHT AID DETACHMENT REME
OC LAD **Capt Julie Kiggell**
SPSI **SSgt** 'Teflon' **Tomlinson**

EXERCISE SOUTHERN CRAFTSMAN

A team of ten from the 71 (Y) Sig Regt LAD took part in the Southern Craftsman competition, held once again at Longmoor Camp on 7/8/9 April. The team was put through its paces during a series of challenges and tasks designed to test military skills, REME trade skills, fitness and initiative. From the moment of arrival, the tests had begun with a challenge to design and build a piece of equipment that could fire golf balls – only using a few given pieces of building material. The team excelled not only by gaining a 100% score, but holding the record for firing the projectiles the furthest.

On Saturday, the teams were put through battlefield repair tasks (including Tels and a 105mm Light Gun) – all in tactical environments, a manufacture project and a recovery task. A 'Bosnia scenario' First Aid stand was won by 71 (Y) Sig Regt LAD enabling the team to use their military skills. Having completed a busy schedule on Saturday, the team's stamina, teamwork and shooting ability were tested in a 4-mile March and Shoot Competition, the course also incorporating Longmoor's famous FIBUA tunnels and a repair task thrown in for good measure!

As a result of achieving top marks in almost all of the repair tasks, the LAD won the Martin Brown Repair Trophy – one of the major prizes. The LAD team were: **Capt Kiggell, Sgt Harding, Sgt Gosling, Cpl Hursey, Cpl Aldridge, Cpl Carpenter, Cpl Pearce, LCpl Mountford, Cpl Vaughan** and **Cfn Holness.**

70 (ESSEX YEOAMANRY) SIGNAL SQUADRON CHELMSFORD AND HARLOW
Sqn Comd **Maj Craig Tallents**
SSM **WO2 (SSM) Paul Humphreys**

The Squadron has been through a busy period over the last few months with Squadron training, PRE (under the watchful eye of **WO2 Richard Pieper** the Squadron achieved a good report), hectic social activities and a change of PSOs.

TRAINING

Starting with Squadron training. The Squadron organised Ex Rovers Return, which comprised of three communication style stands scattered over the east of England. The troops passed through stands and navigated to the next. A testing Exercise but with an element of fun.

Sig Harrison (L) and LCpl Pilcher (R)
Making a quick phone call home during Ex Rovers Return

SOCIAL

WOW!!! What a social life the Squadron has 'suffered' over the last few months. The Officers with their Annual Association Dinner at the Calvary and Guards club in London in April, followed by the Corp dinner at the Savoy in May. The SNCO's had a 'Chinese' night to welcome **RSM Douggie Tait**. Last but by no means least the soldiers of the Squadron organised a very successful Bounty Ball in April and out thanks go to **SSgt Jim Swain**, his wife **Gillian** and the committee for all their hard work.

'Smile for the Camera.' (RSM Douggie Tait (left) and
WO2 (SSM) Humphreys during the SNCO's Chinese Night

WELCOMES AND FAREWELLS

The Squadron welcomes **LCpl Kelly Cloughton** and **Sig Ross Nugent** on their safe return from a very successful Op Agricola tour. We welcome **Capt Barry James** as our new PSAO who came to us from 265 (KCLY) Sig Sqn. We wish him and his wife **Chris** a happy tour with us.

A sad day for the Squadron as we say farewell to **Capt Charlie** 'Westham' **Homewood** on his retirement from the position of PSAO which he held for nine years with great professionalism. Also we wave goodbye to **Sgt Daz Lane** our PSI (T) as he has been transferred to 265 (KCLY) Sig Sqn.

265 (KENT AND COUNTY OF LONDON YEOMANRY) SIGNAL SQUADRON - BEXLEYHEATH
Sqn Comd **Maj Hugh Robertson**
SSM **WO2 Stuart McHenery**

EXERCISE MINK GLOVE

Friday 14 April had arrived and it was time to depart for the fabled Eastmere OBUA Village at Thetford. This would be the Squadron's introduction to Urban Operations. We were joined by members of HQ Sqn for this joint Exercise. The Squadron was spoilt by the luxury of civilian coaches for the journey. On arrival it was time for a quick brief from the 2IC, **Capt Keith** 'DP' **Duffy-Penny,** then it was heads down ready for the early start next morning.

First thing after breakfast it was time for the Squadron to meet the chief of the Permanent Staff, the inimitable **WO1 K. C.** 'Casey' **Jones,** with more stories than Hans Christian Anderson, all of them entertaining and pertinent to the day's training. The Squadron sat enthralled throughout the Safety Brief and were ready for action once it had finished.

WO2 Stewart 'TAZ' McHenery describes the Chorley Grenade
as Cpl Paul'Yorkie' York and Sgt Dave 'Sparky' Pryke
look on in awe

The morning was spent learning the defensive elements of OBUA under the expert teachings of **Sgt Martin** 'Chippy' **Foy, Sgt Mike** 'The Tube' **Warrington** and **Cpl Paul** 'Yorkie' **York.** The name on most peoples lips at lunchtime appeared to be that of the Confidence Course maestro **LCpl Adrian** 'Weeble' **Keeble** who was putting everyone through their paces up roof, down roof, in window, up wall and down cellar.

Concern sets in as the Troops are entrusted with
the Chorley Grenades and primers
Note: 'Not many laughs to be seen'

A sumptuous Rat Pack lunch followed the morning's festivities to prepare all and sundry for the afternoon onslaught. It was now time for **WO2 Andy** 'Penfold' **Church** to show the Squadron his infantry past by teaching the various methods of entering a building uninvited, ably assisted by a very slick display team made up of some of the more mature members of the Squadron. This was followed by herds of practice grenade throwers, with some stunning displays seeing grenades disappear over rooftops, although it would seem that the OC was unsure if he was left or right handed.

The day's instruction soon drew to a close and the Squadron was moved to its night harbour area to prepare to put all the practice to good use on a dawn assault. At the helm for the assault was **2Lt Richie** 'Chrome' **Done Woodhams** ready and willing to show the Troops his style and panache. The orders phase was completed and all pers were suitably pumped up for the next morning's activities. At 0430hrs all assault teams were laying on the Start Line awaiting H Hour. Then all hell let loose with buildings set on fire and armoured vehicles taking hits from the simulated Arty barrage. Then the assault commenced for real with troops dashing off in all directions with many a ladder in hot pursuit. All obstacles were expertly crossed and suppressive fire laid down where appropriate, enabling a slick move into the first house, much to the frustration of **LCpl Dickie Dundas** who then became the Pl Cmdrs link man and unable to join the rest of his merry men in the assault. It could have been a clip from 'Saving Private Ryan' such was the professional job that was being done. The remainder of the assault continued without a hitch and the village was successfully brought back under our control. All enjoyed this extremely tiring weekend even though the weather could have been kinder to us.

EXERCISE STALLION SPAR 2

The weekend commencing 12 May saw the Squadron deploy on an NCRS Exercise. The objective of the Exercise was to refresh the Squadron on NCRS Det skills in the run up to a Regimental Exercise in July and Annual Camp in September. The SCP deployed to Northern Court Farm on the Cinque ports Training Area, where the Squadron O Gp was held for the Tp Comds. The Squadron was deploying a NMC together with two out stations. The skills were a little rusty at first but soon gathered momentum as the Exercise progressed.

The NMC was joined for the first time by the new Sqn chefs, **Cpl Pete** 'Johnny' **Sturman** and **Cpl Mandy** 'Fanny' **Shannon**, who managed to concoct a variety of special dishes throughout the weekend and they have promised that every night on Exercise at Annual Camp will be a theme night. We look forward to this with baited breath. The MT Sergeant will probably not want to be named as the man who bogged down the DAF containing the SCP although his face was partially saved when the FRT saviours jumped in and just drove it out. The remainder of the weekend went without a hitch. The one piece of good news that did come out of the Exercise was the trial of an additional Traffic mast which could cut the antenna erection time down by about an hour, watch this space!!!

REGIMENTAL SHOOTING TEAM NEWS
Team Captain **2Lt Woodhams**

The theme of the Team Captain's speech, at the Regimental Team dinner, back in October 1999 was that of change. Firstly changes in the Team Captaincy, having taken over from **Maj Barrie Corfield** OC HQ Sqn at the close of last season. It was always going to be a hard act to follow. **Maj Barrie Corfield's** superb efforts over the years have led to a well-stocked trophy cabinet. Finally our dear old 'Hut', the Inns of Court pavilion at Bisley will be receiving a major renovation toward the end of the season. This thanks mainly to the Worshipful Company of Drapers, plus several Ex Regimental members and the PSI's who have devoted money, time and effort into the 'Hut' that has served the team well for decades. Generally, change can be hard to cope with, yet the team members coped admirably despite 2000 proving to be a difficult year for access to quality ranges and fitting the extra-curricular training required, into busy Squadron Diaries. Certainly **Maj (Retd) Bob Hutchins** of the ATE at Pirbright has always had our best interests at heart. It has proved difficult to securing ETR and even gallery range time, bearing in mind our low priority. Difficulties for myself also who, despite a good hand over, I was really learning on the job, the management and administration role over the season. Luckily my Executive Officer**, Maj BarrieCorfield** was on hand, even when the hut drains became blocked and he and I (well actually I) was rubber glove deep in, well, never mind. On the plus side (and in no way responsible for the above) was the exceptional service provided by the team chefs, **Cpls Shannon** and **Sturman.** Every weekend has seen marvellous culinary skills displayed, often with style, such as the Burns night, where we even drafted in three pipers to toast the haggis. Six training weekends after the Team Captain's speech we were setting up camp for CORPSAAM 2000 at Ash. We entered two teams plus four individuals. This in itself was no mean feat as the penalties for incorrect team composition were severe. Certainly worth a mention are our two young soldiers, **Sig Reeve** and **Sig Purcell** of 265 (KCLY) and 68 (ICCY) Sqn's respectively. Whilst **Sig Reeve** had managed to attend an earlier training weekend, poor **Sig Purcell** was relying on skills honed as a cadet and had not long finished his recruit training package. Both soldiers displayed courage and determination to attend at short notice. They both performed well on the day and I hope to see them next season.

Past experience has taught us to never be overly concerned about the scores at the end of day one during the CORPSAAM. I was certainly feeling more relaxed after several pints of Brakspears in the team bar. Sunday brought the realisation that we had performed well, Ok, we were down on previous years but the 71 Team had more than just it's fair share of the silver from the SOinC(A). On a purely selfish note, I was proud as punch to regain the Corps Champion at Arms honour. Certainly as proud (and bloody relieved) that the first team photo with me as Team Captain was with silver and not bare! The Team is gearing up to represent the Regiment at Bisley in the Individual Championships in July (though sadly I'll be unable to attend due to pressure of a new job). As for next season, It is my aim to recruit new blood into the team and concentrate on coaching rather than merely practising the shoots. We will continue to offer support to both 36 Sig Regt (V) and 94 Sig Sqn (V) next season with the use the hut, and hope that as three teams combined, we will have a better chance of securing range space. Finally and most importantly a word of thanks to all the team members, who performed well throughout the competition.

'The Regimental Shooting Team'
Complete with the silver ware

THE TEAM LIST

71 (A) Team	**71 (B) Team**
2Lt Woodhams (265)	**Lt Downing** (265)
Cpl Charter (LAD)	**Cpl Woo** (HQ)
Cpl Morse J. (HQ)	**LCpl Williamson** (HQ)
LCpl Wilton (265)	**LCpl Foxwell**
Sig Reeve (265)	**Sig Purcell** (68)

Individuals
Maj Corfield (HQ)
WO2 (SSM) McHenery (265)
LCpl Liscoe (265)
LCpl Cox (265)

THE TROPHIES INCLUDE

APWT Cup	Winner	**2Lt Woodhams** (Indiv)
FIBUA Cup	Winner	71(Y) Sig Regt 'A' Team
Garrison Cup-Tie	Winner	71(Y) Sig Regt 'A' Team
Best Female		**Cpl Morse**
Aldershot Challenge Cup		**2Lt Woodhams**
Best B Class shot		**Sig Wilton**
Col Comdt Cup		**2Lt Woodhams**
Col Crane Cup	Winners	71(Y) Sig Regt 'A' Team
Gothorn Hardy Trophy		**2Lt Woodhams**
R Signals Singapore Trophy	Runners up	71(Y) Sig Regt 'A' Team

NEWS FROM THE SQUADRONS

20 ARMOURED BRIGADE HEADQUARTERS AND SIGNAL SQUADRON (200)

Sqn Comd **Maj I. G. Standen**
RSM **WO1 (RSM) S. Lawes**

ARRIVALS!

Congratulations to **RSM Lawes** and his wife **Anke** on the birth of their twin daughters, **Allison** and **Bethany**, just in time for Easter leave.

EXERCISE WELLINTON'S GAUNTLET - *by Sgt D. Bailey*

Over a three day period the Officers, Warrant Officers and SNCOs of the Squadron travelled to Belgium to visit the site of The Battle of Waterloo which took place on 18 June, 1815 (See, I was listening). The tour, which was part of an ongoing package of training and education for the unit's command team, was ably led by the OC, **Maj Iain Standen** whose subject knowledge was excellent. After the initial briefing and obligatory video it was on to the transport for the 6-hour journey to Belgium. After a further two videos on the coach, some felt that a tour was no longer necessary as the subject matter had by now been totally covered – happily all were proven wrong. On settling into our hotel the evening was spent with both new faces and old getting to know each other with a bit of good old fashioned male bonding. Unfortunately, the new OC 'A' Tp, **Lt Sofia Hughes** wasn't able to participate in all aspects of this age old ritual from Wellington's days – but times have changed and she fitted in admirably. The day of the tour began with a trip to the Waterloo Visitor's Centre for a display and film-show (aka another video!) before climbing up the steps of the Butte de Lion monument. Congratulations must go to the older members of the group for surviving the ascent, particularly **SSgt Mark Payne** (we all know about your bad back)! During the day the group moved to various stands on foot. At each stop it became apparent that within the Battle of Waterloo there were many mini-battles that brought about great acts of heroism and bravery. Thanks must go to **Maj Standen** for the obvious time spent researching and putting together a very full package.

Maj Iain Standen works himself up into a frenzy describing the battle, in the distance the Butte de Lion monument

VISITS

The unit has hosted a couple of visit of recent months. First, in March, **Lt Col Ted Flint**, Commanding Officer of I (UK) Armoured Division Headquarters and Signal Regiment visited the unit and took the opportunity of touring the unit's lines in Antwerp Barracks, visiting all departments and meeting a good cross-section of the unit.

Brig McDowall and Cpl Shuttleworth smiling nicely

Then in May, during Ex Premier Link the unit received a visit from Commander 1st Signal Brigade, **Brig David McDowall**. **Brig McDowall** had the opportunity to meet the Squadron's Officers, Warrant Officers and SNCOS over a cup of tea and a cake, before visiting Squadron personnel on the exercise. This included the BFOT the unit is training with this year whilst providing the Divisional HQ DSG, and which is proving rather a different challenge to the eight AFV436s and penthouses we are used to providing an armoured brigade headquarters!

CCF VISIT - *by Sgt Steve Mayell*

After months of discussion, organisation and planning (and the odd bit of 'if you scratch my back'), Thursday 6 April saw the arrival of 15 cadets and four officers of the St Benedict's School CCF from Ealing in West London. After the initial brief from **WO1 (RSM) Lawes** in Antwerp Barracks, the 7-day visit began under the direction **Sgt Steve Mayell** assisted by **Cpls Doick** and **Gouldbourn**.

Friday was dedicated to weapon training which in the morning was hosted by the Royal Artillery ADTAT who, unfortunately for the Royal Signals recruiting figures, produced some very impressive training aids such as shoulder launched HVM aimer trainer and Dome trainer. The cadets and their officers produced some very commendable results, the most interesting by **Lt Rimmington** with a 10cm miss of an aircraft at 2km! Keeping to the theme, the cadets then moved back into the grips of the squadron skill at arms instructors. **Sgts Steve Mayell** and **Daz Bailey** instructed on the LAW94 and the LAW94 indoor trainer and **Cpl Jay Shuttleworth** operated the SAT. Considering their limited knowledge of all the weapons, the guests again produced some excellent results.

Sig Hepworth looking down at SSgt Payne amongst the Cadets

The Squadron MT produced an excellent day of vehicle related stands under the watchful eye of **Sgt Roger Moore** and at short notice **SSgt Hank Cappleman** who ran a challenging 'trailer beast'. Funnily enough, this proved to be the only stand that was vacant during the final hour when the visitors were invited to return to their favourite events! The next time the White Helmets are recruiting, **Sig Armstrong** needs to apply as he has an awesome talent for riding the RSM's Harley Davidson! Somehow we managed to pry **SSgt Phil Whyte** (AGC) from his desk to take us all down to Wewelsberg Castle for a cultural visit. This very interesting place would have been the centre of the Hitler's world had the outcome of the war been different.

Monday found us all on the minibuses heading towards the Mohnesee Sailing Club for a spot of adventure training. A brilliant day was rounded off over a barbecue and then a trip to the Krankenhaus to visit **Senior Under Officer Alex Inacio** who had made an amendment to the shape of his forehead. **Lt Summerfield**, was seen frantically digging through his paperwork muttering, 'I'm sure I've got Inacio's signed waiver here somewhere.' Thankfully, although put through their paces, this was the only serious incident suffered by the cadets. After a very successful visit to the 1st Battalion Irish Guards in Munster, it was then the turn of the squadron hosted by OC Alpha Tp, **Lt Hughes, SSgt Payne** and **Sgt Bailey** along with a band of eager volunteers from the Troop. The cadets were shown around the AFV436's before setting up a four vehicle HQ and having the finer points of cam explained to them. They were then let loose on the radios and harness fitted to the AFV436's, and were later tested in the form of a quiz. We were also lucky enough to 'borrow' a Challenger 2 from the QRH based here in Paderborn so the cadets were in heaven crawling around on and playing with armoured vehicles all day.

Overall the cadets had a busy, varied and thoroughly enjoying week that was aimed at showing them that there's more computer power and technology in the modern Army than they expected. It was also meant to highlight the diversity of employment involving challenging and varied jobs that the Royal Signals have to offer.

ALPHA TROOP - *by Sig Hepworth*
Tp Comd **Lt S. Hughes**
Tp SSgt **SSgt M. Payne**

Alpha Tp have had a very busy few months with exercise after exercise and a week long battlecamp improving on various military skills. Congratulations go to **Cpl Morrison** who performed incredibly well on the DIVSAAM, he has now been placed for the CENTSAAM team. Sad farewells go to **Capt Rhidian Jones** who is now training the finest soldiers in the Army at ATR Bassingbourne and **LCpl Andy Nolan** who has moved on to 39 Inf Bde HQ & Sig Sqn. We wish them all the luck for the future. We welcome our new Troop Commander, **Lt Sofia Hughes** from her Troop Commanders Course; we also welcome **Sig Gareth Davies** from 3 Div, **LCpl Andy Moss** (back!) and on promotion **LCpl Tina Ainge** from Bravo Tp.

BRAVO TROOP - *by Cpl Jay Shuttleworth*
Tp Comd **Lt P. N. Randell**
Tp SSgt **SSgt J. Crabb**

Bravo Tp would like to welcome **Sig Stuart Walker** from 3 UK Div, **Sig John Walker** and **Sig Scott Kean** from Blandford. At the same time they would like to send their fond farewells to **LCpl Tony Ramwell** who has been posted to 3 Inf Bde HQ & Sig Sqn and **LCpl Lawrence** who has moved onto 3 (UK) Div HQ and Sig Regt.

EXERCISE MAILED DIAMOND - *by LCpl Doyle*

Ex Mailed Diamond was the Squadron's Adventure Training Camp held in the Hartz Mountains. The instructors were the following people, canoeing -**LCpl Nix**, Hillwalking -**LCpl Doyle**, Mountain Biking -**Sgt Corcoran** and Rock-Climbing- **Sig Calvert**.

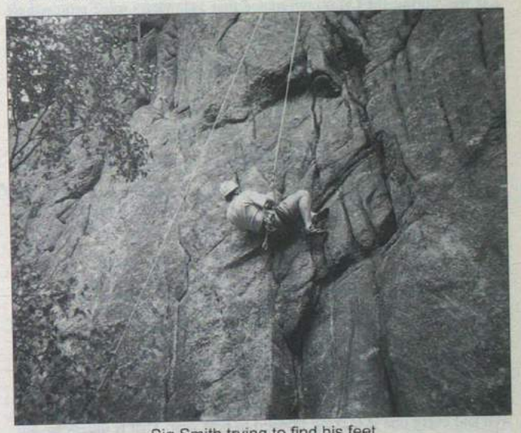
Week One began with an early o'clock start on the Sunday when the first group left our beloved Antwerp Barracks for the Hartz Mountains. **LCpl Nix** had his work cut out trying to explain that capsize drills are fun and definitely worth attempting, others in his group begged to differ! **Sgt Corcoran** decided that gently does it was the way forward for his group and made the Tour De France look like a Cycling Proficiency Test compared to the distance we cycled. Also **Sig Clare Heathcote** was still adamant that sunbathing was a far better option than having to walk up hills. That night we all had a debrief over a few cold beverages and welcomed the late arrival of **Sig Paul Calvert** our rock climbing instructor. As the week progressed we had more and more fun especially as **Sig Albiston** realised that if you actually take part in some activities it can be quite beneficial. **LCpl Crawshaw** did his fair share for PR by ensuring that he dressed up like the locals for our trip to the Brocken which by the way is an old Cold War listening post. At the summit **LCpl Crawshaw** introduced us to 'Erpsensuppe mit Wurst' which is Pea and Ham soup with sausage (very nice if you enjoy a trip to the toilet). All in all the first group had a most enjoyable experience even though most were saddle sore.

Week Two didn't get off to such a good start because the first group seemed to take the weather with them back to Sennelager. Due to a lot of rain we had to adjust to cater for it. **Sgt Corcoran** played his cards close to his chest as to what his group did when the rain came down. **LCpl Nix** and I decided that a trip to the local indoor swimming complex was a good way to hide from the rain. It was a fun day even if **Sig Dodge** couldn't handle the way that Germans dress inside a sauna! Overall the Summer Camp went very well thanks to a lot of hard work from **Sgt Corcoran** and a tremendous amount of effort from the people taking part.

SUPPORT TROOP - *by WO2 G. W. Beech*
Tp Comd **Maj M. G. P. Bohanon**
Tp SSgt **SSgt H. Capelman**

The last few weeks have given no let up for the ever busy world of the QM's Department. Once again we are preparing to move barracks, this will be the second time in ten months. We would like to congratulate **LCpl Crawshaw** on his recent marriage to **Cheryl**. Good luck to both of you in the future. We would like to welcome **LCpl Hall** and **LCpl Heydon** into our Troop and say farewell to **Sig Bishop** and **Sig Armstrong**.

MAINTENANCE TROOP - *by Sgt G. Brown*



Sig Smith trying to find his feet

Tp Comd **Capt C. P. Crowther**
Tp SSgt **SSgt M. Yates**

As per the rest of the Squadron we have been busy. Congratulations go to **Sig Pidhayehkj** for winning the LSW shoot on the DIVSAAM, also to **LCpl Smith** on his promotion and **Cpl Watmuff** on his marriage. As always the time comes to say goodbye, this time it is to **LCpl Neal** and **LCpl Manningham**. We would like to welcome **LCpl Ward** and **Sig Waring**.

4th ARMOURED BRIGADE HEADQUARTERS AND SIGNAL SQUADRON (204)

Sqn Comd **Maj A. H. Campbell-Black**
RSM **WO1 (RSM) D. W. Craig**

SUPPORT TROOP
QM **Capt Pete McElwee**
Tp SSgt **SSgt Paul Buckley**

At present Support Tp have been busy with the intended deployment to Bosnia at the end of May. **WO2 (RQMS)** 'Doz' **Day** and his team have spent the last few months demanding and ensuring that the Squadron will be deploying with the correct and adequate stores that will be required. **SSgt Chris Kimber** and his LAD team are busy at present ensuring that the four vehicles we are taking with us are ready for the deployment, and that the remaining vehicles are put into out of use for the period that we are in Bosnia. The MT & Power Section under the watch full eye of **Sgt Mick Pryce** are busy with servicing and power repairs, to ensure that the Squadron are able to carry out their role whist on Op Palatine. Whist the Squadron is deployed on Op Palatine, Support Tp personnel have been detached to different Troops. Support Tp will return after the deployment.

ROMEO TROOP

Tp Comd **Lt Ben Howarth**
Tp SSgt **SSgt Paul Buckley**

At the beginning of May and due to the deployment to Bosnia at the beginning of June a third communications Troop was formed. **Lt Ben Howarth** the new Troop Comander arrived form 7 Sig Regt ready to undertake UNTAT Training along with new members of the Troop from around the Corps. UNTAT Trg started on the 8 May in Sennelager, and this was to be the place that the Troop meet with one another. At first we started to think that it would take some time for each other to start and mingle and get to know one and all, that was until **Sig Shaun Brierley** started to amuse one and all with his cheap gags, and one or two outstanding jokes. Keep it up **Shaun** you never know we may need a part time comedian whilst on tour. **Cpl Guy Keyworth** let it be known that he was to celebrate his 23rd birthday whilst on UNTAT Training, however, the RSM, **WO1 Duggie Craig,** decided that due to **Guy's** past and to save the Squadron's name life would be much better if **Guy** was on duty. Before you all start writing to the RSM it was decided that **Cpl Nige Stiff** would do the duty for him. UNTAT Training proved to be of some use to every one - especially for **Sig Lucy Corlett**, whilst learning the best way to use an interpreter informed a civilian that she could solve the problem of clearing the mine field and looking after the farmers sheep. This was to put the sheep in the field and let them find the mines! The Troop would like to welcome all the new arrivals in to Romeo Tp and we wish you a happy and successful time with the Squadron.

ATTER SCHUTENUEREIN - *by LCpl Kurt Molden*

The Atter Schutenuerein is a traditional 'German' carnival where the people of Atter enter a shooting competition. It is at this event that the King and Queen for Atter is decided for the following year. Since 1854 the Atter Schutenuerein has taken place every year and only stopped on the outbreak of World War 2. In 1949 the festival started again, and for the past 16 years the Royal Signals based in Osnabruck has represented the Military personnel in Atter.

It was during the OC's conference that volunteers were required to represent the Squadron at the event. **2Lt Mike Parke** and **SSgt Paul Buckley** were first to volunteer especially when the OC informed the conference that there was going to be free beer. Members of the Squadron arrived in Atter only to find that the beer tent was open, after a few beers we all joined to parade and marched (walked) to the King's home. At the King's home we were given beer and good food for four hours before we paraded yet again to follow the King to the festival. Whilst marching (walking) back to the festival we were given drinks of schnapps to keep us in the flow of things. (**LCpl Dinsdale** thinks this is a good idea and the RSM should adopt this practice).

Once at the festival the King and Queen welcomed every one and it was off to the beer tent again. Whilst in the tent, and at around 7 o'clock and with the party well under way, **SSgt Paul** 'Buckers' **Buckley** who could not remember that he doesn't like dancing - danced ..... - like an idiot. **2Lt Mike** 'New boy' **Parke** forget he was in Germany and looked confused when he couldn't understand German. Well done Sir - if in doubt just smile and nod! **LCpl Dave** 'Old and wise' **Dowson** sat most of the night swaying and informing every one that he was old and that one day we will be his age. Special thanks must go to **Sig Daz Burdon** who stayed off the beer for the day and ensured that every one arrive back at camp safely. Finally **Sig Glen** 'Shy boy' **Hayes** was talking the night away by telling everyone that he fancied a young German girl and was going to chat her up after one more drink, but he never did so **LCpl Kurt** 'Blown out' **Molden** did and she left within five minutes. The day went well and every one is looking forward to next year. That is unless we are on tour some where.

PAPA TROOP – *by Sig Yates*

Tp Comd **2Lt Mike Parke**
Tp SSgt **SSgt Paul Davis**

Papa Troop's year started in February after a well-earned month off for Christmas with a Troop Exercise. This aimed to help in the preparation for the tour of Bosnia. Our main effort was to get the setting up of the main complex (BFOT) down to a 'T'. After several moves and some good effort all round this was eventually achieved. Along with myself other first timers on the Exercise were (when he finally woke up) **Staff** 'Yes I'm awake' **Paul Davis**, **Cpl** 'Crypto accounting' **Mo Pay**, **Sig** 'This is crap I wanna be a Tech' **Lucy Corlett** and **Sig** 'Are you sure that's right?' **Nicola Earle**. We then spent the next month in the bays putting our armour 'out of use' as it wasn't joining us on our six-month holiday in the Balkans. We then put them back into use, and out of use, and into use etc. – I think you get the drift.

April saw the Squadron visit Haltern Ranges with the purpose of getting all our remaining ITD's done and out of the way for the training year. After some grumbling from the lads the week got under way starting with the Ranges, most people managed to pass their APWT even **Staff** 'dead eye dick' **Davis**. Other elements of the week were the Law of Armed Conflict, Health and Safety at Work, First-Aid, NBC and Recognition lessons. It all culminated in a BCFT which of those who took part we had a 100% pass rate. After a week or so back in the bays getting on and off the bus at various moments, it was time to go on two weeks well earned Easter leave.

Back from Easter leave and it was all go again with UNTAT training down in Sennelager. This saw the breakdown of the three normal Troops Oscar, Papa and Support into their Bosnia Troops, it also saw the arrival of the augmentees from 7 Sig Regt who would be joining us for the Tour. The week went quite smoothly and swiftly until **Sig** 'Where's my gat?' **Lucy Corlett** managed to upset just about all the Squadron hierarchy by claiming to have lost her rifle. After much shouting and screaming it was found that she had in fact not managed to get her rifle out of the armoury – perfect material for a future Technician! The day also saw **Sig** 'Where's the toilet?' **Danny Tooke** have a little accident on the range in sight of the Troop OC. It didn't involve a rifle but it did involve the word projectile. Not only did it raise a good laugh, but it also meant that nobody else had to clean the toilets in preparation for the handing back of our accommodation!

This period has seen the introduction of our new Troop Comd, **2Lt** 'ex Tech' **Mike Parke**, and we also say a fond farewell and good luck to **2Lt** 'Benny' **Dave Hill** who leaves us to start a new career in the Royal Green Jackets. Welcome also to **Sig Nicola Earle** and farewell to **Sig Mark Lowes** good luck at 1 Div! It's now three weeks until we deploy and my final point is to the 7 Sig Regt personnel who are joining us on the Tour – 'You lucky, lucky gets,' never volunteer for anything where the number '204' crops up!

OSCAR TROOP - *by Sig 'Legohead' Ward*

Tp Comd **Lt Paul McTurk**
Tp SSgt **SSgt** 'Olly' **Oliver**

The pre-requirements for deployment to Bosnia have kept Oscar Tp very busy recently starting with ITD week at Haltern Ranges. The Squadron left late on a Sunday night in order to be up bright and early thanks to a friendly wake up call from **Sgt Lyons** at 0500hrs. After some leave it was off to Sennelager for UNTAT training run by 21 Engineer Regiment which turned out to be an excellent week helped by the gorgeous weather. The training culminated in a confirmatory exercise tested all the skills for deployment. In one incident **Sig** 'Dinger' **Bell** was patrolling up a street when he saw an approaching gunman. Quick as a flash he raised his weapon, cocking it in the process. Unfortunately, whilst trying to issue the 'SFOR' Stani ili pucam!' warning SFOR! Stop or I'll shoot!). His rifle sling, which was too short, caught him around the neck sending him to the floor right on top of a PROM-1 anti personnel mine! Never mind 'Dinger', lets hope you don't do that for real. Unfortunately it is time to say good by to **Sig** 'Melter' **Roberts** but the future is bright at 1 Div we hope! Who knows we may even see you in Bosnia. Welcome to **Cpl Sam Huby** and **Sig Ian Cooke** and the augmentees from 7 Sig Regt, at least for the duration of the tour in Bosnia.

19 MECHANISED BRIGADE HEADQUARTERS AND SIGNAL SQUADRON (209)

Sqn Comd **Maj Paul Peel**
RSM **WO1 (RSM) Steve Mitchell**

The Squadron has been quite busy of late, and has just about finished turning around all the equipment after our little jaunt in the Balkans. However, we have made the time to enjoy ourselves a little. A squad of budding canoeists entered the LAND Canoe Slalom Championships and brought home 17 trophies, more than any other team. These included a first place in the Women's Event for **Sig Nicky Needham**, first and third places in the Intermediate Category for **2Lt** 'Eric' **Bristow** and **LCpl** 'Al' **MacKay** respectively and fourth place in the Open for **Sig Mark Stafford**. The team was squeezed into second place in the team events by a team of international paddlers! Two teams the 2 Div Athletics Championships with mixed fortunes. The women came second and go on to the Army Championships, aided by some fantastic individual efforts.

In the photo 209 Sig Sqn 's Canoe Team sport their small collection of trophies. In the back row (L-R): **Cpl Justin Gill** and **Sgt Pat Howie** and in the front row (L-R): **Sig Nicky Needham, LCpl Alan Mackay, Sig Mark Stafford, 2Lt Simon Bristow** and **Sig Rob Hill**.

WO2 (YofS) John 'Hop-along' **Wright** organised a team that took part in 'Race the Sun', a charity competition organised by 2 Sig Regt. The team of 25 took part in the various events, ranging from a 6km kayak paddle at 5am and a stretcher race at 4.30pm. A hard competition physically, but an enjoyable day was had by all, aided by lots of chocolate freebies from Nestlé, and a sizeable amount of money was made for charity.

ALPHA TROOP

Tp Comd **Capt John Griffiths**
Tp SSgt **SSgt Jase Smithurst**

Life continues in Alpha Tp as we slowly continue to get back to business after the longest leave period that the troop has ever seen. PREs and Second Line Inspections have kept everyone busy whilst the Troop Commander swanned around on jollies to Italy and Bulford. Several Troop members have also been kept busy on their AFV DM course with even **Sig** 'Crazy Chris' **Allinson** eventually securing a pass. Squadron adventure training saw half the Troop down in sunny Fremington in North Devon to experience the delights of Barnstaple in the evening and the estuary at 0645am. **Sgt** 'Geordie' **Pearson** put in a sterling effort, injuring himself to ensure that he missed the early morning PT and then doing his bit for care in the community, downtown later that night. Meanwhile, **Sig Jen Galley** managed to overcome her worst nightmares and abseiled off the camp climbing tower, whilst **Cpl** 'Ski' **McKie** became slightly geographically embarrassed, missing a vital right turn whilst mountain biking. With even more leave looming in the not too distant future, everyone is looking forward to the delights of the Squadron half marathon, two weeks of ranges and a week in sunny Otterburn. Great.

BRAVO TROOP

Tp Comd **2Lt Simon Bristow**
Tp SSgt **SSgt Mick O'Brien**

Since our last entry, the Troop has seen a few new faces arrive and some old ones move on to expand their knowledge and experiences. **Sig Chris Cooper** has joined us straight from the factory along with **Sig Danny McGowan** from Alpha Tp. We say farewell to **Cpl Dave Weatherstone** who has departed for pastures new with 15 Sig Regt and **Sig Stu Paton** who has left the army after 12 years and is now a proud member of 1(UK) Civ Div. Our best wishes go with both of them. As a Troop, we have all spent the last two months working hard to get the vehicles ready for second line and PRE inspections, interspersed with a smidgen of PT to keep us all happy. In the Inter-Troop Sports Competition, we proudly won the first two events, the football and volleyball, be it at the expense of **Sgt** 'Mac' **McGibbon**, who is currently enjoying a month's sick leave at home with his leg up in the air. Our sympathies to **Denise**! Members of the Troop took part in the 2 Div Athletics Championships and did very well. **LCpl Jase Whitehead** won the high jump, **Cpl Dave Pope** won the 100m and **Sig Phil Moore** managed to knock down all the 110m hurdles! The girls' team was led to success by Team Captain, **Sig Lindsey** 'W21D' **Rakocevic** who won the 100m and **Sig Nicky Needham** who also won her event.

SUPPORT TROOP

QM **Capt (QM) Graham Reith**
Tp SSgt **SSgt Steve Legg**

Support Tp have had a very busy month, MT have been working hard on Vehicle inspections, LAD on PREs and the QM's dept trying to make sense of the new Unit Equipment Table. We have also been Adventure Training, where the 2IC, **Capt Peter Young,** is convinced that the QM, **Capt Graham Reith**, tried to kill him when he helped fit the spray deck on his canoe and accidentally tucked the release handle inside. Unfortunately this small error was only discovered when the 2IC was upside down in rolling surf on the point of drowning. Somehow 'sorry' didn't quite seem good enough! Congratulations to **Sig** 'Smoothy' **Smith** for successfully completing the Royal Signals Leadership Course held down in Blandford, anything to get away from work.

Support Tp would like to extend a big welcome to the following new arrivals and their families: **SSgt Paul Warsdale, Cpl Lee O'Rouke, LCpls Grant McDougall, Adrian William Russel** and **Sig Jamie Danby.** The Troop sadly says goodbye to **Sgt Aidy Lines** who is off to a nice cushy number in 11 Bde and **Cpl Ian Kirkland** who is off to an even cushier number in NATO Sgt Balado Bridge in Scotland. Both have been stalwarts of the QM's department and will be very much missed. We wish them and their families all the best.

1 MECHANISED BRIGADE HEADQUARTERS AND SIGNAL SQUADRON (215)

Sqn Comd **Maj Paul Vingoe**
RSM **WO1 (RSM) Grant Johnson**

SUPPORT TROOP

Tp Comd **Capt (QM) Gerry Knight**
Tp SSgt **SSgt Daz Forrester**

EXERCISE DRIVESAFE WEDNESDAY 7 JUNE - *by Cpl John Grey*
Picture by SSgt Craig Stables

The day started at 0745hrs, with ten Landrovers lined up on Jellalabad Barracks Square, Tidworth. Each vehicle had a two man crew comprising a navigator and driver, the ten crews were subdivided into four Troop teams to facilitate a prize giving which would be held at the end of the day. The Troop Teams were Sabre, Bengal, Support 1 and Support 2. The first hurdle to be overcome was a documents check to ensure that all drivers had a valid driving license and the correct documentation for their vehicles. When this check was complete, the crews separated and took their vehicles to different parts of the square, where they had to complete a total of five manoeuvring stands. These consisted of various exercises to test driving skill, ranging from parking, to judging vehicle width, trailer manoeuvring and negotiating circuits of traffic cones. Penalty points were awarded to crews for any mistakes made while attempting the exercises. Once the crews had completed all of the stands on the square they were despatched to Perham Down Training Area, where they took part in an orienteering competition. The navigators were shown a training area master map and had to copy the locations of marker points onto their own maps. Once the navigators had finished marking their maps the crews set off in their vehicles at two minute intervals to locate as many of the markers as possible. There was a one hour time limit to complete the orienteering section of the competition. Again penalty points were awarded to the crews for any markers they did not find and also if they did not report to the finish line on time. When the crews finished the orienteering stage of the competition they made their way back to camp to enjoy lunch in the Junior Ranks Restaurant.

After lunch the participants reported to the LAD to start the finale stage of the day, a navigation exercise using roads and tracks on and around the training areas of Tidworth. The crews were given information books, each of which contained the route they were to take presented in grids and trace format. After much head scratching and trying to remember whether it was up the stairs or along the corridor first when plotting grids, the crews all managed to plot the route onto their maps within the time limit of 45 minutes. Again they set off at two minute intervals to complete the 56km course. Whilst driving around the course, the crews had to look out for and record the information from marker boards set out along the route, additionally, at the start of the navigation stage they were given timings by which they had to report to manned checkpoints along the route. Yet again the crews picked up penalty points for missing marker boards and being early or late at the checkpoints. When all the crews were safely back at camp, they cleaned the vehicles, while the event organisers totalled up the scores and results of the competition.

At 1800hrs all crews were seated in the Bradley Club so that the OC **Maj Vingoe** could present prizes to the winners. The winners collected their prizes to the shouts of 'FIX' as the LAD not only ran the event, but won it! Overall the total scores were very close, showing the high standards of driving and keen map reading skills within the Squadron. The results were,

First **LCpl Cathro** and **Cfn Upex** LAD
Second **Cpl Young** and **Sig Lindsey** Sabre Troop
Best Team Effort - Support Troop 2

(Three members of our LAD, **Sgt Hugh Williams, Cpl John Grey** and **Cpl Rip Campling** devised and executed Ex Drivesafe. It was an outstanding example of high quality training, packaged in an imaginative and enjoyable way. All credit goes to these three NCOs, well done).

The winners of Exercise Drivesafe
(L-R): LCpl Cathro and Cfn Upex, Sig Lindsey and Cpl Young

THE BATTLEFIELD TOUR 3-4 JUNE
by LCpl Fraser and LCpl Eddie Blackmore

It is the Squadron Commander's strong belief that to produce a better understanding of tactics and to reinforce their military education all ranks should be afforded the opportunity to study history's military actions. To this end, a number of rank specific battlefield tours have recently been organised by the Squadron. Over the weekend of 3-4 June 2000, it was the turn of the Squadron Junior NCOs. On the Saturday eleven of us, accompanied by the Squadron Commander, **Maj I. P. Vingoe** and OC Sabre Tp, **2Lt Wills** crossed the Channel to see the sights of France and learn about the D-Day Beach Landings of World War Two. We departed for France at 0500hrs just as British Troops would have done all those years earlier. On board the ferry between Portsmouth and Le Havre, **Major Vingoe** and **2Lt Wills** presented an overview of key events, which gave everyone a good insight into the Normandy landings. It was also sound preparation for what lay ahead.

Once in Le Havre we drove to the Normandy Memorial Museum in Caen. The museum tour comprised an exhibition of events spanning the end of the First World War to end of the Second World War. It was a very interesting display of pictures, documents, artwork and historical equipment. Most memorable parts of the exhibition were the uniform and artillery of WWII, and letters from Roosevelt and Einstein discussing the possible use of nuclear weapons. There was an extensive display of propaganda posters from all sides involved in the conflict and the Jewish exhibition was particularly strong and hard hitting. After the museum tour we moved to the cinema theatre to watch two superbly put together pieces of film footage shot during the Second World War, the Gulf War and latterly during the conflict in the former Yugoslavia.

On the second day we went to visit some of the places seen at the museum. First was Pegasus Bridge, this was the first European soil to be liberated by the allies. To stand on the ground and see where the first three gliders containing British Paratroopers had to land and seize the bridge was remarkable, how did they manage to land the things in such a small area? Amongst us all there was a real sense of admiration for the soldiers who'd taken part in this operation. **LCpl Eddie Blackmore** found this an immense source of pride as his father was part of the support team who were sent in after the initial assault. We also managed to take in the Omaha and Sword Beaches. Looking at the terrain and the distance British and American soldiers had to travel, and considering their mental and physical condition it was amazing how anyone survived. The sight of this shoreline battlefield promoted a real sense of gratitude for those who lost their lives on these beaches where we stood.

Finally we visited the military cemeteries where the British and American fallen are buried. The British memorial site was an immaculate and silent place, sacred in its regimented rows of bleached white headstones each bearing an engraved cap badge, rank and name. There were many Royal Signals soldiers buried here. It proved to be a very sobering experience seeing how young these soldiers were, seventeen, eighteen years of age, they were only kids. This part of the visit was an emotional moment for **LCpl Andy Campbell** who took the opportunity to pay respect at his uncle's grave. If we thought the British cemetery was big, the American one was immense, its architecture and natural surroundings giving it that same tranquillity which belies the awful violence and trauma which brought about the deaths of those who lie at rest. The sight of hundreds and hundreds of white crosses was breathtaking, it was impossible to take in just how many people died during the D-Day landings. The Normandy Battlefield tour was very educational and made us realise why we should never forget the appalling sacrifices made on those beaches. God forbid that mankind should ever slide into warfare on that scale again.

LONG SERVICE & GOOD CONDUCT MEDAL PRESENTATION

The LS & GC Medal recipients
(L-R): SSgt Craig Stables, Harriet Armitage and mum Sharon, Cpl Neville Armitage, Comd Comms, SSgt Lloyd Bagshaw, Ruth Bagshaw, Sgt Hugh Williams

It is unusual to have a Long Service and Good Conduct Medal presentation in a Royal Signals unit where none of the recipients are members of the Corps. That is exactly what we had however, when **Brig J. M. Shaw MBE**, Comd Comms HQ Land came to visit in June. REME and AGC recipients duly assembled, the proceedings were conducted in the ORs Restaurant thus enabling the rank and file to take part; these things normally happen in the Sergeants' Mess. It is always interesting and often sobering to hear a soldier's career condensed into a few short minutes and delivered as a citation. Quite often there is a dark horse among us who says nothing of his life's achievements until they are laid bare at an LS & GC medal presentation. Well done and congratulations to all four of you and your families.

COMMUNITY AWARD

Life in Support Tp goes on as usual, one of the biggest tasks since arriving back from Bosnia has been the 1st Tidworth Scouts sponsorship. In fact, the Troop's efforts have been so successful that we won the Tidworth Challenge, an accolade awarded annually to the organisation, civilian or military, which has done the most work to assist the local community. The Troop lays on fortnightly Sunday car-boot sales at the Ludgershall Vehicle Storage Depot, which raise much needed funds for the Scout group. The income has allowed them to replace their old condemned hut and is continuing to fund the purchase of fixtures and fittings. Including all the fund raising activities, the total raised so far is in excess of £30,000.

Squadron Commander, Maj Paul Vingoe, flanked by Quartermasters past (R) Capt Phil Abbott, and present (L) Capt Gerry Knight, with the community awards
Also pictured is Mrs Fran Catt and an extremely small Scout

WEDDING BELLS

Finally, the Troop would like to send its very best wishes to **Kes** and **Brad** who tied the knot in Salisbury on Saturday 29 April. You make a great couple, all the best for the future.

SABRE TROOP
Tp Comd **2Lt Gordon Wills**
Tp SSgt **SSgt Chris Coates**

Sabre Tp has enjoyed a good few months with the arrival of a whole host of new members, not least of whom were a batch of six brand new Signallers. A busy exercise period has meant a lot of hard work, most notably on two recent deployments in support of 2PWRR and 1PWRR during their Ex Druids Dance. Druids dance is the battle group training exercise on Salisbury Plain using the Weapons Effects Simulator equipment. A short notice change in the tasking for this exercise meant that the new arrivals had to get straight in at the deep end within a few days of turning up. The Troop has had some time for fun as well. Having seen the WES kit, but not been allowed to play with it, **Cpl** 'Kev' **Young** and **LCpl** 'Smithers' **Smith** organised a paint balling day. The event was a great success, attended by 25 members of the Troop. Over all we fought ten pitched battles through the day, with a number of themes, the authors favourite being the all out killathon, which was the Hay Bale Field. Each having been give a number on entry, we fought as odds against evens. At the end of the day the evens were only just beaten by half a point. Or was that half a paint. The future also looks busy, with Troop and Squadron level training ahead of us and another Ex Druids Dance to support. Without question, however, there will also be more of the fun to come. A big well done to **Sgt** 'Norrie' **Crook** who, upon promotion, has inherited the Provost Sergeant's job from **Sgt Kev Twigger**. Once again welcome to the newcomers and good luck in the Troop.

16 AIR ASSAULT BRIGADE HEADQUARTERS AND SIGNAL SQUADRON (216)

ALPHA TROOP - *by Sig Murray*
Tp Comd **2Lt J. K. Hawkins**
Tp SSgt **SSgt J. Walker**

As periods of leave and exercises come to an end, the Troop was soon fully manned again. There was a state of upheaval, as some of the Squadron were rushed to the tropical paradise that is Sierra Leone. **2Lt Jim Hawkins**, **Cpl Scott Dernie**, **Sig** 'Muzz' **Murray** and other lads from the Squadron were all deployed in support of 1 Para during Op Palliser. It was an interesting three weeks, but we were all glad to get back. While we were away there was a spate of departures and arrivals. We would like to welcome the following to the troop, **Sig Trist Ancell**, **Sig Paul Encell** and **Sig John Smith** from RSS Blandford. A welcome to **SSgt JJ** 'Talker' **Walker** who is taking over from **SSgt Chris McKenna**. Goodbyes go out to **Sig Merv Young** who is returning to 14 Sigs and **Sig Markus Kershaw** who is heading up north to 2 Sigs. Congratulations to those new fathers in the Troop. Including **Cpl Shaun Smith** with daughter **Sophie-May** and **LCpl Scott Robinson** with daughter **Jessica**. The Troop is now looking forward to Ex Eagles Strike in July, Ex Medicine Man in September and of course, some adventure training.

BRAVO TROOP - *by Sig Allen*
Tp Comd **Lt R. A. Hamilton**
Tp SSgt **SSgt P. Bartliff**

Easter leave came and went all too quickly. Since then **LCpl Good** has come back from his Class One to enlighten us on everything we didn't know about generators. Yet more people have been detached from the Chosen Troop to bring some form of professionalism to other less able units. **Sig** 'fuzzy bear' **Foster** is currently working in BATUS and **LCpl Young** is with 2 Para jungle training in Belize. An exercise of graft and toil in the Ascension Islands was unfortunately cut short for **LCpl** 'Gaz' **Lawson** and **Sig Allen** as the Sqn was recalled for the Sierra Leone deployment. In the end **Cpl** 'Robot Mary' **Murray**, **Sig** 'interesting shaped beret' **Jones**, **Sig Drabwell**, **Sig** 'Sy' **Wealleans** and **Sig White** represented the Troop and defended British interests against the sharpened mango fruited ones.
Promotion to SSgt meant that we had to say a sad farewell to **Sgt** 'Moon monkeys' **Owen** to 35 Signal Regiment. We would like to wish Dave and Chrissie all the very best. Finally the very best of luck goes out to **Cpl** 'Larry' **Kirk** and **LCpl** 'Scads' **Scadden** who have hung up their combat jackets for the last time and are off out into Civvy Street; remember us when you are managing directors and are earning your millions!

CHARLIE TROOP - *by LCpl Richardson*
Tp Comd **Lt O. T. B. Courage**
Tp SSgt **SSgt P. Hatton**

Two new soldiers have joined C Tp and the boys would like to welcome and ensure them that there's no pressure on them to pass P Coy; here's hoping that **Sig Dunseith** and **Sig McLachlan**, have a happy and enjoyable time. 216 Sig Sqn were recently approached by 30 Sig Regt for WOTAN operators to participate in an exercise in Ghana, Africa. The chosen few were **Cpl** 'The General' **Dernie**, **Cpl** 'Three weeks and still white' **Benson**, and **LCpl** 'fly food' **Cant** and myself. Other personnel flew out to the Ascension Islands to provide the 'other end' including **Sgt McGuinness**, **Cpl Knibbs**, **LCpl Lawson**, **Sig Bacon**, **Sig Allen** and **Sig Morris**. The rest had the honour of staying in Bramcote – unlucky! (of course they had the better deal as they didn't have to put up with flies, mosquitoes and red hot weather like the rest of us.

The teams flew out to their various countries on 28 April 2000. Everything had gone more or less smoothly so naturally it all had to start going wrong when we arrived in Ghana. The heat hit us as the jet doors opened and by the time we had found our transport we were in tatters. The waiting bus/oven took us off to our accommodation in the Ghanian Staff Officers College, passing through shanty-towns that housed dwellers living at the end of the poverty line. Memories of Aldershot flooded back as we passed people dressed in rags begging for food and cash. The bus was given a police escort consisting of one man on an ancient looking motorbike wearing the biggest crash helmet I have ever seen. He rode ahead of us with no regard for his or anyone else's safety, which kept us amused for the journey. The WOTAN kit finally arrived…well most of it, as the airline kindly left two of our boxes back in the UK. We set our kit up in a record slow time due to the hard ground and having to stop for water every 5mins. Once the link with the Ascension team was in it was pretty plain sailing. Unfortunately the following week 30 Sig Regt were warned off for Op Palliser and the remainder of the Exercise began to look tenuous.

Due to the heavy RAF commitment to Sierra Leone, it was a few days until we were moved from Ghana and flown to Senegal where we were held for about a week. Compared to Ghana, Senegal was freezing at night and was the first and only time I used my sleeping bag. From Senegal we flew onto Sierra Leone to Lungi airport, where we were able to marry up with the 216 blokes who went in with 1 Para including **2Lt Hawkins**, **Cpl Fulton**, **Cpl Stuart**, **LCpl** 'Loaf head' **Shields** and **Sig** 'Sleep monster' **Hoggett.** The rebels had very nicely timed kicking off with the beginning of the rainy season. Every night there would be a massive down pour of big heavy blobs of warm rain which wasn't too unpleasant and cooled the air for 10mins. Other than the shift roster there wasn't much to do but catch rays. Some of us managed to get away around the country. **Cpl Launder** ended up providing comms for the boat patrols on the rivers, **Sig Fyfe** was up and down to Aberdeen Peninsula with the 1 Para RSO and I managed to get to Lungi Lo village for six days with C Coy to provide a link back to the ops room. During this time some of our blokes managed to get a flight home because they had no job to do.

From 23 May 2000 onwards, the whole affair began to wind down. As the Royal Marines started to take over, 216 packed up and waited for a flight home, whittling away the hours playing Yahtzee. Meanwhile **YofS Wilson** got his head down for a couple of days in an air-conditioned tent with the medics with some poor excuse like he had tonsillitis. We took full advantage of the airport facilities including the duty free shop and became competent at wheel chair wheelies which seemed to be in plentiful supply. By 28 May 2000 everyone less **Sig Crutchley** was back in the UK. He was flown onto HMS *Ocean* and lived on the ship for a week. It was an experience not to be forgotten but definitely not repeated.

SUPPORT TROOP
Tp Comd **Capt S. A. Clark**
Tp SSgt **SSgt P. Latimer**

April and May were again busy months for Support Tp, culminating in the much awaited all ranks Sqn function. The 70's night saw the singlies buying deviant costumes from the charity shops whilst the Staff Sergeants and above raked in their wardrobes for their teenage clothes. First prize for porn tash has to go to **Cpl** 'how long will this makeup take to come off?' **Wilson**. After a small commitment to the Brigade CAST, the majority of the Troop were stood down for Easter leave, with only the Lanyard team staying behind to train. Well done to **Sgt Rayson** and **LCpl Cloney** for a brilliant effort and playing key roles in the team's victory. Ex Argon Mercury saw the deployment of some of the Troop to sunnier climes including Ghana, the Ascension Islands and Bramcote. The Exercise was cut short due to the commitment in Sierra Leone. Four techs deployed – **Cpl** 'I've got no webbing or helmet' **Benson**, **Cpl** 'Us Jocks burn in the sun' **Stuart**, **Cpl** 'Furry Roach' **Fulton** and **Cpl** 'I've not even had time to unpack my MFO' **Stojanovic**. The Squadron remains on R1. Consequently the Troop has been busy preparing for any eventuality. Duty rumour during Op Palliser has to be awarded to **Cpl** 'I like digging I do' **Williams** for his story of the Squadron's deployment to the forward mounting base on the island of Tenerife. The Troop says farewell to **Cpl Williams** on his posting to Civ Div, but says hello to **Sig Marsden** from the factory. A well done must be said to **LCpl** 'Yes, this para smock is a permanent fixture of my body' **Browning** on passing his jumps course and a get well soon goes out to **Cpl Angel**.

LANYARD TROPHY 2000 - *by Lt Toby Courage*

This year's competition was held in Dartmoor. Competitors assembled on 4 May at Okehampton Camp in eager anticipation; in all twenty-eight teams entered. The route for the first event of this millennium was suitably demanding. It was a full forty miles over the baron, hilly terrain which characterises Dartmoor. Navigation would clearly be a vital skill for each of the teams.

The event started at a car park just east of the small village of Hartford at 05:00hrs on Thursday 5 May. It was a massed start with teams spread out over a considerable distance. The sun had not quite appeared over the horizon when the starting hooter sounded and the competition was on. The first Checkpoint was a little over 3km away and some teams seemed over eager to get to it, racing off a quite a lick only to suffer afterwards as the initial climb took its toll. The distance between checkpoints one and two was more considerable, some 9km for those who got the navigation right, and this leg acted to spread the teams out. By Checkpoint five 216 Sig Sqn had a 28 minute lead over 228 Sig Sqn and a 1 hour 13 minute lead over 7 Sig Regt. In the women's competition there gap was much closer with just 16 minutes separating three of the four teams. 35 Sig Regt led the Territorial Army teams at this stage, but they had Leeds OTC just three minutes behind them. By Checkpoint 10, 30 Sig Regt had taken second place from 228 Sig Sqn, leading them by nine minutes. 216 Sig Sqn maintained a healthy cushion leading 30 Sig Regt by 39 minutes. However, the real battle was raging with the girls' teams. Although 15 Sig Regt had dropped out of contention by this stage, just four minutes separated 30 Sig Regt from second place 11 Sig Regt. A battle was also in full flow with the TA teams. Leeds OTC had secured the lead by this stage with their nearest rivals 31 minutes behind.

Again the tables were to turn by Checkpoint 15. 228 Sig Sqn snatched second place with a now healthy lead over the third placed 7 Sig Regt. At this stage 30 Sig Regt and 1 (UK) Armd Div Sig Regt were hard on 7 Sig Regt's tail. 216 Sig Sqn had managed to build up what was by this stage

an unassailable lead over 228 Sig Sqn, the gap being 1 hour and 5 minutes. In the girls competition 11 Sig Regt took the lead and were 14 minutes ahead of 30 Sig Regt. At the finish 216 Sig Sqn won by a margin of 1 hour and 11 minutes, however the next four positions in the regular male competition were very keenly fought with just 34 minutes between them. 228 Sig Sqn came in second and 7 Sig Regt third. In the women's competition 11 Sig Regt crossed the line first with a time of 14 hours and 9 minutes. 30 Sig Regt lost a little time between Checkpoint 15 and the finish but still achieved a very respectable time of 14 hours and 41 minutes. The fastest TA team was Leeds OTC with a time of 16 hours and 20 minutes, however, they were disqualified as they finished with an incomplete team. This left 34 Sig Regt to take the glory with a finishing time of 16 hours and 23 minutes. 35 Sig Regt withdrew from the competition in some style. They laid down their bergens at Checkpoint 11 and headed for a local pub! The tables below show the finishing positions of the top three teams in each of the three competitions:

Regular Male Team Competition

First	216 Signal Squadron	10 hours 29 minutes
Second	228 Signal Squadron	11 hours 40 minutes
Third	7 Signal Regiment	12 hours 00 minutes

Regular Female Team Competition

First	11 Signal Regiment	14 hours 09 minutes
Second	30 Signal Regiment	14 hours 41 minutes
Third	15 Signal Regiment	16 hours 30 minutes

TA Team Competition

First	34 Signal Regiment	16 hours 23 minutes
Finished undermanned	Leeds UOTC	16 hours 20 minutes
Finished undermanned	38 Signal Regiment	18 hours 21 minutes

The spirit of all the competitors was first class. Throughout the event teams displayed a steely determination to do well but there was also a great deal of camaraderie amongst fellow competitors. The sense of occasion continued in the bar afterwards for those teams that felt up to it. The next day was the Team Captains debrief and the SOinC presents the prizes. There was much praise for the event organisers, 216 Sig Sqn for running what was seen as a tremendously successful competition. The Squadron's team's victory means that it will have the honour of organising next years competition as well.

The victorious 216 team
together with it's assiduous support team
front row (L-R): Cpl Hoskins, Cpl Barnes, LCpl Thorpe,
Lt Courage, Sig Bourne, LCpl O'Donnell; back row; Maj Hooper,
LCpl Salmon, Sgt Rayson, LCpl Cloney, LCpl Lancaster,
Sgt Combe, Sig Sherrington, LCpl Blackmore, Sig Drabwell,
Cpl Fernie

16 AIR ASSAULT BRIGADE HEADQUARTERS AND SIGNAL SQUADRON (216)

IMPORTANT NOTICE FOR ALL FORMER OFFICERS OF 216 SIGNAL SQUADRON!

In previous years, 216 Sig Sqn has held an annual reunion dinner for all Airborne Signals Officers. This year is to be no exception and will mark the transition of the Squadron from Airborne to Air Assault.

This year's dinner will be held in the Officers Mess at 16 Air Asslt Bde in Colchester, Essex on 20 October 2000. Proformas have already been sent to all known Airborne officers, but we suspect there are more who may have moved to a new address since the last dinner.

If you are one of these individuals and are keen to attend the dinner, please contact **Capt Steve Clarke** on 01206 782784 or mil 946512784 who will send you details of the event.

238 (LONDON) SIGNAL SQUADRON

SQUADRON HEADQUARTERS
Sqn Comd **Maj Ian Seraph**
SSM **WO2 (SSM) Ewan Hall**

The Squadron would finally like to welcome our new Squadron Commander, **Maj Ian Seraph,** fresh from his brief jaunt to Sierra Leone. The stand in, **Maj (TFC) Dave Gilchrist** can now return, happy, to the relative quiet of OC Oscar Tp and start to pick up the pieces of his shattered resettlement plan. The Squadron has appreciated the work he put in during the gap period. Since the last post the Squadron has been very busy competing in various competitions, a Brigade battle camp and going out on a 'Squadron Walkabout'. Considering our resources, we've had a very successful period. The shooting team fought a fine battle with 243 Sig Sqn at the Corps SAAM, losing out by the narrowest of margins for the Minor Units Championship. In the London District RAM the team came away with the Regular Minor Units Championship, the Regular Minor Units March and Shoot Trophy as well as individual honours for **Sgt Si Schofield** as the Regular Pistol Champion and **Sig Toby Green** as the Regular New Shot Pistol Champion. In York, for Race the Sun, the team finished eighth overall, with special mention going to **Sig Chris** 'last, but first!' **McGuire,** who set the best time for the run-bike-run event,

introduced this year. At the Morrison Cup our only representative, **Sig** 'Mags' **West** came second in the female long jump competition. Well done to all the competitors and support staff involved in the above events. The first two weeks in May saw the Squadron involved in the Brigade battle camp, at Sennybridge. The camp was split into two one-week packages, with the Squadron supplying DS and admin support to the organisers, 243 Sig Sqn. Here's the memoirs of one of our DS, **SSgt Andy Cannadine**

2 BRIGADE BATTLECAMP 2000 - EXERCISE BLAZING BRUNO A DS PERSPECTIVE

Friday 30 April saw the Squadron DS representatives - **SSgt Andy Cannadine, SSgt Si Hadley, Sgt Bob Garlick** and **Cpl Stevie Hook** - deploy on the advance party for the Bde annual Battlecamp. Congratulations to **WO2 SSM** 'I managed to do both weeks of Battlecamp and still have clean combats' **Morrow** and **SSgt Bob** 'Read the Palms, done the course and got the T-Shirt' **Lawrence** of 243 Sig Sqn for organising the jaunt over a Bank Holiday weekend. At the time of deployment, we were all well aware that many clichés would be used in anger when **Sgt Bob** 'I've Just come from 11 Signal Regiment' **Garlick** was heard muttering, 'How weak and unmilitary the wearing of gloves was.' Only to be met with many replies of, 'Any fool can be cold.'

Over the initial few days of detailed recces and lesson prep, Sennybridge Training Area was true to form with regards to the weather. Nevertheless, it brightened up for the Troops arriving on Sunday. Units are reminded to book the correct weather in future for the event, 'Remember - it ain't training if it ain't raining'. Ten minutes into day I saw **Sig Chris McGuire** of 238 Sig Sqn being caught by **WO2** 'I've got pink pyjamas and dirty combats' **Smith** of 251 Sig Sqn with two pot noodles, six Mars bars and noodles galore in his Respirator pouch. Was this a sign of what was to come? Well if the Demolition Brothers - None other than SSgts **Andy** 'SSgt 1' **Cannadine** and **Si** 'SSgt 2' **Hadley** - can manage three fry ups in a day, why should everyone else be confined to the delights of compo for a week. With the troops split up into Sections under the watchful gaze of their section DS - that's when **Sgt Daphne** 'Vogue' **Clash** of 251 Sig Sqn wasn't posing for photographs - they participated in many varied military skills lessons over the next few days. Injuries were inevitably sustained by several individuals. However, Week One saw the miraculous recovery of **Cpl Durkin** of 243 Sig Sqn with the able assistance of two strips of orange mine-tape. Maybe the medics ought to prescribe orange mine-tape armbands in future as opposed to the standard Bruffen and TubiGrip. Not to be out done, **LCpls Andy** 'Semaphore Whizz-Kid' **Carr** and **Bri** 'Twice around my beautiful bronze body - GO!' **Stewart** of 238 Sig Sqn elected for the same cure during Week 2, and it worked! No prizes were presented for Best Section, etc... but congratulations go to **LCpl Sheppard** of 243 Sig Sqn on becoming the World Champion Schermuly Chucker for 2000 with a record distance of 10 feet. Well she did warn the Demolition Brothers earlier that throwing things was not her forté. In addition a special mention goes to **Cpl Steve** 'Beast-master' **Hook** on managing to be the only Section DS to injure participating Troops. Next time, don't do the chains up so tight !

Day Four of each week saw the Demolition Brothers and the Beast-master on the Practical Demolition Area (PDA), allowing the troops to try their hand at preparing and detonating confidence charges. Although all went to plan on the whole, **SSgt Si Hadley** did have to deal with two charges that weren't initiated correctly. A special mention to a member of the DS, **Sgt** 'JB' **Blyth** of 241 Sig Sqn, for being one of the PDA two. The final attack of the Exercise saw all the troops storming an occupied farm complex, bravely defended by all those wearing orange mine-tape armbands. Artillery strike BATSIMS were kindly provided by the Demolition Brothers. Mind you even they got it wrong in Week Two with two uninitiated charges being left until Endex before being dealt with.

The final day of each week were not disappointing either. Week One saw a rumpus in the car park between a hormone imbalanced Staff Sergeant and a sleepless and tired Staff Sergeant (both of whom remain nameless) with 1033's being drawn in anger. Week Two saw a Skill at Arms qualified individual (again nameless) checking a GPMG barrel for cleanliness inside whilst the BPFA (Sorry Sir ! That should be BFA) was still fitted. No wonder it was dark in there! In all, a good time was had by all and the Demolition Brothers survived to blow some more things up next year.

238 SIGNAL SQUADRON - SQUADRON WALKABOUT
by Sgt 'Chalky' White

On 27 April 2000, 12 hardy souls from 238 Sig Sqn ranging from the Sqn Comd, **Maj Dave Gilchrist,** to new arrivals such as **LCpl** 'Jonno' **Johnson** participated in the first Squadron walkabout of the new millennium. The event organised as ever by **Sgt** 'Chalky' **White** took place along the Grand Union Canal at Watford. God looked down on us that day, as the sun shone and the threat of scattered sporadic showers never materialised. After battling our way through the carnage that is London's traffic, the intrepid bunch set off from Cassiobury park in Watford. Along the way we were treated to some wonderful sights such as watercress beds, wildlife, fishermen, canal boats, as well as finding out how to, and how not to, open lock gates from a local boatman, which totally confused the educationally challenged amongst us, including (Yof S) **Neil Stewart.** The best sight of all was reserved until approximately half way around the walk, The Kings Head Pub. It's funny how all this walking brings on a raging thirst and hunger. A wonderful pub lunch/packed lunch was had by all, whilst listening to the tales of travel from **LCpl Keith Ford** on Australia, **Maj Dave Gilchrist** on Nepal, **WO2 (YofS) Neil Stewart** on Oman and **Sgt** 'Chalky' **White** on Skegness (Butlins). After lunch is was back onto the beaten track and an opportunity for a photo shoot from a passing local, before heading back into Cassiobury Park to complete the loop and an enjoyable day out.

THERE IS GREEN AND PLEASANT LAND IN LONDON

MIKE TROOP
Tp Comd **Capt (TOT) R. Nicol**
Tp SSgt **SSgt A. J. Cannadine**

The end of February saw half of the Troop deserting work for a skiing holiday, in the form of Ex Winter Warrior, in Hochfitzen, Austria. Well done to **Sgt Jacobs** and **Sig Muhammad** for achieving silver awards in alpine skiing, **LCpl** 'Ginge' **Smith** and **Sig** 'Stabilizers' **McGuire** for achieving bronze awards, and **Sig** 'Muller' **McFaul** for getting the wooden spoon! With **Sig** 'Mongo' **McFaul** leaving and the rest of the Troop needing to off-load lots of pent-up stress, it was decided by our illustrious leader that our notoriously gung-ho Troop would embark on a paint-balling afternoon. Two teams, one consisting of Techs the other of Mechs, fought bravely for hours on end. Of course no grudges were borne by either side. Honest! After many bruises being rewarded, the end result was an inevitable win for the Mechs. Any offers of a challenge are to be made to **Sig** 'Stop that, it hurts' **McGuire.**

With the Squadron CIS Helpdesk coming to it's end at the time of writing, the ACISG workshops under the guidance of **Sgt Jacobs** are in a race to clear all outstanding jobs prior to the hand-over to Aldershot. Summer brings the busy season for the Radio and PA sections, with the forthcoming Queens Birthday Parade, Queen Mothers 100th Birthday celebrations and the new Royal Military Tournament 2000. A truly stressful time for the Troop as it means all work and no play. As well as work, half the Troop found time to attend the annual 2 (NC) Signal Brigade Battlecamp in Sennybridge (the other half all dreamed up substantial excuses) with a fun time being had by all. Thanks to the Demolition Brothers **(SSgt's Andy Cannadine** and **Si Hadley)** for organising the early morning wake up calls.

Welcomes are extended to **Cpl** 'Johnny mnemonic' **Mesmer** from 30 Sig Regt **LCpl 'JP' Thomas,** fresh meat from Blandford; and to **Sig 'MJ Muhammad** after reappearing from her recent detachment to the Ethnic Minorities Recruiting Team. Farewell's go out to **Cpl** '15 pints before 10 o'clock, in bed by 5 past' **Bone** who leaves us for sunny NI **Sig** 'The Daddy' **McFaul** who's off to Germany. and to **Sig** 'Motormouth' **Blevins** who leaves the Corps for civvy street. Good luck to you all. On a similar note, farewell to Sig's 'Piers' Daw and 'Off on another jolly' **Multammad** who are to be imminently detached to the CIPIT team in Bosnia and Kosovo. In addition, **Sig Daw** is to be congratulated on receiving his first tape, not to mention the added bonus of a posting to Cyprus in October 2000

OSCAR TROOP
Sqn/Tp Comd **Maj (TFC) Dave Gilchrist**
Tp SSgt **SSgt Karen Ripley**

A not so hectic reporting period for the Troop this time around with no new projects being undertaken, the main focus of attention has been how can we cope with the loss of major manpower at all levels within the Troop. **Maj (TFC) Dave Gilchrist** has been dual employed as both Squadron and Troop Commander, so the Troop personnel saw a lot less of him. Welcome back **Maj Gilchrist. Sgt Lindy Lawrence** was recently transferred from her post of D Shift DSO within London Central COMMCEN (LCC) to replace the already departed **Sgt Debbie Gosnell** in the ADA. **Sgt Bob Garlick** arrived from the training establishment that is 11 Sig Regt to work in the COMMCEN as a replacement for **Sgt Lawrence,** only to complete three shift cycles before being thrust into the Squadron Training Wing. **Sgt Mandy Eardley** completes the trio of moves on the SNCO side as she now resides over D Shift in the COMMCEN after her arrival from SHAPE. The Troop had to say goodbye to **Miss Donna Wilson (CO3)** after she decided to move onto pastures new. **Donna** had been here within the COMMCEN for five years and was one of the well established and likeable characters. Thanks for all your efforts **Donna** over the years and all the best with your new career in the future. **Mrs Jill Urquhart (CO3)** has just been promoted and taken over the reigns as the **Tony Davis's** (CO2) able deputy.

A number of other key personnel have since departed, so it is with fond memories we say goodbye to the following: **Cpl Chris Vallance** and **LCpl**

Pete Fagg to civ div. **Sig** (soon to be Pte) **Jenny Mills,** who's moving over to the AGC. Unfortunately the Troop came a rather disappointing third place in the Inter-Troop swimming competition, but it is with high optimism that we look forward to the football competition, as we strive to increase our overall lead.

RADIO TROOP

Tp Cornd **Lt Andy Wilson**
Tp Sgt **Sgt Mark Brooksbank**

Firstly, Radio Tp has some hello's and a goodbye. The Troop welcomes into it's fold **Sig Wayne Gibson** from 249 Sig Sqn, **LCpl Shaun Dinsdale** from 7 Sig Regt, well done **Shaun,** within three days of his arrival he was running a half marathon for the Squadron on Race the Sun! We also have a new Troop Sergeant, **Mark** 'Brooksy' **Brooksbank** from the outlands of 3 Bn Reme. We say goodbye to **Sgt Si** ' Schofs' **Schofield** who's escaping to Mike Tp for a short period in preparation for his re-trade to Information Systems Operator, before his impending posting to 30 Sig Regt. Mention here has to go to 'Schofs' Troop leaving speech, Guinness have been approached about posting the record for the longest, most rambling, drunken, public speech. Also congratulations go to 'Schofs' as he'll arrive at 30 Sig Regt as a Staff Sergeant.

As we approach the mayhem that is Ceremonial season, Radio Tp have been busy disguising it's self as a Squadron, supplying the majority of soldiers representing the Squadron at various competitions. Firstly there was the Corps SAAM (Radio provided 100% of the manpower), followed directly after by the London District RAM (Mike Tp kindly provided one soldier, to make it a truly Squadron team!). May was very busy, starting with the Brigade battle camp, then Radio produced the only entry from the Squadron to the Morrison Cup, in the form of **Sig** 'Mags' **West**. The end of May saw the Squadron/Troop in York for Race the Sun (Radio provided 15 of the 19 who made the trip up to 2 Sig Regt) On top of all this commitment, Radio Tp proved victorious in the Squadron InterTroop Football competition, catching Oscar Tp overall to tie for the competition lead. Here are the thoughts of **Sig Toby Green** on three of those events:

The Corps SAAM and London District RAM: The Squadron sent a shooting team to the Corps SAAM which was hand picked from a cast of thousands, consisting entirely of Radio Tp (no surprise there then!). The team started off well and looked as if they may be in with a chance of winning the Minor Units Championship, until **Lt** 'Just wait till the LSW' **Wilson** decided he would just scare the targets on the Roberts Cup! Luckily **Sig Del** 'Not keen and not green' **Kearns** faired somewhat better. The Team ended runners up, on count back, to 243 Sig Sqn (who had received some expert coaching from 11 Sig Regt prior to the SAAM), a good one-two for 2 Sig Bde though! Straight after the Corps SAAM the Squadron went into the London District RAM. Reinforcements from Chelsea duly arrived with **Sig Stu** 'Giggsy' **Parker** raring to go, despite having to work over the weekend. A cold and miserable Saturday started badly with the Range staff on the first shoot somewhat unprepared! This caused confusion amongst the ranks, especially to **LCpl** 'Oops, nearly got you!' **Bull,** but the least said about that the better! The end result was a re-shoot for the team at the end of the day, when we were thoroughly cold and miserable! We feared the worst and only hoped we wouldn't be completely humiliated, but either we didn't shoot as badly as we'd thought, or the rest were even worse! We walked away with four trophies between us!

Brigade Battle Camp: 2 Sig Bde held their annual battle camp in the sunny hills of Sennybridge, which for once actually was sunny and dry! The good weather held out for the two weeks which kept everyone's moral up (except for the DS, who were treated to both weeks in the Welsh hills). Two groups from the Squadron attended over the two, one week packages. The battle camp started with the basics, such as pairs fire and manoeuvre, camouflage and concealment and contact drills. Then progressed right the way through to more in-depth skills, such as night navigation, OBUA drills and section attacks. Everyone had a chance to use various pyrotechnics during the week and there was one memorable occasion when **LCpl Zoe** 'Launch' **Sheppard** had the job of launching a schermuly and amazed all onlookers as she threw it a couple of metres into a nearby ditch! The week ended, with a dawn attack against a defended building, lots of 'bangs', lots of confusion and a lot of effort! Afterwards, we were given time to eat breakfast before the last test, a section assault course! The battle camp was very well prepared and run by **SSgt** 'Rambo' **Lawrence** and everyone learnt new skills and improved old ones.

243 SIGNAL SQUADRON

CORPS SKILL AT ARMS MEETING - APRIL 2000
by SSgt Lindsey Manktelow - Team Captain

After being given the task of running the unit team for the CORPSAAM 2000, a competition I had heard very little about, I set to work. The volunteers consisted of **Cpl** 'Gregs' **Gregory, Cpl** 'I'll sort them out' **Durkin, LCpl** 'Fitz - vodka and orange' **Fitzpatrick, LCpl Stu Golightly, LCpl** 'Pretty Boy' **Joyce** and **Sig** 'I haven't got a clue why I'm here' **Hill**. The training was held at various ranges over a period of two months but due to work commitments, it was a case of get there when you could. We then travelled to Pirbright on 3 April 2000 to spend a week training and then straight into the competition, thanks to the help of **Sgt Dave Copley**, who let us jump onto his ship for training. Let's face it, what he doesn't know about shooting is not worth knowing.

Well, a couple of the boys had been there before and knew exactly what to expect which was a great help. The first day was great, brilliant sunshine, however, the rest of the week was not to be the same. Every evening consisted of a check with the stats tent and the scores. The guys were doing good, however 241 Sig Sqn were in there every time and the whole week seemed to be neck and neck with them. It was literally down to the last shoot. **Cpl Gregory, LCpl Fitzpatrick** and **LCpl Golightly** did great in the pistol tiles managing to get through to the shoot off with 11 Sig Regt, which was unheard of as we had knocked the Ghurkas out. It was all too much especially as we had just finished the Pistol when we heard how 241 had done on the final shoot. Excellent, we had won the Minor Units. There was none as happy as me that day. The boys worked extremely hard and at the prize giving **LCpl Joyce** won a medal for the best FIBUA shoot, a total surprise for us all, a fantastic end to a great week. Well done the lads.

The Team Winners - Corps SAAM Minor Units
(L-R) : SSgt Manktelow, Cpl Durkin, Sig Hill, LCpl Golightly, LCpl Fitzpatrick, LCpl Liddle and LCpl Joyce
Absent: Cpl Gregory

The Prize
Maj Gen I. O. J. Sprackling OBE presents LCpl Joyce with the Minor Units Team Cup and FIBUA medal

ARMY INTER UNIT VOLLEYBALL CHAMPIONSHIPS
by SSgt Lindsey Manktelow

Having received details about the event I decided although the military element of the unit is a minority and the females even less we would enter a team. I rang **SSgt Bill Butler** in 11 Sig Regt who was organising the event and he informed me that ourselves and 11 Sig Regt were the only two teams to enter, therefore we would automatically go through to the Army Championships, the only small detail to resolve would be who would be first or second in the Inter Units. We decided that on the Tuesday evening before the Army Championships we would go to Blandford, to take on the Army Champions. After getting six girls together those being, **WO2 Bernie Smith, Sgt Mandy Duffy, Sgt Jackie Grimes, Sgt Elly Pomeroy, Cpl M. J. Durkin** and **LCpl Vinny Vincenzi** we played the match and were inevitably beaten, but we put up a good fight.

The following week was the Army Inter Unit Championships which were to be held in Larkhill. Not one for being beaten, I decided to train the girls every lunchtime in the week leading up to the event. When we arrived the girls were nervous and didn't hold out much hope for themselves. After seeing their improvement in training I knew we would work hard whatever the cost. The first game to be played was against 11 Sig Regt, the current Champions who in the previous week had already beaten us. After a long hard fight we took the first set, the girls were elated and so was the OC who couldn't control himself on the edge of the court. We went on to knock the Champions off the board. The day was long and hard with everyone putting in every effort. We managed to get through to the final but unfortunately Pribright took the Championship. Well done the girls.

249 SIGNAL SQUADRON (AIR MOBILE FORCES (LAND))

Sqn Comd **Maj D. B. Hudson**
SSM **WO2(SSM) K. Marsh**

Another busy period for the Squadron, which has seen the return from Norway and personnel deployed on the exercises mentioned below. In addition members of the Squadron have deployed on trials to the Netherlands and Belgium and one lucky chap has spent six weeks in Corsica. We have also seen some well deserved promotions, in particular **Sgts Pete Lawn** and **Jase Raybould**. Congratulations also to **SSM Ken Marsh** and his wife **Tracey** and our Chief Clerk, **SSgt John Sharples** and his wife **Jeanette**, on the birth of their baby girls.

EXERCISE ARDENT GROUND 2000 – *by Lt Mark Stoter*

Another month and another arduous exercise for the Arctic warriors of 249 Sig Sqn (AMF(L)); this time, three testing weeks providing CNR comms for a Force Artillery exercise in Hungary. Twenty-three men from the Squadron deployed to the dust bowl that formerly served as an assembly area for the 3rd Shock Army as well as being an active chemical warfare training area. 'Just make sure your men stick to the tracks,' we were told, 'We did a sweep yesterday and found one tonne of unexploded ordnance. Oh, and there was a chemical incident a couple of years ago, so don't pick up anything that looks unusual.'

Before the work started, we were fortunate to have some time to ourselves while the Log Bn took their time setting up the camp. **Sig Gallagher** and **LCpl Boyle** quickly sniffed out the more dubious establishments in town; quite how **LCpl Boyle** managed to spend more than his debit card's daily limit in the space of an evening remains a mystery. The comms plan was executed simply, with the deployment of two rebros on a large feature that was at least a couple of metres out of the MLRS danger zone. Danger close? The Exercise continued in the usual AMF(L) vein, with the Americans forgetting to turn up on the first day, the Spanish flying into the impact area during firing and the Hungarians landing rounds outside an impact area measuring 2km by 2km. Collective security? Multinational deterrent force? **Cpl Ansell's** naked shower in the middle of the day probably achieved the latter.

For the first NATO exercise in Hungary, we were warmly received by both the Host Nation Support unit and locals alike. Cultural trips to Budapest were particularly cultural; the East Europeans manage to do the most fascinating things with snakes. **Cpl Howe** certainly did his bit for cementing local relations, while **Sig Wood** and **Sig Clark** found the locals particularly accommodating in their kind loan of national flags. **SSgt Allan** and **Sgt Jackson** still seem a bit twitchy when they pass a parking attendant, though…A final note to any American readers: if you want your Gerbers, Leatherman, watch, rations or anything else you may have mislaid, do contact **LCpl Vallance** (tall chap, seems to have lost all his berets).

EXERCISE SPRING FORAY 2000 – *by Cpl Gareth Howell*

Ex Spring Foray is an annual exercise carried out by 3 (UK) DSR and this year members of 249 Sig Sqn were tasked to help out. For the lucky members of the Squadron who were chosen, this was an experience they wouldn't forget in a hurry. The majority of the Squadron members had never worked with Armour or at Divisional level before; what had we let ourselves in for!? On deployment the lads were split up and while **Cpl Kenny** and his RRB crew went for the easy life with 206 Sig Sqn, the remainder were spread amongst the two radio troops of 202 Sig Sqn, Overloon and Waterloo. We were divided between the dets that were short of crewing and wasted no time in being put to work and work we certainly did.

Week One consisted of getting to grips with the detachments and the equipment we would be using. The majority of the kit was new to us; things such as ATacCS, hubs, starboxes, fibre, Tac ICs and penthouse tentage not to mention the 432s. Trying to understand the complex layout was a task in itself. After several moves and total lack of sleep, the lads started to get to grips with the kit and had a basic idea of what was going to happen the following week.

Week Two began and I have never seen anything like it when the staff arrived. The complex that everyone had spent hours preparing for the arrival of the staff suddenly became a no-go area; far too many people for my liking. I was used to working isolated detachments; the last time I saw this many officers in one place I was serving them in the Officers' Mess. I suddenly felt as if I had become chief brew boy as I was attached to the complex Corporals, a job I wouldn't wish on anyone: too many jobs to do and not enough time or personnel to do them. Nonetheless, we would all like to thank everyone from Overloon Tp for the help we received over the two weeks. If I have learnt anything from the two weeks, it is how hard everyone works to make an exercise like this run smoothly. It was certainly an eye-opener and an experience I will not forget in a hurry. It was good to see how the other half live and work, an experience I think everyone in the Corps should have an opportunity to do at some point in their career.

EXERCISE ADVENTUROUS DRAGON - *by Capt Niall Stokoe*

Ex Adventurous Dragon was a Squadron Level 2 Adv Trg exercise conducted at the home of 14 Sig Regt (EW) in Brawdy SW Wales over the period 5–16 June 2000. As an ex-member of the Regiment it seemed logical to take advantage of the Adv Trg facilities they have at Brawdy. In all 48 members took part in the exercise, deploying in groups of 24 for each week. Over a four day period they were able to do Trekking, Climbing, Mountain Biking, Sea-Kayaking and Coasteering. Most were able to get in some extra-curricular surfing as well.

Evening activities included bowling, 5-a-side football and go-karting. Local public relations were avidly pursued and spearheaded by **LCpl**

The Royal Signals Amateur Radio Society
Have you heard of us?
If not visit:

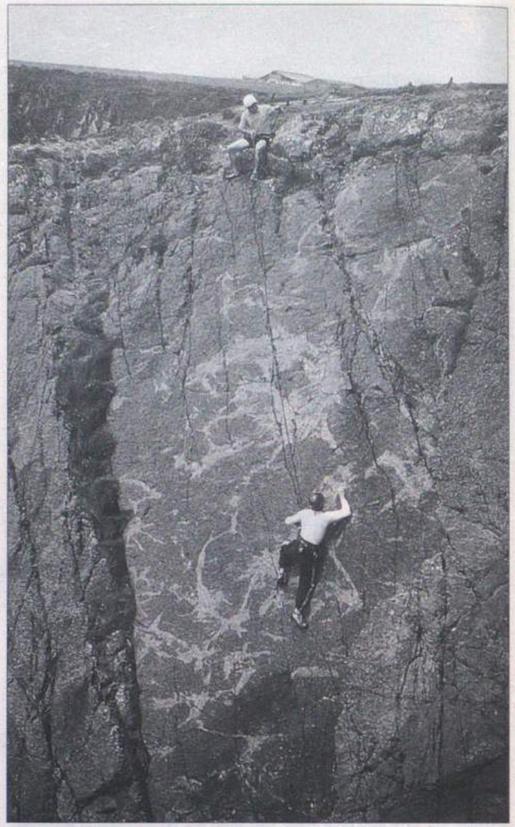
Capt Chris Preston – Surfing 249 Style



Sgt Steve McAllistair puts his faith in Sig Patterson

'Trooper' **Bennett** and most notably **LCpl** 'Taff' **Jenkins**. Both phases of the Adv Trg passed without incident and it is safe to say that everybody enjoyed themselves. Although the reading of next month's bank statements will probably mar the experience for most. As with any such deployment there are a number of awards to be given, they are as follows:

a. I'll talk large but actually not jump coasteering award – **Sig Cole**.
b. Suicide climbing technique (jointly awarded) – **Sigs King** and **McLeish**
c. The Sea – Kayak as a porcelain bus award – **LCpl Bennett**
d. The Schumacher crash re-enactment award – **SSgt Allen**

The above awards in some way illustrate the fun that was had by all on the Exercise and as the main aim of the exercise was to have fun it was definitely achieved. There are people who worked in front of and behind the scenes to make the Exercise the success it was and our thanks goes to **SSgt Roberts** and **Cpl Anderson** of the Adventure Training Centre at Brawdy. **Sgt Steve McAllistair** from the gym at Blandford, who was our climbing instructor for the two weeks, and our very own chef, **LCpl Tinder.**

Coasteering
'We'll jump where the waves really crash in over there!!'

PHOTOGRAPHS

Please do not ask for the return of photographs unless they are truely irreplaceable. Contributors should be aware of the fact that although every care is taken with contributions, they should not risk losing those photographs which cannot be replaced in the event of an accident.

251 SIGNAL SQUADRON

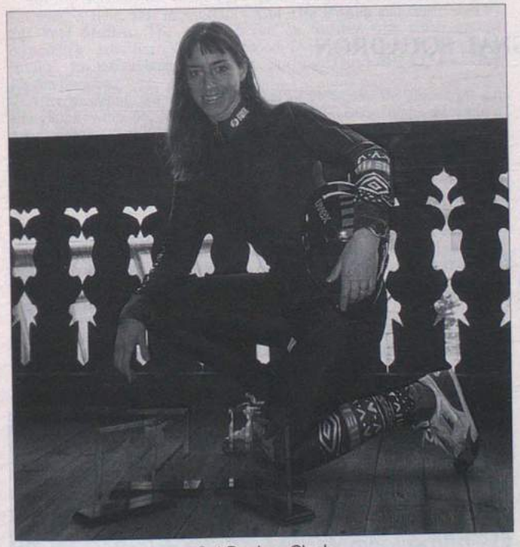
Sqn Comd **Maj John Oakes**
SSM **WO2 (SSM) Gary Smith**

HAIL AND FAREWELL

Departures and arrivals have picked up again over the last few months, with two new arrivals and four departures: Welcome to the COMMCEN, **LCpl** 'Mags' **Thomson** posted in from HQ LANDCENT, and to the Technical Workshop, **LCpl McIlduff** posted in from 11 Sig Regt, Blandford. Farewell to **SSgt Whiting** who after 22 years of service has gone to CivDiv, **Cpl Bateman** posted to MOD Centre Block, London, **Cpl Shearan** who has transferred to Defence Dental Agency, and **LCpl Dean** posted to the Army Apprentices College, Arborfield.

CONGRATULATIONS

The Squadron has seen a few well deserved promotions of late and our congratulations go to the following: **Sgt Steve Gill** and **Sgt Martin Stebbing** both selected for promotion to Staff Sergeant. Congratulations to **LCpl** 'Mags' **Thomson** on the birth of her baby boy, **Ewan**. Last but not least, congratulations to **Sgt Daphne Clash** who competed in the British Skeleton Bobsleigh Championships and walked away with the Army Female and British Female Novice trophies, and is now the British Female Intermediate Champion and the Army Open Female Champion, well done.



Sgt Daphne Clash

SKELETON BOBSLEIGH - *By Sgt Daphne Clash*

Due to the double booking of the Bobsleigh track in Igls, Austria in January, the British Skeleton Bobsleigh Championships had to be re-booked in February. However, this posed a problem, **Kristan Bromley** and **Alex Hamilton** the top male and female sliders in Britain (and the world in **Alex's** case) would be competing in Canada's 'Goodwill Games'. The British Skeleton Association decided to rename the event the British Skeleton Intermediate and Novice Championships, as the two missing sliders would undoubtedly have been the true British Champions. Their stipulations were: a novice being someone who had begun to slide this season and an Intermediate being someone who had not been competing for the British team this season. However, incorporated within this competition were the Army Championships, which was open to all categories.

As a novice (I started by doing a week's novice course in Lillehammer in October), I was looking forward to a week's sliding to gain further experience, and also the social side of meeting new sliders and seeing others from the same novice course again. After arriving and registering on Monday 14 February, we had until the Friday morning to train for the final competition. Unfortunately, over the four days the weather was poor, which made the track and training extremely inconsistent; also at times very slow. However, the beers in the evening compensated for any possible disappointment for slow slide times!

During the week the Army and RAF Bobsleigh men and women began training for their team selections for the Interservices Bobsleigh Championships to be held the following week. Also, **Katy** and the Blue Peter Team came to film the barmy goings on. Igls was suddenly packed with Brits – the Gruberhoff bar was certainly getting through the beer.

Finally the day of the competition came, suddenly everyone seemed a little more serious: proper warm-ups were being done; new (gimp) suits were being sucked on; some even risked putting less padding on their arms (all in the name of aerodynamics)! Each competitor has two slides; the two times are then added together, this determines the position the competitor reaches in the final results. I was extremely disappointed with my first slide having made crucial mistakes on the way down, however a slightly better second slide at least ensured I wouldn't finish too cheesed off. As it happened I hadn't done too badly and came away with the Army Female and British Female Novice trophies, plus the British Female Intermediate Champion and the Army Open Female Champion! It was a really enjoyable week and has made me even more enthusiastic (if that was possible) for this completely bonkers, dangerous, fast, skilful sport. I urge anyone who gets the chance to go on this year's novice courses – it really is an experience you will never forget. I definitely intend to be sliding next season. Maybe I will see some of you who are willing to get to grips with your fear and try something new!

LONG SERVICE AND GOOD CONDUCT MEDAL PRESENTATION

As part of the first official visit to 251 Sig Sqn, on 7 April 2000, the new Commander 2(NC) Bde, **Brig N. C . Jackson MBE**, presented four members of the Squadron with their Long Service and Good Conduct Medals. The presentation took place in the Duchess of Kent Barracks Warrant Officers' and Sergeants' Mess and was attended by all military personnel, and civilians of officer status. **Brig Jackson** then joined the Squadron for a buffet lunch and drinks to celebrate the awards.

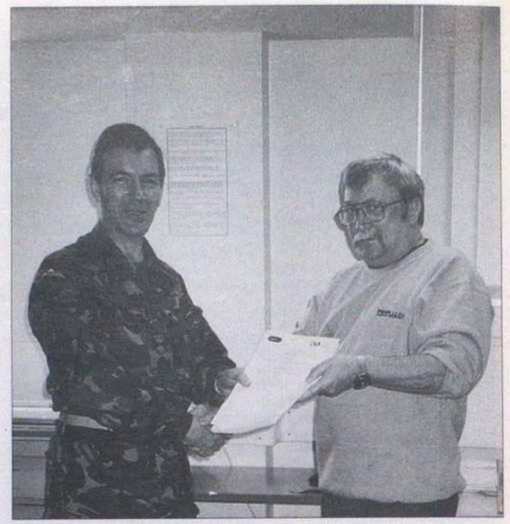
Rear Row (L-R): Maj Oakes, Sgt Gill, Brig Jackson, WO2(YofS) Cardwell, Sgt Stebbing, Cpl Hanbidge
Front Row (L-R): Mrs Gill (with children Laura and Emma), Mrs Cardwell

NVQ PRESENTATION TO 251 SIGNAL SQUADRON

Brig N. C. Jackson MBE also visited COMMCEN Aldershot, 251 Sig Sqn on 7 April to present two members of staff with their National Vocational Qualifications (NVQ) certificates. Aldershot is a very busy COMMCEN and it has taken both recipients of the award over six months to compile and prepare their submission for assessment and accreditation. The two COMMCEN staff who received their certificates were **Miss Jo Telford** and **Mr Mick Biglin**. The recipients, who are both communications officers based in Aldershot, obtained NVQ qualification

in 'Operating and Maintaining Telecommunications Equipment' (OTE) at Level 3 which deals with all aspects of military communications. **Brig Jackson** thanked the staff for all their had work and dedication. He hoped that their enthusiasm would inspire others to obtain NVQ qualifications, not just in the communication grades, but across all other MOD grades.

NVQ Presentation to Miss Jo Telford
(L-R): Brig N. C. Jackson, MBE, (2(NC) Sig Bde Comdr) and Miss Jo Telford



NVQ Presentation to Mr Mick Biglin
(L-R): Brig N. C. Jackson, MBE, (2(NC) Sig Bde Comdr) and Mr Mick Biglin

259 SIGNAL SQUADRON

Sqn Comd **Maj J. H. Fraser**
SSM **WO2 D. Ewing**

AIRFIELD TROOP
Tp Comd **Lt Gareth Kemp**
Tp SSgt **SSgt Bob Stenhouse**

It is sad to say that we have a few who are departing from the Airfield Tp Massive. **Sgt** 'Get your burns up' **Parton,** his wife **Angela** and daughter **Lucy** are of to pastures new at 15 Sig Regt. **Sig Bennet** has left to go to 3 Inf Bde, and **Sig Gaz** 'I've a lot of loving' **Fuins** is leaving to go to 16 Sig Regt, all will be missed and we wish them the best of luck. **Sig Goddard** has arrived to step into the illustrious shoes of the departing mechs, welcome to Cyprus and good luck, you have a lot to live up to. On a brighter note Airfield Tp having entered the Akrotiri 100km rowing contest, produced a magnificent performance and became all island rowing champions. The team consisted of ten willing volunteers rowing 10km each all having had to overcome the swells and currents of the Akrotiri gym. **Cpl Danny Rudd** organiser of the Airfield Tp Team managed to get the best out of the Airfield rowers consisting of **Lt Kemp, SSgt Stenhouse, Sgt Parton, Sgt Waring, Sigs Hobson, Milevsky, Bennet, Stanley**, and **Joughin**.

DHEKELIA TROOP
Tp Comd **Capt Nick Morris**
Tp SSgt **SSgt** 'Taff' **Bryant**

Over the last few months Dhekelia Tp has been through a major overhaul with the move of the Troop from the old crumbling double building to the bottom floor of the Dhekelia Operations Centre (DOC). This has brought together all the Troop Sections under one roof and has made life far easier to operate and administrate. On the sporting front the Bistsa football team got through to the semi-finals of the ESBA league and were beaten by a narrow margin of 10-1 by B Coy 1 Cheshire. The Troop has said farewell to **LCpl Scott Tomblin** and **Zoe**, who are off to sunny Ireland, **LCpl Lorraine Dennis** off to 21 Sig Regt Colerne, **Sig Daz Ling** off to Civvy street, the Troop wish them all the best. The new arrivals are **Sig kye Topping** and **Sig Ben Tierney** welcome and enjoy!

EPISKOPI TROOP
Tp Comd **Lt Sarah Covey-Crump**
Tp SSgt **SSgt Jim Duncan**

A fond farewell to **Cpl Pete Richards** who has left sunny Cyprus to join the ever increasing number of ex-259 Sig Sqn personnel at 21 Sig Regt (AS). Take it easy on the scrumpy cider and please, no more barking at stray dogs. Good luck also to **Sig** (now LCpl) **John** 'Old woman' **Atkinson** and **Sally** in Aldershot. Many thank for the six-foot cactus you left in the bar, that will come in very useful. A belated hello to **LCpl** 'Monkey boy' **Larcombe** and **LCpl Carl Tindall** who have joined the Tech workshop. Line Section has been bolstered with the arrival of **LCpl Dave Healy** from 8 Inf Bde, and **LCpl Palmer** from 7 Sig Regt. Welcome to the Mech world and land of the never-ending tasking order. Don't unpack just yet you've got the Falkland and Kosovo first and if you're lucky Troodos too. **Sig Guy Thomson** has newly arrived from Dhekelia and definitely qualifies for the award for getting so much hair under his beret. He is joined in Radio Section by **Sig Andy Cooper** posted in from 249 Sig Sqn. Please take that bergen off and remove the word 'tabbing' from your vocabulary. Finally a big Epi welcome to **Sig Jay Emett** who has joined the mechs in Line Section straight from the factory. Hopefully you will have had a full briefing from **Sgt** 'Fudge' **Macphee** at Blandford. We hope you all enjoy Cyprus.

SATISFIED SOLDIER SCHEME

- *Are you a satisfied soldier?*
- *Would you like to be attached to your home town ACIO for 5-10 days?*
- *Would you like to visit your old school and ACF to tell them about life in The Royal Signals?*
- *Would you like to help in recruiting soldiers into The Royal Signals?*

YES!!!

Then contact your Troop Office for details of

THE SATISFIED SOLDIER SCHEME

101 LOGISTIC BRIGADE HEADQUARTERS & SIGNAL SQUADRON (261)

Sqn Comd **Maj Mark Baines**

The Squadron has been expanding by the day with over a dozen new arrivals since our last entry. This increase in manpower has been matched with an increase in activity both work and play. The second exercise Spring Viper 2 was held in June and with so many new people it was quite an introduction especially for the newer elements of SHQ and **Capt Sarah Pedder** (2IC) and **FofS Sue Spencer**. We are presently preparing to deploy on our third build up Exercise next week. Other more pleasant activities have included Summer Camp, the Morrison Cup Athletics and for those who get a kick out of pain the Lanyard Trophy Competition.

LANYARD TROPHY COMPETETION – *by Sig 'Chopper' Harris*

It was a cold and crisp morning when the gallant men of the 261st mustered with the rest of them for the start which was depressingly in the dark. The names of those heroic few are **Maj Baines, WO2 Alger, Cpl** 'Tommo' **Thomas, LCpl** 'Twiz' **Twissell, Sig** 'Paddy' **Grierson, Sig** 'Spanky' **Hanks, Sig** 'Geordie' **Holden, Sig** 'Smuged' **Smith, Sig** 'Will you hurry up' **Watson** and **Sig** 'Tank' **Harris**. As 5am struck we bolted off at a blinding pace neck and neck with the best of them but this was short lived and our mercurial flight dissolved into a slow but determined trudge. By check-point four we had lost two which meant to finish as a team everyone else counted. The battle was on through tired limbs and bleeding feet but eventually we crawled home in 16hrs 40mins and in 15th place. Thanks goes to all those who had a go either just in training or in the competition as well as **WO2 Jim Alger** for organising the training. Not forgetting the support element led by **Sgt** 'Dad' **Mullen** and **Cpl** Timmy' **Bishop** whose supply of bananas and boilies never ran dry.

EXERCISE SAMMY STROLL 2000

261 Sig Sqn summer camp was held in Newquay, Cornwall starting on Saturday, 3 June, ably organised by **Cpl Tim Bishop** and supervised by **Sgt Pete Mullen.** The circuit began on Sunday with small groups completing activities. These included Deep Sea Fishing, Mountain Biking, Rock-Climbing, Abseiling, Surfing, Quad Biking and Clay Pigeon Shooting.

After sampling the evening delights of Newquay the Squadron got straight on with a day of activities. Some found it easier than others and it was noted that **Cpl** 'Chico' **Towers** spent the majority of his day deep sea fishing either sleeping or feeding the fish on beer by holding his head over the side of the boat! The Mountain Biking activity consisted of a 22km cycle along the Camel Trail organised by **LCpl Tony Willis**. Other than an unfortunate collision between **Sig** 'Dimbers' **Dimberline** and **Sig** 'Chopper' **Harris**, when two bikes were written off, this went very smoothly. The Quad Biking was an excellent opportunity for everyone to show off their driving skills, or lack of them as in **Sig** 'Dangerous' **Conley's** case. (A name he got before this by writing off a Corsa). The Clay Pigeon Shooting left the pigeons well up on the scoring most of which got away without even a scratch ! Top Shoot of the week was **Sig Gemma Treen** which surprised everyone. Surfboarding and Canoeing was a very popular activity as it was a good opportunity to spend some time on the beach. Some of the keener ones decided to attempt Sea Canoeing, however, **Sig** 'Tom' **Hanks** got a little over confident and he had to be rescued. Climbing and Abseiling took place on a climbing wall in the morning progressing to a 160-foot cliff face in the afternoon. There was also a traverse across the cliff and the braver members of the Squadron decided to take up the challenge and pull them self across the ravine.

The end of the week was marked with a BBQ supplemented by a couple of the huge Pollocks caught by the Dea Sea Fishers. An excellent week for the Squadron.

EXERCISE STRING OF PEARLS – *by Sig Gemma Treen.*

In May four members of 261 Sig Sqn went to the National Army Museum, Chelsea where they represented the Army of today in 'The Army Through The Ages' exhibition. After an evening of showing around Cpl 'Axel' Meilens (Royal Australian Signals) on Friday everything was set up and ready for the museum opening early Saturday morning. The display was a typical detachment set up and a tent displaying photographs of recent 261 events which included our tour of Kosovo, exercises, the cross country championships and most recently the Lanyard Trophy competition. There were also 349 radios and an SA80 for the children to play with. **LCpl Gav Holloway** found great pleasure in camouflaging the children, much to their parents despair! Overall the weekend was a great success organised by **Cpl Ian Galloway's** leadership and organisational skills. After being asked back again in the near future, it was agreed that the weekend had been an enjoyable and interesting one for us all.

FINALLY

Some major personalities have recently left us and we wish in particular **WO2 (SSM) Brown** and **WO2 (FofS) Morche** all the best in their new postings. We also welcome a raft of new comers: **SSgt Dummer, Cpls Reynolds** and **Monger, LCpls Ellison, Milford, Mooney, Skeggs, Taylor** and **Watson**, also **Sigs Campbell, Blower** and **Hartley**.

280(UNITED KINGDOM) SIGNAL SQUADRON

Sqn Comd **Maj J. A. Harris**
RSM **WO1(RSM) Kearney**

RETURN FROM THEATRE

At long last the Squadron finally managed to recover from its KFOR mission, even if in true 280 fashion it had to deploy fifteen personnel from the rear party to cover the gap between the already deployed personnel leaving and the EUROCORPS arriving. The End of Mission brought changes in command with the Sqn Comd, **Maj Simon Hutchinson MBE, WO1(RSM) McKenna** and Tech Adjt, **Capt Dave Stewart** handing over, we wish them and their families well in Glasgow,Wrexham and Northern Ireland respectively. Welcome to the new Sqn Comd, **Maj Jim Harris** and his wife **Fiona, Capt Ossie Osborne** and family, and **WO1(RSM) Keaney** and family. Although following the End of Mission festivities and Medal Parade the majority of the Squadron then left for extended Post Tour leave, the rest of the Squadron still managed to take part in Exercise Combined Endeavor, which was again a great success.

END OF MISSION PARTY

Following the Squadron's return from Kosovo and during the week before Post Tour leave the LAD put together another great All Ranks Party, during which the main entertainment was provided by **Sig Smiejkowski** and thanks to the hypnotist, the future **Mrs Smiejkowski** learned a thing or two that perhaps she didn't know before. We were also fortunate enough to be joined by **OfW Walter** and **OfW Cleve** from our sister unit, the 990th (GE) Signal Regiment, who had the enviable pleasure of working as British Troop Staff Sergeants for 280 during the tour in Kosovo.

MEDAL PARADE, FRANCISCA BARRACKS - 14 APRIL 00

Some sterling efforts were made by **SSgt** 'H' **Baker** in an attempt to bring the Squadron's drill movements up to speed on return from a six month tour in the Balkens. After a crash course and a few sessions on the square, members of 280(UK) Sig Sqn paraded on 14 April 2000 to receive medals for operational service in both Kosovo and Bosnia. It was a particularly moving event as it was not only a medal parade but also a parade that marked the change of command from the previous Squadron Commander, **Maj Simon Hutchinson** and the new Squadron Commander, **Maj Jim Harris**. It was also the last day in the Squadron for RSM, **Mick McKenna** and so it seemed only right that both the outgoing (OC and RSM should do a lap of honour of the camp while being swung on a pallette dangling from a crane! Obviously to comply with Health and Safety hard hats were issued! Then it was off for six weeks well deserved leave.

ALPHA TROOP
Tp Comd **Lt B. Higgs**
Tp SSgt **SSgt K. Roberts**

We must wish all the best to **Cpls Wells** and **Menzies** in Northern Ireland (and congratulations to **Ross** and **Miss Karen Penny** of Stirling, on their forthcoming wedding) and good luck to **Sigs Viagas** and **Crothers** in Civvie street. The whole Squadron has been shaken up with the disbandment of Charlie Tp and along with the new arrivals of the last six months the Troop is now approaching a normal size for the first time in twelve months. The welcomes to the Troop include: **Sgt McLaughlin, Cpls Cattle** and **Rycroft, LCpls Dempster, Donaldson, Humby, Leslie, Mallet, Wallace** and **Sig Young**. As always with 280 (Balkans) Sqn some of the new arrivals had already departed for a tour in Bosnia before we returned from Kosovo, and we hope that they are doing well, and look forward to them eventually rejoining the Troop.

BRAVO TROOP
Tp Comd **Lt Lindsey Calderhead**
Tp SSgt **SSgt Graeme Weavers**

Bravo Tp, now including several members of the old Alpha and Charlie Tps due to the recent Squadron re-organisation, has seen a number of new

faces. Firstly we would like to welcome to the Troop **Cpl Cattle, Cpl Templemen, LCpl Booth, LCpl Pearmen, Sig Healey** and **Sig Gill**. A welcome back must also be said to **Sig James**. Farewells must go to **LCpl Turner** (posted to 3(UK) Div) and Cpl Gilbert (posted to 21 Sig Regt).

EXERCISE COMBINED ENDEAVOUR 2000

'By someone who was there'

On Sunday 07 May 2000, 8 members of the Squadron, **SSgt (FofS) Rick** 'Udo' **Griffiths, Cpl Daz** 'Tony Toenails' **Cattle, Dave** 'PB' **Rycroft, Andrew** 'This bed is lumpy' **Jackson, LCpls Gordon** 'Snores louder than a Yak' **Carle, Iain** 'I'm quiet 'till I've had a beer, then I'm LOUD' **Wallace, Ester** 'GW' **Humby** and finally **Sig Les** 'Wannabe' **Ryall** departed camp for the sunny destination of Baumholder, home of Ex Combined Endeavour 2000, billed as the largest CIS interoperability exercise in the world. Sponsored by the United States European Command (USEUCOM) Partnership for Peace programme, this year's exercise consisted of 35 participating nations and organisations, including NATO.

We arrived on Sunday afternoon to be told the Exercise would not actually start until Wednesday, however, our training on the new Combined Endeavor Planning, Tracking and Reporting (CEPTR) database would fill the next couple of days. So it was with heavy hearts that we went down the bar to work out the escape plan. On Tuesday we left the bar long enough to welcome the rest of our motley crew, who were **WO2 (FofS) Martin** 'Fluff' **Flather, Cpl Maz** 'Tanya Toenails' **Cattle** and **Sigs Donna** 'Don't make me beat you' **Henley** and **Sarah** 'I walked into a door . honest' **Kimberley**. The actual Exercise started in earnest on Wednesday morning at 0630hrs. With 43 different types of Switch to try and understand and document the days were long, but human interoperability is a key part of this multi-national event, so the socialising remained as important as ever. Most noteworthy were the Bavarian Night and a Talent Night, where our own **WO2 (FofS) Martin** 'Fluff' **Flather** proved just how talented he was by talking and drinking with every nationality in the bar, and **Cpl Dave** 'PB' **Rycroft** demonstrated to the Americans how to do that traditional dance including flaming toilet paper and an indoor assault course.

The Exercise was stood down on two occasions for social events, the first one being a day trip into the town of Mainz where the Squadron showed that they were the foremost in escape and evasion by escaping from the tour guide at the earliest opportunity. The second took the form of a sports day and a sevens rugby match against our old friends the Americans. They put up a good fight, helped in no small measure by our referee **Maj Garth Pickersgill** but they still got beat! After three gruelling weeks the Exercise was over and finished with a closing ceremony with **LCpl Gordon** 'I'm Scottish, rain doesn't bother me' **Carle** not wearing his waterproof jacket and just as the visiting dignitaries were giving their speeches it rained and rained but everybody agreed that Ex Combined Endeavour 2000 was a big success

1 (ROYAL BUCKINGHAMSHIRE YEOMANRY) SIGNAL SQUADRON (SPECIAL COMMUNICATIONS)

Sqn Comd **Maj David Raleigh**
SSM **WO2 Dave Scott**

The period of these WIRE Notes has been extremely hectic, not least with new operations deploying and numerous visitors to host. We have bade **Sgts Steve Milne** and **Vinnie Hill** best wishes on their Yeoman of Signals Course; once again all those SC Operators who applied for Yeoman training were successful. **Sgt Danny Ford** has also departed to the wilds of 14 Sig Regt, after many long years in SC. We thank him for his sterling service and wish him the best of luck. In return, we have welcomed **Sgt Dave Thomas**, who begins a new and hopefully glorious career as NRPS. Other new recruits are **Sgt Simon** 'Wez' **Wesseldine** and **Cpl Steve Pritchard**. The latter had just completed his arrivals proforma before being whisked away on operations, stuffing malaria pills as he went.... Congratulations are also due to **WO2 (RQMS) Willie** 'The Safecracker' **Ironside** for the birth of his No2 son, and the Ops Officer, **Capt Richard** 'I spend too long in the office' **Newhouse** on getting an expedition to the top of Kilimanjaro and back.

The start of April saw teams deploy to Scotland and Cornwall to test the

Special Comms goes to Africa - the Ops Officer on Kilimanjaro (without a radio)

new HF equipment which the Squadron is due to take delivery of over the summer. **Sgt Ian** 'Avast!' **Lumsden-Gordon** was in his element in Dundee putting the Field Detachment through its paces, but things did not go so well in Cornwall. After much hard work, **SSgt (FofS) Ted** 'Nobody cares about Techs/ LOCK / me' **Heath** had to declare the trial a failure, and the Exercise will be repeated in June. **Sig Tanya Whigham** has earned her first 'mention in despatches' for coming top of the Recruits Course at Blandford, and is now a qualified Class 3 Operator. Several other new, and not-so-new, TA soldiers have qualified as Class 3, either with 33 Sig Regt (thanks!) or on exercise. Last, but certainly not least, the Squadron has now moved to being under the command of 2 Sig Bde after five very successful years directly under HQ Land. This means that we welcome **Brig Nigel Jackson** as the new Director Special Communications, and thank **Brig James Shaw** and his staff for their hard work and support.

SPECIAL COMMUNICATIONS PARATROOPERS

Several brave/foolhardy members of the Squadron volunteered to undergo the Squadron's pre-parachute selection course in May. They were joined by some volunteers from neighbouring 60 Sig Sqn (V) in Aylesbury, who have 'inherited' ten parachute posts from 55 Sig Sqn (V). Under the watchful eyes of the DS, **Lt Angus Evers** and **LCpl Gaz Woolley**, the candidates were put through a challenging course comprising a BFT, ten mile tab, gym tests and a very wet steeplechase (thanks SSM!). All the candidates survived the course, but not all passed it. Lucky **LCpl Simon Roberts** won a free weekend away-break in sunny Catterick for his efforts. We wish him well on P Company! The Squadron has a small but dedicated contingent of parachute-trained personnel, TA and Regular who are keen to jump with any other units in the Corps (or the Army for that matter) with a parachute role. Any offers of a couple of places on a C-130 or Skyvan will be gratefully received and almost certainly accepted.

SPECIAL COMMUNICATIONS COURSE

SC Course 1/00 has just commenced, with the lucky seven busy practicing their trade skills and dusting off their A&P knowledge. It has been decided to conduct a second SC Assessment Course, in September, leading to attendance on a Special Communications Course 2/00, starting in November this year. Any Radio Sys Ops who wish to volunteer should follow the procedure in SOinC PD 206, or contact the unit for advice.

EXERCISE GLOBAL LYNX 3/99 – FAR EAST

The last exercise of the training year was a major deployment to Singapore, Brunei, Bangkok and (it's a hard life!) the Maldives.

BANGKOK DETACHMENT – *by Cpl Kev Heaton*

'Unfortunately **Cpl Heaton'**, the Ops Officer said, 'You are going to have to take a detachment to Bangkok.'

'Err, OK.'

So the scene was set, **Cpl Kev Heaton, LCpl Mark Gower** and **LCpl Paul Chambers** were going to Thailand. British Airways was kind enough to fly us to Thailand and the car sent by the British Embassy dropped us off at our hotel. We were shown to our rooms by the porter, who then continued to talk through the mod cons in the room. 'Here you turn on the aircon, and here you turn on the TV and do you want a woman for the night?'

On the comms side, we established a communications centre in a third floor flat and managed to erect our antennas across the steep roof of the flat, (not quite health and safety), and begin working the link. The communications phase of the exercise began with earnest with **LCpl Mark Gower** and myself carrying out the operating, whilst our technician, **LCpl Paul Chambers**, made himself busy adjusting the straps of the 'genuine' Rolex and Tag Heur watches we 'might' have bought, and pushing the hoover around.

For R & R, we decided to hire a limo for one of the days, bartering the driver down to £30. One of the places we visited was the Bridge on the River Kwai, which is one of those 'once in a life time visits'. The sights and sounds of Bangkok city itself were also sampled by the Detachment. Its strange how Thailand seemed to like out-of-tune Karaoke singers.

BRUNEI DETACHMENT – *by Cpl Wayne Miller*

This was the first time in Brunei for TA soldiers from 1 (RBY) Signal Squadron (SC). Fortunately, they were under the expert guidance of **Cpl Wayne Miller** who was in this part of the world for his confirmatory exercise on the Special Communications course. After a comprehensive guided tour of Seria (which took all of five minutes), the Detachment established comms to Singapore (which also took all of five minutes). Still, the Detachment was kept busy in practicing new operating procedures, and we all benefited in one way or another from the training aspect of the exercise.

A visit from **Maj Raleigh** and **Maj Miller** (SO2 Spec Comms) added a touch of excitement on the second day. The days were long, and the nights were even longer. Fortunately, there was a bar for the Detachment to retire to in the evening. It has to be said that drinking out of date Guinness for two weeks does nothing for your stomach, but at least it tasted better than Tiger Beer. By the time the exercise drew to a close, all Detachment members had become expert pool players (not through choice I hasten to add), but at least everyone was skilled in something by the time we departed Brunei.

Eventually, the time for some well deserved R & R was upon us, so we decided to hop across the border into Malaysia. The highlight had to be **LCpl Stu Adams'** perseverance in preventing himself from being burnt by the blazing sunshine. Unfortunately, this was to no avail. How can a man who covers himself in a damp towel whilst sitting in the shade under a palm tree all day, still end up looking like a sun-dried tomato? The truth is out there!

MALDIVES DETACHMENT – *by LCpl Gaz Woolley*

The detachment consisting of **Sgt** 'Jeff' **Hope-Jefferson, Cpl Jase Broome** and **LCpl** 'Gaz' **Woolley** arrived at Male Airport and were met by the Maldivian National Security Service who were to be our hosts for the next two weeks. The Detachment was located at Girifushi Training Island, and after the short boat-ride from the airport we arrived at the island and were met by the Chief instructor, **Sgt Rishwan**.

Cpl 'Jase' Broome presenting a Squadron Plaque to Sgt Rishwan (Chief Instructor, Girifushi, Training Island) in the Maldives

The mode of transport for collecting the radio equipment changed from a speedboat to the slightly more relaxed pace of a large passenger boat to enable us to fit all the equipment on board. After a few hours of graft in the blistering sun the detachments radio installation was complete, and communications established to Singapore. The first phase of the exercise had begun and all detachment members were in need of a good nights sleep. We all awoke next morning to discover that the 9th Platoon of the 3rd Battalion of the Maldivian Mosquito Regiment had decided to use us as their midnight snack, and we all scratched our way to breakfast. After testing the comms exploring the island, **Cpl Jase** 'Fitness' **Broome** spent many an hour running around the island, which considering it only took four minutes to do a complete lap, sent him slightly dizzy. The main bay provided a calm and clear area of sea for swimming. It also provided an area for all sorts of creepy crawlies to hide, but we were assured there were no sharks.

The Scenario phase of the exercise was started, and by the end of the first day we had managed to destroy most of the Middle East. The following few days were spent building up a clear scenario picture and consequently the amount of traffic increased and the system was tested to its limit. Before long, the R and R phase began, with a day spent in Male, the capital. This gave the Detachment an opportunity to not only see the cultural aspects of the island but also to get some bargain shopping. We returned to Girifushi that evening with giant wooden dragon, T-shirts and sharks teeth in tow. We then departed for the tourist island of Lowifushi, a magnificent island where we enjoyed all the water-sports and recreational facilities available.

The detachment would like to thank the NSS for their assistance in making this exercise not only an overwhelming success but also a fantastic experience for the Detachment members.

Capt Conrad Giles prepares to sample some of the delights of Singapore

!WANTED!

The Best Radio Sys Ops in the Corps

If you:
Rate yourself as a good operator,
Are adaptable and versatile,
Able to work on your own or in a small team,
Enjoy a challenge and
Enjoy foreign travel (often outside Europe),

Then Special Communications may be for you.

The next Spec Comms Assessment Course will be held September 2000. Those candidates assessed as suitable will be invited back for Special Communications Course 2/00, from November 2000 – March 2001.

Apply now, using the form in SOinC PD 206, available through your Sqn Office or YofS.

For additional information, contact the 1 (RBY) Sig Sqn (SC) Training Wing on (9)4240 8518 / 01908 638518 or the Sqn YofS on (9)4240 8516 / 01908 638516

JOINT COMMUNICATIONS UNIT FALKLAND ISLANDS

257 SIGNAL SQUADRON BECOMES JCUFI

OC JCUFI **Maj Bill Adsett**
USM **WO2 Tom Smith**

257 Signal Squadron formed at the beginning of January comprising over 60 personnel from across 3 (UK) Division Headquarters and Signal Regiment. After a month of training back in Bulford it was time to depart for the South Atlantic as the Army Element of JCUFI (Joint Communications Unit Falkland Islands). JCUFI is tri-service, numbers around 150 and as such is one of the largest independent units in the Falklands. The first couple of months were a blur as everyone learnt the ropes, but there was still time to enjoy a variety of activities: air experience flights, visits to Navy ships, days out with the infantry, battlefield tours, walking expeditions, charity events, and much more. The facilities at MPA include bowling, golf, a cinema, go-karting and watersports to name but a few. For more on these, see the articles from the Troops below. Personnel changes are ongoing as the remaining 80 making up JCUFI are on trickle postings. Within UHQ, we have welcomed a new 2IC, **Flt Lt Mark** 'Look at my creases' **Wright** who replaced **Flt Lt Stu** 'No Belt' **Russell**, and **Lt Pete Simpson** who replaced **2Lt** 'Gentle' **Ben Davenport** as Ops Officer when the latter returned to Blandford for his Troop Commanders Course. Life has stabilised now we are over half way into the tour, but the exercise season is just beginning, and winter is also on its way. Roll on August and a return to the British summer.

ALPHA TROOP

Tp Comd **Flt Lt Chris Hamilton**
2IC **Sgt John Batts**

It has been a long three months out here in Penguin Country. Time flies when you are having fun! It all began with a small transfer by air to the other side of the world and the story goes on to describe the horrors that our little band in A Tp have had to face.

We arrived in February to find our home in the Falkland Islands. The Mt Adam and Mt Campito Detachments were slung into the back of helicopters and flown to their new homes to relieve the ecstatic (but after six months slightly mad) 1 (UK) Div personnel. Meanwhile the rest of us MPA-bound grafters had extensive and very thorough introductions to the excellent nightlife around MPA, not least 'Sharkies' where **Sgt** 'Smile' **Jenkinson's** warming smile attracts hordes of people to the unit bar. After all the introductions had been made and the hilltops got their first visitors they realised that there was no need to go mad just yet as people still remembered they exist! We (at MPA) all settled down into our 'leisurely' (ha ha – not) routines. While **Sgt** 'Darth Vader' **Batts** took charge we were soon up to **LCpl Andy** 'The Cat' **Cornfield's** hairline (if you know this man you realise how high that is) in crash-out plans, local defence plans and preparation for our first exercise.

Exercise First Adventure was a tactical HF Comms Exercise to accustom us frail operators to the arduous task of HF communications in the Falklands. Little did we know how difficult it would be! I think we all learned something on that exercise. Even **LCpl Julie** 'The Devil' **Cornfield** on shift in RADCON discovered a new love in her life (sorry **Andy**) – an amazing HF antenna. As for the detachment at Goose Green comprising **Cpl** 'Not the Hair' **Wicks, Sig** 'Garth Jr.' **Davies** and myself, we learnt a few things about power. Unfortunately not the type that comes with rank. Not only did we learn that a man-pack will not run for long without spare batteries, but also that a generator can only run so many items of electrical equipment at one time, much to the anger of the EDs. That exercise over we returned to MPA for an extensive session of banter in Sharkies. As we roll on through this epic story of graft it is time to pay homage to our sangers which we've expertly taken apart (demolished) and even more expertly put back together (thrown it all in a pile) an uncountable number of times. I'm proud to announce that every member of RADCON can now fill a sandbag from a seemingly impossible-to-dig embankment in under ten seconds (less than half the time it takes to fill **Cpl Bob** 'Cables don't just break' **Dryden's** amazingly large belly with haggis).

As we drifted slowly along to our halfway point it was time for revenge against all the seniors of the Unit (all for a good cause of course) in the 'Slave for a Day Event'. Armed with a bundle of cash and bags of enthusiasm our A Tp reps went in search of slaves to do all the dirty jobs no-one else will do. In fact our five slaves spent most of the day sewing costumes for the '70s Night and moaning about us working them too hard. Now here we are with three months left to go. Will no-one save us!?

CHARLIE TROOP - *by Lt Aidy Johnson*

Tp Comd **Lt Aidy** 'Disco Queen' **Johnson**
Tp 2IC **SSgt Chris** 'Mad Frankie Fraser' **Loughlin**

Since 14 February in the 2000th year of our Lord 257 Sig Sqn have been lucky enough to occupy the hot seats that make up JCUFI. C Tp consists of four sections which are responsible for various aspects of keeping the comms train firmly on the tracks. This has proved to be a challenge to all involved. Along with the satisfaction of doing a real job there are many activities to keep everyone occupied in the less frantic times. I am confident that we will leave here in August having achieved a great deal. It has been a voyage of self discovery, and the whole Troop have come through the first part of the tour with more caring, sharing and richer personalities. The Falkland Islands' beauty and variety of terrain is breath taking and the grandeur of the MPA death star is the icing on a particularly magnificent cake.

PS: I am now deaf in one ear due to the persistent gale force winds, which is nice.

FITTEST SECTION

There are eight permanent members of this Section based within MPC: **Sgt Walton, Cpl Beck, Cpl Doherty, LCpl Bielski, LCpl Bridger, LCpl North** and **LCpl Perrin**. We also have a resident Marconi Engineer, **John Nicol**, who has just celebrated sixteen years of service on the island. There are also three technicians who are based on three of the mountain sites. These are **LCpl Binnie** at Mount Kent, **LCpl Haughen** at Byron Heights and **LCpl Millard** at Mount Alice. For those based at MPC, the two main jobs are FITEN and FITS. FITEN involves the programming, repair and maintenance of the telephone exchanges; this job is done in association with Line section. The other main job FITTEST is responsible for is the repair and maintenance of the FITS radios and the DIGIFITS links. There are 19 FITS sites scattered throughout the two islands all linked together, through the radios, to provide total coverage island-wide.

Apart from work there are a lot of other things that go on in the workshop. As of a few weeks ago the Section have become proud owners of a little ball of trouble called 'Mickey'. The workshop was a little empty after the unfortunate demise of the original workshop cat FITS when she died of old age, but a replacement was soon found to keep Lister company.

The workshop as a section has plenty of other things on the go, there was go-karting and the forthcoming flight in a Hercules and a VC-10 tanker, which everyone is looking forward to. There are plenty of chances to do adventure training with several weekend walks lined up over some of the mountains on the island. Visits to other Sections are also on the agenda, like the resident Infantry Company who will be allowing us to play with their toys. There is also the opportunity to stay at Blue Beach Lodge and work on the farm and in the guest lodge which is one of the most picturesque locations on the island. There is also upcoming weekend adventure training at Shag Cove, which is always a popular R&R location. The FITTEST section is definitely keeping itself very busy, both in and out of work, and the three months that we have been in the Falklands has passed surprisingly quickly. We are all looking forward to our R&R on Ascension Island and then the last few months until our return to the UK.

LINE SECTION – *by Sig Jones*

Life down in the Falklands continues at a hectic pace. February saw us take over from 1 Div, and take control of the Telecommunications infrastructure. Those of us who thought we were in for a quiet and enjoyable tour got a rude awakening courtesy of **Sgt** 'Elvis' **Hemstead,** who had us working seven day weeks for a three week period, preparing for the upcoming yearly inspection carried out by CPD(Communications Projects Division). Thankfully we were rescued on February 22 when **Sig Dave Butler** came to share his valuable experience. Cheers **Dave**, we don't know how we would have coped without your crisis management talents! Overall it went better than expected, and **Sgt Hemstead** lived to see another day. He even gave us a weekend off.

May saw CPD back down here, this time to install new exchanges in 12 FAC, Mare Harbour and Mt Kent, and the upgrade of the trunk system. This led to the rewire of the FITS cabins on the three mountain sites. Due to the large amount of time that **LCpl Owen Trimble** spent on the mountain sites he has been adopted by the mountain as their mascot. Throughout this period we were getting ready for Exercise Cape Petrel.

Sig Dan Unwin lost at Monopoly on the internet and went to jail for five days, and **Sig Gaz Hitchings** got press ganged and went to sunny Rio

with the Navy. A few minor incidents within the section have included **Sig Butler** impersonating Benny Hill when he saluted the OC Tp without his beret on. There was also the instance where I was attempting to megger a cable without turning on the equipment. We cannot forget to mention our two adopted lineys: **Sig Daz Clarkson** who has been working hard on faults with **LCpl Liam Lee** and our second liney 'SCULLY' (**Sig Scull**), who has been trying his best to run the stores how it should be.

POWER SECTION

Well, we are half way through our tour now and things seem to be more hectic than ever. The first to arrive in theatre was **Sgt** 'Jenks' **Jenkinson** on 8 February. Ten days later, the rest of the team arrived led in by **Cpl Marty** 'Doc' **Warner**. Straight away, things started to get difficult! Twelve Landrovers were due for replacement with brand spanking new civilian ones. When they arrived we found that there were no seats in the back of them. This has led to multiple journeys around MPA just to get people to work! What a nightmare for **Sgt Jenkinson**, so much so that since they arrived, he's been pulling his hair out and has resorted to growing an eyebrow over his top lip.

Cpl 'Doc' **Warner** soon got into sorting out a servicing schedule for the next six months for the generators on the hill top sites, only to find that nearly every week it goes to pot. He's currently on R & R and I'm quite surprised he didn't take it on Mt Caroline, as he spends most of his time up there! **LCpl** 'G.W.A.' **McDermont** heads up the helibid bookings and when he's not up a hill servicing generators, you can usually find him chuntering to himself by his desk or pulling his ginger locks out of his head. He's getting quite friendly with a certain RAF Flying Officer up at the Heli-tasking cell too! Suits you Sir! **Sigs** 'Big Keith' **Malait,** 'Tommo' **Thompson** and **Clare** 'Power Chick' **Ryan** should be congratulated for passing their Class 2 upgrading and can now work without **Sgt Jenkinson** or **Cpl Warner** breathing down their necks anymore. **Sigs Malait** and **Thompson** have also learnt new trades (concreting and brick laying), when they spent a week up at Blue Beach Lodge doing just that. **Sig** 'Big Keith' **Malait** (all 5ft of him) came back looking like Arnold Schwarzenegger and **Sig Thompson** came back looking about two stone heavier due to all the tea he'd consumed while away. **Sig Ryan** passed her Class 2 unaided, as you can usually find her on crutches! In her spare time when she's not rolling Rovers over, she spends her time looking for kerbs or holes to twist her ankles in! The last to be mentioned is **Sig** 'Pottsy' **Potts.** You can find him loitering with intent around the USM's office, ready to start shining **WO2 (USM) Smith's** boots or making him a brew. 'Pottsy', he's not the man that's going to promote you, the man you want lives three doors up the corridor!

All in all, Power Section (being the nerve centre of JCUFI) is working hard and we can safely say that we are all looking forward to 16 August when the big white bird takes us back to sunny 'Blighty' and we can rest our weary right arms! 7 Sig Regt, come on down.

The handover between WO2 (USM) Rook (L) and the current USM, WO2 Tom Smith

ONE MAN AND HIS DOG 3-7 MAY 2000

by LCpl Reg Perrin

William Anderson of Blue Beach Lodge and his collie, Tess walked from San Carlos to Stanley over the period 3-7 May 2000. He is raising money to provide the Falkland Islanders with a proper means to diagnose heart problems. **Wiliam** is 64 years old, has had a quadruple heart bypass operation and suffers from angina, chronic osteoarthritis, spondylitis, hypertension and diabetes; such a walk was therefore a great challenge for him. Tess you will be relieved to know is very healthy.

When I became involved in the walk about a month ago I was staying at Blue Beach Lodge for the week. **William** decided it was about time to do some training, lucky me!! The first tentative steps were taken up the hills at the back of the lodge. It took us quite a while and was hard going, involving quite a few rest breaks at this point. With the walk coming up so soon I had my doubts about whether **William** would manage it. Thankfully my doubts were proved to be unfounded. During the last weekend that I was there, the two of us (and Tess) set off at an ungodly hour for the trek over Sussex Mountain. It was hard going on the climb, but we made good time and eventually managed about 12 miles that morning; before **Williams'** legs decided they could not go any further. The next time I made that journey it was a lot more comfortable. I was driving the Support Rover on the actual walk. I was quite surprised by **Williams'** speed and endurance; he had obviously put in a lot of training in the couple of weeks since I had last seen him. At the beginning there was **William**, Tess, **Maj Bill Adsett** (OC JCUFI) and **Capt Paul Stevenson** (OC MTW) walking. **John Nicol** (JCUFI Marconi Engineer) and I drove the support vehicles; with the shows of BFPS and FIBS blaring from the vehicle mounted speakers.

We did roughly 21 miles to Stanley Gates, which is quite an achievement in itself. The next day we were joined by **Cpl Leslie Beck** (JCUFI) for the walk into MPA. Following a Tornado F3 fly past by **Wg Cdr Bond** (CO FIAW) we reached MPA in the afternoon and **Sqn Ldr Morris Egglestone** (OC JSSU) met us with Military Police Vehicles and dogs. The police then very kindly escorted us as we stopped all passers by for donations. The next morning we set off on the home stretch for Stanley. Every passing car had the bucket waved at them and a lot of money was gathered from a surprisingly small number of cars. That evening the JCUFI girls hit the bars dressed as St Trinian girls and they alone raised around £700, which I know **William** was very grateful for.

The Saturday was probably the best day of the walk. There were quite a few extra walkers and they were treated to a very spectacular display from the Tornado F3 of 1435 flight who performed a couple of low-level passes, one of them with the undercarriage down. Later in the day 78 Sqn Search and Rescue flew in, performed a low pass and then dropped off their OC, (**Sqn Ldr Lee Calderwood**) to personally deliver a cheque for the money raised in MPA. As the Sea King left I did notice a tear in **William's** eye. The Sunday was a quiet day in relation to the rest of the week. It involved about an hour's walk from Sapper Hill to the Cathedral in Stanley for a service and that was the conclusion to The One Man and His Dog Charity Walk.

There are some I would like to thank on behalf of **William**. Firstly the St Trinian girls for their sponsorship efforts, BFBS and FIBS for their help in publicising the walk, 78 Sqn and 1435 Flight for their part and JCUFI as a whole for their support and fundraising efforts.

2 (CITY OF DUNDEE) SIGNAL SQUADRON (VOLUNTEERS)

Sqn Comd **Maj Eric Blyth**
SSM **WO2 (SSM) Andy Waterston**

TERRITORIAL ARMY - STAFF SERGEANTS COURSE 2000/01

Having put this off for as long as possible, **Sgt Ronnie** 'Bravo Two Zero' **Thomson** and **Sgt Tracey** 'Does my bum look big in these combats' **Waterston** decided to take the plunge and get it over with before they were too old (Too Late). They traveled to Blandford Camp early on the Friday and booked into the luxurious accommodation on offer, namely Anson Block. On meeting some of the other Course Personnel, it seemed only right to visit 'Humph's' for a few drinks. Tiredness and lack of food and five pints of Grolsch later, we returned to the Hilton by 2am, enough said! The Course started at 12pm and time to meet the other 14 Students.

Week One comprised of all the theory subjects required for the exercise phases in Week Two. Lots of Tactics (**Sgt Les Gamble** – What does 'S'stand for?). N.B.C, Map Reading, with a generous helping of fizz in the form of a BPFA, March and Shoot and Log PT, with the sun blazing down, all that was missing was the pina coladas. However, all the phy's stood us in good stead for Week Two. Week Two started with tests on all the subjects taught in Week One. It was then time to collect all the stores required for the Exercise Phase. This was our first introduction to the dreaded defence stores, which were to play a large part in our lives in the 3-day Exercise Phase.

The Exercise took place out on Salisbury Plain and after a few demonstrations on pyrotechnics and radios , it was time to get on with the nitty gritty. Needless to say for the next three days we had to work hard , defending the Comms Site and taking part in commanding Recce Patrols and Clearance/Fighting patrols (and losing glasses,I cannae see Staff!). The photo provided is before the Exercise for those who didn't know, the one after didn't come out as us Jocks were melted to a greasy spot due to the exceptionally hot weather conditions! Once back in camp all the equipment was cleaned and returned to Stores. The next thing on the Agenda was the 'Course Dinner' which was held in the Sergeants Mess. The evenings entertainment was provided by 'Madam Vice', **Sgt Tracey Waterston** who gave an uplifting rendition of 'Suspicious Minds.' this was to be the highlight of the dinner. The usual procedure of port drinking carried on into the night, with generous donations from **Sgt Waterston, Sgt Les Gamble** and **Sgt Addie Stowel**, as the Course and the Training Team partied into the early hours.

On the Friday the Course wound down to allow them to carry out necessary admin, and it was the last opportunity for the Course to socialise, together, ie: another Nepalese curry at the acclaimed restaurant next door to 'Humph's'. On the Saturday they all said their farewells and returned to their Units with a lot of knowledge, more experience and a feeling of achievement.and loads of bruises eh **Sgt Helen Mountey** and **Sgt Karen Lyons**!!! A special thanks must go to SQMS Chalky? who was an inspiration to us all cheers mate!

Sgt Ronnie Thomson and Sgt Tracey Waterston

EXERCISE NORTHERN BLUEBELL 2000 – *by Sgt Dave Heap*

Ex Northern Bluebell was a Comd ES 2 Div competitive training exercise for REME that took place over the weekend 5 –7 May 2000 at Warcop (AFTC). The aim was to test REME soldiers in trade and military skills, also to assess the readiness and standards of training of REME in 2Div.

As usual 2 Sig Sqn (V) REME Attached (may I say the smallest unit participating!) entered a highly skilled and well motivated team that also included two Royal Signal members (well someone has to employ them). **Lt Alistair** 'What course can I do next' **Galloway**, a true leader of men, an ambassador to his Corps, an academic intellectual even after being head butted by a rifle blackening his eye and breaking his nose. Back to the point, continued to push his men to the limits of endurance on the assault course to obtain one of the fastest times of the day. Considering the average age of the team was 45 mainly due to **LCpl** 'Dead Eye' **Abbott's** participation, the team produced a good effort. The Team would have received first prize if it weren't for **LCpl Joe** *'Shiny Top'* **Wiggins** zimmer-frame collapsing at the wall.

Saturday morning was a 0700hrs start at the First Aid Stand where **Sgt Dave** 'REME for ever' **Heap** was found by the team in a field suffering from hypothermia, exhaustion and a broken ankle. This after wandering aimlessly around the training area all night with no one but sheep to talk to. (Poor Sheep). Miraculously **Cpl Rod** 'Dr Death' **Hamilton** and his sidekick **LCpl Joe** 'Shiny Top' **Wiggins** healed him. No names no pack drills, someone tried to warm **Sgt Heap** with his body. He got quite worried when he produced a sleeping bag and suggested that they get in it together. One of the tasks on the Local Manufacture Stand was to manufacture a NATO socket extension lead and **Cfn** (at present Class 4) **Smith** (an electrical whiz kid) took on the task. A cut here, a snip there and a few intricate joints, yes he was the head surgeon in the theatre of electro mechanical engineering.

There were many memorable moments over the weekend but the one that stood out the best was the wacky race. Each team had to manufacture a two-man tricycle. There were bat mobiles, helicopters, ships, three wheeled prams and low slung racing triclopse. As with all major racing venues, the streets were cleared, straw bales situated at the danger spots and countless ambulances and medics on standby in case of a horrendous pile up, and I can tell you there were plenty. The end of the race was like the aftermath of a major battle. Buckled bike wheels bent and twisted frames, splintered wood and manly wounded pride. The bar was opened and the race forgotten. No, we did not win. Our team tricycle was driven by the two very famous formula triclopse racing drivers. **Lt Alistair Galloway** and his sidekick **LCpl Dave** 'Pit Stop' **Lyall**. The presentation on Sunday was the icing on the cake for our team. We returned to Dundee with a rather large trophy and plaque. Beware, 2 Div, for next year, 2 Sig Sqn (V) will be the team to fear.

Exercise Northern Bluebell Team
(L-R): LCpl Abbott, Cpl Hamilton, Cfn Smith, LCpl Lyall, 2Lt Galloway and Cpl Wiggins

CITY OF EDINBURGH UNIVERSITIES OFFICERS TRAINING CORPS

CO **Lt Col A. A. S. Harwell**
OIC Sub Unit **2Lt G. P. Gaw**
PSI **WO2 (SSM) Shelmerdine**

Formed in 1945 the Royal Signals Sub Unit plays an important role within Edinburgh's University Officers Training Corps. This academic year has seen the Sub Unit achieve a great deal and maintain the high standards of the unit.

In the lead up to Christmas assistance was given throughout the MTQ1 and MTQ2 training cadres in the form of lessons, practical activities and exercise communications. After the Christmas break the sub unit's strength was boosted by a large group of first years fresh from their MTQ1 Cadre. The first training weekend to Barry Buddon concentrated on long range HF communications using the PRC 320 and a variety of masts. Our newly acquired line laying equipment was also put to good use with enough line being laid around camp to put any cable television company to shame. A second weekend involved another trip to Barry Buddon with the skills learnt on the previous weekend being put to the test when the sub unit was tasked to establish communications with STCICS at RAF Kinloss and make a phone call over the airwaves.

Training continued as usual on Wednesday evenings, with the sub unit being taught all the theory and reasoning behind the practical activities undertaken at the weekends. One Wednesday, however, a visit to the NATO Satellite Ground Station at Balado Bridge was arranged to allow the newer members of the sub unit to see another side of the Royal Signals, and to see what is kept inside those massive golf balls. We had a very enjoyable evening and would like to thank our hosts for looking after us so well and not getting too technical. With their HF skills at a high standard after the two weekends at Barry Buddon, the sub unit traveled south to Otterburn to take part in an exercise that combined basic infantry patrolling skills with simple electronic warfare. With the unit's own infantry wing providing the enemy, just by listening to their radio traffic the Royal Signals sub unit was able to pin point their location and conduct a close target recce of their harbour area at dusk. Otterburn was also the scene for a live firing artillery exercise for which the sub unit provided the communications between the guns and the forward observation party.

All the training throughout the year was thoroughly interesting and enjoyed by all, but it was all geared towards one thing: Ex Lightning Strike. With a mixture of Strike Veterans and Virgins the team traveled down to Salisbury determined not to return empty handed. With stands ranging from survival with the SAS to a command task with 32 (Scottish) Signal Regiment, this year's competition was one of the best yet. The team gave its best performance in the competition's history and won three prizes, including the final race.

OCdt Colin Grant, **OCdt Oliver Beard** and **OCdt Paul Caldato** attended the UOTC Signals course held at Blandford over the Easter holidays and are now trained signals instructors who will be fully utilised during the next training year. The course introduces cadets to various aspects of the Royal Signals, with the emphasis placed on exercise planning and teaching.

FUTURE MOVES

The end of this academic year sees four members of the sub unit moving on to pastures new. **2Lt Gaw** is off to 32 (Scottish) Signal Regiment (Volunteers), **OCdt Bateson** and **JUO Zelaya** are going to RMAS as Royal Signals bursars and **WO2 (SSM) Shelmerdine** is moving to HMS *Warrior* in October, to be replaced by **WO2 (SSM) Manktelow** from RSS Blandford. More information about the sub unit, including a photo album of recent activities, can be found on Edinburgh UOTC's web site at: www.ceuotc.org.uk

SPORT

BOWLING

ARMY TENPIN BOWLING CHAMPION 2000
SIG SIMON JONES

At the recent 33rd Army Tenpin Bowling Championships held at the AMF Leeds Bowl on 25-27 February 2000 a new name was established. **Sig Simon Jones**, serving in Paderborn with 20 Armd Bde HQ and Sig Sqn (200), became Serving Army Champion for the year 2000. The overall winner was **Alan Smith** (ex-Army), who was in first place in the Men's Singles with a new Championship record of 1100 total pins in his five singles games. **Sig Simon Jones**, a Preston man, showed tremendous skill and stamina at the recent 33rd Army Tenpin Bowling Championships this year. A total of 154 competitors, made up of serving and ex-serving military persons and their dependants, took part in the three-day event. All competitors bowled five games of singles, four games of doubles and three games of team (four players). The top 24 bowlers proceeded to the Masters and bowled a further three games. The top 12 of these bowled three more games and the top six of these proceeded to a round robin final.

Simon was one of only three players to average over 200 for all his 23 games played. His superb highest individual game of 270 ensured that he deservedly became Serving Army Champion for 2000. The standard of play is getting better each year and many high quality scores were returned this time. A high standard of mental as well as physical discipline is needed to do well in competitions of this calibre and Simon showed admirable determination and expertise right through to the last ball. **Simon** attended St Michael's High School in Preston and then Preston College, before joining the Army in 1997. He completed his initial training at Bassingbourne and Blandford and was then posted to Germany, where he is still serving. In 1999 he was joint eighth place in the Masters final of the Army Championships and represented the Army in the British Tenpin Bowling Association Nationals at Plymouth in the same year. He began bowling at the age of 12 and progressed quickly to the adult leagues in Preston by the age of 14. **Simon** represented Preston at Tenpin Bowling and was a member of the Lancashire YAC Tenpin Bowling Team. His personal best high game is 299, just one pin short of a perfect game. **Simon** has obviously been selected for the Army team in 2000.

NATIONAL SUCCESS FOR ARMY BOWLERS

It is with great pleasure and pride that I write to inform you that two of our talented bowlers from the Army Tenpin Bowling Association finished in third place in the doubles event at the recent British National Tenpin Bowling Championships on 18-19 March 2000 in Enfield. **Sgt Les Colquhoun** and **Cpl Mark Passfield**, both serving with 11 Sig Regt in Blandford, played superbly to achieve this hard earned and well deserved third place. The British National Competition is of an incredibly high standard and attracts only the best bowlers in the country, making **Les** and **Mark's** success a feat of which to be proud.

CROSS COUNTRY

EXERCISE SOUTHERN CROSS

On Wednesday 15 March nine Corps athletes **(Capt Lynn Higgs, Capt George Tyndale, OCdt Steve Cadywould, Sgt** 'Ginge' **Davey, LCpl Kev Conlon, LCpl Jamie Baulch, LCpl Lee Wilkinson, Sig Pete Tucker** and **Sig Sy Sheppard)** and three coaching staff **(Majs Les Wood** and **Jerry Hegarty** - athletics and **Mr Dave Pittman** - golf), met at Hamersley Barracks, Aldershot to finalise preparations for the following day.

At 'early o'clock' the following morning the coach arrived to ship us off to Gatwick Airport, where we caught a flight with far too much leg room. On arrival in Portugal the weather was excellent for that time of year, a cool 22 degrees centigrade, much to everyone's delight. We picked up our transport and proceeded to the hotel 'Alfa Mar', where we were booked in for the visit. Instead of getting the expected hotel rooms we were given three villas which were excellent. Friday morning at 0800hrs saw the start of the arduous training programme, and for most of the squad, the first meeting with former London Marathon Champion, **Mike Gratton**, who was organising the training. During the next week the training was consistent, with the sessions ranging from steady eight mile runs to whistle fartlek and mile reps. The group performed well leading most of the time up to the point where the sessions were being organised around us. Saturday saw the start of the World Cross-Country Championships, fortunately it was only walking distance from the hotel, just a coincidence? We think not! This gave us the chance to see some of the world's finest athletes in action and how the British athletes compare to the rest of the world. We all found this to be an excellent experience and personally one I

will never forget. The championships lasted for two days and, much to our surprise, ran during the hottest parts of the day to the advantage of athletes from warmer parts of the world. This does not include England as it is raining as I write these notes!

The rest of the trip carried on as before, training twice daily at 0800hrs and 1600hrs. Evenings, however, were free. This meant socialising moderately always eating out and taking turns to choose the location. The weather stayed fantastic throughout the entire week until the last day where we did an extremely hard hill session in the rain. The rain soon stopped however and another afternoon of sunshine meant last minute panic tanning for the women. At 1900hrs we all met at 'The Mess' and went for our final meal in Portugal at what had now become our local pizza restaurant. The following day saw the end of the trip, with a 0700hrs leg stretch session before booking out of the hotel and flying back to the UK. A brilliant time was had by all, many thanks to **Maj Les Wood** for organising the trip.

ARMY INTER-CORPS CROSS COUNTRY CHAMPIONSHIPS 16 FEBRUARY 2000

This season's Inter-Corps championships were held at Blandford on 16 February 2000. With all 16 of the Corps top runners available, less **Cpl Paul Clancy,** the Team Captain - **Sgt** 'Ginge' **Davey** and Team Manager - **Capt Neil Turnbull** had the difficult task of selecting the ten team members. This was duly done over a glass of lemonade in the Bowling Alley. After a flurry of snow in the early morning the afternoon turned out to be ideal running weather. The Corps Ladies were first away with former Army Champion, **LCpl Nicky Dean,** leading the Corps Challenge to try to retain the trophy they won so convincingly last season. This season's under strength team, however, could not compete with very strong RLC and APTC teams and the team finished in third place.

The Men's Team wearing the new Corps strip for the first time, warmed

The Corps Captain, Sgt Simon Davey, receives the winners trophy from the Chairman of RLC Cross Country

up and after a few words of encouragement from the Team Manager were ready for the off. An easy start saw the team packing in the middle of the field, the end of the first lap however saw the Team Captain leading the Corps challenge in tenth place with the remaining runners packing around eighteenth place. Team positions altered very little on the second lap and the bright yellow vests of the Corps team were plentiful in the leading places on the approach to Pond Bottom, an excellent run in, consolidated team positions and the team finished with a points total of 139. With our main rivals the RLC finishing with 157 points, this was a resounding victory for the Corps for the first time in this Competition. Individual finishing positions were as follows:

Sgt Davey	34 (N) Sig Regt (V)	9th
Sig Grady	11 Sig Regt	12th
LCpl Conlon	3 (UK) Div Sig Regt	15th
Sig Lowe	30 Sig Regt	16th
WO2 (FofS) Docherty	3(UK) Div Sig Regt	18th
Cpl Cadywould	2 Sig Regt	21st
WO1 (YofS) Keily	7 Sig Regt	22nd
LCpl Kemp	3(UK) Div Sig Regt	26th
Sig Tucker	11 Sig Regt	34th
Cpl Whittaker	11 Sig Regt	36th

THE ROYAL SIGNALS INTER-UNIT AND INDIVIDUAL CROSS-COUNTRY CHAMPIONSHIPS

Cpl Steve Cadywould scored a rare victory over **Sqt** 'Ginge' **Davey** to become the new Royal Signals Cross Country champion, on Wednesday 9 February. The 3 (UK) Armd Div HQ & Sig Regt hosted the new Inter Unit and Individual Cross Country Championships, providing a testing course on a windy day. Teams from most Royal Signals Units were represented from the UK and Germany. The ladies were first off and with the race being won by the in form **Sig Lisa Wiles** - 11 Sig Regt who is currently the Army Junior Champion, she was closely followed by **Capt Tindale** -2 Sig Regt with **Sig Twaites** - 3(UK) Armd Div HQ & Sig Regt finishing in third with 3(UK) Armd Div & Sig Regt taking the Ladies Team title.

In the Men's race, a leading group of five broke clear with **Sgt** 'Jock' **Castle** - 7 Sig Regt, making an early bid for the title in the first 400m but unfortunately he had spent too much of his time training in the NAAFI queue and had to concede to the blistering pace set by the Corps top distance runners. At the top of the first steep incline **Sig Tom** 'Puny calfed boy' **Grady** -11 Sig Regt and **Cpl Steve Cadywould** - 2 Sig Regt broke clear leaving **Sgt** 'Ginge' **Davey** - 34 (N) Sig Regt (V) and **Sig Tom Lowe** - 30 Sig Regt battling for the minor places. The leading two remained locked together until **Cpl Steve Cadywould,** who was still feeling fresh after his easy run in the Army Cross Country Championships the previous week surged clear on the final uphill section to come home for a convincing victory to take the individual title.

3(UK) Armd Div & Sig Regt took the team title in the Major Units with 11 Sig Regt a close second. In the Minor Units 243 Sig Sqn were Corps champions and 21 Sig Regt Runners - up. **WO1** 'Stu' **Little** -11 Sig Regt won the veteran Championship while at the other end of the age scale **Sig Pete** 'Rotherham Harriers' **Tucker** became the Junior Champion.

3 (UK) Division Headquarters and Signal Regiment - Major Unit champions

Sig Lisa Wiles - 11 Signal Regiment receives the winners trophy from Brigadier Shaw

RUGBY

CORPS MERIT TABLE 1 FIXTURE VERSUS RA 23 MAY 2000

After considerable delay the final game of the ARU Merit Table 1 against the RA was eventually played on 23 May 2000 at Blandford. In order to win the competition, and regain the title of Corps Champions, the Corps Team had to secure a victory over the Gunners. Owing to short notice of the fixture and the bad weather delaying the travel we were left without several players until minutes before the game. The RA brought a contingent of Fijians but may be forgiven at being concerned about the presence of **LCpl S. Gibbs** starting at outside centre for the Corps. For those watching your eyes did not deceive you, **LCpl S. Gibbs** (21 Sig Regt (AS)), our hooker, was playing at outside centre. Despite the recent good weather, Blandford remained true to form and gave appalling conditions on an extremely wet and windy afternoon.

The Corps played with the wind in the first half and quickly forced their way into the gunners 22. After three minutes, a clean ball from **Lt Whittely** (2 Sig Regt) in the line out was driven forward by **Maj Drew** (RMCS) and **Sgt Jones** (16 Sig Regt) providing the perfect platform for **SSgt Cassidy** (2 Sig Regt), who had only arrived six minutes before kick-off, to dummy and exploit the gap left behind the retreating RA pack and put the Corps into an early lead at 6-0. The Corps maintained the pressure through the considerable advantage given by the weather conditions and after ten minutes a big drive from the pack forced a mistake from the RA Fijian scrum half who was subsequently flattened by the ever present **Sgt Jones**. The ball failed to reach its intended target and bobbed along the ground into the hands of **SSgt Cassidy** who raced away from our ten-metre line to put the Corps into a comfortable lead at 10-0.

The RA, fresh from a week of Corps sevens, soon got into their stride and began forcing their way forward with some excellent support play. The Corps defence held strong with big tackles in the centre from **LCpl Gibbs** and **LCpl Latham** (11 Sig Regt). The Corps should have put the game beyond the Gunners reach before half time but were thwarted by the weather causing handling errors. **Lt Whittley** forced his way over the line from a scrum, only to have the ball tapped from his fingers at the last moment and in the final minutes of the first half **Sgt Tomkinson** (21 Sig Regt (AS)) had an open field out to the right of the scrum but was denied by a wet ball failing to remain in his hand.

The Gunners used the weather to their advantage in the second half but were contained by a determined defence from the Corps. The only means by which the RA were able to make significant ground was either through kicking with the wind or taking quick penalties. After 30mins these tactics paid off and the Gunners forced their way to the Corps 22metre line and remained camped there for some time with the clock running down. In frustration the RA fly half, probably the smallest man on the pitch, decided to crash a pop ball directly into **SSgt meek** (11 Sig Regt), probably the largest man on the pitch. The RA fly half subsequently left the pitch in a dazed state but only after the referee had awarded a very dubious try which was then converted to put the score at 10-7.

The RA renewed their attack with vigour and looked dangerous until extra time when **LCpl Fox** (16 Sig Regt) broke from the back of a ruck and burst into the RA half before being stopped by a desperate defence from the gunners. The Corps was then awarded a penalty just inside the RA 22metre line in a position, which, on a normal day, would have allowed us to secure the game, but the weather forced the Corps to kick for touch. The RA were then awarded a penalty for an infringement only to give the initiative back to the Corps when the RA scrum half fumbled the ball at the base of the scrum. **Sgt Jones** promptly burst in and was manhandled towards the line by **Lt Whittley** and **Cpl Humphries** (2 Sig Regt). Their momentum broke but the ruck was formed on the RA line and the ever sharp, **SSgt Cassidy** executed another swift dummy to open a gap and crash over the line to secure the game at 16-7.

A big thank you to those who braved the weather to support the team and to the substitutes who endured the conditions from the touch-line. Particular thanks to **Sgt MacFee** (11 Sig Regt) for his help in the administration on the day. The Corps has retained the championship. This could not have been achieved without the support and encouragement of parent units who have ensured that they are available to play despite the heavy commitments throughout the Corps. To all those who helped us achieve this goal-thank you. - CERTA CITO

SHOOTING

CORPS SKILL AT ARMS MEETING (CORPSAAM) 2000

Over 200 competitors from both the TA and Regular Royal Signals units competed in CORPSAAM 2000 at Ash ranges from 9-16 April. The meeting is run concurrently with Joint CORPSAAM in which there was a combined total of over 1000 competitors from five Corps: RE, R SIGNALS, RLC, REME and AGC.

THE TERRITORIAL ARMY MEETING 9 - 11 APRIL 2000

The Territorial Army meeting had excellent attendance with eighteen five man teams from 11 units plus 19 individuals giving a total of 109 competitors. The following units were represented: 32 Sig Regt (V), 33 Sig Regt (V), 35 Sig Regt (V), 36 Sig Regt (V), 37 Sig Regt (V), 38 Sig Regt (V), 39 Sig Regt (V), 40 Sig Regt (V), 71 Sig Regt (V), 1 (SC) Sig Sqn (V) and 94 (BY) Sig Sqn (V).

The competition consisted of team and individual matches in Rifle, LSW and Pistol. 71 Sig Regt (V) won all three team rifle matches with 35 Sig Regt (V) winning the LSW and 37 Sig Regt (V) winning the pistol. **2Lt Woodhams** from 71 Sig Regt (V) put in some excellent shooting and was the overall Champion at Arms on the combined scores of all three weapons. He was also the Champion Rifle Shot and Best Officer. The Unit Championship was won by 37 Sig Regt (V). Best Female Rifle was **Sig Morse** and Best B Class Rifle was **Sig Wilton**, both from 71 Sig Regt (V). **SSgt Weaver** from 35 Sig Regt (V) won the LSW.

For many competitors it was their first taste of competition shooting. All gained a lot of valuable training and increased confidence with their personal arms combined with having an enjoyable and worthwhile weekend. The SOinC (A), **Brig C. J. Burton OBE ADC**, who is President of Corps Shooting, presented the prizes with **Col D. M. Mills**, Chairman of Corps Shooting, on Sunday and joined attending COs, RSMs and Team Captains for a curry buffet afterwards

THE REGULAR ARMY MEETING 12 - 16 APRIL 2000

A total of 18 teams from 11 units together with 10 individuals gave a combined total of 100 competitors. This was disappointingly down from the 150 declared entries. The following units were represented: 1 (UK) Armd Div HQ and Sig Regt, 2 Sig Regt, 3 (UK) Div HQ and Sig Regt, 11 Sig Regt, 15 Sig Regt, 16 Sig Regt, 21 Sig Regt, 30 Sig Regt, 20 Armd Bde HQ and Sig Sqn (200), 201 Sig Sqn, 238 Sig Sqn and 243 Sig Sqn together with individuals from 7 RHA, 31 Sig Regt (V) and 35 Sig Regt (V).

The overall standard of shooting was very good and although 11 Sig Regt and 30 Sig Regt largely dominated the competition, there was a good spread of prizes among the individual and team runners up. 30 Sig Regt 'A' Team won the Champion Unit as well as the LSW Match, the Combat Snap, Falling Plate and three of the Rifle Matches. 11 Sig Regt won the Pistol Tiles and two of the Rifle matches. The Best Young Officer was **2Lt Morris** and Best Young Soldier was **Sig Khagendra** both from 30 Sig Regt (V). The Best Female was Sig Williams and the Best 'B' Class was Cpl Davies, both from 16 Sig Regt. The Champion Rifle Shot was **Capt Yam Rana** from 11 Sig Regt and the overall Champion at Arms was **Sgt D. Copley** from 11 Sig Regt who produced a consistently high standard of shooting in pistol, rifle and LSW throughout the competition. **Lt Col Hoole** won the Pistol Championship (again!). The Corps Team also won the Inter Corps Falling Plate and Combat Snap Matches.

The Master Of Signals, **Maj Gen I. O. J. Sprackling OBE** presented the prizes with **Brig N. C. Jackson MBE**, Comd 2 (NC) Sig Bde on Friday and joined attending COs, RSMs and Team Captains for a curry buffet afterwards. The Pipes and Drums from 32 Sig Regt (V) led the final march off and were very much appreciated.

DATES FOR NEXT YEAR'S DIARY
ROYAL SIGNALS CORPSAAM 2001

31 March - 1 April 2001 - Territorial Army Corpsaam
2 - 6 April 2001 - Regular Army Corpsaam

There will be a VIP Curry Buffet for CO's, RSM's and visiting officers on Sunday 1 April for the TA meeting and on Friday 6 April 2001 for the Regular meeting. All units are thanked for their continuing support for this competition, which also provides our soldiers excellent military training value. 32 Sig Regt (V) and 11 Sig Regt are thanked once again for their outstanding contribution to the administration of the meeting and completing the Corps' Charter Tasks.

Sgt Dave Copley CORPSAAM 2000 Champion at Arms being chaired of by the 11 Sig Regt Team

The Master of Signals presenting Sgt Dave Copley with the Ghurkha Kukri

UKSC(G) SKILL AT ARMS MEETING (SAAM) 16 - 18 MAY 00

The UKSC(G) SAAM took place over three days last week at the Kohima ETR range complex at Haltern Training Area in Germany. The SAAM was open to all major units, sub units and minor units within UKSC(G). Despite operational commitments and post tour leave 12 teams entered the competition, totalling over 80 soldiers. The SAAM included both team and individual competitions, with unit teams competing for the Unit SAA Championship, which involved units taking part in Rifle, LSW and Fire Team Matches. A separate Pistol Match and Falling Plate Competition were also held.

The competition was fierce from the outset, with a high standard of shooting from most teams. Days One and Two saw unit teams and individuals competing for the Rifle, LSW and Pistol Championships. First honours went to 252 Sqn, 16 Sig Regt, who won the LSW Team Championship, beating 250 Sqn, 16 Sig Regt, by four hits. It soon materialised that the overall Unit Championship was going to be a close battle between 14 and 170 Sqns Sp Bn ARRC and 14 Indep Topo Sqn RE. In the Team Rifle Championship, 14 Indep Topo Sqn RE narrowly beat 170 Sqn Sp Bn ARRC by five hits, with 14 Sqn Sp Bn ARRC coming third. Meanwhile, 14 Sqn Sp Bn ARRC were setting the pace in the Team Pistol Championship, and beat 14 Indep Topo Sqn RE by a large margin of 27 points. The afternoon of Day Two saw some windy weather for the Fire Team Match which involved teams marching two miles in 22 minutes, carrying 25lbs, over muddy farm tracks, and then executing a very difficult shoot, involving a 50m run down, followed by a reorganisation and enemy counter attack shoot. Teams only had two minutes to sort themselves out prior to commencing the shoot after the march. The eventual winners were 14 Indep Topo Sqn RE, who beat

170 Sqn Sp Bn ARRC and 14 Sqn Sp Bn ARRC who won second and third place respectively. By the end of Day Two, all the team matches had been completed, and the final outcome of the Unit SAA Championship had been determined. The outright winners were 14 Indep Topo Sqn RE with 99 points, with 14 Sqn Sp Bn ARRC (91 points) and 170 Sqn Sp Bn (83 points), coming in second and third place respectively.

The final day was all about determining the champion individual shots, and who is to go forward to Bisley to compete for the Queen's Medal. The eight firers who had progressed through to the finals in the LSW Match were now required to shoot at distances ranging from 300m to 600m. **Sgt Lynch** from 252 Sig Sqn had an excellent Phase 2 shoot, achieving 65 points overall to claim first prize. **Spr Crovetto** from 14 Indep Topo Sqn RE and **Cpl Durrant** from 252 Sig Sqn, were in second and third place. The Individual Pistol Match proved to be yet another close run affair, with **LCpl Lawrence** from 14 Sqn Sp Bn ARRC beating **LCpl McGonigle** from 14 Indep Topo Sqn RE. However, the closest of events proved to be the Rifle Championship, with everything at stake, including a coveted place at Bisley this year. Last year's third Individual, **WO2 Ashcroft**, went into the second phase in the lead, and consolidated his position to claim the Champion Rifle. **Cpl Southworth** from 14 Sqn Sp Bn ARRC and **LCpl McGonigle** from 14 Indep Topo Sqn RE (finished in second and third place respectively).

The SAAM finale was the Failing Plate Match, which was done on a knockout basis, with teams progressing through to the quarter-finals, semi-finals and then finals. GOC UKSC(G) and several of the HQ staff branches assembled teams for the competition. 170 Sqn Sp Bn ARRC beat 252 Sqn Sp Bn ARRC in the final with the tie for third place being won by 14 Indep Topo Sqn RE. The GOC UKSC(G), **Maj Gen C. H. Elliott CBE** presented the prizes at the end of the last day's firing.

SQUASH

14 SIGNAL REGIMENT (ELECTRONIC WARFARE)
RUNNERS-UP: ARMY SQUASH CHAMPIONSHIPS - 1999/2000

14 Sig Regt (EW) continue to set the standards as Corps talisman in the world of Army Squash. A history of near misses and epic encounters continued during the 1999/2000 season with the Regimental Team narrowly defeated in a close Major Unit Team Squash final at the Winchester courts, they finished as runners-up to 1 RSME from Chatham. Regimental commitments meant that the strongest side could not be assembled until the final week of the championships so the Regiment was compelled to exercise catch-up squash and play all its games in the space of four days. A walk-over in the first round against a defeatist 12 Royal Artillery saw a journey to Deepcut to play a second round match against ATR Pirbright. The highlight of a successful 4 - 1 demolition job was a rare victory at No 5 seed for **WO2 (AQMS) Basnett** although his worth was to become more apparent in the quarter-finals against 15 Sig Regt, when after our Royal Signals champion was beaten by the Corp No 6 it was left to the No 5 seeds to decide the outcome at the match. Unfortunately the 15 Sig Regt No 5 was still on route from Lisburn and at some four hours late **WO2 Bas Basnett** was forced to claim a walk-over.

The semi-final and final stages were held at the impressive civilian courts at the Winchester Tennis and Squash Club, a far cry from the squash facilities at Brawdy. The semi-final was played against 22 (Air Defence) Royal Artillery and resulted in a straight forward 5 - 0 victory. Mention here should be made of our No 4 Seed, **SSgt John Blackadder,** a Intelligence Corp Squash stalwart of many years. Brought out of his hospital sick bed and made to play with his old wooden rackets he showed that there is no substitute for experience by giving his opponent the run around. The final was played early the next morning. Our opponents were the Engineers from Chatham who boasted five of their Corp players within their ranks and resembled something of an all-star team. Not to be deterred most of our Regimental side opted for an early night in preparation for the big push the next day. However our No 3 seed and banker, **Capt** 'I've won this Championships before' **Gordon Cole** insisted that a few beers and a take-away curry was all the preparation he needed. The final started with the No 5 and 3 seeds taking the court. **WO2 Baz Basnett** went down kicking to a very strong No 5 but our overall aspirations were dashed when our banker **Capt Cole** lost in five to a player half his age and a quarter his ability. The No 1 seeds went on with the Regiment knowing that it had to salvage a win to stay in the final. **WO2 (SSM) Dean Richardson,** just back from three months exercise in Kenya found the initial pace hard but recovered and recorded a hard fought 3-2 victory over the Engineers No 1 **Capt** 'Singe' **Webster.** The No 2 and No 4 seeds went on for the final games with the Regiment knowing we had to win both games. Our Team Captain and No 2 seed **Capt Colin Jackson** had a comfortable victory against an aggressive Engineer but on the other court **SSgt John Blackadder** was finding four games in four days too much at his age and he went down screaming 3-0.

An overall 3 -2 victory crowned 1 RSME as Army Team Squash Champions 1999/2000 and 14 Sig Regt (EW) as the runners-up. Thanks to **Capt Colin** 'The Brigadier' **Jackson** for his sterling work in moulding a team around huge Operational commitments and to the trusty five who ventured up and down the M4 in search of glory. A further mention should be made of **SSgt Steve Roberts** who never made the photograph, didn't play any games but received a trophy as sixth man for his efforts.

SCORESHEET

1st Round	Vs	12 Royal Artillery	W/O
2nd Round	Vs	ATR Pirbright	Won 4 - 1
Quarter-Final	Vs	15 Signal Regiment	Won 3 - 2
Semi - Final	Vs	22 (Air Def) Royal Artillery	Won 5 - 0
Final	Vs	1 RSME	Lost 2 - 3

(L-R): Capt Cole, SSgt Blackadder, Capt Jackson, WO2 (SSM) Richardson, WO2 (AQMS) Basnet

SURFING

THE ZUMA JAY ARMY SURFING CHAMPIONSHIPS 2000

The Zuma Jay Army Surfing Championships 2000 were held on Sunday 16 April at Penhale Corner in place of the planned Army vs RAF competition that had been scheduled for the 15th but was postponed due to poor surf conditions on the Friday and Saturday and an internet forecast that said a swell would be arriving on Sunday but with strong onshore winds.

When we finally managed to drag ourselves out of bed on Sunday we were greeted with a 4-5ft swell and offshore winds, so after a sobering social surf in the morning we decided to hold the first ever Army Championship. By this time we were down to seven surfers in the seven foot plus division due to **Pte Tim Wyatt** of 2LI deciding to concentrate his efforts on the shortboard, a fact that was greeted with some relief from the rest of the surfers in that division. The shortboard was down to four surfers due to **Cpl Craig Learmonth** of The Army Foundation College deciding on Saturday to head for better waves on the North East coast and **LCpl Sean Wilkes** of 29 Commando Wksp coming down with a bad bout of flu. We only had two bodyboarders from the beginning and the rest of the competition was made up from four novices.

The competition started early afternoon with the tide rising and the wind and swell dropping off slightly. First in the water, after a quick introductory chat from **Sgt Jase Fern** of 14 Sig Regt (EW) LAD, were the novices in a four man final consisting of **Sig Chris Treweeks** of 14 Sig Regt (EW), **LCpl Dave Grimes** of 14 Sig Regt (EW), **Cpl Jimmy Ewing** of 9 Regt AAC Wksp and **Sig Dave Campbell** of 14 Sig Regt (EW). **Chris** went into an early lead with his second wave being scored a three from our 'have a chat about it' style of judging, but at the half way stage he was neck and neck with **Jimmy. Dave Campbell** found himself out of position and **Dave Grimes** was catching a few but failing to make much impression on the judges. As the red five minute warning flag went up **Jimmy** pulled two waves out of the bag to pull away from **Chris** and become the first ever Army Novice Champion.

Novice Result:

1st	**Cpl Jimmy Ewing**	9 Regt AAC	8 Points
2nd	**Sig Chris Treweeks**	14 Sig Regt (EW)	6 Points
3rd	**LCpl Dave Grimes**	14 Sig Regt (EW)	5 Points
4th	**Sig Dave Campbell**	14 Sig Regt (EW)	4 Points

Next in the water was the first Semi of the over seven foot division comprising of **Sgt Phil Stroudley** of 14 Sig Regt (EW), **Cpl Jay Webster** of Para Coy 3 Bn ITC and **Sgt Steve Webber** of Cmdo Log Regt (ES Squadron). The heat was strongly contested with **Steve** taking an early lead with his second wave being scored a four pointer, **Jay** and **Phil** pulled off a couple of three pointers to close the gap with **Jay** trying to impress the judges with a couple of switch stance attempts but they couldn't catch up with **Steve** who ran out the winner of the heat from **Jay**, who also qualified for the final by a point from **Phil**.

Then it was the turn of the other Semi comprising **Jase Fern, LCpl Dai Jones** of 14 Sig Regt (EW), **LCpl Gaz Roscoe** of 14 Sig Regt (EW) and **Sgt Dom Warren** of Hereford Garrison LAD. This was another close heat with **Dai** managing to catch all ten of his waves and getting a four pointer for a well worked floater, **Dom** and **Jase** both managed to catch seven waves and were basically fighting it out for the other qualifying place, **Jase** raised a few giggles from the judges by pulling off a coffin ride after a left hander closed out on him, but **Dom** edged himself through to the final by a point with some consistent surfing. **Gaz Roscoe** never really got himself going, he was suffering from the exploits of the night before and the mornings surf that had left him tired out and he only managed to catch two waves. (Better luck next year mate!)

The first Semi of the shortboard was a two man heat between **Tim Wyatt** and **Cpl Graham Greeves** of ATR Litchfield, some good surfing from both of them saw this heat, for which **Tim** was hot favourite go into the last five minutes neck and neck. Unluckily for **Greevesy** the waves just wouldn't work for him and **Tim** pulled off his best three waves of the heat, pumping his board and getting as much power out of the waves as he could. This saw **Tim** win the heat by three points. The second Semi of the shortboard was between **Dai Jones** and **Pte Barney Scully** of 3CS Bn RLC. **Dai**, having just surfed the 7ft+ semi and looking forward to the final of that, declared that he would catch three waves and sack it, which he did. This, coupled with **Barney's** obvious power and ability which saw him score two fours on his first two waves meant that he won the heat by seven points to set up a mouth watering final between **Barney** and **Tim**.

Next in the water were **Chris Treweeks** and **LCpl Al Hayes** of 2LI in the bodyboard final, **Chris** had been firing all day and managed to catch his full quota of ten waves, pulling off some amazing stunts and scoring big points for his drop knee 360's and various airs. **Al**, carrying an ankle injury still managed to put in a good performance but he just couldn't compete against the in-form **Chris** who eventually ran out to win by five clear points.

Bodyboard result:

1st	**Sig Chris Treweeks**	14 Sig Regt (EW)	10 Points
2nd	**LCpl Al Hayes**	2 LI	5 Points

With the swell dropping off it was decided to run the 7ft+ and shortboard finals at the same time, so **Jase** and **Phil** (the Bude brothers), still smarting from not being involved, had some frantic judging to do. In the 7ft+ division we saw the closest fought heat of the day with **Steve Webber** catching everything that came through on his longboard and **Dom Warren** being as consistent as ever, even riding hand in hand with **Jay Webster** on two separate occasions. The judges were worried that **Jay** may have taken offence to **Dom's** close proximity but both times it ended in friendly handshakes that stopped any points being deducted. Meanwhile, the goofy footed **Dai Jones** was taking full advantage of the left hander that had started working and with a strong display took the title by one point from all the other competitors.

7 Foot Plus Result:

1st	**LCpl Dai Jones**	14 Sig Regt (EW)	10 Points
2nd	**Sgt Steve Webber**	Cdo Log ES Sqn	9 Points
3rd	**Sgt Dom Warren**	Hereford Garr LAD	9 Points
4th	**Cpl Jay Webster**	Para coy 3Bn ITC	9 Points

(Placings worked out from 4th and 5th best wave scores)

Going on at the same time was the eagerly awaited shortboard final between **Kiwi, Tim Wyatt** and Newquay local boy, **Barney Sculley**. This was a display of pure power from both surfers with **Tim** pumping his board like mad to get the most out of the ever decreasing swell size, and **Barney** showing why he has been on the verge of the British Squad. **Tim** managed to catch nine waves and even got some air but it was **Barney** who got the best waves with a thrilling display of power, ripping the six waves he managed to catch, smacking off the lip and cutting back more often than seemed possible, and catching the wave of the competition that earned him five points, who eventually snatched the title by a clear three points.

Shortboard Result:

1st	**Pte Barney Sculley**	3 CS Bn RLC	13 Points
2nd	**Pte Tim Wyatt**	2 LI	10 Points

7ft Plus Division
(L-R): LCpl Gaz Roscoe, Sgt Fern, LCpl Dai Jones and Sgt Dom Warren

What had started out as a disappointing weekend ended up with everyone having a fantastic time. It's never easy competing against friends, but the whole event was run in the best spirit and did more to forge the team spirit and morale of the lads who took part. Although we are a team that is still in it's infancy we can only go forward from here. It was a terrific turn out with people traveling from far and wide at there own expense as we don't have the backing of the Army Sports Board yet. This just goes to show the commitment and enthusiasm of all involved. It has to be said that the judging was a bit iffy but we feel that the right results were reached in the end. Next year we will find someone with some experience to do it!! Some special words of thanks must go out to **Nigel** and all at Zuma Jay's in Bude who kindly agreed to sponsor the event and also to **Sgt Callum Davey** of 14 Sig Regt (EW) LAD who did the photography and all those who turned out just to watch the event. The attitude and standard of all the competitors was a pleasure to see and I would love to hear from the vast amount of surfers in the Army who haven't contacted me yet as soon as possible at: **Sgt Jase Fern**, telephone Brawdy mil. 94359 5825 or civvy 01437 725825.

One last thing, Jase would really like the contest rash vests to be returned PLEASE!!! The Kinchendo spirit lives on!!

TABLE TENNIS

ARMY APPRENTICES COLLEGE
CHAMPIONSHIP TABLE TENNIS TOURNAMENT
SPRING 2000

In the final **AT Sweeney** defeated **AT Tyrell,** in a hard fought sporting final, by a 21-14, 17-21, 22-20 score line. The awards were presented by **John Cunningham DLOPTTC** and the Tournament was sponsored by Allied World-wide Computer Services.

AT Tyrell

WINDSURFING

INTER-CORPS WINDSURFING SERIES
THIRD ROUND RESULTS

The third round of the Inter Corps windsurfing championships took place at Christchurch in early May. The conditions were demanding, with light to moderate winds and a heavy tide running. The Royal Signals team worked extremely hard in the conditions to gain second place, behind an almost invincible REME team. After three events in the series, with two to go, the Corps is lying comfortably in second place, well ahead of the Royal Engineers, Royal Artillery and RLC, but considerably behind the REME. There is no room for complacency, however, and a strong turnout is still required in the fourth round at Weymouth in June and the finals which are held during the Army Championships in July. In a fleet of 30, creditable individual performances were recorded by **Maj Dave Gilchrist** (2nd overall and first 7.5m raceboard); **SSgt Norman Finnegan** (6th overall) and **Maj Peter Bowles** (8th overall). **Cpls Pete Hoggart, Adrian Varney** and 'Herbie' **Hyde** also achieved commendable results.

Anyone interested in competitive windsurfing with the Royal Signals should contact the Club Secretary, **Capt Andrew Mould**, on 94344 5111, or the Competition Secretary, **SSgt Norman Finnegan** on 94359 5684.

The Association communicates with its branches and individual members through the pages of The Wire, *which contains accounts of Branch affairs as well as a forecast of Association events.*

Branch Secretaries are asked to check that their Branch members receive sufficient copies of The Wire. *Association HQ can arrange for copies to be delivered in bulk to Branch Secretaries for further distribution if this is convenient: it helps us save on postage.*

Dates of Branch events can always be published in The Wire *and should be submitted to the Editor. We also welcome letters, requests to contact old comrades and announcements of births, marriages and deaths. We hope that each Branch will contribute a short account of its activities, preferably with photographs, at least once a year.*

THE FORGOTTEN WAR

By Ex-WO2 N. D. Davies

Tac HQ Signals 29 Brigade
Taken in a school yard on the Inchon Road just after the Presidential Citation presentation to the 1st Battalion Gloucestershire Regiment and the 170 Independent Mortar Battery RA for their action at the River Imjin in April 1951

The Korean War deserves its title, 'The Forgotten War'. World War II, the Falklands, the Gulf War and other campaigns have involved our armed forces to some degree or other but to mention the Korean War to the public at large invokes little response. This year is the 50th anniversary of the start of the Korean War, one of the bloodiest wars in history. In 1950, Britain sent two Brigades to that war, the 27th Infantry Brigade and the 20th Independent Infantry Brigade, to be followed in 1951 by the 28 Commonwealth Brigade. Also heavily involved were the Royal Navy, the Royal Marines and the Royal Air Force.

It was the first war to be fought under the banner of the United Nations and throughout the next three years, a war of attrition was waged against the North Koreans and the Chinese as both sides fought the length and breadth of the Korean Peninsular. The first two years of the war were the worst. Men lived and fought in appalling conditions, in the stinking heat of summer and in the mind numbing cold of winter accompanied by the howling, freezing wind from Manchuria and Siberia. It was fought in the style of World War I and II. Hand to hand and trench warfare, armed with the personal weapons of World War II vintage, the .303 Lee Enfield rifle, the Bren, Sten and the Vickers. The movement of men, tanks and vehicles in winter temperatures well below -40°F and in summer temperatures reaching 105°F, and in the quagmire conditions of the monsoon season, stretched both machine and man to the limit.

Communications were, as in other wars, the lifeline that bound the units together. Both radio and landline links were vital. The repair, installation and recovery of communications equipment and cables in these extremes of temperature, plus the continuous movement of the fighting troops, tested Signaller's skills, resourcefulness and ingenuity beyond what could normally be expected. Communications were far removed from the sophisticated equipment of this computerised and electronic age. Our world was still the world of the 1939-1945 war. Radios, 19 Sets and 62 Sets. Tele 'F', Tele 'J', Tele 'H' telephones. Field and Fortress and 10 line Magneto Switchboards. Type 'X' Cypher Machines. D8 and D10 cables. Creed 7B WD Teleprinters.

As a Lance Corporal Tele Mech with 29 Bde Tac HQ from September 1950 to August 1951and then with HQ 1st Commonwealth Division until May 1952, I would like, through *'The Wire'*, to pay tribute to all the Royal Signals personnel that served and fought in that war. The Reservists, the Regulars and the National Servicemen. Many have since died but they and those that remain are a special breed and should never be forgotten. They carried out their duties in the best traditions of the Corp and under the worst possible conditions both militarily and climatically and as such played a major role in maintaining the Corps fine record.

Below is a unique photograph which was sent to me by **ex-LCpl Edwin** 'Ted' **Hodgetts MiD.** 'Ted' was a Despatch Rider and was Mentioned in Dispatches by the 29th Brigade Commander, **Brig Tom Brodie**. He now lives in New Zealand with his family but is not in the best of health due to injuries sustained during the war.

After 50 years the memory fades but certain faces remain etched. **Brig Tom Brodie, Maj** 'Tubby' **Marshall, CaptArmstrong. Lt Kirby, SSM** 'Paddy' **Flaherty, SSgt (FoS) John Le-Hardy, LCpl** 'Ted' **Hodgetts** MiD, **Cpl Bill Milne, Sigs** 'Bonny' **Bonwick, Ken Littlechild,** 'Busty' **Weeks** and **Roger Livesay, LCpls Jennings** and **Ward, Sig Cairns** and **Dvr Miles** who were captured by the Chinese during the Imjin River battle. For the record I am in the second row from the front and third in from the left. If any reader recognises himself or others I would be interested to hear from them. I can be reached on Tele/Fax: 023 92598970 or Email: mavedayies@tinyonline.co.uk.

NOTES FROM THE AO's DESK

Branch News: Maj (Retd) J. B. Greenwood, Hon Secretary of the East London Branch, has moved address to; 65 Bruce Grove, Wickford, Essex SS11 8RN. Tel: 01268-570 725.

Branch Secretaries List: Holders should amend the E-Mail address of the Bournemouth Branch Secretary on page 7 to read:- 'hhawke@lineone.net'

Cenotaph Parade: 12 November 2000. The RBL will as usual be organising the Ex-Service contingent attending the Parade and Service at the Cenotaph, Whitehall on Remembrance Sunday 12 November. All who have served under command of British Forces and War Widows/Widowers are eligible. Members should apply to this office for tickets. Members should assemble by 1010hs on Horse Guards Parade in time to march off at 1015hrs to Whitehall. The Corps representation will be in column 'F' and those attending should fall in on the 'R Signals' marker board.

New Life Members: The following members were enrolled in the period since the last issue of *The WIRE*:-

Name	Branch	Served
SSgt Andy Brown	RHQ	1976-00
Sig Matt Dorling	RHQ	1992-00
Cpl Colin Slater	York	1950-52
Cpl C.C. Young	East Kent	1957-66
Cpl Richard Huxtable	RHQ	1989-98
Sig Geoff Freeman	RHQ	1960-63
Cpl Scott Edmond	RHQ	1987-00
SSgt Geordie Thompson	Dorset	1975-99

ALDERSHOT BRANCH

Our Spring Luncheon was followed in May by our Annual Quiz Night. This proved to be a popular event and the attendance would have exceeded 100 had we not been limited in the number we could accommodate. We welcomed many old friends and made new ones, there were teams from the West London and Reading Branches, the WRAC Association and several Squadrons serving in the Aldershot Area. We have to report that the victory went to a visiting team from Reading. **Joe Fairbairn**, Garrisdon Sergeant Major and stalwart of the Branch, accorded us the facilities of his Mess. We would also like to thank him for all his hard work and that of his staff. **Neville Lyons**, our knowledgeable Quiz Master, was ably assisted by **Carole Thomas** in a very professional presentation. **Jimmy** and **Apple Ward** organised the raffle, the Committee having kindly donated the prizes. **Peter Sharpe**, our Treasurer, could be counted upon at the entrance. In fact all of the Committee lent a hand. Our Chairman, **Noel Moss,** and **Edelgard** organised everything superbly. Our President **Gen Henry Hild** and his wife **Janet** were there as, indeed, they are on all our social occassions. Ghurkas served us a delicious curry as a mid evening supper. Alas, it was our last opportunity for savouring this delicacy as sadly the Ghurkas leave our area later this year.

GLASGOW BRANCH

The year did not get off to a good start with the deaths of two of our founder members, **John Harris** and 'Monty' **Brydon**, whose obituaries were published in the April issue. A letter of thanks was received by me for the Branch members, from **Mrs Helen Harris**, with a copy of an acknowledgement letter from Erskine Hospital, to say that the donations to **Erskine**, in place of flowers at **John's** funeral, amounted to £498. The letters will be read out to the members, with **Mrs Harris's** appreciations, at the next Branch meeting. The monthly meetings are well attended, and we can boast of having several new members joining the Branch in recent months.

The Branch AGM was held on 16 May 2000, 26 members and eight associate members attended, several apologies were indicated. The Branch President, **Maj Gen A. A. G. Anderson CB**, sent his best wishes to the members as, due to an accident, he was unable to attend. The minutes of The 1999 AGM were read and passed by the members. The new committee was due to be elected at this AGM. **Bill Taylor** a founder member, and Chairman since the Branch was formed in May 1991, had indicated that he wished to step down. He stated that he would of course help, if necessary, any member taking over as Chairman. Two nominations were put forward, but both members declined to take up the post at present. Unfortunately, as in many associations and clubs, many members are reluctant to volunteer for the appointments on committees. A motion had been proposed to the Secretary in writing, that if those nominated did not take the post, then the Vice-Chairman **Joe Keegan**, should take-over as Chairman, also on that nomination, it was noted that the Branch Treasurer, **Eric McWaters**, and the Secretary, **Ivana Muir** (all three are Founder members), having indicated that they were prepared to continue in those posts for at least another year. That they be reappointed. The motion was carried unanimously. Under an OCB, **Jim Prentice** with **John McGregor** as seconder, made a motion proposing that, 'for his dedicated service as a founder member, and first Chairman of the Branch, **Mr Bill Taylor** have life membership of the Glasgow Branch conferred on him and a plaque to commemorate the event be presented to him. This was passed unanimously by the members. **Eric McWaters**, the Branch Treasurer, was in on the proposal, as was the Branch President, **Maj Gen Anderson**. The plaque, (which had been prepared for the AGM), would have been presented to **Bill** by the Branch President, but, not being able to attend, he asked **Eric** to do the honours on his behalf, and to tell **Bill** that, he was delighted to see **Bill** receive a thoroughly deserved honour, from the Branch Members, and was sorry be could not have been available to present it himself. **Bill Taylor** then thanked the members for all the support they had given him over the years. He said that, he was very pleased and surprised on receiving the plaque, as he had no idea this had been planned, but thanked the Members sincerely for the honour accorded him.

There being no further business the members adjourned to the WOs' & Sgts' Mess for refreshments and the buffet, provided by **Mrs Betty Taylor** and **Mrs Annice McWaters**. The members wish to thank them both for all their efforts. Mrs Margaret Brydon had been invited to attend and was presented by **Bill Taylor**, with a ladies' scarf with the Branch logo printed on it, enclosed in a chrome picture frame, with an inscription at the top, 'Atoken of esteem, from the Members of the Royal Signals Association Glasgow Branch', and at the bottom, below the 'Jimmy', 'In memory of **Montgomery Brydon**' a similar item will be presented to **Mrs Harris** later, as she is unable to attend functions away from the house. On Saturday and Sunday 20/21 May, several members accepted the invitation of the 1940 Dunkirk Veterans Association, West of Scotland Branch, to participate in the final tribute on the Saturday, with a Memorial Cruise on the motor vessel Skylark IX (one of the small boats that took the troops off the Dunkirk beaches), a short service was held aboard and poppy petals scattered on the waters of Loch Lomond. The last post and reveille were played and a piper played 'The Flowers of the Forest. A march past, with the salute taken by the West Dunbartonshire provost, **Alistair MacDonald JP**. The Branch Standard Bearer, **Bill McNamara**, paraded the Branch Standard among other standards at the march past on Saturday and Sunday. The final march past salute on Sunday was taken by **Comd R. Lord** RN.

There was a dance, bar and buffet on the Saturday night, where the raffle and other donations amounted to £1,848 in aid of The Erskine Hospital 2000 appeal. The cheque was presented to a nursing sister from Erskine Hospital, by local children, at the church service in Jamestown parish church, conducted by the **Rev Ken Russell BD**. The nursing sister thanked everyone for their generosity, mentioning that the hospital is in the process of increasing its capacity to cater for the ever increasing numbers of ex service personnel requiring treatment and it's only income to cover the costs are from donations. The three Dunkirk veterans in our Branch, were pleased that the Branch supported them in this their final parade. Their Association is now being disbanded. **Brian Warren** a Glasgow Branch Associate Member, and the Branch Piper, was a leading light in organising the veterans' final event, and our congratulations to him for making it a memorable one.

Seven members accepted an invitation to attend a lunch, in the WOs and Sgts' Mess of 32 (Scottish) Sig Regt (V) on Friday 26 May, and were treated to a first class meal with wine at the table, and a complimentary drink at the bar afterwards. This was a first 'Jimmy luncheon' the Regiment had attempted, with members from 52 Sig. I and the other members who were present, hope it will not be the last. It allowed the RSA Branch members to meet with members of the Squadrons we don't see on our monthly meetings. The Branch members convey their best wishes and thanks to **WO1 (RSM) A. B. Hilborn** and members of the mess, for an excellent lunch, produced by **WO2 Master Chef John Wren** and his staff.

34 members, families and friends took a coach trip to Dunfermline on Saturday 27 May organised by **Jim McMillan**. The weather was dull and overcast with intermittent rain, so most of the visit was spent in the shopping centre, under cover, before beading for Crossgates British Legion club for high tea. A very enjoyable meal produced by outside caterers, at a very reasonable price. We then whiled away time in the clubs and bars. After a few games of bingo, with some of our party having small wins, we made the trip back to Glasgow. A raffle had been organised on the coach for a bottle of whisky, a bottle of wine and a small teddy bear. On our return it was discovered that Glasgow area had been bathed in sunshine, this is becoming a habit of the weather with our trips away. **Bill Taylor** and **Ivana** managed to arrange to see **Mrs Helen Harris** at home, for **Bill Taylor** to be able to present her with a plaque, similar to that presented to **Mrs Brydon**, produced by the Branch, to the memory of her late husband **John Harris**. Members are now well ahead with preparations and raring to go, to the reunion at Blandford, trusting the weather improves.

EAST KENT BRANCH

On Saturday 8 April a small select group of eleven members led by the Chairman embussed in a minibus, kindly lent to us by **Mrs Jo Barrett** at what seemed like the crack of dawn, to go to Chelsea Barracks in London for the Royal Signals Association AGM, which started at 0930hrs. At a crossroads in Lewisham, we drew up at red lights beside a London bus. The Hon Sec glanced at the two lady passengers on the bus nearest to him and was surprised and flattered when both smiled sweetly at him. He suddenly realised the reason-on the side of our minibus was displayed 'The Parkinson's Disease Charity'. It was a smile of sympathy rather than endearment. The Chairman was quick to point out that he was sure they assumed that at least he was the 'carer' and on arrival at Chelsea Barracks he announced the arrival of 'The Royal Signals Association Parkinson's Disease Troop'.

On Sunday 9 April, another small and select group of thirteen members met in bright sunshine at Chartwell at 1230hrs and proceeded to the restaurant for lunch. Tickets had been booked to enter the house afterwards at 1330hrs and being a small group we were able to go round together and discuss the exhibits amongst ourselves. A walk through the gardens down to the studio coincided with a short talk by the curator on **Sir Winston's** life as an artist and a description of some of the many pictures hung on the walls around us. Did you know that he painted over 500, only one of which was painted during the war. He never had painting tuition and only sold three, for the purpose of paying for **Lady Churchill's** severe illness in 1965.

On 14 May there were some spare seats on the bus which took us to the Imperial War Museum at Duxford and those that went seemed unanimous that those who didn't had missed a splendid outing. Of course the weather was superb and traffic allowed us to get there and back in two hours each way. Most brought their own picnics and started off by sitting at the trestle tables in the picnic area and comparing hampers. There were five hangers full of exhibits to choose from. Most headed for the Land Warfare Hanger which has the largest collection of hardware of many nation's armies set in the terrain in which they were mostly deployed. The US Airforce hanger was most impressive, dominated by a B52 under, round or over which were many of the other US aircraft of yesteryear and today. The other hangers were 'working areas' where volunteers were working on reclaimed aircraft of every sort and painstakingly restoring them, in most cases to flying standards. Indeed throughout the afternoon many of the celebrated aircraft were rolled out and flown for the spectators to watch. It was very nice to be joined by **Sheila** and **David Geary** who had driven direct from their new home in Suffolk.

NEWS OF MEMBERS

Jack and **Rachel Dienst** have recently visited Sorento to reminisce on his exploits as a DR in the Italian campaign which he recorded in his book 'A Civilian in Uniform'. **Frank** and **Olive Castle** went on a cruise to the Canaries and kept an eye on **Gen Alan** and **Barbara Yeoman**. **Michael Barrett** took his grandchildren for a day's visit to the Dome (and survived). If you have heard about the auction by the Government of frequency bands for the next generation of mobile phones, you will not be surprised to know that **Trevor Allison** has been involved.

AU REVOIR

Maurice Bloomfield who had been a member from the early days of the Branch has had to disband the local Branch of 'Guide Dogs for the Blind' because of a lack of support from anyone to run it. At the same time he has decided that it is time for him to give up the Branch. He served with **Harvey Blizzard** in 26th Indian Div and with the late **Bill Brewin** in the 45th Wessex Div and has fond memories of both **Harvey** and **Hazel**. We, too shall miss him.

NEW MEMBERS

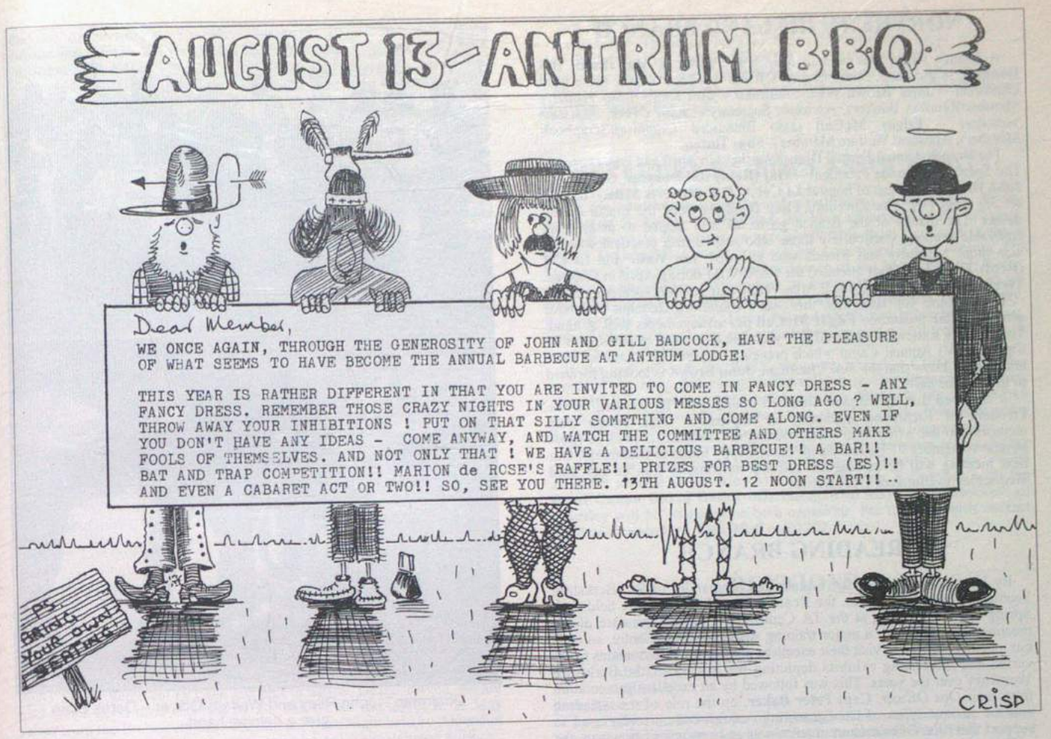
We are delighted to welcome six new members. **Mr** and **Mrs Christopher** and **Rosemarie Beard** of Chatham. **Christopher** served in the TA from 1959 to 1967 as a Lance Corporal in 329 Sig Sqn (TA) at Bromley and is one of several from that Squadron who have now joined us. **Mr** and **Mrs Geoffrey** and **Jean Randerson** of Sittingbourne. **Geoffrey** was an apprentice at Harrogate and served as a Regular from 1952 in Korea, 5 Corps Sig Regt in Colchester, 3 Inf Div & Sig Regt and 7 AGRA(AA). **Mr** and **Mrs Clifford** and **Sarah Young** of Faversham. **Clifford** served as a Regular from 1957 to 1966 in the rank of Corporal in UK, BAOR, Cyprus, Jordan and Aden.

NORFOLK.BRANCH

The Norfolk Branch has recently held their AGM with the result that several new members are now manning the fort. Thanks must go to the outgoing Chairman, **Frank Mortlock**, for his hard work and dedication over the last couple of years. A special mention also goes to our outgoing Secretary, **Brian Gibbs**, who has been in the post over nine years, ever since the Branch was formed. In their place, **Maj (Retd) Mike Sexton** takes the helm as Chairman whilst **Steve Nobbs** has the hard act to follow **Brian** as the Branch Secretary.

Our annual dinner at the Hilton Norwich was again well attended and well enjoyed. Our guest of honour was the Assistant General Secretary, **Lt Col (Retd) Ian Hamilton** and his wife **Elizabeth**. This was the first time that they had dared to venture to Norfolk. Lets hope they come to see us again. (Photo below)

We recently had some bad news when our Vice-Chairman, **Gordon Royall**, suddenly died. **Gordon** was our first Chairman when the Branch opened, and was instrumental in setting it up to what it is today. He will be sorely missed.



HUDDERSFIELD BRANCH

The Branch had its first speakers lunch last year, The speaker was **Capt G. Tyndale** and her Yeoman of Signals **SSgt P. Winstanley** from 219 Sig Sq, 2 Sig Regt. **Capt Tyndale** gave an illustrated talk on the role played by today's Signallers, and was thanked by the Branch Secretary.

The annual Christmas get together was again held at the Greenside Arms, Waterloo, Huddersfield, and was attended by 30 Members and their guests. This year we intend to hold more speakers lunches, to be held on Sundays thoughout the year.

(L-R) Back Row: Mr R. Pawson (Treasurer). Mr P. Berry, Mr P. Smith, Mr J. Rosendale, Mr D. Crawshaw, Mr D. Pollard, Mr A. Dunn, Mr J, Dearden and Mr P. Ling.
(L-R) Front Row: Mr J. Hirst (Chairman), Mr G. Scott (Secretary), Mrs B. Mellor (President), Mr D. Tippen (Deputy Chairman)

NORTHERN IRELAND BRANCH

A Branch AGM was held in May with President, **Maj (Retd) Bill Douglas**, in the chair. Some Branch Offices were rearranged, these were Chairman – **John Brown**, Vice-Chairman – **Jim Reilly** (also Property Member/Reunion Banker), Assistant Secretary – **Kim Greer**, Assistant Treasurer – **Edgar McCall** (also Blandford Organiser/Scrapbook Member), Assistant Welfare Member – **Sam Totten**.

The Branch Annual Formal Dinner was held in April and was a success. The Speakers were the President – **Maj (Retd) Bill Douglas**, Chairman – **John Brown** and guest of honour **Lt Col A. P. R. Roberts MBE** – the CO 40 Sig Regt (V). The Ravenhill Flute Band provided the music during dinner. The thanks of the Branch go to all who helped to make it an enjoyable evening, particularly those who helped in a practical way but also those Members and friends who attended. **Ian Wolfe** and **Lt Col (Retd) Terry Lightfoot** attended the RSA AGM during April in Chelsea. **Terry Lightfoot** was appointed Area Vice-Chairman for Northern ireland.

By the time you read this, this year's Blandford Reunion will have arrived. In the meantime **Edgar McCall** has arrangements well in hand. The party is somewhat depleted this year due to a clash of dates with 40 Sig Regt (V) Annual Camp which prevents our serving Members from attending. I know that the new Chairman, **John Brown** is looking forward to leading the party.

It is hoped that the Branch Standard Bearer will 'fly the flag' at the Freedom of Richmond ceremony in September. This brings back memories to the writer who when training in Catterick in 1945/46 (does anyone remember 97 Squad?)spent many happy hours in Richmond. Our next meeting will be in August. You are welcome to join us any third Wednesday in Clonaver TAC, Belfast

READING BRANCH

By kind permission of the Squadron Commander of 94 (Berkshire Yeomanry) Signal Squadron, the Reading Branch of the RSA held their Spring Branch meeting at the TA Centre in Windsor. The date of the meeting coincided with a major training weekend at the Centre, so after our meeting we able to visit their excellent museum, which contains many varied and interesting exhibits depicting the history of the Berkshire Yeomanry over the years. This was followed by an excellent presentation from their Ops Officer, **Capt Peter Baker**, on the role of the squadron and the various types of Clansman radio equipment currently used to support that role. Of even more interest was an overview of Bowman, the next generation combat net radio system, and how this will be used by the Squadron in the future. Proceedings ended fittingly in the Squadron bar where, along with suitable liquid refreshment, we all enjoyed an excellent buffet lunch! For particulars regarding Reading Branch, please contact **Alan E. Foot** on 01189261952.

SALE BRANCH

After 12 years of existence the Sale Branch of the Association feels that it is now time to be identified as an ever growing organisation and this is the first article on the activities of one of the younger Branches who at this moment in time have 32 members on their books .

We saw out 1999 in October with our usual annual Social night at the Ashton on Mersey Golf Club where the only rounds being played were swiftly executed across the Bar. We were entertained by the 60's and 70's Band 'INDIGO' who were the back up group to Herman's Hermits on many of their tours. Thus the bunions, blisters, gout and all the other ailments of us Old Soldiers were cast to one side and the 109 members and their guests rocked the night away. **Capt Frank Lawson**, our President, laid a wreath at Sale Cenotaph on Remembrance Sunday where we paraded with members of the United Services Club behind the Standard carried by our Standard Bearer, **Derek Blain**. The Royal Signals contingent were well represented with a total including ourselves of 200 ex-servicemen parading. In December we had a successful Pie and Peas Night in the Service Club. Many tales were told over a pint - some as long as a fisherman's tale - and we have a few of them.

In January for the new Millennium we held our first ever President's Night. Although having been in hospital for many months in 1999, **Capt Frank Lawson** ably assisted by his lovely wife **Dorothy**, organised a superb evening for all the members and their ladies. The meal was of gourmet standard at the Lennox Lea Hotel in Sale and the President's guest, **Maj Chris Reynolds-Jones** - President of the Manchester Branch, gave us an insight of his career in the Royal Signals. During the evening a presentation was made of a decanter and glasses with the insignia of the Royal Signals to our Padre, the **Reverend Ray Rossiter,** in recognition of his award by the Queen of the OBE, a well deserved distinction.

Our annual long weekend in May was a return trip to the Emerald Isle where 51 members and their guests stayed in the town of Dungarvan, South West of Waterford the home of Waterford Glass, where a few members made purchases from the superb selection in the showrooms.

As usual whilst all England were enjoying a heat-wave, mist and drizzle descended on our heads but this gave us more - encouragement to sample and enjoy the Guinness. In the morning when breakfast was served many bedroom doors had the 'do not disturb' sign displayed so a good time was had by all.

Chairman – John Riley and Welfare Officer – Derek Blain give a helping hand

The members have asked that the following be mentioned for their hard and sterling work that has gone on during the year, **Capt Frank Lawson** our President at 82 and after lengthy stays in hospital is always there with a guiding hand, Secretary **Martin Quinn** who writes down the minutes of our monthly meetings while hurtling down the motorway from anywhere in the country to be there on time, our Chairman **John Riley** one of the nicest full backs to ever don football boots in the Cheshire area -the scars still show and that was in the 50's. He greets every members wife with the same enthusiasm which he had for scoring a goal - the first player to kiss his fellow man on a football field!! Our Welfare Officers **Derek Blain** and **Gary Robertson** are always around to assist and comfort those who need a chat or help in any way and last but not least **John Deas** our Treasurer and Social Secretary who is too modest to say that this is all his doing,

President's PS: Unfortunately ***John Deas****, inundated with his many commitments, is retiring at our next AGM, it will be very hard to replace such an enthusiastic and efficient Social Secretary/Treasurer.*

SOUTHAMPTON BRANCH

The 53rd Annual Reunion Lunch for the Southampton Branch took place on Sunday 16 April 2000 at the Hampshire County Cricket Club, Northlands Road, Southampton. The lunch was well attended with sixty-four members including our guest speaker and representatives from the Reading, Winchester, Aldershot and Salisbury Branches. We were also pleased to have **Roy Andrews** and his wife **Patricia** representing Area 4. **Capt. C Cluett** our Hon. Treasurer said grace. After lunch, toasts were proposed to:

Her Majesty the Queen	-	**Mr S. L. Smith**
The Princess Royal	-	**Brig J. C. Clinch CBE**
The Royal Corp of Signals and the Royal Signals Association	-	**Mr N. D. Davies**

Our Branch President welcomed all our guests in his usual inimitable manner before introducing our guest of honour, **Capt. Sarah Stonier. Sarah's** response and her talk about her Service career over 23 years was a true eye-opener. After joining the WRAC at the age of 17, she transferred to the Royal Signals on the demise of the WRAC. The trials, tribulations and yes, prejudice encountered on the journey to her well earned Commission, could not fail to invoke much admiration for a 'gutsy' lady, as the reception to her speech showed. She also displayed a sense of humour as, with the occasional expletive, she described various events in her career. The consensus was that **Sarah** was and is a great asset to the Corps.

Our Vice Chairman, in his closing address brought our attention to Branch Members **Nancy** and **Fred Griffiths** who celebrated their 65th

Wedding Anniversary on Thursday 20th April. All present offered their congratulations. Our thanks to **Mrs Ruth Dear** and **Mrs Janet Mitchell** for organising and running the raffle. Members, as always, were very forthcoming with raffle prizes and the grand total of £125 was realised. All Branch Members greatly appreciated the efforts made by the Committee and others, in the organisation of such a successful reunion lunch. Our thanks also to **Richard Marsden,** the Manager of the Cricket Club and all his staff, who once again did us proud with a well-presented and excellent lunch.

It was most unfortunate that our Chairman, **George Packer**, could not attend the lunch this year as he was attending the AGM of the 'Market Garden Veterans Association', of which he is Vice-Chairman.

Top Table
Joan Stuart, Sidney Smith, Sarah Stonier, Johnny Clinch, Ruth Dear, Chris Cluett

WEST LONDON BRANCH

Although we had to forego our last monthly meeting, some of our members have been active in attending events taking place at our neighbouring Branches. Our Chairman, **Ron Miller** and his wife **Pat** were among those who visited Brussels on the annual weekend organised by 31 Signal Regiment (V), the last unit in which 'Dusty' served. we are told that a good time was had by all, and we do not doubt it. In May teams from the Branch attended the Annual Quiz Night held by Aldershot Branch. We were made very welcome and enjoyed a Curry Supper , prepared and served by the Ghurka unit in their area. It was a very good evening.

31 SIGNAL REGIMENT ASSOCIATION

May was a busy month, with committee meetings, the AGM and the annual trip to Europe. The committee led by our Chairman, **Col Donald Crawford**, continue to do sterling work trying to find spelling mistakes with our Secretary's, **Henry Holman**, typing. The AGM was well attended and once again our thanks go to **George Collins**, who volunteered to be the 'Fish and Chip' member, they were most welcome after all our deliberations. The highlight of the month was our long weekend in Brussels. This was organised by our Social Secretary, 'Dusty' **Miller**. We moved on to Plan 'B' fairly rapidly when we got wind of the French dock workers strike at Calais. We were down that tunnel before you could say Colditz! All this hassle interfered with our normal routine of, 'Let's drink the ferry dry!' Not to be done out of it all together, we stopped at the first wine and spirit warehouse, topped up and were on our way. The drink of the weekend was a gin and port mixture and very nice it was too. (hic!)

Our picture shows a few of our members looking happy. By one or two of them thought that the Eiffel Tower was a different shape? Plans are now in for next year's trip.

July was our next busy month with the following events taking place:

2 July Royal Star and Garter Summer Band Concert
14 July The Royal Military Tattoo 2000 at Horseguards
23 July Visit Denbies Vineyard for a Wine and Dine Day

For further details of these events contact 'Dusty' on 01784 250756.

We have just received the news that a former member of the Regiment, **Maj Tim Willis**, has died.

BEVERLEY EX-BOYS ASSOCIATION

We are continuing to grow and now have 137 members. At the suggestion of **Archie Mulholland**, we have advertised in the Glasgow Daily Record as there were a number of lads from Scotland in the 6 (Boys) Training Regiment, and we have received a few replies. On Sunday, 7 May, we held a Carvery Lunch at the Marric Hotel, Poole, which was attended by 20 members, including guests. At this Lunch we were able to welcome new members, **Alan Davies** and **Peter Gray**, together with their wives. **Terry Poingdestre's** two brothers joined us, both of whom are ex-army, and one of them was on a visit from Jersey. A great time was had by all.

In the last issue of *The WIRE*, we mentioned that **Cliffe Webb** was probably the longest serving ex-Beverley boy. Our Branch Secretary, **Tony Hull**, received a phone call from **Ray Webb** to say that he had served from 1939 to 1982 but he was a member of 'F' Company, not a Beverley Boy. However, we do congratulate him on his long service.

The 50th Anniversary Reunion weekend will take place with a dinner on 7 October at the Museum of Army Transport, Beverley. There will be a church service at Beverley Minster on Sunday, 8 October, with the **Revd Canon David Bailey** officiating. The Mayor and Mayoress of Beverley will be attending on both occasions. For further details contact the Branch Secretary, **Tony Hull** on 01202-770261.

REUNIONS

From: **Derek Reid**
27 Kempton Avenue
Northolt
MIDDLESEX
UB5 4HF

Dear Readers,

I recently e-mailed the Royal Signals Museum to seek some form of assistance and they have kindly put me in touch with *The WIRE*. I served at No 280 Signals Unit, RAF Troodos during the period December 1974 - December 1976. I am now trying to establish whether or not it will be feasible to hold a reunion, this would obviously include ex-members of No 259 Sig Sqn. Troodos being such a small unit, the guys from 259 Sig Sqn played a major part in camp life, and as such a reunion would not be complete without them being involved. The names that immediately spring to mind are as follows:

Names	Towns/Areas of Origin
LCpl Jim Duncan	Bedworth, Warwickshire
Sig Brian Shave	Newbigging, Tyne & Wear
Cpl Sam Mosedale	Cornwall
Cpl 'Daps' **Price**	Liverpool
Cpls Jim and **John Marshall**	Airdrie
Sig Rob McBride	East Kilbride
Cpl 'Mac' **McIntosh**	Edinburgh

My contact numbers are as follows:
Home: 020 8422 5053
Work: 020 8992 5344 extn: 462
Mobile: 0771204 7639
E-mail: derek.reid@bbc.co.uk

'F' BOYS COMPANY ROYAL SIGNALS 1920-41 REUNION

The ninth reunion of 'F' Coy members will be held at the Union Jack Club, Sandell Street, London, situated just behind Waterloo Station on 20 September 2000. There will be a private room with bar (larger than last year) from 1100 hours until 1500 hours. A curry lunch will be provided or an alternative meal if we are advised well in advance. The cost this year is £15.00. Invitations will be sent out in June to members who are currently on our list, but all who served in 'F' Boys Company 1920-1941 are eligible to attend. Contact is the Hon Secretary, **Victor Dugdale**, 12 Deep Well Drive, Camberley, Surrey. GU15 2HF. Tel: 01276 29176.

260 SIGNAL SQUADRON OLD COMRADES ASSOCIATION

Some came by plane, some came by boat, car and caravan, others via the Channel Tunnel, to our reunion in 'Dortmund' Germany, joining two members **Peter Lori** with partner **Rita** also **John** and **Anna Seymour** who

still reside in Germany. It was marvellous to see 24 members from far and wide, intent on enjoying themselves and they certainly did. The weather was kind to us, more like midsummer than early May with temperatures soaring to 30 degrees centigrade. The majority arrived on Friday 12 May and were quick to find the watering hole, a snug little bar in the cellar of the 'Drees Hotel' our home (the Hotel I mean) for the weekend. On the Saturday morning a little the worse for wear (say no more, Secretary) it was time for a little nostalgia. Members made their way to various parts of Dortmund they were once acquainted with, Lunen, Massen Brackel and Napier Barracks (which is no more) now a golf course, to name but a few.

Steve and **Ulla Freeman-Pannett** teamed up with **Geoff** and **Beryl Scott** accompanied by their youngest daughter, **Heather** and visited their old quarter in Summern. **Heather** was born in December 1973 at the nearby BMH at Iserlohn, not found on this visit, (has anyone got a map reference for **Geoff**?) **Heather** decided to play in the sandpit that her older brother and sister had played in 26 years previously, when they lived there. The road system had changed a little and there were more houses, but they could still identify with their flat. Several members visited nearby Westfalen Park, which was having a Motor Show, **Roy** and **Pat Andrews** were impressed and almost came away with a brand new Mercedes, cars appear to be 1000's of pounds cheaper than in UK.

At 1800hrs. on Saturday everyone appeared for our Annual General meeting and dinner. Photographs were taken mostly by **Heather Scott**, who was afterwards voted honorary photographer for 260 Sig Sqn. We were all pleased to see our Chairman, **Maj (Rtd) Tony Morgan**, back in harness after a long struggle with illness, he was accompanied by his charming wife **Ann**. We were pleased to welcome, for their first re-union , **Heather Scott** who joined her parents, now become an associate member, **Peter Lori's** partner **Rita, Archie** and **Hilda Cairns** and **Ted Williams**, also in our midst we had an old soldier **Joe Radford**, who was a National Serviceman in 1952 in Dortmund, he was in the Royal Artillery. After a lot of leg pulling ie: 'Plankie' He asked if he could join with his wife as an associate member of the Branch, everyone agreed. Well done, **Joe** and **Brenda** we enjoyed your company and look forward to meeting you again on another occasion.

During dinner a toast was made to absent friends. After dinner it was back to the cellar bar to listen to tales and anecdotes of Dortmund and Ireland in 60s/70s. Everyone was saying how delighted they were that they had decided to come to Dortmund for the re-union. Our thanks go to **Peter Lori** for finding the Hotel and putting in the ground work. On Sunday morning some members disappeared as quickly as they came, to catch boats etc., others caught planes in the evening to return to work on the Monday, back to reality. A few stragglers hung on till Monday making a long weekend of it. What can I say? It was a wonderful weekend. See you all next year in Southend.

REUNION

Calling all ex 4 Div HQ and Sig Regt members who served in 4 Div between 1963 and 1966.

For the past two years the Ex 4 Div Corporals' Mess Reunion has taken place, in Morecambe, on the first weekend in December. The numbers in 1999 were double those of 1998 and the general opinion was that they were great reunions.

By request of all those who attended last year it is now proposed that the reunion be opened to all ranks who served in 4 Div between 1962 and 1966 thus allowing more former colleagues to attend.

If you would like to take part then let's hear from you.

For details contact: **Les Downie**
4 Winchester Close,
Heaton with Oxcliffe, Morecambe,
Lancashire,

LOST COMMS

George Montgomery would like to contact anyone who served with 1HQ Signals 39/40 especially if they were in 7LM Section, and then with 21 Army Group from 1940 until the end of hostilities, again especially 16TM Section. Does anybody know which beach we landed on? I can be contacted: 101 Millhill, Musselborough, EH21 7RP. Tel: 0131 665 2044 and his E-mail: honestlad@talk21.com

John Bright (Advanced Wireless Section – 1st British Corps 1942-45/46), would like to hear from former friends/colleagues who served with this unit from 1942 in Barnborough (Yorkshire) via West Kilbride, Weybridge and 'Juno Beach' on D Day through France, Holland and Germany until reaching Iserlohn. Reunions are held on an annual basis. Already in touch are 'Hash' **Harkin**, **Jack Walsh**, **Ken Hands, Johnny Sharples, Cyril Dorman**, 'Jacko' **Jack** and **Doug Smith.** For details please contact **John Bright**, 22 Merrillies Crescent, Holland on Sea, ESSEX, CO15 5XX.

Dear Readers,

Since 1994 I have been researching the British Force, Task Force 135, which liberated the Channel islands (Operation 'Nestegg'), after five years of German occupation, in May 1945.

Recently I have completed my research on the composition, training, marshalling, sailing and landing of the Force in the Channel Islands and I am now concentrating on the senior officers of the units involved.

The Royal Signals Museum were unable to supply me with information regarding the Royal Signals officers (biography, obituary, medals etc) and or their units which I have listed below:

Maj M. G. Gordon-Wilson
Deputy Chief Signals Officer (Stationed in Guernsey) & Commander Det Force 135 Sig Sec (Guernsey, Alderney & Jersey).

Capt W. P. James
4 Wrls Sec Type P (Guernsey & Jersey)

Capt J. Worley
110 Constr Sec (Guernsey & Jersey)

Lt W. E. Garrett
Force 135 Cipher Set (Guernsey)

Lt T. A. Hudson
Force 135 Indep Sig Coy HQ (Guernsey)

The Archivist suggested that should I contact *The WIRE* some of the older readers might be able to help or may even have taken part in Operation 'Nestegg' and thus be able to offer further information. I look forward to hearing from you.

Yours Sincerely…….

George Sharp, who served from 1955 to 1958 in Catterick, Cyprus and Aden, would be pleased to hear from anyone who remembers him. Contact him on: ann@uk.dreamcast.com

Maj (Retd) L. B. H. C. Baker, of Dipford House near Taunton, TA3 7NR, would like to hear from any other survivors of 27 Line Section, who built a railway along the River Quai in Siam in 1942-45.

Robert Nichol is seeking the present whereabouts of his father, **Robert James Nichol**, who served in the Corps during the 1950s and 1960s. He served in the Himalayas and his last known address was in Melbourne Australia. Anyone who can help is asked to call **Robert** on 01554 773 572.

David Mathieson is seeking the whereabouts of any of his pals from No. 22 Tp, 7 Selection Regiment from August 1948. **David's** address is:
3017 Dover Road SE, Calgary, Alberta CANADA, T2B 1VB

Mr J. W. Bunker is seeking the whereabouts of his old pal **Fred Randall**. **Fred** served in 75 TE, 2 L of C Sig Regt during WW2 and used to live in the Birmingham area. Anyone who can help, please call **Mr Bunker** on 01428 644734.

CORRESPONDENCE

Dear Sir,

I was very interested to read the letters from **Mrs Vickers** (December 1999) and **Lt Col Soward** (March 2000) as I served in both of the Greek campaigns: 1940/41 (a very raw sabaltern IC 5 Line Construction) and in 1944 (as a Captain in 18 LofC - a unit re-roled back to its original 3 Corps Signals). I remember the concern when the RAF HQ was over-run by members of ELAS, the military wing of KKE (Greek communist party). We heard that the rebels had liberated their prisoners boots then marched them unceremoniously into the hills. **Gen Nalder** in his History of the Corps says, '... made POW...for a short period' but gives no further details.

About this time I was repatriated on PYTHON so have no further information but will research further and if successful I will write to **Mrs Vickers**.

5 Construction Section was raised in Palestine in 1940 from locally recruited Jews with a leavening of UK personnel some regular ex-infantry signallers and R. Signals NCOs. Trained in permanent line for the Haifa to Bagdad route, the Section spent its time laying D8 cable round rapidly moving airfields. With so many Jews we were high on the evacuation list but by chance, another story, were on the last convoy from Kalamata.

Yours Sincerely……

Dear Editor,

On a visit to Paris recently, I was intrigued to find, in the gardens behind the Palais Royal, a sculpture which (I feel) must have been inspired by the 'White Helmets" I am sorry that i found it at dusk, so that the picture is not very clear. However, it clearly shows several half 'Jimmies' with bits of motor-cycles.

Yours Sincerely.....

Dear Sir,

With reference to the June 2000 issue of *The WIRE* and the notes from Beverley Ex-Boys Association asking if anyone could beat **Cliffe Webb's** ex-boy service of 41 years. I joined as a boy in February 1946 and finished as a PSAO with 71 (Yeomanry) Signal Regiment in August 1995. A total of 49 years plus. Sorry **Cliffe**! As you know a 254 OBA will always take over from a Beverley ex-boy! Can anyone beat this?

Yours Faithfully…….

Dear Sir,

May I, on behalf of the Korean War Veterans Association (R. SIGNALS), express our sincere thanks to one and all for a fabulous weekend, at the RSA Reunion at Blandford Camp on 24-25 June 2000.

We look forward to our next visit, God willing, to both see and make further acquaintances with Corps members.

Yours Sincerely.....

Dear Sir,

Mr K. A. Wheatley's letter (*The WIRE*, June 2000, page 299-300) raises the issue of the forgotten 'Army Emergency Reserve'.

At a recent dinner neither a Lieutenant Colonel nor his Adjutant had ever heard of the AER. Even more astounding, I received a letter from the Royal British Legion HQ, some time ago, addressed to **'Mr F. S. Erd'** - the forgotten decoration?

Yours faithfully.....

Dodd - Capt A. M. Dodd. **Alan Dodd** died shortly after his 80th birthday on 2 November 1999. Born in Liverpool he was educated at Wallasey Grammar School and Devonport High School. After obtaining a high placing in a competitive Civil Service examination he was appointed as an Assistant Traffic Superintendent in the Post Office where he began to acquire the skills and experience which led him to Royal Signals. Shortly after the outbreak of the Second World War he enlisted and was soon commissioned in the Corps. Embarking in his native city he sailed for North Africa where he fought with the Eighth Army and then on through Sicily and Italy until 1945 when he arrived

in Trieste. There he met and married his wife **Bianca**. Demobilised in 1946 he returned to UK but found life there uncongenial and he re-enlisted in 1953. He served in 2 Wireless Regiment (now 9 Signal Regiment) throughout the EOKA terrorist campaign in Cyprus and finally retired to his beloved Trieste in 1959. As a technical agent importing British made marine machinery he established a thriving and successful business in Italy. A life member of the Royal Signals Association he was a kindly man, a good companion in all circumstances and a most loyal friend of all who served with him. Those of us who knew him well will miss his cheery 'keep in touch' telephone calls from Trieste and his frequent visits to UK where he never omitted to contact his old comrades. To **Bianca** and their son **Alan** we send our deepest sympathy in their loss.

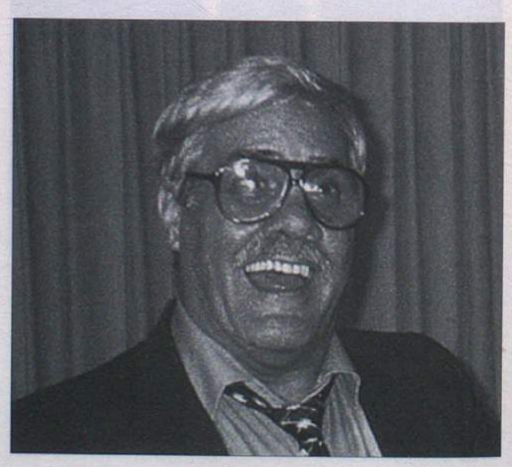
Curtis - Maj G. D. Curtis OBE Served 1939/46 and Died 21/04/00. It is with sadness that we have to report the death of **Maj Garth D. Curtis OBE.** A Royal Signals Life Member and a Member of the Southampton Branch of the RSA, he died peacefully on the 21st April 2000, one month short of his 84th birthday. **Garth** served with the 8th Army in World War II. He is survived by his three children, **Tishy, Libby** and **Roger**.

Worth – Col J. F. Worth OBE. The death of **Col Joseph Frederick Worth** on 28 February 1999 aged 95 severed the last living link between the Royal Engineer Signal Service and the Corps. He served the Army and his Corps for 40 years with gallantry and distinction, and was to become one of the Corps' experts on 'permanent' communications.
Freddie Worth was born on 20 December 1904 and joined the Royal Engineers Signal Service in August 1919 at the age of 14, because of the lack of job prospects and a strong family military tradition. He completed his initial signal training with K Company attached to the GPO. In 1920 he was posted to Aldershot Command Signal Company where he began playing football and cricket. In 1920 he transferred to the newly formed Royal Corps of Signals as a founder member, but continued to serve in Aldershot at the main W/T station. In 1925 he became eligible for overseas service and was posted to B Corps Signals in Rawalpindi where he took up hockey. After five years in India he returned to England and joined J Infantry Brigade Section, 4th Divisional Signals initially at Colchester and then in Canterbury where he acted for a year as Pay Sergeant. In 1935 he was appointed as Permanent Staff Instructor to No.1 Company, 50 (East Anglian) Divisional Signals TA at Stratford in East London. In 1938 he returned to India to join Kohat District Signals where he again acted as Pay Sergeant.
In February 1941 he was commissioned in the field and posted as Brigade Signal Officer to the Nowsherra Brigade at Peshawar in the rank of Captain. Between May and August 1941 he suffered from a severe bout of Typhoid Fever but was fit again by January 1942 when he joined a newly formed Indian Signals Lines of Communications Unit as Second-in-Command. During this time he took part in the retreat from Burma leading to the battle of Imphal. In 1943 he took over command of S Line of Communications Signals covering the Arakan sector of the Burma front. This unit had an extensive commitment covering some 200 miles building permanent line trunk routes to Corps and Divisional Headquarters, many airfields and the development of Akyab and Ramree Islands as Air Supply Bases. His Unit made a major contribution to the advance of the 14th Army in Central Burma leading to the capture of Rangoon. For his contribution to the war in Burma he was Mentioned in Despatches in 1942 and awarded an OBE in 1944. In 1945 he was promoted to the rank of Colonel to become Deputy Chief Signal Officer initially with 505 District covering North and Central Burma and later South Burma. He returned to the UK in June 1946 and in September of that year he became CO of No 2 Depot Regiment in Thirsk and Ripon.
He left the Army in August 1948 and became Communications Officer for the International Refugee Organisation in Geneva, however, he remained a Major in the Army Volunteer Reserve. He rejoined the Army in 1950 to serve as Senior Liaison Officer for Signals Work Services based with Signals Branch in BAOR where he was responsible for the overall control of the provision of Bundespost circuits for all Services and including the planning and building of communication services for the new Headquarters at Rheindahlen. In 1955 he was attached to the British Embassy in Bonn as a military advisor for negotiations on the British Army's role in Germany.
Freddie finally retired in 1959 and moved to Tewkesbury where he spent the next ten years as Civil Defence Officer for Gloucestershire. Later in life he discovered he was a talented artist and his home included many examples of his work including delightful watercolours of views of his local area. He was a life member of the Royal Signals Association, and a holder of the 50-year badge and a long serving President of his local Branch.

Noble - John Noble died suddenly and unexpectedly in Dundee on 14 April 2000 aged 86. **John** was born in the shadow of the First World War and was later to be involved in the Far East during the Second World War. **John** led a full and varied life which could almost be divided into two distinct parts. Thirty-two years was spent in the jute industry in and around Calcutta. His time in India was interrupted by his service in the Army. He first joined the Bengal Artillery in 1938 - part of the Auxiliary Force India, equivalent to the TA today. He went on to Quetta and from there to Burma. He became a Major in the Royal Corps of Signals and it was in this rank that he was present at the recapture of Rangoon. He received a Mention in Dispatches for his services. After the War he returned to India with his new bride, **Ruby**. Always a gregarious and sociable man **John's** time in India was an interesting and absorbing one. He served his time as President of the Barrackpore Club and was an active Golf and Tennis player.
After he and **Ruby** returned to their roots in Scotland in 1968, **John** began what almost amounted to a fresh career in auditing and accountancy. That was another thirty two-year period and saw **John** continuing to work into his seventies. After his retirement from India he was active in many organisations in Dundee not least being the local branch of the Burma Star Association of which he became President.
John had a happy life, ably supported by **Ruby** and by his two sons **Ian** (at present a Lieutenant Colonel in the Corps) and **Douglas** in both of whom he took great pride.
John's funeral took place in Dundee on 22 April and was conducted by **Bishop Ted Luscombe**, himself a Burma Star Veteran, assisted by the **Rev David Shepherd**, chaplain of the Dundee Branch of the Burma Star.

Merkin – Sig H. Merkin. It is with regret that the Hull Branch of the Royal Signals Association report the death of **Harry Merkin** on Sunday 2 April 2000. **Harry** served in the Corps from 1942 to 1947 as a Wireless/Operator and was wounded in Normandy whilst serving with the 4th Air Formation Signals Regiment, rejoining his unit after recovering -in England. He later served in Palestine. He was a staunch member of the Hull Branch of the RSA and will be missed by his friends. We extend sincere condolences to his wife **Pat**, his family and all his friends.

O'Shea - Terence O'Shea. It is with great sadness that the Beverley Ex-Boys Association report the death of **Terry O'Shea**, who passed away on 25 April 2000. **Terry** was born on 2 June 1934 and joined the army as a boy in 1950. He was sent to Beverley to join the 6 (Boys) Training Regiment where he made quite a name for himself in the boxing team as a middleweight under the wing of **QMSI Jameson** and PT Instructor, **Lew Cantrill**. One of the events he is remembered for is the Individual Boxing Championship held at AAS Arborfield, where **Terry O'Shea** and **Andy Fish** both won their matches. This was the first time the Regiment had entered an outside boxing contest. **Terry** served at Beverley until he was seventeen and a half where he won many trophies in boxing and putting the shot. He gained the highest aggregate of any individual competing in the All England Schools Competition, setting up a new record for putting the shot with 48ft 4ins. This record was held until 1965 when it was broken by John Savage who took the record and went on to the Olympics. **Terry** served in Egypt as a field linesman, where he was stationed at Fayid and then went back for the Suez Crisis. After he left the army he had quite a flamboyant career as a chauffeur, driving for various film stars such as Anita Ekberg, Shirley Bassey and George Peppard. George Peppard was so impressed with him that on his departure from England he presented **Terry** with the keys and logbook of the white Rolls Royce that he had been driving for him. **Terry** set up his own car hire company and also worked as a chauffeur for Sir Laurence Olivier, with **Anita** acting as housekeeper. **Terry** had been very pleased to meet up with his old comrades at our first Reunion last year, where he is seen on the left of the photograph with **Andy Hutton** (previously Fish).
We were represented at the funeral service at the Church of the Holy Apostles, Pimlico by **Tony Hull, John Beasley, Jim Mellett** and **Michael Delicata-Bennett**. **Terry** leaves five children, **Susan, Paul, Lorraine, Lisa** and **Vincent** and an adopted son, **Jason**, as well as 15 grandchildren and two great-grandchildren. We extend our deepest sympathy to **Anita** and his family.



Shrimpton – Col G. H. T. Shrimpton CBE, TD, ADC. Few officers have had the privilege of raising a Regiment from scratch. To **George Shrimpton**, seemingly against all odds, it came twice. Commissioned in 1934 into AA Signals (TA) he rose quickly from subaltern in May 1938 to acting major (2IC) on 1 December 1939 on the rapid expansion of AA Command. Thereafter, however, his 'home service only' medical category caught up with him and his war was spent alternating between 2IC and company commander as more senior officers returned to the UK.
When the TA was raised again after the war, he was astonished to be asked to raise and command 11 AA (M) Signal Regiment (He recruited two Lieutenant Colonels as Majors). After two extensions of that command and a brevet colonelcy he was asked to raise and command a new Supplementary Reserve Regiment, London District Signal Regiment. This appointment was extended by four years after which he was promoted Colonel.
With his TA experience augmented by that of his SR (later AER) command he became impressed by the benefits that would stem from offering TA and AER terms of service as alternatives within a reserve unit. He was encouraged in this by the then CSO, London District (later **Maj Gen Sir John Anderson KBE**) who placed an independent TA Signal Squadron under regimental command. Amongst other innovations, this made possible limited out-of-camp training for the Regiment.
In 1963 **Shrimpton** gave the annual Signals Institution London Lecture. His subject 'The Reserve Army' gave him the opportunity to argue the case for revision of Reserve Army terms of service. The then SOinC asked him to repeat the Lecture at Catterick for the regular Corps and to discuss its substance with the TA Directorate. **Gen Swainson** also sent copies to all CSOs, inviting them to implement its recommendations where they could be applied without further reference. At about this time **Shrimpton** began to accumulate a miscellany of chores around the Corps: membership of the Corps Committee, of the Signals Association Central Committee, of the Council of the R. Signals Institution and sundry sub-committees of all three, once as Vice-President, sometimes as Chairman. At the request of the then SOinC, he wrote the TA and AER part of the Royal Signals booklet published in May 1957.
Even **Shrimpton's** last TA appointment - as CSO 44(HC) Div/Dist – was eccentric. An officer, living and working in London, his TA office was in Shorncliffe and exercises took him back to where he had had a detachment at the start of the war: in the tunnelling under Dover Castle.

Graham - Maj John Anthony Graham. John joined F Company from the Royal Military School at Dover in September 1929. He served his apprenticeship as an Operator Signals at Catterick and at Liverpool Post Office. The apprenticeship included an Equitation Course at the Mounted Wing in 1932. On entering man service he was posted to F. Troop Cavalry Divisional Signals attached to the 11th Hussars P.A.O. at Tidworth. The 11th Hussars were the first cavalry regiment to be mechanised and F Troop Signallers served as Wireless Operator Gunners in the Lanchester armoured cars. In 1933 **John** sailed in the troopship *Dorsetshire* to Chinwangtao in Northern China and served at Peking as a member of the British Legation Foreign Office W/T station (HX8). He enjoyed his time in China but, in 1936, he was sent home on medical grounds. Restored to full health at Catterick, he was accepted for the OCTU there in 1939 and was commissioned in 1940. He subsequently served in India and Burma and was mentioned in dispatches.
After the war **John** briefly tried teaching before qualifying as a barrister and solicitor. He became a well known solicitor in Sunderland with his home in South Shields, his birthplace. He brought to his practice in Sunderland the same dedicated efficiency he displayed as a soldier and tradesman. **John** was proud to have belonged to the Corps, particularly 'F Company'. I was privileged to be his friend. **John** was cremated at South Shields on 8 June. It was a 'no fuss' funeral, at his request. Our deepest sympathy goes out to his wife, **Winnie**, and his immediate family.

Brace - George Brace. He joined the Corps in November 1950 and was trained as a Radio Mechanic. He served in l4th Field RA Signal Tp in Hong Kong and Korea. After discharge in November 1952, **George** worked for BT and was well known in cricket circles in the Swansea area. **George** was Standard Bearer for the West Wales Branch of the BKVA and was a member of the Cardiff Branch RSA. **George** died on 30 May 2000.

Graham - LCpl H. T. Graham 'Harry' who died on 8 April 2000 in his 80s was a member of the Cotswolds Branch of the Association since 1979. He had a severe stroke and never regained consciousness in a Nursing Home in Cheadle. He was born in Falkirk, Stirlingshire but lived in the Midlands. He joined the Post Office at the age of 14. He was called up in 1942 and served in Cairo and for a short time in Italy. After being demobilised in 1946 he returned to the Post Office until his retirement at the age of 60 as Inspector. He served with **Norman Wisdom** (now Sir) and they met up again in Cheltenham at a reunion 'Get Together'. Our sympathy goes to his sister **Mrs Emerson**.

Robins - Maj P. A. Robins known as 'Robbie' 1 November 1903 - 11 May 2000The success story of an ordinary soldier who raised his age to join the Royal Engineers in 1921 and later became one of the founder members of the Royal Corps of Signals when it was formed in 1922. After trade training he went with a contingent to Turkey during the rising of Kemal Attaturk. After a spell back in England at Aldershot, he was posted to Kohat District Signals, India, where he took part in many border skirmishes with the invading Afghans. Here they were using huge radio sets that had to be carried on mules!
In 1938 he was posted to Putney to 5th (London) Corps Signals as their RSM, with the specific job of dividing the TA Unit to double its strength because of the imminent war. The great sadness of his military career was not to have been in action. His next posting was to a desk job at Southern Command at Wilton House, Salisbury. From there he moved quite quickly to a commission and his first job as an officer at South Western District, where he met and married **Jean**, a Junior Command, Signals, ATS Officer. During his time at South Western District in Taunton he worked to provide all the mainland fixed telecommunications for the American Forces involved in Operation Overlord. This involved providing services to the camps, the hospitals (including Odstock Hospital, Salisbury, where he was later to be three times an orthopaedic patient) and to all the hards and embarkation points along the south coast, right down to the edge of Cornwall. For this work he was honoured by the Bronze Star decoration, which he received from 'Ike' himself at the American Embassy.
As a very able general sportsman, he represented both the Army and the Corps on several occasions. As a qualified FA Referee, he refereed most of the senior football tournaments, the equivalent of the British FA Cup finals. His interest in sport led him to involvement with the Hindon Cricket Club and the resurrection of the defunct Hindon Football Club. He was a member of the Parish Council for many years and Chairman for some of that time. He carried with him his interest in village affairs when, on his second retirement, he moved to Dinton. There he was almost immediately co-opted to the Parish Council. He finally retired from the Parish Council at the age of 80.
After his retirement from the army in 1945, he was publican at the Kings Arms in Puddletown. Later he was Postmaster at Hindon where he kept the village shop until he retired. During his time at Hindon, he was for a period Chairman of the Salisbury Branch of the Sub-Postmasters' Association. While at Hindon he took a great part in all things going on in the village. He was the Treasurer and the Secretary of the Royal British Legion, resuscitating it from an almost 'dead' Branch; he remained a member until his death. He was honoured by the award of a Gold Badge for his work by the British Legion.
During his years of army service in India, he wanted to get out of Church Parades, which were carried out with military precision, carrying arms and ammunition. He asked to change his religion and called himself a 'Salvationist', (being careful not to link himself with the Salvation Army). In fact he had a Chapel background. He took a very active interest in my work with the village Youth Club. After his retirement he became an enthusiastic fundraiser for the Wiltshire Boys and Youth Clubs (now Youth Action Wiltshire), having been a member of a Boys Club in East London during his younger days. Throughout his retirement he gave unstinting support and requested that the retiring collection at his funeral, and donations in lieu of flowers, should be given to this cause. He is survived by his wife **Jean**, a son **Peter** and a daughter **Helen**. **Charles**, the youngest son, died of Leukaemia in

1988. He also leaves three grandchildren and a great-granddaughter. Since the death of **Charles** he always wished his own ashes to be buried with those of **Charles** in the churchyard at Dinton. 'Robbie' always maintained his connection with Royal Signals. Both he and **Jean** were members of the No. 1 (Salisbury) Branch of the Signals Association and for many years he was their honorary president. He was also a member of the 5th (London) Corps OCA and attended their annual dinners from 1980 to 1997. The family would be interested to hear if he was the last surviving founder member of the Royal Corps of Signals, of which he was so proud.

LATE NEWS.....LATE NEWS.....LATE NEWS

CELEBRITY AMATEUR GOLF EVENT (CAGE) 2000 – 27 JUNE 2000

A report by Colonel (Retd) Cliff Walters, Chairman, CAGE 2000

The eighth CAGE was held on 27 June 2000 at Ashley Wood Golf Club, Blandford. Its aim, as always, to raise funds for charity and on this occasion the beneficiaries were the Museum Education Project and Save The Children. The event started on the evening of 26 June with a cocktail party sponsored by Bull Information Systems. About 80 sponsors and celebrities congregated and discussed all their missed putts since last year! **Brian Close** (cricket and ex-Corps), **Don Shepherd** (cricket), **Josh White** (comedian), **Peter Larter** (rugby) and **Peter Sainsbury** (cricket) were among those determined to get CAGE off to a good start. We were also pleased to see new celebrities in our midst including **Peter Walker** (cricket), **Tony Brown** (cricket) and **Alan Jones** (cricket). We hope they will return.

For once the forecasters were right and a bright sunny day dawned at Ashley Wood. The course was in excellent condition. Alenia Marconi were our main sponsors and their two teams were out early with **Don Shepherd** and **Peter Walker**. There were varying standards of competence shown at the chipping and putting competitions. Maybe the cocktail party had some part to play! The 18th hole was the 'nearest the pin' competition and a sleeve of balls was awarded to everyone whose tee shot ended on the green. **Maj Hamish Miln** of the Alenia Marconi team was nearest the pin and also had the longest drive; a very unusual occurrence. However, he carried only the driving prize as CAGE rules state that you can only win one individual prize. On the course we had a hole in one but unfortunately it was on the Winter temporary green so it didn't count: but it took over four minutes to find the ball 'in the middle of the fairway'!! SODEXHO had kindly sponsored the drinks stations which, due to the heatwave, were in regular use.

Brig James Shaw headed up the prize-giving for sponsors to donate their well earned prizes. This was followed by a quick dash to change for the Dinner Night at which the Corps Band was excellent. Entertainment was 'CAGE TRADITIONAL' with everyone in fine tune for the four 'anthems' and a fully attentive audience to listen to **Shep Woolley** and his side-splitting humour. We are also grateful to Sodexho for sponsoring the Dinner Night and BAE Systems who donated CAGE cuff-links to everyone who played.

Sponsors	Event	Winners
Alenia Marconi (Main Sponsor)	Team Stableford	Archer 2 Sodexho 1
	Individual Stableford	Arthur Fisher (Trend) Guy Newing (Sodexho) Mike Magill (Syntegra)
	Celebrity Stablef ord	Roy Palmer Brian Close Ray East
Lockheed Martin International	Yellow Ball Stableford	INCA Trend
Cogent Defence Systems	Longest Drive	Maj Hamish Miln
Syntegra	Nearest the Pin	Steve Maguire (Trend)
Bull Information Systems (Cocktail Party)	Putting	BAE Systems RACAL
INCA	Hidden Holes	Alenia Marconi 1 Dresdner Kleinwort Benson 1
Sodexho (Dinner Night)	Course Drinks Stations	
BAE Systems	CAGE Cuff-links	

Other Sponsors:

Archer Communications	Carillion
Compaq Computers	Dresdner Kleinwort Benson
ICL	ITT
Marandon Engineering	Marconi Communications
RACAL	Systematic
Thompson Marconi Sonar	Trend
Vega	

Our celebrities this year were:

Rodger Arneil - Rugby, Northampton, Scotland and Lions
Tony Brown - Cricketer, Gloucestershire Captain, now Chairman of Cricket
Mike Barnard - Hants Cicketer and Portsmouth Footballer. 1954 - 66
Brian Close CBE - Cricketer, Yorkshire and England Captain
Alan Castell - Cricket, Hampshire. Fine bowler representing Hampshire
Ray East - Cricket, Essex. Left arm spinner and useful batsman, 1956 - 78
Nigel Ellery - Professional Hypnotist and Entertainer
Jon Fellows-Smith - Represented South Africa at both Rugby Union and Cricket during '50s. Northamptonshire CCC 1957 - 60
Jimmy Gray - Cricket, Hampshire. Opening batsman 1948 - 66 playing in 453 matches
Ron Harris - Football, Chelsea. Indestructible Chelsea defender 1962 - 80. Record 622 first team appearances
Mike Jerome - Comedian and Entertainer
Glynn Jones CBE Rugby, Cardiff and Cross Keys
Alan Jones - Cricket, Glamorgan. Record holder for runs and centuries
Mervyn Kitchen – Cricket, Somerset. Test Umpire. Somerset batsman, 1960 - 79 scoring 16,000 runs (17 centuries)
Peter Larter - Rugby, Northampton, England and Lions
Jack Mansell - Football, Cardiff City, Portsmouth and England
Phil May - Rugby, Llanelli and Wales
Arthur Milton - Football, Arsenal and England and Cricket for Gloucestershire and England
Roy Palmer - Cricket, Somerset. Test Umpire. Somerset fast bowler 1965 -70
Russell Robins - Rugby, Ponypridd, Wales and Lions
Cyril Rutter - Football, Portsmouth. 171 First Division games for Portsmouth 1953 – 62, FA Senior Coach
Peter Sainsbury - Cricketer , Hampshire most successful all-rounder in the club's history
Don Shepherd - Cricket, Glamorgan. Commentator. Off-spin bowler taking 2,218 wickets
Reg Simpson - Cricket, Notts and England. Opening Batsman for both Notts and England, 1944 - 62. 27 tests, 31,000 first class runs
Bob Taylor - Rugby, Northampton, England and Lions
Brian Taylor - Cricket, Essex and England. England Wicket Keeper and Batsman, 1949 - 73. Captained Essex for his last eight years.
Peter Walker - Cricket, Glamorgan and England. BBC Radio and TV Commentator
Stuart Watkins - Rugby, Newport, Cardiff, Wales and Lions
Shep Woolley - Entertainer, comedian
Josh White - Internationally renowned comedian

Stephen Meyler (Bull) rewards David Romer (Racal)

LATE NEWS.....LATE NEWS.....LATE NEWS

Regimental Headquarters Royal Signals encourages all suitably qualified members of the Corps to seek professional recognition by joining the Institute of Electrical Engineers at the appropriate level.

Training: Those holding the academic qualification of a second class honours degree or better from an accredited IEE course, and having completed certain engineering training may apply to become Associate Members of the IEE (AMIEE). This is normally the first of 2 elements of the qualification needed ie the 'training'. Those under going such academic courses are encouraged to apply for student membership of the IEE.

Relevant Experience: Those who have proved their training qualification and are AMIEE then go on to apply for Membership of the IEE by demonstrating that they have had at least two years of 'responsible experience' since obtaining their 'training'. Since members of the Royal Signals will have spent time at Regimental Duty where personnel management and military training, rather than engineering skill, is their normal business it is not unusual for military candidates to spread this responsible experience over a number of tours of duty. (An officer might qualify by serving at weapons staff appointments or as technical adjutant or operations officer within a unit). Once he / she has completed both the training element and the relevant experience a candidate will normally be accepted as a Member which also confers the status of Chartered Engineer (CEng MIEE). Candidates who believe that they have both the training and the relevant experience may apply directly to become Members.

Mature Candidates. Some mature candidates will have been skilled engineers for many years but did not obtain the required academic qualifications at the start of their careers. A mature candidate route exists whereby a candidate is assessed upon a paper he / she writes and an interview. This is not an academic test but a chance for the candidate to demonstrate that he / she has the fundamental knowledge expected of a chartered electrical engineer.

The IEE is recognised by Government as being the body which represents all branches of communication and electronic engineering. It is the largest body of its type in Europe and is a member of the European Federation of National Engineering Associations (FEANI). Chartered Engineers are recognised and respected by all civilian employers.

FROM THE ROYAL SIGNALS MUSEUM

by Col (Retd) Cliff Walters, Museum Director

Director	**Col (Retd) Cliff Walters**
Curator	**Miss Stella McIntyre**
Attendant	**Mr David Walker.**
Business Manager	**Mr Adam Forty**
Archivist	**Mr Tim Stankus**
Shop Manageress	**Miss Karin Mountford**
Assistants	**Mrs Annette Barnes**
	Mrs Erika Hunt

The busy season for the Museum is now well underway and in recent times there have been many changes in the Museum not least in management personnel. Since retiring from the Corps as Regimental Colonel in October **Col (Retd) Cliff Walters** has taken up the appointment as Director. **Maj Roger Pickard** has now formally handed over as Curator to **Miss Stella McIntyre** who arrived in July. Some of you may well know her father **Maj Neil McIntyre** who retired in the mid-1960s. For those of you who know **Roger** he continues to visit and assist us on a regular basis and we use his wealth of knowledge to good effect. **Lt Col Mike Butler** has now retired, retired and retired again. We are very grateful indeed to him for having given us his services for a year whilst we are able to recruit new staff.

The Museum Volunteer Organisation continues to thrive under the leadership of **Lt Col (Retd) Pat Soward**. Without our volunteers (approx 40) we could not operate at weekends or on Bank Holidays from February to October. Anyone wishing to join our volunteers should contact **Pat** through the Museum. The Museum proved to be very popular during the RSA weekend in June. The yardstick for this is 'shop takings' which were higher than ever before. The staff were entertained by many old soldier tales! As an attraction the Museum is proving increasingly popular both with tourists and the local population. Admissions have increased so far this year by about 30% which is creditable when the national trend is downwards. This is due to the excellent marketing by **Adam Forty** our Business Manager. But it also reflects the excellence of the Museum. We have introduced trails, quizzes and interactive games, all of which have been very popular. For those who have not managed to visit us yet I hope it will not be long before you do so – and tell your friends as well.

All soldiers undergoing Phase 2 training at RSS visit the Museum as part of their training and some of them also assist us whilst they are awaiting training to commence. We continue to provide a research facility from our archives and stores of equipment. The internet site is also well used not least of which is for a list of items available in the shop. Our latest acquisition is a 'Bronze resin Jimmy statuette' but many of the old lines are still available.

If any readers have any memorabilia, medals, books, documents, photographs or other items that you believe may be relevant to the history of the Corps you could consider presenting them to the Museum where they will be safeguarded as part of the Corps' heritage. What seems insignificant to you may be relevant to many other people.

THE MAN FROM MANNING AND RECORDS

Maj S. G. Hutchinson MBE, R. SIGNALS

The past few months have seen some key changes in policy ranging from the implementation of the Data Protection Act to fundamental changes in the MS Year. Another exciting development is the introduction of a Regimental Career Management Officer (RCMO) concept that should considerably enhance the interaction between the individual, his unit and the Division. On a sad note **Maj (Retd) Pat Cole** has now left the Divison on retirement, **Capt Shane Knight** will replace him in September 2000. Breaking with traditional formats we have recently received a TOT's perspective on Foreman of Signals Selection; it makes interesting reading.

A TECHNICAN'S TALE - *A message to all Junior Technicians*

During the majority of my Service I have been fortunate enough to be a Technician, a Foreman of Signals and a TOT. Until this year I have only attended one FofS Selection Board, mine. However, in the intervening period, I have listened to several 'knowledgeable' people spouting to all and sundry a number of myths regarding the Board and what can or cannot be achieved during the event. A particular comment is whether there is any point attending as the selection process has already been carried out prior to arrival. I was privileged to be a member of this year's Board and am now in a position to confirm or refute some of these ideas. It is clear that there are still too many people who have the impression that there is some mystique to FofS selection. The aim of this article is to eradicate the myths and identify the important requirements to be successful in selection. The procedure leading to selection for Foreman of Signals training is clearly identified in SOinC Policy Document No 8. Read it!

THE WEEKLONG BOARD IS MADE UP AS FOLLOWS:

Monday: Laboratory tests conducted by the technical staff at the Royal School of Signals. The performance of the candidate during these tests is a key pointer to his/her technical capability and hence the academic risk of the candidate.

Wednesday: Discussion groups and appreciation exercises. At the same time the Board Members assemble to carry out their initial assessment of the candidates. They conduct a Promotion Board where each candidate's Personnel File, complete with all confidential reports, military course reports (most notably Sergeant's Course and RSGC) and education qualification reports are available. I will not explain the detailed procedure other than to say that a quality line is determined and a pecking order. Throughout the day, the Board Members endeavor to visit all groups and listen to some of the appreciations in order to learn more about the candidates. The final part of the Board's day is a presentation of detailed assessments on all the candidates' performances by the Directing Staff overseeing the appreciations and discussion groups. Revisions to the initial assessments are made if considered appropriate. The evening social in the Sergeants' Mess gives a further opportunity for the Board Members to get to know the candidates.

Thursday and Friday: Interviews with individual candidates. The Board consists of the Colonel MCM Division, a Regimental CO, a Lieutenant Colonel from the Royal School of Signals (normally the Chief Instructor) and a Senior TOT, this year me. There is no time limit set for an interview. It is dependent upon the candidate's performance. One of the main points of the interview is to ensure that the assessments made are not erroneous due to lack of awareness of an individual's circumstances. This gives an opportunity to strong candidates to confirm their potential and for apparently weak candidates to prove their abilities or character. A weak performance might lead to a more searching and longer interview where the candidate will be tested as thoroughly as possible. However, a strong performance may also lead to a longer interview if the candidate was considered weak before the interview. The main point to note is that your future is in your hands. The Board does not lower its standards in order to fill the number of slots available nor will it limit itself to the number of slots available, if you are considered suitable for training then you will be selected and the training organisation will have to cope with it.

MYTHS:

I am too young or too old: This year the oldest and the youngest candidates were selected for training.

I do not have long enough to do: As long as you are able to complete five years service at the end of your FofS course you are eligible for selection. (Exceptionally, candidates with less than five years will be considered).

I do not have wide enough experience: This will be dependent upon your character and performance. There will be some people who clearly need more experience but it is not a foregone conclusion.

I am an academic risk - no chance: Your academic risk profile is determined by your performance on your T1 course, the DLP, the examination and the laboratory tests. However, as one candidate found out this year, it is not a terminal disease. Personal characteristics and circumstances may be considered strong enough to outweigh academic risk.

There is no point coming back or accepting a posting to gain experience: A number of candidates are considered to have the necessary potential but require another opportunity to prove their ability academically, militarily or to develop their personality in a different environment. Failure at one selection board is no guarantee of failure at the next.

It is already decided who will be selected and I am only here to make up the numbers: This is the worst of the myths. However, it is easy to understand why it has developed. As I have stated, the initial Board activity is to read your previous CRs. You must realise that the first impression of a candidate is that given by your previous commanding officers and what they have written on you. They have known you far longer than the Board Members and in a wide variety of circumstances. Your military course reports are independent assessments of your character and abilities. Do not forget that at the end of your course you will be promoted to Staff Sergeant, which brings significant responsibilities. However, these are all merely indicators and the final decision is in your own hands. I can think of at least two examples of supposed no-hopers, one demoted to Signalman twice and one whose ability to read and write could be questioned; both became very successful FofS.

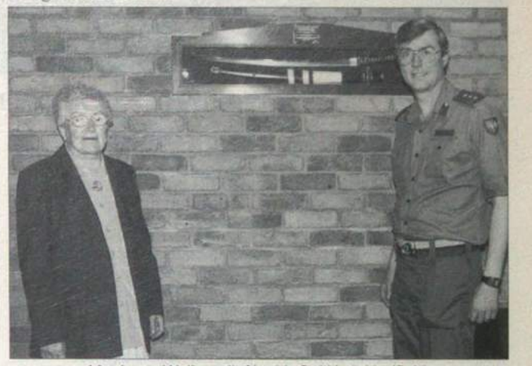
SUMMARY

The selection procedure, both before and during the Board, is designed to give all candidates the opportunity to demonstrate their potential. In assessing a candidate's potential the Board takes into account as many factors as are available to them. Be yourself during the Board, pretence is easily identified. I hope this short article will be of use in removing some of the mystique of the selection procedure. Remember that being a Foreman of Signals is the best job in the Army. Go for it!

Further information on the Data Protection Act, changes to the MS Year, RCMO Concept and proposed Roadshow dates are in the Newsletter that has already been promulgated. We will continue with an insight into Officers' Wing together with a look at Confidential Reports in the next Edition of *The WIRE*.

HEADQUARTERS MESS IS PRESENTED WITH A JAPANESE SWORD SURRENDERED IN BURMA IN 1945

At the end of the war in the Far East in 1945, **Maj James W. R. Forsyth** Royal Signals left his post as Second in Command of 25 Indian Division Signal Regiment to return home to Great Britain. The first part of his journey was to travel from Malaya to Calcutta via Bombay and Bangalore. He was tasked to present five surrendered Japanese officers' swords along the way. One was given to the Chief Signal Officer Southern Army; one was presented to the Bangalore Signal Training Centre; and the third to General Headquarters Delhi. When he arrived in Calcutta to catch the boat home, he still had two swords left to present and one, which had been given to him personally. The fourth sword was intended for **Maj Gen R. E. Vyvyan CB MC**, ex-Signal Officer in Chief India and Director of Signals who had already left India and the last was for the Officers' Mess Catterick. After demobilisation, **Maj Forsyth** decided to return to India and he left Great Britain in late 1946. Sadly, not long after his arrival, he was bitten by a small dog and contracted rabies from which he died. His wife came home to England only briefly before going to Australia with her own parents to start a new life with their baby daughter. Among his personal possessions which came home to **Maj Forsyth's** family was the sword and his father kept it for many years. It then passed on to his sister, **Irene**, who in turn held the sword in safe keeping for her niece or her new family in Australia should they ever wish to have it back. In late 1999, **Mrs Irene Wallace** decided that it was an appropriate time to lodge the sword in a suitable place where it could be seen and admired. She asked the Commander of the Royal School of Signals if he would accept the sword and display it in the Headquarters Mess. A special case was made to match the one that held the Mountbatten sword originally presented to Harrogate in 1947. The two swords were then mounted symmetrically on the wall of the reception room at the Headquarters Mess. The 9th of June 2000, saw **Mrs Wallace** formally present the sword to the Commander on behalf of the Forsyth family. She wished it to be noted that should the relatives of her brother ever wish to see the sword or indeed take it back, it should be possible for them to do so. The Commander thanked **Mrs Wallace** and assured her that her wishes were understood but that in the meantime, the sword would be looked after for as long as it remained in the Mess. The 'Forsyth' sword was now displayed with the 'Mountbatten' sword in a place where both could be seen and admired by the Officers of the Royal Corps of Signals in their home.



Mrs Irene Wallace (left) with Col K. J. Hadfield, Commander Royal School of Signals in front of the sword

ORGANISING A FUND RAISING EVENT?
WHY NOT PUBLICISE IT IN THE WIRE?
WRITE AND LET US KNOW WHAT IS HAPPENING

NEWS FROM HEADQUARTERS

HEADQUARTERS SIGNAL OFFICER IN CHIEF (ARMY)

Over the past nine months, two major studies have been conducted. The first, the General Staff Review (GSR), examined, among other things, the role and function of the Arms and Service Directors, and the second looked at the creation of a Command Development Centre (CDC). Both of these studies have had far-reaching consequences for Royal Signals and particularly for the future direction of SOinC(A) and his headquarters.

The GSR concluded that there was a common set of functions carried out by Arms and Service Directors, which included advice on the Statement of Training Requirement, establishment sponsorship, support to recruiting, special-to-arm policy and regimental 'ethos'. However, it also concluded that there were a number of key Army or Land Component capabilities, which required pan-Army 'proponency' - meaning predominantly leadership, or championship of user requirements and concepts of use. One of these areas was that of the provision of information services on expeditionary operations, and the responsibility for this has naturally fallen to SOinC(A).

The CDC study concluded that there was a need to establish a focus for the development of command doctrine, techniques and practices, and the command support solutions that underpin them. The study recognised that Royal Signals force development work was not only central to command support solution, but also that it needed to inform a wider Army and Defence conceptual and doctrinal development. Additionally, it was appreciated that systen support teams for current systems and trials capabilities were essential to supporting the incremental development of command support capability. To this end, it is proposed to establish a Command Support Development Centre (CSDC) in Blandford, reporting to SOinC(A) as part of a 'virtual' CDC, with a Command and Control Development Centre (C2DC) co-located with the Land Warfare Centre at Warminster. The CSDC organization will bring together elements of DCIS(A)'s Blandford-based BOWMAN and Digitization Military Team together with SOinC(A)'s existing Force Development, Trials and System Support Teams.

While the CDC proposals have still to be ratified, in recognition of SOinC(A)'s wider pan-Army role, his headquarters is to be retitled 'HQ SOinC(A)'. This, of course, will in no way diminish SOinC(A)'s responsibilities for Royal Signals, but illustrates that the Corps is at the heart of a wider, pan-Army (indeed Defence) capability. Further information concerning the reorganization of the HQ and its new responsibilities will be included in subsequent copies of *The WIRE* and RSI Journal.

FORCE DEVELOPMENT

Further to the February issue of *The WIRE* where **Maj Nick Keen** gave an overview of the work being undertaken within Force Development, it is now our intention to update the Corps in each edition on one or two pieces of major work currently ongoing. This issue will focus on the Corps After Next (CAN) Study which will mature in March of next year and MAPPS and GPTAP which will be introduced to the Field Army over the next 12 months.

THE CORPS AFTER NEXT (CAN) STUDY

The CAN Study is a major piece of work looking to shape how the Royal Corps of Signals will develop over the coming years. The Study will present its findings in March of 2001 and it is anticipated that it will recommend radical change in all aspects of the way in which the Corps carries out its business.

A major aim of the Study has been to consult the wider Corps throughout to ensure that the results of the Study fully exploit the experience and knowledge available. The initial briefing pack to the Corps was published in February of this year and resulted in a heavy response which greatly assisted the Headquarters in shaping its thinking. In the light of this, the SOinC(A)'s Conference held between 17 and 18 May focussed exclusively on the Study. The 130 attendees from around the Corps broke down into syndicates and concentrated their thoughts on the direction in which the Corps should move in a number of key areas. The full transcripts of their thoughts have been produced and disseminated to all attendees. Should anyone not have access to a copy please contact **Maj Martin Bever** on Blandford 5390. The output from the SOinC(A)'s Conference was put to immediate use by the staff within the Headquarters as they started to write the Study papers. After several study periods conducted both at Blandford and at HMS *Excellent* in Portsmouth in June and July, the papers are now nearing completion and will be submitted to the Corps Executive Board in early October for approval. It is anticipated that detailed reports on the findings of the Study will be promulgated to the Corps by February 2001.

MAPPS AND GPTAP

The Mobile Access to the Ptarmigan Packet System (MAPPS)/General Purpose Trunk Access Port (GPTAP) are two projects which have been merged and will together form an enhancement to the Ptarmigan system in the shape of the "Standalone Central" or as it is officially known, the SCRA(Switching Central) - SCRA(SC).

The SCRA(SC) will be capable of working with Ptarmigan in the traditional role of the Central but using an onboard Central Packet Switch (CPS) will be capable of serving its full channel capacity of 11 packet users. In its Out of Area (OOA) role, up to three SCRA (SC) will be capable of forming their own network providing their own secure digital voice and data circuit and packet switched communications for mobile users. The network will also be capable of terminating LDA communities. GP TAP will enable two or more of these networks to work together or to interconnect with a main Ptarmigan network.

Two versions are being provided; the standard version using the current 4 ton vehicle and box with additional equipment including an ACU and an air portable version with Steyr Pinzgauer as a prime mover. The air portable version will consist of not only a communications installation but also a support vehicle which will carry items such as generators, masts, antennae and cables. The initial introduction into service is due at the end of this year with full embodiment due by the end of 2001.

NATO
NACOSA SUPPORT ELEMENT
NORTHWOOD

BALADO BRIDGE - *by Sgt Ewan Kinnear*

BALADO BRIDGE - NATO Satellite Ground Terminal F17, situated in the rambling countryside of Perthshire, 11/2miles from Kinross, approximately 30 miles north of Edinburgh in Scotland and located on a former RAF W site, the now familiar 'Golfball' with it's out stations at Cullaloe Hill and Outhmuir, forms part of the NATO Integrated Communications System, which combines Satellite and Microwave radio, PTT and commercial communications systems to provide a strategic communications network for NATO. Opened in April 1985 by our Colonel in Chief, the SGT has undergone a major modification programme keeping up to date with all the advances in communications technology. The SGT is a fully automated, computer controlled Satellite Ground Terminal, operating a multicarrier communications system within the X band. As well as intergalactic users, the main operations involve assisting in the communications support to NATO Naval Operations.

NOW YOU KNOW WHERE AND WHAT WE ARE, WHO ARE WE?

The unit has a complement of 1 + 19 military personnel, five civilians and a MOD police unit of seven. The OC of the Corps' one and only Satellite Ground Terminal is **Maj (TOT) Paul** 'Do you think my new V 12 6 litre Merc is too big for me' **Gaffney,** who is supported by his 'A' Team consisting of **WO2 (FofS) Kev** 'It's not as warm here as it was in Australia' **Moir** who is currently handing over the reins to **WO2 (FofS) Mick** 'It's just a gentle jog' **Cowie** and the Control Room Slave-Driver - **SSgt Shaun May**. The Control Room is manned twenty-one hours a day with the other three hours being left to chance, since the system is meant to be fully automated. There are four shifts of three able bodied technicians

per shift except for D shift, two driver electricians, a stores accountant, a technician day worker and a multi-purpose, multi -trade technician whose jobs so far this year have covered everything on site except for Station Commander and Police Dog!

PRINCESS ROYAL DAY

Princess Royal Day was held on site on Saturday 1 July 2000. The local Army Cadet Force were invited to an educational and fun packed Saturday with the Balado Bridge workers and the pasty eating shift 'workers'! The day started with the ACF Detachment having a guided tour of the station under **WO2 (FofS) Kev** 'The Corps Needs You' **Moir** (after he received his hastily prepared map!) which encompassed the innermost workings and technical jargon of the Satellite Ground Terminal combined with the 'Our Corps Needs You' recruiting speech. The Cadets, then, went on to investigate the hell that was our Radio Detachment stand. Being a Satellite Ground Terminal we do not have a W Detachment, this was supplied from 61 Sig Sqn based in Edinburgh by kind permission of the CO 32 Sig Regt (V). This is where they met the devil himself jumping up and down and gnashing his teeth who was **Sgt Al** 'Super Mario' **Rooney**. His being unable to receive any traffic all day caused all the anger.

After all the formalities were out of the way a potted sports afternoon was organised between one team of five from F17 and four teams from the cadets. The sports consisted of football, volleyball and a golf ball pitching stand. As the Balado Bridge Gladiators warmed up for their first football match expectations were high, to say the least, for a resounding victory. However, ten minutes later they walked off the football park with their tails between their legs having been soundly thrashed 4-2 by a team consisting of 13 year old school children. After all the sports had finished and, even though they lost the first match, Balado were victorious, (nothing to be proud of though!) and all threw themselves wholeheartedly into a massive feast of a BBQ and a few beers for light refreshments. The BBQ was lovingly burnt - I mean cooked - by the FofS 'When I was in Australia we used to BBQ kangaroos' and **Sgt** 'Taff' **Tanner's** wife **Joe**. The day ended on a high note for the cadets when they were presented with a large wooden Jimmy for the Royal Signals element of the cadet force to hang in the cadet hall in Kinross.

All station personnel wish to congratulate Sgt Ian Fincham. on his promotion and **Cpl Ian Kirkland** on his selection for promotion. On hails and farewells we welcome **Cpl Richie** 'the badger' **Kear** and his wife **Sonia** and family, and also **Cpl Ian Kirkland** and his wife **Isabel** and family. The site now looks forward to the arrival of the new **FofS WO2**

Members of Balado Bridge and the Army Cadet Force pose with the new Cadet Force Jimmy in the shadow of the 'Golf-Ball'

Besides the usual duties, station personnel are kept busy by promoting themselves within the community, with assistance provided to CHAS, the Children's Hospice in Kinross, and assistance and advice to the local Cadet Force, who are a mixture of Royal Signals and Black Watch. More mundane tasks include being forced to attend T in the Park, a music festival a mere fifty yards from the site. This is where mud and beer flows freely, with only the older members of the site (**Kev** and **Shaun**) being familiar with the likes of Iggy Pop, and Lulu, while the youngsters such as **Sgt Ewan** 'GWX' **Kinnear** and **Cpl Steve** '110mph is NOT speeding' **Dixon** strut their stuff in the Slam Tent. On a sporting note, some members of the station are quite proficient at golf with the Station Commander, **Maj Gaffney,** setting the standard and usually winning the station monthly medal. Congratulations go to **Cpl Steve Dixon** who won the Third Division title at the Army Golf Championships held recently - so we expect his handicap to be well and truly sliced! Pun intended!

Potential future Foreman and Yeoman of Signals in the HF Det loaned from 61 Signal Sqn

Mick Cowie and says a fond farewell and good luck to our old **FofS WO2 Kev Moir on** his promotion and posting to Wilton.

Sgt Al 'Super Mario' Rooney checking to see just how high this High Frequency is!

GENESIS CONSULTANCY
Providing Recruitment Solutions

TECHNICIANS, OPERATORS AND TELEMECHS REQUIRED

Genesis Consultancy specialise in placing ex-Corps members of all ranks and trades with the telecomms industry nationwide.

A wide variety of opportunities currently exist for Class 2 and Class 1 Techs, Operators and Telemechs as well as Foreman of Signals and Yeoman of Signals of all ranks who have decided to leave the Corps.

In addition to immediate requirements, we have medium and long-term requirements from our clients and can assist in all matters concerning these opportunities throughout the period running up to the date of discharge.

If you have decided to leave the Corps call us today or forward a detailed C.V.

HEADQUARTERS 1st SIGNAL BRIGADE

WELCOMES AND FAREWELLS

October bids farewell to COS, **Maj Elton Davis**, posted with promotion to 33 Sig Regt (V). He leaves with the honour of receiving the Queen's Commendation for Valuable Service, presented by **Maj Gen Sprackling**, Master of Signals. The award was for his dedicated and outstanding performance during Operation Agricola. **Maj Garth Pickersgill** said, 'Yet another leaving do and I'll spend 20 years in Germany.' SO2 COMSEC moves upstairs to HQ ARRC to some job or other and to play lots of golf. Quote, ' I'll get my handicap into single figures by the time I leave this post.' He is replaced by **Maj Pete Barron** who will work alongside another newcomer **SSgt (YofS) Logan**.**Capt Ibiza King Boyne** who has left to take up an instructor's post at Blandford. Don't work too hard! **Capt Kyle Barker** moves in to fill the SO3 G1 post. **WO1 (Yof S) Drummond** who has gone to take up an interesting job in Sierra Leone or at least it has an interesting title, as he will be a part of the British Military Advisory and Training Team and welcome to **WO1(YofS) Ferris** who takes his place. Congratulations **to Maj Mike** 'Mad Dog' **Dooley** who has been selected for Staff College. Don't get too carried away with that painting! Welcome to **Capt Nick Bruce** fresh from JCSC but not having to move too far as previously he was at 16 Sig Regt. By this stage you are probably wondering if there is anyone who has not moved on!

EXERCISES

Most of May and June was filled with planning for or deploying on exercises. Ops Offr, **Maj** 'Mad Dog' **Dooley** nearly did go mad as he managed somehow to juggle Exercises Spartan, Falcon and Cerebral Javelin. Every time I entered the Ops room I wondered if he had found some more money to try to cover the costs of the battlefield tour, as the costs changed from day to day. More on that topic below. Just for a change the next lot of exercises were not at Aryshire Barracks, which really got us excited. Ex Arrcade Spartan geared up the Brigade for Ex Arrcade Falcon. The big question for the G4 side of the corridor was, 'Would the large marquee arrive on time?' or would HQ MAIN have no where to go? During Ex Arrcade Falcon (Able Condor) the annual HQ ARRC communications exercise we were able to work alongside 11 Sig Bde and members of G6 HQ ARRC. Yes we did have comms with 11 Sig Bde or at least to their tent next door. One of the G6 HQ ARRC implied tasks was to be able to network DOOM from SO1 Plans to SO1 Ops.

EXERCISE CEREBRAL JAVELIN

After an intensive month of Spartan and Falcon Exercises it was with an air of excitement that members of 1 Sig Bde set off to Italy to study the Monte Cassino and Anzio battles. The aim was to increase our awareness of the difficulties in planning and executing operations in a total war environment. One of the key personalities was **Peter Caddick-Adams**, a Lecturer in Military and Security Studies at RMCS, who did his best to impart his wealth of knowledge to his novice historians. The other guest was **Col (Retd) John Buckeridge** (late R.Sussex Regt) who survived the Cassino battles and provided us with a valuable insight into life as a young Platoon Commander, bringing much reality and interest to our studies.

The journey to Formia was eventful; firstly the German train drivers decided that this would be a good day to take strike action. **Maj Mike** 'Carpet Bagger' **Dooley** was having kittens that we may not make the connection at Dusseldorf but luckily a willing driver appeared. The trip from Dusseldorf got a few of us overheated as we managed to occupy the only carriages where the air conditioning had failed but several pints later no one was overly concerned. We boarded the sleeper at Munich looking forward to a gourmet meal and bottle of wine, to be told there was no

restaurant! **Capt** 'Boggy' **Boynes** kept us supplied with crisps, dips and salmon rolls to see us through the journey. COS, **Maj Elton Davis** got slightly carried away with serenading us all to sleep but our interpreter **Maj Lee** persuaded the attendant not to call the police!

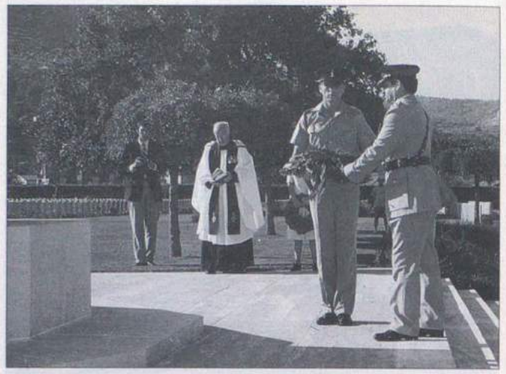
By lunchtime next day, we had arrived at Fagiano Hotel to be given very pleasant rooms overlooking the sea. On the first day of the tour we were given an overview of the ground by **Peter Caddick-Adams** from a viewpoint on the road to Mt Cassino. On our return to the hotel, we leapt from our non-air-conditioned military minibuses and headed straight for the sea.

Tuesday 4 July - We launched into our studies, looking at elements of the first Cassino battle; an overview of the unsuccessful River Rapido crossing by the US 36th Texas Division. This part of the Operation was a disaster as the Germans were in carefully prepared defensive positions. The conditions were atrocious with very heavy rain flooding the river to 30-40 yards wide. We proceeded to Point 593,where **Col Buckeridge** had been dug in with his Platoon in February 1944. This was where the second battle was centred. The plan was for 4th Indian Div, (which 1st Royal Sussex was part off) to secure Point 593 and storm Monastery Hill bypassing Cassino town. On the night of 11/12 February **Buckeridge's** 13 Platoon was dumped at San Michele in the hills about five miles east of Cassino, they then moved on foot by goat tracks to the mountains behind the Monastery and on to Point 593. 13 Platoon were the forward Platoon. **Col Buckeridge** had told us that he had witnessed the Germans using a side door of the Monastery and of its bombing from his viewpoint. The Colonel was able to recall some fascinating facts: There was no daytime movement permitted, as the German supply lines were only some 70yds away. One hot meal was provided each day, transported from the Echelon during the silent hours. Water was restricted to one pint a day, so this could not be wasted, even for shaving. Medical evacuation was carried out by mule, as this was the main method of transportation. The Colonel himself was a casualty when he got shrapnel in the bottom! He recalled the journey down the slopes, falling off the mule so many times that he preferred to walk. A laundry service was provided but there was no guarantee of receiving your own uniform back, could be interesting! It was from here that the allies attempted outflanking manoeuvres. The Colonel spent some six weeks in this location before being relieved.

Wednesday 5 July - We visited the Polish Memorial, where the Polish people gathered to sing their songs of remembrance, proud of the fact that it was their nation who eventually captured the monastery. We headed to Castle Hill to study the third and fourth battles of Cassino. Following the failure of the second battle, a new approach of heavy air bombardment was chosen. Cassino town was hit with some 1100 tons of bombs in three and a half hours. By nightfall 24 NZ Bn had secured Castle Hill. We then headed in the midday sun to Cassino where we received a guided tour of the monastery which was rebuilt after bombing by the Allies.

The Monastery rebuilt after the bombing

It is still to this day, a controversial topic as to whether the monastery was occupied or not. In the late afternoon blistering heat we moved to the British war graves in Cassino, where **Maj Kingsley Joyce** conducted a Service of Remembrance, overlooking a sea of thousands of graves. This was incredibly moving.



The memorial service held at the British war graves in Cassino

Thursday 6 July - We arrived at Anzio for our final few nights of the battlefield tour. **WO1 (YofS)** 'Where are you?' **Drummond** organised a wonderful dinner night located by the swimming pool. We sampled Italian cuisine accompanied by an outstanding jazz band. It was just a shame that we had to remain sitting as they played. The highlight of the evening or morning in this case, must be the Mess Water Polo, unfortunately the photographs from this event have been censored by one CO for some reason.

Brig McDowall dines alongside Col Buckeridge in Anzio

Friday 7 July - Hung over but happy we headed for Rome. Our last day to be filled with sightseeing, gelateries and shopping! But we did deserve it after all that hard work!

HEADQUARTERS 2 (NATIONAL COMMUNICATIONS) SIGNAL BRIGADE

EXERCISE HORSE SHOE 1
PROGRESS, PROGRESS, and PROGRESS!

Linking in the important Lessons Learned during Ex Horse Shoe Forge, the Bde HQ is fully engaged in the final preparations for the full Brigade deployment on Ex Horse Shoe 1 in the 2 Division area in the autumn of 2000. This ambitious exercise, involving up to 2000 troops, will use a scenario now very familiar to the Corps; that of providing Information and Communications Services (ICS) in support of a Peace Support Operation. Horse Shoe 1 will also provide an ideal platform to trial and evaluate e-mail facilities over the National Communications Radio System (NCRS) and a fully deployable Command and Control Operations Centre. In addition to UK deployed ICS assets, connectivity will also bring in SACEUR's OOA ACCAP Bn commanded by **Lt Col Jim Dryburgh** and based in Maastricht, the Netherlands. In the words of the Brigade Yeoman, **WO2 (YofS) Jim James**, 'Exercise Horse Shoe 1 will be the bringing together of many different aspects of the Brigade forming a unified whole. The full deployment of the Brigade Headquarters and Units, including support from the ACISG, means that the Brigade is on the springboard now to deliver ICS not only to our primary customer but to the Land environment on exercise and on operations. In my first-hand experience of the situation in Sierra Leone, I cannot help but think we are on the way to filling an important gap in the Army's capability.' Newly joined **Capt Andy McCole** adds, 'The exercise will demonstrate the substantial punch the Brigade can make in the ORBAT. We are capable of taking the lead not only in our traditional role, but also in the deployment of field IS and robust HF assets.'

ROWING TO SYDNEY

The Commander, **Brig N. C. Jackson**, led a team to Salisbury Leisure Centre to participate in LAND Command's Rowathon to Sydney. The Rowathon's purpose was to generate funds for the UK Olympic Team. The Lion's share of this lean Headquarters were willing volunteers and included the **COS, Maj Tim Langford, Maj John Russell, Capt Andy McCole, Yeoman James, Cpl Pete Sears** plus two civil servants **Mr Steve Harris** and the Bde Storeman, **Mr Mick Morea**. The team spent all day one Saturday proving that in addition to providing World Beating ICS, the Bde HQ is always prepared for the hard slog! The day ended with the Brigade achieving its goal and raising money for our Olympic

athletes. It was particularly worrying however, no matter how hard and fast the Commander rowed, he never broke into a sweat!

EXERCISE ROYAL HORSESHOE

Ex Royal Horse Shoe witnessed a small Brigade Headquarters Team in Canada to participate in familiarisation training with the Canadian Army. One of the highlights was the brief on the Canadian Army's newly introduced digital Command and Control ICS system - TICCS. This affordable, cutting edge technology equipment, produced by Harris is being deployed throughout the Canadian Army to bring their battlefield ICS into the new Century. The Brigade Team was impressed with its ease of use and versatility or in the words of **SSgt Dek Painter**, ' TICCS is a highly capable digital C2 system, which seems to be affordable and has the advantage of being available now. My only concern is the amount of training required to produce sufficient numbers of Systems Managers to deploy with the 'F' Echelon but it is impressive nonetheless.' **WO2 (SQMS) Al Duncan** adds, 'Of course the Canadian Army is structured very differently from the British Army - with different Missions and responsibilities and TICCS may be suited to the Canadian Military reality. The Canadians at least have digitised their field Army whereas we still seem to be lagging behind.' **Maj Iain Brownlee** is more reflective; 'TICCS could provide a possible solution for the needs of the British Army. I know the US Army have now begun a Divisional Trial using the same technology but the Canadian system seems to rely on too few vital nodal points which, if taken out, would make the system useless. Although attractive, TICCS does not appear to have much redundancy and seems to be tailored for PSOs. To go down the route of fielding a system applicable only to the peacekeeping/enforcing environment could be the wrong move as the likelihood of higher intensity conflict for the British Army remains.'

The Brigade Team thanks the CO, **Lt Col Simms RCR** for all the support we received from 2nd Bn, The Royal Canadian Regiment and particularly the Adjt, **Capt David Lambert** and **Capt Neil Marshall** and **MCpl Thompson** of the Signals Platoon.

The COS, Maj Paul Kelly, Maj Iain Brownlee and SSgt Painter present members of 2 RCR Signal Platoon with a Corps print of a cable wagon after a harrowing experience on the range firing automatic weapons

THE PASSING OF TIME

The Headquarters have heard the very good news and wish the very best for our former SO3 T/E/G4, **Maj Dave Drinkall** and his wife **Bethen** on the birth of their first child. **Lt Col Mike Stevenson** has now taken up the reins of the G1/MS branch of the Headquarters whereas **Capt Andy McCole** is anxiously waiting for the arrival of **Capt Gareth Marsh** and handover of all the key work he has done on T/E/G4 desk.

XI HEADQUARTERS 11 SIGNAL BRIGADE

Comd **Brig J. R. B. Cook**

HAIL & FAREWELL

Maj Peter Williams has exchanged his post in the Headquarters for a post as an RO in Shrewsbury, just up the road, but fortunately, we still see him in Donnington in the guise of a TA officer. **Lt Dan Ashton** joined us for a brief period on attachment from Shrivenham and was hard at work sorting out the IT accounts and documentation for the Headquarters. A job well, done, many thanks **Dan** and all the best for the remainder of your degree. **Maj Steve Johns**, **Nicole** and family have moved down to Blandford to get in place for his imminent move on promotion. Congratulations **Steve**, thanks for achieving the appointments of both COS and DCOS whilst with the Headquarters and all the best in TDT. We also say farewell to **SSgt Mac McNeill** and **Jill** on posting to 16 Sig Regt, hope that you enjoy your tour in Germany and to **Cpl Phil Beacall**, **Kerstin** and family because we think the packers did arrive, eventually, since we have'nt seen them around for a bit. Many thanks for all the work that you did as the 11 Sig Bde travel rep, you will be particularly remembered for arranging Croatian coastal holidays. Welcome to **Maj Richard Wilson**, **Ruth** and family, who have moved to Donnington in preparation for assuming the mantle of COS in August 2000. We also welcome **Cpl Ken Spence**, **Donna** and family to the travel rep appointment.

EXERCISE ARRCADE FALCON

Background: Ex Arrcade Falcon 2000 was Chief G6, HQ ARRC's annual communications FTX, taking place from 10–23 June. The Exercise was primarily conducted on cleared land within the Nordheim Westfalen (NRW) region of Germany, with RATT detachments from 40 Sig Regt (V) deploying to Italy and Spain, and 30 Sig Regt SATCOM assets deploying to Spain and Germany.

Exercise Aim: The Aim of the Exercise was to practise the deployment of NATO Level 2 CIS facilities provided for ARRC HQs, the HQs of assigned divisions, and the Combat Support and Combat Service Support HQs.

Deployment: To achieve this was no mean feat. 11 Sig Bde deployed 11 Trunk Nodes, 10 Secondary Access Nodes, 10 SCRA (C), 4 Euromux Accecss Nodes, a Regt Ech from 2 Sig Regt along with full logistic support for all units.

Exercise Scheme of Manoeuvre: On arrival in Germany on 12 June, the Brigade carried out its Battle Preparation in Ayrshire Barracks, Monchengladbach. Here units tested all of their communications equipment, carried out crypto checks and work up training, prior to conducting a radio controlled move to initial field locations. 2 Sig Regt Trunk Nodes were placed OPCOM 1 Sig Bde for the duration of the exercise and 11 Bde HQ travelled some 200km East to Sennelager (probably the worst lager in the world!) to co-locate with HQ ARRC G6 and HQ 1 Sig Bde.

Between 13 and 20 June, 11 Sig Bde assets were moved at fast pace across the area of operations in an easterly direction, whilst maintaining effective communications. Military activities commenced with demonstrations by protesters, minor road traffic accidents, duties of a sentry, low level NBC and First Aid (to name a few), building up to ambushes, armour, plenty of bangs and enemy activity centred on the Sennelager Training Area. All of this worthwhile background training was provided by the West Midlands Specialist Training Team and 2 Sig Regt personnel under the direction of **Capt** 'Georgina' **Tynedale** and **WO1** 'Andy' **Terry**.

Apart from the long days endured by the Ops Staff in 11 Bde Main HQ, one day will stick in everyone's mind – 'Black Friday'. This is when the Brigade tasked the whole of the Ptarmigan Network to carry out recce's of given goose eggs in order to re-deploy the Trunk Network as quickly as possible from the west of the 443 area towards Sennelager. All Trunk Nodes deployed through Hobart Barracks, Detmold, but the lack of RMP assistance and Tac signs being placed in the wrong direction added to the confusion, with half of the Brigade sitting awaiting further orders. The local ice cream man did a very good business though and CO 35 Sig Regt (V), **Lt Col** 'Steve' **Potter** was the referee for the largest football match undertaken during an exercise. All assets eventually deployed and established communications in good time and this provided a good planning opportunity for 'recce SNCOs'.

BRIGADE SUPPORT GROUP (BSG)

First in and last out as usual but we were not complaining - our biennial pilgrimage to Germany was blessed with excellent weather and no major problems. From our rather spacious surroundings in Ayrshire Barracks, Monchengladbach we fed, fuelled and watered the Brigade who were doing battle on Sennelager Training Area - lucky them! We did, however, have our moments of activity. **Maj Peter Williams**, an old hand, made sure that the night shift ran smoothly and constantly harassed MAIN to pull their finger out. The DCOS, **Maj Steve Hunt**, decided we needed a spy at MAIN and so dispatched himself pronto to be at the cut and thrust of the action. (**Peter Williams** still complained) We were fortunate to have the support of HQ Sqn, 2 Sig Regt to handle all our needs and pamper the Staff which they did very well. Both the OC, **Maj Mike Bailes** and QM, **Maj Brian Dalton** are now both keen and eager to take up Staff Appointments. The Exercise went well and all agreed it was a great success. Everyone returned to the UK safely and to date not too many skeletons have appeared to haunt the Headquarters

Summary: The Exercise was a success and provided an opportunity to exercise with HQ ARRC G6 and 1 Sig Bde. Units were also able to practise and validate Brigade SOPs, which can now be built on throughout the next training year, in preparation for the next deployment to Germany on Ex Arrcade Falcon 2002.

PROJECT CORMORANT

Project Cormorant (TWACN) is currently going through the final stages of the competitive tender assessment phase. The system will enter

service within the Brigade in both 2 and 30 Sig Regts from November 2001 and will provide a significant increase in capability, particularly for 2 Sig Regt, as they expand their role to include support for JRRF deployments. The system, as well as being a technical leap, should provide an insight into Project Falcon and the shape of things to come. Work at 2 Sig Regt charged with bringing TWACN into service, is gathering pace with the Introductory Unit due to form later this year. Before that date a great deal of work will be required to mark the two bids prior to the award of a contract at Christmas. In short, exciting times for 11 Sig Bde; so if you are tired of Ptarmigan and want to work on a modern communications system – 2 or 30 Sig Regt are the places to be!

EXERCISE JIMMY'S DRAGON

For three days in July, Cawdor Barracks 14 Sig Regt (and South West Wales generally), provided dramatic backdrop for those brave souls from the Headquarters, whose pursuit of something called adventurous training was to take them not just far and wide, but dramatically up and down as well. Many thanks to Headquarters personnel from 2 Sig Regt, without whose assistance so many legends could not have been created in so short a time.

The 4-hour drive to Brawdy was accomplished under lowering skies and intermittent torrents of very heavy rain. Nature, this violent, could hardly go unnoticed, and it left the intrepid travellers anxious about the days to come and more particularly whether the Comd, **Brig Jonathan Cook**, **Maj Steve Johns** and **Maj Rab Young** were going to get their game of golf. We need hardly have fussed however, because by the time we were passing Carmarthen, the sky was blue, the sun was shining and our spirits were rising. Not wanting to waste any time (we were all secretly convinced the rain could return at any instant), we grabbed the moment, and that first afternoon set off on the 'Cycle Orienteering Route'.

Six Sturdy Cyclists
(L-R): Maj Bob Appleton, Cpl Steve Piper,
WO1 (YofS) Pierre Pardew, WO2 (FofS) Pete Stowell,
Capt (Tfc) Dick Gamble, Maj Steve Hunt

It took two of us about fifteen minutes to realise that cycling to school over thirty years previously was in no way adequate acclimatization for what the local terrain now demanded. So, following a hasty O Group we split up, with **Maj** 'Black Bob' **Appleton** and **Capt Dick Gamble** taking the longer circuitous route, and **Maj** 'Slimline Steve' **Hunt** leading **WO1 (YofS) Pierre Pardew**, **WO2 (FofS)** 'The Rat' **Stowell** and **Cpl Steve Piper** up and down the cliffs. Needless to say things did not go as planned (you cannot avoid the cliffs), and by the time we all met up that first evening for some Ten-Pin Bowling, we were all suffering with sore legs and tender undercarriage! The next morning heralded a blustery day with scudding clouds and squally winds, but thankfully no sign of rain. We boarded our mini-buses early and headed for the coast where we had a quick photo opportunity prior to commencing our coastal walk.

A Chilly Morning
Front Row Kneeling (L-R): WO2 (FofS) Stowell,
WO1 (YofS) Pardew, Maj Appleton
Standing (L-R): Capt Garrett, Capt Gamble, Maj Hunt, Maj Johns,
Maj Young, Cpl Piper

We hadn't walked far that morning before the sun broke through the overcast and started to beat down, and we were indeed thankful for the gorgeous ice-creams to be had en-route.

At day's end we again rendezvoused at the bowling ally for some serious Ten-Pin Bowling. We hadn't been playing long however when the Comd, **Brig J. R. B. Cook** joined in. Informing us that he hardly played and should not be taken too seriously, we were therefore collectively devastated when his first two balls both produced strikes...! From this moment the evening took on a serious turn, resulting in some very impressive scores being posted. The next morning we returned to our mini-buses for the journey North. We had barely been on the road home for an hour however when it started to rain; we looked at each other in silent wonderment, what secret hold can 14 Sig Regt have over the weather....

HEADQUARTERS BRITISH GURKHAS NEPAL

SIGNALS IN NEPAL

Contrary to popular belief there are still some unique postings left in the world for those lucky enough to be offered the opportunity. British Gurkhas Nepal (BGN) have the following Signals personnel serving in posts as:

AMA British Embassy - **Lt Col I. A. Noble**
OC British Gurkhas Kathmandu (BGK) – **Maj H. J. Bardell**
SO3 Coord/Comms Offr – **Capt R. J. Parkinson**

(Coincidentally they also represent three decades of filling the appointment of SO3 Coord/Comms in Nepal. **Lt Col Noble** 1978 – 1980 (Then titled Staff Capt HQ BGN), **Maj Bardell** 1987 - 1989, and currently **Capt Parkinson** 1998 – 2000 this must be a record unless you know different).

QM/MTO British Gurkhas Pokhara(BGP) **Lt (QGO) Yogesh Thapa**
RSM BGK **WO1 (RSM) Chandrabahadur Gurung** Nepal Signal Troop

NEPAL SIGNAL TROOP (NST)

Tp Comd **Lt (QGO) Mahindrakumar Limbu**
Tp Sgt **Sgt Amritbahadur Ale**

NST is a small detachment of the Queens Gurkha Signals that maintain communications throughout Nepal and also provide a rear link to UK. The Troop is comprised of an OC, four Technicians and eight Operators plus thirteen Locally Employed Civilians (Ex Queens Gurkha Signals) based at Kathmandu and Pokhara. This has been a busy period for the Troop having deployed to many of the remote areas of Nepal to test communications at the Area Welfare Centres before the arrival of the monsoon season. There have also been a lot of changes. Firstly we welcome the new OC, **Lt (QGO) Mahendrakumar Limbu** and his wife **Januka, Sgt Balbahadur Pun** and his wife **Dilkumari, Sgt Amritbahadur Ale** and his wife **Basanti, LCpl Tilakbahadur Rai** and his wife **Pasupati** and **LCpl Shankar Gurung** and his wife **Laxmi.** We hope you enjoy your time with NST.

Unfortunately we have to say goodbyes too. Farewell goes to **Capt (QGO) Rajendraman Gurung** and his wife **Bidhya** on his posting as MTO 2 Signal Regiment; **SSgt Ekbahadur Pun** and his wife **Chunimaya** and **SSgt Dharmaraj Gurung** and his wife **Geeta**. Both arrived in January, however, they have been selected for promotion and posted to 250 Signal Squadron and 2 Signal Regiment respectively. **Cpl Amritbahadur Limbu** and his wife **Komalkumari** also posted to 250 Signal Squadron and finally **LCpl Khremraj Rai** (who departs on pension) and his wife **Ushadevi**. Thank you for your commitment to NST and good luck in your new postings.

Also congratulations to **SSgt Ekbahadur** and his wife **Chunimaya** on their recent addition to their family, **Sgt Ajitkumar Rai** on his recent promotion from Corporal and **Cpls Durgabahadur Gurung** and **Rombahadur Rana** on promotion to Corporal and selection to attend class one upgrading course in July. Well done to you all.

Although its main task has already been described there is certainly more to the Troop. This year the Troop entered a team under the guidance of Team Captain, **SSgt Dharmaraj**, in the Annual 100km Riverside to Pokhara Sponsored Charity Cycle Relay Race. The team of **Cpl Amritbahadur Limbu, Cpl Durgabahadur Gurung, LCpl Suraj Rai** and **LCpl Babindra Rai** set a new record time of 3 hours 38 minutes to win the Riverside to Pokhara Race defeating the winners of 1999 by over 30 minutes. The 100 km Charity Cycle Relay Race originated after it's organiser **Capt Parkinson** visited a number of local schools in the Hills of Nepal whilst on trek. He found that although the children where content with school they where very poorly equipped with regards to recreational facilities. The children in the boarding schools had nothing to do when lessons were over. As anyone who has trekked in the hills of Nepal will know the children you meet do not ask for money but for a pen. So BGN have tried to help in a small way. The Race has now become an annual event as part of the Commanders Cup Competition in order to: Test the physical stamina, endurance and teamwork of individuals over a set distance with a time incentive. Also to raise funds by sponsorship for the purchase of school/sports equipment and toys for schools in the hills.

The race this year took place on Saturday 13 May and again started at Riverside Park, finishing at the entrance gates to Pokhara. Teams departed from the start point at 10 minute intervals - so as not to congest traffic on the road! Anyone who has ever driven from Kathmandu to Pokhara will know the hazards that may be encountered undertaking this journey. Landslides are a minor hazard when compared with Tata trucks and buses travelling at less than 10mph uphill and a crashing 60mph downhill. However, these brave competitors took it all in their stride.

The amount raised was over £ 1500 and has been used to buy equipment that will be useful and add a bit of fun to the children. In all 25 boxes have been distributed throughout Nepal via Area Welfare Officers. A typical box comprised of: Skipping ropes, footballs, pens, pencils, coloured pencils, wax crayons, exercise books, cricket bats and balls, badminton rackets, shuttlecocks, rubber balls and rings, erasers, sharpeners, games and toys. Letters received from schools have commented on how grateful they are with everything they have received from British Gurkhas. A big thank you goes to all of the participants and sponsors.

The New Record Holders

ARMY ELEMENT DEFENCE ELECTRONIC WARFARE CENTRE RAF WADDINGTON

This has been an exceptionally busy period for the Army Element of the DEWC. Our personnel have travelled far and wide in providing EW Operational Support to the Tri-service front line customers. **WO1 Billy Corner** has visited the US Intel Community on several occasions to ensure that we remain on track with our US allies and work towards a common Database. Our Operators have travelled to AAC units in Bosnia and Kosovo to ensure our Mission Dependant Data Sets are working as we would expect and are producing the results our customers demand. The introduction of the WAH 64 Attack Helicopter is beginning to impact on our training and resources, as usual, manpower is very tight and work loads are expanding. However, job satisfaction and high morale continue to fuel our appetite. **Cpl Lee Leggett** has produced some very innovative work in the development of the Centres mapping packages, which have been in great demand by all three services and Government agencies. **Sgt Chris Garrill** having developed the Enhanced Audio Training System (EATS) which has been adopted by the US, AUS, Canada and tri-services is now working hard on the development of the DEWC web site and Intranet, to mention but a few.

VISIT BY SOINC(A) BRIGADIER CEDRIC BURTON

On Friday 16 June we were all treated to a visit by the SOinC(A) **Brig Cedric Burton.** The majority of the Army element DEWC were given the opportunity to brief him on the complexities of the work undertaken by the Centre and to discus Corps issues in the margins. In summary, a very successful and productive visit which should be repeated within the next 12 months (please).

CONGRATULATIONS, DEPARTURES AND ARRIVALS

Congratulations are extended to **WO2 Martin Coleman** AAC on his promotion to WO1, **Sgt Jon Brooke** on his selection for Supervisor Radio. **Sgts Bridget Jukes** Int Corps, **Mark Eizzard** Int Corps and **Sgt Stuart McKean** AAC on their promotion to Staff Sergeant. **Sgt Tel Gardiner** on his promotion to Sub Sergeant, **Cpl Andy Bush** on his selection for promotion to Sergeant and to **Mrs Annette Clearie** (wife of **Cpl Will Clearie** JSSU Digby) on the birth of their beautiful baby daughter **Neve,** welcome home daddy!

Fond farewell's and best wishes for the future are extended to **Sgt Bridget Jukes** who is off to sunny GCHQ Cheltenham and **Sgt Janet Wakeling** who has secured a move into the bunker PJHQ.

Hello to **Sgt Hieke Rigg** from JSSU Digby, **Sgt Antony Taylor** who joins us from Romeo Tp 14SR(EW) on promotion, **Sgt Sarah Mathews** who joins us from 225 Sig Sqn, 15SR, NI, **Sgt Mike** and **Beate Webb** who joins us from RAF Digby on promotion, **Cpl Paul** and **Sarah Browne** who joins us from Romeo Tp 14 Sig Regt (EW), **Cpl Steve Morgan** who joins us from 621 EOD Sqn, Northholt and finally **LCpl Chris Bradford** who join us for three months whilst **LCpl Mick Loughran** attends the new Area Systems course in Blandford.

EXERCISE WELSH CAPERS 3-9 JUNE 2000

We arrived at RAF Valley on the Friday to quickly unpack, grab some food and head down Bangor to witness the local nightlife. Due to this the bike riding around Betws-y-coed the following day shall be known as 'Five share a hangover in Wales'. The bike riding started well enough, but then we came to the first hill. **Cpl Andy Bush** bravely led the way, while myself, **Sgt Jon Brooke,** even more bravely was the first to get off and start pushing, closely followed, I may add, by everyone else. During the ride **Flt Lt John Morfee** showed us that the Airforce could ride as well as the Army, **Cpl Vini Shepherd** showed us that the Army could fly as well as the RAF. Saturday evening arrived and **WO1 Billy Corner** and **Sgt Martin Gill** joined us. We've now gone from the Infamous Five to the Not So Magnificent Seven!

On the Sunday we went rock climbing. We met **Sgt Jason McGlade** and his girlfriend **Shell** (both from RAF Waddington), at Lion Rock where **Sgt Mark Eizzard** undertook his first ever go at rock climbing - and lived. Quote of the week from **Mark** was, 'I've always supported West Ham, yes I'm a life long Gunner.' - just your team nickname to remember then **Mark**. With our new confidence we moved onto bigger and better rocks at Little Tryfan. A successful day rock climbing and abseiling ended when a group of job-dodging students turned up. Monday saw six of us scaling the Horseshoe of Snowdon. It was very enjoyable if uneventful in the way of stories. We did however raise eyebrows when we took a short cut and 'ski-ed' down one of the scree slopes, **Vini** claims it was a misprint on his map, the mountain rescue weren't convinced! Tuesday had all of us sea-traversing. For the uninitiated this is climbing around the cliffs just above sea level and falling or jumping off at intervals. **Flt Lt John Morfee** and **Sgt Martin Gill** showed us all how to do the falling bit, then wimped out of the jumping part. **Martin** claimed that he'd done it as a younger man and had nothing to prove. After that we abseiled off the cliff until we ran out of rope then fell into the sea. **WO1 Billy Corner** and **Sgt Jon Brooke** partaking in a joint one with **Billy** just missing **Jon's** head on the landing!

Cpl Vini Shepherd - Gone.....

Wednesday had us in two man Canadian canoes on the sea. We paddled from RAF Valley beach to Four-Mile Bridge (the bridge joining Anglesey and Holyhead). On the map a mere 3kms, but with our steering ability we managed to get a good 10kms out of it. Thursday saw us heading back, on what would be an uneventful journey if it were not for the fact that the exped leader **Cpl Vini Shepherd** (UEL) managed to get us lost on the way, claiming it wasn't his fault and finally, a good time was had by all. Very many thanks go to **Cpl Vini Shepherd** for organising the event. We are all looking forward to September's outing.

NEWS OF TRAINING

THE ROYAL SCHOOL OF SIGNALS

CIS WING, CISM GROUP

OC **Capt Fiona Nelson**
Trg Co-Ordinator **WO2 (YofS) Steve Buckley**
Foreman **Sgt (FofS) Si Hopkins**

INFORMATION SYSTEMS OPERATOR CLASS 1 (ISFR 1/00)

The first Information System Operator Foundation Class 1 course has been delivered at the Royal School of Signals and was considered a success by both students and instructors alike.

The course assembled on 2 April 2000 and was made up of 12 students from various trade backgrounds and whose rank range was Corporal to Staff Sergeant. The course consisted of 11 weeks of intensive training covering subjects ranging from Data Communications to Database Technologies. It included Windows NT4 Technologies, Introduction to UNIX and the ATacCS System Manager Course. Also covered were Security procedures, Setting up and running a Help Desk and Network Optimisation.

The students were continually assessed throughout the course, and it culminated in a two-day exercise where they were thoroughly tested on all aspects of instruction delivered. At the end of the course a top student was identified. This was based on both the individuals performance in the various end of module tests, their practical skills and the confidence and aptitude demonstrated and assessed throughout the course. **SSgt Mick Johnson** consistently scored over 90% in the exams and on the practical side excelled, demonstrating a logical, methodical approach to his work. The award presented to **SSgt Johnson** was sponsored by Azlan Ltd and presented by **Mr Freddie Jones**, Managing Director of UK & Scandinavia Training. The SOinC(A), **Brig C. J. Burton,** addressed the course, congratulating all of the students on their hard work and enthusiasm shown during the eleven weeks.

Transfer to the Info Sys Op CEQ is open to all R SIGNALS Class 1 tradesmen including Sys Engr Tech Class 2, although the primary feeder trade will be Radio Systems Operator (Radio Sys Op) CEQ. The Radio Sys Op will be loaded directly onto the Foundation Course. All other applicants who can demonstrate an understanding of Information Technology and who apply to be transferred, will be considered by a selection board who will recommend them for assessment on the Aptitude course if they feel that the candidate has the right skill sets. Attending the Aptitude course does not constitute an automatic place on the Foundation course. An extremely high level of knowledge and understanding, and excellent pass marks during testing, is expected from students on the Aptitude course. Those who do not demonstrate the right qualities will not go on for further training.

Training is available to the qualified Info Sys Op who wishes to specialise as a Database Administrator. Applications should be submitted to MCM Div through the chain of command. Procedures for the selection, training and employment of Royal Signals personnel with Information Systems can be found in SOinC(A) PD No 31. The photographs show **SSgt Johnson** with the SOinC(A) and **Mr Freddie Jones** after the award presentation and the students and some of the instructors involved in their training.

CORPS CAROL SERVICE

This year's Corps Carol Service will be held on Thursday, 21 December, at St Stephen with St John, Rochester Row, Westminster, starting at 1800hrs. All serving and former members of the Corps, plus their families are cordially invited to attend and to join us for sherry and mince pies in the church hall after the service.

COs/OCs of units in and around London are asked to encourage their personnel to attend.

11 SIGNAL REGIMENT

EXERCISE LIGHTNING FOLLY - *by Cpl Cross*

On Friday afternoon, 1600hrs most people are on their way home, but the soldiers of Lightning Tp, 3 Sqn, were heading for the armoury. With all their kit in tow they were ready to deploy on exercise for the weekend. The promise of rain made certain that morale wasn't high to start with. The troops collected their rifles, climbed aboard the transport and left for their five star accommodation that was Copehill Plantation, SPTA. This lovely location was to be their home for the next two nights. As the coaches approached crossing point November, **LCpl Vernon** briefed the troops on de-bussing drills and as the coaches came to a halt there was a sudden frenzy of activity as sixty soldiers burst from the transport and deployed into all round defence. Once the section commanders had been briefed they patrolled to the harbour area and quickly sorted out their routine. Unfortunately the ration trucks had broken down and they had to leave their rations at the locations from where they were recovered. The sections were quick to split into fire teams, leaving the section 2ICs to sort the harbour area, and the commanders to go and collect their rations. After several hours, and no sign of the sections, the DS deployed to find the geographically embarrassed sections. Eventually everybody was found and they all returned to the harbour area. Once back we discovered that one of the commanders had managed to get lost, even though he was in possession of a GPS. The early morning call had been booked, and with the help of Battle simulations, was delivered to the troops at 0415hrs. Within a couple of seconds there were troops leaving the woods like rats leaving the Titanic, all making their way to the ERV to meet up with their sections and await further orders. Once all the troops and their equipment had been accounted for, it was back into routine for a wash and breakfast before the day's activities started.

LCpl Reynolds checks the morning stand-to

The day was to be taken up by several stands, each lasting one hour, and consisting of Unarmed Combat, Fires and Shelters, First Aid, Navigation, and Traps. The Navigation was not as much of a challenge as expected, **Sig Tedby** found that the overall knowledge wasn't that bad, the previous night must have just been a one off! The Traps had taught everybody to turn a rabbit into an edible dish that was nearly as good as the rations, but **LCpl Reynolds** had had enough of spicy rabbit by the end of the day! However, to his credit he did attempt to teach the Squadron 2IC, **Capt Steve Jones**, unarmed combat, but to no avail as he was beaten by his opponent. After the stands were completed the troops went back into harbour routine.

Most decided to get their heads down for a few hours sleep before the approaching Night Navigation exercise. How they managed to sleep was a miracle; they must have been made of rubber. They must have been expecting things to go missing because they were trying to hold on to everything and sleep at the same time. After a few hours sleep the troops were ready for the night navigation. As they were getting ready to set off the RSM, **WO1 Kemp**, turned up and attached himself to the first group off, the motivation was increased by about 100% and surprisingly they were the first group through. In fact all the groups, bar one finished the course by 0200hrs. Again the early morning calls were delivered by **WO1 Sartorius** and **Cpl Cross**, as the troops moved to the ERV the sporadic explosions followed them, at this point they decided it would be a good idea to don respirators, and complete the move to the ERV in NBC kit. Once the attack had finished they moved back to complete the 'sniff' test and collect the gear they had left behind. After the morning's fun and games they were ready to move back to 'peace time location' and the second part of the exercise. Back in barracks, **Cpls Atherton, Rouchy, Floyd**, and **LCpl Vernon** had command tasks set up to concentrate on team work and leadership, with a little bit of blindness, and fun incorporated. Two discussion groups were also set up, one on racism in the Army and the other on the merits on OOB in the Barracks, taken by **LCpl Dine** and **Sig Tedby**. The troops were finished by 1400hrs, which gave them just enough time to get their kit ready for Monday morning's RSM parade.

EXERCISE GRIDIRON III 4–9 JUNE 2000 - *by Sgt Dave Uttley*

Ex Gridiron once again saw **Sgt** 'Dave' **Uttley** and **Cpl** 'Tony' **Brown**, of the Regimental Training Wing (Adventure Training) in action in North Wales. Due to their frequent visits, the Capel Curig Training Camp is slowly becoming their second home. The aim of the week was to take twelve Phase 2 trainees to actively promote adventure training within a service environment.

During the week the trainees were to complete a gorge descent, rock climbing and an overnight expedition in the Snowdonia Mountains. Due to the recent heavy rainfall, the gorge was hissing and spitting whitewater for most of its extent, this made for two days of excellent gorge descending. **Sig Govinda** especially enjoyed this activity even after his weary first look at the white-water bubbling deep in the gorge bottom. Undeterred by his first impression, he soon found himself leaping around like a salmon!

The trainees do their impression of salmon whilst Gorge Descending

The rock climbing utilised the area around Tryfan. Even the light showers of rain and the growing number of groups at this time of year could not stop some great climbing. This gave **Sig McKee** the chance to face her fear of heights, which she did commendably. The 2-day overnight expedition took the students high into the Snowdonia Mountains and proved quite a test for most. Although the wind got up to 50mph at nights, the weather stayed dry despite the forecast allowing for two quality days in the mountains. Overall, it was an excellent adventure training exercise. Both instructors and trainees gained a great deal from the experience and Exercise Gridiron IV is eagerly awaited.

DIRT BIKES (IN PURSUIT OF BEING TOP DOG) - *by Sig Sinnett*

Sig Sinnett of Lightning Tp, 3 Sqn, 11 Sig Regt recently participated in two major British Moto-cross events. The twenty one-year-old trainee Installation Technician took part in the 'Wulfsport' World TwinsLock Grand Prix at Hawkstone Park, Shropshire. Riding against former British and World championship riders from around the world, he achieved very creditable results. In the deep sand, with hot and dusty conditions the racing was tough. However, **Sig Sinnett** battled hard all weekend. He was rewarded with some good finishes and a quality points haul. With only a week between the Grand Prix and the British championship round at Faleigh Castle, Somerset, he was hard pushed to get his bike prepared. After many late nights work at the MT, **Sig Sinnett** and racing partner **SSgt** 'Steve' **Crawford** of MTHQ were ready. The pair shared **Sig Sinnett's** immaculately restored Honda CR250 for the weekend riding in separate classes. Again, hot weather caused extremely dusty conditions, which at times proved dangerous on this high-speed circuit.

DATE FOR THE DIARY
RACE THE SUN 2001
is planned for
10 May 2001

Sig Sinnett taking a tight corner

Sig Sinnett showing skill on his bike

Sig Sinnett, already having scored championship points put in some solid performances and added to his points tally, despite feeling underpowered on his 250cc against the other 500cc bikes. **SSgt Crawford** was unfortunate in his first two races being forced to retire, whilst being well placed, with mechanical problems. He showed great determination however, and put in a stunning final race as he carved his way through a pack of riders to be well placed at the finish. Not bad for a 38 year old! The duo thoroughly enjoyed their weekend and look forward to the forthcoming Army endurance event (Exercise 'True Grit') at Leconfield. They will also pursue their own championship during the rest of the season.

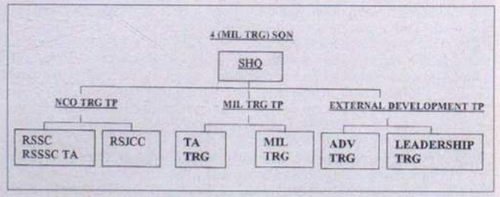
EXERCISE ROWATHON CHALLENGE - *by Sig Maxwell*

A show of hands went up as **SSM Pete Tasker** laid down his latest challenge to the troops. The challenge was to row eight hours constantly between a team of ten rowers to raise money for the British Olympic team. The first training session saw about 30 or so people attempt the first time trial. A select team of ten was chosen, after six weeks training at 0630hrs every morning and numerous time trials. The day of the actual event came sooner than most people expected and as we loaded the minibus at 0700hrs on that Saturday morning there was an air of excitement and also of anticipation between the squad. We arrived at Salisbury Leisure Centre at around 0830hrs where we all started to mentally prepare ourselves and warm up. The competition area seemed to be a sea of rowing machines that went on forever. Just before the event **WO2 Pete Tasker**, the coach and captain, called us in for a pep talk. To be honest I cannot remember what was said as the adrenaline was pumping that much with excitement. Then the clock struck 1000hrs and we were off. We rowed in 4-min intervals with 36mins rest between each leg after the first hour. We found ourselves to be in second place out of about 45 teams. As the hours ticked by some teams started to drop out but others kept going, not caring about distance just wanting to finish the eight hours. At about the 1hr 30min point we took the lead which we never really lost. We hit 50km first and hit 100km in about 5hrs 41mins. As the hours tick on we soon found ourselves with only 1hr to go. We decided to change strategy and pull for 2min sprints each. You could see from people's faces that they had nothing left but we pushed on to the finish with an overall distance of 139,900 metres, which was good enough to win. I would like to take the opportunity on behalf of the team to thank the coach, **WO2 Pete Tasker**, without his motivation and organisation we would not be able to complete this challenge. Also to our admin team who's energy drinks and constant cheering were invaluable. Cheers boys! Thanks to **Maj Andy Duncan** (OC 3 Sqn) and 2IC 11 Sig Regt, **Maj Phil Brown** who came down to give us extra support on the day. The 2IC also set an impressive 7:16mins for a 2000 metre time trial on a side-stand and we will be happy to give him a try out for our next event. The total money raised by the team was a staggering £727.10.

FROM A SMALL TEAM TO A MILITARY TRAINING SQUADRON

After the move from Catterick to Blandford it soon became apparent that, as part of our 'duty of care' there was still a requirement to provide Military and Adventure Training to the under 18's within Kohima Tp, whilst they awaited their trade training allocation. A team was formed in 1998 as part of Whitespear Tp, 1 Sqn within 11Sig Regt. Its main aim was to maintain morale and to preserve the military training knowledge they had received during Phase 1. After begging, stealing and borrowing equipment Whitespear Tp was initially located in Building 19 at Engineers Corner affectionately known as 'Compost Corner'. The Troop originally employed two Military Training and three Adventure Training Instructors. Challenging and rewarding Adventure Training courses introduced the trainees to the joys of various activities available in outdoor pursuits. Adventure Training was conducted in the local area and included navigation, rock climbing, canoeing and walking. The instructors also arranged six Adventure Training camps annually, visiting Capil Curig and the Yorkshire Dales. Many Phase 2 trainees had never participated in Adventure Training before and therefore this proved to be of great value, building upon the basics of leadership, teamwork and adaptability. The Military Training team concentrated on ensuring that all basic military skills were kept up to the required standards as well as introducing specialised training in the form of Light Support Weapon (LSW), Bayonet fighting and advanced NBC.

In April 1999, the Troop was relocated and moved from 'Compost Corner' to a building occupied by NCO Leadership Wing. Leadership Wing transferred from 11 Sig Regt to become a part of Training Operations Division, Command Training Group at the Royal School of Signals. Whitespear Tp then also incorporated the Royal Signals Training Objective 1G (RSTO1G). Due to the importance of RSTO1G and the necessity for all Phase 2 soldiers to attend the course, it was decided that RSTO1G would become the priority and all Phase 2 soldiers would complete a Military Training Package if they attended a trade course longer than 16 weeks. It also soon become apparent that Blandford Garrison required a Military Training Wing, that would also allow permanent staff to complete their Individual Training Directives (ITDs) and additional Military Training taskings. Whitespear Tp evolved and became the Regimental Training Wing moving from 1 Squadron to Blandford Support Squadron. In June 2000, it was deemed too costly to have two Military Training assets within the Garrison. Therefore it was decided that the Regimental Training Wing and NCO Leadership Wing would combine to form 4 (Military Training) Squadron under the command of 11 Sig Regt. Currently, the Squadron infrastructure consists of an SHQ and three Troops, as shown below:



Each Troop has the following responsibilities within 4 (Mil Trg) Sqn:

1. **NCO TRG TP.** Conducts the Royal Signals Sergeants Course, Royal Signals Territorial Army Staff Sergeants Course and the Royal Signals Junior Commanders Course. OC: **WO1 Gary Pickford** Blandford Mil: Ext 2185.
2. **MIL TRG TP.** Conducts the Royal Signals Territorial Army Corporals Course, Royal Signals Territorial Army Recruits Course and the Royal Signals Training Objective 1G Course, Garrison ITDs andPhase 2 Military Training. OC: **WO1 Gary Waters** Blandford Mil: Ext 2789.
3. **EXTERNAL DEVELOPMENT TP.** Conducts the Royal Signals Leadership Course and Adventure Training. OC: **Lt Tanya Noakes** Blandford Mil: Ext 2783

So there you have it, from a small team it has grown to a Military Training Squadron! Hopefully at some time in your career you will participate in one of the many courses run by 4 (Mil Trg) Sqn. Remember that most of these are career courses that you require for promotion. So do yourselves a favour and come adequately prepared. If you require any more information on the new Squadron formation that please contact one of the following key personalities.

OC	**Maj Paul Smith**	Ext 2194
2IC	**Capt John Williams**	Ext 2183
SSM	**WO2I Kev Read**	Ext 2501
FAX	**Pitney Bowes**	Ext 2193

TUG OF WAR - *by LCpl Latham*

The season started with a bit of a struggle for active participants but eventually interest started to grow. **Mr John** 'Dad' **Grey** was our trainer and he made sure that we worked hard from morning to night. Our first competition was at the Morrison Cup. The competition was difficult and we were finally robbed by 1(UK) ADSR. The team then proceeded whenever possible, to compete in various civilian competitions, which were mostly on weekends. We also started a women's team that entertained us at our regular training sessions. The highlight for the women's team was becoming the 5 Div Champions and runners up in both weights at the Armys. Also at the Armys we gained the runners up position in the 680kg category, which meant we qualified to represent the Army at the Inter-Services. This was when **WO2** 'Beast Master' **Manktelow** took over the training sessions. We trained harder than ever over the weeks before the Inter-Services. Finally the day came when we would pull against the best in the other services. Weighing in wasn't that successful so **Sgt** 'I'll break you' **McFee** took us for a gentle run to loose some excess pounds.

The team who eventually weighed in was:

WO2 'Beast Master' **Manktelow**	**Sig** 'Boy' **Taylor**
Sig Hudson	**Sig** 'Pre Madonna' **Francis**
Sig 'Upside down legs' **Maxwell**	**LCpl** 'Gwar' **Latham**
Sig 'Honey Monster' **Hughes**	**Sig** 'I'm massive' **Monk**

The team won against both the Navy and RAF teams but lost against our fellow Army team. We earned the runners up slot in the Inter-Services this time. Many sherbets were drunk that night all in high spirits of course. The next major competition was the Inter-Corps where we joined forces with 1(UK) ADSR, but we don't like to talk about that competition. Now the team is in constant training to get stronger than ever ready for the Braemar Games, which we were lucky enough to get invited to. Special thanks go to **Mr John** 'Dad' **Grey** for training and coaching us all season and **Sgt** 'I'll break you' **McFee** for all his help in organising all the administration and being so on the ball.

EXERCISE BASSIERO DRAGON

On 30 May this year, 20 members of 11 Sig Regt lead by **Capt** 'Bee' **Bryant** headed to Portsmouth to catch the evening ferry to St Malo. The crossing took about 11 hours so we had plenty of time to refresh ourselves ready for an arduous time ahead. The cabins onboard were comfortable and gave us the chance to catch up sleep that we knew we would need later. After 14 hours of driving we reached the Pradelangue campsite near Bagneres du Lunchen, where we were going to be based for the next two weeks. The first day in the mountains was used as an educational session teaching navigation and acclimatisation to the new environment. Our navigation skills from basic training were tested to the limit but soon it became second nature. The second day was far more demanding. We were taught how to walk in snow, which is a lot more difficult than it sounds. Traversing across, up and down in snow was a necessary skill to learn in case we encountered any snowfields up in the mountains. Ice and arrest training was to follow. Sliding down an ice slope in different positions and attempting to stop with an ice axe was quite fun, but only when completed successfully. The area where we were staying was also good for white water rafting, so not to miss out on the opportunity we gave it a go. After getting kitted out with life jackets, helmets, wet suits and paddles we set off with two rafts into Spain to our start point which was a couple of hours away. After an arduous morning session we stopped for lunch and a change of location to sample another river in the local area.

The expedition into the mountains was to last for five days. Our kit was checked for the right equipment and unnecessary items and then we set off for the first mountain refuge where we would be spending our first night. The path was easy at first but it soon became narrower and steeper the further we moved from our start point. As we arrived at the first refuge the weather closed in and soon it started to snow. The next morning gave us a change of scenery due to the previous nights snowfall. The mountain that we were heading for was called Montardo, and with it being one of the highest in the area, it gave us an excellent challenge. By early afternoon we had reached the summit and after a quick photo call we made our way to our next destination.

The next refuge was high in the mountains and the elements started to take their toll as two members of the party began to suffer from a mild case of snow blindness. To be on the safe side they were evacuated to the base camp where the admin party was waiting. With the casualties safe, and the party whole again, we continued with our journey. The next couple of days were completed with no further incident but a team of eight did manage to attempt the Needles of Augulles d'Armitages high in the mountains. Walking down into the Village at the end of the expedition was a great relief and also a chance to reacquaint ourselves with civilisation. The weather changed as we were preparing to leave and so most of the equipment had to be packed away wet. The journey to the ferry was broken up with a few driver changes and not soon enough we arrived. All the members of the team slept to the max on the crossing. When we arrived back at camp we sorted out all our admin and said farewell for more, well deserved rest. All members of the expedition thoroughly enjoyed themselves and can't wait for the next chance to frolic in the mountains.

CAVING CLUB

This month saw the first trip by the newly formed Blandford Caving club. Our band of five subterranean explorers left the camp after work on Friday for a seven-hour journey to Ingleton, North Yorkshire. We had arranged two trips over the two days, starting with the classic route into Allum Pot. Because it was a sunny day it seemed strange to be going underground but we all still disappeared into the dark hole in the ground. The way in is fairly open due to centuries of water erosion but it still had a few areas where a moderate squeeze was required. After a few scrambles and abseils the system leads into Allum Pots main shaft. The main shaft is a huge cavern about 100m deep, that gives a welcome view of sunlight as it opens to the sky. At the Rock Bridge near the bottom, the cave virgins were invited to look down into the base of the cavern, not for the feint hearted but a thoroughly enjoyable white-knuckled experience. The return-journey, apart from being all up hill, was quite easy. We managed to get in and out in a cool four hours. The next day we decided to tackle the Swinsdale Pull-through trip into the Kingsdale Master cave. This trip is very interesting as you start at the top of the hill and five hours later you emerge at the base of the hill. The initial route in was very small and wet but when it did eventually open out, it afforded us some great abseils down the waterfalls inside. **Sig** 'Snail boy' **McCann** should be thanked for his speediness in the cave, as he let us enjoy the experience for that little bit longer. Not for the feint hearted but thoroughly enjoyable, it was a weekend to remember and all that attended are looking forward to the next trip. Thanks to **Cpl** 'Tony' **Brown** for the organisation and local knowledge both underground and in the surrounding area.

REGIMENTAL ATHLETICS

The Athletics squad at 11 Sig Regt has achieved some outstanding results so far this year. But not having been in a competition for weeks, it was quite a shock when all of a sudden it was time for the Army inter-unit finals. The Master at Arms, **Capt Dupree**, had been training the team along with **WO2 Tasker** and **SSgt** 'Chippie' **Chapman**. Every Monday, Wednesday and Thursday we had a good session at the track or some general strength and endurance training exercises.

On the day of the competition we were all up at 0600hrs for breakfast before setting out on the long journey to the Aldershot Army athletics stadium. The journey seemed to fly by as most of the team slept but all too soon we arrived. When we got there we knew that there would be some stiff competition from the other units. 3 CS Regt (RLC), who had been the previous year's winner, were there so the challenge was on to see who was now the best. The field events were launched first. **Sig** 'Go With' **Noakes**, who was competing for the first time, made a valiant effort in the pole vault but was outclassed by the opposition and came third over all. In the

long jump 'A' string, **Sig Morancie** came seventh which was excellent considering the quality of the other competitors. Meanwhile the women's team gained an excellent second in the long jump due to the skill of **Sig Scott**. The best field event result for the women's was by **Sig Tagilala** who achieved outstanding results and won both the javelin and discus. Meanwhile on the male team **Sig Crank** beat his opposition and won the high jump. The track events were not so successful, mostly due to the competition from 3 CS Regt (RLC). **Sig** 'Sid' **Siddall** came third in the 100m and **LCpl Kent** gained a second place in both the 110m hurdles and the 200m. However, yet again it was the women's team who won the day. **Sig Cartwright** won the 400m and the team won the 4 x 100m relay. At the end of the day the men's team were third with a total of 179 points with 3 CS Regt (RLC) winning with a massive 272 points. However, it was a great day for the women's team. The competition leaders changed position three times during the day but we finally won with a close 94.5 points to with 3 CS Regt (RLC)'s 91 points.

To applaud everyone's outstanding achievement we had a celebratory meal at the Gurkha restaurant on camp. The CO, **Lt Col Nicholson**, joined us for a few drinks to congratulate us on our success. By the end of the night the team were merry and ready for the most arduous endurance event so far, the speeches. We would all like to thank the MAA, **Capt Dupree**, **WO2 Tasker**, **SSgt Chapman** and **Sgt Thwaite** for their hard work and dedication during the season.

The highly successful 11 Signal Regiment athletics Squad

ARMY TRAINING REGIMENT BASSINGBOURN

CO **Lt Col I. A. J. Condie**
RSM **WO1 (RSM) J. Roberts** RE

1 TRAINING SQUADRON

Sqn Comd **Maj J. M. Norris**
SSM **WO2 (SSM) A. V. Slaney**

TOP CORRIDOR MOVEMENT

Firstly the Squadrons hierarchy is going through a major change with the imminent departure of the OC and his sidekick – the 2IC. **Maj John Norris** is going back to college – Staff College, while **Capt Mick Boyle** is moving to Blandford to take up position as the new PSO. The Squadron wishes them and their families the best in their new postings and welcomes **Maj Fred Hargreaves** and **Capt Adrian Scott** as their replacements.

TRAILWALKER 2000

It was a cool 0530hrs in the morning that the intrepid 1 Squadron Trailwalker Team left the cosy confines of ATR Bassingbourn to embark on a 100km journey across the South Downs. I say *across* but it was more a case of *up and over*. The team consisting of **Capt** 'Cylume Legs' **Jeeves, Capt Rhidian Jones, Sgt Roy Turner** and **Cpl Smith** arrived in good time at the start in Petersfield ready for our 1000hrs start. Once in location the team began its lengthy warm up, two of the team burst into flames while I had a banana and a quick kip. Two of the team had completed Trailwalker in previous years and indeed for **Cpl Smith** it was his third effort, so they at least knew what was in store, but it was two naïve officers that stood on the start line as **General Cowan** got the race underway.

Our preparation had been both intense and comprehensive and consisted of **Sgt Turner** and **Capt Jones** buying new trainers before the event and **Capt Jeeves** giving up alcohol for a week. Anyone who has done Trailwalker will know that one of the most important aspects of the event is the team administration that was conducted, this year, by our very own SSM, **WO2 Slaney** and his trusted sidekick – **Sig Foster**. The standard of our Admin was second to none and all the team agrees that without the help of the SSM none of us would have completed the course. Our main aim had always been to complete the course with all four team members; in the previous year 1 Sqn team had lost one of its number along the way, so we were determined that we would not lose someone by overdoing it at the start. This thought was always in our mind as we gradually ticked off the miles and checkpoints. **Capt Jeeves** had his own particular goals and distances to reach, and gleefully called out as we passed the marathon point, only to be shot down as he was reminded that we still had another six miles to go before even being half way! Gradually the day passed by and each checkpoint was reached with us still in good spirits and I believe that it was once we had reached the three-quarter way mark that all of us realised that we would, come hell or high water, finish as a four. This we managed and at 0300hrs after being on the go for 17hrs and completing the last 5hrs of the competition in darkness, using head-torches, we crossed the finish line.

Finishing was not the exhilarating sensation that we had expected, instead I think it was one of relief and pure exhaustion. However, the team had achieved its aim, we all finished, we can all still walk, some of us have even tried running again and we all vow that we will be back next year. Once again I would like to take the opportunity of stressing to any Trailwalker potential that you should never underestimate the importance of having a proper admin set-up and I am extremely thankful that ours was so good. Congratulations to the team for coming a respectful 52nd out of over 200 teams.

The 'elated' team at the finish

BRAVO TROOP

Tp Comd **Lt S. Gunson**
Tp Sgt **Sgt P. Matheson**

At the end of another course B Tp faces the disruption of its established training team. The new Troop OC, **Lt Stuart Gunson** has arrived with **Capt Karl Jeeves** moving on to become the floating 2IC. Hello and Goodbye to **Cpl Steve Halpin** who has been with the team for just over half the course and is now moving on to his drillers course. Promotions abound with **Sgt Paula Matheson** awaiting her Staff Sergeant – and her posting. Congratulations to soon to be **Sgts Dave Langridge** and **Harry Ramsden** who came off the last board.

BRAVO TROOP CHARITY EVENT

Bravo Tp recruits have been involved in their usual charity event in support of the Great Britain Wheelchair Basketball Association. None of us knew exactly what to expect in a game of wheelchair basket-ball as we had never done anything like this before. On the day we were introduced to **Gordon Perry** who is the Development Officer for the GBWBA, an ex-Signaller who had lost a leg and is now involved in promoting the sport and raising money for equipment. For the competition we broke down into five teams with the training team making up one of them. The competition worked as a league system with each team playing each other. When we started it was hard to get used to the wheelchairs as they were very easy to tip backwards. As our confidence increased, so did the number of fouls. The worst offender was **Cpl Ramsden** who never seemed to get punished. Also **Tpr Lomax** who nearly knocked out **Gordon** as he pulled his chair over backwards and left him sprawled on the floor. The most consistent winners of their games were the 'A' Team consisting of **Sig Keegan, Tpr Lomax, Spr McBride, Sig Belshaw** and **Sig Kingan** who won their first four games. The Village People are also worthy of note for loosing their first four games. It came to a showdown match between the training team and the 'A' Team. This game was a very close battle with both teams locking horns with equal force. At half time the scores were level and there was everything to play for. As the game drew towards a close there was a sudden flurry of points with **Sig Keegan** scoring two of the final three baskets to win the competition. At the end of the morning everybody had enjoyed themselves and had learnt something new about a sport we had never really heard of before.

'After the Match.'

CHARLIE TROOP

Tp Comd **Capt Alex Clixby**
Tp Sgt **Sgt Dave Honeyman**

On Friday 9 June 2000, another Troop passed-out of Phase One Training, with the largest downpour known to man. Despite everyone getting soaked to the skin it was a good day enjoyed by all. The Troop Prize Winners were **Sig Sam** 'Bacon' **Richards** who won prizes for Best Recruit and Best at Physical Training. **Aled** 'Friend of Sheep' **Holland** won the prize for Best Endeavour with **Sig Terry** 'Onions' **Johnstone** scooping the prize for Best Rifle shot, a total of 43 recruits from the Troop passed-out.

During the 2-week training break there were a number of changes in Permanent Staff. We give a warm welcome to **Cpl Paul Conroy** who arrived at the Regiment, from 30 Sigs. **Cpl Smudge** 'War Stories' **Smith** and **Cpl Lindsey** 'Hair' **Payton** both moved to Delta Tp. Coming the other way from D Tp was **Cpl Mark Brenen**. Later this month we are sad to lose **Sgt Dave** 'I'll be in at 7.30' **Honeyman** who has been Charlie Tp Sergeant for the last year and a half. He is posted to Dundee to work with the TA. Thanks to him for all his hard work and best wishes to him, his wife **Julie** and the kids in the future! Congratulations to **Cpl** 'Taff' **Baynham, Cpl Paul Conroy** and **Cpl Smudge Smith** on being selected for promotion to Sergeant on the recent board. Well done to you lucky blokes. Charlie Tp have now started another Phase 1 Course, with 30 recruits fresh into the factory. There is just over a week until some very well deserved Summer Block Leave! Eight days and counting….

DELTA TROOP

Tp Comd **TBC**
Tp Sgt **Sgt S. Parke**

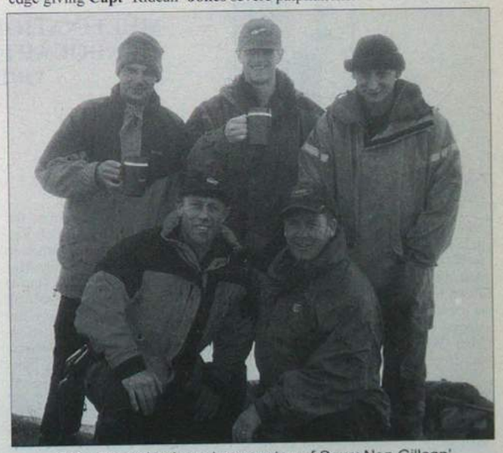
Another day, another recruit, the joy of ATR Bassingbourn continues with each day throwing up its own unique problem. On average, there are around 40 of them every 12 weeks, both male and female. Since the last issue the Troop has raised over £4400 for charities such as Leukaemia research, Army Benevolent Fund, and Special Care Baby unit in Cambridge. The events ranged from running, cycling and rowing. Having just completed another CMS(R) and sent 30 recruits to 11 Sig Regt, we are now starting all over again, joy! The last intake, which passed out on the 23 June 2000, was **Lt Kate Simmonds** tenth and last intake. She has escaped, fully unscathed and still with two pips to undergo Pilot Trg at Netherhaven, hot on her heels is **Cpl Sid Cleworth** recently back from his Class 1 at Blandford, **Sid** is looking forward to 249 Sig Sqn. At the same time, welcome to the new Troop Commander, **Capt Scott** and family who join us from Latina, Italy. Congratulations to **Sgt Sam Parke** and **Cpl** 'Smudge' **Smith** on their recent promotion, both are now eagerly awaiting posting orders!

ECHO TROOP

Tp Comd **Capt R. Jones**
Tp Sgt **Sgt R. Turner**

Echo Tp would firstly like to say farewell to **Cpl** 'Daz' **Kidd** on promotion to Sergeant and wish him and his family all the best at 21 Sig Regt (AS). The Troop also welcomes **Cpl** 'Mark-Mosquito' **Collins** and his wife **Marissa**, not forgetting **Cpl** 'Angie-Big Bird' **Twist** on arrival to the Troop and passing her OASAA. After successfully sending more troops onto Phase Two, Echo Tp training team decided to deploy on Ex Black Cuillin Tiger on the Isle of Skye. After a long drive, we finally arrived in Skye and found a campsite that would take us, we then set about building our homes for the next few days.

The first day brought a refreshing wake up call from the ever persistent midges and led us on to move to Kilt Rock Falls so we could practice our abseiling in preparation for the ever daunting Pinnacle Ridge on the Black Cuillins. Wednesday brought a bright and breezy start as we set off on our bid to conquer the ridge. What started as being a gentle climb rapidly progressed to a typical wet challenge, however, Echo Tp managed to conquer all and reach the third 'inaccessible' ridge that led us to a 25m abseil before we could continue. Unfortunately during the abseil **Capt** 'Mag to Grid' **Jones** camera battery decided to leave **Sgt** 'Roy' **Turners** hand and make its own way down the mountain. With the forth pinnacle finally completed we continued to the summit of Scurr Nan Gillian to be greeted by smiling faces of fifteen students at the top who were all roped together. Emphasis however should remain with the various and continuing scary moment throughout the climb, especially at the top when **Sgt** 'Highlander' **Turner** decided to stand slightly too close to the edge giving **Capt** 'Ridean' **Jones** severe palpitations.



'Echo Troop having a brew on top of Sgurr Nan Gillean'

Cpl 'Jimmy' **Frew** who was too busy singing and dancing to his CD Walkman lovingly ignored the daring decent. After our hard day on the mountain the Troop took in some sight seeing followed by a nature-walk and sea fishing where Echo Tp's resident fishers **Cpl** 'Wayne' **Bramwell** and **Cpl** 'Jimmy' **Frew** nearly put the fishermen on Skye out of business by catching the total of - one fish. After our long journey home, we look forward to more recruits, a good time had by all and a thoroughly enjoyable and recommended expedition.

CHARITY EVENT – THE THREE PEAKS CHALLENGE.

The Recruits of Echo Tp embarked on a challenging charity event in order to raise money for Marie Curie Cancer Care. The recruits, under the safe guidance of **Sgt** 'RCP' **Turner** were to climb the equivalent of the three peaks in England, Wales and Scotland on the indoor climbing wall at ATR Bassingbourn. After coming in off their mid term exercise, and still suffering from tiredness, the recruits managed a total of 3600m, 194m over the required amount in a time of four hours and twenty-two minutes. The total sum raised amounted to £1135.78. Which was greatly appreciated by the staff at Holme Tower – A Marie Curie Cancer Care Center.

FOXTROT TROOP

Tp Comd **Capt Jackson**
Tp Sgt **Sgt Purdon**

The Troop have now passed their Week 5 inspections and disappeared on a well deserved long weekend which has left the training team thinking where has all the time gone. Huge congratulations go to **Cpls Paul** 'Smudge' **Smith** and **Gav** 'Boy Wonder' **Wilson** who have both been selected for promotion leaving Cpl **Amanda** 'Beryl' **Verrall** as the sprog of the training team. F Tp have a mix of Signals, Engineers and RAC so it has taken a while for them all to gel together. **Sigs Lyon** and **Walker** joined in Week 1 after already spending several weeks here on the injured list, whilst **Sig Arnold** got all the way to Week 6 before injury struck and he has now joined the most metropolitan Troop in the Squadron. It is quite a shock to many members of the Troop when they first arrive but as the course goes on they soon get the hang of what the pet hates of the training team are. We welcome back **Sgt Craig** 'It's not ginger it's strawberry blonde' **Purdon** who has spent two weeks away on a recruiting road show. He also claims that he spent a week preparing his speech however the only thing that improved was his golf handicap. We are all looking forward to foreign holidays during summer leave except for **Capt Dave** 'Lend us a quid' **Jackson** who still claims that his pay is messed up.

1 SQUADRON ROADSHOW

On behalf of the Commanding Officer, OC 1 Sqn was tasked to conduct a Roadshow for the major and minor units of the Royal Signals in order to brief the Field Army on Phase 1 training and promote the Regiment within the eyes of the Corps. In addition there still seems to be a degree of ignorance about Phase 1 establishments and exactly what they do and the Roadshow's purpose was to dispel those myths. Finally ATR Bassingbourn is on the lookout for the high quality potential instructors to come and train recruits. The humble task of running the Roadshow, OC 1 Sqn entrusted to one of his faithful officers, **Capt Jeeves** and a team of three others, **Sgt Purdon, Cpl Ambury** and **Cpl Lythe**. With only four weeks to prepare the presentation and organise all the admin for such an undertaking, time was certainly a factor. The week leading up to deployment was punctuated by rehearsal after rehearsal and last minute checks. On Monday 10 July 2000, the team departed ATR Bassingbourn in a minibus, on a journey that would last two weeks, see them present to 13 regular units a total of nine times, travel 2200 miles and eat ten Big Macs each! Did the presentation achieve its aim? The aims of the presentation were met on all levels, 13 Units are now better informed about Phase 1 training and what it involves both for the recruit and instructor. The Regiment currently has a number of high quality instructors many of them are now being posted as Sergeants around the Corps and the future holds more of the same for ATR Bassingbourn.

REGIMENTAL ATHLETICS

The Regimental Athletics Team has recently competed in the Army Team Finals in Aldershot, coming an excellent second in the Minor Units Competition. This rounded off a very successful year in which the team also won the Morrison Cup and the 4th Division Championships. The following personnel from 1 Sqn gave worthy performances in the Army Final.

Maj Norris – Long Jump(3rd)
Capt Jeeves – Triple Jump(3rd)
Sgt Clark – Shot and Hammer(both 1st)

Sgt Clark receiving one of his gold medals ffrom SOinC(A)
Sgts Kidd and Park in the background about to receive their gongs

NEWS FROM THE BALKANS

MULTINATIONAL DIVISION (SOUTH WEST) HEADQUARTERS AND SIGNAL REGIMENT OPERATION PALATINE

Sqn Comd **Maj A. H. Campbell-Black**
RSM **WO1(RSM) D. W. Craig**

The Squadron Headquarters will be seeing quite a turnaround in the coming month of August just before the unit handover to the Dutch Signals Battalion. Within this very busy month we loose firstly on promotion to WO1, **WO2 (YofS) Neil Ferris** to 1 Sig Bde closely followed by **Maj Adrian Campbell-Black** as Chief of Staff 1 Sig Bde then **WO2 (FofS) Dean Briers** on promotion to WO1 posted to RRST. It has been said there is a pattern. We also loose **Capt Paul Buck** who has escaped early and sloped off back to Osnabruck as OC rear party, releasing **Capt** 'Kiora Man' **White** to take over the Squadron as 2IC. The execution of the draw down is looking good to get the Signal Squadron out of the Banja Luka Metal Factory, off the HTS's and RLD's and downsize to a Signal Troop. The HTS's and RLD's are the Squadron's next main effort to extract and backload both equipment and personnel. A warm welcome to our new Ops team of **WO2 (YofS)** 'Gaz' **Tabor** and **WO2 (FofS) Steve Moore** who will be in the capable hand of **Sgt Steve Tressider** who will be easing them into the ops.

WO1 (RSM) Dougie Craig
with his locally promoted technician mate Sgt Brian Brown

OSCAR TROOP

Tp Comd **Lt Paul McTurk**
Tp SSgt **SSgt** 'Ollie' **Oliver**

RESUP TEAM - *by Sig Sheppard & Sig Smith*

Since deploying on Op Palatine on 28 May we have been busy resupplying the outdets in theatre. Happily, the number of dets is decreasing as the handover to the Dutch Signal Battalion goes on. We have been working hard and had a lot of support from everyone else, because they have realised that the sooner the handover is done then the sooner we can go home. There are not many incidents to report, apart from **Sig** 'Mad Dog' **Murdoch** deciding that if a local cyclist wasn't going to move out of the way for him, then he would move him…….. with his bumper. Nice one mate! Congratulations to **LCpl** 'Mac' **McKenna** for finally getting on his Class 1.

Our deepest sympathies go out to Lisnia West and in particular to **LCpl Glen Hislop**, because by the time you read this 'Simba' will be in that big luxury dog kennel in the sky. **Sig** 'Dinger' **Bell** has been getting plenty of practice milking the local cow. **Sig** 'Woggle' **Moran** still assures us that he is human but that may be a fantasy. Gola P has the old hermit **LCpl** 'Old Git; **Forsyth** along with **Sig** 'I'm so interesting' **Evans** who is still seeing his Dutch bird along with all Amsterdam. **LCpl** 'The Pest' **Robertson** has been doing his best to learn some new chat up lines and trying to impress. Up at Ljubija, **Sig**'I'm even more interesting' **Adshead** has been doing his best to look like one of the Gallagher brothers. **Sig** 'Scotty' Walker has taken up running which is a bit of a surprise but then again it is with **Cpl** 'Lycra' **Huby**.

The FRT sort out problems at COMMCEN Ljubija (C2 BG)
Cpl 'Lycra' Huby, Sig 'Scotty' Walker, Sgt Brian Brown,
Sig Shephard, Cpl Tim Keyworth

Up at Corralici, **Cpl Andy Morris** and **Sig Rob** 'Houdini' **Trotter** have been bored to tears by **Sig** 'No Neck' **Parrot** and her jackanory stories. The Canadians celebrated when COMCEN Corralici closed down. Cries of 'No more stories', were heard as they finally got rid of her. **LCpl Tim Stanton** has been having his fair share of problems down at Sipovo. However, his excuse of 'No Power', when asked why his kit wasn't working wasn't quite believable, as he was sat playing his Playstation at the time. **Sig** 'The grey man' **Scott** has been busy in the prone position although not upto the standard of **Sig** 'That immaculate soldier who belongs on a recruiting poster' **Ward**. Sipovo has seen not only **LCpl** ' The stinging ….'**King** along with old man **Phillips**, not as old as **Charlie** though. Almost forgot about **Sly** 'Hercules' **Found** who has been busy trying to impress the Dutch with awesome physique.

The Rog has seen an eclipse in the arrival of **Cpl Paul Lomas** whom with his razor sharp wit and GSOH will no doubt keep the det amused! **Sig** 'Daz' **Kirby** and **Sig** 'Jammie' **Masters** are still ready to rumble over who is best RR Op on the det. By the way 'Daz' we will not come and do a 10 hour round trip so you can play five a side, coming from Liverpool doesn't mean that you can play footy you should know that. Radilica boasts the happiest det in theatre always quick with a smile and friendly banter it is a must to see. The show has humour in **Sigs** 'Cannon' **Collins** and 'Ball' **Cooke** with the compere **LCpl** 'Manning' **Rose**. At MG there is **LCpl McKay** a **Sig Parrot** lookalike and **Sig Smith 352** who have now witnessed the arrival of Super Op, **Sig** 'Braveheart' **Crawford** who has taken the Department by storm and will now put it back on the map or into oblivion. All in all things have not been bad but we are looking forward to getting the hell out of here.

PAPA TROOP

Tp Comd **2Lt Mike Parke**
Tp SSgt **SSgt Paul Davis**

Over the last month Papa Tp has been deployed on various tasks providing comms (or not in **LCpl** 'Barry Chuckle' **Moffats** case). Those not providing comms have been using the excuse of crypto guard to improve their tans, as **Sig** 'Wacker' **Walker** can testify with the locals regularly mistaking him for one of their own. Those left behind have been surprised by the lengths at which **SSgt** 'Hopalong' **Davis** will go to ensure that nobody feels left out, to the extent of throwing himself down a set of stairs to cheer **LCpl** 'Tommo' **Thomas** who's leg is in plaster. Three members of the Troop descended down to the party island of Brac for some really 'adventurous' training, where they participated in some canoeing and trekking. The troublesome trio were **Sig** 'Too Keen' **Brittain, Sig Jim** 'Nice but dim' **Burgess** and **Sig Dan** 'Paul Chuckle' **Tooke.** One of the highlights of the week was taking in the sights of the local nudist beach with some strategically placed photos of the water and scenery. All activities were set upon with great enthusiasm .

On a serious note, after six weeks hard graft the Troop is finally up to standard. The Troop has performed well in all tent erection exercises under the watchful eyes of **2Lt** 'Will the baggage party come on me?' **Parke**. Our congratulations go to **Cpls** 'Maurice' **Pay** and 'Charlie' **Henson** on coming off the board, Well done lads. The Troop says farewell to **LCpl** 'Baba' **Samuel** who's on route home. All the best **Jimmy** and **Steph** and we can't wait to see Jimmy junior in four weeks. Finally a special mention to our resident REME **LCpl White** who was upset at never getting a mention in *The WIRE*.

ROMEO TROOP

Tp Comd **Lt** 'Ben' **Howarth**
SSgt **SSgt** 'Paul' **Buckley**

After arriving in the Banja Luka Metal Factory some seven weeks ago the pace is certainly picking up. As the Troop enters its Betty Ford phase **Lt** 'Plastic Ken' **Howarth** is ensuring that wherever possible the Troop take their 96-hour pass or five day adventure training period at Brac. **Sig** 'Nikki' **Earl** clearly learnt a lot, informing us that Brac is an island off the coast of Split and it may be small but beautiful. The two man rooms are no different from the CoRiMecs on camp insisted **SSgt** 'Laughing Boy' **Buckley**. The adventure training is a chance to try scuba, trekking, climbing, canoeing, windsurfing and to rebronze the body (for those who care about such things).

The Systems Controllers congratulate **LCpl** 'General Jackson' **Eden** for just being around and making the rest of them feel younger. Welcome to **Sig** 'Frazer' **Anderson** who is getting to grips with answering the phone like a real pro. Welcome back to **Sig** 'Quark' **Mockett** from his two week trip to the Continent (Osnabruck). Hello to **Sgt Wright-McCarthy** and his merry men fresh from their southern England jolly. The Powermen have been frantically sent on jobs to support the coffee in Tommy's (CIT) boys. **Sig** 'Where's my razor' **Humphreys** particularly enjoyed his 96 hour break. **Cpl Christopher** 'Brews-up' **Heap** could not understand why he hadn't been sent, but probably because no one could track him down.

The COMMCEN said a sad farewell to **Sgt John Swanston** who has handed over to **Sgt** 'Jelly - Please can I be a Yeoman?' **Smith**. **John** is now brushing the Foreman's boots to a high shine and his brew making skills are outstanding. The other operatives struggle into the light on occasion but seem to prefer their dingy hollow. The ISM investigation team led by **Cpl Dave Harding** is relieved to report they have completed their theatre equipment survey. A little exaggeration, but only to be expected from troops led by the silver tongued **SSgt Tony May**. Finally many congratulations to **LCpl Chittick** on the birth of a baby boy. Those in the Troop blessed with children have already appraised him of a future of sleepless nights and nappy changing. What are friends for ??

MIKONJIC GRAD (MG) MOUNTAIN HALF MARATHON

by LCpl Mallison. (Attached BRITFOR Sig Sqn (204))

At 0400hrs we dragged our tired, limp bodies from their cocoon like state. Already the air was stuffy and warm. Transport was set for 0500hrs. 0610hrs, time running low and moral was beginning to fade, still no bus. Finally 0620hrs, **Sgt Brown's** happy bus.

On arrival at MGBD we were confronted by a mass of 300-400 contenders. Five minutes until the start; best get a move on. A quick briefing and we're off. The mountainous peak loomed in the near distance. Hard to believe we'd be ascending it in less than 15 minutes. The harsh sun was already taking its toll, sapping strength from even the fittest contenders.

The first ascent was steady, but long, very long. 'Just around the corner and it's all down hill,' was a frequent call made at the water stops. The corner they spoke of never came. 'Why am I doing this?' ' I can't believe I paid DM 20 for this,' was running through many contenders' minds. At last onto a long open straight. The never-ending road, a vast heat trap, meant that the sun took its first victim. On the approach of the second peak, the shape of a limp body became clearer. Oh well, better push on. The second peak was even less forgiving than the first. As we rounded the corner at the base of the ascent, we began to wonder where the ropes and karabiners were. It seemed to go on forever. Finally it was 4km to go and it's all down hill from there on. A new lease of life for everyone as they bounded with the ease of mountain goats, down the unstable track which crumbled beneath every step. A local boy decided to tempt the runners into purchasing a cycle by taunting them as they ran. Finally the home straight, the finish line visible in the distance. The racing snakes giving encouragement to the normal runners.

Finished, a wide smile, plenty of fluids and a T-shirt to reward my accomplishment. Prize giving, congratulations to **Sgt** 'Mo' **Pay** who came eleventh over all, and also to **LCpl Berridge** who came in 12th and received first under 21 position. The Squadron team attained seventh position out of a possible 26.

The bus was silent on the way back. Only the driver could be heard grunting. His legs had taken a beating on the run, and would seize up occasionally whilst he was driving. Oh well who is ready for the TSG HALF MARATHON on 20 August…

QUARTERMASTERS DEPARTMENT
QM **Capt (QM) Pete McElwee**
RQMS **WO2 (RQMS) Shaun Day**

The Department is well into the backloading phase of our tour on Op Palatine. Within the Banja Luka Metal Factory the Squadron's major mission is to withdraw all equipment and close down all Royal Signals manned Hill Top Sites (HTS) and implement the new Commercial systems provided by various civilian contractors. Project Molyneuex Phase I saw some 65 vehicles and 105 various equipment's and plant make the June sailing along with over 6000kgs of freight. The heat is on to get some 159 Green fleet vehicles and 45 pieces of plant onto the boat in September. To add to the organised chaos, the day to day running and life support provided to the BLMF and its 2000 transient occupants of varying nations continues, with the odd language problem, so if there are any Tech Sup Specs out there that can speak Dutch, Czech, Italian, Norwegian or Serbo Croat please let us know, we can manage with the Canadians, Aussies, Kiwis and the odd Geordie.

During this busy period we said a sad and fond farewell to **Sgt** 'Spike' **Hughes**, who we thank for his sterling work and wish him, **Sarah** and the girls all the best in Haverfordwest. We extend the hand of friendship to **Sgt** 'Scholly' **Christle** and 'Scott' **Martwitch** recently arrived from 1 ADSR, welcome to the family. During our deployment we have had a plethora of individual replacements from many cap badges and two Dutch Army soldiers, serving within the Department. We must thank them all, whole heartedly, for their assistance. Were it was not for these willing volunteers, from the Territorial Army or Reserves, the regular Field Army would be stretched even further so for your assistance we thank you.

The Commercial Project moves along with pace and **Cpl Dez Lang** has joined the team from CIT, he is currently sitting writing SSRs for some 350 lattice, 50 logan satellite phone terminals and seven containers full of IT equipment from PCs to Servers to racking and cabling. Once complete all equipment is to be signed over to the Dutch who will take over the deployable HQ for the MND. Overall the team is working hard and time is flying by. Sadly we will be the last Royal Signals Quartermasters Department deployed on mass to the BLMF so for those of you previously deployed here you will glad to know that you will not have to breath in the fumes and dust within the factory any more.

MULTINATIONAL BRIGADE (CENTRE) HEADQUARTERS AND SIGNAL SQUADRON (207)

SQUADRON HEADQUARTERS
Sqn Comd **Maj Mark Roberts**
RSM **WO1 (RSM) Mark Tivey**

This month, a special feature on the tour of 7 Armoured Brigade Headquarters and Signal Squadron (207) in Kosovo on Op Agricola 3. HQ MNB(C) is heavily augmented to cater for the nature of operations in Kosovo, it is now divisional size. All together the HQ MNB(C) site, including the Signal Squadron, is home to over 500 people, and of course the Squadron is responsible for it all. The communications and echelon responsibilities are wide and varied. To assist there is augmentation from other regular forces, TA and reservists. The Force Signal Squadron also includes EW and satellite comms detachments. The resulting unit is tri-service and diverse; it is a challenge, but a rewarding one. The Squadron has had its armoured headquarters in theatre and deployed several times. Maintaining and running these detachments was hard work, but life would not have been the same without them. Other commitments on the Squadron have included an HQ LAN, a telephone network, Internet access, commercial radio as well as the ubiquitous Ptarmigan and Combat Net Radio. Our predecessors in Kosovo will remember the university site well, but that has now been handed over to the UN in order that it can be used for something very important! HQ MNB(C) is now located in the Temporary Field Accommodation located in the site of the old VJ barracks Pristina. One could say many things about the accommodation, but it is not temporary and it is not field. Standards of accommodation are very good, or at least they were when we left. The three nights a week outdoor cinema, quiz nights, barbecues and karaoke nights have all been written into Camp SOIs in eager anticipation of our return to Pristina next summer. Over the last few months, the Squadron has witnessed the departure of many of its favourite rats; too many to mention, we wish them and their partners well in their new posts. The picture shows the new RSM, **WO1 (RSM) Mark Tivey,** taking over from **WO1 (RSM) Colin Milne** outside the TFA. **WO1 (RSM) Tivey** is smiling, as he had no idea what he was taking on!

COMMUNICATIONS TROOP
Tp Comd **Capt Adam Corkery**
Tp SSgt **SSgt Dave Sloane**

With our six month tour nearly over, the Troop is actively looking ahead to our return to Hohne. However, first a look back at Op Agricola 3 and our part in it. The role of the Troop has been to provide communications support to the Brigade Headquarters in the form of Combat Net Radio, Ptarmigan and Information Systems as well as maintaining two armoured headquarters, with one permanently on a short notice to move. With a Troop of 40 people, the individual roles have been extremely varied with everything from manning a computer help-desk to maintenance of the armoured headquarters with a myriad of jobs in between.

The Armour rolling through Pristina

New challenges arise daily; supplying communications for the Brigade reserve back to HQ MNB(C), backing up 2 RRF in house searches and the Scots DGs in patrolling are just a few examples. We have deployed on a number of operational test exercises during the tour, providing a break from the tasks within camp but also a vital way of maintaining our drills and war-fighting skills. Life continues to be full of activities right until the end with the RSIT team arriving in our last fortnight, a full headquarters deployment and then the small business of moving the Troop complete back to Germany before a well deserved summer leave.

ROVER TROOP
Tp Comd **Lt Andy Hill**
Tp SSgt **SSgt Andy Buckle**

Having arrived in mid-February, Rover Tp has been dispersed in ten locations. One of the Troop's main functions was to provide nine Rear Link Detachments (RLD's) to support the Finnish, Swedish, Norwegian, Czech and the three Canadian ops rooms. These three-man teams provided SCRA(T) and secure VHF communications. In order to achieve all-informed comms, the Troop also controls the two hilltop sites of Goles and Suvi Bunar where we have Rebros and Centrals. The remainder of the Troop has remained at the Brigade Headquarters where they man Spec Task FFR's in support of Brigade taskings.

The Serb Engineering Faculty - 'home' for half the tour

How not to do it - Sig 'Magic' McDermott

In early May, the Brigade finally moved into the new TFA, allowing a greater control of our Troop's assets. The Spec Task crew became involved in many operations, providing secure Ptarmigan and VHF comms to the local commander. The Operations ranged from search ops to riot control. The Spec Task crew was also used to conduct recces for potential comms sites. These involved a lot of cross-country driving, which inevitably lead to one or two recovery tasks. Well done **Sigs McDermot** and **Muers** for your overnight stay in the field! The Troop has been largely made up of augmentees from 1 ADSR who have fitted in extremely well with the Squadron. We will be sorry to see you go when we return to Germany in August, but we're sure we will see you all again before you know it.

SUPPORT TROOP
QM **Capt (QM) Dave Wilson**
RQMS **WO2 (RQMS) Eric Udell**

Arriving ahead of the main body of the Squadron, Support Tp took up residence in the 'Bread Factory' which was a couple of kilometers away from the University building where HQ MNB (C) was located. The first task was home improvements, as the location was particularly badly appointed. All of the individual sections of the Troop settled in well. They were found turning their hands to everything from the plumbing in of new showers, to the complete rewiring of the electrical infrastructure of the factory.

The month of May saw the long awaited move to the Temporary Field Accommodation, (very posh portacabins). The initial plan was to move the G3 Whizz Kids in - and then a month later - move the G4 Scum. Not a chance! Unbeknown to the Headshed the Troop moved before the Brigade and the transfer of location was seamless. The Troop's performance in respect of sporting achievements has been exceptional. The events that the Troop have been involved in include: the Norwegian 30km Endurance Race (The Viking Run), the Pristina 10km Road Race, the Batlavsko Half Marathon and of particular note, the Dover to Paris Charity Challenge which raised in excess of DM4000 for various charities.

The Pristina Road Run Team

The Troop has worked extremely hard since February and has received many plaudits during the tour. We are now looking forward to our imminent recovery to Hohne and being safely Reunited with our families.

RSM **WO1 (RSM) A. Balsdon**

HQNI AND 15 SIG REGT SWIMMING AND WATERPOLO
by WO2 (FoS) A. G. Jenkins

The time of year was upon us once more; we had trained hard and we were ready for the competitions to begin. The swimming and waterpolo season was a short sharp shock, with all three major unit competitions being completed in the space of just one month. As holders of all three major unit waterpolo trophies we were expecting some tough matches. The usual round of postings had seen the departure of some quality players; notably **WO1 (SMI) Shaw** who left to join AFC Harrogate. We had, however, been fortunate enough to persuade a few elder statesmen to don their old rubber trunks again, and our squad reached a high standard. The NI Championships took place on 9-10 May 2000. Unfortunately only three major unit teams entered and we won both competitions very convincingly.

ARMY UK SWIMMING AND WATERPOLO CHAMPIONSHIPS

The Army UK Championships were a different matter, with the waterpolo being held on the 13 June and the Swimming on the 14 June. Eight waterpolo teams had qualified and two leagues of four were established, playing a round robin system. The teams in our league were 21 Sig Regt, School of Electronic and Avionics Engineering (SEAE) and a Nomads team made up of the referees and officials. We played SEAE first and certainly hit the ground running! They were a very strong side who were extremely fit. This was our first really competitive match of the season and we gelled instantly, running out 8-1 winners with notable goal scoring performances from **WO1 Duncan Grassick,** GREN GDS and **WO2 (FofS) Tony Jenkins.** A comfortable victory over 21 Sig Regt and our place as League 'B' winners was assured. In the semi-final we played the runners up of League 'A' who were ATR Bassingbourn and again we managed a fairly comfortable victory. SEAE played AFC Harrogate in the other semi-final and ran out worthy winners to set up a final of HQNI and 15 Sig Regt v SEAE. Unfortunately we were unable to repeat our earlier performance and lost out by 7-5 despite notable goal keeping performances, including a penalty save by **Capt Mark Proctor,** INT CORPS. This meant that both SEAE and ourselves had qualified for the Army Finals.

The swimming proved to be 'an event too far' for our aging squad. Nine major units entered and the standard was very high. We finished a creditable sixth place with the one notable performance by **Capt Ian Hargreaves** who won the individual backstroke.

The Army waterpolo finals were held at RMAS on Monday 19 June 2000. The competition is meant to be between the top two teams from both the UK Army and Army Germany competitions. However, only 16 Sig Regt had made the journey from Germany so AFC Harrogate became the fourth team. The competition took the form of two semi-finals followed by a final. The semi-final line up was SEAE v AFC Harrogate and HQNI and 15 Sig Regt v 16 Sig Regt. The first game saw AFC produce an outstanding performance and they ran out 12-8 victors. Our semi-final was a closely contested match; the large pool at RMAS meant that fitness was always going to be paramount. We ran out 7-4 winners to set up a final against AFC Harrogate. The final proved to be a superb encounter with AFC Harrogate having the upper hand for the whole of the game until a stirring fight back in the final quarter saw us draw level at 7-7. This led to two extra periods of over-time. AFC Harrogate again took advantage and went 10-7 up after the first period. A spirited fight back during the second period saw us close to 10-9. However, it was not to be and that final goal eluded us. AFC Harrogate ran out worthy winners in what all agreed was one of the best finals in recent years.

So the season has now ended - unfortunately we have relinquished our hold on the Army Championship but we will be back again next year. As a final note our illustrious team captain, **Capt Chris Lamb** INT CORPS, is leaving us for pastures new. After three years at the helm he will be sorely missed and we wish him all the best for the future.

TUG O' WAR - *by Cpl Max Wall*

The Tug o' War season had a slow start with most of last years' 'pullers' having been posted. This left only myself **Cpl Max Wall**, **Cpl** 'Trigger' **Meeds, Cpl Dave Hill** and **Sig** 'Paddy' **Grills** from last year's team. However once **WO2 (SSM) Rob Dunsieth** took the helm as IC Tug o' War the interest level increased. The first real sign of interest was the Inter-Squadron Competition which was also a good opportunity to select a team for the Herfordshire County Show in Redbourn and the Princess Royal Show at Windsor. Unfortunately due to commitments at work we could only take a limited team with us which included new comers **WO2 (SSM) Rob Dunseith, Cpl Karl Hannah, LCpl Jim Quinn, LCpl Shaun Barton, LCpl Tony Wressel, LCpl Steve Boyd** and **LCpl** 'Mini Me' **Smith.** The new team held its own well on both occasions and it was good experience for all - at times it felt like we were water skiing rather than pulling due to the mountains of mud and rain that we were pulling in! However, we managed to beat 11 Sig Regt at the Windsor Show as well as getting a rare photo with **HRH The Princess Royal**. The next event took place at Thiepval Barracks at the Station Summer Fair with teams from 39 Inf Bde, 26 Sqn and two teams from 2 RMP. This time things looked a lot better with 15 Sig Regt winning the competition. Our final competition was the Northern Ireland Championships which was held at Omagh on 25 June 2000. We finished as Runners-Up - second to 4 R IRISH but still qualifying for the Army Championships. Unfortunately, once again due to commitments in Province this is one event we will not be attending but the team look forward to hopefully competing at the Braemar gathering in September.

HEADQUARTERS SQUADRON
Sqn Comd **Maj J. Mullender**
SSM **WO2 S. Russell**

COMMCEN TROOP - *by Sig Mallinson*

Farewell to **Sig Henson** who is off to 249 Sig Sqn, **Sig Huish** to 1 (UK) ADSR and **Sig Rodwell** and **Neesam** to 30 Sig Regt - the Troop will be a lot quieter and smaller without you.

This month Lisburn station held its annual Summer Fete and COMMCEN Tp took part by providing a Pitch and Putt Stall. All available COMMCEN personnel gathered early in the morning to set up the stall which offered alcoholic prizes for adults and sweets for the children. Whilst setting up we realised we were in stiff competiton with the Archery Stand that had set up at the end of our pitch. After we had set up the stall each of the Troop members had an attempt at chipping into the umbrellas - with little success! Some of the balls strayed resulting in a few near misses of innocent bystanders that had gathered at the archery stand! A few of the Troop members were very keen on winning a prize for themselves. **Sig Dave Green** spent about £20 on the stall without any success and **Sig Huish** was pushing for a prize when he hit a rather expensive car parked by the Archery Stand. Promotion of the stall involved **Sig Andy Cunningham** holding a bottle of whiskey, **Sig** 'Mally' **Mallinson** carrying a bottle of vodka and **Sig Dave Green** carrying a board with the details of our stall. There were also a few humorous moments when **LCpl** 'Nanny' **Bird** was smacked on the forehead by **Cpl Richie Evans** - he may be good at PT but he has no talent with a golf club. **LCpl** 'Nanny' **Bird** had to go to the Med Centre to get her forehead glued. A wayward ball hit by **SSgt** 'Icky' **Gratrick** struck **Sig Adam Ryan**; luckily he escaped with no injuries. Even though the weather was typical of a normal day in the Province raining all day, COMMCEN Tp managed to make some money for some very worthy charities.

COMMCEN TP and their PITCH & PUTT STAND
Cpl Richie Evans, Sig Adam Ryan, LCpl Sam Skyvington, Sgt Shameem Newman, Sig Mally Mallinson, Sig Dave Green, LCpl Nicky Bird, Sig Lynda Shields and Sig Huey Huish

225 SIGNAL SQUADRON
Sqn Comd **Maj Jeremy Tod**
SSM **WO2(SSM) Downie**

SUPPORT TROOP

The Troop has seen a big changeover in hierarchy over the last few weeks. Welcome to all the new faces: **Capt Paul Griffiths, Capt Pete Kennedy, Capt Chris Gore, WO2 (SSM) Thorne,** and goodbye to the old: **Capt** 'Pineapple Rings' **Murphy, Capt** 'Chippy' **Carpenter, Capt Lamb, WO2 (SSM) Downie.** The soldiers within the Troop managed to get away on some good courses and sports recently despite the pressures of marching season. **LCpl James** and **LCpl Pullen** both attended a rigging course and **Cpl Deas** escaped to Blandford on the Royal Signals Golf Championships, but would not disclose his final position! In addition **LCpl Quinn** successfully completed a fork lift course recently. The Seniors v Juniors football game was won by the Seniors with a score of 8-1. The rumour within the Squadron was that the Juniors let the Seniors win to make them feel good. **LCpl Lafferty** even fell over and broke two of his ribs, having collided with the smallest man on the Seniors' team. The Squadron is in a state of shock since the new SSM arrived and introduced three sessions of PT a week. Support Tp maintain their morale on these arduous sessions just watching **Sgt Al Bolton** in his technicolour lycra cycling shorts. The Troop would like to say farewell to **LCpl James,** and **LCpl Lafferty** who are both off for two years hard labour in their respective TA posts. Their comradeship will be missed!

ECHO TROOP
Tp Comd **Lt Fi Stewart**
Tp SSgt **SSgt (Supvr R) Paul Dunn**

Another busy period for Echo Tp, exaggerated by manning levels getting worse with many leaving and fewer arriving. As usual each watch has been trying to out-do the others with their activities during their days off. The best effort of recent months was Bravo watch who went on a three day parachuting expedition – thoroughly enjoyed by all. Alpha watch enjoyed a rain free and sunny day at Bangor on a fishing trip – well done to **LCpl Jo Saw** who beat all the blokes in catching the biggest fish! A big farewell to **Cpl Dave Hill** and his tribe who move on to JSSU Ay Nic, for some well deserved sunshine. How dedicated of him to arrive two months in advance of his family – just to make sure everything is in order! Goodbye to **Cpl** 'Shane' **Hodgson**, one of the longest serving members of the Squadron – good luck with the Royal Signals Presentation Team in Blandford. All the best to **LCpl** 'JC' **Smith** and **LCpl Matt Wooton-Jones,** both leaving us to discover the joys and tribulations of civvy street. Welcome to **Lt Stewart** and **SSgt (Supvr R) Rowlands** who have both recently arrived from 14 Sig Regt (EW). Also a busy time for the wives from Echo Tp - congratulations go to **Mrs Scanlan** and **Mrs Sharpe** on the births of **William** and **Stephanie**!

GOLF TROOP
Tech Adjt **Capt Ian Hargreaves**
FofS **WO2 (FofS) Tony Jenkins**
Supvr IS **WO2 (Supvr IS) George Murray**

Once again it is a busy period for the Squadron's technical and IT Support Troop. New equipment trials and the additional demands of the Marching Season have caused a very high level of activity for us. The 'busiest' Troop in The Province will be pushed even more to the limits after saying farewell to **WO2 George Murray, Sgt Richy Gathercole** (posted on promotion), also **Sgt Chris Warren, Cpl Geordie Cranston** and **Cpl Alex Jelly,** who have all decided to try their hand in civvy street. **Sgt Richie Cleminson** is posted to Blandford on his Foreman of Signals course. Five more technicians from the Workshops are studying hard and hoping to join him next year. Congratulations to **Sgt Phil McLeish** who has just been promoted and will command the Installation Technician Section; congratulations also to **Sgt Ryan Lang** on his promotion. Finally, some more great news for the Troop. The Troop will finally be getting rid of **Cpl Matt Williams, LCpl Lee Stafford** and **LCpl Gaz Stokoe** who have all passed their T1 Entrance exam and are awaiting their posting orders to Blandford.

CHEVIOT 2000 FELL RACE - *by Cpl Steve Price*

On the 17 June, **SSgt (Supvr R) Kev Fogg, Cpl Jay Aldred** and **Cpl Steve Price** from Delta Watch suffered a brief bout of insanity and took part in the Cheviot 2000 Fell Race. The 'race' consisted of 200 teams drawn from elements of the civilian emergency Services and armed services who, in teams of three, had to successfully orienteer 14 checkpoints over a distance of 22 miles encompassing the Cheviot Hills. Having undertaken the final part of our cutting edge training regime by carbo-loading on kebabs and Grolsch an early night was called for ready for the 0730hrs race start time!

Our finely tuned team reached the start line with seconds to spare, although with much evidence of the hairy country land dash by the road kill advert horning the bumper. As the starter shouted go, the grim reality that some people actually thought it was a race dawned on us! With little need to check the map and with our bergans ladening us down we followed the crowd to the first check point, a mere 5km away, however a daunting 800m up! **Cpl** 'Mountain Goat' **Aldred** had little difficulty negotiating the ludicrous gradient. I followed wondering what I was doing here only being on the watch for two weeks. Then came **SSgt** 'Plodder' **Fogg** checking that we hadn't dropped anything. We reached the first checkpoint with a sigh of relief only to remember we had another 13 to negotiate! Oh how I thanked my new Shift Staff Sergeant for this repeatedly during the day.

Cpl Aldred plodded around the course as if on an afternoon stroll, **SSgt Fogg** after a 'steady' start found some Duracell batteries after the first few checkpoints and told me to ensure I mentioned the numerous times that he broke into a jog/run. I myself, after putting in a strong first half came to realise that my pre-training should have included more pies as my kidneys screamed for nourishment. With thighs now like 'Garth', a feeling of achievement along with relief was felt by all completing the course, even more so upon seeing the final results as to all those who didn't complete it successfully. At the finish line the hot cup of tea with an unusual amount of sugar, was welcomed along with the large dish of pasta later on and some post race carbo-loading of the fluid variety during the England -v- Germany game.

Delta Watch on The Cheviot 2000 Fell Race

225 SIGNAL SQUADRON SUMMER BALL

The New Forge Country Club was the venue for this year's Summer Ball, held on 9 July 2000. A Caribbean theme had been chosen for the evening, which probably had something to do with it being the easiest and cheapest form of fancy dress. After a slight hitch with the transport, which involved an impromptu tour of Belfast for some of the guests, everyone arrived and was welcomed with a cocktail and flower garland. Everyone had done their bit with the costumes with **Capt Helen Murphy** out-doing everyone with her amazing Carmen Miranda head dress. She was, however, very upset when everyone actually thought she had come as Hilda Ogden! The entertainment for the evening was provided by the very un-Caribbean 'Bizarre Company' with **LCpl Lee Stafford** doing a sterling job as compere. Congratulations to **Sgt Al Bolton** and **Sgt Rich Cleminson** for winning the raffle and money tree respectively. The evening continued with a fabulous buffet provided by the New Forge and then on in to the early hours with the help of **Sgt Sarah Mathews** burning the wheels of steel! Thanks go to **SSgt** 'I'll just go on leave and then adventure training for the five weeks before the event' **Jacklin,** his trusty 2IC, **Sgt** 'No honestly, its no bother doing everything!' **Cleminson** and the rest of the committee for a superb night out.

233 SIGNAL SQUADRON
Sqn Comd **Maj Richard Giles**
SSM **WO2 (SSM) Rob Dunseith**

While the heads of sheds focused on the Marching Season, the normal tasks (ie monitoring Province wide communications) continued. The shenanighans out on the streets were disruptive for all those living here. Having extra troops on the ground has increased our work-load but life for the majority goes on as normal. The long anticipated move into the new building has been delayed while the contractors try to drain the water – it is more of a paddling pool than a comms construction. We have enjoyed some excellent Leaving Dinners for the many Seniors moving away, superbly hosted by the WOs and Sgts' Mess. One of the final tasks for **Maj Richard Giles** before he moves to MOD has been to skipper one leg of the Squadron Adventure Training Expedition. We wish **Richard, Tracey** and the children the best of luck in the future, and thank **Richard** for his hard work and long hours he has dedicated to the Squadron. It has been a busy tour, and he has contributed significantly to the restructuring of Province communications. He leaves a far more robust, structured Squadron than he joined. In his place we formally welcome **Maj Nick Walker**, who has had the benefit of doing his MSc here so is not completely new – we will have to be cunning if we want to bluff the new OC!

INDIA TROOP - *by LCpl J. Quinn*

Things are changing within India Tp. Hopefully our colleagues throughout the Squadron will have noticed that our days of coming last in Squadron sports are over. We were just pipped to the post by Rodeo, sorry Romeo Tp in the Inter-Troop Potted Sports thanks to **SSgt Craig Marlowe** failing to carry the baton (ash pole) correctly in the 4x400m relay. The tug-of-war was a surprise to us all - we lost miserably thinking we would do well having half the Regimental team within our Troop. At the moment the Troop is seeing a lot of departures and a lot of arrivals, so the social side of life has never been busier. Congratulations to **Sgt**

McArthur on his promotion. The remaining personnel would like to say a fond farewell to the following: **Cpl Chris Kearsley,** off to 'Civ Div'; **SSgt Si Graham** to 21 Sig Regt; **SSgt John Ramsdale, SSgt Eddie** 'I love life' **Jacobs** to Italy; **WO1 Ray** 'No you can't have a sports afternoon I'm working' **Neal**; **Sig Jamie Goulty** to 12 Mech Bde, **Capt Gareth Oliver** to 16 Sig Regt and finally to our brilliant old Troop OC **Monty** 'The Dog' **Oliver!** India Tp says hello to: **SSgt John Heaton**; **Cpl** 'I cant believe it's not' **Butterfield**; **Cpl Billy Beaumont**; **Cpl Ross Menzies**; **Lt Tim Grey** (filling Monty's slot) and finally a big welcome back to **WO2** 'Q' **McHugh.** Q loves this place so much he's decided to come back and bless us with his scouse humour, (great!).

ROMEO TROOP

First of all we would like to congratulate NIEW, on inheriting our advanced driver section (the Surveillance section). They will now come under the command of NIEW at the end of July, leaving the remainder of the Troop to carry on with its normal taskings. Goodbyes go out to **Sgt** 'Sandy' **Sanderson** and his family, who are moving across the road to JCU(NI) and **Cpl Gordon Dunderdale**, his wife **Kath** and son **Louis**, who are moving to 11 Regt EOD, in search of pastures greener and things that go bang. Goodbye also to **WO2 Stu Meldrum, Jayne** and the kids who are off to sunny Blandford and to our resident hairdresser **LCpl Jane Barkshire** who is off to sort out leave passes and flight details for the penguin population in JCU(FI). Finally congratulations and goodbye to **Cpl Kev Joyce** who is promoted on posting to sunny Cyprus - all the best to you and your family. The Hellos go to **Sgt Steve** 'Taff' **Hamblin, Sgt Steve Mayell**, wife **Lucy** and the boys. Also to **Cpl Dave Weatherstone**, **Helen** and children and last but not least **LCpl Kev Alford** and wife **Kelly.** Congratulations go out to **Sgt Justin Woollen** and wife **Karen**, on the birth of their baby daughter **Ciara**, and also to the newly promoted **WO2 (FofS) Jim O'Donnell**.

Despite all comings and goings, the Troop has been engaged in its normal daily taskings, which were increased over the celebratory season recently. Even so, **Cpl Craig Richardson** and **LCpl Nick Jenkins** were able to compete in a local half marathon, raising nearly £150 for charity. The farewell to Surveillance Section was marked by a Fun-Day on the ranges, consisting of a pistol and clay pigeon shooting competition. The Troop was split down into teams of four for the competition and the results were as follows; Pistol Best Shot - **Sgt Steve Mayell**. Shotgun Best Shot - **Sgt Steve Mayell,** Overall Best Team went to Team Six **(Sgt Justin Woollen, Cpl Nick Clift, Cpl Tony Davies and LCpl Nick Jenkins).** The worst shot of the day was held jointly by **SSgt Steve Bartleet** and **LCpl Mat Thomas** who both scored 49 on the pistol and just 1 point on the clay pigeon shoot. The day's proceedings were completed with a BBQ and a few sociables in the evening. For this, many thanks from the rest of the Troop go to **Cpl Steve Armstrong** for organising the days activities, **Sgt's Justin Woollen** and **Steve Hamblin** for doing the BBQ and **LCpl's** 'Bede' **Burrows** and **Si Wellstead** for running the bar.

TECHNICAL MAINTENANCE TROOP

Tp Comd **2Lt Elisabeth McLellan**
Tp SSgt **SSgt Bri Gillies**

It has been another busy month in TM Tp with the Brinton withdrawal and other ongoing tasks as well as keeping up the sporting excellence of the Troop with members participating at Army standard in Fencing, Shot put and Discus, as well as lots of new arrivals. Welcome to **Cpl Wood** again, returning after flying a desk in NCC Tp also **LCpl Rice**, **LCpl Lohse**, **LCpl French** and **LCpl Fox** fresh from the factory and **LCpl** 'Mary Doll' **Pillans** on return from maternity leave. Congratulations are also in order for **Cpl** 'Spike' **Milligan** on promotion to Sgt, **LCpl** 'Tanya' **Ballard** promoted to Corporal and **Cpl Hannah** on completing his RSJCC. Also **Cpl Smith** and **Cpl Walsh** on completing their arduous EFP1.

SQUADRON SUMMER CAMP

This year the Squadron Summer Camp took place over a two-week period in the nether regions of Scotland based around Mount Bendonich. At 0600hrs on Monday 17 July 2000 there was a very motley collection of people in all states of morale from 'ready to sign off' all the way up to 'no morale at all'. After a quick head count (one each in most cases) the two mini buses were loaded up and were off to the ferry port in plenty of time to make the silly o'clock boat. Most people had packed their bags full of warm kit - imagine the shock when not only did the sun show its face but stayed out all week! So trousers and jumpers were gleefully changed for T-shirts and shorts. It was not long after this that the first midges came out to play with us. No problem we thought, however these were followed in short order by what appeared to be every midgy in Scotland, and after much slapping and swinging of arms we adopted the tried and tested method of standing next to someone who was smoking!

The intrepid participants were split into four groups to cover the different activities of mountain biking, sailing, canoeing and hill walking over the week. **SSgt Brian** 'Sleep Walker' **Gillies** ran the mountain biking, he turned up on his many thousand pounds swish bike to issue us with the hired bikes. Unfortunately three of these were classed as unusable, so it took much swapping and borrowing of bikes before we were eventually ready to start and risk life and limb. The hill walking was run by **Sgt Micky** '0/10' **Mann**, and the highlight of this activity featured going through the eye of 'The Cobbler' which is a hole at the top of a mountain that you can climb through. The 60ft drop convinced more than a few people that they didn't really want to. Sailing the high sea's in a 35ft boat was **Maj Richard** 'skipper' **Giles's** game. All was well until the three-metre depth alarm sounded, when he turned from relaxed to very hyper active and worried.

Maj 'Skipper' Giles and crew

Each group was made up of people from mixed abilities and fitness levels. Unfortunately this nearly caused two of the novice mountain bikers to have heart attacks! **LCpl Danny Tutton** and **Sig Michelle Rayner** were under the watchful eye of **SSgt Brian Gillies** who at one point was offering kind words of wisdom on a particularly steep down hill section. **LCpl Adie Fields** then came flying down the hill on his multi thousand pound bike straight between the pair without attempting to slow down, and this caused them both to fall off into ditches! On one evening a night of entertainment was arranged for us at a local pub with free food, beer and even Karioake. After a few quiet beers some 'reluctant' singers decided to perform. Chief amongst these was **Cpl Si** 'in the style of a club singer' **Mason** who impressed everyone with his singing and chat up techniques, he had to work hard as he was wearing T-shirt, shorts, flip-flops and shades. Even though there was the expected reluctance at having such early starts a great time was had by all on summer camp. A big thank you must be said for all the people who worked so hard to organise it. A special thank you must go to **Sgt Paul Alfer** who booked the sunshine!

PRINCESS ANNE DAY 'POTTED SPORTS' COMPETITION

28 June was Princess Anne Day, and what better way to celebrate the day of the Colonel in Chief of the Royal Corps of Signals than with an Inter-Troop Sports Competition between all of the Troops in 233 Sig Sqn. The Competition was organised by **LCpl Mick Partridge**, and the events included: 'Crab Football', Tug of War, 'Shooting Baskets', a Jerry Can carry and a Relay Race. The first event was Crab Football, which I'm sure was just a way to clean the sports hall Floor. There were a few dirty bottoms after that one! The Tug of War was next and India Tp, who usually have a good Tug of War team, didn't do as well as expected. TM Tp on the other hand, did surprisingly well. The 'Basket Shoot' followed and then came the Jerry Can Carry, in which **WO2 (FofS) Gorman** participated, looking a sight running around in circles, carrying two full Jerry Cans! The last event was the Relay Race, which was basically a 4x400m Relay with a difference. The baton was an 'Ashpole', which had to be carried horizontally in one hand. **SSgt** 'Bri' **Gillies** ran the first lap for TM Tp, and they were in the lead by the third. **LCpl Lee Khair** ran the final lap for TM Tp after being quickly rescued from his guard duty! Ultimately TM Tp won the competition, but a good time was had by all and we all then retired to the bar!

DON'T BE DISSAPPOINTED!
THE CLOSING DATE FOR ARTICLES FOR DECEMBER'S *WIRE* IS - THIS OFFICE, 15 OCTOBER

3 INFANTRY BRIGADE HEADQUARTERS AND SIGNAL SQUADRON (203)

Sqn Comd **Maj D. B. Warne**
RSM **WO1 (RSM) A. M. Maxted**

SQUADRON HEADQUARTERS

The Squadron has been busy over the last few months with many of the hierarchy changing over. So we will start at the beginning. February 2000 - Handover/takeover of Regimental Sergeant Major.

Farewell to WO1 (RSM) Stu Cheslett
Welcome to WO1 (RSM) Andy Maxted

The Squadron is now returning to normality after a busy three weeks supporting the Brigade over the Drumcree period. SHQ have now moved into their new office at Brigade Headquarters. The Squadron has seen a change of Squadron Commanders and we say farewell to **Maj S. K. MacRostie** and his family and welcome to **Maj D. B. Warne** and his family

A big turnout for the farewell to Maj MacRostie
(they're just round the corner, honest!)

Handover/Takeover - Maj MacRostie to Maj Warne

OPERATIONS

The Operations teams were as busy as ever in the run up to Drumcree. They have also seen a change of personalities. We say farewell to **WO2 (FofS) Mick Cowie** and wish him all the best. We would like to welcome **WO2 (YofS) Steve White** and **WO2 (FofS) Jim Ross** and wish them both a successful tour here.

COMMUNICATIONS TROOP

Tp Comd **Capt Andy Parfitt**
Tp SSgt **SSgt R. Wallace**

HELLOS AND GOODBYES

A warm welcome to the temporary Troop Commander, **Capt Parfitt**, newly arrived from completing his degree at Shrivenham. He's only Troop Commander until October when he takes over as 2IC Squadron. Welcome also to **Sgt Andy Lloyd** and family from 16 Sig Regt, **LCpls** 'Adie' **Bennett** from Cyprus, **Tony Ramwell** from 20 Bde and **Nick Watson** from the factory. Farewells go to **Sgt Gary Mathieson** who is off to Cyprus on promotion, **Cpl** 'Tosh' **Pope** who goes to 30 Sig Regt also on promotion and **Sig Albert Finney** who is going to Civvie Street. We would all like to offer our congratulations to **Cpl** 'Si' **Link** and **Cpl Don Garner** on their selection for promotion to Sergeant.

TECHNICAL MAINTENANCE TROOP

Tp Comd **Lt Lord**
Tp SSgt **SSgt R. Wallace**

HELLOS AND GOODBYES

As you fellow *WIRE* readers have not heard from us for such a long time you will not be aware of all the comings and goings within the Troop, so here goes.

Farewells to: The Troop would like to say farewell and good luck to **Sgt** 'Billy' **Boston, Cpl** 'Gaz' **Hobson** and **Cpl** 'Dean' **Morgan** whom have all deserted the Troop for a so called better life in Civ Div. Other Troop losses have been **LCpl** 'Moggsie' **Morris** to 259 Sig Sqn, **LCpl** 'lad' **Pearce** to 243 Sig Sqn, **LCpl** 'How High?' **Stainer** (Jiz) to 252 Sig Sqn and last but by no means least **LCpl** 'Para Rigger, Charge 9, Doggsie' Barker to ATR Arborfield.

Hellos and Welcome to: The Troop would like to welcome into it's Fraternity the following geezers: **2Lt Lord**, straight from the officer factory as the new Troop Commander, **Cpl** 'Si' **Hurst** and family from 249 Sig Sqn, **Cpl** 'Ed' **Chwieseni** from 21 Sig Regt, **LCpl** 'IDT' **Good** from the Tech production line, **LCpl** 'Matt' **Dawson** and family from 252 Sig Sqn, **LCpl Murray** 'With an A' and family from 232 Sig Sqn.

EVENTS

Firstly we as a Troop would like to offer our congratulations to the following people, **A/SSgt** 'lad' **Noble, Sgt** 'Lee' **Calvert** and **Sgt** 'Gaz' **Mathieson** for all coming off the Sergeant to Staff Sergeant promotion board. The same again to **LCpl** 'Matt' and 'Mickey' **Dawson** for the birth of their first child, a baby Rigger called **Kayla-Jayne.**

The Troop has had an influx of Signallers who were formally 15 Sig Regt Systems FRT, and now are being highly trained in the art of sqiggley, up and downy waves instead of on off stuff. As of the 1 May 2000 they came under the very big protective wing of **FofS Cowie**. These newly trained, half Rigger trained Techs are as follows, **Cpl** 'Jase, I will climb one day' **Craddock, Cpl** 'Matt Failed Rigger' **Cree, Cpl** 'Oscar I want out of here' **Searle** and **Cpl** 'Dave only rigger' **Knox.** Welcome aboard lads!

The Troop were recently let loose in Scotland for a three day 'Andrew' Course in Dumfries. This course, apart from showing us how to live like kings in a four star hotel (cheers AO), allowed us to see how things are done by our counterparts in the real world, not as in our stone-age case. As usual a few stars came out to shine, hey **Sig** 'Jim' **Wright** who insisted he would show all the other guests in this expensive hotel how to behave in the dining room. Fag in gob, Celtic top on, and two pints in his hands walking back to our table which was hidden away in a back room well out of the way of all the other paying guests. All credit to the hotel though, they got their own back by trying to charge two of the crew for room service. The two very embarrassed lads who won't be named (**Cpl** 'Bones' **Balkharn** and **Cpl** 'Sean' **Hunter**) had to blagg to the party leader, a **SSgt Ian Noble** that it was a load of rubbish and that they would never dream of doing anything like that, especially as you told us not to Staff. One thing they were insistent on, was that we paid the bill.

Hotel Receptionist - 'Sir that will be £1400 please'
SSgt Ian Noble - 'Do you take VISA?'
Hotel Receptionist - 'Yes sir, but not yours'.

How about that then Staff, rescued by a Tech Cpl's bank account with a spare £1400 sat doing nothing in it? (wallet).

ARE YOU READING YOUR OWN COPY OF *The WIRE*?

SSgt Noble and his team

The Drumcree silly season has been upon us with the section being split between Armagh and Portadown. The hard workers, **Sgts Mathieson** and **Tribbeck, Cpls Balkham, Chwieseni, Cree Knox, Hunter** and **Pope, LCpls Bennett, Good** and **Watson** and **Sigs Brock, Finney, Pyrah** and **Wright** spent the Drumcree period in Armagh. Their role was to cover all the sites within the TAOR. The Portadown crew of **Sgts Calvert** and **Lloyd, Cpls Birch, Craddock, Hurst** and **LCpls Dawson** and **Murray** were responsible for all repairs within camp. The Armagh crew worked a 7-day week without any barbecues (unlike the Portadown crew) and achieved a lot of worthwhile results with continuing maintenance and projects. The highlight of the period occurred when one of the Forward Repair Teams was deployed to a site that had a fault reported. When they arrived, they discovered that the hut had been petrol bombed. All they could do was to rescue the kit and attempt to bring it back to life in the workshops, which unfortunately failed. The Portadown crew were much quieter and had very few problems, except with the injuries sustained playing 5-a-side football.

B SHIFT

Departures - Sig 'Chris' **Moore, Sig** 'Fatboy' **Marshall** - A fond farewell for two outstanding members of the COMMCEN and good luck to them and their families in civvy street. The local 'Chinky' would also like to extend their regret for a sad loss of **Sig Marshall** they are now looking at a way to supplement the income that he gave them.

Arrivals - Cpl Sean 'Mad Dog' **Hunter** from 1 (UK) ADSR, **Cpl** 'AK' **Akkulugadu** from 3 Div, **LCpl Matt** 'Little Hitler' **Page** from 2 Sig Regt and **Sigs Ruston** and **Squires** from Depot.

Credited Performances - All members of Syscon and the COMMCEN would like to extend their congratulations to **Sig Lee Shaw** on his creditable performance in the NISAAM Competition, unfortunately **Sig Shaw** injured himself during the events and was therefore unable to attend the forthcoming Cadre Course. Sympathy is with **LCpl Matt Page** who was also taken off the Cadre Course after falling down a set of steps on the day he was informed that he would be attending the Cadre Course. 'Lucky Break'.

C SHIFT

'C' Shift 3 Inf Bde HQ & Sig Sqn would firstly like to welcome **Cpl** 'Don' **Garner, Sig** 'Richie' **Squires.** We would like to wish all the best to **LCpl** 'Dicko' **Dickenson** and his wife **Penny** on their posting to 20 Armd Bde HQ & Sig Sqn. Last but not least farewell to **Sig** 'Getting down' **James Brown** and his wife **Samantha** on his posting to Lisburn.

SYSCON/COMMCEN

It was that time of year again for us to vacate our comfortable accommodation in Armagh and gather together to live in a single room in Portadown. There were exceptions to this though, as some people managed to worm their way into some of the pads. The most notable of these were **Cpls** 'Don' **Garner** and 'Si' **Link**, who became house Corporals for the BTLO, **SSgt Carl Hindson.** The other exception was **SSgt Bob** 'Bushtuckerman' **Wallace**, who in keeping with his usual character, decided to basher up outside his office. Jumping onto this financial opportunity, **Cpl Dave** 'Butch' **Tweddell, Sigs Lee** 'No License' **Shaw** and **Richie** 'Who am I?' **Squires**, decided to make up a sign that **Bob** 'Bushtuckerman' **Wallace**, was homeless and in need of financial support for his wife and two children. They also supplied him with some refreshments in case he became peckish during the night. Drumcree 2000 ran very smoothly and with few problems to tax our experienced team and a big vote of thanks goes to our operators for their professional attitude and dedication to supporting the Brigade Staff.

SUPPORT TROOP

QM **Maj Payet**
RQMS **WO2 Strudwick**

The Troop has been very busy as normal. The MT has been running a Road Safety Campaign and Drive Alive Exercise, which finished in the Squadron bar with drinks and a BBQ! Both the MT and QMs took part in the NISAAM held at Ballykinler. **Sgt Steele**, 'Team Leader' had a week out in the sun with the Squadron team getting a sun tan, and a good week's shooting! The QMs have just finished its board of officers where all went well. The Troop are now looking forward to yet another Drumcree and then adventure training on the Isle of Wight. In the QM's own words:

'You work hard. You play hard or I will kill you!'

Hellos - LCpl 'Daz' **Owens** from 1 Div, **Cpl** 'Gaz' **Harris** from AFCEM and **Cpl John Blowes** from 14 Sig Regt

Farewells - Cpl Si Ferrer who is off to 14 Sig Regt. Also to **Cpl Paul Gaddas** who has moved all the way upstairs to the Training Wing. Well done **Paul!**

Resettlement almost civvies - LCpl Andy Nunns, Sig 'Albert' **Finney, Sig Phil Wise, Rfn Mick Cambridge**

All the very best to the lads about to join civ div - Good luck!

With the little matter of Drumcree to keep us entertained for a couple of weeks and the normal day to day tasks we have to carry out, Support Tp has been very busy. The Troop split into two for the marching season with half of the QM's Department working in Portadown providing essential services to the front line troops, by the way could the RQMS tell me if there is a copy of 101 Dalmatians available.

The MT also had a section working in Portadown providing the team to cover the Mobile Sucking Unit duties or otherwise known as the portaloo boys. The team comprised of **SSgt Frank Crowhurst, Cpl** 'Pat' **Paterson, LCpl** 'Daz' **Owens, Sig Stevie Brown, Sig Andy Hall** and **Pte** 'Pat' **Jennings**. All the remaining members of the Troop were kept busy in Armagh. What with moving offices and all the other short notice tasks they kept getting. I'm surprised they managed to stick to the two can rule. Mention must be made of **Cpl** 'I am the only Pioneer in the Sqn' **Thomas** for mastering Colin McCrae Rally 2 in such a short amount of time. We also had our chefs scattered around the two locations who did a sterling job in providing the best packed lunches the army has every seen! Keep up the good work and same again for the range days, 'I think not'.

Other activities that deserve a mention are the team from the Troop that entered Trail Walker 2000. It consisted of **RQMS Andy Strudwick, Cpl John Blowes, LCpl** 'Taffy' **James** and **Pte Stevie Wilkinson.** A very good effort was made by all with the team coming 80th overall. Also we would like to congratulate **LCpl Stevie Kite** on winning the best driver award and being part of the best team in the MT (we would not be biased) run 'Safe and Skilled Driving' competition.

The Troop would like to say some hellos firstly to **Cpl** 'Alex' **Higgins** and **Sig** 'Happy' **Gilmour** all from units unknown to the writer. Goodbyes go out to the QM, **Maj** 'Fred, touch the Jet Ski and I will kill you' **Payet** who is on his way to sunny Cyprus, no I mean Tidworth, only joking Sir. Also they go to **Sgt John Leadbeatter**, off to HQNI and last but not least **LCpl Wayne Rickard** who has gone to 11 EOD Regt. Good luck to you all. Finally congratulations must go to **Cpl** 'Pat' **Paterson** and **LCpl** 'Oz' **Osborne** on gaining promotion to Sergeant and Corporal respectively.

NISAAM 2000 - *by Sgt Danny Steele*

Out of 100 personnel I was the one nominated to train and lead the Squadron team at NISAAM. It was a difficult task to organise a team, given that everyone was on 'operational' requirements (even though Drumcree commences in July), in the month preceding the competition, I had no fewer than seven changes in the team with people going on courses, leave, etc, etc - the team wasn't actually finalised until two days before the competition: myself (team captain), **Cpl Bremner** (weapons instructor), **LCpl** 'Ginge' **Owens, Pte Wilkinson** (AGC) and **Sig Shaw** (a late volunteer). The competition consisted of four days' shooting in beautiful, warm weather (strange for NI) at Ballykinler. There were teams from all Units present in NI (including ones which had more than two days in which to practice) and the competition was well contested. Due to the Unit's 'operational' requirements, my team went out and gave it their best effort -especially in the 'March and Shoot' in very hot conditions - the hottest day so far this year. Unfortunately I wasn't able to enter this event as I am currently suffering an injury caused at 'Tough Guy 2000'. We did our best, and after all, its the taking part that counts……

ROVER GROUP A PERSONAL REFLECTION

by LCpl Bruce Morrison

The Brigadier's Rover Group was brought together from all parts of the Squadron for the Drumcree period. I had to get used to carrying weight again - as Radio Operator I have to carry three radios, spare batteries and ancillaries. It started off quite slowly, with only a few disturbances and some stone throwing. It didn't take long for the tempo to increase, with a parade every night. The Commander, **Brig Graham** decided on a key approach, which resulted in only the Bodyguard and myself following him around like sheep. As he is a very fast walker and this meant that I was soon 'hanging' whilst attempting to keep up. There were particular problems when trying to get over the wire obstacles as I ended up having to get help from the Brigadier. This caused tremendous amusement among the press, who took great pleasure in photographing my predicament. Whilst all this was happening, the vehicle party were sat on their bottoms doing the bare minimum. **Sgt** 'Rob' (captain admin) **McCorkell** only bothered to get out of the vehicle once we were back on camp, which left **Cpl Paul Gaddas** to run the show. Things went seriously wrong for me when C-in-C Land, **General Jackson**, came for a visit to the church. This meant a feeding frenzy for the media which resulted in my face appearing on BBC, ITV, Channel 4 and Sky news which, considering we were fined a slab each time you appeared on TV, meant I was well out of pocket. Once the Crowd Control Obstacle was in place, the fires, blast bombs, fireworks, stones, ball bearings and, at one point, golf balls, came across the wire on a regular basis. One of the Rovers even had it's windscreen shattered by a ten year old throwing bricks as we were driving back to camp through one of the local estates.

39 INFANTRY BRIGADE HEADQUARTERS AND SIGNAL SQUADRON (213)

Sqn Comd **Maj A. R. Knott**
RSM **WOI (RSM) S. M. Lockwood**

ARRIVALS AND DEPARTURES

It is with much regret that the Squadron bid farewell to **Maj Nick Borrill**, who with his wife **Chris**, has supported the Unit so well over, the past two years. We all hope they enjoy their next posting to RMCS Shrivenham and wish them well for the future. Welcome to **Maj Andy Knott** who has moved across from JCU(NI), swapping jeans and a T-shirt for the more military olive green. We also say goodbye to. **WO1 (FofS)** 'Sid the Snake' **Sideras** departing for JCU(NI) on promotion. Well done and farewell, the calming influence you had on the Ops Team can never be replaced. Not while the Yeoman is still here anyway.

'I'm not too sure about this uniform lark Nick, although my beret IS better moulded than yours.' Maj Andy Knott on taking over the Squadron

A welcome is extended to **WO2 (FofS)** 'War Dwarf' **Cook** replacing 'Sid', arriving during the busiest marching season of the year. Due to his unending visits into the SYSCON, the guys thoughtfully lowered the camera so that more than the top of his head was visible. The Squadron would also like to welcome, on attachment from 15 Sig Regt, **SSgt Richmond** who replaces **SSgt McIntyre** as the BOTLO.

COMMUNICATIONS TROOP

Tp Comd **Lt Richardson**

OPERATIONS SECTION

As always Ops Section has seen many changes in recent months, along with being involved in extra-curricular activities such as marquee erecting and litter sweeping. Initially congratulations are given to **Cpl Dave Rimmer** and **Cpl Tony King** on recently coming off the Sergeants' board, your gain will be our loss. Well done also, to **Sig Ireson** for obtaining his stripe at last, it sits well. The Section imparts a warm welcome to the following new arrivals to the SYSCON environment: **Cpl Matt Delaney, Sig Kate Griffith, Sig Billy Wallace, Sig** 'Grommit' **Philips** and **Sig** 'Cunning' **Fox**. A welcome also goes to **LCpl Andy Nolan**, who married **Pte Sarah Booker** last month, congratulations. Rover Group would like to welcome **LCpl Martin Kennie** and **LCpl Paul Howard**, who have joined the Group as the new Bde Comd Rad Ops and bid farewell to **LCpl Kev Brown** who left the Army in June. The Section would like to wish **LCpl** 'Hop-a-long' **Moran** a speedy recovery and are looking forward to seeing her back in SYSCON tripping everyone up with her pot. Finally a fond farewell goes to **Cpl** 'Tank' **Wharrier** who is leaving the Province to take up a post with RADEX Tp in Blandford. We wish you the best of luck for the future.

TECHNICAL MAINTENANCE SECTION

The last few months have seen several new faces arrive in the TM side of the Troop The section would like to extend a warm welcome to **Sgt** 'Maddog' **McAdam, Cpl Jools Roberts** and **LCpl** 'G' **Uppal**, who have joined the FRT, and also to **LCpl** 'Scott' **Tomlin**, recently posted to the Rigging Team. There is also a big welcome back to **Sig Billy Ellam**, who after signing off in the Unit, shortly before being posted, left on pre-post leave and was re-called to the Squadron to finish his time here, rather than in Germany. A sad farewell is also bestowed on SSgt 'Rennie' **McIntyre** has decided to give up his afternoons in the gym and undertake some proper work. His large presence is warmly welcome in his new role as Troop Staff Sergeant and sailing guru. Congratulations are in order for **LCpl Ali** 'The Ginger Whinger Warrior' **Temple** on his promotion to Corporal and to **LCpl Tim Davies** on his impending marital plans - the boys are just waiting for you to name the day. Finally the Section would like to give its congratulations but also say goodbye to **Cpl** 'Piggy' **Lee-Davis** who is leaving on promotion to Sergeant with 259 Sig Sqn. Well done and good luck.

RECENT TROOP EVENTS

The Troop had to put in a months hard work. in preparation for the marching season. The'Techs, FRT and Riggers were sent all over the Bde area of operations by **Yeoman Brudenall** installing, repairing and maintaining communications assets. **Sgt Michael Jones** nearly disappeared up his own exhaust with the number of taskings but coped extremely well under increasingly difficult circumstances. The return of Broadway and Templar Towers to the Housing Authorities required a lot of work by TM section. All comms equipment had to be withdrawn during a hectic couple of days.

Rover Group conducted their monthly training in conjunction with the Brigade Public Order Training. They were kept in role as Rover Group for OC D company, 9 Royal Irish Regiment and had to face the wrath of the 40 Commandos. **LCpl** 'Killer' **Kennie** was the winner of the day, with one Marine down with a split open head, courtesy of some over zealous swinging of a baton stick'. As **LCpl Jim Bowers** was heard to remark 'They're not small guys are, they? Each time we hit them, they get back up and run at us again, and don't even seem to notice the blood!' **Sgt Paul Parkes** and **Cpl Gordon McWilliams** had a marvellous collection of bruises due to the somewhat worrying decision of the Group to take the battering like men and not wear the protective padding. However, a successful days training was had by all and the rumours did not reach the other members of the Troop who were deploying the next day **Cpl Rik Sheriff** had a testing time trying to control 1RGJ as Civpop among an F Company 9 Royal Irish base line. Both he and **LCpl Emma Dignall** threw themselves wholeheartedly into the situation, escaping without major injury.

Well done to all the shift workers in the COMMCEN/SYSCON for coping so well during the recent busy weeks. Their work had been increased by the amount of incidents being reported in the Brigade area and their diligence and professionalism has not gone unnoticed. The Troop are now entering a fortnight of relative calm before August's events. To see how.they fare, watch this space.

SUPPORT TROOP

Tp Comd **Capt G. Maddison** RLC

ARRIVALS AND DEPARTURES

The OC Troop/AO/WO/QM/Supervising Officer has finally put his cards on the table and left the Army. **Maj Eddie Spence** RDG has moved to 40 Sig Regt as a PSAO; yes the hardened Cavalryman has seen the error of his ways and joined the Royal Corps. We are delighted to have him in our ranks and hope his transition is 'Swift and Sure'. Into his shoes has ably stepped **Capt Gail Maddison** RLC, who joins the Unit on a two year stint as the AO. The Squadron welcome her and hope her in-tray never overflows.

REGIMENTAL QUARTERMASTER'S DEPARTMENT

The Dept would like to say farewell to **Pte Faye Edwards** who has recently been posted to 16 Sig Regt. Her presence in the stores was as refreshing as an oasis in the middle of the Sahara! The Dept has been busy recently, coping with a lengthy and complex Board of Officers, keeping the whole Squadron occupied when not carrying out normal daily taskings. The majority of checks went quite smoothly due to the diligence and care taken by all the account holders in keeping the books up to date, so well done to you all. Huge congratulations are extended to **Sig Pack** and his wife **Rachel**. on the birth of their second baby boy **William**. Unfortunately this now means that **Sig Pack** must give up his beloved Mini and purchase a more family orientated car. So if anyone is interested ... ...

MOTOR TRANSPORT

The boys and girls in the MT bid a fond farewell to **Sgt Neil Shaw** who left the Brigade on promotion to join FIU. His replacement **Sgt Andy Eley** will be entering the fray in the next few weeks.

CLOSURE OF 39 INF BDE MESS

On 31 July the 39 Inf Bde Mess closed its doors for the final time and all its members moved into the Station Mess. The closure was not without its rewards, two local charities, Lagan Valley Maternity Unit and Lisburn Station Creche, both received cheques for £1000.

Where are the other nurses, moans Sgt Richmond as Lagan Valley Maternity Wing complete their Millenium Project to buy a Mobile Premature Baby Incubator

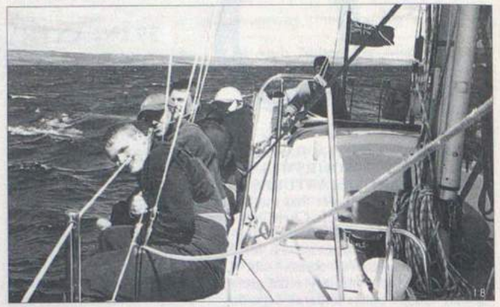
Lisburn Station Creche receiving £1000 from 39 Inf Bde WOs & Sgts' Mess, The children look less than thrilled!

Congratulations must go to **SSgt Don Anderson** and **Sgt Michael Jones** for the clinical way in which they dealt with the Mess accounts during the closure period. Thank you to **WO1 (GSM) Bill Mott** WG who has welcomed the 39 Inf Bde Mess members into his Mess and made everyone feel welcome. His opening gambit on the first meeting of 'You are only as good as your outside areas' sums up our move!

EXERCISE GERONA FINN 15 - 28 MAY 2000

Ex Gerona Finn was an Offshore Sailing Expedition for members of 39 Inf Bde HQ & Sig Sqn taking place in and around the waters off N. Ireland and the West Coast of Scotland. The aim of the Exercise was to introduce novices to Offshore Sailing as well as identify students for further training at JSASTC Gosport. The expedition was split into two phases, with a crew change around being incorporated after the first week.

Phase 1: After arriving at Bangor Marina, the yacht was victualed and all gear stowed prior to the obligatory safety brief conducted by our able skipper, **SSgt** 'Terry' **McIntyre**. We then set sail for Portpatrick in *Gerona*, our vessel and home for the forthcoming week. After the crew had fine tuned their 'man overboard' drills, we came alongside at Portpatrick and treated ourselves to the delights of the local hostelries. Due to the tidal conditions we could not depart for Girvan until early afternoon. This suited the crew as an Easterly gale had passed over us during the night and the previous evening's entertainment had left us all a little worse for wear! We set sail in a decreasing Force 6. The gale, however, had left the sea a little choppy to say the least! This gave **Sig** 'Ships Cat' **Richardson** and **Maj** 'Charlie' **Herbert**, the mate, an ideal opportunity to feed the fishes!



Despite the fine weather Sig Richardson still grasped the railings and hoped that the rocking would stop

Day 3 involved a 35 mile passage further up the coast to Largs. Despite several showers, the sun finally shone and raised the crew's morale. The following morning we slipped Largs and headed Northwest for Tarbert via the Kyles of Bute. The crew was introduced to 'Rules of the Road' and put into practice our tacking skills as we got involved in a friendly tacking duel with a local yacht. The sail around the Kyles was the highlight of the week; the scenery was breathtaking. After safely negotiating the Burnt Isles at the North end of the Kyles, we hoisted the genoa and reached down the West Kyle before rounding up and beat our way into East Loch Tarbert. All in all a magnificent days sailing was had by everyone, shore leave was granted and we sampled the delights of the beautiful town of Tarbert.

Despite the previous nights entertainment, which left **Cpl** 'Chaz' **Charnock** feeling a little delicate, we rose early, had breakfast 'on the hoof' and headed South towards Campletown with a freshening Easterly breeze. Again the weather was kind to us and with the help of the tide, we completed our 32 mile journey in just under five hours. The next day we decided to sail back to Portpatrick, however, we arose slightly later than expected and had great difficulty against the tide. After a 45 mile sail to Portpatrick, and a record breaking stint on the helm by **Cpl** 'Arnie' **Renforth,** we arrived a little later than anticipated. Due to the falling tide the decision was made to return to Bangor. This gave the majority of the crew their first taste of night sailing. After a scrumptious meal rustled up by **SSgt** 'Robbo' **Robinson**, (oatmeal blocks, processed cheese and boiled sweets!) we donned harnesses and life jackets and returned to Bangor marina. After a wash and scrub up the yacht was handed over, crew changed and the new yacht made ready to take us on Phase 2 of Ex Gerona Finn.

Phase 2: Due to the success of the previous week, it was decided to follow the same route as week 1. The crew met, prepared the yacht and set sail early noon. This week we had chartered *Moyle Maiden*, a brand new Dufour 35 Classic. She was noticeably lighter and faster than *Gerona*, but how would she treat us in a blow? We didn't have to wait long as a strong Sou'westerly breeze took us on our merry way across the North Channel to Scotland. Again, 'Man overboard' drills were practiced, much to the dismay of **Capt** 'Dewi' **Winkle**, who after several attempts at rescuing 'Freddy Fenders' finally managed to haul him aboard! After a hearty Scottish breakfast of haggis, black pudding and soda bread we set sail for Girvan. The weather was atrocious; torrential rain, 30 knots of wind on the nose and a strong tide against us! However, after a long day in our oilies and life jackets and a fantastic impression of the Incredible Hulk by **Cpl** 'Russ' **Craig** (very green!) we arrived alongside at Girvan early evening. The following day was a shock to most of the crew. They had expected shorts, sunglasses and a G & T on the foredeck! Four of the crew was sea-sick and all began to realise why Offshore Sailing is a challenging Adventure Training activity. The rest of the week followed the same route as for Phase 1 and we were fortunate enough to be blessed with better weather. **LCpl** 'Ships Cat' **Ireson** excelled himself at brewing up at the crew's command and even ascended the mast to sort out a few problems with the wind instruments. A dolphin was spotted during our return leg to Bangor by **Cpl** 'Shippy' **Ship**, whilst we 'goose-winged' our way into Belfast Lough.

All in all a successful fortnight was had by both crews, with many participants vowing to go afloat again. Plans are now afoot to enter a team in the Royal Signals Regatta next year.

Change of address?

DON'T FORGET TO LET US KNOW.

SSM **WO2 (SSM) P. McGarry**

EXERCISE EBOR DRAGON - *by SSgt D. Evans*

The annual adventure training for HQ Sqn took place at Brawdy South Wales in the first two weeks of July. The activities covered included the usual walking expedition and mountain biking and also an overnight kayak expedition and surfing.

On arrival at Brawdy the party for Week One was split into groups. The group headed up by **Sgt Ed Green** was the first to sample the overnight kayak expedition, which involved an early evening paddle of some three hours to an isolated beach, where they spent the night with only their bivy bag for cover, then continued along the coastline the following day to be collected and brought back to camp in time for a late breakfast. The idea that some of the group had of pulling onto a secluded beach, setting up a hammock between two palm trees and sleeping under the stars was soon dispelled when in reality they emerged at a beach full of rocks and seaweed along with a sewage outlet with a few heavy showers thrown in, that's adventure training. Some of the groups were given the opportunity for a bit of cliff jumping at the end of the kayak exped. The drop was some 20 to 30 feet, although in the bar later it became 50 to 60 feet. **LCpl Helen Caplin** was one of the first to go and amazed everyone with her use of the English vocabulary as she let out a string of unprintable expletives in the couple of seconds that it took her to reach the water.

Day One for the group headed up by **Sgt Enid Blyton** was the trekking expedition which involved a walk along the coastal footpath to an over night stay at a camp site, continuing the following day back to Brawdy. **Sig Jaz Jaruszek** made an error in selecting suitable footwear for the walk where he opted for a pair of shoes instead of boots. A pair of shoes that was more suited to a Saturday night out and best described as 'dancing shoes' which cost in excess of £150. Consequently after 14 miles of hard walking his shoes and his feet were somewhat worse for wear. **SSgt Pete** 'The Charmer' **Mills, Sgt Graham** 'Who's nicked my tent poles?' **Norris** and the newly qualified **Cpl Steff Sabuda** ably led the walking phase along with **Capts Lifton** and **Richardson** for Week Two.

The surfing was enjoyed by most and when equipped with the top of the range wet suits and surf boards the individuals involved looked extremely professional, that's right up until the point that they entered the water where it was found that it is probably far easier to catch a bout of hypothermia than a wave.

Week Two brought more entertainment for the staff notably **LCpl** 'I'm too young to die' **Surya** in a sea kayak and **LCpl Karnu** falling out of a kayak.

All told the adventure training went well and was enjoyed by those involved, a big thank you goes out to the admin party made up of **Cpls Clarke, Findlay, Graham** and **Warren, LCpls Davidson** and **Edmondson** and **Sig Wilkinson,** for all their efforts.

EXERCISE ARRCADE FALCON 7 JUN – 22 JUN 00
RADIO ERV & URS(T)

During the Exercise build up the young techs were getting excited, you would have though that it was Xmas rather than a deployment to Germany. However, **Sgt** 'Been, seen, done, got the tee-shirt' **Pagett** entertained them with stories of exercises, until it was high-lighted that he'd only been on three exercises in his time. During the sailing from Hull to Zeebrugge **Sgt** 'You don't need a beret on' **Milligan** was re-educated in the error of his ways and became 'shark watch' for the night's drinks on the boat. **LCpl** 'Fog horn, Leg horn' **Calam** attempted to beat **Sgt** 'No arms' **Pagett** at clearing tables of women and failed.

Once in location **LCpl** 'I'm a little bit tired' **Abbott** made it clear he was after the 'Golden Maggot' award and was woken up for Endex. **LCpl** 'I am old enough to drink' **Thomas** tried hard to get out of going running with Tiffy, **SSgt** 'Murrey Walker' **McNairn,** including volunteering for pan bash. When some work did arrive at the ERV from a young female TA signaller **LCpl** 'Woof, Woof' **Calam** asked for fault details, however, we had to inform him later that asking for vital statistics and a home phone number was not required for the 1045.

This was the final Ex for **Sgt** 'Now you see me, now you don't' **Milligan** as he is posted to 21 SAS and we all wish him well.
PS: Don't worry we will black you out of the Troop photos.

EXERCISE MARINE EBOR 2000 - *by Lt J. Noble*

The time of year had now come across us where the Regiment deployed to various places around the country to participate in the years Adventure Training Camps. Some squadrons were going to Wales and others to the South Coast, but 214 Sig Sqn had opted for the idyllic little town of Barnstaple in North Devon. After the confusion of the Exercise in Germany the plan was to have a relaxing time passing the days walking and rock climbing, that was the intention anyway. The recce that had taken place weeks before, confirmed that Barnstaple was situated excellently with Dartmoor and Exmoor just a short drive, various surf beaches and most importantly the Royal Marines Barracks at Chivenor with their water resources centre. The scene was set for a perfectly planned and run camp with no hitches but we forgot to add the unknown factor of forty soldiers.

On the Sunday afternoon of 3 July 2000 the bus containing 214 Sig Sqn (or at least half of them) arrived at Fremington Training camp at Barnstaple. When the soldiers debussed I could already tell what they were thinking about the accommodation. Like any other training camp in the country we shared the accommodation with various spiders, bugs and trainees from ATR Pirbright. The troops were split down into five groups of around six or seven and had a rotation system, which meant that all of the groups attempted the activities. The activities consisted of mountain biking, rock climbing, hill walking, canoeing and orienteering. We had also managed to slot in a few extra activities to break up the two weeks, these included the Royal Marines assault course and a day out with the search and rescue helicopter squadron at Chivenor. The instructors for the camp consisted of myself and **SSgt Chris Symonds** who were going to take the hill walking, **SSM Smith** and **Cpl Morrison** who were the rock climbers, **SSgt Neil Cooper** for the canoeing and finally **Cpl Tony Orange** for the mountain bikes.

Early the next day people started to filter through for their breakfast with various looks of anticipation and fear. Adventure training to some people means having to climb heights and hills that they severely dislike but to others it can mean other more fluid filled activities. Whatever they were expecting the instructors were expecting as well and just after all of the groups disappeared to their respective activities the heavens opened and it began to pour. I was taking my particular group onto Dartmoor for a full and hard days walk. The group consisted of various new faces but was led by **LCpl Sibley** who marched off into the distance and left everyone including myself in her wake. The only problem was that she didn't really know where she was going. The day went well and by around the 16 mile point the only person who was left smiling was **Sig Prem** who hadn't even broken into a sweat. We had decided to finish at a pub which was the only thing that was spurring on some of the walkers at the end, but unfortunately to our disappointment when we arrived the landlord had just shut up and wouldn't even consider opening up for seven muddy, sweaty soldiers. Upon returning to camp, various stories of how the groups had got on had started to float around camp. **Sig Forster** had a fish jump out of the water over his canoe and smack him in the face. **Sig Vint** had mistaken a wetsuit for a dry suit and left his socks and pants on only to complain that he thought he had a hole in his suit. Finally there were various people in the Squadron that had shaky disco legs as soon as their feet left the floor. Throughout the week the activities were going well and we had already been up in a RAF search and rescue helicopter, which circled and blew the canoeists over. The highlight however, of many peoples camp was the visit to the Royal Marines assault course which had thankfully been organised by the SSM who was an ex boot neck himself. The night before had been quite a heavy one with a live band playing in one of the pubs and as we began to warm up for the day I thought they were still playing in my ears. The assault course was brilliant and really showed us how fit the Royal Marines had to be to pass the course. The final part of the course was named the water pit, and it was a five-foot deep pit of water with three ropes stretched across it, everybody had a go but was ordered not to complete it by going across all the way because everyone was going in. At the end of the day I looked in front of me and saw around 40 smiling soaking wet faces that had all enjoyed attempting something that they will probably not do ever again.

Other stories of various peoples courage and adventurous training prowess were now circling, from **Sig Forster** being so scared of climbing up the cliff that in the end three people had to pull him up. For the rest of the week there was a 60 foot long black rubber mark up the wall where his trainers had dragged. **LCpl Nikki** 'bionic woman' **Hancock** had moaned about how hill walking was the worst thing in the world and when it came to actually walking she was always at the front shouting at everybody to keep up. Again I feel that had something to do with their being a pub at the finish. The two weeks went by in a flash and if it wasn't for the weather raining every single day I am sure I could have classed it as my summer holiday. Even now some three weeks later there are stories and tales about Barnstaple and the adventure training. 214 Sig Sqn thoroughly enjoyed their camp at Barnstaple and would like to say sorry to the town, 'We will give you more notice to prepare next time!'

3(UNITED KINGDOM) DIVISONAL SIGNAL REGIMENT

REGIMENTAL HEADQUARTERS
CO **Lt Col Neil Couch/Lt Col Phil Davies**
RSM **WO1 Gary Stoker/WO1 Chris Kidd**

Spot the odd one out.The RHQ has suddenly become knee deep in posting orders as the CO, the Adjt and the RSM all pack up their pens (RSM excluded), papers and photos of their loved ones and make a mad dash to the door. The Adjt (although by far the slowest) will no doubt reach his destination first since he only has to cross the road to 202 Sqn in Wing/Ward Barracks. Whether he actually finds his new office this time is of course another matter! The RSM's rank has finally caught up with his dress sense as he gets his commission and leaves Picton Barracks to become the Unit Welfare Officer in 1 (UK) Armd Div. What's that job all about ? He is essentially the **Capt Terry Crane** of Herford without the Geordie accent. The good news for him is that he might be able to wear his 'Chinos' to work. The Commanding Officer is also taking the money and running. This time it is back to London to be SO1 Army Equipment Plans. I'm not exactly sure what that entails but it sounds very important and I'm sure he'll be terribly good at it. Seriously though 3 (UK) Div HQ and Sig Regt is a pretty big ship to sail and needs a firm hand on the tiller.Congratulations on your promotion, thanks for all your hard work and direction and we wish you and **Rachael** good luck in the future. The Ops Officer has decided to hang up his pips and is now faced with the dilemma of which £50K a year job to go for? For those of you who remember a **Capt Nick Deacon**, yes it is the same bloke .....he acquired an extension to his name tags with his wife and again we thank him for all his hard work and wish him and **Debbie** all the best wherever they settle down.

LADIES HOCKEY AND SPORTS UPDATE

Action from the Tri-Service Ladies' Hockey Final

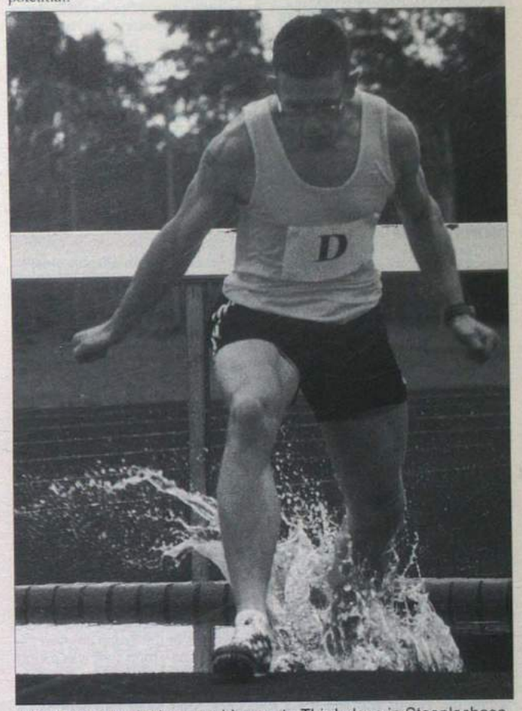
Cpl Tracy Hoffman is presented with the first Ladies Tri-Service Hockey trophy after two emphatic wins against both the RAF and Navy Champions

The All Conquering 3 (UK) Div HQ & Sig Regt
Ladies Hockey Team.
5 Div, Army, & Tri Service Champions 99/00

The Sportsmens Dinner was orchestrated by **Capt** 'The Players Player' **Terry Crane** and **WO2 (QMSI)** 'Sports Weak' **Dave Taylor.** It was held on the evening of Tuesday 18 July 2000 in the Sergeants' Mess and they are probably still there now! It was a tremendous success and a chance for the Colonel to acknowledge the success of his sports teams. The night will be remembered for the Commanding Officer's speech, not quite so much for the content but for the background activity!

The Regimental Team with 16 Air Asslt Bde guest that achieved Fifth place in the Cheviot 2000 Fell Race on 17 June 2000
Lt Toby Courage, Lt Gary Irwin and Maj Nick Bateson
(Now who was the strongest)

Amongst the Squadron Summer and Battle Camps the Regiment still had time to reach the finals of the Army Athletics Competition in Aldershot on Wednesday 26 July. Despite our training being limited to the qualifying rounds both the mens and ladies teams acquitted themselves well and finished in Fifth and Sixth places respectively. Special mention must go to our Female Army athlete **LCpl Jackie Davies** who was the Ladies' Captain and won the 100m in a PB, to **SSgt Castle** and **LCpl Conlon** who were only denied maximum points in the 5000m by the professionals from 3 CS Regt RLC, and to **LCpl** 'EJ' **Easterby Jackson** for his outstanding performances in the 400m, the Steeplechase and the 4x400m relay. He is an athlete with enormous potential.



LCpl Easterby Jackson on his way to Third place in Steeplechase in the Army Major Units Team Championships at Aldershot

202 SQUADRON
Sqn Comd **Maj R. J. Quinlan**
SSM **WO2(SSM) J. McNaught**

It seems as if there is always too much to do and not enough time to do it in Bulford, and these past weeks have been no different. The Squadron have faced RSIT, CO's day and Exercise commitments as well as the impending Battle Camp on Dartmoor in July. Nonetheless morale remains high, and the mail continues to get through. The Squadron is looking forward to some well deserved leave in August.

WATERLOO TROOP
Tp Comd **SSgt Tony Wringe**
Tp Sgt **Sgt Nav Elliott**

Half way through the year having just successfully completed RSIT, the Troop find themselves 'looking forward' to Battle Camp. The Troop would like to welcome (just in time for the fun and games) **Sig** '2' **Thompson** and **Sig** 'Barney' **Barnett**, although word has it they have already discovered the delights of the local town of Amesbury. Farewells go to **Cpl** 'Si' **Elliott**, who is off to civvie street, **LCpl** 'Scotty' **Scott,** off to 11 EOD and a farewell to **Gnr** 'Paul' **Knapp**, who is off to try his hand with the 'booties'! Special congratulations go to **Cpl** 'Flo' **Watts** for being best presented detachment of the Troop on RSIT.

OVERLOON TROOP
Tp Comd **Lt Gary Irwin**
Tp SSgt **SSgt Joe Rowe**

After a long month of preparation for our successful RSIT visit the lads of Overloon Tp decided enough was enough and that it was time to have some fun! We arrived at the idea of going to Alton Towers. We booked a Thursday off and boarded the coach around 0700hrs and were on our way long before the rest of the Regiment were up and about. The journey seemed to drag on a bit but we all arrived in high spirits. After a hard day on the Oblivion, Nemesis, Congo River Rapids and many more we hopped on the bus for the long journey back; the fun did not stop there as the second half of the day out was to be held at the local

nightclub where we all had a good laugh over a few beers.

Overloon Tp would like to welcome its new members…**Sig Brigden** who has come from the dark side (Waterloo Tp), **LCpl Smith 571** - 21 Sig Regt, **LCpl Lawrence** – 20 Armd Bde, **LCpl Dodgeson** – 4 Bde and **LCpl Johnson** another one successfully turned from the dark side. We have lost **Cpl Fazackerley** to the evil empire of Waterloo Tp (sadness debatable). Also a farewell to **Sig Harper, Sig Fowler** and **SSgt Oliver** who is off to the Globe Trotters 30 Sig Regt. We would also like to congratulate **SSgt S. Rowe** on his recent promotion and extension of his stay in Bulford.

206 SIGNAL SQUADRON
Sqn Comd **Capt Odling**
SSM **WO2(SSM) Smith**
SQUADRON HEADQUARTERS

The change of personalities within SHQ continues with the handover of **WO2 (SSM)** 'Lanyard Trophy' **Archer** to **WO2 (SSM) Smith** just back from the Falklands. Good luck to **SSM Archer** in Sierra Leone with the BMATT. Best wishes also go to **WO2 (FofS)** 'I wish I was back at Hereford' **Paton** and **SSgt (YofS) Simone Rouse**, who hopefully will have got crowns sewn on her No2 dress by next year's Regimental Weekend, both are off to pastures new but staying in the Regiment. Congratulations also go to **LCpl Kirsty Kidd** for being selected for promotion.

MONS TROOP
Tp Comd **Lt Gardner**
Tp SSgt **SSgt Fairfield**

Since Easter leave the Troop has undergone one of its busiest periods, this year. From the beginning of May we have found ourselves on continuous exercise until June when we remained on a leave/course ban, to allow us time to concentrate on preparation for RSIT inspections at the end of June. During this time many of the Radio side of the garages found themselves being employed as Systems/Radio Relay operators to assist the Ptarmigan side of the garages with the preparation of their detachments. **LCpl Andy Ackers** (RR Op), asked that **Sig John Hart** (TG Op), be re-traded to Radio Relay, as he was beginning to outshine the other Radio Relay Ops within the Troop. Needless to say the Squadron did very well. The workload didn't cease with the Radio side of the Troop participating in Exercise Penguin Pleasant (a long range HF JOCUMEX Exercise), and the Ptarmigan side of the Troop doing much needed Pinzgauer driver training to enable them to drive the Air Portable SANs.

Life hasn't been all work and no play, we still managed a Families Bar-B-Q organised by **Sig Ross Harley**, assisted by **Sig Scott** 'DJ' **Mawer**. Also **LCpl Si** 'Big Smudge' **Smith** organised a farewell smoker to say goodbye to **WO2 SSM Stu Archer**. The Troop managed to fit in a thoroughly enjoyable day out to the Corps Museum and Poole (via a Bowling alley), as a well done for all the hard work achieved both before and during RSSIT 2000. Finally many members of the Troop enjoyed the various activities of the Regimental weekend. The Troop stall was a Golf pitch and put (Brainchild of **LCpl Paul Whenman**), and many members of the Troop assisted with that event, also the Troop was well represented within the Tug-of-War and It's a Knockout. **SSgt Sean Fairfield** had a very good day, finding himself leading for the prize on the Golf stall most of the day, much to the frustration of **Lt Ollie** 'I'm a bit of a Pro Golfer' **Gardner**. Also **SSgt** 'Naked Chef' **Fairfield** baked 2 x chocolate fudge cakes for the wives club and they were snapped up straight away.

Welcomes to the newest members of the Troop, **LCpl** 'Abbo' **Abbott** from 21 Sig Regt, and **LCpl** 'Dodge' **Dodgson** from 30 Sig Regt. Congratulations on being selected for promotion to Sergeant goes to **Cpl Matt Kutzner**. Once again it's time to say congratulations to **Sig Steve Blake** on his marriage to **Tracey**. Congratulations to **Sig** 'Taff' **Macleod-Needs** on his marriage to **Gillian** and to **Sig Lynn Draper** on her engagement.

INKERMAN TROOP
Tp Comd **SSgt Angove**

We have said goodbye to five members of our small community; two of which were major influences to us all. Firstly we said farewell to **Lt Gary** 'Psycho' **Irwin**. He was a brilliant boss with a sense of humour to match. He has gone to 202 Sqn to play with the armour. Enjoy! Next, it was the turn of our mentor **Cpl Phil** 'Daddy' **Oulton**. He has helped us all in one way or another over the years. Words couldn't sum up how much he meant to us. He has been posted to 2 Sig Regt as a Sergeant. Congratulations **Phil**! **LCpl Steph Catney** is also leaving us, she is transferring to the Dental Corps. **Sig Ben Andrews** is going to 39 Bde, if anyone there has any moneyboxes keep them away from him; due to his crazy fetish. **Sig Wayne Kennett** is going to that somewhat larger unit Civ Div. Welcome to **Sig Phil** 'Guppy' **Baxter** who has joined us from 30 Sig Regt.

We have just returned from a three-week Cadet exercise. Teaching 14-18 year olds. Nice work if you can get it. We have all been taking advantage of the short spell of sunshine lately with a BBQ and a couple of quiet beers (followed by lots of loud ones!). Congratulations to 'Daddy' **Oulton** who is our new 'Nails' Champion. Commiseration's to the runner up (Loser) **SSgt Mick** 'Councillor' **Angove.** You would think by now with all the practice we have had, our Troop members would be able to handle their ale. Lastly, we would like to wish Inkerman Tp an amazing summer leave. Keep out of trouble. See you on the plain in September!

222 SQUADRON
ADEN TROOP
Tp Comd **Lt Emma Fawcett**
Tp SSgt **SSgt Sean Littlefield**

Aden Tp is finally all back together as one big happy family after Ex Lion Sun. Two days back and they were straight out on Regimental and Divisional Exercises. All went smoothly and we moved into our home for two weeks, Sidbury Hill. Nice and close to all those hills for Staff's PT sessions!!! Aden Tp broke its long record of not crashing the switch, thanks **Cpl** 'Spike' **Milligan** or was it your willing apprentice **Sig** 'Jimmy' **Baguley**? Whoever, they made such a good job of it that **Sgt Simmons** had to take it away back to camp! Though we were not the only ones and it did mean a whole day of silence in node command, bliss!

On the weekend standdown the trusty volleyball net was erected. We discovered the new version - header volleyball. **SSM** 'Choo Choo' **Roberts** and myself had not seen anything this funny since **Lt Grice** Waaaad the OC. The exercise resumed and the evenings off-shift were soon filled with several levels of amusement, **Sig** 'Matthew Kelly' **Elston** gave a top 'stars in your eyes' version of **SSgt Littlefield**. 073 were lucky (yes I'm sure that's right) enough to get a visit from two researchers from the BBC. This opened up **SSgt** 'Devilfield' **Littlefield** to a wind up, which he fell for hook line and sinker. Though when the mention of make up came into play we were rumbled, only after he had got the Sergeants' Mess silver out in the field! An eventful day really as the chef, **Pte** 'I can even burn beans' **Hoodless,** decided that a tasty addition to the CO's lunch would be the end of his finger.

The joy of RSIT descended on the Troop and meant a lot of elbowgrease required, not withstanding the Troop OC who was duped into volunteering to clean pallets on the RR's while slightly inebriated! Cheers lads! **SSgt** 'Small garden' **Littlefield** won his bet against **Cpl** 'Jack' **Russell**, though his integrity was brought into question with the amount of time he spent with the inspectors! **LCpl** 'Robo' **Robertson** has been strutting his stuff with the Corps Pipes and Drums Band in London on the Military Tattoo with **Lt** 'Whaaaaa' **Grice**. Most of the Troop deployed on Ex Eagle Strike, taking a temporary dip in standards and working with Sharjah Tp! All that needs to be said is **LCpl** 'Crusher' **Carlisle** - get the beers in.

Finally, hellos and good-byes. Goodbye to **Cpl** 'The Love Muscle' **Russell** to civ pop, we wish you all the best, I'm sure you won't need it. Hellos to **Sig's** 'Softlad' **Copeland,** 'Stevo' **Stevens** and 'new girl' **Walker**, feel better that you are now amongst the best trunk node in the Regiment, welcome. Welcome back to the Troop for **LCpl** 'Mac' **McCulloch** from the sunny Balkans. The Troop looks forward to block leave and Staff deploying to Canada, only joking Staff.

OMAN TROOP – 222 SIGNAL SQUADRON
Tp Comd **Lt Imogen Mulholland**
Tp SSgt **SSgt Daph Clash**

Well, it's been another interesting period for the Troop. Following a whole day in work after returning from Lion Sun, off we were on a two-week exercise on the plain. Just to add to the thrills, we had a top location just outside the impact area. This was excellent and benefited everyone – the artillery gun line behind us were able to use the SCAM 12's as goalposts, **Sig** 'Paddy' **Alcock** (on another magical mystery tour around the plain in the canner) could find us at night by heading towards the illum and everyone got social from walking into each other while watching the sky for drop-shorts. Just when we'd settled down to a M*A*S*H-type acceptance of close proximity incoming, we handily had to relocate to II (our absolutely favourite location due to the inevitable 'hovering helicopter gunship in the shot' routine). Good news though, because The Bustard hostelry was getting a bit predicable by then. And how many times have you spent weekends on exercise like that? After the exercise, the ever-popular RSIT preparation raised its ugly head, followed closely by the Regimental Weekend, where the Troops 'Welly Whanging' Challenge resulted in plenty of near misses and a suspicious win for **Sig** 'Chaquille' **Hemming**. Nice co-ordination from **Cpl** 'Bassingbourne' **Knapman** there too! Interestingly enough **Sig Hemming** and **LCpl Aanes** managed to sqeeze in a quick Regimental Cadre, which **Sig** 'Drills' **Amis** escaped by the skin of her teeth, having been the Top Soldier on Ex Lion Sun.

Around the time of Lion Sun we were suddenly inundated with a whole lot of new faces, although we lost some of the old and bolds. Hellos to **SSgt** 'Kalashnikov' **Clash** (back into the green army – lucky her), **Cpl** 'Medals' **Manaton** (straight out to Lion Sun a week after his arrival), **LCpl** 'Yan' **Aanes** (not quite in time for Cyprus), **LCpl** 'hasn't been seen since' **Bowring**, **LCpl** 'Another Scouser' **Kelly** and **Sigs** 'justin from Blandford' 'John' **Steed**, 'Top Driver' **Payne** and 'No relation to Ray' **Laing**. A very fond fare well to **Sgt Andy Hayler**, who has left us for a financially welcoming Germany posting, along with **Mandy** and **Alex**. We wish them all the very best, and hope that they remember us when they reach their first million. Shortly, we'll also be saying goodbye to **Cpl** 'Chimps' **Christison** and **Sig** 'Matt' **Mortiboys** – **Dave** to the Real world and **Matt** to Germany. So we'll be looking forward to a bit of peace and quiet in the garages – although the amazing repertoire of phones-on-hold tunes will be sadly missed. **Sig** 'Hope I get to stay longer this time' **Miller** disappears to HQ MND in August for a sneaky six-monther, and mostly all singlies get married! **LCpls** 'Short and Sharp' **Wall**, 'Old Lady' **Brady** and 'Naked Organist' **Milton** will all be married by Christmas, along with **Sig** 'Backbone' **Evans**. Good luck to all of you, and congratulations to **Cpl** 'Leroy' **Wilson-Cochrane** and **'Mrs' W-C** on their wedding in June – a superb day despite **Sig** 'Bandsman' **Leach** being best man! Speaking of which, there's only been one stag night to date – but anything that makes **Sgt** 'Seen it all before' **Hamlet** laugh that much has got to be worth it! Eyes on stalks (**Mr Wall**), my Dear (**Mr Catney**), Fireman and friend to all tramps (**Mr Milton**), where is he now (**Old Lady**), shopping trolley stuntman (**Mr Webster**), how much for two cokes (**Mr Knapman**)and oddly enough 'Wizbit' **Fearns** too! Anyone with information which leads to a successful prosection of any of the above will be eligible for a community action cash reward.

SHARJAH TROOP – 222 SIGNAL SQUADRON
Tp Comd **Lt Kelvin Grice**
Tp SSgt **SSgt** 'Bru' **Baker**

After recovering from the mayhem that surrounds the RSIT preparation, the Troop relaxed for a week before beginning preparations for Ex Eagle Strike in Scotland in support of 16 Air Asslt Bde. July in the Otterburn training area provided snow and searing temperatures. **2Lt Lumley** 'on loan' from 202 Sig Sqn acted as Troop Commander for the exercise, while **Lt Grice** was away playing his bagpipes for the Corps Pipes and Drums for the Royal Military Tattoo 2000 on Horseguards Parade in London. The Troop wishes to extend warm greetings to **2Lt Smith** who has just arrived from completing his Troop Commanders Course. He is due to take over Sharjah Tp in mid September when **Lt Grice** moves to RMCS Shrivenham to start a three year degree course. Greetings also to **Sig Robson** who has arrived from Blandford taking on the mantle as Troop Liney. She has big shoes to fill, as **Sig Buttery** leaves the Army for Civvi Street. Adding to the losses in the Troop are **Cpl Ward, Sig Scrafton** and **Sig Bunt** who are all off into the big wide world. This completes the number of goodbyes and the Troop wishes all those leaving warmest regards. The Troop is looking forward to the summer break that starts on July 28. We are away for three weeks and then look forward to a week adventure training at Penhale Camp in Newquay.

7 SIGNAL REGIMENT

231 SIGNAL SQUADRON BATTLECAMP
by Lt Jay McLeary (RNZ Signals)

Weeks of secrecy had preceded Battlecamp and even in the week prior to deploying -still no instruction had been promulgated to those attending (though I'm told that's pretty normal from Ops). Rumours had been rife to this point, and rumour had it that it was to be an escape and evasion exercise. In typical New Zealand Army style, I tried to pre-empt and prepare as best as possible, and having participated on numerous similar exercises back home, I had a few tricks up my sleeve.

After having been called in on Sunday night (2230!!!) and told we were now at thirty minutes notice to move, we were told to take our kit upstairs and await further instructions. I could see what was going on here… Minutes passed, then hours. Those who were smart got their heads down and tried to sleep. It was obvious that sleep deprivation was to be a key part of this Exercise. Awoken at some ungodly hour to the roar of 'Right, first section grab your stuff and move down the corridor!' - off we went. Now we would find out just how sneaky the Kiwi was… Within minutes, the ground was strewn with kit as the Directing Staff began their 'sterilisation' phase. Yes, they found the weighted down Mars bars in the waterbottles and yes - they found the DM20 taped under the insole of my boot, and believe it or not -even the lighter taped to my privates.Damn! These guys were *good*…

Sterilisation complete, we were bundled off with only the minimum of kit (ie: survival kit, waterbottle and the one set of combats) onto the back of a truck destined for who knows where. After a freezing cold journey across the German countryside, the truck stopped, we were hauled off and told, 'Right lads, you're to be at this grid by 0700 hours, stay off the roads -and don't be late…' and off they went. Eighteen clicks to cover as the crow flies, flat German terrain and about four hours to cover it in - easy. Yeah right! Who would have thought there would be so many German vehicles on the road at that hour of the morning, and that they all sounded just like Landrovers - and with us unsure as to whether there was a hunter force out there, let's just say there was a fair bit of diving for cover in drains and hedges -all of which had ample quantities of stinging nettles! (Sorry guys). Needless to say, we made it to the RV in time (just), much to the amazement of the OC. 'Unbelievable -all three Sections with the Officers managed to navigate their way here without losing themselves or their Sections, so where the hell are all the others?' Nothing wrong with this Kiwi's ability to read a map and use a compass Sir…

From there it was straight into the training phase. This period spanned two days covering lessons such as construction of shelters, obtaining food, fire lighting and other combat survival skills that would be needed in the coming days. The nights were spent freezing our butts off, as most Sections shared two to three doss bags between five to six people, some awaking with bruises after attempting to wrap arms around the person next to them for warmth. Good on you **Cpl White**! One particular Section decided not to kill the fowl they were given for the day's meal - probably thinking that if they left it alive for a day or two, they might get some eggs from it. Bad news **Hattie** -Roosters don't lay eggs… (The rooster disappeared mysteriously in the night and was never heard from again, though unconfirmed reports say it now earns a large salary in the employment of the Iraqi Secret Police). After again being bundled into the trucks, it was off to RAF Bruggen for a lesson on 'The Dogs of War." Here we got to play with the nice doggies that had names like 'Crusher", 'Mauler' and 'Cujo". Some of the lads and ladesses donned the padded suit and showed us all just how hopeless it is trying to outrun 50kgs of muscle and teeth. Impressive dogs, so long as you weren't on the receiving end of one wanting to tear your arm off…

Training and practise phases complete, it was now into the nuts and bolts of the Exercise - the testing phase. It was now confirmed that there was indeed a hunter force out there. Rumours had it they were Paras, some said Danish Rangers, others reckoned it was the boys with the black strips over their eyes. One thing was certain - the general reaction was 'Please not the dogs, *anything* but the dogs…' A couple of hours head start and then it was, 'Coming ready or not!' Some took to the trees, some used the trees for throwing knife practise - my Section, we decided that the only way was DOWN, and with one e-tool between us, began furiously digging a tactical shelter. After deforesting another part of the woods some distance away for foliage to hide our shelter, we stood admiring our efforts. Not bad! We were ready, and not a moment too soon. Off in the distance shots were heard. One of the Sections was now definitely in the pooh!

The four of us remaining bundled into our meagre accommodation with what little kit we had, covered over our entrance and prayed like hell we wouldn't get found. One thing is for sure. Having to spend eighteen hours squeezed in a hole in the ground with three smelly thugs -you sure learn tolerance, that and humour! Darkness came, and with it sleep for four tired little teddy bears. We were rudely awoken at zero-dark hundred hours with torch lights, rifle barrels pointed at our heads and screams of 'Get out -now!' Hooded and plasticuffed, we were bundled into the back of a Rover. The hunter force later confessed the only reason they found us, was they heard the wobbly tin flex after they walked over the top of our hide! Some of us *attempted* to escape only to be crash tackled to the ground after a couple of yards (sorry about the jaw **Sgt Yendel**, to this day I thought you were **Sgt Topps**…).The ex finished for my team with a stint of tactical questioning and a good dose of roughing up. A special thanks to the lads of two section -**Sig** 'Lee' **Taylor, LCpl** 'Phil' **Brown**, **Sig** 'Jimi' **Pearson, LCpl** 'Dan' **Depport** and **Cpl** 'Robby' **Richardson** for keeping me entertained throughout the ex with their twisted humour and never divulging anything about their officer under the duress of interrogation. Shear madness shall always overcome!

From the point of view of a Kiwi Officer attached to 231 Sqn on Ex Longlook, the Exercise was superbly run and enjoyed by all, thanks to a lot of hard work by the SSM and his team. All the best to all those deploying to the South Atlantic next month. Take care and cheers for the good memories I take with me…. Ake Ake, Kia Kaha!
(FOR PHOTOS SEE THE INSIDE FRONT AND BACK COVERS)

REGIMENTAL FOOTBALL REPORT - *by WO1 (FofS) Steele*

An end of season football report from 7 Sig Regt is nothing but good news! Having run two sides all season with over 60 people representing the Regiment in either the first or second team, football is very much alive and kicking in Krefeld. The season started late for the first team. When the Regiment returned from Kosovo in October 1999, the season was in full swing and we had some catching up to do. Luckily in our absence some talent had already been found during a couple of friendly matches. The team had recently lost **Maj** 'Rik' **License** to ATR Basingbourne, so up stepped **WO1** 'Tommy' **Steele** to take over the reins as player manager. Added to our problems the first team coach **SSgt** 'Daisy' **May** was also lost on a posting back to Aldershot. In came **Sgt** 'Bob' **Kirby** to fill that role. Our first game was against 16 Sig Regt (arch enemies) way back in November 1999, not only had the guys just finished their post op tour leave but I decided that we would play in the dreaded 3,5,2 formation. It seemed to work, and with some excellent play we destroyed 16 Sig Regt and were 5-0 up by half time - all change after half time though, a couple of substitutions and suddenly we lost our shape and with only 10 minutes to go 16 drew level at five apiece. To the lads' credit we scored two goals quickly to wrap up the points and send 16 Sig Regt home once again….well beaten !

The season was up and running, and our next game was against 2 GS Regt (one of the hot favourites for the league). In a tight game the Regiment came away with a hard fought draw - with a little bit more luck we could have stolen the points, but a draw was a good result, and more importantly the team was beginning to get used to playing under the new system. Things were looking up. This was certainly confirmed with our next match against 1 Bn Reme, who were well-beaten 3-0. This led nicely into the first round of the Army Cup where we were hosts to 1 Irish

Guards. In an excellent match we ran out winners 2-0, however, we had a fright in the first half which saw us struggle to contain them, like so often in football we scored on the break and then we went from strength to strength and completely dominated the second half. Having played only four matches the Xmas break was upon us. After the break the Regiment went from strength to strength. Having beaten the Green Howards in the Army Cup and winning two further games in the league it was the next match which would see our first major test, the semi-final of the BA(G) Army Cup against the current holders 3 Bn Reme. After some skulduggery from our opponents manager, fixing the game for a Saturday claiming that they were all on Bn Block leave (Funny that, some 20 footballers were seen full time training during the whole week prior to the game!). In a very tight game and with only two minutes plus stoppage time to go, the scores were level at one each. With the Regiment hanging on for extra time, catastrophe struck, as our keeper fumbled a simple cross in to the path of their striker. In real slow time the ball rolled agonisingly over the line just as the keeper managed to get hold of it. With everyone thrown up front to try and equalise, they scored again just before the final whistle. The lads were gutted, we did not deserve to lose and they knew it, but that's football.

From then on the Regiment never looked back, we won every single game, and more importantly we were to get our revenge against 3 Bn Reme. Having won the BA(G) West league convincingly, it was in to the BA(G) Premier Cup with the winners and runners up of the BA(G) east league. In the semi-final we were drawn against 28 Eng Regt (who had just won the Army Cup against the Cheshires). This game had it all. Right from the start the Regiment pressured the ball. 28 Eng Regt looked very classy, moving the ball on quickly to feet, but in the end it came down to the will to win, the system and above all team work. The Regiment took a fine scalp here winning 2-0 with goals from our two strikers, **Sig** 'I'm the Man' **Scott** and **LCpl** 'Stevo' **Stephenson**. In the final the Regiment reaped revenge on 3 Bn Reme, the guys thoroughly deserved to win the game running out victors by two goals to nil with goals by **Sig** 'Ruby' **Murray** and **LCpl** 'Stevo' **Stephenson**. The celebrations were fantastic - we had beaten 28 Eng Regt the Army Champions of this season, and now 3 Bn Reme, the Army Champions for the last three seasons.

The end of season function was held in a local Italian restaurant where the boss handed out the season's honours as follows:

Young Player of the Season - **Sig** 'Coxy' **Cox**
Players Player of the Season - **Sig** 'Ruby' **Murray**
Managers Player of the year - **LCpl** 'Stevo' **Stephenson**

We also bade a fond farewell to **Cpl** 'Phil's the best' **Hughes** (**Sig** 'Craig' **Harris's** best mate) who is going to Civvy Street and **CFn** 'Frannie' **Morrison** who is posted back to Paderborn. Finally I would like to thank my team captain **Sgt** 'John' **Brady** for leading the team so well all season and all the lads who have played for the Regiment this season.

Season 99/00 Results

a. BA (G) West v 16 Sig Regt (H) Result Won 7-5
b. BA (G) West v 2 CS Regt (A) Result Drew 2-2
c. BA (G) West v 1 Bn Reme (H) Result Won 3-0
d. BA (G) West + Army Cup v 1 Irish Guards (H) Result Won 2-0
e. BA (G) West v Arrc Sp Bn (A) Result Won 9-1
f. BA (G) West + Army Cup v 1 Green Howards (A) Result Won 3-2
g. BA (G) West v 1 AAC (H) Result Won 4-2
h. Army Cup Semi-final (A) Result Lost 1-3
I. BA (G) West v QRL-A (A) Result Won 4-2
j. BA (G) West v RDG's (H) Result Won 7-1
k. BA (G) West v RASU (H) Result Won 3-0
l. BA (G) West v 4 Regt RA (A) Result Won 4-2
m. BA (G) West v 21 Eng Regt (H) Result Won 6-1
n. BA (G) West v 6 Sup Regt (H) Result Won 6-1
o. BA (G) League Semi-Final v 28 Eng Regt (H) Result Won 2-0
p. BA(G) Premier Cup Final v 3 Bn REME (A) Result Won 2-0

TOP SCORERS

LCpl 'Stevo' **Stephenson**	25	Played	16
Sig 'Scotty' **Scott**	14	Won	14
WO1 'Tommy' **Steele**	7	Lost	1
		Drawn	1
		Scored	65
		Conceded	22

Next season can't come quick enough, anyone who wants to play good football should seriously consider a posting to 7 Sig Regt.

Sgt 'John' Brady receives the BA(G) Premiership Cup

7 Signal Regiment BA(G) Champions 99/00

HEADQUARTERS SQUADRON
Sqn Comd **Maj** 'Wally' **Drain**
SSM **WO2** 'Steve' **Bovan**

It has been another busy period for the Senior Squadron. Post exercise turn around, the normal hectic routine and taking the lead in several sporting and social events has once again kept HQ Sqn in the fore. Many Sqn personalities were heavily involved in the most recent charity event, 'Ready, Steady, Cook'. What started as an idea for a 'Dinners in a Dash' cook book with suggested recipes donated by all ranks of the Regiment, soon escalated into a Ready Steady Cook competition. All money raised at the event was to go to SSAFA. The competition was to be between the Regts Chefs and Chefs from 280 (UK) Sig Sqn. **Mrs Julie Bennet** from the Regimental clothing store and a SSAFA Committee member were soon hard at work allocating tasks to the willing and not so willing. The evening was a complete success with the OC acting as a Roger De Corsey-type compere, ably assisted by **WO2** 'Nookie the Bear' **Bovan**. The winner of the competition was our very own **Cpl** 'Gaz' **Foulger**, who produced a 3-course meal in 45 minutes with ingredients he was presented with just prior to the start of cooking. After a superb effort by all involved, the total raised from the sale of the cookbook, raffle prizes and the auctioned shearing of **Cpl** 'Gaz' **Halliday**'s flowing locks was DM 3557.95.

Cpls Lindsay Kinghorn, Steve Bye and LCpl Beth Rees

Many thanks must go to the QM Tech Dept for the superb Squadron families BBQ that was held recently. It was refreshing to see a Department jumping to be first in the line of volunteers to host this event (but then again, it's not that you're busy trying to close operational accounts or anything). The venue on West Park was transformed into a paradise of fun, with face painting, bouncy castles and games (at times the children were allowed to take part as well). Although the weather was against them, everyone enjoyed the day and heaped praise on the Chefs for once again producing superb results. The SSI, **SSgt Kev** 'Muscles' **Mason** will no doubt be called upon again now that his Bruce Forsythe style of compering has been demonstrated. As a final note SSM, why is it that on exercise the soldiers won't use cam cream, but will queue 20 minutes to be covered in face paints when glassy eyed?

QUARTERMASTER'S (TECHNICAL) DEPARTMENT
QM(T) **Capt Ray Cory**
RQMS(T) **WO2** Trev ('Sicknote') **Henry**

WHAT'S BEEN HAPPENING?

At last we did it. After seven hectic months we have finally laid the ghost to rest that was the Op Agricola Account. **Capt Ray** 'Let's start on the camp account' **Cory** and **SSgt Kev** 'Who's got the SSRs' **Scott** have got the biggest smiles around the Department. Well done to all of the Department past and present (never again!). There have been a few moves and deployments over the past few months: **Cpl** 'Des' **Lang** has deployed to Bosnia to work with the Commercialisation Implementation Team, and **Sig** 'Geordie' **Ellis** has moved over to 231 Sig Sqn prior to his deployment to Bosnia to augment 4 Brigade. We have recently said farewell to **Sgt** 'Mick' **Neil,** who has moved to 21 Eng Regt, Osnabruck and **Sgt** 'Jock' **Castle,** off to 3 Div, both on promotion to Staff Sergeant. The Department thank them for their hard work and wish them and their families all the best for the future. We welcome **WO2 (RQMS) Henry** from 1 Div who will be taking over the reins from **RQMS Burdge** who is moving over to be SSM 229 (Berlin) Sig Sqn, **Sgt Skipper** who has taken over in the URS(T) and **Sig Bradbury** who has arrived from the factory. Welcome!

SPORTS AND SOCIAL

The golf clubs are out. The QM and **Sgt** 'Scotty' **Scott** recently squared up to each other in the Officers' Mess vs Sergeants' Mess Golf Competition - unlucky Sir, a resounding win for the Sergeants' Mess. **Sgt** 'Jock' **Castle** has continued his running and has successfully completed the London Marathon - Well done 'Jock'. **SSgt Kev Scott** has continued to support the Regiment's Football Team and **RQ Burdge** has recently played in the BA(G) 7's (Rugby Union) and the BA(G) 9's (Rugby League), both times the Regiment being beaten in the semi-finals (unlucky).

The Department is keen not to let the grass grow under it's feet, so we did our bit for the Squadron by organising the Squadron BBQ on Sunday 25 June at West Park on a glorious sunny day (not!). Special thanks go to **Mrs Lang** for running the children's face painting stand. Congratulations go to **LCpl** 'Clare' **Boswell** (nee **McIntyre**) who recently married **LCpl** 'Bossey' **Boswell** from 280 (UK) Sig Sqn. The Department would like to congratulate **Cpl** 'Dom' **Cooke** on being awarded Commander KFOR Commendation for his outstanding hard work on Op Agricola. Congratulations to **Capt** Ray **Cory** on his well-deserved selection for promotion to Major, also congratulations go to **Sgt** 'Scotty' **Scott** on his award of the LS&GC and for passing his hyster course with flying colours. Well done to **Sig** 'Muzzy' **Musgrave** and **Sig** 'Olive' **Macleod** on passing their B2, now get the beer in! Welcome to **Sig** 'Chippy' **Wood** posted in from the factory - the brew list is next to the cups!

QUARTERMASTER'S (A) DEPARTMENT
QM(A) **Maj Pete Doherty**
RQMS **WO2 Neil James**

The Department has been kept busy over the last few weeks getting ready for the Log Spt inspection, and if it hadn't been cancelled at the last minute I'm sure that the late nights and weekend working would have been worth it. The QM, **Maj Pete Doherty,** is still doing his 2hr walks into work each day, even though he only lives 600m from camp. It's a GPS for him as a leaving gift me thinks. **Sgt** 'Slick'**Miller** who recently returned from his NBC instructors course went straight onto his Environmental Protection Officers' course and can now be found in the gas chamber switching off the lights. **Sig Clare Patton** organised the BBQ on the sad occasion of the farewell for **Sgt Mark Chivers**. **Mark** who was unable to deploy to Kosovo last year due to illness was awarded the 'Short Service and Long Illness' medal by the QM. A gift of a bathrobe and slippers for his next hospital admittance was greeted with a tear in his eye (his glass one had gone to sleep by this time). All the best to **Mark, Yvonne** and **Jack** in Ireland and congratulations on your promotion (yes, now you can call yourself SQMS).

Maj Pete Doherty presents the Short Service and Long Illness Medal to Sgt Mark 'Bradbury' Chivers

229 (BERLIN) SIGNAL SQUADRON
Sqn Comd **Maj Dan Webster** Royal Australian Signals
SSM **WO2 Ged Keane**

SQUADRON HEADQUARTERS TROOP

There has been a lot of activity going on within the troop over the past three months, with arrivals and farewells. Firstly we say farewell and congratulations to **SSM Ged** 'Airborne' **Keane** and his wife **Wendy**, who are off to sunny Colerne for six months and then on to 40 Sig Regt on promotion to RSM. Next we say farewell and congratulations to **SSgt (YofS) White** and his wife **Marilyn** who are posted to 3 Inf Bde HQ and Sig Sqn on promotion to WO2. We say a fond farewell to **SSgt (SQMS) Taff Webb** and his wife **Rita** and family who are off to 14 Sig Regt. On the arrivals front we welcome **WO2 (SSM)** 'Taff' **Burdge** and his wife **Alda** and family, as 'Taff' swaps his RQ's badge for a proper one. Next in from the training wing is **SSgt Matt Wakeling** who takes over as the SQMS and hopefully he won't change jobs for the time being. Last but by no means least is the new YofS straight off his course, **SSgt Kev Book** and his wife **Nicky** and family – he has quickly learnt that when the OC says, 'Can you work late until 1830hrs?' he really means 0630hrs.

CHARLIE TROOP - *by LCpl Ben Pember*
Tp Comd **Lt Caroline Evans**
Tp SSgt **SSgt** 'Jock' **Reid**

The first exercise after the hectic period of RSIT was 'Active Improvement', held between 10–28 May, in and around Amersfoort in Holland. This exercise came as a much-needed shakeout for all trades. There was lovely weather in the first week, and pouring rain in the second, even so a good time was had by all, especially the radio-relay operators who had a fun time putting up (several times) a 25m mast. With a foot-pump to get it up with, we all had a huge thighs at the end of the exercise!

During the exercise a trip was organised to the Airborne Museum near Arnhem, which we all enjoyed. At this stage I feel I need to mention the memorable Jazz festival held in Amersfoort, the weekend before the exercise, and attended by several of the Crypto guard. Two weeks later, barely after we had completed turn-around, the squadron deployed on exercise 'Arcade Falcon', and oh what fun we had! It was a multi-national exercise around the northwest of Germany, with the squadron

playing a major role. Rumours have been going round the camp accusing one of the troops in the Squadron of having it easy all exercise, and not moving at all, but no sour grapes here! We understand what hard decisions had to be made by all, what topping should one order on the delivered pizza's?!

With the second squadron deployment to Kosovo brought forward, with it came the UNTAT training package at Sennelager, lasting between the period 3rd-7th July, and teaching us how to react to certain situations, giving you a basic grasp of the Serbian and Albanian cultures, and weapon firing under different conditions. Most people found that after a slow start they actually ended up enjoying it. This was helped by the lack of unnecessary shouting from the range staff, and the fact that we all managed to pass our APWT's! A thanks must be given to all the Royal Green Jacket instructors who took the UNTAT week.

There have been a couple of farewells in the past weeks. We say 'Goodbye,' to **LCpl John MacDonald** (now at 2 Sigs), **Sig Andy McCabe** (pursuing fame and glory in his music career), **Sig Martin McMillian** (gone to fish in the loch's of Scotland) and **SSgt Webb** (soon to be **Mr Webb**). We also say, 'Goodbye,' to **Sgt Whitfield** (off to 16 Sigs), and **SSgt Robson** (promotion and Blandford calls) within the coming weeks. Best wishes to you from all of the squadron!
Until later….

WHISKEY TROOP
Tp Comd **Lt** 'Ally(son)' **Lawson**
Tp SSgt **SSgt P. Robson**

The Troop has enjoyed a period of relative quietness since the last installment of the W-files. The Troop deployed on exercise (holiday) Active Improvement in Holland in May for two weeks in support of MND (C). The Troop Commander, **Lt** 'Ally(son)' **Lawson** will not forget this period due to the fast and sometimes hectic driving of **Sig** 'Tomo (McRae)' **Thompson** in his Martini Racing Army sponsored Rover and the unforgiving sand dunes/ruts of Holland's training areas. This said he felt much safer riding around in a Dutch Leopard tank. Following a couple of weeks of normality the Troop set off on adventures once again, this time on exercise Arrcade Falcon. However, this was not appreciated by many due to the European Cup Finals being played. The exercise was not quite the same as the Dutch deployment due to the fact everyone was working hard (some Troops more than others- no offence intended C Tp). The exercise will be remembered for a number of incidents: Whilst the exercise was in full flight, **Sig Tomo** 'McRae' **Thompson** managed to have an argument with a rubber bungee which got the better of him and left him with a beaut of an eye, and left people in no doubt that bungees can seriously damage your health. Whiskey's finest operators were praised highly for their efforts during this exercise because of the outstanding work done by the Relay crews who managed to hold the world together as the exercise rotated around TN012. The Troop would like to congratulate **SSgt Paul Robson** on being promoted. He has recently been swatting up on computers to be able to fill his position at the Royal School of Signals (thanks for all you did for the Troop and all the best to you and your family back in the UK). Also congratulations to **Sgt Kenny Macpherson** on passing his Sergeant's course. A welldone must be said to **Sig Trev** 'The Fool' **Woodward** on passing his APWT on the first time of asking, increasing his score from 7 to 42 out of 60 - keep it up Trevor!! The Troop would like to welcome **LCpl Matt Knowles** and his wife Beverly, also hello to **Sig Nat** 'Bunsun burner' **Brown** and **Sig Ash** 'Spotty' **Spotswood**. The Troop would like to say farewell to the following **Lt** 'Ally(son)' **Lawson** who leaves us (on an upwards move-NOT) to go to Tac Troop 232 Sig Sqn, Farewell to **LCpl Luke** 'Beakimus Maximus' **Mason** and his wife **Marie** and his two kids **Charlie** and **Tamara** who leave for 1 Mech Bde in Tidworth. The remainder of Whiskey Tp that are not deploying on Operations wish all the best, and a safe return to the rest of TN 012.

NEW TROOPS

A warm welcome to those members of 231 Sqn who have now become X-Ray Troop, 229 Sqn. Also to all those in 229 Sqn not deploying, who are now in Yankee Troop. New members of the Squadron also include **SSgt Evans** and **SSgt Davies** – welcome to you and your families. Lastly, our new Yeoman, **SSgt Kev Book,** who deserves a mention as the man most adept at not making brews on exercise – We'll show you where the coffee is when you get back from Kosovo!

PARAGLIDING BASIC PILOTS COURSE
WERTACH- BAVARIA - *by 2Lt Harriet Hebblethwaite*

It was on the sunny morning of 19 June that five members of 231 Sig Sqn departed from Bradbury Barracks for the long drive down to Wertach in Bavaria, with great anticipation and a little trepidation for the ten day Basic Pilots course ahead. The students were split into two groups, and the course began bright and early the next day with an introduction to the equipment. It became startlingly obvious very early on that the thin piece of nylon was going to be the only thing holding us all away from certain death, so particular concentration was applied at this point.

With nerves slightly more at rest, it was time to take to the training slope (after a brew of course), or rather the flat grassy field tantalisingly close by. It was now time to learn how to get the paraglider into the air- a lot more difficult than it looks! **Sig Tony Barclay** and **2Lt Harriet Hebblethwaite** had particular trouble untangling their paraglider each time it crashed to the ground, and **LCpl Robbo Roberts** found it extremely difficult to run in a straight line- strange we thought for a PTI. The following couple of days saw us graduate to the slope itself, which threw up new challenges as the wind was stronger and coming from the wrong direction. With threats of an approaching weather front, we were all desperate to get 'AIRBORNE". **Sgt Gaz Topps** was doing especially well at this stage with his 'Bird Man of Alcatraz' impression (I don't think he actually got off the ground either **Gaz**!) and **2Lt Hebblethwaite** had to be held down to stop her from floating away (honestly).

Friday dawned cloudy and wet and marked the beginning of a couple of no- fly days. We took this opportunity to carry out a launch site appreciation as well as essential Go Kart training, bouncy castle action, swimming and a quick nip over to Garmisch, in between brews of course. It was our penultimate day all too soon, and our last opportunity to get all the training in to ensure a mountain flight at the end of the course. 142 launches were achieved between 12 students in one day- a new record, but not without its mishaps. **Sgt Topps** almost ploughed into the barbed wire fence, **Sig Barclay** and **LCpl Roberts'** wings decided not to fly in the morning and **2Lt Hebblethwaite** managed to crash land on her head for the second time. Only **Sig** 'JP' **Pearson** seemed unscathed at the end of a very exhausting day. The day of our mountain flight finally arrived. A moment we had all been waiting for. We headed off for the mountain previously recced only to be told that the wind was in the wrong direction. So after assessing another mountain close by and another brew the instructors called the flight off, much to everyone's disappointment. Nevertheless we successfully completed the course and had a thoroughly enjoyable time in the process, all keen to do the continuation course just as soon as we get back from the Falkland Islands!

231 SIGNAL SQUADRON v HMP WYMOTT
FOOTBALL MATCH

It was 1035hrs Wednesday 14 June 2000 when sixteen prison officers from Wymott Prison drove through the gates of 7 Sig Regt, Bradbury Barracks to take on the might of 231 Sig Sqn's select eleven on the football field. The officers had travelled to Holland to enjoy a well-earned break and to take in a few games at the ongoing Euro 2000 championships. **Cpl Andy McMullan's** father, **Mr Denis McMullan** was a member of the travelling party, and so after many phone calls to and from the UK, the match was arranged.

It wasn't long after their arrival that the whistle was blown for kick-off, and the game was underway. As **FofS** 'Tommy' **Steele** had kindly agreed to be the referee, the Squadron knew they weren't going to get any favours! The game started at a hectic pace, and the prison service were certainly having most of the play. It was quite apparent that we had underestimated their team, even though the average age must have been at least a cricket score. The Squadron side settled down, and eventually we got our reward – a goal, courtesy of **Sig** 'Scotty' **Scott**. After a hard-fought first half, everyone was happy to hear the halftime whistle, especially 'Stobie' and 'Denis'. Appropriate refreshments were served by **Sgt** 'First Class' **Michael Yendell**. The second half commenced, and it soon became apparent that the prison officers' nights out in Holland were taking their toll. Continuous pressure from the Squadron side eventually turned into a well-taken goal by **LCpl** 'Toddy' **Todd**. With a back four propped by **Maj Paul Bosher** and **WO2 (SSM) Karl Weaver**, it looked unlikely that the prison officers could fight back. However, owing to what can only be described as quality performances by **Graham Parker**, 'Breezy' and 'Wardy', the officers managed to shorten the scoreline due to a cool finish by **Mark Heary**.

Ted Quick, who was eventually voted 'man of the match', earned his title with an impressive performance keeping goal for the officers. The day ended with some traditional celebrations in the bar, which **Stuart Morrison** enjoyed more than most.

LIMA TROOP - 231 SIGNAL SQUADRON
Tp Comd **Lt Mayne**
Tp SSgt **SSgt Mitchell**

Firstly and with regret the Troop has said goodbye to **SSgt Mitchell** who has moved to 14 Sig Regt (EW) in lovely Wales after receiving his promotion earlier this year. He has been an excellent asset to the Squadron, and will be sorely missed by many. We all wish him and **Petra** a prosperous future. With the Squadron's commitments for the year, the Troop has unfortunately been disbanded until next April, and members of the Troop are now serving in Bosnia, The Falklands and back in sunny Krefeld. However, before everyone was blown to the four corners of the Globe, the Troop deployed on Exercise Lima-Llyn Backstop, which was a 9-Day adventurous training expedition to the Snowdonia National Park in North Wales. The activities were primarily lead by **Lt Mayne** (JSMEL), and **Cpl Casswell** (MLT). The weather for the expedition stayed mainly in our favour and all of the main peaks in the Snowdon Massif were climbed. We had our first examples of fear being shown when we ascended Snowdon via the Crib Coch arête. **Sig** 'Woahhh' **Learmonth** was definitely the most scared of heights although **Sig** 'Im not going up there' **Egan** was not far behind him. At the other end of the scale were **Sigs Mitchell** and **Kennet** who took every opportunity to climb up anything in sight. As well as the mountain walking days, people were given the opportunity to partake in rock climbing, mountain biking and deep-sea fishing. The Troop would also like to send its regards to a retired Royal Signals Lineman, **Malcolm Morris** who was last serving at 36 Sig Regt (V) in Colchester before most of the Troop were even born, who we met on one of the routes walked. Finally, the Troop would like to welcome **SSgt Young** who will not actually take over until the Squadron is reformed, but is most welcome.

232 SIGNAL SQUADRON - EXERCISE LION SUN 05/00

Whilst the powers that be were sending the other 7 Sig Regt Squadrons off to the exotic climes of The Falkland Islands, Bosnia and Kosovo, it was decided that 232 Sqn would get the rough end of the deal and participate in Ex Lion Sun in Cyprus. To that end, the Advance Party (no emphasis on the party of course) departed these shores for the magical mystery tour to RAF Akrotiri via Munster, Stanstead and Brize Norton. Once arrived in Cyprus on a weary Thursday afternoon the intrepid travellers found themselves faced with many a locked door since everyone knocks off at 1330hrs……..Friday morning was spent in a frantic rush trying to tie up all the loose ends across all aspects of training before the Main Body flight landed on the Monday afternoon.

Thankfully the Main Body arrived safe and sound and we moved into the strangely named Camp Radio Sonde which had been taken over by the ever-helpful **SQMS** 'Yes but No' **Adie Chapman**. From there the training in earnest started with a Range package based at Akrotiri which was administered by **SSgt Shaun Cook** and his team of **Sgt Spence Ord**, **Sgt Rob Atherton**, **Sgt Julian** (yes it really is Julian !!) 'Drew the Brew' **Drewett** and **LCpl** going on **WO3 Bob Lovell**. All in all a good few days training apart from the interruptions caused by the Red Arrows fly pasts (posers!). The next week was spent at the other end of the Island at the Pyla Range complex where we had the luxury of living on the Range under the stars. The hot days were compensated by the cold nights although all agreed the Training was excellent. All that remained before the long awaited R&R was the long feared final Ex where **SSgt Al** 'Dingleov' **Ironside** and henchmen awaited us at every turn. The Exercise culminated in a full Sqn level attack on Paramali village where the bad guys were all killed and the victorious battleweary Troops retired to Radio Sonde for tea and medals. The vast majority of the Squadron then deployed on the R&R package on a mini-cruise to Egypt. There were some worried faces amongst the locals when some 83 thirsty soldiers embarked on the MV Princess Victoria bound for Port Said. We spent a long bus-bound day seeing the sights of Egypt before **Sgt** 'Disco' **Del Richards** entertained the boys and girls with some crazed dancefloor antics.

Upon returning to Cyprus, we then managed to squeeze in a victory in a football match against a local Cypriot team. **Sig Craig Harris** deserving a special mention as the resident football star and **SSgt** 'Oldest swinger in Town' **Stef Newton** scoring more goals than our linemen could count (3). All that remained was an Adventure Training period where we spent some quality time kayaking, power boating, water-skiing and the like before the eventual Endex and the impending return to BFG. Like most military Exercise there were areas which some enjoyed while others did not but it is pretty much agreed by all those who were there that Ex Lion Sun is one not to be forgotten in a hurry by all members of the Squadron.

232 SIGNAL SQUADRON - DELTA TROOP - *by LCpl Anderson*

Yet again it has been a busy month for Delta Tp, including a three week deployment to Madrid for SAN 870, much to the delight of **SSgt** 'Stef' **Newton** and his bunch of merry men and girls. On the flip side though, SAN 874 was meant to deploy to Turkey to support the Turkish Brigade, but this was cancelled. Instead, **Sgt John Webber** and his crew had to make do with Soest training area and what it had to offer them - mainly nettle fields and farm yards full of raw sewage - unlucky lads!

There have been a couple of incidents this month. Top prize goes to **Sig** '17 stone and rising' **Gallard,** who took a bit of a dive out of the back of a Relay, managing to damage himself sufficiently to qualify for a couple of weeks sick leave back in blighty. Needless to say he was most upset at having to leave Krefeld for that long, but not as upset as the local gyros shop owner, whose takings have dropped dramatically. Second prize goes to **Sig** 'Simple' **Sim,** who decided that the quickest route over roundabouts was quite literally straight over them followed quickly by a bit of off-roading in the local farmer's field - he can now be seen going pale at the thought of the cost of repairs.

We offer up a big welcome from the Delta massif to **Cpl** 'Kev' **Brooker**, who has seen the light and come across from 16 Sig Regt. Also **Cpl Chris Rhodes**, **Bren** 'Randy' **Randerson**, **LCpls Craig Anderson**, **Sandra Evans** and **Sig Pam Hunt** who have all made the move from Tac Tp next door. Also, hello to **LCpl Becky Thompson** from Hotel Troop and **LCpl Bewick** and **Sig** 'JD' **Dennistoun** fresh from the factory.
Leaving us are **Cpl Steve** 'Geek 1' **Taylor** and **LCpl** 'Geek 2' **Bartlett** who have deserted to the newly formed CIS 'Geek' Troop also to **Sig Claire Davies** who's jumped ship over to Tac Troop. The troop is also losing **Sigs Rick** 'Pest' **Anderson** and **Toby** 'Straight outa Compton' **Rees** to another six month tour of Kosovo - try not to booze too much lads! The biggest farewell goes to **Mr Phil Hughes** and **Miss Paula Barrett**, who are on the move to civvy street. The Troop hopes everything goes well for them both when the baby arrives, and remember Phil, keep it real.

Congratulations and welcome back to **Sig Jase Holt** who got married to **Steph** - We wish you both the best of luck for the future (you'll need it Steph!). Last but by no means least, a big congratulations to **LCpl Dougie Porter** and his wife **Claire** on the birth of their baby boy **Connor** - Best wishes for the future. **Dougie** now looks like he's been on exercise for a month, and can be found wandering around the troop muttering things about nappies and toxic waste.

HOTEL TROOP
Tp Comd **SSgt Ironside**
Tp SSgt **SSgt McGuire**

As always another busy time for Hotel Troop. We welcome a few new faces but it appears we have more goodbyes. We'd all like to wish **LCpl** 'Tony' **Musgrave** a happy posting to 2 Sig Regt, and we hope **LCpl** 'Sean' **Dinsdale** has a groovy time in London - we hear the price of drinks will soon send him broke. We must also wish **Phil Hughes** all the best in his new casual Civilian life, and send him best wishes as a father to be. Goodbyes go to our elusive OC, **Lt Howarth**, who has deployed to Bosnia with 231 Sig Sqn. Good luck goes out to **Sig Murphy** as she takes time out to look after her newly born bouncing baby. **SSgt** 'Do one' **Ironside** now finds himself as OC Troop (not on a power trip, much) and **SSgt** 'Yes' **McGuire** arrived from 16 Sig Regt to take up the mantle of Troop Staffy. CIS section has also received a boost, with new blood being moved across from the other Troops. They now understand just how heavy those computers really are.

Our time and work has been largely filled with Exercise Prep and the exercises themselves. A splendid couple of weeks were spent up on

Sennelager training area, cabling in a very spick and span STAR(E) Headquarters in a row of bunkers. Other locations included the disused Napier Barracks Gym, Dortmund and The Chicken Factory near Gutersloh. The roar that could be heard when England beat Germany in Euro 2000 probably caused several hens to treble their egg laying output. **Cpl** 'El Cid' **Wilson** spent his Exercise sunning, I mean working hard with the SAN group in Spain. Lucky for some, eh?.

The Squadron set aside a couple of weeks this month to try and get everyone away for Adventure Training down in Bavaria. Most of the Troop managed to get the opportunity to participate in the various activities, including Hill walking and Rock Climbing. Finishing on a good note, the troop will be vastly depleted as everyone is soon taking time out on Summer Leave. As soon as we get back it will be straight into the normal grind with a range day and then the build up to the major exercise of the year, Ex Arrcade Falcon.

PAPA TROOP

First of all, the Troop would like to say 'Get the beers in' to the new Troop OC, **2Lt** 'Sprog' **Endean,** who has just arrived from his Troop Commanders course. A fond farewell to newly promoted 'Archie' **Gemmell** who is off to 14 Sig Regt (EW), and **Lt Noakes**, who is off to sunny Blandford. Also congratulations to the son of the CO 'Hoppy' for passing his cycling proficiency test, OR DID HE? The Troop has just returned from a weeks (well earned) adventure training down in Bavaria where **Sig** 'Postman Pat' **Sykes** was a bit confused about how a stamp cannot be used as a phonecard. The Troop is looking forward to summer leave but make the most of it because its exercise when you get back.

TAC TROOP - *by LCpl Williamson aided by Sig McColm.*

Tp Comd **Lt Lawson**
Tp SSgt **SSgt Griffiths**

July has been yet another glorious month in the Corps for TAC HQ, with the usual round of hellos and goodbyes associated with the Squadron's roller coaster manning list. Hello to **Lt** 'Schoolboy' **Lawson**, **Cpl** 'Johno' **Johnson**, **LCpl Alex McMurray** and **Sig Claire Davies**. We also bid a fond farewell to **Sgt Rob Atherton**, who is moving to 39 Bde and Sig Sqn, **Cpl Randy Randerson**, who is off to Delta Tp, **LCpl Mark Reay** (231 Sqn) and **Capt** 'Pierre' **Farrimond**, who is posted to AAC Arborfield. Also a big unlucky to **Cpl** 'Peacemaker' **Cansfield**, who, whilst trying to grab the attention of some ladies on a night out, fell over and broke his leg - hope you are back on your feet again soon **Neil**! Congratulations go out to two sets of parents in Tac Tp, July saw the birth of **Steve** and **Sue Wilson**'s baby **Reece,** as well as **Dougie** and **Claire Porter's** baby **Connor** - and not forgetting congratulations to **Sig Andy Joynson**, who successfully passed P- Company.

TROOP BATTLEFIELD TOUR

At the end of June Tac Troop deployed to Ypres on a Troop outing, where we had the pleasure of camping in a local campsite, visited many local memorials and museums. A special thanks to **LCpl Al** 'Schumacher' **Ryall** for his excellent autobahn manoeuvres on the way down.

ADVENTURE TRAINING

On Sunday 17 July a handful of 232 personnel set off towards Bavaria, led by **Sgt** 'Disco Del' **Richards**. The journey was tedious and when we got there we found an uninhabited town called Wertach. The hill walking was led by **SSgt** 'Mountain goat' **Griffiths**, and a big thanks goes to **LCpl Rees** who helped us out by taking us kayaking for a couple of days. The other activity was rock climbing which was led by **Sgt** 'Brew' **Drewett** who instructed us well on inside and outside climbing walls. Well done to **LCpl** 'Chag' **Anderson** and **Sig** 'Stainsy' **McColm** for their efforts on the karaoke, I hear the local girls were very impressed. Thanks to everyone who was involved not forgetting **SSM Carter** for his hill walking knowledge.

14th SIGNAL REGIMENT (ELECTRONIC WARFARE)

226 SIGNAL SQUADRON (EW)

Maj Rob MZ hands over command of the Air Portable Squadron to Maj Jonathan Gillespie, 10 August 2000

237 SIGNAL SQUADRON (EW)

Sqn Comd **Maj Drinkall**
Sqn SSM **SSgt Hughes**

For once it has been a quite period within the Troop due to most of our vehicles being deployed on Ex Iron Hawk. To start with we must say hello and welcome to the Squadron to **SSgt SQMS Craig, Cpl Coward, Cpl Daddow, LCpl Harvie** and **Sig Stratton** and farewell to **WO2 SSM Richardson** and **SSgt (SQMS) Kitchen** off to greener pastures.

The Regiment decided to hold a Regimental Fun Day on Sunday 23 July with the Troop being tasked to run the 'Human Bandit' as their stall. Congratulations must go to **LCpl** 'Dougie' **Douglas** for an excellent job on setting up and running the stall. How did you manage to be the only stall to lose money on the day? At least you know who your friends are and we still haven't discovered what is 'fun' about working on a Sunday! Congratulations must go to **WO2** 'Blacky' **Blackadder** on his promotion and commiseration's to **Sgt** 'Mac' **MacDonald** and **Sig Richardson** on their pending life sentences when they get married. Congratulations must go to **Sgt** 'Dave' **Keenan** on being the first person to be awarded the Troop Muppet award for his little incident with a Boughton, a winch, a Montago and a Wolf.... In a close second place was **Sig Richardson** who now holds the record for the longest time a generator could run without the fuel tap switched on and in third place was **Cpl** 'Paddy' **Gravey** for his little indiscretion with the police.At last someone out there has listened to the pleas and cries of the Nomadic Squadron Techs in their quest to find a home and found them a porta-cabin to use as a workshop, only for them to be told that they are not getting it because the Troop Commanders are moving out onto the shop floor. Now that the Troop offices are going to be empty the Techs will be moving into one of them, but there is a catch.... they can't move in until the end of October.

A question for all the operators in the Squadron, How long does it take for the brakes on a trailer to start smoking if the trailer hand break is left on? Answer: about four miles, but they didn't know the answer so they decided to try it out on two separate trailers on two different parts of the same journey!

TANGO TROOP

Tp Comd **Lt Phil Waddell**
Tp SSgt **Sgt Chris Mulligan**

Let us start in the usual manner by firstly acknowledging those dearly departed, and newly arrived. A big shout goes out to **LCpl Dave Terron**, who after many years of being Troop sprog educator has left us to re-educate Ireland in a more peaceful role. A warm welcome is extended to **LCpl Banks** who has just been posted in from the aforementioned place, the Troop would also like to welcome **Sigs Neale** and **Clarke** who have joined us straight from the factory, and can't believe their luck now that **LCpl Terron** has gone. We've only had a short amount of time to ourselves lately, Ops decided to spring the good news, 'You're all going to Canada at the end of August, but before you go you'll be playing enemy for 245 Sig Sqn, and send a det to the UOTC, complete two Jocomexes. Also send four blokes to do a BBGT, spend three days at Oakwood leisure park on a PR exercise, set up two stands for the Regimental open day, set up another det for an old boys reunion, prep for Canada, play cricket and still have Fridays off.' Nice one Ops!

The 245 Sig Sqn Exercise (Mouflon Summer) was an eleven day exercise which took place on your favourite training ground, and mine, sunny Salisbury Plain. Tango Tp were asked to provide a DEWCC det and a handful of men to act as enemy. During the Exercise certain members decided not to engage the enemy and thought it far more beneficial to go on a 14km tab, others found that it is possible to outrun a charging AFV 432 whilst in a reversing LandRover. At the end of the day the boys were asked to annoy, pester and kidnap any 245 Sig Sqn personnel which they did with good effect, but they do draw the line at engaging dets that have an infantry coy as support.

A three-day PR exercise at Oakwood leisure park gave the Troop a chance to show off some of their skills in front of the general public. A DEWCC det was put on display as well as a small assault course for the Troop to display their speed and athleticism in erecting a section of the PU 12m mast (why do all the good ideas come from seniors). The fruits of the PR Exercise are still being sampled.

237 get to grips with the local radio station

Now that all the vehicles have been shipped off to Canada the Troop are making good use of the quiet period and getting themselves on leave before Ops decide to drop any more bombshells. Finally, congratulations to **Cpl Dimmack** and **Cpl Piper** for being two of the hundred plus Corporals selected for promotion to Sergeant. Nuff said.

VICTOR TROOP

Tp Comd **Lt Ashman** (Aus Army)
Tp WO **WO2 Watters**

The Troop would like to extend a warm welcome to **Cpl** 'Baz' **Keen, LCpls** 'Ken' **Dodd,** 'Village' **Green** and **Sig** 'Tracer' **Fraser.** We would also like to say goodbye and good luck in civvie street to **Sgt Bradbury, Cpl Zoe Wainwright** and **LCpl** 'Fred' **Perry,** and all the best to **Cpl Gareth Davies** and family on their posting to JSSU Digby. Farewell also to **Lt Hamish Ashman**, who is returning to Australia after his four month Long Look at Wales. Congratulations to **Cpl Danny Wilkins** on his recent marriage to **Emma**. We would also like to congratulate **Cpls Mick Haltam** and 'Giff' **Giffen** on their recent selection for promotion to Sergeant. It has been a very busy period work wise, preparing the Troop's vehicles and equipment for the forthcoming deployment to Canada on Ex Iron Hawk. During this period we also had an RSIT inspection thrown in for good measure, which was passed with flying colours. The Troop was also tasked with providing an Odette det to take part in a JFACTSU exercise in Scotland. The Regimental Families Day on Sunday 23 July saw the Troop painting tyres and signs for the target golf stand. On the day the weather and competition were both hot, with everyone trying to get their hands on one of the 'much coveted' trophies. During the afternoon a marked loss of accuracy was noted, possibly due to the rising temperatures and not the beer tent next to us.

245 SIGNAL SQUADRON

Sqn Comd **Maj Hodges**
SSM **WO2 (SSM) Griffiths**

A few changes as we said goodbye to OC W Tp, **Lt** 'Fi' **Stewart** and soon to be **Sgt Gray** who are both off to the damp sunshine of NI. Welcome to **SSgt (SupvR)** 'Use the force' **Timmis** and **SSgt (SupvR) Emmett**. Welcome back to KFOR Troop who are returning in a few days for a few hours socialising before departing on leave. The Squadron has been keeping itself busy with a few major deployments. Mouflon's Summer saw a full baseline deployment with TCAD's and DEWCC's on Salisbury plain. Beefed up with an additional detachment from 237 Sig Sqn we were able to put the new EW system through its paces in the field. A variety of successes and not so successes included everything from the **Sgt** 'Jock' **Marshelsay** led cavalry charge to near enemy attack on the TCAD position where the two sentries were beefed up by a Battalion of PWRR on TESEX. The latter never happened more by luck than judgement as the TCAD crew attempted to goad the SSM's boys into action.

Debus drills from a panzer

245 Signal Squadron in the field - Post Exercise turnaround

After a feverish week to turn around the kit we deployed to Germany for exercise Rhino Spear. This saw the DEWCC staff being exercised with 1 (UK) Armd Div and the TCAD crew provided the LOCON cell and the Gyros re-supply team. Back in the UK and after another week break the Squadron deployed to Sennybridge for it's annual battle camp.

Cpl Bastin (Int Corps) and LCpl Thompson (R. SIGNALS) lead the way in the Assault Course Competition

Assault Course Competition

Uncharacteristic weather made for Carribean conditions on the area; and the most evil midges known to the natural world. Somewhere along the way we managed to fit in RSITT and now the Squadron are in the midst of their well earned maximum leave.

640 TROOP
Tp Comd **Capt Quinsey**
Tp SSgt **SSgt Flaherty**

It has been a relatively quiet period due to the fact that the vehicle transfer programme is still ongoing. However, there is a light at the end of the tunnel with the two Wildcat Detachments arriving back in the Troop., looking very shiny and impressive. The troop deployed on Ex Eagles Strike with the Sqn to Stranraer that proved to be an uneventful but very long drive. The exercise passed uneventfully except for being eaten alive by the Scottish wildlife! There are also four members of the Troop deployed on Op Basilica in Sierra Leone – **Q** 'Nige' **Watton Sgt Dave Scanlan, LCpl** 'The Boy' **Cranswick, Cpl Steve Frost** and **Cpl Andy Nichols** who was on the first deployment and has since returned.

HELLOS, GOODBYES AND CONGRATULATIONS

Hello to our new Troop Commander, **Capt Quinsey**, his wife **Teresa** and the new Troop mascot 'Clyde', **SSgt Clements** and his wife **Tracy-Ann**. Also hello to **Sigs Pete Evans, Chris Wilson** and **Dave Stevens** who were posted in straight from the factory. We say goodbye to **Capt White, Sig** 'Woody' **Woodrow** (on promotion) who is posted to 21 Sig Regt (AS) and **Sig Mark Watson** on betraying us to join the LEWT. We say congratulations to **LCpls Steve Frost** and **Glen Roberts** on their promotions to Corporal. Also to **Sig Marcus Taylor** on his marriage to **Zoe**.

XVI 16 SIGNAL REGIMENT

A report from one of the Regiment's outposts (soon to be our new home!).....

VISIT BY THE MASTER OF SIGNALS
MAJ GEN I. O. J. SPRACKLING OBE - 13 JULY 2000

On 13 July the Regiment was delighted to welcome The Master of Signals, **Maj Gen I. O. J. Sprackling OBE**, during his recent visit to Germany. Although time was short The Master spent an enjoyable morning visiting 252 Sig Sqn in the 'big house' and 230 Sig Sqn.

Chief Tech Taylor, RAF, explains to the Master what really goes on in SCP(R), looking on (L-R): Maj Brian Greenwood, SSgt (FofS) Campbell and Capt Graham Blondell

SSgt (SQMS) Ward doesn't believe a word of it! Neither does SSgt Marshall whilst Lt Simon Gladwin is still thinking about it!

Prior to lunch with the Officers, The Master kindly presented LS&GC Medals to **WO2 (SSM) Hood** - 230 Sig Sqn and **Sgt Deegan** - Bruggen Troops.

The Master, medal recipients and their families also the CO, Lt Col Tony Morphet and WO1 (RSM) Fradley

BRUGGEN TROOPS
Tp Comd **Capt Sarah Stonier**
Tp SSgt **SSgt Gaz Tinsley**
Line SSgt **SSgt** 'Jonah' **Jones**

LIFE AT BRUGGEN

RAF Bruggen, situated on the Dutch/German border and home to some 6000 service men and families, is also home to a small but growing number of Royal Signals soldiers.

Bruggen Troops is part of 252 Signal Squadron, 16 Signal Regiment and is responsible for communications infrastructure at RAF Bruggen and close support of communications systems employed by the RAF. The Troop consists of 80+ soldiers, mainly Telemechs with Technical, Stores and MT/LAD support. The Telemechs not only support the RAF Bruggen infrastructure but are also deployed through out the world to places such as Kosovo, Bosnia, Falklands and Ascension Islands as well as providing support to exercises in Germany and Corsica. With the Regiment moving from Rheindahlen to Bruggen in 2002 the Troop has become involved in the planned tear down of RAF facilities and the introduction of Army facilities.

Life at Bruggen can be good and the facilities provided by the 'boys in blue' are second to none. However, life is extremely busy. On average each soldier in the Troop will complete two detachments in a year ranging from 2–6 months duration, to any of the theatres above. Needless to say, juggling career courses, leave and deployments gives the Troop hierarchy a bit of a headache!

HELLO, GOODBYE & CONGRATULATIONS

Welcome to the following:
Capt Sarah Stonier
Cpl Andy Fisher
Sig 'Spotty' **Spotswood**
Sig Gaz Fuins
Sig Andy Stewart

Goodbye to:
Sig Jim 'Crazy' **Lawrence**

Congratulations to:
Sgt Ralph 'Greengrass' **Deegan** on his selection for promotion to SSgt and LS&GC.
Cpl Carr - on passing RSJCC.
Cpl Maher - on passing RSJCC and getting married – phew!
Cpl Dave Cascarino - on selection for promotion to Sergeant.

SPORT

On the sporting front the Troop has, whenever possible, fielded teams in both the RAF Bruggen Station Commander's Cup and the Leicester Trophy run by the Regiment. Congratulations to all who have 'donned armour' to do battle with the 'blue jobs' in Bruggen and to those who try to show the rest of Regiment that the Troop really does exist! Congratulations to **Sig Sean Peart** on competing for the Combined Services in the swimming pool and commiserations to **LCpl** 'Parsley' **Farrow, LCpl** 'Devo' **Figel, Sig** 'Mongo' **McFaul** and **Sig** 'Onion' **Ennion** for getting their 'mugs' in every national newspaper and glossy magazine during the England / Portugal Game in Euro 2000.

ENTERTAINMENT

Now we know the Troop works hard, plays hard and, as you would expect, we like to party hard. Every Friday night the Troop bar is filled with laughter and much bell ringing as certificate and medal recipients show their delight by buying the beers, followed by the clanging of the bell for those who have screwed up or been noticed during the week. Further to this merriment we have had a few function nights in the bar including a highly successful 'Who wants to be a Millionaire?' night set up by **Cpl Stu Shaw** and **LCpl** 'Devo' **Figel**. No one won anything but isn't that the point of the game?

FINAL THOUGHT

See you all in Bruggen in 2002. Meanwhile back at the ranch....

SUPPORT TROOP 230 SIGNAL SQUADRON
Tp Comd **Lt** 'Beccy' **Knightly Brown**
Tp SSgt **SSgt McNeill**

Life in Support Tp will be a quieter place with the departure of **Sgt** 'Chalky' **White** to 1 ADSR. After all, it was **Sgt** 'Vertically Challenged' **White** who introduced the charming square of pink carpet to the office, which has really done wonders in collecting dirt! The Troop's recent camping experience was Ex Arrcade Falcon where we duly impressed two potential officers who were glad to escape to Rowallen Company for a rest. Will we ever see them again? Somehow, on the biggest exercise of the year **Sgt** 'Chalky' **White** managed to put himself on a golf course and **SSgt McNeill** was otherwise engaged (but at least he can sit down now). In between our camping experiences the Troop managed to participate enthusiastically in the final Leicester Trophy events, coming a glorious last in the endurance competition but managed to swim into a respectable third place overall. Thank you **Sig Smithson** for your attempt at the Butterfly – every effort counts!

TN 016 230 SIGNAL SQUADRON
Tp Comd **Lt O. Dinnis**
Tp SSgt **SSgt D. Coleman**

There have been a few additions and departures in the last few months. We have said goodbye to **LCpl Danny** 'Two Bikes' **Jones**, who left for the promise of a helicopter ride in Colchester after his Class 1 - Good Luck. Also gone are **Cpl Euan** 'Mr Tolerance' **Cowie** on temporary attachment in Bosnia, **Sig** 'Linford Christie' **Kinzett** on transfer to Kowloon Tp, following in the footsteps of **LCpl Del** 'Cow Head' **Hunter. LCpl Gaz** 'No I'm Not' **Jack** left on an inter-troop posting and soon to be heading across the water is **Cpl Billie** 'The Fish' **Beaumont** currently having a BLAST. We have welcomed **Sig** 'Keen and Green' **Briscoe, Sig** 'Bog Brush' **Nowell, Cpl** 'Dodgy Number Plates' **Simpson, Cpl** 'No I can't speak German' **Tyrrell, Sgt Dave** 'Fresh from Rehab' **Taylor** and, last but not least, **Sgt Dean** 'I've been here eight months and still haven't been in the Wire' **Wilkinson.**

BATTLEFIELD TOUR TO EBEN EMAEL - *by Lt O. Dinnis*

With a little 'direction' from the CO the Subalterns of 230 Sig Sqn organised an Officers and Warrant Officers Battlefield Tour of the Belgian Fortress at Eben Emael. The visit started with a quick presentation by **Lt Simon** 'Russian Mafia Jacket' **Gladwin** and **Lt Rebecca** 'Crikey' **Knightly-Brown.** For the uninitiated the action at Eben Emael was the prelude to the German invasion of Western Europe in 1940 - 80 odd German paratroopers neutralised the strongest fortress in Europe manned by 700 Gunners. Not bad! The fort was supposed to destroy the approaches into Belgium but failed and allowed the Wehrmacht to catch the Allies unprepared and push them back to Dunkirk. Thanks to **Maj Jonathan** 'Desk Jockey' **Turner** for pinging us with that. The group travelled to the area in undisguised luxury and after studying the ground, settled down for lunch at a local hostelry. In the afternoon the tour around the fort was conducted by a local Belgian Guide – essential for navigating around the miles of interior tunnels! Lessons learnt included: all round defence includes looking up, line doesn't survive bombing, never stand in front of a locked door and never trust the enemy to do what you expect!

ANOTHER FAREWELL

230 Sig Sqn would like to take this opportunity to pass on its best wishes to **Capt Glynn** 'Bouncing' **Buxton**. Following a high-speed attempt to get close to nature at the DZ **Glynn** has been hospitalised for some time now. His replacement, **Capt Gareth Oliver** has arrived from across the water so we also say goodbye to **Capt** (Finally!) **Nigel** 'Three times the charm' **Frances-Megann** who has squeezed into **Glynn's** shoes in the meantime. The award for the most tactless comment about **Glynn's** accident goes to **SSgt (SQMS)** 'BAS' **Ward**. His request to the pilot of the helicopter that arrived to scrape **Glynn** off the DZ and take him to hospital went along the lines of, 'Wait a couple of minutes whilst we repack our rigs so we can hitch a ride up to 5000ft.' The latest we hear is that the recovery is going well - Good Luck **Glynn**!

If responding to any advertisements in *The WIRE* please mention that you saw it in your Corps magazine

!STOLEN!

Alarge quantity of bronzes and porcelain were stolen from a private residence in Cambridge on 13 July 2000. Amongst the items stolen was a pair of bronze figures depicting Mercury and Iris. Signed Bologna. Could be copies by the Italian master Giovanni Bologna. If anybody has any information they are asked to contact Robin Mortimer at Cambridge Police Station on 01223 823710 quoting reference 40722/00

21 SIGNAL REGIMENT (AIR SUPPORT)

CO **Lt Col Peter Gillespie**
RSM **WO1 (RSM) Al Jenkins**

MEDAL PRESENTATIONS

In July, we were pleased to invite the Deputy Commander Joint Helicopter Command **Brig Gary Coward OBE** to present operational, LS&GC and Accumulated Campaign Service Medals. During a short (but perfectly formed) parade, Kosovo medals were awarded to over 30 members of the Regiment. In addition, **Cpl Paul Selby** was awarded his NATO (FRY) medal and **LCpl Jason 'Clem' Clements** was awarded his Kosovo Commendation. Afterwards in the WO's & Sgt's Mess, LS & GC medals were awarded to **WO2 (RQMS) Nige Roberts**, **Sgt Chris Gearing** and **Cpl Paul Selby** and Accumulated Campaign Service Medals were awarded to **Maj Jim Forrest** and **Sgt Ian 'Billy' Belshaw**. As if **Cpl Selby** had not had enough chocolate frogs for one day, **Brig Coward** finally announced that he was incorrectly dressed and presented him his third tape … congratulations **Sergeant Paul Selby**!!

The photo shows Brig Coward presenting medals to the front row
(L-R): Sig Reeve, LCpl Smith, Sig Steele, Sgt Clayton-Batty, Sig Horne, Cpl Grice, Cpl Richardson, Sig Sutherland, Sig Perks, Sig Tidball, Sgt Ward, Sig Watt. Holding post at the front of the parade - SSgt Gilbert.

PHOTOGRAPHS

Please do not ask for photographs sent for publication in **The WIRE** to be returned, unless they are really irreplaceable.

Contributors should be aware of the fact that although every care is taken with contributions, they should not risk losing photographs which cannot be replaced.

Contributors should also be aware that unless digital photos are saved to disk at a minimum of 300 dpi mono and 400dpi coloured, they will not be used.

HEADQUARTERS SQUADRON

Sqn Comd **Maj Chas Dale**
SSM **WO2 (SSM) Nick Organ**

The Squadron has had (another) busy time lately (*Oh, come off it HQ Sqn, according to The WIRE,* everyone has a busy time! 'Think of something new to say', says the Regt 2IC). The normal routine in barracks is a mega-Board of Officers, Regimental Open-Day and Adventure Training. The OC, **Maj Chas Dale** and **WO2 (SSM) Nick Organ** were heavily involved in the Open Day and a lot of work and late nights went into ensuring that the event ran smoothly. There was a large turnout from the local community and the day was a great success due the hard work of all involved.

Maj Chas Dale
remains optimistic despite the growing storm clouds behind
'Café 21'

Adventure Training was held at Halton Camp in Lancashire. Some good quality training and 'FUN' was had by all. Most personnel who attended managed to complete the '3 Peaks Walk' over Whernside, Pen-y-Ghent and Inglebrough – 25 miles over three peaks above 600m is a quality day on the mountains! Other activities included climbing, caving, canoeing and mountain biking, as well as cultural trips into Lancaster – museums open until three in the morning oop north, honest!

The CO, Lt Col Peter Gillespie takes a side-seat as Cpl Eskdale holds up the cairn on Pen-y-Ghent

TECHNICAL MAINTENANCE TROOP

Tech Adjt **Capt Lee Wookey**
Tp SSgt **SSgt Spence Ord**

As usual, the past few months have been quite hectic (*Oh no! says the Regt 2IC*). The Regimental Open Day on 7 July took up much time with preparation and rehearsals for the 'It's a Knock Out' competition. The so-called 'dry run' was at no-time dry, especially afterwards (cheers **SSgt (SQMS) Paul Coates**).

SSgt Dave Wilson looks on as the 43 (Wx) Sig Sqn (V) team tackle the 'Wet B'ball' game. What's the 'B' stand for?!!

The main event recently for the Troop was the Adventure Training package, which was set up by **WO2 (SSM) Nick Organ** and **Capt Dave Whitaker**. Everyone who went did enjoy the week away with a few noticeable performances from **Cpl Rob** 'The Tears' **Murray** who couldn't work out if his harness was too tight or whether he was just enjoying himself too much! **Cpl Bobby Sands**, who enjoyed the isolation of the Yorkshire Dales that much that he decided it was too much to deface the natural beauty by keeping his clothes on! **Sgts Billy Belshaw** and **Chris Gearing** on showing everyone how good admin is carried out by SNCOs … Oh no, I've got that bit completely wrong! Not forgetting **SSgt Dave** 'George Doors' **Wilson** in his new appointment as Surplus to Requirement, had hours of fun in the thermal suit provided for the potholing. His CV is in the post for a new show of Shooting Stars. **Sgt Ian** 'Big Bergen' **Smith** was one of the UEL's for the walking. His group knows the real meaning of UEL … Un-Excusably Lost! Also, was **Sgt Chris Gearing** really that scared of canoeing or did the mini-bus really run out of fuel? All in all, the week spent Oop North was thoroughly enjoyed by everyone who went, especially the evening entertainment laid on in Lancaster. A big thanks goes out to **WO2 (SSM) Nick** 'Recce master' **Organ** and **Capt Dave** 'Abseil King' **Whitaker**.

There have been a few new arrivals to the Troop — the main contribution being from the Regimental Tele Mechs — we have them all under the watchful eye of **Cpl Pete Richanjs**. A huge 'well done' must go out to **Sig Russ** 'Sniper' **Russell** who has now passed his APWT prior to UNTAT training. You see it's not that hard! Also newly arrived to the troop is **LCpl Stay Angelidi** from the factory and also **SSgt Spence Ord** and family from Germany. **LCpl** 'Jonno' **Johnson** and **Cpl Keith Gilbert** also join the troop from 220 Sig Sqn, posted into the ISM Team (that now makes up the Troop 4 Ball!!) Naturally with all these hello's there is a few goodbyes. Firstly to **Cpl** 'Bobby' **Sands** who has gone to Civ Div after ten years service. Good luck in Spain and get those sideboards down! **Chris Gearing** who is the Troop RLC weasel, posted to Germany. His valiant efforts over the last three years have not gone unnoticed - cheers for your jokes - also to **LCpl Percy Purcell** who has left us to join 244 Sig Sqn. This now means he will have to get up half an hour earlier to get to work on time.

Finally, the Troop wishes to send a huge congratulations to **WOI (FofS) Ady Knight** on being selected for Commissioning. The big question is will you still be home in time for tea and medals?

MOTOR TRANSPORT DEPARTMENT

MTO **Capt Pete Griffiths**
MT Sgt **Sgt** 'Mac' **MacDonald**

August and September has seen the arrival and departure of a number of MT personnel. Firstly, we would like to say wellcome to the new MTWO, **WO2 Chalkie White** and his wife **Jackie** and family, all the way from 1 Div – how pleased we are to see them all. Welcome, also, to **Cpls Knight** and **Jay**, **LCpls Mankin** and **Russell**, all newly posted in and **Sigs Coxon** and **Laurenson** who have been inter-Squadron posted from 220 and 244 Sig Sqns – welcome to the better world! Farewells to **Cpl Andy Doyle** who is off to Bassingbourn, **Cpl Berry** and family off to Aldershot, **LCpl Berry** off to 220 Sig Sqn and **Sigs Singlewood** and **Watt**, both off to Civ Div. Good luck in the future!

QUARTERMASTER'S (GENERAL) DEPARTMENT

QM (Gen) **Maj Tom Dean**
RQMS(Gen) **WO2 (RQMS) Nige Roberts**

The QM (Gen) Dept has had, for the second Wire running, a number of changes to our vast military staff. First of all congratulations on two counts to **Sig Emma O'Neill,** both on her recent promotion to LCpl and also on the addition to her family, a son called **Sean**. Welcome to the Department to both **Cpl Mark Brown** and **Sig Glen Gibbs**, who joined us from QM (Tech) Dept. Both of them have hit the ground running, becoming immediately involved in the Regimental Board of Officers. They are now both able to impress their friends and families by explaining the difference between the types of tables and chairs spread about the Regiment, the winter nights will just fly by lads!

220 SIGNAL SQUADRON

Sqn Comd **Maj Jim Forrest**
SSM **WO2 (SSM) Dave Giles**

It has been a hectic three months for this Squadron but there is finally light at the end of the tunnel. The repercussions of the Regimental Board of Officers and the second squadron move in under six months has tested the resourcefulness and patience of all ranks. Nevertheless, we are now in an asbestos free and watertight hangar and, with completion of the works services in August, we will finally have a working environment, which fulfils the Squadron's needs. The Squadron continues to be busy providing assets to the Joint Helicopter Command and has deployed assets to Mozambique and Sierra Leone. The future is busy with commitments to Ex Iron Hawk in Canada and the preparation and training packages required for the approaching MAPPS equipment trial being conducted by this squadron. The closedown of the SH Force Signal Troop in Split continues to free up much needed manpower from what has been five years of commitment to Op Palatine.

SQUADRON HEADQUARTERS

Well it has been a busy couple of months for all of us at SHQ, especially for **WO2 (FofS) Allie Duncan** ('post me another leave app. Oh yeah! Send it c/o the golf course'). All have been very busy moving up to our new hangar and moving lamp posts to the middle of the street much to the annoyance of the OC Sqn. Despite the hectic timetable of most **LCpl Dave** 'Bob' **Heath** who has tried to convince everyone he has been working hard down at Bath University with the British Bobsleigh Team in preparation for the forthcoming season. Possibly an Olympic hopeful, we'll keep our fingers crossed, as I am sure he will. Congratulations to **Rory** and **Emma O'Neill** for their bundle of joy, **Sean Kieran**, sleep tight you two! Also to **Sgt,** yes **Sgt, Dave Clayton-Batty** and **Cpl** 'Claymore' **Clement** on their promotions. It is also welcome to **LCpl Jim** 'Essex' **Nye**, **LCpl Peter Piper** and the new Yo! Man, **WO2 (YofS) Bentley**. Cheerio and good luck to **Matty Lee** who is down in Blandford on his Class 1 - shouldn't be gone for long now. Finally all the best to **Nikki Ryan** off to Civvy Street after doing some rather strenuous fast learning at the Motor Cycle Training Centre – well that's what they told me it stood for!

CHARLIE TROOP

Tp Comd **2Lt Murray Macdonald**
Tp SSgt **SSgt Russ Ezard**

After what seemed like an eternity, C Tp joined the rest of the Squadron in the move from the 'Black Hole of Doom' (Old Hangar) to a rather nice ex-Navy hangar on the other side of Camp. This has been a big morale boost and now vehicles can be worked on without the need for big-softy jackets and torches.

The Spearhead MAOT deployed on Op Palliser in May and spent some quality time being used as a taxi around Lunghi Airport. All those that deployed – **LCpl Pearson**, **Sig** 'Chris' **Reeve** and eventually **Sgt** 'Si' **Oldman** - seemed to have a good time and came back complete with suntan and without Malaria. Op Palatine is ongoing and has seen a number of the Troop deploying and returning from Split, again with the

obligatory suntan along with armfuls of CDs and Duty Free. The exercise program has been limited for most of the Troop due to 'The Biggest Board of Officers in the World…Ever!', but has still managed to deploy on Ex Eagles Flight and Ex Eagles Strike (with 16 AA Bde), Ex Scorpion Strike (Sqn Battle Camp) and Ex Red Scorpion, to name but a few. Most of the Squadron are looking forward to deploying on Ex Iron Hawk in Canada and elements of the Troop will be off on Ex Arrcade Fusion in September.

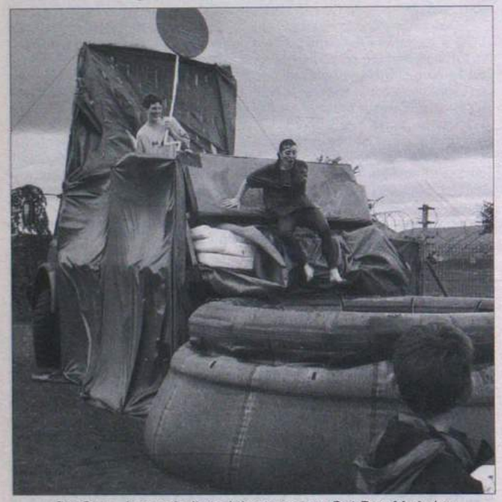
A week of quality adventure training was conducted at the end of May in Barnstaple. The Troop had an excellent time walking, climbing, canoeing and, of course, the drinking of some cups of beer. The week's experiences left **2Lt** 'Jez' **Wadia** with nightmares about a bright yellow canoe (how strange), which still haunt him now on his Tp Comds Course.

A few welcomes to the Troop: **LCpl Steve Riste** and **LCpl Nathan Eldridge**, who both came to us from NI. **LCpl Dave Mears**, fresh from his Class 1, **LCpl Dave** 'I wanna be the Unit Fire Officer' **Horton**, from 16 AA Bde, **Sgt Daz Kidd** from ATR Bassingbourn and **Sgt Matt** 'Never Stops Talking' **McDonald** from 3RHA. A few goodbyes: **LCpl Stu** 'Jonno' **Johnston**, off to the ISM Team to skive before heading off to Civvy Street, **LCpl Graeme** 'London' **Antrobus** and **Sig Lee Davison**, both off to cultivate their sideys in NI. Goodbye also to **2Lt Mike** 'Can't Say No to a Drink' **Barnes**, off to university in Nottingham after a short stint with the Regiment. Also **LCpl Pearson**, who almost left the Army whilst still in Sierra Leone and **Cpl** 'Reg' **Holdsworth**, who is off to work for Motorola and start a new life. Many thanks to all of you for all the hard work you put in to the Troop.

DELTA TROOP

Tp Comd	**Lt Sarah Irwin**
Tp SSgt	**SSgt Mark Gilbert**

June was far from ideal, with the Troop in the middle of a Board of Officers and carrying out the second hanger move in six months. Eventually life got less turbulent and the Troop soon established itself in the new hanger. Several members of the troop took off on 'Op Signet' – a month rambling in the Canadian Rockies, whilst the remainder stayed to keep the home fires burning. The Troop was responsible for running the dunk tank for the Regimental Open Day with superb performances from **Sigs** 'Dunkum' **Tidball** and **Suzy** 'Ball Fetcher' **James**. **Cpl** 'Gilly' **Gilbert** was responsible for the flow of chilled beer and fleecing the civvies for a good cause. **Sgt Aidy Watts** put in a very brief appearance but vanished once splashed. £125 made and a good day had by all!



Sig Suzy James 'adjusts' the target as Sgt Bev McAuley tests the water ... again!!

As the Troop selected to conduct the MAPPS trial, it is all hands back to training to convert all troop members into Area Sys Ops. We welcome troop 'new boy' **LCpl John Sherwin** and his wife and congratulate him on his promotion, along with **Marcus Bailey**, promoted to Sergeant last month. Sad farewells are said to **Cpl** 'Gilly' **Gilbert** who went to work with HQ Sqn and **Sig Clara Rowlands** who moved to Civvy Street – well almost, Wales!

244 SIGNAL SQUADRON

Sqn Comd	**Maj David Bizley**
SSM	**WO2 (SSM) Paul Williams**

ALPHA TROOP AMF(L) - *by Sig Steve Beal*

Alpha Troop has enjoyed a busy summer period, with various exercises and activities. For the duration of May, the troop deployed to Hungary on Ex Ardent Ground. The Exercise went well and a good time was had by all! The hosts were very welcoming and we enjoyed the fruits of their country (cheap beer and pretty girls … *but not the boys*).

On returning from Hungary, the Regiment held an internal Board of Officers. Everyone was thrilled about this and times were hard … late nights and hard work. However, the Regiment is now once again, shipshape, and all counted! The month of July saw **Sig Matt** 'Simmo' **Simpson**, go away to Penhale in Cornwall with 19 Cd Trg Team, based at Colerne, on their mini-Battle Camp. Other members of the Troop, **Cpl Paul Annetts**, **LCpl** 'Boggy' **Marsh** and **Sig Rachel Riley** went to Longmoor and taught another cadet team comms skills. July also brought Wimbledon fortnight. **Sig Andy Day** attended as a steward and had a fantastic time. His most memorable moments were clearly dominated by the sheer excellence and technical supremacy of stance and technique of the players ... 'You should have seen **Anna Kornikova** when she's waiting to receive a serve!'

Colerne Activities Week and Regimental Open Day was a success, with over £300 raised. The Troop set up an arctic warfare demonstration stand displaying all the equipment used in extreme cold conditions. We also ran BV206 rides around our cross-country course, which was by far the most popular event of the day. The Royal Signals Recruiting Team were very impressed with our display and may use it for future demos. Recent changes to the Troop: we would like to welcome **SSgt Jack Hawkins** from 94 Sig Sqn, **Sgt** 'Sven' **Gronn** from 15 Sig Regt and **Sigs Albury**, **Hall**, **Smith** and **Addison** from the factory. Good-byes to **SSgt (now WO2) Daz Sheerin**, **Cpl** 'Olie' **Oliver**, **Cpl Nick Hill**, **LCpl** 'Boggy' **Marsh**, **LCpl Richardson**, **LCpl Phil** 'PHD' **Smith**, **Sig (LCpltobe) Andy Day** and **Sig Liesa Howson**.

The ongoing Op Agricola has seen, **Cpl Williams**, **LCpl Eltringham**, **LCpl Evans**, **Sigs Owens** and **Riley** deploy on four-month tours …see you at Christmas! Currently the Troop is preparing for Ex Adventure Exchange in Greece and we are all looking forward to this one as our suntans from Hungary are fading!

BRAVO TROOP

CCF TRAINING CAMP, LONGMOOR (7-22 July 2000)

Cpl 'Paul' **Annets**, **LCpl** 'Boggie' **Marsh**, **Sigs** 'Rachael' **Riley** and 'Daz' **McAlister** were sent to Longmoor Camp to teach the CCF some Basic Signalling Skills on their summer camp. The package involved the cadets learning how to operate a PRC 320 in a man-pack role using correct voice procedure. They were then shown how to erect a 5.4m mast and then in their sections had a race. The first to erect the mast won a prize. Each section was then sent on a patrol, which involved **Sig** 'Daz' **McAlister** being a special agent and the cadets were to use the PRC 320 to send messages back to HQ. The two weeks were much enjoyed by all and the Royal Rifle Volunteers appreciated the assistance given by the Regiment

EXERCISE EAGLES STRIKE (14- 22 July 2000)

Another success for the Regiment was Ex Eagles Strike up in Scotland. A lot of knowledge and experience was gained, especially by **Sigs** 'Stew' **Parsons**, 'Frank' **Reeves** and 'Damion' **Shepherd**, all have whom have recently arrived from Blandford and this was their first exercise. The exercise itself went pretty smoothly and the weather held out all week and the sun was shining for the first time in the history of Scotland! There is no dirt to be dished out after this exercise and, to my knowledge, everyone is squeaky clean ... hah! We returned to Colerne and completely turned round the wagons. By then, I think, everyone was ready for a good night out on the tiles.

SQUADRON ADVENTURE TRAINING - *by Sig Lea Snell*

Quite an eventful week was had by all at Fremington Camp, near Barnstable. They tried everything from rock climbing to water-skiing and plenty of socialising. Everyone seemed to have a good time except **LCpl** 'Si' **Lee**, who has only just realised that the sun burns – he ended up with 1st degree buns and massive blisters on his back. Nobody laughed … *much*! Then when it came to the aerial death slide (the name says it all). I don't think anyone was a willing volunteer, especially to hold the ropes when **Sig** 'Sadsack' **Sutherland** was bombing down the slide. He almost took out Fremington Camp and taking **Sig** 'Mat' **Simpson** with it. Overall a very enjoyable week and we'd like to say thanks to all the instructors and **WO2 (YofS)** 'Steve' **Firth** for giving up his time to pass on his wind surfing expertise.

20th NATIONAL VETERANS WHEELCHAIR GAMES JULY 2000 - SAN ANTONIO TEXAS

by WO2 (RQMS) Geordie Merrie

For several years I have been actively involved with the British Ex-Servicemen and Women's Wheelchair Sports Association (BEWSA), a charitable organisation with over 80 members, whose purpose is to rehabilitate disabled ex servicemen and women through sport. Over the past two years I have had the honour to be assistant team coach to **WO1 Eddie Larrard** RLC, preparing the Great Britain team for the 20th Paralysed Veterans Association Games to be held in San Antonio, Texas.

PHASE 1: PRE - TRAINING

Having lost our traditional training venue at RAF Cosford, I approached 21 Sig Regt (AS) and BEWSA was kindly afforded the use of all sports facilities within Azimghur Barracks and accommodation for both the athletes and able-bodied assistants. The scene was now set and all that remained was to conduct a recce of the camp. With **Mr Bob Currant**, the QM Department handyman, strapped into a wheelchair and me pushing, we set off around the Barracks to carry out a feasibility study on disabled accessibility. By early February 2000 the requisite wheelchair ramps had been installed and we were up and running (no pun intended). The first training weekend took place at Azimghur Barracks during March and, with the kind permission of **WO1 (RSM) Al Jenkins**, the athletes and able bodied assistants gathered in the Sergeants' Mess to discuss official BEWSA business under the chairman, **Mr Edwin Thomas** (ex Royal Navy). It had taken some time to persuade the Regimental QMSI **WO2 Gary Pither** APTC, that a 20-mile route march in full CEMO might not go down too well, and this was excluded. Even so, after the training programme was handed out, there were a number of spontaneous gasps and comments such as, 'What time is reveille?' and, 'We'll never accomplish this in two days!' We needed a drink – and did!

After an early call the athletes and assistants made their way to the gymnasium to participate in archery, basketball, discus, javelin, shooting, shot, swimming, table tennis, wheelchair slalom and a variety of track events. In the morning, both the disabled athletes and assistants played team games, culminating in water polo and, after a hearty lunch, the athletes were free to train at their own disciplines. At the end of day one, both athletes and assistants were looking forward to a relaxing evening. However, the training continued, as one of the disciplines at the Games was to be pool or 9-Ball, and everyone needed practice. Despite a late night, Sunday training started on time, although the warm up took longer! Training ended at midday, with some athletes having to travel as far as Northumberland. Early opinions indicated that the training weekend had been a great success and everyone was looking forward to the next – honestly! As one training weekend seemed to merge with another, the time for selection soon arrived, eventually, eleven athletes were selected to represent Great Britain, each to compete in five disciplines:

Mr Jack Brooks	Royal Navy
Mr James Conway	Army – Guards
Mr Michael Marten	Royal Navy
Mr Robert Cox	Army – Cheshire Regt
Mr Andrew McErlean	Army – REME
Mr Stuart Harley	Army – R Anglian
Mrs Margaret Mitchell	Army – UDR
Mr Paul Jackson	Army – Guards
Mr Richard Simmons	Army – RE
Mr John Liddie	Royal Marines
Mr Edwin Thomas	Royal Navy

THE TEAM

The able bodied assistants to selected to accompany the athletes were WO1 Eddie Larrard RLC (Team Coach), WO2 (RQMS) 'Geordie' Merrie, Mr Brian Mitchell, Mr Albert Mack, Mrs Marilyn Thomas, Mrs Pauline Simmons, Miss Joy Grindley and Capt Stuart Davies RAMC. Next Stop: TEXAS!

PHASE 2: THE GAMES

Spirits were high as we gathered at Gatwick on 1 July 2000. The task of getting eleven athletes, wheelchairs and sports wheelchairs, baggage and equipment through the check-in was exhausting. Eventually everyone settled back to enjoy the flight. At Houston we were met by a charming young lady, **Stacey Toomey** of Continental Air Lines, who was a model of efficiency as she smoothed our passage through customs and onto the final leg of the journey. Our reception at San Antonio, organised by the wonderful **Shirley Bailey**, was heralded by a band of pipes and drums along with members of the local British Ex-Patriot Sports Club of San Antonio (who attended the Games and gave fantastic support to all of the British athletes). We were transported to our hotel and, after settling in, decided to go to the local Hooters diner (where girls, shorts and big hooters were in abundance) – no, there are no photos!

The next day, the Team visited Sea World, organised by the San Antonio Sports Club. **John Liddie, Jacko, Andrew** and **Stu** experienced the Steel Eel Roller Coaster and Great White (loop the loop) while **Mike Martin** settled for a ride on the Log Chute. The following morning, the Team registered and spent the day preparing equipment before attending the opening ceremony that evening - let the Games begin.

Size matters!

Five long days of fierce competition followed, as the athletes competed in each of their five disciplines. The organisation was superb: transport, feeding arrangements and the events themselves rolled on like a well-oiled machine. From the outset the Team started to win medals and, by day three, was in double figures.

Mr Mike Martin at the start of the 5km Road Race

Mr Andrew McErleanon his way to winning a silver medal

I would have included a few words about every individual's achievements during the Games but, instead, have settled for one to cover all OUTSTANDING. Two events do, however, deserve a special mention. The team of six athletes in shooting won four gold, one silver and one bronze in the four categories, a tremendous achievement. Secondly, in basketball, although **John Liddies'** team just missed out on a medal, **Jacko's** team battled through to the final. This match drew the biggest crowd of the Games and, taking **Jacko** to their hearts, every time he got the ball the stadium resounded to cries of **'Jacko, Jacko'**. It was, perhaps, fitting that he scored the winning basket to secure the gold medal.

The Team finally accumulated a massive 19 gold, 14 silver and 9 bronze medals, a wonderful achievement.

PHASE 3: THE CELEBRATIONS

By the end of the Games, the Team had gained celebrity status for their late evening training sessions at Hooters and was well prepared, therefore, for the official closing ceremony and banquet, held in the Marriot River Centre Hotel. Beginning with pre-dinner cocktails, the tables were lavishly decked and a cowboy boot, full of flowers, stood as the centrepiece. At this time, I should like to quash any rumours that I have since been seen with table decorations on my feet. It was also pure coincidence that the Mess Summer Ball was a wild-west night; furthermore, I only bought the Stetson hat because it was reduced in the sales! The evening culminated in the official handover of the Games' torch to the New York Branch of the Veterans Association. New York 2001, here we come!

It was not just hard work and no play. There was ample time for sightseeing and most managed a visit to the Alamo. The San Antonio Riverwalk is an experience to be long remembered: it never closes and the nightlife has to be seen to be believed. **John Liddie** showed a hidden talent for karaoke, **Stuart** gained Army colours for lager tasting and **Mike Marten** is reputed to have eaten 100 chicken wings in a single sitting. **Jacko** probably has the most expensive shark tattoo in the world and **Andrew** definitely suffers from sleeping sickness! **Edwin** and **Richard** managed to go shopping every day and 'Scouse' **Eddie** carried out more deals than Arthur Daley did. I spent all my spare time reading by the pool – honestly!

Words fail to describe the emotion as the disabled athletes wheeled themselves onto the podium to collect their medals, or to witness the support they gave each other. They are amazing people and it has been a privilege to witness the blood, sweat and sometimes tears of frustration spilled throughout the training and during the Games themselves. If anyone reading this article is interested in sharing in the experience of helping disabled Ex Service Men and Women, please contact **WO2 (RQMS) Keith Merrie** on Colerne Military, Extension 5207 (Civilian Telephone: 01225 745207).

Jacko's victory smile after winning gold at Basketball

30 SIGNAL REGIMENT

SUPPORT SQUADRON

Sqn Comd	**Maj R. H. Gladwin**
SSM	**WO2 (SSM) Young**

REGIMENTAL MOTOR TRANSPORT

MTO	**Capt Johnson**
MT SSgt	**SSgt Nanda**

There have been many changes over the last month or so with Regt MT. An influx of Driver Electricians has joined us to form a Regimental Generator Servicing Bay, the Regimental Open Day took place, and we said farewell to one of our old boys who moves on to pastures new. Firstly we'd like to welcome **Cpl** 'VVVVern' **Critchley** who has joined us from Colchester. Hope you and your family has settled in OK without any problems. Also welcome to the Gene bay lads. **SSgt Narbir Locksom, LCpls** 'Trots' **Trotman, Kamal Rai**, and 'Sly' **Moine** (attached). Also joining us are **Sigs Min Gurung, Price** and 'Off to Canada already – good here in the MT' **Bradstreet**. Don't worry **Brad**, we'll get you for duty driver yet. Welcome lads, and don't forget your Troop funds. Sadly we say farewell to **SSgt** 'Taff' **Smith** and his family, who depart for 14 Sig Regt in his homeland of Wales. As is the norm for the MT, we had an informal 'dining out' for 'Taff' and his family at a local eatery, which was well attended, such is the popularity of 'Taff'. Good luck in the future, and take care of yourself. For a change, the MT has some promotions to report. Congratulations to **SSgt Narbir Locksom** and **LCpl Chau** on recent promotions which are both well deserved.

Ex Arrcade Falcon deployed to Germany on 10 July, with three members of Troop attached to 35 Sig Regt (V). **Cpl** 'Puggy' **Pugh** and **Sig Niel Grainger** had seen most of this sort of stuff before, but it was all new to **Sig** 'Brummie' **Hurl**. Bad enough working with the TA for the first time – his words not ours – but on a trunk node for the first time as well, it was a good experience for young 'Brum'. Not so good if he'd missed the Euro 2000 games though. Thankfully for the TA, he didn't miss any of the games.

Open Day fever hit Bramcote earlier this month, with the MT doing their bit as NCP Car Park attendants. As the clouds gathered, and the heavens opened, we thought there wouldn't be much traffic. How wrong we were, as thousands poured through the gates. A lot of effort had gone into the logistics of parking so many in such a small place, and **Cpl** 'Puggy' **Pugh** and his team worked tirelessly all week in preparation for the event. Yet again, another outstanding job was done by the lads who deserved their sports afternoon the following Wednesday !

QUARTERMASTERS' (TECHNICAL) DEPARTMENT

As ever the Department is busy as a busy thing, but we have made the time to greet our latest batch of new arrivals. Welcome to **Sigs** 'Caz' **Burgess** and 'Nat' **Whelan**, who together bring some welcome glamour to the department. Congratulations to **Cpl** 'Swerve' **Ovenden** who, together with his wife **Liz**, have their own new arrival in their baby, **Katie**. We must not miss this opportunity to greet our lads currently on Ops - **Sigs** 'Spud' **Williams**, 'Gaz' **Green** and 'Scouse' **Jones** in the sunny Balkans and **LCpl** 'Frankie' **Frankel** in even sunnier Sierra Leone. Hurry back boys, your in trays are putting a strain on your desks.

BRAMCOTE OPEN DAY

The Bramcote Open Day took place this year on a cool and showery 9 July, which was the major contributory factor in a reduced attendance this year. However the paucity of available major military players, caused by their attendance over the same weekend at the Millennium Tattoo on Horse Guards Parade, may have had some influence. Despite the weather and the lack of military participation the day went rather well and a considerable sum was raised for charities, one of which was the Mayor of Nuneaton and Bedworth's personal choice of the regional air ambulance appeal.

The CO, Lt Col Mike Lithgow MBE supervising the presentation of a cheque for £1000, to Her Worship The Mayor - Cllr Diana Hawkes and her consort Brian Hawkes, by Cpl 'Freddie' Star whilst the Town Crier adds colour to the occasion

The absence of the major military attractions meant that the entertainment had to be provided by the Regiment and local units. All Squadrons were required to provide stalls, which gave the occasion something of the air of a village fete, but they were all well received and contributed a great deal to the atmosphere and no small sum to the overall pot. Particularly well received was the display of Gurkha dancing by members of 250 GSS and their dependent children superbly described on by **Sgt Surje.**

2Lt Blaydon Morris and **Sgt Dan Burdus** choreographed an outstanding military display of a defensive communications site coming under attack from an insurgent force. This was enthusiastically acted out by **Cpl** 'Freddie' **Starr** and his band of **LCpl Bijay** and **Sigs Stewart Welton, Thomas Beerling, Stuart Hemmings, David Thwaites, Craig Wilkinson, Adam Langton, James Hewson** and **Kishnan.** Their performance was the highlight of the event and so impressed the CO that it is to become a permanent feature for future events, much to the consternation of the QM (T), **Capt Dougy Wright** who has to work out where to get the blank and pyro from. Well done to all involved.

One attraction, which went down extremely well, was the Tug-of-War competition staged between the Warwickshire & West Midlands Army Cadet Force, The Hinckley Sea Cadets, 121 Squadron Air Training Corps and 198 Squadron Air Training Corps. The competition, ably organised by **LCpl Mase Mason**, resulted in an excellent win for 121 Sqn Air Trg Corps, who can be seen below receiving their medals from the CO, **Lt Col Mike Lithgow MBE** and **LCpl** 'Mase' **Mason**.

121 Squadron Air Training Corps receiving their medals from the CO, Lt Col Mike Lithgow MBE and LCpl 'Mase. Mason

EXERCISE ARCADE FALCON 26 MAY- 30 JUNE 2000

Ex Arcade Falcon was designed as a Communications exercise connecting headquarters in Spain, Italy and Germany, using a Ptarmigan setup over a VSC 501 satcom link. Members of various units predominantly from 30 Sig Regt, 7 and 16 Sig Regts, 249 Sig Sqn and 33, 34, 35 and 40 (V) Sig Regts participated. The 30 Sig Regt and 249 Sig Sqn contingents set out from Gamecock Barracks near Coventry at about 0100hrs in the morning. We were slow to start as sleep was a greater priority on most minds at that unfamiliar hour of the day, especially for **LCpl** 'Ig' **Igboebisiokwu** who was unfortunately withdrawn from his leave hours before to provide technical cover for 501 Brown, after a large number of our 501 trained technicians had hurriedly deployed to Sierra Leone.

The convoy arrived at Harwich at about 0800hrs, after a ludicrous drive around Colchester to find the POL point, ready for our ferry crossing to the Hook of Holland, which occurred without incident. After arriving in Holland the immediate challenge for everybody was to get used to driving on the other side of the road before starting our exhilarating drive through Holland and Germany at a top speed of 40mph. We arrived at Krefeld, where we were to be hosted by 7 Sig Regt, at about 2300hrs, just in time to experience the delights of Krefeld's nightlife, which we took advantage of over the weekend before the exercise got under way.

The next two weeks were set aside for 'Plugging up' and checking our equipment ready to move on to check that the Ptarmigan interfaces worked over the Satellite link.

The 249 detachment were staying with 16 Regt in Rheindalen, where they were 'volunteered' for a unit exercise that had been scheduled to start coincidentally for two weeks before our exercise was due to start. This led to 249 Sqn's 501 Brown spending two 'relaxed' weeks on Sennelager ranges on a fully tactical exercise prior to deploying on Arcade Falcon. As you can imagine this won everybody's vote. However, at the weekend, they were fortunate enough to make it to the Rhine Army Summer Show (RASS), which was only a short walk from their setup. The 30 Sig Regt contingent set out with 7 Sig Regt to Spain on 11 June in time to arrive on the 14th without missing too much Euro 2000 action. The first day of our long convoy to Madrid was uneventful stopping at many service stations along the way to top up on Baguettes at every opportunity. We stayed the night at a French Army barracks in a small town near Orleans in Northern France, used for recruiting French soldiers. Breakfast was skipped in the French cookhouse in favour of another ten minutes in bed.

The day started pretty much as the previous until we got to Paris then the nightmare began, due to very heavy traffic, which must have been diverted for us especially, the convoy became split up on several occasions. Another overnight stop and on the third day later we arrived in Madrid. After a late night briefing from the Spanish guard commander of the barracks we were left to our own devices for the weekend. The Monday was spent setting up the various detachments and once all the links were in, we were left to run shifts for the following two weeks. Several visits to the cookhouse to try the local cuisine were made by all, and it was decided that we should avoid it at all costs. Between us we could have supported the McDonald's corporation, but luckily the Gurkhas were at hand to supply our evening meals. **Sigs Dipak** and **Lekh** had the daily task of supplying the currys. Other than this, it was a pretty uneventful two weeks spent in the centre of Madrid.

Before returning a goat was purchased from the local farmer, arranged by the recently promoted **Cpl Somras**, for a curry night. With the blessing of the Spanish Camp CO, **Sigs Dipak** and **Lekh** turned 'Billy' into a fantastic supper, they should make career moves to the Catering Corps. The return journey was pretty much the same as the outward, but due to the large number of terrorists in Spain, few stops were made until the border with France. After a short stay with 16 Sig Regt for two days to collect the obligatory duty frees we made our return journey to the UK. Meanwhile the 249 Detachment, who seemed to have all the luck, was sent to Heidelberg to start yet another exercise with the Americans.

256 SIGNAL SQUADRON

Sqn Comd	**Maj J. W. Cooper**
SSM	**WO2 (SSM) Keen**

SUPPORT TROOP, 256 SIGNAL SQUADRON - *by Cpl Wilcock*

We start with hellos and good-byes. We welcome to the Troop, **SSgt** 'Chaz' **Chambers** the new SQMS who deployed straight on Operation Palliser to handover-takeover his department. Welcome to **Sigs Andy** 'Dangerous Diseased' **Dawson**, and **Ritchie** 'No home' **Hancox**, who have come straight from training, also **Brad** 'Bad Boy' **McCallum** who arrived from 280 Sig Sqn, with a record. We say goodbye to newly promoted half-a-tour **SSgt Des Holroyd** who went to 16 Sig Regt, and congratulations to him and his wife **Jenny** on the birth of their new daughter **Katie**. Since the departure of **SSgt Holroyd** the power struggle has started within the Troop between **Cpl's** 'Willy' **Wilcock** and 'Dazzy-B' **Brown**, but the Troop is running more proficiently without the on look of an SNCO. 'Who needs them?'.

The Troop has had a very busy period over the last few months with 80% of the guys deployed on various Exercises and more importantly deploying on Op Palliser in Sierra Leone, with the Joint Task Force Headquarters. The main effort being to supply the power and distribution to the Headquarters to a high level of professionalism, under difficult conditions to some personnel.

Congratulations go out to **LCpl Andy Kinnaird** and Emma-Joe on their recent marriage, and on their posting to Cyprus in October, 'what women do to go somewhere hot'. A very well done to **Sig Lilasing** 'The Dead Eyed Dick' on being selected for the Army Shooting Team, and who is away at the moment with the team in Canada, and then off to the USA in September.

ALPHA TROOP

Tp Comd	**Flt Lt Paul Pearce**
Tp SSgt	**SSgt Paul Storey**

It has been a while since I have had the opportunity to compose an article for my own Troop, so I feel it only right to blow the trumpet on Alpha Tp's involvement within the Squadron during the period when we have been stood at R3. Following a period of post operational leave on returning from various locations around Europe in support of Op Surety,

the Troop settled into a comfortable period preparing for the role handover scheduled for May. For two weeks in March, our twinned French Regiment invited four of us to take part in their first major exercise of the year, Ex Senlis 2000/1. The exercise took place in various locations on the west coast of France and involved two sites with strategic SATCOM assets, one site with a tactical SATCOM asset and a radio-relay capability. I was based on a French Naval base working from a derelict Air Traffic Control Tower and enjoying a diet of fresh oysters and white Bordeau, while **Cpl Dave** 'Scottish Man Utd fan' **MacDonald** deployed to a picturesque chateau on a small island and enjoyed a diet of BBQ fresh meat, whiskey and beer. **Cpl Slim** 'Look at me I'm a mess' **Scott** deployed to the same island where he was accommodated on the floor of the original A-Team hangar and enjoyed a diet of French compo rations, and **LCpl Paul** 'Mustn't Grumble' **Taylor** slept under a tree whilst enjoying a diet of fresh beetles and river water. Needless to say, much benefit was gained from the exercise both in terms of understanding the French approach to deployed operations and also in enhancing the relationship between our two Regiments.

Only ten days after returning from France, I was fortunate enough to deploy to Florida on Ex Cobb Ring with **WO2 (FofS) Ian Toft**, **SSgt (FofS) Kev Peters** (600 Tp, Corsham), **SSgt Chris Gouldson** (600 Tp, Corsham), two Regimental Technicians and nine members of Alpha Tp. This exercise is an annual interoperability trial between the Regiment and the American Joint Communication Support Element based at MacDill Air Force Base, Tampa Bay, and was held during the period 1-30 April 2000. Many lessons were learnt during the exercise; **Sig Adam** 'How much!?' **Flatman** learnt the disadvantage of 'drinking and dialling' when he received a bill for $250 on checking out of his hotel room, **Sig John** 'Jordan' **Roberts** learnt the lesson of removing your wallet from your shorts before jumping into the sea and **LCpl** 'Demolition Man' **Hicks** learnt that looking where you are going whilst driving is a fairly sensible idea. Aside from the technical and operational objectives, everyone had plenty of time to make the most of a great month in Florida and most people chose to head for either Universal Studios or Busch Gardens. Clearwater Beach was another popular location, all the lads taking the opportunity to tuck their R3 bellies into skin-tight shorts and watch the American college girls leaping about playing beach volleyball. Not to be forgotten is the excellent work put in by **Sgt Gaz** 'I didn't want to go anyway' **Shuck** and the other members of the Troop on the rear party at Bramcote, maintaining comms over two SATCOM detachments and hosting the American troops in barracks.

Having arrived back in the UK in the early hours of 1 May, it was business as usual within barracks the next day. **Sgt Gaz** 'Show me the action' **Shuck** had already been tasked with standing in as 2IC Spearhead and I was approached to stand in as OC Spearhead within the Regiment. Three days later the pair of us were queuing up at the Medical Centre waiting to receive various injections with a warning order for Op Palliser in our hands. 48 hours later we were stepping off a Hercules in Dakar, Senegal with the Spearhead crew from Bravo Tp. **2Lt M-L** 'Will I ever leave the country?' **Lucas** was handed the reins of the Squadron rear party for the next three weeks while we were away. Alpha Tp were the unsung heroes during Op Palliser, working tirelessly back in barracks to ensure that the Squadron were well supported at all times.

Articles have already been written regarding that operation so I will not dwell on it. On returning to the UK on 25 May I was greeted by newly posted-in **SSgt Paul** 'Changing Rooms' **Storey**. I had been warned that I would not recognise the office when I returned and, I have to admit, that it been drastically improved. So much so that I was expecting to be greeted by **SSgt Laurence Llewellyn Jones** in tight leather pants and frilly cuffs harping on about post-modernistic architecture; it was quite a relief when **SSgt Paul Storey** arrived in traditional Combat-95 dress and introduced himself, and I would like to take this opportunity to welcome **Paul** and his family to the Regiment. On the subject of postings, we have recently bid farewell to **LCpl** 'Spib' **Gibney** on his way to JCUNI, **LCpl Paul Taylor** posted to 21 Sig Regt and **LCpl Dave** 'George Clooney' **Needham** who is posted to 16 Sig Regt. A recent arrival is **Sig Alan Neesam** from 15 Sig Regt. **LCpl Daniel Clarke** and **Sig Darren Lewis** have also joined us from Charlie Tp recently.

Alpha Tp have now assumed the Spearhead Land Element role which will keep us busy at R1(-) until the end of September. The Squadron hand-over exercise, Ex Battering Ram, took place at ATR Bassingbourne between 10-14 July, during which it was discovered that the detachment commander, **Cpl Brett Grist**, has a rather unhealthy fascination with SATCOM tails equipment. From the beginning of October we will stand-to as the Joint Task Force HQ main signal support Troop, and look forward to Ex Internal Look which is held in various locations around the USA in November.

We now face what I hope will be an exciting time at R1 and, indeed, the next time we go to press I hope to be able to tell fresh war stories from a future operation involving the Troop. Alpha Tp have achieved a great deal in the last seven months, helping to raise the profile of the Regiment both in France and America, and put in maximum effort in support of Op Palliser.

BRAVO TROOP

Tp Comd **Lt John Dagless**
Tp SSgt **SSgt McNair**

Having returned successfully from Op Palliser and completed the post Op turnaround before squeezing in a bit of leave B Tp has now changed roles from Spearhead to JTFHQ Main. This has resulted in the Troop becoming inundated with tents of all shapes and sizes, some rather natty air conditioning units, and a lot of plastic flooring. All of this was put to the test of Op, I mean Ex Butt Ram, that saw the Troop prepare and deploy to the Wind Breaks, a mystical and mysterious location miles from civilization! At the helm of this transition has been **Sig** 'Baby Taff 'tent monster' **Jeffers** and **Sig Lee** 'I'm not moaning' **Banks**, ably guided by **Cpl Mark** 'I'm doing an appreciation' **Allen**. In the meantime along with juggling Open days, Summer Balls and the odd General's visit the Troop has been trying to squeeze in a spot of ITD, formal, and IS learning and education. A number of people have left the Troop and unfortunately not many joined it. A sad farewell to **Sgt Del** 'I know what your doing' **Paz** who wasn't here for the last four months due to his IS course anyway, **Cpl** 'H' **Honeywood**, **Sig Richie** 'LCpl at Last' **Hewitt**, **Sig Lynden** 'I'm Free' **Clarke**, and **Sig Phil 'I'll be back' Baxter**. A warm Bravo Troop welcome goes out to **Sig McMillan** and **Sig Simpson** straight from training who have a lot of shoes to fill.

CHARLIE TROOP

Tp Comd **Lt Lucy Pim**
Tp SSgt **SSgt Phil Joyce**

OPERATION PALLISER, SIERRA LEONE MAY – JUN 00
Lungi Airport – *Sig 'Smudge' Smith*

Op Palliser was a full scale deployment of 256 Sig Sqn's JTFHQ assets, with Charlie Tp as the lead Troop. Charlie Tp were on exercise in Ghana practising a medium scale HQ build when we were tasked with Op Palliser – it ruined the R & R phase! Initially the Troop was to set up a full scale Rear HQ at Lungi Airport in Sierra Leone. In about six days we flew kit from Ghana and the UK – this used six Hercules and an Antonov in total! The Squadron set up the HQ quickly and efficiently in a searing 90^0 heat, the barbed wire and mosquitoes adding to the experience! The security had to be tight with the threat from the RUF being high. Soon we were into a fairly gruelling routine marked by stand-to at dusk and dawn. The shower unit was a god-send and much sought after at the start and end of the day as the heat and humidity was intense.

In the draw-down towards the middle of June the monsoon season started, and the first night of heavy rain succeeded in flooding most of the systems in the headquarters. This brought forward the planned re-location of the headquarters on the other side of the airport. The Headquarters' here was a fraction of its original size with many of the Staff returning to the UK, with the bulk of the Squadron. On 15 June the last of us came home, after a very successful operation.

FREETOWN - *Sig 'Slicker' Powell*

At the beginning of May we deployed on exercise to Ghana, here I worked as an OLRT Operator and worked with a 6-man Staff Officer Operation Liaison Reconnaissance Team. This prepared me for Sierra Leone in many ways, however the move from a 5 star hotel to a mosquito infested bed under the stars was a nasty shock! I deployed to the High Commission in Freetown and was one of the first members of the Troop to reach Sierra Leone. However, **Sig** 'Billy' **Harris**, who has the claim on being the first Signaller into theatre, beat me! On my first day in Sierra Leone Sanco, the rebel leader's, house was being attacked, as it was only just down the road, at night we could see the rounds going through the air over the British High Commission. No escaping the fact we were in a war zone.

Once the remainder of the Squadron had deployed, there were six of us working for 20 Staff Officers. The work load was heavy with so few of us there, so I found myself doing 16 hour night shifts. However, this did leave a little time for a spot of lounging by the pool!

258 SIGNAL SQUADRON

Sqn Comd **Maj P. Deans**
SSM **WO2 M.Webb**

25GREAT (8) Sig Sqn has been as hectic as ever over the last few months as it continues to 'carry' all the Regiment's operational commitments – well done! D Tp remain in Sierre Leone in support of Op Basilica and F Tp have manned the Spearhead commitment and, more recently, training to takeover the commitment in August. E Tp are frantically preparing their handover/takeover as their EOT approaches on Ops Agricola and Palatine. In addition, there is manpower in Blandford assisting with the TWACAN trials and a few individuals completed Nijmegan Marches. You may well ask how can one Squadron be so good? The answer: with long working hours and pulling out of hair as **SSgt** 'Give me some more tasks' **Fiddler** has demonstrated. It is during this period that **Maj Jules Swindells**, **Liz** and family decided to seek a well-deserved quieter life doing 'Special' Comms at DERA Fort Halsted. And then there is **WO2 (SSM) Miles Webb** who is so desperate for a tour he is leaving 30 Sig Regt, where he has tried his hardest to visit all the Squadron operations, to 19 Mech Bde to do a tour in Kosovo next year as their RSM. We all wish both families all the best for the future. We must also congratulate **Cpl Arjunkumar**, the Squadron Clerk, on his deserved promotion and bid fond farewell as he starts his long three day trek back home! In return we welcome to 258 Sig Sqn a new OC, **Maj Phil Deans**, from HQ LAND – 'the tasker becomes the tasked' and **WO2 (SSM) Forester** and family to Sunny Bramcote. At long last some stability at the helm.

DELTA TROOP

Tp Comd **Lt Chris Smith**
Tp SSgt **Sgt Billy Kidd**

The deployment of 256 Sig Sqn to Sierra Leone from exercising in Ghana meant D Tp took on the role as Spearhead Two as 258 Sig Sqn manned a JTFHQ 2. During a very busy time **Cpl Wyllie** and his detachment worked very hard for two weeks in putting together an ever-changing communications package - everyone was ready to deploy anywhere in the world except the Sqn activation room.

No sooner were we ready then D Tp was tasked with putting together a team to deploy to Sierra Leone as a Short Term Training Team, on Op Basilica, to support 2 R Anglican in training the Sierra Leone Government Forces. The selected team moved to Chepstow within a couple of days to conduct pre-deployment training with the Battalion. Half way through training, members of the Troop were called forward as the advance party and returned to Bramcote to prepare to deploy. Within 24 hrs **Lt Smith**, **Cpl Sykes**, **LCpl Roulette**, **Sig Fielding** and **LCpl Holt** (with his box of crypto) were on a flight bound for Sierra Leone. At the same time **LCpl Marsden** set sail with RFA Sir Percivale to Sierra Leone, after nine days at sea he has found his sea legs and learnt all the associated terminology. The RFA has been alongside in Freetown providing logistical support for the British Forces.

We arrived at Lungi and found our feet with the help of 256 Sqn who were well established in their tented city as the JTFHQ across the peninsula at the APOD. By first light **Cpl Sykes** and **Sig Fielding** had signed over their ORLT pack and jumped on a helicopter with **Lt Smith** and **YofS Knight** to fly to the south to the proposed British Training Camp at Benguema. **Cpl Sykes** and **Sig Fielding** spent the next few days in the jungle in a primitive hut providing strategic rear link communications as the training camp began to establish. This was until the locals decided the Generac was a very desirable item and it disappeared! Meanwhile **Lt Smith** and **YofS Knight** receced the potential BRITFOR HQ in Freetown, and **Cpl Roulette** and **LCpl Holt** began feverishly signing as much kit as they could off 256 Sig Sqn.

After a week in theatre **Sgt Kidd** brought the remainder of the team out to help build the Headquarters. On the 15 June we said farewell to Op Palliser as everyone departed theatre leaving us the 'attached arms' and a large company sized group to fend for ourselves. It was not long before we had turned a derelict building into some sort of order. In the South at the Training camp we settled into a routine in the established-tented camp and a thousand locals paraded to be trained. The night curfew came into effect after **Lt Smith** and **LCpl Langford** found themselves in the middle of a gun battle in the middle of Freetown when a prison guard had a negligent discharge with an RPG! **LCpl Roderick, LCpl Climpson, LCpl Langford, Sig Andrews, Sig Cassells** set about their routine in the HQ (allais 'Slipper Palace'). **Cpl Sykes, LCpl Green, Sig Maybank** and **Sig Fielding** continued to rough it in the middle of the jungle. **Cpl** 'half-a-tour' **Sykes**, after his sterling effort in the early stages, departed for Blandford to start his Class 1, just as the monsoon season steps up a pace. Without thinking of his own safety our new technician **Cpl Gray** abandoned his broken Trends and moved from the Headquarters in Freetown to the Camp.

Congratulations go to **LCpl Prem** and **LCpl Roulette** on their field promotions. Meanwhile the rear party of D Tp has worked hard filling in the gaps and doing numerous guards. They have also been involved in TWACAN trials at Blandford. Congratulations go to **Cpl Wyllie** and **Cpl Miller** on their promotion to Sergeant. The Troop also said goodbye to **Cpl Rawlings** as he moves to 1 Div and we wish him well for the future in Germany. Congratulations on your recent promotion. As the second Short Term Training team arrives to be trained by the R IRISH Battalion D Tp are preparing to hand over the reigns to F Troop mid August.

ECHO TROOP

Tp Comd **Capt Chris Preston**
Tp SSgt **SSgt** 'Oh no Doc' **Halliday**

ANOTHER TOUR IN THE BALKANS - *by Capt Chris Preston*

No sooner had my feet touched the ground in 30 Sig Regt and I was away to Kosovo. I was given the choice between a month on rear party organising adventurous training and a month on tour meeting the new troop. Not surprisingly I choose the latter option – 'Hello Echo Troop'.

I returned from the Balkans last December and expected at least a few things to have changed in my absence. Oddly enough the pace of change is slowed down by the continuous flow of personnel arriving and departing theatre. Very quickly I discovered that the same people places and projects were bubbling away with little to show for my six months absence. The most pleasant change was Trogir. When I left in December it was cloudy and autumnal. Now the sunshine had returned and the locals were out in force trying to out dress each other. The same café owners and street restaurants lined the roads and now more cruising boats were anchored in the harbour. Trogir looked simply beautiful. However we couldn't stay there too long as we embarked on a whistle stop tour of the Balkans.

The Balkan Satcom Troop (alias E Tp) has detachments all over the two theatres in the Balkans and visiting them takes a week. In theory one could spend the entire tour checking on the remote sites, but transport is the key. In four days I was moved around in everything from shank's pony to USAF Blackhawk and everything in between. To my relief at every turn the detachment commander had four months experience and had seen almost every situation once before. E Tp have been out here for four months before the short touring their Troop Commander (but what a great job she did).

Pristina now has Corrimec style accommodation and air conditioning and 7 (Armd) Brigade and Signal Squadron have a wide variety of welfare facilities to keep you busy. The Chef rivals Banja Luka Metal Factory and the gym is interesting enough to turn a tour into a health farm. The next step is the comms hand-over to the Gurkhas and then the arrival of the Royal Marines in Pristina.

SETTING UP MOST IV JAGUAR SARAJEVO
by Cpl Fred 'Not another chuffin' MOST' Hazard

We started our little break on 23 June 00 from Pristina to Skopje courtesy of **Sig Rob** 'Michael Schumacher' **Hall** who broke most land speed records in getting us there. Once at Skopje **Maj Swindells**, **Capt Chris** 'I got lost on Lanyard' **Preston, Lt Mogs** 'Strawberry Vodka' **Southern, Cpl Fred Hazard** and **Sig Gaz** 'Why am I going?' **Green** waited around to board a Czech plane for the stunning flight to Split. **Sig Gaz Green** managed to find the most comfortable sleeping place, on top of an inflatable lifeboat. On arrival in Split we decided to get some cash out to go and see the wonderful sights of Trogir, where **Cpl Fred** 'Lucky' **Hazard** managed to get his visa card eaten by the hole in the wall machine. Cash crisis resolved we set off to get our transit accommodation. Once set in our rooms, we set an RV for the trip down to Trogir. All I can say is that a fair few strawberry vodkas were sunk and how come there are no fat girls in Trogir.

We set off the next day bright and breezy (**Capt Preston** having a couple of hours extra kip), towards Sarajevo. The only eventful thing that happened on the way is the fact that we had a puncture, which happened when **Sgt Brian Flynn** decided it would be better to avoid a truck than the kerb (good call!). On arrival at Sarajevo **Cpl Jeff** 'Jeffers' **Ford** met us and showed us the sites and temporary accommodation in which we would be staying. Then we set about going round the 'px's where **Capt Chris** 'I'll never get lost again' **Preston** bought a wrist GPS (magic!). Another arrival drinks session was had as the boys from Pristina were only used to the bar being open for a hour and a half as opposed to those at the 'sharp end' in Sarajevo, (the first casualty of war is your kidneys).

The next day we set about erecting MOST (Military Off-the-shelf Satellite Terminal) IV Jaguar on top of a iso-container which in itself was no drama, unfortunately, every helicopter in the vicinity deciding it would be fun to see if they could blow it off was! Nice one flyboys! Particular thanks go to the USAF Blackhawk's who nearly blew the dish with **Cpl Fred Hazard** and **Sig Paul** 'Deploying again with E Tp' **Howells** hanging on to it. Also a big shout going out to the RA RSM who sited the det on the back of a heli pad with no hope of getting our secondary shot, good work fella!

We finally got around to engineer the det in on the Saturday, which was not bad at all considering we should have started on the Friday! With much to-ing and fro-ing between Colerne and Whitehall and with faults at every turn we finally managed to get all four circuits some 38 hours later.... brilliant. With the circuits in and working we retired to the bar for more pizza's and beer. My tour was cut short as my services were required elsewhere. Where ever a MOST IV is in need of some special TLC, I will be there with my cape flying in the wind and my boxer shorts on my head.

MY ATTACHMENT TO 2 RRF – *by Sig Andy Doherty*

To break up the monotony of COMMCEN work I requested an attachment with the RRF in the centre of Pristina. This was so I could see a different side of the Op Agricola. It consisted of patrols on the estates and searches of various buildings to try and stop the flow of illegal arms. My first night patrol resulted in a 'shotrep' that we had to deal with. Although the infantry boys were used to this as a regular occurrence, I thought it was an exciting ordeal. The RRF were a good bunch of lads to work with on the whole, and surprised me with the number of guys they were down, almost 50 percent undermanned. Now, as well as being in a high speed chase and various searches and patrols, the week finally came to an end with a visit to the morgue. This was an experience I don't think I will ever forget and enough said on that subject. The attachment was very enjoyable and if given the chance again I would definitely take it, except next time I would try and get out of wearing a hackle.

BALKANS SATCOM TROOP - BOSNIA DETACHMENTS

Bosnia elements of Echo troop have now returned to Bramcote, after nearly seven months in BLMF and Sarajevo holiday camps. Firstly, we would like to thank all the personnel who could not manage a full tour but nevertheless helped out: **Cpl Locky** 'Get the shirt off' **Whitelock; LCpls Cilla** 'Chunderwoman' **Black, Jamie** 'Sinner' **Slade, Kate** 'Bouquet' **Deal, MJ** 'Send my webbing back' **Holt**, 'Ice cream' **Hem;** Sigs **Dion** 'Cherry ' **Fotheringham**, 'I can drive' **Prati** and, last but not least, Harry the det dog who sadly went missing after **Sgt Barney** 'Stalker' **Barnfield** took him out for a walk (where is he?). The tour has consisted of a lot of hard work; the guys in Banja Luka concentrated on getting the 501 det IAW so it was able to carry out its tasks and the Det in Sjj concentrated on moving the MOST from Ilidza to Butlins, oops sorry, Butmir.

Cpl Tony 'Big arms' **Gallagher** has been outstanding with his adaptability of languages, (i.e. if he doesn't know what to say, he just makes it up). It is also not true that now he is back in Bramcote he will be helping his wife to run the 'Bacon Butty Empire' he set-up on R'n'R! **Cpl** 'Queg' **Ford**, Det Comd of MOST Cat in Sarajevo, has also been outstanding in his position of authority, unfortunately for a reason only known to himself (and the CO!), he has taken to wearing tropical combat kit, lets hope he can find some '95 soon. **LCpl John** 'Keebab' **Lawrence** has shown yet again that he knows a thing or two about the 501 and also a thing or two about where to find the best scoff in theatre. However, he was last seen careering down Route Clog screaming 'What no BRAKES?!' Moving swiftly on to **LCpl Caz** ' I can drink' **Burrows** who had an excellent tour but also found time to organise charity football

matches and runs, however there might be some truth to the rumour that there are some dodgy photos going round of her in compromising positions. **Sig Adam** 'Life of the party' **Toner** had a quality tour, was a member of the Brit football team which lost in the final of the Butmir multi-national football competition to guess who - Germany. **Sig Mark** 'Mine clearance team leader' **Vinten** who worked very hard in support of UKNIC, the only problem was he was supposed to be working for 30 Sigs! Thanks also to **Cpl** 'One to watch' **Rup** and **LCpl** 'Still love Ice cream' **Hem** for trying to teach both the dets Nepalese, with varying success..

Oh, and by the way **Sgt** 'Big gay' **Al Barker** had an outstanding tour looking after both the dets with his unsurpassable blagging skills, sums up the 'chundertour' with this classic: 'It smells like something died in here, like a sandwich' or **LCpl** 'Jamie' **Slade**, who on snapping a fork whilst eating his dinner asked, 'What are these plastic forks made of?'

That sums up the tour for Echo Troop, 258 Sqn, all the best for 250 GSS in the next couple of months until commercialisation takes over. The Swan has landed back in Blighty, long live the white duck of courage.

FOXTROT TROOP

Tp Comd **Lt Mogs Southern**
Tp SSgt **SSgt Stu Fidler**

HALES AND FAREWELLS

This month we are saying goodbyes to **Cpl** 'Mal' **Campbell** and his wife Jenny who will shortly be leaving us to go across the water, on promotion, to 39 InfBde. Also **Cpl** Gaz **McKee** who, although remaining part of the Troop, will become the Yeoman's brewboy down in Sqn Ops. We extend a warm hand of friendship to **Cpl Neil Harrison** from 15 Sig Regt, who brings with him a wealth of knowledge on Camnets, and also to **Sig Brennan** who has arrived straight from the factory.

SQUADRON SUMMER BALL

This year we had the delight of hosting the Squadron Summer Ball, held over in Hangar Two, with a Cowboys and Indians theme. With little time and less manpower the final touches were only put in place moments before the guests started to arrive, but with **Sig Dave Scott** and his sister teaching all and sundry the art of line-dancing , and a Bucking Bronco going all night, everbody seemed to enjoy the occasion. The night was also a good occasion to welcome back Echo Troop personnel into our midst who have just enjoyed tours in Bosnia and Kosovo, and the new OC Sqn – **Maj Deans**, and a fond farewell was given to **WO2 (SSM) Miles Webb** who leaves us for 19 MechBde. Op Basilica. The Troop is now nearly ready for their deployment to Sierra Leone, after some intensive training both in the Squadron and also with a two day visit to Canterbury where our hosts 1 Royal Irish took us through our paces in UNTAT Training.

TRAILWALKER UK 2000 - *by Sgt Nandaraj Rai*

The Queen's Gurkha Signals organised another very successful Trailwalker UK 2000 event in it's own unique style on 24/25 June this year. Trailwalker UK is a highly competitive non-stop charity challenge for teams of four, who run or walk along 100kms of the South Downs Way. This year's event had two starts, the first at 0700hrs which was started by **Brig J. Cook** whilst the second was started by the Gurkha Welfare Trust's Chairman, **Gen Sir Sam Cowan KCB CBE**. The event was started in bright sunshine on a Saturday morning near Petersfield (Hampshire) and ended later during a mild Sunday at Whitehawk Football Club in Brighton. Over 230 civilian and military teams took part this year. A team from the Gurkha Demo Company, Royal Military Academy Sandhurst came first in 10 hours and 34 minutes. They broke last year's record by 1 hour and 2 minutes, very big well done to them and SYABASH. The Trailwalker concept, which was devised in 1981, is set to continue all over the world well into the 21st Century in order to raise funds for the good causes and the charities. There are three annual Trailwalkers in the United Kingdom, Hong Kong and Australia. It will be six very soon with Trailwalker Adelaide, Quebec and New Zealand. Money raised by Trailwalker UK is dedicated to School building projects in Nepal.

EXERCISE SWAN NEWFOUNDLAND DRAGON

On Thursday 25 May, 13 soldiers set off for adventure training in Canada. It started with the coach breaking down a mile from Heathrow. Luckily Lt Davis had contacts to get us to the Terminal in time to catch the plane. After a long journey we landed in Halifax Nova Scotia. Six Canadians, who were to be our escorts for the expedition, met us. We stayed in local barracks for the night then proceeded to drive for one and half days to Newfoundland. The plan was to split the two teams and trek the Long-Range North Rim Traverse from both directions. It was scheduled to last five days (dream on!!) My own group was travelling from south to north and consisted of **Lt Davis**, **SSgt Burns (JSMEL)**, **Cpl Tulasi**, **Sig Prabin**, **Sig Rajendra**, **Cfn Ballinger**, **John** and **Sly** the two Canadians.

The first day was relatively easy going as there was a regularly used trail. It gave us a chance to settle in and observe the wildlife! One of the team, **Cpl Tulasi** thought he saw a tiger, realising his embarrassment, when told it was a moose. We reached the campsite and pitched our tents ready for the next day's trek. The next morning came with a blanket of snow and high winds. We reached the top of the first mountain to be met by nothing but snow. We carried on approximately for five hours, navigating past frozen lakes and rivers. The team spent most of the time falling into snow holes. The team took great pleasure in watching and laughing at **Lt Davis**, who seemed to find every snow hole. We finally caught sight of the toilet roof to hear a raging river in the distance. It was in-between the campsite and ourselves. As we approached the river we realised that it was impassable and after much discussion realised that the trek would have to be abandoned due to the excessive water levels. The other group also encountered excessive water and had to find a different way back..... Even though either team did not complete the trail, it was fun trying.

The remaining two days were used doing day treks to keep us occupied and sampling the food ie: lobsters, trout and salmon. Don't take photos of your food **Chris!** (The author of this article).

We moved back to Halifax to enjoy the food, company and hospitality of the Canadians. It was a memorable trip and the photos will prove that.

The Expedition Members

WE THE BROTHERS - by Cpl Sombahadur Chochangi

Since December 1996, I had thought of expressing my feelings amid the Parbate readers, but due to assortment of reasons I have not been able to do it. Well, it was the time when my youngest brother Sim joined the Queen's Gurkha Signals and made up the three brothers serving in the same Regiment. This is probably the first time that has happened in the history of QG Signals.

Kamal and myself were enlisted in the British Army in 1990, however, after the basic infantry training in TDBG Hong Kong, we were separated, myself being posted to QG Signals and **Kamal** to 2/2 GR. On the redundancy and amalgamation process, **Kamal** was transferred to QG Signals in January 1992. Later on, **Sim** joined us after his basic training in Gurkha Training Wing, UK. Now, we all work for 250 Gurkha Signal Squadron. As the Regiment has an ongoing commitment to provide strategic CIS support to British Forces at home and abroad, the Squadron is currently deployed on Op Agricola in Kosovo. Hence **Sim** and myself are currently serving in Kosovo on the same satellite communications detachment, as part of the NATO forces. **Kamal** is down at Blandford on his Class 1 course that finishes in September 2000. **Kamal** and myself are due to bringing our families next year. Our families are back in Pokhara, Nepal with our parents and a sister.

Last but not least, I must thank those who inspired me to write these words for Parbate. In fact, all brothers in the same Regiment, it is something different and we certainly feel proud to serve together in the QG Signals. Jai QG Signals!

Standing from the left; Cpl Som, LCpls Kamal and Sim.

RAF COSFORD INTERNATIONAL AIR SHOW

Like previous years, this year, the Royal Air Force organised an international air show at the RAF Cosford airbase on 18 June. More than 40,000 people attended the air show last year, but this year, attendance figures broke past years' records. The main aim of the event was to raise money for Ex-servicemen/women who needed help. Various charity organisations had set-up stalls on the show. One of them was ours run by **Cpl Dambar** and his team from QG Signals with the support of **Maj (Retd) R. J. Cross** and his families and friends. We were a wonderful public reminder that Gurkhas are still recruited into today's British Army, many thought that this was no longer the case. I felt that our presence at Cosford was on very worthy cause for the GWT. There is a whole generation out there that had no contact with the Gurkhas and to be physically reminded of our existence does entire Gurkha cause nothing but good. At the end of the show, a good day was had by all with a good cause benefiting!

EXERCISE TARTAN TERRAIN III
(SECOND LEG OF THE SOUTHERN UPLAND WAY)
by WO2 (RQMS) Dave Inman

Ex Tartan Terrain III was an adventurous training exercise which saw 44 members of the Regiment, including Regulars, TA and NRPS set off from TAC Jardine Street on Saturday 3 June. The team also included civilian guests, **Rodger** and **John** our specialist fire-fighters, purely there to beat out any flames on the hills as a result of the brilliant weather promised by our illustrious leader **Capt John** 'undulating' **Lynch**, and worthy of a mention for his sterling hill walking **Alex** our resident electrician. Our aim was to hike along the length of the second leg of the Southern Upland Way, from Overfingland (Although **WO2 (RQMS) Dave Inman** insisted it should be renamed England) to Cockburnspath, a distance of 106 miles in a total of six days with a days training and rest incorporated either side.

Day 1 - Saturday 3 June - Saw all personnel gather at Jardine St TAC by 0900hrs to be issued equipment and receive an excellent, if not daunting, brief for those who had not walked the walk before, conducted by **SSgt (REME PSI)** 'au natural' **Crow**. This was followed by an early lunch. Finally we deployed to SANQUAR our first base camp were we set up our tents and then carried out hill walking training, incorporating map reading and first aid, in the Lowther Hill area. A small matter of eight miles to warm up the soles of your feet!

Day 2 - Sunday 4 June - After an early wake up call we were greeted with a warm smile and mouth watering good old English Breakfast (or was it Scottish!) by the Admin Team superbly led by **SSgt (SQMS)** 'Chick' **Doyle**. The A Team who definitely deserve a mention consisted of **Chick, SSgt Andy Crawford** and **Sgt** '(still) Sugs' **McClean** our superb Chefs and **Sgts** 'Who's in charge today boys?' **Danny Beattie** and the sprightly (60 years of age!) **Jackie Dollen** and last but not least **Sgt Jim** 'le taxi' **Wilson.** Once we had been amply fed and watered we were given even more food to see us through the day and set off for our first 17 miles hike to MOFFAT. The weather was poor and this ensured that the teams began to bond together.

Day 3 - Monday 5 June - Today was a good day for the HQ Team consisting of **WO1 (SVWO)** 'Just sort it!' **Terry McVey, WO2 (RQMS)** 'Englander' **Dave Inman, Sgt** 'Egg on me face' **Graham Smith, Cpl** 'Hitler' **Adrian Augusto, Sig** 'Unwashed and unemployed' **Curry** and our civilian guests **John** and **Rodger** the Fire Fighters and **Alex** our Sparky, and how could any of the team forget **Sig** (new recruit) 'SAM no I'm not a MAN' **Towers** our only female team member. We walked a total of 18 miles without any shortcuts. Much of the walk was boggy with steep climbs and treks back down the hills, which became very sore on the feet, however we soon finished as a team at Tibby Sheils campsite. After very few sociable pints of Guinness at the local (the only pub for miles!) it was early to bed for most of us, although **WO2 (SSM) Karen** 'Where's the door?' **Swan** decided she would rather stay in the portaloo all night. This ensured the SVWO got his first decent nights sleep in the tent by himself (please do not write to the Editor, they are married!).

Day 4 - Tuesday 6 June - This day will be remembered forever! The day **Cpl** 'Hitler' **Augusto** became HQ's team leader. This was the longest day with a 23 mile hike to Selkirk ahead of us all. Somebody forgot to inform 'Hitler' that we should stop and rest occasionally hence his nickname. If it had not have been for the mandatory stop in Traquiar thankfully enforced by **Capt** 'Its only ? miles' **John Lynch** we would still be walking now! We all knew **Cpl Augusto** was strange since he had put on his gaiters on Day 1 and had no intention of removing them until we had walked the walk! A very welcome and relaxed evening was spent swimming, washing kit and taking in a sauna ready for the next day's walking.

Day 5 - Wednesday 7 June - **WO1 (RSM)** 'I'm cold' **Mam Hilborn** joined the HQ Team led by **Sig** 'Unwashed and unemployed' **Kev Curry.** The first part of this fifth day was pleasant with a meander through Galashiels and a visit to the local Fire Station so that HQ's team could ask for directions! How embarrassing for our two fire fighting guests not to mention the SVWO (was it mentioned that he is also a fireman!). After many a pointing in different directions the team soon got back onto the route. On arriving at Melrose the team decided a rest was deserved so onto a local establishment for a 'no-alcohol' lunch we tabbed. Two hours later we decided to continue the walk after a surprising phone call on the RQMS's mobile from the 'A' Team leader **SSgt** 'Chick' **Doyle**, requesting a location report! Apparently, we were two hours behind the last team. Ah well it was a nice lunch! So on we trekked and trekked and yes!, trekked. To our dismay the final leg for today's walk consisted of a wicked path from Melrose to Lauder, which blistered several pairs of feet and resulted in a much less jaunty spirit at that evenings meal. We pitched tents that night at Thirlestane Castle, which was very picturesque.

Day 6 - Thursday 8 June - At last the sun shone for the walkers and the teams set off in high spirits for what was to be a steady even pace of 15 miles to Longfromacus. HQ Team leader today was **Sig** 'No she definitely isn't a MAN SAM' **Towers. Sig Towers** was one of the newest recruits to the Regiment and she soon realised that all these team members she had been calling by their first names (including the RSM) during the walking were in fact the highest non-commissioned appointments within the Regiment! On finishing the day's walk a pleasant evening meal superbly prepared by the chefs was consumed before departing to the local Community Hall which had been kindly opened by the locals for a few sociable and relaxing pints of Guinness. At this stage it is well worth mentioning that everyone we met, in every town or village, treated us with the utmost kindness and were always friendly.

Day 7 - Friday 9 June - The final day's trek was completed in good weather through the lovely village of Abbey St Bathans and finally into Cockburnspath with the final stretch along a beautiful coastal path a total of 17.5 miles hiking. HQ's Team leader today was one of our civilian guests recently promoted **LCpl** 'Fire-Fighter' **Rodger. LCpl Rodger** to his credit took his task very seriously and the team even carried out stretching exercises before commencing this final walk. However, the good weather was soon to change and as teams approached the finish along the coastal path the heavens opened up and rain continued for the next 36 hours. The campsite in DUNBAR turned into a quagmire and **Capt** 'I will sort it' **John Lynch** along with his trusty Admin Team leader **SSgt** 'Chick' **Doyle** had soon negotiated refuge in the Community Hall in West Barnes, once again, the professionalism of the 'A' Team came to the forefront and rescued what could have been a disaster. The chefs prepared an excellent BBQ, which was moved along with all personal kit to the Community Hall. After much deserved sustenance and liquid refreshments, every team performed a sketch or song, and certificates and T-shirts were presented. The Saturday was used as a day to recover the aching limbs, see a little of the local area and for those more active, a selection of coastal walks was organised. This was an ideal time to turn around all equipment and stores ready for return to TAC Jardine Street. After breakfast on Sunday, everyone returned to Jardine Street to prepare the exercise equipment for handing back to stores and then return to parent TACs. Credit must go to both SQMS HQ, **SSgt John Addison** and SQMS 52 Sqn, **SSgt** 'Chick' **Doyle** without whom this exercise would have been able to go ahead. Their professionalism and commitment to the task in hand ensured all exercise participants where correctly equipped, fed and watered at all times and all loan stores were returned in excellent condition on Thu 15 Jun. Well done boys!! A final thanks also to **Capt** 'How many miles!' **John Lynch** and **SSgt** 'au natural' **Crow** his trustee 2IC for organised the exercise.

Finally some concluding comments made by **Sig** 'SAM the MAN' **Towers** one of the Regiment's newest recruits who had been tasked with writing a diary for the exercise: Anyone who endured those 106 miles will know the pain and the down moments that also must be experienced along the way, but these people will also know the immense amount of fun that can be had if you work as hard as mixing well with your team, and other teams, as you do on your walking! At the beginning, I knew few names, by the end I had mates for life. With no other entertainment but each other you share things that you never would in any other circumstance. You learn things about yourself, and about other people, and all the while you are on holiday from work and yet still receiving pay. The Admin Staff looked after us like we were Kings and Queens and the preparation done by the Recce Team ensured that our spirits were never allowed to fall as we were entertained at every stop. Nothing was too much trouble for anyone and it is that team spirit that pushes you forward. A huge thanks to all of my team. I will definitely be back next year!

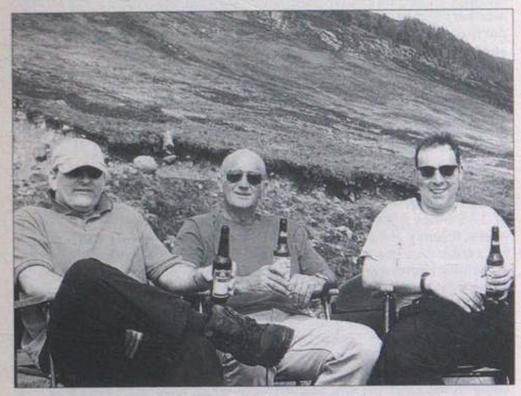
WALK THE WALK and then TALK THE TALK

QUARTERMASTER'S DEPARTMENT

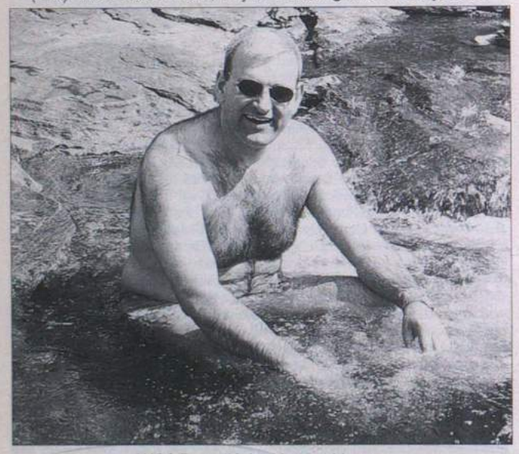
QM **Maj Ian Dudding**
RQMS **WO2 Dave Inman**

It has been a very busy period within the QM's Dept with the fallout of SDR now taking its toll. SDR has resulted in two civilian redundancies which in reality equates to 66% of the civilian staff. So in true army tradition it was a case of knuckle down and make it work for those of us left with **Mr John Addison** taking on the bulk of the manual work and taking on responsibility for the day to day business within the clothing store and R&I Bay as our only civilian storekeeper in Jardine St. Meanwhile up into the dizzy heights of the QM's offices **Mr Gary Steen** - Admin Officer for the Department since 'nineteen canteen' has continued to run the office in a true civil servant, professional manner in the absence of the QM - **Maj Ian Dudding** who's leave card has now been destroyed as all his leave has been used for this year, and the RQMS

- **WO2 Dave** 'Hairy Monster' **Inman** who has decided he loves walking the hills of Scotland. Meanwhile **WO2 (RQMS(V)) Norma Sproul** has managed to take some time off from her new job to gamble away her redundancy money in Las Vegas. **LCpl Liz Leitch** has also been very busy in ensuring the smooth transition of USA onto UNICOM working closely with the LAD, as well as attending her UFNCO's Cse and most recently her RSCC (TA), we will make an RQMS out of her yet. **LCpl Annette Fair** has managed to sneak in a nice little trip to Germany unbeknown to her PSAO or the RQMS - nice one **LCpl Fair** - where's the duty frees! Recently the three kind of head honchos in the Department decided to have a day out at Glen Lyon to take in the scenery and walk a few hills. The day started before the sun was up and finished long after the sun went down. the QM entertained the RQMS and AO with his historical knowledge of what he proudly calls his glen, it was a cracking day away from the office, unfortunately it took place on a Sunday so it was back to your desks for Monday morning, sun-tanned and much refreshed!



The QM, RQMS and AOs' day out at Glen Lyon
(L-R): WO2 Dave Inman, Maj Ian Dudding and Mr Gary Steen



WO2 Dave 'Hairy Monster' Inman
taking his yearly bath at Glen Lyon

ARRIVALS AND DEPARTURES

We welcome **Cpl Mick** 'Where's those rations?' **Martin** to the Dept, a much needed helping hand to assist **Mr John Addison**. We also say a sad farewell to **Capt (QM) John McCall** - QM(V) who leaves the TA after some 30 years or more of distinguished service (since nineteen canteen!!). Sadly also **Mr Alan Smythe** and **Miss Norma Sproul** (yes the RQMS(V)) were both made redundant as a result of SDR after more than 30 years of dedicated service to the Regiment between them. In the true tradition of 32 Sig Regt all where given a good send off in the form of a QM's Department - Dinner Night and all ranks BBQ. Sadly all will be missed!

51 SIGNAL SQUADRON (V)
Sqn Comd **Maj Morna Strachan**
SSM **WO2 (SSM) Davey Crocket**

ARRIVALS AND DEPARTURES

It is with heavy hearts that we say farewell to our beloved Squadron 2IC, **Capt John** 'Mine's a dark rum' **Mackie**, who has hung up his hat after 12 years service. Amongst his many varied duties, he was our scribe for contributions to *'The WIRE'*. He will be sadly missed by all ranks in the Squadron and the Regiment. Everyone who worked with him knows what a pleasure it was to do so. All ranks wish **John** and **Laura** all the very best for the future and hope to see them both at future social events. The Squadron would also like to wish **2Lt Adrian** 'Posh Jock' **Yates** all the very best in his future career as he flies off to join the RAF Regiment (Traitor). He will also be greatly missed by all ranks in the Squadron, particularly members of 514 Tp. I have been reliably informed that he will be doing his sideways walking course soon. Our best wishes also go to **Sig Steph Bogart** who was initially mobilised for a tour in Bosnia, applied for and was accepted for regular service in the Royal Signals. We have no doubt that she will get on well and enjoy working as a regular soldier.

All members of the Highland Sqn congratulate **Sgt Clare Smith** and **Cpl Richie Taylor** on tying the knot. A good night was had by all at the reception and apparently a few people had a bit too much falling down juice – isn't that right **Sgt Bud** 'I'd like another drink' **Burnett**? Good luck and best wishes to the happy couple. Finally, we would like to extend a very warm welcome to **Capt Rebecca Bird** who has transferred to us from 104 Regt RA (V). She is taking over from **Capt John Mackie** as the new Squadron 2IC. We hope you settle in quickly and get to grips with writing *'The WIRE'* notes soon.

52 SIGNAL SQUADRON (V)
Sqn Comd **Maj Donald Gordon**
SSM **WO2 (SSM) Swan**

Traditionally a quite time of year for the Squadron, this summer has been a little bit of an exception, with activity seemingly never ending. At the start of June the core of 'weekday ' Squadron HQ ably lead by **SSM Karen Swan**, and with a good number of those from the Troops took part in the Annual Adventure training, which consisted of completing the second half of the Southern Upland Way. This was just the way to introduce our new **PSI (Tech) Sgt Chris Kelly** to the Squadron, including **Sig Mick Larkin** who won the prize for greatest dedication to Iron Bru – never letting a bottle of the amber nectar leave his hand during the walk. There was then scarcely time to draw breath when the next weekend was upon us, with an ITD weekend where everyone shot the APWT, some were able to fire 9mm, and we completed the TA CFT, with a BBQ thrown in, on the Saturday evening.

Then as July began, a select few members of the Squadron deployed in support of the Annual CCF Central Camp at Cultybraggan, whilst **LCpl Pete Tierney** and **Sig Catherine Hinkley** were away to London as part of the Pipes and Drums display at the RMT 2000. Now as the month closes the Squadron has deployed into the field in a final work up for the NCRS component of our annual camp, with a delegation lead by OC **Maj Donald Gordon** and **SSM Karen Swan** representing the Squadron at the local branch of the British Legion as they mark the Queen mothers birthday.

We have also dispatched three of the squadron east bound to Former Yugoslavia, **Cpl Garry Ballantyne**, and **LCpls Joanne Mondie** and **Anthea Purvis** all having recently left for Chilwell. The term 'changing of the guard' seams more apt as we look forward to the return from BATUS, of **Cpl Carol Wight** (after a year across the pond), and **LCpls** 'Bob' **Nursimiloo**, and **Rob Lawson** having been away for six months. Finally, congratulations from all in the Squadron are extended to **LCpls Pete Tierney** and **Chris Marshall** on their respective weddings, and wish them luck long into the future.

CO **Lt Col R. J. Steed MBE**
RSM **WO1 R. D. Cowan**

The climax of the training year resulted in Ex Arrcade Falcon 2000. The Regt's Annual Camp took place in Germany over the period 10-24 June 2000 in the Nordhein Westfalen area. This was the Chief G6, HQ ARRC's annual comms FTX to practise the deployment of NATO level 2 CIS facilities in support of HQ ARRC. It was a thoroughly successful two weeks with many lessons learnt - especially in the area of movement! Not only was the Regiment busy with camp, we also had the Regimental Shooting Team 'dusted off' and competing again as well as a RHQ expedition to South America - the Adjt, **Capt John Harrington** would do anything to get away from his desk!

Congratulations must go to **WO1(RSM) Rod Cowan** for passing the WOAB - next stop Families Offr?! A fond farewell to the Adjt who leaves to be a student in Blandford on the next CISM course in September, **SSgt Allen** who has returned to NI, and **Cpl Fitzgerald** who goes to 2 Sig Regt. A warm welcome goes to **SSgt Heslop** and **Cpl Neal**, their replacements. The following is an account of the Squadron's experience of Annual Camp, followed by a taster of what happened on the Regiment's expedition to Ecuador!

55 (HEADQUARTERS) SIGNAL SQUADRON (VOLUNTEERS)
Sqn Comd **Maj W. Wyper**
SSM **WO2 P. Williams**

Over the past couple of months the Squadron has been very busy. The Squadron supplied the majority of the Regimental Shooting Team that competed very successfully in the Brigade SAAM and also the Corps SAAM.

The Sqn OC receiving his trophy from the Bde Comd

The Squadron had a very successful Summer Camp. We deployed with the rest of the Regiment and 11 Sig Bde on Exercise Arrcade Falcon on Saturday 10 June via Hull, Folkestone, the Channel Tunnel, (Euro 2000 Day in Brugge), Flushing and arrived at Ayreshire Barracks, Monchengladbach early morning on 12 June. After the remainder of the Regiment had deployed into their field locations, the Squadron deployed to Dulmen and was co-located with 34 Sig Regt's Ech. After a couple of days, Ech was moved to a site the Squadron know and love, a boggy car park on Sennelager Training Area. Luckily this year it didn't rain and not everyone's boots had turned grey from that special mud. During the visitor's weekend the Squadron was visited by the Regimental Honorary Colonel, **Professor Peter Toyne**. He met as many of the Squadron as possible and thoroughly enjoyed his stay.

42 SIGNAL SQUADRON (V)
Sqn Comd **Maj M. Cummings**
SSM **WO2 G. Ward**

EXERCISE ARRCADE FALCON 2000

The Squadron's specific task was to deploy its trunk node, (TN 031) Secondary Access Node, SCRA and associated Radio Relay Assets together with an ELG to act as the Squadron Command post. As the Squadron rolled out of Rusholme, Manchester, the sun was beating down out of a cloudless sky, which proved to be the norm for the next 15 days of camp with the weather, if anything, becoming hotter as we headed towards Germany. Space on the ferry from Hull proved to be at a premium, which meant that the vehicles were loaded on to two separate boats and sailed for Rotterdam and Vissengen, Europort, respectively, with a small party of soldiers to keep an eye on them. Meanwhile, the bulk of the Regiment was 'coached' down to Folkestone to overnight in Napier Barracks and enjoy the delights of flat southern beer. The next day they were whisked through the Channel Tunnel to be reunited with their vehicles once more. It was certainly different, but it did mean a good night rest in Folkstone and proved to be a novel trip through the tunnel, a first for many members of the Regiment.

Once on the continent, the Squadron moved up through the low countries and Germany to the Brigade concentration area in the wide open spaces of Ayreshire Barracks in Moenchengladbach, to carry out PACEX procedures and to shake out the comms equipment before deploying to initial locations for the exercise, proper. This took place in and around the Biefefeld and Paderborn areas where a Ptarmigan and Euromux network was established before HQ ARRC began moving comms assets around the beautiful Germany countryside. This was an anxious time for the Sqn 2IC, **Capt Dave Titheridge**, who was acting as Sqn Cmdr in the absence of the OC. However, our switch remained well behaved and our shots came in on cue which was most satisfying, proving that most of the lessons learnt earlier on in the training year had not been forgotten.

The Regiment closed in on Sennelager for the military training phase of the exercise and experienced the special pleasure that only the wearing of full NBC clothing and equipment on a very hot day can bring. By now thoughts were turning to R&R, and visions of cool German beerkellers and other delights were understandably becoming uppermost in most soldiers' minds. R&R took place from Krefeld, at Bradbury Barracks, and was to take the form of a 24 hour pass. Surprisingly everyone made it back on time to form up and commence the long trip home. Once more the movers had arranged for drivers to part company with their vehicles at the port and to be coached a few miles down the coast to Zeebrugge to travel across on the 'Norwind', a particularly comfortable North Sea Ferry. This proved most popular and enabled the camp to finish on the highest of notes.

WO2 Graham Ward manning the Sqn Command Post,
'That's far too difficult, ask me one on defence.'

A happy 42 Sqn
prior to moving back to the UK after a successful camp

The 'A' team.
The Squadron's long suffering but ever-cheerful permanent staff (L-R): Sgt 'Fitz' Fitzgerald, Sgt 'Taff' Powell, SSgt Sam Faulds, SSgt (FofS) Gaz Clapham and Sgt Chris Glover.

59 SIGNAL SQUADRON (VOLUNTEERS)

Sqn Comd **Maj Chris Heaton**
SSM **WO2 Patterson**

59 Sig Sqn (V) took their part in Ex Arrcade Falcon in Germany as well. The Squadron deployed from our TA Centre in Deysbrook Barracks in the early hours of Saturday 10 June delivering our vehicles to Hull docks by 0700hrs for ferrying to Vlissingen in Holland. All Squadron members then began what was a very interesting movement phase to meet up with the vehicles in Vlissingen and convey them onwards to Ayreshire Barracks Monchengladbach. On Sunday morning we remounted our trusty chargers and travelled to France via the Tunnel which was a new experience for most of us. We then travelled to Flushing for the short ferry journey to Vlissengen.

On arrival in Vlissingen we took over our vehicles and drove to Monchengladbach and immediately commenced a PACEX to check out all equipment and installations prior to deployment into the field. Following this phase we then deployed into the field under the command of our acting Squadron Commander, **Capt Cheryl James** who was ably supported by the SSM, **WO2 Bob Paterson.**

OC Sqn, Capt Cheryl James and SSM Bob Patterson arriving at initial location with Secondary Access Node 886 and putting on a brave face for all to see

ACCESS TROOP

Access Tp, commanded by **Lt Tony McFarlane,** had a very good communications exercise which was typically well supported by his admin staff.

Lt Tony McFarlane, SSM Paterson and the CO, Lt Col John Steed carrying out a hygiene inspection of the Cooks tent. The Hon Col, Col Peter Toyne can be seen in the background sampling the fayre

SSgt Ken Smith explaining to the Hon Col how to set up a sun dial clock supervised by Lt Tony Mcfarlane and the CO

The Exercise play staff bit off a bit more than they could chew when they unwittingly attacked SAN 886. **SSgt Ken Smith** a new addition to the Troop from 264 (SAS) Sig Sqn created a Mexican stand off against the aggressors and their oversized German sheepdog. **SSgt Smith** who has spent many years with the special forces was the first to admit that without the assistance of **Sig (Tpr) Lee Downing** the result could have been different.

TRUNK NODE TROOP

On deploying into the field, Trunk Node Tp had an easier ride than some people. This was due to their location being very central to the exercise scenario. Ably led by **Lt Paul Knight** and supported by **2Lt Jo Down** the troop finished the exercise with two very quick moves separated by extremely long drives through the German countryside.

At the end of the exercise all vehicles and manpower returned to Bradbury Barracks in Krefeld staging through Ayreshire Barracks to discard fuel and gas empties. The next day in Krefeld saw a pay parade that is always well attended and the start of our days R&R in Krefeld and Dusseldorf. On the completion of R&R we returned to the UK via Zeebrugge and Hull to arrive back in our TA Centre on Saturday 24 June. All members of the Squadron had a very interesting and challenging time and look forward to the next sorte overseas.

EXPEDITION TO ECUADOR

EXERCISE EBOR PONCHO - *by 2Lt R McLeod*

On 4 July 2000, eight intrepid volunteers from 33 Sig Regt (and one from 14 Sigs) embarked on a journey of a lifetime to the wilds of South America. The budding explorers were:

Capt John Harrington - Adjutant, and expedition leader
Capt Bob 'I'm old enough to be your father...' **Dobson** - RAO in 'normal' life, and holder of the purse string on the expedition.
Lt Ath 'Sturdy Girl' **Mayo** - From 14 Sig Regt (EW). JSMEL(S), Fluent Spanish speaker, and generally indispensable person.
2Lt Ross 'Numpty Sticks' **McLeod**.
2Lt Jo 'Has anyone got any toilet roll?' **Down**.
Sgt Mick 'Yoda' **Watkinson**.
LCpl Scott 'Has anyone got an iron?' **Wilson**.
LCpl Geri 'It's crap! I wanna go 'ome!' **O'Brien**.

The following is an extract from the official diary by way of a taster!

Tuesday 4 July: Met at Deysbrook Barracks, Liverpool. **Capt Harrington** had masses of kit, in fact most of the party had too much kit. During the way through customs at Manchester airport **LCpl O'Brien** was stopped and interrogated as to why she was carrying needles at the airport (for the first aid kit). Not a good start! Next was a brief stopover in Amsterdam before flying on to Quito, the capital of Ecuador. Having looked through the guidebook, beer in hand, **Sgt Watkinson** declared, 'It's gonna take some beer to make these birds look pretty...' After a nine-hour flight we arrived at Curacao, in the Dutch Antilles, where we stretched our legs for an hour. **2Lt Down** managed to lose her passport for a short period, before finding it again on the aircraft, much to our disappointment as we began to think of how we could spend the extra CILOR!

Wednesday 5 July: Arrived in Quito early in the morning, after a very long, drawn-out journey. Quite a few people noticed the lack of oxygen. Quito is at, just under, a height of 10,500 ft. **Capt Harrington** had obviously picked up a few tricks from **2Lt Down** as he managed to leave his immigration documents on the plane, and had to go back from immigration control to receive them!

Thursday 6 July: Today was scheduled to be an admin day as well as acclimatising in Quito. We took the opportunity to visit the Instituto Geografico Militar, to collect maps. Checking in at the embassy, the Political Advisor gave us up-to-date information on the viability of some of the routes that we had planned and as a result we had to slightly change some of our plans.

Friday 6 July: We spent this day acclimatising by walking in the local area. Some people are still finding it difficult with altitude. In the evening we visited a restaurant recommended by **Lt Mayo**. We turned up and it was empty. First warning sign; A 'merry' South American type said that the chef was away but he was doing it. Second warning sign; He then said that some dishes were better than others, and recommended Pork chops, and chicken. (Translation - this is all he can make...) We ordered the first course. During the delay the chef-replacement stumbled outside and engaged in a 'heated' conversation with a man in a 4WD outside, started fighting, and eventually ended up on the floor. The first course did arrive after a long wait with plenty of excuses (and garlic bread to keep us quiet). This was followed by more fighting outside. The food arrived cold. The thought of not paying was not entertained due to the presence of a shotgun-carrying security guard. We paid for what we had eaten and left hastily.

Saturday 8 July: Started trekking at Tombacco. We got the bus there and traversed up the side of Illalo before dropping down the other side to San Peblo. The total journey of about 15km took about 61/2hrs. The highest point was 3200m and most felt the effect of the altitude. This was the first real chance to gauge the effect of altitude with weight on our backs, having done some previous minor walks. Everyone was completely exhausted afterwards. We almost got quite a bargain, though, when one of the farmers we passed on the way down offered five camels in exchange for **2Lt Down**. Unsportingly she refused to co-operate and we had to decline the offer, useful as camels would have been for carrying our bergans. Still not everyone was convinced that she was worth five camels, **Sgt Watkinson** declaring, 'He must be drunk'.

Monday 10 July: A bus ride to Loma Santa Cruz with the aim to do the three peaks of El Chaupi started the day. At the very bottom of the first hill **LCpl O'Brien** started plaintively wailing - 'No one told me there were mountains in Ecuador! I thought we were walking around hills.' We successfully completed the first peak of El Chaupi. Although it took us far longer than expected. We were, at last, in a position to ascend the second peak of El Chaupi. It was mid-afternoon and as the extraction march would take up to a couple of hours the decision was made to go directly to the bus station, some 6km away. The guide book seemingly having been written by some sort of ultra-acclimatised fell runner, or certainly, someone far fitter and faster than our group.

Wednesday 12 July: The day started with a bus ride out to Pappallaca, which took a few hours. We started walking at midday and within 45 minutes we were engrossed in a steep, muddy climb. Combined with the very low cloud base a thoroughly wet and muddy time was had by almost everyone. **LCpl O'Brien** managed to fall a few metres and although she wasn't sure whether she wanted to scream or giggle she managed to give everyone ahead of her a shock that she was in trouble. The terrain was secondary jungle, a small fact that the Ecuadorian maps had omitted to denote. Camping sites were impossible to find and we ended up pitching our tents under a local farmer's barn roof. Unfortunately, not satisfied with providing a roof over our heads the farmer's pack of dogs also provided a musical accompaniment for the rest of the night, much to our chagrin.

Sunday 16 July: Today we attempted the highest mountain so far - El Corazon, at just under 5000 ft. In addition to the altitude the weather was extremely windy, so for the last 400m of ascent we decided to attempt the hill with half kit. Unfortunately, after about a hundred metres the complete absence of a path, in favour of tons of scree, no security, and the high winds made the climb very unsafe so we had to turn around.

Tuesday 18 July: After a far harder climb than anyone was expecting we arrived at the 'New Horizons Refuge' at 4600m. **Sgt Watkinson** was suffering from the beginnings of AMS so he decided to wait until the morning to decide whether or not he would ascend.

Wednesday 19 July: Starting at 0600hrs we got our kit together, and began the ascent. **Sgt Watkinson's** headache hadn't improved overnight and after a few hundred metres he had to turn back and remain at the refuge. The remainder of the group continued up Iliniza for about two hours until we were within about 300m of the summit (in height), but at this point the presence of snow from the previous day prevented us from continuing and we turned around. The remainder of the day was spent descending Iliniza and then getting transport back to Quito.

Friday 21 July: We decided for the last two days of the expedition prior to R&R peaking Imbabura. Unfortunately, about halfway up the heavens opened, the temperature plummeted and the mother of all hailstorms began. With the mountainside being at a 45% angle we had no option but to push on. We eventually reached what was a relative plateau - at a gradient of only about 30%. A scramble to get the tents up was delayed by **Lt Mayo's** discovery that she had lost the tent poles on the way somewhere up the mountain, so we were down to two tents. A thoroughly cold, wet, and miserable night followed.

Saturday 22 July: Fortunately by the morning the previous night's hail had frozen and the weather, although bitterly cold, was at least dry. Our spirits improved further when a group of tourists who had started the ascent at 5am came past and gave us the tent poles that they had found on their way up. We spent three hours climbing Imbabura and after an hour's descent to the campsite we packed up the tents, which had now dried, and walked down to La Esperanza. After a much-needed meal we went back to the hostel, packed our kit for R&R and placed the remainder in storage.

XXXV

35 (SOUTH MIDLAND) SIGNAL REGIMENT (VOLUNTEERS)

CO **Lt Col S. J. Potter, TD**
RSM **WO1 (RSM) P. Marshall**

IRRITABLE TOWEL SYNDROME

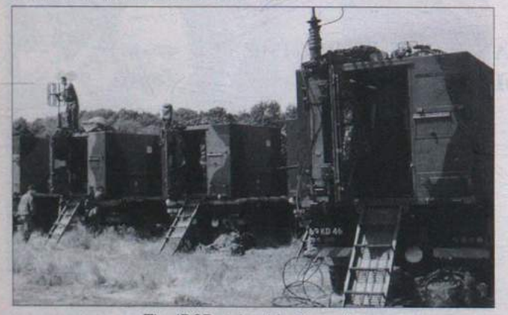
Before I continue with the Regiments report on our Annual Training in Germany I feel compelled to return to the recovery phase of my gutwrenchingcheekclenchingtrouserdrenching encounter with e-coli. Thankfully our good Doctor, **Maj Raziur Rahman** introduced me to the indisputable benefits of immodium and relief I believed was but a swallow away. What I forgot to mention was that I gave the immodium an unfortunate boost by taking it with a kaolin and morphine chaser that produced some rather unpleasant side effects. Consequently I spent the first week of the exercise confined to the nearest portaloo – the dehydration caused by the unusual hot weather didn't help either and by now my laundry was building up! Rather foolishly I carried on self diagnosing my problem and introduced other self binding remedies that included, when I was feeling a little better, huge amounts of vegetables with the emphasis on cabbage, sprouts and onions. For good measure I added a packet of fibregel to my daily diet. This as any doctor will later tell you is a rather volatile combination and I am still recovering from the unstoppable chain reaction and resulting gastric explosion that led to

more than a week off work (the first in my illustrious military career) on my return from Germany. To conclude this comedy of errors I have to report that I was, however, immensely relieved to arrive at RAF Bruggen for our R & R Phase and believed that because of my affliction I could claim priority to use the laundry room. Needless to say I received little sympathy and a hapless battle of wills took place as many devious attempts were made to use the only washing machine. By now I had used up all my clean towels and other essentials so I was pretty desperate. Because every effort I made to get in during the day was thwarted, by I have to say the female of the species, I set my alarm for 0400hrs. Despite my sense of foreboding when I entered the laundry room and found the machine full of washing, it had fortunately reached the end of its cycle and I was in business! But even then I just made it, for literally seconds later a clearly irritated **Maj Ricky Logan** who had the same brilliant idea, walked in the laundry room behind me, needless to say we shared the machine!

I won't bore you with my other experiences and strange encounters. However, for those of you who are interested the burn on my hand that I received when I tried to climb on top of a Radio Relay at Suchteln, by holding onto the generator exhaust outlet, has almost healed. Also the damage to my Damcon minibus, when I drove it into the only hole in the ground at Veldhoven was only minor! The aerial on the CO's car that I inadvertently took through a car wash has now been repaired and the jug of coffee that I knocked over the SCRA Plan in the BSV has not caused any permanent damage. I have also been assured by the RSM, that, following my efforts at RAF Bruggen, I am now a fully integrated member of the TA. Finally some pieces of useful advice; never ask a limb-less person for directions, never divulge your innermost thoughts and fears to a friendly ear until you find out who it is and never walk onto a range uninvited unless……..!

EXERCISE ARRCADE FALCON OVERVIEW

Despite our now unforgettable deployment to the continent, Regimental assets finally begun the move into designated field locations that stretched from Kerken to Detmold during the early hours of Tuesday 13 June. This was preceded by a succession of essential briefings and IBCP at Ayrshire Barracks, Monchengladbach. It has been some years since the Regiment had deployed over such a wide area and it presented a daunting challenge that the CIS Ops (or is it OSC) staff where only too keen to meet. The enthusiasm to meet this challenge on the ground from the Trunk Node to the mobile element's was infectious and it was clear that everyone had now put the miserable outward journey behind them, and providing the ARRC and Brigade staffs with a comms blanket became every-ones priority. The last Regimental Commex was but a distant memory and some neglected and forgotten skills had to be quickly restored to achieve the aim of the ex. In addition our most recently qualified operators were anxious to prove their worth and verify the training invested in them. The initial phase went extremely well and links were established quickly and efficiently which pleased the CO, **Lt Col Stephen Potter** who was delighted to report that the Regiment performed magnificently, communicated consistently and effectively and achieved our aim and mission. This message was quickly disseminated and some of our new operators in particular beamed with pride at this accomplishment. So impressed was **Sig Robert Blake** of 48 Sqn with his own personal performance that he has ordered multiple copies of the photograph of him working on his Radio Relay to distribute around his family and friends. **LCpl Jackie Sheldon** of the same Squadron would have liked to have shared in his exultation's but found herself without a vehicle when it suffered a major technical failure but later admitted that she had an excellent exercise. These sentiments were typical throughout the Regiment and clearly indicated that morale had been fully restored and we were now back in the business of not just communicating but communicating well. Not everything was plain sailing however, and like every major exercise things for one reason or another do go wrong. This is a fact of life and is often unavoidable and we are usually the casualties of unusual and unique circumstances beyond our control. Mistakes are made, tempers are frayed, reputations are laid and victims are made. This is all part of the almighty learning curve that brings with it future improvements, and better procedures that we can all look forward to but which also needs to be combined with a sprinkling of understanding and sympathy for the planners and organisers.



The IBCP at Ayrshire Barracks

Sig Robert Blake adjusting his line of sight

Sig Adrian Proffitt practising his radio operating skills

ATTS & DETS

The Regiment was pleased to have elements of 60 Sig Sqn on board throughout the exercise as they provided excellent back up and movement communications and a special thank you is extended to **Maj Gavin Miles** and his team and to all of the other individual attachments to the Regiment. A special thank you is also extended to the press group; **Sarah Chapman** of the Stoke Sentinel, **Dan Bardsley** and **Joe Bailey** of the Rugby Advertiser and **Cathy Spenser** of the Shrewsbury Chronicle who provided the Regiment with some excellent post camp coverage. Hopefully they will now join us on Regimental Weekends. It was also gratifying to have a high profile role during the Exercise when elements of 89 Sig Sqn provided SCRA(T) for the Comd & Dep Comd of 11 Bde and the COS. Reports have filtered through that these dets proved highly successful and greatly impressed the Brigade staff and that the Bde Comds' crew in the shape of **Cpl Adrian Proffitt** and **Sig Michelle Carvell** have both left an indelible impression on the Bde Comd with their outgoing personalities. The Dep Comd was equally impressed with his crew headed by **Cpl Tracey Haggan** ably supported by **LCpl Richard Teale**. Meanwhile the COS (for a while at least) had the company of a one man band in the shape of **LCpl Daniel Stacey** who was relieved to be joined by **Sig Kez Rea** for Week 2 of Camp.

The Brigade crews together with the Deputy Commander

VISITORS WEEKEND

It has now become a well established tradition to host a visitors weekend on annual training in Germany and this exercise was no exception, except of course that the number of visitors was down on previous years. Unfortunately no mayoral visits took place because all were bound by other commitments but the Regiment was pleased to host a visit from GOC 5 Div, **Maj Gen A. P. Grant Peterkin OBE**. The GOC spent over an hour with members of 58 Sqn on the Sennelager Training Area and was hosted by **Capt Dominic Hope** and the CO throughout the visit. The Regiment was also delighted to be visited by the Honorary Colonel, **Col Brian Foxon OBE, ADC, TD** who was accompanied by the 2IC, **Maj Richard Hemmings**. The Honorary Colonel took time out to visit as many field locations as possible and achieved his aim of talking to most members of the Regiment. We do, however, hope that he has now got over his experience of unexpectedly sharing a room with **Sir Nicholas Bonsor** in the NATO Mess at Sennelager – but at least it can be the source of an amusing anecdote. The mystery of the missing maps, however, has still not been resolved!

GOC 5 Div with Capt Dominic Hope

STRANGE ENCOUNTERS

Talking about anecdotes I couldn't close this annual camp edition of *The WIRE* without relating some of the amusing incidents that always occur during annual training and this camp was no exception. Least said about the CO's birthday surprise the better – the stunt to mislead the CO into believing real beer was available was uncovered when the CO found the evidence (i.e: the non alcoholic Beck's) before the surprise was sprung. Meanwhile somewhere on the Bielefeld Ridge **SSgt Andy Lloyd** was been ticked off by **Capt Allison Swain** who was suffering the indignity of finding a tick embedded in her posterior and less than politely refusing his offer to remove it free of charge. An unconfirmed report that the Trg Maj, **Maj Tudor Hill**, on a morale boosting walk around came across two RR Ops and asked them who they were? One replied, 'I'm **Sig Brown,** Sir,' while the other simply stated, 'I'm bollocked,' – exit a bemused TM.

Staying with the TM for a moment, he had such a fine time relaxing at Roermond during the R&R phase that later that evening he was seen to be having a totally unintelligible conversation with the Adjt. It was something of a revelation that both had clearly mastered the Double Dutch language. At a picturesque field location close to Venlo, **LCpl Sam Maguire** and **Sig Rees Manford-Jones** found out to their cost that you cannot squeeze a 120cm wide vehicle through a gap in the trees 118cm wide without causing substantial damage to the environment surprisingly the vehicle escaped unscathed! Finally what on earth were **Maj Steve Pell** and **Capt Ruth Emphson** doing with their NBC kit in Hanger 17. The TM (yes he gets everywhere) commented that they looked a little sheepish but certainly not as sheepish as the SPSI of 58 Sqn as he attempted to explain why there was a dead calf at the rear of TN 038's CP.

ROVING REPORT

Any thoughts of relaxing too much after camp were dashed when the Regiment quickly moved up a further gear to its continuation-training phase and participation in Ex Silver Bounty 1 at Beckingham. The Exercise, which was held over the weekend 14/16 July, had a triple purpose. They were to give the TA the opportunity of carrying out ITD training towards bounty, to engage in other useful training offered as background activities and to give everyone the opportunity to socialise and get together at a well organised barbecue. This just happened to take place outside the CO's accommodation. The weekend, despite falling in the middle of the summer holiday period, was very well attended and many members of the Regiment completed at least three ITD qualifications as well as having a useful and exciting introduction to the 94mm rocket launcher. Uniquely all of the instructional effort during the weekend was provided from members of the TA that bodes well for the future. So, for the first time in living memory, the Permanent Staff Instructors were more than content to stay in the background in a supervisory role and even volunteered to deliver norgies of stew for lunch. This of course was to ensure they didn't look too redundant! The regiment was also pleased to receive the Dep Comd of 11 Bde, **Col R. Davenport, TD** as a special visitor during Saturday's training events.

Later that month 89 Sqn had by all accounts an exciting but unusual survival-training weekend held at Swynerrton Training area. I say unusual because instead of having to trap and find food the organisers **Sgts Dave Wright** and **Kevin Bannigan** came up with the idea of having a number of checkpoints that team members had to go through to avoid capture by a notional enemy. On arrival (that is if they found the checkpoint) they had to answer a series of questions. If they answered correctly they were given cryptic directions to hidden food either vegetables or the contents of a 24-hour ration pack. Needless to say no one went hungry and the local chickens stayed safely in their pens!

LCpl Hughes ready to launch at Beckingham

EXERCISE SILVER DRAGON

Unfortunately the Regimental report on the skiing expedition to Zermatt in late April arrived far too late for the last edition of *The WIRE* and is therefore being included here. What follows is a revealing but belated report from **SSgt Rod Shelton Smith**.

On 28 April a party of twenty-two began their journey to Zermatt. After 27 hours travelling we finally reached our destination and after settling in and ski issue a well-deserved rest was taken. The next day suitably dressed, including some very unusual headgear we took the ski lift to the top of Klein Matterhorn and proceeded to be divided into groups according to ability. Then the hard work started for our intrepid instructors but by the end of the day all participants, even though exhausted, had enjoyed every minute. Day Two provided the incident of the week when **Sig Laura Burrows** reached the top of the mountain, she suffered a severe abdominal attack and had to be airlifted to Visp hospital. Fortunately it was nothing serious and she returned to do battle with the piste 48 hours later. The remainder of the week passed, in glorious sunshine, and the group skied not only on the Plateau Rosa Glacier, which has some 12.5 miles of marked runs, but also on the Breuil-Cervinia ski area in Italy, which doubled the ski area available. The most improved skiers included **Sgt Nav Muhammad, LCpl Avril Forsythe, LCpl Brian Reid** and **WO2 Mick Kearney** who made his mark by going from non-skier to Basic skier (Bronze award) at an age some would consider giving up the sport. Our instructor's, who included ex-Adjt, **Capt Andy Talbot** and ex-PSI, **SSgt 'Jock' Reid** even gave us an insight into off-piste skiing that resulted in many tumbles.

Although there were no incidents requiring further medical attention one worthy of note was a spectacular tumble by **SSgt 'Road' Shelton-Smith**. Fortunately he suffered no injuries but his pride was a little dented. There was, however, a lot of aching muscles and one or two team members took advantage of a massage service provided by **Avril Forsythe**. For most of us though the Après Ski was better than any massage, as I'm sure **Cpl Andy** 'I can drink more red wine than anyone' **Carroll** can testify. The week ended with all members being awarded the Basic Ski Proficiency award and some achieving even higher levels of competence, but perhaps more important was that everyone enjoyed themselves and want to become even more proficient. Finally every good adventure training exercise requires the 'backroom' staff and our chef, **Cpl Karen Dilley**, served up a variety of excellent meals that were designed to keep energy levels at their highest including abundant supplies of daily packed meals and snacks. Following an excellent expedition all team members returned safely to Canley in the early hours of Sunday 7 May.

HEAD IN THE CLOUDS

To close this edition of the unit's contribution to *The WIRE*, **Sig Peter Cater** has submitted the following report of his hair-raising experiences on his recent parachute course.

When I was asked to write a report on parachuting I knew it would be extremely hard to describe the feeling of one of the greatest experiences in my life but I tried and here goes…..

My first jump was to say the least intense. After one and half days ground training I was eager but a little wary and nervous. The real fear struck me as I boarded the aircraft and it quickly ascended to our jump height. I kept telling myself I was perfectly safe but the nervous twitches it my body seemed to tell me otherwise. Then everything happened in strict synchronisation – on the command 'Cut' I handed over to the instructor my static line. 'In the door', in front of me 3500ft of open space, behind me the plane that only a mere three seconds ago I thought was unsafe now seemed very inviting! 'Go', I was out, looking back at the plane as we drifted away from each other – then the chute jerked open. Breathtaking, I was now flying 3000ft above the earth and everything below me just looked like a map, I felt like a king!

The sheer exhilaration had driven the drills out of my head, but I didn't care, I flew my canopy – I had the power in my hands to go wherever I liked. The ground though began to approach rapidly and as I came into land the drills I had practised over and over again clicked into place and I landed softly with a great sense of pride and achievement. Would I do it again – of course I would!

Relaxing before the jump

36th (EASTERN) SIGNAL REGIMENT (VOLUNTEERS)

CO **Lt Col W. Brown TD**
RSM **WO1 (RSM) D.T. Eaglesham**

This has been another extremely busy period for the Regiment. RSIT, PRE and two major exercises within weeks of each other, in tandem with a change over of Commanding Officers, have done much to concentrate the minds of both TA and Regular soldiers. In addition, several of our TA soldiers, SNCO's and Officers have deployed on operational tours to Kosovo and Bosnia.

WELCOMES AND FAREWELLS

Every soldier within the Regiment welcomes **Lt Col William Brown TD** back into the fold as Commanding Officer. After a six year sojourn with 11 Sig Bde and 31 Sig Regt (V), he has returned to the Promised Lands known as Essex and East Anglia, officially taking over from **Lt Col Allan TD** on Saturday 8 July. **Maj J. R. Nixon** (AGC), our new RAO, joins the Regiment on a free transfer under the Bosman ruling from the RFCA (the organisation formerly known as TAVRA). A driving force within the Army Youth football system, **Maj Nixon** will lend some much needed assistance, and football knowledge, to the RAOWO, **WO2 Gordon Cameron**. Another newcomer to Ilford is **WO2 (RQMS) Steve Russell**, who joins us from 15 Sig Regt – welcome, and get that CS95 sorted out, RQ! The Regiment has welcomed two new PSI's into its tight knit community over the last few months. **SSgt Gerry McGachy** joins us on promotion from 1 (UK) ADSR and, questionable choice of football team aside, has already proved to be a fine addition to the team. **Sgt** 'Tosh' **Hodgskins**, fresh from the factory that is Arbourfield, has also hit the ground running; both are currently employed with 45 Sqn.

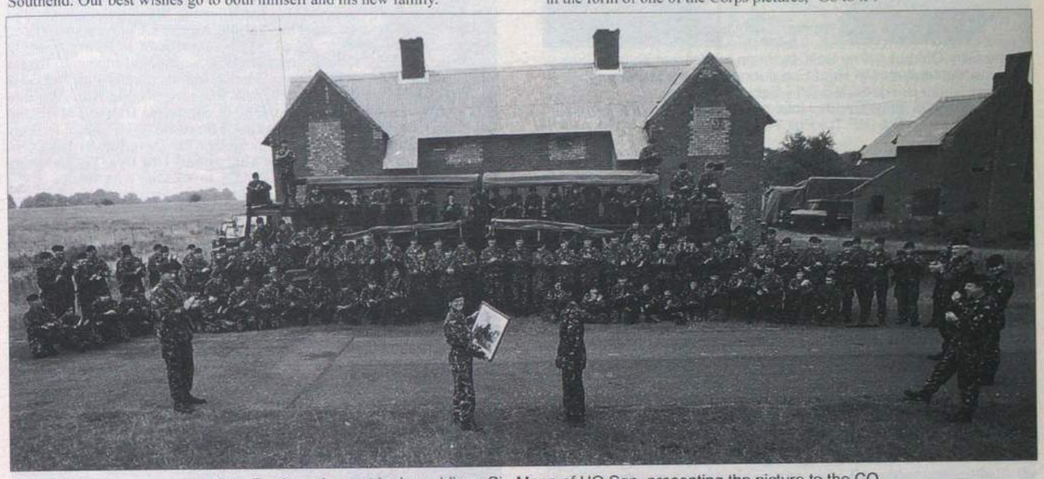
Sadly, we have also had to say farewell to some old friends who have served us well over the years. **WO2 (RQMS) Tony Gaston** leaves the Army after 22 years distinguished service (or so he would have us believe). After making many friends within the TA, he will be sorely missed, especially by the QM who has lost virtually 100% of his cigarette supply in one fell swoop. **SSgt (SQMS) Gordon Brogan** leaves 44 Sqn on retirement after having worked there for more years than he would care to remember. His farewell lunch will be remembered for the beautiful quaich ($^3/_4$ full of Lagavulin Malt at the time) that he presented to the Sergeants' Mess, as well as the gargantuan hangover that he left the RSM with the following morning – guess where the whisky went! **Sgt Nige Back** is posted, on promotion, to 30 Sig Regt, and will be missed both within 45 Sqn at Colchester and the Regiment. **Nige** has often been likened to a typical Officer, mainly because of his expertise with map and compass – needless to say, his wife is navigating the family to Bramcote! Last but not certainly not least, **Sgt Mick Eades** leaves the Army for Civ Div after spending the last eight or nine months in 'isolation' down at Southend. Our best wishes go to both himself and his new family.

The new Commanding Officer, Lt Col Brown TD (R), accepting his new company car from Lt Col Allan TD (L), with WO1 (RSM) Eaglesham in attendance

THE FAREWELL (S) TO LT COL JACKIE ALLAN TD

The Regiment recently bade a sad farewell to its Commanding Officer, **Lt Col Jackie Allan TD**, who left us after virtually 24 years of unbroken service. The Officers' Mess started the proceedings when they dined **Col Jackie** out on Saturday 17 June. The evening took the form of a Ladies Dinner Night, and in recognition of her musical talents and interests the CO was presented with a fine statuette of a Scots Piper. The evening was rounded off nicely by the surprise appearance of a stretch limousine, which the Adjutant, **Capt Russell Edwards**, had organised through some of his shady associates, and the CO duly left the Officers Mess in great style.

Ex Mars Marathon, held over the 1/2 July, gave the CO a final chance to see all her Regiment together in one place at the same time. It also provided the perfect opportunity for the Soldiers within the Regiment to present **Lt Col Allan TD** with a token of their respect and appreciation, in the form of one of the Corps pictures, 'Go to it'.



One of the Regiment's most junior soldiers, Sig Mann of HQ Sqn, presenting the picture to the CO
(Thanks go to the Ops Offr, Maj White, for the use of his house as a back drop)

The CO's final farewell came on the evening of 22 July, when the WOs' and Sgts' Mess dined her out. After so many other functions, and given the dangers of repetition, the decision was taken to go for a slightly different approach to the proceedings. A large amount of research by the PMC, **WO2 Terry Butler**, and his PEC, **Sgt Tim Gamble**, in tandem with a friendly agent deep within the **Allan** household, gathered the photographic and film evidence. This, allied to the technical wizardry of the Foreman, **WO2 Phil Holland**, led to a film and slide show that surprised, entertained and educated (Educated? Well, we all now know where to go for a recuperative mud bath, and that it's best to destroy any photographic evidence straight away!).

After the CO had been presented with a bronze Jimmy, and, in turn, had presented the Mess with a crystal decanter, the evening was rounded off when **WO2 (RQMS) Eddie Kikas** gallantly offered to drive **Lt Col Allan** from the Mess on the back of his motorbike, an offer which she accepted with some relish.

The RSM presents the CO with her leaving gift on behalf of the Warrant Officers' and Sergeants' Mess

MERCURY SOCIETY GOLF CLUB - *by Ron 'Bandit' Russell)*
Report on the Regimental Meeting held on 19 July 2000

On a brilliantly sunny July morning, 14 members of the Regimental golfing society tucked into bacon buttys and coffee, quietly contemplating a round on the Championship Course at Stapleford Abbotts. The course had only recently been improved and the challenge was just too good to miss. A testing experience with some tight turns and well-guarded greens did not put off some of the players, and a good scoring round was recorded by quite a few. To his credit, **Gerry McGachy** played his first ever round of golf and scored 18 points. He later told a packed press box that he was gutted at losing one ball and one TEE PEG. Well, he is Scottish! **Jon Wopling** is continuing to improve within category 2, and proceeded to win the section convincingly, with **Neil Garfoot** finishing a creditable second. In the category 1 section the Chief Clerk, **Gordon Cameron**, scored an 'obscene' 40 points and will definitely be playing off a new, lower, handicap in the future. **Tony Dale** went for the money and won the nearest to the pin competition – I heard your comments, **Tony**, and you will definitely play with a stranger next time! The society has quite a few events to look forward to; the semi-finals of the knockout competition loom large on the horizon. Other than that, OC HQ Sqn, **Maj Pete Minshell**, is hoping to knock up a competition during the R & R day on camp – South Wales in September should be a challenge! (Report to follow).

HEADQUARTERS SQUADRON - *by Capt E. Feasey, PSAO*

Sqn Comd **Maj P. J. Minshall**
SSM **WO2 (SSM) A. C. Wells**

STOP PRESS!!

HQ Sqn are 'Mountvoy Trophy Champions' and March & Shoot Champions of the Regiment for the first time in some years.

Episode 3 in the HQ Sqn contribution to the Regimental *WIRE* Effort. This is the RSM's **(WO1 Dougie Eaglesham)** new project. Apparently throughout his career he has only appeared in *The WIRE* on the 'odd' occasion, normally when he has been caught out doing something strange or mysterious. In this new life with the Volunteers, he has realised the main effort of the unit is the P Info Effort (for Recruiting, Community Relations etc) and is determined to gain major 'star' coverage for himself while he still has the opportunity. We are finding it increasingly difficult to find photographs for publication without the obligatory RSM 'pose' - however we will keep on trying. The major activities in this period included the Squadrons participation in Ex Mars Marathon, supposedly a Regimental Comms Ex, which ended up, due to a severe lack of available comms assets, as round two in the new RSM's introduction to being a 'real soldier' in a field environment.

The Sqn 'Old but not so Bold' team on a brief respite from their arduous duties at Regt Ech during Ex Mars Marathon
(L-R): SQMS (V) - Sgt Les Eldridge,
SSM WO2 Tony 'Daddy I love playing enemy' Wells and
Tp Sgt (HF Tp) Phil 'Popeye' Babester.

This was the Sqn Comd, **Maj Peter Minshall's,** opportunity to demonstrate that he could still teach the young upstarts in the Squadron a thing or two. Having planned, persuaded and deployed the Echelon in support of the Regiment, he discovered to his chagrin that the No 4 Cookset came out fully kitted except for the vital gas regulator needed (PPP factor). Faced with the prospect of feeding the Regiment a cold breakfast, he proceeded to organise and oversee the building of a fire sufficiently large enough to heat the food and water necessary to make a breakfast barbecue. Burned Corn Flakes anyone? The Squadron and LAD also placed a major stand in the Redbridge Town Show that went down well with the kids and oldies at the show, but was unable to attract the attention of the target population (18-24). (Or 18 to 54 if the PSAO had his way - he seems to be trying to surround himself with the sixty's generation like himself). However, the show demonstrated to the greater population of Redbridge that the TA is still around and, of course, the evening activities of Pop Shows, fair and other female attractions went down well with the more robust younger members of the Squadron. The 'Hearts and Minds' campaign is alive and well in Redbridge.

HQ Sqn Team at the Redbridge Show
Back Row (L-R): Sig Pemberton, WO2 Smith, Cpl Egunjobi,
Cfn De Wulverton, Cpl Fisher, Cfn Sladden, Cfn Nichols, Sgt Eldridge
Front Row (L-R): WO2 Terry (look at my wings) Butler, Cpl Roberts,
Sig Pierce, WO2 Wells, Capt Needham, WO1 Grimshaw, LCpl Baynes,
Cfn Wilson, LCpl Norris, Pte Evans, WO2 Johnston

The SSM - **WO2 Tony Wells** - is a kind hearted, family man (aren't all SSMs like this), who cannot bear to see young children deprived of the opportunity to meet a real soldier. In this vein, he accepted an invitation (from the OC) to give up a Sunday and put a small team together to run a Sqn stand at the Local Primary School for their annual fete. Good organisation and a small team of willing (press-ganged) Volunteers produced a mini-assault course for the kidewinks to play with. Tony gave it his all with his team and produced an excellent stand that was enjoyed by all. This new kinder side of the SSM was immediately followed by the introduction of weekly beastings of the Squadron on drill, especially for those younger ones who are now referring to him as daddy.

The Squadron has been secretly acquiring a number of high quality younger members in the last year or so, and for the second year running was able to field a team for the Regimental Annual Military Skills Competition, The Mountvoy Trophy. The team, ably selected, trained and led by **WO2** 'Wings of Glory' **Terry Butler,** swept the board in both the Mountvoy Trophy and the Regimental March and Shoot and came away as Champion Squadron for the first time in some years. A separate report from the team is produced elsewhere, however the OC has been walking on air ever since - this does not devalue the achievement of a largely raw and inexperienced team who put in more hours than they could be paid for to train and produced a magnificent result. The whole Squadron is proud of each and every one of them. Another recent coup for the Squadron was the recruitment of the Photographer from our local paper, The Ilford Recorder. **Pte Johnnie Walker** is now safely in the net with the AGC, and will soon be snapping away on our behalf bringing a much needed professional touch to our photographic requirements.

Of course, life continues in the Ilford Spa, the daily routine of conference, conference and another meeting continues to allow the Regimental planning for its first UK camp to continue. The Squadron is intimately involved in this process and will be responsible for the administration at Castle Martin Camp in September - life gets busier. We have enjoyed a certain amount of success in Recruiting, for the first time in living memory the LAD is at full establishment and is developing a waiting list. Recruiting for the more exotic Squadron posts of Technician, Clerk etc are also going well - we do, however, remain deficient in Driving/Electrical trades and Radio Ops, but are working on it. If there are any members of the Corps out there, due to leave the Army and settling in East London or East Anglia, a second, part time career with the TA beckons - you would all be welcomed.

Arrivals among the Volunteers for the first time outnumber departures, for the Record we bid farewell to the following who left the Squadron or LAD in the last two months: **Sig Yasmin Ali** and **LCpl Ernie Kuma** on termination of service. **LCpl** 'Dave' **Davidson** is transferring to specialist RLC TA to be a 'train driver' - we are still in shock. British Rail (or successors) look to your laurels. Arrivals are **Sgt Phil Babester** as Tp Sgt HF Tp (after a brief sojourn in Civvy St). **Sig Kim Mann** to TM Tp, **Pte Johnny Walker** to the RAO, **Sig Eddie Hall** to TM Tp, **Sig Orlando Mardner** and **Charmaine Meredew** to HF Tp, **Cfn Izzy Boatey**, **Cfn Paul Edwards** and his brother **Pte Dave Edwards** RLC to the LAD, transfers in include **Cfn Sharpstone**, **Cfn Dye**, **Sig Heseltine** and **LCpl Pomroy** (from R SIGNALS to REME) with others in the pipeline, the situation is looking healthier than for some time, however we cannot afford to rest on our laurels, the effort to achieve full manning continues.

As we go to press, **LCpl Ramesh Managavasagan** is at RMAS on his TA Commissioning Course, **OCdt Christopher Iyawa** is due to go, and **Sig Imran Chaudhry** is loitering in the wings undergoing MTQ training. Just a pity that we do not have vacancies for them within the Squadron ORBAT, but are grooming them for stardom elsewhere in the Regiment. Another imminent departure from the Squadron is **WO1 (SVWO) Mick Grimshaw** who has been SSM, SVWO and has doubled as OC HF Tp for the last 18 months. No, he is not retiring but has been successfully selected for an NRPS post with 44 Sig Sqn (V) as their SQMS - our loss is their gain. Seriously, **Mick** has been a stalwart of the Sqn for some considerable time. His experience, maturity, wisdom, sense of humour, leadership and sheer weight of technical knowledge have gained him enormous respect and liking throughout all members of the Squadron. A strong social member of the Squadron and the Sergeants' Mess, he will be missed at Ilford.

HEADQUARTERS SQUADRON
MOUNTVOY TROPHY WINNERS
by WO2 Terry Butler – Team Captain

The Mountvoy Trophy Competion first started in 1984 when **Maj Mountford** and **SSgt (YofS) Mcavoy** donated a trophy to 36 Sig Regt (V). It is a Military skills competition held every year involving subjects such as First Aid, Combat Stalk, Map Reading, NBC and Command Tasks, culminating in a March and Shoot. Each TAC puts in a team of ten troops and must include one female, although this year only seven teams took part. Over the years Norwich, Colchester and Warley have provided the strongest teams, with HQ Sqn out of the running in the main. In fact, last year was our best ever result when we came sixth overall. The team from last year felt that with some prior preparation for the competition we could do a lot better. With five members from last year still keen to participate, new blood was drafted in and the team that started was as follows: **WO2 Terry Butler** (team captain), **Cpl Michael Egunjobi, LCpl Dane Macintosh, Sig Lee Marshall, Sig Reggie Cullumbine, WO2 Keith Smith, LCpl John Rodwell, Sig Jamie Pemberton, Sig Vic Meredew** and **Sig Glen Thompson.**

A training programme was drawn up and at the end of March we started fitness runs every Tuesday evening. By the beginning of June, and with the days becoming longer, bergan runs through Epping Forest became the order of the day. A final indication of the teams commitment was the two unpaid weekends used to revise all the skills required during the competition. On the first day of the competition our initial stand was the River Crossing; the team put in a very good time, which was to remain unbeaten for the rest of the day, and this set the tone for the weekend. We also came second in Map Reading, Signals, and Combat Stalk. By Saturday night we were in third place with 35 points, Cambridge were second with 36 points and Colchester were first at 37 points. We knew that we had to win the 3.7 mile battle march, but even then we had to hope that Cambridge came third and Colchester finished fourth in order for us to win the Mountvoy Trophy. The teams were set off in pairs at 45-min intervals, with HQ starting first in tandem with Cambridge, one of the teams that we had to beat. It was neck and neck until the last mile, when we had to pick up stretchers (thanks for that, **LCpl Worsfold**!), and with Cambridge falling behind we finished in 41mins 36secs, a full two mins quicker. All we could do was sit back and wait for the other teams. Some one was smiling down on us that day because Grays came in only four seconds slower than our time, pushing Cambridge into third place. The whole team waited on the finish line to see how Colchester, who were last out, would fare; all they had to do was finish no lower than third to win the Mountvoy. After a nerve wracking hour or so, Colchester came in 5mins slower than our time, putting them in fifth place.

At the end of a great weekend, HQ Sqn not only won the march but, with the points added to the previous days score, also had done enough to win a keenly contested Mountvoy Trophy. On return to the TAC the whole team celebrated late in to the night, boosting the much needed bar profits. Other Squadrons beware, though; the main topic of conversation on the night was how we will retain the trophy next year!

Stop Press: The CO took the opportunity to promote Regimental Master Chef, **Norma Miller-Kite** to Staff Sergeant during the Mountvoy Trophy prize giving ceremony – many congratulations go out to one of the biggest and most popular characters in the Regiment.

The victorious HQ Sqn Team parade their silver ware

LAD REME - *by LCpl Izzard*
The Beltring Show – 'War and Peace'

36 Sig Regt (V) LAD REME formed part of the "invasion" of the The Hop Farm Country Park, Kent, for the Millenium War and Peace Show 20–23 July. Reputedly the world's largest military vehicle show, it provides the opportunity to see everything from motorbikes to main battle tanks pluse 400,000 square feet of stalls full of military kit and memorabilia of all kinds. This was the third year running that the LAD has attended this event with the aim of putting the Regiment, REME and associated trades in the public eye and not forgetting a spot of team building! As always, the imposing Foden Recovery Vehicle attracted a number of visitors to the field workshop area, although this year the lads didn't try to sell it to a wealthy Japanese visitor! Apparently, though, they were tempted by an offer of £35 for a 10 man ration pack.

Among the attractions this year were tank rides, a fun fair, arena displays, modelling marquees and battle re-enactments. Did I mention beer tents? However, the highlight for **Cfn Sladden** and **Nichols** was the helicopter ride. They reported that the trip was going along quite nicely when the pilot suddenly started ranting about Charlie (?) The next thing they knew he was reliving combat missions in Vietnam! They were quite relieved when they got back on Terra Firma. **WO2 (AQMS) Johnston** continued to fall victim to his strange fetish for bizarre military cooking equipment and came away with some contraption designed to burn on Camel dung.

In attendance at Beltring were the OC LAD, **Capt Needham**, **WO2 (AQMS) Johnston**, **Sgt Grey**, **Cpl Hourihan**, **LCpl Izzard** and **Cfn Sladden**, **Nichols** and **DeWulverton**. All in all, this was another great War and Peace show. If anyone in the Corps wishes to find out more information on next years event, visit their website at www.warandpeace.uk.com.

54 SQUADRON – THE MARIE CURIE TRUST - *by Cpl Kett*

On Sunday 14 May 2000, eleven members of 755 Sig Tp, in conjunction with the Marie Curie Trust and public volunteers, successfully abseiled the Maternity Tower at the Norfolk and Norwich Hospital. The primary aim of the abseil was to raise much needed funds for the Marie Curie Trust, a charity dedicated to the research and battle against cancer, and the Army Benevolent fund, a charity committed to the welfare of the army and ex-army personnel and their dependants. Troop efforts managed to raise in the region of three hundred pounds which will be divided evenly between the two charities. The secondary aims of the event were to positively promote the TA in the public eye. This was achieved by the troop providing safety escorts for the abseil, abseiling with the public and also by having an active Recruiting stand. Finally the fostering of an adventurous spirit within individuals was promoted through all Troop members successfully overcoming the anxieties of walking on the outside of a 128ft building when there were perfectly reasonable and safe stairs inside the building! Particular congratulations must go to those members of the Troop for which this abseil was their first, and also to those who overcame their genuine fear of heights.

54 SQUADRON – RAF MILDENHALL AIR FETE
by LCpl Goodman

755 Sig Tp recently took part in the static Army display at RAF Mildenhall's Air Fete 2000 over the May Bank Holiday weekend. Members of the Troop were on hand to explain to the public the role and functions of a Royal Signals Troop and to show them the workings of a Command Post, Hight Frequency radio detachment, and TRIFFID and EUROMUX communications vehicles. A laser range featuring an imitation SA80 rifle provided entertainment for those young (and on occasion, not so young!) members of the public. Despite the heavy (and at times, torrential) rain, the turnout to the show was good, and the majority of air displays went ahead, including flypasts by the amazing B2 Stealth Bomber and, of course, the Red Arrows. The Troops own stand attracted a fair amount of visitors, and the weekend proved to be an unqualified success.

EXERCISE MARS MARATHON2000
THE 54 SQN PERSPECTIVE - *by 2Lt Keegan (757 Troop)*

The Troop assembled at 0500hrs on 1 July, a few nervous smiling faces wondering what the weekend had in store for us. We left the Cambridge TAC at 0600hrs and made our way to STANTA. After a slight detour to the greener side of the area, we eventually got to Stanford Council Houses, where the whole Regiment was assembling for the festivities of the weekend. The Troop donned their helmets and made themselves ready for the war to follow. The morning started with a series of training stands covering HF Comms (PRC 320 and PRC 351), Vehicle Anti-Ambush drills and Cam and Concealment of vehicles (with a dash of Defence of a Comms site procedures for good luck). After we had eaten, the Squadrons then advanced to their own hide areas, where 54 Squadron established a Patrol Harbour. On arrival, 757 Tp were initially responsible for the Cam of the vehicles, and we then moved on to a wide-ranging clearance patrol of the area. After a few moments of excitement, however, we realised that there was no enemy for us to practice our hand to hand combat on – very unfortunate! The routine of a patrol harbour continued throughout most of the day and also most of the night until the enemy bumped us. That high awareness **Sig Beer** of Norwich Tp, meant that we were prepared and were able to open fire before the enemy got too close to our position. 754 Tp, led by **2Lt Darren Ambler**, meanwhile, had ambushed an ambush; the rate of fire laid down by the Bedford Tp could be heard from 2km away, making sure that everyone

was aware that 54 Sqn was ready for anything that came their way. 755 Tp then went on to conduct a recce of an enemy position, in order to prepare for the morning attack.

The fire support was provided by 757 Tp and, with cries of, 'Get Some!' from **Sig Davey Dewart**, Cambridge really made their presence felt. With valiant **SSgt Andy Osborne** hobbling away (he had injured his knee earlier on in the exercise), he led 755 Tp on the charge, with 754 Tp acting as the sneaky beaky reserve. The assault led to a victorious 54 Sqn and a very happy **Lt Emma Hillyard** who had been operating as the Squadron Commander over the weekend. The return to the patrol harbour, and also to the staging area of Stanford Council Houses, proved to be upsettingly uneventful. With mournful faces the troops de-bombed the few rounds they had left. The Regiment then had the opportunity to take a few photos, and also say a sad farewell to **Lt Col Allan**, who's last weekend it was with the Regiment. Overall, this was an extremely enjoyable weekend, and the troops left for their TAC's with the adrenaline still buzzing around their system, and big grins on their faces.

38 (CITY OF SHEFFIELD) SIGNALS REGIMENT (VOLUNTEERS)

THOUGHTS ON EXERCISE BLUE HORIZON

Having taken over officially as the RAO of the Regiment on 1 April 2000 (A good day to start), I looked forward to my first Regimental FTX with some apprehension. However, I need not have worried as any reservations were quickly overcome once I arrived at the TAC on Friday night. I was most impressed with the efficient and effective manner in the way everyone went about their tasks. Weapons were issued and transport was organised with the minimum of fuss and shortly after 2030hrs we were on the way to our Exercise location.

On arrival at our location for the next two days we were briefed by **SSgt Thwaites** and shown to our sleeping area. I then located myself in the Sqn CP with the OC and eagerly awaited the start of my first shift as a Watchkeeper at midnight (they said it was the best time to learn). The next six hours went reasonably quickly and it was reassuring to have the RQMS on the same shift. Having consumed an excellent breakfast I then tried to grab a few hours sleep before my next shift, not too successfully. I thoroughly enjoyed the weekend and being on exercise with the Squadron. The OC, PSAO and members of HQ Sqn made me feel part of the team and I got a good idea of the role that we would play in supporting the Regiment on operations. The Squadron were all very friendly but this could have something to do with me being the person who pays them.

I found the weekend interesting and I hope to build on the knowledge and skills gained on Blue Horizon so that I can be an asset (rather than a hindrance) to both the Squadron and the Regiment when they deploy on exercise or operations.

64(CITY OF SHEFFIELD) SIGNAL SQUADRON (V)
Sqn Comd **Maj Andrew Smith**
SSM **WO2 (SSM) Mick Rooney**

EXERCISE BLUE HORIZON

'Everybody's favourite weekend. A Regimental Field Exercise. What fun!!!' So said all of the operators on Exercise Blue Horizon, and it was. Deploying on the Friday evening the guard net was established on HF just as the ionisphere went 'T*Ts Up' and comms were lost until morning. Thankfully the mobile phone (the Royal Signals new comms kit!!) was still working – providing you stood on the trailer and shouted. Come morning all comms came in including NCRS, Mould and Clansman.

SCP was deployed at Finningley Airfield (formerly RAF Finningley) and **SQMS Burton BEM** (Uncle Dave - the lovable old teddy bear of 64 Sig Sqn) set up a field kitchen and messing area which would not have been out of place on the Riviera. The food as always was better than at the Ritz and consequently 64 played host to the colonel and RCP on Saturday night. All of 64's detachments redeployed to Finningley around lunchtime on Saturday and although on 24 hour Ration Packs were unsurprisingly supplemented by 'Uncle Dave' with fresh rations and Bacon Butties. A worried SSM was wandering about on Saturday as he had 'lost' a Subaltern. **2Lt Helen Love** 'Machine' was last seen leopard crawling in her slug to a quiet corner as, 'The Sergeant Major was walking up and down really loudly.' Working through the night and into Sunday morning one of 64 Sig Sqn's detachments redeployed to the Worksop area where **Col Harrison** called End-Ex.

As always the return to the TAC seemed quicker than the deployment and the bar was opened after all of the kit had been cleaned and put away. A good enjoyable exercise, Blue Horizon 'Blew' away the cobwebs and got the whole Squadron thinking about their role at camp in September.

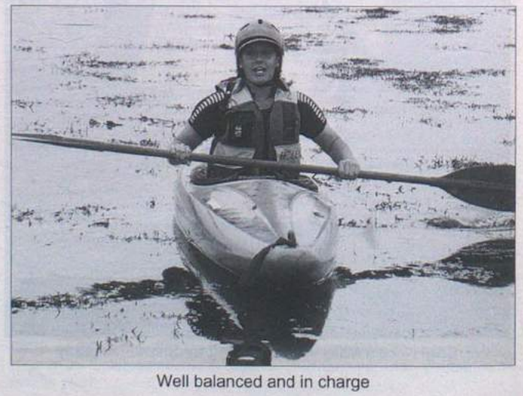
NUFFS ENOUGH

Anglesey was the location, adventurous training was our aim. The first weekend in July 64 Sqn descended upon the Nuffield Centre, just west off the Menai Bridge to participate in Exercise Salty EBOR. The training programme stated that it involves lots of water so take plenty of clothes to last the weekend. That didn't include the change five minutes before departure when the heavens opened, as the canoes were being fastened down; by that stage we were onto our last set!

The weekend went off to a flying start: no wind for sailing, the canoeing equipment was nicely folded back at the Manor in Sheffield and to top it all the BBQ stand was double booked! Be resourceful, be flexible, be happy! Despite these and many other hiccups thrown our way the weekend was a great success. Everybody participated in three activities. Activity 3, where no one really knew quite what to expect and a further two activities from: kayaking, coasteering and the island trip (sailing substitute). The mystery activity (Activity 3) involved being dropped off in the middle of nowhere, given a time limit, map, question sheet and a set of instructions, with which to complete an orienteering treasure hunt (minus treasure) and collect various items including rabbit droppings and seaweed.

Everybody launched themselves, some quite literally, into the weekend and entered into the spirit to which it was intended. Even in-between sessions people were in the swimming pool, as if they were not wet enough anyway!! It is not often people have to face up to their fears, whether it be that of a sea cliff traverse with waves crashing below, or standing up in a canoe in tidal waters surrounded by jellyfish or even just holding the rank of Sergeant and pretending to be a chicken! A brilliant weekend was enjoyed by all, rumoured to be the best adventurous training in a long time and definitely the best weekend of the year and we got paid to participate!

The Island Trip



Well balanced and in charge

Kayaking

Puzzled on - Activity three

87(CITY OF NOTTINGHAM) SIGNAL SQUADRON (V)
Sqn Comd **Maj David Tomlinson**
SSM **WO2 (SSM) Vicky Hardy**

This has been a busy time since our last *WIRE* notes. A team of four entered Lombardia 2000 mil skills competition in Italy, and together with two reserves and (literally) a flying visit from the OC, a great time was had by all (see full report elsewhere). It generated a lot of local publicity, including the local papers' satirical cartoonist, who likened our girls' markswomenship to that of the WI! Their very creditable performance has inspired the boys to mount their own assault on Italy later in the year. Well done to **Sgt Carol Lee, Sgt Emma Crogan, Sgt Mandy Jones** and **Cpl Heather Blair**.

On the departures front, we are quickly establishing ourselves as Officers R Us, with the transfer of both our Troop Commanders! **Capt John** 'Mr Gadget' **Pearson** has gone to 46 Sqn as 2IC, whilst **Capt Ken** 'Geographically Challenged' **Rustige** will go to HQ Sqn, again as 2IC. Congratulations gentlemen on your step up (as far as going to Derby or Sheffield can ever be thought of as promotion), and our grateful thanks and very best wishes. It is unknown how much the transfer fees amount to, but rumour has it that the PSAO, **Capt Ken Scott,** has got a free golfing holiday in Scotland this September from the proceeds.

Once again the Squadron supported the Great Nottinghamshire Bike Ride, providing the organisers with communications during the whole event, which has almost 8,000 participants and spectators. This year, the Squadron's effort was overseen by **WO2 QMSI** "Uncle" **Pete Cooper,** aided and abetted by **SSgt John Dye** and PSIT, **SSgt Phil Newman**. This year was almost faultless, and good weather saw the event pass with fewer than usual injuries. It was a good opportunity to brush up on VP, and gave some of the newer squadron members their first opportunity to speak 'live' on a net. Some reverted to type, **LCpl** 'Twinkletoes' **Hammett** managed to nab the same quiet sleepy spot on the course as last year. **Cpl Britain** managed to display his new tech skills, mending a succession of bikes! New arrival, **Cpl Steven Keay** was pondering how he managed to get stationed between a pub and a tea shoppe. Surely, all of your Regular postings weren't this cushy? Some of our younger male soldiers (who will remain nameless) took the opportunity to pose and flex their muscles before an appreciative female cyclist audience. Obviously Keeping the Army in the Public Eye (KAPE) comes easier to some than others!

OC 87 Squadron - Bike Ride 2000

Out on the 50 mile course, **Capt Ken Rustige** put in a blistering performance, to beat the OCs time by over an hour and a half. All of us on the last half of the course were impressed as he steamed past at a great rate of knots, a blur of lycra clad thighs! Now, the truth can be told, his front gear shifter had jammed in the top cog. He dare not slow down, worrying that he could never get going again! The OC, **Maj David Tomlinson** was accompanied at a more sedate pace by the former SSM, now retired, **Nigel Caldicott.** After hurling abuse from a check point last year, he had no excuses. **WO2 (SSM) Vicky Hardy** had that task this year, with a shout of, 'Come on Sir!' (Well, that's what the OC thought she said, and who are we to tell him different?)

The recent work up commex for camp saw the visit of Comd 2 Bde, **Brig Jackson**. The commander was briefed by **OCdt Simon** 'Off the cuff' **Young**. He then had the chance to chat to most of the Squadron, and hear their views on a number of topics, as well as seeing both our NCRS and MOULD deployed. Full marks go to **LCpl Houghton,** for being able to correctly describe the function of an ASL, off the top of his head! Meanwhile, **LCpl Hammett** had displayed a novel approach in adjusting the sights on a rifle, although the adjusting tool, a landrover, seems a bit big to fit in a cleaning kit. We hope **Cpl Panter** doesn't think we treat all visitors from HQ Squadron like this.

Rent a power det has also been busy, supporting ABF functions at Nottingham Castle and Boer War centenary celebrations at Sandbeck Park, in cahoots with Notts Army Cadet Force. **Sgts Craig Toft** and 'Stewie' **Nessbitt** have been doing a good impersonation of hard workers, although **Cpl Bedford** tell us that it is all down to him! On new arrivals, the Toft household has produced yet another potential recruit Jody, at 7lbs 7oz. Congratulations to **Craig** and **Helen**, and we have booked the selection weekend for January 2018, OK? We also send a get well soon to our stores accountant and stand in TA SQMS, **Cpl Bal** 'DB' **De la Billiere**, who has managed to break her ankle. Don't worry, our medic, **SSgt Pete Ward** bravely filled the breach, and has already written off a 4 tonner canvas!

LOMBARDIA 2000

On 8 June party of six girls consisting of four team members and two admin, from 87 Sig Sqn set off for the beautiful city of Luino in Northern Italy for the Annual International Military Challenge. Taking part were soldiers from all over Europe including Germany, Belgium, Holland, Switzerland, France, Greece and America, a lot of them regular soldiers. There were 72 teams in all travelling over rough terrain in the mountain area of Lake Maggiore and the heights around the town of Luino. The team consisted of **Sgts Emma Crogan, Mandy Jones, Carole Lee** and **Cpl Heather Blair**.

The journey from Nottingham to Luino took aproximately 30hrs by minibus, with a sleep-over at Strasbourg. Finding a hotel in the early hours proved to be quite an adventure. Arrival at one hotel seemed to cause quite a stir with the locals as, due to the hot weather, they were sat outside in their shorts and underwear. The arrival of a minibus with six scantily clad females seemed to excite them in the belief that the entertainment for the evening had arrived! Fortunately there was no room at the inn. Having had a lucky escape we finally found a room at the Ibis Hotel. After a short rest it was an early start for breakfast, with each of us carrying holdalls to fill from the buffet table, for lunch and dinner as we didn't know when our next stop would be. Having passed through four countries to get to Luino we were greeted by friendly forces in the form of our OC, **Maj Tomlinson**. We were directed to the HQ building in order to check in and be allocated our hotel whilst in Luino. Whilst we were waiting in the queue we could feel a lot of eyes on us, we later discovered that this was because we were the only female team around. We checked into our hotel, had a quick shower and changed into uniform for the opening ceremony which was held in the town. At 2100hrs a briefing was held at HQ and due to a lack of seats only two members of the team were allowed in. The briefing was in Italian and at times in broken American English. This was extremely diffcult to understand so after threee hours, in almost unbearable heat, we left to head back for a 4.00am start and no breakfast.

We were taken by coach to an unknown location and after a kit inspection given a map and the competition commenced. We must have looked lost and bewildered as another team pointed out where we were on the map, with this information we set off unsure of what was to come next, but full of enthusiasm and with our morale high. Our first stand was called 'Airfield Preparation' which consisted of disembarking from a helicopter. Our orders were to sit inside a Ford Transit van and when we saw a green light to carry on - in Italian. We duly sat in the Ford Transit wondering what to do next when suddenly hidden inside a cam net, was a green light. We all piled out of the side door, leaving the radio op tangled up in the cam net with her antenna. Using Fire and Manoeuvre we completed the task, and were told that it was one of the top scores. We had expected the stands to be far apart but the first few were quite close, this gave us a false sense of security in that we thought we had completed half the stands within the first couple of hours. We then planned our afternoon off sunbathing by Lake Maggiore only to find that the next stand was to take us four hours. Upon arrival we thought we had finished as our card was complete, however, we were given another card with more stands. This seriously changed our plans for the afternoon. One of the stands was a river crossing which consisted of four different methods of using ropes. **Cpl Heather Blair** volunteered to take the most physically demanding method and was eagerly encouraged by the Italians shouting DIE! DIE! DIE!**Heather** did not accept this gracefully and it unbalanced her causing her to fall into the river. However, at the other

end , we were to learn later, 'DIE!' means 'Come on!.'

Stand number 11 was Penetration into Enemy Territory, this consisted of live firing on a short range using fire and manoeuvre. The DS were extemely concerned at having females let loose with weapons, as they hadn't worked with females before. They didn't need to worry as we successfully shot all the targets, despite **Sgt Carole Lee** receiving a cut to her eye due to the weapon being so long. However, first aider **Sgt Emma Crogan** was on hand with words of sympathy, 'Your cam-cream needs touching up.' From here we headed to our last stand down the mountain using the quickest method known to us, bum-skiing. The other teams saw this and quickly followed suit. We reached our final destination feeling exhausted yet full of a sense of achievement and overflowing with morale. **Sgt Mandy Jones'** only enemy seemed to be the mosquitoes which travelled with her throughout the competition. We finally finished to the sound of a rainstorm and were met by two friendly faces in the form of **Sig Helen Driscoll** ans **Sig Sally Fisher**. Would we do it again? See you next year!

The Team

39th (SKINNERS) SIGNAL REGIMENT (VOLUNTEERS)

CO **Lt Col J. Crackett TD**
RSM **WO1 (RSM) P. Anderson**

REGIMENTAL PERMANENT STAFF ADVENTURE TRAINING EX INTREPID DRAGON

After a hard weekend working with the Territorial soldiers on Ex Bounty Lynx, the Regiment's permanent staff deployed to Penhale Camp, Newquay for a well-deserved week of adventure training. The first day saw us rock climbing, starting with the climbing wall on Penhale Camp and then progressing to more difficult and challenging climbs around the local cliff faces. The title for 'Rock Leader' was being fiercely contested with **SSgt Tony** 'Am I looking good doing this' **Ward** just pipping the QM, **Capt Phil Abbot** to the post. The day proved successful for two members of the group with **SSgt** 'Scouse' (Disco legs)' **Simcock** and **Pte Anna Davies** (RAMC) overcoming their fear of heights. The second day was the 'short and enjoyable' coastal walk that wasn't short by any stretch of the imagination. It began 23 miles away and finished in Newquay and took far less time than originally thought - much to the dismay of some of the group. The route was chosen by **SSgt Phil Sweetland** and was used as a trial for the HQ Squadron sponsored walk later in the year in aid of the Regimental charity 'Hope and Homes for Children'. With the high tide coming in, a bridge that was marked on the map was submerged and was nowhere to be seen which resulted in an impromptu river crossing by the group. The Adjt, **Capt Nick Peet** was firmly pointing the finger at our resident pathfinder **Sgt Rick Norman** for that one. The third day was the day when individuals could choose their own activity, the majority opting for surfing in Newquay and the remainder heading off on mountain bikes. The last activity of the day was a group clay pigeon shoot that saw the RSM, **WO1 Paul Anderson** walking away with the prize. He's obviously been practising since being selected for commission. The evening was taken up by an informal dinner at the local pub to say farewell to **WO1 (RSM) Paul Anderson** who is posted to 14 Sig Regt (EW) as the Families Officer and to welcome the new RSM, **WO1 Frank Roberts**. We wish you both the best in your new posts. Thanks must also go to **Capt John Williams** who took time from his busy schedule as OC Mil Trg Wg in Blandford to supervise the Rock-Climbing activity.

5th (QUEEN'S OWN OXFORDSHIRE HUSSARS) SIGNAL SQUADRON - BANBURY & OXFORD
EXERCISE WIGHT NIGHT
(or rather, Five and Friends have an adventure)
by 2Lt Simon Durtnal

The two day stop look and gasp tour kicked off on Friday night with a long drive down to the south coast to that well known Rivera and Coastal resort town of Portsmouth. (No we didn't stop at Joannas). Clutching our passports and duty free Five and Friends set sail for foreign climes. Little knowing what lay in store for them?

On arrival at the tropical and Exotic Island of Wight a resistance agent (PSI Ops, **Staff Simcock**) met them with urgent news. Following a coup by renegade islanders, Fishbourne, the port at which Five had landed and the eastern half of the island was hostile territory. The only way to safety was to flee on foot to the western side of the island and the safety of the deposed government's HQ at Jersey Camp. Aided by resistance agents (**2Lt Durtnal** and **Sgt Milner**) Five and their Friends (an American world-wide HF Communication unit the 422nd ABS/SCR based at RAF Croughton) were split into small teams and were smuggled out of Fishbourne. Once in the safety of the countryside the teams were dropped off at different secret locations and under cover of darkness made the breakout on foot. Through out the night the three teams battled the elements, of a warm cloudless night, full moon and rugged terrain. They endeavoured to strike out across country over gruelling distances, in an attempt to reach the first of three agent rendezvous.

WO2 (SSM) Ray Phillips and Maj Robert Stone

At each rendezvous, agents (**2Lt Durtnal, Sgt Milner** and **LCpl Docherty**) tested the teams with ingeniously devised mental tests such as Kim's Game, Sharon's Game and The Mensa Questionnaire. With such beauties as, what is your name rank and serial number? If a plane crashes on the boarder of Spain and Portugal where would you bury the survivors? And why can't a man living in Liverpool be buried west of the Mersey? No points for guessing who wrote these... ('Scouse'). Once answered the teams set out on their gruelling journeys to the next rendezvous, until by early afternoon on the Saturday the last obstacle to cross loomed up; the island's mountain ranges. With snow goggles and crampons fitted and summoning up the last reserves of strength, the teams made their desperate bid for freedom and scaled the peaks to reach the last rendezvous and home to freedom. Once reunited, Five and friends managed a greater feat of endurance by celebrating all night and into the wee early hours with lashings of ginger beer, cake and sticky buns. The next day Five and friends decided that it might be a jolly good idea to take the sea air before there return home, and visited the picturesque needles, and just prior to departing on the charabanc home, Five gave the Americans a good whooping at baseball. A great end to a marvellous adventure, and Five have been invited round for tea, buns and a re-match by our friends the Americans. HURRAH

FAREWELL – WELL ALMOST, MR RON PULLEN

On Tuesday 11 July 2000 the Squadron visited the Oxfordshire Yeoman Public House in Freeland to view the Yeomanry Exhibition. This coincided with the forthcoming retirement of our Caretaker, **Mr Ron Pullen**. **Ron** has been the Caretaker at Banbury since 1995 following a distinguished working career that has included, Heating Pipe Engineer,

National Service in the RA, Bar Keeping in Spain and Senior Store Man with the Civil Service at RAF Croughton. **Ron** and his wife **Joyce** have a daughter **Sandra** living in Banbury and their son **Colin** is a Staff Sergeant with 38th (City. of Sheffield) Sig Regt (V).

Ron & Joyce thanking the Squadron for their farewell gift

They have been full supporters of the Squadron taking a leading role in all social activities, we wish them well and the longest and happiest retirement ever.

PS: *The replacement caretaker declined the job, so Ron is with us for another two months.*

VISIT BY BRIG N. C. JACKSON MBE
COMMANDER 2nd (NC) SIG BDE & COTSWOLD GARRISON

The Squadron was visited by **Brig N. C. Jackson MBE** on Tuesday 5 July 2000. Following a briefing by the OC, **Maj Robert Stone**, the Brigadier visited Recruit Training, Security Training and saw the Equipment Husbandry following Ex Silver Lynx.

57 (CITY AND COUNTY OF BRISTOL) SIG SQN (V)
EXERCISE HORFIELD SALVATION

At the beginning of this training year our Commanding Officer indicated to all Squadrons that the regiments charity for 2000 would be Hope and Homes for Children. The aim of this charity is to give hope to children world-wide who have nowhere to live, due to war or disaster, by providing them with family homes. The Regiment's aim was to raise a minimum of £1500.

As TAC Horfield in Bristol is the location of the HQ of both HQ and 57 Sig Sqn, we decided to have a combined effort and **SSgt Tony Ward,** the Trg PSI of 57 Sqn, came up with the idea of what was to be known as Ex Horfield Salvation. The aim being to set up a display stand in the middle of Bristol shopping centre, both to display information on the charity and of course the Regiment and the TA. A course of just over a mile would then be selected, to weave in and out of the streets in the centre of Bristol, starting and finishing at the stand. This course would then be run continuously for a 24 hour period, by teams of four carrying a stretcher, suitably weighted to simulate carrying a child (quite a large one it turned out in the end)! The idea was taken up with enthusiasm and there was no shortage of volunteers for the weekend with plenty of sponsorship forms being completed. Saturday 29 July saw an early start for many of the team, setting up the stands in the town centre and preparing for a midday start. The weather was excellent, for sun bathing that is, not really for running as we where soon to find out, much sweat would flow over the next 24 hours. On the stroke of noon the first team set off to the sound of air horns and applause, weaving in and out trying to dodge the weekend shoppers. The reception from the people of Bristol on the day was great and collection boxes soon began to fill while the teams progressed. Mainly, it must be said, due to the somewhat forceful approach of **WO2 (SSM) Phil Smith** of HQ Squadron who I think missed his vocation in life and should have been in sales!

The 24 hours passed without any major incident and although very tiring it was considered worthwhile by all concerned, total distance covered by the teams was 119 miles. Was it a success? The Regiment's aim was to raise £1500 between all four squadrons. This one event has achieved that aim, it is hoped that when all sponsor money has been collected, to have raised in excess of £2500. Congratulations to all runners and organisers.

71 (YEOMANRY) SIGNAL REGIMENT BEXLEYHEATH

CO **Lt Col C. H. Turner**
RSM **WO1 (RSM) C. D. Tait**

The Commanding Officer and all ranks of the Regiment would like to congratulate **Maj Kathy Howard** on receiving the MBE on the Queen's Birthday Honours list for over 13 years of loyal service as RAO and, more importantly, as Regimental Mother. Congratulations also to **WO2 Keith Wraite** on his promotion to WO1, taking on the mantle of **SVWO**, and the Regiment welcomes **WO2 YofS Jason Budding,** his wife **Mandy** and **Cpl Nick Trethewy** as the new CO's driver. All have arrived on promotion, including **Mandy**, and we wish them all a most successful tour with the premier Yeomanry Signal Regiment. We sadly say farewell to **SSgt Murphy** who is posted to 21 Signal Regiment and **Cpl Al Hyland** who has gone to ATR Bassingbourne to scare the new recruits. Good luck and enjoy the easy life!

Sgt Phill Kent supervising Mr O'Toole on the LSW during the Civilian Visitirs' Day

This has been a particularly busy period for the Regiment with a Civilian Visitors' Day, Military Visitors' Day, Re-Opening the much renovated Inns of Court Shooting Pavilion at Bisley and hosting the Master of Signals and Signal Officer in Chief (Army) to spectate **Her Majesty The Queen Mother's** Centenary Pageant on Horse-Guards, as the Guidon of 68 (Inns of Court & City Yeomanry) Sig Sqn was paraded to its Royal Honorary Colonel. The highlight, however, was the visit of **Her Royal Highness The Princess Royal, Colonel in Chief** to the Regiment in Bexleyheath. We also managed to squeeze in a Regimental comms exercise around all the parties!

265 (KENT & COUNTY OF LONDON YEOMANRY) SIGNAL SQUADRON - BEXLEYHEATH

Sqn Comd **Maj Hugh Robertson TD**
SSM **WO2 Stuart McHenery**

We start by congratulating **SSgt Key** 'Caravan' **Hancock** and **LCpl Liz** 'Psycho' **Blaber** on their recent promotions and wish them great success in their new posts.

REGIMENTAL SKILLS WEEKEND

The Regiment held a Military Skills weekend from 23 to 25 June. It comprised a series of round robin range stands, which included grouping and zeroing, APWT, IBSR, FIBUA and Moving Target. Each team was four strong; the Squadron managed to enter five teams out of a total of eight. The competition was hard work in the desert heat of Hythe Ranges. There were some outstanding results in particular **Sig Sean** 'Todger' **Walsh** who scored a maximum on the IBSR.

Squadron Military Skills Team
Front Row (L-R): Sgt Mick Warrington, Sig Ash Walsh, Cpl Triss Swain, LCpl Ian Liscoe
Back Row (L-R): SSgt Steve Shelly, Sig Dave Wilton, Cpl Andy Keller, Lt Richie Woodhams, Sig Thompson, LCpl Ash Green

All Squadron teams performed admirably during the course of the competition, although we were piped at the post for first place. Sharpshooter teams managed second, third, fourth, fifth and sixth place overall. The Squadron excelled, as ever, at the post challenge BBQ.

EXERCISE WHITE HORSE II

This Regimental Comms Exercise took place over the weekend of 14 - 16 July and the Squadron deployed an NMC together with two NCRS stations on the Cinque Ports Training Area. Friday evening saw a tactical move into the site with some amazing driving skills displayed by **LCpl Sharon** 'Shazza' **Risley** and a close second place from **Cpl Barry** 'Rocker' **Morse**. Torches were not required for the move in as there was enough ambient light emitted from **LCpl Sean** 'Blondie' **Eyers.** Now all we were waiting for was the cheese straws to arrive courtesy of our super chefs, **Cpl Mandy** 'Fanny' **Shannon** and **Cpl Pete** 'Jonny' **Sturman**, keeping the cafe open 24hrs per day, seven days per week. The Dets had the joy of erecting antenna arrays during the night, which is a first for NCRS, although this did involve a small amount of cattle and sheep rustling! The weekend went without a hitch with perfect comms throughout. The only element that could have been changed was the weather, which was appalling for the duration.

UNITED STATES NATIONAL GUARD EXCHANGE JUNE 2000

Each year some 50 SNCOs, from all arms, take part in the TA/US National Guard (USNG) exchange programme. It involves joining a host USNG unit for their Annual Training exercise in the summer and the UK unit reciprocating at Camp in the autumn. The aim is to learn how units work and differ, in organisation, equipment, role and methods. The Regiment bid for two places and **SSgt Steve Shelley** and **Sgt Stu Ridgwell** were able to offer the best bribes (details are subjudice owing to legal action) to secure placement. They now take-up the story.

Like many things, it started with a phone call from the SSM, 'Would you like to go on an exchange visit for two weeks with the National Guard in the States?' After half a nanu second the answer was 'Oh, all right then, for the sake of Queen, Country and the Regiment.' There followed a briefing at RAF Uxbridge by HQ LAND and a USNG Major and SSM on the general plot, dos and don'ts etc. The key thing was to make contact with individual hosts; this we did by e-mail. – using our home PCs!

First stop Heathrow, 'Would you like to be upgraded from peasant class to Premium?' 'Oh, all right then, for the sake of.... etc etc.' We also met up with four others from 32 Sig Regt and 38 Sig Regt who were going to the same unit. We arrived at Washington (Boeing 747); wait followed by thunderstorm delay (quite impressive seeing another plane skirting around the lightening). Change planes (to a DC 9); off to Milwaukee; change planes (12 seat twin propeller job - we were convinced it had been crop spraying earlier that day) and finally arrived in Iowa shortly before midnight. Lost track of time and how many hours we had been up. Met by hosts and drove to the unit, 234 Signal Battalion.

The unit deployed the following morning, heading for Fort Hood Texas, home of armour and the air cavalry, not to mention numerous snakes, scorpions and poisonous spiders. It's a long way by convoy! Three days later with overnight stops in Kansas and Oklahoma (without bursting into song) we arrived in Texas. They said it would be hot and humid, they were right. Into the field for the non-comms element of the exercise. We had been issued with helmets (brain buckets) and Lightweight Body Vest (ammo pouch and water bottle webbing), M16s (with 203 grenade launchers), Section Assault Weapons (SAW) and MREs (Meals Ready to Eat). The water heater in the latter impressed us. Other, non-issued items also appeared in abundance — sunglasses and cigars. The unit's role is to provide telecom lines via an UHF line of site network. The HUMVs are a tad different to the good old Landrover 110, automatic and 6ltr engine. We quite fancied the M16 with 203 (optional extra — I'll take a dozen thank you) but it would not fit into the suitcase to bring back.

The US has a very different approach to their reserve forces. Their basic training is longer than ours is, some eight weeks; upgrade courses are longer also. They do not do weekday evenings, just a weekend each month. There is also financial assistance for college students, which make-up a large part of the manpower, and a pension! Employers are obliged by law to allow National Guard soldiers to do their bit. As well as a federal (central government) role, they can also be called-out by the State Governor under what we would call Military Aid to the Civil Authority/Community i.e. disaster relief, something which is not infrequent judging by the news on forest fires and floods that we saw. As when observing another unit, it is always interesting to see how others do a similar job. We compared notes on equipment and tactics. We also entered into deep philosophical discussions ranging from the role of the UK and US in the world today; to methods of personal camouflage (splodge it all over Rambo style verses minimalist zebra); to the intellectually demanding and fascinating topics of vehicle works tickets and ablutions in the field.

The last two days were spent in Washington playing tourist. This was good as many of the key sights were within walking distance, not to mention raiding the PX store. In summary, while there was a large amount of travelling (which enabled us to see a bit more of the country) it was a good experience working with the USNG and we would recommend it to any SNCO taking part, given the chance. We look forward to hosting the US exchangees and introducing them to joys of Yorkshire (two sets of waterproofs I think) for our Camp in Wathgill in September, will it be different from Texas?

70 (ESSEX YEOMANRY) SIGNAL SQUADRON - CHELMSFORD

Sqn Comd **Maj Craig Tallents**
SSM **WO2 (SSM) Paul Humphreys**

The Squadron has been through a busy period over the last few months with the Squadron Training, D-Day evening at Harlow, a Royal Visit, Nijmegan marches and a visitors day.

TRAINING

Starting with Sqn Trg, the Squadron organised Ex Sharp Target that comprised of the Squadron deploying to Fingeringhoe Ranges and completing the APWT and various ITD (A) s, rounding off the weekend with a BBQ prepared by the SQMS, **SSgt John Fensom** and **Cpl Steve Christie**.

'Take Five'
Sgt Nick Wilks (L) and Sig Ross Nugent during the Squadron Ex Sharp Shooter

D-DAY EVENING

882 Sig Tp hosted a D-Day evening at Harlow TAC on 6 June 2000. The evening comprised of lectures by former members of the Essex Yeomanry who were in the first wave of Op Overlord, displays of memorabilia and photographs were there for all to see. An excellent evening was had by all.

ROYAL VISIT

The Regiment hosted **HRH the Princess Royal** at a training night in June. Members of the Squadron manned a display on Trade Training as part of the overall presentation to **The Princess Royal**. The OC **Maj Craig Tallents, WO2 (SSM) Paul Humphreys, WO2 'Pip' Piper** and **Sgt Mark Middleton** were among those who were presented to the **Princess Royal**.

HRH The Princess Royal with OC, Maj Craig Tallents and Sgt Mark Middleton

NIJMEGAN MARCH 2000

SSgt Jason Barsley the Squadron PSI led a team of willing volunteers to Nijmegan to complete the gruelling three days of walking in the Dutch countryside. The stories of blisters are still echoing round the corridors of the TAC. The team consists of **WO2** 'Pip' **Pieper, SSgt Jason Barsley, SSgt Jim Swain, Sgt Gilbey, LCpl Cloughton, LCpl Smith** and **Sig Nugent.**

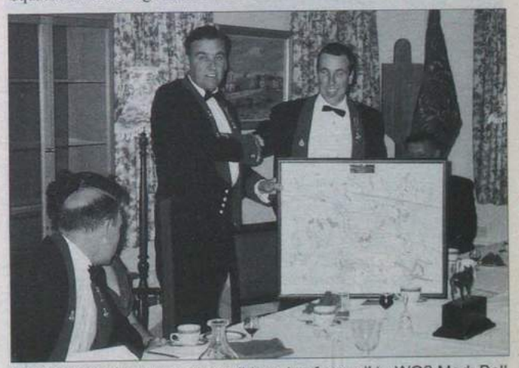
VISITORS' DAY

The Deputy Mayoress of Chelmsford, **Cllr Maureen Moulds, Col Kevin Fizgerald** Chairman of the RFCA for East Anglia and **Col David Castles**, The Essex Yeomanry Honorary Colonel, were among the dignitaries who attended the visitors day in June 2000. The Regiment was on the ranges at Hythe and as part of the visit the guests watched a Falling Plate competition. The competition final was between two teams from the Squadron.

Cpl Farn, Captain of the winning team receives the 'Drapers Cup' from Mr A. Lang MBE
Clerk of the Worshipful Company of Drapers

FAREWELL AND HELLO

We say farewell to **WO2 Mark Bell** who commanded 881 Sig Tp for two years and served with the Squadron for 22 years who has left us to join 45 Sig Regt at Colchester, we wish him well for the future. The Squadron WOs & Sgts dined **WO2 Bell** out on 3 June 2000.



WO2 (SSM) Paul Humphreys (L) saying farewell to WO2 Mark Bell at the Squadron WOs & Sergeants Dinner Night

We welcome **Sgt Dave Catlett** to the Squadron as our new PSI (T) who joins us from Northern Ireland.

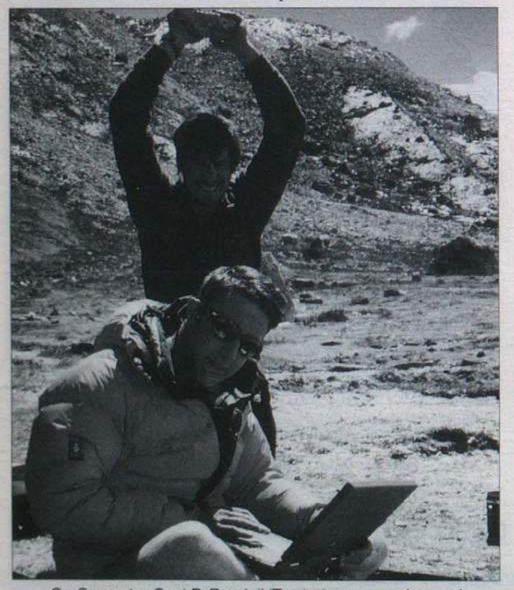
Lt Paul Randell R SIGNALS	**LCpl Mark Lewis** RE



On Computer Capt P. Randell 'To start press any key .... '
Capt Randell - 'where is the any key?'

The day had finally arrived almost two years since filling out the application forms. Through several training meets, a reserve promoted to a full place, even more training and now at Heathrow airport, the British Services Kangchenjunja Expedition was finally starting in earnest. The expedition comprised of two teams, a main team to climb Kangchenjunja, the third highest in the world after Everest and K2, and a junior team of which I was a member climbing Ramtang, a subsidiary peak of 'Kanch' which is 6700m high and unclimbed since 1930. The only question in my mind was had the OC really given me two months off? After struggling with some 100 expedition barrels through check-in and posing for photographs with executives of Quatar airways, one of the sponsors, we enjoyed relaxing flights via Quatar to Kathmandu the capital of Nepal. Our first three days were to be spent here sorting kit and in my role as communications representative for the junior team the majority of this was spent on the lawn of the Summit Hotel struggling with handheld VHF radios, solar panels, sat-phones and laptops. Unfortunately **Roddy McAuther**, the main teams comms man had even less of an idea than I. However, with the help of the Gurkha Signals workshop at BGN, we had all but one system up and running by the time we left Kathmandu.

The flight to Suketar, a small dirt airstrip cut into the hillside of eastern Nepal was interesting enough. The fear factor heightened for those in the second plane as halfway through the flight the co--pilot leant back to ask if any of the passengers could spare a few batteries as the plane's GPS had just run out! Once safely back on terra firma our trail led us north and east through pristine countryside unspoiled by western tourism. The trek to the main team's base camp took twelve days walking, an average of six hours a day. With little to occupy people when not walking welfare e-mail via sat-phone became a major feature of the trek, a constant battle to charge batteries by solar panel, educate the computer illiterate and solve a multitude of minor technical problems. Daily SITREPs and digital photos were also sent back to the UK for the expedition's website.

On parting with the main team we continued for a further seven days trekking to reach our own base-camp at Pangpema. Once the accommodation and mess tents had been set up, Team 1 and Team 4 of our strongest climber's set off up the glacier to establish! Camp 1 and mark the route to it. This was followed .by days of carrying loads up to stock the camp with the following extract describing a typical day.

Once a camp has been established load carriers began to stock it with food, stoves, climbing hardware and other necessities. The process started at 0400hrs with a cautious look outside the tent to check that the weather conditions are suitable. The morning showed some low cloud on the glacier but otherwise it was clear. Breakfast is hard work, at altitude, and first thing in the morning food has to be forced down. This is hard enough but keeping it down is often harder. Fortified with as many calories as possible we setoff at 0500hrs.

My load today 4-man days supply of rations, two drinks packs, (essential for keeping hydrated) a 50m rope and a minimum of my own personal kit. The moon is almost full and there is no need for head torches as we descend 200m from base camp across the lateral moraines onto the Kangchenjunja glacier. Route finding on the glacier is different to normal navigation. Bearings have little or no use amongst the jumble of rocks and boulders, forming valleys and ridges up to 20m high which are often punctuated by glacial pools and ice cliffs rearing up through the rubble. The route is partially marked by cairns and wands although no crossing ever seems to take the same path. Prominent landmarks are linked together, the trench, the volleyball court, the ridge until you arrive at the far side of the main glacier where it meets a subsidiary coming from the south. Here, where they impact, are large crevasses and ice-cliffs which we cross at a fixed location where solid rock and ice make it safest.

The next section takes us up a wet glacier with mostly snow and ice with less moraine. As the crevasses are mostly closed, we move un-roped and without crampons, speeding our progress up the glacier. On the rock sections the surface ice, often `dinner plates' underfoot, cracking with alarming violence, no danger but alarming none the less. As the sun rises more features of the amphitheater of mountains become clear, and ahead of us Kangchenjunga, 3km of vertical ice, snow and rock rearing above us, dominating the glacier. We bear left in front of its face, still some 2km distant, and move under the icefall at the base of the Mouse Glacier, the location of our first camp. The journey has taken four hours. The sun is now up and we apply suncream, put on hats and glacier glasses. The loads are stashed next to the two tents and after a quick drink and bite to eat we head down, racing the full heat of the sun which will turn the glacier into a frying pan. The route down is quicker following our footsteps and the cairns placed on the earlier load carries and the initial recce of the glacier. We cross the main glacier through the moraine to the base of the 200m climb to base camp. Even with lightened packs progress is slow, breathing laboured with frequent stops. The tents of base camp are reached at 1100hrs, offering shade and fluid.

CASEVAC

The process of stocking Camp 1 was advanced and it was decided to push Team 1 forward to establish Camp 2 at around 6000m. This required route finding up the fractured and crevassed nose of the Mouse Glacier, along the glacier itself to the bottom of Ramtang. Teams 2 and 3 including myself had just finished a load carry on 23 March, returning to base camp around 11 00hrs when we received news on the lunchtime VHF radio check that all was not well with Team 1. They had set of early, navigated the glacier to a point at 5700m. By this time the sun was up and they were forced to abort any attempt to push the route further. The tents and other equipment were cached and then they turned around making it back to Camp 1 by 1030hrs. **Mark Lewis** was complaining of feeling very weak and **Justin Swift** was also exhausted from their efforts. Over the radio it was agreed the two would descend at 1500hrs when the glacier was cooler, this to be confirmed by a further radio call to base camp. When this came it was clear the situation had deteriorated. All four members of the team were now in descent aiding **Mark** who now had an acute headache, blurred vision and poor co-ordination, classic signs of High Altitude Cerebral Oedema (HACE). This is a potentially fatal condition which results from a swelling pushing on the brain and is one of a multitude of medical dangers posed by the extreme pressures which climbing at altitude puts on the body. The team had already administered steroids to reduce the swelling on the brain and had correctly elected to descend with all haste; two decisions which probably saved **Mark's** life. Team 2 including **Euan Lawson**, the team doctor, quickly packed some medical supplies and descended from base camp onto the glacier to assist the now exhausted Team 1. Team 3 remained at base camp with both VHF and Satphone comms should a CASEVAC become necessary. When Team 2 reached **Mark** he was on the verge of coma. Oxygen and further drugs were administered intravenously to ensure a quick reaction. This resulted in some improvement, enough to enable **Mark** to stagger with assistance up the moraine to base camp. Since **Euan** had confirmed Team 1's diagnosis of HACE a CASEVAC was now essential. By this time it was late afternoon and as with valley systems in many mountainous areas we were under thick cloud, preventing helicopter access, tenuous as it was anyway at such high altitudes. A helicopter CASEVAC was thus arranged for first light the following morning. On arrival at base camp **Mark** was given a fuller medical examination in the mess tent and a small team of us prepared to carry him down to a lower altitude, the only sure way of reducing the pressure on his brain. By the time I had packed my kit including the Satphone a storm had blown in and driving snow had reduced visibility to tens of meters. **Euan** now had the harsh decision, descend with **Mark** on the back of a porter in blizzard conditions along a tenuous rock path risking a fall or hypothermia to his exhausted patient or remain with him in base camp but without the beneficial effects of further reduction in altitude. **Euan** chose the latter, a relief to all who would have had to descend with him in the storm, and in retrospect the right decision for **Mark**. With the combination of the drop in altitude from Camp 1, drugs and oxygen he had soon made a remarkable recovery from the edge of coma to talking and complaining that the jokes everyone was making at his expense made his head hurt more when he tried to laugh. This given he was still clearly mentally impaired, speaking in a slow deliberate voice and with poor balance. This was still the case in the morning when the helicopter, struggling to remain aloft in the thin air arrived to take him to Kathmandu. Later that day we received a SITREP on his condition from our Kathmandu contact. A scan had revealed not only bubbles on the brain - HACE, but also their preliminary effects on the lungs in the form of High Altitude Pulmonary Oedema (HAPE), but he was expected to make a full recovery. The realisation that this could happen to one of the more experienced members of the team who had previously climbed on Everest and Mt St Vincents, in Antarctica was a sobering thought indeed.

CAMP 2

The following day saw heavy snow brought on, our Sherpas informed us, by the Gods' displeasure at the nocturnal activities of an American and German couple who were -temporarily sharing Pangpema with us. We stayed tent bound for the day with occasional forays to the mess tent for food and to dig out the tents when the build up became to deep. Due to **Mark's** CASEVAC the teams saw a slight rearrangement which resulted in my move from Team 3 leader to Team 2. The following day saw Teams 1 and 2 moving up to Camp 1, the plan being to use both to establish Camp 2 with Team 3 supporting us from base camp. Team 1 would then move to the top camp for our first summit bid. The move to Camp 1 proved uneventful and we spent a pleasant afternoon under a tarpaulin rigged to provide shade, watching avalanches cascade down the north face of 'Kanch'. This calm was momentarily interrupted by one particularly large avalanche, which as it descended, knocked off more snow ledges and grew to a frighteningly large size powering down the glacier. Whilst the camp was positioned to avoid the main force of just such an avalanche we still received a full five minutes of very cold snow. The following morning we rose at dawn, leaving the camp at 0300hrs and began the load carry up the Mouse Glacier. Due to the snow and increased altitude our progress was slow, compounded by two of our number who, due to vomiting and general weakness turned around, their loads being distributed between the remaining six of us. By 0700hrs we had reached the site of Team 1's previous cache, still 300m of ascent short of our planned sight for Camp 2. We added our loads to the growing pile and descended back to Camp 1 resolving to start even earlier the following morning. Whilst resting in the shade of Camp 1 the teams saw a further reorganisation with two of our number descending back to base camp and Team 1 becoming **David Nichols, Ben MacInnes, Dave Goldsmith** and myself.

SUMMIT BID

At midnight we rose and after a quick breakfast set off again to Camp 2. We reached our equipment cache, adding this to our already heavy loads and continued reaching our chosen site at around 0900hrs. The tents were quickly erected and dug into the snow and after taking on plenty of food and fluids I fell into a disturbed and restless sleep. The following morning I did not feel at all rested and after parting company with my breakfast was dragged over the first section of glacier to the start of the ridge by a concerned **Dave**. As he had little climbing experience it was decided that all four of us would return the next morning when hopefully I would be in a state to lead the steep 60^0 neve that lead up the side of the ridge towards the summit. Luckily my body seemed to acclimatise to the new altitude, this resulted in a good night's sleep and me feeling much stronger. We retraced our steps and we started up the neve. Watching the other pair above me and the incredible panorama above, below and around me I set off, both axes and crampon front points biting solidly into the hard snow. The 50m of rope saw me on the ridge proper from where things flattened out briefly. **Dave** climbed to my position and then moved on to the start of the next steep section. Here we stopped and after catching our breath discussed the next section of the route. A further steep pitch would take us to some near vertical blue ice that the other pair was currently making very slow and careful progress up. Higher still things seemed even harder. I expressed my doubts to **Dave** about the next section and we decided that I would lead the next pitch to the base of the ice section to get a closer look and discuss the problems with **David** who was belaying from there. A slow 50m later our doubts were confirmed. It was considerably harder than anything I had climbed before, and 6400m and two days from help seemed to be a bad place to start experimenting. **David** with his customary habit for understatement commented that it seemed to be getting a bit tricky. **Dave** and I rapidly descended to Camp 2 from where we watched the other two team members' slow progress in increasing winds as **Dave** concocted a fruit jelly to celebrate our safe return. Some 100m further on from our high point they also turned round making it back to the tents and half a jelly for 1200hrs. They had reached a section where further progress was impossible. **David** rated that the difficulties made it the hardest climbing he had done in the Himalayas in 30 years. On the radio we informed the others of the problems and heard the news that only two of the remaining climbers were fit and acclimatised to move up to Camp 2 for a second summit attempt. We met them the next morning passing on our thoughts on the route and is complexities then continued on through Camp 1 back to the luxury of base camp. The afternoon was spent gorging on food, enjoying the surplus of oxygen and for me the epic task of shaving a month and a half's beard growth with just a Gillette and a pair of nail scissors, a task taking a full hour.

THE RETURN

The two remaining members of Team 2 faired no better than us and after reaching the same spot as **Dave** and myself descended. After several days removing all kit from the mountain we loaded the yaks and set off for the seven-day trek back to Suketar. After battling leeches, rock falls and the internal flight we arrived back at the Summit Hotel for our reintroduction to civilisation. Mattresses and showers have never felt so good!

THE COMRADES MARATHON - *by LCpl Moss*

It's not often that the opportunity arises in an Armoured Brigade Signal Squadron in Germany to travel much further afield than Sennelager Training Area. Thus, when the opportunity arose to participate in an exercise in South Africa, we could not resist. **SSgt McLellan** (REME) had been secretly plotting a 10-day cultural' trip named Ex Mailed Comrade. This was an exercise on which he would take seven fit soldiers to compete in the 75th Durban to Pietermaritzburg, Comrades Marathon. A 56-mile ultra marathon dubbed 'the ultimate human race'.

As the event approached the pressure placed upon **SSgt McLellan** was becoming more evident. Team members had withdrawn, sponsors were not paying promised money, and flights weren't booked. Finally everything fell into place at the last minute as untrained replacements were recruited. The team was **SSgt Eddie McLellan** (REME), **Cpl Dex McFaul** (REME), **LCpl Andy Moss, LCpl Mick Daley** and **Sigs Carl Hepworth** and **Pete** and **Hayley Armour**, six of whom were veterans of Ex Vinzents Dash, the unit's Banja Luka to Paderborn run at the end of Op Palatine. On the morning of 11 June we began our journey to Frankfurt airport, on to Johannesburg, and finally reaching our destination of Durban a whole 24 hours after setting off. We now had four days to mentally prepare for the biggest physical challenge of our lives. **Cpl Dex McFaul**, taking part in his third Comrades Marathon shared with us the wealth of his experience, scaring most of us half to death. After meeting up with an old friend, **Pieter**, an RSM in the South African Defence Force, **Cpl McFaul** organised a night in their bar, as well as a BBQ, locally known as a ' brae feast'. Both events were very

enjoyable, and the officers and soldiers were extremely hospitable. We continued to socialise together and generally relax during the build-up to the event. We registered at the Expo Centre in Durban two days before the race, and each received a 'goodie' bag containing the official race T-shirt, race hat, and all sorts of other toiletries, food, stickers, even a box of macaroni which was put to great use by **LCpl Daley**. After a week of anticipation, excitement and preparation, 4 o'clock on Friday morning had finally arrived. It was a dark and fairly warm morning as we, and 24,000 other runners, arrived at the start line. None of us (except **Cpl McFaul**) knew what emotion, pain and in some cases agony we were about to endure.

After 14kms we encountered the first of 'the big five'. Five hill climbs that offer punishment and reward in equal measure. Cowies Hill was tackled on fresh legs, and so allowed us to take in the atmosphere and enjoy the scenery. Next came Fields Hill, Botha's Hill, Inchanga and finally Polly Shotts, each with increased difficulty. From the beginning we had decided to run in pairs. **Cpl Dex McFaul** and **LCpl Andy Moss** led the way reaching the half way point in just over four hours, followed by **LCpl Daley** and **Sig Hepworth**, with **SSgt McLellen** and the **Sigs Armour** not far behind. Regular water stops, lots of Vaseline and the occasional banana kept us all on target to finish the race inside the cut off time of 12 hours. With only 24kms to go **LCpl Moss** had to have a swollen and increasingly painful ankle checked by a doctor. After being advised to stop because of a possible fracture, **LCpl Moss** decided he knew better and didn't wait around for a second opinion, carrying on with the race. All seven members of the team were re-united at the finish, having completed the distance, and comfortably within the time. The sense of 'comradeship' after the race made every painful mile worthwhile.

The next day the local hospital confirmed that **LCpl Moss** had indeed fractured his ankle and was to spend the remainder of the exercise on crutches. This actually worked in our favour. **SSgt McLellen** and **LCpl Moss** were placed in business class for the return journey, with everyone else receiving complementary first-class meals and champagne. The Comrade's Marathon is a phenomenal event and something that we certainly will never forget. Bruised feet and sore limbs apart the entire team thoroughly enjoyed the whole event and can't wait for next year.

EXERCISE RHINO SPEAR - *by Sig Kate Jermany*

(L-R): Capt B Fitch and WO I (RSM) Lawes
RSM to Capt Fitch -
'So we do have a Recce Officer then Sir...'

Ex Rhino Spear was a 1st (UK) Armd Exercise in which the Squadron was tasked with providing the Headquarters for the Divisional Support Group (HQ DSG). The Exercise ran smoothly and uneventfully except when **Sig Barritt** was tasked to drive lkm down the road to deliver a staff officer to a meeting. **Sig Barritt** being a dedicated soldier and one who always carries out his tasks, waited as instructed to pick the staff officer up after the meeting. The smell from the cafeteria outside the building distracted **Sig Barritt and** after a quick snack he returned to his vehicle. What **Sig Barritt** had not realised was that the staff officer had returned by foot to the headquarters leaving **Sig Barritt** waiting... indefinitely. A search party went out for **Sig Barritt** after ten hours and he was found after being away 12 hours waiting in the spot the staff officer had left him. Was it dedication to duty or the extensive array of 'bratties' and stickies in the Cafeteria!

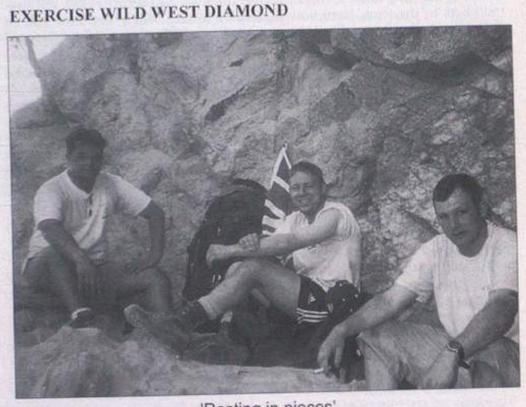
ALPHA TROOP - *by Cpl Robins*
Tp Comd **Lt S. Hughes**
Tp SSgt **SSgt M. Payne**

Alpha Tp would like to say goodbye to **SSgt Payne** who will be leaving us shortly to move up to 1 Battalion REME in Osnabruck, taking with him the Troop's best wishes in his new job. **LCpl Coverley** is also flying the nest and heading over to 15 Sig Regt, good luck and all the best. We would like to welcome **SSgt Burrows** on his arrival at the Squadron and **Sig Reeve** who has moved from Bravo Tp into Alpha Tp. Congratulations go to the newly promoted **Cpl Benson**. Another busy period has struck the Troop to keep the fleet of mystery machines in good working order to deploy on Ex Rhino Spear as the Headquarters of the Divisional Support Group. Normal exercise difficulties were doubled with the addition of preparation for RSIT, which awaited us on our return to barracks. Contrary to popular belief it is not all work and no play, as the busy period was thoroughly 'rewarded with the Squadron Summer Ball. The Ball was a perfect end to an almost perfect day when Alpha Tp almost won the Inter-Troop Athletics, had they not of been disqualified in the 4 X 400m relay. (Despite winning by a clear 60m, we managed to achieve third place overall). **Cpl Robins'** attempt to avoid the exercise came to an abrupt end when he was making his way to Army Water Polo and came off his bike.

BRAVO TROOP - *by LCpl King*
Tp Comd **Lt P. N. Randell**
Tp SSgt **SSgt J. Crabb**

Well it has been an eventful month, with a few new faces appearing around the Bravo Tp garages. We will start by giving a warm welcome to **LCpl Dickenson** and to **Sig Walker** and **Sig Cooper**, who arrived mid way through Ex Rhino Spear. He wasn't quite that lucky, as he was running round for the staff in the main complex of HQ DSG Main within a few days of his arrival in Sennelager. Next we welcome, straight from the factory **Sig Kean** and **Sig Walker** (yes, another **Walker**!) We have lost **LCpl Kelly MacGregor** to 1 (UK) ADSR. And finally we have **Sig Rachel Reeve** who has had the opportunity to shine amongst Alpha Tp for the rest of her tour with the unit.

EXERCISE WILD WEST DIAMOND



'Resting in pieces'
(L-R): Sig Barritt, LCpl Trott and LCpl Knox

The going hasn't all been easy for certain members of the Squadron as **Sig Scott Kean** tells:

*'On 21 May a nine person team from 20 Armd Bde HQ & Sig Sqn (200) led by **Capt Paul Randell** and **SSgt Jim Crabb** left for a three-week adventure training expedition in the Western United States. The main objective of the trip was to make the ascent of Mount Whitney (9, 450 metres), the highest summit within the continental United States. To the dismay of all the team our progress was halted due to the severe snow and ice storms we encountered. However, several other challenging treks were accomplished in the Yosemite National Park, Death Valley and the most rewarding of all both for its natural beauty and breath taking size, the Grand Canyon. With a few days R&R in Los Angeles which included a visit to Hollywood and a round of golf, it was a superb way to round off a trip that was enjoyed by all.'*

SUPPORT TROOP - *by LCpl Hall RLC*

Support Troop win the Inter Troop Football Competition
Front Row (L-R): LCpl Heydon, Sig Holmes, Cpl Smith, LCpl Hall, Sgt Bean
Back Row (L-R): WO2(FofS) Dawson, Sgt Gibbins, Sig Bishop, Sgt Moore, SSgt Robinson, WO1(RSM) Lawes

Tp Comd **Maj M. G. P. Bohanan**
Tp SSgt **SSgt H. Cappleman**

Support Tp have had a very busy time over the last six weeks but have still managed to socialise and say goodbye to **Sigs Bishop** and **Crosby** who are off to sell the 'Big Issue' on the streets of Sunderland. Congratulations go to **Cpl Doick** on his selection to Sergeant. The Troop even managed to win the Inter Troop Football competition. (We had the RSM playing for us! God moves in mysterious ways but the RSM doesn't!))

MAINTENANCE TROOP - *by Sgt G. Brown*
Tp Comd **Capt S. Gough**
Tp SSgt **SSgt M. Yates**

A warm welcome goes to our new Troop Comd/Ops Officer, **Capt Simon Gough** (in case anyone in the Corps doesn't know, he got a FIRST for his degree at RMCS Shrivenham, managing to drop the hint to everyone from Signaller to Brigadier), well done Sir! We would also like to welcome **LCpl Levi** and **LCpl Evans** who have come straight from Blandford. We would like to wish **Capt C. Crowther** all the best on JDSC and in the future. We even managed to win the Inter-Troop Rugby Competition.

Maintenance Troop win the Inter-Troop Rugby Competition
Front Row (L-R): LCpl Levi, Cfn Chalmers, Sgt Brown, Sig Pidhajeckyj, Cpl Shotbolt
Back Row (L-R): SSgt Yates, Sgt Kenyon, LCpl Evans, LCpl Stoneman

19 MECHANISED BRIGADE HEADQUARTERS AND SIGNAL SQUADRON (209)

Sqn Comd **Maj Paul Peel**
RSM **WO1 (RSM) Steve Mitchell**

Nursing a few sore heads after adventure training, we moved on to the military training package of the year. We survived two weeks on the range without casualties, which meant that the Squadron could progress on to Ex Panthers Claw, a live firing battle camp on Otterburn Training Area. Before the camp, we had time to say goodbye to a number of key personalities from the Squadron. It is with regret that we lose **WO1 (RSM) Steve Mitchell** to Civvy Street. Many thanks for all your work here, and especially for organising your own (memorable) leaving do. We wish you all the best in the future. From the training wing, we also say goodbye to **SSgt Bob** 'Austin Powers' **Low**. Good luck in Germany. 20 Armd Bde beware!

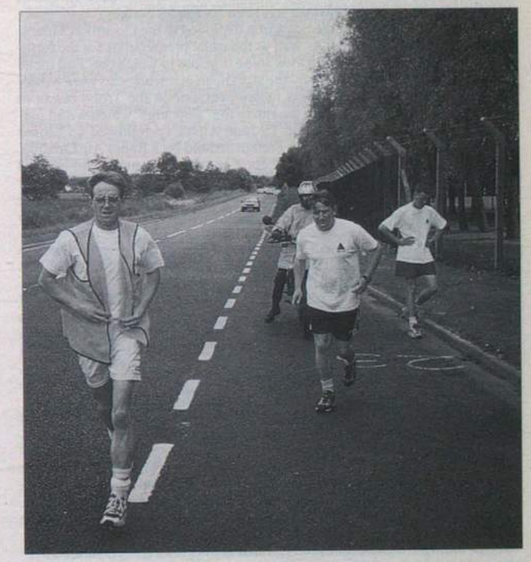
ALPHA TROOP
Tp Comd **Capt John Griffiths**
Tp SSgt **SSgt Jase Smithurst**

The Troop continues to stay busy, continuing with the normal saga of vehicle maintenance, whilst at the same time getting into green mode for the Squadron battle camp. The two weeks on the range were great and everyone now is looking forward tremendously to a week field firing in Otterburn. Well, some are. The Squadron Half Marathon saw a very good turn out from the Troop, with lots of people surprising themselves with the fact that they could actually run thirteen and a bit miles, (although everyone knows that **Cpl** 'Ski' **McKie** walked a bit). As another four weeks leave loom it is time to bid farewell to no less than seven members of the troop. The Tp OC leaves to go parachuting in Colchester, **Sgt** 'Geordie' **Pearson** leaves for a ridiculously paid job in Civvie Street, alongside **LCpl** 'Russ' **Abbott, LCpl** 'Monty' **Monteith** and **LCpl** 'Dishy Dave the Rave' **Moore**. **Cpl Neil Jones** leaves on promotion to 2 Sig Regt and **Cpl Dave Berry** goes to further his contacts within the Corps at Blandford, all the best fellas. Recent arrivals include **Cpl Simpson** from 14 Sig Regt (EW), **Cpl Giddens** from 3 Div, **Cpl Whittaker** from Blandford, **Sig Wellburn** from 1 Div and the new boss, **2Lt Graham Clarke**. Here's looking to Agricola 5.

BRAVO TROOP
Tp Comd **Lt Simon Bristow**
Tp SSgt **SSgt Mick O'Brien**

As usual Bravo Tp have been working and playing hard over the last few months. It started with the Troop's turn adventure training when the Troop engaged in various activities, some more adventurous than others. Of particular note were **Sig** (female of the species) **Rakocevic's** amazing spiderman impressions during rock climbing and enthusiasm to practise capsizing her canoe. However, the real adventures were to take place in Barnstable during the evenings, especially when **Sig Phil Moore** donned his wig and artificial chest to stun the town with his cabaret act! Being as generous as we are, we ran from the East Coast to the West to raise money for Beaumont Hill School in Darlington, a school for mentally handicapped children.

There were 26 weary faces leaving Tynemouth at 0350hrs in the morning, long before the sun came up and the same faces at 1400hrs, sitting in a pub in Tynemouth. Of the 76 miles, each member of the Troop did the first and last mile and a 3mile leg in between, some were harder than others. Since then, we have prepared for Battle Camp by spending two weeks on the ranges, the highlight of which was **SSgt** 'Bruce Lee' **O'Brien's** mad samurai impressions (complete with headband) during bayonet instruction and **Sig** 'Zena' **Addy's** fearsome war cry! Finally, there has been the ever-present comings and goings. **Cpls Steve Lowery**, 'Taff' **Langley** and the incredibly ancient **John** 'Grandad' **Hart** all leave for pastures new, good luck all of you. To attempt to replace them we are joined by **Sigs Neil Harrison** and 'Big Al' **MacPhee**. Welcome to you both.



SUPPORT TROOP
Tp Comd **Capt (QM) Graham Reith**
Tp SSgt **SSgt Steve Legg**

The last couple of months started with Ex Puib Ebor, adventure training in Barnstable, North Devon. The River Taw was part of the early morning wake-up routine which involved a short run down to the river-bank, then a quick dip in the nice, warm water (cunningly disguised as mud) and back in time for breakfast. Many of the activities were led by Support Tp, including mountain biking with **SSgt Bob** 'Oh no, we've lost another one' **Low**, hill-walking with **SSgt John** 'It's just a little hill' **Gorman** and canoeing with **LCpl Al** 'That was a big wave' **MacKay** and **Sig Mark** 'Suicide-inclined' **Stafford**. Welcome to all newcomers to Support Tp: **Sigs Andy** 'Sooty' **Sutcliffe** and **John** 'Feltcha' **Feltcham** and **SSgt John Gorman**. Goodbyes to the two chefs, **Sgt Dave Halliwell, Cpl Jason Jones** and also to **Lance Comical Ricky** 'Lichtfuâ' **Lightfoot** who leaves for 1(UK) Civ Div.

EXERCISE PANTHERS CLAW

After two weeks of running up and down firing points in Catterick, we finally found ourselves in sunny Otterburn playing infantry. To those of

you who haven't done it for a while, it's like paint balling without the paint but a bit more organised. The exercise was split into two parts, involving both blank and live firing. The live firing, run by **Capt Pete Young** built up from pairs fire and manoeuvre to section attacks with casualties. **Sigs Marshall** and **Best** showed that they were shy of water, and were wary of entering a small stream to keep low. The reason was understood when **Sig** 'half-pint' **Best** stepped in and practised her front crawl! **Cpl Hill's** section were like children playing in mud pies when it came to cam cream, and their overall enthusiasm led to them winning the best section award.

As a parting gift from **Capt John** 'Airborne' **Griffiths**, the blank phase started with a short bimble from Otterburn Camp to the first basher area. With everybody suitably warmed up eight hours later, they prepared their defences in a wood which they shared with a few million ants. Our thanks to **SSgt Mick** 'Sadism' **O'Brien** for nominating this to be our home, it wouldn't have been the same without the ants to keep us company! Recce patrols later went out and only one patrol successfully managed to lose their DS, (though I expect others tried). They returned at varying times throughout the night, but there was no surprise when lo and behold, the enemy found us and attacked at around 0600hrs. With many people ready and waiting, I wonder if they had been tipped off? Or are we that predictable?

After a move to another harbour area, the sections practised their fighting skills by attacking the enemy, and culminated the phase with a platoon attack, though **Cpl Smith** appeared to think it was a section attack, and his section took all the positions themselves. The exercise culminated with a LAW shoot for 25 lucky people from the Squadron. All who did it thoroughly enjoyed the experience, though it went to **SSgt Bob Low's** head, with a nosebleed as thanks for his services as safety supervisor. Well done to all who took part, and thanks to the DS and admin staff who missed out on the fun parts but nevertheless made it possible.

16 AIR ASSAULT BRIGADE HEADQUARTERS AND SIGNAL SQUADRON (216)

Sqn Comd **Maj I. Hooper R SIGNALS**
RSM **WO1 (RSM) C. D. Drew**

ALPHA TROOP - *by Sig Currie*
Tp Comd **Lt J. K. Hawkins R SIGNALS**
Tp SSgt **SSgt J. J. Walker**

This month in Alpha Tp has been extremely busy with the Signallers and Lance Corporals taking part in Ex Aldrins Step and the Troop preparing for Ex Iron Hawk (Med Man) which will begin in Canada at the end of August. The main event however has been Ex Eagles Strike.

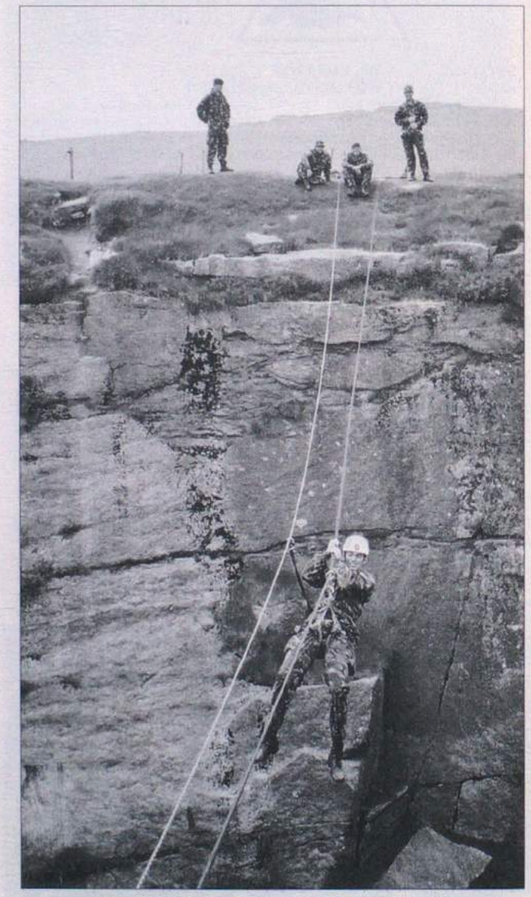
On 10 June elements of the Squadron deployed to the Operation Mounting Centre at South Cerney. As well as the usual preparations for the forthcoming 'Operation', the Troop took some time out to watch the 'Full metal jacket' style of PT undertaken by the American elements who were participating in the Exercise. Needless to say everyone in the Troop began to compare the 'lightning' pace of the run to the 'slow jogs' which we all participate in back at Colchester. On 15 June Alpha Tp followed up behind the Parachute insertion onto West Freugh airfield by a Rapid Air Landing. The flight up was a new experience for a certain **Sig Ancell** who insisted (as this was his first time in a Hercules) that I should take a photo of him using the luxury urine collector at the back of the aircraft. Only fleeting glimpses of **LCpl Watts** were seen on the airfield as he was detached to his airborne 'brotherhood' namely, Charlie Tp. **LCpl Perry** and **Sig Bellamy** were detached to 4 Regt AAC to assist in providing comms back to Brigade HQ. This did not go to plan and the couple found themselves somewhat surplus to requirements. Meanwhile, back at Brigade Main HQ, new boy **Sig French** was making an all out effort to be the one member of the troop to be awarded the most crates on the exercise. This was due to his craving for driving over things such as **Cpl Farnes'** washbowl, and just so as not to leave anyone out jacknifing **Sig Bellamy's** trailer which led to a lot of, 'That's gonna cost you mate!' type of phrases from the REME. With the enemy defeated, the Troop returned to Colchester for a nice weekend off.

Alpha Tp would like to officially welcome **Sig French** and **Sig Etchell** into the fray of our world, and we wish them well here in the Squadron. A big well done to the 'athletes' of the Troop who managed to win this year's Inter-Troop Athletics, and a special thank you goes again to **Sig Ancell** for the entertainment your face provided us in the long jump competition. Bye to all the Troop members who are off adventure training in Spain on Ex Medes Meander, we're sure you won't be drinking too much. Everyone here is looking forward to their well-earned summer leave in the next few weeks and will be back refreshed towards the beginning of September.

BRAVO TROOP - *by LCpl Lawson*
Tp Comd **Lt R. A. Hamilton R SIGNALS**
Tp SSgt **SSgt P. D. Bartliff**

The last couple of months have been as hectic as usual with most of the guys on standby to deploy with PJHQ or any other trouble spot on Earth that you care to mention. Thankfully the standown from this role has been given and the Troop has managed to get in some of its own training. **LCpl Childs** organised a leadership week which included visiting the Submarine Escape Unit at HMS Dolphin, and the Helidunker at RNAS Yeovilton where **SSgt** 'Corps Water Polo Player' **Bartliff** suddenly became water shy. The following week was a savage cadre course compliments of our boss which climaxed with a 40 mile tab over Dartmoor carrying out various stands en route. Luckily this included a four hour enforced rest so naturally no-one had any excuse not to be full of beans. As a reward we finished with a BBQ, beers and about two hundred midge bites. **LCpl** 'Goodstuff' **Good** would like to send a heartfelt congratulations to **Sig Hack** for beating him in this personal show of strength and resilience. The Troop would like to welcome **Sgt Thornton, LCpl Young, LCpl** 'Wigger' **Taylor, Sig** 'Geordie Maggot' **Wealleans** and wee 'Spud' **Slater.** Finally the Troop would like to wish **LCpl Thorpe** and **LCpl Good** all the best on their course.

EXERCISE ALDRINS STEP, 26 – 30 JUNE 2000



Sig Ancell traversing a ravine at Check Point 2

With the Troop Commanders and Corporals having had a good run out on Ex Lion Sun last year, it was felt that it was about time that the Signallers and Lance Corporals were put to the test. Thus the tasking went out from the OC Sqn and Ex Aldrins Step was created, to teach, develop and assess the basic leadership skills required of a JNCO in the Air Assault Signal Squadron. Pre-training, for the exercise, took part on 31 May – 1 June 2000 and predominately concentrated on introducing the cadre to basic estimates and developing their navigation skills. All too soon though the 26 Jun 00 descended on the cadre and 37 anxious-looking soldiers paraded outside SHQ ready for the off.

The first day and a half covered leadership theory and the importance of various aspects of leadership including organisation, delegation, discipline and integrity. The cadre was split into seven patrols and further lessons concentrated on developing teamwork as well as giving them the opportunity to meet and work with members from the other troops. It was with even more anxiety that the Cadre paraded on Tuesday evening, only in the knowledge that they were heading towards 'somewhere near Dartmoor' and that they would be on the hills for the majority of the time. In fact the first port of call was to the Royal Marines Commando Training Centre at Lympestone. The cadre arrived at 0300hrs on Wednesday and were presented with a written problem and given three hours to come up with and present their solution. The problem included grids of a number of checkpoints which the patrols had to visit in a 32hr timeframe, as well as various time and area restrictions which had to be taken into account in their estimates. After delivering their estimates, the patrols formed up ready for the road move up onto Dartmoor.

Needless to say that when two Royal Navy Sea King helicopters turned up and the cadre were told that they would be dropped somewhere within 1 ½ kms of their original start point, there was some frantic action as maps came piling out as the patrols began to look at likely landing sites. After a 25min helicopter ride, the patrols were inserted at various points around the training area and set off for the check-points. In all each patrol covered around 60kms as they tabbed to each of the fifteen check-points, ten of which had command tasks that took on average 30mins each to complete. On completion, the patrols made their way to one of two finish points and were extracted to an admin area. There, a BBQ and beers were waiting for the cadre which was met with instant relief by those who had participated. The exercise proved to be a great success and the fears of many that the event was going to be a real 'beasting' came to no avail. However, it was with much embarrassment at the service station on the way back that the 37 sore footed soldiers were beaten off the bus by a SAGA tour of OAP's that happened to pull up at the same time!

EXERCISE NORMANDY 2000 OVERLORD - *by LCpl Good*

The merry crowd of Airborne Warriors left Colchester at stupid o'clock on 4 June 2000. The chosen few were on a special mission to jump into Normandy like our World War II comrades before us. The men for the mission were **WO1 (RSM) Chris Drew, SSgt Pete Hatton, Sgts** 'Pathfinder' **Combe** and **Kenny Rayson, Cpls** 'Fatty' **Fernie** and **Knibbs, LCpls** 'Crow' **Browning**, 'Goodstuff" **Good**, 'Pez' **Perry**, 'Fish' **Salmon** and **Sig** 'Air' **Bourne**. The flight to the DZ was an experience in itself, a hot and uncomfortable ride for everyone. The jump went in at approx 1545hrs which was another experience as **LCpl Good** not only had an air steal but an entanglement as well! All the other lads managed to have a safe and enjoyable jump and once on the ground **Sgt Combe** met **HRH The Prince of Wales** and **General Jackson.** After the pleasantries the lads were given food, and a kippage area in the town of Merville. Once suitably rested the team went in search of some light refreshment and took off into the nearby town in search of lager and local wine.

On 5 June a battlefield tour was squeezed in encompassing Pegasus Bridge, the Merville Battery and the military cemetery in Ranville before the return to sunny England. Thanks go to **Lt Courage** for organising the trip.

Exercise Normandy 2000 Overlord
Back Row (L-R): WO1 Drew, Sgt Rayson, Cpl Fernie, LCpl Good, Cpl Knibbs, LCpl Browning, SSgt Hatton
Front Row (L-R): LCpl Perry, LCpl Salmon, Sig Bourne, Sgt Combe

CHARLIE TROOP
Tp Comd **Lt O. T. B. Courage**
Tp SSgt **SSgt P. Hatton**

Life has continued to be extremely hectic in the Troop with a busy exercise and training programme. However, one sad event has recently dominated our time. **Cpl Al Joy**, who had been battling against leukaemia since being diagnosed last September, passed away in the early hours of Tuesday 2 August. Following a successful bone marrow transplant **Cpl Joy** contracted pneumonia whilst the Squadron was on Ex Eagles Strike. Initially given two days to live he battled on for 25. His funeral was held on 8 August and many Squadron members came off leave to ensure **Cpl Joy** was given a full military send off. **Al** will be sorely missed by the whole Squadron and we convey our deepest sympathy to his family.

As well as this sorry goodbye we say hello to **Sig Hackford** who has joined the Troop straight from training. Also congratulations to **Sigs Donnelly, Duff, Dunseith** and **Newell** on passing P Company.

EXERCISE EAGLES STRIKE - *by LCpl O'Donnell*

Ex Eagle's Strike was this year's major brigade exercise involving the 2nd Battalion of the Parachute Regiment and 4 Regiment Army Air Corps in a medium intensity scenario. As usual the Squadron initially deployed to the Operations Mounting Centre at South Cerney to conduct low-level training and prepare for the parachute insertion.

The exercise itself took place in the Galloway area of Scotland and was to start with a jump onto a beach. Unfortunately, the weather had other ideas with high winds forcing the jump to be cancelled. We therefore resorted to plan B and TALO'd into West Freugh airfield once the enemy positions there had been destroyed. On the ground we established the Brigade Light Tac headquarters in a small outbuilding on the airfield. At this stage **Sig Bourne, Sig Fyfe** and myself were attached to 2 Para to provide comms from their headquarters back to Brigade. We were welcomed with open arms as they had no operators. They couldn't believe they'd been sent more bods to stag on the radios. However, once the battalion was re-tasked we deployed forward by helicopter as part of CO's Tac. The battle was brilliant with 2 Para pulling off an attack onto positions in Dalbeattie in true airborne style. The attached American Company from the 101st Airborne Division fared less well as they were withdrawn after loosing so much kit as to be non-deployable. I'm sure they came here for the R and R and not the war!

Despite the battalion 2IC getting the good news in the back during a white flag negotiation the war was finally won. We stayed with 2 Para for the final phase which involved a parachute insertion into Thorpe DZ. The weather was fine and it looked like the jump was going to go in. However, unfortunately there had been an administrative error. The DZ had been booked in local time and we were working in Zulu time! During the aircraft's final approach it was discovered that artillery shells were whizzing over the DZ as the area is also used as an artillery range. The CO promised that someone would get hung for the mistake. This worried me as trouble always rolls downhill and it normally stops at me! All in all the exercise proved to be a very interesting experience. Working so closely with the battalion commander during the battle meant that we got to see the bigger picture.

LCpl Chamberlain (L) and Sig Bellamy flying into location by Chinook

SUPPORT TROOP
Tp Comd **Capt S. A. Clarke**
Tp SSgt **SSgt P. Latimer**

EXERCISE EAGLES CHALLENGE - *by LCpl Browning and Sig Pye*

Ex Eagles Challenge was a week-long adventure training package for members of Support and MT Tp and took place in the allegedly sunny climbs of Newquay and Cornwall 11-16 June 2000. The Exercise was organised by **WO2 FofS** 'Wannabe airborne?' **Sturman**, who was supported by **RQMS** 'Taff' **Furnival** and **SSgt** 'Nooky bear' **Latimer**. A good time was had by all, especially the advance party who had 'to prepare the camp' for the arrival of the main body. How this involved so many late nights in Newquay remains a mystery to all but those who were there.

Rock climbing was unfortunately the worst affected by the weather out of all the activities undertaken. The area had lots of good climbs on the cliffs around the bay but the rain rarely relented to let us take the opportunity to attempt them. Occasionally we did manage to get some climbing time in which included an abseil route off an overhang above a large cave entrance. This tested the bottle of many and proved a great laugh. Less susceptible to the atrocious weather was the surfing. The Australian instructors made it look really easy much to our annoyance. Instruction began with mastering how to get on the board and catching the waves. Consequently we spent most of the time fighting the waves and trying to stand up, only to be thrown back in the water. This again proved to be extremely amusing and gave us plenty to talk about over a few beers in the evening!

12 MECHANIZED BRIGADE HEADQUARTERS AND SIGNAL SQUADRON (228)

Sqn Comd **Capt L. Hendricks**
RSM **WO1 (RSM) S. G. Jackson**

Since arriving from Bosnia in June, the Squadron Headquarters has been exceptionally busy. After the mandatory medals parade it was all hands to the pump ensuring people got away on their well deserved post-tour leave. The OC, **Maj Scott Workman**, was posted to Central Building in London early July, leaving the 2IC, **Capt Lee Hendricks**, in charge of the Squadron until the new OC, **Maj John Charnock**, arrives in August 2000.

We have said farewell to **Pte Charlie Smith** (Leave & Movements Clerk) who after three years army service has decided that a career in civvie street is the way ahead; she will be greatly missed. Whilst in Bosnia, **LCpl Jaihadabur Gurung** also departed the Squadron office. He returned to 1RGR, who are due to return to Brunei this year. He was replaced by **LCpl** 'G10' **Jiten** in June who takes on the role, amongst other job titles, as the Registry Clerk.

ALPHA TROOP

Tp Comd **Lt Ed Dickson**
Tp SSgt **SSgt Dicky Dyer**

Alpha Tp is now back at 'The Shot' after the six month holiday in Bosnia. We departed Bosnia in style, culminating in the BRITFOR Sig Sqn end of tour party. It was a Fancy Dress Night with most of them being from Comms Tp. We decided to go as WWF wrestlers (very tenuous). The main event of the evening was the 'Royal Rumble' with a special mention to **Sig** 'It's not fat, it's muscle - honest' **Tubb** who took on all comers and proved to be a true champion. The final bout of the evening between OC Comms Tp, **Lt** 'Doris' **Day** and OC Mobile Tp, **Lt** 'Dave' **Hazelwood**, came to a premature end due to Commissioner Workman (The OC) deciding it was time for bed. On returning we had two days at work before our much-needed End of Tour Leave. The OC Sqn took us all out for a final tab onto the area before being posted. Most people approached the event with fear and trepidation but were very relieved when only one mile into the march there was a landrover waiting with beers - Cheers Sir! Now we are back at work, the hard slog of fitting out and getting to grips with the panzers before our hectic exercise period begins - never mind only three weeks until summer leave! The Troop would like to say hello to the new Troop Commander **Lt E' Dickson** and his spotty dog **Molly, LCpl Dale** 'Wild in the aisles' **Petty, Sigs** 'Webster' **Web**, 'Loud Bloke' **Grochowina** and 'Herbie' **Hide**. We would also like to say goodbye and congratulations to **Cpl Paul** 'Grenade' **Coxon** on his posting to 2 Sig Regt on promotion to Sergeant and **LCpl Dave** 'Skinny' **Reid** on posting to the EOD (**Dave**, apparently the course is harder than your 2-1 entrance exam!)

BRAVO TROOP

Tp Comd **Lt Tom Day**
Tp Sgt **Sgt Wilcox**

The Troop is now back at work after post tour leave with the rest of the squadron. Whilst the Troop was away on Op Palantine the rear party had kindly volunteered their services to move all the troops possessions from their current location to a new set of garages and offices 400m down the road. This they achieved and only managed to lose a few items. It is now all hands to the pumps to get the Troop fitted and ready to deploy on a series of exercises in October. With the majority of personnel never having worked on armoured vehicles the learning curve has steadily risen to it's current vertical position.

Amongst the organized mayhem that currently is our working day, there have been the usual postings in and out and even the odd promotion amongst the troop. Congratulations go to **Cpl Keith Langan, Cpl Griffiths** and **Cpl** 'Si' **Barker** on being selected for promotion to Sgt, also farewell to **Cpl** 'Taff' **Davies** who goes all the way to Alpha Tp, and good luck - you will probably need it.

Travelling further afield are **LCpl** 'Rick' **Turner** who is posted to 249 Sig Sqn and **Sig** 'Del' **McDowell** who is off to experience the delights of 1 Armd Div Sig Regt.

Posted in we have **Sgt** 'Trev' **Allan** from 1 Armd Div Sig Regt, **Cpl Sarah Guthrie** who arrives in the Troop from the flesh pots of Blandford. Also posted in from Blandford we have the fresh young faces of **Sigs Stockdale, Dunkin, Shrubsole** and **Burfield**. With summer leave only just around the corner the Troop hierarchy are coming up with the usual jokes such as, 'Any volunteers for summer duties?' and many other pearls of wisdom they seem to find amusing.

Q TROOP

Tp Comd **Capt Guy Richards**
Tp SSgt **SSgt Greaves**

Q Troop is now back together after being spread to the four winds during our recent tour in Bosnia. With a well-earned four-week leave under our belts its all hands to the pumps to make ready our new working areas for the busy times ahead. The areas are proving to be a challenge in itself with the QM's department, LAD and the MT having had to move locations twice in the last three months.

The Troop personnel have gone through a lot of change over the last couple of months. Out go **Capt** 'George' **Burrows, Sgt** 'Bri' **Sheard, LCpl Shane Crozier, Cpl Chris Hemmings, LCpl Neil Port** and **LCpl Dougie Hall**. Goodbye to you all and good luck with your respective futures. Hello to the Blandford six, **Sigs Debs Burke**, 'frankie' **Collins**, 'Debs' **Fairbrother, Dave Hammond, Janine Hedgecock**, 'Gaz' **Nicholson**; I'm sure Aldershot and Montgomery lines can match the facilities of Blandford.

Congratulations are also in order and these go to **Sgt** 'Bri' **Sheard** and his wife Nicki on the birth of their daughter, **Sgt** 'Gordy' **Gray** and his wife Leigh on the birth of their daughter, and **Cpl** 'Dis' **Disley** and his wife on the birth of their daughter. It must be something in the Aldershot water supply.

Congratulations also go to **SSgt** 'Deano' **Whitworth, Cpl** 'Kev' **Dade, LCpl** 'Big Mase' **Mason** on their recent promotions.

241 SIGNAL SQUADRON

This has been a busy couple of months for 241 Sig Sqn. The Squadron has doubled in size by taking over the I&S Troop of 243 Sig Sqn. The main element of 243 Sig Sqn is moving lock, stock and barrel into Wilton to be in support of Land Command. This now leaves 241Sig Sqn as the ACISG Signal Squadron for the whole of the 5 Div area; we seem to spend more time on the road than the average travelling sales person. During this take over the service desk also took over the responsibilities for tasking and fault control from both the Corsham help desk and the Bulford help desk. This has had quite an impact on the amount of calls coming into the Donnington service desk. **Cheryl, Julie, Jan** and **Pat**, the Service Desk Supervisor, have had to put away the knitting patterns and the Bella magazines and join the real world. The take over certainly wasn't plain sailing but hopefully we can go forward with one aim and that is to give a first class service to all those people out there.

The Squadron held its annual summer barbecue and thanks to the excellent organisation by **Cpl Robinson** everyone went away well fed and watered with the odd one or two socially confused. The fact that the Disco did not turn up did not phase **Cpl Robinson** who let her fingers do the walking in the yellow pages and had a replacement disco setting up within the hour.

EXERCISE MERCURY GLYDERS

Ex Mercury Glyders was a Squadron Adventurous Training exercise which took place in Snowdonia, during May 2000. The exercise involved hill walking for three days over Snowdonia and its various peaks. It was an excellent time for departments and troops to get some fresh air and earn some new nicknames. For military members it was 'arduous and very wet', and from the civilian side it was 'team building and pub lunch'. All are now looking forward to going to the Lakes in October, (not to mention Pasha's in Morecambe).

YofS Wedge (centre) with his civilian sherpa's on the Devil's Kitchen with Llyn Ogwen in the background

HAIL AND FAREWELL

Welcome to **Capt Bill (TOT) Simpson**, who has arrived from Northern Ireland on Commission and is double hatted as OC of the Bulford Tp and is also a member of the Squadron Ops Team within SHQ. Also to **SSgt Colin Brown**, who has been posted to Tech Troop, and **Janet Mannering** who takes up the post of EO IT. Goodluck to **Cpl Michelle Sheppard**, who has decided to leave the green stuff, increase her family and become a full time housewife. Farewell to **LCpl Mick Leet** who has also decided to leave and get a proper job, all the best to you and your family.

243 SIGNAL SQUADRON

QUEEN MOTHERS BIRTHDAY PAGEANT
WEDNESDAY 19 JULY 2000-08-02
by SSgt Lindsey Manktelow

I was overjoyed when I and **LCpl Morris** (11 Sig Regt) were asked to represent the Corps at **Her Majesty the Queen Mother's** Birthday Pageant. Not realising the importance of the event, I arrived at Chelsea Barracks on the evening of 17 July. The parade square was alive with people, mainly the Royal Navy still practising (later it became obvious as to why they had to). We were informed of the parade timings for the following morning and as we had arrived early it was an ideal opportunity to see something of London.

The following morning was unbelievable. The amount of troops present was astonishing from such varied units as the Black Watch, the Irish Guards, the 9/12 Lancers, the Royal Anglians and many more even representing the Commonwealth from Canada and New Zealand. Then there was the Women's Army Detachment which consisted of various cap badges in which females serve. We were representing the WRAC which **Her Majesty the Queen Mother** was patron of for so many years.

The first practice was sketchy and on seeing the Garrison Sergeant Major of the Guards who is all of 6' 8" tall (without his bearskin on). I thought it's not going to take him long to whip us into shape and it didn't. We moved to Wellington Barracks where we continued for two days practicing the format for the parade, in blistering heat. It seemed the actual parade was never going to happen but after the last rehearsal and with half an hour to get into No2 dress it was finally happening. We lined up for parade at 1600hrs and it seemed the whole of London had turned out for this magnificent event. The excitement was too much and when we marched on and saw the thousands of people in the stands and the Royal representatives, all the sweat and pain had been worthwhile. On the arrival of **Her Majesty the Queen Mother** who looked absolutely radiant the whole of Horse Guards Parade erupted in elation. It was a great honour to have been given the opportunity to take part in such a parade, one that will never be forgotten.

ON PARADE!
(L-R):LCpl Morris and SSgt Manktelow pose with a colourful escort

RETURN TO WILTON - *by Capt (Retd) Bob Wright*

For all those past members of the unit including all those who served with 10 Sig Regt. You will wish to be aware that the unit is once again located in Erskine Barracks, Wilton. With effect 1 June 2000 the unit moved from Ward Barracks, Bulford and are now located in Elbe Block, Erskine Barracks. The wheel continues to turn!

259 SIGNAL SQUADRON

Sqn Comd **Maj J. H. Fraser**
SSM **WO2 Tredwell**

The Squadron bid a sad farewell to **WO2 (SSM) Dean Ewing**, who goes back to 7 Sig Regt, from whence he came. We wish **Dean, Donna** and the family all the very best for the future. In his place we welcome **WO2 (SSM) Dick Tredwell** and his family, fresh from the stresses and strains of life at Sheffield UOTC. We wish you a happy tour or at least it will be when your wife gets back from Bosnia to help you with the kids!

AIRFIELD TROOP

Tp Comd **2Lt Kate Milner**
Tp SSgt **SSgt Bob Stenhouse**

There are plenty of hellos and goodbyes this time from 'The mighty fighting Airfield Troop'. Gone is **Lt** 'Ginger Rogers' **Kemp** to the sunny delights of Bulford, whilst **Sgt Parton** has fuelled his desire to become Van-Damme and opted for a posting to N. Ireland. Farewells also go out to Tweedle dumb and Tweedle dumber, **Gaz** 'Mr Lover-lover' **Fuins** and **Aidi** 'Tug-boat' **Bennet**. Arrivals have been swift in coming, **2Lt Milner** has arrived from RSS Blandford, as well as **Sig** 'Malcom' **Goddard** (the new ships cat!) and **Cpl** 'Rock and roll' **Creeley**, who has retraded from Dvr-Lineman to Tech-tea boy. **Sig Prigmore** has also turned up and is determined to get the Troop's fitness up to Para standard, just wait until he puts on the Cyprus stone! Welcome back **Sig Holley** from the war-zone and goodbye to **SSgt Stenhouse, Sig Milevsky** and **Sig Wells** who have left us for Kosovo, and **Cpl** 'Randy Dudd' **Rudd** who has gone to the Falklands. A final mention goes to **Cpl** 'Goose' **Paterson** who has taken up flying lessons…. the crash-comms crew is now on full alert!

EPISKOPI TROOP

Tp Comd **Lt Sarah Covey-Crump**
Tp SSgt **SSgt Jim Duncan**

A busy time for the Troop at the moment, what with plenty of visitors and, not before time, a few new arrivals to boost the numbers. A hectic few weeks began with the addition to the Troop of a pair of officer cadets eager to be shown around the island and find out what a working unit is like in Cyprus. Needless to say they have returned to the UK looking remarkably brown! The SOinC, **Brig Burton,** and the Corps' RSM also paid us a visit. They toured the Squadron and then bravely fielded questions on the future of the Corps' in the Jimmy Club. A few days later we also had the pleasure of the company of the Chief of Staff, **Brig Radcliffe OBE**, who came to have a look at the Troop and see how things were going.

At last we have the chance to welcome some new people into the Troop instead of just saying goodbye to old friends. This month the Troop is delighted to say hello and nice to meet you to **LCpl** 'Fozzy' **Foster**, who is newly qualified as a Telemech after retrading from Driver Lineman. **Cpl** 'Piggy' **Lee-Davis** has arrived from 39 Inf Bde and **Sig Mark Creighton** has moved down to Epi from Dhekalia. Finally a warm welcome to our new Troop 'Daddy', **SSgt Gary Mathieson** who moved from 3 Bde on receiving his promotion.

The highlight of the month, however, has to be the presentation of medals by the Garrison Commander, **Col A. A. A. Beattie. SSgt Jim Duncan, Sig 'Alfie' Garnett, Sig Robbie Williams** and **Sig Kev Moss** all received their Bosnia or Kosovo medals. **SSgt Jim Duncan** and **Sgt** 'Ant'

Tranter were both presented with their Accumulated Service Medals.

DHEKELIA TROOP
Tp SSgt **SSgt Bryant**
MEDAL PARADE - 3 JULY 2000

Over the past two years 259 Sig Sqn have been maintaining a commitment to Kosovo and Bosnia. On average there are five installation technicians detached from the Squadron at any one time. As the Balkans are becoming increasingly more stable the call has been for fixed communications to replace the temporary set ups that were originally used. They have worked for different nationalities, including the Norwegian, Italian and American forces. Despite the obvious differences between the Balkans and Cyprus, the soldiers gain a vast amount of valuable operational experience and continue to learn more about their Trade. The vast majority enjoyed their tours and some are keen to go back. On 3 July 2000, Col Beattie, the Garrison Commander, presented the soldiers with their medals on a parade held in Happy Valley. The following received their Kosovo or Bosnia Medal: **SSgt Duncan St, Cpl Rudd, Sig Bate, Sig Garnett, Sig Hobson, Sig Joughin, Sig Moss, Sig Murphy, Sig Stables, Sig Stanley** and **Sig Williams**. In addition two members of the Squadron received their accumulated service medal for three years on an operational tour. **SSgt Duncan** and **Sgt Tranter** both served in Northern Ireland. **SSgt Duncan** was employed as the British Telecom Liaison Officer and **Sgt Tranter** as a rigger.

JOINT SERVICE SIGNALS UNIT (DIGBY)

by LCpl Edwards and LCpl Freeman

Monday 6 March 2000 shall long go down in the history of the British Forces as the date when 'Jensen's Heroes' gathered to begin a 'rigorous' eight-week training programme known as Contingency Military Training Course No 2 (CMT2), in preparation for attachment to SRRC3. Week One began with a couple of days Land Rover familiarisation and mil training at the Ground Defensive Training (GDT) Flight. This was followed by a short exercise that will live in the memory for the immortal statement, 'I need a medic!' by a now sadly departed RAF Corporal, as the beastmaster **Cpl Mulvaney** 'jogged' us around the perry track.

The following weeks consisted of lessons on convoy drills, map reading, actions on IVCPs and a NAVEX starring **JT Ian** 'flatulence - I can't find Digby village' **Bentley**, which required us to visit various checkpoints around Lincolnshire and note various features. We also had an excellent two days at Leconfield of cross-country driver training. GDT provided GPMG and pistol training, but unfortunately we were unable to fire the GPMG in case we shot any aircraft down! A different matter was the pistol training and we had some good weather for the shoot out on the 25m range, which was great fun. Weeks Four and Five concentrated on learning to move underslung loads, mainly the Land Rovers, by support helicopters. This gave us an insight into how the 'real' RAF works and how it all comes together on a wider scale. From this we gained the qualifications of either Rigger Marshaller, or Landing Point Commander for the Cpls and above. The highlight of this was a Chinook flight to Fulbeck training area, then flying the rigged vehicles and helicopter handling teams back to Digby airfield. For those of us generally restricted to the office it was a fantastic experience to be working under the downdraft of a Chinook and its load.

CMT conduct landing point training

The training continued with IT, and everyone came away with a plethora of certificates and handbooks thanks to the IT training suite. Everyone learnt something, despite our initial beliefs that we were already experts on many of the applications (How wrong we were!). Theatre skills were introduced into the programme with an unforgettable mine awareness video that made even those with the strongest stomachs feel queasy. This concluded with us out on the airfield, poking the ground looking for training mines. It was fortunate that the mines were only training aids as **LCpl Julie Somerville** forcibly prodded an anti-personnel mine, 'just to confirm it was one'.

The training culminated in an eagerly awaited confirmation exercise 'Icarus Defender', a gruelling five day FTX at Barnham and Stanford training areas. **PO Jack Warner** took the helm first, setting a high standard for others to follow as each team member took turns to command. Little sleep was had as we were constantly on the move, yet morale was kept high by **LCpl Julie Somerville's** tin of chocolate biscuits (Cadburys of course). The worst, yet funniest, night came when after being bugged out by **WO2 Jenson**, we found we only had one sleeping bag between five of us. This was a salutary lesson in personal admin that will not be forgotten. Led by **LCpl Greg** 'that wood looks good' **Edwards**, we were led off the designated block of the training area and into entirely the wrong forestry block. Here we shivered our way through the night with a worried **Q Jensen** unable to find us, despite walking the whole of the correct training area with CWS and **JT Tim Ward's** efforts to summon him through the medium of snoring. At first light we were presented with the strange, yet beautiful, sight of **LCpl Sarah** 'Olive Oil' **Freeman** dealing with one of nature's calls! Having packed the essential 'Lofty Wiseman SAS Survival Guide' we set about building two exceptional shelters that only our memories and photographic evidence shall prove existed. After relocating to the correct grid, where **Q Jensen** eventually found us, we received orders to extract to the ex HQ building on foot. There we were greeted by Endex, fish and chips, beer, and a debrief around a log fire in a derelict farm on Stanford Training Area.

Following CMT2 we all enjoyed glorious weather during a week of adventure training in Snowdonia, based at the Nuffield Centre in Llanfairpw.....you know where we mean. This was an excellent opportunity for the team to relax and enjoy themselves after some hard work on CMT. That said, some members of the team found more adrenaline pumping on Tryfan than at any stage during the CMT!

CMT conducting adventure training in Wales, (L-R): PO Dredge, JT Ward, LCpl Sommerville, Cpl Duke, JT Bently

In summary involvement in CMT2 was fantastically enjoyable, superbly supported by 4 Sqn, thanks to the OC, **Maj Dennis Weir, Q Jensen** and other training staff involved for all their efforts and patience. Everyone learnt a great deal and it's a good opportunity to get out and about, see other aspects of the forces, gain extra qualifications, enhance and refresh military skills, and most importantly have a laugh. If you are getting fed up with being desk bound at the JSSU and are in need of a challenge try CMT - you'll love it.

The following bulletin was recently released by the

ALASKA DEPARTMENT OF FISH AND GAME

In the light of the rising frequency of human/grizzly bear conflicts, the Alaska Dept of Fish and Game is advising hikers hunters and fishermen to take extra precautions and stay very alert for bears while in the field.

'We advise outdoorsmen to wear noisy little bells on their clothing so they will not startle bears who are not expecting them. We also advise outdoorsmen to carry pepper spray with them in case of an encounter with a bear. It is also a good idea to watch out for fresh signs of bear activity. Outdoorsmen should recognise the difference between black bear and grizzly bear manure (scat).

Black bear scat is smaller and contains lots of berries and squirrel fur.

Grizzly bear scat has little bells in it and smells of pepper.

1 (ROYAL BUCKINGHAMSHIRE YEOMANRY) SIGNAL SQUADRON (SPECIAL COMMUNICATIONS)

Sqn Comd **Maj David Raleigh**
SSM **WO2 Dave Scott**

A busy couple of months has been dominated by the SC Course Final Exercise in Southern Africa. We had hoped to see the introduction of our fleet of replacement equipment and vehicles, but after a second week in the sun at Newquay running a User Trial we realised that this was not likely to be the case. A few more lucky individuals (like **Sgt Simon** 'I'm so looking forward to my Sergeants Course' **Marvel**) therefore managed to sneak off to Africa, although they couldn't get the contractors to pay for that trip. The OC managed to get out to visit the detachments in Africa, so visiting all the relevant countries for a second time in three months. He has subsequently been dined out, by the Regular Squadron hierarchy and the Technical Department, in style in the Mansion at Bletchley Park. As these notes go to press, he is about to start his handover to **Maj Simon Gregory**. Congratulations go to **Cpl Gaz Woolley** on his overdue promotion, and to **Cpls Kev Heaton** and **Jase Broome** for being selected for their promotions to Sergeant. We have said farewell to **Cpl Simon Hodgson**, off to Northern Ireland, **Cpl Leslie Jay** to her T1, and **LCpl Jim Smith** to 1 (UK) CivDiv. Further congratulations go to **Lt Angus Evers** for passing his JOTES at last, and **LCpl Simon** 'Robbo' **Roberts** for passing P Coy.

SC COURSE 1/00 - *by LCpl Sonja MacMillan*

In the beginning there were seven eager-to-please, unassuming individuals who started the Special Communications Course at Bletchley. Oh how it all changed! We could see from the off that it would be a hardship being on the course when we spotted the pool table. We spent many hours after work doing 'extra skills'. Not at any time did we deviate from the skills room to watch S Club 7 or play pool; that would have been weak and un-military. **LCpl Dave Marshall** somehow managed to stay the course, despite agreeing with the YofS that he was as 'thick as a whale omelette'.

After ten fun-filled weeks of typing and morse we met the Puma crew and practised some swarming. There was an interesting aroma in the air as we flew low-level, and then not content with a helicopter we practised marking Tactical Landing Zones (TLZs) for a C-130. The crew obviously were not impressed with **Cpl Benny** 'course rep' **Hills** hair and tried to give him a grade one with the props. We also visited HMS *Cardiff* to see how the Navy Communications systems work on a Type 42 Frigate. It was here that I made a mental note not to wear a skirt-suit when visiting vessels with ladders. Cheers for the warning lads!

The most testing part of the course for most of us came in week 11. Helidunking. It still fills me with dread now, just thinking about it. DS **Cpl Gaz Woolley** take note - when they tell you that, '.....you are No 6 and last out,' that doesn't mean, '.....every man for himself and first out.' I don't know how we would have filled our evenings if **Capt Richard Newhouse** hadn't given us such interesting lecture subjects. Osama bin Who? **LCpl Mark** 'Slick' **Garbus** enthralled us all with his interpretation of the UN - 'Pro-Plus anyone?' The 16-week long course ended with a confirmation exercise in Africa. Three detachments were deployed to Zambia, South Africa and Malawi, which for me was fantastic. If nothing else did, this made the course worthwhile.

We are now set to start our new careers with Special Communications - Any one out there who is thinking of doing something different should definitely apply for this! The next Assessment Course will be in February - Application Forms are in SOinC PD 206.

Maj Simon Gregory explains the finer points of Special Comms to LCpl Mark Garbus

Ex GLOBAL LYNX 3 - PRETORIA

by Cpl Benny Hill and LCpl Chris Elliston

Leaving a wet afternoon in Bletchley on 28 of June, for the sunnier climes of Boekenhoutskloof training area, near Pretoria, South Africa, we felt a nervous anticipation of what was to come. What awaited us was a hut in the middle of a game reserve, where the Pretoria contingent of the SC course were to spend the next two weeks under the close scrutiny of the instructors. Far from being a 'Blandford' type assessment exercise, we found we were left to our own devices, and given enough rope to hang ourselves, with the sole responsibility of Comms resting firmly on our shoulders. What followed was an extremely busy comms phase, designed to put us under a realistic amount of pressure, as well as the opportunity to sample the local hospitality when the comms were wound down at the end of each day. The TA contingent **Cpl Pete Litchfield, Cpl Al Shrewsbury** and **Sig Karen Clarke** helped generate the traffic and constituted the extra manpower that a busy base station requires.

The Hosting Units, 1 and 2 Sig Regts extended the warmest of welcomes, allowing **Lt** 'Marco' **Breytenbach** and **Cpl** 'Wiele' **Myhurgh** to be our guides for the week, introducing us to the local South African version of the BBQ, the Braai, and to some of the local nightspots. Towards the end of the week, we put on a display for the South African Army of some of our equipment and antennas. We were shocked by the number of senior visitors; there were four Major Generals, six Brigadier Generals and two Rear Admirals, as well as plenty of Colonels to make up the numbers. This further tested our presentation skills, as well as social skills at the following function.

At the end of the exercise we had an R & R phase, which we spent at Sun City, South Africa's premier holiday location, where some of the group went on a day Safari. It proved to be a hard but rewarding final exercise. All of us will be vying to take part in next years exercise also planned for this magnificent country.

MALAWI DETACHMENT - *LCpl Garbus*

For **LCpl Dave Marshall** and myself, it was off to Malawi for our final exercise, our first time on the African continent. Once in location, our first task was to establish a communications centre, in a disused office at Lilongwe airbase, which is a short drive from the Imperial Hotel where we were accommodated. After the initial set up, the comms phase ran smoothly and we were able to confirm our competence and skill on the equipments and procedures learnt over the last four months.

On the fourth day the 'scenario' dictated that we had to move, so we tore down and proceeded with the 2.5hour drive to Fish Eagle Camp, in the Salima district of the country. The location itself is an old holiday camp, situated on the scenic shores of Lake Malawi. Once in location, we had to quickly establish another communications centre, again working from a disused office. The real estate available was somewhat limited in comparison to the acres of fields we had to work with previously, so it was time to employ a bit of initiative. **Dave** "Tree Frog" **Marshall** leapt to the rescue, and made good use of the trees and other natural supports for attaching our antennas.

LCpl Dave Marshall shows off his SC Morse skills in Malawi

The Malawi Armed Forces College (MAFCO) invited the detachment to conduct lectures on HF comms at their establishment towards the end of the exercise period. It was expected that the audience for these lectures would be young Signallers and JNCO's. Imagine our surprise when we were faced with a class full of Warrant Officers and Senior Officers! The lectures themselves were a tremendous success, and beneficial for both Armies involved. On the Malawian's part, it was a good insight as to how the British Army communicates. For **LCpl Marshall** and myself it was the first time that either one of us had ever been given the privilege of instructing a foreign Army. Throughout the exercise, support from the Malawi Armed Forces was second to none, and we look forward to visiting their beautiful country in the future.

ZAMBIA DETACHMENT - *by LCpl Evans*

There I was, a cold and squally drill night at Bletchley TA Centre - 'Ah, **LCpl Evans**, how do you fancy two weeks in Africa?' So after a quick bout of negotiations with 'she who must be obeyed' I found myself on a British Airways flight bound for Lusaka in Zambia. The Det consisted of **LCpl Mark** 'Mum said wear a vest' **Gower** (Det Comd), **LCpl Sonja** 'I don't do mornings' **MacMillan** and myself. On arrival at Lusaka International Airport we were greeted with a red carpet and Guard of Honour. Unfortunately not for us, but for the Zambian President who was on our flight. We had collected our Nissan 4x4 and kit from the High Commission, and drove along a dirt track to Ngwere Estate, north east of the city. As it was a test for **LCpl MacMillan**, the set-up was soon accompanied by plenty of JNCO pointing and shouting by the DS, who also doubled as Det Comd. Soon comms were in and it became apparent that as a Det we had struck gold. Not only were we in a fantastic location on the edge of a tobacco farm, but we had our own chef, **Joseph**, who cooked and cleaned, and washed and ironed for us! We also adopted a Det Dog called 'Ewee', a native Zambian animal who thought we were good enough to feed her. She literally sang for her supper although we never worked out the tune.

Despite our heavy work schedule we found time to receive visitors, most notably the current OC and his replacement. We also received the Zambian Army, local expatriate farmers, and possibly the Zambian Police. The last two days of the exercise was supposed to see us move to the Zambian School of Signals at Kabwe, but this was cancelled. Because of this, we moved to nearby farms with a minimum of kit - select a site and then time ourselves to send a signal to Pretoria. By the end of this phase not only were we quite slick but also full of cups of tea and home made cake. We were constantly amazed by the locals' ability to say - 'It doesn't matter if we're not here, set up where you like and have a nice time!'

Then as if by magic it was Endex! Kit was packed and returned to the BHC and we were off on safari, camping in the Lower Zambeze National Park. After a short detour around 40 large elephants, we arrived at the campsite and pitched up on a river bank opposite a herd of very noisy hippos. The following day we saw her. The most beautiful thing I think I've ever seen, a female leopard sat watching us from behind a tree. As we moved closer she wandered out, stretched and posed for some photos then disappeared. Driving back to civilization, Sonja shouted 'two elephants' - and there they were not ten feet from my door. Both animals just swished their ears as we used up rolls of film, slowly driving past this once-in-a-lifetime encounter. That was Zambia. An experience I'm glad to say was one of the best in my life! So if you're Regular or TA, get your papers in and it could be you!

The Zambian Detachment
ably lead by LCpl Mark Gower

NEWS FROM THE UOTCS AND CADETS

12 TROOP (ROYAL SIGNALS) LONDON UOTC

by WOC'dt Beth Richardson

INTRO

Spring saw a few changes to 12 (Royal Signals) Troop. The departure of **SSM Harry Kemp** to Blandford brought the arrival of **SSM Carl Tucker** from 2 Sig Regt in York. We welcomed the new intake from Athlone Coy (the ULOTC training company) following their pass-off parade at Woolwich in March. On our return from the Easter break it was then time to wave our Troop Commander, **Capt Joel Curry**, farewell, as he headed off to the USA with his civvy job, (A little far to commute on a Tuesday night, we thought!), **2Lt Penny Johns** replaces him.

TROOP SOCIAL

The first significant event of the new term was the Annual Troop Dinner held in the Officers' Mess at Yeomanry House. This was a pleasant evening attended by our Commanding Officer, **Lt Col Nigel Holland** and his wife, plus several other guests. A quartet from Royal Holloway University provided the entertainment during dinner, which was excellent and much appreciated by all.

WEYMOUTH WEEKEND

The very next Friday, London OTC descended on the unsuspecting seaside town of Weymouth for a weekend of troop training. This was the first opportunity for the new recruits to 'bond' with existing Troop members. 12 Troop practiced using the 351 and 352, erecting masts and map reading. Saturday afternoon gave individuals chance to gain their FMT 600 in preparation for Summer Camp before rounding of the day with a game of football. After a BBQ, it was time to 'hit the town' in true OTC student fashion. Any hang-overs were quickly cured by a 'build-your-own-and-sail-it' raft race the following morning! With the fun and games over for another year, the troops returned to London, having got to know each other slightly better than before they left.

VISIT TO 94 (V) SIG REGT

The first of several evening visits over the summer term was held by 94 (V) Sig Regt, The Berkshire Yeomanry based at Windsor. They gave a presentation on what could be expected as a TA officer. They then demonstrated and talked through their role and equipment in a field environment and later told the Troop something of their long history. As the oldest Yeomanry Regiment, this was a very colourful and distinguished presentation. The visit will definitely not be forgotten, as the Troop was very kindly given a much needed FFR land rover and trailer by the Regiment, this will enable us to improve the quality of our training, for which we are most grateful.

21 SAS WEEKEND

For the second weekend in June, Eastmere 'Urban Operations' village at STANTA was relocated to Bosnia for the benefit of the Sabre Troops of 21 SAS. Members of 12 Troop joined with their HQ Squadron to provide the warring factions and CIVPOP for the Exercise. The setting up of roadblocks, artillery bombardments, attacks on the village, ethnic cleansing, executions and a party with night attack certainly gave the troops something to report back on. Yet despite the civil war supposedly raging, a suspicious amount of fun was had by those involved! The OTC contingent were introduced to the Cougar radio system and given a fascinating first aid lesson from the patrol medics (including a practical demonstration of setting up a IN drip on a live 'patient'!). All in all, the weekend was an immensely enjoyable experience. Many thanks to 21 (SAS) for allowing us to join them.

VISIT TO 31 SIG REGT

The following Tuesday saw the Troop crossing the Thames for a visit to the Headquarters of 31 Sig Regt at Southfields. This TA Regiment is tasked with providing communications for HM government during wartime and along with this rather unique role comes some rather unusual equipment. After a short introductory briefing the Troop was shown around the Lanward vehicle, the ERV radio and the equipment used by a typical radio detachment. The evening was well organised, interesting, informative and rounded off very nicely with a meal in the bar!

LONDON EYE

Sometimes being in central London has its advantages, as this outing proved. The BA London Eye would seem to be more popular than its sister the Millennium Dome, and was certainly a hit with 12 Troop. Despite the day we chose to go being drizzly and overcast, we were still able to appreciate views over a wide area of London and pick out various landmarks. Well worth half an hour of time and a good way of sightseeing without the crowds and traffic.

LOOK AHEAD TO SUMMER

With term at an end for most of the Troop, attention has turned towards Summer Camp, this year to be held at Strensal Camp in Yorkshire. The highlights for the Troop will be a three-day visit to 30 Sig Regt at Bramcote and the visit of our Royal Honorary Colonel, **HRH The Princess Royal**. Following camp, orienteering competitions and adventure training exercises in Wales, Bavaria and America will be the order of the day. A battlefield tour is also being considered for the end of August. It is sure to be a good few months.

ULOTC ORIENTEERING REPORT - by JUO Tom Burke

Following the departure of the last Signals PSI bar one, **WOI RSM Douggie Craig**, orienteering in the Unit has just kept its head above water. However with great enthusiasm for the sport, a number of Officer Cadets have kept it afloat and on his arrival at the Unit, the current Adjutant, **Capt D. Parkinson**, was able to use his own enthusiasm to good effect. So with the two most senior regular personnel (the CO and the Adjt) being keen to see the sport prosper, it was not a surprise when they delivered **WO2 Carl Tucker** to the Signals Troop as PSI. He also is very keen on the sport and although he had rarely picked up a compass in conjunction with an orienteering map, some might say he is a natural.

At Easter, we took part in the Annual JK event, this year in Perthshire, Scotland. With a few novices, and some seasoned orienteerers in the party, the Scottish terrain tested us all to the full. The Troop members on that trip were **WO2 Carl Tucker** (PSI), **2Lt Mike Zazzi, JUO Tom Burke** and **WOCdt Rossiter;** also we must not forget our Adjutant who was also present. Since his arrival, just before Easter, **WO2 Tucker** has really started things moving in the Troop and the Orienteering. However, due to a number of people with university commitments, we were unable to field a full team to go to the Land Command (UK) and TA Inter Unit Championships in Sennybridge (19-20 May). However, three of us were able to go down for the weekend. On Day One **JUO Tom Burke** had a good run on the 'A' course, coming in third in the TA comp and first in the UOTC competition. In the Harris Relay we borrowed another man and **Tom Burke** was able to practice his planning in preparation for the Army Championships in June.

Our latest achievement was in the Army Orienteering Association Championships in Haltern, Germany (1 7-18 June). The Unit fielded two teams, a male quartet in the Minor Units Competition and a ladies team. Both teams were made up of 50% Signals Troop members, these being **WOCdts Liz Rossiter** and **Rebecca Palin** in the ladies and **WO2 Carl Tucker** and **JUO Tom Burke** in the males. After the first day's classic relay, the men's team was the second fastest quartet in the whole championships, and they were also winning the Minor Units Competition. However, by the end of the championships the men's team came away with a second place in the Minor Units and the girls came in third place in the Ladies Team Competition. It was altogether an excellent weekend, with both teams returning with Trophies. We are looking forward to further successes in the forthcoming events.

ARMY CADETS NEWS RELEASE

33 SIGNALS (v) VALUED SUPPORT TO 42(NW) BRIGADE ARMY CADET EXERCISE

42(NW) Brigade are responsible, each year, for the organisation of an Army Cadet 'Ten Tors' type Northwest Exercise Weekend over the Cumbrian Moors. It has a start at Warcop and has Senior and Junior teams of four. It is open to all the Army Cadet and Combined Force contingents in the Northwest. The distance covered, over a very tough terrain, is 40kms for the Seniors and 30kms for the Juniors. The main qualities tested to the full are map, compass knowledge, leadership and the art of survival. Maj David Oak, G3 SO3, stated that the weather had been atrocious for the last three years and twenty of the best teams had entered this year. He also spoke of the outstanding communications support supplied by 33 Sig Regt (V) which made a great contribution to the success and safety of the weekend, a 'Thank you' is expressed to them for their valued support.

Some of the members of 33 Sig Regt(V) who played a vital role with communications (L-R): SSgts Brian Hislop and Simon Hogan, Cpl Tommy Harrison, Sig Leanne Fenelon and Sig Lynette Cockram

SUSSEX ARMY CADET FORCE
County Cadet Commandant

ANNUAL CAMP (2000)
WATHGILL RICHMOND NORTH YORKSHIRE

Sussex Army Cadet Force's highlight of the training year and main event had arrived, we are off to Annual Camp! 350 Cadets male and female the largest number of cadets for many years, plus 30 Officers' and 60 Senior NCOs arrived at Camp. This was the first Annual Camp for many Cadets. As usual our very busy training wing, led by **Maj David Rusbridger** arranged a wide variety of training, using to the full the many benefits of first class military and adventurous training facilities Annual Camp has to offer. The excellent training package included mountain bikes, assault course, 22 shooting, air rifle shooting, surfing, canoeing, climbing, first aid training, abseiling, Dof E training, lots of sport, driver training, cross country running and of course, I must not forget to mention, the very tasty 'happy bags' (haversack rations). The training programme which was designed to bring out newly acquired skills resulted in many cadets returning from camp sporting new star badges.

Our camp notes would not be complete without expressing our thanks for the tremendous efforts on our behalf from, No 8 Cadet Training team whose contribution made the camp so enjoyable and fun. A number of distinguished visitors attended camp and saw many of the different activities taking place. **Brig John Holman CBE DL**, our Honorary Colonel - **Sir Brian Bartalott, BL, OBE, DL**, 2 Brigade Commander - **Brig Minter OBE, Col Chris Argent** from 2 Brigade, **Col Chris Blessington OBE JP**, Ex-Cadet Commandant - **Col Colin Parslow, Col William Crump** - Ex-Cadet Commandant. They all left our camp delighted to see so many cadets enjoying themselves and were very impressed by the enthusiasm and courtesy in the manner in which they responded to questions asked.

Our weather was again dry and warm, plenty of North Yorkshire sunshine. At the end of camp we enjoyed our usual penultimate day's presentation parade, again a sizeable array of silverware and prizes presented by our Commandant, **Col Bob Newton MBE**. Without doubt our Cadets returned to Sussex all the better for good training, good sport, good fun and good fellowship ready to crack on with local training with even greater enthusiasm.

DON'T BE DISAPPOINTED THE CLOSING DATE FOR THE DECEMBER WIRE IS 15 OCTOBER

SPORT

FENCING

ARMY FENCING CHAMPIONSHIPS 2000
AND INTER SERVICES CHAMPIONSHIPS 2000

The Royal Signals Games Club last year recognised Fencing as an official Corps sport and there was a very good turn out from the Royal Signals at this year's Army Championships. It was very good to see the improvement that several of the fencers had made since the last championships. In particular **Sig Brewster** who reached the last eight of the Men's Epee competition and is now starting training for the Modern Pentathlon and **Cpl Hill** of 15 Sig Regt who qualified for the Inter Services Championships. **Cpl Hill** has done much work to try and start a fencing club within 15 Sig Regt and their 3-man team was unfortunately knocked out at the semi-final stage of the team competition by the 21 Eng Regt. The strong Royal Signals presence was also confirmed by entering three out of the ten teams that competed in the Inter Corps 3-Man event. The highest placed team came third – well done! **Capt Anderton-Brown** was just beaten in the final of the Men's Epee and took second place. On the ladies' side, **Sig Perry** did extremely well and achieved first place in each of the three weapons and also took the title of Master Swordswoman – an excellent achievement and proved herself again to be the Army's top female fencer.

Overall a successful week and a special mention to **LCpl Baharat Rai** QGS who learnt fencing while attached to 1 RGR only three months before the competition and came a creditable 24th in the Men's Epee competition. The fencers were helped by money from the Royal Signals Games Club which had been used to buy competition level clothing for use by some of the fencers.

Following on from the Army Championships was the Inter Services Championships which was hosted this year by the Army and held at the Army School of Physical Training in Aldershot. It started off with the Inter Services Triangular match - the annual battle between the services. **Capt Anderton-Brown** captained the nine strong Army Men's team but, unfortunately, a couple of key team members were not available and the team was narrowly defeated by the RAF. The team, however, scored a strong victory over the Royal Navy. The ladies team was again just beaten by the RAF, though they did win the team foil event with **Sig Perry** providing the anchor for the team.

Following the team event was the Individual weapon championships. Only those coming in the last 12 of each Service Championship are eligible to fence at the Inter Services. As a result **Capt Anderton-Brown** and **Cpl Hill** were selected to fence in the Men's competition and **2Lt McLellan** and **Sigs Perry** and **O'Sullivan** in the Ladies' competition. The fencers did well overall with **Capt Anderton-Brown** taking second place in the Epee and third in the foil. **Cpl Hill** also did well and reached nineth place in the Men,s Epee. Unfortunately **Sig Perry** was unable to hold on to her Master Swordsman and Champion at Arms titles that she won last year, but reached the last three in each event.

Anybody interested in starting fencing or wanting more information on the sport within Royal Signals or the Army should contact **Capt Anderton-Brown** on York Mil: 94777 2248.

HOCKEY

ROYAL SIGNALS - LADIES HOCKEY

The Army Inter-Corps Annual Hockey competition was held over 3–5 May 2000, in Aldershot, home of Army Hockey. Pre-tournament training and team selection was also carried out in Aldershot under the careful guidance of **SSgt** 'Bru' **Baker.**

For the Royal Signals Ladies, whose season had been somewhat marred by the number of cancelled fixtures, the task was simple and certainly achievable – to retain the title as Inter-Corps Champions for the third year running. Training began in earnest at the Astroturf in Aldershot on the Bank holiday Monday. **SSgt Baker** put the squad, some 20 strong, through its paces with a series of drills and training games. Tuesday involved yet more preparation, including short corner routines and free hits as well a rather energetic training session for our number one goalkeeper, **Sig** 'Sabi' **Sabiston**, thanks to the REME men.

Unfortunately, due to the sheer number of men's teams, there was to be no hockey for the ladies on Wednesday the 3rd, however, the squad turned out to watch and support the men in their bid for Inter-Corps glory. The usual league system used for the Inter-Corps tournament was sadly changed for a round-robin system, as the APTC, The Royal Artillery and The Intelligence Corps were unable to produce teams for the ladies competition. The effect of this being that the ladies would play two games on each day and the team with the most points would win.

The Royal Signals played the AGC and the REME on Day One. The first game of the day was fast and furious but saw the Royal Signals as victors beating the AGC 5-0. Delighted with their first win, the Royal Signals went on to beat the REME 5-0 in yet another action packed match. On Day Two, a slightly tired and weary side fought hard to beat the AMS 1-0 and hold the RLC to a draw 0-0 to take the competition for the third year running. Player of the competition went to **Cpl Tracey Prowse**, Most Improved player was awarded to **LCpl Lyndsay Smith** and Best Newcomer went to **Sig** 'Sabi' **Sabiston**. **Cpl Sue Neate** captained the side. We wish her all the best with motherhood! We would like to thank **SSgt** 'Bru' **Baker, SSgt** 'Taff' **Davies, SSgt** 'Monty' **Moore** and **Stu Greenwood** for all their support and advice during the season.

The Team is off to Cyprus on tour in October, at last! Any new players interested in joining the squad for the 2000/2001 season should call **Sgt Pam Mitchell** on Aldershot 2202 or contact **Maj Sara Copley** on Corsham 4376.

MOVING OR POSTED
DON'T FORGET TO LET US KNOW
YOUR NEW ADDRESS

ICE SPORTS 2000/2001

Maj Gen A. P. Ridgway CBE

Ice Sports include Bobsleigh, Skeleton and Luge and we provide an outstanding opportunity for Servicemen and women to take part in these challenging sports :each year. The Ice Sport Camp runs in Lillehammer from 13 - 27 October this year and is designed to allow novices to receive tuition in one or more of the Ice disciplines. The camp is organised into two one week courses and we can take about 100 students each week. It is a terrific opportunity for Regiments to get involved in these genuinely adventurous sports and, unlike other Winter Sports, does not involve .substantial financial outlay on the part of the Regiment. The total cost is only £350 per soldier (only £250 if a member of the sports lottery) and this includes flights, accommodation, food, equipment and track fees.

Those who do well at the Ice Camp can go on to represent their Regiments at the Army Novice Championships, to be held this year in Winterberg, Germany. There is the real prospect of talented youngsters going on to represent the Army or even the Nation in international competition at higher level. Army athletes are likely to be representing the UK in all three disciplines at the next Olympics!

It is appreciated how committed the Regiments are to operations and training but surely even the busiest Regiment could provide a couple of young men or women to take part in this really worthwhile sporting activity. Arms and Service Directors and Commanding Officers are always welcome to visit either the Ice Camp or the Novice Championships - there may even be an opportunity to terrify yourself on the Ice Track! If you or your Commanding Officers need further information please contact me or **Capt Peter McClellan** on 94351 613406 or 01874 613406. I look forward to seeing you on the ice!

SHOOTING

REGIMENTAL SHOOTING TEAM MILLENIUM MEETING
CENTSAAM: HM QUEEN'S MEDAL COMPETITION,
NATIONAL RIFLE ASSOCIATION SERVICE WEAPONS MEETING AND METHUEN CUP

The 11 Sig Regt Shooting Team arrived at the Pirbright/Bisley Range Complex on 13 June 2000 for a two-week Corps training period before CENTSAAM 2000. The competition started on 27 June 2000. A contingent from 16 Sig Regt, 1 (UK) ADSR, HQ Land, 7 RGR, 7 RHA, 2 Sig Regt, 30 Sig Regt and various individuals from other Regiments joined in. This training period would hopefully provide the necessary practice and prove to be crucial for the selection of the Corps Team for the very prestigious and contentious Inter Corps Methuen Cup Match (Match 40).

The two-week training period proved to be very useful, especially with the conversion from ETR Targetry to the AMS being used for the competition itself. The matches that made up the CENTSAAM Competition were the Roupell Cup, the Henry Whitehead Match, the Whittaker Trophy, the Roberts Cup, and the Graham Trophy and for those that made the final cut for the Army 100, on the last day, the Army 100 Cup. CENTSAAM is the most important and prestigious meeting of the year and as such attracts a very high level of competition including overseas team competitors. Qualification for a place at CENTSAAM is through the respective DIVSAAM meetings and is therefore an achievement just to get to CENTSAAM, as there are only various places ranging from 5 – 14, per DIV. 11 Sig Regt had five individuals that qualified from 3 (UK) DIVSAAM but had another three qualify with Wildcards at the ARA AGM on the 26th June 2000. Overall there were approximately 25 firers from the Royal Corps of Signals, this achieving an all time qualifying record.

The CENTSAAM Competition this year had the highest standard of marksmanship in recent years, with the cut off for the final day being 73%. Of the initial 25 firers from the Corps, 14 remained in the competition for the final day, with three individuals being awarded the Army 100 Badge for the first time. These were **Cpl S. Davies** (16 Sig Regt), **Sig D. Dickson** (11 Sig Regt) and **Sig Lilasing Gurung** (30 Sig Regt). All in all, it was a very productive competition for the Garrison and throughout the Corps.

Following on from the CENTSAAM Competition were the NRA's, a collection of Practices, mainly taken from the Army 100 Cup. This competition included overseas firers and some civilians and was fired over two days culminating in the Queen Mary Match, which is very similar to the Association Cup Match.

The final and possibly most important day for the Corps was 5th July 2000, which saw 31 Army Corps/Regiment Teams compete for the Methuen Cup, which was previously won by the Corps in 1993, Iron Sights against SUSAT. The teams comprise of six firers and two reserves with this year's Royal Corps of Signals Team being: **Capt Krishna Gurung** (Team Capt), **Capt Yam Rana, Capt C. Kell, Sgt J. Saunders, Sig Devprakash Gurung, Sig Lilasing Gurung. Sgt D. Copley** (Team Adjt) and **Sig D. Dickson**. After five very difficult and extremely close fought practices the Royal Corps of Signals ended up in eleventh place overall. This was a great achievement considering the limited practice time compared with other Teams and the inclusion of a couple of relatively inexperienced firers due to individual unit commitments.

The three and a half weeks of arduous practice, training and competition proved to be invaluable experience to the all members of the Corps present and saw a distinct increase in the quality and accuracy of individual marksmanship. All members came away having felt that they had achieved something and with the number of individuals present this year it bodes well for Rifle Marksmanship within the Corps.

Individual presentation (Army 100: Medal & Bar)
to LCpl D. R. Dickson

The Royal Corps of Signals Shooting Team
Back Row (L-R): Sgt Surge, Sgt Priti, Capt Krishna G (Team Capt), Lt Col Hoole, Sgt Saunders, Cpl Fatchett, Sig Clark, Sgt Kennedy, Capt Yam Rana, SSgt Copley
Front Row (L-R): Cpl Dhir, Sig Lilla, Cpl Davies, LCpl Dickson, Sgt Dev, SSgt Nirmal, LCpl Brown

3 (UK) DIVISION (DIVSAAM) 2000 – BULFORD RANGES

11 Sig Regt entered ten individuals into this year's 3 (UK) Div DIVSAAM, with the mission of qualifying as many shootists as possible for the Queen's Medal Competition (QMC). This is a very prestigious event involving shotists from around the world competing for the Queen's Medal and through this the top 100 British Regular Army Shots earn the right to wear the Army 100 Badge. The competition is always steep in all DIVSAAM's as the bulk of the competition is from Infantry Regiments who dominate the British Army shooting scene. In our particular 3(UK) DIV, we were competing against 16 Infantry teams and individuals, as well as other teams/individuals comprising some 160 firers. There were 12 optic sight places and four iron sight places for qualification for the QMC in addition to the normal Trophies/Medals/bars for the Team Matches and individual winners.

11 Sig Regt had previously decided not to enter the event as a team and fire for the Team Match Trophies on top of a qualification place due to the restrictions on training time after CORPSAAM 2000. This would have involved learning and practising an additional four matches, which would have put a bit too much pressure on the members involved within the allotted training time. With hindsight, having looked at all the team scores, if we had done so, then I'm sure it would have been a clean sweep.

The Regimental Shooting Team has had a very successful season so far which culminated in five individuals qualifying for the QMC. This was the highest number of qualifiers from any one team in the Division, taking five of the sixteen places allocated by the Army Rifle Association (ARA) at their respective Divisions/Districts. On top of this achievement, **Sgt D. Copley** won the Champion at Arms Medal with 387 points out of a total of 410, also winning the Roberts Match scoring 49/50 and the Roupell Match scoring 37/40. **Capt B. H. Bryan** won the Best Young Officer Medal scoring 300/410. **Capt Yam Rana** came second place overall with 340/410 and **Sig D. R. Dickson** won Best Young Soldier and also Best B Class coming second in the Roberts Match scoring 45/50. All Individuals achieved qualification along with **Lt Col R. T. Hoole** who came in eleventh place overall.

THE ARMY SERVICE PISTOL CHAMPIONSHIP 2000

Five individuals from 11 Sig Regt were entered into the Army Service Pistol (XXX) Championship held on 3 June 2000 at Nelson Range in Bisley/Pirbright Range complexes. This event is held every year and attracts the best pistols shots in the British Army and International Forces. All shootists were competing for a place in the top thirty to qualify for the second stage in which they compete for the Army Pistol (XXX) Champion Gold Jewel and for selection for the British Army Combat Shooting Team (BACST) held in Arkansas, USA, in October.

Again 11 Sig Regt Shooting Team performed above expectation, with **Sgt D. Copley**, who ended up in tenth place overall, and **Lt Col R. T. Hoole**, who ended up in seventh place overall, both qualifying in the top thirty and eventually qualifying for the British Army Combat Shooting Team (BACST). Unfortunately, **LCpl J. A. Brown** was only a mere three points short of the cut of for the top thirty with 200/300 and ended up 33rd place overall. The above mentioned three firers also came third in the Army Service Pistol Team Match 38 collecting Bronze Medals and Date Bars with a combined score of 705 points out of a possible 900. Above all, every team member performed well and gained valuable experience as well as representing 11 Sig Regt admirably.

WINDSURFING

ARMY SAILING ASSOCIATION REGATTA

This year's ASA regatta was held in mid-September at the newly-opened Weymouth and Portland Sailing Academy in Portland Harbour. After a day of preparation, the squad was fortunate to benefit from the coaching skills of the internationally renowned **Peter Hart**. Although the wind was inconsistent, he provided many valuable coaching points and conducted some useful training on start line techniques.

The Championships themselves were held in fresh to strong wind conditions, which proved extremely demanding for novices, and presented considerable challenges to the experienced competitors, of whom around 60 participated from across the Army. In the Novice Championships, 19 competitors took part, including three from the Royal Signals. **Cpl Mick Rees**-14 Sig Regt, won the event with **SSgt Si Hadley** in joint third place. In the main event, the ASA team competition doubled up as the last event of the Inter-Corps series. With a nominated team of six competitors to count in the team competition, after four races the Royal Signals team was in a creditable fourth place out of a field of twelve teams. The winners REME and second placed team the RE, were in a league of their own, although strong individual performances were recorded by **SSgt Barrie Raine** and **SSgt Norman Finnegan**. In the same races, the first four competitors scored for the Inter-Corps series. The results on the day put the Royal Signals in third place, which gives us an overall series result of second, from a total of five teams. This is a reflection of the consistent commitment and performance of the team throughout the season.

After the Team Championships, the next two days were devoted to the Army Individual Championships. In equally strong winds, an extremely competitive series of races were held, with the pleasing sight of a small school of dolphins in the vicinity of the start line for at least two of the races. After a hard-fought series of races, Royal Signals windsurfers carried away trophies in five categories. In the 6.5 metre class, **LCpl Gaz Pope**-30 Sig Regt, came first for the second year running. In the Lightweight Class, **Maj Peter Bowles** and **Capt Andrew Mould** battled against the finest talent of the REME; **Maj Bowles** nevertheless achieved a creditable fifth place. In the Heavyweight class, **SSgt Norman Finnegan**-14 Sig Regt, went from strength to strength in the strong winds, achieving a clear second place and a trophy, while not far behind, **Maj Dave Gilchrist**-238 Sig Sqn, achieved fourth place in the heavyweight, and first veteran. Finally, in the Super-heavyweight, **SSgt Barry Raine** was pipped into fourth place by one point, nevertheless becoming first senior. The main Royal Signals Results are:

Army Sailing Association Team Championships
Fourth place (12 teams)

Inter-Corps Championsips
Second place (5 teams)

Individual Championships

First Novice	**Cpl M. Rees**
First 6.5mtr Class	**LCpl G. Pope**
First Veteran	**Maj D. I. Gilchrist**
First Senior	**SSgt B. Raine**
Second Heavyweight	**SSgt Norman Finnegan**

On behalf of Royal Signals Windsurfing, thank you to all those competitors who have taken part during the season, and to all those who have allowed them the time off to compete in this high profile competition. Anyone who wishes to know more about the opportunities for windsurfing in the Royal Signals should contact the club secretary, **Capt Andrew Mould**, on Upavon (94344) 5111.

WANTED!

The Royal School of Signals is mounting a pictorial history of

'Royal Signals Young Officer Training'

CAN YOU HELP?

Did you attend one of the following courses at the School of Signals (now the RSS) and do you have a decent photograph of your course with names? (If you can remember it!)

Communications Qualifying Course Numbers:
64 (circa 1967), 65,72 and 80
Communications Qualifying Course Numbers:
7 (circa 1976), 11 and 14
Royal Signals Troop Commanders Course Numbers:
11,12,13,14,15,16,17,18,22,23,24,25,26,27,28 & 33

If you can help, the RSS would be very grateful if you could send an original/copy for addition to the display.

Please send photographs to:
YO Course Photos, Command Training Wing, RSS, Blandford Camp, DT11 8AG.

(Originals can be returned to you, once a colour copy has been made. Should you wish this to happen, please state it in a covering letter)

THE ROYAL SIGNALS ASSOCIATION

Patron: HRH The Princess Royal

President: The Master of Signals

Chairman: Major General A. Yeoman CB

Vice Chairmen: Brig N. F. Wood Area 1; Brig W. H. Backhouse Area 2; Brig S. G. M. Gordon Area 3; Brig K. H. Olds Area 4; Brig P. J. Evans CBE Area 5; Lt Col J. G. Billingham Wales; Maj R. Sampson CBE Scotland; Lt Col C. N. Lightfoot N Ireland

General Secretary and Treasurer: Col A. R. Carter MBE — **Assistant General Secretary: Lt Col I. J. Hamilton**
Welfare Secretary: Mrs J. Cornick — **Administrative Officer: Mr. P. J. Cuckow (Membership & Records)**

Association Office, RHQ Royal Signals, Blandford Camp, Blandford Forum, Dorset DT11 8RH. Telephone: Military System 737 2090 or 01258 48 2090. Welfare Secretary Telephone: Military System 737 2089 or 01258 48 2089.

All contributions for *The Wire* should be addressed to the Editor and any queries referred to him on extensions 2079 or 2085. Internet: www.royalsignals.army.org.uk/museum/rsa.htm

The Association communicates with its branches and individual members through the pages of The Wire, *which contains accounts of Branch affairs as well as a forecast of Association events.*

Branch Secretaries are asked to check that their Branch members receive sufficient copies of The Wire. *Association HQ can arrange for copies to be delivered in bulk to Branch Secretaries for further distribution if this is convenient: it helps us save on postage.*

Dates of Branch events can always be published in The Wire *and should be submitted to the Editor. We also welcome letters, requests to contact old comrades and announcements of births, marriages and deaths. We hope that each Branch will contribute a short account of its activities, preferably with photographs, at least once a year.*

A FEW MEMORIES OF MY EXPERIENCES AND THE PEOPLE I MET DURING MY ARMY SERVICE IN THE TA AND IN WORLD WAR II

(2568888 Ex-Sergeant F. S. Griffiths, Royal Signals.)

In 1934 I joined the Territorial Army, 43rd (Wessex) Division Signals. Peacetime soldiering was brought to an abrupt end on 1 September 1939 when we joined the Regular Army. At first we were spread out all over Wiltshire with our Headquarters in Mere. After a lot of ups and downs and several Commanding Officers we were placed in our various Sections and spent four years training all over the south of England but mostly in Kent. We finally ended up in the little village of Woodchurch near Ashford. During this period rumours were rife as to where we would finally be sent to take our part in the war. One rumour was the Everglades in Florida to continue training for the war in Burma. Another rumour said our destination would be North Africa. While at Woodchurch the order came that we should waterproof all our vehicles. We then knew that we were destined for Europe either on or after the D-Day invasion. By this time I was Section Sergeant of the Cable Section together with **Sgt Norman West** (who incidentally was the 'brains' of the section, being an ex-Post Office Engineer) and **Sgt Ron Jollife**. We had several Junior NCOs who were all ex-Post Office Linesmen and the whole Section was under the command of **Capt Jim Dark**. There is an old saying that an army marches on its stomach. That department was well taken care of by **Sam Bartlett** our butcher come cook, who kept us well fed during the whole of the campaign. We were a happy Section.

On D-Day+12 we were ordered to move to West Ham Stadium and from there to embark on a Liberty ship moored at the East India Dock. From there the ship sailed to join a convoy that was forming up at Southend-on-Sea. Whilst there I received the sad news that **Capt Dark** had been injured in a traffic accident. This was our first mishap and it left me in the dual roles of Section Officer and Section Sergeant. The crossing to Normandy was quiet but then we spent three days tossing about in the bay. Finally we had a dry landing at Port-en-Bessin and were directed to a nice green field where we expected to have a rest, not so. I was called on to do a reconnaissance (recce) as the Division was going into battle the next day. This 'recce' took us over the ground where the previous day's action had taken place and we saw some pretty gruesome sights. We soon got hardened to this aspect of war but it did affect my driver, so much so that he had to go back to Rear Division and I never saw him again. However, personally I was glad that I was not in the infantry. Three weeks went by and a **Capt Beaumont** joined us. His arrival as the new OC took a load off my shoulders but not for long. Our bad luck persisted. The Captain decided that he would go out in his Jeep without his driver. The Germans captured him. Back to square one. Next to appear to command the Section was a 2nd Lieutenant direct from OCTU but he didn't last long. Just as we were beginning to think that the Section had a jinx on it as far as officers were concerned, a **Capt Jones** arrived. He stayed with us until we crossed over the border into Germany then he to fell prey to the jinx. He was run over by a Yank driven Jeep and severely injured and was discharged from the Army.

Throughout the campaign we were laying D8 cable from the standard 2-mile drums to all and sundry. We started with 98 miles of cable but even so it was not enough and we had to have our stock replenished several times from 7th Command. After Operation Market Garden, the ill-fated airborne offensive to secure all the bridges through Holland to Arnhem on the Rhine, we went into winter quarters at Brunnsum in Holland. There we were re-united with our old OC, **Capt Dark**. The Division was then called upon to help cover the Ardennes so we lost our billets to the 52nd Division. From the Ardennes the Division went forward over the Rhine to Bremen and I believe that this was where the 43rd fought its last battle. Not long after a cease-fire was implemented and my Section and I were very glad to realise that it was nearly all over. Out final destination turned out to be Celle where, after a few parties, demobilisation began. I was in Group 17 in the 'demob' process and one of the first to go. I was sorry to leave such good pals but I left with all their good wishes; a Certificate from the Commander-in-Chief of 21st Army Group, **Field Marshal B. L. Montgomery**; a suitcase full of loot and a ticket home. My war was over.

The Committee and all Branch Members of the RSA Southampton and District Branch extend their sincerest congratulations to **2568888 Ex-Sergeant F. S. 'Fred' Griffiths** who celebrated his 90th birthday on 11 September 2000. In 1934, 'Fred' joined the 43rd Division Signals (TA), and then transferred with the Division into the Regular Army on 1 September 1939, at the outbreak of World War II. He was then to serve for the next five years until demobilisation in 1945. He landed in Normandy just after D-Day and fought through Europe until the end of the war. He received a Certificate for Outstanding Service during the campaign in Northwest Europe from the Commander in Chief, 21st Army Group, **Field Marshal B. L. Montgomery**. 'Fred' has been a member of the RSA Southampton Branch for many years and during that time has served as a Committee Member and as Vice-President.

NEWS FROM THE AO's DESK

Branch News: Maj G. W. Duncan has succeeded **Michael Hope** as Chairman of 602 Sig Tp Association of Friends. Those interested in joining this AoF should contact **Maj Duncan** at 108 Canopus Way, Northwood, Middx HA6 3JW. Holders of the 'RSA Branch Secretaries List' should make the following amendments to the document:- **Howard Loates** - Hon Secretary of the West London Branch has moved to; 7 The Fernery, Staines, Middx TW18 3JJ. Tel: 01784-490 780: **Margaret Dadson** - Hon Secretary of the Middlesbrough Branch, has an E-Mail address:- 'colin@adadson.freeserve.co.uk'. The 219 Sig Sqn Assn should now be referred to as the 'Malta/Libya Command Assn'. The 260 Sig Sqn Assn should be correctly referred to as '260 (SAM) Sig Sqn Assn. **Brian Overland's** (Peterborough Branch) post-code should read PE6 0ET. The home tel No of **Bill Winder** (Chester Branch) is incorrect, it should read 01244-372 649. **Kevin Lugg** has started the Royal Signals Band Reunion Assn and welcomes enquiries from any former members of the Band. **Kevin** can be contacted at; 13 Medbourne Close, Blandford, Dorset DT11 7UA.

Reunion 2000: This year's Reunion was widely regarded as a tremendous success. The Princess Royal Day Parade by members of 11 Sig Regt proved as popular as ever and numerous compliments have been received at their standard of drill. The Regimental Restaurant did us proud by laying a choice of 11 menus for the Saturday 'All Ranks

Lunch', with more than enough for everyone. The Corps Band, the Corps TA Band, the Corps Pipes and Drums and the White Helmets put on their usual high quality performance in the afternoon's arena display. **Len Melling,** who works in the Camp service bay, arranged and commentated on a drive past of vintage military vehicles, from motor cycles to armour. The Corps RSM, **WO1 (RSM) Geoff Hodgson** came into his own when moulding the Branch Standard Bearers into a fine body of men - you could almost see their chests bursting with pride when **Geoff** gave them the orders of command. They were a credit to the Association, not only during the arena display, but on parade at the Sunday church service and March Past.

Part of the March Past on Sunday

The standard bearers' competition was won by **John Mumford** of the Reading Branch, who now hold the silver cup until next year. **Barry Moody** of the Scarborough Branch was only just behind as runner up and, like **John** was presented with a silver salver by the **Master of Signals** to mark the occasion.

The Master of Signals presents John Mumford (Reading Branch) with the Standard Bearers' Competition Trophy

My personal thanks go to **Geoff,** who took everything regarding the bearers off my hands at the weekend, which allowed me a little more time to enjoy the weekend. During the arena display the **Master of Signals** presented the East London Branch (standard bearer **Rob Dyball**) with their 75 years pennant and the Reading Branch with their pennant for 50 years existence.

Rob Dyball recieves the 75 Year Pennant,
on behalf of the East London Branch, from the Master of Signals.
The Corps RSM, WO1 Geoff Hodgson, is in attendance

The Sergeants' Mess was the focus for the evenings entertainment when many an acquaintance was renewed. I had the pleasure of the company of the Manchester, Liverpool and Glasgow Branches on the Friday night in the Mess, when poor old **Sid Soqo** the barman was still busy pouring drinks when I left at midnight. Thanks **Trevor** for the tinnies I found on my desk in the morning. It was a genuine pleasure to meet and greet all the members at Reception - many old friends and some faces to fit those members with whom I have become friends over the telephone over the past year or so. My thanks go to **Bill Barnes** and **Ellie** of the Catterick Branch for selling the Association's Millennium badge at Reception - to date over 2300 badges have been sold and it is still not too late to purchase yours from this office (£1 each). **Roy Painter** had organised a small get together of Korean veterans, who formed their own group for the March Past on Sunday. **Maj Gen A. C. Birtwistle** laid a wreath at the Corps Memorial in memory of those members of the Corps who died whilst on service in the conflict. Marching off last, the Korean veterans were greeted by a spontaneous and emotional round of applause by the other members who had waited for them at the edge of the square. Amongst the lost property handed in after the Reunion was a camera - claimants call this office. Finally, on the Reunion - thank you to all the Branches and individual members who took the trouble to write in with compliments and thanks, it really means a lot to us and we appreciate your kind words.

Reunion 2001: The RSA annual Reunion for 2001 will be held over the weekend 23/24 June. Please let this office know if you would like your name to be put on the mailing list for full details when they are published (hopefully in March). It is highly recommended that any accommodation requirement is booked now. Assn HQ has the list of local B & B and hotels.

Corps Carol Service: The Corps Carol Service will be held on Thursday 21 December 2000 at St Stephen with St John, Rochester Row, Westminster, starting at 1800 hours. All serving and former members of the Corps, plus their families are cordially invited to attend the service and join us in the church hall afterwards for mince pies and sherry. Secretaries of those Branches in and around London are asked to encourage their members to attend.

Field of Remembrance: This year's Field of Remembrance at Westminster Abbey will open at approximately 1125hrs on Thursday 9 November, when a short service will be held, to which all members are invited - please be in position by 1100hrs. It is understood that **Her Majesty Queen Elizabeth The Queen Mother** intends to open the Field, which will then remain open until 1600hrs on Thursday 16 November. The Corps plot, situated near the West Gate, will bear a poppy cross on behalf of each of the RSA's branches. Families are welcome to add crosses in memory of their loved ones. The wearing of medals at the opening is optional.

Welfare: The following is an extract from a letter sent to **Jan Cornick,** our Welfare Secretary: 'Dear Mrs Cornick, I am writing to thank you and the RSA from the bottom of my heart. I also must thank you for saving my life as I had decided to call it a day and end this misery I'm going through, thank you again. I'm crippled with arthritis and quite helpless and trying to live from Income Support and it's impossible to live and pay bills off that I also need special oily foods which I need to help my disability, (and I just can't afford them) I cried with relief when Mr ..... phoned and told me you were helping me and I can assure you I slept soundly for the first time for weeks. I can't thank you enough for saving the day for me (all my bills are getting paid today). If God ever made me win some money I certainly know who I would send a big cheque to first. Yours sincerely,'

New Life Members: Those who have been enrolled as Life members since the last issue of *The WIRE* are shown below. We wish the best of luck to those who have just left the Army to start a second career, and trust that they will not sever completely their ties with our Corps. Perhaps when they have a little more time to spare they might make contact with their nearest branch of the Association.

Name	Branch	Served

ALDERSHOT BRANCH

A number of our members attended the Annual Reunion, **Fred Bridges** paraded our Standard and gave a creditable performance in the Standard Bearers' Competition. It was a very enjoyable weekend, for which we owe thanks to the host Regiment and congratulate them on their fine turnout for the Princess Royal Day Parade.

For a summer when the weather was, to say the least, unpredictable we were very fortunate in having a balmy evening when, in July, a party of members and guests gathered to picnic in the grounds of Kneller Hall and enjoy a superb concert given by massed Military Bands. The event was very ably organised by **Carole Thomas.**

Our visit to RMA Sandhurst, to watch the final rehearsal of the Sovreign's Parade, was well attended. Visitors from other Branches and their guests were also present. We had wonderful weather and the entire party retired to the Pavillion to enjoy a picnic, for which everybody appeared to have come adequately victualled. Again, we owe our gratitude to **Col Verdon** for the hospitality of the Academy and his industry and expertise in organising such an event for us. We look forward to our Autumn Luncheon in the Aldershot Golf Club and hope to see many of our friends for this occasion.

BRIGHTON BRANCH

Dear Reader,

After a shaky start to the New Year your humble scribe had a bout in hospital and thanks to the specialists and our family doctor I'm now much better. The NHS have done a splendid job, and what splendid support from the RSA in Blandford, for which I send many thanks. At a local level I cannot thank our Branch President, **Brig Colin Brown** enough for his splendid letter of encouragement. I must also thank **Dee Barber** and all the Branch Members for their kindness.

However, turning to Branch affairs, The Wine and Cheese party was not well attended. Perhaps it has been held too often in its present format that may need changing. Nevertheless, we must thank **Gordon Holloway** for all his efforts. **Janet Tupper** won the prize for correctly guessing nearly all the cheeses. At our April meeting your humble scribe gave a talk on the Army Pigeon Service, in general, and the Dieppe raid in particular.

Joe's talk

The meeting was well attended - many thanks to **Dave Tupper** for arranging the display.

Dave Tupper displays a photo

The Annual Quiz in May was well attended. Our history expert, **Barry Foreman,** came along in June to explain to us how the Romans sent and received messages. He mentioned that his classmate is now a professor in history and some of us feel that he would have made a splendid professor as well!

What does the future hold? Well our Summer Lunch is on the near horizon. A certain winner as we have 31 members attending, at the Ashley Preston Park Hotel, This is about capacity. I must close down now dear readers. What somebody has read as far as here! I don't believe it!

Your Humble Scribe.....**Joe Morrison**

CORNWALL BRANCH

DEDICATION OF STANDARD

Dave Gwinnell Standard Bearer

Almost the first suggestion arising from the inauguration of the Branch was the provision of a Standard, as other Branches will know, this is an expensive project in this day and age. The matter was placed in abeyance until sufficient funding had been arranged. By a stroke of great good fortune HQ were able to obtain a redundant Standard and their kind offer was accepted with alacrity. The Standard was duly re-christened with the title Cornwall Branch thus leaving a problem how to arrange a suitable

occasion for the dedication of the new acquisition. The solution came from one of the founder members of the Branch, **Ron Moyse. Ron** just happens to be the Secretary of the Cornwall Branch of the Normandy Veterans Association and every year the NVA stage a parade in Bodmin followed by a church service to commemorate the events of 6 June 1944 and the ensuing bitter battles that took place in Normandy. It was suggested that the Branch take advantage of this splendid event to have the Standard dedicated. In a short space of time **Maj David Preece** the County Chairman of the Cornwall NVA extended a generous invitation to join them on their parade and to incorporate the dedication within the church service. Needless to say this invitation was accepted and after a couple of meetings the plan was finalised. We were delighted when **Maj Gen Alan Yeoman** and **Barbara** accepted our invitation to attend the parade.

We were fortunate that the weather was very kind to us on 11 June, the parade duly formed up at the Shire Hall in Bodmin, we were well supported by a contingent from the Torbay Branch who paraded with their Standard, strong support also came from the Royal Air Force, United States Navy and the local Cadet forces, the British Legion were there in force with no less than 49 Standards on parade, a truly impressive display. Following a short wreath laying ceremony at the Town War Memorial the parade marched past with the excellent St Blazey Silver Band in the vanguard. The salute was taken by the High Sheriff of Cornwall - **Lady Frances Banham** accompanied on the saluting base by **Lord St Levan D.S.C. D.L.** in his capacity as the County Patron of the NVA, other dignitaries included **Vice Admiral Sir James Jungis D.L.** as President of the Royal British Legion Cornwall and of course **Maj Gen Alan Yeoman C.B.** our Chairman.

Despite advancing years all parade members made it to the Parish Church of St Petroc for the commemorative service which included the dedication of the Standard. The address delivered by the Rector was based on a letter by a French grandfather to his grandson on the true meaning of the 6th June 1944. At the conclusion of the service the Branch Standard, now dedicated and unfurled was ' Trooped' through the other Standards as it left the Church. This was a truly impressive sight and provided a fitting end to a really moving occasion. The formal events now concluded all participants repaired to the Shire Hall where a superb tea was laid on and of course a bar for those who wished for more substantial refreshment. The whole occasion was a truly splendid and memorable event which gave the recently constituted Cornwall Branch a great boost to their already high morale. Again our thanks to **Maj David Preece** and the members of The Cornwall NVA for affording us the privilege of utilising their special day for our dedication.

EAST KENT BRANCH

Nineteen members disported themselves at Port Lympne Wild Life Park, of these 15 were adults in the upper age bracket the rest were children or grandchildren. We were blessed with very pleasant weather as we settled down to our picnic. Twice in succession has **Roger Stone**, who is a DIYer in these matters has taken the biscuit - for the best production yet he afterwards trudged the whole four mile circuit falling and climbing back the 450 feet involved. The more sanguine members tottered for a bit until they discovered that there was a tractor and trailer free ride right round the whole park from which all the animals in their spacious paddocks can be seen. The Gorillas at Lympne and even more so at Howletts are a must, particularly as these elegant animals seem to take as much interest in their spectators as we do in them. The RSA Reunion at Blandford was deemed by most members as one of the best there has been even though it took much the same form. The transfer of the Officers Lunch to Sunday made a big difference to the attendance at both the All Ranks Lunch and the afternoon display. The Parade by 11 Sig Regt was faultless. It is unusual for the audience to break into spontaneous applause during the parade but the intricate manoeuvres and steadiness was deserving of every pair of hands being put together. Sadly **Brian Calladine**, appearing for the first time in the Standard Bearers' Competition did not make the first six but he was amongst some very strong competition from the longer serving members. Over thirty members of the Branch attended, some with dual allegiance, and the voluntary at the end of the Sunday Church service attended by several hundred was the Branch March composed by **Charles Skingle**.

Our Annual Cricket Match was held at the Duke of Yorks School, Dover on Sunday 16 July. Other Branches had not taken up the challenge, (they must have heard something) but East Kent Branch members, family and friends managed to get two teams. The 'A' Team captained by our Chairman, **Donald Crisp** and the 'B' Team captained by our Vice-Chairman, **John Ballantyne**. The timing was perfect, the 'B' Team batted first and completed all their overs before lunch and the 'A' Team after lunch. As you can imagine there was some hilarious play. Two of the fielders both anxious to take a catch collided with one another which stopped play for ten minutes, after first aid (unfortunately neither caught the ball) play continued. The Chairman's team won the day (it was their turn). The Chairman was heard to say 'I'm only here for the beer'!

NEWS OF MEMBERS

We are delighted that **John Raymond** and **John Wilkinson** decided to remain Members. **John Raymond** had moved house to Bournemouth to be near his daughter. Following a serious operation, he was as bright as a button at the Blandford Reunion and has joined the Bournemouth Branch. He is actively engaged in the R. Signals Amateur Radio Society in Blandford Camp. It was very good to see **Mike** and **Sydney Enright** (who have remained members) at Blandford having come up from their distant home in Cornwall. The more work they do in their garden the more there seems to need to be done but they are into village life and enjoying themselves. Previously we had mentioned **Karen Bennett, Tom Bewsey's** granddaughter, who asked the Branch to sponsor her for the London Marathon - and several members did so. **Tom** has told us that despite a knee injury reappearing at the 22mile point, she was bandaged up by St John's Ambulance and ran the last four miles accompanied by her uncle, much to his surprise. She lost fifteen minutes in processing at the start but achieved her target of completing the course in less than five hours and has raised over £3,000 for the Cancer Research Campaign. Her father is having cancer treatment that was her motivation and is responding well.

NEW MEMBERS

We are delighted to welcome **Mr Reg** and **Mrs Jean Rider** of Meopham. **Reg** served as a National Serviceman from 1950-52 with 4 Air Formation Sig Regt at RAF Kasfareet in the Canal Zone. Afterwards he served four years with the AER/SR at Blacon Camp, Chester. Welcome to **Mr Peter** and **Mrs Margaret Hillier** of Dover. **Peter** served as a Regular from 1950 to 1974 (WO2(FofS) and served at RMA Sandhurst, 1 Corps Signals, 1 RHA(GE) Royal School of Signals, Life Guards (Malaya), 28 Commonwealth Bde, 1 Sig Regt and HQ AFCENT. He heard about the Branch at the RSA Reunion and joined immediately. We also welcome **Mr Charles Young** of Margate. **Charles** was in the TA from 1939 to 1941 as a Lance Corporal and served with 48 Div Sigs in UK, 61 Div Sigs in UK and then with 63 Med Regt RA in France and Belgium coming back through Dunkirk. We welcome all three members and hope they enjoy their time with us.

VALE

It is with great sadness we report the death of **Bert Stone** on 20 June, after a prolonged fight against cancer through which **Ann** nursed him at home until the end. **Bert** who joined us in the early days was unique amongst the membership in that he was actually REME but when serving with East African Signals the (FofS) was posted and he was appointed to take on the task which he did until he was demobbed in 1946. Thus he was a Signaller at heart especially as he was a dedicated member of the R Signals Amateur Radio Society, and so became our Honorary Member. Our sympathy goes to **Ann** and her family.

GLASGOW BRANCH

We're back, all present and accounted for. It was a great weekend and we, who travelled to Blandford, had a thoroughly enjoyable stay. Many thanks to the Regiment for all their help and to **Peter Cuckow** and our Secretary, **Ivana**, for making the arrangements for our visit. The Princess Royal Day Parade, as the Master of Signals said, equalled or even bettered the Guards. The Glasgow Branch congratulates the troops and the DIs. It matched the standard expected of us, who had our pass-out parade, pre-war at Catterick. More so after a day spent on technical training, having to rehearse the drill later in the evening. It was an excellent display. The White Helmets seemed to be of greater strength. Sitting in the stand I noticed a lot of the female spectators covering their eyes when the crossovers were going on at top speed, some only missing collisions by inches, a great display. We could feel the heat from the fire in the stand, so it must have been red-hot going through the fired hoop.

When visiting the museum I was looking for some Christmas cards, with the Corps badge on the front and the Corps ribbon at the side, unfortunately none were available. some of my friends have kept them from previous years as souvenirs. Have they become too expensive? I did purchase a couple of packs of the ones on show. We didn't get a discount for Old Soldiers, yet. The meals were very good. A few of us, who

normally don't take cooked breakfasts or lunches, did partake. It must have been the change of air, or the energy expended climbing the hill from the Sergeants' Mess to the mess-hall. It also saved us cooking and doing the washing-up, we thank the caterers.

Several of us watched the football matches, I am not a Scot but have been up here since 1947, when I married a bonny Ayrshire lasssie. I have endured the jibes made about the English football team and the speeches occasionlly produced at the Speakers' Club, to which I belong, but it is really only the Scots having their fun. One survives the 'Auld Enemy' jokes, especially after soldiering with them. My first meeting with the Scots was in our recruit squad, all three were from different parts of Scotland and all of them with different accents. I soon learnt to understand them and we got on famously.

I have to put the record straight with our comrades in the East Kent Branch of the Association. In the June issue of *The WIRE*, they stated that they had received a request from the Glasgow Branch, for donations to equip the Drum and Pipe Band of the Glasgow Branch. Their scribe got it wrong. The Glasgow Branch also received a request, as did other Branches. The Glasgow Branch donated £200 to the fund, as noted in the February issue of *The WIRE*. Our members applaud the East Kent Branch for all their efforts, but the request for donations did not come from this Branch, it came from **WO2 Band Sergeant Major Douglas Smith** of 32 (Scottish) Signal Regiment (V), whose HQ is in Glasgow. The Corps Pipes and Drums required the donation to purchase bagpipes. They performed with the Corps Band at the Blandford Reunion. Both gave an excellent performance and **WO2** 'Dougie'**Smith**, the instigator of the request for funds, was the one giving the big drum, big licks, in the Corps Pipes and Drums section. As far as East Kent's sketch goes, the Scot does not wear half-trews, and there were no old pipes to dispose of. 'Dougie' did not have enough pipes for all the Pipers who wished to join to learn to play. Good try your artist.

Our train journey was not so smooth. The guard had to be called at Glasgow, to remove people who refused to listen when they were told that they were in our booked seats. The same thing happened at the change of trains in London, to go to Salisbury. On the return from Salisbury there was no coach 'D' booked for us, and again in London our booked seats were double booked and occupied by 40 Post Office staff. as resourceful as ever, we did get seats. One's Forces' Training makes us survivors, whatever the circumstances.

Once again our Branch Standard Bearer, **Bill MacNamara,** made it to the final six in the competition at Blandford, he did not win, but the Branch members compliment him on a very fine performance.

Bill Taylor receives his Life Membership plaque from Eric McWaters, our Branch Treasurer, who acted on behalf of the Branch President, Maj Gen A. A. F. Anderson CB

NORTHERN IRELAND BRANCH

As the Branch had no meeting in either June or July, due to the stand down of 40 (U) Sig Regt (V), in whose TAVR Centre we meet, it is particularly hard to find enough material for this article. Anyway here goes, as we are determined not to miss our usual spot in *The WIRE*.

Only six members, probably the smallest number yet, crossed over to attend the Blandford Reunion. This was due to 40 (U) Sig Regt (V) being at Annual Camp. Normally a number of serving Branch members attend each year but this time the location of Annual Camp precluded this Five of the travellers sailed via Liverpool ferry in two cars, one driven by **John Loveday**, the other by **Andy Leishman**. It is quite a long drive and the Branch is grateful to the two members for providing the transport and driving safely there and back. Branch Chairman, **John Brown**, decided to fly across and joined the party later. It is good that our cross-Channel members, **Mark Barrass** and **Bill** and **Pam Ogden** were once again able to join with the Northern Ireland party. As the Branch Standard Bearer was unable to attend, this duty was very ably carried out by **Andy Leishman**, who paraded our standard during the Blandford march past on the Sunday. Well done **Andy**. It is important that our standard is flown at every reunion. Once again thanks are due to all at RHQ for all their work in organising the weekend which, once again, was a great success. The thanks of the Branch also goes to **Edgar McCall** for his work in planning and organisingthe travel etc. for the party. Vice-Chairman, **Jim Reilly** already has the monthly savings scheme open for next year's reunion. Once again, join us any third Thursday of the month in Clonaver TAVR Centre Belfast.

SCARBOROUGH BRANCH

Mr Peter Bateman who is a member of the Royal Signals Association, Scarborough, and has recently celebrated his 50th Wedding Anniversary. **Peter** and **Celia Bateman** were married in St Paul's Church, Woodhouse Eaves, Leicestershire on 1 July 1950. **Peter**, 74, originally from Windsor, Berkshire, and **Celia** 70, originally from Loughborough, Leicestershire, moved to Scarborough in 1974.

WEST LONDON BRANCH

Those of our members who attended the Annual Reunion enjoyed a very pleasant weekend. **Harry Ruff** paraded our Standard and a good time was had by all.

Our July meeting at Hounslow Barracks was by courtesy of The Devon &Dorsets, who moved there only a few months ago. The meeting, as usual, was well attended and the Ladies' Section did a great job of swelling the Branch coffers with a 'Bring and Buy' book sale. They ensuring that the Branch remains literate.

We look forward to our annual visit to the Tower of London and to our visit, in September, to the Royal Hospital Chelsea to attend Morning Service, on which day we are joined by friends from the Sheffield Branch.

THE MIDDLESEX YEOMANRY ASSOCIATION

This year's Cavalry Memorial Parade took place, as usual, in Hyde Park on 14 May. Unfortunately the serving squadron were away on exercise and were unable to suport us, but thirty members marched and as the video shows were very smart indeed. This year saw the regimental standards and guidons march on with the massed bands from Hyde Park

Barracks. It was a proud moment for the many ex-servicemen and women attending the parade. Our banner, this year, was carried by **Nicholas Bartlett**, our Association was led by **Col Ted Scarlett**.

On 1 July was the 55th and last reunion of 22 Armd Bde HQ and the Middlesex (Y) Sig Sqn. It was held at the Victory Services Club, London. This Association was probably one of the first veterans associations to be formed at the end of WW2. The first meeting was held on 10 September 1945 at the 'Yeomanry Arms' Kellinghusen, Scheswig-Holstein and the Chairman was **Maj W. Q. Pat Fitzgerald**. Later meetings were held at 'Nerones Bar' Trafalger Square, 'The Griffin' Villiers Street and 'The Connaught Rooms' Great Queen Street. Since those early days reunions have been held in many hostelries around London. I am sure that in the future, The Middlesex Yeomanry Annual Dinner will be used for the get together. This year the Annual Dinner will be held in the Central Mess at the Duke of York's Headquarters on 20 October. Remember that the front of the Duke of York's has been sold to developers, the entrance is now via Turk's Row.

The last official reunion
HQ & Middlesex Yeomanry Signal Squadron

31 SIGNAL REGIMENT ASSOCIATION

April saw fifty members and guests of the Association attend the Annual Dinner at the Duke of York's HQ. The guests were **Lt Col Linda Harrison**, CO of the Regiment and **WO1 (RSM) John Gibson**, both of whom have given a great deal of support to the Association during their time of 'driving ' the Regiment. The Dinner was organised by our Secretary **Henry Holman**, ably assisted by his wife 'Reggie'. **Pat Miller** ran the raffle with great gusto, not being 'shackled' by 'Dusty' who was skulking somewhere in Europe. It was also a proud evening for our Chairman, **Col Donald Crawford**, who was presenteed with his RSA 50 Year Badge by the CO, **Lt Col Linda Harrison**. All retired to the anteroom for post-dinner drinks and 'lamp swinging'. Make note in your diary now, next year's dinner is on 14 April 2001.

What can we say about this year's European trip? It was one of the best yet, well organised by **Ron** 'Dusty' **Miller** and was enjoyed by everyone, Brussels will never be the same again. This time we did get to the La Capoule rocket site and, as usual, emptied the Calais warehouse of booze on the way home. (Is this not what we were trained for?) Next year's venue has yet to be decided but it should be near the end of May 2001, so start saving your pennies now.

Our visit to the Tattoo 2000 was also a success, again organised by 'Dusty'. Keep in touch with the Association and let 'Chrissy' **Mills** know if you change your address.

3rd DIVISION SIGNALS REUNION CLUB

Each year in June HQ 3rd (UK)Division organises Exercise 'Iron Tribute' which is a visit to the Normandy area where the Division landed on 'D' Day 6 June 1944. Each year the Divisional Signal Regiment is tasked to provide a detachment of officers and soldiers to represent the Division at the commemoration services held by the local population at various cemeteries and memorials in the vicinity. This year the Regiment invited a party of ten Club members to accompany them on this pilgrimage. Priority was given to Normandy veterans. Some of those who accepted the invitation to go were **Peter Clifford, Stan O'Dell, Ernest Packham** and, though not a Normandy veteran, **Derek Roberts**. The following is an amalgam of their thoughts and impressions of this expedition.

The overnight trip across the Channel and the approach to the French coast in the dawn of a summer day brought memories of a very different approach 46 years earlier. No noise, no chatter of machineguns, no bodies floating in the water or lying on the beach and instead of wading ashore, scared witless, it was to walk quietly ashore onto a quay and into a nice comfy minibus. It may seem to some that there is a bit of 'lamp-swinging' here but the people who were asked to give their impressions were asked to be frank and avoid mock modesty. There is a tendency to think of 'D'Day as a bit of a jolly, but for the young men involved it was a pretty hairy experience. When you look at these same men today it is hard to understand the drama of what they did and how they came home. Those who came home? They got on with their lives without counseling for post-traumatic stress or whatever. Which leads into the impressions the oldies got of the young soldiers they were sharing this experience with. It would seem that there is a much better rapport between them and the senior ranks than the veterans remember from their days. Perhaps it was the absence of the unnecessary 'bull'. However, the respect between the junior and senior ranks was very apparent, maybe this is because the seniors are not just foul mouthed martinets, as a lot of the old time NCOs were, but now are pretty highly qualified tradesmen and women.

Though most of the veterans had attended quite a few Regimental Weekends at Bulford they had not had much opportunity to meet and speak with the junior ranks. This state of affairs upset the anti-segregationist feelings of **Capts Odling** and **Crane** who, with the enthusiastic help of **SSM Archer**, ruthlessly split up the veterans and parceled them out to grinning groups of young soldiers who proceeded to mark their cards. This turned out to be a two way street and the generation gap seemed to disappear as opinions and ideas were exchanged. When we came to France in 1944 our aims were pretty simple, beat the Germans. Now these young men get sent hither and thither on all sorts of missions and sometimes it must be hard for them to know just what is the reason for their presence in where they happen to be. Still they get on with the tasks they are given and leave the politics to the politicians. At least they do not have to put up with the weirdies who used to lecture us on 'The British Way and Purpose'.

The local inhabitants of Normandy must be admired. They have accepted that the bombing, shelling and the destruction caused in 1944 was necessary and have rebuilt their homes and their lives, they have also built Memorials to our dead comrades and museums to remind people of what went on in those dark times. They have initiated these ceremonies to honour our dead and intend to keep them on in the years to come. We joined the soldiers on parade at services at La Breche, Hermanville and Caen. We managed to march when required, in spite of bypassed hearts, replaced hips and knees, arthritis and general old age mainly due to the whipping in skills of **SSM Archer** and **SSgt** 'Spike' **Patterson** who kept a kindly eye on us. All the ceremonies were very moving but the one at the 3rd Division Memorial was the one closest to our feelings. A Bugler and a Piper, from Divisional HQ, sounded Last Post and Reveille. The Divisional DCOS laid a wreath from the Divisional HQ and **Ernest Packham** laid one on behalf of the Club. In between and after the official occasions we were able to fraternise with the local people and found ourselves being thanked by mature ladies for liberating them in 1944 and by youngsters asking for our autographs. We also met a man whom we christened 'Wermacht Willi'. He had been a German infantryman serving at Luc-sur-Mer just along the coast from Gold Beach on 'D'Day. His wife had been killed during the bombing of Germany but in 1988 realising that he had no hate left had started to visit the area and had been accepted by the locals. We too accepted him as a man who had done his duty as had we.

It seemed that we had no sooner arrived back to England and dispersed to our homes than we were back in Bulford for the Regimental Weekend that ran from 30 June to 2 July. What can I say about these visits to the Regiment that I have not said before? We were warmly welcomed, entertained royally and generally cosseted and pampered. Our President, **Brig Ronnie Stonham** presented The 'Ernie Bayley Award' for 2000 to **Cpl** (now Sgt) **Oulton**. The citation was at pains to include **Mrs Oulton** for the assistance she has given to her husband, and the Regiment, in the works that led to the award. She was presented with a large bouquet Once again we must thank the CO, **Lt Col Neil Couch**, and all in the Regiment for a very enjoyable weekend.

Cpl (now Sgt) Oulton, GBrig Ronnie Stonham and Mrs Oulton in the background Capt Terry Crane, manabout town!

ARE YOU RECEIVING YOUR COPY OF THE WIRE?
DO WE HAVE YOUR CORRECT ADDRESS?

REUNIONS

CANADA
Tel: (519) 455 9303
Fax: (519) 455 9868
E-Mail: ernie@skynet.ca

Dear Sir,

I thought you might be interested in the following:

On the 4 June 1944, certain members of W Troop (Advanced Wireless lst Corps Signals) either as Detachment Commanders or Crews, boarded different landing-crafts allotted according to the order and time of landing and the unit(s) for which they were to supply communications on D Day and beyond. Except for a very short spell at Iserlohn in Germany (for a reorganisation) they rarely met and there, found themselves again posted as detachments performing special duties. The last time most met was in June 1946, when some were sent back to England and others to the Far East.

With the help of **Mr Peter Cuckow**, I was able to make contact with two of the original group and a small reunion was arranged for 14 June 2000 at the Union Jack Club to coincide with my arrival from Canada for the RSA Reunion. The attached is a photo taken at that event. Those attending were, rear row (left) **Ken Hands**, **Ernest** 'Jacko' **Jack, John Bright** and **Austin** 'Hash' **Harkin**. Front row seated, **Doug Smith, Ernie Huntley** and **John Walsh**. It had taken 54 years for these fellows to meet up with each other. It was an excellent get-together and full of reminiscing.

As I said, it was through the efforts of **Peter,** through keeping and trying to increase the number of names of past R. Signals members, which made this possible. To those who wonder about their old buddies, take heart, there is always a chance. Perhaps there are still some other members of W Troop around, if so could they contact me at my home Unfortunately time is taking it's toll so one should not waste any time. Who knows, **Peter** might be able to help others regain contact also.

Sincerely and Forever Aye.....

DID YOU SERVE IN
2 SQUADRON, 7 SIGNAL REGIMENT
BAOR
BETWEEN 1967 AND 1974?

I am organising a reunion in the Spring of 2001, the exact date and location are yet to be decided. Among those who have already responded are, **Jimmy Smart, Bob Hill, Mick Mosely** and **Mick Skitt.**
If you wish to add your name to the list contact me:
John Moody
The Castle, Castle Street, Castleton, Hope Valley,
DERBYSHIRE, S33 8WG
Tel: 01433 620578
E-Mail: J.S.MOODY@tinyworld.co.uk
George Beardesley, Nick Hamilton Peters, Ian Fletcher, Fred Lucas Dave Higgins, Greg Robertson
and anybody else interested get in touch now!!

ADEN VETERANS ASSOCIATION

F. J. W. T. Hotston Esq has started an Association for those that were in Aden during the crisis. The membership, of the Association is open to all ex-servicemen/women, civilian personnel and the children who went to school there at the time. If any ex-signalmen/women wish to join the Association they can contact him by e-mail at:
adenveterans@cs.com
or on 0515 525 4331. The Association was founded on 25 March 2000 and the first grand reunion and general meeting will be held on 30 June 2001.

LOST COMMS

ROYAL CORPS OF SIGNALS 1945-1948

Were you at these locations:- Whitby (3 OTB) and Bourlon Lines, Catterick 1945/6; :Corsham, Figsbury and Wilton Camps Salisbury; CNW Cheltenham; The Firs, Chester; :Dalton airfield; Lubeck BAOR 22.....if so give **Ron Hughes** a call on 0161 344 1454 or e-mail him on:
united @ strayduck.com

Mrs P. A. Peisley (neé Forster) is trying to locate an old friend who once lived at Dehra Dun in India. His name is **Alastair Gordon** and he had a brother **John**. She has located quite a few friends who lived in Dehra during the late 40s and early 50s, and **Alastair** and his brother are the only ones she has lost contact with. She believes that **Alastair** was in the Royal Signals at Catterick around the late 50s. Also she thinks that he was an officer but is unsure of his rank. If anybody has any information please contact her at any of the following:
6 Icknield Close, Didcot, OXON OX11 7AU

E-mail: pam@peisley.freeserve.co.uk

BRIAN SUTHERLAND

I am a local historian and am trying to trace the friends and service colleagues of **Mr Brian Sutherland**. He joined the Corps of the Royal Signals circa early 1927 and was the son of **Capt J. G. Sutherland** RNR. he was born around 1906 or 1907. Did you served with the Royal Signals in the 1920s and 1930s? Did you know **Brian Sutherland**? I would love to hear from any readers who have information about this man.

Please rest assured that I am a serious and responsible researcher. Obviously, I am eager to receive any information on **Brian Sutherland** and would treat all correspondence in the strictest confidence. Any assistance you could offer me would be gratefully received.

Fax: 01423 324142

Dear Sir,

In February 1950 I first met my old friend **Ken Bunston.** It was 0730hrs on a cold morning in February standing on the square of Gallowgate Camp in PT kit freezing to death, when this guy with a Welsh accent said to me, 'What the hell are we supposed to be doing here?', or words to that effect. It was the start of a friendship that lasted for 50 years. After our square bashing at Gallowgate and Beverley Camps with 18 Troop, 1 Independent Selection Squadron, Royal Signals we both went on to OWL (Operator Wireless & Line) for the not so old, Trade Training. After Trade Training I went to Malta and **Ken** went AWOL, 'It was the Welsh air, you see, that I missed,' he used to tell me.

I next meet **Ken** walking down the Kingsway in Malta in 1951 when I said, 'What are you doing here?' 'On leave from Tripoli,' says he. Much liquid flowed before we said our goodbyes. The next time that I met **Ken** was in 1953, I had been posted to Tripoli, the camp was 90kms out in the

desert, along the coastline. I was attached to the 47th Royal Dragoon Guards. A friend and I went to go for a swim which was a walk of about 2.3kms over the sand to the sea. Just as we were about to go into the sea for our dip, who should be walking out of the water, but **Ken,** 'What are you doing here?' says he. The strangest thing about this story is that you could look either way up and down the coastline for miles and miles and not a soul would be in sight. Yet we met there at that time and on that day miles from anywhere, **Ken** at the time was posted 70 miles away at a place called Horns.

Ken and I met again in Germany in 1964 at 22 Sig Regt. He was now a Staff Sergeant. I next met **Ken** on a wet morning at about 0330hrs in a wood somewhere in Germany. I was pulling into this wood with a Radio Village packet and this chap was standing right in the middle of the path, that I wanted to take. He was directing vehicles, so I yelled at him and said, 'Are you going or staying, mate?' He turned round to me and said 'What are you doing here?' with a big grin on his face, he had now been promoted to RSM of 1 Div HQ & Sig Regt.

I did not see **Ken** again until one of the Catterick Reunion's in the late 1970s. **Ken** told me that he had left the Corps with the rank of Captain QM which was a marvellous achievement for someone who went AWOL at the tender age of seventeen and a half. **Ken** attended more Corps and Regimental reunions than anyone that I have ever known. His one big project was for a reunion in the year 2000 of all of the guys that we had met in training all those many years ago. **Ken** stayed with me for a few days in the summer of 1999 when we visited a few of the old and bold of yesteryear who we trained with in 1950. One of our old mates had not been doing so good, **Ken** working with SSAFA got him into a nice retirement home. That is what **Ken** was like, always willing to help old friends from the Corps.

I am trying to take up where **Ken** left off, not an easy task to do. I am getting together as many of the ex-members of 18 Troop, 1 Independent Selection Squadron and any other ex Corps members who did their basic training at Gallowgate Camp, Richmond. **Ken** named the organisation 'The Gallowgate Followers'. I have renamed it in his honour and called it 'Bunston's Gallowgate Followers'. Having made contact now with several of the old 18 Troop I would love to hear from anyone else out there who would like to contact their our old mates from that era. My last contact to be made was, a telephone call from Australia, which came out of the blue (excuse the pun) from **Dave Evans** (ex 18 Troop) who I had not seen or spoken to for fifty years. **Dave** has written a book with a whole chapter devoted to our training days, it's great reading and with lots of photographs of the old faces who we trained with.

The reason that I am writing this letter is to try and finish the job that **Ken** started all those years ago and to say what a great bloke and friend **Ken Bunston** was to me over the last fifty years, plus all those who had the privilege to know him. His one thought was to get old comrades together and to strengthen contact through the Royal Signals Association (see **Brian Overland** letter in *The WIRE* magazine dated April 2000). We have made contact with eleven of the old gang **Billy Leach, Harry Wilde, Nobby Clarke, Dave Evans, Bruce Apperby** and myself to name but a few. I am still looking for **Dixie Dixon, Bill Gardner, Willie Watson, Dave Shed, Nick Carter, Reg Collis, Fred Davies, Len King, Forder** and **Young** and any others which time and age have made me forget their names, for which I apologise. The following are sadly no longer with us, **Titch Bates, Norman Waremouth, Ken Bunston**. I know because due to time, illness, distance and dare I say it, old age, that a reunion does not seem possible but in **Ken's** words, 'Time is running out and we should contact our old comrades of yesteryear, so let's get off our butts and do it!'

We can still arrange to meet individually at the RSA Reunion at Blandford, write letters, send e-mail for those who are past the steam radio and thumpty-through set era, there are so many ways of keeping contact and of enjoying a chat and laugh about the old days. You can contact me, **Ken Purnell** Tel: 01423 323407, Fax: 01423 324142
E-mail: ken.purnell@btclick.com

From: **B. MacDonald** (ex OKC)
2 Denbigh Drive, Shaw
OLDHAM OL2 7EQ

Dear Sir,

The other day whilst sorting through some old letters which I had sent to my late wife whilst I was doing my bit, I came across this answer to her question, 'What do you do in the Signals?'

A CATTERICK QUESTION

That bloke there, What's he do?
He's a Signaller, like me and you.
Yes, you're a tele mech, I'm a driver,
But that blue flash he's wearing says he's neither.
No my friend, best not to ask,
For he has quite a different task.
His Signals trade is OKC,
Cypher Op. to you and me.
If you ask him how he earns his pay,
Sending messages is all he'll say.
Hospital files; officers' wiles,
Sometimes bring secret smiles,
But, I earns my pay, is all he'll ever say.

Doggerel I know, but it might fill a corner in *The Wire.*
Yours Faithfully……..

Tel: 01748-823809

Dear Sir,

Further to the lamp-swinging by my namesake **Cliffe** and **Jim Esson** in the last two copies of *The WIRE* for the record I joined the Corps in F Coy' in July 1939 and continued serving with it as an RO until April 1988, that was 49 years 298 days.

I don't know whether this is in excess of **Jim's** service but if it is 'Good old 'F' as the cry used to be! Or does anybody claim longer?
Also I think I was the youngest when awarded the Association '50 Year' badge - a mere youngster of 64 and three months - can any one better that?
Yours faithfully…..

From: **Jim Preston**

Dear Sir,

May I, through the media of *The WIRE*, ask: Why are we selective over who should receive the 50 Year Association Badge?

My own personal feeling is - that it would make more sense that evryone who has been a member of the Association for 50 years plus, should automatically qualify for this award.

I agree that those who put more into the Association than others do - should receive recognition for their services. I suggest that this could be achieved by colour coding the awards, say 'Bronze' for 50 years, 'Silver' for active brancg members and 'Gold' for stalwarts of the Association (ie: those currently enjoying that accolade).

I have often come across ex-Corps members proudly displaying their Corps tie or lapel/blazer badge, but who are unaware of their local Branches or even the existence of the Association ingeneral. Perhaps this could be a way of raising the Corps profile and might even enhance Branch membership, not to mention icreased sales of *The WIRE* and Corps memorabilia!
Yours Sincerely....

Joy - Cpl Al Joy 24 March 1973 – 01 August 2000, Cpl Al Joy died on 1 August following a year long struggle against leukaemia. He was born on 24 March 1973 and enlisted into the AGC on 17 September 1991 where he became a Lance Corporal. He served as a clerk with the 1st Battalion of The Parachute Regiment obtaining his military parachute wings. In June 1995 he transferred to the Royal Signals and qualified as a Telecommunications Operator Telegraph. Following his trade training he was posted to 1(UK) Armoured Division Headquarters & Signal Regiment where he served for two years qualifying as a PTI. He was posted to 216 Parachute Signal Squadron on promotion to Corporal. **Al** greatly enjoyed his time with the Parachute Signals, especially the physical training aspects of his job. He co-ordinated the Squadron boxing team and qualified as a boxing judge. He served in Aldershot for 18 months before moving to 16 Air Assault Brigade and the new 216 Signal Squadron.
Al first became ill at the OCA Caythorpe Weekend last year. He faced his illness with enormous courage and dignity; he was entirely positive about the future and was desperately keen to return both to the Corps and to 216 Signal Squadron. However, he was also realistic; and spoke calmly and selflessly about the possibility that his treatment might not be successful. The Corps has lost a courageous and highly motivated soldier, with a bright future in the Army. He was a man of great character and an example to all. He will be much missed by all who knew him and we extend our deepest sympathy to his wife **Liz**, and all his family.

Marshall - Cpl Gordon V. C. 'Bob' **Marshall**. We are sorry to have to report the death of 'Bob' **Marshall** on 28 May 2000, aged 70 years. 'Bob' had a long association with Her Majesty's Forces and was well known to his colleagues, who felt privileged to know him, as a keen and willing soldier ready to take on any task that was given to him.
Having completed National Service in 1944/45, he joined the Royal Navy on 13 August 1947 and served on HMS *Drake*, HMS *Vanguard*, HMS *Perseus* (Protector), HMS *Consort*, HMS *Ocean* and HMS *Orion*, with the rank of Able Seaman. He was awarded the Korean Medal and the UN Medal. He finally left the Royal Navy in October 1954.
In December 1957 he enlisted in the Royal Signals TA and served in Bristol until his final termination of service in 1974, having reached the rank of Corporal and been awarded the TAVR Efficiency Medal. 'Bob' was very proud of the people he served with during both wartime and peacetime. He was proud to have served his country.

Crich - ex-Capt (QM) Jack Crich 11 Signal Regiment, ex RSM of 2 Div HQ & Signal Regiment. He suffered a stroke and after three months illness passed away on 13 March Aged 73. **Jack** enlisted in 1940 (despite being part of a protected profession - Eriksson telecom) and retired in 1970. Three weeks after **Jack's** death, his second wife **Betty** suffered a stroke and passed away on 16 July. Sadly missed by his son **John** and daughter-in-law **Eleanor**

Dodd - Lt Col The Rev Peter Dodd CF, MBE died on 20 August after a long and bravely borne struggle with cancer. **Peter** had an extensive association with the Royal Corps of Signals through postings in Catterick, Verden, Dhekelia, York and Northern Ireland. Many of the Corps personnel will have grateful cause to remember his advice, support and the irreverent good humour which were always to the fore in times of crisis. His support of the ordinary soldier was unwavering, and his selfless courage in pursuing their interests was justly recognised by the award of the MBE for his services in Northern Ireland. After retirement his energies were devoted to local government matters in York, where he finally settled, and would undoubltedly have been elected Mayor but for his final illness. Our sincere sympathies are extended to his widow **Brenda** and his daughters **Sarah** and **Ruth**.

EXERCISE JANNERS JOY - *by AT Moughton*

As with the three previous exercises this one would test each and every one of us in different ways. This exercise put into practice all that we have learnt. The deployment out was just like any other, apart from the fact that the administration prior to departure was done by us. This was the first time that we had been allowed to command sections. We were responsible for distributing equipment, disseminating orders and navigating. The first day of the exercise consisted of rehearsals of all the skills and drills that we would need for the rest of the exercise. The exercise then progressed onto a series of OPs and recce patrols led by us. Things went well until **AT** 'Shaky' **Wrega's** patrol went slightly astray. **Cpl Harmer** made an error, he let the ATs out of his sight for more than 30 seconds. With only 300m to go to the target he let the ATs go on and he would meet them there. It was simple, in theory. The ATs had seen the farm and just had to move around in dead ground until they got to the agreed location. Eight hours later **Cpl Harmer** and **Capt Alexander** found the 'rouge' section on their way back from their OP. By accident the Troop permanent staff found a building matching the description given by **AT Wrega** approximately 2km away from the building that **Wrega's** Section should have been watching. Good skills **Wrega**! The next day consisted of section level patrols in a round robin. The circuit was made up of a first aid stand, a number of section attacks, a command task and the entertaining NBC stand. The section attacks were particularly difficult given the shortage of ammunition. By the evening we were preparing for the final attack. Following orders we had to secure the assembly area. At about 0300hrs (!) we moved, under direction of a guide, to the forming up point. Scott Tp, under direction of a guide, went for a tour of the training area and only just made it back to the forming up point with seconds to spare. We were the third assault troop and had to wait for some time before we were let loose on Baden Down Farm. The assault was hectic and I'm sure that no one really had a clue what was going on. Despite this the exercise was, without doubt, the best yet. We can't wait for the Live Firing Exercise at the end of term even though some of the permanent staff are muttering about, people getting shot left right and centre.

EXERCISE DRAGON'S TEETH - *By AT Dawes*

Day 1: Ex Dragon's Teeth, a hard, testing exercise departed from Arborfield Apprentices College at a relaxing 1255hrs. As we arrived at EXCON the exercise weather that they had obviously booked for us kicked in. The rain came down like a monsoon and drenched us all in a matter of seconds. We then started to patrol to our harbour area with the Troop Commander at the front followed by the Section Commanders then our Troop Sergeant at the rear making sure we lost no one. We carried out all the drills of snap ambush and then moved into the harbour area. All comms cards and bashers were set up before we had some scoff. That night my Section Commander, Cpl Tregunna took us out and taught us ERV drills. I actually found it quite exciting as it was dark and we were all running around with the adrenalin rush kicking in.

Day 2: Up at 0545hrs with a long day to look forward to. Today would be the test day for all the skills we had learnt in the first ten weeks. Fail this exercise and it would be back to square one. The tests involved target indication, observation, judging distance and camouflage and concealment. I enjoyed the last test the most; the thrill of knowing that you can see the enemy and they cannot see you set your mind racing. Back to the harbour to practice the ERV drills again. Something about the time spent on the subject set my mind wondering! Tension increased on Day 3 as the testing of our behaviour and attitude started. We did our final practical test (fire and movement), which is your chance to show aggression, which I think 90% of the Troop enjoys.

Day 3: The last day we had our final test and after we had packed our kit away we were attacked, the ERV drills now seemed useful! We had only run about 500m with our bergans to the ERV and we were already knackered! Then it hit us we had to TAB back to EXCON! We were all practically running for the three miles to keep up with the Troop Commander. (Note from **Lt Shakespeare:** it was actually 2.6km!) As we got back to EXCON everyone was exhausted and so we collapsed and started to clean our rifles, waiting for the coach to take us back. Personally I found the exercise very challenging. I was 2IC of the section for 24hrs and that was a shock and education. The TAB was hard but my section did well and no one dropped their bergans and the girls finished in the top third, which was a good achievement. Unfortunately the Troop will have to go forward to Senior Term without **Lt Shakespeare** and **Cpl**

LATE NEWS.....LATE NEWS.....LATE NEWS

Sawyer who are off to teach Junior Term again. We will also lose **Cpl Wheeler** who is going for a holiday in the Middle East teaching and to **Cpl Smith** who has seen the light and has decided to leave for the bright lights of Blandford to re-badge to the Royal Corps.

31st (CITY OF LONDON) SIGNAL REGIMENT (VOLUNTEERS)

CO **Lt Col L. F. Harrison TD**
RSM **WO1 (RSM) Gibson**

2 (NC) SIGNAL BRIGADE TRADE TRAINING COURSE

31 Sig Regt (V) conducted a trade training course at Bramley Training Area (BTA) over the period 14–23 July 2000. This course although run predominantly for 31 Sig Regt (V) was opened up for the remainder of the units within 2 (NC) Sig Bde. The course commenced with a smooth handover of the training facilities, which should have let the DS know that it could not remain in this state of tranquillity forever.

Sure enough, members of the Cadet Force reported that they had found a Signaller lost in the woods, claiming to have bogged in his vehicle. After an unsuccessful hour searching **WO2 (YofS) Andy** 'Yoda' **Smith** and **Cpl Andy** 'Silk Negligee' **Harding** returned to the HQ building, thinking that these blokes from the Cadets must be barking! Shortly afterward the Cadets returned to say that they had managed to find the said 'vehicle' in the woods. So once again, the rescuers deployed in search of the lost vehicle. Hidden deep in the woods was **Sig** 'Pathfinder' **Harris** and **Sig** 'Doesn't take notes' **Stevens** safely tucked up in their sleeping bags, with the FFR well and truly parked up for the night. When asked, why they had gone deep into uncharted territory to find the HQ building, they were heard to say, 'We didn't think to look in the HQ building it looked far too comfortable.' Well-done lads! This gave the chance for the course to have its first lesson of 'How to recover a vehicle from a tricky position'. Although many of the students on arrival at Bramley had never officially operated a radio before, both the Rad Sys Op (HF) 'A' and 'B' courses managed to conduct a JOCOMMEX just four days into the course. Syndicate 'A' attaining a very creditable 75% communications with 3 UK Div Sig Regt, HMS *Berkerly* and HMS *Cromer.*

The students held a smoker on Thursday 20 July 2000, during which they conducted skits of the instructors. It has to be said that Syndicate 'A' led by **LCpl Paul** 'The Joker' **Hawes** managing to keep the audience amused for a substantial period, with their efforts to impersonate the instructors. The course culminated in a field exercise over the weekend 21-23 July 2000, with the students manning three nets; JOCOMMEX (80% primary communications maintained), local HF net and an Exercise Longhaul (HF link to America using ALE equipment). The Exercise proved to be an outstanding success, a credit to all the students on the course. The course dispersed on Sunday the 23 July 2000 with all those attending having partially completed or (for the lucky ones) fully completed their trade training. Well Done! The Regiment would like to take this opportunity to thank all students especially those non-members of 31 Sig Regt (V) who attended the course for the effort and work they put in to producing a very successful nine days. Thank you to the instructors for the time and effort they put into the course.

VISIT TO THE 1108th, 1110th and 1111th SIGNAL BATTALIONS MAY 2000 - *By WO2 (FofS) Jamie 'Dannyboy' Harper*

Gosh where to start. When I was told I was going across on a liaison visit to the States I said, 'Great, I'll just go pack my shorts and suntan oil.' 'It's not going to be that type of visit,' says the Training Major. 'But bring your shorts .... Just in case!'

When the day arrived the intrepid quartet, comprising of **Maj Tim** 'Sega Master' **Cooper, WO1 (RSM) John** 'Midnight Cowboy' **Gibson** (who was also being used in a duel role as the FofS interpreter), **WO2 (YofS) Andy** 'Yoda' **Smith** and myself set off for the airport. We were full of the joys of spring and excitement. Half hour later we arrived at the airport extremely traumatised but at least in one piece. We thanked **LCpl Dave** 'Colin McCrae' **Wynne** for an interesting ride to the airport and told him that if he hurries the police probably won't catch him! The plane ride to the States went without incident, almost. The YofS had some operator finger problems with the concept of plastic cups and had to be excused while he cleaned himself up, only to be expected. We were expecting a rather boring seven-hour flight, however, an entertainment unit per person and a free bar across made the journey slightly more bearable. The Training Major and the RSM thought all their Christmases had come at once! We were taken from the airport (Dullas Washington) to our hotel in Gettysburg by **Maj Steve** 'Hooters' **Davis** of the 1111th Sig Bn based at Fort Detrick Maryland, in preparation for an informal dinner with **Col Titus**, the Commanding officer of the 1108th also based at Fort Detrick. A most entertaining night was had, with Anglo-American relations between the two units going to new heights. However, never one to back down from a discussion, I now may be off their Xmas card list!

First day at the Fort was taken in with an overview of the station and a visit to the 1110th Satellite base station which controls three Satellite Ground Terminals (SGT's) in the vicinity. The control room of the base station would have sent even the most hardened 'Trekkie' gibbering.... It was like being on the bridge of the Starship Enterprise! (I jest you not!) We were also taken for a tour around one of the SGT's and introduced to all the workers there in. That afternoon we were taken to the local shopping park for some 'Retail Therapy'. The YofS was last seen running into a Raulph Lauren shop screaming 'Shop 'til ya drop, Shop 'til ya drop!' Meanwhile the RSM had acquired a cowboy hat and was loitering with intent in the main plaza. That night the lads from the 1111th ensured that we were looked after and didn't get bored. We would also like to take this opportunity to thank the 'Boys Choir' of the 82nd Airborne Engineers for their help in entertaining us that evening, The RSM was so enthralled that he joined them for one last stint. Ever seen a fish out of water its like an RSM doing Rap! The next day it was back to work. We were taken to 'Site R'. Access is restricted, blindfolds and cavity searches mandatory. No wonder all the Americans there had smiles on their faces, very unsettling. To say that Site R is awesome would be a gross understatement. I would love to tell you all about it but then I'd have to shred you all. Americans it is said (and they do say it!) do it bigger and better, I can vouch for this, imagine a bunker the size of the London underground and you may start to have an idea of what I'm talking about. We were taken for a tour around the machinery that created the life support for the place; words cannot even begin to let you comprehend how immense the site is.

We were introduced to **Col Bryant** ('The Grand Master Mole'), Commanding Officer of the 1111th, and his Ops team to discuss equipment compatibility and procedures between our two units. There was also a visit to their Comms Facility and introductions to the personnel manning it. That afternoon the 1111th laid on a special battlefield tour of Gettysburg with professional military historians. It is a truly beautiful, solemn place with monuments to the past scattered about the battlefield. As the historians spun their tales of blood and guts you could almost imagine what it could have been like to be there then. It was an impressive afternoon. Strangely enough refreshments were provided at the local inn where we repaid the historians in a fashion that they would appreciate. It was our last night; we had a sit down meal with **Col Bryant** and his dignitaries and exchanged pleasantries and presents. The honour of becoming members of the 'Loyal Order of Moles' was conveyed on us, normally you have to do a full tour underground at Site R to get this! As the RSM will soon be leaving to pick up a post in Civ Div (Post Master!), he elected to present his Pace Stick to the CSM (Command Sergeant Major) of the 1111th. The CSM was so overcome with the present, he visited our hotel in the morning and brought MORE presents with him! Afterwards to bring the night to a fitting end, we decided to do a CTR on a known establishment, which I hasten to add came highly recommended (by the bar staff). Again much was done to cement Anglo-American relations much to the profit of the establishment. The RSM was so overcome with the place that we had to help him back to his room, jetlag and old age he said were to blame. The 1111th excelled themselves as hosts both in the work environment and the social side. This unit will ensure that the reciprocal visit in September is of the same standard..... if not better.

Visit to the Gettysburg Battlefield
(L-R): Maj Steve Davis US Army, WO1 (RSM) Gibson, WO2 (YofS) Andy 'Yoda' Smith, WO2 (FofS) Jamie Harper, Tour Guide - Maj Tim Cooper

OFFICERS' MESS SUMMER BALL

This year's Officers' Mess Summer Ball was organised by **Lt Beth Pollard** from 41 Sqn and **Capt Paul Samways** of HQ Sqn. The evening was held at Southfields TAC on Saturday 8 July. Mess members and their guests were greeted by **Maj Julian Carmichael** the PMC, and offered a drink in a reception marquee. A super meal was served in the drill hall, followed by coffee, port and cigars, during which the 'Premier Brass' band played for entertainment. Mr Vice, **2Lt Lee McEvoy** newly commissioned out of Sandhurst, gave the toasts to the Queen and Princess Royal, and then the evening really began... **Lt Beth Pollard** had organised a casino, in which all members and guests demonstrated their gambling skills. Some more successfully than others! A band played in the main hall, followed by a disco and many of the Regiment's officers were seen dancing until dawn! Transport was laid on throughout the night for those wanting to retire, whilst others were still up to see the sunrise over Southfields. As a member of 31 (City of London) Sig Regt Officers' Mess, I would like to say a big thank you to **Beth** and **Paul** who organised a superb evening.

COULSDON MILLENNIUM PARADE

Coulsdon has been having its own Millennium celebrations (albeit belatedly), and 41 Sqn took part in the Millennium Carnival procession to the local secondary school. The carnival procession started at the TAC, where the various floats gathered, and from there processed along Marlpit lane and out towards Old Coulsdon to the school. At the school, there were various stands and displays (of which we were one), a beer tent, stage, BBQ and fairground, and the evening finished with a huge firework display. We had a lot of interest in our display stand, consisting of Lanward, an FFR detachment, and a recruiting stand, although most of the school children were a bit too young to join. The Squadron's participation in the event was organised by **Sgt** 'Uncle Nick' **Tuck. Capt John Symonds, Lt Debs Speakman, Sgt Ian Mackay, Cpls Julia** and **Simon May, Cpl Andy** 'REME' **Ellis, Sig Phil** 'PLK' **Davy** and **Pete Lovett** all gave up their Saturday evening to take part in the carnival and promote the Squadron.

EXERCISE GREAT ESCAPE – 14-16 JULY 2000

Ex Great Escape was a Squadron mil skills weekend, organised by **Capt John** 'Col Bozic' **Symonds**. The Squadron deployed as part of 'WOTFOR' (Western Operations Treaty Force) to Cinque Ports in Kent to take part in a peacekeeping exercise. The Squadron were deployed to keep the peace between the KLO (Kent Liberation Organisation) and the BUM (Britannic Unionist movement), and were given a series of scenarios to deal with. The platoon, led by **Lt Debs** 'Cow Pat' **Speakman** and **Sgt Brian** 'No Clutch' **Traynor**, had to initially clear an area, and send out recce patrols. Ops were sent out at first light, and reported back to Pl HQ on what they saw. I think we all learnt just how important it is to get the facts right before acting on any information! On Saturday afternoon, we were given lessons on the 349 and 351 Clansman radios by **SSgt Dave** 'BT' **Holman. Sig Phil** 'PLK' **Davy** and **LCpl Rob** 'GMPG' **Bromwich**, both recently returned from Bosnia, gave a lesson on mine clearance. **Cpl Kevin** 'Egg Banjo' **Bedwell** gave a lesson on trip flares, and we all fired the GMPG (SF). Early evening saw us patrolling to secure an HLS (just who *was* that farmer?), practising our section attack drills, and evacuating casualties from a minefield. We were obviously having far too much fun on exercise, when the KLO DS said they could hear laughter coming from our bunker as we ate breakfast on Sunday morning. We still haven't learnt that we're not supposed to have fun on exercise! Our platoon attack however proved a rude awakening to all. Attacking enemy depth positions uphill is incredibly hard work, but somehow **Sgt Brian** 'No Clutch' **Traynor** managed to lead a section around the back of the enemy, and attack with the element of surprise. Well done that man!

LCpl liz Bray firing the GPMG

TADWORTH CHILDREN'S TRUST FUN DAY

The Squadron sent a display stand to The Children's Trust Fun Day at Tadworth on Saturday 22 July. The stand, run by **LCpl Paul** 'Starbar' **Starbrook** consisted of an FRR, and recruiting display. **LCpl Starbrook** was helped on the day by **Sig Phil** 'PLK' **Davy**, and **Sig Guy** 'mountain bike' **Scott-Douglas**, who took various bits of kit for the children to try on, and cam cream so that children could paint their faces like soldiers. The stand proved very interesting to those who'd gone to the Fun Day, and we also helped to raise money for the Children's Trust. The Children's Trust raised a total of £19,000 on the day.

Welcome back to the Squadron to **Sig Phil** 'PLK' **Davy**, who has recently returned from Bosnia. We hope that the Squadron will benefit from his experiences there - he has already started to pass on some of what he learnt to the Squadron. We don't want to make his head swell too big, but welcome back, mate!

The Squadron would like to congratulate **Sgt Trother** and his wife **Louise** on the birth of their first child. Baby, **Kathy**, and mum are both doing well.

56th SIGNAL SQUADRON
Sqn Comd **Maj Streete**
SSM **WO2 Godden**

GENERAL INTRODUCTION

The main emphasis for the Squadron remains preparation for Annual Camp 2000. The detail of which is starting to emerge. It promises to be an excellent opportunity for the Squadron to show what it can really do. Although the summer months are traditionally quieter, Squadron personnel have been active and have been involved in a great deal, including: Ex Cockney Mackenzie, a canoeing expedition to Canada, Trade Training, a Military Skills Exercise and a Troop Commanders Adventurous Training weekend. The TA Centre was also the venue for the Warrant Officers and Sergeants Mess Summer Ball.

PERSONNEL

Maj Sarah Streete, unable to attend Annual Camp because of work commitments appears to have gone against the grain somewhat, apparently ignoring the usual options of an attachment or career course. She is currently serving in Kosovo covering a Staff post for six weeks. Rumour has it that she has yet to make an appearance at the Staff Office but is widely travelled and enjoying the experience.

REGIMENTAL TRADE COURSE 14-23 JULY 2000

Bramley in Hampshire was the venue for this season's trade course. The Squadron was well represented with **SSgt (PSI)** 'Willie' **Loch** and **Cpl Andy Harding** putting in the hours and the knowledge as instructors and **LCpls Reader, Hawes, Hewitt** and **Sigs Godwin** and **Jennings** striving to attain their trade qualifications. The hours were long and the training intense but not even an impromptu visit from half of the Officers of the Regiment distracted either student or instructor from their goal. Congratulations to the above mentioned on the standard of pass they achieved. **LCpls** 'Eric and Ernie' **Hawes** & **Hewitt** are also to be awarded a BAFTA for their unique interpretation of life as an Instructor!! All recently qualified operators will get the chance to put their newly acquired skills to good use on Annual Camp.

EXERCISE PIPPINGFORD WALK 14-16 JULY 2000

With Summer Camp approaching fast this was our last chance to brush up on our Military Skills. **SSgt Chris Maginnis** and **SSgt Martin Cooper** take the majority of the credit for a well-conceived and executed exercise. 'Old Sweats', **LCpl Eric** 'The Warrior' **Gardyne** and **LCpl Paul** 'Let me at 'em' **Renaud,** as usual lead from the front throughout. **OCdt Rob** 'Woody' **Wood** used the occasion to prepare himself for his forthcoming commissioning course but (Platoon Sgt for a day) **Cpl Jason Light** is still claiming 'Woody' would have a better chance if he went with him to Sandhurst. Even Sqn 2IC **Capt Tony Potter** and **WO2 (SSM)** 'Roly' **Godden** playing the bad guys (entirely out of character) were powerless to prevent a successful final assault, much to the delight of all the participants. Overall the exercise was a resounding success and provided an excellent opportunity to cement relations with the contingent of ACF based at Eastbourne.

EXERCISE EASTBOURNE ADVENTURE 4-6 AUGUST 2000

The name is a bit of a misnomer – it was an adventure but it was certainly not Eastbourne. 36 members of the Squadron embarked on an experience with a difference as conceived by **Capt Tony Potter** and the **SSgt** 'Willie' **Loch** PSI. Friday night saw an exhausting seven hour journey to Haverfordwest in SW Wales (Where??) to the home of 14 Sig Regt (EW). From there, the eager participants dispersed to take in a range of activities. A number of soldiers tried their hand at deep sea fishing – **Sgt Gary Windham** landed the smallest catch of the morning – a sand eel smaller than his hook; **Capt Tony Potter** landed the largest – a passable Pollack. Waterskiing saw the SSM impersonate a human torpedo and develop a close relationship with the boom in his 'topper' yacht later

on in the day. Saturday evening was witness to a cut throat squadron-wide ten pin bowling competition won by **LCpl Hewitt** (ex PWRR) and closely followed by **SSgt Martin Cooper**. Staff Cooper then produced a 'home made' pizza for the winner to share with his 'mates' **WO2 (SSM) Kevin Godden** and **Sgt Dickie Bonner** preserved the integrity of the Senior Ranks by defeating **Capt Tony Potter** and **Capt Anthony Lamb** in the new annual ten-pin bowling competition. Sunday saw the squadron retire to the go cart race track where a gruelling 90 minute team challenge saw a ten lap victory go to the old and bold team captained by **Sgt Dickie Bonner** with **LCpl Jo Reader's** team in hot pursuit. This was a memorable weekend, well attended by new recruits and the old sweats alike and a very successful team building activity

The Team on Ex Eastbourne Adventure

WARRANT OFFICERS AND SGTS' SUMMER BALL

The Warrant Officers and Sgts' Mess held their annual Summer Ball on 8 July 2000 at Eastborne. The theme for the evening was a 'Caribbean Beach Party' which included a live reggae band, limbo dancers and fire-eaters and a real Caribbean BBQ. The PMC **WO2 (SSM) Kevin Godden** and his hard working SNCO's at 56 Signal Squadron spent two days converting the main garages into a Caribbean beach which included the delivery of palm trees, a cocktail bar, a lorry load of sand, the construction of a stage and a large goat for the BBQ!. Many thanks to **SSgt Martin Cooper** who used his contacts in the building industry for the sand and scaffolding. The evening started with a 'punch' concocted by Master Chef, **WO2 Fred Bramble**, which got everybody into the mood straight away. Although from this point on, it was difficult to remember the evening in detail. All the SSM's competed in the limbo dancing competition, although their was no real winner, the Medical Officer has said that given another three weeks rest they should all be back at work! The live reggae band provided an authentic sound of the Caribbean and played throughout the night only stopping for the BBQ. The BBQ was prepared by, **WO2 Fred Bramble, Sgt Steve Howell** and **Sgt Bob Shevels**, which included goat, shark and swordfish and was a complete success, lucky no one mentioned the goat until afterwards. Following the BBQ, the Mess were entertained by two limbo dancers. The evening finished off with a disco and an impromptu game of volleyball and in overall terms was a complete success.

83 (LONDON) SIGNAL SQUADRON

Sqn.Comd **Maj Julian Carmichael**
SSM **WO2 (SSM) Stevenson**

CONGRATULATIONS TO THE 'EASTWOOD-BELLS'

The wedding of two members of 83 Sig Sqn took place on 24 June near Nottingham. **Cpl Mark Bell** and **LCpl Jay Eastwood** interrupted the training programme and tied the knot in her home village. There was a mass exodus from London as many members of the squadron hit the M1 with perfect convoy drills. The bride did not wear green but chose a more traditional outfit! She was not easily recognised by her 83 colleagues who commented how different she looked from her usual weekend exercises. The groom was well supported by **Sgt Matt Cahill** who took off his Sgt's beret to put on a Top Hat as Best Man, he apparently was showing more signs of nerves than the groom! A Guard of Honour greeted the grinning couple as they exited the church - **Cpl Steve Taylor** (PSI Tech), **Cpl Ian Byrne, LCpl Colin Anderson and Sig Jardine** looked outstanding in No. 1 Dress. The father of the bride, in his speech, acknowledged the Guard of honour as the male challenge to the bevy of beauty provided by the three bridesmaids! A surprise honeymoon of Barbados and Antigua followed but we know they would have preferred two weeks in Catterick.

The Happy Couple
Cpl Mark Bell and LCpl Jay Bell nee Eastwood

THE ONE THAT GOT LEFT BEHIND...

LCpl Stuart Farquharson-Roberts, a Det Comd in the Squadron, found himself left behind in British Columbia following Ex Cockney Mackenzie, the Regiment's canoe trip to British Columbia. He suffered a collapsed lung on day three of the Exercise, but did not get off the river for another three days. This led to eleven days of discomfort in hospital in a backwater logging town of Quesnel. **SSgt Graham Browning** remained behind in Canada to ensure his safe return to UK although it soon became clear that he would not need to remain for the three to four weeks dictated by doctors who were fearful of recurrence. **LCpl F-R** had a chain of relatives who could take him in thus relieving **SSgt Browning** who nevertheless ensured that his charge got to Connecticut in the US. **LCpl F-Rs** brother, a Pte in 3 Para on leave, flew out to join him for a tour of New York, Washington DC and Boston. On his return to the UK a month after endex he said, 'Despite the lung, I've had a fantastic holiday. I'm going to collapse it every time I'm abroad now!' We are not sure if his employer will be quite so pleased with that idea, but he did admit to being glad to be back in the Squadron bar.

280 (UNITED KINGDOM) SIGNAL SQUADRON

Sqn Comd **Maj J. A. Harris**
RSM **W O1 (RSM) C. Kearney**

The Squadron is now being re-equipped with a new NATO communications system, the Deployable Communications Module, and the first of this equipment to arrive came during June. Each Troop is now equipped with '85 Buy' radio relay. There are three detachments, each consisting of a radio vehicle and a mast vehicle - the masts are about 25m high. Because of this they take about two hours to set up. After nearly a year with no equipment the Troop embarked upon two weeks of intensive training. There was some appalling weather but a huge amount of effort was put in by all, and the detachments were working like well oiled machines by the time they demonstrated for the Master of Signal's visit. Then the Master retired to the WOs and Sgts' Mess to present LS&GC medals to members of the Squadron. Congratulations to **Sgt Michelle Ironside**, **Sgt John Taylor** and **Cpl Brian Woolley**.

The Master with the OC, the RSM and the LS&GC recipients, and their families

The Master enjoys a joke with Cpl Cook

ALPHA TROOP

Tp Comd **Lt B. Y. T. Higgs**
Tp SSgt **SSgt Roberts**

Alpha Tp would like to welcome **LCpls Donaldson, Hubble, Kirkwood** and **Lester**, and **Sigs James** and **Fewster**, all straight from Blandford and preparing for a mixture of excitement and confusion that is the NATO Experience. After the flood of arrivals, over the past few months, we must bid farewell to some long serving members of the Troop: **Cpls Ronnie Radford** and **Neil** 'Naked' **Hatcher** to Northern Ireland (continuing an eerie Troop tradition); **LCpls Gordy Carle,** 'Nobby' **Styles** and **Sig Steve** 'Aviator' **Wildridge**. All of them are leaving the Corps for greater things. We wish them all the best of luck.

ITD Camp

The ITD Camp that was run during July was the first opportunity that the Squadron has had to do some green training since the return from Kosovo, as April and May were lost to Post-Tour leave, and June saw the Squadron AT Camp. 70 personnel from the Squadron relocated to Haltern-Lavesum for a camp where the emphasis was on training rather than testing. As well as the ITD that we all know and love particular attention was placed on weapon training, culminating in a CQB range. The Camp finished with a march and shoot, based on the CFT followed by an inter-fire team falling-plate competition. The DS team honourable retired in the quarter-finals (after having made their point). The eventual winners were **Cpl** 'Brass-Converter' **Slaughter's** fire team from Alpha Tp, thanks mainly to the eye of **Sig** 'Les' **Ryall** (using Cpl Slaughter's ammunition). The camp was enjoyed by all, and will prepare everyone for the battlecamp in October. Thanks must go to the Ops Officer **Capt Rich Craig**, and to the Training SNCO, **SSgt** 'H' **Baker**, for doing the shouting.

BRAVO TROOP

Tp comd **Lt L. J. Calderhead**
Tp SSgt **SSgt Weavers**

Due to a mass Squadron reorganisation i.e. the formation of two Troops from three Troops, we now have a combination of old Bravo Tp members, old but new to Bravo Tp and real new Bravo Tp members. 'Real welcomes' must go to **Sig** 'Harry Ramsden' **Rolfe, LCpl Clarke, Sig Pollock, LCpl** 'Gym Queen' **Jones** and **LCpl** 'Monty' **Montgomery**. Sadly we must say goodbye to **Sig Watts** who is shortly to be travelling around Aus. Also goodbye and good luck to **LCpl** 'Hilly' **Hillson** who is also venturing out into civvy street - well as much as you can call working for Spacelink in Kosovo civvy street!

EXERCISE QUEBEC BACKSTOP 2000

The Squadron adventure training camp this year took place in the Mosel Valley Area of Germany during the period 22 June-4 July 2000. The exercise involved activities such as hill-walking, canoeing, windsurfing and the well known sport of 'granny biking'. 45 soldiers in 9x9 tents seemed to blend into the rather quaint civilian campsite in Nehren, near Cochem with remarkable ease. However, our German campsite neighbours did appear somewhat confused by our assembly on the volleyball court during **SSgt** 'More pudding' **Maw's** initial fire practice! The first phase saw some fairly unspectacular weather, however, due to the wet nature of the majority of the activities this went unnoticed by most.

The canoeing activity run by **Sgt** 'Maddy' **Mason** took place on the River Mosel and for most involved a significant amount of paddling round and round in circles. However, **LCpl** 'Does your mother know you are here' **Harrison** insisted on inspecting the wall of a rather large barge at close range before actually deciding to paddle in any direction! Then there was the hill-walking day where heads were cleared and blisters made during a 25km trek led by **Lt** 'Not another bridge' **Calderhead** through woodland and over some fairly steep valley sides. Thankfully **LCpl** 'Timmy' **Mallet** cunningly and seemingly quite accidentally discovered a coffee shop when it was his turn to navigate. It was at this location that **LCpl** 'Daz' **Pearce** discovered a tick embedded rather high up on his inner thigh. This did not cause too much panic in the soon to be gym queen as he frantically attempted to drown the little creature in the delightful spicy German Goulash soup! At the end of the day aching feet were soothed for some by a dip in the river. An activity that was particularly necessary for **LCpl** 'I'll walk back' **Booth** who managed to walk an extra 18km before he even started the days activity due to a severe taxi shortage in Cochem early that morning! The windsurfing was not exactly the easiest activity to grasp in a day although **Cpl Baber** managed to get far enough out on the lake that yet another rescue mission by **SSgt Maw** was required! Then there was the 'granny biking' activity. Congratulations must go to **Sgt Michelle Ironside** who discovered at the end of the day that the reason she was always being left behind was that she actually had the brake on!

Fortunately, during such an adrenalin packed week, there was chance to relax during the R&R activity or so we thought until **Lt Bernie Higgs** pointed us in the direction of a near vertical hill in order to visit Cochem Castle. However, there was plenty of opportunity to swap the day's war stories over a civilised glass of wine during the evening wine festivals in the local area. We also managed to build the longest Anglo-German conga during the boat trip up the River Mosel. Overall it was a thoroughly enjoyable week and thanks must go to all the staff that enabled this event to go ahead.

ATTACHMENT TO 280 (UNITED KINGDOM) SQUADRON

by 2Lt Justine Ridley & OCdt Aileen Grant

On Monday the 10 July **2Lt Justine Ridley**, from Oxford UOTC, and **OCdt Aileen Grant**, from Glasgow and Strathclyde UOTC, arrived in Germany for a three week attachment with 280 (UK) Sig Sqn, their aim being to experience everyday life at a regular signals unit. Having just completed their degrees, both are due to start Sandhurst in the not so distant future, so were keen to see what a Commission into the Royal Signals involved.

The first two weeks were taken up with learning about the structure of a Signals Squadron and training on NATO radio relays. This involved working with the soldiers as well as observing the everyday jobs of the Troop Commanders, such as interviews, CRs and paperwork. Working with the soldiers was particularly useful since we got to know how the kit worked and had a brief insight into the goings on of the soldiers in the Squadron. They were keen to explain the working of the Signals kit and tell us about their operational experiences. From training with the soldiers on the radio relay detachments we realised the importance of getting to the soldiers personalities and what their future ambitions are since a major element of a Troop Commanders job is managing your soldier's careers.

The third week gave both of us the chance to have up to date training on ITD's. The first day encompassed BFAT training during which **2Lt Ridley** found out that she had passed her nursing degree. The details of what degree she had done was not mentioned to the instructor until a later date for fear of failing the test. Neither of us had entered a gas chamber before so NBC skills were quickly improved especially when confronted with a face full of CS gas. PT was commenced ritually every morning and we discovered the PTI's love of hills, mud, and early starts. The ranges caused much amusement since it was the first time for us both to shoot with a respirator on and therefore caused us to shoot more than one APWT! The last day was dedicated to the CFT, for us an operation in blister maintenance.

We were both introduced to the German nightlife along with a small amount of alcohol! Various trips were made into Krefeld and Dusseldorf once we eventually understood the train system. One of our nights out involved testing to see if the Jay walking law really exists…it does! On our last weekend the Summer Ball was held (for a whole 12 of us). Around 3am the munchies hit and we discovered one of the subalterns has a soft spot for tuna fish. On the whole, we thoroughly enjoyed ourselves over the three weeks. Our thanks go out especially to **Lt Lindsey** 'Tunafish' **Calderhead, Lt Bernie Higgs** and **Capt Richard Craig** for making us feel so welcome and introducing us to yet more acronyms, this time NATO ones!

UN MILITARY OBSERVERS AND STAFF COURSE (UNMOSOC) IRELAND

by Capt Richard Craig

Whilst serving in Kosovo at a loose end, looking through the DCI's I came across a trawl for nominations for the UN Military Observers and staff course in Ireland. On a whim I decided to put my name forward expected that nothing more would come of it. I was therefore surprised when two months later joining instructions arrived on my desk. After completing all the necessary admin left for the course. The course was held at the Curragh Camp, County Kildare, Ireland. This is the main Irish

Defence Force camp and is situated thirty minutes West of Dublin. The course was attended by thirty-three officers ranging from Captains to Lieutenant Colonels who came from a total of 23 countries. The average age was 32 with the youngest 26 and the oldest 51.

There was a mixture of lectures and practical lessons on all aspects of UN Peace keeping and UN Monitoring Officer operations. Most of the lecturers had extensive UN experience, and incorporated their personal experiences into the lessons. There were a number of guest speakers who added variety and additional interest to the course material. There was also a number of exercises that involved Irish Defence Troops from all over Ireland and considerable resources including armour and air support. Having served in 280 (UK) Sig Sqn and deployed to Kosovo and Bosnia I already had experience of serving with many officers from different NATO nations although I had no UN experience. The chance to meet and serve alongside officers from nations from all over the world was fascinating. The professionalism of the Irish Defence Forces was particularly impressive

The out of hours programme was comprehensive and good value. Activities were organised for both weekends and most nights of the course. These included a couple of Irish music nights, orienteering competitions and trips to Kilkenny, Dublin and Glendalough. These trips were not only interesting, but helped the integration process between the different nationalities. We were also lucky to be invited to the Queens Birthday reception in the British Ambassadors residence in Dublin with the opportunity to see the band of the Irish Guards play for the first time in Ireland since 1922. The warmth and friendliness of the Irish people is renowned around the world and after going there I can personally confirm that it's all true. In summary the UNMOSOC course was an interesting and worthwhile experience both professionally and socially.

A CORPS HISTORY

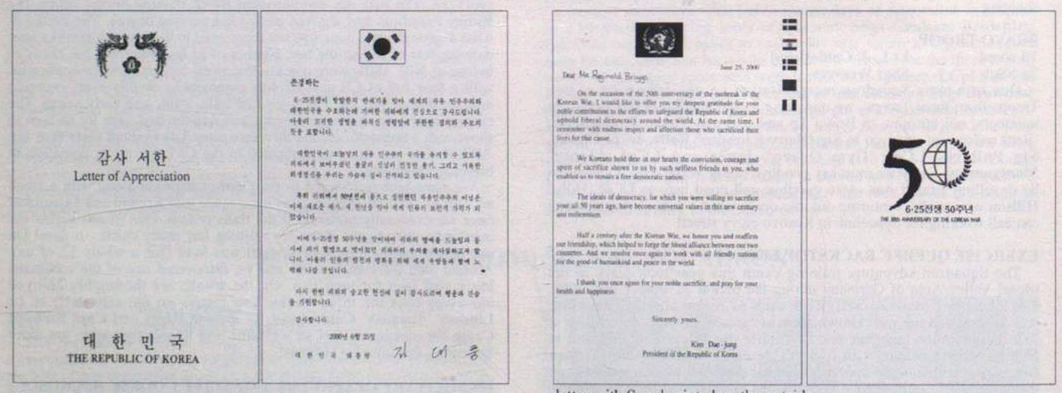
Dr Graham Watson, Historian of the Royal Monmouthshire Royal Engineers (Militia), and Cliff Lord, Historian of the Royal New Zealand Corps of Signals, have teamed up to compile a lineage history of the Royal Corps of Signals. The authors are writing a book, which will provide an historical guide for just about every signal regiment, squadron and troop in existence since 1920. Not only will it include all present-day units but those now no longer in existence. For each unit there will be a list of all changes of title, a narrative of its history, an explanation of its role, information on unit badges and ceremonial links. Appendices will be included and it is hoped awards and senior appointments in the corps will be included as well as equipment lists. At present some units have their own internally produced histories but there has been no Corps-wide attempt to provide a guide since publication of **Maj Gen Nalder's** history in 1958 and then The Vital Link. This project has the active assistance of the Royal Signals Museum.

The authors have been able to gather a great deal of material but have now reached the stage where the remaining gaps in their information can be filled only with the assistance of past and present members of the Corps. While all, and any, extra information would be appreciated, the authors are anxious to hear from anyone with information of the following units.

5th Division HQ & Signal Regiment 1968-71
10th Armoured Division Signal Regiment, Libya 1955-57
22nd Signal Rgiment 1959-1992
Malaya Signal Regiment 1952-54
2nd Training Regiment 1948-59
202 Signal Squadron 1970-76
214 Signal Squadron
217 Signal Squadron
225 Signal Squadron
226 Signal Squadron
245 Signal Squadron
258 Signal Squadron
Signals in Gibraltar, Tripolitania, Cyreaica, Canal Zone, Aden pre 1964, FRA Signal Squadron, Sudan, Ethiopia, East Africa Signals, West Africa Signals, and Persian Gulf from 1948. The later may include any Royal Signals involvement in TOS, Bahrain, UAE, Oman and other Arab Signal Units
Signal Troops attached to Artillery units in BAOR and elsewhere
Units of the Army Emergency Reserve 1953-67
Anti-Aircraft Command 1939-55
Signal training Centres'1939-45
University Signals

If you have any history or information that has been missed before, please send it to the authors for inclusion. This may include details on non-standard dress embellishments and photographs, lists of equipment and awards to Signal personnel, which should be sent to Dr Graham Watson, 34 St Clears Close, Caerphilly, Wales CF83 1DU or email . Contributions will be acknowledged.

KOREA



From: **Reg Briggs**
157 Chaucer Road,
PETERBOROUGH, PE1 3LS

Dear Sir,

May I thank *The WIRE* on behalf of the many Korean Veterans for the articles published this last year.

It is fifty years since the outbreak of that conflict and most of the Veterans are now in their late sixties or older. You can imagine my surprise when the mail arrived, the other morning, and there was a large letter with Seoul printed on the outside.

How very nice to receive this and one has to ask has the British government ever, in the history of the military, sent out a 'Thank You' to its armed servicemen and women.

On a recent visit to Australia my wife **Margaret** and I stopped over in Korea for a week. We were made very welcome everywhere we went

To the President and to the people of the Republic of Korea, Thank You.

Reg Briggs, NAN Troop, attached 28th Field Regiment, Royal engineers, 1951 to 1953.

BACK COVER

The Pipes and Drums of the Royal Corps of Signals, Military Tatoo 2000 courtesy of 32 Signal Regiment (V)

The closing date for copy to REACH this office, in order to go in the February issue is 10 December 2000

FROM THE EDITOR

The Corps Committee has agreed to an increase in the cost of each *WIRE* from £1.50 to £2.00 ie: from £9.00 to £12.00 for a year's subscription in 2001, (see August's *WIRE* page 321). *The WIRE* is subsidised from Corps' funds and this necessary increase is aimed at controlling the level of that subsidy. Those of you who have a Direct Debit will be billed at £12.00 for the 2001 period. Individuals who pay by Bank Standing Orders are asked to inform their bank accordingly. We hope that subscribers will appreciate that this is the first increase for five years.

This issue has been a nightmare to produce with 44.7% of entries arriving after the cut-off date. Our increased use of dtp, which will produce a cost saving in due course is negated if we have to restructure and delay printing to accommodate late entries. Unit *WIRE* reps will soon have sight of my missive to COs/OCs on the subject. You have been warned. MERRY CHRISTMAS!

A CHRISTMAS MESSAGE FROM THE SOinC(A)

All of us know that the Army is based upon teams, whether they be Detachments, Regiments, Divisions or the Corps. Teams are made up of individuals, each with his or her own needs and aspirations, but working within an accepted framework. Our team have, yet again, had an outstanding year on Operations, Training and on the sports field.

Individuals need to feel valued, they need to feel a part of a respected organisation. Sometimes it is difficult to feel valued if living and working conditions are less than they should be, or deployments come thick and fast, but there is no doubt in the minds of our senior commanders that each and every member of the Corps is an essential and valued part of the Army and the Nation's Defence Forces.

I have been fortunate to visit many units this year on Operations, Training and in the barracks. I continue to be enormously impressed and encouraged by the professionalism, enthusiasm, maturity and innovation demonstrated wherever I go. With these qualities in abundance, success for all our teams is assured. At the turn of the year we should all consider the other team which stands behind everyone of us, our family. Be it large or small, with us or apart, it plays a fundamental part in our lives.

LAURETTE AND I WISH YOU ALL
A VERY HAPPY CHRISTMAS
AND A SUCCESSFUL NEW YEAR.

THE MASTER'S CHRISTMAS MESSAGE

As we approach the end of this first year in the new Millennium, I cannot help but get the feeling that the manic intensities which seemed to characterise the last year of the old one, are on the ebb. I am sure that many of you will think, not before time.

Nonetheless, our Corps, probably more than any other British Service organisation, continues to bear much of the brunt as the Army seeks to come to terms with the two challenges dominating its thinking about the future. The first is how it needs to change to best meet the demands of 'expeditionary warfare'. Here the skills, the culture and the exceptional quality of our soldiers have set the Corps out on its own among our Allies in one particular ability, highly prized by commanders: providing the rapid command and control necessary to achieve order out of early chaos. The second challenge, by no means unique to the Services let alone the Corps, is the 'information revolution'. For many this is a problem. For the Corps this is a once in a lifetime opportunity.

In the year 2000 the SOinC and his Staff have made real progress in grasping these challenges. The percentage of the Corps now on operations is down to half what it was a year ago and plans to 'ride the revolution' are well laid. Despite the pressures the Millennium year has been a great one for the wider Corps 'Family'. It continues to grow in strength and influence and to have a lot of fun in the process. Two singular occasions were the Millennial Week at Blandford, re-creating, amongst other things, the past glories of the Morrison Cup,and the hugely successful Corps Weekend that put together the spectacular Princess Royal Day Parade and the Association's Reunion.

So the Corps, including some families hard pressed by frequent separation, has earned a good Christmas and can look forward to the New Year with enthusiasm and confidence and some prospect of greater stability.

FROM ANNIE AND ME
HAVE A VERY HAPPY CHRISTMAS
AND A GREAT NEW YEAR.

A CHRONICLE OF THE SIGNALS (CARY) THEATRE 1945 TO 1973

As many people already know, Nigel Ribchester is compiling a chronicle for the Culture Section of the Museum. It currently contains information on some 169 productions that were performed in the Theatre. This is supported by items in three albums already in the Museum Archives that have been photo copied where necessary. Also by original or photo-copies of programmes; original scripts; original music scores; tape recordings of pantomime music; photographs; posters; magazine articles; news cuttings; and similar memorabilia. These have kindly been donated from their treasures by people who were proud to belong to the Theatre Club, founded by **RTO Cary** in 1945, or had been one of thousands of patrons in the audience. Information has been received from as far away as New Zealand from those who served in Royal Signals, Royal Army Education Corps, The 1st Queens Dragoon Guards and civilians living in the Catterick area. The Chronicle currently comprises five thick volumes and is on Apple Mac back up Zip discs. There is a mass of information about the early years but surprisingly, it tends to tail off in the later years.

As the picture is far from complete **Nigel Ribchester** wishes to make a final appeal to all whom served in Catterick during the years 1945 to 1973 to sift through their memorabilia. He is particularly anxious to fill in missing dates, which were not shown on the programmes of productions known to have taken place in 1950, 51, 52, 53, 54 and 1959. In addition he has no information whatsoever about productions or performances that might have taken place in 1965, 66, 67, 70 and 1971. Apparently the last show was a revue produced by 1st The Queen's Dragoon Guards from 25-27 October 1972.

If you have any original items which you would prefer to keep, please consider making photo copies, or be prepared to send the originals for **Nigel** to copy and return. In any event he would like to speak to anyone who has a story to tell about the Theatre Club, whether it be as an actor, stage crew, front of house, box office or management. Please phone 023 9225 9772 for a chat about your experience, you will be most welcome.

WHO WAS 'JIMMY'

By Col (Retd) Cliff Walters

Or perhaps, more accurately, who was the Greek mythological god HERMES, who we all know as the capbadge of the Corps. You may well be aware that he was a messenger but you may be surprised to find that he was also a thief, lier, cook, musician, arsonist, astronomer and womaniser. Read on.

HERMES was born of ZEUS, the senior god, but whilst still in his cot he decided to run away. He left the cave and came across a tortoise which he promptly killed. He stretched the intestines of lamb across the shell and made the first lyre. He then played it and sang.

He soon grew hungry so he stole five cows from his brother APOLLO. To cover his crime he deceitfully made the cows walk backwards so that APOLLO could not make sense of their tracks. He then invented fire and cooked 2 of the cows and after having eaten his fill he returned to his cave where he categorically denied his crime. ZEUS saw through this but reconciled the brothers. HERMES gave his lyre to APOLLO and in return he received a gold staff or caduceus which became his symbol of office as messenger of ZEUS.

HERMES was the first to observe the stars and understand the seasons. This is why his Latin name was given to the planet MERCURY. But his main capacity was that of messenger. With wings on his sandles and hat he ran faster than the winds and he could also enter the Underworld and converse with the dead. To pass all these messages he was eloquent and very persuasive.

Finally, HERMES was capable of being overcome by irresistable physical passion in pursuit of maidens and nymphs who ran into the caves to hide from him. His list of conquests is extensive and his prodigy include kings, servants, heralds and warriors including those who fought with Jason on the Argo.

Now, who would have thought all that of our beloved JIMMY!!!!!

DATE FOR YOUR DIARY
RACE THE SUN 2001
is planned for

10 MAY 2001

HOW TO COOK A CHRISTMAS TURKEY

1 - Go buy a turkey
2 - Take a drink of whisky (scotch)
3 - Put turkey in the oven
4 - Take another two drinks of whisky
5 - Set the degree at 375 ovens
6 - Take three more whiskys of drink
7 - Turn oven on
8 - Take four whisks of drinky
9 - Turk the bastey
10 - Whisky another bottle of get
11 - Stick a turkey in the thermoneter
12 - Glass yourself a pour of whisky
13 - Bake the whisky for four hours
14 - Oven the take out of the turkey
15 - Take the oven out of the turkey
16 - Floor the turkey up the off pick
17 - Turk the carvey
18 - Get yourself another scottle of botch
19 - Tet the sable and pour yourself a glass of turley
20 - Bless the saying, pass and eat out

THE ROYAL SIGNALS HERITAGE MILLENNIUM LOTTERY DRAW

The Draw for the Museum's Millennium Lottery Draw was made on 15 September 2000 in the presence of the Regimental Colonel, **Col R. M. Crombie**. The winning ticket was picked by **Sig S. S. Fenton** of Iron Troop, 2 Sqn, 11 Signal Regiment. **Sig Fenton** was enjoying one of the Museum Café's bacon butties when he was approached by **Col Crombie** to pick the winning ticket - how could he refuse? The winners are as follows:

1st Prize	- **WO2 K. Tunstall**, 8 Inf Bde HQ & Sig Sqn
2nd Prize	- **Mr R. C. Charlesworth**
3rd Prize	- **Mr M. Bell**
2 x 4th Prizes	- **Mr R. Hunter** and **D. P. Howshall**
4 x 5th Prizes	- **Mrs L. R. Jackson, W. R. Deller, Mrs D. Wildy** and **Mr R. Spencer**
6 x 6th Prizes	- **B. T. Lord, Capt J. Harrington** (currently on his CISM Cse at Blandford), **D. H. Manders, Mr N. Troughton, Mr A. Alexander** and **Mr I. Wotherspoon**

Also witnessing the Draw were **Miss Stella McIntyre** (Museum Curator) and **Mrs Ericka Hunt**.

Many Congratulations to all the winners. We would like to thank everyone who took part in the Draw and made donations to the Museum, which made over £5,000 for the Museum Education project.

Dad's Army.
Mum's Army.
Kid's Army.

We help everyone connected with the Army.

The Army is like an extended family. When necessary, everyone rallies round. However, when the need becomes more specialised and more substantial resources are required, people turn to us.

The Army Benevolent Fund provides support for soldiers, ex-soldiers and their families when they are in need. But to continue our support, we need yours.

By making a donation or leaving a legacy you'll be providing the 'reinforcements' our soldiers rely on.

Please give generously.

THE ROYAL SIGNALS BENEVOLENT FUND

(Registereed Charity No 284923)
and
THE ROYAL SIGNALS MUSEUM TRUST

(Registered Charity No 1070420)

Since 6 April 2000, Deeds of Covenant have been replaced by Gift Aid as a means of giving to Charity.

* If you are a UK Taxpayer, you can make a Gift Aid Declaration when you make a donation to Charity. By using such a declaration, the receiving Charity can reclaim any tax you have paid on your donation. This will give the Benevolent Fund or the Museum trust an extra 28p for every £1 donated.

* Gift Aid Declarations may be written or given orally over the telephone.

* If your circumstances change and you no longer pay tax on your income at least equal in amount to the tax that the Charity reclaims, you should cancel your declaration.

* You can cancel the declaration at any time simply by notifying us that you wish to do so. If an oral declaration is cancelled within 30 days from the date on which written confirmation is sent, it will be as if the oral declaration has never been made.

* If you are a higher rate taxpayer, you can claim further tax relief in your Self Assessment Tax Return.

* The Gift Aid Scheme is explained by the Inland revenue leaflet 1R 113 Gift Aid which may be obtained from your local tax office.

* If you are unsure whether or not your donation qualifies for Gift Aid tax relief please contact the Regimental Headquarters on 01258 482087.

WANTED!

The Best Radio Sys Ops in the Corps

If you:

Rate yourself as a good operator,
Are adaptable and versatile,
Able to work on your own or in a small team,
Enjoy a challenge and
Enjoy foreign travel (often outside Europe),

Then Special Communications may be for you.

The next Spec Comms Assessment Course will be held in February 2001.
Those candidates assessed as suitable will be invited back for Special Communications Course 1/01, from April to July 2001.

Apply now, using the form in SOinC PD 206, available through your Sqn Office or YofS.

For additional information, contact the
1 (RBY) Sig Sqn (SC) Training Wing on
(9)4240 8518 / 01908 638518
or the Sqn YofS on
(9)4240 8516 / 01908 638516

WANTED

A STATUETTE OF 'JIMMY' SUITABLE FOR GARDEN USE.
HEIGHT APPROXIMATELY 3ft

Please contact **Mrs Edna Pritchard** (widow of **Ronald T. Pritchard**) on Coventry 024 76412273)

CAYTHORPE 2000

Maj I. Hooper and SSgt (YofS) Wilson

On 2-3 September Airborne Signals past and present made their annual pilgrimage to Caythorpe in Lincolnshire. The links between Caythorpe village and Royal Signals started late in 1943 when 1st Airborne Division Signals returned from Africa and were billeted in Caythorpe village and in Caythorpe Court prior to Op Market Garden. Close links were forged with the village, and Arnhem Sunday has been celebrated at Caythorpe by the Old Comrades Association (OCA) ever since, and since 1984 by 216 Sig Sqn. This year's event was also significant as the first Caythorpe weekend to be hosted by 16 Air Asslt Bde Sig Sqn (216), a year to the day that the Brigade was launched.

Sadly even the best efforts of **Rev Brian Lucas** failed to produce parachuting weather; the strong winds and elements kept up their bid to remove the tents from the village green all day but failed to dampen the enthusiasm of the Squadron or the locals for the village fete. The parachute insertion was not the only part of the plan to go awry. The Squadron football team went down 2-4 to Caythorpe Village and rumours abound that the entire squadron team is on a 12-Month Warning Order with a show again in September 2001.

The Falkland Stone

The main event of the morning was the re-dedication of the Falkland Stone by **Brig Peter Wall**, Commander 16 Air Asslt Bde. The granite obelisk was brought from the Falklands to commemorate the deaths in 1982 of **Maj Forge** and **SSgt John Baker**, killed when their Scout helicopter was shot down en route to re-supply a Squadron rebroadcast station. Until last year the stone stood outside 216 Sig Sqn HQ at Arnhem Barracks, Aldershot, and after a brief rest in Colchester it was placed by the Squadron at Caythorpe Church late in August this year.

Brig Peter Wall re-dedicates the Falkland Stone with Piper LCpl Narendra-Gurung

Saturday night saw some 120 members of the OCA, the Squadron and their families gather for the annual dinner. After the dinner the OC Squadron, **Maj Ivan Hooper**, spoke about the continued importance of the OCA and the Caythorpe weekend to a Brigade Signal Squadron that is 'forward looking but proud of its links with its forebearers'. **Maj Lewis Golden** then spoke movingly about the pilgrimage to Arnhem last year, the 55th Anniversary of Op Market Garden, paying particular tribute to the OCA President, **Maj Gen Dean-Drummond**, and also spoke of the gratitude of the OCA for the support from the Squadron.

The SOinC and the OCA President, Maj Gen Dean-Drummond

Toasts were drunk to '16 Air Assault Brigade' and 'Airborne Signals past and present'. Pipers, **LCpl Narendra-Gurung** and **Sig Bharatmani-Limbu** from 250 Sqn, 30th Sig Regt added great atmosphere to the occasion (and were also on hand to rouse the sleeping forms of airborne signallers past and present with reveille on Sunday morning). As the dinner concluded many decamped to the village and to the Waggon and Horses where the activities was continued until the early hours. Many friendships were renewed, and new ones forged as the serving members of the Squadron listened in awe to the exploits of those airborne signallers who had fought in Italy, North Africa, Sicily, Arnhem and Norway. It was tremendous to see past members of 216 Sig Sqn spanning several generations; names which are part of the fabric of the Squadron's histrory, including: **Bill Creswick, Lewis Golden, Dick Appleton, Mike Ham, Johnny Firkins, Dougie Alder, John Aspinall, Ralph Porter, Steve Marshall and Willy Granitza.**

Airborne Signals Past and Present

Sunday morning saw the traditional march past through Caythorpe village by the Squadron and the OCA. The OCA President and the Signal Officer in Chief took the salute. During the church service the names were read of those members of the Royal Signals who died at Arnhem, and wreaths were laid by the OC Squadron and **Mr Dick Appleton**. The exact format of next year's Caythorpe weekend has yet to be decided. The OCA had intended this to be the final dinner, but such was the enthusiasm for the event that this decision will be reviewed by the OCA in February. What is certain is that 16 Air Asst Bde Sig Sqn (216) will return to Caythorpe village next year to meet old friends and to pay our respects to our forebearers; a remarkable group of airborne signallers.

The OCA March Past

GENESIS CONSULTANCY
Providing Recruitment Solutions

TECHNICIANS, OPERATORS AND TELEMECHS REQUIRED

Genesis Consultancy specialise in placing ex-Corps members of all ranks and trades with the telecomms industry nationwide.

A wide variety of opportunities currently exist for Class 2 and Class 1 Techs, Operators and Telemechs as well as Foreman of Signals and Yeoman of Signals of all ranks who have decided to leave the Corps.

In addition to immediate requirements, we have medium and long-term requirements from our clients and can assist in all matters concerning these opportunities throughout the period running up to the date of discharge.

If you have decided to leave the Corps call us today or forward a detailed C.V.

Genesis Consultancy Ltd.

THE ROYAL SIGNALS BAND

During the last ten months, since the arrival of the new Director of Music, **Capt Paul Murrell**, the Band have been rehearsing, not only for engagements this year, but for a busy programme next year. This has meant a more intense rehearsal schedule and a more varied approach to the way we perform.

Our first programme this year was at the Poole Arts Centre with the Dorset Youth Wind Orchestra. The Band was enhanced by seventy 14-18 year olds for an evening which was also graced by our own Pipes and Drums. The proceeds were donated to the Joseph Weld Hospice and the Museum Educational Trust. Shortly after this we travelled to Cornwall to appear on the Bandstand at the Royal Cornwall Show, Wadebridge. This entailed three long hot days of concerts and arena marching displays – flying the Royal Signals flag – and avoiding the cowpats. We also managed to fit in open days at 3 UK Div and 14 Sig Regt and an evening marching display/retreat at Warminster for the Kent Cadet Force who were on summer camp.

If you missed Songs of Praise on 13th of August, then you will have also missed us. A whole Sunday was spent on the 9th of July recording this event along with **Alan Titchmarsh**. The previous day had been spent entertaining the public at Hamble Village and at Warsash as part of Solent Celebration 2000. This culminated in the Band being put onto a pontoon in the middle of the river and playing the evening to a close, without life jackets. The second trip to the area was made to front the Lord Mayor's Procession through the city of Portsmouth starting at the Guild Hall and ending on Southsea Common. This annual event is watched by thousands who line the route and consists of hundreds of floats and other marching organisations. On a more military line the Band have played at Pass Off Parades at both ATR Bassingborn and Lichfield, taken part in the massed band's spectacular at Tidworth, the Korean Veteran's Parade on the sea front at Weymouth and numerous mess nights around the Corps.

This year has also seen the arrival of the Big Band who have now performed on several occasions. The first of these was in the Crown Hotel, Blandford to a packed house raising money for local charities. Subsequent appearances have been at an Army Benevolent Concert at Canford School, Wimborne and the Concert Halle, Bad Salzuflen during our UKSC (G) tour in September. It is hoped to feature the Big Band in our new CD recording which will begin early next year.

We would like to take this opportunity to thank 7 and 16 Sig Regt and 1 (UK) Div for hosting us whilst in Germany this year, these tours seem to pass so quickly these days compared to years gone by. We would also like to wish a happy retirement to **Lt Col (Retd)** 'Guss' **Gurr** HQ 1 Sig Bde who has looked after us during many of these tours. We understand the house in France can accommodate quite a few – see you soon!! A fond farewell also has to be said to **Col R. M. Crombie**, Regimental Colonel and Band President.

The Director of Music (R) presents Col Crombie (L) with a framed copy of the Fanfare in the Band Bar 'Jimmy' by Musn Dave Byrne

On his departure from Blandford he was presented with a framed copy of his very own Fanfare, written by the Bandmaster **WO1 Bill Booth** and played to him on his final visit to the Band Block by the Fanfare Team, dressed slightly less formally than usual.

The Royal Signals Fanfare Team – Alternative Dress play Col Crombie's Fanfare

As a final note it is worth mentioning that this year the Corps Band celebrate their 80th Anniversary. This occasion will be formally celebrated at a dinner, in Blandford, at the end of the year, and attended by all the current serving members of the Band and the new Band President, **Col R. N. Donaldson** and his wife.

LIFE AS THE CORPS' BAND ADMIN OFFICER

When I was asked to write an article about my job as the Corps Band Admin Officer I thought long and hard about the way in which I should approach it. After much deliberation and note making I decided it was not a good idea to go into too much detail as someone out there reading this article may think I'm having too much fun and transfer me to a proper job! So leaving out all the parties and naked midnight swims in Cyprus (names and numbers supplied) here is my brief account of my first six years in the post.

Alison Yetman - Band Admin Officer
'The answer is no. Now what's the question?'

When it was suggested to me by my Civil Admin Officer at RM Poole that my post may not exist after the Defence Housing Executive took over Married Quarters control in 1994 my first reaction was, 'B****r, I should have applied for the advertised post with the Band at Bovington.' Enquiries were made to find if there was still a vacancy and there was but with the Band at Blandford. Phone calls were made and an interview arranged with the then Director of Music, **Maj D. F. Wall** and it was on a grey day in December 1994 that I got my first visit to Blandford Garrison and the Band Block. I must say that first impressions were encouraging, plenty of room to park, beautiful green rolling countryside and a pleasant drive in from Poole. It wasn't to last. When I came back in January of the following year to take up my post, work had begun to dig up the old Stanley Square to build the new cookhouse and surrounding single accommodation blocks. For the next two years we lived in the middle of a building site and more often than not came to work in wellies.

I had a preconception that working with a military band would be interesting but nothing prepared me for what I was to experience. Until that day, I, like many other people had seen Trooping the Colour, the Cenotaph, the Royal Tournament, Changing the Guard at Buckingham Palace and the playing of Happy Birthday to The Queen Mother as an annual National event you take for granted. I was now working directly with the musicians who took part in these and working behind the scenes in support. Since 1995 the Corps Band have been to Northern Ireland, Germany, Cyprus, Canada, America, Sweden, France, Bosnia, Gibraltar, Public Duties and Duty Band at Sandhurst. They don't always remember to send me a postcard but when the hosting units thank you letters, PR photos and press cuttings start arriving post tour it is very gratifying to read how much people enjoyed hearing and seeing the Band.

Enquiries come in on a daily basis from outside agencies and Signals Units world wide, wishing to employ the Band and I have made many friends over the years. When employed by charities and other organisations I often receive invitations to attend their functions. This is not always possible due to the nature of my job but I always enjoy seeing the outcome of weeks of preparation. The Band do not always understand why I bother but I find it satisfying to see an audience enjoy a concert, marching display or retreat and know I've helped to organise it.

There are currently 32 Regular Army Bands, 17 of them have AO's working with them either full or part time and I have at some time or other met or spoken to all of them. One or two are ex-band members who have taken up the civilian posts at the end of their Army careers the others are clerks or music librarians who have come from admin backgrounds. Many find it amazing at the amount of involvement I have with the band on both a work and social level. If I had to sit down and design my perfect job I would never have come up with this. OK it's not all good – when we have bad days they are bad, but the job is made by the people I work with and they aren't all that bad !!

The White Helmets

OC RSMDT **Lt Col Jack Amberton**
Team Capt **Capt Kyra McAnulty**
Team SNCO **SSgt Paul Boughey**

TEAM OVERVIEW – *by Capt K. H. McAnulty*

Since potential 'luvvy' **Capt** 'Gordy Babes' **Newell's** departure the Team has been orchestrated by the very capable team Staff Sergeant, **SSgt Paul Boughey,** through what has been a very busy if somewhat accident prone show season. The teams' outstanding performance was in no small part due to the soldiers' fine personal attributes and the dedication of each team member.

I have finally arrived and will be taking over the reins as Team Captain, an appointment I am thrilled to be taking up. Unusually, for the team I am actually a motorcyclist and I hold a road license - so it is over to the team to teach me how to really ride. Any preconceived ideas that I would be arriving in the quieter post show season period have been dispelled. We are now starting to prepare for 2001. This entails setting up a Team recruiting campaign spreading the length and breadth of England, Wales and Germany, in search of volunteers to come along and join the team. It also involves planning for and running the selection course (in which I will also be a participant); and then training the new Team in preparation for the opening show (20th April 2001). It seems easy if you say it quickly but with all the other operational pressures on in the Corps it is not! We remain optimistic though.....

In addition to the departure of **Capt Newell**, we are saying farewell to **Cpls** 'Wayne Sleep' **Malin, Bob** 'Funky Monk' **Sizeland, John** 'Mad Dog' **Strachan** and **LCpl** 'Rat Boy Scouse' **O'Leary** after three years with the team. Congratulations to **Sgt Chris** 'Smithers' **Hunt** on his promotion, **LCpl Ed** 'Rooster' **Lewis** on passing his Class 1 and on scoring Top Student. Also congratulations go to **LCpl Mal** 'Bambi' **Hildreth** on his marriage to **Claire, LCpl Tony** 'Eye Wash' **Annetts** on his marriage to **Donna** and **LCpl** 'Franky Le Beouf' **Fitzpatrick** on his imminent wedding to **Lisa**. Finally, congratulations to **LCpl Gary** 'Little Man' **Fisher** and his partner **Lisa** on the birth of their daughter **Talitha Skye.**

MILLENNIUM SHOW SEASON - *by the first year riders!*

After successful completion of the February Selection Course I made my way with the Team to RAF Sealand for four weeks of pre-show training. This was to allow all the first year riders to get to grips with the most basic tricks of the display, mission accomplished with some brilliant fun and a few bruises thrown in. With the foundations of the display laid at Sealand the Team then returned to the 'Unique Georgian Town' of Blandford to add the finishing touches to the tricks prior to the opening show. Everything was going to plan until 1 week before the show. During 'Charlie's Diamond' we had a smash leaving four bikes and their riders namely **Cpl Bob Sizeland**, **LCpl** 'Fozzy' **Forster, LCpl Tony Annetts** and **LCpl** 'Mal' **Hildreth**, scattered over the arena. **LCpl** 'Tonka' **Richardson, LCpl** 'Fozzy' **Forster, LCpl** 'Mal' **Hildreth** and **LCpl Fullerton** were obviously chuffed - not! They had the task of getting the bikes up and running again.

After a lot of cursing and scraped knuckles the hardworking mechanics had the bikes ready for the opening show. Unfortunately whilst collapsing the six bike fan a few weeks before the opening show **Cpl** (now Sgt) **Hunt** landed badly and damaged his foot quite badly. As a very capable rider he had been planned into a number of tricks, including the car jump, so a lot had to be changed and replacements found ASAP, step up **LCpl** 'Fitz' **Fitzpatrick**. The opening show saw **SSgt Paul Boughey** at the helm, and everything went brilliantly. The first year riders were presented with their well earned White Helmets and **Cpl Chris Hunt** was awarded

the highly coveted Lucas Trophy for the Best New Comer.

On to our first civilian orientated public performance, the Leicester Show, and then the ball was rolling. The highlight of the show season for me this year was in Belfast at the Royal Balmoral Show. Due to the political situation it was obvious that we were initially nervous but our minds were put at rest by the escort from the 7 Royal Irish boys who followed us everywhere we went. Chatham saw the first visit of the season to Kent for Chatham Navy Days. The stray wadding from a field gun demonstration prematurely set off the fire frame and sent team members on the bus sprinting to put it out. One of the best show-grounds of the season was the Suffolk Show in Ipswich. The bright sunshine was a far cry from the downpour on the last show at Chatham. Even the food was exemplary which makes a fine change. To top it off **LCpl** 'Duncy Monkey' **Marsh** found his future wife in new love **Janey**! In June we travelled north of the border to the Bathgate Festival in West Lothian. We arrived to find the show-ground practically deserted apart from the food stands and traders. Eventually to the sound of bagpipes, like children following the Pied Piper, the crowds came. 3 Div Beating the Retreat at Tidworth was another fabulous show of a very important military nature which entailed entertaining some of the highest ranks in the Army and local dignitaries.

On the recruiting side of life, a trip to Catterick and the Army Schools Exhibition saw us perform six shows over three days. Many youngsters were interested in the Team and in the Royal Signals itself. At one of the shows **LCpl** 'Scouse (I can jump the world)' (just!) **O' Leary** spectacularly jumped over a Military Police car, an Arctic Tracked Vehicle and finally the team car and without leaving tyre marks on the roof. The annual RSA weekend took place on 24 June and meant another performance on our home arena at Blandford. The weekend was a great reunion for all ex-service men and especially ex-White Helmets to tell a few stories to the present team members, a lot of lamps were swung! Monster Trucks were the order of the day as the team rocked up to Bath Truckfest. We shared the show with many famous stars including **Tracy Shaw** from Coronation Street and **Ricky Tomlinson** from The Royle Family. During the last display **Sig Paul** 'Stan the Man' **Bowes** caught a flame slap to the face from the fire jump which resulted in a rather rouge (burnt) face, (Aaawww). At Northampton Town Show we were exceptionally well looked after. On the first night we were entertained by Republica live in a open air concert which resulted in many members of the team camping at the show-ground. Some team members including **LCpl Tony** 'Jawbone' **Annetts, LCpl Ed** 'Have you seen my new Tatoo' **Lewis** and **Sig Paul** 'The Ears' **Bowes** got to ride around the arena on some Lambretta scooters. The second night's entertainment came in the form of Spandau Ballet minus the Kemps. After a couple of pints of 'sui-cider' many people including **LCpl** 'Scotty (Roman Nose)' **Eccott, Sig Matt** 'Iv'e got a Lizard' **Scott** and **LCpl Keith** 'Stretch' **Hodgson** not only woke up with a hangover but also had a petrol head from a hot night in the boudoir?

August took the Team to Bolton and brought an unexpected twist in the accommodation. Instead of staying in a camp we found ourselves in heaven enjoying the treatment of the Park Hall Hotel at the Camelot Theme Park. On the way to the first show tempers frayed slightly when an out of control enraged car driver cut up the coach as we were about to enter the show-ground. The driver of the car and his passenger were insensed by the incident but soon backed down by the sight of 30 team members peering down on them from the coach. Fortunately for them **Cpl Bob** ' I'm green and keen again' **Sizeland** calmed them down with his smooth talking. One of the last and favourite shows for the team is the South West Motorcycle Expo held on Blandford Camp airfield in September. Other stars included The Tigers - a children's Motorcycle Display Team, Jimmy Fireblade, Jumping Jake Semtex and last but not least World Record Breaker Gary Rothwell. The team finished the season on a high on a wonderfully hot day to their home crowd, only made hotter when **LCpl** 'My foots on fire' **Annetts** decided to set fire to his foot whilst lighting the fire sticks for the jump.

THE MAN FROM MANNING AND CAREER MANAGEMENT DIVISION

Maj S. G. Hutchinson MBE

After a very quiet summer the pace of life here in Glasgow has started to quicken. With everybody back from leave our attentions have now turned towards some key policy issues such as, the introduction of the RCMO concept, changes to the Officers CR system and the requirement to confirm Residual Service for promotion. We have also entered the promotion board season that inevitably leads to frantic activity at desk level. Looking ahead the remainder of the year will see the Division embarking on a series of road-shows which gives us the opportunity of highlighting key policy changes and issues that affect us all. It will, however, also give you the opportunity to raise issues with us whether they are personal or wide-ranging. **Capt Shane Knight** arrived from DISI during the summer and is now firmly in the C Wing 'hot seat'. On a sad note our Staff Assistant, **WO2 (SQMS) Myles,** will leave the Army in November to be replaced by **WO2 (SQMS) Scott**.

(We have had a different focus for each edition and this time, scraping the barrel, we turn to Officer Wing.)

FOCUS ON OFFICER WING

SO1 Officers - **Lt Col Steve Richardson** is responsible for the posting and career management of all Regular Majors and Lieutenant Colonels. Lucky enough to have his own office alongside the Col MCM Div, **Lt Col Richardson** also fondly imagines that he is the focal point for all R SIGNALS Officer policy issues. Having his own office has distinct advantages, one of the principle ones being that he can spread his Daily Telegraph across the desk without getting in anybody else's way. He believes, quite wrongly, that he is the most important person in the Officer Wing.

AO SO1 Officers - George Walker is the SO1's right hand man and a key member of the Officers' Team. Responsible for providing support to the SO1, **George** is renowned for his love of Guinness and has been known to travel the length and breadth of Britain to find that 'perfect pint'. He doesn't care who the most important person in the Officer Wing is, as long as they're buying the next round.

SO1 LE Officers - Lt Col Dave Lumb is responsible for all Late Entry Officers and is instrumental in co-ordinating and implementing commissioning policy. A keen golfer, **Lt Col Lumb** has built up a considerable understanding of the fairways and greens in the Glasgow environs. His personal crusade is to remind Mainstream Officers several times a day what they have forgotten to do for him. He is quite sure that he is the most important person in the Officer Wing.

AO SO1 LE Officers- Linda McNeil is the quietly efficient one who beavers away behind the scenes in the Late Entry Section. The resident 'Who Wants to be a Millionaire' expert, **Linda** is a dab hand at quizzes and general knowledge, that's when you can get her off the Internet. She is also a massive sci-fi fan who loves the 'dark side' that comes in useful when dealing with most Quartermasters. She agrees that **Lt Col Lumb** considers himself the most important person in the Officer Wing but her opinion diverges sharply after that.

SO2 Officers - Maj Steve Turnbull is responsible for the postings and career management of Captains and Lieutenants. An ex Royal Marine **Maj Turnbull** is very much at the forefront of 'Young Officer' business even if he does spend the majority of his lunch breaks pampering himself in the local health spa. He knows that he is the most important person in the Officer Wing but doesn't want to upset the SO1s by saying so.

AO SO2 Officers - Liz 'Biggles' **Robinson** is the SO2 Officers' partner in crime. Ex-RAF, **Liz** has brought a new dimension to flying a desk and although being the new girl on the block has yet to confuse a Pilot Officer with a Second Lieutenant. **Liz** is fairly sure that there isn't anyone important in the Officer Wing.

CONFIDENTIAL REPORTS

Following on from the summer edition of *The WIRE* we agreed to give you some helpful tips with respect to Confidential Report writing. Whilst the forms for both Officers and Soldiers Confidential Reports are different the principles for their completion and submission remain the same. Here are some tips that you may find useful:

The Military Secretary's Guide to both Soldiers and Officers Confidential Reports is the bible with respect to Confidential Report writing. Indeed it is essential to read the respective guide prior to completing and submitting a Confidential Report.

Personal details on the front covers must be correct as time is needlessly wasted returning Confidential Reports.

The assessment of characteristics must match the pen picture as all too often the boxes are marked excellent yet the pen picture is distinctly mediocre.

The pen picture must be factually correct although subjective comment is allowed as the Reporting Officer is merely stating his opinion.

Be honest in your assessment of an individual and make sure that a Mid-Term Appraisal is conducted and recorded, regardless of rank or seniority.

You must ensure that Confidential Reports, of whatever nature, are submitted on time. The impact of a report failing to reach us in time could prevent that soldier or Officer from appearing before a Promotion Board, the net result being that his/her career could be severely affected. The golden rule is 'GET THEM IN ON TIME'.

If unsure please do not be afraid to seek advice.

NEXT EDITION

In our submission to *The WIRE* we will have a look at the hub of the Division, Central Support, featuring yours truly, together with a brief insight into the Redress Procedure.

HELP !!!!!!! HELP !!!!!!!! HELP !!!!!!!

Are you sitting there reading this and thinking that you would like to do something a bit different, perhaps something out of the ordinary involving challenges, travel and communication. Have you ever considered being a Special Recruiter or member of the R SIGNALS Mobile Presentation Team. If you have, but have not known how to go about it then contact your Admin Office or speak to your 'boss', there are opportunities out there!

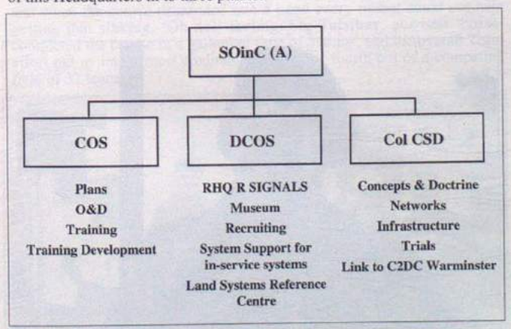
NEWS FROM HEADQUARTERS

HEADQUARTERS SIGNAL OFFICER IN CHIEF (ARMY)

NEWS FROM THE HEADQUARTERS
SIGNAL OFFICER IN CHIEF (ARMY)
THE COMMAND SUPPORT DEVELOPMENT CENTRE

The change in title of this Headquarters will have been noted straight away by those of you reading this article. It stems from one of the two parallel initiatives that are now beginning to bear fruit. The first of these is the General Staff Review, which formally recognised SOinC(A)'s position as the proponent for the delivery of all mobile and deployable information services. The establishment of a Command Development Centre (CDC) in support of Digitization, is the second major initiative. This has led to the regrouping of a variety of assets already within Blandford, including HQ and RHQ R SIGNALS, ACISSG, BDMT and the imminent reorganisation of this Headquarters in to three pillars:



THE ROLE OF THE COMMAND DEVELOPMENT CENTRE IS:

'to provide a focus for developing C2 and Command Support capability for Land Component operations in the context of Joint and Multinational forces'

The CDC consists of two elements, the first of which is the Command and Control Development Centre, which is to be based at Warminster alongside the Combined Arms Training Centre. This will identify C2 needs and develop appropriate principles, procedures and requirements. It is supported by a staff designed to form a skeleton representation of battlegroup and brigade staffs so that these new tactics, techniques and procedures can be developed and trialled at capacity, using the CATC OPFOR battlegroup as they approach maturity.

The second element is the Command Support Development (CSD) Centre, based in Blandford and is the third pillar of SOinC(A)'s organisation shown above. Its role is to develop coherent Command Support solutions to underpin the C2 process, ensuring that the operational benefits of digitization are fully realised. In essence, in addition to the trials function, the tasks of the CSDC will be divided into three:

Concepts and Doctrine - responsible for ensuring that future systems meet the requirements of current and emerging doctrine, ie that they are designed to be capable of supporting the needs of future commanders.

Networks - responsible for the Communications backbone - 'the pipes'.

Infrastructure - responsible for systems architecture which facilitates the flow of data - 'the projectiles'.

Applications - To complete the picture, there will be a close working relationship with DCIS(A)'s collocated Applications Staff, who are responsible for applications coherence and extracting the information from the data - 'the payload'.

Trials - In support of the Equipment Programme, the CSDC will also participate in the evaluation of technologies, the trial of concepts and the assessment of industry solutions.

There will be a series of vital working relationships with other organisations, some of which have already been referred to, including:

DGD&D - for conceptual and doctrinal Command Support issues.

DEC (CCII)'s Integrated Project Teams - notably BOWMAN and FALCON.

DCIS(A) - for applications coherence issues.

C2DC Warminster.

The process will be 'owned' by ACGS in his role as the Army's Chief Information Officer and overseen by the Future Army Command and Control Steering Group. A limited CDC capability already exists in both Warminster and Blandford, although the formal Initial Operating Capability is due to come on line in December. The physical reorganisation of the existing staffs will have taken place in early December, and we will issue a revised contact list in the next issue of *'The WIRE'*.

FRAMEWORK FOR C4I ENDURANCE ON EXPEDITIONARY OPERATIONS

The Army Digitisation Steering Group has recently endorsed a paper on a Framework for C4I Endurance on Expeditionary Operations, to ensure that, in future, the required resources are identified at the earliest stages of planning. Also that overall cost estimates are informed, and clearly identified staffing solutions are established to enable CIS to sustain simultaneous operations without causing over stretch. The paper discussed:

–The commercial options available to replace military CIS to suit a variety of circumstances. Commercialisation is the replacement of mobile military infrastructure with its commercial counterpart but maintained and managed by military personnel. Contractorisation for the provision of CIS services requires no military manning to operate or maintain services but will have some management overheads. Variations include military ownership of commercially leased solutions or the use of Sponsored Reserves; where the supply of

equipment is linked to the provision of contracted personnel willing to serve on operations.

– The significant demands expeditionary operations place on mobile military CIS infrastructure. Within the Land component in particular this includes significant amounts of skilled manpower and equipment. The current Defence Planning Assumptions require CIS capability to support a number of concurrent options. Operations over the last 20 years often left a substantial C4I commitment in place long after the peak intensity of operations. It is therefore imperative that our ability to regenerate the CIS force is as efficient as possible and that the replacement for the deployable and mobile military CIS infrastructure is an appropriate alternative to produce an enduring solution with minimum manpower implications.

– The requirement for planning to support the regeneration of the mobile CIS force to be conducted from the outset of any operation. Furthermore, the extent to which existing in-theatre infrastructure may be required throughout the operation must also be a key factor in establishing targeting policy and plans. Such planning requires wide involvement including Director Military Operations, Permanent Joint HQ and Defence Communications Services Agency. The replacement of mobile military infrastructure by commercial or contractor-based solutions depends upon the clear articulation of the requirement and its translation into the key features of a technical solution. This will require appropriately trained specialist personnel to deploy early. Establishing the funding for the provision of alternatives to mobile military infrastructure has always proved problematic. The operational estimate should establish the extent to which the replacement of military mobile infrastructure is to be replaced to meet both operational sustainability criteria and force regeneration aims. The unique nature of the provision of commercialised infrastructure to replace mobile military infrastructure should be recognised through adaptation of procurement procedures to enable the inclusion of training and long term support costs.

Further work at the joint level will use this endorsed approach to improve the planning process in conjunction with Director Military Operations, the Permanent Joint HQ and the Defence Communications Services Agency; establish a CIS intelligence focus; deliver a specialist team capability; establish sources of funding; identify modifications to procurement process to better support CIS; and examine the use of Sponsored Reserves.

ROYAL SIGNALS ON ASCENSION ISLAND
by Lt Col W. E. Brewin

Whilst taking part in a recent JFHQ Exercise in the South Atlantic, I took the opportunity to visit the 16 Sig Regt and 81 Sig Sqn (V) detachments who are currently carrying out a line project at the RAF Station on Ascension Island. The 16 Sig Regt personnel are on 4-month Roulement Tours and the 81 Sig Sqn boys were on a 2-week attachment.

Sgt Ali Watkins and LCpl Pete Frazer (16 Sig Regt)
Sgt Malc 'Idon't get seasick' Penn, LCpl Dave Pye and
Sig Haydon Hasch (81 Sig Sqn)

and Sig 'Luton' O'Connor is behind the camera

NEWS OF TRAINING

11 SIGNAL REGIMENT

FAREWELL TO THE COMMANDER

On Friday 6 October the Commander of the Royal School of Signals, **Col Ken Hadfield** conducted his farewell visit to 11 Signal Regiment. The RSS and 11 Sig Regt are, by the very nature of the organization at Blandford very closely linked and this relationship has become ever stronger during **Col Hadfield's** tenure as Commander. The visit followed the usual format of 'round the houses', as the Commmander visited the various Squadrons and Departments. He was particularly keen to speak to the JNCO's in each of the Troops and enjoyed the usual banter when he found himself in Rhino Tp with the incorrigible **Cpl Gilman**!

Then came the surprise. The Commander was taken to the Blandford Camp Clay Ground where the Cadre of 11 Sig Regt met him. He was then invited to form a team of eight shooters from the Cadre who would shoot against a side made up of Phase 2 Trainees.

Col Hadfield presenting a medal to Sig Fitzpatrick,
one of the winning Trainee Team

The CO, Lt Col R. G. Nicholson
'Which end do I hold this?'

The shoot was conducted over two stands as individuals, followed by groups of four guns all firing at the same time at a flush of 40 driven clays. In-spite of the Commander's best efforts (he shot 14/20 on the individual stands and 8/10 on his part of the flush stand) he was let down – for the first time in his tour – by the 11 Sig Regt Cadre as the trainees won by two clays. The fact that they had spent the previous day practicing might have helped! The shoot was followed by lunch in the field as the GCWO, **WO1 Thorn**, treated everyone there to curry, followed by cheese and biscuits. The CO, **Lt Col R. G. Nicholson**, had one or two more surprises up his sleeve.

As the Commander began to take his leave there was the roar of motorbikes. As a former OC of the White Helmets, he would be driven off on the back of one of the team's new Triumphs. Not only that but a former member of the team during his time **Ex-Sgt Dave Burgess** was to ride him away. Now serving as a member of the MPGS at HQ Land, **Sgt Burgess** jumped at the chance to get on a Triumph again. With an outrider either side he made a rather bumpy and wobbly exit. The Commander leaves for service in Brussels with HQ NATO and is wished good luck and farewell by all members of 11 Sig Regt.

Col Hadfield departing 11 Sig Regt for the last time

2000 HORSELESS EVENT - *by Signaller Grieves 3 Sqn*

On Sunday, 1 October, a team of soldiers from the Royal Signals participated in the year 2000 Horseless Team event. This consisted of a mass start of some 200 people racing, on foot, over two laps of the 4.5-mile cross-country course. The course, itself, consisted of numerous obstacles such as knee high log jumps, stacked hay bales, steep slopes and when the course descended into a pond every runner could not help getting that sinking, 'Oh no!' feeling. **Sig Tulsibar**, our best 'horse' completed the course in a galloping time of 59mins, and the overall Team effort put us into a most creditable position of fourth out of a competing field of 32 teams.

The Team with Simon Weston

After the event the 3 Squadron Team had a chance to relax and gain some refreshments. The Team also met **Simon Weston** an ex Welsh guardsman, who was the event organiser. **Simon's** charity event organising reputation is extensive and he was there throughout the event.

EXERCISE HARROGATE HIKE

Ex Harrogate Hike was a HF Comms Ex in support of the Hardy Hike organised by The Dorset Wildlife Trust. The original idea to support the Trust came from a chat between **SSgt** 'Chippy' **Chapman**, **Cpl** 'Drew' **Mechen** and **Alice Dearing** and **Harvey Davies**, of the Dorset Wildlife Trust, some months ago. 3 Sqn have young willing soldiers that help the Trust with conservation, scrub clearance and other tasks on a regular basis. There were 12 young soldiers and four technician up-graders from 3 Sqn who deployed on the Saturday afternoon to test the radios. The weather was fine and everyone was looking forward to the following day. The radio testing went well and all was set for an early start as the first walkers away were at 0600hrs.

SSgt 'Chippy' **Chapman** called reveille at 0500hrs (**Cpl** 'Drew' **Mechen** getting up at half past) and the day had begun with drizzle, horizontal rain and fog. The lads were deployed to the start at a windy Chesil Beach and other checkpoints around the damp and dreary West Dorset countryside. After a slight location puzzlement the walkers finally arrived at the start along with two teams from 3 Sqn headed up by **Cpl** 'Harry' **Cross**, Royal Anglians. The small car park at Chesil Beach was like a bee's nest buzzing with enthusiastic drenched walkers of all ages raring to go. They set off at 0645hrs with 25 miles up and down hills and through a bull infested field to walk. **Cpl** 'Nige' **Rogan** and the lads with the radio at the start-point followed on behind to give support and encouragement.

The day was going very well despite the appalling weather and an unfriendly bull. Radio comms were fine and the lads were happy. The weather started to get better about half way and the sun was shining by the time the first walkers were arriving at the last checkpoint before the final assault on the finish. The first person to reach the finish was a civilian who had run all the way along the beach. The two teams from 3 Sqn arrived at the finish looking a little bedraggled along with some added blisters. Even with sore feet they were in good spirits. The lads with the radio at the last checkpoint arrived at the finish at 1900hrs with the help of the last walker who was a 78-year old man who started walking at 0645hrs in the morning. The two members of the Dorset Wildlife Trust who organised the event were extremely happy the day went without any real problems and were very grateful for the help from the lads of 3 Sqn. There were in excess of 300 walkers of all ages who turned up on the day to give their support for the Trust.

EXTERNAL DEVELOPMENT TROOP

Tp Comd **Capt Tanya M. Noakes**
Tp SSgt **SSgt** 'Chippy' **J. Pomfret**

The last half-year has been a turbulent time for our newly forged Troop, and 4 Military Training Squadron in general. External Development Troop as we are now will be responsible for personal development of Royal Signals soldiers through Adventure Training and Leadership courses. Such changes have not only seen many office changes, but also considerable change within the personnel of the team itself. First to move to pastures new was **Cpl Rob** 'GWAR' **Kirk** posted on promotion to Sergeant to 16 Sig Regt. No doubt he'll see many more office changes on his forthcoming move to Brugen. We wish him, his wife **Geraldine** (Mrs. GWAR) and his family all the best for the future. Second to leave was the Troop Comd, **Capt Richard** 'Johnny Vaughn' **Todd** upon promotion to civvi-street (Well everyone else who's left has been promoted) and we wish him well in his various management roles around the world. All too soon the next to leave was **Sgt** 'Because he's Sid' **Barrass** posted on promotion to Staff Sergeant to REME Borden (Watch out all you single girls!) From the entire Troop we wish you well and you will be sorely missed. Welcome to the new Troop Comd, **Capt Tania Noakes,** on promotion from 7 Sig Regt who is currently looking forward to cutting her teeth on the first Leadership course, which begins in October. In addition a prospective welcome to the new Leadership Corporal, **Cpl Bedward**, who has been keen to join us since he himself did the course in 1998. There has also been a spate of mysterious posting orders for others due to join in future....? The next year looks like it will be a thoroughly exciting and rewarding time for the Troop with many ideas cross-pollinated from Adventure Training to the Leadership course and visa versa. For those with an eye to develop their potential book your places early to avoid disappointment!

KOHIMA TROOP - *by LCpl Boyden*

Tp Comd **Capt Connor**
Tp SSgt **SSgt Bousfield**

EXERCISE KOHIMA ROCK,1–5 OCTOBER

Day One: One cold Sunday morning, seven members of Kohima Tp deployed to sunny Gibraltar on the first of hopefully many exercises to this hot bit of the world. **Sigs James** 'Rab' **Dunn, Alan Easton, Greg Chambers, Callum** 'Biffa' **Rollo** and **Mark Wootton**, under the ever-intrepid leadership of **LCpl Jim Boyden** and **Cpl** 'Barney' **Rumble** deployed at the rather unsociable hour of 0430hrs Sunday morning, much to the surprise of those crawling back into camp from Blandfords G-Spot. With much yawning, swearing and sleeping all the way to RAF Lyneham we boarded the magnificent luxury of one of the RAF's C130s for the five-hour flight to Gibraltar and had soon touched down in the blistering heat. We were met by **Sgt Nick McAnulty** from 642 Tp, possibly one of the Corps smallest Troops, who bravely offered to show us the town. After the smokers had discovered, to their delight, that they could buy a packet of 20 cigarettes and a bottle of Becks and still have change from £2, we settled in for the night at the local taverna and watched the world go by.

Day Two: After a leisurely breakfast at the Tri-Service cookhouse (cue lots of staring at the RAF's females) we were shown around 642 Tp, buried deep within the rock by **Sgt McAnulty**. 642 Tp man the main exchange for the Garrison, maintaining the several thousand phone lines

on the Rock as well as providing the landlines for the Royal Navy ships that dock in the harbour. In the afternoon we decided to risk the beach and settled down for the afternoon with the inevitable crate of Becks to cool off in the Mediterranean sun. Come seven o'clock the paler members of the group, namely **Sigs Callum** 'Biffa' **Rollo** and **James** 'Rab' **Dunn** turning a rather painful shade of pink. In the evening we were taken up in a Hercules with some men dressed suspiciously all in black and watched as they practised low level insertion by parachute over the water before retiring to the Gibraltar equivalent of the G-Spot for a few well deserved beers.

Day Three: 'We're going to climb the Rock today,' announced **Cpl** 'Barney' **Rumble**. There was a shocked silence. He tried again. 'I said; we're going to climb the Rock today.' We stared up the Rock. If, in thousands of years of warfare, better warriors than us had failed to conquer the rock, what chance did we have? 'There's a cable car most of the way,' he said. 'Oh,' we said, 'That's alright then.' After a short walk through the town centre we took the cable car up to the top of the rock. We all bomb-burst out into various activities, looking at the caves, being attacked by monkeys and cooling off in the bar. **Cpl** 'Barney' **Rumble** decided that we should climb to the summit. Shunning the normal tourist paths, which he deemed 'weak and un-military' we started off to the top along overgrown, unused and scary paths. We started to perspire heavily; '…because we're getting closer to the sun,' explained **LCpl Jim Boyden**. Things got steadily more precarious. Eventually after much sweating and swearing we reached the very top of the rock at the far end and gazed out over the Mediterranean and across to Africa. It was an amazing sight.

Day Four: Everyone looks really depressed because it's the last day. Some of the lads with passports decide to nip across the border into Spain to stock up on duty-frees. Those of us with NATO Travel Orders were denied entry to Spain on the grounds that we were British Military. (Boo!) The rest of us decide to take advantage of the hot, sandy beach and continue to work on our suntans, or going pink. A bit of a quiet day in conclusion, with not much drinking going on due to the RAF's 'No drinking before a flight' policy. After a mad rush to pick up more duty-frees and a last meal in Pizza Hut (proper local food, as always) we trooped off to bed for an early return to rainy England.

In summary, for the five SATTs that we took, it was a valuable exercise. It showed them the diversity of work available in the British Army and also a useful insight into the tri-services environment. Plus, it showed that there's more to the Royal Corps of Signals than Blandford Camp. Also we all got a jolly nice suntan out of it too. Special thanks must go to **SSgt McCulloch** of Kohima Tp's Atts and Dets office who arranged such a magnificent few days, and I'm sorry that I forgot your duty frees.

THE BRAEMAR HIGHLAND GAMES - *by Sig Jesson, Iron Tp*

The Highland Games took place on the 3 September 2000 in Braemar. I was a member of the Regimental Athletics Team, which had been invited to compete in the Relay Race during this prestigious event. Also taking part in the Games were the Joint Services Tug-of-War and Relay Teams. There were teams from all over the world competing in events such as Caber Tossing, Hammer Throwing and Throwing of the Braemar Stone. The Relay Race took place in front of a crowd of 20,000, which included **Her Majesty The Queen** and the **Prime Minister**. It consisted of four legs; the first and last leg was run over a distance of 150m, and the second and third legs were over 300m. Our Team, coached by **WO2 (SSM) Tasker**, came second beaten by a mere six inches. Each member of the Team was presented with a tankard to remember the event. It was a fantastic opportunity to take part in the Games and it is something I shall never forget. The two teams from 11 Sig Regt were; **Sgt Spruce, LCpl Lowe, Sig McSween** and **Sig Jesson** and **Sig Massie, Sig Hardy, Sig Siddal** and **Sig Gill**.

HARROGATE CUP - NETBALL COMPETITION

by Sig Gemma Coel

The August Harrogate Cup Competition was the inter-Squadron Netball. Beaufighter Troop of 2 (Catterick) Sqn, entered a strong team of girls led by **Sig Emma Pheasey**. The rest of the team were **Sigs Cheryl McKee, Mel Gros, Charmaine Reid, Gemma Coel, Jennifer Roberts, Hannah Willis, Becky Edmundson** and **Katie Costello**. Five teams were competing for the Trophy and after the preliminary rounds where Beaufighter Team won all three matches, we were to face the 1 Sqn Team in the final. We have already beaten them in a close prelim match and the final was to prove just as hard. It was a closely fought end to end game and **Emma Pheasey** and **Cheryl McKee** as Goal Attack and Goal Shooter led the Team by example. The final score was 17 - 14. The final overall places were first 2 Sqn, second 1 Sqn and third 3 Sqn. Thanks must go to **Sgt Vicky Hawtree** and **SSgt Tina Edwards** for organising such an excellent competition.

The winning Team with the Sqn Comd, Maj Louise Tomkins

RAF BENSON 7 MILE ROAD RACE - 21 SEPTEMBER 2000

How many times as team captain of the running team have you instilled into your runners the importance of the last man and how it is he or she that can make the difference between winning and losing? One team that will definitely not forget this is RAF Waddington.

On the 21 September 11 Sig Regt sent a team to run in the RAF Benson 7-mile Road Race, an event that is normally dominated by the RAF. Travelling up in the minibus the normal banter between runners was going on. **WO2** 'Taff' **Thomas**, as ever, threatening that this would be the race where he would make his come-back on and **Cpl Mark Whittaker** quietly making his game plan for beating the (very) old veteran, **WO1 (YofS) Stewart Little**.

As the race started the RAF elite went off into the distance but Army runners **Sgt Andy Arrand** (25 Sp Regt RLC) and **WO2 (FofS) Joe Docherty** were not going to let them have it all their own way and they stuck with the leading group. **Sgt Arrand** caught them all, crossing the finishing line in 1st position with **WO2 Docherty** close behind in 4th position and **Sgt Stewart Maughan** moving through the field to finish 18th. It was at this stage some half a mile back that the back markers were starting to feel the pain; looking around **WO1 Little** could see **Cpl Whittaker** picking up the pace ready to strike and chasing close behind him was **WO2 Thomas**. As each runner pushed the other to their limits the three runners started passing those around them, picking up what was to be vital positions. Finishing 22nd, 23rd and 24th respectively these runners gave little thought as to how the team event went, after all this was the RAF's home ground. The talk was centred on how well 'Taff' was improving in his come back efforts, only 13 seconds had split the three runners, and then the overall results were announced…the winning team with 67 points …11 Signal Regiment! RAF Waddington with three runners in the top ten had looked certain to win but the Team Event was four to count and our 'tortoise' was faster than theirs! The moral of this race is for all those runners out there who are not in the top ten, don't forget it's a team game, every position counts, and the last man is as important as the first.

COMPUTERS

Should computers be referred to in the masculine or the feminine gender? Two groups of computer experts were set up to examine this question - one of women and one of men. The group of women reported that computers should be referred to in the masculine gender because:

1. In order to get their attention, you have to turn them on.
2. They have a lot of data, but are still clueless.
3. They are supposed to help you solve problems, but half the time they are the problem.
4. As soon as you commit to one, you realise that, if you had waited a little longer you could have had a better model.

The men on the other hand, concluded that computers should be referred to in the feminine gender because:

1. No one but the Creator understands their internal logic.
2. The native language they use to communicate with other computers is incomprehensible to everyone else.
3. Even your smallest mistakes are stored in long-term memory for retrieval.
4. As soon as you make a commitment to one, you find yourself spending half your pay on accessories for it.

NEWS FROM NORTHEN IRELAND

3 INFANTRY BRIGADE HEADQUARTERS AND SIGNAL SQUADRON (203)

Sqn Comd **Maj D. B. Warne**
RSM **WO1 (RSM) A. M. Maxted**

SQUADRON HEADQUARTERS

After the maximum leave period, everyone is back into the swing of things, with never a dull moment in the Headquarters. **WO 1 (RSM) Andy Maxted** is still talking about hosting **Frank Bruno** back in July of this year. Never mind RSM, we bet **Frank** misses you as well.

WO1 (RSM) Andy Maxted and Mr Frank Bruno

WELCOMES AND CONGRATULATIONS

Squadron Headquarters welcomes **LCpl Ridgway** and **Pte Williams** to the 'A' Team. All Squadron and Headquarters personnel congratulate **WO2 (FofS) Jim Ross** and **Jackie** on the birth of their son (no sleep now FofS).

COMMUNICATIONS TROOP

Tp Comd **Capt Andy Parfitt**
Tp SSgt **SSgt Bob Wallace**

HELLOS AND GOODBYES

All at Comms Tp TM section would like to welcome the following: **Sgt** 'Gillie' **Gilchriest** on promotion from Gibralter, **Cpl Chris Bain** from Bruggen, **Cpl** 'Hando' **Hatcher** from 280 Sig Sqn, **LCpl Adie Bennett** from Cyprus. A special mention must go to the 'work experience' lad **LCpl Ian Bradshaw**, newly arrived from primary school. In the SYSCON, hello to **Sigs King** and **Wood** both posted in from 249 Sig Sqn. A sad farewell to **SSgt Bob Wallace**, going to 2 Sig Regt in York, **Cpl Don Garner** on promotion to Sergeant but unluckily going to the COMM-CEN in Bessbrook

EXERCISE LAKE FINN

The Troop Adventurous Training Exercise took place from 3-13 September 2000 and was based at 14 Sig Regt (EW). The Exercise was split into two phases, with six of the Troop in Phase 1 (03-08 September) and eight in Phase 2 (9-14 September). Here are the views of two of those who took part.

Sig Shaw: The valiant crusaders set forth to Wales, in search of adventure, under the guidance of **Capt Andy** 'Richie Cunningham' **Parfitt, SSgt Bob** 'Pepperami' **Wallace** (yes I am a good driver) and **Sgt Paul** 'Spiderman' **Craft**. Our quest took us to a place not yet touched by civilisation and inhabited by barbarians. Starting at 0500hrs our journey took us via Stranraer (unplanned) and through every part of the UK. Some 14 hours later we finally arrived, helpfully aided by the driving skills of **SSgt Wallace**, who managed to annoy every driver in South Wales. We began our training with a trip to the seaside, where we were all given a bit of rock to climb. A thoroughly enjoyable day was followed by a trip to Haverfordwest, led by **LCpl Dave** 'Mongo' **Terron**. The next day took us cycling around the local area, where **LCpl** 'Camel' **Good** managed to lead us everywhere but the right way. After a quiet night in (not), we rose to go and enjoy throwing ourselves into the sea, also known as coast-steering. **Sig** 'Diesel (doesn't spark much)' **Price**, decided to show us a new swimming technique whilst floating out to sea. We finished off the week with indoor climbing as the weather was too bad for walking and had one or two down town to finish the week off in style.

Sig Squires: On 8 September 2000 eight lucky people set off to enjoy a week of all things Welsh. The group consisted of **Sig** 'Jackie Chan' **Squires, Pte** 'Pat' **Jennings, Sig** 'Gee' **Pyrah, Sig Emma** 'Spider-woman' **Jones, Sig** 'Sammy' **Samson, LCpl Matt** 'Elvis legs' **Page, LCpl** 'Paper-Boy' **Bradshaw** and **Cpl Si** (who likes to think he's the daddy) **Link**. We started off the week climbing with **Sgt** 'no neeeeed' **Craft**, ably assisted by **SSgt** 'Pepperami' **Wallace** and **Capt** 'Richie Cunningham' **Parfitt. Sig** 'Sammy' **Samson** leading the way, showing us a crack of his own. We thank **LCpl Matt Page** for showing us a good impression of Elvis, with a bit of remarkable disco leg, but on that particular day **Sig Emma Jones** turned out to be Spider-woman in disguise, scaling anything put in her path. The following day was a bit more chilled with people going on to harder climbs and the rest of us sane people trying a bit of Body-Board Surfing, with **RSM** 'Look it's easy' **Maxted**.

Next day **Cpl** 'Si' **Link, Sigs** 'Sammy' **Samson** and 'Gee' **Pyrah** decided a bit of sailing in the shipping lanes was on the cards. **Sig Pyrah** decided that he would try to sink the boat and now we know he is a bad driver on land and water. The lunatic element of the 'Motley Crew' went to throw themselves off cliffs and the others went climbing with **Capt Parfitt** and **Sgt Craft**.

The next day the whole team went coast-steering. Suicide would be a better word for it, as throwing yourself in off good cliffs is not funny, unless you have no brain (**Bradshaw**). **Sig Jones** showed us how to fall of a cliff face properly. With Wednesday being the last night in Haverfordwest, the team deployed to sample the nightlife once more. However, due to the petrol shortage the tractors couldn't make it town, so **Sig** 'Jackie Chan' **Squires** was the only one to get himself a nice lady. The entire week was a great success, enjoyed by all that attended. Thanks to the instructors for being chilled out.

SUPPORT TROOP

Tp Comd **Capt J. A. Wright-Jones** R SIGNALS
Tp SSgt **SSgt F. Crowhurst** RLC

After an interesting couple of months with Drumcree marches the Troop was able to settle back into a 'normal routine'. During this period the Troop has seen a few changes in personnel at all levels. I would like to take this opportunity to thank those who are leaving or have left for all the hard work that they have put into the Troop and to welcome those who have arrived.

First we will say goodbye to the Quartermaster, **Maj Fred Payet**, I think the threat of killing each and everyone of us if we messed worked a treat when a job needed doing, and water sports just isn't the same without you. We wish you the best of luck for the future from each department of Sp Tp. We would also like to take this opportunity to welcome the new Quartermaster, **Maj Wright-Jones**, and **Sig Gilmour,** with their families, into the Troop. We hope you and your families enjoy your tour here.

Since Drumcree the Troop has been busy getting ready for various docs and equipment inspections the extra hours put in by the Troop paid off in the end. Well done lads. Also **Cpl Pat Paterson** and **Cpl Gaz Harris** have been busy preparing and running Ex Drive Alive Phase Two, and the finals Quiz Stand: it was appreciated at all levels. **LCpl Steve Kite, Sig** 'Happy' **Gilmour** and **Pte Richie** 'Diesel or Petrol?' **Palmer** did manage to pick up two trophies but were just beaten for a place in the finals. Better luck next year.

During this busy period the Troop did manage to get away on some adventure training on the Isle of Wight. After the initial shock from the girls when they were told they do have to get out of their beds when the fire alarm goes off and parade without make up, they all settled into starting an enjoyable week.

The Troop were able to get stuck into the various activities such as water-sports, land walking (remember it is the Isle of Wight), drinking and meeting the local population. **LCpl** 'Oz' **Osborne** who was in charge of the mountain (small hill) biking could not seem to get over the fact that every time they came to an incline his chain would come off. After climbing aboard the minibus and shouting to his group to meet him at the top. When they got there it would be repaired again! Amazing!!

We also must congratulate **Cpl Paterson** on his promotion to Sergeant and **LCpl Osborne** on his promotion to Corporal, their experience and commitment to their jobs was second to none and their promotion is well deserved.

39 INFANTRY BRIGADE HEADQUARTERS AND SIGNAL SQUADRON (213)

Sqn Comd **Maj A. R. Knott**
RSM **WO1 (RSM) S. M. Lockwood**

SQUADRON HEADQUARTERS
ARRIVALS AND DEPARTURES

A warm welcome is extended to **WO2 (YofS) Nick Wood**, who arrives to replace the most marvelous and newly promoted **WO1(YofS) Brudenall**. In reference to **Yof S Brudenall's** departure, 'Best of British Blandford!' The Squadron would also like to welcome **SSgt Gaz Walker**, replacing **SSgt Don Anderson** as BTLO. **SSgt Don Anderson** is now sunning himself in Italy in what is advertised as a more taxing role, goodbye and good luck. Finally, **Cpl Mal Campbell** is welcomed into his job in the ISLO cell, working with **SSgt Craig Collins**.

LONG SERVICE & GOOD CONDUCT

Sgt Jonah Jones has been awarded the Long Service and Good Conduct medal after 16 years in the Royal Signals. The SoinC, **Brig C. J. Burton OBE, ADC,** presented him with his medal, along with three other recipients, at a presentation in the garrison Sergeants' Mess.

COMMUNICATIONS TROOP
Tp Comd **Lt S. Y. Richardson**
Tp SSgt **SSgt T. McIntyre**

OPERATIONS SECTION

Initially a huge goodbye to **SSgt** 'Robbo' **Robinson,** who departed Province for the new, green pastures of 1 (UK) Div HQ and Sig Regt. We wish you well. Into his shoes has ably stepped **SSgt** 'Rob' **Atherton** fresh from 7 Sig Regt. His bubbly, slightly mad approach ensures he blends into this wacky environment. Although it appears people are leaving on mass, this has nothing to do with rats and a sinking ship! Fond farewells are extended to **Cpls Tony King** and **Dave Rimmer** who are leaving the Squadron on promotion. **Cpl Tony King** moves to Romeo Tp while **Cpl Dave Rimmer** is on attachment to the BRB for a year. Leaving down the well-paid road to civvy street are **Sig Jenny Sarsfield,** who is joining the Police Force, and **Cpl Samantha Lee-Davis,** who starts work for Marconi. We hope that all works out the way you had planned and thank you for all your hard work throughout your time with 39 Inf Bde. **Sig Marc Richardson** has also left, on promotion to 280 Sig Sqn, while **Sig Claire Mathias** joins the mass exodus with a posting to 16 Sig Regt. Rover Gp's **LCpl** 'Big Jim' **Bowen** Pioneer, has moved on promotion to Corporal to ATR Pirbright, where we hope he is terrorising new recruits, while **LCpl Kev Board** has moved to JCU(NI) also on promotion. Well done and good luck to you from the Group. On a much happier note, a few 'welcomes. Syscom welcomes into its grasp **Sig Ben Andrews** winging his way into the Province from the depths of 3 (UK) Div HQ and Sig Regt in Bulford. Rover Gp extends a warm, welcome to **Pte** 'Stretch' **O'Hare** Pioneer, and a big sigh of relief for the Cavalry in the form of **LCpl** 'Brammers' **Bramwell** RLC, and **LCpl Andy Fleetwood** RLC, moving into the Brigade as the Commander's and Deputy's Drivers respectively. Congratulations to **Pte** 'Val' **Hardy** on his recent wedding to **Claire**, we hope you will be very happy together.

TECHNICAL MAINTENANCE SECTION

Joining the Section are **Sgt Billy Lilburn**, replacing **Sgt Richard Lougher** as IC Rigging Sect, **LCpl Chris Lord, LCpl Forrest** and **LCpl Donna Chivers** join the Fixed Systems Repair Team. Welcome and good luck to them all during their time in the Province. Farewells are extended to **Sgt** 'Maddog' **McAdam**, who lasted a grand total of six months in the job before hearing the call of the wild and returning to 216 Sig Sqn. Also to **Sgt** 'Taff' **Lougher** who finished his tour with a posting to Blandford. Congratulations to **Cpls Neil Beedon, Emma Dignall** and **Rachel Jacklin** on their recent promotion, and to **Sig** 'Huey' **Lewis** on deciding to 'sign back on'. Well done also to **Cpl Chris Dicks** on passing 264 (SAS) selection and we all wish you the very best of luck as you commence your new job. Finally, congratulations to **Cpl Al Temple** and his wife **Tracey** on the birth of their first child, **James**. On an initiative issue, 'Well done, a marvelous effort,' to **Cpl Aaron Ship**, who after much bartering managed to procure fleeces, balaclavas and gloves for the Rigging Team to help in their fight to maintain Comms within the Brigade area of Operations. The happy band of brothers can now be seen parading around the Squadron, one emulating the other.

RECENT TROOP EVENTS
DRIVE ALIVE COMPETITION

Congratulations to three members of the Troop who recently took part in both the 39 Bde Drive Alive Competition and the Northern Ireland Drive Alive Championships. **LCpl Andy Fleetwood** RLC, **Pte** 'A itch' **Aitchison** RLC and **Sig** 'Robbo' **Roberts** were the 39 Brigade Champions as well as the Northern Ireland-runners up, two points behind the 40 Commando Team.

SUPPORT TROOP
Tp Comd **Capt G. Maddison** RLC
WOIC **WO2 (RQMS) Belam**

ARRIVALS AND DEPARTURES

Welcome to **Sgt Andy Eley** RLC, who has now officially taken over as MT SNCO, his resemblance to Johnny Adair is slightly worrying, adding a bit of fear to the Department.

REGIMENTAL QUARTERMASTER'S DEPARTMENT

Congratulations to **Cpl Rick Sherriff**, who recently competed in the Army Water Skiing Championships held at the National Water Sports Centre, Nottingham. He is the Army Mono-Ski Champion and the Army Novice Trick Ski runner up. Well done. Congratulations to **Pte Michelle Merrett** who became engaged to her boyfriend during their recent holiday in Jamaica.

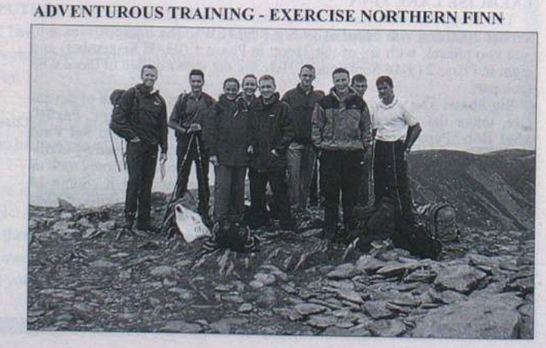
SQUADRON EVENTS
CLAY PIGEON SCOOTING

The Northern Ireland Clay Pigeon shooting Championships came as quite a surprise to the combined Brigade HQ and Sig Sqn Team, who had been expecting a fun-day shooting, courtesy of the Brigade. However, in true 39 Inf Bde style the 'A' Team, comprising of **WO2 (YofS)** 'Sure Shot' **Brudenall, LCpl Charlie Wood, LCpl Scott Tomblin** and **Cpl Tony King**, came away winning the Minor Units Competition, with the 'B' Team coming a close second. Well done to all those who took part.

FEMALE ROUNDERS COMPETITION

Congatulations to the 39 Inf Bde Team who won the Northern Ireland Rounders Championships. They just managed to beat 15 Sig Regt in the final. Unfortunately, such were the operational commitments, held by both Units, that a combined team was sent back to the mainland to represent Northern Ireland in the Inter Units Rounder's Championships. The girls performed very well and were runners up in the final, well done.

ADVENTUROUS TRAINING - EXERCISE NORTHERN FINN



Ex Northern Finn took place from 28 August to 3 September 2000 inclusive and involved hill walking and horse riding in North Wales. In true military style the intrepid few, headed up by **Sgt Jonah Jones**, left Northern Ireland in the pouring rain at silly o'clock in the morning. Whilst they made their way down from Scotland in a minibus, sleeping in a manner to make a contortionist proud, **Sig** 'Where is Wales?' **Roberts** was gamely setting off from Newcastle to meet them in Caernarfon. It was not that he was geographically challenged, but when he found himself on the MI heading for London, he realised that a map might be useful. All eventually arrived safely at the RWR barracks in Caernarfon and personal admin was carried out before the first walk the following morning. Problem number one arose the next day with **LCpl Anna Metcalfe** collapsing at breakfast. Had she been poisoned by **Sgt** 'Naked Chef' **Jones** or was the thought of climbing Snowden too much for her? After a day in the local hospital she was declared fit and returned to the group. Day One's walk over the saddle of Snowden passed without further incident for the other group members.

Day Two dawned with reasonable weather for Wales, so it was with a light foot and a song in their hearts that the group left to conquer Pen yr Ole Wen. This seven-hour route, kindly chosen by **Cpl** 'Im the MLT, so I can chose which ever route I want, besides I'm posted and won't see any of you again' **Board**, commenced with 1000m,climb in 600m! The singing soon turned to panting, as people began to save their breath to cool their porridge! A steady pace was set on the way up, supposedly for the AO, **Capt** 'Just a small beer for me' **Maddison**, who was rumored to have said that she was, 'No good at going up.' At the, highest point of the. day's walk the quote of the week came from **LCpl** 'Baby face' **Lord** who quipped ' There can't be anymore hills to climb around here, can there?' An evening in the local pub seemed to heal the walking fatigue and happy faces reappeared.

The horse riding day arrived at last and with it came the -rain. Unfortunately, certain members of the group experienced a few personality clashes with their horses. **Sgt Lee Rotherforth** had a horse that moved very quickly in short spurts, but had to have a little rest in between. **Cpl** 'Sick Note' **Gallacher** was seen, perched on a horse looking in dire need of hospital treatment itself, while it was with great delight that the group saw **Sgt** 'JSML' **Maycock** looking as uncomfortable and.. wary on his horse as the others had looked on the top of Pen yr Ole Wen!

Day Five on Snowdon was a hard, miserable day as the weather closed in, soaking the group to the bone and tiredness seemed to be combined with an element of grumpiness. Until the autopilot kicked in and despite the complaints of sore behinds, everyone completed the walk over the mountain. After packing up the monkeys and parrots and handing over the accommodation, a leg stretching exercise was undertaken with a couple of hours slow-walk up Nant Ffrancon to prevent cramp on the long journey back to Lisburn. However, the fun was not to stop there, as due to a cancelled ferry and the amount of drivers hours used, it became necessary to drive to Stranraer, with an overnight stop (on personal expense) in Blackpool.

39 INFANTRY BRIGADE CHARITY DAY
by SSgt 'Crate' Collins Event Organiser
CHARITY DAY 4 AUGUST 2000

The Brigade Charity Day took place on 4 August 2000. Preparations for the day started in January with over 400 letters and 200 E-mails going out asking for donations for the main funding event - an auction. The response to the letters was very rewarding with many companies generously donating items such as two return flight tickets to anywhere in Europe and theatre tickets for Phantom of the Opera. **Sgt** 'Paul I'll do that' **Parkes** took up the unenviable task of setting up tents, seating, notice boards etc. He did this with his usual prowess making it seem effortless with the help of his Rover Gp.

The day started very early for **SSgt Craig Collins** and his committee with a five a side football competition involving 16 teams from units within Province. **Cpl Lee Rotherforth** ran the competition and dealt with the usual complaints from the teams in his usual manner, 'The managements decision is Final.' The Brigade Team did well losing to the eventual winners, NICSS Regiment Team, one goal to nil. An 'It's a Knockout' Competition was run in the afternoon with all events comprising of getting wet, VERY WET. There were three events in which the teams had to take part. The first was a bungee run, transporting water from one end to the other. This proved to be great fun for the spectators, as they got involved throwing wet sponges and hosing down the competitors. The SHQ Team was obviously well practiced as they turned up with football boots on to stop them from slipping! The second event was an assault course, which of course involved going back into the S tank to retrieve a brick from the bottom. Someone said they saw the Titanic in there, as it was so cold. The final game was a pillow fight on a greasy pole suspended above, of course, the S tank. The eventual winners of the competition were the SHQ Team consisting of **Capt A. J. Smith, WO2 (YofS) Dave Brudenall** and **Cpl** 'Arnie' **Renforth**.

The auction was run in two sessions to allow the golden nectar to cloud the judgement of the bidders. It obviously worked as many items went for far more than they were worth. **Cpl** 'Mac' **McGuiness** was the auctioneer as he had the gift of the gab. Once bidding started the bidders were scared to move in case they made a bid as eagle eyed 'Mac' coerced ever-higher bids from all present. (Whether they wanted to or not). The generosity shown by all was very impressive and made a vast contribution to the final total. The evening event was a charity 'Medieval Night' disco organised by **Cpl Arnie Renforth**. In all it was an excellent day, raising around £3,500 pounds for the nominated charities.

EXERCISE SILVER CHILD III 26-28 AUGUST 2000

18 soldiers battled against the elements to run, cycle, push a trailer and kayak 116 miles from Sutton Coldfield to Great Ormond Street Hospital, London. They raised over 43,000DM and donated thousands of pounds worth of toys to the sick children. The event, which started over seven months ago was the brain-child of **WO1 (RSM) Chris Hymas** and brought together 1 (UK) ADSR in Germany, 3DSR and 14 Sig Regt (EW) in England, to raise money for children's charities. The culmination of the event was the race that saw two teams from 1 (UK) ADSR pitted against a team from 14 Sig Regt (EW) in true Bank Holiday Weekend weather.

BATTLE CAMP – EXERCISE KOHIMA WARRIOR
by Cpl Dodds, HQ Sqn, Mike Tp

They climbed out of their coaches, their faces a mix of sleepiness and trepidation. After a six hour journey to Salisbury Plain Training Area, they are thrust into a week long battlecamp, starting with a 2.5km tab towards Battle Camp HQ (better known as the old court house/police station at Imber Village). There the members of the Regiment, split down into three platoons, and surprise, surprise, the rain starts to fall just as they set off. Ex Kohima Warrior has started.

Once they've arrived at HQ, it's time for the admin part of the Exercise. Food, ammunition and 349 or 351 radios are issued to each section. A few lessons on basic field skills, and how to use their respective radios and they leave HQ into the darkening night, intent on reaching the first military skills stand by 0800hrs the next morning. Over the next three days, they will do a round robin to three different locations, each location holding two stands of various military skills. The stands being Survival Skills, NBC, Tactics, BFAT, OBUA and a demonstration by 264 (SAS) Sig Sqn. At the Survival Skills stand, run by **SSM Hancock**, they are shown how to build various shelters, from the basic Mark 1 basha to the modern luxury of a log cabin. They are taught the art of rabbit skinning and the different ways of cooking, add into this a little bit of water purification techniques and you would have a really good stand. However, 2 Sig Regt prefer to have really great stands, so they throw in a bonus lesson of interrogation methods and an insight into meeting agents in the field. **SSgt Mills** ran the NBC stand, demonstrating the use of NAIAD (Nerve Agent Immobilised enzyme Alarm and Detector), and CAM (Chemical Agent Monitor). Lessons were also conducted on NBC sentries and NBC recces. It was hard to tell whether the students were more worried about getting gassed or of being told to carry the NAIAD! A pyro demo using the GPMG, trip flares, smoke grenades and thunderflashes provided plenty of noise for the Tactics stand. Under the watchful eye of **Sgt Sharp**, the sections experienced obstacle crossing, the six section battle drills and how to give quick battle orders. The culmination of these lessons being a scenario where the platoon had to rescue a downed pilot, hopefully without engaging the enemy. The most physically demanding stand was the OBUA (Operations in Built Up Areas) stand. Starting nice and gently with a confidence course to warm up the players, then they were taught the basics of approaching and assaulting an occupied building, and the principles of room clearing. The last of the stands run by 2 Sig Regt the BFAT (Battlefield First Aid Training) stand, with **SSgt Gardner** in charge. This stand taught the treatment and extraction of casualties in several scenarios including minefields, and in the middle of firefights. 264 (SAS) Sig Sqn had their own stand demonstrating some of the more exotic military skills. They displayed and demonstrated several specialist weapons including the M16 assault rifle with grenade launcher, and the highly accurate 7.62mm G3. They taught about patrolling in 4-man teams and the contact drills involved, they also demonstrated contact drills with vehicles. That little venture cost them a new windscreen on their Ford Scorpio, but was enjoyed by all. On a more participate note, they hosted a 'Spot the Sniper' test, with a man hidden from view at a range of approximately 60 to 70 metres. Needless to say that not many players would have survived that one!

After these full and busy days, the three pls trudged into HQ for a briefing on the next two-day part of the Exercise. Notebooks in hand and pens at the ready they listened to the briefing blissfully unaware of the dozen or so members of 249 Sig Sqn and a dog handler, complete with German Shepherd 'Khan' from 158 Pro Coy RMP, who stood outside the door of the briefing room, armed and waiting. The briefing goes on and on, until the magic words 'friendly forces' are uttered by the officer giving the briefing. A thunder-flash goes off, and the 'terrorists' pour in, rifles blazing on automatic and a few seconds of pandemonium ensues. The smart players hit the deck straight away. The rest are 'assisted'. The players are disarmed and subdued. Stereos playing white noise are brought out and the terrorists become silent. Disorientation starts to take effect. After a short wait lying face down on a cold concrete floor, they are lifted up and taken out of their holding cell. A little trip around the corner, blindfolded of course, leads them into the processing stage. They are searched and all their belongings bagged and tagged. A further small wait on the floor then they are taken out and thrown onto a TCV. A short drive out and the terrorists are ambushed by local partisans. The captives are freed and the Escape and Evasion stage is under way. For two days, they will have to live using the skills they have been taught. They will meet agents and avoid capture. Unfortunately, that doesn't always happen. Once captured they are subjected to the same interrogation techniques they had been shown at the Survival Stand, and although they had a reasonable idea of what to expect, there was still a lot of uncertain and worried people in the prisoner holding pen.

This would be a good part to relate some stories of bravado and foolishness relating to the E & E phase. The two best story awards would have to go to **Sig Zimmerman** and **Cpl Bevan. Sig Zimmerman** performed an extremely gutsy manoeuvre by putting on a limp and walking into HQ for some food from the main eating area. If it hadn't been for the fact that he started to chat to the admin personnel he would have got away with it. However, the RSM spotted him and he took a nice visit to the pen. The most gutsy move award must go to **Cpl Bevan**, he managed to 'acquire' a Land Rover from the local area and drive away in it. However, forty minutes later he returned to HQ to hand himself in. Eventually endex was called and the show of bravado was back on the faces of all. The players were debriefed and put on a nice luxury coach back to York. On their way home they undoubtedly passed their fellow workmates who were on the second week and who had yet to experience the joys that were planned for them in the week to come. There are only three points left to cover. First is a thank you to the three chefs who supplied the admin and DS staff with excellent food throughout. Although they did set an oven alight while trying to make Yorkshire puddings. Secondly is to **Sgt Stanley-Jones** on his commendable performance as recovery driver. Using only a DAF and his own driving skills, he rescued many a stranded vehicle including the ambulance. Last, but most definitely not least, is the fate of **Sig** 'Jazz' **Jaruszek**, who had to adopt a new and very short hairstyle, due to an accident with a Puffing Billy. One lighter, a large BOOM and the smell of fried hair all combined to ensure that 'Jazz' lost most of his eyebrows and eyelashes, and gently frazzled most of the front of his hair.

PRESENTATIONS OF LS&GC AND ACSM

Brig A. P. Farquhar MBE, Comd HQ 15 (NE) Bde presents **WO2 (SSM) Hancock**, **SSgt (RQMS) Cassidy**, **SSgt Curtis**, **SSgt MacPherson MBE**, **SSgt (FofS) Buddhi Bahadurhar Gurung** with their LS&GC medals. **Cpl Green** is presented with the ACSM for 1,310 days service.

EXERCISE KEY WARRIOR 2000 - *by WO1Terry*

On Friday 29 September, 20 brave partners of serving soldiers from the Regiment agreed to take part in a 24 hour Exercise. It started with an introduction to drill, **Julie Gardner** and **Sue Lloyd** were jailed at this point by **WO1 (RSM) Keilty**. The Exercise rapidly moved forward with a creditable attempt at the assault course instructed by **WO2 (QMSI) Clark. Maxine Manningham** achieved the 'best effort award' for overcoming her vertigo and completing the course.

The Exercise then progressed to Strensall Ranges, where the beastie boys from the Training Wing had set up a number of stands. **Sgt Pete Preece** tried his best to make the ladies disappear, with his instruction in camouflage. Special mention goes to **Liz Beswick** who was awarded the most entertaining in the field award, for her actions on encountering a trip flare..... 1. Run Away. 2. Ignore the ditch. 3. Dive head first into the water filled ditch. 4. Wait for the section to stop laughing. In the mean time make a noise which sounds like you are injured, wait until the flare is out, then join the remainder of the section in uncontrollable laughter. The night Exercise was taken in the ladies' stride, bergans were laden down with a few essentials, such as mobile phone, bottles of wine, make-up bags, and as much gucci kit as their husbands had convinced them that they would need. After a sleepless night for orange section and **LCpl Nichols,** it was back to camp for a champagne breakfast and well deserved presentations. The weather was kind, and the only thing that poured was the laughter from the patrols. You may hear a war story or two gents, so pin back your ears.

'Look RSM, were not interested in what you have got to say.....the conversation over there is more interesting'

EXERCISE LOG ADVENTURE - *by Cpl Findlay and LCpl Davison*

The Regiment were recently offered a once in a life time opportunity to attend adventure training in the Canadian Rockies. The Royal Irish were (fortunately for us) sent to Sierra Leone at short notice and therefore unable to participate in the pre-booked (free) package. So, after two weeks notice we left the UK at 2000hrs and arrived in Canada at 2010hrs, the shortest eight hours I've ever done. We arrived at Trails End Camp, attended some briefings, watched the 'What to do in the event of a bear attack video' were issued with kit and set off on the first of our two adventures.

Exercise Wapta Dance - Capt Julie 'Treat me like a princess' **Richardson** and **Cpl Weland** 'Fin' **Findlay** had a great time on the mountains doing fall recovery on snow, and ice/crevasse rescue, **Cpl Findlay** mad as ever had great fun being the one down the crevasse (Brrrrrrrr). The Exercise was extremely hard work, lugging all the kit up the mountains, however it was worth all the sweat and I'd recommend it to anyone.

Capt Richardson and Cpl Findlay on Athabasca Glacier

Exercise Ghost Run - LCpl Davison spent four days canoeing on the Kootney River. The day started with a day's training on the Ghost Lake. Basic things like how to stay in the boat, go in a straight line and how to stop. Not as easy as one would think! One of the most useful things that we got taught was the capsize drill, something that came in very useful over the next few days. Day 2 was spent on the Ghost River, for a bit of fast water, and some top tips on how to move about. We found out that capsize drills do work, and white water is a lot colder than the lake. Day 3 - Armed with all the new skills we had gained, we set off down the Kootney River. Of the 160km river some of the more interesting parts were 'the bolder' and 'the horse shoe' bends. The overnight stops were a chance to dry off and get some food, especially for the flying teeth that had a taste for rear end, as I found out. The smoke from the fire didn't stop the mossies as we hoped. Day 4, the last stretch down to where the van was parked and a chance to get back to civilisation after two days in the wilderness. After four days on the water, I was glad to be back on dry land, but also glad to have had the experience of Canada.

Exercise Rough Ride – We all attempted horse trekking for our second weeks activity, 'how hard can it be', people have been doing it for centuries, 'how wrong were we'. Now we know what made John Wayne walk so funny. We spent our time dodging branches and trying not to fall off. It was great, we did some proper off roading, horses can go anywhere. Every time we stopped, it was hilarious to witness **LCpl Davison** attempting to get back on his horse, a tree stub always came in handy to aid his remount. We stayed in prospector huts, in the middle of the wilderness and experienced some excellent thunderstorms, at one point I thought the mountains were falling down around us. Needless to say we all survived the experience, and had a great time despite the pain in our bottoms and **Cpl Findlay** going through horses like there was an endless supply.

EXERCISE ANETO EBOR
by SSgt Angus MacPherson MBE and Sig 'Ollie' Oliver

For the second year running **SSgt MacPherson** organised another excellent Adventure Training package to the Pyrenees. The exercise included a 5-day phase when conditions ranged from rain to -5^0C, freezing ice and fog to 30^0C, then brilliant sunshine. The team put snow, ice work and climbing techniques to the test and covered two glaciers, one col at 3005m, and peaks at 3107m 2842 m and 2738m. Some of the more memorable events to note: **Sgt Steve Howard** managing to overcome his fear on the rock face, **SSgt Angus MacPherson** rapidly sliding down a steep embankment and bruising his arm, **Sig Kris Blundell** demonstrating his acrobatic skills to test out the reflexes of his belayer, **LCpl Mark Dunnachie** sweating and complaining of nausea. **Cpl Simon** 'I'm not smiling' **Brewington** and **Sig** 'Ollie - I don't suffer from vertigo' **Oliver** opting to take a long lunch and await our return instead of climbing a rather large peak. **WO1 Andy Terry** convincing the group to take a swim, to the amusement and laughter of the surrounding onlookers 'well it brightened up their afternoon' and finally how could we forget the phantom snorer, **LCpl Mark Dunnachie.** In addition to conquering mountains the group managed to spend a day mountain biking and rafting, we are all still wondering how **Cpl Jason Wood** didn't take a tumble on some of the blind corners.

At the top of Superbagneres (2218m)
The whole of the Expedition party, prior to the start of the Mountain Biking phase
(L-R): Sgt Steve Howard, Cpl Jason Wood, Cpl Simon Brewington, Cpl Lee Wolstencroft, Sig 'Ollie' Oliver, Cpl Mark Dunnachie, Sig Kris Blundell, Cpl Pete 'I drive the bus' Longworth, WO1 Andy Terry and SSgt Angus MacPherson

AN INCREDIBLE JOURNEY - CHARITY CYCLE RIDE
by LCpl Beart, 214 Sig Sqn

The reason behind this charity bike ride was a rather personal one. Earlier on in this year my father **Charlie** was taken into hospital with bad circulation and later died in the George Elliot Hospital's Intensive Care Unit at the age of 50. My mother decided to ask one of my dad's best friends, **Mick Green**, to do a sponsored bike ride in memory of my father and to raise money for the very people that had cared for my dad in his final days. **Mick** had done various rides for charity before, including Lands End to John-o-Groats and Kilmarnock to Nuneaton in 24hrs, a staggering 346 miles. My father had always provided the general admin support for **Mick's** previous rides. **Mick** decided to combine my dad's passion for rugby with his passion for cycling. So the idea to cycle to my home rugby ground at Nuneaton via the three spiritual homes of British rugby was born.

LCpl Jon Beart (Centre) at the Millennium Stadium Cardiff

The ride consisted of 820 miles of hills, wind, rain, sweat and a few more hills. Starting at Murrayfield, the home of Scottish Rugby, I then ventured out on my journey. Although seven miles into an 820-mile journey, a high speed crash into a barbed wire fence, cutting my face and tearing my new cycling shirt did nothing for my confidence. **Mick** and myself gradually wound our way towards Cardiff, 120 miles the first day, 110 the next. On the fourth, I was finding it hard and near Newport I hit the wall. I was so physically wasted I nearly gave-up. Somehow I carried on and after six days riding with an average of 120 miles a day I wobbled into my home club Nuneaton RFC on Friday 18 August, having visited Murrayfield, Cardiff and Twickenham en route. With it now completed I feel as though I have done something for my father and benefited those people who helped him. Hopefully when all the sponsorship is collected a total of £5,500 will be raised.

ROYAL SIGNALS CORPS REGATA - *by LCpl 'Stevo' Stevens*

July was the month. Kiel was our destination! **Sig Kenny Welburn** and myself were to sail around the Baltic between Horsens, Arhus and Rudrobing to name but a few of the places we were to visit. The idea was to race against seven other teams including 1 Mech Bde and 7 Sig Regt. It was time to face the opposition, we had to learn as much as we could to enable us to compete and become better crew. Our particular training took us from changing sails whilst the boat was on the move to hanging over the sides desperately holding onto ropes and our breakfasts. There was even more hard work to follow. What with sleeping, cooking on board and sampling the local beer at most ports of call! Despite all this we had time to win the 'round the cans races' at Horsens which involved, not surprisingly, racing around markers. This gallant effort won us a very handy schnapps glass. After each race it was taken in turns to host a party which involved lengthy discussions on knot tying and making use of the handy schnapps glass won earlier. Our final day was the 'One to Win'. The race back to Kiel where we put all our hard work and training into action. 'Sounds a bit like a booze cruise' but you'd be wrong. The experience was genuine hard work but an extremely rewarding experience.

EXERCISE ROVING SANDS JUNE – JULY 2000

by Sig Woods, 219 Sig Sqn

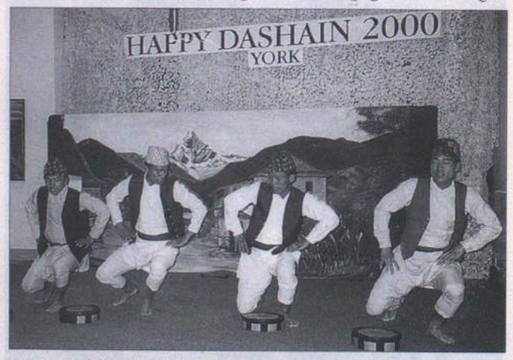
We deployed to Texas, USA to provide communications for 22 RA (AD) and 7 RA (AD). Being initially based at MacGreggor Camp near El Paso was not much fun, because if we said we were in the middle of the desert we would not be lying. The accommodation was a tad sparse and was shared with all sorts of creepy crawlies (and that was just the Americans). **LCpl Dave** 'Homer' **Hallway** made it his personal mission to kill anything with more appendages than him. To say that the food was disappointing is an understatement; let's just say it was not up to our great RLC chefs' standard (hmmmmm). We were therefore forced to take it upon ourselves to try out the BBQ method of cremation and we ended up with some amusing results.

Throughout the exercise the temperature soared, it could not get any higher (Satan's armpit could have matched it). During these periods **Sig Dean** 'Talks a good game' **Condren** was so enthusiastic about the sun that he ended up looking like Freddy Kruger's stunt-double, they do not get much sun in Leeds. All in all the exercise went well and everyone put in considerable effort. The Americans were more than helpful and **Capt Si** 'Where's my webbing' **Meadowcroft** did a great job as acting OC 214 Sig Sqn. PT every morning proved to be more difficult for some as **2Lt Paul** 'The Boy' **Trewin** discovered during a press up competition. He never recovered the power of speech after that….

R&R was eagerly awaited. A large group of the 2 Sig Regt boys commandeered a quaint little establishment called 'La Hacienda' just outside El Paso. The party included **Cpl Charlie** 'Alcohol can't phase me' **Kama, Cpl** 'Dylon - Delwyn Tidy' **Davies, LCpl Tony** 'Alpha Hotel' **Musgrave** and **Sig Jay** 'Where's my stetson?' **Jones**. At some point we ventured into the local town. Some of the excellent places visited were 'JB'S' and 'Graham's Central Station.' Antics round the pool included 'the dentist's chair' set up by **Cpl Ray** 'We daren't call you anything' **McLeod**, which brought the younger members of the Squadron on in leaps and bounds. **Sig Chris** 'The Fang' **Woods** kept us entertained by forcing some US Marines into the pool fully clothed and not allowing them out. The British contingent put together a powerful rugby team, 'The Scropions' headed by **Capt Stu** 'I'll slam dunk any Yank that gets in my way' **Whittley**, and convincingly beat the US semi pro team. The Exercise was a good learning experience for all that took part, but I will not be rushing forward to deploy on another like it.

DASHAIN

On Saturday 30 September 2000, the Officers and WOs celebrated Dashain with the 47 Gurkha soldiers and their families in the Kohima Restaurant. Dashain is the most auspicious festival of Hindus and takes place in the lunar fortnight of September or October. It lasts for 15 days, but in the Brigade of Gurkhas, only four days are celebrated. Many mythological stories are associated with Dashain. The common thread in each, however, is the triumph of good over evil – the victory of the Gods or Goddesses over the wicked demons that harassed mankind in ancient time. A legend amongst the Gurkhas is that the Goddess Durga slew demon Mahishasura, who in the form of a water buffalo, terrorised mankind on earth. Therefore Dashain is the celebration of victory and also a time when families come together to exchange gifts and blessings.



(L-R): Sig Pitamber, Sig Ishwar, Sig Amrit and LCpl Dev dance the 'Bhoto Selo'

3(UNITED KINGDOM) DIVISONAL SIGNAL REGIMENT

REGIMENTAL HEADQUARTERS

CO **Lt Col Phil Davies**
RSM **WO1 Chris Kidd**

3 (UK) Div HQ and Signal Regiment, the name is the same it is just the people that are different. All the new card players are now in place and are eagerly awaiting the arrival of dealer alias the new Commanding Officer, **Lt Col Phil Davies.** Meanwhile the 2IC is struggling to keep two day jobs afloat while orienteering, running and commuting back to Aldershot to keep his wife happy. Something has to go …….. But who is going to tell her! The new Adjutant has surprised us all by having an appetite for running rather than chocolate and appears not to have been permanently damaged by his spell of instructing at RMAS. He has, however, been unable to avoid those long working hours and the candle will very soon meet in the middle as he is getting to grips with the new Summary Dealings procedures. The new RSM is taking things in his stride but has so far failed miserably to improve the 2IC's turnout or the length of his sideburns. He has slipped right into the parrot fashion briefing of the guard commanders, and the only difference I detect is the

distinct lack of, 'It's a pleasure' ……whatever that means coming from the next door office. To the outgoing personalities who are now reading this for old times sake, we miss you all and wish you good luck in your new appointments (especially you **Capt Stoker**) but inevitably the King is dead, long live the King!

The hand-over of Commanding Officers

SPORTING SUCCESS

Congratulations to the following personnel for their successes:

Cpl Jackie Davies selected to Bobsleigh for the Ladies Great Britain Squad.

LCpl Ross and **Cfn Wall** for continued success in the Army football team (when they manage to avoid the red card!)

LCpl Dorrian for his initial selection to the Army Boxing Squad.

Maj Nick Bateson (who writes this stuff!) for becoming the Corps Orienteering Champion (What sort of a sport is that?).

A whole bevy of beauties presently in Cyprus with **SSgt Baker** on the Corps hockey tour (Now what sort of sport is that!!).

THE BLANDFORD TOWER CORPS HALF MARATHON OR 'MY FIRST REGIMENTAL CROSS COUNTRY FAILURE'

by 'Jock (The Hoop)' Castle

A whole squad of **SSgt Castle's** starlets eagerly awaited their first real test of the season in the Corps Half Marathon. Such was the team manager's confidence (Remember Keegan!) that he allowed himself the luxury of a rest day before the Army Marathon. (A young Cpl Castle actually won the Army Marathon title running 2hrs 29mins back in the 90's, so we should not be too hard on him). The great day dawned and the Regiment's big four (excuse ranks as they say, **Bateson, Conlon, Easterby-Jackson** and **Smith** ran together ahead of all but one of 11 Sig Regt's runners to the 6-mile mark. **Conlon** was not even breathing but the rest of us were hanging out of our proverbial hoops. He eased himself away to finish the eventual Corps Runner up leaving us to be caught by the chasing 11 Sig Regt's runners at about nine miles. The rest is history. Overall (civilian runners included) we finished in the following order:

Maj Bateson	10th (1st R SIGNALS Veteran)
LCpl Easterby-Jackson	15th (1st R SIGNALS Junior)
Cpl Smudge Smith	19th

That gave us a total of 50 points. Amazingly 11 Sig Regt's runners finished 8th, 11th, 14th and 17th giving them 50 points as well. We lost on the position of the last runner. Where was 'Jock' **Castle** when we needed him? He was not where we expected him to be. The poor boy had succumbed to flu and was forced to withdraw from the marathon. (Now what was all that about Kevin Keegan!)

6th KIWI HALF MARATHON 17 SEPTEMBER 2000

There was a break in the clouds and the sun did its best to fight back the traditionally wet day for the Kiwi Half Marathon. Tried and tested runners (or not), both civilian and Army ignored the fuel crisis and donned their favourite Ron Hills and took up this annual challenge. The Kiwi fi known in running circles as a 'tough one' coaxed 180 willing volunteers to line up at the start line. Each harbouring their own personnel ambitions and expectations before **WO2 QMSI Dave** 'I have been up all night worrying about this event' **Taylor** fires the gun to start the race.

As the runners jostled for position and a few civilians caught up the back markers, due to either being unable to work out how to open the portaloo doors or just releasing last minute nervous tension, it was clear that the front runners meant business. The athletes (?) started to spread out, to try and cover as much of Salisbury Plain as they could in one and a half hours. In the meantime the admin party back at Carter Barracks were left to set up the finish. Or maybe they just sat in the brew tent end contemplated how unlucky they were to be tasked with the job of fatigues and stats instead of running. Running commentary was relayed via a complicated network of radios organised by comms expert **Cpl** 'I am going to be a YofS' **Tharby**, using state of the art technology, the 320 manpack radio to the race organiser **Capt** 'I will run next year' **Crane. Capt Terry Crane**, using a combination of Geordie and his best telephone voice, captivated the audience with Grand National style race commentary. This had the cheering crowd waiting with bated breath for the race leaders to burst out of the mist on Salisbury Plain and through the trees at the North end of Carter Barracks.

Only one soldier had won the race in the past, previously seasoned civilian runners always headed the field. However, this year the first three positions were claimed by army runners, the first two both broke the course record. **WO1 Dave Rollins** came first with a time of 1hr 13mins and 59secs, **SSgt** 'Jock' **Castle** second in 1hr 14mins and 18secs and third came **LCpl Kevin Conlon** in 1hr 16mins and 37secs. The first female runner was a civilian **Daveena Tweed** from Poole who was also the first female veteran to cross the line in a time of 1hr 30mins and 14secs.

The seventh Kiwi Half Marathon will take place in September 2001 and will undoubtedly like every other year be a great success and will entice runners both civilian and service personnel of any standard to take up the challenge.

202 SIGNAL SQUADRON

Sqn Comd **Maj A. Long**
SSM **WO2 (SSM) J. McNaught**

These past couple of months have seen yet more turmoil and upheaval in the largest Armoured Squadron in the Royal Signals. Elements of the Squadron have just returned from Canada, where they have been for the last two to three months with the 3rd Division in BATUS. The Squadron's main effort for the upcoming month is the provision of the Divisional HQ for the Staff College Demo, followed immediately by deployment onto the Regimental exercise and Ex Iron Foray, the GOC's main effort for the Division for the latter half of 2000. In all a busy couple of months, roll on Christmas!

BUSSACO TROOP

Tp Comd **Lt Sean** 'Colonial' **Lumley**
Tp SSgt **SSgt Pete** 'Howling Mad' **Howson**

Since block leave, the Troop has been largely split up due to Ex Iron Hawk in Canada, but there have still been a few notable occurrences. Firstly, the Troop would like to send out an all stations big welcome to all the newcomers: **Sgt Kevin** 'Not long to go now..' **Dawes, Cpl Nik** 'Savo' **Savchenko, LCpl Reginald** 'Ross' **Dourley, LCpl Adam** 'Olly' **North, Sig Alison** 'Bob' **Sabiston, Sig John** 'Parades are too early' **Newson, Sig Danny** 'Scabies' **Hall, Sig John Duffy, Sig Sarah O'Reilly** and **Sig Andy** 'I want to be a NCO yesterday' **Martin.** We would also like to welcome back all our war heroes from defending the free world in the Falklands: **Cpl Don** 'Big Bird' **Brennan, Cpl Bob** 'Fat Bloke' **Dryden, LCpl Ross** 'Get in my belly' **Lyon, Sig Daz** 'That's it for me' **Clarkson** and **Sig Dale Thompson.** September saw **Lt Sean** 'Not another Colonial' **Lumley** being kidnapped by the Squadron while

on Squadron Adventure Training on the Isle of Wight and taken on a tour of the island's nightlife – in a sleeping bag! September also saw **2Lts Alisa** 'Lab Rat' **Labram** and **Ben** 'Squaddie Haircut' **Norton** along with **OCdt Simon** 'I'm faster than the Regt 2IC' **Swift** attached to the Troop while awaiting their Troop Commander's Course. They were exposed to off-road driving in Landrovers and AFV 432's which they both thoroughly enjoyed – the instructors, **Sgt Stevie** 'I hate port' **Weate, Cpl Colin** 'Bing' **Crosby, Cpl Vinnie** 'I love working in the DMI section' **Walsh** and **LCpl Andy** 'I'm never in trouble' **Standing**, will never be quite the same again. The Troop is now preparing for Staff College Demo and the major Divisional Exercise: Iron Foray.

WATERLOO TROOP
Tp Comd **Lt P. J. Simpson**
Tp SSgt **SSgt A. Wringe**

Well for a change this month, it's been slightly relaxed due to the squadron deploying on summer camp. A highly enjoyable week in the Isle of Wight gave the Troop the opportunity to unwind on some serious adventurous training. Many thanks to **Cpl Laz** 'Flo' **Watts** in the Chicago Rock Café for providing the entertainment with his karaoke rendition of Dizzy (thanks mate). Also we are not to forget the fact that **Sig Brett** 'Freefall' **Baber** believes he's a member of the Hells Angels after roaring around on his hired 50cc moped. With much of the Squadron on Ex Iron Hawk in Canada, preparations for the annual Staff College Demonstration occupy every working day. As a reward for their efforts, the OC arranged a Troop day out paint-balling at the start of October. The Radio Section was pitted against the Access Section, and the result was carnage, Radio Section winning by the slimmest of margins. The bruises and war-wounds were displayed proudly later on in the bar. The Troop says a fond farewell to **LCpl** 'Funky Moped' **Wood** to 1 Div and a big hello to **Sig** 'Barney' **Barnett, Sig Nicholls** and **Gnr Ridley**.

206 SIGNAL SQUADRON
Sqn Comd **Maj W. E. H. Adsett**
SSM **WO2 (SSM) Smith**
MONS TROOP
Tp Comd **Lt Gardner**
Tp SSgt **SSgt Fairfield**

Since returning from summer leave the Troop has been busy preparing, then executing Ex Iron Ration. The exercise only just went ahead, by using the countries last few drops of petrol! The Troop deployed in packets up to South Cerney whereupon **LCpl** 'No Comms' **Dodgson** took control of radio village. The first couple of days were shaky due to the bad frequencies they had been provided with. Strangely enough morale remained high mainly due to the never ending taunts that were levelled at **Sig** 'Sooty' **Sutton** for being the boss's little whipping boy. Over the past few months there has been some movers and shakers within the troop. Goodbyes are said to **Sig** 'Jane' **Darcy** who's off to NI, **LCpl** 'Taff' **Evans** on his departure to 1 Div (watch out the cleaners of 1 Div), **Sig** 'Ugly mother' **Tucker** who is off to 8 Inf, **LCpl** 'Big Smudge' **Smith** on his return to civ div, and finally **Cpl** 'Matt' **Kutzner** who is on his way to 3 Sqn of 11 Sig Regt as a Troop Sergeant. Greetings go out to **LCpl** 'No Comms' **Dodgson** from 30 Sig Regt, **LCpl** 'Abbo' **Abbott** from 21 Sig Regt and **LCpl** 'Nige' **Longbottom** from 2 Sig Regt. Finally the three amigos from Blandford, **Sig** 'Beci does Dallas' **Newton, Sig** 'Chunk' **Gee** and **Sig** 'Chocolate' **Waddington**.

INKERMAN TROOP
Tp Comd **Lt Kemp**
Tp SSgt **SSgt Angove**

Firstly, welcome home to all the Inkerman Troop personnel who have returned from the Falklands. We hope you enjoy your leave, and we look forward to you all meeting the new Troop 'daddy'! Welcome to **Lt Kemp** who has travelled the immense distance from 259 Sig Sqn to be with us! Also, welcome to **Sig** 'Dave' **Webb, Sig Steve** 'Happy days' **Ellis** and **Sig Ronald** 'McDonald', all straight from the factory. Don't worry, we'll break you in gently. It's goodbye to **LCpl** 'Steph' **Catney** who is leaving the Corps. Also, a farewell goes to **Sig Andrews** who is going to 39 Inf Bde.

Congratulations to **Sig** 'Dave' **Harris** and his new wife **Jacqui**. We would like to congratulate her on her amazing catch. The Troop is currently en route from Birmingham to London on Ex Silver Child to raise money for Great Ormond Street. So if you pass us on your travels put some money in our buckets; it is not for our beer fund! **Cpl** 'Sean' **Thomas** is currently looking for a pussy! Apparently it has tabby hair with silver streaks.

The Troop would like to wish 'Chief Chick' **Michelle Angove** a speedy recovery. We know why you keep going into hospital. (George Clooney doesn't work in this area) Ten out of ten for trying. **LCpl Tony** 'Anton' **Richardson, Sig Phil** 'Guppy' **Baxter** and **Sig** 'Easily lead' **Simpson** are all in Greece at the moment; under the pretence of being on exercise. I am not sure if they think we are stupid, but they have left their RRB behind!

We have a few new guys in our Troop who have just completed their Wolf familiarisation's course. They now all think they are mini-racing drivers. We are on a large exercise next month; and when we move from location to location it is not going to turn into a Grand Prix. Half of our little wanderers who have just returned from the Falkland Islands are posted straight away to pastures new. We are losing **LCpl Sam Hall, LCpl Stuart Stephen, LCpl Dean Wicks, Sig Laura Best, Sig Charlotte Driscoll, Sig Mick Gee** and **Sig Dawn Wardley**. Good luck to you all, we wish you all the best for the future.

222 SIGNAL SQUADRON
OMAN TROOP
Tp Comd **Lt Imogen Mulholland**
Tp SSgt **SSgt Daphne Clash**

Another busy time for the Troop, and quite a lot of people moving around too. Incoming: **Cpl** 'Powers' **Austin** (who's actually been hanging around Bulford for a while but has evaded the Div Sig Regt tractor beam until now), **Sigs** 'Relay' **Higham**, 'Masts –r-me' **Sinclair** and 'the' Major (straight from the Factory). Somewhere in the British Army is a **LCpl Bowring** too – he actually belongs to this Troop, so if seen please return to Bldg 272, Ward barracks, Bulford. Last, but certainly not least, **2Lt Alisa Labram** joins us prior to her Troop Commanders Course. She will rejoin the Troop in March in place of the existing OC who will by then have her hands full with a junior **Mulholland**. (Who's getting the best deal there then?). Outgoing: **Sig Mortiboys** – to pastures new in Germany and **Cpl** 'the Chimpmeister' **Christison** – to the world of Civilan Telecommunications! Yes, it's the end of an era – and you could spot it by the length of his sideburns. All best wishes to **Dave** and **Jane** for the future.

In true style, the Troop celebrated **Cpl C's** leaving in his absence – no real change there – with a bit of training over in Hampshire, Alton to be exact (this particular locality will be of significance to anyone who has been posted here). Needless to say, the Troop was terribly impressed that **Sig Major** and **Sig Evans** managed to distinguish themselves in true 'we cannot drink at all' fashion, endearing themselves to all concerned (especially the staff at the establishment in question). Following the completion of a successful training day, the Regimental MT did us proud by providing a Battlebus that blew two tyres on the way home – no problem with driver's hours there though. Hot on the heels of that little jaunt, Oman Tp then spent a week based at Worthing RFC on Ex South Downs Dragon. A Troop level adventure training exercise, involving water-sports, walking and navigational mountain bike challenges also a lot of tents and **Cpl Fearns'** Porsche all in close proximity to the charms of the Clubhouse. The weather was poor enough to prevent sea fishing on the R&R day – but spot on for the 'civilianised water-sports training'. Just lucky that no one had a waterproof camera to hand. The Squadron may have lost **SSM Frank Roberts** (now RSM), but that doesn't mean that the Topham Hatt train no longer stops here – on the contrary **Cpl** 'Medals' **Manaton** elected to be the main man (clearly not realising what he was taking on). He organised a creditable Squadron effort in support of the Swanage Railway, on which he is to be congratulated. Thoroughly well done to all who took part (especially the Squadron Boxing Team).

Lastly, who does the Corps turn to when it needs young, talented thrusters to splash all over its latest recruiting literature, but Oman Troop? The Squadron is deploying on a Comms Ex next week, but good old 083 will be recorded for posterity doing their stuff on the Beacon overlooking glorious Salisbury Plain. For reasons that are plainly obvious to us, we were selected from a cast of three as the Node least likely to spend most of the day in makeup! With the exception of **SSgt Clash** (who has more dealings with Saatchi and Saatchi than the whole of their client base put together), it will be a refreshing opportunity for us to get the publicity we so clearly deserve! On the subject of **SSgt** 'The Helmet' **Clash**, good luck on her latest round of selection at Lillehammer next month – we look forward to seeing her on Sky Sports in that lycra number!

A couple of models, and bit of Cyprus too!
Cpls Knapman and Moore

7 SIGNAL REGIMENT

CO **Lt Col J. Richardson**
RSM **WO1 S. Smoothy**

The Officers and soldiers of the Regiment would like to extend a warm welcome to the new Commanding Officer, **Lt Col Jim Richardson**.

Lt Col Jim Richardson takes over command of the Regiment from Lt Col David Jones

Also, farewell and best wishes to **Lt Col David Jones** and his wife **Rachel**. One of **Lt Col Jones'** final events was the visit of the Lord Mayor of Leicester to Krefeld. Leicester is twinned with Krefeld, and maintains strong links with the Regiment as the main British element in the area.

Visit of the Lord Mayor of Leicester to Krefeld

REGIMENTAL FAMILIES DAY - FRIDAY 8 SEPTEMBER 2000

This was run by 229 (Berlin) Sig Sqn, with the guys and girls from X-Ray and Yankee Tps putting hours of hard work into the set-up and coordination of the event. With Bouncy Castles galore, face-painting, free ice-creams and a fantastic kids entertainer, the parade square was transformed into a childrens' fun-day, particularly with the assistance of **Cpl** 'Teletubby' **Alexander**, and the resident clown, **LCpl Pincott**, who really stole the show.

Sigs Hutton and **Kennedy** sold an amazing number of raffle tickets, with the help of **Sigs Evans** and **Butler**. The Bars were kept well-stocked, thanks to **Sgt MacPherson** and his team, and **Glen Mansell** recorded dedications from wives and families, which were later broadcast on his 'Calling the Balkans' show on BFBS Radio. As usual, the Chefs had surpassed themselves, with an amazing BBQ spread, and huge thanks are due for the hours they worked, feeding well over 400 people that night.

LCpl Pincott clowning around with some young fans

Sig Nichols and the 'Gladiators'

The evening's entertainments included a well-supported Karaoke and Disco, with the first song expertly led by **Maj Wally Drain**, the supervisor for the whole weekend. It was a real family event, so thanks to everyone who came and joined in!

Can we have Barbie Girl again? Please!

BERG LINN COUNTRY FAIR – SATURDAY 9 SEPTEMBER 2000

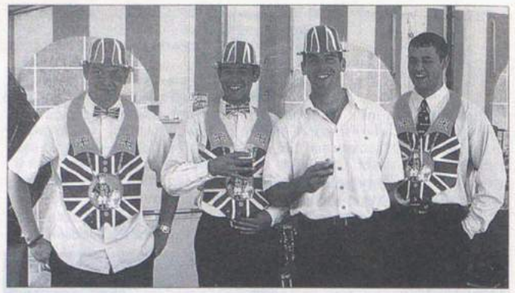
The British Country Fair in the grounds of Berg Linn Castle was a huge Anglo-German event. With free tickets for the Regiment, what could be better than a day out for the whole family. In glorious sunshine, there was something for everyone, including Falconry displays, Scottish Highland Games, Irish Bands and our own Royal Corps of Signals Band. They held everyone spell bound by a highly-polished performance, including a wide variety of modern and popular music.

ASCOT RACE DAY, KREFELD RENNBAHN – SUNDAY 10 SEPTEMBER 2000

This splendid event was run by 232 Sig Sqn. With 7 Sig Regt Stakes starting off the afternoon's racing, the day proved an enormous success. The chefs surpassed themselves once again, with the most incredible display of culinary delights – and also did rather well on the betting front, it is heard! Many thanks to all those that took part, from the Standard Bearers to those that ran the transport, it really was an excellent day.

Maj Phil Baker, co-ordinator of Ascot Day, with his wife Collette

Lt Col Jones congratulates the winning owner, trainer and jockey of the 7th Signal Regiment Stakes



Soldiers from 7th Signal Regiment bring some traditional British cheer to the races

Sqn Comd **Maj Drain**
SSM **WO2 Ewing**

Yet another quiet period for HQ Sqn, with only the Regimental Weekend to organise, and of course the well-loved ITD week. The ITD Trg kicked off with an NBC demonstration by the OC, with all onlookers completely captivated as he tried to don a softy sleeping bag instead of his suit? With a little encouragement from the SSM, the instructor, **Sgt** 'Can I tell you about this Turkey' **Howe** proceeded to re-educate the offenders in the traditional way within the chamber - it really didn't take much encouragement!

QUARTERMASTERS (A) DEPARTMENT

QM(A) **Maj Doherty**
RQMS(A) **WO2 James**

It's been a busy time for the department, with the maximum leave period and preparation for the LSI. The department squash ladder goes from strength to strength, with **WO2** 'Neil' **James** trying everything in the book and some things not in the book to win games. Congratulations to **Sgt** 'Dave' **Howe** on his recent promotion, he is secretly hoping for a posting to 15 Sig Regt to meet up with absent friends. A sad farewell to **Sig** 'Thelma' **Marshall** who departs these shores to go all the way to the QM(T) Dept. However, she has not finished at the Department yet, she has yet to decide on her leaving present - either a decanter set or a bathrobe. Whatever her choice is, it will be a mystery. A warm welcome to **Sig** 'Brad' **Bradbury** who joins us from the QM(T) Dept.

QUARTERMASTERS (T) DEPARTMENT

QM(T) **Capt Cory**
RQMS(T) **WO2 Henry**

Autumn finds the QM(T) Dept in high spirits with a hectic summer's business completed. The Kosovo accounts are closed and ready for handover to the Closed Accounts Team. **Capt (QM) Ray Cory** has even had time to fit in the occasional game of golf. Yet another change of RQMS (T) sees **WO2** 'Taff' **Burdge** move across to become SSM 229 Sig Sqn, and **WO2 Trev Henry** moves into the hot seat. A fond farewell to 'Taff' and **Alda** and a warm welcome to **Trev** and **Glynis.**

The Department ran a highly successful HQ Squadron BBQ in June, with **WO2** 'Taff' **Burdge** proving you can get anything you want from TSG Dulmen. The reward for the team being a weeks adventure training in Bavaria where a good time was had by all. **LCpl Johnston** can still be heard complaining about the bicycle saddles - no such complaints from **Sig Macleod**. **SSgt Kev Scott** has decided he will not suffer the same player shortage he encountered last year as manager of the Regimental second football team by making sure the whole department turn up for training, willingly of course.

Congratulations to **Sgt Dom Cooke** on his recent promotion and the added bonus of having to rewrite the MSA. **Sgt** 'Scottie' **Scott** continues to improve his golf handicap, at the expense of the QM(T). The RLC contingent within the department are in buoyant mood as ever with **Sgt** 'Skip' **Skipper** and **Sgt Martin Didcote** back at work after sterling work on the Sergeants' Mess Summer Ball and HQ Sqn BBQ. **Sigs Verrill** and **Owen** continue to learn their trade within the URS world. In preparation for her class I course, **LCpl Boswell** has moved across to UET manager. She has taken to wearing a very serious frown, to such an extent that the civilian staff, **Emma** and **Collette**, have taken to calling her 'Sarge'.

For those who cannot make the golf course the QM(T) has introduced Friday afternoon darts, a serious business, as the battle for the Mickey Mouse champion rages on. **Sigs Pawsey**, **Verrill**, **Carter** ,**Valentine** and **Musgrave** have already fallen by the way. October will see **Cpl Lang** and **Sig Ellis** return from Bosnia and **LCpl Dunne** from his Class I. **Cpl Abbot** remains deployed in Kosovo. As ever there has been movement within the junior members of the department with **Sig Marshall** returning from the QM(A) Department being replaced by **Sig Bradbury**. New arrivals **Sig Wood** and **Sig Pawsey** joining the fold, welcome.

DON'T FORGET
THE DEADLINE FOR FEBRUARY IS
THIS OFFICE BY 10 DECEMBER

MOTOR TRANSPORT TROOP

MTO **Capt N. R. Coatsworth**
Tp SSgt **SSgt P. Hay**

MT Troop, 7th Signal Regiment, and 'Buster'

There has been quite a bit of movement within the Troop since the last time WIRE notes were submitted, and by the time this is published we will have said farewell to **Sgt** 'Bob' **Kirby**, **Cpl** 'Mark' **Knowles**, **Sig** 'Timothy' **Lockwood** and **Sig** 'Eyebrow' **Manton**, all of whom will be sorely missed, and we wish them all the very best for the future. We would also like to welcome **Sgt** 'Bri' **Sheard**, and **Sigs** 'Lisa' **Gavin** and 'Kitty' **Patterson** to the fold and hope they enjoy their time in the Troop. On the congratulatory front, slaps on the back go to **Cpl** 'Daz' **Mawson** and **Sandra** on the birth of their son **Patrick**, and **Cpl** 'Taff' **Kinsey**, **Sigs** 'Timothy' **Lockwood** and 'Eyebrow' **Manton** on their selection for promotion.

MT DAY OUT
(OR VOYAGE TO THE BOTTOM OF THE SEA)

Deciding to make the most of what little sun seems to be around nowadays, the MT donned their Bermudas and Ray Bans and took off in search of surf for a day's Water-Skiing. Ably led by **SSgt** 'Phil' **Hay**, this band of merry men and women set forth to display the kind of aquatic skills more usually associated with large rocks and ships with gaping holes in their hull. By no means afraid and eager to lead from the front, **LCpl** 'Scotty' **Scott** (that's original) explained to everyone just how it should be done, even offering lakeside instruction before finally skimming across the water for about three seconds then sinking to the bottom of the lake. **Sig** 'Del' **D'Lasselle** (even more original) quickly realised that Water-skiing perhaps wasn't going to be his sport, so decided to have a go at gymnastics instead, by launching himself 20 feet into the air and performing a triple somersault with two half twists every time he fell off - *and he fell off a lot.* Performance of the day however, goes to **Sig** 'Eyebrow' **Manton** who bored everyone with his apparent inability to fall off his ski and having the audacity to spin like a Whirling Dervish at will, performing all manner of tricks to impress the on-looking female fraternity. My how we prayed he would take a tumble,..... maybe next time.

LCpl Scott demonstrates his preferred technique, just prior to coming to grief, whilst the awe-inspired Sigs 'Swede' Clarke, 'Eyebrow' Manton and 'Del' D'Lasselle look on

TECHNICAL MAINTAINANCE TROOP

TM Tp would like to extend its welcome to four new Techs: **LCpl** 'Snitch 'n' Spew' **McKenzie**, **LCpl** 'Sticky Fingers' **McCormick**, **LCpl** 'Jones' **Logan** and wife **Becky**, **LCpl** 'Tommo' **Tomlins** along with his wife **Tracy** and children **Kaya** and **Blake**. Another recent attachment to TM Tp is **LCpl** 'Midnight Runner' **Long** who has come to join us after leaving 231 Squadron. A welcome goes to **Sgt** 'John Mod Man' **Ashman** and his wife **Mel**, who recently arrived from 249 Sig Sqn. Farewell to **Cpl Jenny Clasper** who decided to join 1 Civ Div upon getting married. Congratulations and good luck for the future. Congratulations to **WO1 (FofS) Tommy Steele** after being selected for commission - he will receive his Captain upon posting. We would also like to thank the FofS for a great barbeque and **SSgt John Hoyle** for some fantastic photographs... We would like to thank all parties involved in organising and running the adventurous training down in Bad Tolz. We all had an excellent time rock climbing, kayaking, mountain biking and adventurous hill walking. Finally, hi to all the guys on tour from TM Tp and a special hello to **Jeffrey** in the Falklands, 'Gogsy' (your little Hercules) will see you soon.

EXERCISE CRUSADER BACKSTOP 18-31 JULY 2000

HQ Sqn 7 Sig Regt took part in Adventure Training Exercise Crusader Backstop over the period 18-31 July 2000. The Exercise started with a 9 hour coach trip down to Bad Tolz, Bavaria. The accommodation, a luxury 5 star German transit camp was situated in the centre of a training area on the outskirts of Bad Tolz.

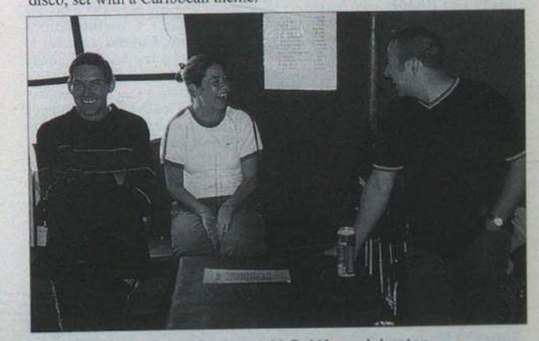
Climbing was instructed by **SSgt (SSI) Kev** 'I can come off the toboggan on the first corner' **Mason**, **Sgt (SI) Mandy** 'anything you climb I'll climb quicker' **Mason** APTC and **Sky** 'I climbed higher than Verrill' the Corps Dog. **Maj Wally** 'the mountain goat' **Drain** lead the way up the climbs during his visit with the SSI securing his confidential grade during the OC's abseil as he locked off the rope half way down, whilst **Sig Virge** 'I'm a photographer' **Verrill** kept his feet firmly on the ground. **Maj** 'the cinema manager' **Doherty** instructed on all of the hillwalking and controlled the Sqn film showings on an evening. He enjoyed himself so much in the first week, he decided to stay for an extra week.

Kayaking was under the instruction of **Sgt Ian** 'interesting' **Glover** and **LCpl Beth** 'I'm really shy and quiet' **Rees** REME. They taught **Cpl** 'Stace' **Stacey** to roll. He thought it was a very good option, after all when you are built as robustly as he is, dieting is not an option at that stage of the game. **Sig Lenny** 'I don't think kayaking is for me, even though I'm a PTI' **Leonard** has decided that watersports are for water based animals, not humans. Mountain Biking was controlled primarily by **WO2 (SSM) Steve** 'baboon arse' **Bovan** with **Sgt Dusty** 'Gel Seat' **Miller** and **Sig Chalky** 'Can I have a day off' **White** assisting. They lead the groups over a gruelling 35 mile course on a daily basis, hence **Steve's** nickname. A repair bill of DM281.00 helped keep the OC's Sqn bar profits down to a minimum. There was a volleyball competition held between the sections each evening. The permanent staff, needless to say, were the eventual overall winners, winning every game. The chef **Cpl Roger** '**Mellie**, the man on the telly' produced some excellent food over the Ex period and should be congratulated on passing his chefs course.

229 (BERLIN) SIGNAL SQUADRON

Sqn Comd **Maj D. Webster**
SSM **WO2 (SSM) Burdge**

The Squadron has been depleted down to just a handful of people, with the deployment of most of the squadron to Kosovo and Bosnia, but before they left, the remainder of the squadron put on a little farewell party organised by **Sig** 'Dinger' **Bell**, **Sig** 'Shady' **Kennedy** and friends. This consisted of a BBQ by the swimming pool in the afternoon for the families, then that night the lads and lassies had a bit of a boogie, with a disco, set with a Caribbean theme.



Sgt Don Cooke and LCpl Kerry Johnston
in usual mode behind the bar at the Squadron BBQ

Also in June we had a visit from The Royal School of Armagh Cadets. They were entertained by **2Lt** 'Jock' **Lawson**, **Sgt** 'Mac' **MacPherson**, **Cpl** 'Bungle' **Overall**, **LCpl** 'Stevo' **Stevenson** and **Sig** 'SSM' **Lowe**. The elite training team organised a fun-packed week of various military skills and a gruelling physical schedule.

YANKEE TROOP
Tp Comd **2Lt Williams**
Tp SSgt **Sgt MacPherson**

This month we have had a fun packed schedule starting with 7 Sig Regt's open day on 8 of September. There was a BBQ with various bouncy castles for the children and **Sig** 'Orange Boy/Striker/Roy' **Woodward** who had hours of fun. We have had a couple of troop morale days organised by the king of the SQMS, **Cpl** 'Tyrone' **Woodward,** starting with a day out to Phantasia Land, and everyone had a great time except for **Sig** 'What's a gene?' **Lane** and **Sig** 'Shady' **Kennedy,** who were both chased around a ride called the Castle by a crazed hunch-backed Ogre, but apart from that they both thoroughly enjoyed the day. The second morale day was Go-Karting. The weather added to the tension of the race by pouring down, and we had to split the race into two heats as there were not enough Go-Karts for everyone. It was undecided who won the first race, but there was no doubt who won the second heat, as the man drove like he was driving Miss Daisy so he did not slip off the track. The winner was **LCpl** 'Rems' **Knowles**.

Now on to a few 'hellos' and 'goodbyes'...We say a warm welcome back to the lads who have just returned from a successful tour of Bosnia, **Cpl** 'Anne Summer model' **Andy Morris, Cpl** 'Notsolarge' **Lomas, Sig** 'Regimental Bike Rider' **Jay Preston, Sig** ' Furby' **Riches** and **LCpl** 'Copacabanna' **Lafferty.** We also welcome a few new additions to the Troop, fresh from the factory - **Sig Thornley, LCpl Simpson** and **LCpl Hart.** Goodbyes now....**Sig** 'Chesty' **Steph Evans** who is off to a new life in 'Civ Div', she promises to take her handcuffs with her....**Sig** 'Shady' **Sadie Kennedy,** who is off to Corsham to play with Crypto..lucky her....**Cpl** 'I've done that' **Alexander** is off to strut his stuff at 30 Sig Regt.... Finally, **Sig** ' I can't get out of bed' **Marie Butler** is off to 2 Sig Regt to brighten up their lives.

X-RAY TROOP
Tp Comd **Lt Evans**
Tp SSgt **SSgt Thorburn**

A big hello from the biggest Troop in the Regiment! We've had an extremely busy couple of months, in particular with the organisation of the Regimental Families Day on Friday 8 September – many thanks to all those who helped make the day such a success, including all the willing Karaoke participants – what talent within the Troop! The highlight of this summer was undoubtedly the Troop BBQ, complete with a Bouncy Castle and outstanding food – all thanks to the organisation and hard work of **LCpl Crabb** and his wife. A few of the Troop enjoyed a week's Dinghy Sailing down at the Mohnesee Reservoir – some spectacular capsizing went on, as well as a great deal of piracy, and everyone achieved their RYA Novice 1 & 2 Dinghy Sailing qualification. Welcome back to all those returning from Bosnia, and hello to all the guys in the Falklands. Finally, goodbye to **LCpl Kemp**, off to 11 Sig Regt, and **Mr Barry Dear** who leaves us to join 1 Civ Div – best of luck.

232 SIGNAL SQUADRON
Sqn Comd **Maj P. Baker**
SSM **WO2 (SSM) I. Carter**

DELTA TROOP
Tp Comd **2Lt S Allison**
Tp SSgt **SSgt Newton**

In good old-fashioned WIRE style, Delta Tp begin with arrivals and farewells. Welcome to a new OC, **2Lt Allison, Cpl Mundy** and **LCpl Thompson**. (Oh my God, two new techs to ruin the troops' kit!) Also, hello to **Sig Entwistle,** and finally some new guys from Blandford - **Sigs Creighton, Godwin** and **Reynolds**. We wave a sad goodbye to **Lt Jones** (Congratulations on your promotion to Captain!), **Cpl Gauchi, Cpl Bartlett, LCpl Cooper, LCpl Farland, LCpl O'Neill, Sig Barrett** and finally **Cpl Rhodes** who leaves us all to go to 263 Sig Sqn and a bit Sig Sqn. (By the way, **Dougie** still thinks you're a gasket!). Congratulations go to **LCpl** and **Sig Porter** on the birth of their son, **Connor** and also to **Sig Barrett** on the birth of her daughter. The Troop has been extremely busy lately with Ex. Arcade Falcon taking up most of June. Dets were deployed in BFG and a SAN group went to Spain. As you can imagine, some people had a much better time than others. Finally, the Troop have used Ex Warrior III as a pacex to prepare for their deployment to Spain and Turkey for Ex Arcade Fusion. A busy time for all!!!

HOTEL TROOP
Tp Comd **2Lt V. Galloway**
Tp SSgt **SSgt G. McGuire**

The last few months have been a very disjointed time for Hotel troop, with summer leave, adventure training and the inevitable exercises that follow. Adventure training was once again enjoyed in Bavaria, with most of us getting something out of it and many discovering hidden talents. (i.e. **SSgt** 'Al' **Ironside** who is perhaps a future Olympian on the water – nice wetsuit!). Exercise season is well under way with the Troop receiving more work than it's used to. Morale within the Troop is good thanks to the gutter humour of **Cpl** 'Iarrcis' **Sigston** and **Sig** 'Scouse' **Girvan's** bear skin hair. With the predictability of a tech promotion it's time for the arrivals and departures. Starting with arrivals, the Troop welcomes a new OC, **2Lt Galloway** - well somebody always gets the short straw. Also straight from the factory, **Sig Orr,** our first installation tech, and **LCpl** 'show me your tongue' **Shirley.** Escaping to freedom, are **Sgt** 'Del' **Richards** posted to N.Ireland and **LCpl** 'Taz' **Williams** who'll be treating himself at Bulford, not forgetting **Mr** 'Phil' **Hughes** who has been promoted to civvi – good luck **Phil**. Congratulations are due for **Sig McGuinness**, ex Hills on her marriage. We would also like to congratulate **SSgt** 'Al' **Ironside** on his impending promotion. Well done also to **Cpl** 'Odd-job' **Johnston** on the birth of a son and also to **Sig Kay Murphy** who also gave birth recently.

EXERCISE LONG LOOK 2000 - *by Capt Nicky James*

On returning from leave in January 2000 I was delighted to have been successfully nominated for Ex Long Look. In this tri-service annual exercise, personnel do a direct exchange with a counterpart in either Australia or New Zealand. I had been picked to go to New Zealand, which having spent a year in Australia prior to university was perfect for me. Due to the smaller size of the NZ Forces only 45 Brits were able to deploy there, of which two were from R Signals, **Cpl John Reardon** from 20 Armd Bde and Sig Sqn and myself. We were both exchanging with personnel from 3 Sig Sqn based near Christchurch on the South Island.

The journeys to and from New Zealand were as eventful as the exercise. On the deployment we flew with the RAF and it took six days to reach our destination. We had overnight stopovers in Bahrain, Singapore and Brisbane before switching to the smaller NZRAF plane in Sydney to fly to the North Island. Finally, after another night stopover, the South Islanders boarded a tiny 'crop sprayer' plane to reach Christchurch. It took the same length of time on the return journey with NZRAF in a Boeing 727. The 727 could just take the weight of all of our luggage and us and could only fly for five hours without needing refuelling. This meant numerous stops and some people being moved around the plane so it could actually take off! Amongst the stops we also had overnighters in Hawaii, Winnipeg and the outback of St John's in Canada. In the end we had managed to see quite a bit of the world on the exercise.

3 Sig Sqn in Burnham Camp is the only signals component of the NZ Army in the South Island and it is small for a Squadron. On the camp just after our arrival two Companies of the 2/1 Battalion, the Logistic and Engineer Sqn deployed to East Timor to relieve the Troops already out there. 3 Sig Sqn deployed 15 of its personnel, which left about 30 in the Squadron. My job was 2IC/Ops Officer but with a Capt OC, Yeoman, Foreman, SSM and two Tp Comds for that amount of personnel, my in-tray never got very full! In the near future 3 Sig Sqn will be reduced to an Independent Troop but luckily for me that did not happen during my deployment, which left me with quite a bit of spare time to explore the country. 3 Sig Sqn contains the EW component of the NZ R Signals and the rest of the equipment is the equivalent to our radio detachments. There are no trunk communications. They support the Bn HQ and also provide communications for incidents requiring quick reaction and cordon control. I took part in an exercise testing the callout procedure and set up of the nets for an incident, which was very interesting. The NZ forces also have an excellent CIS system, which 3 Sig Sqn was responsible for maintaining and controlling within Burnham camp. This was run by CIS Troop, possibly the busiest aspect of the Squadron. There is an excellent tri-service defence intranet that is very user friendly. It seemed a superb system to me and definitely cut down on paper work. However there were very few secure terminals, so 3 Sig Sqn still had to man and run a COMCEN, which tied up even more of their limited number of personnel. My major task whilst there was to organise and run an exercise. Much of the Squadron were young and inexperienced Signallers, some of whom had never spent more than a night out on exercise. I was determined to give them a bit of the British Army Battle Camp experience and have them all out in the field for ten days digging shell scrapes and living off rations. Due to the inexperience of many, the first few days were spent in basic field craft and soldiering lessons. This, however, turned out to be fortunate because when I had done the recce the whole area had been covered in a foot of snow. When we actually deployed the snow had all melted and there were quite a few changes of plan needed. My time was split, for much of it I was riding around on the back of a motorbike on recces, as NZ R Signals still carries the despatch and delivery roll and 3 Sig Sqn had equipment and personnel trained to ride.

Lt N. James on exercise using the Squadron motorbike

The rest of my time was spent keeping warm in the control vehicle and being laughed at for my voice procedure. The prefix "Hello" for any message caused much hilarity and my refusal to answer a radio check with 'Loud and Clear' caused much confusion! The location of the exercise was amazing. It was native NZ bush and at one point a possum hunter passed through to check his traps. When I looked at the scenery around it was more like being on Adventurous Training rather than exercise. It was a pleasant change from Ayrshire Barracks and Sennelager!

Back in barracks the NZ Army is very similar to the British. The few changes I noticed most were the extensive variety of boots that were issued, the excellent fleece and poncho kit that they use, and that they all walk across the grass in barracks. I had to remind myself I did not have to walk around the grass but still felt naughty as I strolled across expecting to hear an RSM bellow at me. Finally there was their addiction to pies. We had PT every morning from 0800hrs – 0900hrs and on starting work at 0930hrs a 'pie lady' would come around in a little van and everyone would rush out to buy a pie, I think steak and cheese was the favourite. I never managed to work out how anyone could want a pie for breakfast after an hour of gruelling PT!

One of the aims of Ex Long Look is to experience another country and its culture through the forces and outside. There is another Sig Sqn in the NZ Army and I had a chance to travel up to 2 Sig Sqn in the North Island whilst we joined in an 'On The Job' training package. This was a larger Sqn and had recently returned from East Timor and it was interesting to see how they operated. I also travelled down to stay with the equivalent of a TA camp when they were assisting with an air show of which current and ex military planes were a major part. I was also involved in a week sailing expedition using a NZ Navy yacht, which not only introduced me to sailing but also to more of the North Island. However, most of my travelling was done by my own organisation, usually at the weekends. It is an amazing country with endless outdoor opportunities. I did a couple of weekends skiing, a couple walking (or tramping as it is called), I went swimming with dolphins, saw the sulphur and mud pools of the volcanic area and had a dip in the hot springs and tried many of the local wineries. I did, however, fail in the expectation that I would follow the precedence set by previous R Signals female officers on Ex Long Look in New Zealand. On my return I did not sign off so I could emigrate and join the Kiwis having met 'Mr Right' in the NZ forces. I must have been unlucky, maybe due to the deployment to East Timor, because I broke the tradition and managed returned unattached and not enamoured with any Kiwi men!!

Meeting Jonah Lomu and Ron Cribb
Lt Nicky James and Capt Beth Greasley (Int Corps)

Possibly the highlight of the whole exercise was my chance to meet the All Blacks. It was a task to produce a photograph, to present to the Commander of the exercise on our return that symbolised the culture of the country. I was determined not to just have one of me on exercise so I wrote to the manager of the All Blacks because Rugby is as much an integral part of their culture as football is in Britain, if not more so. The manager, Andy Martin, had been a Colonel in the NZ Army and had even been on Ex Long Look in 1982 and he was most obliging. I met up with him in a hotel in Wellington and had the opportunity to grab photos with the team that were staying there before the match against Australia. It was very exciting and the guys were very friendly, and I even bumped into some of them again the next evening after the match as they partied in Wellington. Ex Long Look is an exciting and rewarding exercise and I would recommend anyone to volunteer for it. However, do not expect to deploy and have everything laid on for you. To really see a country and get to experience the forces, the people and the culture you must be prepared to get out there and do it by yourself.

JOINT SERVICES SUPPORT UNIT (AYIOS NIKOLAOS)

CO **Lt Col D. J. Whitby**
RSM **WO1 (RSM) D. Richardson**

COMMAND TROOP

JSSU(AN) continues to operate under the Mediterranean sun and is now firmly established as a Tri Service Signal Unit following the amalgamation of the former 9 Signal Regiment (Radio) and 33 RAF Signals Unit in April 1999. The Unit consists of three Squadrons and a Projects Support Group where Support Squadron is the traditional administration and logistic support provider to the two Operational Squadrons, 234 and 840 Sqn. Command Group combines elements of all the three Services and civilian personnel from GCHQ. The Unit continues to host regular visitors that have in recent weeks included the Commander British Forces Cyprus, **Air Vice Marshall Rimmer** and the Chief of the Joint Operations PJHQ, **Vice Admiral Sir Ian Garrett**.

Command Group JSSU (AN)
Back Row (L-R): Capt Wilkes AGC SPS, Maj McCreath Int Corps, Sqn Ldr Kyte, Mr Tony Kennedy
Front Row (L-R): Mr Simon Hall, Adjt, CO, Sqn Ldr Keely, RSM, Mrs Deborah Bradley

SUPPORT SQUADRON
Sqn Comd **Maj G. Hailstone** R Signals
SSM **SSgt (SQMS) P. Rouse**

LOG SUPPORT TROOP
QM **Maj P. Whitehouse** R Signals
RQMS (Station) **WO2 S. White**
RQMS (Ops) **WO2 D. Thornton**

The Log Sp Tp has seen some changes since the last *WIRE* notes - notably the arrival of **SSgt Neil Jennings** into the SQMS (T) post and the departure of **WO2 (RQMS)** 'Stan the Man' **Staniford** and **SSgt Brian Reid** to pastures new. The two RQMS incumbents spend most of their time on Health and Safety courses either in the UK or at Episkopi. The Catering Dept has a new master chef in the disguise of **WO2 (SQMS) Joughin**. Fresh from 59 Independent Commando Sqn RE, he and **Cpl Cooke** posted in from 1 Para seem intent on ridding the chefs of their lardy image. The MT is still led by **SSgt Mark Fitz-patrick** and they continue to cover the wide variety of details that a Station demands. Congratulations to **Cpl Mark McClafferty** from the Unit armoury who is off on promotion to the Commando Logistics in UK and welcome to **Cpl** 'Herbie' **Herbert** and **LCpl Karl Davies** to act as custodians for the Units ammo stocks.

TRAINING SUPPORT TROOP
SSI **SSgt G. Steel**

The Unit Training Wing has had a busy period of late with the postings out of **Sgt McNeilly** to Blandford and the posting in of the first RAF Regt Training Sgt into the Wing in **Sgt Steve Hills** from RAF Benson. Welcome to **Steve** and his wife **Debs** and family, we hope you enjoy your 3-year tour in sunny Cyprus with the Army. The Training Wing has also been implementing a Joint Military Continuation Training (JMCT) programme to ensure all the three Services receive effective annual military training. This has included field firing at Pyla ranges, security training within camp and the planning of the revamped Station Battle Camp at the end of the year to be held at Melanda in the West of the island. All three instructors within the Wing are eagerly awaiting confirmation of ammunition stocks

and pyro availability to ensure a good time is had by all! The Medical Centre under the watchful eye of **Sgt John Richards** remain ready to treat any injuries of any natures including heat aliments, snakes and LOA over load. Farewell from that department goes to **Cpl** 'Paddy' **Reece** who is off to 59 Independent Commando Sqn RE. The gymnasium has a new firm hand on the tiller with that of **WO2 (QMSI) Neil Bragg** who likes it so much he has took a year out of promotion to remain at Ayios Nikolaos. He is ably assisted by newly promoted **SSgt (SSI) Nikki Pearce** and **Cpl** 'Baz' **Bazzard** who has succumbed again to marriage within the Unit. Congratulation's to you both.

ADMINISTRATION SUPPORT TROOP

UAO	**Flt Lt S. Chadwick - Higgins** RAF
RAOWO	**WO2 (SQMS) R. Mills**
ROC	**Sgt A. Attwood**

FAMILIES OFFICE

Ably led by Capt **Blod Godwin** R Signals and supported by the Estate Warden, **WO2** 'Brummie' **Dowling**, the two play an intricate role in maintaining harmony in the Unit. It is a busy employment (or so they tell us) but both still manage to regularly prise themselves away from to the golf course. Both bandits spend so much time at the 19 hole that that the families Center could be relocated there….

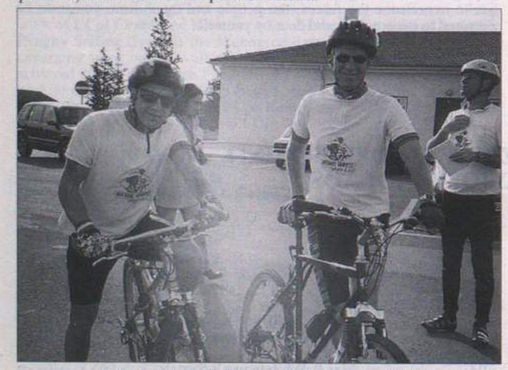
840 SQUADRON

Sqn Comd	**Sqn Ldr Mike Edwards**
WO Eng	**WO Dave Watson**

Sgt Kev Cooney is the only Royal Signals person in a predominantly RAF Squadron and holds the post of SNCO Crypto, assistant to the Custodian **Flt Lt Jim Higgins**. In March of this year **Sgt Cooney** took part in the Cyprus Mountain Challenge 2000 Cycle Ride to raise money for UK and Cyprus Charities. Held over three days and taking in all Cyprus Units on the Island, he and a total of 18 other JSSU (AN) personnel entered and completed this very demanding cycle

Day 1 Ay Nik to RAF Akrotiri (160km) Via Episkopi Garrison
Day 2 Akrotiri to Mount Troodos (64km)
Day 3 Mount Troodos to Ay Nik (176km) via UNPA Nicosia

Three days, 400kms – No mean feat. Not to be deterred **Sgt Cooney** is set to join another team in an attempt to raise more money but this time Off Road across the inhospitable local terrain (could be even more painful!!) See future *WIRE* reports for results.



JSSU (AN) Cyprus Mountain Challenge 2000
(L-R): Sgt Kev Cooney and Sgt Steve Pattenden pictured at the start point – Ayia Nik Forum
Rear right is SSgt Steve McInally preparing himself for an interview with Local Reporters

234 SIGNAL SQUADRON

Sqn Comd	**Maj Tony Urwin**
SSM	**WO2 (SSM) S. Smith**

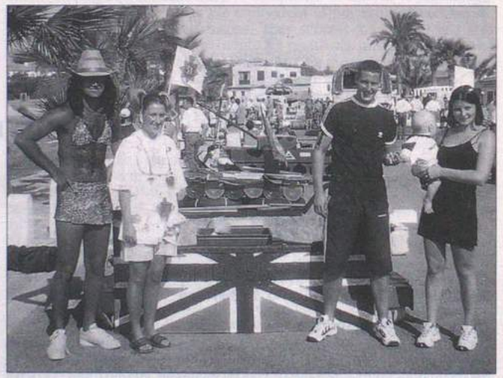
Changes out here in the sun have seen the OC, 2IC and SSM all on the move at roughly the same time. **Maj Mike Grittiths** leaves for the MOD and we welcome **Maj Tony Urwin**, (this Walkabout thing looks a piece of cake to me!) Look forward to you entering next year then Sir. **Capt Steve Palfreyman** leaves on promotion after his third tour in the sun for a cushier time in the UK. Good luck to you and Bev and the family and you did complete the Walkabout. Present incumbent 2IC is **Capt Caroline Woodbridge** who immediately enlisted into every physical event going on the Island, including the Walkabout although this didn't include any fire fighting courses. **WO2 (SSM) Martin** 'I've been around the block' **Boston** moves from the SSM slot to the Estate management post within the QM's – some CV for a Supvr R. Returning to the fold from Bosnia is **WO2 (SSM) Steve Smith** who immediately swapped computer and Supvr R brain for the more difficult job of SSM. Farewell and welcome to you all.

CYPRUS RAFT RACE 2000

Every year in Cyprus 62 Eng Sup Sqn organize the All Island raft race at the Cessac beach in Dhekalia. The aim of the event is to raise money for charities both in Cyprus and the UK. This year First Line Support (FLS) 234 Sqn decided to revamp last years model, which had had a maiden voyage rather like that of the Titanic although there are no icebergs in the Med! After acquiring several empty vegetables oil drums from the cookhouse, the lads from FLS set about making the raft armed with a few cans of lager and a box of ice pops! The theme was decided by the team manager, **Cpl** 'Geordie' **Tonks** who seems to have a fetish with the Spice Girls. The raft was made to look like the Spice World bus with Union Jacks blazing downs the side.

Last year we entered as an all male team so this year it was decided that a mixed team was in order and made for a better chance of winning. The day of reckoning arrived and everybody was prepared. It was quite a sight to behold. **Cpl** 'Hairy Egyptian rug' **Gaber** came as Scary Spice in a leopard skin bikini and boy was he scary! **Sig Saether** came as Sporty Spice and being daft lad that he is let the boys draw tattoos on him with a permanent marker! **Kersty** came as Baby Spice, complete with bib, dummy and pigtails! Then there was **Becky** who took the fancy dress one step further and dyed her hair black and came as Posh Spice. Every team was well stocked with egg, flour and tomato missiles and soon enough a full-scale battle was under way. Midway through the commotion a Military Police wagon turned up on its afternoon patrol. The battle stopped between teams, and in a fine military reaction everyone proceeded to bombard the patrol vehicle. The mixed race was first to go. It started with a 100mtr dash to the rafts then into the sea for flkm paddle. Our raft got off to a bad start going out in fifth place, but all in one piece and still floating. With a bit of grit and determination and also the fact that there were bits of other teams rafts sinking everywhere the team pushed up into second place battling with the waves and rival teams. The team managed to pass another 234 Sqn Team with a great tactical advance by throwing a massive bag of flour in their faces. Our raft made up a lot of ground on the front-runners who had got off to a flying start but we had to eventually settle for second place. All in all the team did well and received a warm round of applause from the spectators of 234 Sqn who turned up to watch. The raft team managed to raise £180 for RNLI and the 'Nicosia Special Baby Care Unit'.

Also taking part was the Wives Club team who came dressed as Bunnies, consisting of **Wendy** 'leader of the gang' **Hamilton**, **Collette Herbert**, **Claire Solomons** and **Traci Richardson**. They got off to a bad start getting caught up amongst another rafts oars, but then made good time to the first buoy. After battling with the wind and increasing waves they decided to head back to shore with most of the other contenders, thereby saving themselves and their raft for next year. Well done, girls!!



FLS Cyprus 2000 Raft race team
(L-R): Cpl 'Hairy Rug' Gabor, Kersty Tonks, Sig Saether, Adam 'Brooklyn' Clark, Becky Clark.

Wives Club Cyprus 2000 Raft race team
(L-R): Colette Herbert, Claire Solomons, Wendy Hamilton, Traci Richardson

14th SIGNAL REGIMENT (ELECTRONIC WARFARE)

CO	**Lt Col D. P. Meyer**
RSM	**WO1 (RSM) D. L. Palmer**

226 SIGNAL SQUADRON (ELECTRONIC WARFARE)

Sqn Comd	**Maj Jonathan Gillespie**
SSM	**WO2 (SSM) Dave Watson**

The Squadron welcomes the new Sqn OC, **Maj Jonathan Gillespie** who has joined us from across the water. Straight into planning and executing another deployment to Sierra Leonne, hitting the ground running, just about describes his arrival! The Squadron is still very busy with various exercises, demos, adventurous training and Operational deployments ongoing. The return of various equipment's now mounted in Pinscauer mean that 640 Tp are being kept very busy, not least with showing off their new kit to the CO who looked decidedly at home inside the PILOT vehicle. Congratulations to **LCpl Hambleton** (nee Griffiths) and **Sgt Hambleton** on their recent marriage.

640 SIGNAL TROOP (EW)

Tp Comd	**Capt Quinsey**
Tp SSgt	**SSgt Flaherty**

The Troop says hello to **WO2 Paul Crawley, Sgt Chris Dunn** on his dramatic return to 14 Sig Regt (EW) and 'straight from the factory' **Sigs** 'Mac' **McAllister,** 'Lofty' **Hannam** and 'Tranny' **Tranter**. Sad goodbyes go to **Cpl Paul** 'Petts' **Pettman** who seemed to be in the Troop forever and at last has managed to escape and **SSgt** 'Franko' **Flaherty** who will be sadly missed (by some more than others!). It started off as a quiet period for the Troop, due to the fact that August has been a maximum leave period. However, it did get more interesting towards the end of the month when the Troop disappeared to Weymouth for a week of 'adventure training'. As usual all Troop members went away and had a thoroughly challenging time. Numerous stories have already begun to circulate as a result of some events that went on that week. Firstly, if the Corps gymnastics rep is reading, you might want to contact **LCpl** 'Tinny' **Foyle**. Whilst running from one drinking establishment to another in the rain, he failed to see the chains between two bollards. This resulted in him completing a perfect triple somersault with pike and gracefully hitting the floor. For this magnificent effort he received a standing ovation from the masses of onlookers. The best incident of this adventurous training exercise was when the hill walking and mountain biking instructors, **Capt Quinsey** and **SSgt Clements** respectively, were called back to Cawdor Barracks on the second day. Ah well! No arduous training for us, but for the members of the Troop that were called back a nice little trip to West Africa lay in wait, a second time there for some of them, chin up lads! This adventure training was the last piece of organising that **SSgt** 'Frank' **Flaherty** carried out for the Troop. It was a most enjoyable exercise that was much appreciated by all those who attended. In the next few weeks we have two of our lads deploying on the Regimental Cadre Course. **Sigs** 'Phil' **Keen** and 'Steve' **Langhorne** are off for two weeks of fun on the lovely training area at Sennybridge. The top soldier on this course will be automatically promoted and so `good luck' lads.

LEWT

A restful period for LEWT on return from spearheading the EW support to Op Basilica. July saw the Troop support the 2 Para Battlegroup on Ex Eagles Green Strike in the Galloway Forrest. The initial phase with the Pathfinder Platoon was supported by **Sgt South** who carried out a night-time tandem HALO decent from 10,000 ft. This was the first time this method has been used by 16 AA Bde. The remainder of the Troop deployed with 2 Para Patrols Platoon ahead of the Battlegroup. The rest of the Exercise was carried out in normal LEWT fashion, congratulations to **WO2 (Supvr R)** 'Screech' **Spiers** on winning the best field soldier award. As normal **Sgt** 'My back's sore' **Burton** had to leave early, but was forgiven. Adventurous Training was carried out in mid-August in the local area. The highlight being **LCpl Neill** who actually thought that water-skiing actually happened under water! Congratulations to **Dawn** and 'Paddy' on their recent arrival of a bouncing baby boy. And a sad farewell to **WO2 (Supvr R) Jim Spiers** who has been posted to DSSS.

245 SIGNAL SQUADRON (ELECTRONIC WARFARE)

Sqn Comd	**Maj Justin Hodges**
SSM	**WO2 (SSM) Griffths**

Ex Mouflon's Wanderer was the Squadron adventure training summer camp at HMS *Indefatigable* in Angelsey. The course was designed in such a way that the participants were able to enjoy a variety of activities including, hill walking (enjoy and hill-walking in the same sentence) in Snowdonia, canoeing, mountain biking, rock climbing, orienteering and golf. The journey north was slow and unexciting and Squadron members on the bus were beginning to wonder why we had been driving for five hours and had not yet left Wales! We arrived, we were briefed and then followed **Sgt** 'Shaky' **Gilmartin** to the bar. A good night was had by all. The following day we were split in to our groups and the unfortunate Group 1 were sent on their way, with **SSgt** 'Norm' **Finnegan** and **Sgt** 'Blue Job' **Black,** to the top of Tryffan. The rest of us were off for a leisurely day with **LCpl Stu Green** in the unsinkable canoes, one of which **Sgt Ed Mortimer** managed to sink. The rest of the two weeks were spent swapping and changing between the different activities. Noticeable underachievers were **Sgt Mick Black** and **LCpl Stu Green** for getting lost on the mountains. Then there was **Sgt Ed Mortimer** for sinking his canoe the first time he got in to it, **SSgt** 'Gwar' **Timmis** for not climbing as high as the rest of his class. Not forgetting **Sig** 'Chunks' **Beale** for getting hit on the head with a golf ball and **Sgt** 'Shaky' **Gilmartin** for the bar. Ex Courageous Bat saw the majority of the Squadron get away to Denmark for a Multi National EW exercise. This served the purpose of A: maintaining relations with Drunken Vikings (Well done **WO2** 'Amazing' **Craig Shrives**) B: with the Brits and the Danes united as the 'non-Europeans' compete and destroy 'The Europeans' in horrible drinking games. C: Fail miserably in chatting up the Norwegian Model posing as an officer (Not so well done **Cpl** 'Fitzy' **Fitzpatrick**) D: Look at a bridge and lastly E: Give one of those speeches that ends ….and well done the girls, you're all very pretty.'

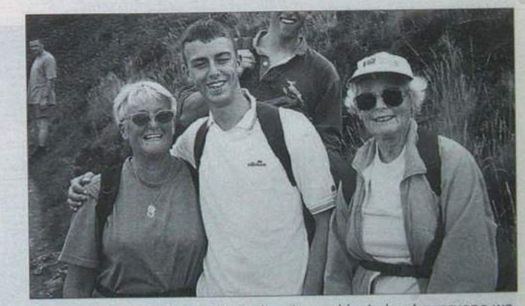
237 SIGNAL SQUADRON (ELECTRONIC WARFARE)

Sqn Comd	**Maj Dave Drinkall**
SSM	**WO2 (SSM) Richardson**

Still enjoying ourselves in Canada, back soon!

TECHNICAL MAINTENANCE TROOP
ADVENTURE TRAINING TO COSTA DEL NEWQUAY
10 -15 SEPTEMBER 2000 - *by Sig Barn*

Day One began on the sea, fishing. Now this may sound rather boring but actually it didn't turn out to be after **LCpl Gray** and **Sig** 'Rubber toe' **Barn** used some alternative bait over the edge of the boat. Natural bait, it seemed works better than over the counter bait so we 'attempted' to catch some of what the skipper called mackerel. Given that we were not natural sea dogs we did not embarrass ourselves. The excitement was building, especially when **Sgt** 'Alfie' **Davidson** started, finally someone who knew what they were doing. The skipper decided to rename us all alternating between 'Love' and 'Sweetheart'. On the next exciting day brought rock climbing, abseiling and traverse. Especially fun for vertigo sufferers like **LCpl** 'Stavros' **Constantdi** who realised halfway down that he was a sufferer and decided to climb back up, to the extreme amusement of all the troops. We did however applaud him for his heroic effort. Well done 'Stavros'. Although everyone was not to scared of the climbing, for example **Sig** 'Trigger' **Read** who shot up the wall like a man possessed. We also had **Sig** 'Posh Geordie' **Turnbull** trying to keep his head down in order not to get a mention. Our next activity was hill-walking, along a coastal path perhaps? This seemed like a good idea to start with until a slight mistake was made by the bus drivers **Cpl Clifford** and **SSgt Evans**, who managed to turn an 11 mile trek into a 20 mile forced march. The march soon slowed down as a small number joined **Foreman Henly** who misplaced his teddy over the cliff and slowed the whole parade down. **Sgt Evenden** decided to jazz things up by coming up with the wonderful idea of getting **Sig Barn** to ask defenseless old ladies to have their photos taken with them. All in all a good time was had by all.



Sig 'Bob' Barn (white T-Shirt) who stopped just about everyone we met to have his photo taken, with Cpl 'Skippy' Roach obviously complementing him on his choice of subjects

EXERCISE SILVER CHILD
14 SIGNAL REGIMENT (EW) V 1 (UK) ADSR
26-28 AUGUST 2000 - *by Cpl Gunn, TM Tp*

Having completed our 'thorough' training schedule, the 14 Sig Regt Team, comprising solely of HQ Sqn, were in high spirits and ready for Ex Silver Child. Although, due to the communication skills between the two units, the programme of events had little resemblance to what we had

trained for! Our high spirits soon disappeared when the Team's Bedford broke down half a mile outside Haverfordwest. This wonderful beginning was soon to be a true reflection of the whole weekend. However, confidence was still high as the first event started. The 14 Sig Regt Team started against 1 Div on the 33 mile road run from Sutton Coldfield, and full effort was given even though their team had five Army runners. Eventually we completed the run, through six counties about ten minutes behind them.

The roads were then terrorised by the whole team on an assortment of racing machines ranging from a 'top of the range' mountain bike, ridden by **Sig Mick Brennan** down to **Cpl Gaz Bartie's** beer bike, which needed a lot of TLC to get it going. However, the determination showed when **LCpl Craig Wildgoose** and **Sig Mick Brennan** finished the 33-mile bike ride and crossed the line first. However, the rest of the riders slowly followed, due to being dehydrated, as our backup van, driven by **Cpl Mat Turner** decided to do a bit of sightseeing instead of handing out fluids. The second day started off well and injury free, although our chef, **Pte** 'Chef' **Hirons** had a meeting with a certain S. Artois the night before and subsequently had dubious stains on his clothes. Both rival teams joined together to push the 1 3/4 ton trailer the 25 miles towards London. During this time they managed to raise a considerable amount of money through the streets, although **SSgt** 'Dougie' **Douglas** informed us that he had picked up injuries in both calves due to driving the minibus at 5mph for 25 miles! Once thoroughly refreshed and nourished thanks to the manager of McDonalds, both teams started the second part of the competition, a 20-mile road run. Aches and strains were showing, and teddies were being thrown into corners at lightning speed as changeovers were being dubiously extended, well, at least for **Cpl Damian Gunn** and **Sig** 'Ilesy' **Iles.** Spirits were soon lifted though, as the 14 Sig Regt Team crossed the line beside the 1 Div team. As this was our last night, and the bulk of the competition was over, the 14 Sig Regt Team decided to do a bit of sightseeing in Uxbridge. However, the night seemed to drag as **WO2 (SSM) Daz Newton** insisted on showing off his horticultural skills as he pointed out every flower, tree and shrub in the area, not only naming them in English, but in Latin as well! Final day and the 11-mile canoe down the river Thames got underway smoothly with both teams setting off together. However, things were soon to change as canoes were wobbling everywhere due to the 'tsunami' caused by passing barges. Eventually **Cpl** 'Gaz' **Bartie** and **Sig** 'Ilsey' **Ilse** had to be forced onto the Royal Engineer's safety boats. Never the less **WO2 (SSM) Daz Newton** insisted he completed the 11 miles in his canoe - so the safety boats towed him! Well done to **LCpl Craig Wildgoose** who managed to complete the whole distance under his own steam. All that was left to do was pack up and head back to Haverfordwest, but a short delay and a whistle stop tour of London was to ensue due to a slight mishap. Still, it shows that we're all human after all! Overall though, a great time was has by all and the aim of the exercise was met. The three teams managed collectively to raise over DM 48,000.00 and the endurance over the last three days all seemed worth it as we handed over the cheque to Great Ormond St. Hospital. Also it was wonderful to see the faces of the children on the wards as we handed out the toys we collected. Eventually, it was decided that over all the events, a tie between the 14 Sig Regt Team and the 1 Div Team was the fairest result.

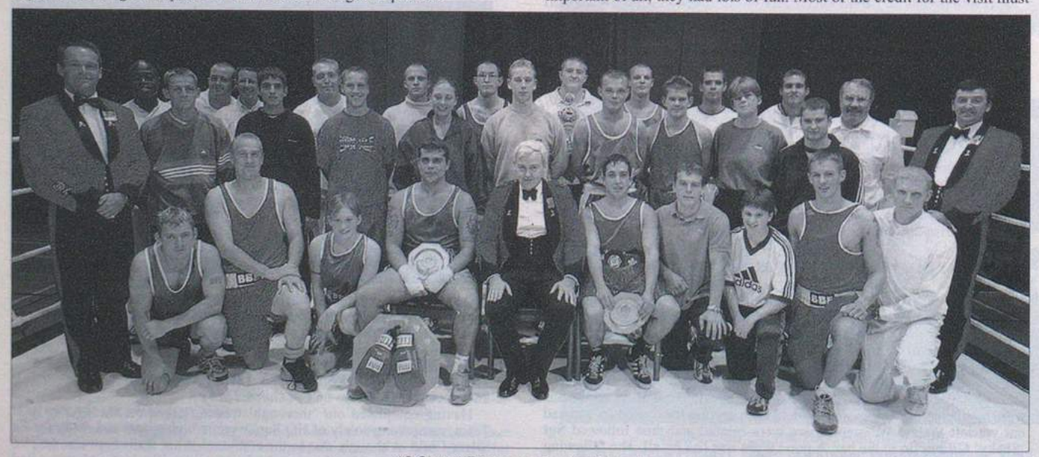
XVI 16 SIGNAL REGIMENT

16 SIGNAL REGIMENT BOXING NIGHT 27 SEPTEMBER 2000

The Regiment held their first Inter Squadron Boxing Competition since 1998 on Wednesday 27 September. The evening began with a Black Light demonstration by the 1 DWR, which was then followed by a comical 'Good and Bad' boxing demonstration by **WO2 (RQMS) Jed Robinson**, **WO2 (QMSI) Bob Price QGM** and **WO2 (MTWO) Dave Stewart**. This set the tone for the evening and was well received by all. The preliminary rounds for the competition had been held over the previous two days culminating with a total of 21 boxers progressing through to the Final Bouts on 27 September. The results were as follows:

Super Heavyweight	-	**LCpl Unsworth**	230 Sig Sqn
Featherweight	-	**Cpl Davies**	HQ Sqn
Lightweight	-	**Cpl Ferguson**	HQ Sqn
Light-welterweight	-	**LCpl Faid**	230 Sig Sqn
Light-middle	-	**LCpl Elkin**	252 Sig Sqn
Bantamweight (Female)	-	**Sig Steel**	255 Sig Sqn
Welterweight (Female)	-	**LCpl Robinson**	255 Sig Sqn
Middleweight	-	**Sig Winters**	230 Sig Sqn
Light-heavyweight	-	**LCpl Driver**	HQ Sqn
Cruiser-weight	-	**Sig Elliot**	230 Sig Sqn
Welterweight	-	**Sig Scott**	255 Sig Sqn

The following presentations were also made to **Sig Baron** (255 Sig Sqn) for the best runner-up and **LCpl Faid** for Best Boxer. The Inter-Squadron Boxing Champions for 2000 were 230 Signal Squadron.



16 Signal Regiment Boxing Squad

OXFORDSHIRE (RGJ) BATTALION ARMY CADET FORCE VISIT - *By Lt O. Dinnis, 230 Sig Sqn*

The Squadron recently hosted a visit by members of the Oxfordshire (RGJ) Army Cadet Force. **Capt Mike Harland** of the RGJ ACF took twelve cadets and two adult instructors to visit 16 Sig Regt to get a taste of Regular Army life. During their visit their experiences were not confined to the Royal Corps of Signals; they were also taken to visit elements of the Army Air Corps, the Royal Air Force, the RAF Regiment, the Royal Artillery and the tanks of The Queens Royal Hussars. The visit was not just a carousel of demonstrations for the cadets; they had plenty of hands on experience as well using the ranges (another special mention to **Sgt** 'I helped too!' **Wilkinson** for doing an excellent range package) and undertaking command tasks all mixed in with plenty of PT and sport. The emphasis for the visit, however, was on giving the cadets as broad a view as possible of Army life in Germany. The Cadets were fortunate during their range package as the nearby 7 Sig Regt also had cadets visiting. The scene was set for a shooting competition with a trophy for the winners. The competition was hard fought but the lads from Oxfordshire were eventually victorious following a decisive performance in the last round. The visit was a resounding success with all participants, both cadets and those who helped out, having a great time. The aim was achieved with the Cadets being exposed to a large slice of the Army in Germany but, most important of all, they had lots of fun. Most of the credit for the visit must go to **SSgt Rab Marshall** who put in excellent effort to ensure the visit went without a hitch. Also of invaluable assistance were **Cpl Billy Bedford** and **LCpl Jase Lowes**.

LEICESTER TROPHY FOOTBALL
by SSgt John McNeill, 230 Sig Sqn

Late in September, the Regimental Inter-Troop Competition (The Leicester Trophy) continued to be a highly charged and well-fought out occasion, the 7-a-side football competition, being no exception. **WO2 (SSM) Rob Hood** organised the competition into two separate leagues of six teams, the winners and runners-up of which, progressed to the semi-finals and final. These were contested by Support Tp (230 Sqn) v SCPR (252 Sqn) and by TN015 (230 Sqn) v TN016 (230 Sqn) as you can see, all three teams from 230 Sig Sqn were able to progress to the latter stages of the competition. It wasn't a fix, honest!

The first semi-final was won outright by Support Tp, however, the second semi proved to be a much tighter game, with yet another dazzling display and goal by **Sig** 'Wullie (Laudrup)' **Filson**. There were excellent performances by **Sgt Andy** 'I'm too old for this' **Simmons** and **YofS Oz** 'Adams' **Faramus** at the back, a hard (yours truly collecting a cracking black eye along the way!) but good spirited 1-1 draw was fought out. The penalty shoot-out then followed. **SSgt John** 'The Cat' **McNeill** continuing a sound performance in goal, saved the first two penalties (they were small goals!) helping to give us the upper hand. However, under pressure, it was the cool heads of **LCpl Jim** 'Poseur' **McGrory**, **LCpl Ross** 'Davie Cooper' **Quinn** and **Sig Billy** 'Panda-eyes' **Merrick,** which enabled us to progress to the final.

The final between TN015 and Support Tp was physical but well spirited and once more, resulted in a draw. With tiredness creeping in after playing throughout the day, the substitutes came into the fray. **Sig Nige** 'Vinny Jones' **McDiarmid, Cpl George** 'Ravanelli' **McMinn** and **LCpl Gaz** 'One Lung!' **Jack** all playing an extremely valued part that enabled the whole team to get to this stage. With another two penalties saved by yours truly and with the other TN015 lads coolly tucking theirs away, this left Support Tp only needing to miss one more. The ball struck the underside of the bar, hit the deck on the line and bounced out! For a short time it looked as if this would become the most controversial decision since Maradonna's 'Hand of God', as the referee adjudged the ball not to have crossed the line! The protests were short-lived and TN015 began to celebrate as Leicester Trophy Football Winners 2000.

EXERCISE PENNINE BACKSTOP - *by Sgt Taylor, 255 Sig Sqn*

Ex Pennine Backstop, ably led by **Sgt** 'Just a couple more kms' **Taylor,** took place in the UK from Edale, Derbyshire up to Kirk Yetholm just over the Scottish border. The primary aim was to walk the full length of the Pennine Way (274 miles) in just nine days. The secondary aim was to raise money for the British Heart Foundation to the sum of £200. The team covered around 50kms a day, sometimes over very difficult terrain. This proved one of the most physically demanding and mentally testing experiences any of the group had ever undertaken. The group consisting of **Cpl** 'Seve' **Seville**, **LCpl** 'Ginge' **Birbeck**, **Sig** 'Knuckles' **Whitworth** and **Cfn** 'I can trap anywhere..' **Smyth** spent between 10 and 12 and half hours a day on their feet. Walking the Pennine Way in such a short time proved to be a once in a lifetime experience, the scenery and solitude proved to be at times spectacular, the UK summer weather was again predictable with sun, rain, thunder storms and sleet all helping the journey. The 9-day expedition was followed by a much deserved two days R&R in Edinburgh before making the way back to sunny Germany.

EXERCISE OCTOPUS BACKSTOP - *230 Sig Sqn*

Ex Octopus Backstop took place in Cyprus during July this year. **Capt** 'Chinook' **Francis-McGann** organised the diving expedition to Larnaka for 12 people from the Regiment. The expedition left Germany for Cyprus via the UK and a rather expensive taxi bill. The aim of the expedition was for everyone to gain a BSAC qualification. The training went well with everyone successfully completing their club diver qualification and progressing to gain their sports diver. **LCpl** 'Pre-tour Leave' **Kneale** enjoyed his preparation for his visit to Kosovo by studying into the night for all his exams. **Sgt** 'Washing Machine' **Haslam** tried unsuccessfully to climb into the boat without using the steps after realising that floating in the ocean was not for him and **Sig Williams** decided she wasn't going down at all! Others took to the water like fish, notably the buddy pair **Sig Steph** 'Two Lungs' **Jackson** and **Cpl Mick** '007' **Burton**. The culmination of all the training for most people was a deep dive on the *Zenobia* wreck. The *Zenobia* sank in 1980 and has remained unsalvaged ever since. The group swam through the Officer's mess and along the decks through shoals of Wrasse and Bream. The more advanced divers descended to the seabed, where a cargo of eggs lay preserved as they fell over 20 years ago. Apart from a few minor transport details (what no flights?) the group had a fantastic time with everyone gaining at least one qualification and an enthusiasm for scuba diving. Can't write this without a mention for **Sig** 'Russian Liaison Officer' **Doherty** who definitely needs to improve his dancing techniques!

KAPPE MILITARY REFIT BRADBURY SHOP (16 SIGNAL REGIMENT) IN JHQ

The now well known Bradbury shop and perfumerie owned by 16 Sig Regt in JHQ has undergone a major refit and facelift paid for by KAPPE military. To the pop of champagne corks the shop had its grand re-opening on Wednesday 4 October initiated by the Commanding Officer 16 Sig Regt, **Lt Col Tony Morphet** Royal Signals accompanied by his wife **Katrin**. The Regiment continues to maintain a special link with KAPPE who supply quality perfumerie products to the shop, along with two qualified beauticians to give expert advice on the product range and for those who wish to feel pampered and revitalised, a free makeover service with no obligation to purchase.

CO, Lt Col Tony Morphet and UWO, Capt Kevin Fitzpatrick with the 'Team' from the Bradbury Centre

21 SIGNAL REGIMENT (AIR SUPPORT)

CO	**Lt Col Peter Gillespie**
RSM	**WO1 (RSM) Al Jenkins**

HEADQUARTERS SQUADRON

Sqn Comd	**Maj Chas Dale**
SSM	**WO2 (SSM) Nick Organ**

TECHNICAL MAINTENANCE TROOP

Tech Adjt	**Capt Lee Wookey**
FofS/OC M Tp	**WO1 (FofS) Ady Knight**

The Troop was involved in Ex Mike Muster, which was a slow time introduction to the setting up of a detachment and working in the field. This would be the first time for the majority of us and a necessary preparation for the upcoming Ex Red Beaufighter 3. The Exercise had the added bonus of experiencing **SSgt Ord's** Spence Witch Project'! This was a fun learning exercise to refresh Infantry skills, setting a basha up and living in the field without 240v from the ERVs and ESVs (what a *shock* (sic!) to the system that was)! A big hello and a welcome to the new arrivals to TM Tp, **WO2 Si Graham**, **SSgt Steve Pattenden**, and **LCpls** 'Ginge' **Ranson**, **Pat Eason**, **Wayne Lill**, **Siobhan Stanway** and **Stav Angelidi**. The departure of two great characters, **Sgt Chris Gearing** and **Sgt Polly Poulson** was toasted (hic!) in the usual manner. They have moved to more exotic and tropical locations (Germany and Scotland). So a hearty hello to the arrivals and a sad goodbye to the deserters; we hope they settle with ease! Finally just a small mention for **Sgt Roy** 'You'll never get me to buy a round' **Parr** who doesn't like getting his name in *The WIRE*.

MOTOR TRANSPORT DEPARTMENT

MTO	**Capt Pete Griffiths**
MTWO	**WO2 (MTWO)** 'Chalkie' **White**

It has been another busy month for the Regimental MT Sect. Let us begin with the large number of new personnel posted in, **LCpls** 'Scouse' **Makin** from 19 Mech Bde and **Russ Russell** from 1 (UK) ADSR. **Sigs Mike Berry**, 'Cully' **Cultshaw** and **Pat Butcher** from 11 Sig Regt, **Si Laurenson** from 220 Sqn and **'Barny' Barnard** from 1 (UK) ADSR. A warm welcome to you all.

With this influx of manpower, the MT was able to enter the Regimental Patrol Competition. The day started early with a cold mist looming over Colerne. Once we all got onto the training area it seemed clear that everyone was very keen, (well one or two of them, anyway).

Full credit to the Team as they tackled every stand with confidence, even if we did have some experienced soldiers (not!) showing off their particular skills. The Observation Stand was all about being discreet which went well (not!); on the way out **Sgt Andy Hayes** tactically climbed a fence only for it to collapse! Map Reading Skills were tested with point man **WO2 (MTWO)** 'Chalkie' **White** leading the way showing the younger members how not to get lost (not!). 'Oh really! From stand to stand.' The Tactics Stand went to prove who the 'Rambos' in the section were (not!), even **LCpl** 'Russ' **Russell** crawled through a nettle patch without realising. The Survival Stand showed the team how fire starter **Cpl** 'Esky' **Eskdale** was at living in the field with only a match and twigs. Apparently, *all* the wood and grass in the training area was soaking wet. On the NBC stand **Sgt** 'Mac' **MacDonald** passed on his MT knowledge to the Team (not!) as everyone had to change a wheel on a landrover whilst in full NBC dress. At the end of the day the Team marched back to the finishing point with the help of **Cpl Steve Jay** setting the pace. As the results were announced, the MT Team came a well-deserved Third with the potential (OK!) to come First in future events.

On a closing note the MTO, **Capt Pete Griffiths,** has been boasting to all of his fellow officers that it's nice to come into work in the morning and hear the magic words so dear to his heart, ' Parade, Parade Shun', from the MTWO. This couldn't have been done two months ago. Things *are* looking up in the MT.

QUARTERMASTERS (GENERAL) DEPARTMENT
QM (Gen) **Maj Tom Dean**
RQMS(Gen) **WO2 (RQMS) Nigel Roberts**

Maj Tom Dean, the QM (G) who tends his flock with care and compassion, has issued a timely warning to all. 'Winter is fast approaching. I've even put the heating on, the nights are drawing in and it is getting late early, so, because I have no one else to do the work, please take care as you drive to and from camp. Those little country lanes can be quite dark, so be seen, use your lights and above all, ensure that you and your vehicle are up to winter driving conditions.' **WO2 (RQMS) Nige Roberts** is away on a course now, learning how to be a real RQMS. We, his hardworking staff, wish him well but are getting a little apprehensive about his return. Will everything have to be done 'by the book', (at least until the newness of his course wears off!). Anyway, the Department has been left in the safe hands of **Cpl Mark Brown** who, when he stops laughing, can take the job seriously. We offer congratulations to **Sig Glen Gibbs** and **Natalie** (Nee Yule) who gave birth to a 640 gram (what's that in old money!) baby girl on Wednesday 20 September (three months prematurely!). The slightly 'shell-shocked' dad is also doing well. His smug grin makes a puppy with two tails look sad!

The clothing store is on the move! Too many people got to know of its whereabouts and wanted issues. The answer appeared to the QM (G) in a vision, 'Let's hide it,' he is reported to have said! So with a lot of heaving, pushing and the odd naughty word, **Audrey & Co**. have packed up and left. They didn't go very far really, just round the corner to the old ASA store.

The PROPMAN, who is actually the QM (G) in disguise, declined to talk to the press and directed me to his stalwart aides **Sally** and **Jennie**. They are a lot prettier, so I had no objections, and the printable extracts from their report are as follows, I must admit that getting them to talk was a trifle difficult at first. The chauvinists may find this hard to understand, but women do get a bit shy in the 'interview' situation. However, the info from the PROPMAN Dept is basically that keeping control of the purse strings, whilst trying to satisfy all works orders, is a very difficult task, particularly on an old Station such as this. So spare a thought for your PROPMAN wherever you are (and no, there are still no Jacuzzi's for the SLA blocks!). The above tissue of 'truth economies', (I'm like a politician, I never tell fibs), was concocted in the absence of RQMS(G), by the MFO Clk who will deny all knowledge if questioned.

QUARTERMASTERS (TECHNICAL) DEPARTMENT
QM (Tech) **Maj Ken Clark**
RQMS (Gen) **WO2 (RQMS)** 'Geordie' **Merrie**

The QM (Tech) Dept has had a Board of Officers and is now tired and is on holiday, thank you!

TRAINING WING
Trg Offr **Capt Brian Johnson**
Trg Wing WO **WO2 Ged Keane**

The summer saw the arrival of ex-rugby star, now golfing bandit, **Capt Brian Johnson** as OC Trg Wing and **WO2 (SSM) Ged Keane**, running chimp, fresh from winning the M35 Royal Signals Orienteering Championships. Allied with **SSgts Elvis Hayes**, **Gordon Murphy** (happy fellow) and **Sgt Brian Kirkup** the Training Wing has organised a series of Regimental Training Days.

On the 31 August, a Patrol Competition was run under the name Ex Red Rover on Salisbury Plain. The aim of the day was to assess a number of military skills over semi-ardous terrain under time constraints. Stands chosen were NBC, first aid, combat survival, map reading, minor tactics, field craft and an inspection. **Lt Sarah Irwin** proved that Sandhurst still produces excellent navigators, however, **SSgt Andy Gill's** ad hoc team of warriors won the competition. **Capt Bill Holbrook** and his happy band of 'worriers' closely followed them. Congratulations also for **Sgt Roy Parr** and his team of Misfits who came last, though they still kept on smiling all the way to the end.

On 19 September a Special to Role training day was organised called Ex Red Baron. It involved **WO2 Dave (War) Giles** covering Helicopter Handling drills, 29 Regt RLC teaching Dangerous Air Cargo (DAC), JHSU covering Landing Point Commander (LPC) and Rigger Marshalling, RAF Benson providing a MAOT Team and 846 NAS providing a Naval Sea King which gave all personnel a chance to practice underslung load drills. The day went very smoothly under the organisational flair of **SSgt Elvis Hayes**, so well in fact, that the Charlie Oscar gave him a pat on the back – blush!

220 SIGNAL SQUADRON
Sqn Comd **Maj Jim Forrest**
SSM **WO2 (SSM) Dave Giles**

Day to day life for the Squadron has improved immensely in the last few months with us settling nicely into our new hanger. The lads are just getting used to the fact that they now have electric lighting, heating and the running water comes from the tap and not down the side of the hanger wall. The only drawbacks with the hanger are how close it is to SHQ and the parking problems; who *did* put that lamppost there? An extremely well deserved promotion for **Cpl Robin Day Clement** who has run the Sqn MT brilliantly through the difficult period of settling into our new hanger. Fleet management is so much easier when you never allow vehicles out of the hanger, even if they are due on PRE.

The Squadron's input to the Regimental Open Day was in the form of a ducking stool. A straw poll was done to see who the lads would most like to see ducked and the **WO2 (FofS) Ally Duncan** came out top, that must have been a backhanded compliment. Thanks. In the end not surprisingly the CO, **Lt Col Peter Gillespie** (Sunday best suit and all – **Mrs Fiona Gillespie** threw the first sponge!) and the other Regimental personalities proved to be popular. However, all were eclipsed by the money taken to see **Sgt Jane** 'Oh are my jeans really see-through when wet' **Simmons** get ducked. As an attraction, she turned out to be head and shoulders (and clinging T-Shirt!) above the rest.

Welcomes to **Capt John** 'The Bandit' **Fraser** who has finally returned from Op Palatine, where he must have played a lot of golf. He was able to come back and finish second in the Regimental Golf Day. **2Lt Katherine** 'I never said I was good at volleyball' **Jardine**, direct from RMAS who on her first day was heard to comment on how handsome her new OC was only to find out it was the FofS acting as the OC for a wind up. **Sgt Das** 'Where's the DZ' **Kidd** met the Squadron, was sent straight on leave and then dispatched to Canada as IC of the advance party for Ex Iron Hawk. Three months in the Squadron, two days in the office can't be bad. Finally welcome to our youngest recruits **Sean** 'Bit of a Celtic ~~name~~' **O'Neill** beautiful baby son of **Cpl Rory O'Neill** and his wife **Emma**. Congratulations!

CHARLIE TROOP
Tp Comd **2Lt Murray Macdonald** (In Split, not in Canada!)
Tp SSgt **SSgt Russ Ezard** (In Canada, not in Split!)

EXERCISE IRON HAWK 2000 - *by Cpl Brown, Charlie Troop*

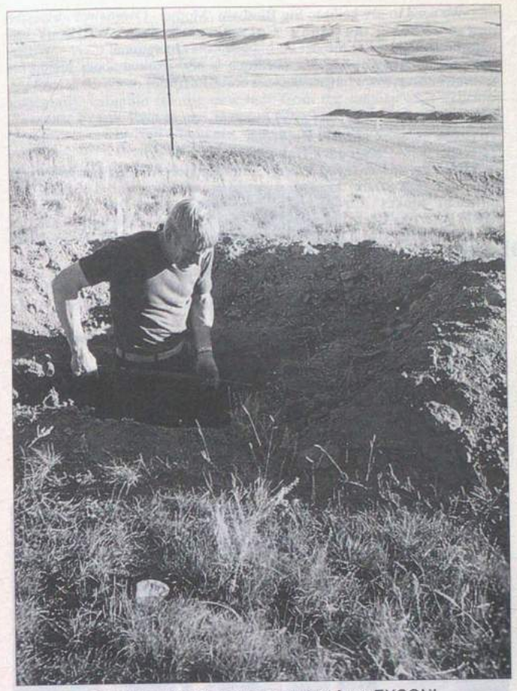
It has been a very busy time for 220 Sig Sqn from the months June through to October. Starting with adventure 'drinking in the last weeks of the summer, whilst based in Fremington, North Devon. This was greatly appreciated by everyone and a good time was had by all from sampling the local nightlife to the many different activities that were on offer. It was not so appreciated on returning to the Squadron to the Regimental Board of Officers, which seemed to drag on for a very long time. This left little time to get the vehicles ready and prepared for one of the biggest exercises that the British Army has ever undertaken; Ex Iron Hawk in Canada. It was all hands to the pumps and the vehicles were finally driven to Marchwood on Monday morning 24 July, with everything ready.

EXERCISE IRON HAWK,

Ex Iron Hawk, Canada, (MEDMAN 4/5) 20 August to 5 September for 220 Sig Sqn began with the advance party consisting of **SSgt Russ Ezard**, **Cpl Andy Brown**, **Sig Ian Lyons**, **Sig Jimmy Gentles** flying to Calgary on 6 August with approximately 160 other personnel from other units. Upon arrival, they spent two weeks in BATUS unloading the 2500 vehicles that had been sent over from England for the Exercise and sorting out accommodation. Then they blazed a path of glory as far south as Medicine Hat, as far east as Lethbridge and as far north and west as Calgary, Edmonton and the Rocky Mountains. After the main parties had arrived on the 14 and 17 of August the Squadron started to organise under the OC 220 Sig Sqn **Maj Jim Forrest**. This involved setting up two flying site detachments within Camp Eagle and testing a flight corridor from Camp Eagle to Wainwright using UHF, VHF, and HF equipment. The two radio rebroadcast detachments from 244 Sig Sqn, under **Cpl** 'Speedy' **Speed**, deployed north and south of the training area in preparation for the coming exercise, with the MAOT crews readiness and deployability being given a thorough work up.

CHANGE OF ADDRESS?

Don't forget to let us know so you can still receive your copy of *The WIRE*



Cpl Paul Howe's escape attempt from EXCON!

It was soon apparent that due to the lack of aircraft, and the 'Wainwright option' having being dropped, that things were not going to be that busy. Adventure Training and R and R packages were organised and were taken full advantage of: from **Cpl Shane Cooley**, **Cpl** 'Speedy' **Speed** and **Cpl Paul Howe's** fishing trip to **Sgt Daz Kidd**, **Cpl Dave Mears**, **Sig Ian Lyons** and **Sig Mick Secker's** free fall parachuting course. **Sgt Clayton-Batty** and **LCpl** 'Richy' **Bloodworth** both qualified as basic paragliding pilots on their week long paragliding package. As for R and R, **Sig** 'Scotty' **Steele**, **Sig Stu Mackie**, **Sig** 'Evil' **Stephen** spent four days at Edmonton and **LCpl Nick Berry**, **Sig Andy Morgan**, **Sig** 'El Gwapo' **Grist** and the OC, **Maj Jim Forrest**, visited Lethbridge. Eighty percent of the Squadron was able to do both R and R and adventure training, which were all thoroughly enjoyed.

Sig 'Taff' Secker seeks to defy gravity!

During the Exercise, the Squadron had to improvise with a number of things. From the normal resupply and manning of all the out detachments including the TAC HQ, which was set up at EXCON to the deploying of a 'light' FOB brick attached to an RAF refuelling point tactically out in the field. All, of this was against a live enemy with 'TES' kit. The two man-packed teams heli-lifted in, for three days supplying UHF/VHF communications out in the field whilst attached to a Tactical Supply Wing Forward Air Refuelling Point during the live firing exercises. Towards the end of the exercise all the vehicles were turned around in the field and prepped for travel back to England. The first of the parties travelled back on the 7 October to be closely followed by the rest of the Squadron. The Squadron has many commitments for the rest of this year, including Arrcade 'Confusion' in October and Ex Red Beaufighter 3 in November.

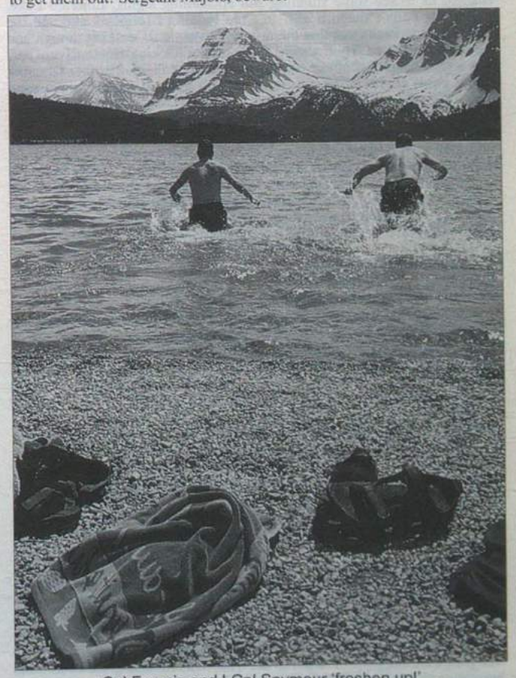
DELTA TROOP
Tp Comd **Lt Sarah Irwin**
Tp SSgt **SSgt Mark Gilbert**

EXERCISE DRAGON ROCK 29 JUNE – 22 JULY 2000
by Lt Sarah Irwin

Ex Dragon Rock was a Level 3 Adventure Training Exercise based in the Rockies, Canada with nine personnel from 21 Sig Regt (AS) and one from 3 (UK) Div HQ and Sig Regt.

The acclimatisation phase of the expedition was based at Banff, a small town with cartoon style 'wild west' bars crammed with people in cowboy hats and dancing the quick step. The mountains providing the Banff backdrop are spectacular and we spent three days exploring trails and peaks with fantasy names like 'Cascade Amphitheatre, Sulphur Mountain and The Hoodoos'. The Upper Hot Springs, located at Sulphur Mountain soothed our tired feet and aching muscles and, during this phase, three important lessons were learnt. First, don't trust the weather; second, don't take a bearing whilst resting your compass on a metal information board and third, don't fall into a glacier-fed river – **Sig Matthews** will tell you just how cold it is!

After acclimatising, we re-located to the Yoho Valley and swapped our tents for the relative luxury of Whisky Jacks Youth Hostel. It was here that most of the group had their first sightings of bears. Despite the time of year, there had been a large snowfall so the view from the hostel looked like a winter wonderland. Each morning, before the day's walk, expedition members could be seen sitting on the balcony looking at the view of glaciers, trees and mountains with wistful expressions. After the walks the campfire was lit and popcorn and 'snores,' (hot marshmallow and chocolate sandwiches) were enjoyed. We made friends with a Japanese man called **Makow** – the day that we drove to the hostel in a fierce snowstorm we had spotted a figure bent against the wind, struggling the 20km or so to Whisky Jacks. We stopped to give him a lift, and then interrogated him as to why he was wearing sandals – did he have no boots?! Of course he did, **Makow** replied with his characteristic smile; they were at the bottom of his bergen but he couldn't be bothered to get them out! Sergeant Majors, beware!



Cpl Francis and LCpl Seymour 'freshen up!'

The team head for the top of Sulphur Mountains, against a backdrop of the Rockies

Team photo call at Yoho Lake
(L-R): Sig Pankhurst, Cpl Francis, Sig Taylor, Lt Irwin, LCpl Seymour, Sig Turner, Sig Matthews, Cpl Cober, Sgt Francis

Trekking in several different National Parks throughout the Expedition enabled us to see some stunning and enchanting sights; Emerald Lake, Takakkaw Falls ('magnificent' in Cree Indian,) Moraine Lake and the Wenkchemna Peaks to name but a few. It wasn't all walking though and we were able to go white water rafting on the Kicking Horse River. This was a significant test of our nerves as we hurtled down the river listening to our guide's cries of, 'Right Back' or, 'All forward,' whilst negotiating 4km of grade 4+ rapids in 15mins – not bad! We visited the Calgary Stampede, a festival of cowboys and girls on bucking horses, cow chasing and using the lasso. This inspired **Sgt Francis** to arrange a day riding on a working ranch for us – as our confidence on horseback grew, we tried our hand at driving the cattle but we could only watch in awe as the lassoes were bought into action. Of course, there was a short R&R phase. A few returned to Calgary, some stayed in Banff to enjoy their eggs 'semi-well done,' and others drove to Seattle, where I am sure they were sleepless!

244 SIGNAL SQUADRON

Sqn Comd **Maj David Bizley**
SSM **WO2 (SSM) Paul Williams**

The Squadron welcomes a new boss and a new Yeoman since the last submission of *WIRE* notes. **Maj Ian Walton** has decided to venture back to school (RMCS) for a year and in his place we welcome **Maj Dave Bizley**. **WO2 (YofS) Steve Firth** is replaced by **WO2 (YofS) Mel McCorry** as the Sqn YofS and is apparently already bored with **SSgt (FofS) Mark Todd's** chat and weasel-like tech antics.

AGRICOLA DETATCHMENT REPORT - *by Cpl **'Wills'** Williams*

This month has been a busy month for the Agricola crew. The relocation of the det to a new plush communications centre and new living accommodation, meant a sad farewell to the tented site at the APOD (only 14 months after arriving – 21st Century really!) and an even sadder goodbye to the HAZBAR! The election period is keeping the det busy, with the escorting of ballet boxes and the associated air support around the AOR. On the personalities front, the det would like to say goodbye to **SSgt Morris Render** who has just left for UK after completing his 6-month 'Regt intro' tour. We would like to say welcome to **SSgt Andy Gill** who has taken over the job as OIC. Hello again to **LCpl** 'Jacko' **Jackson** on his return to KOS for his second four month tour with only a months break in UK- voluntarily – sad! The det must be able to justify a shrink now! **Sig Mickey** 'Why-Aye' **Young** needs to be congratulated on his promotion to det YofS without doing the course and providing the Joint Helicopter Force with a mission, as they didn't have one. We need to say hello to **Sig Blodwin** 'Mother' **Owens** who likes the power of being the daddy. **Cpl** 'Oh ya Beauty' **Williams** has unfortunately just left the det on his last ever Operational tour – 'Wills - It's been emotional!' **Sig Jez Skelhorn** is also excited about seeing his favourite sheep when he gets back to beautiful Wales.

ALPHA TROOP AMF(L) - *by LCpl Dave Shepherd*

Tp Comd **Capt Bill Holbrook**
Tp SSgt **SSgt Jack Hawkins**

Alpha Tp has enjoyed a busy summer period with two overseas exercises, Adventure training, a patrol competition and a exodus and influx of 'blokes'. Firstly we say goodbye to **SSgt Daz** 'V' **Sheerin MBE** who has been unbelievably promoted to SSM and posted to Dundee UOTC. **Cpl** 'Ollie' **Oliver** posted to 11 EOD, **Cpl** 'Benny' **Hill** who was selected for 1 (SC) Sig Sqn, **LCpl** 'Boggy' **Marsh** to 101 Log Bde HQ & Sig Sqn, **LCpl Paul** 'Arctic' **Richardson** who moves to 30 Sig Regt his first non AMF(L) unit. Also **LCpl Phil** 'PhD' **Smith** and **Sig Liesa** 'Duckworth' **Matthews** (formally Howson) and **Sig Andy** 'Chronicle' **Day** on their promotions.

Welcome to **SSgt Jack Hawkins** from 94 Sig Sqn, **Sgt Sven Gronn** from 15 Sig Regt and **Sgt Willie Pool** from 3 RHA – **Capt Bill Holbrook** has never had so many SNCOs; are MCM Div trying to tell him something? Welcomes are also necessary for **LCpl** 'Fifi' **Murphy** – formally Appleyard from JCUNI and chocolate frogs **Sigs Joe Addison**, 'Aulbs' **Albury**, 'Melanie' **Hall**, **Leech** and 'Gunner' **Smith** straight from the 'factory'. In addition we would also like to congratulate **Sig Chris** 'SF' **Scott** on passing selection to 264 and **Sig Matt** 'I'm single now' **Mills** on being accepted into the Squadron as a 'hat' with a view to passing the next course.

Sgt 'Sven' Gronn enjoying the prime window seat in a US UH-60 Black Hawk on Ex Adventure Exchange

Just over a month after returning from Norway, the Troop re-equipped its vehicles and headed for the home of goulash - Hungary for Ex Ardent Ground, the AMF(L)'s annual live firing exercise. The Troop once again professionally provided C3 for the Multi-National Force Helicopter and Fast Air Cells. The Exercise gave the Troop the opportunity to hone and tone procedures and, after a busy and rewarding couple of weeks, the Troop took R&R in Budapest. Living up to the latter part of the capital city's name 'Taff' **Charnely**, 'Simmo' **Simpson** and **Purcey** the tech more than spent their reimbursed Food & Accommodation rates on cultural experiences!

After the Colerne Activities Week and Regimental Open Day, where the Troop raised £300 on BV206 rides, the Troop prepared itself for a gruelling 4-week exercise in Greece on the AMF(L) southern deployment. All went well and the good pace allowed us to train the newer members of the Troop.

Sig Taff Charnley and Cpl Dalrymple(REME) during a rare quiet moment on Ex Adventure Exchange

BRAVO TROOP - *by Sig Lea Snell*

Tp Comd **Lt Neil Clements**
Tp SSgt **SSgt Carl Budding**

Prior to the new Troop OC arriving the Troop deployed to Scotland for Ex Eagles Strike to provide C3 for the RAF SHF HQ. The Exercise was especially valuable for the new lads from the factory **Sigs** 'Turnip' **Parsons**, **Frank Reeves** and **Damion Shepherd** for whom it was their first exercise. **2Lt Neil Clements**, straight off his Tp Comds course, takes over as OC Tp from **SSgt Carl Budding** who was caretaker for a couple of months. Squadron Adventurous Training was held at Fremington Camp in North Devon. The weather, unbelievably, held out and numerous activities were enjoyed, including water-skiing at Chivenor, hiking on Exmoor, windsurfing, rock climbing and drinking in Barnstaple. **Sgt** 'Charlie' **Farley** demonstrated the need for brakemen on the aerial slide (and for them to weigh more than 20 B&H on a wet day). He was sensationally catapulted into the air after **Sig** 'Sadsac' **Sutherland**, weighing the same as a baby elephant, came thundering down the slide. **Sgt F** did show style by having his fag still lit and in his mouth when found face down in the dirt.

EXERCISE RETURN DRAGON - *by Cpl Brian Rawlings*

Ex Return Dragon was the Regimental Adventurous Training expedition held from 6 – 16 August on the wonderful island of Alderney. The party deployed from Bramcote in two mini-buses and a pre WW1 Bedford! Leading the way with map at the ready was **Lt** 'Tick-Tock' **Morris,** so far so good. We sailed from Marchwood where there were several sad faces at the prospect of spending ten hours on a "Saving Private Ryan" style flat-bottomed RLC craft on the English Channel. We arrived in Alderney bright and early on Monday 7 August, having spent a surprisingly calm night on the boat, even if it was a little cramped. Then just as it appeared that everything was going to plan, the landing craft couldn't dock, we were too heavy!The solution was simple- tell **Pte Steve** 'fat chef' **Powell** to swim for it. In the end by employing a few pieces of high tech wood we were able to get on the Island, stand by Alderney!

Our accommodation was 12 by 12 tentage, five in total, and they went up in no time with the guidance of **Cpl John** 'lunch box' **Culwick**, who immediately made it clear that not only was he the expedition Medic, but also the Camp Daddy. Just as we got them up the first drops of rain began to fall, not a good start to our trip. While the workers were putting up the tents **SSgt Pete 'Tan man' Crawford** and **Pte Steve 'five bellies' Powell** went shopping for the week's rations. This however proved to be more of a problem than we imagined, as the Island of Alderney appears to take Bank Holidays at the drop of a hat. As it was, they had decided to take one today and all the shops were closed. Much begging, bribery and running around followed before it was possible to eventually track down some food for the chef to attempt to cook.

Once we had settled, the group was split into two, one half going straight into the adventurous training and the rest cracking on with the community project. The Regiment has an ongoing commitment to the island of Alderney in which we provide manpower once a year to improve the island. In exchange we can visit once a year for adventurous training. The mission this year was two-fold, firstly to clear a path that had become overgrown and then clear out some old German trenches left over from the war. We also took it upon ourselves to improve some of the cadet facilities up in the hills. I was given a machete, a 58 shovel, a Siggy and told to "go". We cleared a tunnel and half expected to find some old German soldier still on stag in the land that time forgot. Instead we surfaced in someone's garden. One of the other teams found a wine cellar, however a rather disgruntled local arrived before this could be fully utilised.

The other task was to turn a shell scrape, used by the cadets as a briefing room, into a sandbag bunker totally hidden from the human eye with cam squares. It took a lot of time and effort especially from **LCpl Dean 'Andy, John, Dave, Mick' Dickson** and **Sig "Cas" Burgess**. The end result was a "gleaming" briefing bunker that **Cpl 'Pay Clerk' Brown** turned into a battlefield Admin Office that was just missing a UNICOM terminal.

Our visit coincided with Alderney Week, the islands party week, which considering the Island only has a population of 1500, seemed a contradiction in terms. They had a few events including an 'It's-a-Knock Out competition'. The highlight of which saw **Lt 'stop Waaahhhing me' Morris** getting damaged during the pillow fight. This resulted in a substitution with the cry of "Cpl Rickard please stand in for me!" Jumping at the chance to attack some locals **Cpl 'Wanna be PTI' Rickard** joined the team. As if by magic once the pillow pounding was over the boss was once again ready for action. Hmmm no skiving there then. The other event was a five a side competition. We entered two teams, a fatties team and a footballers team. The fatties had a semi reasonable player in the form of **Sig** 'Texas- I want to be in the other team' **Walker** to make the numbers up in the absence of five competent bloaters. By the end he was glad as we made it to the semi-final and the footballers led by **LCpl** 'if we lose I'm going to cry' **Ferguson** were lucky to draw a game! We also entered an unmanned flight competition, which involved flinging ourselves off a pier. Several imaginative costumes were created out of bits of kit found on a skip, and we took the plunge into the arctic waters of the English Channel. Great fun, and apparently character building according to the boss.

However, it wasn't all 'work, work, work,' and when we weren't digging holes in the mud, or getting lost on an Island measuring 2.5 miles by 1.5 miles, there was plenty to do. The Islanders like to entertain themselves by having parties after the pubs close. However, the only suitable place to hold them is in some abandoned German artillery bunkers. These proved great fun, if not a little strange considering that 60 years ago these things were winging shells at all things British and now we were partying in them. Exercise Swan Return Dragon 2000 was thoroughly enjoyed by all who attended, and 30 Signal Regiment certainly aided the local economy. I would highly recommend Adventure Training on the Island, only don't forget your whistle for those bunker parties!

MOTOR TRANSPORT SECTION, SUPPORT SQUADRON

MTO **Capt G. Johnson**
MT SSgt **SSgt Nanda**

WELCOMES

Regimental MT's increase in manpower continues and we have quite a few welcomes to the dept. **Sgt Ganesh** and family, and **Sgt Ash Ingham** and family have arrived from 2 SigRegt and 15 SigRegt respectively. We have looked forward to your arrival for some time now, and hope you enjoy your tours with the Regiment. Also arrived to bolster the Gene Bay manning was **Cpl Hari**, and just as suddenly as he arrived, he disappeared to go on a course for three months, an actual case of here today and gone tomorrow. Regimental MT now endures a Scouse element, with the arrival of **Sig** 'Scouse 1' **McLoughlin** and **Sig** 'Scouse 2' **Brammell**. Welcome to you all lads.

DESK JOB RE-SHUFFLE

"Re-shuffle Day' was designed to move key personnel of Regimental Motor Transport to different desk jobs. It gives everybody the opportunity to approach a different aspect of his trade. Not as simple as it sounds as there is a lot to handover and it must all be done whilst continuing normal work. So moved – some say sacked – from the admin role was **Sgt Mick Hay**, and taken over by **SSgt Nanda**. Ration returns; well they're all yours Nanda. **Sgt Hay** moves to Fleet Manager and every phone call has, 'No you can't', somewhere in the conversation. Out went **LCpl** 'Kenneth' **McCall** from the details desk to be replaced by **LCpl** 'Ronald' **Pierrpont** – who was definitely sacked from POL Accounts! In came **LCpl Ian Campbell** to POL Accounts whose first words were 'What do you mean a Board of Officers next week?' and into the Yard NCO slot goes **LCpl McCall. Sgt Ash Ingham** arrives to do Driver Trg, because **Cpl Pugh** couldn't, and **Sgt Ganesh** to do all our licenses because **Cpl Pugh** didn't. Actually if you put it all on paper, it doesn't sound as bad as all that – honest.

Re-Shuffle Afterthought 1 - After all the re-shuffle has been completed, are you wondering what Cpl Pugh does now? So are we!

Re-Shuffle Afterthought 2 - LCpl Ronald Pierrepont wasn't sacked from the POL Account; he did a cracking job actually as the Board of Officers will show!

KIDS PLAY-SCHEME

Another summer gone and another Kids Play-scheme completed. Working with the Welfare Office of **Maj (Retd) Bob Fortune** and **Mrs Tracy** 'The Angel' **Garrett**, Regimental MT proved to be pivotal in the success of the scheme. Not only did we transport the kids to their activities on a daily basis, but we also were able to supply a clutch of supervisors. Senior supervisor **Sgt Mick Hay** was at the heart of all the activities and his 'it's a tough job but somebody has to do it' cry was getting to be a bit annoying towards the end of the four weeks. When he went on 'you all had the chance to go to Alton Towers' it would get particularly frustrating. As a team, we all came out with great credit for the play-scheme being such a success. From details clerk, coach drivers, and supervisors, everybody gave 100%.

FUEL CRISIS – WHERE?

With the country by all accounts gripped in a fuel crisis, Regt MT was prepared as ever. Naturally new POL Accountant **LCpl Ian Campbell** was taking all the credit for ensuring sufficient stocks were in place and

that the returns for Brigade/Division were accurate. OK so it took three or four attempts to get them accurate. The Regiment did wonder if the fuel crisis had actually hit Bramcote, when the entire MT turned up at the gym for a briefing having taken a mini-bus from the MT compound to the gymnasium – a distance of 400 meters !

BRAMCOTE GOLF SOCIETY DAY – 31 AUGUST 2000

The Bramcote Golf Society day was held at Brandon Wood on 31 August 2000, with a field of 25 eager participants. All handicaps had been well scrutinized by **WO2 J. P. Paterson** who even cut himself to 15. Everyone arrived at 0900hrs and having received free use of the driving range, golf balls were soon flying in all directions. The first three-ball teed off at 1030hrs and the competition was now well under way. Hours later tired but happy we sat down for the 'Brandon Buster' and the exploits of the day were discussed. Unfortunately the last three-ball were nowhere to be seen and a good hour passed by until **WO2 Mark Potter, SSgt Phil Joyce, SSgt Craig Wrath** and **Cpl Ian Brown** finally putted out to a rapturous applause. A great day was had by all and the choice of venue proved to be a fair test of golf, as the scores of the winners reflected.

Scratch Winner	**WO2 John Paterson**	(15)	86 Gross
Scratch Runner-up	**Maj (Retd) Bob Fortune**	(15)	92 Gross
Handicap Winner	**Sgt Andy Dutton**	(19)	71 Nett
Handicap Runner-up	**Cpl Ian Holmes**	(22)	76 Nett
Stableford Winner	**SSgt Craig Wrath**	(28)	40 Points
Stableford Runner-up	**Cpl Jase Curley**	(24)	33 Points
Nearest the Pin	**WO2 Mark Potter**	(28)	
Longest Driv	**Sig Aaron Nessling**	(28)	
Most Golf	**Cpl Ian Brown**	(28)	

EXERCISE PICOS CYGNET - *by LCpl Grant*

Ex Picos Cygent was an exercise produced to get a small number of troops away on adventure training to practice skills such as navigation, climbing, high level trekking and down hill mountain biking. The Exercise took place in the Picos Mountains in northern Spain and was organized by **SSgt** 'Froggy' **Higgins** and **WO2 (QMSI)** 'Johnny Bravo' **Blade**. The small number of personal were **SSgt** 'Porno tash' **Goodwin, Cpl** 'Ginge' **Buckely, Cpl** 'Celibacy' **Jones, LCpl** 'SSM' **Bolton, LCpl** 'Smoothie' **Bird, LCpl** 'Spiderman' **Grant, LCpl** 'Water' **Hodson, LCpl** 'Picotech' **Morley, LCpl** 'Skeletor' **Lowe** and **Sig** 'Our Tony' **Bramell**.

The Exercise started with a small introductory climb of about forty-foot straight up. First to attempt this was **LCpl** 'Spiderman' **Grant**, things were going well for the first ten feet then a decidedly ropy looking branch decided to give way and sent **LCpl Grant** flying across the face to a very accommodating boulder. An hour to find the hospital and seven stitches (no anaesthetic) later, his day on the rock face was sadly over.

Day Two and an easygoing trek, 'Just to break you in lads!', I'm sure what was meant was just to break you lads! One group led by **SSgt Chris Higgins** had a nice stroll with some apparently spectacular views over sheer drops. The other group led by **QMSI Martin Blade** had a rather different experience. Straight to 6000 feet with quick stop on the way to refresh at the donkey café. Unfortunately for **QMSI Blade** he decided to relieve himself. Good idea to leave your pack behind, NOT! So onwards we go 1000 feet later we decide making the QMSI walk all the way with that boulder in the bottom of his pack was unfair. From that moment on the group were 'marked men'.

Day Three was a day for swimming and checking out the local scenery.

Day Four was time for a little mountain biking. It was down hill and everyone was willing to be brave but with three attempts and three falls later Picotech was in pain. The last one ended in spectacular fashion with four summersaults and a half twist then landing in a barbed wire fence - any gymnast would have been proud of! The high light of that day was when the green goddess fought off a little challenge from **Cpl Jones**.

Day Five the group went up into the mountains for a three-day trek.

Day Six started off with a little trek to a mountain 2248 metres up. Once at the top the team decided to have a little dip in a cave pool. A total man test was called for, the first man to swim the pool was **Cpl Buckley**, and the pool was so cold that he had two sets of tonsils.

Day Seven the group were coming back down the mountain and the Exercise was starting to take its toll.

Days Eight and Nine were spent in Santander on the beach and checking out the scenery where we had the turn around with the other group. Little did they know what was about to hit them.

TECHNICAL MAINTENANCE TROOP SCAD DIVE

by LCpl Hotchkiss

A selected few from TM Tp were volunteered to do a charity scad dive to raise money for Altzheiemas disease. This consisted of being strapped to a 190ft crane by a harness and free falling into a safety net, a bit like a bunjee jump but without the bunjee rope! The event was organised through **SSgt Deano** 'Do it nice or do it twice' **Cartledge**, and the selected elite were **Fof S Gaz** 'Nappy rash' **Duffy, Cpl Craig** 'Kojak' **Anderson, Cpl Paul** 'Cocky' **Whitelock, LCpl Bill** 'Velcro wings' **Hotchkiss, LCpl Mick** 'I am my dad' **Hicks, LCpl Obi** 'You'll never be a fisherman' **Igboebisiokwu, LCpl Rob** 'Suspicious' **Wilson, LCpl Paul** 'Ya wee co-hont' **Korzeniewski, LCpl Wayne** 'Sweaty Sock' **Grant.** No-one seemed to show any pre jump nerves, that was until we saw the actual height we were going to jump from then people started to brick it! As we filtered through one by one the screams of terror could be heard from miles around as the fall turned grown men to pathetic little girls. Once completed though everyone seemed to be glad to have experienced the fall. **Cpl Craig Anderson** was glad to have taken a spare set of clothing. The Troop raise over £1000 for the cause.

256 SIGNAL SQUADRON

Sqn Comd **Maj J. W. Cooper**
SSM **WO2 (SSM) Keen**

The Squadron says a sad farewell to **Captain Mike** 'Larry' **Grierson** who has handed over the Operations Officer job to **Captain Alun** 'Ginger' **Crapper. Captain Mike** 'Larry' **Grierson** is posted to 16 Sig Regt as the Technical Adjutant and the Squadron wishes him all the best for the future. If he maintains his current form then bar profits in 16 Sig Regt will increase significantly and the gymnasium will have an enthusiastic Officer beasting himself in preparation for the 2004 Olympics. Good luck **Mike,** a crate of Stella, cheers!

Capt Mike 'Larry' Grierson in training for his next BPFA!

30 Signal Regiment – Exercise Pico Cygnet
LCpls Morley and Bolton, Cpl Jones, WO(QMSI) Blade, Cpl Buckley, LCpl Lowe, Sig Brammell, SSgt Goodwin, LCpls Hodson and Bird

ALPHA TROOP

Tp Comd **Flt Lt Paul Pearce**
Tp SSgt **SSgt Paul Storey**

After having taken over the Spearhead role in July, the Troop was deployed to ATR Bassingbourne in order to exercise moving the equipment and testing the kit. Ex Battering Ram proved successful in highlighting a number of potential problems and also, it was the first time the Troop had lived in close quarters for a while. The main observation as a result of this was that **Cpl Brett** 'All-Round Sporting Hero' **Grist** had a concerning fascination with a formal messaging system used on the detachment. He was heard in the middle of the night tossing and turning, crying out 'Ooooh NSTN' over and over in his sleep.

The Troop has been involved in a number of Spearhead plug-ups since then as part of Ex Snowball. The most recent plug-up, however, was rudely interrupted by the sniff of an Op. After deploying to South Cerney with A Coy, 1 Para, and spending 72 hours in transit, the decision was made not to make use of our strategic satcom equipment on Op Barras. **Sig Robbo** 'Larium Kid' **Robertson** caused a massive health scare when he decided to swallow three weeks worth of anti-malarial drugs in one go. Nothing that a couple of fingers shoved down his throat couldn't solve though! Although the strategic satcom was not required, **LCpl Carl** 'Leaded or Unleaded?' **Ashton** and **Sig Dean** 'Glad I'm not a Para' **Roberts** did deploy forward in support of Op Barras with their Inmarsat equipment, and as we all now know, 1 Para went on to do a sterling job in assisting in the extraction of the 6 Royal Irish Hostages.

With a major deployment looking more and more unlikely during our time on Spearhead, the Troop now prepares to take on the JTFHQ role in October. The preparation will involve a plug-up on Ex Battering Ram 2, during which the Princess Royal, our Colonel-in Chief, is due to visit the Regiment. Shortly after this exercise, the Troop returns to its old stomping ground of MacDill Air Force Base in Tampa Bay, Florida, for Ex Purple Iliad. The exercise is intended to last for a month, supporting the staff of the JTFHQ. The Squadron, on returning from Florida, will hand the Spearhead and JTFHQ role to 258 Sig Sqn (who we know are just dying to get their hands on the BFT!), and enjoy a peaceful and very merry Christmas as a result - Oh apart from Charlie Tp who will be in Sierra Leone!

We would like to take this opportunity to say farewell to **LCpl Dave Needham** (JCUNI) and **LCpl Paul Taylor** (21 Sig Regt) - don't worry lads, the Troop hasn't fallen apart without you yet! We should also congratulate **LCpl Chris Bradford** on his recent success with the Royal Medical Corps, and welcome **Sig Neesam** (15 Sig Regt), **Sig** 'Rodders' **Rodwell** (15 Sig Regt) and **LCpl Richardson** and his family from 21 Sig Regt.

BRAVO TROOP

Tp Comd **Lt John Dagless**
Tp SSgt **SSgt McNair**

EXERCISE GANNEL RAM

In the early hours of Monday 4 September, Bravo Tp departed the mists of Bramcote for the sunny and tropical climate of Penhale Camp, Newquay to conduct some adventure training. Having finally jump-started the PRI minibus we finally made it down in time for our first activity; an afternoon of quad biking. These tiny machines soon saw most of the Troop flying around at 30 to 40 Mph in teams of three over a cross-country circuit. **Lt** 'Hells Angel' **Dagless** was the first to crash as he shot into, then over, the largest tyre wall on the track. Others were to follow in his wake, with special awards going to **Cpl** 'Chips' **Wilson** for style, **Cpl** 'I've just run myself over' **Parry** for the most entertaining crash, and **SSgt** 'Driving Miss Daisy' **McNair** for riding slower than four year old still using stabilisers.

Over the next two days the Troop split down into two teams rotating through trekking, coastering, rock climbing, and mountain biking. The trekking and coastering provided a number of outstanding views, mainly thanks to the good weather which was appreciated by all including **Sig** 'Are we there yet?' **Griffiss** and **Cpl** 'Legs' **Allen**. Those mountain biking on the other hand looked as though they had been riding horses instead of bikes due to the bikes sizes and age.

Sigs Bowyer, Yoxall, Welton and McMillan display their sand surfing prowess!

The highlight of the week was the day of surfing and instruction. Having seen all the peroxide blond hippies hanging around Newquay we were surprised to be met by two gruff little Australians who took us through our paces. Having squeezed into our wetsuits and persuaded **Sig** 'I can't swim' **Jeffers** with his 'unnatural strawberry blonde' hair that the local sharks would be able to smell his fear we took to practising our sand surfing. Having mastered this we all headed out to try and drown ourselves with the largest waves possible. The afternoon was finished off at RAF St Mawgon at the American all singing all dancing ten-pin bowling alley. Though the pins were faulty, who could complain at 95p a bottle of beer. **LCpl** 'Lucky B…' **Taylor** was the day's high scorer with 183.

All said and done the weeks adventure training was just what the Troop needed to recharge its batteries. The mixture of adventure training that continued into the nights will not be forgotten for a while. During this period **LCpl** 'Nikki' **Nichole** from the Troop also gave birth to a baby girl, and we would like to send our congratulations to her.

CHARLIE TROOP

Tp Comd **Lt Lucy Pim**
Tp SSgt **SSgt Phil Joyce**

HELLOS & GOODBYES

A big welcome to **Sgt** 'Waggy' **Wagstaff** who has joined the Troop from Arborfield; and also to **Sigs Risley, Chignell** and **Marsden** who have come straight from Blandford. You've come in time for the fun to begin! Sad goodbyes go to **Cpl Tracy Main** and **Sig** 'Billy' **Harris** who have gone to 'the dark side' and joined civvy street. Also goodbye and the best of luck to **Sig** 'Smudge' **Smith** who goes to 7 Armd Bde on promotion – congratulations!

EXERCISE BETHESDA RAM
TROOP ADVENTURE TRAINING IN WALES

by Sig 'Richie' Harrison & Sig 'Glen' Niven

The Troop have enjoyed being out of role for a few months, and as part of this we have just returned from Wales where we spent a week adventure training. As soon as we had all arrived at Bethesda, near Bangor, we made our way to Betws-y-Coed where we went mountain biking. **Sgt Gaz** 'Who needs a map' **Shuck** took the map and we set off. At a track junction, **Sgt Shuck** stopped to check the route - the signpost behind him was pointing the right way – and after careful (?) consideration he decided to follow his own route, which involved climbing a fence! When we eventually got back on track and were on the home run, **Sig Gaz** 'Somersault' **Shaw** decided to come off his bike taking nearly half the group with him – 10 out of 10 for the acrobatics! After the hard day's biking, we sampled the social side of Bangor that evening – after this night on the tiles **LCpl Steve** 'Rocky' **Wilson** and **Sig Si** 'I can fly' **Powell** decided to spend a few quiet nights in…!

On Tuesday Mount Snowdon was on the cards, and for those who wanted to take it a bit easy there was a game of golf. However, these lucky few soon discovered that the golf course was built on a mountain steeper than Snowdon! Hard luck guys! Carrying on the injuries **Sig** 'Glen' **Niven** took a spectacular dive and twisted his ankle! Wednesday was probably our busiest day, with a package at a local mountain centre. We started off the morning with the indoor climbing wall – **Sig** 'Wyatt' **Earp** proved to be the spider-man of the group! The next activity was dry slope skiing, where **Cpl** 'Matt' **Booth** and **Sig** 'Richie' **Harrison** never graduated from the nursery slope! Then onto the kayaking – **LCpls** 'Gray' **Wootton,** 'Stevie' **Wilson** and **Sig** 'Ben' **McGinn** deciding to take a quick swim in the lake!

For the last day's activities there was a choice of hill walking, mountain biking and go-karting. **Lt Lucy** 'Freaky knee' **Pim** took the hill walking, and ended the day with a massive lump on her knee which looked like an egg. **Sig** 'Richie (Which way's North?)' **Harrison** took the map and gave everyone a few scares, like heading towards vertical drops, but he blamed that on the boss! At the go-karting, **LCpl Gray** 'Coulthard' **Wootton** got a puncture, but was allowed to keep the tyre as a souvenir, which made his day! Again we went to Bangor for a quiet pint, and **Sig** 'Andy' **Risley** sampled some great Welsh hospitality…! Then back to the cottage for a Chinese.

Sigs 'Nigel' Mansell, Gaz Shaw, Andy Risley and Marc Rigby trekiing in Wales and very wet!

Sigs Si Powell, Marc Rigby, 'Wyatt' Earp, SSgt Phil Joyce and Sig 'Lanky' Hancox, 'You're joking – we ain't riding up that!'

258 SIGNAL SQUADRON

Sqn Comd **Maj P. Deans**
SSM **WO2 (SSM) Forrester**

SQUADRON HEADQUARTERS NEWS

'All change! All change!', is the call heard around 258 Sig Sqn SHQ. Within the last three months the Squadron has witnessed a complete change of its hierarchy. **Maj Phil Deans** has been posted into the hot seat from HQ Land; life in the country certainly was at a slower pace! **Capt Emma Rae** has moved across from E Tp to take up the post of 2IC Sqn and OC SHQ Tp. **Capt Chris Preston** was posted in from the Arctic Warriors at 249 Sig Son and, after a short spell in Kosovo, has taken up the reigns as the Sqn Ops Offr and is currently still learning to ride, both in the office and in the stables (as Regimental Stable's Manager). **WO2 (SSM)** 'Fozzy' **Forrester** and his dog **Harry** have been posted in from 1 Mech Bde Sig Sqn in Tidworth. **Harry's** posting order still hasn't been found, but the notice boards are suitably adorned in Corps colours with bulled up bulldog clips. **SSgt (FofS) Gaz Duffy** has made the long distance move from 250 Gurkha Sig Sqn (all of ten yards) and **Sgt Lee Harris** travelled from Support Bn HQ ARRC. **SSgt Si Schofield**, the Sqn ISM, posted in from 238 Sig Sqn completes the new arrivals. 'Where is the continuity?' we hear you all ask. This unenviable task falls to **WO2 (YofS) Jim Knight**, who will be posted next month and replaced by **WO2 (YofS) Pete Goodliff**. Ah continuity, nothing like it!

The departures were as follows: The OC, **Maj Jules Swindells**, to Fort Halstead; the 2IC **Capt Andy Hopcraft** to Civ Div. The SSM, **WO2 Miles Webb**, was posted on promotion to RSM to 19 Mech Bde (hope he got the beers in, in the Mess). **WO2 (FofS) Bill Young** moved to TM Tp and **Sgts Brian Flynn** and **Dean Leach** moved on to sunnier climes in Germany and Cyprus, respectively. In summary, **Harry** continues to police the SHQ corridor, as the SSM's eyes and ears on the ground.

DELTA TROOP

Tp Comd **Lt Chris Smith**
Tp SSgt **SSgt Jim Lyons**

The remaining elements have now returned from Op Basilica in Sierra Leone having spent an interesting and damp three months during the monsoon season handing over the task to Foxtrot Tp for their short six week stint. After a brief period back in the Regiment everyone has got away for some post Op Leave. The Troop would like to extend a warm welcome to **SSgt Jim Lyons** who joins us from Germany. The rear party welcomed us back with open arms and a few guard duties. September has been another hectic month with preparation for our visit from our Colonel in Chief and a visit from the Master of Signals. We have also been very busy in preparing for Ex Cygnet Rock, with the Troop deploying to Gibraltar for the latter two weeks in September to familiarise personnel in HF Communications and engineering procedures. This month we say farewell to **LCpl Mark Palmer** and **LCpl Steve Lucas** and wish them well. The Troop would also like to extend their best wishes for the future to **Sig Steph Hawkins** as she prepares to make that transition into the PADS army.

ECHO TROOP - *by LCpl Stu 'Bubbles' Engleby*

Tp SSgt **SSgt Doc** 'The Temp Capt of the Ship' **Halliday**

Firstly the Troop would like to welcome **Sig Mick** 'Blinking' **Allen** from HQ 12 Mech Bde Sig Sqn; and then mourn the departures of **SSgt Doc** 'I'm the Daddy' **Halliday** who is finally leaving for HMS *Collingwood* and **Sgt Brenden** 'In competition with Doc' **Plant** to Foxtrot Tp.

Now for the gossip - Since returning from Ops Agricola and Palatine the Troop has kept busy by working the first two weeks back (thank goodness for ITDs!) and, on average, having five weeks post-op leave. All the office wallas have been busy trying to get everything in order, including having to make whole new databases on the PC. This whirlwind of activity has been increased by the sad fact that a lot of the Troop 'bibles' and various other office paraphernalia have disappeared whilst on Operations.

EXERCISE CYGNET GLOBE 2000

The annual plug up went according to plan – if not the original plan, then definitely a well thought out and improvised one! This approach suited E Tp's CNR 322 – long range HF - Det down to the ground; as at first we couldn't get COMMS in across a field never mind across the globe to our other Dets in Wales, Germany, Gibraltar, Ascension Island, Australia and New Zealand. The Det crew included the following outstanding COMMS individual, our learned Det Comd, **LCpl Stu Englby**, Det 2IC **Sigs John** 'One too many keeebab' **Lawrence, Steve Lamb, Andy** 'Skip' **Sellers** and **Mark** 'Preacher man' **Howland**. **Sig Howland**, being a Sys Op by trade, found the experience both enlightening and confusing. The Det was originally located in the field between the Officers' Mess and the CO's house but was relocated to the back of nowhere near the Stables. Some of the crew (ie. the most fortunate ones) got the opportunity to put into practice the Wotan skills we had acquired a couple of weeks beforehand. All in all the exercise went rather smoothly (ahem!) and here's looking **forward** to next years exercise

EXERCISE ARDUOUS CYGNET

This month also saw four members of E Tp involved in Ex Arduous Cygnet - the Regiment's COs cadre course. The four Signalers bidding to be Lance Corporals were **Sigs Allan, Fotheringham, Simmons** and **Hannam**. The course was an enduring three weeks long with one week of class work and two weeks in SENTA consisting of CTRS, Section attacks and an endless number of patrols and only one day of rain! On the whole E Tp faired well with **Sig Mick 'Blinking' Allan** taking top student. This could have had something to do with the airborne warrior fixing bayonets and charging a fig 11 target. **Sig Simmons** took fourth place, **Sig Fotheringham** sixth and **Sig Hannam** taking thirteenth. The mighty 25 great, gave a really good show as to who is the best squadron by having four of the top six and not one in the bottom half of the course. Could we ever improve upon this?

FOXTROT TROOP

Tp Comd **Lt Mogs Southern**
Tp SSgt **SSgt Stu Fiddler**

The Troop says 'Hello' to **Sigs Claire Lounden** and **Shaun Brennan** straight from the Blandford Factory and **Sig Ben Kirton** from 15 Sig Regt. Also, 'Welcome back,' to **Cpl Lucy Mason** following her re-trade, then it is, 'Goodbye,' to **Sig Tom Lowe** who has earned a place at the Signal Squadron based in Hereford. An additional message of, 'Well done,' goes to **Sig Wilkinson** who achieved third place on the CO's cadre course. The majority of the Troop are currently deployed on Op Basilica in Sierre Lione and the remaining few are amidst preparations for JTFHQ which we takeover at the end of the year.

250 SIGNAL SQUADRON - *by Sig Bharat Ghale*

Sqn Comd **Maj J. J. Cole**
SSM **WO2 (SSM) Chandrabahadur Gurung**

LIFE ON THE SEA! - (JOCCOMEX) 3-7 SEPTEMBER 2000

Almost every month, 30 Sig Regt, The Royal Navy, as well as the Royal Marines conduct an exercise, commonly known as the Joint Communication Exercise - JOCCOMEX, which is an HF exercise providing secure voice and RATT. The aim of this exercise is to prepare the personnel for the joint communication in operations, like the one in Sierra Leone and also to establish relationship amongst services. Usually we do this exercise from the camp, but this time two of us, **Cpl Shudham Gurung** and myself from 30 Sig Regt were invited to join HMS *Exeter* at Folkestone.

On 3 September, we were driven down to Folkestone Naval Base where the Ops Officer, **Lt Comd McDonald**, was there to receive us. We were then ferried by a passenger boat to the ship named HMS *Exeter*. It was quite a big ship, capable of carrying 250 people in total.

The Captain of the ship, Commander Richards, was very happy to see us and welcomed us on board. We were then led to the main communication office inside the ship, where **Radio Spvr Hart** introduced us to the main communication office staff and showed us the

Cpl Shudam Gurung on the wheel!

GOOD NEWS TRAVELS FAST - PUBLISH IT IN THE WIRE

communication equipment used in the ship and their roles in brief. Then **LOM Charlie** took us to our accommodation, which had treble bunk beds, thus reminding me of my school days. As it was our first time on board, we found it very congested at the beginning but soon managed to fit in. The duration of this exercise was only for 24 hours, so the rest of the days were spent on learning their equipment. As a consolation they entertained us by showing rescuing, man overboard, flag signaling, inter-ship communication, visual Morse transmit and receive and live firing demonstrations.

The exercise was a real success! They were happy to close down earlier but we carried on as we were enjoying just sending messages through the Teleprinter from one end to the other. We really had a great time working with them. All the people on board were friendly and helpful which made us feel the ship was like home away from home. The experience we gained out of this exercise will be an asset for the future operation. We are very thankful to the Captain and all members on board for making our stay so enjoyable and worthwhile. We sincerely hope that the trend of exchanging personnel will carry on in the future and looking forward to joining all the members on board again.

Jai Queen's Gurkha Signals.

RSM **WO1 (RSM) Gibson**

WHAT I DID ON MY SUMMER HOLIDAYS

by Ms Sarah Streete, Deputy Headmaster James Allens Prep School
Aka Maj S. Streete R Signals (V)

When asked if I would like to do a short tour in Kosovo during the school holidays (one of the perks of being a teacher), I jumped at the chance. I had always wanted to experience an operational tour and never expected to be able to do so without leaving my job. Also, my 'holiday' snaps and stories were certainly going to be more interesting than my colleagues' ones of sandwiches and ice-creams on the beach behind a windbreak.

Within 48 hours of term ending, I found myself on the way to RTMC Chilwell, near Nottingham for mobilisation, with just my respirator, beret and boots. Over the next 24 hours, I saw the British Army at its best. Firstly, I was kitted out with everything from the Union Jacks to sew on my brand new Combat 95 to floppy hat and jungle boots. My vision that I was to eat compo rations seemed more of a reality when I was given mess tins and KFS but it was not until I was offered a poncho that I really began to worry! I then had a medical, including the various jabs that inevitably were out of date and a dental check. The paperwork was completed efficiently and without fuss and I was given advice on insurance, pay and wills. No question seemed too stupid and no one could have been more helpful.

With two other TA R SIGNALS soldiers, I was taken to RAF Brize Norton to spend a night in the Gateway Hotel before flying out to Kosovo. Having heard horror stories about flying out in Hercules with the portoloo slopping behind the curtain, I was very relieved to be told I was to go in a VC 10. My relief was short lived though, as take off was aborted seconds before we left the ground (fortunately the runway was long enough for us to stop in time, although I was worried we would end up in a farmer's field), and I soon found myself in a coach on my way to RAF Lynham for a 4am departure…..in a Hercules! It was not as bad as I had anticipated and with no further delays, I arrived at the APOD, south of Pristina.

After a briefing on mines, cluster bombs and RTA's and collecting numerous aide memoirs and my Paradigm phone card (very important!), I boarded the bus for HQ MNB (C). I knew I was being totally irrational, but found it hard to control my fear that I was going to be blown up by a mine, despite the fact the road was made of tarmac and was very busy with traffic! I had never been in this environment before and had only been told the dangers, which seemed to be out of proportion to reality. This concern took several days to pass and as my job involved going out of the camp every day to attend meetings and visit various municipalities. I was fairly nervous for the first few days and during this time, even wished occasionally that I had a 'nice, safe' job as a watch-keeper!

Maj Sarah Streete taking a detour following a civilian RTA

Not for long, however! I was employed to work as a Liaison Officer in G3 CMO (Civil Military Operations) at the Brigade Headquarters and found it to be a fascinating experience and one that I felt very lucky to be doing. I was one of four Pillars matching the four Pillars in UNMIK. As my Pillar, Pillar IV had been gapped for a while, it had to be re-established. It was responsible for housing - reconstruction and allocation and also public utilities and I spent the first few days going around Pristina, visiting as many people as I could in order to introduce myself and to find out what was happening. My knowledge of the political situation was limited (very limited!) and I not only had to find out what I would best be doing, but also to get my head around who was fighting who and why we were there. Despite my doubts, it took only a short time to feel that I was contributing to the CMO Cell. Each day started with a briefing, which covered all the security issues in the country. It was hard to appreciate that all the incidents mentioned were real and I found myself waiting for someone to shout 'ENDEX!' for quite sometime! It also became apparent fairly quickly, that life, be it human or animal, was cheap.

A typical day, if there was such a thing, started with the morning briefing. I would then meet my driver to travel into Pristina for a housing meeting at the Town Hall, where the Administrator would be discussing anything from illegal building and demolition to requesting the use of KFOR to transport some of the building materials being used in reconstruction, to the outlying villages. The meeting could then be followed by catching up with some of the UNMIK personnel in the Town Hall, perhaps the city designer, brought over from Paris, (and what a job he had!) or the person in charge of reconstruction. If there was time, I would check my e-mails as I had a daily report from one of the organisations working in the area, the Kosovo Development Cell or a request from another organisation trying to help the local people. I would then 'stroll' down the road to the Housing and Property Directorate (HPD) who were part of UNCHS (UN Centre for Human Settlement), where I had an office. The HPD were responsible for all the registering and allocation of property and eviction where necessary. They were having to work very hard in order to keep up with the number of people, both Albanians and Serbs who were claiming property. It was not as simple as it sounds as during the 1990's the Serbs had been allowed to buy houses from the Albanians. This had recently been ruled illegal and so the whole area was a minefield (not literally!). After lunch back at MNB(C), I would head off to visit the Administrator in one of the seven municipalities which fell into my area and get up to date on the housing situation in that area. Sometimes I would call in on the CMO's at the Battlegroup level as they would have a very good idea of what was happening as they met with the local people on a day to day basis. On returning to the camp, there was sometimes time to do some exercise before the evening briefing, supper and a leisurely coffee outside with anyone else who was taking a break. Back to the office to write up the daily report and plan the next day, before meeting in the bar at 9.30pm for a can or two.

Op Trojan (Serb civilians returning to their homes in Slivivo)

Being part of a Multi-National Brigade meant I was fortunate to be working alongside officers from other countries. Pillars 2 and 3 were run by a Norwegian and a Swede respectively and the SO2 Plans was also Norwegian. I also met numerous other nationalities at KFOR Main – Americans, French, Greeks, Germans and many, many more internationals that were working for UNMIK. As a Brit., whose language ability consisted of O' Level French and Latin (a long time ago!), it was very impressive and a great relief that everyone spoke such good English. The cell in which I was working was a sociable and friendly one and I very quickly felt like I had always been there. Another TA officer and teacher, who had escaped from the classroom for a few months, ran Pillar 1. The Chief CMO, was an enthusiastic Black Watch Officer, who was looking forward to returning to Scotland, not for the fishing and stalking of course, but because he was going to be working with the TA!

The TFA was far better than I had anticipated and not once did I have to use a poncho or mess tins! The food was generally excellent, with a wide choice and plenty of fresh fruit. The accommodation, if rather cramped with dreadful beds, was perfectly adequate. I found it hard to decide what I really missed other than being able to keep in easy contact with friends and family and a hot shower. Access to Internet and e-mails was tricky, though we were led to believe that that was due to be improved. BFBS kept us up to date on world events, the post was quick and efficient and the laundry even quicker – in for 9am, out at 4pm.

Naturally, I have many lasting memories of the five weeks I spent in Pristina: the worries I had when wearing a loaded pistol for the first few days, convinced I was going to shoot my foot. Sitting for hours in hot, stuffy rooms listening to Albanians drone on about what they should be getting and how many houses they wanted rebuilt (all through an interpreter, of course!). Visiting male Serb returnees who were to be given a cow and 24 chickens to get them started, but who refused to make bread as that was women's work. There was the shelter, rife with scabies, in which numerous families lived in small rooms. The Auction of Promises organised by Pillar 1 to raise money to help the Serb returnees and my afternoon at the quarry with the Engineers as a result of it. The compulsory drug testing (no bad news yet!). Catherine, the cow, one of our first, that sadly died from a prolapsed uterus. The day the building supplies left Pristina City to go to the outlying villages. The pot holed roads, the long days, all the different people I met and worked with from such a variety of backgrounds and nationalities and so many more.

Certainly, if another chance were to come up during the school holidays, I would welcome the opportunity to work with a Regular or indeed, a TA unit on an operation again. There would be no need to give up my job and it would be short enough to maintain good contact with my TA Squadron, whilst carrying out a real job, such as I did this summer. This experience means I know what my soldiers are volunteering for and I have first hand knowledge as to what a peacekeeping tour is like; particularly important in today's world with areas of poor stability - who knows when the TA will be required? Without doubt, it was a worthwhile and enriching experience.

HEADQUARTERS SQUADRON AND LAD

Sqn Comd **Maj Alec Ferguson**
OC LAD **Capt Alan Walton** REME

TRAINING

Throughout the summer months training continued at a steady pace. The LAD were probably the most active, making sure that as many jobs as possible were completed prior to deployment on Annual Camp. The Squadron also took part in a vehicle borne navigation and radio exercise organised in great detail by the TOT, **Capt Taylor**. The Exercise took the format of a treasure hunt by road from Southfields to Eastbourne, and involved some very detailed navigation. Once at Eastbourne, the annual air-show was in full swing, which we watched whilst driving to Beachy Head, to complete some fitness training before a barbecue hosted by 56 Sqn. The weather was perfect, and it was a particularly enjoyable weekend.

ANNUAL CAMP

HQ Sqn deployed initially to the Swynnerton Area, with the exception of Delta Tp, who where based at Leek. Thoughts of an impending diesel shortage (refineries blockaded) had not even emerged, as we moved into our smart 'des-res', a large abandoned brick shed, approximately 100 metres long. Despite the lack of glass in the windows, or doors of any description, it had a roof and was clean and dry. Something of a bonus on exercise! The mystery of the disappearing camp-bed was, however, beginning to vex **Capt Southey**, QM(V).

As **WO2 Brambles** began to cook the evening meal, a strange nightly ceremony commenced - the lighting of the Tilley Lamps. It is a ceremony shrouded in mystery and is almost as old as time itself. Several people cluster in a huddle around each lamp, whose efforts serve only to produce soot blackened lamp glasses, and disintegrating mantles. Cries of, 'You've not pumped the pressure up enough,' are then followed by singed eyebrows in a stream of high speed paraffin vapour. It became obvious that there was hardly a course qualified B3 Tilley Lamp Lighter to be found throughout the assembled 'old sweats' in HQ Squadron. In these modern times of generators and lighting kits, it seems that the skills of a Tilley Lamp Lighter have all but been lost. However, **SSgt Peart** eventually proved his prowess with both meths and paraffin, and succeeded where others had failed. Even the Padre had to admit that enlightenment was a difficult condition to achieve. Despite all of this, we started the Exercise with four Tilley Lamps, and finished with three. A case of defective 'mantle arithmetic'?

Whilst rumours of a fuel crisis began to grow, a full scale panic only broke out when both Land Command and the MTO **Capt Winterson** asserted, 'There will be no fuel shortage!', and some of us remembered President Nixon's famous statement during Watergate, assuring everyone, 'There will be no whitewash at the White House.' Maps were scoured, and RAF Stafford seemed to have more fuel than the Arabs, but chaos was growing. Confusion about a re-supply of rations for 41 Sqn led to the Padre, **Maj Crawley**, and the RMO, **Capt Anandan**, delivering boxes of 10-man compo to an RV at a motorway service station. An unusual composition for an SQMS task. Had the Padre arrived with some loaves and fishes, the enterprise would have been a major test of faith. Compo served just as well.

HQ Sqn moved to join the rest of the Regiment at Warcop Camp for a couple of days. Vehicles were fuelled, and soldiers were paid. Life was returning to normal, for a while anyway. When HQ Sqn deployed onto the Brigade Exercise, the Regimental Support element moved to transit accommodation at Catterick. Delta Tp was attached to 71 Sig Regt, as their rear link to Brigade. They were well looked after by their host unit, even to the extent of having their soaking kit dried out in a tumble drier on the exercise area! (But can they light a Tilley lamp?). The MTO began to concede that, yes, perhaps we should be cautious in our use of fuel, as there really didn't seem to be too much of it about. The POL point at Catterick was dry, and HQ Sqn was in danger of being unable to provide support to the Regiment if required. At the height of the fuel shortage **WO1 Knowles**, the MTWO, began phoning local Shell garages, to see if they had any fuel. By sheer luck, the garage at nearby Scotch Corner had received a delivery just five minutes previously! **Mr Knowles** assembled a small convoy, together with jerry cans, and proceeded in a northerly direction with good military discipline and some haste. Their subsequent filling of fuel tanks and jerry cans risked the wrath of the entire Yorkshire nation queuing up behind them, but fortune favours the brave. Vehicles returned fully replenished, and judging by the number of 'V for Victory' salutes received from the waiting motorists, it is clear that the Territorial Army enjoys considerable support from the public in such times of crisis!

This is probably a useful time to dispel some of the wilder rumours that may have been told about the Exercise conditions under which most of HQ Sqn were languishing. There is NO truth in the rumours that: All soldiers slept in heated huts with a mattress. All soldiers were fed three square meals a day at the nearby cookhouse. All soldiers had access to a hot shower. A nearby Pizza delivery firm was seen making several late night deliveries. Good. At least that has now been clarified.

Although HQ Sqn were not over tasked, there were still essential repairs to be done, spare parts to be ordered, and the usual logistics and administrative duties to ensure that the Regiment was able to fully play its part in the Exercise. All elements of the Squadron worked well, and achieved all that was asked of them. Delta Tp provided good communications for 71 Sig Regt, whilst chefs, vehicle mechanics, clerks, and the Quatermaster's staff played their part. It really was a job well done!

RECRUITING

Sgt Crowhurst successfully passed his Staff Sergeants Course, and continued to put all his energies into the recruiting and training of some of our new soldiers. Although HQ Sqn has not had many recruits so far this year, those that have enlisted have been of very good quality, and should become useful players in the team at Southfields.

INS AND OUTS

Sgt Matabdin has retired from the Regiment and TA after a long and dedicated career as a chef, for over 30 years. His assistance to the Regiment will be missed, but we all wish him well. He will be dined out later in the year. **Capt Winterson** (MTO) has also decided to retire from the TA, to concentrate on living life to the full in Spain. He generously bought the entire Squadron several drinks on our return from Annual Camp. Loyalty cannot be bought (cheaply!). **WO2 Podolanski**, our catering Warrant Officer has transferred on promotion to WO1. Many congratulations. Our Regular RQMS, **WO2 Roome** has moved to his next posting. Many thanks for all your work. **WO2 Lothian** has arrived as the new RQMS, and hopefully will enjoy working with the TA.

1 (PLK) SIGNAL SQUADRON (V)

Sqn Comd **Maj T. Lankester**
SSM **WO2 R. Watson**

EXTRA CURRICULAR ACTIVITIES

The Squadron has recently been involved in various PR activities in and around the Coulsdon area. Firstly the Coulsdon Millennium Carnival at Coulsdon High School where we provided the beer tentage and a recruiting stand. Congratulations and thanks to **Sgt** 'Friar' **Tuck** and **Capt Krishna Gurung**, who's persistence enabled the residents of Coulsdon to drink in the dry! **Lt Debs** 'Broody' **Speakman** particularly enjoyed running the crèche! Secondly, the Squadron was proud to attend the opening of the new Memorial at Kenley Aerodrome. Five thousand people flocked to Kenley to enjoy the summer sun and pay tribute to those who served their country from the aerodrome. They were treated to a display of modern and classic military vehicles. The Squadron being able to provide one of each! There then followed a flypast from the Battle of Britain Memorial Flight, the LANWARD with its platform and height providing an excellent viewing gantry. Thanks should go to **Sig** 'PLK' **Davy** for his assistance and insistence that we support such a key local event.

EXERCISE HORSESHOE 1 – CAMP 2000

The run up to camp this year was not without stress. The constantly fluid ORBAT finally took its toll on the Squadron when we deployed with 24 vehicles and only 12 drivers! It is with great admiration that we thank **SSgt John** 'Cocker' **Mackins** for his flexibility in driving a whole convoy of tea wagons to Scotland and back aided only by **Sgt's Lambert & Butler** and our civilian driver **Mr P.G.Tips**. It was to be 'Mackins' last camp as he is due to retire this year after 108 years in the British Army (and he has never missed camp!).

At our first location it was with great surprise that **SSgt Dave** 'Halfman' **Holman** was relieved 2 hours early on shift by **Capt John** 'Stiltskin' **Symmons**. **SSgt Holman** was at pains to explain that Alpha time is 1 hour *after* Zulu time! However, **Capt Symmons** was at pains to claw back the lost sleep over the next few days! Quickly, we moved on. During the move we employed Regt SOP 197/2/3 by coasting down hills with the engines switched off in order to conserve fuel. The fuel crisis was hitting us hard! On crossing the Humber Bridge the Troop had a whip round to pay the toll and **Sig Lee** 'Spoon' **Harris** almost had to sell his webbing. Good job he brought a spare set! The rest of the Squadron arrived at Driffield somewhat late and smelling, strangely, of Imperial Leather. Or was it Fairy Liquid? Fortunately **SSM** 'Whopper' **Watson** had been banished to the other end of the Airfield from where his snoring only kept the northern half of the town awake.

The day off was spent in Penrith, which soon became a Mecca for fashion guru's the world over when **Maj Toby** 'Armani' **Lankester** strode forth dressed in his jacket, tie and army issue pumps. The local watering holes were a little taken aback by the arrival of the PLK but soon relaxed as beer tokens changed hands with ever increasing rapidity. Needless to say the whole Squadron was back in camp by 1800hrs preparing themselves for the Brigade Ex and the move up to Scotland. The Squadron deployed the COMCEN to Barry Budden and was immediately set upon by the TARSI Rebels. OC N Tp suffered from a sucking chest wound and miraculously survived thanks to the expert surgical skills of a barefoot **Sig Guy** 'Florence' **Scott-Douglas**. After a few further such attacks it soon became clear that we had a soldier in our midst! For efforts during the exercise **LCpl Warren** 'Tigger' **O'Driscoll** was awarded a commendation by the Brigade Comd for meritorious service. All, of course, part of Exercise play.

LCpl O' Driscoll receives his Exercise Bde Comd Commendation for dis-arming a Tarsi rebel
(no Cpl O' Driscoll it's not real and it doesn't go on your P file)

For the final phase we returned to Warcop, where we again set up the COMCEN (we were getting good at it by now!) inside the farmhouse fortunately as the heavens opened shortly after we arrived. A thunderstorm put paid to Bde Main for a short (chuckle) period, but **Sgt Ian** 'Gringo' **Mackay** did spend all night trying to keep the power running. Could it have been the night shifts kettle, toaster, sandwich maker ……!

Cpl May, 'Is there anyone there?'

CONGRATULATIONS

Best wishes to **Sgt Mark Trotter** and his wife **Louise** who have just had their first baby daughter **Katie**.

56 SIGNAL SQUADRON – EASTBOURNE

Sqn Comd **Maj Streete**
SSM **WO2 Godden**

PERSONNEL

With **Maj Sarah Streete** only recently back from Kosovo and **Lt Kieran Francis** still serving on FTRS in Bosnia, **Capt Tony Potter** was handed the Squadron reins for this year's Annual Camp. Furthermore congratulation go to **2Lt Rob Wood** who successfully completed his commissioning course at RMAS over the period 9-30 September 2000.

EXERCISE HORSESHOE 1 - ANNUAL CAMP

Unusually, the whole of camp was dedicated to communications; this provided an excellent opportunity for Squadron members to improve their skills. For **Sigs Trish O' Sullivan, Stella Jennings** and **Dave King** it was the chance to consolidate their first trade, for **Cpls Butler** and **Harding** to practise their Class 1 skills. From the outset it was clear that the Squadron was going to be pushed for manpower but with key players raring to go and all equipment serviceable the task was not beyond us.

After MOBEX and the first issue of CS 95 uniform the Squadron deployed to its first exercise location, Sennybridge. This move was not without incident as **WO2 (SSM) Roly Godden** managed to blow the engine on his landrover which gave the REME FRT of **Sgt Gary Windham, Cpl Pete** 'Poke it and see' **Paine** and **Cpl** 'I'll have it fixed in a jiffy' **North** the opportunity to practise first, their recovery skills and secondly their mechanical skills. This was to no avail and the unfortunate vehicle was consigned to ABRO Sennybridge. Undeterred and with blue skies and unbroken sunshine everyone quickly got into their stride. What odds, two days without rain in Sennybridge? Before long the Squadron was on the move to Altcar and another couple of days workup training in a FIBUA village. The building marked garage and proudly displaying the Shell Oil motif was as dry as all the other shell garages on the West Coast at this point.

Next, the Regimental concentration at Warcop and a well-deserved day off in Keswick. **Capt Ian Murray** planned an excellent walk in the hills high above Derwent water, the peace and quiet and yet more fine weather provided an excellent opportunity for everyone to recharge their batteries before the exercise started in earnest. The aim of the Exercise was to provide command and control communications to 2 (NC) Sig Bde staff. Our first location was just across the road in Warcop Training Area. It was here that we first met members of 47 Sig Sqn under the command of **Lt Mike Smith** who were placed under our TACOM for the duration of this phase of the Exercise. The pressure was now on and it was not long before the first incident. An IED in our midst. The situation was dealt with calmly and the only real anxiety was shown by **Sgt** 'Crusty' **Howell** the Chef for fear that he would not be able to prepare lunch on time if the situation was not quickly resolved. The next day he celebrated his 94th birthday although he swears he is only half that age!

A final move to Wathgill and now the characters were really beginning to show, Siamese Twins **SSgts Cooper** and **Maginnis** had their respective shifts working well and the communications stayed rock solid throughout. This was clearly lost on **Sig Dalton** who was clearly heard replying to another callsign 'Yes, ZBZ 5 send again over.' The main event during the exercise was a VIP visitors day with the GOC and various other high ranking officers and civil servants taking centre stage. **WO2 (SSM) Roly Godden** was caught taking detail to an unprecedented level during preparations when he was spotted drilling traffic cones. *Stand still the left hand cone!* **Sgt** 'Two heads' **Hall** and **LCpl Steve Spilsted** achieved the same high standards with the often forgotten, but equally important administrative details. The visitor day went extremely well even if a violent electrical storm and torrential rain disrupted the preparation day. **WO2 (YoS) Smith, LCpl Reader** and **Sig Jenkins** may have even qualified for the Olympic team had the 100m dash to disconnect antennas been timed.

LCpl Baldwin deserves a special mention, as he was detached from the Squadron to head up a rear link detachment for 83 Sig Sqn. By all accounts he performed admirably in *almost* every situation! By the time the Exercise had finished the fuel crisis had resolved itself and all assets recovered safely back to Eastbourne in time to celebrate. In summary the Squadron achieved great things on camp and clearly demonstrated a team spirit and a skills level that would be hard to match by anyone. Each and every member of the Squadron can be justifiably proud of their performance and the scale of their achievement.

83 SIGNAL SQUADRON(V)

Sqn Comd **Maj Julian Carmichael**
SSM **WO2 Stephens**

CAMP 2000

'He counted them out and He counted them back in again'

Annual Camp for 83 Sig Sqn saw its OC, **Maj Julian Carmichael,** scatter troops to the four winds. Tasked with providing the Rear Link Detachments (RLDs) for the Brigade Exercise, the Squadron despatched its 'BEST' in order to provide secure comms to each of the Regiments. A Liaison Officer whose primary responsibility was to act as a link between the Detachments and the Regiments accompanied each RLD. Well done to **Capt Liz FitzPatrick, Lt Paul Ukpai, 2Lt Mike Zazzi** and **SSgt**

Matt Cahill all of whom did a sterling job. Some locations even boasted the securing of showers! Congratulations and a big well done are also extended to the Det Comds and operators who manned the RLDs. Yet again the Squadron proved that it can rise to a challenge and provide the very best.

Cpl Ahluwalia was however sent further afield than the depths and breaths of Scotland. He spent camp with our American cousins at 1111th Sig Bn. It gave him he opportunity to exercise and socialise with our colleagues abroad. An enlightening experience for all concerned!

VISIT OF BRIGADIER D. R. d'A WILLIS CBE

The Squadron was honoured with a visit from the Deputy Commander London District and Commander London Area at its TAC White City. **Brig Willis CBE** was keen to meet with the Officers and Soldiers who make up the squadron and discuss issues surrounding their recent move. He was greeted by **Lt Col Linda Harrison TD** CO of 31 Signal Regiment (V) and the Sqn Comd, **Maj Julian Carmichael**. After coffee **Brig Willis CBE** was taken on a tour of the newly refurbished TAC and stayed for a few beers in the OR's bar.

SUBBIES SAILING

Skipper **Capt Colin Vaudin** (Adjt) and Mate, **Lt Beth Pollard** set off with a novice crew of four subbies on the Ensis for a weekend of sailing around the Solent. Leaving Gosport we head towards East Cowes, enjoying the Friday afternoon sun. On arrival it looks like there was no room at New Haven, but as the sun went down we found another yacht to moor along side. Time for G & T's in the cockpit while **Lt Lee McEvoy** finds his way around the Galley. With the sun risen we set sail for Southampton via Newtown for a lunch stop. After much trimming of the sails the anchor is thrown. Able crewman **Lt Debbie Speakman** dives over the side for a pre-lunch swim, quickly followed by **Capt John Symmons**. To ensure that all on board are able to rescue any sailor from over the side we practise hoisting drills, **Capt John Symmons** being the man in the chair. We then voyaged on towards Ocean Village for an evening of high spirits. Once more the sun rose high, we headed back towards Gosport with **Capt Liz Fitzpatrick** at the helm. With all crew able to tell the difference between a warp, sheet and halyard we moor safely back at JSASTC having had an excellent weekend.

Sgt Bullock (USNG) and SSgt Shand (51 Sqn) tour the Regiment whilst on Annual Camp

USNG EXCHANGE TRIP - *By SSgt Davie 'Coffee Mug' Shand*

Back in June I set off on an exchange trip with USNG, based at Fort Hood, Texas. I was on my way to the US on the 11.30 flight from London. After a few drinks, lunch, a few more drinks, a movie etc, I arrive in Washington DC. It is only local time, six hours behind UK time and I have already been on the go since 0500hrs this morning. There is a great welcome, including a thunderstorm, so the flights have all been delayed, not leaving until 1930hrs. Flying to Iowa, we have four different flights, with the planes getting progressively smaller. I arrive around midnight along with the five other SNCO's on the exchange. We are picked up by the USNG rep and taken to Marshalltown; an hour's drive away, where we spend the night in a motel. It seems that I have just got to bed when it is time to get up. We jump on the transport that takes us to the local Armoury (TAC) where we meet the National Guard - 234 Sigs Bn, C Coy. Big shock for me - there is no coffee, only orange juice and the biggest, stickiest doughnuts for breakfast. Next, we are on our way to Fort Hood, Texas, having just been told that it is a three-day drive. We leave at 0745hrs for Kansas City Armoury, arriving about 1800hrs. The night is spent on the armoury floor, after clearing away the cockroaches. Next day we are up at the crack of dawn. Breakfast, this time with coffee, is followed by hanging around waiting for hours - nothing new there, before setting off on the next leg of the journey, to Oklahoma City Armoury. We arrive at 1830hrs, the excitement of the drive having diminished as the pain of sitting increased. By this time I have managed to borrow a camp bed, not fancying another night with the cockroaches. We have started to build up some rapport with our hosts, but they are a bit shocked when they find that we have a few cans of beer, which we have to drink outside and well away from everyone. The next day we are travelling from early morning, until finally arriving at our destination at around 1530hrs.

Fort Hood is the home of the 1st Cavalry Div and holds about one third of the army so you can imagine the size of the place - well it is Texas after all. There are helicopters, vehicles and armour of all sorts everywhere, but we have no time to look around before heading off onto the exercise area and pitching our tents for the night. The next couple of days are spent moving locations, drawing kit and lots of hanging around - just like being at home, apart from the temperature being in the high 80s. On moving to the RV we got bumped - finally some excitement - but just as things started to get interesting a thunderflash set the grass on fire and everyone had to stop play and put the fire out - 'Millions of acres burned by British TA soldiers' would not be a good headline. On moving back to Fort Hood the weather changed for the worse with three days of constant rain with a good bit of thunder and lightning thrown in for good measure. We were just glad not to be out under canvass. The Americans had some lectures on their radios and antennas before we moved back out onto the training area, by which time the weather had reverted to 80 degrees of sunshine again. Unfortunately, all good things come to an end and we were heading back to Washington D.C. We arrived around 1430hrs, booked into our hotel, opposite Fort Myres and headed for the PX shop, followed by a few drinks in one of the local bars. We spent the next day and a half as tourists, visiting Arlington Cemetery, The White House, Washington Monument, etc, before heading back home. Looking back, the trip was one of the highlights of my TA career and I would thoroughly recommend a USNG exchange to any SNCO who can find the time and opportunity.

My host, **Sgt Bullock** spent the first week of annual camp with the Squadron and took part in Ex Saltire, a two-day NCRS Exercise on Ripon Parks Training Area, in preparation for Ex Horseshoe. Despite being looked after on the R&R day by various members of the Squadron, **Sgt Bullock** managed to remain teetotal. As the Squadron left Ripon to deploy on Ex Horseshoe, **Sgt Bullock** departed for a week of sightseeing.

52 SIGNAL SQUADRON (VOLUNTEERS)
Sqn Comd **Maj Donald Gordon**
SSM **WO2 (SSM) Swan**

Members of the Squadron were approached by an ex-Royal Signals Soldier for use of a Royal Signals Tartan Beret to be worn on a 51st Highland Division reunion parade at Saint Valery where the 51st Highland Division Memorial stands. The Picture shows **Sig Albert Murray** who joined the 51st Highland Division No. 1 Company Royal Signals Aberdeen Territorial in April 1939.

He was joined on the reunion by **Sig Henry Hopkins** (also pictured) who joined the Royal Signals at about the same time in 1939. **Albert Murray** was sent to Le Havre in January 1940 and was wounded at Saint Valery, he was then taken to Rouen Hospital after the surrender. Both **Sigs Murray** and **Hopkins** were held as prisoners of war after the fighting at Saint Valery.

Sig Albert Murray (L) and Henry Hopkins (R) during the 51st Highland Division Reunion at Saint Valery

LEADERSHIP TRAINING AND SPORTS WEEKEND

The weekend of 11-13 August 2000 saw the Regiment deploy to Garelochead Training Area. The aim of the weekend was to test the leadership skills of the soldiers and JNCOs of the Regiment. This was done using that tried and tested method of the round robin on the Ardgarten training area north of Garelochead. The weekend got off to an inauspicious start when, in a desperate attempt to wipe out the real talent in the Regiment, namely **Maj Donald** 'My Lunch is Ruined' **Gordon, WO2 (SSM) Karen Swan** and **WO2 Sammy Shaw, WO2 (SSM) McGowan** of 61 Sig Sqn turned the 4 Tonne truck the aforementioned three were travelling in the back of on to its side. Fortunately this cynical attempt to topple 52 Sig Sqn as the best Squadron in the Regiment failed. The soldiers had to navigate to a number of stands including first aid, observation, a command task and many more. The teams were scored at each stand and a prize given to the winning team. This team was the mysteriously misnomered 51 Sig Sqn 'B' Team, which consisted of four personnel from 52 Sig Sqn, and two from 51 Sqn. Conspiracy????

The following day a sports day was held with Inter-Squadron competitions in football, volleyball and uni-hockey (You can't give Jocks real sticks). 52 Sig Sqn once again dominated this competition. The success began when the football tournament was won with the Squadron OC gently encouraging the team to victory. The team said later that it was due to his inspiring words that they put in the extra effort required to win. There was a slight blip in the Squadron's march to world domination, when in a moment of weakness, the Squadron Team lost their uni-hockey match. This was blamed on the fact that they were not used to keeping a stick below waist level. This meant that there was a nail biting volleyball final with the overall sports prize at stake. The game started in a bizarre way when the gym attendant at the sports centre at Faslane locked the volleyball away and a football had to be used. This meant nothing to the mighty 52 who swept to glory by beating 61 Sig Sqn 2-0, the team being lead by **Maj Donald** 'Set it, ya numpty' **Gordon**.

The final over, all that was left was the prize giving and to load the silverware on to the lorry hired for the occasion. However, one mystery remains; what happened to the overall sports champions trophy? Have 61 Sqn kept it in order to have something in their trophy cabinet?

ANNUAL CAMP 2000

The RSM tells the Comd that he is wrong '....it is only this big.'

Annual camp was strange for the Squadron this year because we had to split the Squadron in order to provide communications for three different exercises. The NCRS element of the Squadron deployed on Ex Horseshoe, a 2 (NC) Sig Bde Exercise. The Squadron CP, the Squadron FFR and the MIV Troop deployed in support of 15 (NE) Bde on Ex Migrant Merlin. A further MIV was deployed in support of 1 RGJ on Ex Quebec Venture.

EXERCISE MIGRANT MERLIN

Ex Migrant Merlin was a 15 (NE) Brigade Infantry concentration in two parts. There are three battalions in the Brigade: the Tyne Tees Regiment, the East and West Riding Regiment and 4 Parachute. There were also 200 regular Czech soldiers from the 4th Rapid Deployment Bde. The first week was to be spent in individual training by the battalions within the Brigade. An MIV was attached to each battalion for the duration of this week of training. The soldiers were required to undertake duties other than comms tasks. One example of this was when the crew of MIV 2, **Cpl Henry** 'Cross of Iron' **Rodgers** and **LCpl Alan** 'Pass the Loo roll' **MacDonald** were tasked to act as enemy. They single handedly defended the Skye Bridge against a descent operation by 4 Para in the form of an airborne assault on the bridge. Their defence was magnificent, as can only be expected, and they successfully defended the bridge. The Paras fatalities are believed to have been in the hundreds whilst the casualty list for the Detachment from the Fighting Fifty Second amounted to one cut thumb, when **LCpl MacDonald** had an accident with the dust cover of his rifle. Rumours that he requested an injury claim form to be sent with his pay are unfounded. One other strange duty resulted in medals of a different nature when **Cpl Billy** 'Midfield General' **McPherson** and **LCpl Tam MacCole** strengthened the Tyne Tees Regiment football team in a match against a talented Czech Team, where once again they were victorious. The Squadron CP deployed with one MIV to Altbea, which is just beyond the back of beyond, to conduct comms trials in preparation for the exercise that was due to take place the following week when all the units in the Brigade came together for a big finale. Unfortunately, due to the fuel shortages, the staff at HQ 15 Bde decided to cancel the exercise in order to ensure that the units had enough fuel to travel back to their home bases at the end of the camp. The battalions were ordered to continue training in their current locations until the end of the camp with the MIVs staying with their units. This resulted in **LCpl Anne** 'Attached Layabout' **James** getting a name for herself by ruining one of the subalterns from 4 Para. No details on how she did this have been forthcoming. The crew of the MIV attached to the TTR were also given some additional tasks which included running a signals cadre and operating a CNR rebro, something not included in our soldiers' training. The exercise cancelled, CP 52 decided to relocate to Warcop in order to support the NCRS element of the Sqn on Ex Horseshoe 1.

EXERCISE HORSESHOE 1

The Squadron CP deployed to Warcop Camp and were co-located with Echelon. The Squadron personnel who went there were surprised at the lack of activity as everyone at Ech was as still and as motionless as the Terracotta Warriors. The main difference being that the Terracotta Warriors were found on their feet, something HQ Sqn could never be accused of.

Sgt Miller (USNA) with the younger members of the Regiment

The concept of the exercise was that the NCRS elements of 2 (NC) Bde were to deploy on Peace Support Operations (PSO) in support of the UN in an unstable country. This meant that the soldiers had to employ their wits and ingenuity as well as their military and comms skills. The Detachments were required to move location, clearing it of any booby traps or indigenous population. They also had to deal with 'Displaced Persons' and troublemakers in the form of the RRTT and their recruits. The soldiers on the Detachments ignored the OC's suggestions on how to hurt them without leaving marks. His training on booby traps and ponji sticks also fell on deaf ears. One Detachment, **Sgt Hamish Graham, Cpl Frankie Holtz, Cpl Val Bowden** and **Sig Elaine Wood**, conducted their

own form of ethnic cleansing. One night they heard something rummaging in their rubbish. The big tough soldiers grabbed their rifles and surrounded the bag ready to brain whatever was invading their leftovers in the belief that it was a rat. The culprit however was a ferret that was adopted by the Detachment and became part of the crew. Rumours that this increased the Detachment's average IQ have been denied.

The RSM tries to teach the Macarena to the Comd 2 Sig Bde and the OC of RRTT

61st (CITY OF EDINBURGH) SIGNAL SQUADRON (V) ANNUAL CAMP 2000

Full of hope, anticipation and, dare we say it, optimism 61 Sqn deployed on the regular pilgrimage known as annual camp on 16 September. Early on Saturday morning a fleet of Landrovers and NCRS trailers lumbered slowly southwards towards Ripon Barracks. Upon arrival it quickly became obvious that the 'optimistic' feelings were well justified; **Sgt Jimmy** 'Nae Nuts' **Dunlop** had just proved that, having dispensed with one wheel in transit, it was possible to drive an NCRS on only three wheels.

Glasgow provide a kick-start to 51 Squadron

A 'quick shake out' at Ripon was all that was required before deploying on the first phase of camp, the practise for Ex Horseshoe. There were no 'dramas' at this stage and the troops returned to Ripon on Wednesday determined to enjoy their day off. At the Sergeants Mess Dinner, **Sgt Jane Chisholm** cleverly allowed herself to be hypnotised and 'pretended' to get herself into all sorts of compromising situations and positions, purely for the benefit of the Mess. Meanwhile at another social event in a local restaurant, **Cpl** 'Smiler' **Allen** performed his hilarious 'drunk man falling asleep at the table' impersonation before waking up again and going back to the bar.

On Friday it was gloves on for the real thing, Ex Horseshoe. 61 Sqn, charged with the responsibility for the site admin of RCP/Comms Ops, deployed to the muddiest and most cow-infested field in the North of England. As the dark clouds scudded malevolently across the forbidding skies, the heavens opened and the Squadron vehicles oozed into their muddied positions. Such was the extent of the precipitation that the site soon resembled a scene from a Wilfred Owen WWI poem:

'*coughing hags, bent double cursing their way through the vile sludge*'

The SSM conducts her daily butt check

To add to the entertainment the local bovine population decided to take a literal and metaphorical 'crash' course in NCRS training by unsuccessfully trying to avoid the various masts that populated the field. To combat this destructive dairy disaster, various Squadron members were charged with the serious task of herding the inquisitive beasts away from the sensitive communications hardware. Proof indeed of the important 'soft skills' that can be acquired in the TA. (Of course there are those say that it was **Cpl** 'The Bull' **Leslie** and not the masts which were the cause of the agricultural invasion)

Sgt Chisholm and Cpl 'Shoe' Traynor getting wound up whilst on Exercise

Relief of sorts came on the Sunday, when the Squadron re-deployed to the relatively hard standing havens of Longtown Camp. The relief was short lived in the Officers Tent when they discovered that, despite being on hard standing, the cleverly angled slope accurately channelled all the rainwater towards all dry kit. The gloom was quickly lifted with the arrival of **SSgt Roweena Clarke** who seemed determined to sleep with five resident officers. However, many believe that she was only there to catch another glimpse of the early morning exotic dance conducted by **Capt Jeph** 'Not a Yeoman' **Jephcotte,** wearing only his boots and tight boxers. The weather was indeed a predominant factor, even to the extent that, on a very windy dark morning, it allowed **Cpl** 'Smiler' **Allen** (still suffering from his hangover) an opportunity to conduct his kite-flying class with the MT Stores Tent. It was a shame that there was no audience to view this interesting and frenzied activity.

IF YOU'VE LOST CONTACT WITH AN OLD FRIEND, WHY NOT SEND AN ENQUIRY TO THE WIRE YOU NEVER KNOW ONE OF OUR READERS MAY BE ABLE TO HELP PUT YOU IN CONTACT AGAIN

Continued on page 567

At a time when the Army is facing undermanning and overstretch
we feature our Signallers in support of

The Signal Officer in Chief's Recruiting and Liaison Staff

SIGNAL OFFICER IN CHIEF'S RECRUITING AND LIAISON STAFF

IS THE CORPS POORLY RECRUITED? DO WE HAVE A RETENTION PROBLEM? WHAT ARE WE DOING ABOUT IT?

The answer to the first two questions is a definite **YES**. But what may shock you is that we are not any worse off than the rest of the Army … at least statistically. That doesn't mean to say that things couldn't be better or that we can't be doing something about it. With this in mind four initiatives have been started with the single unifying purpose of improving the Corps recruiting.

The first initiative was aimed at those civilian companies who develop and execute the Army's recruitment campaign - the 'BE THE BEST' campaign which is now entering its second phase. It was hoped that if we could capture the Marketing Agencies' imaginations and educate them about the Corps, then we might inspire them to sell the Corps better. Five companies attended the Marketing Initiative on 10 October 2000; Saatchi & Saatchi, COI Communications, Education Communications, PMT and CMI. Their collective brief from the Army is to recruit using every available means; television, radio, newspapers, cinema, internet, brochures and educational handouts. Their success rate has been proven from the first half of the BE THE BEST campaign and as they enter phase two they need fresh ideas and closer targeting. What became apparent during the day was that these PR gurus actually knew very little about the Army, despite being responsible for publicising it! Indeed three had never seen the Field Army before. When they left that night for London they had seen possibly the biggest gathering of the Corps' equipment on Salisbury Plain for at least five years and maybe longer. They had met our soldiers and been very impressed. Conversations had taken place in the backs of 436s and Land Rovers that was informed, frank and earthy (and out of ear shot of officers). They had been left under no illusions of what the shop floor of the Corps felt about the current TV advert and more importantly what a critical role the Corps plays in the Army on operations and exercise. We believe the day can be judged a success! For now, having no previous baseline to gauge the Army upon, when these companies picture a soldier he or she will be wearing a Jimmy. Lastly it would have been a sheer waste if we hadn't seized the opportunity of having the clans gathered to improve the Corps' recruiting photos some of which you can see on this page.

The second initiative was designed to tackle the coal-face of Army Recruiting - the Armed Forces Careers Offices (AFCOs) and the Army Careers Information Offices (ACIOs). Every television or newspaper advert, every online inquiry and every brochure or leaflet has but one aim, which is to encourage young men and women to walk into an AFCO/ACIO. It is at the AFCO/ACIO that the Army's Recruiters sell a career in the Army and in particular a career in a specific Regiment or Corps. The Corps is well represented at the ACIOs and has just been allowed by Headquarters Recruiting Group (HQ RG) to place eight special recruiters in eight more offices around the country. However, there is still a lack of understanding amongst the non-Royal Signals recruiters just what the Corps can offer in terms of a career, a trade, qualifications, operational experience and enjoyment. Therefore 137 recruiters were invited down to the Royal School of Signals on 1-2 November, where over two days they were thoroughly briefed about the Corps. They too saw an impressive display of equipment and took the opportunity to talk to soldiers from all over the Corps. They left with no illusions that the Corps can offer just as much as the rest of the Army in terms of excitement and war fighting, but also that we can't be beaten for the educational and trade rewards a career in the Corps means.

Of the last two initiatives, the first has already been mentioned, that is placing eight Special Recruiters in eight more AFCO/ACIOs around the country. The other is that the Corps Executive Committee has approved the formation of a second Mobile Presentation Team. The success of the first team in reaching out to schools and colleges throughout southern England and promoting the Corps can not be praised enough. A second team will allow the Corps to visit more schools, colleges and exhibitions. The value for money of these teams will be considerable as they actively recruit purely for the Corps from an audience that is just beginning to think of future jobs and careers. It is a rewarding year for anyone who wants to work in a high profile role and who is keen to make a genuine contribution to the Corps. SORLS would like to pass on their sincerest thanks to all those who supported the Marketing Day and the Recruiters Convention. They were: 3 (UK) Div HQ & Sig Regt, 11 Sig Regt, 14 Sig Regt (EW), 21 Sig Regt, 30 Sig Regt, RSS Blandford, 1 Mech Bde HQ & Sig Sqn, 16 Air Asslt Bde HQ & Sig Sqn, 8 Inf Bde HQ & Sig Sqn, 249 Sig Sqn (AMF(L)), 264 (SAS) Sig Sqn, 660 Sig Tp.

OPPORTUNITIES IN RECRUITING

The Corps has now been awarded the opportunity to place eight Special Recruiters at Armed Forces Careers Offices (AFCO) and Army Careers Information Offices (ACIO) around the country and also to form a second Mobile Presentation Team (1 x SNCO and 4 x JNCO).

Do you fit the Bill? Passionate about your Corps? Want to make a difference in a high profile career job?
Willing to encourage people to join the Royal Corps of Signals?

If you are a SNCO or Warrant Officer who would like a 30 month tour starting in February 2001, that includes a civilian-recognised course in recruiting at the Army School of Recruiting Bovington, and want to serve in the following AFCO/ACIOs: Birmingham, London/Blackheath, Brighton, Cardiff, Glasgow, Leeds, Liverpool, Swansea, then call **Capt (Retd) Tony Reynolds,** SO3 Soldier Recruiting on Blandford Military 94371 2132.

If you are a SNCO or a JNCO who wants to be part of the Royal Signals Mobile Presentation Team for a one year tour starting January 2001 and based in Blandford: Then call **Maj (Retd) Keith Russell,** SO3 Recruiting Support on Blandford Military 94371 2130.

Continued from page 562

Exercise briefing for a visitor

The recruits tell it like it is

Throughout all these tribulations the morale factor was kept sky high with the publication of the camp magazine 'The Chocolate Slider' (The paper that tells the Tommy the Truth!) The Slider soon became mandatory reading and was produced by the dynamic dirt diggers **Capt** 'Doddsie' **Dodds** and **2 Lt** 'Tarquin' **Gaw**. No stone was left unturned and no moral standard unsullied, recent reports suggest that the two intrepid hacks have now engaged the services of recently retired libel lawyer **George Carman QC**, in order to defend the numerous libel suits. A regular appearance in the 'Slider' was **Cpl Paula** 'Stag on' **McLean** who was consistently a leading contender for most extensive Anglo-Saxon vocabulary, brought on by a urgent desire to do as many turns in the NCRS cabin as possible. Two other Slider regulars were **SSgt** 'Netty' **McGinley** and **Sgt Andy** 'The Naked Chef' **Crawford** who constantly performed miracles with compo in providing regular banquets for the troops. Both are currently considering a line in the 'wine to water' industry.

Haute Cuisine courtesy of 51 Squadron
('Would you like fries with that?')

The last day of camp was the usual organised frenzy of clearing up with the SQMS frantically resupplying personnel with teddies to throw. One person for whom the resup came too late was **LCpl** 'Shoe' **Traynor**, who vented her anger with a swift left-hook on the unfortunate **Lt Phil** 'Sans Pantalons' **Donegan.** A long day was brought to a close with a turnaround of the kit at Chesser followed by a slap-up, candlelit 'welcome home' dinner organised by **Captain** 'Gers still in Europe' **Campbell.**

The Capital Squadron enjoy a typical meal in the JRC

In summary; a hard camp made all the worse by the weather. However, the sheer hard work and attitude of the Squadron proved that 61 Sqn is both Capital by name and Capital by nature.

Visitors to 51 Squadron on Exercise

33 SIGNAL REGIMENT (VOLUNTEERS)

REGIMENTAL HEADQUARTERS
CO **Lt Col E. A. Davis**
RSM **WO1 (RSM) R. D. Cowan**

ARRIVALS AND DEPARTURES

RHQ has seen many changes in the past couple of months. **Lt Col John Steed MBE** made a memorable exit from the Regiment in a WW2 American Half Track, he has now gone 'down south' to Blandford. He will be sorely missed by everybody and we wish him and his family all the very best for the future. A warm welcome is extended to his successor **Lt Col Elton Davis** who has come from Germany and brought his family (and six horses) with him! Another new face to arrive is that of **Capt Wendy Kirby** who replaced **Capt John** ' That's the Badger' **Harrington** as Adjutant and is to replace Training Major, **Carl Sforey** when he leaves next month to join the city slickers in London. Another gap was left in the Ops Cell when **WO2 (FoS) Aidy Glover** left the Regiment to go to a job in civvy street, but fortunately **SSgt (FoS) Clapham** has been drafted in to replace him. Finally welcome to **SSgt** 'Barbie' **Smith** as the Trg SNCO in Ops who recently celebrated his 40th birthday with a special pink Barbie cake.

EXERCISE REGULAR ROSE

The Regiment has just returned from its biannual exercise where all permanent staff (both military and civilian) come together and 'bond'! Much of the bonding this time took place on a minibus as we endured the six hour journey to 14 Sig Regt in Brawdy, South Wales. However, the activities that followed more than made up for the long journey. Most of the group went Horse Riding where the CO showed all of us up, but it has to be said that **RSM Cowan** looked very at home riding 'Dolly'. **Lillian Green** (42 Sqn) was bitten almost straight away by Dolly Mixture but bravely got back on her horse and rejoined the group. **RQMS Bob Forshaw** was said to be devastated when he found out that Sea Fishing was cancelled as was **Sgt Mick Watkinson** who brought his own special rod and tackle. Their disappointment, however, was quelled by the promise of a morning Go-Karting. The testosterone was flying as an all male party took to the circuit and battled it out for a bottle of champers which was won ultimately by the CO's driver **LCpl Scott Wilson**. The day was rounded off with a ten pin bowling competition which was won by a team comprised mainly of people from the QM's department – a bit of ' creative accounting ' with the scores we ask ourselves? The week was thoroughly enjoyable and our thanks go to 14 Sig Regt for their hospitality - we can't wait for the next exercise in the new year.

EXERCISE EBOR PONCHO

A Group of eight Soldiers and Officers undertook a three-week trekking expedition to Ecuador during July. After a long and eventful journey we arrived in Quito (the capital) where a couple of days (and nights) acclimatisation were carried out. We tackled a few different types of terrain during our stay the most unpopular being the jungle as it was wet, cold and extremely muddy (See Picture One – **2Lt Ross** 'Numpty Sticks' **McLeod, Capt Bob** 'I've got the money' **Dobson, LCpl Scott** 'Anybody got an Iron?' **Wilson, 2Lt Jo** 'Anybody got any toilet roll ?' **Down, LCpl Gerry** 'I want to go home' **O'Brien** and **Capt John** 'It's the principle' **Harrington**).

We also visited the only inhabited volcano in the world that was situated in the middle of a crater. Everybody walked down the crater and became ' Warriors of the Path' apart from **Capt Bob Dobson** who tried to hire a donkey but was told by its owner that he was too large! (See Picture Two – **2Lt R. McLeod, LCpl G. O'Brien, LCpl S. Wilson, Lt A. Mayo, Sgt M. Watkinson, Capt J. Harrington, 2Lt J. Down**).

Being in Ecuador it would have been a waste not to visit the equator, so we did - and were told by **2Lt Ross Mcleod** and his trusty GPS that it was in the wrong place! (See Photo Three – **Capt J. Harrington, Capt B. Dobson, LCpl S. Wilson, 2Lt J. Down, Sgt M. Watkinson, 2Lt R. Mcleod, LCpl G. O'Brien**).

Overall the expedition was a big success, the scenery was fantastic, the trekking was challenging and the food definitely had a lasting impact on all of us!

80 SIGNAL SQUADRON
Sqn Comd **Maj M. Brown**
SSM **WO2 Hale**

EXERCISE EBOR SCRAMBLE

After a hard summer camp in Germany it was about time that the Squadron indulged in some adventure training. The above exercise took place during the first weekend in August at Indefatigable on Anglesey. Many activities took place including climbing, walking, sailing and powerboat racing. The only thing of note to report was the old sea dog **Cpl** 'Bermie' **Bermingham** doing his usual over the side – What is it with him and boats! The evening's entertainment was a BBQ followed by a visit to the delightful city of Bangor and a good time was had by all. It proved to be an excellent weekend. Special thanks to **Cpl Haddock** for doing the bar and to **SSgt Paul Langley** for organising the weekend.

ARRIVALS AND DEPARTURES

The Squadron would like to say farewell to **Maj Stan Fitzgerald** who after three years as OC of the Squadron finally hangs up his boots due to work commitments. All the best to **Stan** and **Joanne** and his family for all the time and effort that he put in to the Squadron – he will be sorely missed. The new OC, **Maj Mick Brown** arrives straight from Regimental HQ, plucked from the Regimental Ops team. Welcome to the Squadron and we all hope that you have a happy and successful time here in Runcorn.

42 (CITY OF MANCHESTER) SIGNAL SQUADRON (V)
Sqn Comd **Maj M. O. Cummings TD**
SSM **WO2 (SSM) G. Ward**

ADVENTUROUS TRAINING (22-23 JUL 00)

Thirty members of the Squadron took off for Keswick in the Lake District to take part in the summer adventurous training weekend. Low Grove Farm, a traditional Lakeland farm house, situated at the foot of Skiddaw and with breathtaking views of the Vale of Keswick and the Barrowdale Valley, was to be the base for our weekend of fun and fresh air.

The weekend was ably organised by **SSgt** 'Rooster' **Coburn** and the activities on offer included canoeing, trekking, climbing and mountain biking. Canoeing was particularly successful with eight members of the Sqn passing their Kayak one star test and having the official certificate and badge from the British Canoe Union to prove it. Their instructor, **Mr Bob Morris**, a constable with the Lancashire Constabulary is to be congratulated for turning complete novices into reasonable canoeists in just two days. **LCpl Stuart Green, Sig Ann Donnelly, Sig Alex Thomas, Sig Georgina Evans, Cpl Mick Hanna, OCdt Danny Fenwick, Sig Geoff Fletcher** and **Sig Servane Gouda** are all now launched on the first phase of what will hopefully become a useful and stimulating hobby. The more energetic members of the Squadron experienced the joys of hill walking under the eagle eye of 'Rooster' **Coburn** and **Sgt Alan Moore**. The weather was hot and sunny and the first days trek in the Butterdale/Ennerdale area, starting from the Honister Pass and carrying on to Buttermere village certainly got the blood coursing through the veins and the sweat flowing. By comparison the Sunday walk over Blencathra was a doddle, depending on how much of the local brew had been consumed the night before. The highlight of the weekend was the Saturday night BBQ, expertly prepared by the PSAO, **Capt Gerry Whelan**, ably assisted by **Capt Dave Titheridge** and **Cpl Brent Jefferson**.

Pictured against the beautiful background of the Vale of Keswick the equally beautiful members of 42 Sqn (V)
(L-R): Sgt Hazel Trotman. Sig Alex Thomas, Sig Ann Donnely, Sig Servane Gouda,Sig Geoff Fletcher,

members of the Rusholme chapter of the Hells Angels, pose by the lake at Keswick

EXERCISE MANCUNIAN REVIVAL (18-20) AUGUST 2000

In advance of the Regimental centralised military training (CMT) weekend, 42 Sqn conducted a range weekend on the Catterick and Bellerby training areas to polish up the Squadrons APWT and other ITD skills. Much excellent training was achieved, with shooting on the pistol range and gallery and ETR ranges being particularly beneficial in terms of training value. Concurrent activity was carried out on the assault course, run by **Cpl Brent Jefferson** and **LCpl Sharon Blythe**, and the Command Task area, run by **Capt Dave Titheridge** and **Lt Paul Edwards**. Instructors on the ranges were the SSM, **WO2 Ward, Sgt Kevin Westall** and **SSgt** 'Rooster' **Coburn**.

Action man, Cpl Mick Hanna on the pistol range at Bellerby

LCpl Sam Hickson
proves that the girls can shoot with the best of them,
especially when personally supervised by the Sqn's Comd,
Maj Micah Cummings

COAST TO COAST CHARITY WALK(1-10 AUG 2000)

(L-R): SSgt 'Rooster' Coburn, Capt Gerry Whelan,
OCdt John Schofield and Sig Geoff Fletcher
in the rain at St Bees before the start of the coast to coast walk

Put it down to mid life crisis or temporary insanity, but the PSAO, **Capt Gerry Whelan**, suddenly decided to walk across England during the summer holiday break, to raise money for a local children's hospice. Unfortunately for three other members of the Squadron, he also wanted company! This resulted in **SSgt** 'Rooster' **Coburn, OCdt John Schofield** and **Sig Geoff Fletcher** finding themselves huddled together on a rain swept and windy beach at St Bees in Cumberland, facing the prospect of a 200 mile trek! Fortunately for them, as they followed the PSAO along the cliff tops of St Bees Head to sample the delights of coastal walking before heading inland to the western fringe of Lakeland, the skies cleared and out came the sun which was to stay with them for most of the journey.

LCpl Sharon Blythe and **Sig Alex Thomas**, formed the admin back up party and were sent ahead at the start of each leg with strict instructions to park up in the best pub car park and to negotiate showers and toilet facilities with the local landlords. At this, they proved most adept, with **Sharon Blythe** charming mostly free facilities out of the pub landlords and even persuading a couple of them to contribute money towards the sponsored charity.

The Northern coast to coast walk runs from the Irish Sea lapping the shores of Cumbria at St Bees, to where the waters of the North Sea run into Robin Hood's Bay on the Yorkshire Coast. The most difficult part comes at the beginning, which is four days of hard slog across the Lake District from St Bees via Ennerdale Bridge, Rosthwaite and Patterdale to Shap on the M6. This part really sorts the men from the boys, with leg buckling climbs over Barrowdale via the Honister Pass and such delights as the High Stile Range, Haystacks and Red Pike to contend with. However, despite **OCdt John Schofield's** feet looking like raw hamburgers, the party coped well and by the end of the fourth day, on arrival at Shap, we were starting to become fitter, and to relish (well almost) the next day's walk ahead. After the M6, when Shap was left behind and the Lake District was just a painful memory, the scenery becomes completely different, now entering the realms of limestone country on a lengthy trek to Kirkby Stephen near Warcop. On this part of the walk the party was joined by the SSM, **WO2 Graham Ward**, who had come out to give the team some moral support and stayed with the team all the way to Richmond. From Kirkby Stephen the walk crosses the watershed of Britain at the trig point of Nine Standards Rigg that is the source of the river Eden and the Swale. Once over the Pennines the walk follows old lead and iron ore mining routes to Reeth and then along Swaledale to Richmond in North Yorkshire. The only relatively boring part of the coast to coast is the 23 mile section across the Vale of Mowbray between the Dales aand the North Yorkshire Moors, which is completely flat and has a lot of hard pounding on the roads. Ingelby Cross marks the entrance to the Cleveland hills and then an unrivalled crossing of the North Yorkshire Moors with superb views lies ahead.The concluding stage finds its way along old toll roads, across tracts of heather and moorland, through old villages and pleasant woodland until at the very end, as at the beginning there is an exhilarating cliff top walk down to Robin Hood's Bay.

The walk was completed in ten days, which meant that the average distance of twenty miles a day had been covered, and that is good going in anyone's book. Almost £2,000 has been pledged by members of HQ 11 Sig Bde and 33 Sig Regt (V), as well as local business men and traders, which will go towards the upkeep of Francis House Childrens Hospice in Didsbury, Manchester. **Princess Diana** opened Francis House almost ten years ago, for children from the Northwest who have a short life expectancy. 42 Sig Sqn (V) has a special link with the hospice through a former SQMS, **SSgt Tommy Smith** who had a neice who was a patient there.

The 42 Sig Sqn (V) coast to coast party.
(L-R): OCdt John Schofield, Sig Alex Thomas,
SSgt 'Rooster' Coburn, Capt Gerry Whelan
Kneeling: LCpl Sharon Blythe and Geoff Fletcher

VIP VISIT

The Squadron had the pleasure of a visit from the new commanding Officer, **Lt Col Elton Davis** on Monday 25 September 2000, he was accompanied by the outgoing CO, **Lt Col John Steed MBE.** This was an initial flying visit to view the Manchester outpost of the Regiment and we look forward to a more formal visit once **Col Davis** has settled in. All ranks of the Squadron wish the new CO a successful and enjoyable tour with 33 Sig Regt (V) and wish **Col John Steed** the best of luck with his new appointment at Blandford.

ARRIVALS AND DEPARTURES

We bid a sad farewell to our Regular Sys Op PSI, **Sgt Chris Glover**, who has recently retired from the Army. He has landed on his feet and secured a well paid post with NTL Telecommunication in Manchester. We wish him the best of good luck in his future. **Sgt Dave Kirk** has arrived to replace him fresh from 2 Sig Regt at York. He has settled with his wife **Kate** into his quarter at Ashton Under Lyne. Also newly arrived is **Cpl Dave Neal** from 21 Sig Regt (AS), our new MT Corporal. His wife **Jo** is a serving soldier working in the COMCEN at Hereford. Shift work allowing, they see as much as they can of each other in Warrington. We wish them all a happy and successful tour with the Squadron.

59 SIGNAL SQUADRON

Sqn Comd **Maj C. Heaton**
SSM **WO2 B. Paterson**

ARRIVALS AND DEPARTURES

The Squadron as a whole has said goodbye to Deysbrook Barracks and has moved to a more modern purpose built TA Centre in Aintree. The move has been fraught at times but now we are settling in well and taking advantage of the many facilities that the centre has to offer. We welcome **SSgt Oldroyd** and **Cpl Thomas** to the Squadron and hope that they will enjoy their time serving with the TA.

EXERCISE ABLE CONDOR

The Squadron deployed to Germany via (coach, train and boat) in order to take part in Exercise Able Condor. The exercise was tough at times particularly for those in Trunk Node 032 who had to put up with **Cpl Foot's** constant chattering.

Sgt Hankin and LCpl McCourt look remarkably happy
they must have all of their shots in !

Cpl Foot, Sgt Samosa, SSgt Halewood, Sgt Evans, LCpl Lewis

The Squadron was safe in the knowledge that Sgt Ramejkis was looking after the vehicles (and his shopping trolley)

34 (NORTHERN) SIGNAL REGIMENT (VOLUNTEERS)

EXERCISE IMMORTAL SALIENT

Ex Immortal Salient was a 34 (N) Sig Regt (V) Battlefield Tour held over the weekend 29 September-2 October 2000. The tour was centred on the Belgian town of Ypres. Ypres and the area around it was the scene of much heavy fighting from 1914 to 1918 and provided an excellent opportunity to examine the nature of warfare and leadership with many lessons that are relevant to today. The tour had an inauspicious start as the ferry from Hull to Zeebrugge arrived two hours late, causing the organiser, **Maj Chris Jones**, to tear out clumps of his hair; hair that he can ill-afford to lose! Nevertheless the group of 29 managed to reach the town of Poperinge in time to have a guided tour of Toc H (Talbot House). Following a quick lunch, some of it eaten from laps in the minibuses, the group went to Boesinge just North of Ypres to meet people who are digging (with the Town Council's authority) in an area about to be developed. This was fascinating, particularly when one of the diggers uncovered a German grenade that had been in the ground for over 80 years and casually threw it at those watching! The ensuing comment from the QM, **Maj Les Wood** is unprintable.

Next on the itinerary were two cemeteries: a German cemetery at Langemark and Tyne Cot, the largest CWG in the world. Both proved very moving. Finally the group moved to Sanctuary Wood Museum, described by **SSgt** 'Stu' **McKinnon** as the best in the world.

Back to the hotel for a quick change to 'black tie' before attending the Last Post Ceremony at the Menin Gate. The Regiment had been given the honour of reading the exhortation and laying the wreath. This latter was nobly done by the CO, **Lt Col Ian Westerman** and captured on print by **2Lt Paul Denning**.

The ceremony is stunning and one not to be missed, this was followed by dinner at the Hotel. Credit must be given to the 2IC, **Maj Ian Hall** and two Sqn Ocs, **Majs Graham Jenning** and 'Taff' **Watts** for organising a splendid evening. It is ironic to consider that it would be cheaper to travel to Belgium for Mess Dinners rather than stay in the UK!

The weather was beautifully crisp on the Sunday morning and **Maj Dave Sixsmith** together with **WO2** 'Ally' **James** laid a wreath at the 49 (WR) Divsional Memorial. This was followed with another wreath at the 50 Div Memorial (both Divisions have connections with the Regiment) and then back to Ypres for a tour of the Menin Gate and walk around the town ramparts.

It was a glorious autumnal day and the walk gave the participants the time to reflect on what they had seen and learnt. A trip to the 'In Flanders Fields' Museum was followed by lunch before returning to Zeebrugge and the ferry to Hull. Everyone agreed that Ex Immortal Salient had been a resounding success and was an excellent follow-up to last year's tour of Ex Market Garden in Holland. Much is gained from Battlefield Tours and it is hoped to make them an annual event for the Regimental Officers and SNCOs.

Looking towards the re-built Ypres town square,
from the Menin Gate

This is the actual transcript of a radio conversation of a US naval ship with Canadian authorities off the coast of Newfoundland in October 1995 (Assoc. Press)

Americans: Please divert your course 15 degrees to the North to avoid a collision.

Canadians: Recommend you divert YOUR course 15 degrees to the South to avoid a collision.

Americans: This is the Captain of a US Navy ship. I say again divert your course.

Canadians: No. I say again, you divert YOUR course.

Americans: THIS IS THE AIRCRAFT CARRIER USS LINCOLN, THE SECOND LARGEST SHIP IN THE UNITED STATES ATLANTIC FLEET, WE ARE ACCOMPANIED BY THREE DESTROYERS, THREE CRUISERS AND NUMEROUS SUPPORT VESSELS. I DEMAND THAT YOU CHANGE YOUR COURSE 15 DEGREES NORTH, THATS ONE FIVE DEGREES NORTH, OR COUNTERMEASURES WILL BE UNDERTAKEN TO ENSURE THE SAFETY OF THIS SHIP.

Canadians: This is a lighthouse. It's your call!

35 (SOUTH MIDLAND) SIGNAL REGIMENT (VOLUNTEERS)

CO **Lt Col S. J. Potter, TD**
RSM **WO1 (RSM) P. Marshall**

BULLET POINTS

Continuing with the CO's quality not quantity theme the plan to organise the next two Silver Bullet weekends for late Summer and early Autumn gathered pace during August with the organising Squadrons trying desperately to outdo their predecessors. Exciting new initiatives were proposed and one or two surprises promised with each drawing short of offering a framed copy of the CO's Certificate of Efficiency just for turning up or perhaps a mention on the Regiment's new Web Site. Or other dubious inducements such as issuing a guarantee that it wouldn't rain! The recipe for these weekends was an exotic mixture of train hard and play hard, spiced up with one or two competitions a sprinkling of presentations with a few ITD's thrown in for good measure. Dessert was the evening wind down with a wide range of entertainment over a relaxing pint (gallon) of beer including (for Silver Bullet 2) some very humorous smokers - most at the expense of the permanent staff who took it straight to the heart and vowed sweet revenge!

Silver Bullet 2 took place at both Altcar and Holcombe Moor training areas during early September with the Krypton Factor Assault Course providing the training highlight and finale of a very competitive weekend. It was here that **Sgt Steve Crooks** extracted the appropriate 'Revenge Factor' and atonement from those who made him the butt of some serious humour the night before. **Sgt Crooks** who is the Regimental AIPT used the two comedians in the shapes of **Sigs Dave Profits** and **Simon Parry Hall,** as training aids/dupes as a walk through before teams attempted the course. By the time they reached the final water obstacle their misery was complete especially as they had to do it all over again as part of a team effort. Despite some magnificent and memorable team efforts from the competing five teams, 95 Sqn built up an unbeatable overall score and took the final honours as the Champion Squadron. On hand to present the award was the Honorary Colonel, **Col Brian Foxon.** Other notable visitors included Comd 11 Sig Bde, **Brig Jonathan Cook** and his Deputy, **Col Roger Davenport**. On the Saturday evening during the Officers Mess Dinner the Deputy Comd took great delight in presenting the award of the Greenhill Trophy to **Capt Peter Ayre** a thoroughly deserved award and accolade to the undoubted best subaltern in the Brigade.

Capt Peter Ayre receiving his award from the Deputy Comd

The Regiment was particularly delighted however to receive a visit from **Jane Stockdale. Jane** had made the long trip to Altcar to present the award of the Stockdale Trophy, which was conceived in fond memory of the late **Lt Col Miles Stockdale. Jane** was presented with a replica of the trophy to mark her visit and association with the Regiment. The soldier who had made the most significant contribution to the well-being of the Regiment was then presented with the trophy. The first recipient of this special and much valued award was **Cpl Wendy Geddis** of 48 Sqn. Her contribution over the years has been one of unwavering commitment, dedication and selfless devotion to duty to both the Regiment and her Squadron at the expense of her personal life. The Regiment could not find a worthier guardian of this special award and will have difficulty in finding an eventual successor. The weekend, expertly organised by **SSgt Andy Egan** and his team ended as it began with high spirits and a true sense of achievement; sadly every story has a sting in the tale and this one is no exception. The sting was provided by a lone wasp no doubt stirred by the warm sun that descended over the range at Altcar. From its point of view it must have thought that its victim **LCpl** 'Mac' **McSherry,** who was on sentry duty, had invaded its space and stung him in the neck just to make a point. The fact that he was waving around a chocolate bar had nothing to do with it. Unfortunately **LCpl** 'Mac' is allergic to wasp stings and frantically made a call for help over the range phone. The end result, field firing ceased while an air ambulance was called in to evacuate our frantic casualty to hospital. However, it all ends on a happy note because his reaction was not as severe as expected and after some expert treatment he was soon discharged from the local hospital.

Cpl Wendy Geddis receiving her award from Jane Stockdale

Silver Bullet 3, which took place at Nescliffe and Donnington in October, by contrast was a more muted affair or was it! This was an ambitious weekend that with so many activities it was difficult to keep in touch with the numerous programmed events. These included a Sergeants' Course, Recruit Induction Training, Trade Training Tests, Battle, Survival & Navigation Skills and, for the lucky few, a GPMG shoot at Kingsbury Range and a most welcome visit by the Signal Officer in Chief. All this to be followed by an intensive football competition on the Sunday – a rather solemn event following England's defeat the day before.

The Krypton Factor Death Slide

When **Capt Alex Rodgers** of 95 Squadron agreed to organise it he couldn't have known what he was letting himself in for. But by firm but dextrous planning and by calling on his former Regular Army skills he put together a weekend that flowed with energy, interest and enjoyment that was a resounding success enjoyed even by those who didn't want to be there in the first place. The SOinC, **Brig Cedric Burton,** following his briefing by the CO and Regimental Ops staff, spent the day and evening with the Regiment and by all accounts had a most enjoyable and productive day meeting and chatting to many members of the Regiment. He even had a humorous encounter with a group of soldiers at the Section Attack Stand when he asked one of the participants what big event they were looking forward to next – the swift response was 'the disco tonight sir' – exit the SOinC to the next stand. The weekend reached its successful conclusion with the much publicised and anticipated football competition on Sunday morning.

The Champion Team from 95 Sqn

Once again 95 Sqn took the honours and beat all comers to take the Regimental Sports Trophy. 95 Sqn are clearly becoming the team to beat. Yet again the weekend ended with a spot of high drama only this time it involved the gregarious and garrulous **Cpl Wink Watson** of 58 Sqn. After a particularly rough tackle **Wink** was stretchered off the pitch with a suspected broken ankle and this time the paramedics had to be called to evacuate our hapless casualty to the local hospital. Unfortunately (for **Wink** that is) they had to remove the shin guard which was strapped to his leg which caused the most severe pain and distress to poor **Wink** who was also having to deal with the black humour of his team mates at the same time. Consequently they had to administer gas and air to ease the pain and **Wink** lost consciousness for a few seconds – some bright spark commented that it was the first time ever they had seen him quiet for more than five seconds. By the way his injury had no effect on the final result and he is now well on the road to recovery.

BREAKAWAYS

This was also the time of the year when all Squadrons shed their military training commitments to organise adventurous or activity weekends as a short but welcome break away from the rigours of the military training programme. The major adventurous training event of the year was of course Ex Pioneer Dragon, which took place in the USA over the period 9 – 29 September and involved an expedition that embraced the Grand Canyon, the Sequoia National Park, and the Yosemite National Park. The expedition was organised by the Adjt, **Capt Bob Lovett.** While 89 Sqn would have dearly loved to have their weekend jaunt overseas they had to console themselves with a visit to the Liverpool area over the weekend 29-30 July on Ex Stark Initiative. What follows is a brief but stark and somewhat startling report by **Sgt Colin Marshall.**

MAGICAL MYSTERY TOUR

Members of 89 Sqn about to embark on a Magical Mystery Tour

Ex Stark Initiative was an imaginative weekend designed to improve confidence, communication, and social and general blagging skills. The weekend, which was held in the Liverpool area and at Altcar Training Area, was the follow up to a very successful Survival/Escape and Evasion Exercise. This time members of the Squadron had to perform various initiative tests and tasks around the city centre of Liverpool. The weekend started off well on Friday night by the mad scally **SSgt Andy Egan,** the bald headed loafer from Liverpool, creating a totally unbelievable impersonation of Sharon Stone. He was joined in an Oscar winning performance given by **LCpl Dave Jones** who gave an incredibly convincing performance as the bunny on the boil in a skit from the film Fatal Attraction. Well as they say one sketch led to another and **SSgt Charlie Walker** brought the house down with his impression of TVs Naked Chef, as a consequence sausages and the yellow mellow custard for the evening were quickly taken off the menu – and this was only Friday night! After a hard days night Saturday morning soon came round simply because we had been up most of the night and it was time for the Initiative Phase to begin. Teams were deposited in different locations around Liverpool and had to work their way around the city to complete a multitude of devious tasks that were both demanding and in some cases exhausting. **Sig Claire Sam el,** who was given the impossible task of finding a Blackbird singing in the dead of night, had her annual foot wash in the fountain next to the Wellington Monument whilst heavyweight champion **Sgt Colin Marshall** did his Rocky impression on the Museum steps – imagine that! Meanwhile an inconsolable **Cfn Jasper Green,** who is a Marine Engineer, failed to get a ticket to ride the Ferry across the Mersey so his team lost points on skills fade, but he got by with a little help from his friends. Notable near successes included **LCpl Richie Teale** and **Sig Ian Townsend** who so nearly got to play at the Everton Football Ground but failed the blagg, as they could not string a sentence together let alone a decent pass.

More marginally successful were **LCpl Liz J dge** and **Sig Dave** 'The Rave' **Proffitt** who visited the haunts of the Beatles and give an impromptu rendition of 'Get Back' and 'The Long and Winding Road' in the Cavern Club before being thrown out. Saturday night was looming and after an excellent Barbecue cooked by Rugby's celebrated Naked Chef all the participating troops donned the latest cross dress fashions. This included **Cpl** 'Prof' **Profitt** who had to wear a stunning burgundy satin bridesmaid dress complete with wig, tiara and rose pettled fan to celebrate his forthcoming marriage. It was something in the way he moved that made him look like a Fairy from across the Mersey. A memorable night on the town came to an end all too soon and at the crack of midday on Sunday. **Sgt Steve Crooks** sprung a surprise orienteering competition through the sand dunes at Southport. He assured us that this was just to shake off the cobwebs before our return to Rugby but we suspect the ulterior motive was to try and find the fiver he lost the day before. We didn't find the money nor half of the markers but it was a fitting end to a great weekend – but remember Steve money can buy you anything but it can't buy you love! A little bit up the road and to the left a bit you would have also found a group from 48 Sqn having a whale of a time in the Lake District on Ex Lake Placid during the weekend 18 – 20 August. What follows is **Lt Andy St rt's** account of 48 Sqn's break to the lake.

I CAN'T STAND THE RAIN BUT IT BRINGS BACK MEMORIES

The Exercise, which was mainly a navigation exercise designed to take in the breathtaking beauty of the Lake District, started with an arduous trek across the hills surrounding Ambleside. Each student (no exceptions) took turns to navigate our group along a pre-planned route the aim of which was to practise navigation skills in an area of moderate wilderness. When the weather closed in at lunchtime these skills were to be put through a severe test. Sheet rain, which is typical of the Lake District in its suddenness and persistence, lashed down and the group was left to steer its way through what was now thick cloud cover and torrential rain. Fortunately the weather cleared just as quick as it descended, which was a relief, as we had to encounter one or two treacherous rock faces and falls. Happily no one fell over a Crag and we resolved to find the fastest route back to the car park to re-plot the route. The group then split into two for the final leg. The group taking the lower route was soaked by another torrential downpour while the group taking the higher leg was battered by a severe hailstorm (all this and Summer to). Ironically the weather for the rest of the exercise was excellent. That night a small celebration was held for the birthdays of two of the officers on the exercise with excellent cuisine provided by **SSgt Jim H bbard** who proved once again that you can achieve small miracles with compo. Sunday morning was spent orienteering around Williamson Park in Lancaster. Now, while there were no major calamities yours truly was seen disappearing up a rock face muttering that 'the damned control must be around here somewhere'. A little later **Capt Simon Glover** was discovered cunningly camouflaging control markers in order to gain extra seconds over the opposition, an action that we will make sure returns at some suitable stage in the future to haunt him! Once **Sig Martha Kyle** had been rescued from the Butterfly Sanctuary it was back onto the M6 for the return journey home. Unconfirmed rumours that the snoring from the back of the mini-bus was so loud that the Environment agency was notified are completely refuted and unfounded – well it kept the driver awake and that's all that matters.

REGIMENTAL ROUND-UP

For the third successive year the Regiment was responsible for sponsoring the Army's contribution to the City of Birmingham Discovery Day held in the ICC on Sun 8 August. This was an important image event

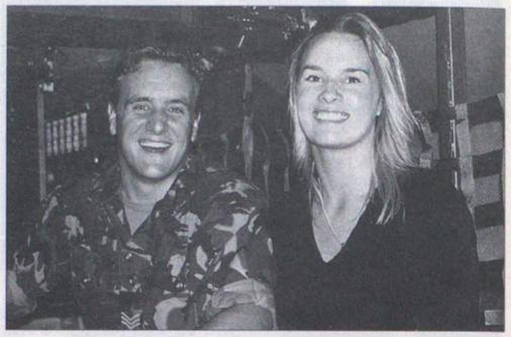
with units from throughout the West Midlands, including the Regiment, putting on lavish displays for members of the public. Special visitors on the day including the Right Worshipful Lord Mayor of Birmingham, **Cllr Teresa Stewart** and her consort. The CO, **Lt Col Stephen Potter** met the Lord Mayor and her consort and escorted them around all the military stands.

The CO with the Lord Mayor and her consort

The Comd 143 Bde, **Brig Andrew Meek,** also made a whistle stop tour and managed to chat to all participants before he left. It also proved a memorable day for **Cpl Jackie Sheldon** who, having been forcibly dragged from her stand to participate, won a flower arranging competition and was presented with a bottle of champagne by the ICC Director of Events.

Cpl Jackie Sheldon with her winnings (not incl Cpl Adrian Proffitt)

Elsewhere in the Regiment fundraising efforts have gathered pace with 48 Squadron heavily involved in Airborne Adventure. Airborne Adventure is a charity project specifically established to offer sick children the opportunity to participate in activities that might otherwise be unavailable to them and also to raise funds to both promote and host future events. 48 Sig Sqn hosted such a weekend at Tenby in Wales during August that included children from the BCH. **Sgt Eileen Monaghan** commented that all the soldiers involved were humbled to see at first hand children with a variety of disabilities and medical conditions overcoming considerable adversity, but were delighted to have been able to help if only in a small way. A team from the Regiment headed by members of 89 Sqn will soon be making their way North to participate in the Great North Run to raise money for the outright purchase of a Guide Dog for the Blind.



Sgt Martin Walton with a visitor (or his girlfriend!)

So far over £1000 has been raised so they are well on target to achieving their final goal – but more about this in the next edition of the Wire. Meanwhile **Cpl Jean Parr** of 58 Sqn is actively preparing to make a sponsored solo bike effort to raise money for the NSPCC in Stoke on Trent and we hope to have a report on her efforts soon. Turning away from such activities one or two changes have also taken place within the Regiment and we have bade a particular sad farewell to **Maj Tudor Hill** our outgoing Training Major and extended a warm welcome to **Maj Mick Boxall** his replacement. A further welcome was also extended to **Sgt** 'DB' **De-Burgh** who is taking up the reins of SPSI in 89 Sqn following a tour in NI.

The Handover/Takeover

Orienteering continues to feature prominently in the Regiments run of sporting successes with teams from the Regiment achieving runner up status in the 5 Div Minor Units Championships and the East of England Minor Units Championships. All team members are warmly congratulated on their commendable efforts. Finally a special congratulation has been reserved for that sporting stalwart **SSgt Dave Arnot** on his presentation of the Army Referees Meritorious Service Award. Very well done!

'Squarks' are problem listings that pilots generally leave for maintenance crews to fix before the next flight. Here are some squarks submitted by US Air Force pilots and the replies from the maintenance crews..... P = Problem S = Solution

P	Left inside main tyre almost needs replacing	S	Almost replaced left inside main tyre
P	Test flight OK, except autoland very rough	S	Autoland not installed on this aircraft
P	#2 Propeller seeping prop fluid	S	#2 Propeller seepage normal-#1 #3 and #4 propellers lack normal seepage

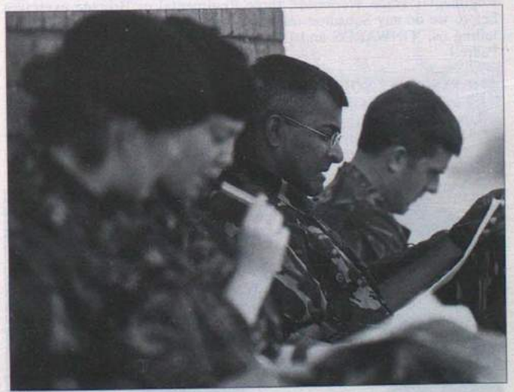
36th (EASTERN) SIGNAL REGIMENT (VOLUNTEERS)

HEADQUARTERS SQUADRON – *by Capt (PSAO) Ernie Feasey*

Sqn Comd **Maj P. J. Minshall**
SSM **WO2 (SSM) A. C. Wells**

The Squadron continues to go from strength to strength (i.e., we are recruiting hard), and is performing well. We have just returned from an extremely busy Annual Camp at Castle Martin ATE in Wales, where the Squadron provided the administrative support for the Regiment. We carried out the whole gamut of military and trade training in a tight and cohesive programme - in the end the Squadron, and LAD, gained an enormous amount from the fortnight, with seven more HGV qualified individuals, three new Tech Sup Specs, one new R SIGNALS Electrician and three new Area System Ops (Radio). Well done to all of them for their hard work leading to trade qualifications.

Anyone familiar with the organisation of the Regiment will recall that we used to have 746 AMC in Ilford pre- SDR; post SDR this Troop has moved to 44 (CP) Sig Sqn (V) at Grays and Southend, and in exchange the Squadron has gained the CNR Radio Troop of the Regiment which was reformed at Ilford for Annual Camp and renamed as 817 (Radio) Troop. The number 817 is historic within the Regiment as it was a Radio Relay Troop within 36 Sig Regt (V) when it was formed at Ilford in 1969 'in the good old days of C41's and fish fryers'. Its resurrection has been the pet project of the OC who has fond memories of those 'good old days', but of course he is showing his age these days (more of that later). In terms of personalities, **LCpl Ramish Manickavasagan** disappeared to Swansea a couple of years ago to study for a degree in accountancy, which he gained this year. However, he did not waste his time there, he undertook an attachment to the Wales UOTC whilst there and when he eventually reappeared with the Squadron, it was via RMAS as **2Lt R. Manickavasagan** R SIGNALS(V). We have been fortunate enough to retain his services at the first Tp Comd of 817 (Radio) Tp. He has the congratulations of the whole Squadron on his achievement (as well as the disbelief of some of his former contemporaries). In the meantime, he intends to go into the City and earn Mega-Bucks (his words) counting the money of big business. Just to maintain solidarity, **WO2 (FofS) Mick Meddeman** seized the opportunity and was granted a direct commission as the new TOT.



2Lt Manickavasagan during young officer training, desperately trying to decide whether to phone a friend, go 50-50 or ask the audience

In addition to **Mr Manickavasagan** and the shiny new **Capt Meddeman**, we welcome two additional recruits to the Sqn and 817 Tp, **Sig's Jade Painter** and **Sig Jagdeep Sanger**. **Pte Tracy Harrington** RAMC has joined the RMO (to train him, or so she says) and another warm welcome is extended to **OCdt Emma Powell** who has transferred from Manchester UOTC. Finally, **Sig Kate Crockford** of 54 Sig Sqn has 'seen the light', decided to become a Chef and is transferring to the Squadron and RLC as we write. Welcome to the madhouse, all of you. Farewells go to **WO1(SWVO) Mick Grimshaw** who has departed to 44(CP) Sig Sqn to take up the post of NRPS SQMS; we welcome his successor, **WO1 (SVWO) Les Scott** from 54 Sig Sqn (V). **Sig Glen Thompson** has moved back to the North, and 34 Sig Regt (V), whilst **Sig Denise Owen** has decided to move to the RGJ(V) in West Ham. Finally, the outgoing TOT, **Capt Alan Newbury,** has decided that retirement was not necessary just yet and moved to 54 Sig Sqn (V) as a Squadron Officer.

ANNUAL CAMP 2000
CASTLE MARTIN ARMY TRAINING ESTATE
2-16 SEPTEMBER 2000

For the last two or three years, the Regiment has been deployed on exercises in Germany, and therefore while we had got used to getting our duty frees, the chance to 'rest' and to undertake the first UK camp was welcomed, as it would provide the opportunity for concentrated trade, military and adventurous training. It would also be a chance for the Regiment to practise just being a Regiment with all the normal peace time duties, both social and administration, in a normal garrison environment. The programme included formal dinners, for both the Officers and Sergeants Messes, and an all ranks function prior to the R&R day; all were well attended and extremely successful.

Deployment to camp went well, despite the requirement for the Padre, **Maj David Eaton**, to drive the PSAO, **Capt Ernie Feasey** (despite his best efforts to escape it) through the darkest expanses of Wales. The Padre apparently has a penchant for driving cars down flights of steps, which has given him an unfortunate reputation as a driver. Luckily all went well on the actual deployment (or so the Padre says) although the PSAO, a hardened smoker but confirmed tee-totaller, arrived at Camp as a non-smoker who wished that he was a hardened drinker!! Other highlights of the deployment were the RMO, **Maj John Jenkins** (a consultant Psychiatrist in civilian life) ably assisted by **Cpl** 'Ginnie' **Brown AGC** being utilised as Traffic Wardens at Membury Services to direct the Regiment through the staging area - there were lots of comments about 'cutting up' etc. **Capt Mick Meddeman** in the ERV was seen trying to take out a rather awkward car driver who persisted in getting between him and the vehicle in front and than slowing down, an appointment with the RMO to discuss 'Road Rage' or behavioural control is on the cards.

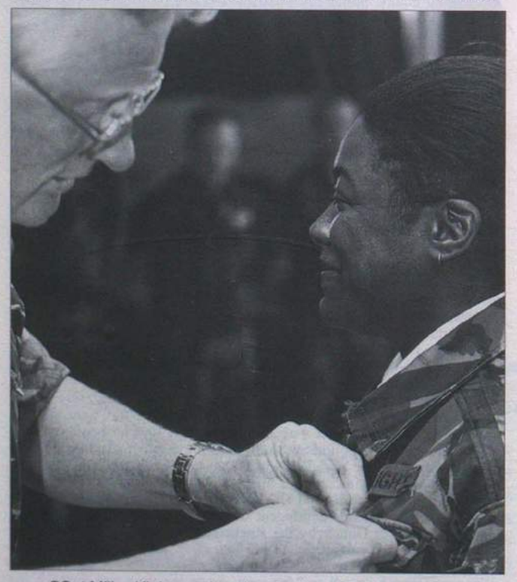
The deployment to Castle Martin was well planned, and after the realisation that the camp area was vast, and the need to cover ground on routine tasks was the equivalent of a CFT, all of the closet cyclists 'came out'. Many strange contraptions with two wheels were loaded onto unit tpt, including the OC's bike. After several hours of hard riding, the OC resigned himself to continuous discomfort around the nether regions for the duration - the peculiar gait he adopted and the constant need to adjust certain parts of his uniform to relieve the pressure caused some comment and hilarity - however, he wishes all to be reassured that the 'family jewels' remain intact, albeit a little warm (or is it worn). One conclusion the OC has reached is that he definitely is not as young and resilient as he used to be, this was evidenced on the many occasions that he tried to demonstrate his ability to bounce back after PT. Even as a spectator he developed aches, pains and stiffness over most of his body, which required the varied ministrations of the RMO, **Pte Harrington** or anyone else who he thought might have sympathy for his plight - however his perpetual limp and rubbing of sore parts was seen to be a bit of a bluff when he could not remember which foot to limp with. His excuse was it was so sore that he couldn't make up his mind? His decision to go horse riding was evidence enough of someone in denial about lost youth, he suffered injury to his dignity and nether regions (again) when he lost control of the poor animal, whose whole day was spoiled by the rather large gentleman imposed on her (We are still talking about a horse, aren't we Ernie?). Other incidents over the fortnight which served to relieve the pressure and lighten the load occurred, one which a Corporal who shall remain nameless, managed to send a post card to the 'love of his life' full of loving messages and endearments. He forgot two vital things, to put a 'TO' address on the card, and the efficiency of the post office in returning the card to our post room the following day - nice one! The inability of the MT Sergeant, **Sgt** 'Babs' **Babester** to read a map is legendary, a fact which puts him on the defensive and which he is in denial about. We, however, now have ample ammunition after several interesting journeys undertaken by him to pursue this attribute to the death.

A certain MT NCO **(LCpl Ellis)** who returned from detail with an empty car at the height of the fuel crisis to be told to go away and fill it up, he took it literally and spent 3 leisurely hours including dinner out looking for fuel, leaving the OC stranded - you can picture the scene, when the wanderer actually returned - take one large, robust, irate Major (a former Warrant Officer) and one errant Lance Corporal, light the fuse and retire to a safe distance - needless to say, the thunder heard over the camp that evening had nothing to do with the weather. Another notable event at Camp for the Squadron was the visit of the Mayor of Redbridge, **Cllr Barbara Hoskins** and her husband **Tom**. Redbridge is the major Recruiting Area for RHQ and HQ Sqn, and the Mayor managed to meet most of the Ilford based contingent whilst visiting Regimental Training and was hosted at Dinner by the Regimental Officers. During her visit she expressed a keen interest in the Squadron, and took the time and trouble to speak to as many of its members as possible - Redbridge is a very supportive borough and the visit, given the time and distance the Mayor travelled, was much appreciated by all Squadron members.

The Mayor of Redbridge, Councillor Barbara Hoskins
with members of the Squadron at the Trade Training field location
Rear (R-L): Sig Mann and Sig Hill
Sitting (R-L): Sig Pearce and Sig Meredew,
Standing (R-L): LCpl McIntosh, Sig Mannion, Councillor Hoskins,
Lt Col Brown
Kneeling is Sig Columbine

Other visitors included Comd 49 (East) Bde - **Brig D. R. Wilson**, Dep Comd 49 (East) Bde - **Col S. A. G. Abrahams TD**, Comd 11 Sig Bde - **Brig J. R. B. Cook**, Deputy Comd 11 Sig Bde - **Col R. Davenport TD** and the Bishop to the Armed Forces, who all took the opportunity of visiting the troops during training.

Our Master Chef, **SSgt Norma Miller-Kight** RLC, is normally a switched on cookie (excuse the pun), but when she was summoned to the WO's & Sgts Mess by the RSM she was definitely not expecting to be presented with her Territorial Efficiency Medal by Comd 49 (East) Bde, **Brig Wilson** - to say she was surprised is an understatement. The whole Squadron congratulates her on the well deserved and hard earned medal.



SSgt Miller-Kight receives her Territorial Efficiency Medal
from the Comd 49 (East) Bde, Brig D. R. Wilson

A notable addition to the Squadron Team before Camp 2000 was **Sgt Les Eldridge** who rejoined the TA and took up the appointment of Sqn SQMS; he has proven to be an asset who has more than justified his admission to the Sqn Club. A former member of the old 39 Sig Regt (V), he has fond memories of parachuting days, and he and the SSM, **WO2 Tony Wells** (another ex-39 Sig Regt (V) man) form a small clique to reminisce about the blue badge of courage whenever possible. On the recovery, however, they suffered a severe case of de ja vu when we diverted to Hullavington Airfield (now an RLC barracks) to refuel. This really allowed them to swing the lamp about the good old days. However, we have now caught on, the good old days means that they are now TOO OLD to do the things they did then, and in fact are looking forward to their pension books. The LAD, although a separate establishment, is an integral part of the Squadron and is currently thriving, having the luxury of being nearly 100 % recruited. Our picture shows **Pte Dave Edwards** RLC and **Cfn Paul Edwards** REME, two brothers who joined the LAD after the TA Open Day in March as a Dvr/Operator and Veh Mech respectively, tinkering with (sorry, repairing) a vehicle during Annual Camp.

We now look forward to a busy Winter training season, with six Regimental Trade Weekends, three Regimental or Brigade exercises before we do any Squadron training - but as our erstwhile leader keeps telling us, 'ONWARDS and UPWARDS', perhaps he thinks he is the Padre!!

44 (CP) SIGNAL SQUADRON
VISIT OF COL DAVENPORT, DEP COMD 11 SIG BDE

Grays TAC was the venue for the visit by **Col Davenport**, Dep Comd 11 Sig Bde. After the usual high level meetings involving the CO, OC and Troop Commanders, the Colonel went on to 'press the flesh' with the majority of the soldiers within the Squadron, including several recruits.

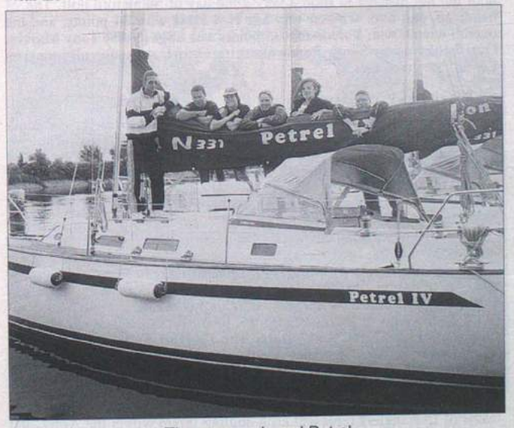
LCpl Lee and Colonel Davenport, deep in conversation

He was also invited to try his hand on the .22 range shoot, which had been arranged as a competition between the two rival TA Centres within the Squadron, Grays and Southend. Although the result of this competition shall remains a closely guarded secret, suffice it to say that the Deputy Commander was most delighted with his own scoring (he certainly surprised a few of the younger members of the Squadron). As the Colonel stated afterwards, it was all about the employment of experience, the marksmanship principles and a newly sharpened pencil.

The Deputy Commander proudly shows off his target card
In attendance is Sgt Child, who later went on to say that
it was certainly no 'Micky Mouse' competition!

EXERCISE TIGER ISLANDS – *by LCpl Keirsty Shaw*

It was a hot sunny August Sunday that we all met at Grays TAC. The minibus was packed with possessions and people squeezed aboard as we set off for Dover. Once at Calais, we set off across the continent, arriving in Kiel, Northern Germany at 0530hrs. A few hours of shuteye were had, provisions transferred to the boat, safety briefs given and oilies collected with laughter of, 'Do we really need these?' as the sun beat down on our heads. After going through basic boat handling skills we set sail for Marstal, our first port of call. We had a good introductory shake out sail with the weather fair and the sea kind to the novices' stomachs.



The crew on board Petrel
(L-R): SSgt (YofS) John Bagnell, Cpl Windy Gale,
SSgt Anita Smith, LCpl Keirsty Shaw, Sig Katy Crockford
and Sig Andy Cole

Next stop Haderslev, a long 45 mile sail. On route man overboard drills were carried out. **LCpl Keirsty** 'Bowline Queen' **Shaw** tried to bribe the skipper and wedge herself into a corner until a bucket and buoy were produced as the training aids, which were later recovered quickly and safely. We left Haderslev in sunshine for Sonderborg to be hit by high winds and torrential rain. A foresail change was required and **YofS SSgt John** 'Tweak em' **Bagnell** and **Sig Katy** 'Paddlemaster' **Crockford** were sent forward for a wet and rocky experience at the mercy of the elements.

THE EDITOR IS ALWAYS EAGER TO RECEIVE INTERESTING SUBMISSIONS FOR PUBLICATION

SSgt (YofS) Bagnell at the helm
with Sig Katy Crockford in support

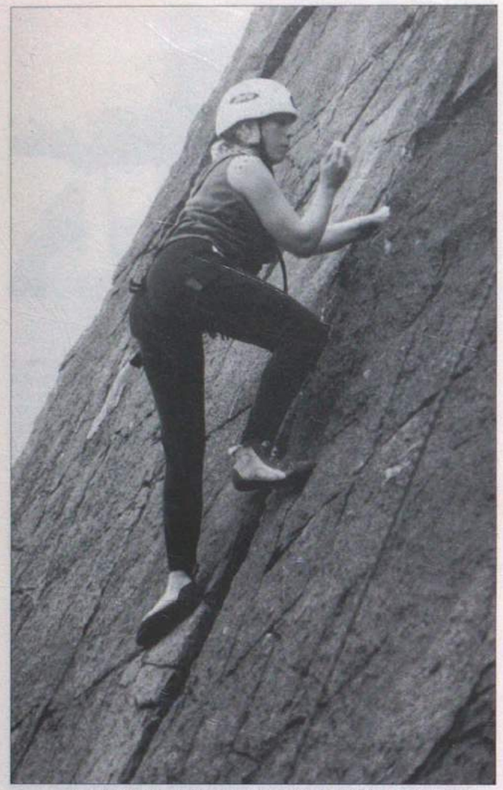
We slipped Sonderborg with the by now SOP's applying – leave harbour, don oilies! We headed for a sheltered cove for anchoring and dinghy drills, with a fresh breeze making controlling the dinghy hard at the best of times. Various methods of rowing were invented **Sig Andy** 'Colgate Grin' **Cole** with his knees in his armpits found the going hard, **LCpl Keirsty** 'Bowline Queen' **Shaw** found it easier once she realised the pointy end went first! With **Sig Katy** 'Paddlemaster' **Crockford** doing well as long as you wanted the dinghy to go downwind. We waited for darkness to fall before setting sail for our night sail to Faaborg. With lights twinkling **LCpl** 'Bowline Queen' **Shaw** disappeared to check the charts only to reappear as we entered the harbour, rubbing her eyes asking, 'Are we there yet?' It was 0400hrs before we were safely moored and a tired crew went to bed. On route to our last port of call Svenbourg the skipper **Cpl** 'Windy' **Gale**, who had been forced to follow our healthy eating regime, voluntarily asked for salad and yogurt within 10mins of each other; we knew we could convert him! Once everyone had recovered from the shock, gladrags were donned and a cultural visit to the town was embarked upon. Various forms of the squaddie 2 step were performed before everyone made their way home in the early hours. Once back in Kiel, the boat was cleaned until it gleamed, then the nerves started as the Competent Crew tests began. There were no worries though and everyone passed. Then a tired but happy crew, wedged back in the minibus for the 12hr cabby home, while the sun, for the first time all week, shone hot and bright!

CAMP 2000 ADVENTUROUS TRAINING - *by SSgt Anita Smith*

Some were lucky enough during annual camp to get away from trade and driver training to take part in adventure training. There were four different activities; coastal path walking, mountain biking, kayaking and rock climbing. Coastal path walking was a mini exped with each group covering 30 miles in two days with an over night stop at a camp site to rest their weary legs and blistered feet. Many found the walks challenging but all found it interesting due to **Lt Simon Carvel** who was the instructor. The scenery was breathtaking and many of the city dwellers saw wildlife such as seals for the first time.

Capt Gordon Shelley QM(V) giving a royal wave on his descent

We were lucky enough to have two instructors from the REME, **Cpl Daz Freestone** and **Cpl Marcus Adams** to take some excellent kayaking. During the days paddling many different games and tests were set. Some being accomplished with more easy then others, and with some people staying drier than others! For instance **WO2 Drew Johnson** was convinced that another kayak could not be piled on top of him, how wrong you can be. As the water crept further up his body the seventh kayak hoisted on top, the task was achieved and a relieved AQMs refloated!



Sig Juliet Bland stopping to check for broken nails!

SSgt Gerry McGachy who took the rock climbing lowered his students down to a ledge and with the sea next to them the only way out was up! Many people were able to combat their fears of heights to some degree to climb up the face. Whilst other more proficient climbers enhanced their skills and conquered hard climbs due to **Gerry's** instruction.

45 SIGNAL SQUADRON - A SHORT (ISH) HISTORY

The present Squadron was formed in 1967 and has SHQ and two Troops based at Colchester, and two further Troops based at Warley near Brentwood. The Squadron can, through its antecedents, trace its history back to the 16th Century, just before the current PSAO joined up. 45th (Essex) Sig Regt and 54th (East Anglian) Sig Regt both spring from the same source. In 1559 Queen Elizabeth of England issued instructions for the muster of a regular 'City of London Militia' as part of the 'Trained Bands' of soldiers. One of these was the Tower Hamlets Regiment - an element that later became the Royal Corps of Engineers. In 1660 a new Militia replaced all but the City of London trained bands, but in 1794 all were abolished. However, some companies of volunteers in the Tower Hamlets division were later revived, and in 1798 a dozen volunteer 'associations' were formed as part of the Tower Hamlets. It was in 1868 that the 2nd Tower Hamlets RE were raised, and a section of this unit served with 26 Field Company RE in the Boer War. 1885 saw the Tower Hamlets Engineer Volunteers as the nearest arm taking administrative responsibility for Bedford Grammar School Cadet Engineer Corps. The Corps flourished and in 1900 it was proposed to raise an Engineer Corps in Bedford, and so it was that in the spring of the same year the 1st Bedfordshire RE (Volunteers) were raised.

On the inauguration of the Territorial Army in 1907, the 1st Bedfordshire RE (Volunteers) became the East Anglian Divisional RE, which included a Divisional Telegraph Company. This Company, the 54th Divisional Signal Company, was mobilised and dispatched to Gallipoli in 1914; they subsequently served in Egypt and Palestine until the end of the war. Disbanded in 1919, in 1920 the Company was reformed as an independent unit and titled 54th (East Anglia) Divisional Signals TA with its HQ at Stretford, East London and a sub unit at Bedford. In 1939, with the threat of war looming on the horizon, the Government ordered the expansion of the TA. The 54th recruited enough volunteers to form a duplicate Regiment, and as such they were assimilated into 4th Division and served with it until the cessation of hostilities. At the start of the World War 2 the 4th Division Signals (formerly 54 Div Sigs) went to France and Belgium with the British Expeditionary Force, but was evacuated back to England from Dunkirk. It was subsequently sent to North Africa in 1943, and went on operations in Italy and Greece from 1944 until the end of the war. Then, as 4th Division Signals, the Regiment was disbanded. Meanwhile the 'duplicate' 54th Divisional Signals Regiment, referred to above, was allotted to the 54th Division, but not before this Regiment had, in turn, recruited sufficient volunteers to form a triplicate Regiment! In 1944 the Division, complete with the Signals Regiment, was placed in suspended animation.

In 1947, when the TA was reformed, the War Office decided to raise two Regiments in East Anglia. Many of the Officers and men who joined were from the original 54 (East Anglian) Signals, its duplicate and triplicate that had all been placed in suspension in 1945. The two Regiments formed were, during the next twenty years, to become 45th (Essex) and 54th (East Anglian). Following a re-organisation of the TA in 1957 (does that sound familiar?), 1st (Essex) Sig Regt TA was formed and given permission to wear the Essex Coat of Arms as a shoulder flash. This was in recognition of the long association that its former unit had formed with the County of Essex. In 1959 all Signal Regiments were renumbered and the unit became 45th (Essex) Sig Regt TA. This association was marked in 1951 by adoption as the Borough of Wanstead and Woodford's Regiment. In 1963 the Regiment was granted the Freedom of the Borough and this was passed to 36th Signal Regiment (Volunteers) in 1967 and confirmed by the new Borough of Redbridge in 1972. In 1967 45th (Essex) Regiment was reduced to a Squadron and re-titled 45th (Essex) Signal Squadron (Volunteers).

ANNUAL CAMP 2000 - GOLF REPORT

by our golfing correspondent, NRPS SSgt (SQMS) Ron Russell

It was Annual Camp, it was our day off, so it had to be golf! Fifteen sets of clubs appeared as if by magic, and off we pinged to South Pembrokeshire Golf Club. The field was varied, from **Maj Dave** 'Zorro' **Watson** to **WO2 (RQMS) Eddie** 'The Eagle' **Kikas**, and was composed of three balls, four balls (and at times five balls, when the Adjt, **Capt Russel Edwards**, twice put a ball through the front group whilst waving and shouting 'Cor Blimey, I didn't know I could hit the ball that hard!). On a strange course the incidents came thick and fast: 'Eddie the Eagle' scores five points on one hole - terrific; then loses three balls on a par three - terrible! **SSgt Gerry** 'Megaphone' **McGachy** records his very first par, and even without a scoreboard those players' three holes in front heard all about it. The RSM, **WO1 Dougie Eaglesham**, starts slowly but picks up on the back nine (normally after his eighth shot of the hole). **Capt Gordon Shelley** has two blobs on the last two holes, it couldn't possibly be handicap protection could it, and **Maj Pete Minshell** fills the whole course for four hours (Sorry, in joke). A bit of misty rain in the last hour did not manage to spoil a very good day of Stableford golf. The 24 handicap, and over winner, was **Sgt Kev East** with 24 points, and the overall winner with a creditable 35 points was **SSgt (YofS) Tony Martin**. Our thanks go to South Pembrokeshire Golf Course for allowing us Forces rate green fees.

REGIMENTAL FISHING TEAM

Five members of 36 Sig Regt(V), managed to qualify for the army angling festival week, held at Hallcroft fisheries near Retford. The five were **SSgt** 'Jim' **Pollitt, SSgt** 'Billy no fish' **Dale, Sgt** 'Kev' **East, LCpl** 'Martin' **Woolard** and finally **LCpl** 'J.R. Hartley' **Hazelton.** The first match of the festival was held on the Monday. This was the Clubman Competition. This event is aimed at anglers who have not fished for their respective Corps, or for the Army. The event was a success for **SSgt** 'Jim' **Pollitt** who finished first in his section, and fourth overall. The second day was the Inter Corps Championships. The Regimental anglers did well in this event with **SSgt** 'Jim' **Pollitt** representing the Corps for the first time and finishing fourth in his section. **Sgt** 'Kev' **East** did extremely well and won his section. This helped the Royal Signals to finish runners-up in the competition.. In third place came the REME, represented by **SSgt** 'Tony' **Dale.** The third day was the Inter Unit Championships. This was fished on the river Idle a few miles away from the Halcroft farm venue. The river didn't produce the catches that people were anticipating, so the match was quickly forgotten.

The Thursday match was the President's Shield. In this match three teams of five anglers represent each angling group within the Army, and our Regiment fished in group one. **Sgt** 'Kev' **East** was selected to represent the red team in our group and managed to finish third overall. While this match was going on the other four member of the Regiment were on another lake showing the Army Angling Federation President, **Maj Gen Irvine**, how to fish. **LCpl** 'Martin' **Woolard** introduced the President to the art of pole fishing. **SSgt** 'Tony' **Dale** even managed to give the President a few tips on float fishing.

The final two days of the festival are the Army Angling Individual championships. Day One was a success for **Sgt East** who finished first in his section. **SSgt Dale** also had a good result and managed to finish sixth in his section. With these results there was the possibility that a Regimental angler could manage a top ten finish. Day Two was an awful day. It was cold, windy and it didn't stop raining once. **Sgt** 'I could catch a fish in a puddle' **East** managed to finish sixth in his section. After an agonising wait, the final results were announced. **SSgt Dale** finished in the top 30, which is no mean feat as he only started match fishing this year. **Sgt East** finished third overall, picking up some very nice silverware, confirming his position as one of the best anglers in the Army.

A final note must be said for **LCpl** 'J.R. Hartley' **Hazelton,** who managed to finish third in Saturday's Open Shield. This is an event open to those anglers who did not qualify for the individual championships. Everyone was most impressed with his angling skill, until it was found out how he caught his fish. He later told us that he had gone three hours without a single bite. Due to boredom he fell asleep for the next hour and half. He managed to wake up with only ten minutes of the match remaining. On waking up, he noticed that the end of his rod was going round. A quick strike and two minutes later 'JR' had landed a nice Perch, which was to be his only fish of the day. This one fish managed to get **LCpl** 'John' **Hazelton** third in the match. Who said fishing was just luck!!!!

NEWS FROM 54 SIGNAL SQUADRON

On 2 September, 36 Sig Regt departed for Castlemartin Camp ATR in South Wales for Annual Camp. We moved away from the normal Brigade Exercise this year, and the fortnight revolved around trade training, driver training, adventurous training and a range package. 54 Sqn had a few promotions during camp, the deserving recipients being: the Ops Officer **Lt Glen Baker** (from SSgt), **Lt Roz Keegan** OC 757 Tp, **WO1 (SVWO) Les Scott, WO2 (FofS) Rogers, LCpl Mark Allen** and **LCpl Garfey Garfoot. Garfey** knew something was going on when **Brig Wilson** told him he was incorrectly dressed - the old ones are always the best!

The new SVWO, WO1 Les Scott,
proudly receives his new badge of rank
from Comd 11 Sig Bde, Brig J. R. B. Cook

LCpl Allen (the one in the cool sunglasses)
receiving his LCpl stripe from Comd 49 (East) Bde, Brig Wilson

Blackmail in action
Sig (now LCpl) Garfoot threatens to push the plunger and blow up
his wagon if promotion is not forthcoming (it worked!)

Sgt Jo Outlaw and **Cpl Neil Fuller** acted as driving instructors on camp (amongst others) and must be congratulated with the pass rate of 40 out of 43. 54 Sqn came second behind a talented RHQ team in the potted sports competition; the rest of the Regiment realised there could be only one winner, especially when the Regimental Yeoman, **SSgt (YofS) Tony Martin**, had programmed the Trade Training to finish at 2100hrs. Congratulations also go to **Cpl Don Beach** and **LCpl Kaz Carter** on gaining Top Student places on the Radio Relay and Electrician Driver courses (**Kaz** was the only female soldier on the ED course - a rose among thorns indeed). A special mention must go to **Sig** 'Geordie' **Watson** who was overall Top Student during the Trade Training phase - well done. **'Geordie'** is new to the Squadron, and had never been out on exercise before; he certainly gave **Cpl Don Beach** a good run for his money on the Radio Relay course.

A very surprised, and delighted, WO2 (FofS) Rogers receives his new rank slide from Brig J. R. B. Cook

The R & R day was preceded the evening before by a Karaoke competition, won, of course, by 54 Sqn. Consequently, there were more than a few hangovers present on the coach ride into Tenby. Inevitably, everyone went their own way in small groups, either to the beach, sightseeing or the pub (surprise, surprise!). It was in one of these hostelry's that a certain **LCpl Garfoot** decided to test the integrity of the local populace by superglueing a 50 pence piece to the pavement outside. His group then proceeded to have much fun at the expense of 40 or so members of the public who tried, unsuccessfully, to pick up said coin. And what of our dearly beloved, hard working PSI's? **SSgt Gaz Sullivan** and **Sgt Del Parkinson** spent the whole of camp organising and running the Regimental range package, and fortunately for them it didn't rain too much! The night shoot proved to be extremely enjoyable and worthwhile, and no expense was spared when it came to the Pyro, as the picture proves!

Meanwhile, **Sgt Ian Chappell** had apparently started his own Chapter of the Castlemartin Hells Angels, as he was seen to ride everywhere on one of the REME motorbikes (sorry, what fuel shortage?). All this, and instructing on the Electrician Driver course, what a busy soldier! Finally, **Sgt Del Parkinson** was awarded his Kosovo medal by Comd 49 (East) Bde, **Brig Wilson** in a joint presentation in the Sergeants' Mess - many

Sgt Parkinson, with SSgt Miller-Kite and Brig Wilson shortly after receiving his medal

congratulations go out to him from everyone in the Squadron. To round things off, a mention to our British friends from over the water; SHOW SPOONS!!!

754 & 756 TROOPS BEDFORD

Annual Camp 2000 was successful for the Troops at Bedford, resulting in three new recruits passing Regimental Recruits training (**Sig's Collins, Cowell** (AKA Mad Snail) & Harvey) and four people achieving primary or secondary trades (**LCpl Allen, Sig Holt, Sig Scholten** and **Sig Watson**). The centre also increased it's number of HGV drivers with **LCpl Mossop** getting his Category C license, and **LCpl's Chatters** and **Wilson** becoming 'big boy truckers' by gaining their C + E's. It was the first camp for **Sig's Collins, Cowell, Harvey, Holt** and **Watson** and was memorable for each in its own special way (**Sig Holt** will never live his experiences down! Contact **LCpl Mossop** for the full low down).

A TASTE FOR THE EAST!!

A personal account by our foreign correspondent, Lt Emma Hilyard (OC 755 Troop)

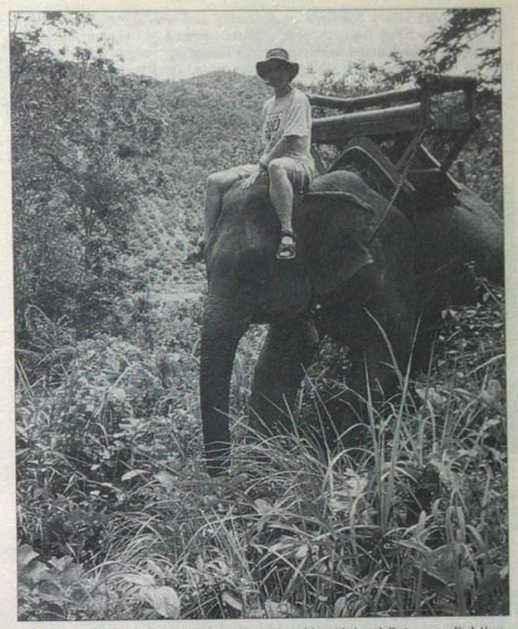
Between the periods of 23 July and 19 August 2000 I embarked on a lone adventure to Thailand (though some, unwisely, would call it a holiday!). I had booked nothing except my flights as I was going with several aims in mind. My main objective was to trek in the Northern

SSgt Gaz Sullivans own millennium fireworks display, courtesy of WO2 (RQMS) Steve Russell

mountains and rain forests, followed by diving off the South Eastern coast, with a final aim of investigating the border point with Burma and finding out, first hand, the feasibility of travelling/cycling through Vietnam!

I left the UK with the usual apprehensions of travelling alone in a country with a different language, let alone a different cultural and belief system, and was anxious about the heat and humidity, as it was monsoon season. On arrival in Bangkok, however, I was soon swept into the colour and sounds of Thai life, worries forgotten. My first impression of Thailand came in the form of Bankok hustle and bustle! Nothing stops still and the louder or brighter something is, the better! Here was a city (and country) where the old sits harmoniously with the new, with hundreds of temples intermixed with modern shopping malls and hotels, and where people lived and worked as comfortably on the river as they did on the streets, with all space being optimised. The Thai people proved to be resilient, efficient and extremely enterprising with immense grace, hospitality and cheerfulness rarely seen in the West. Their generosity was shown not only in the provision of food and necessities to the monks that walked the streets before the sun rose, begging for food (as part of their religious beliefs rather than as unfortunates, as in this country), but also in the provision of water and fruit to complete strangers such as myself (particularly welcome during my cycling rest stops!).

Throughout Thailand I was startled by the contrasts, and the ability of these contrasts to compliment rather than oppose each other. Whether it was in the architecture I saw, the food I ate, the landscapes - mountains in the North, beaches in the South, or the direct environment - the heat of the day against the cool of the waterfalls or waters I swam in, Thailand had something to offer everyone. Indeed, I did complete my aims, but I gained much more than the memories of my activities i.e. trekking in the rain forest, open water diving, riding on elephants and white water rafting, to name but a few. I developed a taste for the country, not only for the delicious food but also for the freedom of travel and the freedom to experience. Learning about the Royal projects, social system and Thai way of viewing life has helped me to refocus my aims and desires, and to live life appreciatively rather than pass through it. It has left me with a hunger to further my travels and experiences, which has led to my new ambition to spend between six months and one year cycling through Asia. I'm looking for a companion, so if anyone reading this has that spirit of adventure, is prepared to explore on humble means and is



Lt Emma Hilyard makes a trunk call to Norwich whilst moonlighting as a cabby (are they webbed sandals?)

38 (CITY OF SHEFFIELD) SIGNALS REGIMENT (VOLUNTEERS)

46 SIGNAL SQUADRON
LORD MAYOR'S MILITARY MISSION

Leicester's Lord Mayor signalled the start of her own military campaign when she visited county part-time soldiers in Scotland. **Cllr Mrs Barbara Chambers** said that she aimed to encourage more people to join the city's three Territorial Army (TA) Units. However, she first insisted on seeing first hand the sort of training organisations, like 46 Sig Sqn, were providing for the county's young men and women. Twelve members of the Unit based at Ulverscroft Road were on their annual two-week manoeuvres in the Scottish mountains.

Military Mission - Cllr Mrs Barbara Chambers, Lord Mayor of Leicester, and Maj Kelvin Young from Hugglescote

Cllr Chambers said, 'Our TA units are at the heart of the community. They are also first class training providers. The trade and management skills they teach benefit their members, the army and the soldiers' full-time civilian employers. Over the coming months I will be contacting all the TA units in Leicester to find out how they can increase even further the benefits that they bring to our city.'

Maj Kelvin Young from Harrogate said, 'The Lord Mayor's commitment to our Squadron has given us a real boost. In return we set out to show how the unit's powerful communications capability fitted into the national defence strategy. We also demonstrated how we were ready to serve and support the community. We are always on standby to help out with civil and natural emergencies.'

More and more of the Signallers are also proving their commitment to people facing crises overseas. Dozens of soldiers have already been on voluntary tours of duty alongside Regular Army peace keeping troops inplaces like the Balkans. This year members of 38 Sig regt have been on duty in a total of 19 countries including Russia, Mexico, America and Cyprus.

FIRST IMPRESSION OF A NEW SQUADRON 2IC

by Capt Ken Rustidge TD

On 1 September 2000 I transferred from 87 Sig Sqn to HQ Sqn, a culture shock to say the least. Following a pre-camp admin weekend when I met the OC, **Maj Bill Evans** and the PSAO, **Capt Gary Mason**, I prepared myself to attend the important Exercise phase at Camp, Ex Horseshoe 1, which was to be held in Scotland (a new Squadron and an overseas tour in one go). I had been instructed to travel direct to HMS *Gannet*, a Royal Navy camp near Prestwick Airport in Ayrshire, the initial location for the Squadron. My major worry while driving up from Spalding was the fuel crisis had just begun and would I have enough fuel to get me there. I had a full tank and started off at a constant 55mph and kept to it all the way to Gannet, to conserve fuel. It was just as well as all the garages on the way were either empty or closed.

I arrived safely but tired on Saturday and was shown my sleeping quarters by **SSgt Ingram**. Being a late comer I got the top bunk in a room of a condemned building (due to this pretty fungus that seemed to grow out of the walls), welcome to the Squadron. I was then acquainted with some of the unfamiliar Royal Navy customs like standing to attention and saluting the yardarm at sunrise and sunset. On Sunday I volunteered to go with **SSgt Melanie Widdows** to pick up our combat **Padre Sean Robertshaw** from Glasgow train station. On approaching the rear of the station **SSgt Widdows** became somewhat alarmed at the fight involving several men that was taking place on the pavement near our vehicle. I reassured her it was just a normal night in Glasgow and was relieved to see that our **Padre Sean** was not involved. The Padre safely collected it was back on shift in the CP, where there were various tasks and incidents to deal with. These included gathering the name of all Regimental personnel who were A Pos, due to an unknown disease affecting this blood group, just as well the disease didn't spread, as three-quarters of the Regiment are A Pos. We also had the normal logistic scenarios of reinforcements, clothing, extra rations for a prolonged period that we covered quite well. The next night we had a series of events, which proved interesting including a few 'no duff' situations, these always happen when you are on shift with **Maj** 'Taz' **Calvin Young**. We had an incident where some of the local yobs didn't like our Det being in their village. This was dealt with tactfully by sending our well known caring duo of **Sgt** 'Butch' **Butcher** and **Cpl** 'Break a leg' **Appleton**. After their arrival the situation changed remarkably and there was no more aggro from the locals.

We also had the fuel truck turn over, which proved to be quite an eventful night for the driver and his navigator. We also had the report of the RCP being flooded out over at Dechtmont Ranges. It appears that the RCP accommodation tent was located at the bottom of a small hill, next to what appeared to be a track (it turned out to be a dry riverbed). QM (V) **Capt Mick Piechota** now knows the difference and hopes not to wake up again to find all his worldly goods floating around him. He is quite unlucky because the next night the wind got up and blew his tent away, nice one **Mick**. A good first camp with the Squadron, lasting impressions of Horseshoe 1, a Squadron that works and plays hard as a team and gets the job done.

PS. HMS *Gannet* was a very rough location !!!

IT CAN ONLY HAPPEN ON CAMP

by Sgt Barry Baldwin - The Policeman's Friend

After the events of last camp (the motorist who followed **Sgt Baldwin** for 30 miles in a left hand drive vehicle while his passenger slumbered, had phoned the police to say a drunken soldier had fallen asleep at the wheel). Camp 2000 in Scotland was looking to be a more normal proposition, Exercise preparation the first week and deploy for most of the second week. Then the fuel crisis hit, and although going ahead the Exercise was changed slightly to accommodate. **Sgt Baldwin** and **Cpl** 'Eric' **Bristow** were dispatched to collect packed fuel from DLO Stirling. The pickup went smoothly and the return journey was going fine until an irate lorry driver pulled along side on the M 74 and yelled, 'What are you doing with that fuel?' (or words to that effect). This was a little unsettling and caused **Cpl Bristow** to miss our exit. No problem, **Sgt Baldwin** quickly planned an alternative route albeit through some of the smallest country lanes in the whole of Scotland. Luckily due to the nature of the route progress was at a more leisurely pace and as the vehicle left a bend the road narrowed, at this point our world turned upside down literally.

The edge of the road gave way just a few inches, but enough to send the near side wheels onto the verge and into a course of no return. The verge sucked the wagon in, in slow motion rolling onto its side and coming to rest about 3ft below the road in a small field. During the roll **Sgt Baldwin** had walked round the cab and was standing on the door looking up at **Cpl Bristow** who was still in the driver's seat battling with the steering wheel. When the vehicle stopped **Cpl Bristow** promptly fell onto **Sgt Baldwin**. How to exit the vehicle? The only available door was too high to reach without climbing, so the cupola was knocked out and a hasty retreat beaten, (remember the cargo was packed fuel approx. 6000 litres). **Sgt Baldwin** noticed **Cpl Bristow's** actions were not as they should be, maybe it was his dazed expression, talking like a raving lunatic or the involuntary urination that pointed to **Cpl Bristow** being in mild shock. What to do? **Sgt Baldwin** quickly checked the load to ensure no damage to the jerry cans or leaks. (We would have really had to leg it then!) Then make sure in his condition **Cpl Bristow** didn't cause a nuisance or get himself injured. Now where to get help?

Our intrepid duo were in luck as two cars were heading in their direction, in a flash the pair were up the verge and waving down the passing motorists. It was obviously the scene of an accident one of the motorists would stop wouldn't they? Wrong the passengers of both cars just returned waves while driving by. **Sgt Baldwin** set off walking in the direction of the nearest village and luckily was picked up by a passing motorist and taken to the local police station where he was put in an interview room and questioned. Meanwhile back at the accident a police patrol had arrived and two officers questioned **Cpl Bristow**, who the police obviously realised was still in shock. Both officers were taking notes from a person obviously acting like a raving lunatic, who suddenly realised that he was talking complete gibberish and stated, 'I'm gibbering now aren't I?' to which both officers nodded in unison. Little did **Cpl Bristow** know that the police were investigating the accident with the possibility of dangerous driving charges pending. Back in the interview room Sgt Baldwin was undergoing questioning along a similar theme. The happy out come was the accident was found to be a non-driver error, **Cpl Bristow** was in the clear if not making himself clear. Now for the recovery! Due to the nature of the load and the unavailability of military recovery a civilian firm with the local fire brigade to attend was arranged. **Sgt Baldwin** was returned to the accident scene non-the worse for his little chat at the police station. Whilst waiting for the recovery to arrive the two attending officers were chatting with our intrepid two (**Cpl Bristow** was coming round by now). There now appeared a fire engine on a clear open county road with all sirens blaring and lights flashing, the group looked up and one of the police officers said, 'Here comes Trumpton!' ' Why Trumpton?' asked **Cpl Bristow**. 'Because they are part timers,' was the reply. There seemed an uneasy stand off between the police and fire service after that.

Once recovered, the fire service did however help to reload the few cans of fuel to come loose. Then came a rather unusual request from the fire brigade, 'Could we get the hoses out and spray something because we haven't used them for a while?' **Sgt Baldwin** came up with an alternative for them .The Brigade ran out their hoses and did a cracking job of washing down the vehicle. Trumpton satisfied we were recovered to the local garage. The damage was minimal and thanks to our LAD the vehicle was back on the road by lunch the next day. They say things are sent to try us and that they usually come in three's, well here's looking forward to camp 2001 and the third and final brush with the law for **Sgt Baldwin**. OC HQ says, 'Thank God I won't be around for that one!'

87TH (CITY OF NOTTINGHAM) SIGNAL SQUADRON (V)

Sqn Comd **Maj David Tomlinson**
SSM **WO2 (SSM) Vicky Hardy**

The Squadron has just returned from a very wet but enjoyable Annual Camp in sunny Scotland. We started off this years Camp 2000 in Edinburgh, where everyone enjoyed the local history and the culture! During the first week we took part in the various Regimental competitions, including the Regimental Sports Day and the TARA Cup (mil skills competition). Whilst we only won the Chain of Command race during the Sports Day, we nearly won the TARA Cup. Watch out 64 Sqn, 87 Sqn are going to win it next year! During the second week it was off on Ex Horse Shoe 1, although our Mould Tp went to Wales in support of 49 Bde. Although the lack of fuel did lead to a slow start we did extremely well on the exercise and everyone kept smiling. We were deployed to some very boggy areas around Glasgow although the SPSI, **SSgt Mark Richmond** managed to deny that he had carried out the recce. Well it was frozen then!

After the Exercise we returned to Nottingham to begin RSIT preparation. Before returning, however, we had the annual post camp presentations; winner of the stag-on award was **Cpl Steve** 'Rottwieler' **Keay**, who defended the site so aggressively that the people inside the perimeter were afraid! The driving skills award went to **Sgt Andrea** 'Bogger' **Pickles** who discovered that trying to take an 8ft wide Bedford down a 6ft track does not work. She was gallantly rescued by **Sgts Stu Nesbitt** and **Craig Toft**, who later presented her with a spade to get herself out next time (PICTURE NO 1).

Maj Tomlinson presenting Sgt Pickles with her prize

At PICTURE 2 we see one of our latest batch of recruits, **Sig John Wade**, learning new skills. He is fortunate to have the same name as our NRPS SQMS, **SSgt John** ' I'm not a Grumpy person' **Wade**, I think we have some interesting times ahead. Then we have our own Karoake Queen, **Cpl Heather** 'Indicate don't Point' **Blair** practicing her repertoire whilst doing maintenance. She said, 'It can be quite dull carrying out maintenance – so I always practice a few numbers whilst I work, the rest of the crew seem to enjoy it! No one from her crew was available for comment!

Sig John Wade learning new skills

EXAM QUESTIONS

The following is an actual question given on a Durham University chemistry exam , mid-term.

'Is Hell exothermic (gives iff heat) or endothermic (absorbs heat)? Support your answer with proof.'

Most students wrote proofs of their beliefs using Boyle's Law (gas cools off when it expands and heats up when compressed) or some variant. One student, however, wrote the following:

'First we need to know how the mass of Hell is changing in time. So we need to know the rate that souls are moving into Hell and the rate they are leaving. I think that we can safely assume that when a soul gets to Hell, it will not leave. Therefore no souls are leaving. As for how many souls are entering Hell, let's look at the different religions that exist in the world today. Some of these religions state that if you are not a member of their religion, you will go to Hell. Since there are more than one of these religions and since people do not belong to more than one religion, we can project that all people and all souls go to Hell. With birth and death rates as they are, we can expect the number of souls in Hell to increase exponentially.

Now we can look at the rate of change in the volume in Hell because Boyle's Law states that in order for the temperature and pressure in Hell to stay the same, the volume of Hell has to expand as souls are added. This gives two possibilities.

1) If Hell is expanding at a slower rate than the rate at which souls enter Hell, then the temperature and pressure in Hell will increase until all Hell breaks loose.

2) Of course, if Hell is expanding at a rate faster than the increase of souls in Hell, then the temperature and pressure will drop until Hell freezes over.

So which is it? If we accept the postulate given to me by Ms Therese Banyon, during my first year, 'That it will be a cold night in Hell before I go to bed with you,'and take into account the fact that I have still not succeeded in having sexual relations with her, then: 2) cannot be true, and thus I am sure that Hell is exothermic.'

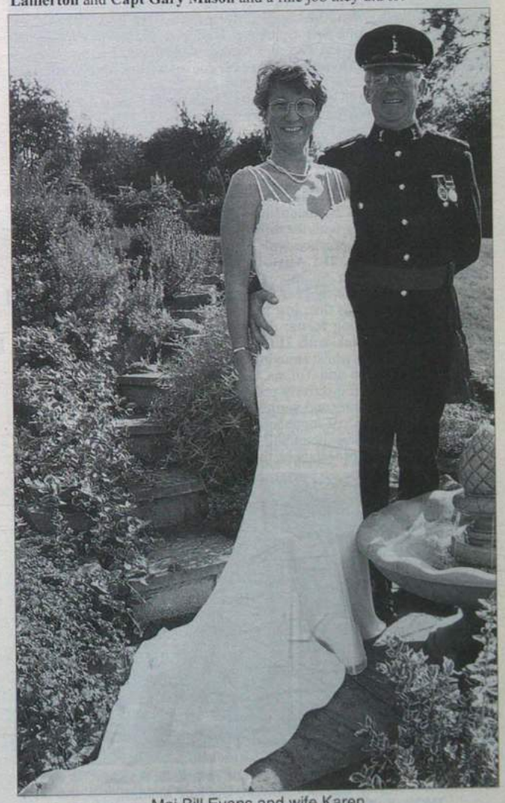
The student got the only A.

Cpl Blair the Karoake Queen

It's farewell to our 2IC, **Capt Fred** 'Medallion Man' **Nilsson** on promotion to Major for a FTRS tour in Gutersloh, we wish him bon voyage. Finally we welcome back as 2IC, **Capt Bev** 'Tigra' **Swift** and wish her well in her new appointment.

SQUADRON COMMANDER FINALLY TIES THE KNOT

Maj Bill Evans after many years of excuses and close shaves finally married **Karen** on 5 August 2000. Following the ceremony they flew off to the Caribbean for a well-deserved honeymoon. The service was held at their local village church and the Regimental Padre, **Capt Sean Robertshaw** conducted the service. The honour guard consisted of **Maj Gen Tony Boyle CB, Lt Col Ian Griffiths, Maj (Retd) Danny Lamerton** and **Capt Gary Mason** and a fine job they did to!



Maj Bill Evans and wife Karen

NEWS FROM THE SQUADRONS

2 (CITY OF DUNDEE) SIGNAL SQUADRON (VOLUNTEERS)

Sqn Comd **Maj E. Blyth**
SSM **WO2 (SSM) L. Thornton-Granville**

Two major events from the Squadron's busy calendar are detailed below, firstly the unit's annual adventure training expedition, then a few stories from around the Squadron during Exercise Horse Shoe I.

EXERCISE EBOR DOLOMITE 23 JULY - 1 AUGUST 2000
By 2Lt Alistair Galloway

Ex Ebor Dolomite was a 2 Sig Sqn mountaineering expedition to the Dolomite region of N. Italy. The expedition aim was to introduce members of the Squadron to Via Ferrata climbing in the Dolomite Mountains surrounding Cortina D' Ampezzo in N. Italy. A nine strong team left Newman House on 23 July heading for Stanstead and the GO flight to Venice. Various training exercises had been laid on throughout the Western Highlands during the months running up to the expedition, this allowed those members of the team less familiar with rugged exposed terrain a chance to come to terms with any fears or doubts over their ability.

The journey from Dundee to Stanstead and onwards to Cortina via Venice was uneventful, or should we say it was eventful and didn't quite go to plan, suffice it to say we all arrived safely at Camping Olympia 30hrs after leaving Newman house in Dundee. This was to be the second consecutive year the Squadron has visited the Dolomite region and **WO2 (YofS) George** 'Route 1' **Hume** aimed to make this a more physically challenging 7-day climbing package. The routes to be undertaken would range from the easiest of Dolomite Via Ferrata protected paths to the more physically and vertically challenging Grade F Via Ferrata routes. The YofS and **Cpl Joe** 'I only do rock climbing' **Wiggins** worked on a calming strategy, hopefully putting everyone's mind at ease regarding the severity of the routes to be climbed. Meanwhile, **Cpl Rod** 'Naked Chef' **Hamilton** and **LCpl Chris** 'Spielberg' **Kelbie** continued to explain that everything the YofS and **Joe** said regarding difficulty had to be taken with a pinch of salt. No pictures can ever convey reality, and on arrival at Camping Olympia, questions over route finding and quotes like, 'Surely you don't expect us to climb that!' were heard as the tents were pitched. **Rod** and **Chris** tried pointing out one of the week's routes to the Dolomite Virgins.

The plan for the week was start easy and progress to the more technically demanding routes, the weather forecast soon put a stop to this. With the team split into two groups, a successful ascent of the 2,229mtr NE Cadin Spitze by what can only be described as the most direct route up the North Face of the mountain was under taken on day 1. All team members coped easily with the difficulties encountered on this climb and in turn got plenty of practice with harness and self-arresting equipment used on such routes. **2Lt Alistair** 'How do I break these boots in?' **Galloway** and **Cpl Ian** 'Sponsored by Nike' **Stewart** proved to **Cpl Kev** 'I never used the wire, honest' **Mclean** that a 2ltr platypus (drinking system) had more uses than just hydrating the body. This was achieved by continually spraying Isostar down onto **Kev**, he was to get his own back later in the week with **2Lt Galloway** on the receiving end of a bucket of river water whilst enjoying the extremely hot camp showers.

Tofana Di Mezzo and Tofana Di Rozes both sitting at heights of 3244M and 3225M respectively provided the team with two days of calf throbbing, lung bursting and vertically challenging moments. The superb weather and magnificent mountain views experienced during both days coupled with a few heart pounding moments gave all concerned plenty to talk about at the campsite café on their return to the tent pitches.

Group 1 on the summit of Tofana Di Rozes
(L-R): Cpl Ian Stewart, Cpl Kev Mclean,
WO2 (YofS) George Hume and Sig Gary Kirkpatrick

True to form the storms forecasted earlier in the week arrived on the morning of Day 4, this in turn gave the team no choice but to head to uncharted territory in the hope that the further south they ventured the weather might improve. Looking at the road map, Lake Garda does not look that far away, and so after a Cappuccino moment in the campsite café personal kit was loaded up and a route chosen with a rendezvous being the mountain village of Arco situated at the Northern end of Lake Garda. 2 fi hrs and 63km later the decision to continue, (Lake Garda still 150km away) was abandoned and a more circuitous route chosen for the return to Cortina. **Cpl Joe Wiggins** and **Sig Garry** 'Bargain Chair hunter' **Kirkpatrick** having escaped ahead of the lunatic Italian drivers continued on whilst the remainder of the team headed back to Cortina. 30mins from Cortina the weather broke and allowed a quick three hour excursion onto the mountains. With large deposits of snow on the higher mountains the group concentrated on the lower more technically demanding routes for the rest of the week. The expedition will not be my last.

2Lt Alistair Galloway climbing on Tofana Di Mezzo

EXERCISE HORSE SHOE I 19 - 23 SEPTEMBER 2000

The Squadron deployed on Ex Horse Shoe I, a 2 (NC) Sig Bde exercise, as Annual Camp 2000. A Command and Echelon support element deployed, along with a number of radio dets and FRTs. The following articles highlight some of the highs and lows experienced during Ex Horse Shoe I.

CP MOMENTS - *By Capt Bob Davidson*

The CP and Ech initially deployed to Nescliffe and under the watchful eye of **WO2 (SSM) Andy Waterston** and **WO2 (RQMS)** 'Uncle Bertie' **Wright** set up a tented city and CP vehicle. Spirits were high in the CP as the customary tea and coffee was supplemented by a supply of choccy biccies, and chocolate eclairs. The antenna field happened to be in a cow field and Ops Officer, **Capt Bob Davidson** and **WO2 (YofS) George Hume** had to amend Sqn SOPs to ensure that cattle moving drills were carried out on a regular basis. **WO2 (YofS) Hume** was later heard to remark that, 'The little brown one with the big eyes was quite cute.' The graveyard shift team of **Capt Andy Bruce, SSgt Bob Tasker** and **Sgt Ronnie** 'I'm just going to defrag this hard drive' **Thomson** attempted a take-over. This was achieved initially by forming the secret squirrels society and introducing a new security classification 'Boys in Confidence' to keep what was going on from the rest of the team and Squadron. For those of you who are familiar with the term RCP, the Squadron Secret Squirrel Society has taken the abbreviation to another extreme 'RCP or Rumour Control Point'. For those in the know, **SSgt Tasker** accepts responsibility for Det 4 tasking during Week 2, but don't tell anyone as it's a well kept secret!

MILITARY TRAINING - *By Sgt Willie Smith*

It all started bright and early, on Monday 11 September, when the first Detachment arrived for Military Training. 'The Training Team', lead by **2Lt Alistair** 'Ally the Penguin' **Galloway**, the then **SSgt Lance** 'NBC' **Thornton-Granville** (Now SSM) and **Sgt Willie** 'I love the field' **Smith**. With the Det set up in location, training began, kicking off with theory lessons in a man made lecture room (12x12) better known as 'The House of Pain'. With that worrying look upon their faces, practical training began, covering Anti-Ambush Drills, F&M and Patrolling, then into the NBC training. Many of the 'Victims', I mean Soldiers, were finding out how hard it is working in full IPE. Over the duration of 24hours a lot of skills were tested to the limit. On the first week, the Dets came and went with a smile on their faces. A slight change on the second week with the promotion of **SSgt Thornton-Granville** who was replaced by the outgoing **SSM Andy** 'They're not Sweating Enough' **Waterston**. All and all a very enjoyable camp was had by all. Here's to next year, watch this space.

DET LIFE - *By Cpl Sally Purves*

Well, camp started off on 8 September in very much the fashion that we had expected. One of our 4-man crew had not turned up. Rumours abounded as to who we would get to replace the missing crewman, definitely the scariest of all was that it may be **Sgt Ronnie** 'I will do it myself' **Thomson**. Much to our relief, we were informed that it was instead to be **LCpl Davey** 'I am REME' **Lyall**. The rest of the team comprised **Sig Davey** 'It wasn't me it was Davey Lyall' **Scott, Cpl Billy** 'Can I be in charge for 5 minutes' **Morris** and **Cpl Sally** 'I don't know how to stop being in charge' **Purves**. The first week's exercise passed without hitch. Everyone knuckled down and got on with the job, but there were definitely a few laughs to be had, mostly when **Sig Scott** was often heard to cry, 'It wasn't me it was Davey Lyall,' even when he was in bed at the time that the questioned incident occurred. It should be noted that obviously the Gods were on the side of Cpl P as her stint of Det Commanding ran smoothly.

Much fun was had by all members of the Det during the R & R period. Unusually, considering the group contained **Cpl Morris**, there were no major incidents to report. It was with sadness that we said goodbye to **LCpl Lyall**, who was unable to cope with **Billy's** cutting humour for more than one week. However, we welcomed his replacement with open arms, **LCpl Carol** 'It can't be done' **McKelvie**. Was this to be a grave error? The second week of exercise started for us with the Military Skills exercise. Rumours were rife as to how tough it was and it was with mild fear, at least on Cpl P's part that it started. However, again all members of the Det had much fun and although drowned one minute and then suffering from heat exhaustion the next, the exercise finished with all in great spirits. This was all soon to change. **Cpl Morris**, now as Det Commander, was told that we were off to a new location, where we were to establish comms early the next day. 'Set up in the dark!' we all cried, 'Surely not.' If only it had been that easy. We arrived at the new location around midnight. The details on the recce sheet said contact the farmer - 'best not' we thought. The FRT who were to join us and apparently show us the exact location were at least an hour behind us. **Cpls Morris** and **Purves** set off to do the moonlight recce. Second gate, OK, big bull standing there making threatening noise, no portaloo. 'Let's just wait for the FRT' we thought. The fear showing on both our faces.

The FRT arrived and confirmed that we were at the right gate, the field however had been transformed with the uplifting of the portaloo and the reinstatement of the cattle (which by the way were all cows, **Cpl Morris** will never make a farmer). Due to the gradient and the rain, there was not a hope of the three vehicles and trailers ascending. As it was now about 2am, a quick phone call was made to the CP to advise them of the situation and the response was to find somewhere to sleep and they would let us know in the morning what we were to do. 0630hrs, Comms check to the CP, surely they would not send us back, says who. Back you go, we need you up there, the CP decreed, have the farmer tow you up with a tractor they cried. So back we went, where we were greeted by the extremely obliging farmer, who towed us up to the top of the field that he had now cleared of cows, but not all the really new, soft, smelly stuff. There was not one lead, mast box, base plate, person or item of clothing which was not subjected to the dousing of cow doings. During the night the weather was awful, with the tent practically blowing away, paddling pool forming inside and the kero heater sent on a journey of its own. However, we still kept smiling. The exercise ended without further incident, but the huge question has to be asked, 'Is **Cpl Morris** less favoured by the Gods or is **LCpl McKelvie** just a jinx?'

REME - *By Sgt Dave Heap*

Who are the men that work relentlessly day and night in all weather conditions to ensure that the squadron vehicles are maintained to the highest standards? These men who venture out beyond the FEBA risking life and limb with their only weapon, the toolbox. Living rough on meagre rations, sleeping stood up ready for anything, every man an emperor. Crap repairs consisted of a bulb, a fuse and a battery, so really nothing to write home about.

HANDOVER OF SSM

WO2 (SSM) Waterson handed over the reigns to **WO2 (SSM) Thornton - Granville** as Squadron Sergeant Major.

Finally congratulations to the SPSI, **SSgt George Cowan** and his wife **Rebecca** on the birth of their daughter **Bethany.**

16 AIR ASSAULT BRIGADE HEADQUARTERS AND SIGNAL SQUADRON (216)

Sqn Comd **Maj N. Fraser**
RSM **WO1 (RSM) C. Drew**

The Squadron has continued with its heetic exercise schedule in recent months. Ex Iron Hawk, which took place in Canada, has now drawn to a close but the Squadron is now preparing for Ex Eagle's Green Talon (3 Para's inauguration into the Brigade) and Ex Suman Warrior which is to take place in Malaysia in November. We've also had a change of command. Goodbye to **Maj Ivan Hooper** who is moving to Shrivenham with his wife **Helen** and his rapidly expanding family. **Maj Hooper** oversaw the birth of 16 Air Asslt Bde HQ and Sig Sqn from its component elements of 5 Airborne Brigade and 24 Airmobile Brigade. The seamless transition is a testament to his success as Squadron Commander. Congratulations **Ivan** and all the very best for the future. A warm welcome to **Maj Neil Fraser** who fought his way out of a mountain of Army doctrine manuals at Staff College to take the Squadron's helm.

A TROOP - *by Sig Smith*

Tp Comd **Lt Jim Hawkins**
Tp SSgt **SSgt 'J J' Walker**

A few of the more fortunate members of Alpha Tp were lucky enough to have their summer leave early and immediately deploy on Ex Medes Meander, a diving expedition to Spain for ten days. The stories that made their way back to the Troop all told of much Mediterranean sun, and fantastic dives. All who went were able to gain their Sports Diver qualification.

With most of the Troop deployed on Ex Iron Hawk in Canada, the remainder deployed to Sennybridge for the Squadron's annual Battle-camp, Ex Dragon Warrior, organised by our Troop Comd, **Lt Hawkins**. We deployed on the Sunday, and to our delight we arrived to find ourselves staying in what can only be described as 'luxury' accommodation at a centrally heated farm.

The week was based around a live field-firing package, which gave the newer members of the Squadron their first chance to fire live ammunition in a field environment. By the end of the week all on the final live section attack achieved a high standard. This included the use of the 94mm LAW Outdoor Trainer. One day was dedicated to the teaching and revising of FIBUA skills, with the buzz phrase of the day being 'Just get medieval' which was said by **Lt Hamilton** (OC B Tp) with great pleasure at every opportunity. The week's training culminated in an FTX which was exhausting but was enjoyed by all, especially **Sig 'Trist' Ancell** who only stopped grinning once, which was to eat his Burger King on the return journey.

The Troop took on another new arrival from Blandford this month **Sig** Luke **Mitchell** who arrived just in time to avoid battle camp (we'll get you next year). Finally the Troop says a fond farewell to three long serving members, **Cpl John Wilson** and **LCpl** 'Del' **Driscoll** who have both left the Army, and **Cpl** 'Scott' **Robinson** who has been posted to The Royal School of Signals as an instructor at the much feared RADEX Tp (Give them hell 'Robbo'). All of the Troop wishes all three of you every success outside the Squadron.

BRAVO TROOP - *by LCpl Thorpe*

Tp Comd **Lt Rob Hamilton R SIGNALS**
Tp SSgt **SSgt Paul Bartliff**

Refreshed from Summer leave, the Bravo machine returned to Colchester ready to do battle in what promised to be a busy September period. Following the annual pilgrimage to Caythorpe, personnel were readying kit for deployment to Canada and Sennybridge as well as gearing up for a host of equipment inspections. Sennybridge can only mean one thing for a Royal Corps soldier – battlecamp. Whilst playing war in conditions not witnessed since the Somme, Bravo Tp cracked on with their spirits held above the water and refused to go under. Our own inspirational **Lt** 'Stressed Eric' **Hamilton** led the platoon into action and did an excellent job at keeping us gung-ho psychopaths at bay. Everyone worked hard, in particular **SSgt** 'I can't run but I can swim' **Bartliff** who skived off all week in Colchester and **LCpl Lawson** who went off to the sunnier climes on Ex Iron Hawk in Canada.

This month the Troop welcomes two new arrivals. Firstly **Sig** 'Scotty' **Slater** from the factory and **Cpl** 'Beep Beep Road Runner' **Clancy** from 228 Sig Sqn. We also welcome back **Sig Brayshaw** from Corsham Hub – **Sgt Thornton** hasn't stopped whinging about the standard of shoe shop assistants down town whilst she's been away.

There is very little other gossip to report in the Troop. Congratulations go to **Sig** 'ROPs King' **Fletcher** for being in trouble again and to **Sig** 'I can't do anything, I'm on a biff chit' **Frost** for crashing his car into a Staff Officer's Range Rover at the camp gates. Our compliments also go to **Sig** 'Smooth legs' **Drabwell** for passing P Coy and getting on his jumps course, and to **Cpl Barringer** who recently married **Claire** – all our best wishes. The Troop is now gearing itself up for adventure training in Bavaria and Ex Suman Warrior in Malaysia, both of which take place before Christmas. My word, it's tough at the top!

CHARLIE TROOP

Tp Comd **Lt Toby Courage**
Tp SSgt **SSgt Pete Hatton**

Charlie Tp has been busy as ever with many Troop members, including the illustrious **SSgt** Pete **Hatton,** out in Canada on Ex Iron Hawk, involvement in the 215 and 216 Sig Sqn battlecamps, the Caythorpe weekend and with representatives out in Germany earning their German parachute wings. Hellos go to **Sig Steel** and **Sig Hackford** who arrived from Blandford and **Sig Walker** who arrived from 249 Sig Sqn. A sad goodbye goes to **Sgt** 'Al' **Combe** who leaves us on promotion and is destined for 30 Sig Regt and **LCpl** 'Ted' **O'Donnell** who is bound for 249 Sig Sqn.

SQUADRON BATTLECAMP - *by LCpl Richardson*

We set off for our squadron battlecamp at approximately 1300hrs Sunday 27 September, for the six-hour drive to Farm One on SENTA Training Area. I was driving for **Lt Courage** in the lead vehicle, all seemed to go well (it would never go unwell because **Lt Courage** was constantly checking if I had the other vehicles behind us). We made the trip down to Farm One in a mere six hours. We were fortunate to get Farm One, it's a nice little number, with hot showers, basins, flushing toilets and a drying room, plus the heated sleeps. The only thing we were missing was a fitted kitchen that would have been nice, but we had to make do with **Pte** 'Barny' **Barnicle's** delights. At this point, without a hint of sarcasm, I would like to thank 'Barny' for all his hard work and the care he took in the food he prepared.

We had three days of field firing and one day of FIBUA instruction before we progressed onto a Platoon FTX for the final phase of the week. Every evening we would have a series of lessons. We would be in our bashers for about 2200hrs, listening to Galaxy FM with all the 'banging, massive, awesome tunes' as our resident 'Mank' **Sig Chris Beddall** would say. During the first few days we progressed up from dry training, to blank training and then on to live firing. The build up phases were, as always, individual CQB, pairs, then fire team level and finally section level. **Sig Burgoyne** got somewhat carried away with his cam paint and soon discovered that if you paint above the eyes, it all runs into them and stings like crazy. Not to worry though he realised by about the second or third time he tried it. In between the shoots we were taken through a number of concurrent activities. We were instructed in the art of vehicle anti-ambush drills (from a L/R and a DAF), we were also refreshed on the workings of GPMG and LAW 94 and, for those who would fire it, the LAW ODT. On the whole it was a good set of lessons. Indeed they were sorely needed as we had a lot of new guys on the camp, many of who had never undertaken live firing before. Few had touched a GPMG or seen a LAW 94, and even those of us who had previously used them had had little hands on experience.

The FTX phase started with a simulated casevac (one of the night-time lessons) in which we had to deal with shock and various injuries. We seemed to handle it pretty well - nobody died anyway. After the Battle Field First Aid we got some hot scoff down us and headed for the exercising area in the back of a DAF. Following the map we realised that we were going the wrong way, or at least the long way to our destination so it was mutually agreed we should look out for a vehicle ambush. ('Sorry DS, if the long journey intended to give us time to mong it in the back, unlucky, we were ready for you, better luck next time'). After the inevitable ambush and after killing the enemy, the TAFF's (Total Armageddon Freedom Fighters), we searched their kit. From there we tabbed to a forestry block on top of a hill to do a wood clearance (another lesson) and made up a harbour area (again another lesson) then posted out our sentries (you guessed it).

The morning saw us conducting a dawn attack on a small village. We made our way to the FUP via the side of a slippy slope that soon collected its victims as everyone slipped onto their backsides. Fortunately, we managed to avoid making too much noise and arrived in the FUP in good order. As H Hr approached we had a simulated mortar attack with flash bangs and smoke then we were let loose to assault the first building (our final lesson). It was all over in just under two hours. By 0800hrs the enemy were dead. They had put up some good defences in the houses so the lads on the GPMG had a good few minutes of covering fire which induced the Vietnam film quotes such as, 'Mmmm I love the smell of carbon in the morning.' Once the clear up was completed we ate breakfast and were on the coaches by 1130hrs. All in all it was an excellent, and much needed, battlecamp.

GERMAN JUMPS COURSE - *by Sig Fyfe*

On 24 September three members of Charlie Tp and one Tech deployed to Altenstadt Germany for a week's parachuting in order to obtain their German Parachute wings. These were **Sgt Al Combe, Cpl Stoj Stojanovic, LCpl** 'Scotty' **Finn** and **Sig Russ Fyfe.** The week started on the Tuesday morning with some ground training which consisted of the DFC procedure, the HR and D , and aircraft drills. That afternoon we started the first of our four jumps, jumping from a CH 53 using the T-10 parachute from a jump height of 1500m. Before we enplaned the PJI's ran through the DZ hazards, which consisted of a track and an area of marsh. The Troop lads were in the first chalk. Al, Stojjy and Scotty were in the first stick and **Russ** was in the second. Bearing in mind the jump height was 1500m and the DZ was quite big you would think that there would have been plenty of time to steer away from any obstacles and make a good landing. However, once everyone had reached the RV it was apparent that it was not so easy for all the jumpers; **Al** had landed in the marsh and was soaked from the waist down. The rest of the week went well and on Thursday we were presented with our German wings. The next day we left Germany for the UK and arrived back in Colchester on the Saturday afternoon.

215 SIGNAL SQUADRON BATTLECAMP - *by LCpl Lancaster*

A section of C Tp went on the 215 Sig Sqn battle camp between 18 and 29 September. It consisted of **Cpl** 'Daz' **Barnes**, were **LCpl Blackmore, LCpl Lancaster, LCpl Salmon, LCpl Smith, Sig Sherrington, Sig Joynson**, and **Sig** 'Kitbag' **Donnelly**. The first week was comprised of PT, lessons, a range package (which included some very tasty foreign weapons), section attacks, and a lot of early starts. It culminated in an attack on a FIBUA village. The battle camp then moved up to Wales (where the weather was as bad as ever) for the start of the E+E phase. Our section was used as the hunter force and we soon found out how hard it is to find a needle in a haystack. All in all it was a good experience and everyone benefited in one way or another.

SUPPORT TROOP - *by Cpl Stuart*

QM **Maj Steve Clarke**
RQMS **WO2 (RQMS) Furnival**

Life in the Troop has been fairly eventful over the last couple of months. After a week's 'time-out' (otherwise known as Adventure Training!) we deployed on Ex Eagle's Strike. As usual, the Troop was split up all over the country on various tasks. The Exercise predominantly involved testing the Support Helicopter element of the Brigade which allowed the Squadron (and the Troop!) to consolidate its SOP's and to test out some new options. One point of note was the fast jet flyby (which takes photos of our HQ setup). Let's hope that they caught me on the dreaded 'pan-bash' which proves that Techs do take their turn! Anyway, after pushing the enemy into Scotland, we 'won the battle' and returned to Colchester victorious and were rewarded with three weeks leave!

After a very quick three-week lay off we returned to work and promptly set off for the Airborne Veterans Reunion Weekend at Caythorpe village in Lincolnshire. The Airborne lads were billeted at Caythorpe Court during the Second World War and it was from there that they mounted Operation Market Garden. The village has hosted a reunion ever since. Our QM (**Capt. Clarke**), organised the event, which this year was made even more special as it was to be the last official Old Comrades Dinner in Caythorpe Court. Unfortunately the 'jump' was a victim of the weather but we contributed to the village fete by setting up our Brigade HQ, ferrying kids back and forth on a Quad bike and playing football against the local team (we lost 5-2!). However, for most of us it was a case of drinking lots of beer and listening to the old boys recounting their experiences of Arnhem well into the small hours!

The accommodation for us an 18' by 24' tent in a field. This proved an inspirational idea as we struggled into No2's on a wet Sunday morning for church parade! Wait out for a best boots inspection lads! Since sobering up, we have settled back into the Monday-Friday routine with the dreaded PRE/RSIT inspections looming in the very near future. Hello's to **Sgt Dickinson, Sgt McAdam, Cpl Hughes, Cpl Mulholland** and **Sig Suter.** Cheerio to **Cpl Murray** who moves to Civ Div!

MOTOR TRANSPORT TROOP - *by Cpl Hoskins*

MTO **Capt Mark Schofield**
MT SSgt **SSgt Jason Goldsworthy**

MERSEA HALF MARATHON

On Friday 8 September two coaches departed Goojerat barracks overflowing with personnel from 16 Air Asslt Bde & Sig Sqn (216). The coaches were destined for Waldergraves caravan park in Mersea island. This was the start point for a run in aid of the Antony Nolan Bone Marrow Trust. This is a charity very close to the Squadron's heart following the loss of **Cpl Al Joy** to leukaemia earlier this year.

At just before 0800hrs all runners moved into the start position. Then it was down to **Miss Bronwen Nichols**, the Area Manager of the Trust, to start the run. It was clear from the start that there were a few people pushing to do a good time, **Cpl Paul Clancy** was leading from the front clearing the route for the remainder. The Troop Staff Sergeants undertook the honourable task of sweeping the route with buckets to collect even more money for the charity closely supervised by **WO1 (RSM) Chris** 'Dodgy knee' **Drew**. As the run progressed the admin team headed up by **Sgt Mark Makings** established the water and feeding stations around the route. However, they did not take into account the speed of **Cpl Clancy** and were still setting up when he arrived. He went on to finish in an excellent time of 1hr 23mins. On passing the finish line he was heard to say, 'Was that it?'

Sig Dave Donnelly was close behind in a time of 1hr 28mins, with the remaining runners also posting some good personal times. **WO2 (YoS) Craig Jones** was the last runner to finish. Perhaps this was due to him being deep in thought about future Ops and exercises. When all runners finished the coaches delivered everyone back to barracks for the prize giving which **Maj McMurtrie**, the new Brigade Chief of Staff, performed. All in all it was a very good day was had and we look forward to next year.

12 MECHANIZED BRIGADE HEADQUARTERS AND SIGNAL SQUADRON (228)

Sqn Comd **Maj John Charnock**
RSM **WO1 (RSM) S. G. Jackson**

The Squadron has been a frenzy of activity during the last few weeks. The preparations for the end of year exercise season are all but complete and a testing series of build up exercises will soon follow. No sooner have we returned from Op Palatine than Ex Iron Foray is upon us. Squadron Headquarters has said hello and goodbye to a number of personalities in the past two months. Welcome to the new OC, **Maj John Charnock** who arrived from MoD, London. The new Squadron Clerk, **Pte Cheryl** 'Catsuit' **Roberts** arrived in the Squadron to the sound of a 21 gun salute (less 20, allegedly). **LCpl** 'G10' **Jitendra** arrived last month to take over as the Postal Clerk and nobody has seen him since; just how many Gurkha holidays are there in a calendar year? In line with the copious amount of new arrivals, several personnel have also left the Department. A sad farewell to **SSgt Jack** 'Mech Warrior' **Hawkins** and **SSgt Richie** 'Airborne' **Harper** as both leave us to take up new careers in civvie street. Good luck to both of you, and thank you for all your hard work during the several years you served in the Squadron. You will both be missed.

The Administration Officer, **Capt Joe Cox** has finally got the 'Squadron Butty Bar' up and running. After initial teething problems while the food hygiene Nazis prevaricated over the issue of the 'Safe to Serve Certificate' the profits are now rolling in and inflating the PRI fund admirably. On the sporting front, **WO1 (RSM) Steve** 'Action' **Jackson** would like to thank all the members of the football team for their sterling efforts in the Royal Signals Plate Competition at Blandford. Next time, however, a few more actual goals and a lot less own goals are in order. The Chief Clerk, **SSgt Steve** 'Tommy Cooper' **Owen** is to be complimented on organising an excellent Brigade golf day, which saw members of the Brigade staff competing against the Signal Squadron. Needless to say, the Signal Squadron won.

Congratulations to the Yeoman, **WO2 (YofS)** 'Hodge' **Arthurs** and his team for achieving an EXCELLENT on the recent Crypto Inspection. **WO2 (FofS) Lance Marshall** led the Squadron March and Shoot Team in the Brigade Concentration Training this month proving that a distinct lack of hair does not affect your ability to march or shoot; well done!

ALPHA TROOP

Tp Comd **Lt Ed Dickson**
Tp SSgt **SSgt Dicky Dyer**

After a month post-Bosnia leave and three weeks summer leave, a highly motivated Troop, comprising mostly of 'armour virgins,' returned to work to get intimate with their Panzers. It was rapidly discovered that they are not very user friendly, mostly through pain-related learning (long live Panzer rash!). The workload has been very heavy as everyone prepares for the busy exercise period, which culminates in a divisional exercise. The Boss, **Lt Ed Dickson**, has been lost somewhere in his IN Tray with **SSgt Dicky** 'Town Crier' **Dyer** and **Sgt** 'Phlegm Gargler' **Davies** not far behind. The Troop has said goodbye to several members including the legendary **Sgt** 'Champagne Charlie' **James, Cpl** 'Clankers' **Clancy** and **Sigs John Marshall,** 'Percy' **Thrower**. There are also a few 'Hellos' to the lads fresh from the factory; **Sigs** 'Websters' **Webb**, 'Shaven Haven' **Grochowina**, 'Swead' **Sweet**, 'Heidi' **Hide** and 'Woz' **Evans** – WELCOME! (And get the brews on). Also congratulations to **Cpl** 'Dog' **Barker** for coming off the Sergeants' Board and being successful on the Yeoman Selection Board along with **Sgt** 'Phlegm' **Davies.** The Troop now looks forward to forthcoming events, including Ex Lion Sun in Cyprus and a Singlies Weekend Away – Location yet TBC!

BRAVO TROOP

Tp SSgt/OC **SSgt Pete Mullen**

The Troop has been busy recently, establishing the Step – Up HQ, and getting our degrees in tent erecting. It has been a steady build up to the exercise period in October, with lessons on particular items of equipment within an AFV 43 series armoured vehicle. We borrowed a switch from 3 (UK) Div for a week so we could iron out any faults with the Ptarmigan assets but instead we confused the YofS by getting two allegedly u/s LDAs working in different detachments. While this has been going on, there has been the driving course for the 432. Although most people passed their tests one individual, **Sig Paul Kennedy**, decided to re-write the emergency stop by sliding sideways down the manoeuvring area.

Since we returned from block leave, there has been the weekly drinks session, mainly for arrivals and leaving drinks and **LCpl** 'Fordy' **Ford** to recruit for his dancing school. The Troop would like to say farewell to the following people: **Lt** 'Doris' **Day,** who is off to Shrivenham for a three-year course in how to drink; **Sgt** 'Toyah' **Wilcox** who is off to 16 Sig Regt; **Cpl John Attwell** off to ATR Bassingbourn, so the standard of soldiers is bound to go down; **Cpl** 'Mac' **McMullen** is off to 19 Bde; **Cpl** 'Grif' **Griffiths** who, at the sprightly age of 42, is off to 16 Air Asslt Bde (via P Company); and last, but not least, **Sigs** 'Thomo' **Thomas** and **Steve Andrews** who are off to 264.

The Troop would like to welcome in to the fold: **SSgt Pete Mullen** from 261 Sig Sqn; **Sgt** 'Trev' **Allen** from 1 Div; **Cpl Sarah** 'I'm a star' **Guthrie** fresh from starring in the new recruitment campaign; **LCpls Clarke** and **Laws**; and **Sigs Bowen, Bunion** and **Williams** straight from the factory. Congratulations to **Cpls Keith Langan,** 'Si' **Barker** and 'Griff' **Griffiths** for coming off the promotion board and an extra well done to **Cpl** 'Si' **Barker** for being selected for YofS training.

SUPPORT TROOP

Tp Comd **Capt** 'Throw me a rubber ring' **Richards**
Tp SSgt **SSgt** 'I can't sir 'cos I'm sinking faster than you' **Greaves**

It surely cannot be three months since we last sat here with about ten minutes to a *WIRE* notes deadline and a blank page in front of us and a 'things more important than *WIRE* notes' to do list going out of the door. Support Tp, as we have now been named, have spent the last couple of months attempting to get ready for the succession of exercises that await us during the months of October and November. The QM's Department have found themselves on first name terms with just about every body that work in the Bicester and Donnington stores depot and have even thought about having there own rear link quartermaster detachments up there to cut out the middle man. Meanwhile nobody in the LAD has seen the sun for the last couple of weeks because when it's time to finish lying underneath a truck, it's been time to go and lie in your bed. Apart from the Tiffy, **SSgt Jim** 'I've won a holiday' **Lemon** who is now sat in his office looking like an over ripe tomato, damn that all inclusive beer in Tenerife followed by a wee snooze on the beach. As for the MT Department, we the few, abused by so many, for absolutely no reward, have nothing to complain about. In fact we are relishing the challenges that are being thrown our way. We are especially looking forward to spending the next month and a half either on the Aldershot or Salisbury Plain training areas where the worst that can happen to us is getting rained on. On a more serious note we have found life extremely busy at the moment but hopefully by the next issue we will have a few more interesting things to tell the rest of the Corps about. The obligatory hello's to **Cpl** 'Cozy' **Powell** , **Sigs** 'Shades' **Singh,** 'Strangeways' **Lynch** and 'Who am I' **Perry**. Sad Goodbyes go to **Cpl Ritchie** 'Ring' **Preece** and **SSgt Dean** 'Competitive Dad' **Whitworth**.

MIKE TROOP

Tp Comd **WO2 Marshall**
Tp Sgt **Sgt Hopkins**

Since we got back from Bosnia in June our feet have not touched the ground building the new signal squadron from scratch. An achievement in itself is seeing everyone in work. We shall see who has been grafting and who has be spending too much time around the 'Trailer of Knowledge' as the day of reckoning is almost upon us, the Brigade's first Mechanized exercise - if nothing else, it will be emotional. Amidst all the preparations going on the Troop would like to congratulate **Sgt Lee Coldwell** for the superb pole position he gained whilst driving in the Bulford to Aldershot grand prix. We would also like to welcome the two installation techs (lineys with GCSE certificates) **Sig Brewster** and **Sig Lavenu**. **Sig Brewster** impressed people very early on by trying to wire a 24V soldering iron with a 3-pin 240v plug. Well done, back to school (It wouldn't have happened in my day). We would also like to welcome **Cpl Jim** 'You're OFF!' **Berrey** to the Generator Bay to relieve **Sgt** 'Hoppy' **Hopkins** of some of his paper work so he can go and play golf. Well that's when **Jim** is here and not playing football. We would finally like to congratulate **LCpl Nick** 'The Admin Penguin' **Constable** for passing P Coy, **Nick** you left it too late, parachuting out of the back of a 436 doesn't count on your jumps card.

251 SIGNAL SQUADRON

Sqn Comd **Maj John Oakes**
SSM **WO2 (SSM) Gary Smith**

HAIL AND FAREWELL

Departures and arrivals have picked up again over the last few months, with three new arrivals and four departures. Welcome to the Ops Room **Capt Keith Roach** who is posted in from DLO Andover, and into the Tech Wksp comes **Sgt Pam Mitchell** and **Sig Mark Igo** who have both been posted in from The Royal School of Signals, Blandford. A farewell goes to **Capt Mick Purves** who has been posted to 2 Sig Regt, York. **Cpl Sue Neate** is posted to 243 Sig Sqn, Salisbury, **Cpl Wendy Boardman** defects to the Adjutant General Corps and **Cpl Sarah Dyer** is posted to Civdiv (glutton for punishment, she is now working in the COMMCEN as a Civilian). **CONGRATULATIONS**

Our congratulations go to **WO2 (YofS) Billy Cardwell** and his wife **Karen** on the birth of their son **William** and to **Miss** 'Finchy' **Finch**, on the birth of her daughter, **Daisy**.

EXERCISE CHATURANGA - *By LCpl McIlduff*

For the fifth year running soldiers from 251 Sig Sqn foolishly set-off for the Chaturanga Assault Course Competition, held in Tournai, Belgium. The competition is based on four member teams competing over a 2km assault course where natural and artificial obstacles alternate with shooting tests using crossbows, sniper rifles, pistols and assault rifles. Team one consisted of **Sgt** 'I dance like a diva' **Clash, Sgt** 'I am funny' **Sanderson, Sgt** 'I eat more than ten men' **Gill** and myself **LCpl** 'Sprog' **McIlduff**. Team two was made up of **Sgt** 'What's the name of that gun?' **Moore, Sgt** 'Evil Knievel' **Webb, Cpl** 'nerves of steel' **Dyer** and **LCpl** 'I am a lady' **Harkness**. The man leading the exercise **WO2 YofS** 'Show me your war face' **Cardwell.**

The trip out to Belgium was uneventful, that is, if you call nine people and all their kit squashed into our sunshine coach of a minibus uneventful. Once there it was all off the bus and out for a quick look at the assault course and then off to get our heads down in preparation for the next day, (Not!). The first day on the assault course was spent in our individual teams going over the obstacles in slow time, all 38 of them. At the end of the day we were all feeling the effects of too much running, jumping and crawling through mud, (not to say the beer the night before!).

When race day arrived, we were all a little bit stiff; before any teams could compete in the competition all team members had to pass the confidence test, the first being a cat crawl over a valley and the second a death slide. If you're anything like me, heights tend to be a bit of a problem. **Sgt** 'Evil Knievel' **Webb**, appeared as if he was auditioning for the part in a travelling circus as a clown, which never the less kept everybody well entertained.

Rear row (L-R): Sgt Moore, Cpl Dyer, Sgt Webb, LCpl Harkness, WO2 (YofS) Cardwell
Front row (L-R): Sgt Gill, LCpl McIlduff, Sgt Clash, Sgt Sanderson, and Benson the dog

It was now drawing nearer to our turn and team one was up first, nerves were starting to get to everyone. Once we got the go ahead, the obstacles were easily completed and we made good time, then it was onto our first of three shoots. The first shoot was a 100m range, the second and third shoots were the 50m standing and the 25m pistol shoot, in-between shoots we completed circuits of the obstacle course, after the shooting was completed the only task left was the 100m carry to the finish. Once there, **Sgt** 'I eat more than ten men' **Gill** went on to do a sniper shoot. The torture was then over! We were later informed that Team One had completed the course in the fastest time ever for a British Team…Yeah!

The whole course was repeated for Team Two, who took slightly longer and it was said to be the funniest British team ever to have competed in the event. The final results were: Team One came first and walked away with the Gold, Team Two came seventh, where **Sgt** 'Evil Knievel' **Webb** was given his last shot of morphine. Finally, team members would like to thank all the Sponsors, without whom, the exercise would not of happened, and a special thank you to L' Ecole Logistique in Tournai, Belgium for hosting us all so admirably.

259 SIGNAL SQUADRON

Sqn Comd **Maj J. H. Fraser**
SSM **WO2 Tredwell**

The Squadron bid a sad farewell to a lot of SHQ and Ops this month. These being, **SSgt Barr, WO2** 'You horrible lot' **Ewing, Capt** 'It's way past my bed-time' **Shead, Capt** 'Batfink' **Handibode** and, last but not least, **Mr Stevie Boulton**. On the arrivals front we say a big hello to **WO2** 'Charlie don't surf!' **Tredwell, Capt McNally** and **Capt Knight**. We hope everyone settles into the Cyprus way of life well and that they thoroughly enjoy next months excitement in the form of Battlecamp!

AIRFIELD TROOP
Tp Comd **2Lt Kate Milner**
Tp SSgt **SSgt Bob Stenhouse**

Airfield Tp has been through quite a few changes recently, due to the change over of the detachment to Kosovo/Bosnia and the postings in and out. We welcome back **Sig** 'Mong Hoof' **Milevsky, Sig Andy** 'Damon Hill' **Wells** and our illustrious leader **SSgt** 'The Builder' **Stenhouse**. They were taken over from by our very own three wise monkeys, **Sig** 'Monobrow' **McGurk, Sig** 'Way-aye-man' **Goddard** and **Sig** 'Jackanory' **King**, who, we are sure will come back with loads of exciting stories about how he solved the Kosovo Conflict (obviously no one was around to see this). We are all looking forward to seeing **Cpl Danny** 'Randy-Dudd' **Rudd** who will be joining the Squadron once again from his 4-month sun shine tour of the south Atlantic. Word has it that he has fallen for a bird called Pingu. Speaking of sunshine, a big hello to **FofS** 'Have you got a fag?' **McGregor**, who is currently relaxing in the USA.

We would also like to take this opportunity to welcome in **2Lt Kate** 'L-Plates' **Milner, Cpl Dave** 'Bodge tape' **Atherton, Cpl Paul** 'Rock and Roller' **Creeley, Sig Gav** 'Mirror boy' **Prigmore, Sig Pete** 'Maccam' **Goddard** and **Sig** 'Colgate' **Griffiths**. Also, hurry back **LCpl** 'Midnight' **Barnett** from your Class 1 and welcome back to **LCpl Morris** from your Fibre Course. A big farewell goes to **Sig** 'Gummy Bear' **Joughin, Sig** 'What are you doing?' **Hobson** and **Sig Ronnie** 'Sweet Cheeks' **Fletcher**, who is looking forward to serving Big Macs and fries to the rest of us in 69 UK Civ Div.

Airfield Tp would like to say sorry to the rest of the Squadron and JSSU for winning every drinking competition on offer at the Telemech convention. Once we had scraped together enough people to take part in the BFBS 5-a-side Football Tournament, our team 'Athletico Sambuca' managed to come second (in every game) resulting in last place in the

Plate Competition. A considerable improvement on last year's effort in which we came second overall! It was still, however, a very enjoyable and (suprisingly for Cyprus) sunny day. Arabs beach club was the venue for the Akrotiri all-island volleyball tournament, in which we faired a lot better by winning the Plate competition. The team consisted of **Sgt Kev** 'Come on big boy' **Waring, Cpl** 'I earn more money than yaw' **Paterson, LCpl Rob** 'The Knee' **Hansen** and **Sig Gav** 'Three times around my chest. GO!' **Prigmore**. Well done for showing the RAF how to play the game.

LCpl 'Wide boy' **Bilby** and **Sig** 'Abdoula' **Stanley** attended a basic parachuting course at CJSATC, Dhekelia. They thoroughly enjoyed themselves, but their unscheduled 'night activities' contributed greatly to the challenging nature of the course! **Cpl** 'Goose' **Paterson** is currently on the same course probably wondering why he is throwing himself out of a perfectly good aircraft. Congratulations to **2Lt Milner** on her valiant attempt at the Cyprus Walkabout. She obviously didn't understand what she was letting herself in for... bet you won't make the same mistake again next year ma'am! Consolations were readily forthcoming, however, if only from her puppy pooch **Bob**. A further congratulations to **Sgt George** 'I'm on my mobile' **Henry** who has recently been awarded the 'Queen Mother's Certificate of Merit for Outstanding work in the Community'. Oh and a final call out to **Sig Adam Holley** ....Get the beers in mate!

EPISKOPI TROOP
Tp Comd **Lt Sarah Covey-Crump**
Tp SSgt **SSgt Gary Mathieson**

It has been a busy time for the Troop at the moment with various arrivals and departures. On the arrivals front we say a big hello to **SSgt Mathieson, Cpl** 'Piggy' **Lee-Davis, LCpl** 'I've not had too many!' **Foster, Sgt Musgrove** and **Sig Wardley**. We'd like to say goodbye and good luck to **Cpl** 'Caz' **Croft, Sig** 'Southern Fairy' **Creighton, Cpl** 'Granddaddy' **Quinn, SSgt Barr** and **Sig Emett**. For the fortunate ones left in the trod we have the Squadron Battle Camp to look forward to in November, as well as the Hodgson Shield Competition, which has started anew. A final mention has to be made of **Sgt Street** and **Sig Campbell** who against all odds defeated the mountain in the Cyprus Walkabout. As well as the fact that the temperature was over 30 degrees, the mountain 5700ft high and the course 90km long the heroic pair survived being beasted down Troodos by a Royal Marines Warrant Officer! All in all, it was definitely **Sgt** 'Third time lucky' Streets finest hour!

DHEKHALIA TROOP
Tp Comd. **Capt Alexander**
Tp SSgt **SSgt Bryant**

THE ARMY ANGLING FEDERATION CARP CHAMPIONSHIPS

After hearing tales of record breaking fish being caught throughout the whole of France, 'the team' from 295 Sig Sqn (myself **LCpl** 'Baggy' **Bagshaw** and **Sig** 'Gupta' **Bate**) were on a high when we finally reached the Abbey lakes complex near Compeigne. The Army Angling Federation Carp Championships consisted of a Pairs event being held over a 48-hour period, from the 18-20 August. After picking the 'best peg' on the lake, we set up our rod and bivvy to the gentle splash of pounders leaping clear of the water. The water looked good. The weather was right and the fish numerous and large. After a 12-hour wait, we finally got a screamer of a run and after a couple of seconds slipping around in the mud, **Sig Bate** managed to strike in to it. It was a monster of a fish that fought valiantly for about ten minutes until the hook flew out of its mouth, just as we were about to land it. Distraught at our loss, we retired for the night, only to be woken four hours later by the high pitched tone of my bite alarm, signaling another chance of a fish, a quick dive into the two inches of mud to grab my rod. Unfortunately it proved fruitless, one of many 'ghost runs', which plagued us for the rest of the competition. At the end of the 48 hours, only 21 fish had been landed, by only 6 of 17 teams. The lake had not fished as well as expected and had beaten most of the 34 disappointed anglers. Still, finishing seventh equal doesn't sound too bad! Special thanks goes to **Rob Hughes**, (carp fishing champion), for hosting the championships and for giving **Sig Bate** some casting lessons.

ANNUAL TELEMECH CONVENTION -6 SEPT 2000

On Saturday 9 September the annual Cyprus Telemech Convention was held at the Squadron's Jimmy Club bar in Episkopi. Telemech's from Ayia Nik, Dhekalia, Akrotiri and Episkopi met up for a few sociables and some fun and games. The day started off with a kick-around at the Happy Valley pitches. Afterwards it was back to the bar for a quiz courtesy of **Cpl** 'Piggy' **Lee-Davis**. There was a barbecue laid on to keep our energy levels up for the long day ahead. A good eight hours later (and a couple of beers) saw Limasol Wine Festival as the final watering hole before everyone headed into the main tourist area to dance the night away. A big thanks goes to **Sig** 'Big Gay Alf' **Gamett, Sig** 'Left Eye Lopez' **Moss** and **Sig** 'Monobrow' **Williams** for organising this event, a final thanks goes to **LCpl Tindall** for doing a good job handling the bar and the constant barrage of abuse!

THE CARDBOARD CRUISE-AIDER

On 3 September 2000, a team of elite soldiers from Dhekelia Tp, 259 Sig Sqn entered the 62 Royal Engineers Annual Charity Raft Race at Cessac Beach, Dhekelia. The intrepid team members were **LCpl** 'Doorwedge' **Dorward** (Skipper), **Cpl** 'Skin' **Readhead** (Navigator), **Sig** 'Gupta' **Bate** (Gunner) and **LCpl** 'Hefner' **Taylor** (Raft Design Engineer). Forty-six rafts in total were entered for the various races, and were given marks for construction, originality, methods of propulsion, for the teams' fancy dress and of course for their race performance.

Our team was feeling quietly confident of success, although the rest of the Troop (and the Garrison), were laughing at us and hurling torrents of abuse. On reflection, this was understandable, as our raft was constructed from cardboard MFO boxes. Undaunted, we made our last minute race preparations and loaded the raft up with ammo, mostly eggs. Our heat quickly came around and before we knew it, we were on the start line being showered with eggs and flour from enthusiastic spectators. The starting thunder-flash went off, and we ran along the beach to board our magnificent craft. Somehow, it didn't sink and, incredibly, we started to pull away from the pack. We rounded the two marker buoys and rocketed in to the finish, minutes ahead of everybody else. Unfortunately, two rafts in other heats were faster which pushed us back into third place overall. Still, not bad for a cardboard raft. We were heroes and the chicks loved us. I hope this proves that there is a viable future for cardboard shipbuilding.

ROYAL SIGNALS MUSEUM

Check Out the NEW STOCK
in the Museum Shop

JOINT COMMUNICATIONS UNIT FALKLAND ISLANDS

OUT WITH THE OLD AND IN WITH THE NEW
Sqn Comd **Maj W. E. H. Adsett**
USM **WO2 T. Smith**

The picture shows the outgoing USM, WO2 Tom Smith and incoming CPO Tim Isherwood (RN)

As 257 Sig Sqn's tour draws to a close, preparations for the hand-over are in their advanced stages. We offer our sincerest thanks to our RAF and Navy staff for making this tour memorable and enjoyable. Although we are shortly to depart these barren shores, we must say a farewell to **2Lt** 'Gentle Ben' **Davenport** who has cut away from his penguins to complete his Troop Commanders course at Blandford. Good-byes also to **Capt Phil Day**, **Capt Dave** 'Drummer Boy' **Ball** and **WO2 Tom** 'Karaoke King' **Smith**. The new USM, **CPO Tim Isherwood**, despite being in the Senior Service (as he never ceases to remind us), will have a hard act to follow. A warm welcome is also extended to **Capts Lee** 'Half Marathon before breakfast' **Kielly** and **Mark Edwards**.

'Hard Men'
(R-L): OC JCUFI, Sgt Pickering and Sig Potts show off their Winners Trophies for the MPA Ultra Fit Competition

257 SIGNAL SQUADRON (JCUFI)
SOUTH-WEST ATLANTIC MID-WINTER SWIM

On Saturday 24 June 2000, we were all given two options very different to our usual Squadron bonding 'Sports for All'. Any sane person, given the choice between a log-run or diving half-naked into the Atlantic Ocean in the middle of winter, would surely opt for the former? Are we up for a challenge, or perhaps four months isolation is having an effect? Reality sank in when we woke up on Saturday morning to find a carpet of snow lying on the ground. We arrived at Surf Bay to find more crazy people like ourselves, large waves and no sand - just snow. Lots of snow.

We all stripped down to our swimming costumes. Two minutes to go! **Leading Wren Shelly** 'Anyone for a wobbly coffee?' **Jones** kept our spirits up by repeatedly telling us, 'It's not as cold as last year.' Mmmmm ..... yes. We all lined up. Certain groups were psyching themselves up, joking and showing their war faces, trying to convince **Lt Ade** 'I've lost my heart rate monitor' **Johnson** they really weren't scared. It helped to take their minds off the fact that all sensation was now lost from the ankles down. Looking at the faces around me, I realised that others might share my view that my heart would stop, and I would actually die from the ice cold water. The flare fired – this is it! - a hoard of screaming bodies went sprinting into the most uninviting ocean.

I've never seen knees lifted so high. Enough to make any PTI proud! The brave ones amongst us managed to run to head height, but most were dragged under by the icy waves. **Cpl Lesley** 'The BV's driven off with my clothes' **Beck**, successfully managed to drag half a dozen others under with her fall. Once we'd been completely wetted through ('to the head' was the agreement), we didn't hang around and we were swiftly ashore. I'm sure everyone (even **Sigs Keith** 'I like to shimf' **Malait** and **Charlotte** 'I don't care what my deputy dog hat looks like - I'm warm' **Driscol**) would agree it was an exhilarating experience - and a good giggle. Two Tornadoes congratulated us all by performing a 'fly-by'. This, the huge bonfire on the beach plus the hot toddies - and of course raising money for a good cause - made it all worthwhile.

JOINT COMMUNICATIONS UNIT FALKLAND ISLANDS
By Lt Jon 'No Mates' Mayne
OC **Maj Ian** 'Ned Flanders' **Hunter**
USM **WO2 Karl** 'Gon Fishin' **Weaver**

The final additions to the new Army element of JCUFI arrived at Mount Pleasant International Airport on 8 August to the welcoming signs from 3 (UK) DSR reading 'Welcome to Hell 7 Sigs – Merry Xmas'. It had, however, taken a long time to get there. 231 Sig Sqn, officially became detached from 7 Sig Regt after Easter in order to complete all the training required to deploy into a working environment where there is a plethora of equipment never seen before by the soldiers within the Squadron. JCUFI is a tri service unit, and although it is headed up by the Army. 45 percent of those serving within the Unit are either Royal Air Force, or Royal Navy. There are three Troops, Alpha Tp is headed up by **Flt Lt Dave** 'Foxy' **Robertson**, and is responsible for all radio communications. Bravo Tp is the Responsibility of **WO Ian Brown** of the Royal Navy and runs Syscon and the COMMCEN. Charlie Tp is led by 231's very own **Lt Harriet Hebblethwaite**, and is responsible for the trunk communications systems and all the IT equipment and support around the Islands, and more importantly, everyone's telephones.

Once the handover from 3 (UK) DSR was complete, everyone started to find out what the Falklands has to offer. The result was that there is definitely something for everyone, as long as it didn't involve being outside for too long, as the austral summer is not yet with us, and temperatures have been as low as -20°c with wind-chill. Activities range from 10 pin bowling and a cinema to Go-Karting and golf. There is also a superbly equipped Gym, a swimming pool, sauna and solarium, and for when the weather does warm up, a water sports lake, as well as the chance to take a guided Battlefield tour. This means that everyone can experience something new while they are here.

A final word must go to **Maj Paul Bosher** who finished his command of 231 Sig Sqn with the shortest Falklands tour ever before **Maj Ian Hunter** took over. He will be missed by all of the Squadron (well some of them at any rate), and we all wish **Paul** and **Helen** well in Shrivenham.

Sgt 'Mick the Mullet' Yendell showing off his catch

ALPHA TROOP - *By Sig Simon 'Uncle Fester' Garrett*
Tp Comd **Flt Lt Dave Robertson**

The JCUFI advance party arrived on 1 August 2000 consisting of myself and **Sgt Wilson** to RADCON and the rebro-dogs **LCpl J. J.** 'Rambo' **Roberts**, **LCpl** 'Itchy' **Richie Harris**, **Sig** 'Oldman' **Porter** and **Sig** 'Manylegs' **Qualtrough**. We started our take over and waited for the main body to arrive. After a fond farewell to 3 Div and the simultaneous disappearance of three cats, we started to get on with making ourselves at home and getting on with the job. The South Georgia boys- **Sgt** 'Nessie' **Nesbit**, **Cpl Charlie Hart** and **Sig** 'Random' **Tasker** deployed with much chatter about how hard they have it and how they were set up. Two days after they arrived, we were receiving signals asking to come back. **Sig Iain** 'Shermanator' **Bibby** was amazed that the water went the other way down the plug-hole and spent many a happy hour flushing toilets. **Cpl Winston Whyte** has busied himself with his latest 'get-rich-quick' scheme by charging for kit from RADCON stores, managing to amaze everyone with his 'now you see it now you don't' trick.

LCpl Neil Dinsdale decided to make new pen friends, writing several introduction letters to adverts, only to have them arrive to fellow RADCON crew **LCpl Helen** 'Warrior' **Winterson** and **LCpl** 'Thelma' **Roberts**. Back on the rebros, **LCpl Harris** and his crew consisting of **Sigs** 'Pukie' **Wilkie** and **Qualtrough** on Mt Adam have been trying to outdo **LCpl Roberts**, **Sigs Porter** and 'Virg' **Parkin** on Campito with exciting telephone chess matches and karaoke nights. **Sgt Dean Wilson**, **Sig Bibby** and **Sig Garrett** attended the battlefield tour of Mt Tumbledown, hosted by the Roulement Infantry Company. This proved to be both an informative and emotional day with the Gurkha piper playing at the memorial site on the rocky outcrop overlooking Stanley. We now look forward to future explorations of the Islands' fascinating flora and fauna. (Finally the Troop wish **Sgt** 'Jaffa' **Wilson** a speedy recovery!)

BRAVO TROOP - *By LCpl Matt Childs*
Tp Comd **WO (CY) Ian Brown RN**

On 7 August 2000, the main body of 231 Sig Sqn, 7 Sig Regt, landed at Mount Pleasant Airport in the not so sunny Falkland Islands to begin the year's main deployment, a six-month tour as JCUFI, the communications squadron in support of HQ BFFI. We were to take over from 257 Sig Sqn, and the advance party had already deployed a couple of weeks beforehand to get things squared away in preparation for our arrival. Once we had landed we were met by the OC, **Maj Paul Bosher**, (thought you were safe now didn't you Sir!), with the rest of the advance party and then whisked off to the accommodation. (Much better than Krefeld). The next couple of days was death by Powerpoint as we sat through the interminable round of GDT and FNG briefs and presentations, Island do's and don'ts, and all the other arrivals niff naff that goes with a new tour in a new location.

After all this it was pretty much straight into work, after a couple of hardcore social nights to say goodbye to the outgoing Squadron. A Tri Service COMMCEN is a strange beast indeed, and it took us all a few days to get used to it and to get settled in on our respective shifts. (A watch is something you wear on your wrist). **Cpl Richie Applegarth** went onto A shift, **Cpl John Mcgee** and **Sig Sam Clarke** onto C Shift and Myself onto B Shift. There were no major teething problems, although the RAF and the Navy element are still not quite sure what to make of **Sig Sam Clarke**. (But then again…who is?) We are all well into the routine now. Work, play and PT. Organised by our beloved Badge, **WO2 (USM) Karl Weaver**.

One of the main attractions in the coming months is going to be the first ever gig of South Atlantic mega stars 'The Lost Resort', a collection of JCUFI musically challenged individuals headed up by **Sgt Dave** 'Skins' **Burke**. The jury is still out on this one, but we will be sure to let you know how they get on! Should be a laugh anyway! The Troop would like to say a big Falklands Hi! To **PORS Chris Kierstenson RN** the new Systems Manager and Farewell to **PORS George Swalwell** RN the outgoing Systems manager. No one has that long to do. C Shift has also changed at the top 'bye to **Sgt Jud Pringle** RAF and hi to **Sgt Bob Ash** RAF. Enjoy your tour **Bob**. Finally congrats to two more of our Naval element. **LRO Shelly Jones** on getting her LS and GC for 15 years of undetected crime, nice one mate! Also to **LOM Paul Dimmock**, on receiving his NATO medal for a tour of Kosovo. Both medals were presented by CBFFI, **Brig Sheldon** at a small ceremony in the HQ building. That's about the lot for this instalment, but watch this space for future developments in the happy world of COMMCEN Falklands.

CHARLIE TROOP - *By Lt Harriet Hebblethwaite*
Tp Comd **Lt Harriet Hebblethwaite**

231 Sig Sqn based in Krefeld have, since early August, been fortunate enough to take over the responsibility of JCUFI. Charlie Tp is primarily responsible for maintaining the digiFITS bearer system throughout the Islands and the telephones and PCs around the complex, a full time job as the Tele Mechs found out in the first few weeks. The first month has been predominantly a settling in period, but we have had a visit by **Maj Gen Pringle**. There are of course many activities in which to indulge, depending upon your inclination (although what **Sgt Crompton's** is I can only guess). We have planned many trips in the forthcoming months including a very cold and wet trip in a rigid raider that I have cunningly managed to keep quiet so far, as well as further battlefield tours. Yes, I will remember to fill my flask this time and take spare camera film.

LINE SECTION - *by LCpl Healy*
IC **Sgt Dave Cascarino**

Farewell to 3 (UK) DSR! Gone but definitely not forgotten! 7 Sig Regt have arrived bringing with them their very own Tele Mechs. The mechs from 16 Sig Regt are all breathing a sigh of relief, for at least the next six months anyway! There's a new man in the hot seat in the shape of **Sgt Dave** 'Fatboy' **Cascarino**, welcome to him and congratulations on his recent promotion. Suffice to say his reputation has preceded him! We have all settled well into our new working environment, for the lads and lasses from 231 Sig Sqn it has been a steep learning curve, but they are coping admirably. The variety of work that Line Sect undertakes is vast, and never seems to let up. 'Fatboy' keeps telling us that it will soon seem like second nature- sorry boss, we don't believe you! On the social front we have all gelled really well- did you expect anything less from telemechs? However, we do have a problem with **LCpl Phil** 'I Love Sharon' **Brown** and **Sig Mo** 'I Love Sharon Too' **Morris**- Guys, be cool, sooner or later **LCpl Sharon** 'I can't Decide' **McCreaddie** will let you know one way or the other! Special mentions must go to **Sig Jim** 'The Stutter' **Brampton** and **Sig Simon** 'Dumb' **Woodworth**- without you two morale would not be as high! Meanwhile back at the ranch the sensation seekers of the Maintenance and Project crews led by **Cpl Danny** 'Devo' **Rudd** are having so much fun in the rain- get those cables tested lads! If **Cpl Glen** 'When I was a Radio Relay Det Commander' **Sunderland** carries on wingeing he will find himself on the receiving end of some good old Line Sect discipline!

FITTEST (Falkland Island Trunk and Telephone Support Team)
By LCpl 'Denzil' Depport
IC **Sgt Chris Crompton**

Keeping it short and sweet this month. I will kick off the article with a big thank you to all 3 (UK) DSR personnel for a smooth and very helpful handover/ takeover, and without whose help we'd be doing a lot more head scratching. Work down here is hectic, with over 2000 telephone subscribers to keep happy and a radio trunk system that seems to enjoy breaking down on the coldest of nights. However, all is not lost as there are a fair amount of recreational facilities available on MPA. For instance, I enjoy visiting the bar and, oh yes the errr…bar.) **Sgt** 'Ginger Wizard' **Crompton** is now resident DJ for the ever popular JCUFI bar 'Sharkies'. He has recently been approached by an unknown source who wishes to use him in implementing a new project called 'NAAFOT' (Noise As A Form Of Torture). **Cpl** 'Screecher' **Simpson** has joined a band, but will sadly be out of action for a while as he was severely blinded by the last rotten tomato launched in his direction. **Cpl** 'Sweepy' **Baulch** is doing sterling work as section MT rep', while **LCpl** 'Smokey' **Ross** is currently under psychiatric evaluation due to an unhealthy fixation with jumper wire and chrono-blocks. On a final note, **LCpl** 'Skid' **Jordan** may soon be leaving us to begin a career as a crash test dummy. He has considerable experience in the field and is hoping for an interview with the relocation officer as soon as he has completed his invigorating week with the Roulement Infantry Company.

POWER SECTION
IC **Sgt Gaz Topps**

The JCUFI powermen arrived into theatre headed by **Sgt Gaz Topps** on 31 July with the main body ariving on 8 August. After a week's hand over from 3 (UK) DSR we started to get into the swing of things. **Sgt Gaz Topps** was immediately met with a big MT problem as Line Sect cannot get to grips with starting Rovers. **Cpl** 'Kaz' **Casswell** has sorted out the servicings for the next six months. He is also keeping spirits high with his stories of spears, sandles and sling shots from when he joined the army in 1682. We would also like to congratulate newly promoted **Sgt Andy** 'The coiled cobra' **McMullan** who has been posted to 1 (UK) ADSR. We will miss him in the bar giving it both barrels of 'Love on the Rocks'. Alarm clocks are now safe (well, down this neck of the woods anyway). We would also like to wish him, **Cindy**, and the kids the best of luck for the future.

Other personnel in the team include newly promoted **LCpl** 'Monty' **Learmonth** who is pulling his hair out with heliops. **Sig** 'Monica' (I promise to be ready in under two hours) **Marshall**, in charge of docs, has finally finished six months work in one day and is now to be found with a duster cleaning something. **Sig** 'Scotty' (I'll just get me head down for a couple of minutes) **Maskell** although in charge of Troop funds has more of a likeness to Lenny Mclean for his debt collecting skills. Finally **LCpl** ' Kev' (which ferry company can I use now) **Cranney** who is IC stores, 2IC heliops, and gene fixer extraordinaire and all round good egg. We are still waiting for the contract with Turners to be signed so that we can hand over responsibility for first and second line servicing and repair of the generators at the remote hilltop sites. Until then the routine of visiting all the sites every 10 days goes on (just to help **Gaz Topps** fulfil his

MERRY CHRISTMAS AND A HAPPY NEW YEAR - FROM THE EDITOR AND HIS STAFF

Mt Longdon Battlefield Tour
Clockwise from left: Sgt Gaz Topps, WO2 (USM) Weaver, SSgt Tony Black, Sgt Andy McMullen, Sgt Chris Crompton, Lt Harriet Hebblethwaite, Sgt Robbie Richardson, Sgt Mick Yendell

challenge of getting naked on every hilltop in the Falkland Islands).

The Section have various trips and outings planned for the future, as well as making best use of the facilities and all the various opportunities that the Islands have to offer. These include battlefield tours to Goose Green and Darwin, and out to Mount Longdon. These, as well as the odd sight seeing trip to smaller islands to see the varied wild life, should make for a very interesting tour.

INFORMATION TECHNOLOGY CELL - *By Cpl Johnston*
IC **SSgt Andy Roberts**

From the sunny plains of Germany we moved eight thousand miles to the land of hope and opportunity. It was here that Cpl 'Johno' Johnston straight in from 39 Inf Bde HQ & Sig Sqn and Cpl 'Dunc' Beacher were assigned to the 'TRI-SERVICE IT CELL'. Being the FNGs we were welcomed to the cell with an interesting first evening out, dressed in what was to be known as the FNG suits. This involved getting dressed up in a collection of computer equipment and being paraded around the many bars on MPA. Now having worked in the IT Cell for three weeks we have settled into doing things the half Army, half RAF way. Working really hard with no rest (Army way); eating and drinking lots which compensates rest (RAF way). It is a highly demanding job as there are no computer or software companies here to repair any equipment, so it is down to the professionalism of the personnel working in the IT Cell. We enjoy many social and sporting outings, having a team in the local bowling league, which get us out of the work place and creates teamwork and good morale. It just goes to show that the Army and RAF can work together.

1 (ROYAL BUCKINGHAMSHIRE YEOMANRY) SIGNAL SQUADRON (SPECIAL COMMUNICATIONS)

Sqn Comd **Maj Simon Gregory**
SSM **WO2 Dave Scott**

As these Notes go to press, the Squadron is gearing up to go to Denmark on Annual Camp, and the Ex Runnel Stone. This should have been the opportunity for the Squadron to train on the newly procured Project LOCK, but the inevitable delays have meant that this is not happening, and **WO2 (YofS) Dave Hughes** has had to put in some long nights re-working the plan. We have recently welcomed **Maj Simon Gregory**, who has taken over the Squadron and finds he has to work a little harder than he did at the sleepy hollow that is the LISA. One of his first duties was to bid farewell to **LCpl James** 'Smudge' **Smith** and **Cpl Simon** 'Hodge' **Hodgson**. We bid them Au Revoir, if not goodbye. We have also said farewell to **Sgt Aaron** 'Doobs' **Rodgers**, after a brief career in Special Communications. Congratulations to **SSgt (FofS) Ted Heath**, for passing EFP2 without too much complaining, and **Lt Andy Peploe** for passing JOTES. And last but by no means least, a big thank-you to **Sigs Clare Maslin** and **Karen Clarke** for organising a highly successful Squadron Barbeque at Bletchley Park in August.

SSgt Dean Poole tries to reassure the new Squadron Commander about his Command

ASSESSMENT COURSE

A number of willing Regular Tele Op (Tg) volunteers were put through their paces on the second Special Communications Assessment Course of the year. **Cpl Jase Broome** oversaw a slightly revised course with great success, and all the students worked, and played, very hard. We look forward to seeing six of them back very soon on the Special Comms Course. The Squadron is still recruiting, and the number of posts available is about to rise substantially in all trades. There are even going to be two IS Operator slots. Anyone interested in volunteering for the February Course should contact their YofS immediately, and get a copy of SOinC PD 206 in the post to the Squadron before the end of January.

OBUA TRAINING WEEKEND

In September the Squadron embarked on its now annual pilgrimage to Eastmere Village at STANTA for Urban Operations (as we understand it is now called) training. In spite of the fuel crisis all the vehicles made it up to Norfolk, aided by the ability of a MOD 90 to extract fuel from otherwise fuel-less petrol stations. The rain arrived as ordered at reveille the next morning but spirits remained high as everyone was put through their paces on a series of stands.

LCpl Gareth Clarke demonstrated 101 ways to cross barbed wire and **Cpl Pete Litchfield** caused havoc by 'wounding' Section Commanders at the critical moment on patrols. **WO2 (SSM) Dave Scott** and **LCpl Jim Holgate** reminded everyone of how to do a Section attack properly. Meanwhile, the airborne combo of **Cpl Sylvester Hack** and **LCpl Simon Roberts** conducted a guided tour of the sewers and rooftops on the confidence course. In the afternoon the training moved on to the real business of practising assaulting buildings, while the Squadron's patrols for Ex Runnel Stone were taken aside by **Lt Angus Evers** and **WO2 (SSM) Dave Scott** and sent out on CTRs of the village. **Sgt** 'Wes' **Wesseldine** and **Cpl Mark Gott** both managed to infiltrate the enemy positions, which were ably organised by **SSgt Dean Poole,** complete with his two boxer dogs.

After the patrols had reported back with their findings the Squadron formed up for an attack on Eastmere Village in the early hours of Sunday morning. After a simulated artillery bombardment and through a thick fog the Squadron stormed through the wire and took all their objectives within 90 minutes. Tea, medals and war stories followed before the only sleep of the weekend on the coach back to Bletchley. After this performance, the Danish Home Guard is in for a shock next month when the Squadron ventures out to Denmark!

LCpl Jeet Madoolal aims for the stars

NORTH ATLANTIC TREATY ORGANISATION SATELLITE GROUND TERMINAL F17

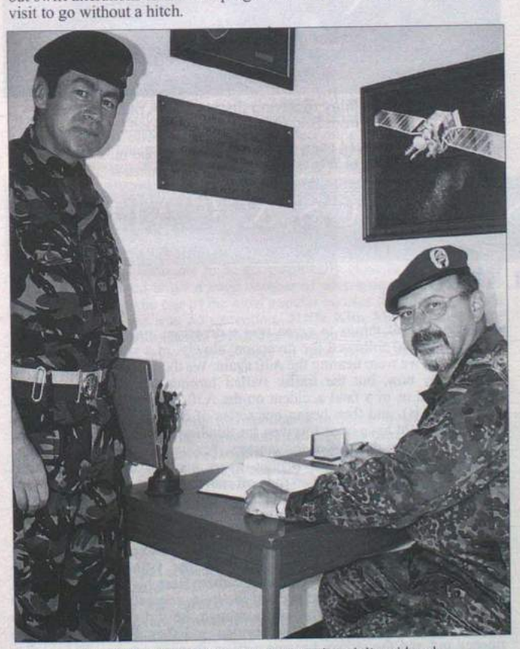
Station Comd **Maj (TOT) Paul Gaffney**

The past year at Balado Bridge has seen considerable change with a 60% turnover in station personnel. Nevertheless, with all hands to the pumps and a concerted effort by the techs on 'OJT', we have been able to keep our heads above water and maintain consistently good satellite communications for NATO - well done the lads!

The station bids farewell to **WO2 (FofS) Kevin Moir** who has been posted on promotion to 243 Sig Sqn to find out what hard work really is - we hope he doesn't miss his role as the resident 'Balado Bridge Social Worker'. We know how much he loved counselling our sometimes wayward lads - hope the hair grows back FOS! We also welcome his successor, **WO2 (FofS) Mick Cowie** who has hit the ground running and is already showing signs that he is keen to make his mark. Also congratulations to **Sgt Ian** 'pecs' **Fincham** on his recent promotion and to **Cpl Ian Kirkland** on his selection for promotion to Sergeant.

VISIT OF BRIGADIER GENERAL H. H. SCHULZ (Ge A) - DEPUTY CONTROLLER NACOSA

The relentless onslaught of visits to Balado Bridge continues. However, one of particular note that took place on 4 August, 2000 was the visit of **Brig Gen H. H. Schulz**, the current Deputy Controller of NACOSA. The General, accompanied by his 12 year old son **Fabian** and **Lt Col Bill White** R SIGNALS, arrived at the station 30 minutes earlier than expected, perhaps in an attempt to catch the unit on the hop. In normal Royal Signals tradition, however, the station was well prepared for such an eventuality and the Station Commander, **Maj Paul Gaffney**, was immediately on hand to greet our distinguished visitors. **Maj Gaffney** then adopted diversion tactics by escorting the General to the ceremonial signing of the visitors book while **SSgt Shaun May** carried out swift alterations to the visit programme to enable the remainder of the visit to go without a hitch.



Brig Gen Schulz (Ge A) signing the visitors' book, watched by Maj Paul Gaffney

After an administrative and technical presentation by **Maj Gaffney** and the Station Civilian Engineer **Mr Brian Johnson**, the General was given a guided tour of the station where he was able to meet the soldiers at their place of work. First on the list was **Sgt** 'Taff (multi tasking)' **Tanner** who, due to manning shortfalls, has been running the stores section in recent months. He impressed the General with his knowledge of the NATO Stores Accounting System but made it clear that he was glad that **Cpl Ian Kirkland**, a real stores accountant, had been posted in to take up the reins. The next species to be encountered by the General was IC Power Section, 'Cornish but from Gloucester' **Cpl Richie Kear**, who proudly showed off his two Makron 280KW Generators - 'They're great if you want to power up the village sir, but a bit of over the top if we use them only to power up the station.' The next port of call was the RADOME or 'white golf ball' to the uninitiated. Besides the 14metre dish, the RADOME also houses the station fitness equipment. Quite often the lads can be seen here enjoying a relaxing row or even a gentle climb on the stepper. However, their main aim is usually to get rid of those excess pounds or more importantly to make room for more pies and crisps - especially **Sgt Mark Robinson** who, despite being a fitness guru, still enjoys a good pasty or three. Next it was off to the control room where the General met 'bald is beautiful' **Sgt Craig McGowan, Sgt** 'Smudge' **Smith** and **Sgt Ewan Kinnear** who despite being a ginger assures us he's still loved by the ladies - who are you kidding **Ewan**? Then it was on the bus off the bus for the usual photo call where **Cpl Phil Gavan** impressed everyone with his expertise as a photographer.

Brig Gen H. H. Schulz and Lt Col Bill White pictured with Maj Paul Gaffney and Balado Bridge personnel

The MOD Police complete with guard dog, civilian staff and Fabian Schulz get in on the act for the Station photo

He even got away with man handling the General to get the best poses - lucky man **Phil**, by the glares you were getting form **Maj Gaffney** we thought you were going to end up in a cell for the weekend.

After a wonderful Mediterranean Lunch professionally prepared by our very own multi-talented **Jean Smith,** whose main role is the 'station domestic engineer', the General was presented with a framed print of 'Balado at Dusk' to commemorate his visit to the unit.

Maj Gaffney presenting a picture of Balado Bridge to Brig Gen Shulz as a memento of his visit

The visit of **Gen Schulz** was an ideal opportunity for the presentation of the LS&GC Medal to **Sgt** 'Taff' **Tanner** who, despite being amazed that he got away with 15 years of undetected crime, was thrilled at the prospect of having his medal presented to him by a senior German General.

Sgt 'Taff' Tanner receives his LS&GC medal from Brig Gen Schulz (Ge A)

Sgt Tanner's wife **Jo** deserves much of the credit for keeping him in line.

Sgt Tanner and his wife Jo after he had received his LS&GC medal from Brig Gen Schulz (Ge A)

Finally the General gave the unit a short brief on the future of NATO Communications after which he presented the station with the NACOSA plaque.

Maj Gaffney receiving the NACOSA plaque from Brig Gen Schulz (Ge A)

The General thanked everyone for an informative and interesting visit and then he and **Lt Col White** said their farewell.

NEWS FROM TROOPS, UOTCS & CADETS

600 SIGNAL TROOP

Tp OC **Maj Ron Kirkwood**

Life has been busy at 600 Sig Tp as of late, well apart from PCGC, CDPT and CDA, with members of RSSST deploying to theatre every five minutes to assist with the apparent 'Non Onerous' commercialisation project. Congratulations go to **Sgt Dave Doody** who seems to have acquired dual Kosovan nationality. Congratulations also need to go to two other members of the Troop, **WO1 (Yofs) Steve Holt** who managed to hide his Macam accent and come off the commissioning board and also to **WO2 (FofS) Bob Wymer** who has achieved his life long ambition and gained his NVQ level 5 in diplomacy. We also wish **Bob** good luck in his forth-coming marriage (third time lucky), and also best wishes go to **SSgt Chris Gouldson** (second time lucky). They are both tying the knot in 2001. **Bob** is getting married in Norway and has kindly offered to charter a plane to fly his friends over.

EXERCISE STEEL DRAGON

Ex Steel Dragon was an adventurous training exercise for members of 600 Sig Tp, and affiliated members in the Hub taking place around the rich training areas of Penhale near Newquay, Cornwall. Nine people participated with more people from the Troop promising to try and get down some time during the week (It was amazing that those that did eventually turn up, managed to miss the more physical events and turn up for the Brewery Trip). The group was accommodated at Penhale Training Camp, three miles west of Newquay. The week's events consisted of walking, biking, orienteering, clay pigeon shooting and team building events (all taking place in various drinking establishments).

MOUNTAIN BIKING - *by Cpl Jase Wells.*

Monday morning we set out for the start point, about an hour away from Penhale at Poley's Bridge. Little did we know what the Dept of Transport had in store for us.

The first sign of things to come was a diversion sign on the A30. We turned right and followed the diversion, slowly, in a very long queue of traffic, until we were nearing the A30 again. We thought we had passed the problem by now, but the traffic started turning around and a passing motorist told us of a fatal accident on the A30. We followed suit (turned around that is), and then began our series of brushes with Road Closed signs. We could have been forgiven for thinking that Cornwall was being blocked off from the rest of the country. Anyway, two and a half hours later, we arrived at Poley's Bridge. Tyres pumped up and with seats adjusted the Magnificent Seven rode off into the forest. The first hour and a half was very picturesque, with verdant woodland on both sides of the 'Camel Trail', and a meandering stream on the right. We stopped for a brief lunch break at a trailside cafe, buying drinks and sneaking down our packed meals under the beady eyes of the waitress. A steam train momentarily distracted our attention, with the GSM, **WO1 Charlie** 'Flash' **Dubique** rushing to extract his camera from his bag. He managed to get a glorious photo of the back of the train, somewhat more than 200 metres away (but, rather worryingly though, he did manage to get the number). As we approached Wadebridge and then Padstow, the Trail opened out and the stream became a river, then an estuary. The tourists were out in force, getting in our way as only tourists do. Half an hour later we were sitting outside a pub in Padstow, supping ale, then home for tea, biscuits and more ale.

WALKING - *by Cpl Tony Booth*

On the second day of the adventure training, we set off on our little coastal jaunt from Portreath. **Cpl Tony Booth** suffering from a hangover whined for the first hour, until the fresh air helped him remove the contents of his stomach. **SSgt Gaz Walton, SSgt Kev Wosika** and **Cpl Phil Eaves** stormed off, as if on an SAS training mission. The GSM, **WO1 Charlie** 'David Bailey' **Dubique** snapped away on his camera at

everything that moved, which didn't include **Ian Munford** whose leisurely pace seemed to entail him going backwards. What started as a gentle coastal stroll turned into a mountaineering expedition. The gentle winding paths turned into steep gradients, where even the mountain goats struggled! Still, morale was high as we accidentally bumped into a public house. **SSgt Ian Munford** enjoyed a light and healthy meal of chips, choccy bar, two pints of cider and a cigar. Fuelled up we set off again, **Cpl Tony Booth** suffering from blisters was 'forced' to stop at another pub, gallantly supported by **SSgt Ian Munford** and **WO1 (GSM) Charlie Dubique. SSgt Kev Wosika, SSgt (FofS) Gaz Walton** and **Cpl Phil Eaves** enthusiastically sped off for the final three-mile dash. It isn't sure if they actually saw any of the coastal beauty, but did manage to set a new land speed record.

ORIENTEERING - *by Cpl Phil Eaves.*

On the third day, the morning dawned dark and misty. From within this mist **SSgt Kev Wosika** emerged having set out the orienteering course, soaking wet and laughing ominously to himself. As things turned out he had decided that the training area wasn't challenging enough, so hiding the markers would just add to the fun. Luckily though the mist cleared just before the event started, although this made absolutely no difference to some of the participants. First out of the blocks was **Cpl Phil Eaves** who shot away from the start point like a startled rabbit, next to go was **Cpl Jase Wells**, who sauntered away with back pack on looking less than enthusiastic. It was expected to run past one of the check points and find **Jase** casually seated reading his book, whilst enjoying a fine wine, but these fears were alleviated as instead of doing this **Jase** thought he would get lost instead. The remaining contestants went, some running, others walking leaving **Kev Wosika** at the finish point still chuckling to himself. About an hour later, **Phil Eaves** stumbled over the line, ten markers to the good, in a reasonably quick-time, closely followed by **SSgt (FofS) Kev (GPS) Peters**, again ten markers to the good. The rest then stumbled in with **SSgt Ian Munford**, the only other entrant to find all ten. **SSgt (FofS) Gaz** 'I'm a Corp Orienteerer' **Walton** managed to only find four, whilst the GSM, **WO1 Charlie Dubique** and **Sgt Paul Green** both came in together having managed to only find two, chuntering to anyone who would listen (which wasn't many) about how the markers had obviously been moved! The results of this little competition was: **SSgt (FofS) Kev Peters, SSgt Ian** 'I'll follow Kev around' **Munford, Cpl Phil Eaves**. The only thing remaining was to partake in the après orienteering BBQ, the only surprising thing that happened here was the fact that the GSM found it!

CLAY PIGEON SHOOTING

It was decided to take advantage of the Clay Pigeon range at Penhale and see who was the exercise hot shot. The event is a lot harder than it looks, each person had 10 clays to try and hit, with most people having 10 rounds apart from **SSgt Ian** 'Win at all costs' **Munford** who with pride at stake, thought he would use eleven. He eventually tied for first place with **Cpl Phil Eaves, Phil** actually hit one more than **Ian**, but **Ian** managed to talk (or should that be bore!) him round to a tie. The most notable shooter was **SSgt Kev Wosika** who after much bragging and promises came in with a pretty credible 0 out of 10, but managed to get 10 out of 10 for the excuses round, the best one being 'My fingers were cold!' Results were:

1st	SSgt Ian Munford & Cpl Phil Eaves	7/10
3rd	WO1 (GSM) Charlie Dubique	6/10
4th	SSgt Kev Peters, Cpl Tony Booth & Cpl Jase Wells	5/10
7th	SSgt Gaz (I'm a Corp Clay Pigeon Shooter) Walton	4/10
8th	Sgt Paul Green	2/10
Last	SSgt Kev Wosika	0/10

All in all a good week was had by all, with those that attended already looking forward to next years event, which I believe **SSgt (FofS) Gaz Walton** has volunteered to organise.

SOUTHAMPTON UNIVERSITY OFFICER TRAINING CORPS

CO **Lt Col A. M. Abraham 9/12 L MBE**
PSI Signals **WO2 (SSM) R. J. Pye**
Tp Comd Sarawak Tp **JUO Ross Anderson**

Formed originally in 1902 with 20 students from Hartley University College who joined the 2nd Volunteer Battalion of the Hampshire Regiment as the College Company, finally becoming a unit in its own right in 1937. The Unit currently recruits from a number of Universities in the Southampton, Winchester, Bournemouth and Portsmouth areas with a very healthy strength of nearly 200. Within the Unit a Signals Troop has been formed which provides Special to Arm Training to its members, enabling it to support the Unit during its exercises.

UOTC SIGNALS COURSE BLANDFORD SUMMER 2000

Southampton is fortunate to be geographically close to Blandford and has always managed to get a good number of people on the OTC Signals Course. This has to be one of the most popular courses that Officer Cadets attend and this year was no exception. **JUOs Kim Mc Murray, Kate Maher, John Debenham** and **OCdt Jez Vaughan** all thoroughly enjoyed their time and are now keen to pass on their new skills to others at Southampton.

SUMMER CAMP 2000

This year's Summer Camp was conducted in South Wales with a wide range of military and adventurous activities. At this time the Troop was commanded by **2Lt Victoria Deakin** (now at Sandhurst) with **JUO Will Taylor** (due to go to Sandhurst in January 2001) as Troop Sergeant and **JUO Gemma Sayer** as Tp JUO. Starting with Platoon Level tactics on Templeton Training Area then building up to Company Level Tactics. A good supply of blanks ensured that all had an enjoyable time with everyone getting a chance to take part in the HQ and Platoon roles. For the Troop it was the first time that they had been both signalling and part of fighting patrols. It was soon apparent to all that comms are vital especially in a fast moving battle.

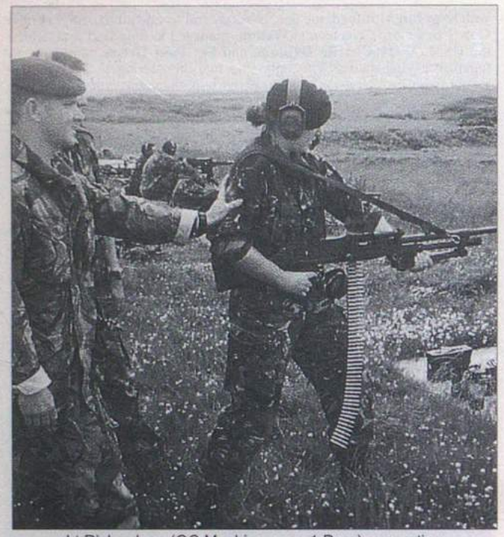
The next phase was cloaked in secrecy, however, some managed to work out that something out of the ordinary was going to happen. We were not disappointed: the next few days were an escape and evasion exercise starting off at Dixies Corner on Sennybridge Training Area, the usual tactics of hoods, plastic cuffs and loads of noise soon had everyone in the spirit of the day. As comms were a key element of the exercise many of the Troop were quickly released to allow them to take up comms roles. I knew there was an advantage to being in Sarawak. We were dispersed in small teams all over the Sennybridge Area and the Black Mountains. This included RRBs on the top of the Pen y Fan and other peaks to provide the safety net to cover over 200 square kilometres of mountainous ground. The comms worked well, and morale in the Troop had risen to an all-time high, we were possibly the only Special to Arm Troop who were actually employed in their role.

The camp then moved to a Range package in Castlemartin, Pembrokeshire. This year most of the Troop had managed to qualify for field firing; Castlemartin Ranges were an ideal location offering opportunities for Stages 4 and 5. 1 Para Heavy Machine Gun PI had arrived with a couple of 50 Cals and SF GPMGs and enough ammo to fight a large war. For many this was one of the highlights of the camp. Everyone had what could only be described as a blast with both types of weapons. **OCdt Pete Mitchener** just could not get enough of firing the support weapons.

OCdt Pete (get me more ammo) Mitchener firing the 50 Cal and OCdt Jez (up a bit) Vaughan keeping him on target

OCdts Katie Mayer, Kim McMurray and **Pippa Havard-Davies** really enjoyed it and some of them had the chance to fire the GPMG from the hip, carefully assisted by the 1 Para guys who had never seen women firing from the hip before.

Should you make a purchase as the result of seeing an advert in *The WIRE*
please let them know that you saw their advert in your Corps Magazine



Lt Richardson (OC Machine guns 1 Para) supporting
OCdt Jess Lewin in firing GMPG from the hip

This was quickly followed by live section attacks, which were probably more nerve-racking for the staff than the Officer Cadets. With adrenaline pumping and what was for some total exhilaration and for others almost complete terror, sections were sent down the range. In ten minutes many had found a whole new level of trust in those around them. There is nothing like having your mate's muzzle a few feet from your head with a live round up the spout, to focus the mind. The camp ended with several days' adventure training, including paint balling, horse riding, cart racing and mountain walking all of which was great despite the weather trying to spoil it. However, the Range days were still the topic of conversation with who nearly shot who including a civilian white van that wandered onto the Range, and how many rounds each managed to get down the Range.

The summer months were filled with expeditions these were: walking in the Canadian Rockies & Nepal, SCUBA diving in Jordan and sailing around UK waters. Sarawak took on the Canada expedition, which with some assistance from the Corps was a great success. **JUO Will Taylor** qualified as the JSMEL with less than a month to departure and **WO2 (SSM) Bob Pye** as the ML. .

JUO Gemma Sayer and OCdt Merry Ison, descending from the 9000ft peak of Mt Edith Alberta Canada

Are you a satisfied soldier?
If you want to know more about the Satisfied Soldier Scheme get in contact with your Squadron Office for more details.

JUO Gemma Sayer, OCdt Helen Farmer, Georgina Loader and Danny Robinson on lower slopes of Sulphur Mountain discovering that if you go down to the woods today you had better beware for every bear etc

Canadian Expedition in Healy Pass
on the boarder with Alberta and British Columbia.
Back Row (L-R): OCdt's Ed Jagger, Helen Farmer, Danny Robinson, Tom Usher, 2Lt Andy Grimditch, OCdt Georgina Loader, JUO (JSMEL) Will Taylor, OCdt Merry Ison, JUO Gemma Sayer
Front Row (L-R): OCdt Neil Stone W02 (SSM) Bob Pye, OCdt James Bossi

The 12 strong team spent nearly three weeks in the Rockies conquering many of the peaks and trails around Banff, culminating in a 5-day unsupported trek 80-miles up to Lake Louise. This trek was great and dramatic enough for even the most seasoned of our mountain people, made all the more impressive when on the third night there was an unexpected snowfall and this created a whole new set of challenges. The new Academic Year has started well with a larger Troop than last year and plans to visit Signals units in the South and mount expeditions to even more challenging locations next Summer. Good luck to those who recently joined Sandhurst from SUOTC: **Vicky Deakin, Mike Brennan, Andy Chisholm, Chris Head, Georgina Loader, Adam Wakeham**, and **Jeremy Osborne**, and to **Will Taylor, Chris Jones** and **Jim Stuart** who join in January 2001.

ARMY CADET FORCE

CLIMBING THE ARMY LADDER

Nottingham Territorials on maneuvers in Scotland had support from the very top as they climbed the military ladder. Fifty members of the Triumph Road-based 87 Sig Sqn are currently on annual exercise, in Edinburgh. The high-tech communications troops began their two weeks of training with a grueling battery of military tests and assault courses.

Climbing the Ladder
Signal Officer in Chief Brig Cedric Burton with
Cpl Heather Blair (a student nurse from Bulwell,
and Sgt Amanda Jones (a civil servant from Thorneywood)

There to cheer them over the final rope ladder hurdle was the Signal Officer in Chief of Britain's 13,000 Regular and Territorial Army (TA) Royal Signals. **Brig Cedric Burton** said his job included encouraging young men and women to climb the army career ladder too. He said that many of the city's Territorials worked for civilian firms at the cutting edge of communications technology and that the expertise they brought was vital. He also said, 'The TA gave them a unique chance to develop their technological skills and ideas. That, along with the army's management and leadership training, made them even more valuable to their full-time employers.' **Brig Burton** added, 'We are still only on the brink of the information technology (IT) revolution - the future of military communications is going to be extraordinary. Nottingham's Signallers are playing a crucial role in helping us develop systems for the army of the future. I need each one of the them to reach their full potential and get the very most out of their TA service.'

Cpl Heather Blair (27), from Bulwell said, 'Our Squadron is a part of the UK's defence. We are also on call to help the civil authorities during emergencies like major flooding. We also increase people's skills levels in things ranging from IT and HGV driving, to catering and stores management. Local business and the army both benefit.'

CADET SIGNALLING - VERY MUCH ALIVE AND KICKING! REPORT ON ACF/CCF SIGNALLING ACTIVITY - SUMMER 2000

ACF & CCF Signalling remains alive and healthy at the end of the 2000 Summer Camp season. Several ACF counties included signalling cadres amongst their camp activities. Cornwall, Cumbria, Essex, Hertfordshire, Hampshire & The Isle of Wight and South West London have run signalling courses. Cornwall ACF ran a Radio Users course at Okehampton at which eighteen Cadets were successful, Cumbria ACF at Swynnerton held a 'crossed flags' course with 13 successes and a Cadet who passed the Instructor's test. Essex ACF at Ripon also passed out Cadets at the 'crossed flags' level. Hertfordshire ACF at Leek had 20 'Crossed flags' passes. Hampshire & The Isle of Wight ACF at Wretham, Norfolk ran two courses on successive weeks with a total of 41 Cadets gaining 'Crossed flags' and two Cadets Radio Users badges. All Cadet units have commented on the very good level of support received in running these courses, assistance with testing and the loan of kit received from the Regular Army sponsor units, Royal School of Signals, University OTC and the Territorial Army.

The level of Cadets attending all the Signals courses held both during the Easter and Summer school holidays at the Royal School of Signals (RSS) and the enthusiasm of these Cadets remained high. For the first time, the Advanced Course held during the ACF summer camp season, included a four-hour HF radio competition on 17 August. Using the ACF I CCF National Radio Network (NRN) frequencies, five teams of Cadets at the RSS competed against Cadets at the camp from Devon ACF, Hampshire & Isle of Wight ACF, Warwickshire ACF and S Yorks & Humberside operated from their Strafford and Hull bases respectively. Several adults assisted in making up the number of contactable locations. Ironically the winner, declared by **Maj Mike Vokes** the organiser, was a sole Cadet operating from Dollar Academy CCF in Scotland with an amazing 37 contacts. In the runners-up position was the team of two Cadets from 'Z' Company, Hampshire & The Isle of Wight ACF with 33 contacts. In addition to the competition held on the NRN, daily activity during this period occurred from dawn until after dusk with units using the allotted frequencies for safety nets, rear links and Company exercises, in addition to giving demonstrations to passing dignitaries visiting the camps. For the first time the Net Monitors produced a schedule of ACF signalling units with their locations and dates at camp. A daily schedule of listening watches by the Net Monitors or their cadets was maintained, which guaranteed that when cadets from other units were available to try out the NRN, it was most likely that they would make a contact without having to make prior arrangements. This worked extremely well and the listening watches maintained especially by Essex ACF and Hertfordshire ACF were much appreciated by other units.

ACF Unit SignalsOfficers on an upgrading course at Blandford

New Recruit?
The first visitor to Project Millicom with Maj Mike Vokes

It is hoped to repeat these exercises again next year, when it is anticipated that more ACF units can be persuaded to drive the cobwebs out of their Unit or camp locations, and put the PRC 320 radio to use.

For the immediate future, regular schedules are maintained by some stations on Monday and Thursday evenings at 2000hrs on the calling frequency. (Regular/TA Units contact the Cadet Forces Signals Advisor 0208 654 2582 for details) It is hoped to extend this arrangement to each weekday at 2000hrs, if sufficient interest is forthcoming to make it viable. Saturdays between 1200 and 1500hrs is another good time to make contacts. The Christmas 24 hour competition 'Exercise Christmas Cracker' is great fun for cadets and will take place on 2/3 December this year. Participation over the full 24 hour period is not a prerequirement and units might prefer just to take part for part of the period if they have insufficient trained cadets to operate for the full 24 hours. More details about all these activities and assistance are always available from the NRN monitors: **Capt Mike Buckley** 0208 654 2582, **2Lt John Wresdell** 01377 254441 or **Maj Mike Vokes** 02380 262551.

SPORT

BADMINTON

The Annual Royal Signals Badminton Tournament took place during the period 11-13 October 2000, at Azimghur Barracks, Colerne. The attendance at this year's tournament was up on last year but not at the numbers expected in previous years due to operational commitments. A total of eight units were represented of which two managed to bring an all-female team in addition to an all-male team. Those individuals that attended the tournament thoroughly enjoyed the highly competitive spirit that was evident throughout the various competitions. The players presented a gift to the Corps Secretary, **Capt Terry Inman,** who ran the tournament for his last time before leaving the services. His successor, **Capt Dave Duggan**, invited him to return as a guest player in the veteran's tournament next year in order to ensure that the trophy is returned, (just in case he thinks that it his is personal property, having won it for the last four years). Badminton in the Corps has been very successful over the last few years, the numbers playing in various units has trebled and reached a peak last year with over 200 players. The Corps was represented in the Army Finals by no less than six units out of the ten finalists and the Corps Team won the Inter-Corps Championships for the first time in 17 years. Any individuals in the Corps who play badminton and have not yet made themselves known, please contact **Capt Duggan.** Tel: 949142666.The results of the Corps Tournament were as follows:

Men's Singles Winner	**Sgt Merchant**	DSSS, Chicksands
Women's Singles Winner	**Cpl McTurk**	7 Armd Bde
Unit Team Winners		11 Sig Regt

ROYAL SIGNALS CC 2000 SEASON REPORT

Following a rather up and down season in 1999 the Corps side approached the 2000 season with determination and a resolve to improve on the 3rd place gained in the Grouse Merit table. Unfortunately the early signs did not bode well as the planned early season mini-tour to Somerset was cancelled due to lack of availability. Lack of availability had been our problem in the 1999 season and it was disappointing to see it raise its head again so quickly. However, the pre-season indoor nets sessions had gone well and with warm-up matches against the Chairman's XI, RMAS CC and RM CC providing early tests the first Merit Table match away to the AGC CC was upon us. A very poor wicket at Worthy Down saw the AGC in early trouble **Cpl** 'Judge' **Smith** taking 4 for 13 and **2Lt Alex Senneck** 3 for 16. All out for 72 the AGC never looked like wresting the initiative back although the difficult and unpredictable pitch required patience and **SSgt Daz Winfield** with 21 and **LCpl Steve Fox** with 13 n.o. saw us home to a five wicket victory. One down seven to go!

The Infantry CC are difficult opposition, and can field almost a full side of Army and CS players. Often as not however, they will have difficulties in getting 11 players to the ground and this proved to be the case when only ten men appeared. Put in to bat the Corps made steady progress to 182 all out in breezy, overcast conditions. **LCpl Ford** with 61,**WO2 Gardner** with 33 and **2Lt Senneck** with 35 made the main contributions. The Infantry had roped in a spectator by the time it came for them to bat, but to no avail with **Sgt Glean** 3 for 38 and **2Lt Senneck** 3 for 35 tearing in from either end. Although several players made a start none got beyond 25 and they were reduced to 132 all out in 39 overs, another solid performance and a win by 50 runs. The RAC CC also failed to field a full side on their visit to the Blandford Oval, which had recently been equipped with a new £5000 electronic scoreboard. The board did not require the third digit on the total as they were bowled out for 98, **LCpl Fox** 3 for 18. **WO2 Gardner** and **SSgt Winfield** made short work of the target reaching 99 without loss, a win by ten wickets.

Our forth match in the merit table was the best of the season. The RE CC came to Blandford on a sunny, hot day. They won the toss and elected to bat on an excellent wicket. Batting was to dominate the match as they raced to 241 for 4 in their 50 overs. This could have been more but for some excellent fielding by the Corps side. Following their undefeated opening stand against the RAC CC **WO2 Gardner** and **SSgt Winfield** made a positive start and grew in confidence as stroke play became the order of the day. The first wicket fell in the 42nd over with the score on 211. As so often happens the second member of the pair fell soon after but the side was seen home by **LCpl Ford** with nine balls to spare, **WO2 Gardner** 130, **SSgt Winfield** 62, a win by eight wickets. Then came the crunch match away against last year's winners the REME CC. Put in to bat the REME CC made slow progress early on and as they attempted to increase the rate wickets began to tumble. **Sgt Glean**, held back by the Skipper and brought on as sixth bowler, tore through the REME side finishing with career best figures of 7 for 36. Nevertheless the REME took the field confident that the overcast thundery and humid conditions would help them whittle through our line up. Yet again the Corps openers got of to a good start putting on 56 for the first wicket. **SSgt Winfield** went on to make 62 and was joined by **2Lt Alex Senneck** who made 58 n.o. The now modest looking target was achieved with 15 overs to spare with seven wickets in hand. Although some excellent individual performances had contributed to the result the dynamic team fielding and high morale in the changing room had also played its part. Five down, three to go.

The Corps side had been blessed with fine weather all season and it continued as we entered the final week of fixtures. Three home games on the 18, 20 and 21 of July were all played in fine weather and hanging baskets and ice-cream salesmen could be found on the pavilion. The RA CC arrived with ten men and was put into bat, and was seen off for 119. A rare failure from **WO2 Gardner** (14) allowed **LCpl Ford** (44 n.o.) to build a partnership with **SSgt Winfield** (56 n.o.) and saw us home to a nine-wicket victory. With the RLC CC and the AMS CC sides left, the Corps was in a strong position to take the title for the first time in six years. When news broke of the REME CC defeat by the Infantry, morale shot sky high as we realised that only one win from the two fixtures was required. The skipper proved lucky again when he won the flip of the coin and put the RLC in to bat. Bowling was tight and fielding tighter and they were restricted to 154 for 8 in their 50 overs. **Sgt Glean** 4 for 24. Solid contributions from the top of the batting order saw the Signals reach their target in 32 overs for three wickets. **WO2 Gardner** 38, **LCpl Ford** 53 n.o., **2Lt Senneck** 31. The last match was against the AMS CC probably the weakest side in the competition. They elected to bat and slumped to 82 all out. Perhaps it was fate but the top three in our order were all to fail together for the first time, all three out for a combined total of 12. At 24 for 3 we suffered a slight wobble but **2Lt Senneck** (44 n.o.) and Sig Houghton (23 n.o.) steadied things up and we reached the target of 83 without further loss. Eight from eight.

What a season! New Chairman in the form of **Lt Col R. G. Nicholson**, new Vice-Chairman - **Maj Dave Whimpenny**, new skipper **WO2 (Supervisor Radio) Paul Gardner** and shiny new trophy in the pavilion. Bowler of the season, which is awarded on averages, went to **2Lt Alex Senneck**. Batsman of the season also on averages to **LCpl Keith Ford** and Player of the year to **SSgt Daz Winfield** who, along with the skipper, gave us such a great start in each innings and whose fielding was exemplary. 'On on' to 2001, defending the Grouse Trophy and the prospect of a tour in November to Australia!

GOLF

R SIGNALS (GERMANY) AUTUMN GOLF MEETING – *by Maj N. H. Colville*

The R SIGNALS (Germany) Autumn Golf Meeting was held at RAFG Bruggen Golf Course on 7-8 September 2000, attracting 45 players from BFG. The course was in excellent condition, the weather pleasant and some excellent golf was played over the two days. The major competitions contested were primarily by members of the Corps Squad and it was fitting that the competition's best golfer, **Sgt Brian Turner**, won the 36-Hole Stableford Competition. The other major individual competitions, the 18 hole Scratch and Handicap were won by **LCpl Kerr Greenham** and **WO2 (Fo S) Da e** 'Bandit' **Perr** , who scored a remarkable net 63; consequently, he was reduced to a man's handicap.

The Captain's Cup, donated by the **Sgt Turner**, is competed for by players over the handicap of 18 and was won comfortably by **Cpl Jason Cla ton**. The Corps Chairman, **Brig Da id McDo all** and **Mr Terr Marsh** ('Boggy' to his friends) won the final competition, the Regimental Greensome. Eyebrows were raised at their score of 40 points but 'Boggy' assured everyone that the Brigadier had played half of the shots. Sounds like a job for the Handicap Committee.

The Meeting produced a number of high quality rounds, notably from **Cpls Craig Bo man** and **Ian** 'Hartley' **Hare** and **LCpls Nige Brennan** and **Kerr Greenham** Other individual performances highlighted a number of players who may enter the Corps Squad next year and the future of Corps golf in Germany looks bright.

Back row (L-R): LCpl Nige Brennan, Maj Gus Colville (Secretary), Mr Terry Marsh
Front row (L-R): LCpl Kerry Greenham, Sgt Brian Turner, Brig David McDowall (Chairman), SSgt (FofS) Dave Perry

HOCKEY

THE BIG APPLE INTERNATIONAL HOCKEY TOURNAMENT - NEW YORK

by Capt Ruth MacGill, 654 Sqn, 4 Regt AAC, Wattisham.

Despite having represented the Army side for several seasons, this was the first chance for me to go on tour with the Army Ladies Hockey Team. New York seemed a highly appealing location especially in the Summer and with a few inviting days of R & R at the end, it was not an opportunity that I was going to miss.

With only one day to acclimatise to the stifling heat and humidity, we opened the Ladies competition with a resounding 5-0 victory against the Dutch team KLM However, our afternoon game proved to be a little tougher against a young and fit side from the University of Toronto. We conceded a couple of goals by half -time, but a spirited fight back gave us a deserved draw and a point. Our next game was scheduled for a 0700hrs start the next morning (a cool time of day) but breakfast was at 0530hrs! We lost 2 -1 to the Washington Shredders (the eventual winners) and our performance definitely confirmed that we are a not a morning side. Our second game of the day was versus Second Effort whom we beat 2-1 in a hard fought contest in 94% humidity and 88 0C. Post match rehydration certainly brings on a new meaning, with full water bottles being drunk in seconds. Rejuvenated from almost a day's rest, our fifth game was against the host side, the New York Islanders. They were not as strong as the other American teams and an easy 4-0 victory was earned. Our last opponents were the University of Alberta and a win would see us into the final play off. It was a disappointing game for us despite drawing 1-1 with only five minutes to play, they scored two outstanding goals which left us in third position overall.

R&R consisted of a visit to the US Tennis Open and the famous tourist attractions - Statue of Liberty, the Empire State Building and Broadway. A fantastic tour with some great games and tournament atmosphere. We will now hit the new season a better and stronger side - lookout the RAF and Royal Navy?

WEB SITE

The club now owns a web site that will become a new medium for club members. The Web site already features the Offshore Section and dates for next year. The URL is http://www.bigfoot.com/~royalsignalssyc (The ~ (tilda character) is above the # key). This shortcut will take you to the corps web site that is hosted at the Corps and Museum location on the web. Once there, you will see the full details of the current committee, see the calendar for 2001, and you will be able to E-mail any member of the committee.

OFFSHORE SAILING 2000 REVIEW

There have been many events in the calendar this year, which have led to the qualification of two coastal skippers, one day skipper, and in the region of 40 Competent Crew. The most notable event was the Corps Sail Training week in Germany/Denmark, in which eight teams raced from Kiel, around Denmark, and back to Kiel. Most of those taking part had never sailed before, and all walked away with the Competent Crew certificate, racing experience, and fantastic, but occasionally cloudy memories of late nights in Denmark.

Winners of the STW 2000 – "The loaded Crew"
(L-R): Brig Cook, Maj Gray, Maj Whitehead, Capt Graham, Capt Thirsk, Maj Stringer, Lt Col Ewell

OFFSHORE MEETS 2001

NEW NAJAD DELIVERY MARCH 2001 - BKYC (Kiel, Germany), will be accepting their new fleet of ten Najad 331 in March 2001. Contact **Ian Gray** on Blandford Mil 2261 (Civil 01258 48 2261, Fax 2668) to be part of the crew of six for this delivery.

SAIL TRAINING WEEK UK – Monday 23- Sunday 29 April 2001. The calendar is now pretty much fixed. The year will start with a Sail Training Week between the 23-29 April 2001. It is expected that six JSASTC Victoria 34's will be allocated from Joint Services, and both Corps Yachts will also be present. The week will provide a build up to the year's events, and will move from Gosport to Cowes, Weymouth to Dartmouth, back to Yarmouth and Southampton, before returning to Gosport on the Sunday. The cost per yacht for entering the event is likely to be £350 per boat, which will include all berthing, food, a meal on the Friday night at Royal Solent Yacht Club. Contact **Ian Gray** on Blandford Mil 2261 (Civil 01258 48 2261, Fax 2668). It is likely that this event will be used as a selection for next year's Corps Offshore Racing Team.

SAIL TRAINING WEEK GERMANY – Sunday 15 – Wednesday 25 July 2001. The well renowned Germany and Denmark sail training week will comprise of a normal sail from Kiel through Sondeborg to Horsens and will provide five days of Competent Crew Course and five days of racing. Ten of the new Najad 331s will be available for the event, and the committee boat *Quicksilver* will also be sailed. Contact **Ian Blower** on Herford Mil 3212 (Civil 0049 5221 995 3212)

TRAINING AND QUALIFICATION - If you want to either improve your sailing, or become more qualified, then contact the Offshore Training Secretary, **Maj Ian Gray**. If you have a qualification, and want to put it onto the Corps Database, then either E-mail **Ian Gray**, Fax, or speak.

CORPS YACHTS - The Corps still owns three Corps Yachts; *Quicksilver* which is based in Kiel, Germany, *Skywave* and *Petasus* which are in Gosport. Any currently serving or Ex-R SIGNALS person may charter the yacht as long as they have a minimum qualification of Day Skipper. More details about booking are on the Internet, but contact either of the Yacht Masters for more information.

DINGHY

ROYAL SIGNALS KEELBOAT REGATTA
SEA VIEW 30/31 MAY 2000

This year's Sea View Regatta attracted 13 entries, much better than in recent years. Two of the entries were from retired members with a mix of serving and retired crew. A pleasing number of newcomers to the Mermaids were in evidence and those from the offshore discipline were especially welcome to join the real sailors. It soon became obvious that as usual the battle for first place would be between **Maj David Ellis** and **Mr (ex-Maj) George Odling**, with **David** initially having the upper hand and carrying a slight lead into the second day. **George** continued to sail consistently well on Day Two, whereas **David** was more erratic. At the end of the day **George** took the series with 12 points to **David's** 14. A similar close battle was being fought for third place between **Sgt Craig Avey-Hebditch** and **Mr (ex Cpl) Phil Lever, Craig** eventually winning the contest with 20 points to **Phil's** 21. **Maj Fred Calvert** on 34 points was fifth and **LCpl Stu Southan** with a very inexperienced crew was sixth with 40 points. The weather was not too unkind and the sailing was enjoyable throughout. A pleasant dinner was held in the clubhouse at the end of the first day. The prizes were presented by **Debbie Whitehead,** wife of our Hon Sec.

GLOVER CUP - SEAVIEW 1/2 JUNE 2000

The following crews were selected to represent the Corps in the annual triangular contest against the RA and RE Yacht clubs for the Glover Cup: **Maj David Ellis** with **Maj Tim Wadey** and **Cpl John Lee; Maj Fred Calvert** with **Maj Mark Butler** and **Sgt Martin Kendall; Sgt Craig Avey-Hebditch** with **Cpl Hans Neilson** and **Cpl Windy Gale; LCpl Stu Southan** with **Maj Trevor Bradley** and **Maj Keith Whitehead**

The competition turned out to be the closest ever, with four of the six races in the series being tied on points and decided on the new rule which gives victory to the team that does not have the leading boat! The first race between the Corps and RA produced a protest against **Maj Fred Culvert** which was heard after racing and long into the evening. **Fred** put up a strong defence and the protest was not upheld, leaving the Corps in a good position overnight with three wins to the RA's 1 and RE's none. Race 5 between the Corps and the RA was the cause of much controversy as the RE committee changed the course during the start sequence resulting in chaos and heated argument over which way one of the marks should be rounded! Protest and counter protest was the order of the day. Race 6 saw a win for RE over RA but with a protest against RE. The Race 6 protest was heard first as its outcome would decide whether the Race 5 protests needed to be heard, with the likely outcome that Race 5 would have to be re-sailed. After another marathon protest committee session the decision was that the result of Race 6 should stand, meaning that our three wins, could not be matched by either of the other teams. We therefore retained the Glover Cup for the eighth year.

ASA KEELBOAT REGATTA

The Corps representatives in this event were: **Maj David Ellis** with **Maj Tim Wadey** and **Maj Mark Butler; Sgt Craig Avey-Hebditch** with **SSgt Gary Steel** and **Cpl** 'Windy' **Gale**. **Col Bruce Burnett,** Rear Commodore ASA Dinghies, sailed a very consistent series to win the event overall with 7 points, **Lt Col Pat Clarke** RE was second with 8 points and **David Ellis** third with 12 points. **Craig** was sixth overall, and pleased to go out on a high note, having won the last race of the series which was also the last race of his service career.

INTER CORPS DINGHY LEAGUE

Only three matches have been possible in this competition, and those all held at Netley on one day in variable conditions. The first match against the Infantry was won easily by the Corps team of **David Ellis/Phil Cooper, Fred Calvert/John Lee** and **Trevor Bradley/Windy Gale.** The second match against REME was sailed in very light winds and was somewhat of a lottery. We won the first leg and lost the second but managed enough points to take the match. The final match against the AGC was a disaster from the Corps' point of view losing both legs dismally. It is becoming increasingly difficult to field the team of choice, indeed at times to field any team, and equally difficult to see how the outstanding fixtures are to be fitted in.

J24 - HITCH-HIKER

2000 has been a comparatively quiet year for 'Hitch-Hiker', owing to a lack of key crew and an inability to source a good boat in the States for the Worlds. This season has also seen us move back to our old and trusted sail-maker, ULLMANs, with the hoped for result of a return to our old boat speed. The season started at Easter, with our customary trip down to La Trinite in southern Brittany, for the Spi Ouest Regatta. This was, as ever, an excellent and well supported event and we finished a close second to **Stuart Jardine** in Stouche. We were slightly handicapped by the fact that one of our crew was 'bumped' from his flight on the Maundy Thursday evening, and we subsequently had to sail with one crew member picked up off the quay side, until our man arrived a day late. Our next outing was at Hamble for the Spring Cup, in a poorly attended regatta, and another second place to Stouche. The Millennium regatta, hosted by Parkstone YC over the May Bank holiday, was an excellent event, with a large turnout. There was very close racing throughout the weekend between the top six boats, and we came in with a third overall.

The next event in the calendar was the Europeans, hosted in Germany, but we were desperately short of good crew for this event, and therefore opted not to spend large sums attending a regatta where we were not going to be on pace. The UK Nationals were hosted by the Combined Yacht Clubs of Weymouth, with an entry of 42 boats, and was one of the best organised and sponsored regattas we have attended. It was very noticeable here that the whole of the UK fleet has improved greatly over the past two years, and that the whole fleet was finishing very close together. We had planned to have a guest appearance by **Phil Lever** in the vital cockpit position, but owing to his tragic death (see Last Post) shortly before this event, we had to have a late replacement. We were thus sailing with, effectively, two crew members who were not practiced in J24 sailing, and hence without the automatic feel for where to place a J24 on the race course relative to other boats.

By the final race of the regatta we had turned into a practiced, competent J24 crew, but this was slightly too late. Our overall position of fifth is the lowest that we have come in a Nationals since first launching 'Hitch-Hiker' in 1992, bit we were never lacking for boat speed against other boats, only good crew work and tactics, and they can be regained. The Worlds were held in the States in late September, and with no guarantee of sourcing a good boat, we declined our place. Our next event is the winter series at Parkstone, which runs from mid October to early December. We are expecting a turnout of some 20 boats, which will give us good racing and practice, to tune up for 2001.

INTER SERVICES TEAM RACING - 2000
A PERSONAL VIEW - *by WOI (YofS) 'Taff' Owens*

While taking part in the Army Sailing Association Individual Racing

Event on Saturday 9 September 2000 at the Land Forces Sail Training Centre, Netley, I was asked if I could attend Army Team Training for the Inter Services Team Racing Training to be held over the 18 - 20 September at Netley. Well, I thought, if it's anything to do with sailing, I'll give it a go! After arranging some time off from an exercise at Sennybridge (I was so upset!) I reported to Netley on the Monday and met the rest of the team. It became obvious straight away that due to the experience of many of the team members that I would be crewing during the training and not helming. I did not realise at this stage that I would end up crewing for the British Team Racing Coach! Still, after some calculations to do with weight distribution, I started training with **Maj (TOT) David Ellis** (what a combination a TOT and YofS is the same boat). He subsequently put me through the wringer - roll tacking and roll gybing are quite a trick to master, and I'm still not sure if I have the hang of it. Still, it gave a chance for a TOT to shout at a YofS - they have to get their own back some time! After a couple of hours of tacking and gybing, we had a few small races, but due to the lack of some of the team members at this stage, they were short and sharp.

Tuesday was soon upon us, and after some re-assessments of weight distribution, I was paired with **Col Nick Ross** REME. This was a bit of a daunting prospect, and much 'encouragement' followed until I was throwing myself all over the boat, trying to remember in which order to move, sit, move, release, look, move, pull, move etc. After the day's training had finished with some more races, final crew positions were confirmed and arrangements made to meet at HMS *Excellent* at Portsmouth on the Wednesday. This was the final chance to go through team tactics and training in the area that the competition was to take place. The training was conducted in Bosun dinghies belonging to the Royal Navy Sailing Club. After some more team racing training - which is completely different to individual racing, the emphasis is on ensuring that all team members complete the course with fewer points than the opposition and not just finishing first - the first day of the event was upon us.

The day started with the Race Briefing and a Force 4 wind. The Army Team was to race against the Royal Navy. The Force 4 wind meant a lot of hard work and a lot of sitting out. The wind strength was slowly rising until by the end of the race it was blowing a Force 5 gusting to Force 6. The Navy won the race, but following a protest, the decision was reversed and the Army won. The next race against the RAF was postponed until after lunch due to the weather conditions. Several crews had already been for a bit of a swim, including **Maj Ellis** and **Cpl 'Windy'Gale,** and time was required ashore to recover. The wind conditions improved after lunch to manageable levels and the Army went on to win the next three races, two against the RAF and a further race against the Navy. This meant that with half a day to go, the Army had already won the competition thanks to some excellent sailing by the Army 'A' Team helms - **Col Burnett, Col Ross** and **Maj Ellis.** Not ones to sit on our laurels, when Friday dawned we started with another win in a Force 3 against the Navy and a final win against the RAF - we had won all of our races. Unfortunately the 'B' Team had narrowly lost to the Navy.

Admiral West duly presented the prizes and speeches were made. Of the 12 Army personnel who competed, three were members of the Royal Corps of Signals and perhaps, given enough interest, this number can be increased next year. My impressions of the event will stay with me for a long time, that far from being a sedate sport, team racing is highly competitive, physical sport. There are many opportunities for all personnel in the Corps to participate in all types of sailing including dinghy, offshore and windsurfing. I would recommend that these opportunities be taken, not only to increase the strength of the Corps and Army teams, but also to provide a worthwhile and rewarding sport in which to participate.

General Secretary and Treasurer: Col A. R. Carter MBE
Welfare Secretary: Mrs J. Cornick

Assistant General Secretary: Lt Col I. J. Hamilton
Administrative Officer: Mr P. J. Cuckow (Membership & Records)

Association Office, RHQ Royal Signals, Blandford Camp, Blandford Forum, Dorset DT11 8RH. Telephone: Military System (9) 4371 2090 or 01258 48 2090. Welfare Secretary Telephone: Military System (9) 4371 2089 or 01258 48 2089.

All contributions for *The WIRE* should be addressed to the Editor and any queries referred to him on extensions 2079 or 2085.
Internet: www.royalsignals.army.org.uk/museum/rsa.htm

The Association communicates with its Branches and individual members through the pages of The WIRE, *which contains accounts of Branch affairs as well as a forecast of Association events.*

Branch Secretaries are asked to check that their Branch Members receive sufficient copies of The WIRE. *Association HQ can arrange for copies to be delivered in bulk to Branch Secretaries for further distribution if this is convenient: it helps us to save on postage.*

Dates of Branch events can always be published in The WIRE*and should be submitted to the Editor. We also welcome letters, requests to contact old comrades and announcements of births, marriages and deaths. We hope that each Branch will contribute a short account of its activities, preferably with photographs, at least once a year.*

NOTES FROM THE AO'S DESK

May I begin by wishing all members of the RSA, and their families, a very happy Christmas and a healthy, prosperous New Year. My personal thanks go to all Branch Committee members for their continued support during 2000.

Branch news - Holders of the Branch Secretaries List should amend the Guernsey Branch Secretary's telephone number to; 01481-257497and add Hon Sec Liverpool Branch's E-Mail address: j.carruthers@tinyworld.co.uk

CALLING ALL BRANCH SECRETARIES

Membership lists - All those Branches who have replied to my letter have indicated that they would prefer to receive a database printout of their membership from this office for checking and amendment as necessary - as opposed to them sending in their list annually in March. Accordingly the directive in Rule 8, paragraph 29, should be ignored, as Secretaries will be sent their printout. The Association Rule will be amended at the next reprint.

Millennium Badges - Any outstanding payment for the RSA Millennium Badges should now be sent to this office. Cheques, as usual, to 'Royal Signals Benevolent Fund'. The Chairman of the RSA sends his gratitude to Branches for their part in making the badge a resounding success. In total well over 2,300 badges have been sold and all profits have gone into the Benevolent Fund.

Annual General Meeting 2001 - The Royal Signals Association's AGM for 2001 will again be combined with the Branch Representatives' Meeting and be held, by kind permission of OC 238 Sig Sqn, in Chelsea Barracks, Chelsea Bridge Road, London SW1 8RF, on Saturday 7 April, starting at 1030hrs. All Life Members of the RSA are eligible and most welcome to attend. Association Headquarters must receive points for the agenda by 1 March 2001. All those planning to attend are asked to inform Association Headquarters in order to assist with catering and seating requirements. The Barracks are a five-minute walk from Sloan Square underground Station, on the District and Circle Lines. Parking is available within the Barracks, but vehicle details must be given to Association HQ at least three days prior to the day.

Association stick pins - Life Members may like to know that the Museum Shop at Blandford still has a stock of Association stick pins for sale at £2.50 each + 25p p&p. Orders to the Shop, not Assn HQ please.

New Life Members - A warm welcome is extended to the following who have become Life Members of the Association since the last issue of the *WIRE*. Our best wishes go to all those who are starting a 'second career'. Please keep Assn HQ informed of any address change in order that we may stay in touch with you.

ALDERSHOT BRANCH

In September we spent a most enjoyable evening at the Tower of London. Her Majesty's Palace and Fortress looked its best at dusk on a very fine evening, the first after an ominous period of rainy days. We missed seeing the famous ravens, who had been put to bed for the night by **Chief Yeoman Warder Thomas Sharp BA (Hons) MIL**, who conducted us on a tour. He took us into the Chapel of St Peter ad Vincula and giving us a most colourful picture of the history of the famous edifice. After the Ceremony of the Keys we adjourned to the Yeomen's Club where **Lynne Butler** had prepared for us an excellent buffet supper. **Noel Moss**, our Chairman, organised the visit and our thanks go to him and to **Tom Sharp**, who served in the Corps, and to our hosts at the Yeomen's Club.

CATTERICK BRANCH

Normally the Catterick and District Branch meet on the third Friday of each month but, in July, the meeting was held on 7 July which happened to be exactly 50 years to the day since the Branch was re-formed. (NB. The Branch was in fact first formed in the early 1920's but it disbanded in 1940 and was reformed in 1950). To commemorate the anniversary, an informal supper night was held in The Catterick Garrison and 19 Mechanised Brigade HQ and Signal Squadron Sergeants' Mess to which a number of guests were invited. The official guest list included **Brig (Retd) Nigel Wood** Vice-Chairman Area 1, **Capt (Retd) Terry Cushin** Chairman of the Darlington Branch with his wife **Margaret** and our recently appointed President, **Maj Paul Peel** Officer Commanding 19 Mechanised Brigade and Signal Squadron.

From within the Branch we had two members whose names appeared on the minutes of the first meeting in 1950, **Mr Ted Close** and **Mr Alfie Wilks** both of whom, as can be seen in the photograph, are still hale and hearty and enjoying life. We also invited several widows whose husbands had been members of the Branch. No official business was transacted but as a record of the anniversary everyone was invited to 'sign in', and the minutes of this meeting will list the names of all those who attended.

Two of our longest serving members, Alfie Wilks and Ted Close, enjoy a joke with one of our newest members, Jack Thorpe

After the buffet supper and before the entertainment began, courtesy of our regular troubadour **Freddie Briggs, Brig Wood** presented our recently retired chairman **Maj (Retd) Bill Barnes** with a well deserved Honour Membership Certificate.

Guest of Honour, Brig (Retd) Nigel Wood presents a deserved Honour Membership Certificate to Maj (Retd) Bill Barnes

In his 13 years as Branch Chairman, **Bill** has worked extremely hard both on behalf of our members and The Royal Signals Association. To mark his retirement and also that of **Maj Ray Webb**, Treasurer for the past 17 years, prints of the well known painting' The Last Transmission' were presented to both members. The prints were signed by a familiar figure in the Branch **Capt (Retd) Henry Jennings**, who is shown in the painting as a young NCO while serving in Korea.

Everyone enjoyed the evening, the success of which was due mainly to the hard work of our Social Secretary, **Stan Perkin** and his team and the staff of the Sergeants Mess. We would also wish to record our thanks to the GSM and members of the Mess for their hospitality in allowing us to use the Mess for our monthly meetings and look forward to continuing the association over the next 50 years.

EAST KENT BRANCH

On Wednesday 9 August, nine members attended the Commandant's Rehearsal for the Sovereign's Parade at RMA Sandhurst through the kindness of **Jo Barrett** who hired us her Parkinson's disease Minibus. We arrived at 1030hrs in time to see the 780 immaculately dressed cadets (men and girls) on parade. It is always an invigorating experience to see these young aspirants vying to be the best on parade with its intricate drill movements where a mistake stands out for all to see. To us it was faultless but the Commandant had a word or two to say and no doubt whatever was wrong will be perfect on the day. Our hosts, of the Aldershot Branch, had kindly arranged for us to join them in the Quabus Pavillion afterwards for our picnic lunch. If you have not seen one of these parades, do keep a look out for next year's outing.

Sunday 13 August was our ever popular Branch BBQ at Antrum Lodge, (the Hon Sec's Shack) despite a dubious weather forecast. There would have been eighty members present had **Doug** and **Sheila Dickason** not suffered a catastrophic flood, from a burst water cistern early that morning and **Peter Hellier** not lost his voice overnight. The Chairman who had not been previously noted for his Latin connections, had decreed that the Committee would put on a display of Roman Drill (what is Roman drill we asked?) and that everyone would come in fancy dress. That would normally be a turn-off from the start but not so. We watched with admiration as various colourful characters came through the gate. The Committee had done their homework (on the www) and had practiced the intricate drills and came to understand the stentorian orders delivered in Latin by the Decurio (Junior Officer). With considerable help and improvisation from Ballantinius Curtainus, our weapons and accoutrements were authentic in appearance anyway. At 1230hrs, **Mike Barrett**, the MC, suitably attired in a Bowler, introduced the show and on marched the motley group who then performed a guard mounting drill (defending the bar!). **David** and **Sheila Geary** dressed as Camera crew and Producer made a video, which will be produced in due course. That

Orientis Cantabria Centurio or East Kent Committee
(L-R): Donald Crisp (Chairman), John Ballantyne (Vice Chairman), Roy Andrews (Area Rep), John Badcock (Hon. Secretary), Bill Lovett (Hon.Treasurer), Trevor Allison (Social Sec)

over, the delectable smell from the BBQ attracted the host and some even returned for seconds. This was followed by **Marion's** raffle, always a great success. Then **Crispus Follicus** and **Ballantinius Curtainus** inspired by their previous efforts and the resources of the bar, burst into song describing the characters with whom they are associated in Committee to the haunting tune of Greensleeves (at least we think it was). **Jo Barrett** then awarded the best man's outfit to **Consul General Lovetttus** and the best Lady's outfit to **Marion Ballantyne**. Finally, the Bat & Trap Cup was won yet again by the Ballantyne Team. A very good day had by all.

Sunday 10 September saw, as many of you might recall, a photograph taken of the DOME. It was taken as we traveled up the Thames in September 1998 - two years ago. So Lord Falconer had every reason to be relieved when he heard that the East Kent Branch were to return to increase the number of visitors to his Dome by 32 and we felt the extra £140 he spent on each of us was well worth while! It all went like clockwork (is that a term which is still relevant these days?) With the bus arriving and departing Antrum Lodge with a full consignment of expectant members and friends. **Mike Barrett** immediately embarked on a quick raffle and by holding up the vintage bottle of Malt whisky money was quickly in the bag! **Bill Lovett, Tom & Doris Bewsey** joined us at the Black Prince and after a short and successful plea to the bewildered security guard that the bus contained nothing but walking wounded, we decanted on the forecourt and were soon satisfying our curiosity inside the gigantic structure. Five hours is usually judged to be the amount of time that the average person can spend without being punch drunk though it is not time enough to visit all the exhibits. **Mike Barrett** who had been before gave us all a priority list and from time to time we ran into each other as we made the rounds. Somewhere along the line, we felt, the public had been misinformed. All who went were adamant that it is well worth the visit and above all, if one sees nothing else the floor show which lasts nearly an hour is a must and excellent value for the entrance fee. No description (and no photos are allowed) can do justice to an incredible performance by nearly a hundred young performers, for most of the time, airborne, and the stage management skills. So at 4.30pm we set out on the homeward run, those who have not been, really must gird up your loins and go. It was one of the Branch's success days.

News of Members: We are delighted that despite moving to Bournemouth, **John Raymond** has decided to remain a member of the Branch. He has joined the Bournemouth Branch but says that it is by no means as active as the EKB. He is however fully immersed in running the HQ of the RSARS that is in Blandford Camp. In welcoming **Charles Young** to the Branch, we did not realise that he is Chairman of the Thanet District Council that may mean that we see him less often. **Tom Bewsey** apologized for not being at the BBQ because there was a great family gathering for an 80th Birthday (not his!) at Eastbourne. It was nice to see **Jimmy Hand** who has been in and out of hospital recently and **Dennis Murphy** has also just come out of Hospital. We wish both of them continued good health. **Jean Saunders** was skipping around on her new hip. **Marie Crisp** has also undergone a hip replacement and we are glad to say is progressing well. The indestructible **Jack Dienst** has overcome the effects of a nasty fall and is still riding his Matchless M/C at Veteran Vehicle shows around the county. Great news to come of **David & Sheila Geary** who have decided that the delights of living in a Suffolk village do not compensate them for the loss of friendships which they enjoyed in Kent are moving back. Could this have been the effect of being at the BBQ to film the Praetorian Guard. We shall look forward to seeing them again.

New Members: We are delighted to welcome **Mr Alan & Mrs Doreen Austin** of Faversham. **Alan** was a Regular from 1953 to 1960 serving in 1 Corps Sig Regt and 23 Corps Sig Regt (Suez) as a Corporal Line Det. Commander and ended up with three years on Class 1 Reserve. Welcome also to **Mr Dennis Latham** of Maidstone. **Dennis** was a National Serviceman from 1947-49 and as a LCpl Line Mech spent all his time at Catterick in 6 and 1 Training Regiments and then the School of Signals.

GLASGOW BRANCH

The Branch was offered tickets for the Royal British Legion Scotland ceremony of Beating Retreat, to celebrate the millennium. It was a spectacle of many tartans and RBLS standards from all over Scotland. The massed bands, pipes and drums performing the Beating of the Retreat on the esplanade of Edinburgh Castle, on Sunday 13 August, whilst the Edinburgh Tattoo performers were having a day off. **Ivana** our secretary, arranged a meal at an hotel in Edinburgh before the ceremony, where the 32 members and friends in the coach party, met up with the Branch President, **Maj Gen A. A. G. Anderson** and **Mrs Margaret Anderson**. A raffle was held on the coach to help offset the expenses.

Bill McNamara the Branch Standard Bearer, has been a busy bee over the last few months, having been invited to attend millennium ceremonies paying homage, where the Branch Standard was 'dipped' for the National Anthem. Arranged by the Royal British Legion Scotland. **Bill** was in George Square Glasgow on 1 July, Law, Carluke, and Lanark on 15 July, Larkhall on 16 August, Oban on 23 July, Rutherglen on 29 July, Strathaven, Hamilton and East Kilbride on 30 July, Wishaw on 5 August and Millport on 6 August. That is the count to date, when there are more to come I will be advised, but in any case it must be a good public relations exercise to show the Branch exists, and **Bill** is one of the best Standard Bearers in the country.

The meeting on 15 August was very well attended with three new members being introduced to the members by the Branch Chairman, **Joe Keegan**. It was announced that 32 Sig Regt was holding a Bar-B-Q, and had entered runners for the Glasgow Marathon on 20 August. The Banch members were invited to attend and support the cause, which was in aid of the Erskine Hospital 2000 appeal. It was decided that the members should sponsor the members of 32 Sig Regt taking part in the marathon. The proceeds that evening would be passed to **WO2 Keith Anderson** of 32 Sig Regt HQ to swell the fund. A sum of £25 was collected and a further £25 was added from the Branch funds to make a donation of £50. **Keith** also ran a raffle at the Bar-B-Q that I understand raised £223. Over and above this there will be the individual sponsorship amounts of the competitors in the Regiment. With the rapport we have with the Regiment it gives our members a great deal of pleasure to join in their activities. An invitation was received by the members from The Commanding Officer and all ranks of the Regiment to attend The 'Jimmy' Dinner to be held in the Officers Mess on 25 August. This function was arranged for the evening allowing more Branch members to attend, and a very enjoyable time was had by all those attending. A splendid meal produced by **WO2 Master Chef John Wren** and his staff. After dinner the company adjourned to the WOs & Sgts. Mess, and in the relaxed atmosphere we managed to recruit another four members to the Branch, both ex-members and serving members of the Regiment. No we didn't need to get them 'sozzeld' to sign up.

Arrangements had been made for 13 members to attend the Freedom of Richmond parade with accommodation booked, but due to the old saying we know so well in our service time, due to 'The exigencies of the service' it had to be cancelled, a great disappointment. The arrangements for the annual St. Andrew's Dinner/Dance are well on their way to be held on Saturday the 25 November, and for the Remembrance Parade in George Square in Glasgow on Sunday 12 November.

NORTHERN IRELAND BRANCH

In our last article I had mentioned that we hoped to have a speaker for the September meeting. Unfortunately there was a communications problem with the result that we had no speaker (not quite Royal Signals standard?). We hope, however, to make amends at our October meeting. Most unusually the three main Branch Officers, Chairman **John Brown**, Secretary **Ian Wolfe** and Treasurer **Debbie Wolfe**, were on holiday on the date of our September meeting but Vice-Chairman **Jim Reilly**, Asst. Secretary **Kim Greer** and Asst. Treasurer **Edgar McCall** very ably stood in for them.

George Cook put a lot of work into producing a very acceptable series of web pages for Branch approval, with a view to the Branch having its own website on the Internet. The members were enthusiastic but it was decided to seek approval of RSA HQ before proceeding. The decision was that we should hold off for the moment as there was, in planning, a proposal to have a web page, off the main Museum website, for each individual Branch. Although understandable it is very disappointing for **George** but at least we were forward looking.

If you are reading *The WIRE* and are in Northern Ireland, then if you are not already a Branch Member or indeed are still serving, you are welcome to join us any third Wednesday of each month in Clonaver TAVR Centre, Belfast.

READING BRANCH

Our 30th Annual Reunion Dinner was held on 7 October and it seems that the previous 29 were all part of the build-up to this one. What happens next year? Who knows, so we hope lots of people will come and find out. Our principal guests this year were **Col Andrew Carter MBE** and **Lt Col Charles Turner,** both of whom gave excellent talks after the Dinner. Aldershot, Brighton, Salisbury, Southampton and Winchester Branches were represented and brought their Branch Standards. We also welcomed visitors from the France and Germany Star Veterans Association, The Royal British Legion and the Middlesex and NW London Army Cadet Force. This illustrates our long-held view that visiting one another's events helps to bond our part of the Corps family even closer together. Pride of place in the hall was given to the Standard Bearer's Cup where it was much admired. Just one more occasion for us to feel very proud if not down right smug! With the excitement (and hard work) of the Dinner behind us we now look forward to at least four Remembrance Observances, our Christmas Party on 1 December and, of course, the Corps Carol Service. All this interspersed with other Branches' dinners and luncheons.

70 Ex-Members of
249 SIGNAL SQUADRON (FARELF)
still keep in touch with their old friends

WEST LONDON BRANCH

(from Ron Miller, Chairman)

Early in September we hosted Sheffield Branch to a Fish & Chip Supper at the Cavalry Barracks in Hounslow. A very social evening included a hilarious forty five minutes from **Maurice Green** with his monologues. Having put too much vinegar on his chips he had forgotten most of the words. The following morning saw us all on parade at the Royal Hospital Chelsea. The Royal Signals contingent was lead by **Col Donald Crawford**, ably assisted by **Cols John Eversfield, Ken Taylor** and **David Grocott**. Parading with us were Members of Sheffield, Reading, Bath, East and South London Branches and of 31st Signals Association. A special feature of the service was the contribution from the Choir of Leeds Parish Church that was touring the South of England. Following the Service and a few beers with the In-Pensioners, eight Association Members and guests wined and dined together at the Duke of York's Headquarters, the whole event having been organised by our Chairman, **Dusty Miller** and Secretary, **Howard Loates**.

Ed Murphy (Vice-Chairman), and Cliff Wood (Treasurer) trying to borrow berets from two Sheffield Branch Members

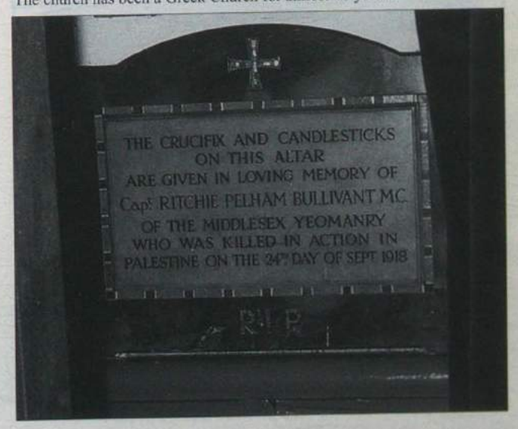
(from Jane Knight, West London Branch)

We spent a most enjoyable evening at the Tower of London in September. This has become an annual event since **Cliff Wood** was the one largely instrumental in organising our first visit in the Eighties. Our tour was conducted by **Chief Yeoman Warder John Kenny**, who served in the Corps, and at the end of the evening one of the ladies had prepared for us an excellent buffet supper. On a sadder note, we learnt of the death of **Yeoman Gaoler Alan Copestake BEM** who had conducted all our tours in the early days. The day before going to press **Cliff Wood** and **Jane Knight** attended the Memorial Service to him held at the Chapel of St Peter ad Vicula within the Tower. **Cliff** served with **Alan** in the Corps and we extend the sympathy of the Branch to **Joan** and the family.

THE MIDDLESEX YEOMANRY ASSOCIATION

By the time you read this our 73rd Annual Dinner will have taken place, at the Duke of York's Headquarters. It is anticipated that a good attendance will, once again, have made it an evening to remember. Our President, **Col Simon Beazley** and Chairman, **George Key** will be heading the festivities. The Dinner Committee, **Maj** 'Dusty' **Miller** and **Len Smith** look forward to seeing you all enjoying yourselves.

Whilt sitting at a Greek christening (which can go on a bit), at St Stephen's Church, Shepherds Bush, London, a member of the Association spotted a wall plaque. It was in memory of **Capt Ritchie Pelham Bullivant MC.** He was killed in action on 24 September 1918. The church has been a Greek Church for almost 40 years.



The Band have had to move on, owing to difficulties at Uxbridge TA Centre. They are now based at Hampton in Middlesex. They wish to record their thanks to everyone who responded to the appeal for funds. They continue to perform in concert and as a Marching Band. They led the parade from Horseguards to the Cenataph on Sunday 8 October, for the Palastine Police Association and very good they were too.

A few dates for your diaries:

12 December 2000	The Pearson Shoot (Uxbridge TA Centre)
7 March 2001	Ordinary Meeting (Sgts' Mess - Knightsbridge Bks)

Finally do keep in touch, our Secretary **Andrew Bridges** (01276 33345) is only too pleased to hear from you.

31 SIGNAL REGIMENT ASSOCIATION

A Busy couple of months saw us charging around, doing lots of things, being led by **Col Donald Crawford**. The Royal Military Tattoo 2000, The Royal Star and Garter Home Military Band Concert, The Sovereign's Final Parade Dress Rehearsal and the Duchess of Gloucester Cup at Longmoor Camp. The visit to Denbies Vineyard was cancelled, due to a lack of support, or as the Doctor put it, 'Multiple visit fatigue'. Anyway the committee are now out of the darkened room and pointing **Henry Holman** in the direction of a Cheese and Wine Party. 'Dusty' **Miller** is looking at a Christmas Lunch on the Watercress Line and plans are well underway for our European Trip in May 2001. Details on both of them will follow later. Our Annual Dinner will be at the Duke of York's Headquarters on 31 March 2001, make a note in your diary now.

Thanks to *The WIRE* several ex-31 members have made contact with the Association, much to the joy of our Memebership Secretary, **Chrissy Mills**, who can be contacted on 0208 578 2715 for an application form.

The Committee would like to take this opportunity to wish everyone a very Happy Christmas and a Prosperous New Year.

19 SIGNAL REGIMENT ASSOCIATION

From Scotland and Wales, from the furthest parts of Norfolk and Cornwall, from Durham, Kent and all points in between, **Col Colin Gilbert's** family travelled to the Household Cavalry Sergeants' Mess at Knightsbridge for the Association's eighth reunion on 28 September. This new venue was suggested by **Keith Stafford**, editor of the Association Journal, 'The 19th', who made all the arrangements and it was ironic that pressure of work did not permit him to attend!

After the meetings and greetings, a short business session (when all the committee members were unanimously re-elected) was followed by lunch which was agreed by many to have been the best yet: good food and wine well prepared and served, a venue with an ambience worthy of the occasion and beer at a reasonable price.

Ed Nicol arrived by mini-cab, his forearm held together with titanium scaffolding, was delighted to have made the effort.

'What happened to you?'

'I fell off a Routemaster bus. It didn't stop where I wanted to get off but I did!'

Geoff Pinder, down from Stockton-on-Tees, finally took delivery of his sweatshirt emblazoned with the Red Beaufighter and others took advantage of the opportunity to get themselves a Regimental Tie.

The committee members, under **George Brew's** Chairmanship, grappled with the choice of next year's meeting place. Will we go back to Stoke-on Trent or should we try somewhere else in the midlands? Certainly we expect to return to Knightsbridge in 2002, if they can accommodate us again. All those known to have served in the Regiment will be informed after Christmas. Any who are not on our mailing list and would like details can make contact through **Peter Cuckow** at RHQ.

REUNIONS

'F' (BOYS) COMPANY ROYAL SIGNALS 1920-1941 - 9TH REUNION

The 9th Reunion took place on 20 September 2000 at the Union Jack Club, Waterloo, London, and 27 members out of 97 attended. Not a bad turnout as we are all well over 70 and a significant proportion of our members live overseas. From Canada, we warmly welcomed **Tom Edgerton** (39/42) and **Walter Richardson** (39/42) from California.

Our chairman, **John Dadswell**, addressed the assembly and especially mentioned the two new members, **G. Salmon** and **Frank Pike** both from (30/33), and also warmly welcomed the presence of **D. Machin** who lives in France and joined in 1929. He also welcomed the presence of **Maj Gen Peter Baldwin** who is an honorary member, and although still working hard, found time to leave his office to join us. He then mentioned our president **Bruce Beattie** who has unfortunately suffered a stroke and whilst he has regained most of his speech is fighting hard to become more mobile. We wish him and his dear wife **Jeanne**, swift progress towards his recovery. He also gave us the sad news of deaths of **Capt Jock Mullen** who died on 4 January, and 'Stormy' **Fairweather** who died suddenly in his sleep on 26 June this year. Both were pleasant and amusing men, always with broad smiles whom we shall sorely miss. Coincidentally, both were involved with very dangerous SOE exploits during the war. (Note: If anyone has any information about their service in the SOE or Commandos would they please send it to **Vic Dugdale**).

The Chairman continued with a thank you to the committee for their continued loyalty and input to the success of the reunion. He also particularly mentioned ex-Chairman, **Alan** 'Podge' **Ridgeon** who is fighting hard against illness and who was originally responsible for all of us getting together. 'Podge' received very loud applause from all present.

The following members attended: **P. Baldwin, S. Band** (PRO), **W. Callegari, D. Chetwynd**, (Treasurer), **P. Clowson, J. Dadswell** (Chmn), **V. Dugdale** (Sec), **A. C. Earl, T. Edgerton, H. Galloway, M. Ham, G. Harrison, L. Knight, R. Knight, J. Le Hardy, D. Machin, T. O'Connor, W. Offord, F. Pavey MBE, S. Pavey, G.** 'Frank' **Pike, A. Ridgeon, W. Richardson, G. Salmon, J. W. Sinclair, R. Todd, P. Craig** (ex staff). **Alan Searle** a 1942 entrant came as our guest as he wanted to meet **Lt Col Stanley Pavey** and any others of our company who were NCO Boys at that time. Apologies for absence were received from **Robin Laing**, who has severe bronchitis, 'Bunny' **Lord, Tom Swales**, 'Ossie' **Fletcher** and **Frank Betts** who are unwell, **D. W. Smith, Jack Harding** who is mourning the loss of his beloved wife, **Jim Davidson** (Australia), **Ken Selmes, Stan Smith**, (who incidentally I am told has a nice house to let on Victoria Island, Vancouver, for six months, probably on a swap basis. Address: 409,75 Gorge Road. W. Victoria. B.C. V9A 7A9. Canada), 'Paddy' **Ford, Leo Lees** who is unwell, and last but by no means least, **Bill Weatherly MM**, who has remarried and has moved to New Zealand. He had a tough war with SOE and Commando units, and was a constant and very welcome member at our reunions, a very brave and modest man who will be missed. I hope that when **Lt Col Victor Martin MC** (ex Sgt Boy who lives very near to **Bill's** new home) reads these notes, he will use his authority to persuade **Bill** to visit us again 'soon'.

BEVERLEY EX-BOYS ASSOCIATION RE-UNION WEEKEND

50 YEARS BOY AND MAN - *by David James-Bailey*

The year 1950 saw the emergence of 6 (Boys) Training Regiment from its grassroots as No 1 Selection Squadron and its change of location from Gallowgate near Richmond, to Victoria Barracks in the sleepy East Yorkshire town of Beverley. For the next five years the town played host to the motley crowd of lads that made up the Regiment. So it was that during the weekend 7-8 October 2000 a good number of those 'lads', who came from all walks of life and all corners of the UK, collected once again in Beverley to mark the 50th Anniversary of that 'happening'.

The Museum of Army Transport in Beverley played host for the day to greet and feed the 90 or so members of the Beverley Ex-boys Association who with wives or partners (the writer hesitates to say, or both!) were gathered to celebrate a little bit of their lives. Of course some had already renewed old acquaintances last year at the Victory Club in London, but many who were unable to join us then were able to make contact with old friends this year and it was an equally moving experience. After meeting in the museum during the afternoon of Saturday 7 October a dinner was held in the Montgomery Room in the evening which was attended by the Right Worshipful Mayor of Beverley, **Mr N. Holgate** and his lady wife. **Mr Holgate** informed us during his address that prior to the current refurbishment of the Guildhall, some items belonging to the period of the Regiment's time in Beverley were removed and stored. However, on completion of the work on the Guildhall these will be reinstated in their rightful place. He produced an original plaque presented to the town in 1955 when the Regiment departed.

The Mayor of Beverley,Cllr Neville Holgate, showing the original plaque to Tony Hull, Branch Secretary, in the Military Chapel of Beverley Minster

The meal was excellent and grateful thanks go to the museum catering and table staff for their faultless attention to us during the evening. It was of course, a typically damp, drizzly Yorkshire evening of the sort which would have, and probably did, bring back many happy memories of illicit nocturnal activities/expeditions to the Westwoods during those heady days of youth. However, the bar did a brisk trade and even before the wine started to flow an increasingly convivial atmosphere was becoming very evident. What only very few will know is that the meal was prepared under combat conditions in a 'field kitchen' set up in the museum. How about that, then!? Mind you those few only knew because they entered by the wrong entrance. The Loyal Toast to Her Majesty The Queen was proposed by **John Ient** in the absence of our Chairman who was unable to attend, vice-Chairman **Mike Teague** proposed a toast to the Colonel-in-Chief, The Princess Royal, and our President **Lt Col (Rtd) John Beasley** gave a welcoming address. **John** also presented bouquets to both **Mrs Holgate** and **Beryl Hull**.

The following day, Sunday, everyone attended a service in Beverley Minster at which Holy Communion was celebrated. This was probably quite a moving experience for some, since the Minster saw many of the boys taking their first communion in that place after being confirmed by the Archbishop of York all those years ago, and here they were 50 years later doing the same thing. Prior to the service **John Ient** organised us all for a photo-call on the Minster steps with the **Mayor** and **Mrs Holgate** in attendance - he stopped short of forming us up into three ranks, fearing perhaps we were unable to keep in step.

Following the main service and a private gathering in the East Yorkshire Regiment's military chapel everyone said their farewells, promised faithfully to keep in touch, and went their separate ways. It was an extremely successful weekend and once again we have those stalwarts of the Association, **Beryl** and **Tony Hull**, to thank for all the hard work they put in organising the event. It was a huge task and must have been very exhausting for them. They should be justly proud thatall their efforts proved so worthwhile. Thank you both very much!.

Assembly outside the church before the service celebrating the Fiftieth Anniversary of the formation of 6 Boys Training Regiment

LANGELEBEN REUNION BRANCH 7th AGM AND REUNION

Ernie Callaghen (Secretary)

The 7th AGM and Reunion was held at Burleigh Court, Loughborough, over the weekend 8-10 September. Some 114 Members and guests attended and a very enjoyable three days ensued. VIP guests included **Cllr Neville Bird** - the Mayor of Charnwood, **Arnulf Baumann** - the Burgermeister of Konigslutter Germany and **Rev Canon Derek Buxton** - who dedicated the new memorial standard, which had been paid for by membership donations.

Our President, **Maj Gen P. A. C. Baldwin,** presented a Royal Signals plaque to the Mayor of Charnwood, an engraved glass mug to the Burgermeister and **Rev Canon Derek Buxton** was the proud recipient of a Langeleben Reunion Branch Tie. The weekend was rounded off with a reception and buffet dance on the Saturday night. This went on until the early hours of Sunday morning.

Our next reunion will be held in Konigslutter, Germany, during the Shutzenfeste in May, 2001. This will also be the 50th Anniversary of our unique Association with Langeleben and our friends in Konigslutter and the surrounding area.

LOST COMMS

Calling anyone who remembers **Sgt Bill Rhymes**. **Bill** served in the War Office Signals and landed at Normandy and fought up through France. He was in the Oxford/Bucks until transferring to the Signals. He transferred to the REME in 1945. Anyone who remembers **Bill** is asked to call his son-in-law, **Brian Lawson**, on 01865 715113. Alternatively write to 8 Kennedy Close, Oxford, OX4 2UH

Mr R. A. Potts is seeking two of his old pals: **Lemaitre Ross** - one time Foreman of Signals who served with **Mr Potts** in LRDG Signals early in WW2 as an Instrument Mechanic. He had previously served in India. **Lt MacAvish** - commissioned from the Middle East OCTU (Cairo) in 1942. He was badly wounded in the Western Desert in 1942, and he came from Liverpool. Anyone who can help should contact **Mr Potts** at: Springfield, Millbrook Way, Orleton, Ludlow, Salop SY8 4HW.

Mr Mike Lewis is researching his late Uncle's Wartime Service with the Royal Signals and would be most interested to hear from anyone who may have served with him. **Sig 2330480 Jack F. Newport** 95/L from Bath. According to a Newspaper article at the time he was posted missing as from 28 April presumably in 1941 on the Libya and the Egyptian border where his unit was in action. We have many photographs taken of him and his pals in Egypt and in Athens, Greece all in 1941. The enclosed photo was probably taken somewhere in North Africa. Top row from left **Jack Newport, Ron Mitchell, Ron Norstrand, Alf Edwards** and **Alf Andrews** from Sydney Australia.

Jack was eventually captured and taken prisoner, we are not sure where and would like to know? We do know that he was a prisoner for about four and a half years, and that he was in Stalag XVIIIA. Wolfsberg. Austria. No. 4849. Mentioned many times in the photgraphs is the phrase 'The Boys' 95/L Gambling.' Thanking you, Anybody with any information please send it to: **Mr Mike Lewis** (Former The King's Shropshire Light Infantry), Ferndale, 76 Mount Road, Southdown, Bath, BA2 1LH.
Yours faithfully.....

From: **Tom McGowran**

Dear Editor,

While serving in Singapore just before the Japanese started their monkey business, I met briefly an uncle of mine, **Sgt George L. McGowran** , 2313758, Royal Corps of Signals.

When next I tried to call on him he had vanished and I could not get further information on him. I got the impression that he had been posted on special service elsewhere. I was taken prisoner at Singapore and on my return home was told that it was believed he had escaped. However, I learned recently that he is in fact buried in Sai Wan War Cemetery, Hong Kong.

I can't get further information on him unless I can contact his next of kin. I believe he was married to **Olive** (?) of Witham, Essex. Can any of your readers help?

Yours……..

John and **Lyn Chamberlain** are seeking ex-**Sig Paul Power**, who served with them in 30 Sig Regt in 1965/66. **Paul** was best-man at their wedding and came from Stevenage. Anyone who can help is asked to call 01202 723443.

Mr Harry Jones is seeking anyone who served with him in11 Armd Div Signals in Herford, Germany, in 1950/52. **Harry** can be contacted on 020 8958 1640.

Mr J. S. Goddard is seeking the whereabouts of the former **Capt G. S. Fenton**, with whom he served between 1941-43 in 223 (Ind) Inf Bde in East Anglia and subsequently with the 1st and 6th Airborne Div at Bulford. Anyone who can help is asked to contact **Mr Goddard** at: 44 Cleveland, Tunbridge Wells, Kent, TN2 3NG.

Dennis Woolard is trying to trace his former pals in Palestine Command Sig Regt, 1 Sqn, Lines Troop, 1946-48. Anyone who remembers him is asked to write to: 3 Silver Birch Avenue, St. Ives, Huntingdon, Cambs, PE27 6TJ.

Mr A. V. Ashmore is seeking the whereabouts of anyone who served with him in J Section, 56 Div Sigs, between 1940 and 1944. In particular he is looking for **S. C. Stone, R. Lowe** and **Alex Bruce**. Anyone who can help is asked to call **Mr Ashmore** on 020 8993 2358.

Ken 'Errol' **Flint**, OW/L with 2 War Office Signals, Dover: 37 Med W/T in France and Indian Airborne Div, is alive and kicking and listening out on 01304 369538.

Jim Lambert would like to contact anyone who served with him in 244 Sig Sqn (The Red Hand Gang), in Herford and Lippstadt, W. Germany during 1959-1961. He is already in touch with **Terry Fuller, Rob kirk, Ken Meekin** and **Pete** 'Taff' **Langford.** Either telephone him on :0114 288 5493 or E-mail: jlamoc@lamb53.freeserve.co.uk

Dear Sir,

With reference to the photograph and short article on the Korean War by **(Ex-WO2)** 'Taff' **Davis**, may I be permitted to point out that he very modestly omits that he is the author of a very good book. It is called 'Red Winds from the North'and gives the account of an ordinary soldier's experiences. Another one well worth readingby another ordinary BKVA is called 'Signals on the Left, Armoured Corps on the right by **Ron Larby**. Both of them are very cheap for hardback books and are well worth the effort made in obtaining them.

Yours Sincerely.....

From: **Mrs A. S. Wilson**

Tel: 01287 631879

Dear Sir,

My uncle was one of those captured by the Japanese at Singapore. He had been in India for five years and was about to come home when war broke out and he was sent to Singapore.

He took a bullet in the buttock and was placed in the Queen Alexandra Hospital. When the Japanese began shooting throughout the hospital my uncle disarmed an officer, who was preparing to shoot the first Japanese to walk into the room where they were. He had only the one revolver and certain death would have been the outcome. My uncle hid the gun beneath his mattress. By the time the Japanese reached their room they had just about spent themselves with shooting. As the men were wounded anyway all they did was give them a thorough beating! This information was given to my father forty years after the war by a **Mr Hopps** from Shortley Bridge, Durham when they had a chance meeting. **Mr Hopps** had not expected my uncle to survive the beating when he met him in Changi compound. My uncle, who was in the Royal Signals Dance Band, just longed to play his music.

My uncle was sent off to the Burma Railway and **Mr Hopps** was sent to work in a factory in Japan. My uncle survived until 10 September, 1943. Miraculous, after what he had been through. His details are:

Cpl Thomas William Deighton No: 2321855
Died 10 Spetember 1943 aged 29 years
Buried Plot B1, Row G, Grave 11
Thanbyuzayat War Cemetary, Burma

He was exhumed from Tambaya Camp on the Burma Railway Line, and he was the son of **John** and **Isabella Deighton.**

On a recent visit to our daughter, in New Zealand, we had a stop-over in Singapore and took photos of the Queen Alexandra Hospital. We knew nothing of the war memorial in Krangi Park until very recently.

If anybody has any information I would be most grateful. Did anyone survive Tambaya?

We have lost family members in every war since the Boer War and quite possibly before that. Even as a child I could see what the loss of my **Uncle Tom** did to a close and loving family.

Yours Sincerely.....

Dear Sir,

I am a member of the National Committee of the Far East Veterans Association. The Association is planning a holiday/reunion for Far Eastern veterans in June 2001. This is not confined to our members and we would welcome any of your members who would like to take advantage of the offer. Full details can be obtained from me at the above address on receipt of a stamped addressed envelope.

Yours Sincerely……

Radmore – Maj Guy Radmore the death has occurred of **Maj G. T. Radmore. Guy Radmore** served during World War II in the Royal Signals and later the SAS. He served in Belgium and France in 1940, and was one of the last soldiers to be evacuated at Dunkirk. He became a member of the Airborne Forces and parachuted into Normandy on 6 June 1944 as a Captain commanding the 5th Parachute Brigade Signal Section. The Brigade's first task was to hold Pegasus Bridge, a vital crossing for the advancing allied forces, and an action depicted in the well known Corps painting 'Go To It'. After further actions in France and Belgium, he ended the war in Norway where, with the population of Bergen, the joint celebrations of the final victory were, in his own words, 'considerable, and of some length'. **Guy** returned to civilian life after the war, and pursued a career for 30 years in Durban, South Africa, becoming a Director of a company involved in shipping, travel, and other commercial ventures. He returned to England on retirement, settling in SW Surrey, to be with his much loved family of three children and grandchildren. He died on 28 August 2000, aged 80.

White - Brig Denis White OBE was commissioned from the Shop in January 1930 and posted to Catterick to attend No. 21 Q Course. On completion he joined 3rd Divisional Signals. He spent almost three years there before setting off on the first of his several appointments outside the Corps - a three year secondment to the Southern Brigade of the KAR in Tanganyika. One of his most memorable experiences happened as he was on his way to meet his new Commanding Officer. He was greeted by two wild cats bounding towards him to eat him, or so he thought - they turned out to be the Colonel's two tame cheetahs!

Shortly after returning to the UK he was promoted to Captain (under the Hore-Belisha Scheme) and in 1938 went to Nottingham, as TA Adjutant, to raise the 3rd Anti- Aircraft Signal Regiment. On mobilisation, he relinquished that post and after a short period with the newly formed 3rd Signal Training Centre in Whitby, was posted firstly to the East African Signals to establish the Signal School in Nairobi; then to Khartoum as Temporary Lieutenant Colonel to command Sudan Defence Force Signals.

In 1941, he qualified at the Middle East Staff School and was appointed GSO1 Signal Plans at GHQ Middle East. He was subsequently posted to the staff of CAFSO, Middle East as GSO1 Signals. In 1944, shortly after moving with CAFSO to Italy, he was posted to command 5th (London) Corps Signals, with whom he saw the campaign in Italy almost to its close. During this time he was awarded the OBE.

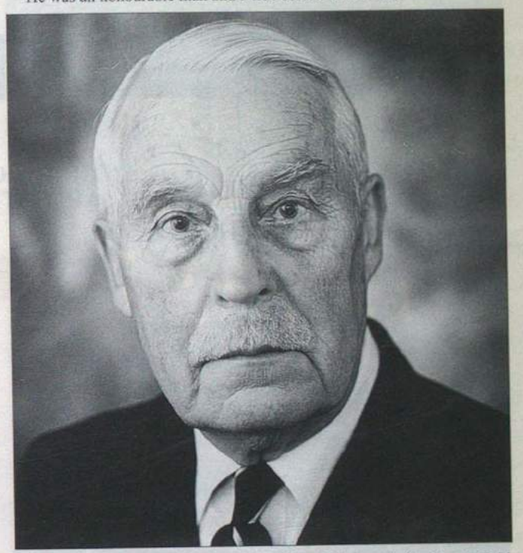
The war over, on return to the UK, he spent a short time with STC in Catterick before being posted as CR Signals to the Guards Division in Germany - but not for long. In 1946 he was selected to attend the first course at the newly formed Joint Services Staff College and in 1947 he took up the post of AAG at GHQ FARELF. During that time he was presented with a Kukri by the Brigade of Gurkhas for his part in organising their transfer from India. While in Singapore, he met and married his dear wife **Angela Jensen**. She was in the WRAC and was sent to work for him. Romance blossomed and they married in Singapore Cathedral on 8 June 1949.

Back in the UK in 1950, he assumed command of the Royal Signals Wing at the School of Signals at a time of considerable reorganisation and whilst there was appointed Brevet Lieutenant Colonel. In 1953 came his second staff appointment - AAG, AG5 Mobilisation at the War Office. This was folowed by a third staff job - Colonel GS at the Military College of Science, Shrivenham. A post which he held until 1955 when he was sent out, again, to GHQ FARELF as Colonel A. His last appointment was as Brigadier, CSO Southern Command, which he held until his retirement in 1962.

After his retirement he and his family went to live in Heswall on the Wirral. **Denis** soon became involved with the Liverpool School of Tropical Medicine, as chief fund raiser. It was a job that was close to his heart as he suffered from malaria from time to time. In 1995 he suffered a series of strokes and thereafter did not enjoy the best of health until his death on 17 August, 2000. He still managed to enjoy a 'wee dram' with friends and family.

He is sorely missed by his much loved family, wife **Angela**, daughter **Sara**, son **Mark**, daughter-in-law **Hilary** and grandson **James**.

He was an honourable man and a true soldier to the end.



Slack - Eric Desmond Slack, aged 62. from Holmwood, Nr. Chesterfield Derby. He enlisted in the Royal Corps of Signals on 27 May 1955. He served in the Suez Campaign - 1956 and left the Corps in 1958. **Eric** was a regular attender at all the Chesterfield Branch activities and was a keen sportsman.

He died on 1 August, 2000. His funeral service was attended by the Chesterfield Branch's Standard Bearer who lead the cortege into church followed by Branch Members and comrades from other ex-service asociations and the Royal British Legion.

Our deepest sympathy goes to his widow Cynthia and all the family for their very sad loss

Britt - Gerald 'Jerry' **Britt** served his National Service in the RMP from 1946-48. He joined the Royal Corps of Signals in 1950 and reached the rank of Sergeant before he left in 1971. He was a Technician by trade and was a part of several installation teams, including RAF Sharjah in 1968. Amongst 'Jerry's' postings were; Iserlohn 1950-55, Malaya 1955-56, Aden 1958-59, plus Catterick and Blandford. He became a Life Member of the Royal Signals Association in 1953. Following his discharge from the Corps, 'Jerry' worked for BT in Norwich. 'Jerry' leaves his widow,**Mary**, to whom the Association offers their sincere condolences.

Lever – Cpl Philip Carr Lever. It is with great sadness that we have to report the untimely death of **Phil Lever**, on Monday 31 July 2000 in a flying accident whilst on a gliding holiday in Spain. **Phil** was born on 28 May 1969, and joined the Royal Signals as an apprentice at Harrogate on 11 August 1986. He left the Corps on 15 September 1995 as a Corporal Radio Technician, in order to attend agricultural college and start a complete career change, finally running the family farm in Iwerne Minster.

During his service he attended and passed 'P Coy', but was unable to subsequently join 216 Sig Sqn owing to a lack of vacancies for his trade. He learnt to sail whilst at Harrogate, and went on to become a mainstay of both Corps and Army sailing, bridging the divide between dinghy and offshore racing. He competed in everything from Laser single-handed dinghies, through Bosuns and Enterprises, to keelboats. These included the J24 'Hitch-Hiker' where he made an enormous input over ten years of sailing, involvement in two Olympic

campaigns, in the Star class with **Stuart Hudson**, and in the Signals sponsored Soling Campaign in 1995. He was also involved in the Army Sigma Campaign prior to his discharge, and had even been know to cruise on a Nic 55 in the Caribbean. To all these disparate disciplines he brought his own brand of humour, which together with his enthusiasm and talent gave any team a key player.
Following his graduation from agricultural college he returned to one of his earlier interests, flying, and went on a three month sabbatical to the USA to gain his PPL. Early in 2000 he bought his own single engined plane, and subsequently passed his instrument rating. In June 2000 he piloted this aircraft from UK to the States in company with a group of other like minded, ambitious pilots, on across to the West Coast, and then returned to UK in early July.
He will be sadly missed by all who knew him, and we extend our deepest sympathy to his parents, **Philip** and **Neel**, and to his girl friend, **Jo Burchill**.

Eager - Walter 'Wally' **Eager** died in June. The funeral was at Eastbourne crematorium. Wally was the personal radio operator for the CRA in 56 Div during the war and was a member of 56 Div (Signals) OCA since 1948.

Humpleby - WO2 Colin Humpleby(Thompson) was a Radio Telegraphist who went on to complete the full 22 years, his last posting being as WO2 (RQMS) of 238 (London) Sig Sqn, Chelsea Barracks, London. From his original surname he was widely known in the Corps as 'The Hump' and was particularly well known for his footballing skills.Sadly **Colin's** life was cut short at the age of only 48 years on Tuesday 22 August, 2000. Many of his friends from the Corps attended his funeral.

Tyler - John 'Jackie' **Tyler** died in July. The funeral was at St Andrew's Church, Ferring. Jackie was one of the original riders in the 56 Div (Signals) motorcycle display team before the war but spent his war service in the RAF. He was a founder member of 56 Div (Signals) OCA. He leaves a widow, **Lesley**.

Overton - Arthur Overton died in July. The funeral was at Beckenham crematorium. **Arthur** served in 56 Div from 1936-1946 (Commissioned in 1940) and was one of the founder members of the 56 Div (Signals) OCA. He was a member of the 56 Div DRs' motorcycle display team from 1937 and appeared at the Royal Tournament in 1987 and 1997. He leaves a widow, **Joan**.

FIRST IMPRESIONS - *by AT Kemp*

To say that coming to the Apprentice College was a culture shock is an understatement. After a long summer's break of doing what I wanted, (those were the days) , the change was immense, no more lie-ins, no more TV and no more freedom. The first few days were a 'gentle' introduction to army life. It still meant getting up at 0600hrs (six hours earlier than I was used to) and making the room and toilets sparkle. The food is definitely not 'what mum used to make', but it does come in large amounts. The fried breakfast plays havoc with your digestive system, and people around you do notice. The first week was quite tedious and uneventful, full of administration and paperwork, most of which I had filled in already many times before. Many of the ATs were already getting annoyed about the things that we were doing in the first week and were thinking about leaving. As the second week came by people changed their minds. The second week passed quickly due to the packed timetable of lessons and PT. Many of the ATs got used to the sleeping times, but one or two fell asleep in some of the lessons, and they were woken up sharply as a result. During the first few weeks the strength of the relationships between the ATs got stronger everyday. Everyone began to work as a team. In the accommodation we all have a chat and a joke, but at the same time doing personal administration. One of the main things that ATs have to learn is not to leave things until tomorrow, because the programs can be changed at extremely short notice. At times we think the permanent staff are being unfair and we don't deserve being shouted at, but they have their reasons. I have begun to understand that it is all done for my benefit. As the weeks continue I look forward to the training becoming more military and technical based. I'm especially looking forward to the end of Week 7, when we all get to go home for a week's leave.

RAWSON TROOP
Tp Comd **Capt Kate Yardley** AGC (ETS)
Tp Sgt **Sgt Colin Gaul**

Another new term with a different arrangement of staff and 51 fresh faced apprentices ready to sacrifice their teenage freedoms and gain a prosperous career in the Royal Signals. It's up to the Rawson Tp Training Team (**Capt Katie Yardley** AGC (ETS), **Sgt Colin Gaul, Cpl Dave Sawyers, Cpl** 'Clubby' **Clubb, Cpl** 'Dog' **Barker** and **LSgt Kev McDowell** Scots Guards) to bring them up to scratch. They arrived with the initial expected nerves and inevitable homesickness but they are slowly settling into college life, room inspections, press-ups and of course the education. **AT Allerton** has proved to be one of the most eloquent of the Troop so we've left it to him to tell the rest of *The WIRE* readers his initial feelings about abandoning chivvy street and the comfort of home to fend for himself.

ARMY TECHNICAL FOUNDATION COLLEGE
BEFORE AND NOW - *by AT Allerton*

As I slowly opened my heavy sleep filled eyes my brain did not register the true occasion of the day. I had been celebrating the night before as a constant headache persisted in reminding me but for what purpose and more importantly when this 'purpose' would rear its head. I slithered slowly out of my sweat filled bed and made a vague attempt to stand up, when like a bullet reality hit me full force right between the eyes. I an undisciplined lazy boozer had only 18hrs of freedom left. As I dragged my pain-filled body down a never ending flight of stairs my thoughts left my control and decided to scare me with images of a ten foot Para who could shatter windows and a stare that could make you cry. After an exceptionally cold shower that could wake a sleeping hippie my brain stepped up a gear and went beyond any form of control on my part. Images of hate-filled selfish roommates invaded my brain and caused me to break into a cold sweat. At this point my mother who is ever attentive to detail spotted my distressed state and moved in with a full bombardment of coffee, toast and kind words. I managed to slow the express train of thoughts to a point where I could redirect them in a positive direction. This new direction bought me to an interesting question in the form of how to spend these very positive hours. I presently hit on the idea of beer and sex but my hung over body felt as if it was incapable of both. After racking the grey matter, that was still dragging me into as early retirement from life, I was relieved to remember my lover of 11/2 years wasn't at work. Therefore if I could persuade my weak legs to peddle the four miles to her house a few hours could be spent in bliss.

After my fourth cup of coffee the caffeine started to take its effect and with a quick step at the toilet to see it again and an even quicker step to put some presentable clothes on I jumped on unsure wheels and set off. As I rode my misty mind started to move quicker and became more lenient with the torture. I began to believe I could make a soldier and a damn good one. As my tyres kissed the dew damped grass of **Laura's** house my heart sank knowing I would only be able to spend a few hours with her and knowing that the goodbye would be terrible. 'Get out of bed now Sam! I'm not telling you again, either you get out of bed or its iced water treatment for you my lad!' Oh to be woken in this way is always exceptionally annoying but admittedly it worked. Once again I went through the rigmarole that is an early morning only this time it was to be the last time for seven weeks.

The journey down was what was to be expected; the roads full of people in imaginary F1 cars or Sunday drivers. We passed landmarks like the worlds biggest circular carport or the M25 as it's more commonly known. Reading, close now, no time left, no way out and no choice. Upon arrival we were welcomed into a huge hall, full of Corporals, Sergeants and Officers, all with a smile on their face that said to me, ' wait until your mummy and daddy have gone - you're going to want to die!' Because of this I was nervous. Two factors slightly took the edge off my weariness, £60 and then realising that the hall was filled with freshened faces, similar to my own, each complete with a wooden walk. We were shown to our accommodation and the parents were told to go. With a hug and a wave my mother walked away for she had done her job and done it well, now it

LATE NEWS.....LATE NEWS.....LATE NEWS

was up to me. 'That's your room there' pointed a well built corporal with a smile. The door edges open and I was met by a few weak smiles and a few pathetic hello's. Everyone was scared to be here but at the same time excited. I felt the same so after carefully picking my bed I went back outside.

In the days that followed we all bonded into a tightly knit group. I found that I wasn't the only one with the dream of aspiring to the lofty heights of Lieutenant or even higher and the whole room was filled, and still is filled with a feeling of lust for success. Now I have been here for a week, I still feel the uneasiness of 'Have I made the right decision?' For one we have the double edged sword in the form of **Cpl Ayres**, the real live 'Rambo' who hates you but will always be there for help and assistance. I admittedly miss home or more to the point normal life but soon the army will be my life and anywhere I go with the army will be home. To end on I will have to be what I can be and reach as high as I can reach because after all my life is in my own grubby little mitts!

Tp Sgt **Sgt** 'Digger' **Gardiner RGBW**

LEADERSHIP CADRE - *by AT Farquhar*

The Leadership Cadre started off on Monday morning with the CO's opening address that I found interesting as he talked about qualities of a leader. The day progressed with various lectures from the Padre and a command task that was enjoyable. On Tuesday we had the stretcher run and command tasks, the stretcher run I found very hard and very tiring and I was glad to get that out of the way. We then changed and went on to command tasks; these were very enjoyable and at times amusing. Wednesday was a day with no physical training as such, we had lectures from the Padre until we departed on Exercise Penney Lane which was a Survival Exercise. This consisted of killing and eating chickens, building a shelter from wood and night navigating. This was an excellent night. We departed to Minley the following morning where we tackled some command tasks. This was the highlight of the week, excellent experience to build on trust and teamwork. On Friday it was the big day with the Intersection competition. We had to run with ammo boxes, carry stretchers and complete common tasks. This I did not enjoy. It was the most physically exhausting thing I have done so far and I'm glad to get it out the way. Overall I have enjoyed leadership week and hope this can be as much fun for ATs to come.

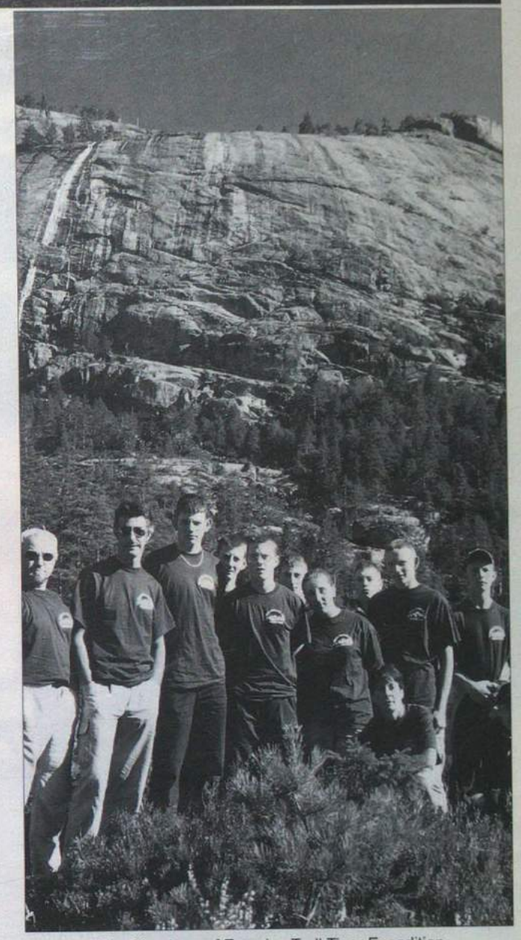
KILLING CHICKENS - *by AT Green*

It was on our Survival Exercise 'Penney Lane' when we were given two chickens and some vegetables, we saw no problems with this, the only drama was the chickens were still alive, a bit different to the 24-hour ration packs we had become used to. I was selected from our section to kill one, in order for our section to eat. I had no major problems with this, as I didn't see the point in joining the Army if I wasn't prepared to kill something, and after all in a real life situation it would become a necessity in order for me to survive. I had a few butterflies and felt nervous but the killing of the chicken was over within a few seconds. I was shocked at how much it continued to flap around even though it was dead, hence the 'headless chicken phrase'. The skinning and the removing of the feathers I had no problems with or the removing of the meat as I had become used to it from my Biology classes at school. The only bad thing was the sickening smell. The chicken made up part of our stew, which we ate once we had finished our night navigation. It tasted quite nice.

EXPEDITION TROLL MOUNTAIN (TIGER), NORWAY 2000
by Sig Cooke

Expedition Troll Mountain (Tiger) was a ten-day rock climbing expedition to Southern Norway where, along with eight other apprentices from the Army Apprentices' College (AAC), we participated in a Rock-Climbing Proficiency course. Having passed out from the AAC on Thursday 17 August the expedition started at 0500hrs on the Friday morning with an early wake-up to get ready to drive off to Newcastle. With **Lt Simon Collyer** driving and **Cpl** 'Seddy' **Byles** navigating, the journey gave the rest of us a chance to get to know each other and it didn't take long before we were all getting on really well. We had to be in Newcastle by 1500hrs and in good army tradition we arrived at 1445hrs, five minutes before five minutes before. Just in time!

The 18 hour ferry to Kristiansand was very entertaining, mainly at the expense of **Sig Gary Beatson** who must have been suffering from seasickness. The rest of us started 'the competition' by entertaining the ladies on the boat. **Cfn Chris Haye** got off to a great start with a slap in the first few hours. We arrived at Kristiansand and only had a 45min drive to the four star campsite in Evje. The campsite was lush, it had a shop, café, a lake to swim in if you didn't mind the cold and a large group of Danish school girls. More targets for the competition. We spent the most of the day making camp and awaiting the arrival of the instructors from the L & IT wing that had already been in country for a week, of course we introduced ourselves to the girls!



The Members of Exercise Troll Tiger Expedition

The first day of climbing was quite wet so it remained basic with some knot tying and confidence building exercises like the 50m abseil. The second day was a little different as we all split down into pairs to climb with. My partner was **Cfn Alan Stapleton** and together we climbed under the instruction of **Mr** 'Crazy Al' **Giles**. We called him 'Crazy Al' because he began every day at 0700hrs with a dip in the lake. You had to be crazy to do that coz it took half an hour to defrost! In the first three days of climbing we completed loads of climbs ranging from 40m to 110m and in differing conditions, but the fourth day was the most memorable. We started at the Silverwall in the Byglandsfjord valley where we completed five very tricky 45m climbs. It was just one big 'slab' and you were lucky if there were more than five hand holds per climb. In the afternoon we went white water rafting which will stay as the most memorable moment of the trip. We finished the climbing with a big finale. A 430m multi-pitch climb to the top of Troll Mountain which really tested your courage and your climbing ability. Our leader was **Mr Hugh Richards** and we all agreed that it was a very hard climb, but it was worth the five-hour effort for the amazing views.

The last day became known as 'mong' day and was spent on the beach in Mandal. We went out for a meal in the evening and all spent the night sleeping on the beach to enable us to make the early ferry. The ferry home gave us time to reflect on what an excellent time we'd had. On behalf of the group I'd like to thank **Lt Simon Collyer** for making the expedition happen, and **Mr Ewan Martin** and his team for giving up their time to make the expedition a memorable one. Thanks.

20 ARMOURED BRIGADE HEADQUARTERS AND SIGNAL SQUADRON (200)

Sqn Comd **Maj I. G. Standen**
RSM **WO1 (RSM) S. Lawes**

WELCOME

20th Armd Bde HQ and Sig Sqn would like to welcome **YofS Roberts** who has joined our team from 1 (UK) Armd Division and Sig Regt.

ALPHA TROOP - *by Sig Weller*
Tp Comd **Lt S. Hughes**
Tp SSgt **SSgt R. D. Burrows**

During a very busy period Alpha Tp were able to fit in a Troop Day out to Heide Park, a theme park in North Germany. We left work at early o clock in order to make the most out the day. The drive was long but fortunately **LCpl Donaghy** and **Sig Hepworth** were in good form and telling jokes all the way. On arrival our first ride was the log flume so we started off soaked! **LCpl Donaghy** was like a big kid and didn't see the sign above and consequently almost knocked himself out. The day was a success, thanks go out to **Sig Kate Jermany** and **Sig Claire Ashdown** who organised the day. After the day out came a well-deserved leave period followed by a very busy exercise period to Poland then Bavaria. The Troop has also got a few new faces. We would like to welcome **LCpl Roscoe** who has joined us from 14 Sig Regt, **LCpl Hall** who has come from 3 Div, **Sig Smith, Sig Ferris** and **Sig Harrison** who have all come from Blandford.

WIVES DAY - *by Lt Sofia Hughes*

Mrs Standen flying through the air whilst on the left Sgt Funshon and on the right LCpl Moss keep a watchful eye

On a warm Saturday in August a few of the wives from 20 Armd Bde and Sig Sqn (200) paraded wearing their husbands' uniform and borrowed boots. Their first activity of the day was a fun shoot on the SAT, before they were allowed to do this **Cpl Thubron** ensured that they zeroed their weapons (after a few moans of how heavy the weapon was they all got into it and shot like demons). After the shooting came a small walk up to the wooded area to learn about survival skills and how to cook in the field. **SSgt Tom Gibbins** and **Sgt Dick Punshon** demonstrated various methods of starting a fire, setting traps and many more survival skills. After this they were issued with a 24-hour ration pack, no cooker and no lighter and were made to put into practice what they had just learnt. After a healthy lunch they went on to the square and were taught how to drive an ASV 436 by **Cpl Dunbar**, a Foden by **LCpl Williams**, a 4 Tonne Vehicle by **LCpl Hall** and a land rover by **Sig Barritt**. After they had all had a go in each vehicle it was time to move on to the assault course. First there was a warm up by **LCpl Moss** some of the wives wanted a rest - not a chance! They completed the warm up and that was almost the end of the day. The final part of the day was a BBQ for the families and all those that assisted in the day. All had a good evening.

BRAVO TROOP
Tp Comd **Lt J. Acton**
Tp SSgt **SSgt T. Gibbins**

Bravo Tp would like to welcome their new Troop Commander, **Lt James Acton** and say goodbye to **Capt Paul Randell**.

EXERCISE PRAIRIE EAGLE - *by Sig Bogart*

I had just arrived in the Unit to be told that I was going to deploy on a seventeen-day exercise, this was to be my first exercise in the Regular Army. It is not like the odd weekend that I have been used to in the TA. I went down to Poland on the train, we loaded the vehicles on and after a small delay we set off. Once we had arrived at the training area it was a case of cam cream on and set up the Headquarters. I instantly got called 'Sick Note' as I had to travel in the back of an armoured vehicle - if you have never experienced this cross-country then you will not understand why! Once we were set up I was on a complex guard duty and refused the Chief of Staff access, as he did not know the password - I was new and didn't know him (Sorry Sir). The funniest things on the exercise included the OC falling into the slops pit and the 2IC having his little motorbike accident (I feel at this stage I should not say anymore). One down and many more to go (Exercises), I had enjoyed being part of a team and I even got the chance to drive a Challenger 2 cross-country.

MINDEN BATTLEFIELD TOUR - *by Lt James Acton*

Battlefield tours usually consist of the heady combination of hangover, fatigue and historical information overload. However, the SNCOs and Officers of 20 Armd Bde HQ and Sig Sqn were spared the aforementioned trials by virtue of the location of the Squadron. Paderborn is a mere half hour minibus ride from the battlefield of Minden, removing the need for long coach and ferry journeys, and their attendant alcoholic evils.

Thus it was a fresh faced and enthusiastic audience who listened to **Maj Iain Standen**, the Officer Commanding, as he described the progress of the battle, moving between the various locations on the battlefield during the day. The duel between the allies (the Prussians and the British) and the dastardly French was vividly brought to life, and the audience were shown the many monuments which still exist today to commemorate the events of 1 August 1759. The destruction and rout of practically all French cavalry by a small number of the British infantry was particularly appreciated. The whole day was rounded off in true historical fashion with a visit to the former 2nd Westfalen Regiment Officers' Mess in Minden, now an excellent (and licensed) restaurant. The officers and seniors would like to thank **Maj Standen** for organising and leading the whole day, including spending what must have been the unit's entire stationery budget on a full colour, bound handout for everyone who attended.

DRIVING COURSE - *by Sig Kean*

On the morning of the 21 August a group of nervous people paraded outside the garages on a cold morning to start their AFV 436 driving course. The instructors were **Cpl Dunbar** and **Cpl Reardon**. The four week long course was broken down into theory and practice. We were soon driving cross-country and we all gained confidence really quickly. As always we can rely on the 436 vehicles to break down - and they did! We were able to put what we had learnt into practice. As our test drew nearer we practiced maneuvering in and out of cones, which represented garages. On the test day we amazed ourselves by passing, we then jumped into our new toys and drove them down to the railhead and loaded them up for Poland.

SUPPORT TROOP
Tp Comd **Maj M. G. P. Bohanon**
Tp SSgt **SSgt H. Capelman**

SUMMER BALL *by LCpl Barnett*

This year's Squadron Summer Ball had a Hawaiian theme and was organised by **SSgt Yates.** The night started off with cocktails and the majority of people came in fancy dress. There were Rasta men (**Cpl Doick**) and Hawaiian tarts (**Cpl Tyrell** and **Cfn Chalmers** who was wearing only a bath towel that kept falling off). The night with a disco, comedians and the blues brothers went well. We cannot wait for the next function.
